Final House Vote Is Due On Escheat Bill

AUSTIN (AP)—A final House vote on Gov. Price Daniel's big reason for the Legislature's special session—his escheat bill—may come today.

The Senate sat back, meanwhile, after Monday's passage of a $15 million farm-to-market road maintenance bill, one of the four items of "emergency legislation" asked by Daniel. A 26-2 Senate vote sent the measure to the House.

No other major Senate bills were ready for floor action.

The House advanced the escheat bill 79-61 Monday, but decided to wait at least overnight before taking a final vote.

Rep. Charles Hughes of Sherman, sponsor of the measure (HB1), said he probably would seek a final vote today but might wait until Wednesday.

"I've got to size up the floor situation," he said. "I'm over the big hump now. It will take a two-thirds vote now to amend the bill further, unless I accept the amendment."

The Senate Banking Committee scheduled a 2 p.m. hearing on the Senate's version of the abandoned property bill.

The Senate-passed farm road bill would restore a $15 million appropriation vetoed by the governor for construction of farm roads in the year beginning Sept. 1. It sets a $23 million minimum for the Highway Department to spend on newly designated farm-to-market roads and would let the department to use up to half of the $35 million road bond assumption fund for farm road maintenance.

The Escheat bill would forbid banks to levy service charges against accounts inactive more than a year.

After an account was dormant seven years, banks would be required to advertise for the lost owner. If an owner was not located, an account under $25 would go to the state treasury, where it would be held five years in a special conservator fund. After five years, the state would own the money, although owners could claim their funds after this time.

Principal amendments adopted Monday would do these things to the governor's bill:

1. Require a bank to advertise in its home county and also in the county of each depositor of an account listed as dormant seven years or more.

2. Make Banks' reports to the treasurer on dormant accounts open to inspection by the public.

3. Require a separate piece of paper for agreements by depositors that their accounts could be subject to service charges, even should the accounts become inactive.

4. Exclude from the definition of dormant accounts deposits whose owners' whereabouts are known to the bank.

5. Put money collected by the state from abandoned accounts in the permanent school fund.

Hijackers Take Pickup

An old - fashioned hijacking took place about 9 a.m. this morning in Scurry County. But instead of six - shooters the thugs used shotguns to force Mr. and Mrs. Joe Parks to surrender their 1962 Chevrolet pickup just off U.S. 180 on the Fluvanna road.

The two men forced the Parks to get out. They then drove off, abandoning the pickup they had been driving. That pickup was reportedly stolen in Vernon.

Sunday night two men, believed to be the same pair, stole a car in Seymour. That car was abandoned when the pickup was stolen in Vernon. The pair also reportedly stole some guns in Vernon.

The Sheriff's department was conducting a search for the hijackers this morning.

Dunlap Takes Killeen Post

Roy Dunlap, Snyder City Manager for more than six years, announced this morning that he is resigning to become City Manager at Killeen.

Dunlap, who received confirmation of his appointment to the Killeen post this morning, is scheduled to begin his duties there on Feb. 1.

"The people and the council of Snyder couldn't be better, but I just felt that I couldn't turn down the offer at Killeen," Dunlap said this morning.

He said the Killeen post offered a tempting challenge, and that it would include a substantial salary increase.

Dunlap became Snyder's second city manager in October of 1955, succeeding Jack Shelley, who is now city manager at San Antonio.

A graduate of Texas Tech, Dunlap first went to Levelland as a field party chief for Joe E. Ward, consulting engineer. In Levelland he was married to Miss Riley Fae Butler. Subsequently, he worked for the City of Lubbock engineering department for 3½ years, quitting a post there as assistant design engineer to become city engineer in Snyder. Dunlap then went to Hamlin for 13 months before returning to Snyder as city manager.

In addition to serving as city manager, Dunlap has been active in a variety of community activities. He has served as president of the Snyder Rotary Club and in 1957 received the Snyder Junior Chamber of Commerce "Outstanding Young Man" award. He is a member of the Masonic Lodge, is currently serving as secretary of the Scurry County Industrial Development Corp. and is city and county Civil Defense director.

Brisk Winds Spread Work For Firemen

The season's biggest norther made for a busy night for Snyder firemen.

The brisk winds spread sparks which caused fires at three area cotton gins. Two trips were made to the Planter's gin on the Roby Highway; one trip was made to the gin at China Grove, and the Snyder fire department joined with firefighters from Colorado City, Sweetwater and Loraine in fighting a major blaze at the Buford gin.

The fires in the Scurry County gins were considered minor but over $20,000 damage was reported at the Buford fire.

At 4 a.m. this morning the Snyder fire department answered a call 7½ miles south of town. A light bulb had been placed in a dog house alongside a residence and had caught the doghouse on fire which in turn had ignited the house. The owner was able to save the house by using a dry chemical fire extinguisher which he had found in the road just a few days ago. The house suffered minor damage but the dog died.

About 9 a.m. this morning a trailer house at 2411 Thirty-second St. was heavily damaged by fire. The occupant, Mrs. Alvin Sparks, had been attempting to thaw frozen water pipes under the house when the flooring became ignited. The fire quickly spread up through the water heater closet. Heavy smoke hampered the firemen in their efforts to locate the fire inside the trailer. A new "Air-Pack" was used by a fireman to go into the smoke-filled interior. The "Air-Pack" is a portable breathing apparatus similar to a skin-diver's tanks and a gas mask. The unit was purchased recently as surplus for $4.48 in Lubbock.

Water Rates To Be Set

Directors of the Colorado River Municipal Water District will convene in Big Spring Saturday morning with water rates the prime item of business.

Under the indenture, the district is required at the first of each year to establish a rate of charges to the member cities of Odessa, Big Spring and Snyder. Other rates, also fixed at the time, are more or less contingent upon the city rates.

E. V. Spence, general manager of CRMWD, said that the water rate committee would meet at 8:30 a.m. in the district's office, and the board meeting will follow at 10 a.m. at the Settles Hotel.

Another item of business schedule is the routine transfer of funds to the various accounts established by the trust indenture.

Train Runs Off Tracks

AURELIA, Iowa (AP)—The six-car Illinois Central Hawkeye Limited, running an hour late, went off the tracks in 14-below zero cold today.

One crew member was killed and at least nine persons were injured.

TEMPERATURES TUMBLE AS NORTHER HITS AREA

Monday night's blustry norther sent temperatures tumbling in the Snyder area and brought snowfall this morning.

The mercury fell from a balmy 56-degrees reading of Monday afternoon to a frigid 17 degrees early today.

Strong winds whipped through the area throughout the night, and gusts continued this morning as fine snow flurries filled the air.

The cold weather is expected to continue without a letup for at least another 24-hour period. Intermittent snowfall was expected to continue here throughout most of the day.

Even colder temperatures are in store for Snyder, along with parts of Northwest and North Central Texas tonight.

Conditions To Grow Worse

By The Associated Press

A killing blizzard of stunning surprise blasted into North Central Texas Tuesday and took at least two lives.

Weathermen forecast still worse conditions.

Five persons died in the collision of an army tank and a truck which was followed by an explosion at Ft. Hood.

It could not be determined if the Ft. Hood death toll could be attributed to the weather, although some freezing rain was falling in the area at the time.

The blizzard brought colossal traffic jams and left stores and offices denuded of workers.

"It looks like Sunday," said one man who managed to reach downtown Dallas and found only a trickle of automobiles able to break through the jam of cars on the outskirts of the business district.

Dallas and Fort Worth appeared the worst hit areas from the standpoint of traffic snarls and snow.

But the Texas Panhandle braced for extremely severe weather by Wednesday morning, when the mercury is expected to drop to 10 to 15 degrees below zero.

The Weather Bureau issued cold warnings for all of Texas. Indications were that snow, sleet or freezing rain would fall throughout the state by morning.

The snow and bitter cold caught weathermen by surprise. When most people went to bed in Dallas Monday night they expected temperatures around 20 and only a light snow.

Fort Worth police called the traffic situation the worst in years.

The busy Fort Worth - Dallas toll road was "just one big traffic jam," as one driver said. Cars were stranded at the curb, on the shoulders and in the center strip.

Snow 4 inches deep was expected over the Panhandle, much of the snow that fell Monday and Tuesday. The snow in that area was very dry.

The State Highway Department appealed for "emergency traffic only" on roads over three-fourths of the state.

The department said icing conditions prevail north of an east-west line from Lufkin in East Texas through Brenham, San Antonio, Del Rio, and the Big Bend National Park.

The manner in which the blizzard struck added to the hardships. First a freezing rain glazed the streets. Then 2 to 4 inches of snow fell on top of that and drifted as much as 3 feet high.

Major traffic jams developed on even slight grades.

Between Hurst and Euless on the outskirts of Fort Worth, an estimated 1,500 cars locked bumper to bumper, unable to move.

On the west edge of Arlington, up to 400 cars were jammed.

Fort Worth schools closed.

The blizzard slashed visibility to 50 feet at Bonham near the Red River and to less than a block at Dallas.

Winds which hit up to 45 m.p.h. in Dallas made street sanding futile. The street department called out every available man and poured sand on slopes. It blew away as fast as it was strewn.

At Bonham, trash men collected before the storm hit, and the

Gizenga Leadership Disclaimed By Party

By PETER GROSE

LEOPOLDVLLE, the Congo (AP)—Antoine Gizenga's political party today disclaimed his leadership as moderate forces converged for a showdown to oust Gizenga from an active role in the Congolese government.

Felicien Kimway, vice president of Gizenga's African Solidarity party, announced that Gizenga is no longer president of the party.

Kimway's announcement followed a resolution by Parliament Monday demanding that Gizenga—a deputy premier backed by the Communist bloc—return from self-imposed exile in Stanleyville to answer parliamentary accusations of secessionism.

The vote indicated clearly that disenchantment is growing among those leftists who once supported Gizenga as the legal head of the Congolese government after Patrice Lumumba's death.

If Gizenga fails to return, observers felt action might be started to oust him from the post of deputy premier he accepted last August in the central government of Premier Cyrille Adoula.

Gizenga has secluded himself in Stanleyville for months. Reports from that northeast Congo city indicate he has lost much of his local and even foreign support.

In a resolution approved Monday by a vote of 66-10 with 7 abstentions, the central Congolese Parliament gave Gizenga 48 hours after notification by Premier Cyrille Adoula's government to reach Leopoldville.

During the heated debate, deputies accused Gizenga of secessionist activities in Stanleyville and refusing government demands to return here and take up his post. The resolution was introduced by a member of Gizenga's own party, which obviously misses his leadership in the capital.

As the self-proclaimed political heir to slain Premier Patrice Lumumba, Gizenga was recognized for months by the Communist bloc and some neutralists as the Congo's legal premier. After Parliament met last summer and confirmed Adoula as premier, Gizenga's, leftist supporters gradually deserted him.

AP correspondent Peter Grose, on a visit to Stanleyville, reported Monday that the Communist influences that once worked on Gizengare largely absent. The last Communist diplomat, a Yugoslav has left.

Antiwhite feeling has evaporated, at least on the surface, and inhabitants of Stanleyville are puzzled by Gizenga's position. Grose reported Gizenga rarely appears in public and the local newspaper, a pro-Lumumba organ, seldom mentions him any more.

Gizenga had hoped to use the secession of President Moise Tshombe's Katanga Province as a lever to overthrow the central government and to declare himself the only leader capable of unifying the Congo under Lumumba's old program. The Adoula government, with the support of the United States and the military aid of the United Nations, stole much of Gizenga's thunder by taking steps toward bringing Katanga back into the fold.

After Tshombe and Adoula conferred last month at Kitona, the Katanga president made a declaration pledging to recognize the central government's authority and abide by U.N. resolutions on the Congo.

The Katanga government and assembly asked the United Nations Monday to appoint an international lawyer to advise it on points of international law. A legal tangle has arisen out of the Kitona agreement: U.N. resolutions call for the expulsion of mercenaries from Katanga, but the Congo's basic law says that each province may choose its own foreign advisers.

Bids Are Opened On City Projects

The Snyder City Council last night opened bids on two projects and authorized February bids on some city supplies.

Bids on two water department projects were referred to the city engineer for a check on specifications.

Three proposals were received for construction of a 500,000-gallon elevated water storage tank. The low bid of $58,695 was submitted by R. D. Cole Manufacturing Co. of Newman, Ga. However, that firm did not include a proposal for the foundation work, and the council will seek bids of its own for that work. If all specifications are met and the proposal still is low with addition of foundation costs, it will be given consideration at a future meeting.

Four proposals were received for furnishing a 1,000 gallons-per-minute high service pumping unit. These also were referred to the city engineer for study of specifications and efficiency. The bids ranged from $2,078 to $2,549, but efficiency ratings varied by more than four per cent.

The council approved specifications for relocation of water and sewer mains in the area where the new U. S. Highway 84 will be constructed. The county will pay for relocation of the existing mains as required by the Texas Highway Department. The council also approved some additional work on the part of the city which will put the services of that area in a better position to take care of future needs.

The council agreed to close a half-block segment of Fifth Street just west of the Clairemont Road at the request of Buford Browning, who appeared before the council in behalf of the East Side Church of Christ. The church owns the property on each side of the segment, which never has been actually opened.

Bids will be opened Feb. 5 on a year's supply of gasoline, oil, alum and chlorine.

The council delayed consideration of plans and specifications for a million-gallon ground storage water tank to be built at the water treatment plant.

WEATHER

SNYDER TEMPERATURES: High Monday, 56 degrees; low, 17 degrees; reading at 7 a.m. today, 17 degrees.

North Central Texas: Cloudy and windy through Wednesday. Snow south and occasional light snow north this afternoon. Occasional light snow south tonight, ending early Wednesday. Additional accumulations of 1 to 3 inches south portion. Much colder tonight. Continued cold Wednesday. Lows tonight 5 northwest to 18 southeast. High Wednesday 18 to 28.

Northeast Texas: Ice storm warning and cold wave warning south portion. Heavy snow warning east portion. Freezing rain and sleet south, changing to snow this afternoon and tonight. Occasional snow north, ending tonight. Snow accumulations of 3 to 5 inches east portion and 1 to 3 inches additional west portion. Windy and much colder tonight. Cloudy and colder Wednesday. Lows tonight 10 north to 20 south. Highs Wednesday 22-30.

Northwest Texas: Much colder south and colder north with considerable cloudiness and occasional light snow, mainly south portion, this afternoon and tonight. Cloudy south and partly cloudy north Wednesday. Not quite as cold north portion Wednesday afternoon. Low tonight 12 below zero north to 10 above south. Highs Wednesday 18 - 28.

Macmillan, Adenauer Confer

By JOHN O. KOEHLER

BONN, Germany (AP)—British Prime Minister Harold Macmillan met with Chancellor Konrad Adenauer today and informants said they would discuss a new U.S.-British proposal for an East-West standstill agreement to take the heat off the Berlin crisis.

Macmillan and the West German chancellor opened the first of several sessions in their daylong talks with only interpreters present. Their foreign ministers and other aides were to join them for lunch and an afternoon meeting.

No agenda was set, but Macmillan and Adenauer were expected to take up the Briton's December meeting with President Kennedy in Bermuda, Britain's negotiations to enter the six-nation European Common Market, and Britain's desire that the Bonn government offset some of the $196-million annual maintenance cost of the 51,000-man British Army of the Rhine.

British officials said Macmillan brought from his Bermuda meeting with Kennedy a tentative U.S.-British alternative should current attempts to achieve a negotiated settlement of the Berlin crisis fail.

Adenauer indicated that present attempts in Moscow by U.S. Ambassador Llewellyn Thompson to set up an East-West negotiation on Berlin are getting nowhere. This bolstered reports the Western Allies are searching for another way out of the crisis.

The reported U.S.-British alternative would have both sides accept—with or without explicit agreement—the present situation in divided Berlin, divided Germany and central Europe for the foreseeable future. Each side would agree not to resort to force and to avoid provocative actions in the two parts of Berlin.

The inducement for such an agreement would be the avoidance of another world war and possible nuclear disaster, otherwise considered a fearfully real possibility.

Informants in London stressed that the U.S.-British alternative would be aimed at preserving things more or less as they are, even if the Soviet Union goes ahead with its announced intention of signing a separate peace treaty with Communist East Germany.

The Russians, on their side, have shown no softening in their demands. Adenauer said a Soviet memorandum handed to West Germany two weeks ago contained old, unacceptable proposals. "There is not a single new word in it," he told a group of British newsmen.

Felix von Eckardt, the government's chief press officer, said the Soviet memorandum's main purpose was to entice West Germany away from its Western allies into separate negotiations with the Soviet Union. He said this would never happen.

Bitter Cold Hits Colorado, Wyoming

By The Associated Press

Bitter cold moved into Colorado and Wyoming today in the wake of one of the winter's heaviest snowfalls.

The storm which blanketed the two mountain states with 12 inches or more of snow, Monday moved eastward into Kansas and Oklahoma.

Up to 6 inches of snow was expected in the Oklahoma Panhandle. Roads in northwest Oklahoma were icing. Snow in the Oklahoma City area was pushed around by winds of 28 to 35 miles an hour.

The storm, second in a week, pushed as far south as Amarillo, Tex. Blizzard conditions struck Monday night in the Texas Panhandle. At Amarillo the temperature dropped to 20 from a daytime high of 40.

More than a half foot of snow fell in western Kansas. Tribune reported 7 inches, Garden City 6 and Dodge City 3.

Some of the coldest air of the season swept across the northeast plains of New Mexico westward to the Continental Divide.

In Wyoming, the mercury fell to 24 below zero at Casper and Laramie and to 15 below at Cheyenne. Temperatures hit subzero recordings in Colorado.

Bus and airline schedules were disrupted in Colorado and Wyoming as snow covered all major highways.

Two deaths were attributed to the storm in Denver, both resulting from heart attacks induced by over-exertion in trying to cope with the city's 13½-inch snowfall.

Snow slides blocked two mountain passes, Loveland west of Denver and Monarch in south central Colorado. Monarch has been cleared. Other major highways were snow-packed, icy and dangerous, even with chains.

Hundreds of schools were shut in Colorado. Many stores in downtown Denver closed early Monday.

Martin Marietta Corp. notified its night shift not to report for work at the huge plant southwest of Denver where the Titan missile is manufactured. Denver Tramway officials said it was impossible to maintain regular bus schedules.

In contrast to the arctic blasts which swept the mountain and plains states, San Francisco with 79 and Oakland, Calif., with 75 chalked up record highs for January Monday. The old San Francisco record was 78 in 1899. The Oakland record for January was 75 in 1948.

Winds forecast for today threatened to intensify fire hazards in the San Francisco Bay area. Four brush and timber fires are burning about 60 miles south of the city.

Elsewhere, 5 inches of new snow was on the ground at Buffalo, N.Y., and Muskegon, Mich., had a new 3-inch fall.

Generally fair weather prevailed in the Far West, with temperatures in the 40s and 50s. In the South, temperatures ranged from around the freezing mark to the 60s.

In the Midwest, dry cold readings were the rule. The mercury slid down to zero in Illinois, Kansas and Missouri, and below zero in Minnesota.

BLIZZARD

Continued From Page 1

trash cans, thus lightened, tumbled through the streets.

Rail line switches froze at Dallas and trains piled up.

At Gainesville, Donald Kittrell of Pauls Valley, Okla., died in a three-truck pileup.

The bitter weather stretched from the Panhandle deep into East Texas in the Longview and Kilgore section. Snow fell at Trinity, only 140 miles from the Gulf Coast. Freezing rain reached to Austin and Waco.

Galveston Island in the Gulf expected sleet during the night.

Dallas workers made driving a community project. Motorists in the packs alighted to help push the forward cars, and then in turn were pushed. Even then little progress was made on the ice undercoating below the snow.

Some drivers got help to shove their cars to the curb, then locked and abandoned their automobiles, walking to work or back home.

A filling station telephone finally stopped operating because it would take no more coins as downtown workers telephoned their offices.

The Ford Motor Co. assembly plant at Dallas surrendered and closed as only a handful of the 1,400 workers reached the installation—not enough to gear up the assembly lines.

A minimum of 12 degrees above zero was forecast for Dallas by early Wednesday.

The Panhandle and South Plains suffered the onslaught first Monday night. Snow continued into the day Tuesday after a couple of inches during the night.

Temperatures dropped to 3 degrees above zero at Dalhart and to 4 above at Amarillo.

Texarkana in far Northeast Texas reported the heaviest snow in many years. A forecast of 4 inches was issued there with a temperature of 12 degrees due.

All Texarkana—Arkansas and Texas—schools closed in the city split by state lines. Shut down also were the Lone Star Ordnance Plant and the Red River Ordnance Depot.

It was the first Texarkana snow in a year.

The Weather Bureau issued these minimum temperature forecasts for the night:

Extreme Southwest 12-25 degrees, North Central 5 to 18, Northeast 10-20, South Central 20-30, Southeast 22-30, Southwest 10-25, and Northwest 12 below zero to 10 above.

Tank-Truck Crash Kills 5 Soldiers

AUSTIN (AP)—A House version of a bill providing $2 million more money for new farm to market road construction in the next fiscal year has been approved by a committee and is headed for debate before the House of Representatives.

The House Agriculture Committee gave approval to a bill (HB2) by Rep. Grainger McIlhany of Wheeler, but only after making several amendments.

One major amendment raises the minimum which can be spent on new farm road construction from $23 to $25 million a year.

The committee also took out a provison that 50 per cent of the maintenance fund could be used for maintenance during the next fiscal year and agreed to a substitute setting up a sliding scale where 30 per cent of the fund would be spent for maintenance next year, and graduating to 50 per cent in the year 1972.

The effect of the sliding scale would be to extend the program over at least a 10-year period. The original bill by McIlhany was similar to one passed Monday by the Senate.

Most of the other amendments were minor.

Rep. Bill Pieratt of Giddings quizzed the subcommittee on whether the House would pass the bill. He expressed fear that the amended version would be fought by the Texas Good Roads Association.

The bill should come to a vote on the House floor Wednesday.

The Senate bill (SB1) by Sen. Neveille Colson was amended to read the same as the original McIlhany bill before it was amended in committee.

The Senate version could still be offered on the floor of the House as a substitute for the committee version.

Colson's bill provided $23 million in construction money with 50 per cent of the maintenance fund used for maintenance.

Executive Is Wounded

WASHINGTON (AP) — Robert J. Portner, an electronics firm executive, was shot and seriously wounded today in the climax to a quarrel with his wife Sylvia Gould Portner, a great granddaughter of financier Jay Gould.

Mrs. Portner, who inherited a part of the Gould millions, was charged with assault with a dangerous weapon—a .38-caliber revolver—and held by police at the Women's Bureau pending a hearing.

Success Forecast For JFK Program

WASHINGTON (AP)—The Democratic leadership of Congress predicted today that the bulk of President Kennedy's heavy legislative program will be passed in the new session which starts Wednesday.

The House majority leader and speaker-to-be, Rep. John W. McCormack, D-Mass., told reporters after a White House breakfast that the President scored a "tremendous record last year."

"I have every confidence that Congress will enact into law the greater part of the President's program," he said.

McCormack was speaking of the domestic side of the administration's want list.

That program includes tax revision, medical care for the aged under Social Security, aid to education and other controversial proposals.

McCormack left in deep doubt, however, the outlook for the proposal for health care under the Social Security system.

When newsmen quizzed him on the point he said: "I have every confidence that if the bill comes out of the Ways and Means Committee it will be approved by the House."

He was asked: "What do you think of the chances of its coming out of the committee?"

McCormack paused a moment, then said in a tone of finality: "Well, thank you, gentlemen."

The session with Kennedy was billed as a preview of the State of the Union message he will deliver to Congress in person Thursday. Cabinet members were summoned to a later session to go over the message.

The leaders of House and Senate, with Vice President Lyndon B. Johnson, gave Kennedy their formal invitation to deliver his State of the Union to a joint session.

Kennedy accepted, of course, and then dates were set for the other two major session-opening presidential messages.

The budget message will be delivered Jan. 18, it was announced, and the annual economic report Jan. 22. Neither of those is to be delivered in person.

The Senate's majority leader, Mike Mansfield, D-Mont., and McCormack told newsmen the bulk of this morning's breakfast talk was about the legislation which must pass through the Ways and Means Committee and its Senate counterpart, the Finance Committee. The chairmen of both, Rep. Wilbur Mills, D-Ark., and Sen. Harry F. Byrd, D-Va., attended the session.

Monday Kennedy made unusual efforts to enlist bipartisan support for his foreign policies.

Panel Okays House Version Of Road Bill

FT. HOOD (AP)—An Army tank and a five-ton truck filled with 23 soldiers crashed headon today killing five soldiers and injuring at least 22 others.

All of the dead and injured were from Company A of the 35th Armored, a unit of the 2nd Armored division, said Col. Edward Kyle, information officer.

The collision occurred on a main street of the fort in Central Texas.

Names of the dead and injured will be released after next of kin have been identified.

Ten of the injured are in serious condition.

"There was a collision and a gasoline explosion," Kyle said. "That is about all we can say now.

"The tank was heading west for a training area and the truck was traveling east. They collided at the entrance to the motor pool of the 67th Armored on North Avenue. We believe the dead and injured were passengers in the truck."

Kyle said the driver of the tank suffered cuts and the guide for the tank was not injured. He said he did not know if the guide for the tank was inside or outside the tank.

"It was very cold at the time of the collision, about 7 a.m. Right now it is sleeting and icy," Kyle said several hours later, "But we do not know if it was sleeting at the time."

It was clear in early morning at Ft. Hood.

Kyle said pictures taken at the site showed "nothing left but the charred remains of the tank and the truck."

From me to you A DAILY VIEW

by Rev. R. Charles Spivey

"...remember that you were at that time separated from Christ... having no hope and without God in the world. But now in Christ Jesus who once were far off have been brought near in the blood of Christ."

Ephesians 2:12,13 (read verses 11-22)

What's the matter with us? Have we no heart for gratitude? Are we so hardened to good that it no longer means anything to us? God, in His great love for us, has been merciful beyond all measure. He desired our fellowship so much that He came in the flesh to us and has called us to respond to Him.

But in our day we seem to have forgotten that He came; Christmas is already forgotten! Just think—if He had not come we would still be bought and sold as chattel; hospitals and schools would be open only for the very rich; most of us would be living in serfdom or slavery to cruel and merciless land owners. The freedom that we enjoy and the free enterprise system of society we believe in have come about because God once visited His people and called us to His loving side.

Have you no gratitude for what God has done for you? If you do have a thankful heart, come and worship Him and tell Him of your gratitude.

Pollution Hearing Is Set Feb. 8

The Texas Railroad Commission has fixed Feb. 8 at 9 a.m. as the time for a hearing on the application of the Colorado River Municipal Water District to get a halt to pit disposal of oilfield brines.

In addition, the district is seeking action for plugging of what it contends are two improperly plugged oil test holes in the area.

The district last week asked a show cause hearing covering the Sharon Ridge and North Coleman Ranch fields in southwest Scurry County and Northwest Mitchell County in an effort to stop the pollution of the upper Colorado River watershed. The district, after nearly two years of study, contends that the salt water in the river is the result mainly of disposing of oilfield brines in open pits.

Until it demonstrates an ability to control the pollution of the watershed, the district cannot proceed with plans for a second lake on the Colorado River.

The hearing is set for the railroad commission offices in Austin.

General guide for adding salt to vegetables—a half teaspoon of the salt to a pound of vegetables.

Wonderful with steak; broiled bacon and mushrooms.

Belgian Airliner Freed By Soviets

MOSCOW (AP) — The Soviet government agreed today to release a Belgian airliner which landed Monday in Armenia while on a flight from Tehran to Brussels, Belgium, with 27 persons aboard.

First Deputy Foreign Minister Vasilyv Kuznetsov told Belgian Ambassador Hyppolite Cools that all passengers and crewmen were safe and staying at a hotel in Grozny, north of Yerevan, where the plane was reported forced down.

Kuznetsov delivered a routine formal protest about the violation of Soviet air space by the Caravelle jetliner.

Kuznetsov referred to 18 passengers and a crew of eight. But Sabena, owner of the airliner, had said there were 19 passengers. Three passengers are Americans.

In Tehran, a U.S. Embassy spokesman said two passengers, Mr. and Mrs. Charles Weimer, first reported to be Germans, are Americans from New York City. Weimer is an engineer with a construction firm in Iran. He and his wife, Maria, were being transferred to Tunis.

The third American is Fred Holden, bound for Athens from the Far East. His home address was not immediately available.

Other passengers were Belgians, Germans, South Africans, Lebanese and Greeks.

Kuznetsov said instructions had been sent to Grozny to release the airliner as soon as technical details can be taken care of. These details will be worked out between Sabena and the Soviet airline Aeroflot.

T. H. Thoye of Sabena will fly to Grozny tonight.

There was no further word on how the plane, en route from Tehran to Istanbul, strayed so far off its course. Nor was there any word on just how it was forced down.

Grozny is a big oil center 275 miles north of the Iranian border and is in the Russian Federated Republic. Earlier reports had said the plane landed in Soviet Armenia.

The plane landed after radioing that it was being pursued by Soviet MIG jet fighters.

AF Tanker Is Overdue

NEW YORK (AP)—An Air Force KB50 tanker aircraft with nine men aboard was reported overdue early today on a flight from Langley Air Force Base, Va., to the Azores Islands off Portugal.

The Coast Guard here said the plane's last reported position was about 240 miles due east of Norfolk, Va.

The spokesman said a "track line" search was being conducted—meaning, he said, a search of an area 40 miles south and 90 miles north of the area in which the plane last was reported.

At Langley, an Air Force spokesman said a radio check was being made with all airports and fields where the plane may have landed if trouble developed on the flight.

The plane left Langley at 11:17 a.m. Monday and was due in the Azores at 6:59 p.m.

Its fuel supply would have been exhausted at 11 p.m. Monday Langley officials said.

The plane is attached to the 427th Air Refueling Squadron at Langley.

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

WOMEN

A BROWNIE GIRL SCOUT with her namesake flower, the Brownie Scout Marigold.

Golden Celebration Set By Girl Scout Marigolds

Starting this months, troops of Girl Scouts will make their way to the nearest supermarket garden racks and garden supply shops in their communities to greet the first harbinger of spring—seed packets of Brownie Scout Marigolds.

The Brownie Scout Marigold was developed specifically to commemorate the fiftieth anniversary of Girl Scouts of the U.S.A. in March, 1962. It is a dwarf, crested, French double type, predominantly green and gold, with a touch of brown.

It was selected from a field of eleven marigold candidates, because it is easy to grow, blossoms quickly, is reasonably uniform and has the desired colors. Almost all American seed companies will carry the Brownie Scout Marigold next spring.

It can be assumed that it will bloow in even more than the 5,000,000 gardens in which marigolds are now grown, due to the special interest of the Girl Scouts.

One of the most popular projects of the Girl Scout's golden anniversary celebration is Blossoms for the Birthday Years. Throughout the U. S. A. Girl Scouts, from the youngest Brownie of seven to the board member of seventy, have been beautifying their communities by plantings of Golden Blossoms.

They have cleared abandoned lots, received permission from school, hospital and park authorities, obtained space in shipping center malls to plant yellow flowers of almost every variety as a thank you for the support the movement has enjoyed throughout its history.

In one Girl Scout council of southwest Iowa, alone, Girl Scouts will do the following: plant and care for Marigold plots and trefoils (the Girl Scout insignia) in public parks, plant flowers at a home for the aged; plant and care for roses, tulips and daffodils in the gardens of several churches and on school grounds, and tend flower bed circles on several streets.

Drivers who whiz along Interstate Highway 29, which goes through Council Bluffs, Iowa, will enjoy the sight of golden blossoms which will fill the center strips of the highway.

Multiply these activities by 950 Girl Scout councils and some idea of the extent of the Golden Blossoms project becomes clear.

City Girl Scouts to whom a garden may not be readily available will also be able to participate in Blossoms for the Birthday Years. Many of them will plant Brownie Scout Marigold seeds in pots and planters which they have decorated. When the flowers bloom, they will bring birthday cheer to shut-ins in hospitals and orpanages.

As a result of the Girl Scouts' blossoms project, the popular song could be revised to 'Everything's coming up Golden!

WOMEN'S CALENDAR

TUESDAY

B & P W Club business meeting at Martha Ann Woman's Club. Laura Holliday, hostess.

Lambda Kappa Chapter of Beta Sigma Phi meets at 7:30 p.m. at home of Mrs. Troy Scott for the pledge ritual ceremony.

WEDNESDAY

Cosmorama Club meets at Martha Ann Woman's Club. Horence Brice and Mary Beth Vestal, hostesses.

Altururian Daughters meet at 2:30 p.m. at Martha Ann Clubhouse. Mrs. Herbert Feather, hostess.

The St. John's Episcopal Church Women will meet at 9:15 a.m. in the home of Mrs. Mark McLaughlin, 2508 Thirty-fifth Street. All women of the church are urged to attend this important meeting.

THURSDAY

Family night at Snyder Country Club.

The Town and Country Garden Club will meet at 2:30 p.m. at the Snyder Country Club.

Twilight Garden Club meets at 7:30 p.m. with Mrs. Ray Taylor, 2909 Thirty-fourth Street.

FRIDAY

Altururian Club meets at Martha Ann Woman's Club. Mrs. Com Ezell hostess.

Snyder Palette Club meets with Charlotte Etgen, hostess.

El Feliz Club meets at Martha Ann Woman's Club, 2:30 p.m. with Mrs. J. M. Newton, hostess.

Inadale Center Makes Plans For Community Night

Community night activities are planned for the Inadale Community Center Wednesday night at 7 p.m.

Those planning to participate are asked to bring cards, dominos and card tables.

Pineapple Wine Jelly

1 package (3 ounces) orange pineapple flavored gelatin
1 cup boiling water
1 cup sauterne wine
1 can (8 to 9 ounces) pineapple tidbits (well drained)

In a mixing bowl stir together the gelatin and boiling water until gelatin is completely dissolved; stir in sauterne. Turn into 4 to 6 individual molds or custard cups; add pineapple tidbits to each Fruit will sink to bottom and be at top when dessert in unmolded. Chill until set; turn out. Makes 4 to 6 servings.

Fashion News Will Please The Men

By JOY MILLER
AP Women's Editor

NEW YORK (AP)—This spring a woman will look like the kind of girl dad might remember, although junior is possibly too young.

She'll have curves in the right places, an over-all softness in mood, a freedom of movement, a waistline as high as her spirits.

At least that's the good word that Adele Simpson, Harry Frechtel and Guy Douvier of Christian Dior-New York put forth in the first afternoon shows of the New York Couture Group's week parade.

With one flounce, the underpinnings may have been knocked from under a prevailing thought of some psychologists: that an unconscious motive in fashion design is to make women helpless, hampered in movement, handicapped in trying to undertake the pursuits of men.

If anybody is going to feel helpless, it will be the men when they first look upon the new womanliness rampant this spring—or just possibly, when they first look upon the price tag.

An indefatigable traveler who gathers inspiration and fabric from around the world, Adele Simpson goes out of her way to facilitate the modern woman's movement.

She has knee-free skirts—as she calls them—to allow ladylike sitting without undue winking of kneecaps. Jackets are rarely cluttered with buttons — "there's enough trouble in the world without complicating clothes," she says.

Her costumes have ease and subtle flare, suit skirts move lightly, redingotes curve softly over pretty silk dresses.

A collection of size 6 fashions, modeled by her pretty brunette daughter, Joan—5-foot-2½, 105 pounds—reduces the new femininity to pocket-size proportions.

Consistent with the tender trend are Harry Frechtel's gently fitted clothes. Jackets hug closer and closer to the body, suit skirts wrap to the side or have front panels.

Frechtel uses handwoven blue silks from India and linen from Ireland in suits, Swiss cotton brocade in two-piece dresses, French fabrics and synthetics woven in Italy in shaped or bulky coats.

In his sharply elegant second collection for Dior, Guy Douvier let the high-bosomed princess, sweeping in unbelted at the waist and out at the hem, rule for both day and evening. Some evening dresses, however, are flounced, ruffled.

Women To Wear Styles For The Men

By JEAN SPRAIN WILSON

NEW YORK (AP) — Men like women.

This is what more than 200 fashion writers concluded Sunday after the New York Couture Group intensely probed the subject, "What do men like?"

The lesson was presented in the form of the international silk show with some shapely, sloe-eyed teachers modeling silky women's apparel with man appeal.

The study was thorough. It began with wild, woolly and sleek linen-looking coats and suits. It continued with costumes for sports, beach, daytime, cocktail, evening and, indeed, through the night. All was spun courtesy of the silkworm.

"Men like ruffles and full skirts," the commentator announced. Girls flounced into the runway in crinkly silk crepes that rustled and rippled.

"Men like sheer dresses with long, tight sleeves," the voice declared authoritatively. Exotic, black-eyed ladies appeared in nude black chiffon that covered up everything, and yet didn't.

"Men like ladies to be provocative." As if they didn't already know this, fashion writers dutifully scribbled the idea, also taking note of a slinky, black silk shantung at-home costume, very bare at the top.

They also made note of a pool-sitter suit by Mr. Gee. The hooded green and white silk print jacket covered the little girl all the way to her brief, flared skirt. When it slipped off, it left her barely covered at all.

"Men love the childish touch." To illustrate this, models too shapely to be children minced forth in dainty silk print dresses with smocked yokes and self belts.

"Men are attracted to long, sleeky black. They can't resist the exotic look, either," said the lady. She pointed out that this effect was best achieved with tightly fitted Oriental or Indian printed silk sheaths.

"Men are enchanted by one-shoulder dresses, happily created from clouds of chiffon with giant flowers on it. They are doubly so with dresses lacking shoulders altogether."

But do men, especially the short ones, like those tall, tall, silk turbans that wrap up to at least a foot and a half high? Nobody asked or answered this question, but these in brilliant hues topped the models' daytime costumes.

But men do like curves. No students in the classroom argued this point. Men will get plenty of these along with all the other things he likes about women's dress for spring.

Always use scraps of leftover pie dough! Roll them out in rectangular or square shape and sprinkle with paprika; fold over and cut in strips Brush with milk or cream and bake in a hot oven.

Currency Pact To Discourage Raids

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Even the Yankee dollar — long the kingpin of world currencies—is subject to raids by international speculators.

Americans found this out to their amazement a little over a year ago when foreigners — and probably some Americans working through overseas banks — rushed to turn in their dollars for gold.

That discovery is what's behind Monday's announcement of a proposed $6-billion kitty to defend the dollar and the currency of nine other nations.

Other currencies — the once dominant English pound sterling, the French franc — had been subject since the war to periodic sinking spells. Americans shrugged this off as the other fellow's problem.

The dollar, they thought, would always be as good as gold everywhere. Maybe it would buy a little less in the market place from year to year, but everyone would as soon have it as gold.

Then Americans found out that many people didn't think the dollar was as strong as it once was, even worried that it might lose enough prestige to force devaluation in relation to gold and other currencies.

The price of gold, legally $35 an ounce, soared for a time in October 1960 on the London free market to a peak of $40.60.

After this shock, Americans moved fast to do something about it. Both the Eisenhower and the the rumors about devaluation. Checks on the outflow of dollars were proposed, and some put into effect.

But one of the steps taken was to join nine other powers in forming a $6-billion pool to defend themselves against unusual drains on their gold and foreign exchange reserves.

The pool would be administered by the International Monetary Fund. The plan is subject to ratification by Congress and the other national legislatures.

The 10 would put up cash only as the funds are needed, but would be pledged as follows in dollars:

United States two billion; Britain and Germany one billion each; France and Italy 550 million each; Japan 250 million; Canada and the Netherlands 200 million each; Belgium 150 million; and Sweden 100 million.

The proposed pool is for use in protecting the dollar or other currencies from any temporary could borrow other countries' currencies from the fund to settle foreign claims without using its gold or own currency reserves.

This would work temporarily. It wouldn't cure any deep seated or persistent weakness in a nation's fiscal or economic condition.

State Gets A Judgment For $423,000

AUSTIN (AP)—The state has recovered more than $423,000 in a suit alleging fraudulent sale of land in Kinney County to the Veterans Land Board.

Judge Herman Jones of the 53rd District Court entered the judgment Monday, giving title in the 10,080-acre Rosenow Ranch in Kinney County to L. V. Ruffin.

Ruffin simultaneously resold the property to Jack Frost of San Antonio and paid the amount due the state under the civil suit judgment.

The court order voiding sale of the property by Ruffin to the state also cancelled sale contracts between the Veterans Land Board and 54 veterans whose names were used in the transaction.

Asst. Atty. Gen. J. Arthur Sandlin said Ruffin acquired title to the land about seven years ago in a deal involving Brady land promoter B. R. Sheffield. Bascom Giles then was state land commissioner and headed the Veterans Land Board.

Ruffin has testified that Sheffield furnished down payments by the veterans on the land. Giles was sentenced to six years in prison in 1956 for his part in the veterans' land dealings and served his term.

Sheffield was convicted by a Lubbock jury and sentenced to 10 years in prison but the Court of Criminal Appeals threw out the verdict. In a second trial at Hillsboro, Sheffield was convicted again of passing a forged instrument and sentenced to six years. His appeal of that conviction is pending.

Crewless Tanker Is Tested By Soviets

NEH YORK (AP)—The Soviet Union is now experimenting with a completely crewless tanker for operation in the Caspian Sea, Maritime Administrator Donald W. Alexander said Monday night.

Alexander, speaking before the Marine Society of New York, said the Soviet tanker Inthener A. Pustoshkin, a shallow-draft vessel, is now being converted for fully automated operation.

"It will make experimental voyages on the open sea without any crew, being shore-controlled over great distances," he added.

Alexander said the Soviet Union also is building the first two of a series of 45,000-ton automated tankers, on which a single crewman can operate turbines and boilers and machinery can be controlled from the bridge.

Veto Is Urged For 12-Months School

ATLANTA, Ga. (AP) — Gov. Ernest Vandiver says a proposal to hold public school classes 12 months a year is very provocative and he hopes legislative committees will give it thorough study.

But, he added at a news conference Monday, "My 13-year-old son has very passionately requested that I veto that piece of legislation."

Taking Vacation

CAGLIARI, Sardinia, (AP) — Actress Ingrid Bergman arrived on this Italian island in the Mediterranean Monday night with her husband, Lars Schmidt, and her daughter, Jenny, for a brief vacation. They flew from Rome.

TOP TV TONIGHT

By BUD EVANS

8:00 NBC "Dick Powell Show". When a ruthless underworld kingpin is injured critically in an accident, two mysterious physicians give him a chance to save his life by choosing a substitute victim. Dick Powell, June Allyson, Edgar Bergen, John Saxon, Ernest Truex, Tuesday Weld and Andy Williams star in "A Time to Die". Powell's eleven-year-old son Ricky and thirteen-year-old daughter Pamela make their television debuts on tonight's show.

OTHER HIGHLIGHTS

6:30 CBS "Marshal Dillon". Men who have betrayed his Indian wife are marked for death by an enraged white hunter. In the meantime, his wife begins a methodical search of Dodge City as she baits an ingenious trap to reap her own kind of vengeance.

6:30 NBC "Laramie". Jess Harper endangers his own life by flying a sixteen-year-old boy from jail, where the youth is scheduled to hang for stealing Jess' horse. Rafel Campos is guest as "The Barefoot Kid".

7:30 CBS "Dobie Gillis" becomes hopelessly entangled in love and politics when his father decides to run for Planning Commission and he falls in love with the daughter of his father's opponent.

7:30 ABC "The New Breed". Officer Pete Garcia poses as a big heroin dealer who has lost his source of supply and works his way into the narcotics racket. Peter Falk, Joan Hackett and Victor Buono are the guests in "Cross the Little Line".

7:30 NBC "Alfred Hitchcock". Two rival actors are up for the same role and, when one disappears after a too realistic rehearsal, a police investigation leads to a startling discovery. Robert Duval, Charles Robinson and Carole Eastman are starred in "Bad Actor".

8:00 CBS "Red Skelton". Edward Everett Horton and Jackie Coogan appear as guests when Skelton, portraying Freddie the Freeloader, faces the horrifying possibilities of having to go to work.

8:30 CBS "Ichabod and Me". Lippy Bourke, a racetrack tout, becomes Bob Major's houseguest and creates a furor in Phippsboro when he gambles with the townsmen and teaches Benjie to play casino.

9:00 NBC "Cain's Hundred". Martin Balsam plays the part of a numbers racket king and Frank McHugh appears as his bookkeeper, who refuses to supply Nick Cain with necessary information. The gangland loyalty comes to an end when a pretty girl is hurt in a bombing that could have been prevented.

9:00 CBS "Garry Moore" features guest stars Steve Lawrence and Edie Gorme and comic Jack Carter.

9:00 ABC "Premiere". Ray Milland is guest star as a police reporter who becomes more than necessarily interested in a series of crimes.

Kennedy Plan Gets Backing

WASHINGTON (AP) — West Germany's Vice Chancellor Ludwig Erhard says he strongly favors President Kennedy's proposals to liberalize trade and make across-the-board reductions in U.S. tariffs.

The European Common Market in turn should reciprocate with lower external tariffs if Kennedy's trade program wins congressional approval, Erhard told newsmen Monday night.

"This is the time now for great and imaginative ideas," the West German said in advocating broad tariff reductions.

"It is always easier to carry out bold ideas," he said. "It is easier to have across the board reductions than to fumble with each tariff position individually."

Erhard ends his two-day Washington visit today. His schedule includes meetings with Secretary of Commerce Luther H. Hodges, World Bank President Eugene Black, Secretary of the Treasury Douglas Dillon, Secretary of State Dean Rusk and Undersecretary of State George W. Ball.

Erhard reported that his 85-minute meeting with Kennedy Monday centered on the future of the Atlantic community.

Mark W. Anderson, President

Frost-Bitten Gator Gets Invitation

FORT LAUDERDALE, Fla. (AP)—A frost-bitten alligator in Arkansas has been invited to recuperate in the Florida sun with promises of chicken every day and other alligators to play with.

Laura Mae Osceola, member of the Dania Seminole Reservation tribal council, invited Big Arkie to the reservation from his cold-bound pen in Little Rock, Ark.

Big Arkie has been taking heat lamp treatments to ward off effects of cold weather.

Mrs. Osceola's invitation to zoo keepers in Little Rock promised chicken every day, plenty of Florida sunshine, other alligators to play with and lots of swimming room.

Raymond A. Squires, director of the Little Rock Zoo, said he hadn't heard from Mrs. Osceola but added that he couldn't let Big Arkie take a Florida vacation.

As to having other alligators to play with, Squires said alligators are not noted for their playfulness. He said Big Arkie is too valuable to be allowed to associate with Little Rock Zoo's 11 other alligators.

Big Arkie, who is 13 feet long and weighs 800 pounds, is suffering from a vitamin deficiency and fungus infection around the mouth that Squires said probably is due to lack of sunlight. The skylight was recently taken out of his indoor pen.

Pipeline Permit Is Denied Firm

WASHINGTON (AP)— Permission for Tennessee Gas Transmission Co. of Houston to build pipeline facilities for taking natural gas from offshore Louisiana wells was denied Monday by a Federal Power Commission examiner.

The examiner, Robert Weston, held producers must carry the risks of gas production instead of consumers. He ruled that the company had not proved its claim that public interest dictated its proposal to buy in-place natural gas reserves for $68,339,372.

Under the transaction, called the MCN purchase, Tennessee would have bought the reserves from Socony Mobil Oil Co., Inc., Continental Oil Co. and Newmont Oil Co.

Weston observed that the Tennessee proposal was among five for in-place purchases of gas, involving a total of more than $1.4 billion, brought to his attention.

The three producers had proposed to sell the gas to Tennessee at the initial price of 21.4 cents a thousand cubic feet. Tennessee then offered to buy, and the producers agreed to sell, the dedicated reserves in place.

Subsequently the producers sought to withdraw their sales proposals, and Tennessee filed for authority to build facilities costing $2,868,700 to take the gas it proposed to buy in-place. The commission had not permitted the withdrawals, but Weston ruled they should be dismissed because the producers did not prosecute their applications.

Weston's finding will become a final commission order unless a review is asked within 30 days.

He listed the other proposed in-place purchases as: By Tennessee, Bastian Bay Field, La., $159,463,500, and Ship Shoal, offshore Louisiana, $97 million, although the latter had not been filed with the commission yet; by Texas Eastern Transmission Corp., Rayne Field, La., $134,395,700; and by Monterrey Gas Transmission Co., King Ranch Field, Tex. $944,731,800.

"From the consumer point of view . . . there seems to be no merit in offering pipeline companies the opportunity to undertake bulk purchases subject to the risk of future adverse changes in reserve estimates or operating costs," Weston said.

"The risk is properly that of the producers, who are compensated therefore by rate of return differential as may be allowed from time to time."

Rep. Clark Due To Get Panel Post

WASHINGTON (AP) — House Democrats were expected to select Rep. Clark Thompson, D-Tex., today for membership on the Ways and Means Committee.

The assignment also is sought by Rep. Walter Rogers, D-Tex. Rogers had announced his candidacy for the position in the belief Thompson would yield his seniority rights. The contest will be decided at a caucus of House Democrats.

With that issue out of the way, the 22-member House delegation from Texas will then organize for the second session of the 87th Congress, opening Wednesday.

Rep. Jack Brooks, Beaumont Democrat, is expected to be elcted delegation chairman at a luncheon meeting Wednesday. He would succeed Rep. John Dowdy, Athens Democrat.

Rep. Henry Gonzalez, a new member from Bexar County, probably will be named to take over the duties of secretary and treasurer—a post usually assumed by the newest member of the delegation. Rep. Bob Casey, Houston Democrat, has held the post the past two years.

Because of the death of Speaker Sam Rayburn, the delegation appeared leaderless as far as guidance on basic issues in concerned.

In the past, most of the delegation, whether associated with the liberal, middle of the road or conservative camps, looked to Rayburn for guidance on such issues even though the Texans sometimes found it impossible, because of political considerations, to go along with his position.

Among the many social events prior to the reconvening of the Congress will be a reception tonight in honor of Vice President and Mrs. Lyndon Johnson. Hosts for the reception will be Dale Miller, Dallas Chamber of Commerce representative here, and Mrs. Miller.

Virtually all members of the delegation as well as those other Texans who hold official positions in Washington are expected to attend.

Mountain Midwife Is Dead At 95

MANCHESTER, Ky. (AP)—"Aunt Sarah" Collett, a mountain midwife who helped deliver more than 3,000 babies in this eastern Kentucky region, died of a heart attack Monday at the age of 95. She was a widow and had worked as a midwife 40 years.

In 1953 she gave the last piece of land she owned as the site for a new schoolhouse at the community of Blue Hole.

The school has been used as a meeting place for church groups. "I wanted it this way," Aunt Sarah said.

Her last wish will be granted, too. Her funeral is to be held at the new school. Her burial place is to be on a mountainside overlooking the building.

RAY BELT

P-W Store Here Names New Manager

The new manager of Piggly Wiggly in Snyder is Ray Belt, a 14-year veteran of service with the Piggly Wiggly chain.

Belt replaces Clyde Godwin as manager. Godwin has been in poor health recently. It is reported Godwin's resignation was not accepted, but he was given a leave of absence in the hope that he will rejoin the Piggly Wiggly organization when his health permits.

Belt and Godwin were boyhood friends in Ropesville, and have continued to be friends over the years.

Belt comes to Snyder from Slaton where he had been with the Piggly Wiggly store for 7 years. His wife, two sons and a daughter will move to Snyder when he finds suitable housing.

Belt remarked that he had liked every place he had ever lived, and expected the same to be true of Snyder.

Syria's Premier Pledges Socialism

DAMASCUS, Syria (AP)—Syria's new premier, Dr. Marouf Dawaliby, pledged Monday an internal economic policy of "constructive socialism" and a foreign policy of nonalignment.

In a policy statement for Parliament; Dawaliby, Syria's first constitutional premier since the country broke away from Egyptian President Gamal Abdel Nasser's United Arab Republic last September, promised to cooperate with other Arab states in efforts toward a common Arab market.

Members Of Congress Find Nation's Capitol Changed

By GEOFFREY GOULD

WASHINGTON (AP) — Members pouring in for the reconvening of Congress Wednesday are finding many changes in the enlarged and newly scrubbed old Capitol.

Most of the changes stem from the extension of the building's east front, a project which has been under way for several years. The entire job should be finished in about six weeks—much of the new area already is in use.

The $24-million project added 32 feet to the east side of the building, and put it in balance architecturally. It was an undertaking close to the heart of the late speaker of the House, Sam Rayburn.

The new east front contains sumptuous suites of offices, ornate reception rooms just off the floors of the Senate and House, and a new entrance hall.

The Senate and House restaurants have been enlarged and rearranged, but the famous bean soup remains the same. The House members' dining room is brightened by a large painting of Lord Cornwallis surrendering at Yorktown.

Getting this 12-foot-square picture in place was a monumental $17,000 task. It was painted on plaster in 1857 by Constantino Brumidi, who also did the frescoes inside the dome.

When the House chamber was remodeled 10 years ago, the painting was covered up with paneling. Now it has been uncovered, carefully removed in one piece with the plaster stiffened by chemicals, and placed in the dining room one flight down. It required considerable retouching.

One of the biggest projects in the huge refurbishing program for the Capitol area, which will cost a total of $125 million, is the new House Office Building. The $80-million structure will be ready for occupancy about 1963 and may be named for Speaker Sam Rayburn.

The cost of the new building includes a subway from the Capitol. Heretofore, only senators have rated the luxury of an underground ride between buildings.

In the east front the joint Atomic Energy Committee already is installed in the finished attic floor. The spacious quarters include a security section, with a guard at the door to keep out unauthorized persons. Luxurious hearing rooms are provided in both the open and the security sections.

The House Appropriations Committee is to move into its new area on the next level down, the gallery floor. Hidden away in the new front are dozens of private offices for senators and congressmen who rate them by reason of seniority.

Japan's Postwar Debt Is Settled

TOKYO (AP)—Japan's postwar debt to the United States was settled today for less than one-quarter of its original cost.

Japan agreed to repay $490 million of the $1,889,000,000 it received from 1945-52 mostly in relief supplies and economic rehabilitation.

Under terms of the repayment, $25 million will be used for educational and cultural exchanges between the two countries. The United States plans to use most of the rest for aid to underdeveloped countries in Asia, which would help strengthen Japan's key markets.

Three million patents have been granted since the Patent Office opened its doors in 1836. The three millionth was for a magnetic check - processing device.

'No Show' Fee Is Granted Airlines

WASHINGTON (AP) — Airlines may begin on March 1 charging passengers up to $50 when they don't show up for their reservations, the Civil Aeronautics Board has decided in a tentative ruling.

But a passenger may also collect a penalty of at least $25 if he shows up with a ticket and finds no seat available.

In a ruling Monday, the CAB said the order would be deferred for 20 days to allow the airlines or other interested parties to file comments or protests.

The action stemmed from a request of 11 major airlines that something be done about the "no-shows."

Skyraider Plane Crashes On Takeoff

MANILA (AP) — A U.S. Navy Skyraider attack plane crashed after takeoff from Subic Point Air Station today. All four crewmen were killed, the Navy said.

The victims, two officers and two enlisted men, were attached to the aircraft carrier Lexington.

Their names were withheld pending notification of kin.

Blue Devil Ninth Slams Colorado City

Travis 9th unleashed a furious first - half scoring barrage here Monday night, then coasted home to an easy 70-53 victory over Colorado City. The win gave the hometown Blue Devils a 5-1 record for the year.

Leslie Brown, popping the strings from all angles, set the pace for Travis with 22 points. Teammates joining him in the double figure bracket were Reed Robinson and Leslie Anderson, who had 14 and 12, respectively.

Blue Devil reserves took over and played through the third period and the latter half of the fourth, as an even dozen Travis shotmakers managed to hit the scoring column.

Travis 8th was thwarted in its quest for victory, succumbing before the visitors from Colorado City, 33-28.

Travis held what looked to be a fairly comfortable 17-10 intermission cushion, but fell victim to a big second half surge on the part of the C-Citians.

High point honors for the game were nabbed by Blue Devil Jackie Rice, who meshed 13 for the evening.

Travis 7th also took it on the chin in the day's opening action, falling by a score of 26-21.

High point laurels for the game went to Travis' David Cadena, who poured 13 through the hoops. Sharing team point - making honors for Colorado City were Steve White and Gary Jones with 8 each.

Travis 7th and 8th will both be idle until Saturday, when they embark for the Lamesa Tournament. **The Blue Devil 9th will meet Post here at 5:30 p.m. Thursday in its next action.**

Loop Merger Being Talked

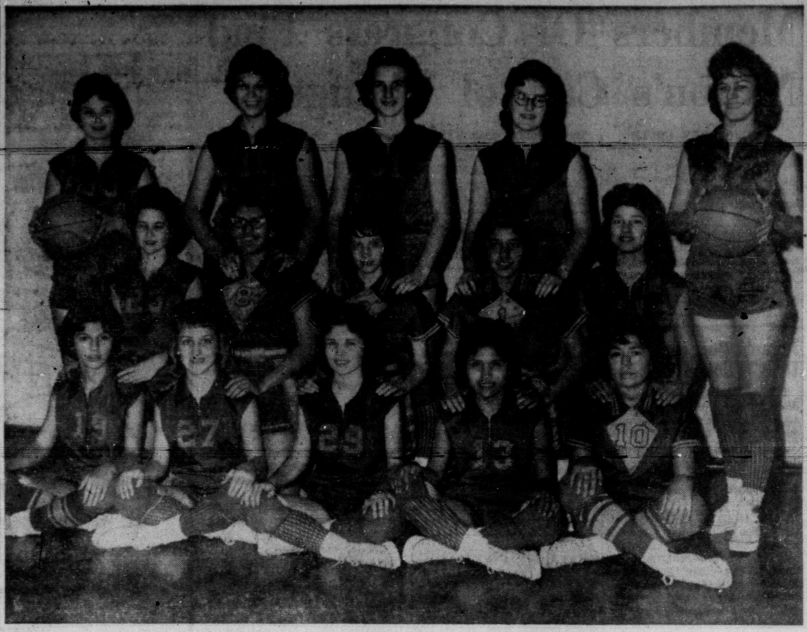
ALBUQUERQUE, N.M. (AP)—Baseball men are reported to be talking about a possible merger of the Texas League and the Southern Association.

The Albuquerque Tribune said Monday that the two leagues may combine unless the Southern Association finds replacements for Birmingham and Mobile, Ala., as members.

Tribune sports editor Carlos Salazar wrote that only four teams are ready to start next season in the Southern Association. They represent Little Rock, Ark., Chattanooga and Nashville, Tenn., and Evansville, Ind.

Cities holding Texas League franchise are Amarillo, Austin, El Paso and San Antonio in Texas, Tulsa, Okla., and Albuquerque.

It was announced that Southern Association president Hal Totten would attend a two-day meeting of Texas League directors starting here Saturday.



HOBBS CAGE FEMS—The Hobbs girls opened their district firing Friday, and will entertain Fluvanna tonight in their second conference outing of the campaign. Seated from left are Karen Bruce, Shirley Sellars, Loretta Cave, Stella Soto and Paula Almanza. Second row: Janice Hodges, Rosemary Martinez, Rebecca Martinez, Berta Martinez and Dora Garcia. Third row: Carol Campbell, Carol Ann Walker, Reva Jo Hull, Judy Cave and Doey Groves. (Photo by Jackson)

Don't Fuss, Says Foss; Just Call Us

SAN DIEGO, Calif. (AP) — American Football League club owners, managers and coaches will be fined up to $1,000 if they complain in public about officiating, Commissioner Joe Foss says.

He said Monday night he won't fine Sid Gillman, San Diego Chargers coach, for griping publicly about officials in the championship game but added:

"If they complain in the press or at booster club meetings in the future, I'll give 'em the ax."

Foss said he told the unhappy AFL representatives to take their gripes to the league office.

Foss said he told them the officials are "the best money can buy.".

Foss said he would quit if owners followed the suggestion of Harry Wismer, New York Titans president, to move the league office from Dallas to New York. He said the office could be run as well elsewhere, but for personal reasons he would not leave Dallas.

Foss said today's sessions could bring up the league office subject and a feud between him and Wismer. Each has said the other should be removed from the league.

All-Star Bowlers Now In Semifinals

MIAMI BEACH, Fla. (AP)—Roy Lown of El Paso, Tex., led 96 survivors from an original field of 288 men into the semifinals of the $100,000 All-Star Bowling Tournament today.

Buckies Maintain First Place Hold

By JOE REICHLER
Associated Press Sports Writer

Ohio State, one of the two major college basketball teams still unbeaten, maintained its unblemished record with the sports writers and broadcasters, too, receiving first-place votes on all ballots cast this week in The Associated Press poll.

Cincinnati and Kentucky held firmly to their second and third places, respectively. All others jockeyed positions although none of last week's top ten fell out of the select group.

The University of Southern California, twice victors over California over the weekend, advanced two notches to fourth place. Kansas State and Villanova each dropped a berth to fifth and sixth, respectively. Kansas State lost to Colorado Saturday 75-61 and Villanova was knocked off the unbeaten list by West Virginia 88-82.

Mississippi State, which remained undefeated by shading Auburn 51-48 for its 10th triumph, jumped two places to seventh. Bowling Green climbed to ninth while Duquesne dropped a notch to eighth and Duke fell two positions to 10.

The Ohio State Buckeyes, led by John Havlicek and Jerry Lucas, swept past Northwestern 85-62 for their 11th straight triumph, and Cincinnati whipped St. Louis and Tulsa to boost its record to 11-1. Kentucky (10-1) knocked off Virginia and Georgia Tech to extend its unbeaten string to nine.

The top ten, based on a 10-9-8-7-6-5-4-3-2-1 vote count with first place votes in parentheses:

	points
1. Ohio State	410
2. Cincinnati	363
3. Kentucky	327
4. Southern California	249
5. Kansas State	205
6. Villanova	183
7. Mississippi State	162
8. Duquesne	150
9. Bowling Green	56
10. Duke	46

Others receiving votes (not necessarily in order of points): Utah, Bradley, Oregon State, Illinois, West Virginia, Wichita, St. John's, Santa Clara, Detroit, Temple, Butler, Purdue, Wisconsin, Drake, North Carolina State, Arkansas.

Between You And Me

BY JERRY JACKSON

Tornadoes are maverick whirlwinds that churn about in destructive circles. However, sooner or later they inevitably blow themselves out.

Which brings us to the question plaguing us today... Have Lamesa's Tornadoes played themselves out?

Coach O. W. Follis' crew has proven that it can be collapsible, witnessed by the fact that it has lost its last two games to a pair of teams that haven't been setting the world on fire. The first, at the hands of Andrews, was a 60-35 thrashing, and the most recent back-handed slap was dealt the Tors by Levelland, 49-42.

Both defeats came as surprises, but went a long way towards proving that the Lamesans—just like every other team—are human and can be beaten.

They'll have a chance to get even for the Levelland loss tonight when they play host to the Loboes in a non-district tail-ender.

Friday, of course, will see Snyder in Lamesa for the 3-AAA opener. The Tigers have already met the Tors once—in the consolation finals of Lubbock's Caprock Tournament. Snyder lost, 66-56, but refused to roll over and play dead before their vaunted rivals.

Coach J. P. Ward's Tigers are idle tonight. They finished their non-district warfare on an encouraging note, however, by walloping Stamford 79-41 and sidetracking a strong Graham quintet 58-54.

The Tornado cloak of invincibility has been shattered. It looks like a safe bet that they won't go through their eight-game district slate undefeated again, as has been the case over the past two campaigns. In fact, Sweetwater and Snyder could either conceivably play "spoiler" and knock the Tors from off their previously patented perch.

Lamesa will be hard enough to handle at home, even with the vocal support of a large number of Snyder fans.

Why don't you—John Q. Cagefan—begin right now making plans to travel to Lamesa Friday for that very important opener?

* * *

Imagine you've noticed that Harley Bynum, a promising Snyder High sophomore athlete, is hobbling around on crutches nowadays. The injury—a broken ankle—was sustained in a fall from a cotton trailer during the Christmas holidays, and cut short his B team basketballing for this season. The medicos have given him the green light for baseball this spring, but nixed his track aspirations (he's an ace hurdler) due to the type strain involved.

Reddell Awarded Pact

AMARILLO (AP)— John Reddell, the only head football coach at Palo Duro High School here since it opened seven years ago, has a new three-year contract.

City school trustees also voted Monday night to raise his pay from $9,538 to $9,700 a year. Reddell's Palo Duro eleven posted a 9-1 record and tied with Borger for the Dist. 3-AAAA championship last fall.

SPORTS

Trumpeter Swans Sighted

A flock of Trumpeter Swans, North America's largest species of flying bird, was discovered recently on the water of a stock tank about eight miles west of Snyder on the Winston Brothers Ranch.

J. M. Kayser sighted them and recognized them to be Trumpeters, in that he had come across the species while in Alaska several years ago.

Trumpeter Swans are very rare in this locale, as they seldom come further west than the Mississippi River. They are sometimes confused with the smaller Whistler Swan, but are easily recognizable by the shortage of a small yellow spot located on the upper mandible, or bill, and by the black feathers under the larger feathers on the tail.

Very little is known about their nesting and migrating habits, but it can be safely said that there are very few of them still in existence.

Gibbs Honored As Most Valuable Frog

FORT WORTH (AP) — Texas Christian University honored ace passer Sonny Gibbs as the Horned Frogs' most valuable player at the annual TCU football dinner Monday night.

Gibbs, the quarterback whose scoring pass enabled TCU to hand Texas its lone defeat of the 1961 campaign, was among 37 lettermen named. Fans were cheered by news that 27 of them will be back next season.

IN RICH LA OPEN

Rookie Picks Initial Plum

By BOB MYERS
Associated Press Sports Writer

LOS ANGELES (AP)—A rookie with only six months experience on the tournament trail has won the first major prize of his professional career, the $45,000 Los Angeles Open.

Phil Rodgers of La Jolla, Calif., routed the older, more established pros Monday with a tournament record nine-under-par 62 and 72-hole total of 268. A pro barely a year, Rodgers left his nearest challengers behind by nine strokes.

It was the widest margin of victory since Mike Souchak piled up the same score over Billy Casper and Doug Ford in the Motor City Open at Northville, Mich., in August 1959.

Rodgers' round cracked the 36-year-old tournament record of 63 shared by Tommy Bolt (1956) and Ken Venturi (1959) and erased the 72-hole score of 272 set by Lloyd Mangrum in 1956.

Rodgers' previous fame was limited. He won the national collegiate championship as a sophomore in 1958 at the University of Houston. He was low amateur in the Los Angeles Open in 1960.

Last year he won the Mexican Open in Mexico City, and in October he won the Sahara Pro-Amateur at Las Vegas.

Rodgers' first three rounds here were 67-71-68. Most observers thought he would yield to pressure on the final round and the winning effort would come from Fred Hawkins of El Paso, Tex; Bob Goalby, the 1961 L.A. Open winner; Lionel Hebert or possibly even a late challenging Mike Souchak.

Rodgers squelched that when he moved into a 3-stroke lead in the first nine holes and never let up with his birdie-barrage. Rancho Golf Club's par is 36-35-71. Rodgers did it in 32-30-62.

For the record, Hawkins and Goalby were the runnersup at 277. It was worth $3,325 apiece.

The more famous players closed strong but were never serious contenders. They included:

U.S. Open Champion Gene Littler, 281, $1,060; Arnold Palmer, 283, $825; National PGA Champion Jerry Barber, 285, $446.67; Gary Player, 287, $155; 1961 National Amateur Champion Jack Nicklaus, newly turned pro, 289, $33.33.

Texans Clout Sweetwater In 2 Of 3 Tilts

SWEETWATER — Snyder's Lamar Texans stormed to two victories in three attempts here Monday, with the Texan 9th marking up a 57-40 triumph in the "big one" of the evening to up their season's record to 7-0.

Drew Bullard paced Lamar's well - balanced attack with 16 points, followed by Phillip Floyd and Kenneth Dower, who canned 13 apiece.

Lamar 8th failed to hold on to an 18-16 halftime lead in its quest for a win, getting itself sidetracked by the Sweetwater 8th graders, 36-26.

Eddie Greenfield, Bill Blum and Marvin Mayfield each contributed 6 points to the losing effort.

In the 7th grade contest the Texans — trailing by one point at the half — hit their stride in the final two periods to cart home a 28-18 victory.

Lamar's Murray Bowden led all scorers in that one with 11 tallies.

Ned Underwood, Texan 9th mentor, has announced a schedule change for later in the week which will see Lamar 8th and 9th entertaining Stamford Friday beginning at 5:30 p.m. The games had originally been set for that time on Thursday.

The Texan 7th will enjoy a weekend off before traveling to Lamesa Monday.

Lamar 9th — Bullard 4-8-16, Kincaid 1-0-2, Floyd 5-3-13, Vestal 3-2-8, Dower 6-1-13, Fenton 2-1-5. Totals 21-15-57.

Sweetwater 9th — Pace 3-1-7, Beall 2-5-9, Heatly 4-1-9, Lewis 5-1-11, Wilson 2-0-4. Totals 16-8-40.

Lamar 9th	16	32	40	57
Sweetwater 9th	8	22	34	40

* * *

Lamar 8th — Bentley 2-0-4, Greenfield 3-0-6, Wiman 1-0-2, Taylor 0-2-2, Blum 2-2-6, Mayfield 3-0-6. Totals 11-4-26.

Sweetwater 8th — Foust 7-4-18, Coussey 3-0-6, McCoy 2-2-6, Taylor 2-1-5, Bradbury 0-1-1. Totals 14-8-36.

Lamar 8th	6	18	22	26
Sweetwater 8th	3	16	28	36

* * *

Lamar 7th — Bowden 5-1-11, Sinclair 1-1-3, Hall 0-1-1, Golden 1-3-5, Hill 2-2-6, Franks 1-0-2. Totals 10-8-28.

Sweetwater 7th — Brown 2-0-4, Green 0-1-1, Perkinson 0-2-2, Hall 2-5-9, Powell 1-0-2. Totals 5-8-18.

ONLY RAMBLER HAS IT

WORLD'S BEST RUSTPROOFING

ONLY RAMBLER GETS DEEP-DIP RUSTPROOFING right up to the roof, plus 13 other steps to fight rust and road-salt corrosion—such as: Body panels beneath doors are zinc-plated • Ceramic-Armored muffler and tailpipe • Aluminum window frames • Exterior trim of stainless steel • Even the radiator won't rust—it's filled at the factory with 2-year engine coolant (low cost)! Good reasons why Rambler resale value is tops and stays tops over the years.

RAMBLER — World Standard of Compact Car Excellence

DUPREE MOTORS — 1607 25th. St.

TO ALL THE PEOPLE WHO FAVOR THE LEGAL SALE OF ALCOHOLIC BEVERAGES IN SCURRY COUNTY:

PLEASE PAY YOUR POLL TAX

Since the last election in 1959, twenty one businesses in Snyder have closed. 1,032 people have left Snyder. Approximately 18,000 gallons of alcoholic beverages have been consumed here, at a cost of approximately $300,000.00.

To the East of us, near Stamford, one precinct of the County, the home of the noted dry speaker, has voted WET, since our last election.

To the North of us, Lubbock County, has voted a wet precinct, since our last election, and Post has been WET.

To the South of us, Big Spring, has been WET all the time, and to the West 120 miles, New Mexico is WET.

A recent traffic survey in Snyder showed 3,990 cars traveling South on U.S. Highway No. 84; 3,881 cars traveling East on U.S. Highway No. 180, and 3,110 cars traveling West on U.S. 180. 2,480 cars were traveling North on U.S. 84.

By this count, 13,461 cars pass through Snyder every twenty four hours on a yearly average. With an average of 2½ people per car this amounts to approximately 33,000 people.

Most of these people are from WET areas and are accustomed to the convenience of taverns and lounges where alcoholic beverages are served. Either we must explain to these people how our "bootlegging" system works, or furnish with these conveniences in order to get them to stop here.

If 2,000 of these cars could be stopped over-night in Snyder, and they averaged spending $10.00 each, it would mean a $600,000.00 payroll, every 30 days to the town.

World's Leaders Strangely Silent

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The world's leaders are acting like automobile manufacturers who have their plants working overtime but aren't saying much until the new models come out.

At this moment the world, compared with some of the feverish moments of 1961, is in a period of tranquility which, of course, won't last.

The crisis over Berlin has died down, Southeast Asia is very troubled but not explosive, the Russians and Chinese aren't happy with each other but are keeping quiet about it, Fidel Castro is hardly doing more than mumbling, Moslems and Europeans in Algeria are still shooting and bombing one another but that's par for the course there, even in the Congo some of the noise has died down, and in this country and this election year Democrats and Republicans haven't begun calling each other names yet.

President Kennedy is almost fully occupied getting ready for the return of Congress Wednesday; French President Charles de Gaulle, never very noisy, is contemplating the problem of Algeria; West German Chancellor Konrad Adenauer, figuring that silence is the better part of wisdom, at least temporarily, is waiting to see what Kennedy and Premier Khrushchev work out on Berlin; British Prime Minister Harold Macmillan, who had made a habit of being inconspicuous, is indulging his habit; Mao Tze-tung, the real boss of Red China, is as usual letting others do his talking for him and they're not saying much; and Khrushchev himself, most of the time a kind of international Fourth of July, including the rockets, is as quiet as a Sunday morning.

Khrushchev, in fact, at this moment is the No. 1 global mystery: Why has this man, who kept 1961 jittery with talk and tension about Berlin and creating a new status for the East German Communists, been so quiet now for months?

He has been increasingly quiet on Berlin, in fact, since last autumn when the Communists built a wall to seal off East Berlin. This move forced the West tacitly to admit East and West Berlin and East and West Germany couldn't be unified. It also shut off the flow of valuable East German non-Communist manpower and brains to the West.

It's almost as if, after the wall went up, Khrushchev had said to East German Communist boss Ulbricht: "You got enough to keep you quiet awhile so will you please shut up."

Listing this catalogue of quietudes is like writing a memo, shoved into a bottle and tossed into the sea for future generations to find and wonder at, on how for some strange and unknown reason the world for a brief time in the early part of 1962 had an almost civilized appearance.

But this seems unreal and unnatural and in a few days, perhaps in a few weeks, the world should return to normal.

Publicity Discussed By Ministers Here

Church publicity was the topic of discussion at Monday's meeting of Snyder and Scurry County Ministerial Alliance.

Speaker at the session was Wacil McNair, editor of the Snyder Daily News. He cited the increase of interest in church news at the national and international as well as local levels.

The Rev. Harry Vanderpool, chairman of the community services committee, reported that a city-wide religious census is now being taken simultaneously with the school census.

Lester Mundy, Boy Scout Executive, discussed plans for Boy Scout Sunday observance, and presented information on materials available for church bulletins in connection with the Boy Scout event.

The Rev. Custis Fletcher, vice president of the alliance, presided at the session.

One Man Dead In 3-Truck Crash

GAINESVILLE (AP) — Three trucks smashed together on U.S. 77 at the Gainesville city limits today, killing one man.

Officers said a semi-trailer apparently jackknifed across the highway in a heavy snowstorm and subsequently was hit by a hay truck and a gasoline truck.

The victim tentatively was identified from papers in his pocket as Donald Kittrell of Pauls Valley, Okla.

TODAY'S MARKETS

FORT WORTH (AP) — Cattle 1,800; calves 100; utility and commercial cows 15.00-17.00; good slaughter calves 23.50-24.50, standard 21.00-23.50; good feeder steers 23.50; good and choice feeder steer calves 22.50-26.00; medium and good heifer calves 20.00-23.50.

Relatives Of Victims Aid Identification

UTRECHT, Netherlands (AP)—Relatives of victims in Holland's worst train wreck were arriving today to help in the grim task of identifying bodies lying in long rows in a church.

The official death toll stood at 87.

Women volunteers met the relatives and took them first to a hotel where all information on the dead and injured still in hospitals was assembled.

Most of the identified dead were men. Women victims were difficult to identify because their handbags, containing personal documents, were lost in the crash.

Officials said all the identified casualties were Dutch except two Britons who were injured only slightly.

The track was cleared today where the speeding express crashed into a slower commuter train at a fogged-in junction near Woerden.

The express was scheduled to pass through the junction three minutes before the commuter train. Instead it telescoped into the side of the slower train. Officials speculated that one of the engineers failed to see a signal because of the fog.

Molotov's Arrival Delayed

By HANS BENEDICT

VIENNA, Austria (AP)—V. M. Molotov was not to be found in Vienna today, although the Soviet Foreign office in Moscow had indicated he should have arrived. There was the possibility, however, that he was stopping en route in Warsaw or Prague.

A spokesman for the Soviet delegation to the International Atomic Energy Agency professed surprise at the Moscow announcement that Molotov was resuming his post as permanent Soviet representative to the atoms for peace agency. He said Molotov "definitely has not yet arrived."

In making the surprise announcement Monday, a Soviet Foreign Office spokesman in Moscow said Molotov left Moscow for Vienna by train "probably on Saturday." Departing Saturday, he would have arrived Monday.

Austrian police officials normally in charge of security for high Soviet resident officials had no word on Molotov's return. Austrian border police had no report of his crossing the frontier.

A score of newsmen and photographers were at the Austria-Czechoslovak border town of Hohenau today to meet the train that left Moscow Sunday. Passengers said Molotov had not traveled with them.

Molotov's journey to Vienna took on the air of secrecy that shrouded his departure Nov. 12 after Soviet Premier Khrushchev bitterly denounced the old Bolshevik as a Stalinist at the Soviet Communist party's 22nd congress in October.

Believed destined for oblivion then, Molotov apparently slipped out of the Soviet Embassy in Vienna by a side exit during a mysterious power failure in the embassy area and sped to the train station.

IAEA officials were as amazed as diplomats in Moscow by the Soviet annoncement of Molotov's return.

Poll Tax Demand Increasing Here

Geral Greene, Scurry County Tax Assessor-Collector reports increasing activity in the sale of poll taxes.

To date 592 exemptions and 1131 poll taxes have been issued.

Poll taxes will remain on sale at Greene's office until Jan. 31.

Argentina Opposes Collective Sanctions

WASHINGTON (AP)—Argentina apparently opposes any collective sanctions against Cuba, Latin-American diplomats say.

They said that seemed to be the essence of a series of proposals forwarded to President Kennedy by Argentina's President Arturo Frondizi.

The diplomats based their estimate of the Argentine proposals, which have not been made public, on news dispatches and on attitudes expressed by Argentine diplomats.

'Materialistic' Americans Give Heavily To Charities

BY INEZ ROBB

Americans, reportedly the most materialistic people on earth, shovel it out faster than they rake it in—money, that is.

Credit is to goodness of heart or the conviction that we can't take it with us, nonetheless in the decade embraced by 1950-60, Americans increased their philanthropic giving by 100 per cent while their personal income climbed by 78 per cent and the national product upped itself by 77 per cent.

In the fiscal year 1960, the American Association of Fund-Raising Counsel reports that Americans gave $8.2 billions to an astounding variety of philanthropic causes or charity groups. Although this group refuses to predict, others in this field believe that such gifts by the American public in 1961 will total at least $9 billion and may even inch up toward the $10 billion mark in 1962!

These figures ought to put the quietus on continued lamentations from certain quarters that Americans, in the past 30 years, have shrugged off their personal or private obligations to help the poor, the unfortunate and the ill. Far from "letting George do it," with George in the guise of Federal, state and local governmental aid, Americans still believe that the individual citizen is not absolved of his traditional role as his brother's keeper.

Nor do the figures bear out another contention to the effect that Americans are indifferent to church obligations. Of the $8.2 billions given away by the nation in 1960, the latest year for which complete figures are available, 51 cents of the charity dollar went to churches.

More than $4 billion poured in upon the religious community for their own maintenance, for church building, for foreign missions, community activities and for church-related colleges.

If support of his churches continues to be the American's prime philanthropic concern, his secondary preoccupation, not surprisingly, is with education. Sixteen cents of his charity dollar went for the support of education, primarily higher education. (Despite gifts to private colleges, where tuition now averages about $1,900 annually, tuition is expected to creep to $2,200 by 1964)!

Fifteen cents of the American charity dollar went for general welfare purposes, such as social service, family counseling, youth programs, recreation and character-building.

Health agencies received 12 cents. The money went to a rapidly increasing group of agencies that has fragmented the human body into so many parts for charity purposes that it seems doubtful it will ever be reassembled!

When Americans give so much for health, it is pertinent to wonder why the human body cannot be put back together again and studied as a whole, rather than piecemeal.

But the proliferation of the liver-and-lights division of philanthropic giving can't hold a candle to the helium-like expansion of American trusts and foundations. In 1960 alone, 2,000 additional trusts and foundations were added to the nation's bulging array, making a total of 13,000 such endowments now working in this nation to improve some sector of its people and their life and times.

Four cents of the charity dollar went to such endowments in 1960. The remaining two cents took refuge in "miscellaneous" good works. The sums given by my countrymen to charity may be staggering, but I find one statistic even more so. In 1960, more than 47,000,000 Americans were involved in some form of volunteer welfare service! Contrary to the cynics, we give time as well as money, convinced that "The gift without the giver is bare, Who gives himself with his alms feeds three—Himself, his hungering neighbor and me."

(Copyright, 1962, by United Feature Syndicate, Inc.)

Official Deletes His Salary Raise

MANILA, Philippines, (AP)—President Diosdado Macapagal's executive secretary has knocked out a budget provision to raise his salary.

The proposed government budjet would have raised the annual salary of executive secretary Amelito Mutuc from $6,000 to $8,000. He also cancelled raises for two of his assistants.

Junior Editors Quiz on MARSUPIALS

QUESTION: Are the kangaroo and the opossum the only animals that carry their young in a pouch?

• • •

ANSWER: Kangaroos and opossums belong to an order of animals called marsupials. All members of this order carry their young in a pouch, which is also called a marsupium.

The purpose of the pouch is to give protection to the young, which are very small and poorly developed at birth, until they are able to take care of themselves.

Marsupials are found only in America and Australia. In fact, the opossum, which lives mostly in the southern United States, is the only marsupial that lives in America.

Other Australian marsupials include wombats, bandicoots, koala bears, Tasmanian devils and Tasmanian wolves. All of them carry their young in pouches.

• • •

FOR YOU TO DO: A famed book called "Br'er Possum" was written by Joel Chandler Harris, who recalled the little animals from his boyhood in the South. Read the book and learn about opossums.

• • •

(D. Vasilikos of Rahway, N. J., wins $10 for this question. Send your question on a postcard to Junior Editors in care of this newspaper.)

Here's How To Needle A Dieter

By HAL BOYLE

NEW YORK (AP) — Remarks that give weight watchers a slow burn:

"Well, Elmer, you've already lost one chin—now you've just got three more to go."

"I hear he has to weigh himself on two bathroom scales — one under each foot."

"Remember, Elmer it's those little indulgences that add up. After all, an elephant eats only one peanut at a time—but look at the result."

"We ought to do something special for his birthday. How about lighting a candle on a piece of melba toast?"

"Excuse me, sir, do you want three or four lumps of sugar in your coffee?"

"You're doing fine, Mr. Wallow. You've taken off another quarter of a pound this week. Slow and easy—that's what does it. At this rate in another three years you'll be down to within 15 pounds of your normal weight."

"Would you mind taking this plate back to the kitchen, waiter? The gravy's too cold. And by the way, tell the chef to put a little more on. I like oodles of it."

"Why don't you go to my doctor, Elmer? He lets you eat all the fat you want."

"This one's for Elmer. Don't use a shot glass. Pour it from a thimble. He's on a diet."

"Why don't you go to my doctor, Elmer? He lets you have four pieces of bread a day—and mashed potatoes twice a week, plus ice cream on Sundays."

"I don't know who the fat guy is, Joe. But every morning on the way to work he stops and puts his nose against the window and watches me toss pancakes. Wonder why he doesn't come in and have some?"

"Gee, I sure do envy you, Elmer. I eat, and eat and eat—and I can't put on an ounce to save my life."

"I'm sorry, Mr. Wallow. I've got this tape measure as tight as I can get it, and you still have a size 46 waist."

"He hasn't spoken to me since Christmas—and all I did was ask him if he wouldn't play Santa Claus at our club's annual party for kids."

"Please quit pulling in your stomach so hard, dear. You're so red in the face I'm afraid you'll keel over."

Shots Are Fired By Messenger In Truck

NEW YORK (AP)—Bang, bang, bang, bang, bang and bang!

Six shots rang out and the Wells Fargo truck carrying $45,000 through lower Manhattan screeched to a stop.

Holdup? Nope.

Police said the shots were fired Monday night by Victor Maher, 54, a messenger riding inside the truck. He was intoxicated, police said.

The Brooklyn man and a guard riding with him received superficial wounds from shattered glass, police said. Maher was charged with felonious assault.

Crosby Is Reported Steadily Improving

SANTA MONICA, Calif. (AP) Crooner Bing Crosby is reported steadily improving following his operation for removal of kidney stones.

His physician, Dr. Frederick Schlumberger, said Crosby probably will be released from St. John's hospital within a week.

Don't Blame French For 'The Egg'

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP)—Let's be calm. Broadway's new play, "The Egg," may not really be a French mistake.

True, the program at the Cort Theater, where it opened Monday night, calls the exhibit a translation from Felicien Marceau's Paris hit.

The kindest possible comment on the things done by adaptor Robert Schlitt, director Lamont Johnson and the busy, busy cast is that "The Egg" gets pretty interesting only during the last half hour of its blessedly brief running time.

Dick Shawn, a night club comic in his Broadway debut, carries the chief role like a valiant college fullback.

A beefy man of cherubic visage, Shawn sidesteps, wheels and grimaces with enthusiasm as a Gallic youth trying to crack "the System." This, he explains, is the hard shell of earthy existence. To do it, you've got to be sly, amoral and unsentimental.

Having established this viewpoint in the first act, Shawn and his cohorts demonstrate the thesis with a love slaying in the second half.

A lively courtroom finale scarcely atones for the wilted whimsey and sophomoric satire that has gone before. Schlitt seems utterly unable to resist a shoddy joke or vulgar touch.

It is hardly surprising that the performance rarely attains any appreciable measure of unified style. Frederick Rolf and Michael Constantine are among the few who refuse to succumb to the prevailing torpor. Another cast member is Marcia Levant, daughter of pianist-talker Oscar Levant, who tackles three bit parts in her first Broadway assignment.

"The Egg" is an entertainment humpty-dumpty that all the king's men couldn't put together. But let's not blame the French.

Price Props Remain Same

WASHINGTON (AP)—Secretary of Agriculture Orville Freeman said Monday that price supports will be the same this year as in 1961 on some cottons, honey, dry beans, and peanuts.

The support rates include:

Upland cotton, 31.88 cents a pound, gross weight, for the average of the crop, reflecting 82 per cent of the current parity price goal of federal farm programs.

Extra long staple cotton, 53.17 cents a pound or 65 per cent of current parity.

Dry beans, $6.32 a hundredweight or 70 per cent of parity.

Peanuts, $221 a ton or 85 per cent of parity.

Honey, 11.2 cents a pound or 74 per cent of parity.

Freeman also announced a support rate of $4.71 a hundredweight for 1962 crop rice, the same as last year. This is 78 per cent of parity.

The support rates were described as minimums. They could be raised later but not lowered.

Yet to be announced for 1962 are supports for corn, oats, rye, barley, sorghum grain, soybeans, cottonseed, flaxseed and dairy products.

The department previously set the support for wheat at $2 a bushel, compared with $1.78 for the 1961 crop.

O'Brien To Wed Today

NEW YORK (AP) — Conor Cruise O'Brien, who resigned from the Irish foreign service after being recalled from his United Nations job in Katanga, marries the daughter of a top Irish official today. The time and place were not disclosed.

O'Brien and Maire MacEntee, daughter of Sean MacEntee, deputy prime minister of Ireland, took out a marriage license Monday. Her age was listed as 39 and her address as Cedarhurst, N.Y., on Long Island.

O'Brien, after his resignation, said he was divorcing his wife of 22 years to marry Miss MacEntee. The marriage application said O'Brien's Mexican divorce became final Jan. 3.

O'Brien, who had three children by the previous marriage, gave his age as 44. He listed his occupation as writer.

Two Carriers Added To Recovery Force

NORSOLK, Va. (AP) — The Navy said Monday it is adding the newly commissioned nuclear aircraft carrier Enterprise and the conventionally powered carrier Hasp to its Project Mercury recovery force for a manned space orbit attempt later this month.

The carriers will join the USS Randolph and the Navy's project mercury recovering force based at Norfolk. The recovery force includes about 17 destroyers.

Regime To Watch Over Steel Talks

By NORMAN WALKER
Associated Press Labor Writer

WASHINGTON (AP) — President Kennedy's administration not only is firmly determined to do everything possible to avoid a midyear steel strike but it will actively discourage advance steel stockpiling.

It was learned today on high authority that the administration has decided to ride close herd on the upcoming steel contract negotiations and will have no reluctance about entering the talks if that becomes necessary.

The dual purpose will be to make sure there is a settlement without a strike and that the new contract terms won't be disruptive to the rest of the American economy. Presen contracts expire June 30.

Secretary of Labor Arthur J. Goldberg is expected to make all this clear at a news conference this afternoon.

Among other things he is due to kick off a drive intended to discourage heavy industry from its usual practice, already getting under way, of substantially overbuying and stockpiling steel supplies as a precaution against a possible strike.

The administration believes this unnatural production buildup, always inevitably followed by a production slump, is a bad thing all the way around.

It falsely stimulates, then depresses the economy. Smaller steel customers can't afford stockpiling. Steel producers are compelled to use older, less efficient mills during the buildup. Finally the work force must work overtime, then undertime.

How successful the administration may be in persuading steel users, the booming auto industry for example, to avoid buying up huge quantities of steel against the possibility of another steel strike. of course remains to be seen.

But Kennedy and Goldberg hope they can sell the idea there won't be any walkout. They feel the country can't afford one.

Certainly the top administration leaders couldn't be more determined that they simply are not going to permit anything like the record 116-day steel strike in 1959.

Goldberg — who until joining Kennedy's Cabinet a year ago was general counsel for the Steelworkers Union, and as such helped negotiate many steel contracts—knows the steel labor situation inside out. He has Kennedy's full confidence in the present situation.

It's a fact of life that steel negotiations are the nation's most important single piece of collective bargaining. The steel industry calculated that its last contract cost it well over $1 billion. Steel contract terms become a pattern for other industries.

There are a few hopeful signs this year. Both the steel industry and union so far have avoided firing their usual propaganda blasts. Joint committees established on a permanent, year-around basis under the last contracts have been meeting regularly.

Not long ago, R. Conrad Cooper of U.S Steel, chief steel industry negotiator, met quietly with President David J. McDonald of the Steelworkers in a Florida hotel. While no spectacular agreements have been achieved, these joint committees have established a promising line of communication.

Each side knows fairly well what the other is thinking about.

The steelworkers union has scheduled an executive board meeting here Wednesday. While undoubtedly the union chiefs have done some advance planning on contract demands, they are not ready yet to disclose them.

The steel industry wasn't very happy about being told by Kennedy last fall to avoid raising prices when the final pay boost specified under the now-expiring contracts went into effect. But the steel producers didn't raise prices. That puts them in a favorable public light as new contract negotiations get under way.

There is ample precedent for the government to take a hand in settling steel labor problems. In modern times few steel contracts have been negotiated without federal intercession. In 1959 it was Richard M. Nixon, then vice president, who outlined the ultimate settlement terms.

The last general steel price increase in 1958 brought the composite base price of finished steel to about $124 a ton. Since then Steelworkers have received pay increases of 14 to 26 cents an hour depending on job classification, with rates now ranging between $2.27 and $4.37. The Labor Department reports average Steelworker earnings at about $125 a week.

Vietnamese Building Up Regular Army

By SPENCER DAVIS

WASHINGTON AP) — South Viet Nam is acting to increase its regular army from 170,000 to 200,000 with the help of U.S. military aid.

U.S. officials said that the guerrilla war appears to be growing in intensity there, killing and wounding 400 non-Communists a week.

State Department officials in disclosing the army buildup today said the additional costs would be borne by both South Viet Nam and the United States through a new financial reform program.

U.S. officials estimate that Communist North Viet Nam has 300,000 to 350,000 men under arms.

In the past year guerrilla activity by the Communist Viet Cong rebels more than doubled, according to W. Averell Harriman, assistant secretary of state.

The number of Viet Cong operating in South Viet Nam is estimated at 18,000 or more. U.S. officials said there has been a sharp increase in violent incidents in recent months.

U.S. Ambassador Frederick E. Nolting Jr., is conducting an overall review of American policy in South Viet Nam with foreign aid representatives and officials of the State and Defense departments.

A State Department spokesman said that the United States "is not sending combat troops to South Viet Nam except for training purposes—if you want to regard them as combat troops in that light."

Stock Show On Tap At Fluvanna

FLUVANNA—January 13 has been set as the date for the Fluvanna tock Show, which is slated to feature some 90 lambs and 22 calves.

Sid Long, agricultural teacher at Gail, will judge the show. The noon meal on that date will be a barbeque held in conjunction with the show.

Show entrants include the Fluvanna FFA and 4-H students. Miss Sue Herring, FFA sweetheart, will be receptionist.

It has also been announced that the Scurry County Junior Livestock Association began its membership drive Monday, and all interested persons are being urged to join and take part in the organization.

Red Cargo Protested

HOUSTON (AP)—Some longshoremen said they might balk at unloading 300 bags of East German-made mineral wax from a Dutch freighter docked here.

They were scheduled to start unloading the wax part of the ship's cargo today.

About 15 men from Local 1273 of the International Longshoremen's Association started unloading the Ittersum's cargo Monday.

One longshoreman, G.W. Sneed, said the men noticed the bags of wax bore labels stating they were made in East Germany and decided not to unload the wax.

"I don't think it's right to be buying their stuff," he said.

There was a big controversy in the port last August over loading 4,000 pounds of scrap iron destined for Yugoslavia.

George Horner, vice president of the shipping agent's firm representing the Dutch freighter, said papers in his office did not show who bought the wax.

Horner said he didn't know what would happen if the longshoremen refused to handle the wax.

"If the wax is a prohibited item, U.S. customs will certainly pick it up," Horner said. "I think it's the job of the government—not the longshoremen—to decide what comes into the country."

Americans consume an average of 160 pounds of meat each per year.

Ammunition Is Reshipped

BROWNSVILLE (AP) — Small arms ammunition presumably made in Russia and Germany started piling up at the docks here Monday for reshipment to Finland.

U.S. Customs agents said they were told the cargo, shipped to Brownsville in 22 railroad boxcars, was rejected by a Maryland firm which bought it for sale to sportsmen. It arrived during the weekend aboard a Missouri Pacific freight train from San Antonio.

Port authorities reported a Dutch freighter, the Bernard Ingelsson, would take the ammunition aboard for shipment to Finland.

Newsmen saw marks stamped on the crates indicating the ammunition, in 7.62 and 7.92 millimeter sizes, was manufactured in Russia and Germany. There was no indication whether East or West Germany supplied part of the cargo.

Town Almost Has Pair Of Mayors

COLUMBUS, Ohio (AP)—Suburban Grove City could have had two mayors if the City Council had not corrected an error in the two-year-old charter Monday night.

The city fathers, when the community gained city status two years ago, wrote into the charter that a mayor would be elected every two years for a four-year term.

Mayor Antone Patzer readily approved the change.

GUARANTEED RESULTS

BUY! SELL! SWAP!
Read and Use The...

WANT ADS

Here Are The Simple Rules

Our Classified Ads are the busiest, result-getting little power houses any time you use them. This offer of Guaranteed Results Want Ads is made to induce all of our readers (about 17,000 of them) to give them a try.

From Jan. 8 Until Jan. 31

Between Jan. 8 and January 31, place a 15-word Want Ad in the Snyder News for 6 consecutive days . . . if your Want Ad has not produced satisfactory results at the end of 6 days, The Snyder News will publish it for an additional 6 consecutive days without any additional charge! You don't have to call us at the end of the first 6 days because we will automatically continue it for another 6 days unless you call to cancel.

You're The Judge

You alone are to be the judge of results and we will accept your decision. If the advertisement is cancelled because of results before the first 6-day order has expired you will be billed for only the number of days the advertisement appeared at the Regular Want Ad Rate.

15-Word Minimum Size

You can use as many words over the minimum as you wish.

3 Ways To Place Ads

- Just Dial HI 3-5486
- Mail to Classified Department
- In person at our Classified Counter

Everybody Is Eligible

Everyone is eligible for this offer whether an individual or business concern. It is not necessary to have a charge account with the Snyder News. Just Dial HI 3-5486, give your ad to an Ad Writer and say "Charge it." Mail orders accepted: Address your ad to The Snyder News Classified Department.

Woman's Low Voice Warns B58 Pilot

By RALPH DIGHTON

LOS ANGELES (AP)—Lt. Col. Henry Deutschendorf and his crew were bringing their eight-jet B58 bomber down at Carswell Air Force Base in Texas.

The weather was bad, radar guided his approach. Suddenly a woman's low, husky voice whispered a warning in his ear.

He looked, and sure enough, two engines had flamed out.

His crew had heard the warnings, too, in time to trim the ship properly for the landing.

The voice came from a little black box in the giant bomber's instrument panel. The eight-pound box, a miniature tape recorder, was hooked up with the panel's system of warning lights. When the engines flamed out, the box began playing a recording.

The voice belongs to Gina Drazin, a pert and pretty secretary in the plant where the black box was made—Nortronics Division of Northrop Corp.

Gina's voice was chosen primarily because it is low and husky.

"I've had no voice training," says Gina. "I can't carry a tune in a basket—my voice is pitched too low. But I guess that's why it was chosen—high-pitched voices fade out on aircraft intercoms."

If low pitch was needed, why wasn't a man's voice used?

That's easy. A woman's voice gets more attention in a bomber cockpit.

The voice warning, called Vips for Voice Interruption Priority System—is being installed in all B58 bombers because pilot attention can be diverted from the panel lights by a number of emergencies. He may overlook visual signals but tests show pilot response to Gina's dulcet tones is immediate.

It's too bad the recording conveys only Gina's soft voice. Her other attributes—34-26-36, blue eyes, brown hair and a quick smile—are equally attention grabbing.

Herd Reaches Stock Center

WINNER, S.D. (AP)—Rancher Don Hight punched his 1,800 steers into this South Dakota livestock center a day ahead of schedule after a 65-mile cattle drive he figures saved $2,000 in trucking costs.

A predicted worsening of the rugged winter weather that stayed with him throughout the five-day drive prompted the cattleman and his seven drovers to bring the animals in Monday night.

Despite a weight loss caused by the extended drive, Hight expects to net about $360,000 from the sale, which begins Thursday.

Hight drove the herd off his 16,000-acre ranch at Westover in south central South Dakota Thursday morning. He had planned to arrive at this auction center tonight.

Today's weather forecast called for winds up to 40 miles an hour with a temperature of 15 below.

Wind-blown snow had cut visibility to a quarter mile by the time Hight and his drovers nudged the herd over its final 17 miles to the safety of the stock pens.

Hight figures plenty of feed and water between now and the sale time will put lost weight back on his steers.

Man Slays Wife, Self

SAN ANTONIO (AP) — James Gholson, a crippled former mental patient, killed his estranged wife and then took his own life at the city health offices Monday.

Witnesses told police that Mrs. Anne Gholson, 46, cried "No, Jimmy! No Jimmy!" as her husband, 45, fired three bullets from a pearl handled pistol into her body.

While officers were answering a telephone summons from another health department worker, Gholson methodically reloaded the .44 caliber weapon and shot himself in the head.

Mary Lou Alvear, 21, a clerk in the office, said Mrs. Gholson ordered her husband to leave and he started shooting. The couple was separated. Gholson was an unemployed railroad fireman.

Dr. Robert Hausman, county medical examiner, returned an inquest verdict of murder and suicide.

Colds, Influenza Sweeping Britain

LONDON (AP)—A wave of colds and influenza is sweeping Britain in the wake of the recent cold spell, causing a high incidence of work absenteeism.

At least one auto plant was forced to shut down its assembly lines for lack of workers. A hospital closed its casualty department because so many nurses were ill. The Ministry of Health said the outbreak has not reached epidemic proportions, however, and that only a mild type of influenza virus has been identified.

Neighborly Radio Station Fades Out

By HARRY KELLY

WASHINGTON (AP) — The slightly high-pitched voice of WALE, "your neighborly station," has signed off without so much as one bong.

It was turned off, gently but firmly, by a grim-faced investigator of the Federal Communications Commission who read the riot act to its two operators—Bruce Wahl, 13, and David Lester, 14.

Its station was Wahl's bedroom; its commentators, engineers, announcers and disc jockeys were Wahl and Lester. Its range was neighborly—covering nine other houses.

The boys pieced the equipment together from old parts and went on the air a month ago from Wahl's home in nearby Falls Church, Va.

Every afternoon after school, WALE offered the neighbors a program of weather information, news culled from newspapers and music—"everything from rock 'n' roll to the semi-classics."

Any listeners? Wahl and Lester had no rating but Wahl said he knew that at least one family listened—"but they moved away after the first broadcast. Of course, they had been planning to move for six months."

It was fun. Until the other day.

WALE had been on the air for about 45 minutes when Bruce spotted a man in an automobile aiming a device with an aerial at the bedroom window.

Then the man came to the door.

"Are you running a radio station?" he asked.

Proudly the boys acknowledged they were.

The smiles faded when the man flashed a card identifying him as an investigator from the FCC. He said he wanted to check their equipment.

After checking the equipment—which operated on about a tenth of a watt—he sat down last Thursday with the boys and Bruce's mother and read a passage from a book. It was a copy of the Communications Act and it told how people operating unlicensed stations could be fined $10,000 or sent to jail for two years. Maybe both.

"Boy," said Bruce, "did we begin shaking like leaves."

So now WALE is off the air. The FCC is willing to forget the whole thing but officials explained there would be chaos on the airwaves if anybody could operate a station, even a neighborly one.

Boun Oum Protests 'American Pressure'

VIENTIANE, Laos (AP) — Prince Boun Oum's right-wing Laotian government today termed American pressure to make it join a coalition regime "intolerable" and said the Lao people would rather tighten their belts than yield.

The United States postponed delivery of its monthly aid—the government's financial mainstay—after Vice Premier Phoumi Nosavan rejected U.S. Ambassador Winthrop Brown's strong suggestions that the rightists drop their demands for the key defense and interior posts in the proposed coalition with forces of neutralist Prince Souvanna Phouma and pro-Communist Prince Souphanouvong.

DR Seeking Extradition Of Trujillo

By ROBERT BERRELLEZ

SANTO DOMINGO, Dominican Republic (AP)—The new Dominican government is reported seeking the extradition of Rafael L. Trujillo Jr. and two top aides in connection with the disappearance and presumed death of six men held for the assassination of Trujillo's father.

The semiofficial paper La Nacion published the report Monday. It could not be immediately confirmed.

Trujillo, son of the dictator who ruled this country for 31 years until his death last May, was last reported in Paris. The two aides mentioned by the paper, Luis Leon and Estevez Rubirosa, also are believed in Paris.

In Paris, the French Foreign Ministry said no extradition treaty exists between the two countries.

In theory, the Dominican government could ask for custody of Trujillo and his associates, and France could decide the case on its merits. However, France has a long tradition of granting political asylum, and if the three could argue successfully that they were sought for political reasons, they probably would be allowed to stay.

The chief of the armed forces, Maj. Gen. Pedro Rodriguez Echavarria, charged that three air force officers who accused him of dictatorial ambitions acted as part of a Communist plot to "divide and destroy" the country's military establishment.

The general said Communist agents had infiltrated some political parties and a Communist plan for mass disorders and guerrilla warfare was smashed early last month. He did not say if there had been any arrests.

Project Show Set At Ira

The annual project show of the Ira FFA and 4-H clubs will be held Saturday at the Ira high school.

Approximately 40 hogs will be on display. Ray Herring of Fluvanna will be the judge, and ribbons will be presented the winners by Miss Donna Martin, chapter sweetheart. Judging will begin at 1:30 p.m.

Project shows are done partly as preparation for the upcoming larger shows. The show in Sweetwater is scheduled for Jan. 20 and the Snyder show Jan. 27.

BIRTHS

Mr. and Mrs. Dave Haywood, Route 3 are parents of an 8 lb. 4 oz daughter born at 11:56 a.m. Jan 8 at Cogdell Hospital.

Tourism Decline Gets Quick Response South Of Border

By JACK RUTLEDGE

MEXICO CITY (AP)—Tourism is so important to Mexico that old Joe Bloke of Goose Creek has almost as much influence with the Mexican government as the big shots in Washington.

An exaggeration, probably, but it's a fact that a flurry of tourist cancellations can get quicker results than a politely worded potest from the state department.

This was proven again in 1961 when anti-American riots, demonstrations and speeches caused alarm north of the border. The government was silent until tourists by the thousands called off trips.

Then officials began issuing statements that Mexico was not pro-Castro, that it was really pro-American all along. It took steps to stop the trouble.

It isn't because Mexicans like old Joe Bloke. They like—and badly need—his Yankee dollar.

Recent statistics show that exports—mainly raw materials—produce an average annual income of $750 million. Tourism brings in around $700 million.

To reach the $750-million export figure, Mexico must export 1.5 million bales of cotton, which requires twice that many acres of land, usually under costly irrigation; 75,000 tons of coffee; 105,000 tons of beef; 150,000 tons of lead; 43,000 tons of copper; 350,000 tons of zinc; a million tons of sulphur; 8,000 tons of hennequen fiber; millions of barrels of petroleum; large amounts of sugar and other commodities. Production of these items requires large investments of capital and labor. Profits fluctuate with world market demands.

Tourism requires only a fraction of the capital and labor invested in exports. Profits, one source says, amount to a million dollars a day.

Furthermore, tourism does not exhaust national resources. It actually improves the country.

Modern Mexico inherited the things which attract tourists: scenic beauty, a wonderful climate, health-giving mineral springs, beaches; archaeological marvels left by Aztecs, Mayans, other ancient tribes; centuries old colonial cities and monuments built by Spaniards.

Mexico also is in a privileged geographic position, nesting next door to the United States, easily reached by lower-income tourists as well as the wealthy.

Almost without trying and at times seemingly against the desire of many of its people, Mexico has developed a tourist industry which has helped build its economy to a point where it is among the tops in Latin America.

Mexico enters 1962 with its foreign policy a question mark.

Some diplomats say old Joe Bloke may play a prominent role.

New Orleans Plans All-Negro School

NEW ORLEANS, La. (AP) — The Orleans Parish School Board has voted to turn one of the city's six desegregated elementary schools into an all-Negro facility.

The board decided Monday night to make the change to relieve what it said were crowded conditions at Negro schools in the area.

McDonogh No. 19—where angry white parents withdrew their children when it was desegregated Nov. 14, 1960, under federal court directives—will become an all-Negro school Jan. 24.

Cowboy Star Has Surgery Monday

HOLLYWOOD (AP) — Former cowboy star Hoot Gibson underwent abdominal surgery Monday for a mild obstruction and is reported resting in good condition.

Gibson, 69, entered the San Fernando Valley Motion Picture Country Hospital at Woodland Hills Jan. 3 for tests.
