

NEWLY APPROVED FM ROAD

The road indicated by a solid black line in upper left of this map is the 3.3 miles approved last week by the Texas Highway Department and is the county's 1969 FM program. The

1968 program is the dotted line just to the right, and is 6.6 miles in length. Construction on both is expected in 1970.

3.3 Miles FM Road Get Approved for County

The Texas Highway Commission today approved development of 3.3 miles of Farm to Market Roads in Collingsworth County as part of the 1969 Texas Farm to Market Program.

District Engineer V. J. McGee of the THD said estimated cost of the work is \$90,000.

The project authorized for Collingsworth County extends from the end of FM Road 3070, 6.6 miles west of FM Road 1547, northwest to 5 miles south of the Wheeler County line, a distance of approximately 3.3 miles.

The work will be under the supervision of Ober V. Johnson, senior resident engineer, of Wellington.

The 6.6 mile stretch, designated as FM Road 3070, was approved by the Texas Highway Department about a year ago. With the newly approved project, it forms part of the road sought to connect the McLean area with Wellington, and to further provide a short-cut from the Northwestern to the Southeastern Panhandle.

Mr. Johnson explained that the Wellington office handles construction of Interstate 40 through southern Wheeler County, and the stretch east of Shamrock will be nearing completion after the first of 1970.

Work on these designated farm to market roads will come after the completion of I-40, but it is likely that surveying will begin after the first of the year, he indicated.

It is possible, he said, that both FM projects will be constructed at the same time.

Work authorized for this county is part of the 827.1 miles of Texas Farm and Ranch to Market roads earmarked for development in the new program.

The program lists 214 projects in 138 counties. Estimated total cost is \$22 million.

Mileage included in the program totals 237.2 miles of new

roads with an estimated cost of \$10.3 million.

The remaining 589.9 miles to be developed at an estimated cost of \$11.7 million, was designated previously and is being constructed in stages.

The additional mileage brings the designated Farm and Ranch to Market Road system in Texas to 39,500 miles. This is equal to 1 1/2 times the com-

bined total of all state-maintained highways, in the six New England states.

Plans call for an eventual RM-FM system of 50,000 miles. Originally conceived to "get the farmer out of the mud," the network has contributed to the economic and social well being of millions of rural Texans.

For example, 127.5 miles or

Christmas Decorating Contest Announced

The most beautifully decorated town in the Southeast Panhandle is the goal for Wellington during this Christmas season.

A Christmas decorating contest, with Billy Moseley as chairman, was announced by Ralph Owens, president of the Chamber of Commerce, following a meeting of directors on Monday night, Dec. 1.

The Business and Professional Women's Club will assist in the contest.

There will be two divisions, one for business firms and the other for homes, Mr. Moseley said.

Judging will be Saturday, Dec. 20, and a plaque will be awarded the winning business firm.

First prize in the home division will be \$15 in script; second prize, \$10 in script; and third, \$5.00 in script.

No rules were set up for the contest, but it is left to the judgment and originality of each business man or home owner to plan and execute his own decoration.

"We urge as many people as possible to enter," said Mr. Moseley. "The size of your

house or the part of town you live in has no bearing on your chances of winning. It is the originality of your ideas and the way you carry them out that will determine who wins."

Every business firm has a unique opportunity to present holiday decorations that will enhance the Christmas lights already burning each evening, Mr. Moseley pointed out.

Blood Bank at Stake

All-Out Red Cross Fund Drive Launched

Collingsworth County's all-out Red Cross fund drive was launched Monday, Dec. 1, and again the urgent need for its success was put before the public.

The \$2,300 quota must be raised, most of all, for St. Joseph's Hospital to retain the Red Cross Blood Bank and continue to provide this vital service for its patients. This is the grave concern of many working in the present fund drive.

It must succeed, also, in order for the Collingsworth Chapter to carry out its other services on the local level.

Mrs. Robert Posey, fund campaign chairman, said that after less than two days, several workers have completed their solicitation and early results are gratifying.

Wellington is being covered on a house to house and business to business basis, and on Tuesday, workers in the other sections of the county were secured by Mrs. L. W. Wells, co-chairman.

Of the money raised, \$800 will be the fee to the Red Cross for the Blood Bank—\$400 for 1969 and \$400 for 1970.

Mrs. Posey explained that St. Joseph's Hospital began using

All ballots must be turned in at the C of C office not later than Monday, Dec. 8, Mr. Owens said.

The nominees for the four offices and the directors were submitted at the regular meeting Dec. 1 by C. T. Hubbard, chairman of the nominating committee. The list follows:

For president: Henry Sullivan and Deskins Wells.

Vice president: Jack Sanford and Billy Moseley.

Secretary: Lynn Jenkins and Bobo Castleberry.

Treasurer: Billy Hatch and Jack Neely.

The directors also voted to continue the service and sales award that has been given annually to the most courteous sales or service person and at the suggestion of President Owens, has authorized another award to be given each year for outstanding service to the community.

Santa Claus Arrives Saturday As First Trades Day Is Held

Wellington's Christmas lights are on and Santa can't be far away. He's getting awfully close, in fact.

Santa Claus will greet Collingsworth County children Saturday, Dec. 6. He will return for a second visit Saturday, Dec. 20.

This is part of the traditional pre-Christmas Wellington Good Will Trades Days, sponsored by the Chamber of Commerce and the merchants of Wellington. On Saturday at 4:00 p.m. the first of four Trades Day drawings will be held.

Santa will come into town on Wellington's big red fire truck, promptly at 3:00 p.m. He will pass out candy by the pack-full as he travels around the courthouse square. He will remain for a full hour to give all

boys and girls an opportunity to tell him what they want him to bring them on Christmas eve, and he will wind up his first visit at the Trades Day drawing on the courthouse lawn, according to Bill Hatch, chairman.

Hundreds of children are expected to be here to greet Santa, and every youngster in the Collingsworth trade area is in-

vited.

Script totaling \$300 will be given away during the four Good Will Trades Days and will be redeemable at the 23 participating merchants, according to Mr. Hatch.

The other trades days will be Dec. 13, 20 and 24. All drawings will be at 4:00 p.m. on the courthouse lawn.

Merchants began giving the trades day tickets Monday, Dec. 1.

The same plan for the drawings will be followed as in past years, Mr. Hatch explained.

The first drawing will be for \$35 in script; the second \$25 and the third \$15. There will be no holdover of prizes. For the convenience of shoppers, script will be in \$5 denominations. Script will be void after Jan. 3, 1970.

Merchants participating in the Trades Day program are Gibson Discount Center, The Wellington Leader, Parsons Drug, Fabric and Ready-to-Wear, C&H Pharmacy, Hatch Dry Goods, Saied's Department Store, Sullivan Hardware, Sam's Hardware, City State Bank, The Fair Store, Harrell's Ben Franklin, Lewis Grocery, Wellington State Bank, City Grocery, Hughs Ace Hardware, Montgomery Ward, Wellington Lumber Co., Penny Wise Grocery, Tiny's Auto Supply, Owens and Scott Grocery, The Remnant Shop and Town and Country Store.

Wellington State Bank Buys Lots for Future Building Site

The Wellington State Bank has purchased lots 13, 14, 15 and 16, block 237 in the original town of Wellington as a future building site, C. T. Hubbard, president of the bank, announced this week.

The lots are located at the corner of East Avenue and 8th street and is the site of the Wellington Hotel and was the location of the Wellington State Bank before it merged with the First National Bank.

The Wellington Hotel building was owned by a partnership composed of Lucy B. Wells, Beth O'Neil Atkins, the D. D. McDowell Estate and the C. C. Terry Estate. The old bank building was owned by Mrs. P. E. Starr.

The first location of The Wellington State Bank was in a stone building on the west

side of the square where Hales Jewelry is now located. It remained there until 1911 when the hotel building was constructed with the bank being

located in the west front of the building.

No time has been set for the construction of the new bank building, Mr. Hubbard said.

The Leader to Print Santa Claus Letters

Again word comes down from the North Pole that Santa Claus is eagerly awaiting letters from boys and girls of Collingsworth County and those whose parents formerly lived here.

Santa Claus also sent word that these are to be sent to him at The Wellington Leader, and the newspaper will speed them on to the North Pole by the quickest way.

He also notified the boys and girls that all letters will be printed in the Christmas issue of The Wellington Leader.

All children are urged to write their letters as early as possible and mail or bring them to the newspaper.

The date of the Christmas issue of The Wellington Leader will be announced later, but the important thing is that a letter from every child be received.

Financial Facts

By Jeff Wilson

THE LIFE SPAN OF A DOLLAR BILL

Do you know the life span of a dollar bill? Paper money passes constantly from bank to bank, store to store and hand to hand. Dollar bills, in particular, are in perpetual use.

The average working "life" of a dollar bill is nine months. After that time it usually becomes too worn for more use.

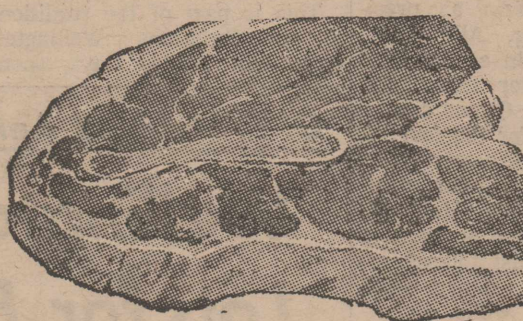

Banks will take in torn, worn or mutilated money and return it to the U.S. Treasury for new bills. At the treasury the old bills are inspected, recorded and then destroyed by burning or pulping.

A British 10s note, in comparison, has about the same life span as the American dollar bill. However, because the British use more coins than we do, their pound note lasts more than twice as long as our dollar.

Quail Quails defeated Estellins boys 64 to 46 Tuesday, Nov. 25, in a game played there, but the Bobwhites, unable to get their game started, lost 54 to 20.

High pointer for the Quail boys was Tommy Oatman with 19. Fowler led Estellins' scoring with 17.

The Estellins boys are just out of football and should develop a strong team later in play, said Coach Bill Wilson.

The Quails jumped out to a 17-4 lead by the end of the first quarter. During the second period, they scored 19 points while holding their opponents to 10.

They kept widening the margin until the final whistle.

Mallie McCann topped the Bobwhite scoring with 9 points, while Jan Rapp had 21 for Estellins.

No gas bill will be rendered to any residential or commercial consumer served under the above rate not consuming any gas during any monthly billing period.

ADJUSTMENT

The amount of each net monthly bill computed at the above stated rates shall be subject to the following adjustment: Plus an amount equivalent to the proportionate part of any new tax, or increased tax, or any other governmental imposition, rental, fee or charge (except state, county, city and special district ad valorem taxes and taxes on net income), levied, assessed or imposed subsequent to July 1, 1969, upon or allocable to the Company's distribution operations, by any new or amended law, ordinance or contract. Each gross monthly bill shall be adjusted proportionately. SECTION 3. The fact that there is an imperative public need for an ordinance fixing and determining the rate for gas and gas service furnished to residential and commercial consumers creates an emergency, and the reading and passage of this ordinance at three separate meetings is hereby suspended and this ordinance shall take effect and be in full force from and after the date of its passage at a single meeting and the approval thereof by the Mayor.

Some years ago there was a man whose business was tanning hides. One day he decided that if you could take an old, stiff, ugly, big pored hide and turn it into a beautiful, small-pored, soft piece of leather like a glove—then somehow the same miracle could be wrought with human skin—particularly since there were living cells with which to work.

So, he began to experiment with his own skin, using in a modified form, the same things he used in tanning hides. With the result that at 73, he proved his point. His smooth, unblemished skin gave the appearance of being that of a man many years younger.

From this original discovery evolved Mary Kay cosmetics. And with an entire skin-care program for the American Woman. One that works. And gets results.

You see, our basic philosophy is to do something good for your skin, instead of covering up what you already have. Isn't that nice?

Boston Visitor Returns Home

Mrs. Walter Glassett of Needham, Mass., returned home on Tuesday, Dec. 2, after visiting three weeks with her niece and family, Mr. and Mrs. James Sullivan and Phyllis Ann.

This is her fourth visit to Wellington, but the first during cotton harvest, and it was the first Thanksgiving she had spent away from the Boston area.

At her request, Mrs. Glassett was shown how a cotton stripper operates, and rode several rounds during harvesting at the Raymond Ford farm in the Kelley community.

"I had no idea fields of cotton were so beautiful," she said.

Mrs. Glassett contrasted the autumn foliage in the Texas Panhandle and that in New England, and now that she has seen a golden Collingsworth fall she is wishing that she could show some of her friends here the reds and yellows and russets and browns of the trees in her own area.

A teacher for 40 years, she retired a few years ago. Since the death of her husband, she has traveled a great deal, including a trip to Germany to visit a step-son who works in Munich. Earlier this year she went with a nature study group to visit the Florida Everglades. She made this trip by air,

F.H. Melton Retires as Compress Manager

F. H. (Pete) Melton has retired after 44 years with Traders Compress, 22 as manager. As his retirement was announced this week, Mr. Melton reviewed the changes that have taken place in the cotton industry in Collingsworth County, which reflects that of the entire area.

When he began work with the company there was one warehouse with 7,500 bale capacity. Twice the compress was enlarged, and now its capacity is 21,500, he reminded.

At the peak of cotton production in the county, Traders Compress handled between 25,000 and 30,000 bales per season, shipping it out to the country's major ports, for transshipment all over the world.

"The biggest change is in the wages that are paid," says Mr. Melton. "When I began work with Traders, common labor was paid 15 cents per hour. Now the wage is \$1.50."

All of the cotton is handled by machinery now, in contrast to moving it by sheer muscle 45 years ago.

At the peak of this area's cotton production, Mr. Melton employed as many as 65 men during the height of the picking season. At least eight were on the payroll all year around. In those years, the whole country turned to cotton in the fall, he remembers.

In that period, too, Wellington had more cotton gins than any other town in the United States.

Lots of interesting and exciting things have happened through the years, which he has taken in his stride, he said.

"I have enjoyed all these years with the company. They have been good to me," he said Monday.

Traders Compress at one time operated approximately 20 units through Texas and Oklahoma. They have cut this operation back to 5.

Now that he has retired, Mr. Melton plans to take life easy, perhaps working a little as long as he stays in good health.

Born in Benton County, Tenn. Christmas Day, 1897, he came with his parents, the late Mr. and Mrs. F. Melton, to Quail in 1906.

He and Mrs. Melton, the former Miss Sudie Stephens, have four children: Conrad Melton of Galveston; Mrs. Woodrow Ham of Beeville; F. H. Melton, Jr., superintendent of Panhandle Schools; and Mrs. Harmon Elliott of Muleshoe.

Hunting has been a favorite form of recreation for Mr. Melton, and already he and his wife have been on a 10-day deer hunting trip to Blanco, where they stayed at the ranch of grandchildren, Mr. and Mrs. Ruben Rest. They were accompanied by Mr. and Mrs. Wilbur DePauw. Mr. Melton noted that he killed his limit, two deer.

Father Burke Shows Slides

During the past week, the 4th graders of Wellington were treated to a slide show, featuring a variety of views of London, England, and Dublin, Ireland. Showing the slides was Father Patrick Burke, Parish Priest of the Catholic Church, who was born in London and lived for 15 years in Dublin.

A much-traveled man, Father Pat pays periodic visits to the grade school to regale the children with the scenes and people of the lands he has visited and lived in.

In return for the travelogue, the children entertained Father Pat with a medley of Thanksgiving and patriotic songs, and wrote him letters of appreciation.

He was invited to the school by Mrs. Byron Duncan, the 4th grade teacher.

Mr. and Mrs. Creed Hill visited through the Thanksgiving holidays with her parents, Mr. and Mrs. O'Neal Kees in Georgetown, La., and with her sister and brother-in-law, Mr. and Mrs. James Hardy Smith in Winnfield, La. The men hunted deer and squirrel.

New Clothing Guarantee Due

COLLEGE STATION.—Something new has been added to the hang tags on some clothing—a guarantee that a garment will wear for a specified length of time.

If the garment doesn't live up to its guarantee, the manufacturer says he will return the purchase price or replace the garment, Fannie Brown Eaton, Extension clothing specialist, says.

She urges consumers to read garment labels, save the labels or hang tags and the dated sales slips. This proves how long a consumer has had the guaranteed garments.

Be sure the sales slip is dated when a guaranteed garment is purchased, the specialist cautions.

Store clerks may not mention that garments carry a guarantee because so few clothing items have one as yet.

What We Need for Holiday Giving Is Here in Wellington

This week, we open the Christmas season in Wellington. And this brings up the question: Why do our Christmas shopping the hard way? Why go out of town, when all the gifts anyone could possibly want are available here at home.

Commercialism is part of Christmas, and it will remain that way. Anyway, we would not like Christmas without gifts.

Wellington stores have big stocks of merchandise that is identical to that in city stores. In most instances, the variety is wide. Certainly there are many, many things that would delight anyone fortunate enough to get a package from under a Collingsworth Christmas tree.

Here at home you will find Christmas trinkets for fun gifts; you'll find quality items that will last a lifetime.

All this you will find in Wellington. Why travel from big city down town to shopping center to still another shopping center? Why add to the cost of your gift the cost of gasoline and wear and tear on your car.

There is an easier way to do it—shopping at home.

Small Victories

Often ignored, seldom recognized is the brutal fact of life that most of us traveling the road must be satisfied with small victories.

Few men attain the heights to see success of great note. Consider the parent who never accepts the "small victories" of his child and thereby fails to impart to that youngster the confidence and acceptance so vitally important to proper emotional development. Or the man, who as head of a family, continually suffers remorse and recrimination at his own hands because he has not been able to provide his family with this advantage or that benefit. He shortchanges himself by not looking at those things which he has been able to provide them. Or the woman who constantly seeks greater and greater social acceptance or a greater expression of love from those around her without ever accepting without rancor those achievements attained.

The path to glory or to big success holds little attraction if the costs to be paid are simply too high. So why be bitter about it? That's why most of us should be content with our small victories in day to day living.

This inability to accept small victories plagues the youth of today like the bridle rankles the unbroken stallion. Unless we all learn to live with our own small victories, (and indeed some may be great ones, too,) we shall be doomed to a life of frustrated misery.

—The West Carroll Gazette, Oak Groves, La.

The Consumer

There's one thing about the federal government's insistence on telling the consumer what's good for him that's hard to understand. Why does our government believe that a citizen is smart enough to make sensible political choices, but not smart enough to make his own consumer choices?

AUSTIN.—Travis Audubon Society of Austin called on Gov. Smith to use "all resources" to ban the use of insecticide DDT in Texas.

Resolution claimed that DDT is harmful to wildlife, remains toxic in environment for ten years, is spread by wind and water, and has been "implicated" as a possible cancer cause.

Arizona, California and Michigan, Czechoslovakia, Sweden and Denmark have banned DDT already, the Society contended, further noting that "numerous other insecticides can do the job and become harmless to the environment within a few weeks."

Courts Speak

Supreme Court found a truck driver who was shot during an overnight stop was not entitled to workmen's compensation for disabilities.

In other cases the high court ruled that,

—A former liquor store executive is not entitled to recover \$1 million in "back salary" from the business.

—Court has no jurisdiction to hear the appeal of a Houston

attorney who was disbarred in 1963 for alleged fraudulent and dishonorable conduct.

High Court also heard arguments that refusal to approve a new economy air flight service between Dallas/Fort Worth Houston and San Antonio would frustrate efforts of Texas Aeronautics Commission to develop an efficient intra-state air carrier system. Air Southwest Co., seeks certification for service, but Braniff International, Texas International and Continental Airlines have blocked TAC from issuing credentials.

Federal Court here took under advisement the government's request to dismiss atheist Madalyn Murray O'Hair's suit to outlaw prayers by astronauts in outer space.

Court of Criminal Appeals upheld the death sentence of a man convicted of slaying during service station robbery in West.

Causeway Urged

A Rio Grande Valley delegation, including Cameron County officials and Chamber of Commerce spokesmen, urged the Texas Highway Commission

to approve a \$7.8 million Port Isabel-South Padre Island causeway.

At the same hearing, an East Texas group asked for a \$1 million four-lane railroad overpass in Jacksonville.

Highway commissioners indicated they favor the idea of a new Queen Isabella Causeway since traffic has nearly doubled during the last two years. Local officials pledged about \$300,000 of the cost.

Antiquities

Texas State Antiquities Committee has decided to spend \$2,000 of its \$25,000 budget to help preserve artifacts found in the wreck of a Spanish galleon off Padre Island.

Dr. Fred Wendorf, Southern Methodist University archaeologist who was elected chairman of the committee, proposed the expenditure for chemicals and photographic supplies for emergency work to prevent rusting of iron cannons and other iron artifacts.

Land Commissioner Jerry Sadler, who is a member of the committee, made it clear that it is now absolutely illegal for anyone to explore offshore artifacts without a permit from the new committee.

Spanish Land Claims

News from the Eastern crime jungles is that many people are buying big guard dogs to keep around their homes and businesses to discourage marauders.

Which means the Felons Lobby in Washington has got to go back to work. The ink is hardly dry on the anti-gun law to make robbery safer, and here comes the need for an anti-dog law.

the two governments, since 1934. Debt goes back to a land grant given her ancestors by the King of Spain. Under a treaty, the United States agreed to pay the claims of Americans living in Mexico and Mexico agreed to pay the claims of Mexicans living in the United States. However, the Mexican government has refused to pay Mrs. Saiz Montez because she is an American citizen and the United States has refused because it argues that her ancestors were Mexicans. She is taking the case to Federal district court.

Natural Gas Route

Texas Railroad Commission, after hearing testimony by consultants and Pioneer Natural Gas Company officials, has recessed its hearings on a proposed increase on the city gate rate for 61 West Texas towns until Dec. 15.

The proposed increase amounts to 8.33 cents per 1000 cubic feet of gas.

Laborers

R. L. Coffman, Texas Employment Commission administrator, reports that the moderate increase in placement of farm workers in October was due to early citrus fruit harvesting in the Lower Rio Grande Valley. Increase came amid the seasonal decline in most other activities reported by local offices.

TEC filled almost 3,000 more farm jobs in October than in September. Non-farm openings in October were down 6,727 from September and non-farm job placements were down 3,604 from the preceding month.

Hog Cholera

Both the state and federal Departments of Agriculture are warning ranchers to be careful of hog cholera during winter. They report that hog cholera struck 19 Texas herds during October. A total of 1,684 animals in 19 infected and 23 exposed herds were disposed of during the month at

a cost of \$46,300. Departments said that "every outbreak that is located and eliminated this winter reduces the chance for spread next spring when movements of pigs will increase again."

Demonstrations

Texas' Board of Regents of State Senior Colleges endorsed the suspension of 10 Southwest Texas State University students by the school's president for participating in an unauthorized demonstration. Students were suspended by Dr. Billy M. Jones after they failed to break up a moratorium demonstration on university property. American Civil Liberties Union has said they will take the case to the courts.

Boys Ranch Christmas Suit Drive Is Under Way, Patterson Says

To make Christmas a memorable event for the nearly 350 boys at Cal Farley's Boys Ranch, the Boys Ranch Christmas Suit Fund is under way.

For many boys of the Ranch, a new suit for Christmas will be the first they have ever owned, and a long-cherished gift. The boys are allowed to select their own suits from Amarillo merchants who sell them at a special \$25 rate. The new suits will replace worn ones that were outgrown months ago.

Ranch President Virgil Patterson stated, "These suits mean so much to the boys. They are more than just ordinary gifts because it is a demonstration of the faith and interest that so many people have in them."

Contributions to the Boys Ranch Christmas Suit Fund may be mailed to the Boys Ranch office, P.O. Box 1890, Amarillo, Texas, 79105, or taken

to the office at 600 West 11th Street, Amarillo.

The Panhandle Economic Program is sponsoring a finance seminar for Panhandle bankers and other agricultural lenders Thursday, Dec. 4, in Amarillo, which will be attended by representatives of Wellington's two banks, Raymond Hodges of the Farmers Home Administration and County Agent Don Reeves.

"Some of the top agricultural finance leaders in the southwest will be on the program, discussing both government and private agricultural financing," Mr. Reeves said.

Prominent farmers and other agricultural leaders will also appear on the program.

The Panhandle Economic Program is sponsored by the Texas Agricultural Extension Service and encompasses all of Extension District One, plus Briscoe and Swisher counties in District Two and Hall and Childress counties in District Three.

Dement Attends Tax Seminar

Lonnie Dement was in Lubbock Monday, Dec. 1 to attend a tax seminar, sponsored by the Independent Accountants Society of Texas, which is an official affiliate of the National Society of Public Accountants.

Some of the things discussed at the meeting were farm problems, small business problems, net operating losses, non business deductions, investment credits and recaptured depreciation, community property problems and installment sales.

Mr. Dement said that the net operating loss item will affect a number of farmers in this area.

"If all of the loss is shown, it may be possible to carry it back three years, or it may be brought forward five years until it is used up," Mr. Dement said.

Concerning social security, Mr. Dement said that a taxpayer may determine his retirement payments by basing them on his best 13 years since 1950.

Internal Revenue agents at the seminar discussed the surtax extension and changes in federal income tax forms.

Farmers were also told that the Federal Wage and Hour Law which goes in effect in February will not affect them unless they have at least seven steady employees, according to Mr. Dement.

Collingsworth County FARM NEWS

By Don Reeves
County Agricultural Agent

Fertilizing Next Year's Sorghum

With harvest of the 1969 grain sorghum crop almost completed, interest in next season's fertility program is a point worth thinking about.

Major points to consider are the amount of residue present and soil texture, temperature and moisture conditions.

Nitrogen fertilizer can contribute to faster residue breakdown provided the soil temperature is above 50 degrees, but the nitrogen must be applied so as to contact the residue in moist soil.

For this reason, nitrogen materials can conveniently be applied after shredding, preferably just ahead of cultivation.

"Remember that on clay loam soils two years of work by Texas A&M researchers at the USDA Southwestern Great Plains Research Center at Bushland clearly shows equal yield response from nitrogen applied after plowing, after bedding, after preplant irrigation, or as an early sidedress. Part of all of your nitrogen on these heavy soils can be applied any time after harvest."

Mixed and sandy land soils present a different situation. On fine sandy loam soils a definite yield advantage can result from delaying a 160-pound nitrogen application until after the land is bedded in the spring.

This research shows that nitrogen can be lost through leaching in sandy soils where applied ahead of the crop's peak requirement. On such soils where residue is likely to be a problem in next year's operation, consider applying 30 to 60 pounds of nitrogen after shredding and ahead of cultivation. If this program is followed, apply the rest of your nitrogen within 35 days after the crop is up.

Urea nitrogen first changes to ammonia if left on the surface, under certain conditions of high humidity, part of the nitrogen can be lost to the atmosphere as ammonia. However, the extent of this loss has not been definitely established. Urea should therefore be cultivated into the soil soon after application.

Six years of A&M's research on clay loam soils has shown equal yield response from ammonium nitrate, ammonium sulfate, urea and anhydrous ammonia where applications were made so as to avoid nitrogen losses.

Many operators may wish to apply relatively low rates of nitrogen and all of their phosphate where needed, in the fall. Be sure to place the phosphate deep enough so that at planting time it will be in a zone not subject to alternate wetting and drying. This will allow a constant supply of phosphate to be available to the crop. All, or at least a good part of the phosphate, should be in the plow layer. Unlike nitrogen, it moves very little from the point of application.

A soil test can readily determine the present nitrate phosphorus and potassium levels in your field. When interpreted along with the information supplied on information sheets available from the county agricultural agent's office, the Extension Soil Testing Laboratory at the Lubbock Center will return specific fertilizer uses suggestions to the farm operator. More than 10 years of research correlated with soil test values for grain sorghum and other major crops validates the recommendations.

Farmers should proceed with caution when considering whether to turn their livestock out on harvested cotton fields. If the crop has been sprayed with a defoliant, dessicant, insecticide or herbicide during the past season, it's best to keep livestock out of the field. Some of these chemicals are highly toxic to animals and death can occur when treated fields are grazed.

Besides causing direct death of animals, chemical residues obtained from gazing treated fields may also contaminate meat or milk. The best guide to follow in determining whether or not to graze a particular crop is to read all directions of any pesticides or other chemicals applied and to be familiar with their restrictions and limitations. In fact, this decision should be made early in the spring when planning various insect and weed control programs.

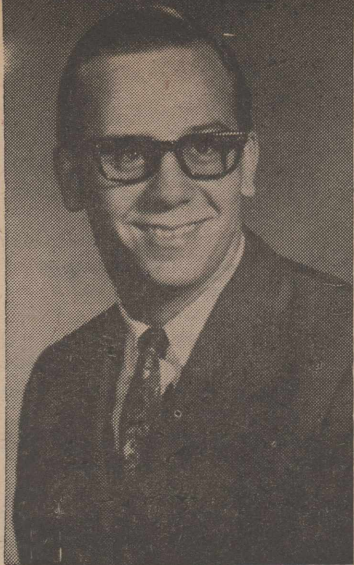

It is the producer's responsibility to adhere to all restrictions on grazing fields that have been chemically treated. If any doubt exists concerning the use of certain chemicals and grazing restrictions, contact the county Extension office.

Texas lost a great leader of courage and character in the passing of E. M. (Ted) Dealey, publisher emeritus of The Dallas Morning News. Ted Dealey was a man of instinctive good taste and good sportsmanship and his interests and accomplishments were so many and so diversified it would require a book to chronicle a part of them; but all of these were centered around and channeled through his love for The Dallas Morning News in particular and newspapers in general.

Ted Dealey was a friend of the weekly press of Texas—perhaps its most articulate and enduring advocate. He believed the weekly newspaper performed a service for its town that could not be matched by any other publication and he often said so in press meetings and private conversation. The awards for excellence given by The Dallas Morning News each year are still features of the annual meetings of the Texas Press Association.

The services of the men who man the fire trucks in Wellington should be noted and appreciated. It is a Volunteer Fire Department and the work done by its members is essential to our safety and well being. Hearing the trucks last night, I glanced outside and saw they were gathering only a block away. It was a minor fire and was entirely out by the time I arrived; but I observed that the volunteer firemen were there in force at 2 o'clock in the morning. When the siren sounds they have no way of knowing whether it is a major fire or a minor one and they turn out at all times of the day and night in all kinds of weather. So give them a word of appreciation when you meet them around town.

Arising early has its compensations. On my way back from visiting with the firemen, I spent a few minutes marveling at the brightness of the winter stars. Most of us do most of our star gazing in the warmer months; but it is exciting to spend some time observing them when the nights are cold. The various constellations are in entirely different positions in the sky in winter and some can be observed that are not visible in the summer. Of course the North Star is always in the same place and the Big Dipper and the Little Dipper can be seen at any time of the year; but their positions change from hour to hour in the night and from month to month in the year.

Step out early or stay up late and take a look at the stars. It will clear your mind and raise your spirits.

Schedule Listed

Norwood Tourney Set Dec. 11-13

The 12th annual Samnorwood basketball tournament will get under way Thursday, and continue through Friday and Saturday, Dec. 11, 12 and 13.

Plans were announced this week by Coach Kenneth Martindale.

Sixteen teams are participating, eight in each of the boys and girls divisions, coming from Quail, Wellington, Shamrock, Lefors, Lakeview, Briscoe, McLean and Samnorwood.

Eight handsome trophies, four in each category, will be awarded at the end of the championship session Saturday night: first, second, third, consolation and sportsmanship.

There will be morning, afternoon and evening sessions on Thursday and Friday, and afternoon and night sessions on Saturday.

Seeded first are the Briscoe girls and Shamrock boys. The Shamrock girls are seeded second, Wellington third, and Samnorwood fourth. Wellington boys are seeded second, Samnorwood third, and Quail fourth.

The Quail and Samnorwood girls will play at 9 a.m. Thursday to open the tournament.

Other games scheduled for Thursday are:

Quail and McLean boys, at 10:30 a.m.

Shamrock and Lefors girls, 12:30 p.m.

Shamrock and Lakeview boys at 2:00 p.m.

Briscoe and Lakeview girls, 3:30 p.m.

Wellington and Briscoe boys, 5:30 p.m.

WHS Teams Play in Tournament; Host Turkey

The Wellington Skyrockets and Rockettes will play in the Shamrock tournament this week end, then on Tuesday, Dec. 9, they will entertain the Turkey boys and girls in Rocket gymnasium.

The Wellington girls will open the tournament Thursday at 8:30 a.m. when they meet the Lefors girls, according to Coach James Stavenhagen.

The boys will play their first game against Briscoe at 5:30. Lefors, a Class B school, won their district last year and have most of their players back. In addition, one especially strong player from the 1968 eighth grade team has been added.

Briscoe also has a good club with considerable experience, and this should be one of the more interesting games, the Wellington coach said.

The games Tuesday will be the second time Wellington and Turkey teams have met. The Skyrockets defeated Tudey boys 57 to 49 in a game played there Tuesday, Nov. 25, while the Rockettes won 50 to 40.

"They have a well balanced club, and Wellington is going to have to play good basketball to repeat those victories," Stavenhagen declared.

Bill Bogan coaches the Turkey teams.

Lester Robinson was the high scorer with 15 points in the first contest, while Adamson scored 20 for Turkey. This game was close most of the way.

Betsy Trapp led the Rockettes scoring with 30 points, and Sherry Cuse had 25 for Turkey.

Farm Roads

54% of the new mileage added in the program announced today is on school bus routes. And 50% or 118.3 miles are on rural mail delivery routes.

Not just the rural residents of the state have benefitted from the system, however. The Farm to Market system is equally a "market to farm" system, serving as the framework for distribution of manufactured goods and supplies moving from commercial and industrial centers throughout the state.

In recent years, the FM-RM system has assumed a new major role. A Texas Highway Department study shows that some 2,022 miles of FM-RM roads are used primarily or partially to provide access to 163 water reservoirs throughout Texas.

Roads on the FM system have opened up new scenic vistas and recreational opportunities to everyone. One third of the 6,900 miles included in the 10 Texas Travel Trails are on FM roads.

Major and Mrs. James C. Crosby and children, Linda, Cheryl and Teresa, of Kansas City, Kan., spent the week end here with his father, Mr. and Mrs. Howard Crosby.

Wellington and McLean girls, 7:00 p.m.
Samnorwood and Lefors boys, 8:30 p.m.

Second round play will begin at 9:00 a.m. Friday, and there will be other sessions at 12:30 and 5:30.

The girls consolation finals will begin at 12:30 Saturday, with the boys consolation following at 2:00 p.m.

The girls will play for third place at 3:30 and the boys at 5:30.

The girls championship finals will start at 7:00 p.m. and the boys game at 8:00.

Officials will be Kent Pence, Bob Hawkins and Eugene Wheeler of Hollis.

Ordinance Passed Monday

Gas Rate Increase Granted Lone Star

Lone Star Gas Company was granted a rate increase of 14¢ per thousand cubic feet within the Wellington city limits in an ordinance passed by the City Council Monday night, Dec. 1, Mayor John Coleman announced.

Lone Star, through the local manager, Harold Gattis, had asked a 16¢ increase, while the council had offered a 12.5¢ raise.

The rate adjustment was agreed upon in the Monday night meeting. It set a minimum of \$1.64 net for the consumer who uses 1,000 cubic feet of gas or less per month.

The new rates will be effective with the first gas bill rendered after the final approval of the ordinance, the mayor said. They apply to both residential and commercial users.

This was declared an emergency and only one reading was necessary for the ordinance to be put in effect.

In approving the increase, the City Council set both the net rate to apply to all bills paid within 10 days from the monthly billing date, and the gross rate to be applicable thereafter.

The rate agreed upon by the City Council and Lone Star is as follows:

The first 1,000 cubic feet or fraction thereof, \$1.8222 gross or \$1.64 net.

Next 24,000 cubic feet at \$.9989 per Mcf (thousand cubic feet) gross, \$.899 per Mcf net.

Nert 25,000 cubic feet at \$.8989 per Mcf gross, \$.809 per Mcf net.

Nert 25,000 cubic feet at \$.7989 per Mcf gross, \$.719 per Mcf net.

All over 75,000 cubic feet at \$.6989 per Mcf gross, \$.629 per Mcf net.

The application for the rate increase made in mid-October, was the first major request since 1953, and was based on an income deficiency in the Wellington distribution system. It cited increased cost of gas, higher property and equipment costs, increased wages and salaries, higher interest rates on borrowed money and increased taxes as the primary reasons for the deficiency.

Men In Service

Adam Garcia, stationed at Camp Eagle, Vietnam, has been promoted to E-4 rating, he told his mother, Mrs. Eddie Saldana in a recent letter.

Just a few days earlier, he added, Major Dennis Cudd, another Wellington man, had visited him.

The two were stationed across the road from each other.

For the three days before he wrote, Garcia and his unit had been on duty at Mai Toc, near Quan Tic.

Just the night before, he wrote, the men had been entertained by a troupe from Australia.

"The one thing that made the show good was that they had round eyes and not slanted eyes like the shows we've had before. We get more Koreans over here to put on shows. We had one American group and two Australian groups," he wrote.

Camp Eagle where the two Wellington men are stationed is in the extreme northern part of South Vietnam, near Phu Bai.

Mr. Gattis estimated that the raise will increase the average monthly residential gas bill by approximately \$1.34.

Lone Star serves about 1375 customers in Wellington.

The ordinance, as it was approved is printed in full as a legal notice on another page of this issue.

Three Hurt in Three-Vehicle Collision Friday

Two Wellington women and a Dodson man were hospitalized for injuries received in a three-vehicle rear end collision about 2:30 p.m. Friday, Nov. 28.

Mrs. Lois O. Tyson and Mrs. C. E. Francis remained in St. Joseph's Hospital Tuesday evening. Joe Lennon, principal of the Dodson School, was released Saturday.

W. R. Adams and 12-year-old Mark Tyson were also in the accident but were not admitted to the hospital.

Patrolman Doug Wright, who headed the investigation, said the accident occurred a mile east of Wellington on FM Road 338, with all three vehicles traveling east.

Mr. Adams was driving a 1970 pickup, while Mrs. Tyson, her son and Mrs. Francis were in a 1966 Oldsmobile sedan, and Mr. Lennon was driving a 1964 Chevrolet, according to the patrolman.

Damage to the three vehicles was heavy, Patrolman Wright said, but apparently none of those injured was in serious condition.

Scout Fund Drive

—from page one
of today's leaders are former members of Scouting and can attest to the year 'round program it provides.

Wellington has had a working part in the development of the new Council Scout Camp, Camp M. K. Brown, located between Wheeler and Mobeetie. Troop 32, under the direction of Scoutmaster Glen McLain and working with Samnorwood's Troop 39, have been developing Campsite One. This Campsite, one of the 12 permanent sites in the camp, enables Scouts to have a place to camp and includes the planting of trees and shrubs, complete water and sanitary facilities, and the erection of gateways, fences and permanent fixtures.

As this annual campaign gets under way, Mr. Sullivan points out the importance of this largest boys program in the country today and the effect it has on tomorrow's citizens. Quoting a statement made by Robert Dwight of Samnorwood: "Today's Scouts are tomorrow's citizens of the world. Let's respond generously and support this organization that affects the lives of boys in our town," Sullivan concluded.
