FORT WORTH, TEXAS, WEDNESDAY, JUNE 29, 1904

VOL. XX. NO. 357

# ALL RUSSIA AWAITING NEWS OF THE BATTLE

### MORE CONFIDENCE EXPRESSED NOW THAT IT IS THOUGHT NONE OF THE RUSSIAN WARSHIPS WERE ACTUALLY SUNK AT THE MOUTH OF THE BAY AT PORT ARTHUR — TWENTY-TWO DEAD IN A SUBMARINE

ST. PETERSBURG, June 28, 1:30 p. m.—The whole city is awaiting with breathless interest news from the opposing armies in Southern Manchuria, which are grappled in the decisive battle of the campaign. Those fully appreciating the almost impassable country through which the Japanese columns are advancing and the difficulty of moving large bodies of troops into position, hardly expect the battle to begin in earnest inside of several days, although admitting that fighting between the advance force may now be in progress.

The papers, with the exception of the Novoye Vremya, are unanimously of the opinion that a pitched battle is certain. The former is silent on the subject, especially as to General Kuropatkin's movements, which are shrouded in mystery. The Novoye Vremya says:

"The time for strategy has passed. Not knowing the exact position of our forces we can not state what General Kuropatkin intends to do. It is possible he may consider it unprofitable and unprofitable to enter upon a decisive engagement with all his forces, in which event, while engaging the enemy, who are pouring troops down upon him, he may move northward for reinforcements."

The tone in both public and official circles is greatly improved. The report that the Port Arthur squadron has successfully put to sea and no ships have been actually sunk seems to have removed the despondency and developments on land and sea are looked forward to with increased cheerfulness. Confidence manifested in the influence the navy will have upon the campaign and many people are inclined to attribute the Japanese precipitancy to get at Kuropatkin to the fact that a squadron at large threatens Japanese army's sea communication.

Special dispatches say that Major General Istchenko's division, which has been engaged in constant fighting in the vicinity of the mountain passes over which the Japanese are advancing. One dispatch says that the country is almost impassable, but that Istchenko retired only when the enemy appeared in overwhelming numbers. One correspondent figures that General Kuroki has 70,000 troops, he being in personal command of 25,000 men at Dalien Pass.

General Kuropatkin has issued an army order insisting on kindest and most humane treatment of Japanese prisoners and wounded, notwithstanding the tales of atrocities committed by the Japanese.

## FORTS NEAR PORT ARTHUR ATTACKED

TOKIO, June 29, 3:30 p. m.—It is unofficially reported that the forts south of Port Arthur were attacked and captured by the Japanese Sunday. No confirmation of the report is obtainable.

## EMPEROR NICHOLAS WILL INSPECT SHIPS

ST. PETERSBURG, June 29.—The emperor today inspected the condition of the ships of the squadron destined for the far east. High Admiral Grand Duke Alexis, commander-in-chief, Grand Duke Vladimir and Marine Minister Avellan and many officers of the admiralty are to accompany the emperor who arrived there on his yacht from Peterhof.

Rear Admiral Von Voelkersam, junior flag officer, hoisted the flag on the armored cruiser Admiral Nakhmoff, which with other vessels of the squadron now in his command fired the imperial salute. The Admiral Nakhmoff is greatly changed in appearance since she visited New York in 1893. Masts and rigging have given place to fighting tops and she has been altogether refitted as a modern fighting ship.

## SUBMARINE BOAT SUNK AT BALTIC WORKS

ST. PETERSBURG, June 29.—Twenty-two sailors were drowned at the Baltic works today during the explosion of a submarine boat, which has been converted into a submarine boat. Four officers and thirty men were on board when the signal was given to submerge the boat without first properly closing the manhole. The result was that the vessel sank.

## CHINESE REPORT BOAT ON THE ROCKS

CHEFOO, June 29, 2 p. m.—Chinese arriving from Port Arthur report a large vessel, presumably a Russian vessel, on the rocky ten miles south of the ninth person now confined in the jail on this charge, eight of them having already been convicted, and are waiting to be sent to the asylum, but the present crowded condition of that institution precludes their admission.

## TRAVIS COUNTY JAIL FILLED WITH INSANE

AUSTIN, Texas, June 29.—From present conditions it seems that the Travis county jail is resolving itself into an insane asylum. Bob Woods, a negro from Manor, was placed in jail today, charged with lunacy. This makes the ninth person now confined in the jail on this charge, eight of them having already been convicted, and are waiting to be sent to the asylum, but the present crowded condition of that institution precludes their admission.

## EDUCATORS ATTEND FAIR INSTEAD OF MEETING

### Attractions of the Exposition Are Too Much for Teachers at St. Louis

### MAXWELL IN THE LEAD

Probable That the New York Superintendent Will Be Elected President

ST. LOUIS, World's Fair Grounds, June 29.—When the second day's session of the forty-third annual convention of the National Educational Association was called to order it was found that the attraction of the World's Fair had proven a magnet that had drawn away a considerable number of educators and somewhat diminished the attendance as compared with that of yesterday.

The election will be held tomorrow. No candidates for the presidency have been announced. Indications, however, point to the election of W. H. Maxwell, superintendent of schools of Greater New York. According to present plans it is stated that Superintendent Maxwell will be presented by New York to the nominating committee.

The general sessions were resumed at 9:15 o'clock this morning. The program included the presentation of papers as follows: "The New Departure in Secondary Education," J. J. Shepard, principal of the High School of Commerce of New York city; "The Place of the Small College," President George A. Gates, of Pomona college; "Educational Possibilities for the Country Child in the United States," O. J. Kern, superintendent of schools of Winnebago county, Illinois.

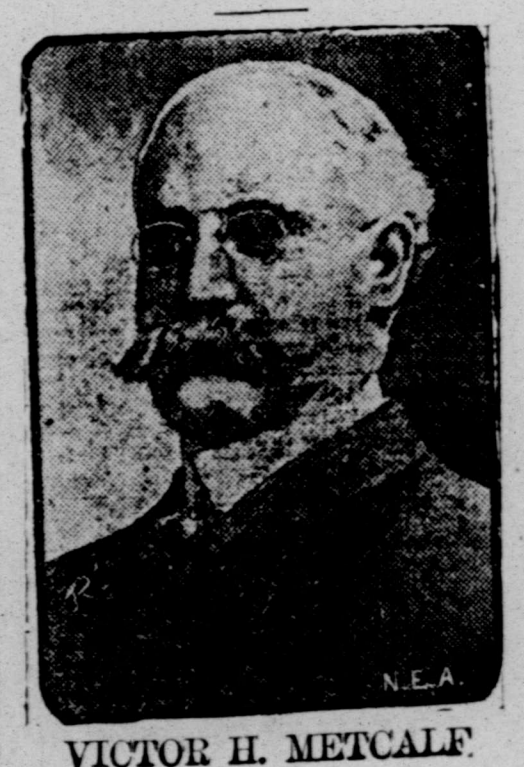

No general session of the convention was held this afternoon. A large majority of the delegates devoted the time to sight-seeing at the exposition and to an inspection of the numerous educational exhibits. Those who were not thus employed took part in the numerous sectional conferences where special branches of educational work were exhaustively discussed. As at previous conventions of the association these side conferences are proving interesting features of the gathering. All of them are well attended and the speakers include scores of the foremost educators of America.

The program calls for a general meeting this evening at which the chief speaker will be Halsey C. Ives, chief of the department of art of the exposition. Mr. Ives will tell the teachers of the art exhibits in the exposition. The general sessions will be resumed tomorrow morning.

## VALLEYS ARE FLOODED BY A CLOUDBURST

PITTSBURG, June 29.—Over five hundred homes, business houses and school houses a short distance from Pittsburg on the Panhandle railroad, are inundated from two to ten feet by water in Robinson's Run Hollow and the Charters Valley by a cloud burst there last night. Many buildings and bridges were washed away, horses and cattle drowned and at least one life lost. It is rumored that others perished, but reports have not been verified. There were many narrow escapes.

## NEW SECRETARY OF COMMERCE AND LABOR

VICTOR H. METCALF

## STEAL WIFE AT PISTOL'S POINT IN SAN ANTONIO

SAN ANTONIO, Texas, June 29.—Plutarco Navarro was robbed of his wife by two highwaymen six miles south of the city this morning early.

Sheriff Tobin, Constable Stevens and Marshal Irvin arrested Manuel Perez, Juan Ronquel and five other Mexicans and brought them to the city. Constable Stevens made an affidavit before Justice Umsted against Perez, charging him with criminal assault.

When his wife was taken from him, Navarro left a companion on the scene and hurried to the city to notify the officers. He told his story first to Constable Stevens, who at once notified Sheriff Tobin, who organized a posse and left for the scene in an automobile. He was accompanied by Marshal Irvin, Constable Stevens and Deputy Sheriff Villareal and Navarro.

Navarro's story of the crime is a thrilling one.

**DRAINED THE WOMAN INTO BRUSH**  
He and his wife and another man were walking toward the city on the Quintana road about 8 o'clock this morning. When they reached a place in the road where the brush grew thick, two men sprang from the cover of the mesquite, presenting revolvers at Navarro and his companion. The latter were unarmed and could make no resistance.

The men grabbed Mrs. Navarro by the arms and hustled her into the brush, paying no attention to her screams of terror.

Navarro asked his companion to remain in the vicinity and then hurried to the city to report the matter to the authorities.

He said the two bandits were Mexicans and he could identify them, as they had made no effort to conceal their faces. Navarro is a young Mexican and his wife is a young woman.

When Sheriff Tobin heard the story he at once telephoned for an automobile. Marshal Irvin was in his office and was invited to accompany the party. Within ten minutes they were in the automobile speeding southward toward the scene of the outrage.

On the way to the scene the officers met Mrs. Navarro and took her into the automobile with them. They made the trip to the scene of the crime in forty minutes.

Mrs. Navarro said that one of the men had assaulted her. She said she could identify her assailant. When the party reached the scene they saw a Mexican dodging through the brush and gave chase. He was captured. Another man was captured near by and both Navarro and his wife identified them as the men who had seized Mrs. Navarro. She identified Perez as the man who she said had assaulted her. She said Ronquel held her husband at bay with his revolver while Perez dragged her into the brush.

The officers went to a camp of Mexicans near by and arrested the men there and will hold them as witnesses.

## DEADLY DUEL TAKES PLACE IN BEAUMONT

### CLAUDE ROBERTS OF BEAUMONT AND FRED GRINNAN OF TERRELL ENGAGE IN SHOOTING MATCH IN CROWDED STREET, IN WHICH THE LATTER IS PROBABLY FATALY HURT—ROBERTS IS IN CUSTODY—AN OLD GRUDGE THE CAUSE

BEAUMONT, Texas, June 29.—Claude Roberts, formerly of Terrell, now a prominent citizen of Beaumont, and Fred Grinnan, a business man of Terrell, engaged in a street duel this morning, in which the latter was probably fatally wounded. A bullet passing through his lungs and another through his mouth, Roberts was not hit.

The shooting is attributed to an old feud. Four years ago Grinnan killed Fred, brother of Claude Roberts, at Terrell and was acquitted a year ago.

Grinnan is a nephew of Mrs. Horace

Chilton and arrived this morning to attend the marriage of her daughter to Chemant O'Brien, prominent in legal and social life and chairman of the democratic executive committee. Roberts and Grinnan met at an early hour and the shooting began.

The former is in custody and the latter is in the hospital, with slight chance of recovery.

Several shots were fired in the heart of the business center of the city. The street was crowded. A negro received a flesh wound from a wild bullet.

## DIAZ ANNOUNCES HE IS ELECTED PRESIDENT

EL PASO, Texas, June 29.—President Diaz of Mexico has issued a proclamation that inasmuch as there were no other candidates for the office of president and vice president in Sunday's and Monday's

election except himself and Ramon Corral, they are elected for six years. The board of electors will convene in Mexico City July 10 to confirm this result.

## ANOTHER TRAIN LOAD OF MINERS HELD AT COLORADO SPRINGS

COLORADO SPRINGS, Colo., June 29.—Another train load of deported men has been sent out from Victor with orders to unload the men at Colorado Springs. But upon the arrival of the train here Captain Moore, in charge, was met by Chief of Police Reynolds

and a force of policemen and ordered not to permit the men to leave the train. The train is being held awaiting the result of efforts on the part of the military and police to arrange for transportation for the men to Palmer Lake or Denver.

## FIVE ARRESTED IN STREET CAR STRIKE

### The Company at Houston Will Push Prosecution Vigorously for Alleged Violence

HOUSTON, Texas, June 29.—Five men were arrested this morning on grand jury indictments for stoning street cars during the strike. There is to be a vigorous prosecution. Three gave bail. There is to be a contest because H. F. MacGregor, vice president of the street car company, was a member of the grand jury. One special officer on the car was struck by a stone in the suburbs last night. A labor mass meeting is called for Tuesday night in the interest of the strikers.

## VIOLIN BRINGS SUM OF \$3500 IN LONDON

NEW YORK, June 29.—A violin by Antonius Stradivarius has been sold for \$3,500, says a London dispatch to the Times. It was once owned by a street musician well known to Londoners. He bought the instrument originally for \$6 and sold it, after several years use, for \$125.

## WACO DENTIST IS RELEASED ON BOND

WACO, Texas, June 29.—Dr. J. O. Howard, the dentist of Waco who was arrested in Fort Worth in connection with a check he had given was brought here and waived examination before Justice N. B. Williams. His bond was fixed at \$500, which he gave, and was released.

## RAILROAD SHOPS AT PALESTINE CLOSED

PALESTINE, Texas, June 29.—Notice was given the employees of the International and Great Northern shops yesterday that they would be laid off until July 1. This will greatly decrease the payroll here next month. Many of the employees will take advantage of the free trip to St. Louis during their lay off.

## SECRETARY OF NAVY

PAUL MORTON

## T. JEFFERSON'S THE ONLY PORTRAIT TO BE HUNG

### Democrats in Convention Will Look Only on Picture of Sage of Monticello

## PLANS FOR DECORATION

### Hall Will Present Gala Appearance With Red, White and Blue Predominating

ST. LOUIS, June 29.—It is stated at the headquarters for the national democratic convention which will convene in the Coliseum July 6, that the only portrait that will be hung in the convention hall will be one of Thomas Jefferson. John I. Martin, temporary sergeant at arms of the convention, said it would hardly do to have the portrait of living democrats displayed as permanent fixtures in convention hall.

Plans for decorations have been completed and the large hall will present a gala appearance. Red, white and blue will predominate, but the Louisiana Purchase Exposition colors will be a feature of the decorative scheme. The dome of the hall will be formed of ochre bunting. The walls will be decorated with the national colors exclusively and the stage will be done in a star spangled effect. Coats of arms of several states and territories will be placed at intervals along the walls and on the platform. The standards indicating seats of the delegations will be white, with red rims and blue letters.

## BURLINGTON ROAD IS REORGANIZED

### Many Changes Made in Operating Department of Lines East of Missouri River

CHICAGO, June 29.—Official notice has been given of the reorganization of the operating department of the Burlington road so far as its lines east of the Missouri river are concerned. The position of general superintendent of the Chicago, Burlington and Quincy, held by F. C. Rice, has been abolished, and the lines east of the river divided into three districts each in charge of a general superintendent.

Mr. Rice has been appointed general inspector of transportation for the entire system. This is a new position, and in creating it the Burlington is following the lead of the Southern Pacific. Mr. Rice will act wholly in an advisory capacity.

The lines east of the river are now known as the Iowa, the Illinois and the Missouri districts and the following general superintendents have been appointed: H. D. Judson, to be general superintendent of the Illinois district, with headquarters in Chicago.

H. C. Nutt to be general superintendent of the Iowa district, with headquarters in Burlington.

Henry Miller, to be general superintendent of the Missouri district, with headquarters in St. Louis.

## FORBID GAMBLING AT RACE TRACKS

NEW YORK, June 29.—Some of the big life insurance companies and several of the largest stores in the city have begun a war on race track gambling among their employees. One company has issued a circular notifying its clerks that even their presence at a race course will be counted sufficient cause for dismissal. In a large department store betting was found to be rife among young clerks and even cash girls. Their medium of gambling was learned to be a hand bookmaker who visited the store daily, taking wagers as low as 10 cents.

## GOVERNMENT TROOPS REPULSED WITH HORSES

### THEIR LOSSES ARE 1400 KILLED AND WOUNDED, WHILE THAT OF THE URUGUAYAN REVOLUTIONISTS IS NOT HALF THAT—BIG QUANTITIES OF WAR SUPPLIES CAPTURED BY THE VICTORS WHO OCCUPY ADVANTAGEOUS POSITIONS

## YALE AND HARVARD IN ANNUAL RACE ON THAMES

### Former Is Thought to Have Best Chance to Win the Eight-oar Contest

## STRONG HARVARD FOUR

### These Events Mark the Fifty-third Annual Contest of These Two Colleges

NEW LONDON, Conn., June 29.—After weeks of faithful preparation the Yale and Harvard crews are trained to the minute for the crowning test of their oarsmanship on the Thames tomorrow. The city is rapidly filling with students from the two colleges together with their fathers, mothers, brothers, sisters and sweet hearts, while from near and far are rallying the old guard of alumni, who will tomorrow yell themselves hoarse, as they have so many times before along the historic course. The harbor is rapidly filling with yachts, and the race will be witnessed by many distinguished visitors.

The final details of the contests were arranged today. The program as laid out calls for the starting of the freshman race at 10:30 o'clock tomorrow morning from the big bridge two miles upstream. The varsity four-oared crew race will start from the point where their freshman race terminates. The distance will be two miles upstream. The observation trails will then go back four miles to the head of the course, and start downstream at 12:30 o'clock over that heart-breaking stretch of four miles. Should the water be too rough the varsity race will be deferred until about 4:30 p. m.

Among the arrivals today are many old-time oarsmen, who predict that the races this year will not be as close as usual. Either one college or the other seems to have a decided advantage in each of the three events. Yale seems to have a mortgage on the main event of the day, the varsity eight-oared contest. Harvard seems to have a good chance of winning the historic Yale-Harvard races.

For fifty-two years, with occasional intervals, the crews of Harvard and Yale have battled, the rival colors having been borne during all those years by four, six and eight-oared crews. In the thirty-eight races that have been rowed in that time, since the initial contest in 1852, two points now separate the contesting universities, Yale having won twenty races and Harvard eighteen. Of the races that have been rowed on the Thames, Yale has won sixteen and Harvard seven.

During the early years of the contests the events were rowed on Lake Quinsigamond. In 1878, however, the event was held on the Thames, and with the exception of three years since that time the event has been an annual fixture and on the Thames court. Lake Quinsigamond was abandoned as the place for holding the races in 1869, and in the following year the crews met at Lake Saltonstall. The next year Springfield was chosen for the event, and after that the Thames at New London.

Early in the history of the event it was rowed over a two-mile course, which was increased to three miles in 1855. Again the distance was increased in 1876, this time to four miles, which has been the length of the varsity races ever since. Yale holds the record for this distance, having covered the course in 1888 in twenty minutes and ten seconds. Harvard's last victory was in 1899, since which time Yale has had four successive victories.

## GETS WORD OF THE DEATH OF DR. SHUFORD

AUSTIN, Texas, June 29.—H. A. Turner, bookkeeper in the asylum hands department of the state treasurer's office, received a telegram yesterday evening, stating that Dr. Q. C. Shuford, his grandfather, had just died in Tyler.

Dr. Shuford was one of the most prominent physicians and citizens in East Texas, having practiced medicine in Tyler and other places in that part of the state for more than a half century. He was an octogenarian, and had lived for some years in comparative retirement.

Dr. Shuford had personal and professional friends all over the state, who will regret of his demise with regret.

**THE WEATHER**  
Arkansas—Tonight and Thursday, partly cloudy and probably scattered showers.  
Oklahoma and Indian Territory—Tonight and Thursday, increasing cloudiness and probably scattered showers.

## NEW YORK, June 29.—Dispatches from Bage, a Brazilian town near Uruguayan frontier, state that a courier sent by Saravia has arrived there with a report of the battle at Tupambae, Uruguay. The fighting began on Wednesday of last week and continued the following day.

The government forces had six hundred killed and 800 wounded, while the revolutionists suffered 100 killed and 600 wounded. The revolutionists captured a big quantity of war supplies.

Another dispatch from Bage says the rear of the revolutionary force under Mariano Saravia, brother of the leader of the revolution, is pursuing the government troops under General Benavente. The revolutionists occupy excellent positions.

## 38 LICENSED FOR PRACTICE OF LAW

AUSTIN, Texas, June 29.—The examination papers of the applicants for license to practice law made to the board of legal examiners of the Third supreme judicial district have been graded and passed on by the board. All the applicants, thirty-eight in number, passed and received their licenses. The highest grade made was 97 out of a possible 100, and the average for the thirty-eight applicants was 92, which is considered a highly creditable record for these young men to make.

## SEND IN SAMPLES ALONG WITH BIDS

AUSTIN, Texas, June 29.—A large number of bids for furnishing the state institutions with supplies for the next year were received by State Purchasing Agent Anderson today. These bids were accompanied by samples, which were opened and displayed and the department had the appearance of a general mercantile establishment. Today at 10 o'clock was the hour set for the bids to close.

## ESTIMATES ON GRAIN CROP NOW HARVESTED

WACO, Texas, June 29.—Estimates of the percent of the grain crop of this section already harvested and safely housed vary somewhat, but range from 75 to 85 per cent of the whole amount. This makes a good showing, as practically all the grain which has been threshed is in much better condition than usual, owing to the fact that there was not so much rain as ordinarily marks this period. The crop has been turning out rather better than expected, too, and this accentuates the favorable condition. But little fear is felt about the cotton by many, as with other crops made they argue that even should cotton make a light yield, it will bring much money into the country, owing to the price it will be certain to bring.

## PERDIGARIS IS TO HAVE A REST

NEW YORK, June 29.—Messrs. Perdigaris and Varley, just rescued from the Moorish brigands, are expected by their families to spend the summer in the Berkshires. Oberlin, says a Herald dispatch from Geneva, Switzerland.

Physicians recommend absolute rest for Mr. Perdigaris and it is probable that the families will not return to Morocco for some time.

## LITTLE DECREASE JULY DIVIDENDS

NEW YORK, June 29.—Despite several suspensions of payments by industrial companies and occasional omissions by railroads, the total of July dividends apparently will fall but little below the record figures of last summer, while it runs slightly ahead of the total for last January.

Dividend payments due July 1 are estimated at \$5,500,000 and interest payments at \$7,250,000. The only noteworthy feature of the statistics is a decline of over \$3,000,000 in payments by industrial concerns, as compared with July, 1903. This is accounted for, however, by the suspension of dividends on the common stock of one great corporation.

## NOTED TENOR HAS ACCIDENT TO ARM

WACO, Texas, June 29.—Charles Smith, Jr., son of Charles W. Smith, who was stricken with paralysis last Sunday, could not come to Waco at once to see his father, owing to the fact that he had just suffered an accident. He was in a railway collision and had an arm broken. He is now in New York. Young Charles is the noted tenor, and has been traveling in a well known company some time.

**SEND STUDENTS TO BELGIUM**  
PEKIN, June 29.—The governor of the province of Hu Nai has decided to send three students to Belgium for the purpose of studying mining and engineering.

H.C. Stripling THE PRICE IS THE THING.

New Goods and What It Means to You!

It means a freshening of stock, and pleasant surprises amongst this store full of bargains.

NEW, NEW—EXTREMELY NEW

This new Linen Sheeting. The idea of making it into Suits has been so popular that we have been unable to keep up the supply...

NEW MILLINERY

Out of the Millinery room comes news of the arrival by express of new Sailors in duck and pique, \$1.50 to \$2.00 Flowing Veils—St. Louis again says these are popular with white suits...

\$1.50 ones for .98c \$1.00 ones for .75c New Sample Sailors, sample priced, \$1.00 to \$2.00

A lot of new Voile Skirts that some stores would ask \$7.50 for that we offer you for \$5.00 25 new light Novelty Skirts, in pearl and other pretty light shades—Skirts that look as good as ones for twice the price, for \$3.50 and \$3.00

NEW SHIRT WAISTS

Plenty to choose from—too many to describe; but a saving to you of one-third of what the price ought to be. Price from \$3.50 at different prices down to .75c

NEW SHOES. NEW SANDALS. NEW TANS

Newness invades the shoe department this week—not only in new shoes, but the new fad claims your attention.

THE NEW SANDAL

No more stubbing the toe or spreading and spoiling the shape of the foot. The Sandal prevents that and still allows the freedom of barefoot pleasure. Come and see them. We have them in tan and white duck.

Sizes 5 to 8 only .50c Sizes 9 to 11 only .75c Sizes 12 1/2 to 2 . \$1.00 Sizes 2 1/2 to 8 . \$1.25

NEW TANS

Scarceness has kept the price, but this stores comes to the front, as it always does, with tans—Stripling priced. New Tan Oxfords, having the style of the \$4.00 and \$5.00 ones, light sole, Cuban heel, chocolate and tan stitched, for only \$2.50

WEATHER FORECAST

Little rain fell in the state yesterday and clear conditions prevailed generally this morning, according to the reports received from the government stations.

FORECAST

The forecast for Texas east of the one-hundredth meridian, issued at New Orleans, is as follows: East Texas—Tonight and Thursday, increasing cloudiness and probably scattered showers.

BOTANIC B.B.B. BLOOD BALM

The Great Tested Remedy for the speedy and permanent cure of Scalds, Rheumatism, Catarrh, Ulcers, Sores, Eruptions, Weakness, Nervousness, and all BLOOD AND SKIN DISEASES.

WEATHER CONDITIONS

D. S. Landis issued the following statement of weather conditions this morning:

The southeastern portion of the country is dominated by high pressure, the center being over Florida, with clear conditions. A second area of high pressure is west of the Rockies, dominating the northwest, with clear cool conditions.

WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 3 a. m. and rain in inches:

Table with columns: Station, Temperature (Min, Max), Wind, Rain. Includes stations like Amarillo, Chicago, Denver, El Paso, Fort Worth, Kansas City, New Orleans, Oklahoma, St. Louis, St. Paul.

COTTON REGION BULLETIN Following is the weather record for the twenty-four hours ending at 3 a. m.

seventy-fifth meridian time, Wednesday, June 29, 1904.

Table with columns: Station, Temperature (Max, Min, fall), Rain, State of weather. Includes stations like Abilene, Ballinger, Beeville, Blanco, Brenham, Brownwood, Corpus Christi, Corsicana, Cuero, Dallas, Dublin, Fort Worth, Galveston, Greenville, Hearne, Henrietta, Houston, Huntsville, Kerrville, Lampasas, Longview, Luling, Nacogdoches, Palestine, Paris, San Antonio, San Marcos, Sherman, Temple, Tyler, Waco, Waxahachie, Weatherford, Wharton.

DISTRICT AVERAGES Table with columns: Station, No. Stations, Temperature (Max, Min, fall), Rain. Includes stations like Atlanta, Augusta, Charleston, Galveston, Little Rock, Memphis, Mobile, Montgomery, New Orleans, Oklahoma, Savannah, Vicksburg, Wilmington.

REMARKS South Carolina reports 1.68 rainfall at Blackville. All the districts report showers. Montgomery having .34, the highest. Texas is generally clear. The southeastern portion of the state reports rain.

NOTICE OF PRIMARIES

Fort Worth, Tex., June 28, 1904. The Democratic Party of Tarrant county will, on the 9th day of July, 1904, at the following polling places in said county, hold its county primary election for nominating candidates, and will also hold primary conventions on said day at said places for selecting delegates to its county convention, to-wit:

IN THE COURTS

DISTRICT COURT The case of July 5, which is still being heard in the Seventeenth district court. This case is being argued today. The damage case of W. R. Moore vs. the Texas and Pacific Railway Company is still in Forty-eighth district court.

MARRIAGE LICENSES

George F. Thompson and Miss Rosa B. York; John L. Noyes and Miss H. L. Tisner; W. C. Foider and Miss E. F. Williams.

PLEA OF GUILTY

A negro named Hattie Ferrell, who has been in jail several days, pleaded guilty to an aggravated assault charge and was fined \$25 by County Judge Milam.

SEVENTEENTH CIVIL JURY DOCKET

The following cases are docketed for trial July 5 in the Seventeenth district court: Goodall Commission Company vs. J. K. Cobb et al, E. B. Anderson vs. W. C. P. Texas Traction Company, C. H. Robert and O. Co., Mary D. Thayer vs. Northern vs. Goetz Flooring Manufacturing Texas Traction Company, C. H. Robert Company, J. E. Engleton vs. W. B. E. Smith, E. D. Murray vs. Fort Worth and Denver City Railway Company, Myrtle Murray vs. Fort Worth and Denver City Railway Company, Charles Fournier vs. Allen Goss.

FEDERAL COURT

A voluntary petition in bankruptcy was filed this morning in the federal court by John McDonald, an architect and contractor of Pinta, Jack county. The petitioner states his liabilities as being \$14,717.89. No assets whatever are given in the petition.

ALL SHOULD EMULATE THE JONES FAMILY

WACO, Texas, June 29.—S. L. Jones has returned from a family reunion at Beaumont. Mr. Jones is a well known newspaper man of Waco. The reunion of the Jones family are held annually first with one member and then another, and nothing but sickness prevents attendance. Speaking of these family reunions, a well known gentleman of Waco remarked that it spoke well for any family to show such interest in each other, and that it was a great pity such gatherings were not more numerous, thus strengthening family ties, adding to family pride and the preservation of family history, beside affording a pleasurable and commendable manner in which to spend some time each year. In his judgment the people of all new countries give too little attention to family reunions and to keeping up the ties which should bind members of such families together.

NEBRASKA TORNADO CAUSES DEATH TO TWO

HOLMESVILLE, Neb., June 28.—A tornado struck near this place, killing two persons, fatally injuring a third and causing the severe injury of five others. The dead: Two children of R. J. Harris, 6 and 9 years.

VERDICT HOLDS BOAT DIRECTORS

NEW YORK, June 28.—The inquiry conducted by Coroner Berry and a jury in the General Slocum disaster was concluded today and after nearly four hours' deliberation a verdict was rendered in which the directors of the Knickerbocker Steamship Company, the captain of the Slocum, Captain Pease, the commodore of the company's fleet, and others were held criminally responsible. Warrants for their arrest were issued. The mate of the Slocum, according to the jury, acted in a cowardly manner, and the conduct of the Steamship Inspector Lundberg, it was recommended, should be brought to the attention of the federal authorities.

VRIGINA COLLEGE

For YOUNG LADIES, Roanoke, Va. Opens Sept. 25, 1904. One of the leading Schools for Young Ladies in the South. New buildings, pianos and equipment. Campus ten acres. DOES NOT APPROVE WHIPPING POST

Judge Prewett Criticizes Kentucky Institution as a Step Backwards

Judge Prewett of the corporation court does not entirely approve of the whipping post as instituted at Lexington, Ky., yesterday and as already existing in Delaware. "There are many people who deserve the whipping post," said the judge this morning, "and it would doubtless have more terrors for certain classes of offenders than the present method of imprisonment. But, on the other hand, there is a question whether it is not taking a step backward. In the advance of civilization, corporal punishment of this sort has been relegated to the past and it is doubtful if its re-establishment would be a wise move. "It is possible that civilization has moved too fast and that we should still have the whipping post, and it would undoubtedly be no more than certain persons deserve. Nevertheless, I am still doubtful of the propriety of its re-establishment. "Members of the police force generally feel that it would have a good effect upon the conduct of many who appear in court time after time, and who seem to welcome incarceration as a means of having their food supplied.

HUMANE SOCIETY FOR FORT WORTH

Organization on Foot to Prevent Cruelty Toward the Dumb Animals

A humane society to be known as the "Texas State Humane Society," is being organized in this city. The society is for the prevention of cruelty to children and animals. Fort Worth has long needed a good organization of this kind and many prominent citizens have signed their names, pledging their support.

WHAT WILL BE DONE

The organization in Fort Worth, though yet in embryo, has many plans on hand, which, if carried out, will mean a great deal to the city of Fort Worth and the state of Texas.

A HOSPITAL STABLE

One of the aims of the society is to establish a hospital stable for sick horses and animals. In this way much suffering among the dumb animals will be done away with.

TO ASK FOR LAWS

In the statutes of the state of Texas there is small provision in regard to cruelty to animals. The society here, with the aid of those in other Texas cities, will endeavor to have the legislation pass more and stricter laws, so that the life of the dumb beast will be amply protected.

MEETING TOMORROW NIGHT

In the mayor's office tomorrow night at 8 o'clock there will be a meeting of the society. All persons who have pledged their support are expected to attend the meeting, and it is earnestly desired that every one who is interested in the welfare of children and animals come and give their aid.

THE ORGANIZER

The movement for a humane society was put on foot by F. De Brichy of 750 East Front street. Mr. De Brichy has been actively engaged in humane work all over the country. Besides having done work in this line in New York City, he has been a member of the humane societies of Salt Lake City, Utah, and Galveston, Texas.

NEBRASKA TORNADO

HOLMESVILLE, Neb., June 28.—A tornado struck near this place, killing two persons, fatally injuring a third and causing the severe injury of five others. The dead: Two children of R. J. Harris, 6 and 9 years.

Thursday is Mid-Week BARGAIN DAY!

DON'T MISS THESE THURSDAY BARGAINS—For every one of them is worth walking a good strong mile after, in the face of this hot June sun.

At the Wash Dress Goods section a case of fifty pieces of Wash Goods, bought at half price, will be put on for this day, worth 10c, for .5c

Not more than two dresses to a customer. At the Next Table—The best of the season—a lot of Lawns, Batiste and Swisses—new goods, small figures and stripes—values up to 20c and 25c—all at one price, per yard .10c

Towel Sale—These prices are just about half—5c, 10c, 15c and 19c; large, generous size. New Duck Hats—Something different just in yesterday; not \$2.50 and \$3.50, but 98c and \$1.25

Our sale of White Goods, Embroideries, Laces and Ribbons, holds good another day—about half others' prices.

Burch & Prince, SECOND AND HOUSTON STREETS.

LEWIS, and a 6-year-old daughter were unable to escape

Great damage to crops was done and several farm houses were destroyed, but the occupants sought safety in cellars. In Holmesville several buildings were blown to pieces and others unroofed, but no casualties are reported.

THE OIL TRUST HITS BACK AT LAWSON BOSTON, June 29.—As a result of information from Henry H. Rogers, the Standard Oil magnate, the property of Albert C. Burrage, the copper millionaire

of Boston, is under attachment of \$17,000.

In the course of a two hours' examination of Mr. Rogers in New York last Friday in the suit of Terry E. Wardner against Mr. Larrage, it is reported that Rogers revealed some secrets concerning gas affairs and implicated Mr. Burrage in certain sensational deals.

Rumor also said that Mr. Rogers took occasion to get back at Mr. Lawson for his hostility, and that he told things about Mr. Lawson and former gas deals. Mr. Lawson declares that Mr. Rogers' testimony could not hurt him.

Getting Mr. Rogers on the witness stand was a victory for the plaintiff. Deputy sheriffs have been dogging Mr. Rogers for weeks. Determined not to appear as a witness he remained away from his summer home in Fair Haven, only visiting there on Sundays. The strain was too much, however, and at last he surrendered and agreed to testify before a commissioner in New York. Mr. Burrage has also kept out of reach of sheriffs and away from the state.

FIRE DEVASTATES NEW YORK VILLAGE

Lake Placid in Flames That Cannot Be Checked—Call Is Sent for Outside Aid

SARANAC LAKE, N. Y., June 29.—Fire is reported to be devastating the lower half of the village of Lake Placid, a well known summer resort. The flames were discovered after midnight and spread rapidly.

The American house has been destroyed with the cottages and barns attached. Several other large buildings are threatened. There were no guests in the burned hotel.

Aid was asked from the Saranac department, which was unable to respond. A rainstorm has set in and may save the town.

CUT RATES SEND PEOPLE TO EUROPE

NEW YORK, June 29.—Cut rates in steamer passage eastward already have resulted in an enormous increase of that class of passenger traffic in Europe. On some lines cheaper tickets have doubled and in some cases tripled the volume of business usually done at this season of the year. In some cases persons wished to sail this week have been told that steamships were filled to their utmost capacity.

Steamship agents generally agree that the bulk of those who are taking advantage of the low rates merely desire to buy a short visit to their relatives at the other side and return, and that few are leaving America permanently.

Remember Banner Patterns 10 & 15c A. F. HARDIE SIXTH AND HOUSTON Successor to HARRIS DRY GOODS COMPANY

New Duck and Pique Hats shown in this Millinery Department.
Lots of New Goods coming in. See them and get prices.

Market Quotations

NORTH FORT WORTH, June 29.—Receipts of cattle at the yards today figured about forty cars, or close around 1,500 head.
There was a fairly good portion of well finished steers among shipments with the usual portion of the common and medium kinds. There was a good demand from packers for fat cattle, and all offerings that showed finish was taken early on a strong basis. The top price paid was \$4.80, for one load averaging 1,249 pounds, with several loads at a range of from \$3.80 to \$4.35. The same weak feeling prevailed for the light, thin and medium steers, and salesmen having this kind found it almost impossible to dispose of them, a good many of which were ordered out.
The cow supply was quite liberal and of fairly good quality. The demand was not very strong and trading was weak and slow, sales showing barely steady with yesterday.
Bulls were scarce and nothing very choice came in. Speculators wanted a few and by noon the supply was cleared up.
There was a good showing of calves on the yards of medium grade. There seemed to be a good demand from buyers, who were quoting the market strong, but salesmen contended sales hardly steady, the bulk landing around \$3.
With about 750 hogs on the market, trading was active. Lower markets at other points caused a weaker feeling here and while trading was active and the supply cleared up by noon, sales were generally on a 5c to 10c lower basis, compared with yesterday, the best load selling at \$5.27 1/2, averaging 221 pounds, with the bulk of sales at a range of from \$5.15 to \$5.20.
Sheep receipts were small, figuring about 100 head. There was a weak feeling early, but the supply finally sold steady with yesterday.

Table with columns: No., Ave. Price, No., Ave. Price. Lists various market items like cattle, hogs, and sheep with their respective prices.

Table with columns: No., Ave. Price, No., Ave. Price. Lists foreign market items like Chicago live stock, Kansas City live stock, and sheep.

Table with columns: No., Ave. Price, No., Ave. Price. Lists today's receipts for cattle, hogs, and sheep, and top prices for various items.

REPRESENTATIVE SALES STEERS—Receipts of steers were light today, with an assortment of all kinds. On all well finished steers good enough to sell around \$3.30 and up trading was active and strong, but on the common,

CARTER PROTESTS RATES ON LUMBER. AUSTIN, Texas, June 29.—A. M. Carter of Houston, president of the Emporia Lumber Company, is here before the railroad commission to protest against the order placing lumber in the class E2 rates. Bids for furnishing state institutions will be received for next year were opened at 10 o'clock this morning in the presence of the governor, controller and purchasing agent. Except for shoes all the bidders were Texas people.

Table with columns: No., Ave. Price, No., Ave. Price. Lists cotton market items like various grades of cotton.

LITTLE SOUBRETTE DREW BIBLE FROM UNDER HER PILLOW AND MADE RUDE MAN APOLOGIZE

SAN FRANCISCO, Cal., June 29.—Pretty little Edna Aug, the Cincinnati sourette now playing here was the innocent cause of a merry war of words between her managers and the management of the Palace hotel a few days ago.
The latter prides itself on the stringency of the rules governing the conduct of its guests. "Unchaperoned ladies must not receive gentlemen in their rooms," says the Palace code. But Edna was ill and unable to attend rehearsal, so her manager called at her room in the hotel and was putting her through her new specialty when the house detective knocked at the door and requested Miss Aug to step downstairs and settle her bill.
When the full import of the man's meaning became clear to Miss Aug she burst into tears, and reaching under her pillow she drew out a little worn bible and held it up. "Do you think a girl like myself could do a wrong thing?" she cried. Then the little woman was seized with hysterics and a wordy argument between the two managers followed with the result that Miss Aug triumphed and the Palace people humbly apologized for the humiliation suffered by the little sourette.

WILL MARK THE LINE WITH ALUMINUM-BRONZE POSTS

VANCOUVER, B. C., June 29.—Aluminum-bronze posts, about two and a half feet in height, especially manufactured for the purpose, and set at half-mile intervals, are to mark the international boundary line between Alaska and the British possessions, as determined by the London award.
Plans for surveying and marking the line are now being made, and the engineers who are to do the work are assembling. Professor W. F. King, British imperial government international boundary commissioner and chief astronomer of Canada, and C. A. Bigger, chief of the Canadian survey party, both of Ottawa, and O. H. Tittman, superintendent of the United States coast and geodetic survey, who will be the commissioner in charge of the American survey party, are already here.
Three parties will be put into the field, each composed of an equal number of Canadians and Americans. Each party will consist of about ten men in charge of a surveyor. Two of the parties will work on the valley of the Chilkat river, while the other party will go up the valley of the Stikine river and commence to establish the boundary there.

TOOK ONE LIFE TO PROTECT ANOTHER

SPOKANE, Wash., June 29.—"Yes, I killed the baby. I choked him with a string and it's there on his neck yet." Slowly and with much difficulty, but with a lack of feeling abnormal in a woman and a mother, Mrs. Jeannette Harris, wife of D. B. Harris, living on a 10-acre plot one mile out of North Yakima, admitted the murder of her infant grandson—a murder done in a shocking manner two days after birth to shield the character of her daughter, Pearl Harris, aged 19 years.
In the chill gray of the dawn Sunday, crouched under the shelf of a bank covered with rank weeds, within 10 feet of the body of the murdered infant, Mrs. Harris, urged by stern-faced detectives, who plainly showed their horror of the awful situation, told how she had taken one life in a crazed effort to protect another. It was a situation dramatic and dumbfounding.
Mrs. Harris came to the city Saturday with the intention of placing the babe in the Home for the Friendless, but those in charge of this institution refused to take the child because of its extreme youth. Then Mrs. Harris went from place to place trying in vain to find some one who would take the little babe. At last she wandered out into the hills with murder in her heart. And there alone she took the life of the child and hid the body in the weeds. She was about to return home when she was arrested.
The police believe there is a man implicated in the murder of the child, but his identity is not known.

WRITE TO POLICE ABOUT ROBBERY JUDGE GREEN REPORTED WORSE

HOUSTON, Texas, June 29.—An anonymous letter just received by the police from men claiming to have blown up the gambling house Monday night gives the details of the work and says they will dynamite other places as they are opposed to gambling and need the money. They disclaim any connection with labor organizations or strikers. They said they got \$1,286 Monday and have left the city.

RUSSIAN SHIPS IN A COLLISION

ST. PETERSBURG, June 29.—A report has reached the Associated Press correspondent that the Russian iron clad Don Manuel Cervera, the Spanish bull fighter who was shot and killed at St. Louis by William Carlisle Bass, was a nephew of Admiral Cervera, whom Schley defeated at Santiago. Cervera's wife was Miss Marian Abell of Baltimore and she it was who faced the St. Louis mob while the men were hiding. Bass is a Philadelphian who had been recruited in Mexico and Central America as a bull fighter.

NEPHEW OF SIR ARTHUR GEOFFRENE IS MISSING
NEW YORK, June 29.—A general alarm has been sent out by the police for Arthur Russell Geoffrene, nephew of Sir Arthur Geoffrene of Ottawa, Ontario. He has been missing from his temporary home in this city since June 12. The young man is well known in society here and at Newport. No details as to his disappearance are known.

MISSION AUXILIARY ENTERTAINS THURSDAY
The Home Mission Auxiliary of Mulkey Memorial church will entertain at Rev. J. C. Whitehurst's Thursday, June 30, between the hours of 3 and 6 o'clock and 8 and 10 o'clock p. m. The following program will be rendered in the evening: Piano solo, Mary Rockett; song, Ethel

It appears from a decision of the French courts that a man may fight a duel with pistols or swords and if fatality results there is no penalty. But if one cannot afford these weapons and fights with blunder means there is no such immunity, as two men who fought with knives were given four months each in prison.

"THE FOREST CITY" COUPON
1904
The Telegram, Fort Worth, Texas.
Enclosed herewith find TEN CENTS, to cover cost of postage and expense of mailing, No. of "THE FOREST CITY," to which I am entitled as one of your readers.
Name
P. O. State

THE TELEGRAM BY THE FORT WORTH TELEGRAM CO.

C. D. REIMERS, Editor and Publisher. Entered at the Postoffice as second-class mail matter. EIGHTH AND THROCKMORTON STS.

Subscription Rates: In Fort Worth and suburbs, by carrier, daily, per week, 10c. By mail, in advance, postage paid, daily, one month, 50c.

Subscribers failing to receive the paper promptly will please notify the office at once. Mail subscribers in ordering change of address should be particular to give both NEW and OLD ADDRESS.

Telephone Numbers: Business department—Phone 177. Editorial rooms—Phone 878.

MEMBER ASSOCIATED PRESS. NOTICE TO THE PUBLIC. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Fort Worth Telegram will be gladly corrected upon due notice of same being given at the office of the Eighth and Throckmorton streets, Fort Worth.

The Telegram absolutely guarantees a much larger paid daily circulation in the city of Fort Worth and surrounding territory than any other daily newspaper printed.

LIEUT. STONE, TRUST BUSTER

If President Roosevelt wants to end the trust business in this country he can get a pointer from Lieutenant Raymond Stone of the Island of Guam. Lieutenant Stone is the whole thing in Guam. Uncle Sam put him there as overlord with instructions to run things, and Stone is living up to his opportunities.

A financial depression has struck Guam. The one export of the island is copra. Owing to competition the price of copra has declined. But the expenses have remained on the high level of prosperous times.

Stone came and by an official proclamation he called attention to the "exorbitant prices of food stuffs." These prices, he said, were due largely to a form of collusion or coalition on the part of the merchants. More-over, he hinted at the possibility of an "insular government store," and made a passing allusion to the criminal statutes.

Then he signed his name and walked.

In a week or two the governor of Guam has occasion to issue another manifesto. It was genial in tone. He praised "the proper spirit" of the merchants and set forth a list of reasonable prices to which the merchants had agreed. The trust was busted.

If Theodore Roosevelt could issue a proclamation calling attention to the beef trust, hint the possibility of government competition and recite the provisions of the federal statute respecting criminal trusts—

But we are not living in Guam. We are living in a country where the motto of the men who sell meat and other things is, "Charge all the traffic will bear."

OKLAHOMA TURNED DOWN

For the last dozen years Oklahoma has been fighting for statehood. It has been sending delegation after delegation to the national conventions, interested only in securing a plan favoring statehood. This year, in the light of the recent congressional action, there was some reason to believe that the republicans at Chicago would endorse the hopes of the Oklahomans. Consequently, when the platform came out containing no word in favor of Oklahoma or Indian Territory, the republicans of those territories were confounded, and ever since have been loud in their protests. Not a single reference to statehood was made at Chicago, notwithstanding the fact that the Oklahoma delegation went there for the specific purpose of securing an endorsement of the Hamilton bill now pending in congress. The only explanation given by the republicans at Chicago is that the bill was not endorsed because of objection made by the Arizona and New Mexico delegations. This gives little consolation to the Oklahomans, who were more interested in carrying their territory against the democrats next fall than in consulting the wishes of politicians in Arizona and New Mexico. Oklahoma, it is now conceded by republicans, is as good as lost to them at the election this fall.

WHY MEN DON'T GO TO CHURCH

A writer for a New York newspaper gives another reason for the why men don't go to church query. It is this: "Men dislike to have the plate poked under their noses at every service." In a word—stinginess.

He has hit the nail on the head as respects a type of men. They are quite willing, and on the whole, rather anxious, their wives should attend church. They believe the church is a good thing, but they shirk any responsibility for its maintenance. But when these men go to the ball park they do not object to having the money box poked under their noses. When they go to the theater they do not go into their pockets crumbly. When they attend a lecture they are not offended if asked to pay. When they join a lodge they willingly give up initiation fees and pay the dues.

But the church—their sense of delicacy and fitness revolts when the deacons put the plate under their noses.

Of course when there is a funeral in the house this sort of objector knows he can have the service of the

church and the minister free. And when he dies some kindly soul from the pulpit will read the prayers over his clay.

The truth is, men generally ought to feel under greater obligations to support the churches. The burden should not fall heavily upon a few faithful adherents.

What sort of a community would you have without the churches? What would your real estate be worth?

The irrigation congress now wants to change its place of meeting from El Paso to St. Louis, and has petitioned El Paso to that end. The object of the change is to enable the irrigators to hold a joint meeting with the commercial congress that will be held in the World's Fair city. Doubtless El Paso would be the better place to study and develop the practical side of irrigation, but if the intention is to indulge in oratory and theories St. Louis will do equally well, and at the same time afford opportunities for a good time after hours that are far beyond the best El Paso can offer in this regard.

El Paso is to have a brewery, an institution that has heretofore been lacking in that city. Without entering into the moral side of beer drinking, permit the remark that if those El Pasoans will quaff the amber fluid it is well that hereafter they are to make it. It will probably be better beer on this account and its manufacture will keep employed a number of citizens.

Dowie kept most of his abuse of King Edward well in hand until he reached this country and then he threw wide open his vocal sewer. Here is a sample: "King Edward is an anointed rascal. No viler prince ever cursed England than he. I'll dig up more about him. I'll dig up the Lady Mordaunt case. He is an unrepentant sinner to this day."

If Paul Morton can establish regulations in the navy that will do away with those frequent accidents on board warships in time of peace that have resulted in the death of so many brave seamen, he will earn the gratitude of the nation and incidentally make good the reason for his appointment.

In celebrating the Fourth don't forget that last year of the 406 deaths caused by this day 306 were due to wounds from blank cartridges. These caused tetanus from which only seven victims recovered. This is keeping up the patriotic fervor at rather too great cost.

Another boy violinist is coming to America this fall and we are expected to pay him \$60,000 for the season and also make it profitable to his managers for bringing him. The remarkable thing about it is that this is probably just what we will do.

Van Wyck of New York proclaims from London that he is for Grover Cleveland. When in office over here Van Wyck never had an opinion that did not emanate from "Boss" Croker, and now that both are on the other side, the same is probably true.

Not satisfied to let the republicans do the squabbling in Illinois, the democrats have begun a three-cornered fight that threatens to lose them the state this fall. What both parties seem to need in that state is new leadership all around.

The brightest young men throughout the country are winning the Rhodes scholarships. Doubtless many of these will fall to rise to eminence after their school days are over, but their chances of failure are less than those of the ordinary individual.

Stealings From the ... Exchanges...

BORROWING TROUBLE

It seems that the court of criminal appeals has in effect held again that every man has a right to be arrested by a policeman elected by the people. It seems that it is not considered sufficient that the arrest should be made by a person who gets his authority by proxy or appointment, although the appointment may come from or through an officer directly chosen by popular vote. At any rate, the court of criminal appeals holds that a policeman appointed by a commission, which in turn was appointed by a governor, who was chosen by the people—the governor acting in accordance with an act passed by legislators who were likewise elected by the people—has no right to make an arrest. The same court has previously held that a commission created as aforesaid has no authority to enact ordinances. In its opinion the citizen has a right to be arrested by an officer chosen by popular vote and to be tried according to laws passed by men chosen in the same manner. The court of criminal appeals holds that rights to be arrested by an officer chosen by popular vote and to be tried according to laws passed by men chosen in the same manner should be carried further in its application, what will become of the authority of deputy sheriffs (who serve by appointment) to make arrests? And, as grand and petty juries are chosen by appointed commissioners, would not such juries, upon challenge, be set aside? If the citizen has the inherent right to be arrested and tried by only men of his own choice, so to speak, why permit appointed deputy sheriffs to gather him in, and why should his case be passed upon by jurors picked by a bunch of men who in turn are picked by one man? It needs but brief opportunity for the doctrine to run to very extreme extremes.—Galveston News.

LET THE CROAKERS CROAK

If the English Lake frog racket proves profitable the truth will be revealed that there is not an acre of worthless land in Texas. There have been several swamps and lagoons in different sections of the state that have heretofore been considered worthless, but these can now be used to profit as frog ranches.—Yokum Herald.

Best for Rheumatism, Prescription No. 2851. Celebrated on its merits for many effectual cures. E. F. SCHMIDT, Houston, Texas, Sole Agent.

Watch for announcement of title of the new serial story that will soon start in The Telegram.

Magazines

The general public does not realize the attitude the real journalist holds towards his work. A story in illustration is told by Lincoln Steffens of McClure's magazine. Recently while gathering material for one of his articles on the misgovernment of cities he chanced to be in the smoking compartment of a train on his way to the particular city then under consideration, with two strangers. These men began to talk of inside political matters in that city and the course of their conversation revealed many important political secrets. Mr. Steffens overheard all and said nothing. The next morning he introduced himself to one of the men, told him his purpose and asked him if he had any further information to impart. The politician was completely confounded, and rushed to tell his friend of their exposure. Two very anxious politicians awaited the publication of Mr. Steffens' article and no doubt heaved great sighs of relief when they discovered that he had used none of the information thus given him. Confidences are not news.

THE JULY SMART SET

Cosmo Hamilton is the author of "A Sense of Humor," the novelette which opens the July number of the Smart Set. The story is a delightful comedy, written with admirable art, and will be refreshing to read on a summer day.

An article by Sir Gilbert Parker, M. P., with the striking title, "Edward VII, Ambassador," will attract wide attention. The distinguished author writes of England's present ruler and his political relations with the European powers. It will prove the most noteworthy article in the July magazine.

The short fiction in this issue of the Smart Set strikes various chords. There is an ingenious burglar story called "Reclamation Work," by Barry Pain; a fascinating tale of a thief, in an entirely different vein, "Capable Mrs. Croaker," by Elizabeth Duer; a humorous newspaper story, "Denis Read's Coup d'Etat," by Seumas Mac Manus; and a really powerful story by Julian Hawthorne, entitled, "The Royston Bank Case."

HOW TO LEARN TO SWIM. There is no need for so much fuss about learning to swim. It is no trick at all. Once you have learned that the water will bear you up you can not help swimming, for every movement you make in the water is swimming. Every un-weighted human being who drowns, drowns himself out of pure fear.

AN UNLUCKY AIR. A distinguished retired General of the regular army, whose Civil War service was brilliant, was seated on the lawn in front of his home the other evening in conversation with a crony, when an Italian with a street piano stopped in front of the house. Before half of the first measure of "Dixie" had been played the retired general rose from his bench, and without a word to his crony walked into his house. The crony asked an explanation of his apparent prejudice.

A POLITICAL JOAN ON ARC. Never in this country has a woman so completely mastered 12,000 persons at one gathering as did Mrs. Carson Lake of New York City, in her famous effort to stampede the republican convention of 1892 for Blaine. At the conclusion of Eustis' speech seconding Blaine's nomination, she rose from her seat in the gallery and threw open a white silk parasol, which she raised and lowered with rhythmic precision. And the people in the hall stood the few who were on the platform except upon their feet.

ROSCOE CONKLING'S BIG FEE

It is said that one day, when Roscoe Conkling was beginning to attain some measure of success, he dropped into the office of Charles O'Connor of New York,

then one of the leaders of the bar. "What's the trouble," asked the latter, looking excitedly paced the floor. "I've just been subjected to the worst insult I have ever received. This is the first time a client ever objected to my fee."

"You know I defended Gibbons for arson and in some tremendous work for him. He was convicted at the trial, but we couldn't help it, and I took the case to the supreme court and that affirmed the conviction and he has been given ten years. Now my fee only amounted to \$2,000, and the accused actually had the audacity to grumble about it, saying it's too high. What do you think of that for impudence?"

THE BEAUTY OF SPEAKER CANNON AND LEADER WILLIAMS

Every member on both sides of the house likes John Williams. To analyze his popularity is not so easy. But it can be safely said that it is not his beauty which first attracts one, for his pulchritude is of the first stamped-cure variety. Indeed, I do not think him so beautiful as Uncle Joe. On this point there would hardly be enough dissenters in the house to demand the yeas and nays. Uncle Joe has a ruddy complexion that matches well with pink carnations, now universally recognized as the insignia of republican leadership. John is somewhat swarthy and has a sort of compromise complexion on which his party ought to be willing to get together, but it is healthy and natural. He has never used any skin food or done any grafting. Uncle Joe has also a sort of cocky look, as if he knew he would get his hay all in before it rained, putting his thumbs in the arm holes of his vest, and oftentimes planting his cigar up a few degrees from the plane of his orbit just to emphasize the security of American institutions. John has a fiercer mien, is somewhat more combative in appearance, holds one hand to his ear (for he is slightly deaf), and in the heat of debate his hair seems to rise up and cry for liberty. He has a sort of lean and hungry look, as if it were also just before dinner, while Uncle Joe wears on all occasions a postprandial aspect, suggestive of that peace and plenty which comforts well with certain planks in his party platform. John misuses tobacco a little now and then, and Uncle Joe has been known to use cigar ashes to keep the moths out of his clothes. There are, in truth, some points about these two men as like as their family hailing ports in old Carolina. And though fastidious critics may assert that the line of beauty never touched either one of them, still they both look good to me.

Good Stories of The Day

AN UNLUCKY AIR. A distinguished retired General of the regular army, whose Civil War service was brilliant, was seated on the lawn in front of his home the other evening in conversation with a crony, when an Italian with a street piano stopped in front of the house. Before half of the first measure of "Dixie" had been played the retired general rose from his bench, and without a word to his crony walked into his house. The crony asked an explanation of his apparent prejudice.

When General Kilpatrick was operating down around Macon, tearing up railroads and such like," replied the general. "I was with him. I had charge of destroying the tracks. The Johnnies were in front of us, in plain sight, but they didn't bother us any. They contented themselves with falling back as we progressed with the pulling up of the rails and ties."

"I'll tell you what you do," General Kilpatrick said to the boys. "I always work faster and with a better will when there's music around. You take one of the mounted bands down to where the gang's working and give 'em some music."

"So I took a mounted band to the point which we had reached in the tearing up of the railroad and told the leader to go ahead and pump some of the patriotic airs."

"The music had the effect General Kilpatrick had predicted. The boys did twice as much work under the inspiring strains of 'Hail, Columbia,' 'The Star-Spangled Banner,' 'My Country,' and so on, and the Johnnies in front of us had to fall back in a good deal more rapidly than they had before the enthusiasm of the boys had been kindled by the band music."

"When the band had run out of patriotic airs the leader approached me and asked for suggestions as to what the musicians should play them."

"Well," I said to the leader, "those poor devils of rebels in front of us have behaved pretty well. They haven't even turned their sharpshooters loose upon us. They ought to be rewarded. Suppose you just give them 'Dixie' for luck?"

"Well," went on the veteran, "the band hadn't wrung out more than six bars of that 'Dixie' tune before our ears were numbed by the confounded rebel yell you ever listened to in all your born days, and inside of two minutes those Johnnies in front were on top of us and trouncing the life out of us."

Watch for announcement of title of the new serial story that will soon start in The Telegram.

An electrical device by which music can be "felt" instead of heard is the result of a recent invention. The musical vibrations are transformed into electrical ones in something the same way that they are in a telephone wire.

MAIL CLERKS NOW MINE OWNER
H. F. Jones, Formerly of Denver Road, Has Prospects of Becoming Millionaire

H. F. Jones, who five years ago looked after a mail service run on the Cotton Belt between Fort Worth and Texarkana, is here today a full fledged mine owner with the prospects of soon being a millionaire.

Mr. Jones says there is sufficient ore in sight to make him independently wealthy. He is here to confer with a local capitalist who will accompany him to Mexico with a view to becoming financially interested in the property.

Mr. Jones says there are many railroad enterprises projected in Mexico, but until capitalists are assured of staple money, there will be little activity in the way of construction.

The Mexican Central's contemplated extension to Rosario and thence to Mazatlan will be several hundred miles long. At the latter place connection will be made with a steamship line giving that railroad a direct through route from the City of Mexico to San Francisco.

Office of Comptroller of the Currency, Washington, June 23, 1904. Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that The State National Bank of Fort Worth, located in the city of Fort Worth, in the county of Tarrant, and state of Texas, has complied with all the provisions of the "Act of Congress to enable National Banking Associations to extend their corporate existence and for other purposes, approved July 12, 1882."

Now, therefore, I, Thomas P. Kane, deputy acting comptroller of the currency, do hereby certify that The State National Bank of Fort Worth, located in the city of Fort Worth, in the county of Tarrant, and state of Texas, is authorized to have succession for the period specified in its amended articles of association, namely, until close of business on June 29, 1924.

In testimony whereof witness my hand and seal of office this 29th day of June, 1904. T. P. KANE, Deputy and Acting Comptroller of the Currency. Ex. No. 2230. No. 3221.

Bright's Disease and Diabetes News
Sacramento, Cal., Feb. 14, 1904. To relatives of those having Bright's Disease or Diabetes:

Knowing what I do I consider that it would be almost criminal to conceal the knowledge I have as to the curability of Bright's Disease and Diabetes when there are so many homes constantly saddened by the presence of these hitherto fatal diseases. I had diabetes myself for many years—had exhausted the best of medical talent here without result—it steadily progressed till I heard that there was a cure for it in San Francisco. It looked unreasonable but I sent for it. In a few weeks I was on the mend, and in six months was in my usual health and strength. I then put an engineer of our road on it. He was broken down with diabetes and was retired. In a few months he was back to his old position on his engine. Later my aged thirteen years, was discovered by our physicians to be in an extreme condition as the result of Bright's disease. They felt certain he could not live but a short while. I got the treatment for him and he is now, to our delight, strong and vigorous again and at school taking the treatment. I have told a great many in person for I know it to be an almost certain cure for Bright's Disease and Diabetes in all stages. Yours faithfully, CHAS. A. NEWTON, Yardmaster S. P. R. R. Co. The above refers to the newly discovered Fulton Compound the first cures the world has ever seen for Bright's Disease and Diabetes. We are the sole agents. Ask for pamphlet. H. T. PANGBURN & CO. Phone 81. Free Delivery.

with Hubbard and the plate. Dallas had made two runs on Jackson's free trips to first in the second inning and the score remained tied until the fifth, when Boles lifted a neat one out into right that scored the winning run. Haidt had been given a walk and Willis was allowed as runner. He sprinted the third stations on Boles' double.

In the seventh Doyle hit a leaguer of the Texas variety that got away from Poindexter. While Dee was doing a cake walk around the garden, Doyle was going a mile a minute to third. Boyd struck out and Reagan tried to bunt. The bunting habit is of slow growth and Mistah Reagan has not yet acquired it. The ball finally shot out to third, where Boles greeted it politely. Hunter left Doyle on third when three breezes sent him to the bench.

The game was brilliant and exciting. The two teams were evenly matched and the umpire knows his job and played no favorites. The score: FORT WORTH AB. R. BH. PO. A. E. Sullivan, If.....5 1 2 0 0 0 0 Hubbard, c.....5 1 0 0 7 3 0 Dunn, cf.....0 0 0 0 0 0 0 Willis, lb.....5 0 0 13 1 0 Poindexter, rf.....3 0 0 2 0 0 0 Haidt, 2b.....3 1 0 1 3 0 0 Reitz, ss.....3 0 2 1 3 0 0 Boles, 3b.....4 2 1 3 1 0 0 Jackson, p.....0 1 1 2 3 0 0 Totals.....36 3 9 26 15 1

DALLAS AB. R. BH. PO. A. E. By innings: Fort Worth.....0 0 2 1 0 0 0 4-3 Dallas.....0 2 0 0 0 0 0 0-2 \*Reagan bunted third strike. \*Haidt bunted third strike. Summary—Two-base hits, Sullivan 2; Hubbard, Boles, three-base hit, Doyle; struck out, by Jackson 4, by Reagan 5; bases on balls, off Jackson 4, off Reagan 2; batters hit, by Jackson 2. Time of game—One hour and forty-five minutes. Umpire—Spencer.

NOTES OF THE GAME Jackson is a harmless looking young man. Dallas got two mealy singles yesterday. "You can't afford to be lookin' at a frog how he kin jump."

Rieky's hair isn't red, but there was something to remind of McMurray when Reagan failed to deliver the particular kind of curve Mistah Rieky wanted. Jackson scored the fans nearly to death in the third inning by giving three free hits in succession. But grand slam was restored when Hunter found out how well Hubbard could throw to second, copping a steal, and Reagan found Willis waiting for his liner. Reagan struck out.

Sullivan took the cake, the "batter" cake. Sent two scorching doubles to left in successive innings. Boles' double brought in the winning run. Willis showed he could run—well, some. Haidt has not his strength yet for willow work, but he got around on second with much of his former sassiness. Hubbard got three hits yesterday, one a two-bagger. There are folks who are saying mighty fine things about the new catcher.

Dallas and Fort Worth have each new catchers to begin the second series with. Rieky has won the heart of the Dallas fans. He played a capital game yesterday. Hubbard and Rieky both found their voices yesterday and vocalized considerable encouragement to their comrades. Sullivan fled out to Johnson three times. Jackson seldom failed to do the right thing with a ball when it came his way.

CORSICANA 5, PARIS 4 CORSICANA, Texas, June 23.—The opening game of the series was won by the champions yesterday by a score of 5 to 4. The game was hard fought from start to finish. The features of the exhibition were McCarthy's work at short, Shelton's at third and Thebo's base running. Score: CORSICANA AB. R. BH. PO. A. E. Coyle, 2b.....4 1 1 2 1 0 0 McCarthy, ss.....4 1 1 6 5 0 0 Longley, rf.....4 1 2 1 0 0 0 Shelton, 3b.....5 0 2 2 0 0 0 Maloney, cf.....1 1 2 0 0 1 0 Thebo, If.....3 0 1 2 0 0 0 Blasingim, c.....4 1 2 4 1 0 0 Dugan, Arboast, McCollum; double play, Burke to Arboast bases on balls, off Gilreath 3, off Mulkey 2; struck out, by Gilreath 2, by Mulkey 4; sacrifice hits, McCarthy, Mulkey, Burke; wild pitch, Mulkey. Time, 1 hour and 39 minutes. Umpire, O'Connor.

BEAUMONT DEFEATS GALVESTON BEAUMONT, Texas, June 23.—It took fourteen innings to decide the Beaumont-Galveston game yesterday afternoon. Galveston came in last went to Beaumont by the close score of 1 to 0.

CORSICANA CONDITIONS CORSICANA, June 23.—In regard to the transfer of the Corsicana team to new lands, nothing has developed. Things are up in the air generally and no definite decision has been reached. Watch for announcement of title of the new serial story that will soon start in The Telegram.

DUBOIS ON THE SITUATION IN COLORADO COURSE OF UNION AFFAIRS IN THAT STATE DOES NOT MEET WITH HIS CORDIAL APPROVAL MINERS ARE RIGHT AS TO THEIR CAUSE, BUT THE METHODS USED ARE IMPROPER

The strike in Colorado is of special interest to everybody connected with labor organizations, and it is being closely watched, not only in this country, but in Europe as well. A careful and rather conservative student of the relations between labor and capital is C. H. Dubois, of Fort Worth, formerly editor of the Labor Journal.

The course of union affairs in Colorado does not meet with his cordial approval. He says that the American Federation of Labor which met in New Orleans in 1902, and introduced the following resolution which created a furor because of its peculiar wording: "Whereas, Between the wind-jammers of Colorado and the pauper labor of Mexico, Texas is between the devil and the deep sea."

"Resolved, That a paid organizer for the state of Texas be appointed for sixty days or longer." The resolution was sent back to Mr. DuBois to be modified and the organizer was secured, a result not obtained by former times and commonplace applications. Mr. DuBois was seen today by a representative of this paper.

"What do you think of the Colorado situation?" "The situation there implies conditions which are a disgrace to American civilization."

"Who do you think is to blame, and what do you mean by 'wind-jammers of Colorado?'" "By wind-jammers I mean a class of laborers who have been extreme in their methods, ready to fight and always unnecessarily aggressive. The pacific yet effective methods of the American Federation of Labor were always too slow for the Colorado crowd. They formed the American Labor Union as a rival of the American Federation of Labor and pushed their men and methods into adjoining states and territories. At the time I introduced the resolution at New Orleans it had been given out that Texas was to be invaded by the American Labor Union and the American Federation of Labor displaced. But Texas is conservative and the true friends of labor are conservative and reasonable, always ready to arbitrate their differences with capital."

"John Mitchell, for instance?" "Yes, a fine example of that patience, perseverance and push which wins. Had the Colorado leader been like John Mitchell, mine owners would have been held as firmly as were the anthracite mine owners of Pennsylvania. But Colorado is out of his jurisdiction and his modest methods were not wanted. His has not been the Colorado way."

"Are the miners right?" "As to their cause, yes. As to their right to organize and profit through organization, undeniably no. When their organization has been formed, labor is advanced in a certain mine district, it is natural that they should resent the intrusion of men who come in to secure the benefits arising from an organization without contributing to its support. Every non-union man in a unionized district is a sneak and if a 'scab' he is also a traitor."

"What will be the result in Colorado?" "The miners will be defeated and many organizations weakened. But the victory of the mine owners and the Citizens' Alliance will be dearly bought. If the democrats of Colorado will come out squarely as the party of the people, republican as well as democratic, the present organizations will be merged into others, and in five years under wise and conservative leadership, organized labor will be in control. Before that time the papers will be full of claims of politicians, planning for office on all party tickets, and from governor to constable, that they were always friendly to organized labor, etc."

"As to results elsewhere?" "It looks like the beginning of an irrepressible conflict between the dollar and the man, and before the exploiters of labor are done with it, they will recognize that the unionism of the beginning of the twentieth century was a force working for peace and righteousness. The conservative force of true unionism is now recognized by all men of moderation. The time will come when it will preserve from spoliation the workers who seek to destroy it. But fear will come through the sword and to them who have unsheathed the sword. The unspeakable outrages inflicted upon workmen in Colorado gives notice to the workers of the world what they may all expect unless on the alert to organize more widely, more strongly, more secretly and more effectively. Papers in Germany say that the bold German emperor would not dare to do what Bell has been allowed to do in Colorado. That such outrages have been permitted in Colorado is a serious reflection upon the great republic which heretofore has been heralded as a refuge from Old World tyrannies. But to all the world the alarm has been sounded. In free America the taskmaster has been given the right to use the militia to ride roughshod over the plain people. In Colorado has been sown the wind and the whirlwind has blown. The old parties are bowing down before the golden calf. New parties are needed with new leaders and new issues. Colorado's signal is that of impending danger."

Mr. DuBois will shortly leave for Colorado. The welcome address in behalf of the city was delivered at 3 o'clock yesterday afternoon by Congressman Jack Beall of this city. Attorney Will Hancock delivered a welcome address in behalf of the city with a large attendance from the various camps in the district. The association is composed of 23 Woodmen of the World camps, representing ten counties. On account of a heavy rain Monday afternoon yesterday's attendance was a little light, but today the choppers, with their families, are here several thousand strong. The log rolling is being held at the West End park, where all necessary arrangements have been made for the comfort and entertainments of the visitors.

MRS. FIRTH WILL LEAVE THIS CITY Will Make Kansas City Her City Her Future Home After Affairs Here Are Settled

The remains of William H. Firth, the late general passenger agent of the Rock Island in Texas, were taken to Kansas City over the Rock Island this morning, accompanied by Mrs. Firth and son, Jack Firth, and George S. Pentecost and wife and V. N. Turpin and wife of Fort Worth, and S. P. Tucker and wife of Dallas.

The body was escorted to the depot by the following honorary pall bearers: S. B. Hovey, vice president of the Rock Island; J. C. McCabe, general freight agent of the Rock Island; W. A. Tuley, general passenger agent of the Frisco; A. A. Glisson, general passenger agent of the Fort Worth and Denver City; J. F. Zurn, general agent of the Texas and Pacific, and W. F. Sterley, general freight agent of the Fort Worth and Denver City.

The active pall bearers were George S. Pentecost, Frank Jensen, V. N. Turpin, S. J. Tucker, F. E. Dietrick and F. E. Mitchell, all employees of the Rock Island. The floral offerings were many and very beautiful. Mrs. Firth will return to Fort Worth next week. She will probably make Kansas City her future home.

POLICE NEWS Seven new cases were called in the police court this morning. Pleas of guilty were entered in three, two were passed, one bond was forfeited and no arrest was reported in one case.

Of the old cases called the following disposition was made: Pleas of guilty.....14 Passed.....14 Filed.....1 Bonds forfeited.....1 Convictions on contest.....1 No return.....4 Human traffic in the tenderloin district of the city has been brought to light by the complaint of a purchaser, whose purchase was subsequently left him.

According to the information uncovered by the officers in this case the complainant entered into an agreement and actually paid \$50 for the possession of a certain little girl, but later left him, whereupon he made complaint in an effort to regain the money. Two arrests were made by the police and the case transferred to the county officials.

FOURTH OF JULY "What is next Monday, your honor?" queried the assistant city attorney this morning after Judge Prewett had stated that he wished no cases set for trial on that day. A patriotic smile went round the court room as his honor promptly responded with surprise, "Why, it's the Fourth of July."

The calendar was then turned over that all might see and know. Court, however, will be in session on that day for the setting of cases and hearing pleas of guilty.

LOG ROLLING OF WOODMEN AT WACO WAXAHACHIE, Texas, June 23.—Yesterday afternoon at 3 o'clock the third annual log rolling of the Central Texas Log Rolling Association convened in this city with a large attendance from the various camps in the district. The association is composed of 23 Woodmen of the World camps, representing ten counties. On account of a heavy rain Monday afternoon yesterday's attendance was a little light, but today the choppers, with their families, are here several thousand strong. The log rolling is being held at the West End park, where all necessary arrangements have been made for the comfort and entertainments of the visitors.

### PORT ARTHUR MAY LAST AS LONG AS SEVASTOPOL

#### RUSSIANS DEFENDED THE FAMOUS FORTRESS A LONG TIME BEFORE IT WAS TAKEN

LONDON, June 23.—If the siege of Port Arthur is to be similar to that of Sevastopol, it will be well into next June before the big Manchurian fortress falls. The events which led up to the siege of Sevastopol were in many ways like those which led up to the present siege. In the former case, however, there was a much more complicated cause of war, which originally was between Russia and Turkey, and ended up by being between Russia on one side and England, France and the kingdom of Sardinia on the other. Russian ambitions and aggression were the prime cause of the Crimean war, as they were of the present war, but Turkey was not, like Japan, able to fight it out alone. When England and France took hold of it, they, like Japan, secured command of the sea.

The Russian fleet of that day, consisting of fifteen old-fashioned sailing line-of-battleships, numerous frigates and brigs and only one big steam war vessel, took refuge in the then existing strongest Russian fortress, Sevastopol. The French and English fleets held command of the Black Sea, but could not feel secure as long as the Russian ships were in being. The obvious course, therefore, was to land an army and capture the fleet from shore.

The troops were sent out in the month of September, 1854, and it was the general expectation that they would have a

walk-over and win before Christmas. But there was no such intelligent plan of campaign as that worked out by Generals Oku and Kuroki. Instead of threatening the remote Russian rear, as Kuroki has done, they concentrated all their army in the neighborhood of Sevastopol, so that, throughout the siege, they were continually threatened by armies sent to the relief of the fortress, and at no time were they able to close thoroughly the Russian line of communication.

Instead of falling before Christmas, Sevastopol, at that time, appeared as strong as ever, and the besiegers had to sit down for a winter campaign. A terrific hurricane swept over the English and French camps in November, blew away practically all the tents and even stripped the bedding off patients in the hospitals. Bitterly cold weather at once set in and the suffering of the troops was intense. It was not until nearly spring that proper clothing and means of shelter were sent out from Europe. And the food supplies also ran low.

Next spring and the following summer the siege still continued but with increasing vigor. Trenches were dug to within twenty-five or thirty feet of the fortifications and several assaults were made ineffectually.

At last on September 8, 1855, the final assault was ordered. The French troops occupied the Malakoff, one of the princ-

### OUTCASTS OF ALL EUROPE DUMPED OVER HERE

#### AN ENGLISH CORRESPONDENT DESCRIBES STEER-AGE TRIP MADE WITH CUT-RATE PASSENGERS

NEW YORK, June 23.—The rate of \$10 steerage made by the transatlantic liners is bringing to this country a most undesirable set of immigrants, paying the fare of many of their passengers in order to be rid of them.

The movement attracted so much attention in Europe, that the London Daily Mirror sent a staff man, W. M. Currock, in the steamer of the Holland-American liner Potsdam, to learn what kind of people were making the rush. This is what he writes of the trip.

After 11 days of stormy weather, with high seas, and in company with 700 outcasts of eastern Europe, I have completed the first 2 pound sterling transatlantic passage.

After the first 24 hours of comparative calm, the weather changed for the worse, and the horrors of seasickness commenced among people only fit to herd with cattle.

The arrangements made by the authorities were admirable in the extreme. Four meals a day were provided the chief of which being dinner at noon, consisting of excellent thick soup, precisely similar to that given to passengers in the firstclass cabin, followed by stewed meat with gravy and potatoes, and a substantial pudding.

Breakfast and tea largely comprised uncooked salted herrings, tea, coffee, bread and butter, a style of fare particularly relished by most of the emigrants.

But for the people themselves, there was nothing of which one could complain.

Cleanliness was banned by the majority. Any man or woman observed washing with any thoroughness was regarded as a monstrosity.

Few removed their clothes from the time they left Europe, with the result that in spite of the strictest sanitary precautions in turning out everyone on deck for two hours each morning, while the whole space below was cleansed and scoured, there were disagreeable consequences.

Three days after leaving the doctor held a general vaccination, but many nullified the effects by squeezing and rubbing their arms.

The effect of the stormy weather was revolting in the extreme. Men, women and children, overcome by sickness, took no trouble to seek the privacy of their bunks, but lay huddled together in a human heap.

Here and there evidences of some better feeling was shown, but only among the women.

The worst type of all were some 50 to 60 Russians and Poles, who came from the East-end of London, the majority of whom were tallors.

With the last days of the voyage the weather improved and conditions grew more bearable.

The doctor, by declaring that the customs would not permit the emigrants to land unless they had a more cleanly appearance, induced a general

### OUTCASTS OF ALL EUROPE DUMPED OVER HERE

#### AN ENGLISH CORRESPONDENT DESCRIBES STEER-AGE TRIP MADE WITH CUT-RATE PASSENGERS

washing and bathing of clothes and persons.

The Jews refused on principle, but the rest appeared later on deck with shining faces and glistening hair, with a wholesome smell of soap.

But in spite of everything that the doctor can do, there will probably be 10 to 50 who will be returned to Europe.

### SPECIAL SUMMER TOURIST RATES

To St. Paul and Minneapolis.

On July 14 to 18 inclusive, the Chicago Great Western railway will sell round trip tickets at \$14.65 from Kansas City to St. Paul and Minneapolis. Tickets good for return until August 5. For further information apply to any Great Western agent of J. P. Elmer, G. P. A., Chicago, Ill.

### WILL PROBABLY ENDORSE COCKRELL

JOPLIN, Mo., June 23.—The democratic state convention, the second of the series of three state conventions to be held in Missouri this year, assembled in Joplin today. The present convention will select delegates at large and district delegates to the St. Louis national convention. Resolutions will probably be passed endorsing Senator Cockrell for the presidential nomination.

### MANY ASPIRE TO BE GOVERNOR OF MAINE

RANGOR, Me., June 23.—The republican state convention was called to order in the Auditorium this afternoon with an attendance of over 2,000 delegates. The convention will nominate a candidate for governor to succeed John F. Hill. The withdrawal of Colonel Joseph H. Manley from the race and the probability that the old party machine of which he was the king-pin will be overthrown by the new leaders who have come to the front during the last few years causes an unusual amount of interest to center in the convention. All indications point to the nomination of William T. Cobb of Rockland for governor. His chief opponent is Colonel Charles H. Prescott of Biddeford.

### A FRIGHTENED HORSE

Running like mad down the street, dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none so good as Bucklen's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles disappear quickly under its soothing effect. 25c at Matt S. Blanton & Co.'s, and W. J. Fisher's drug stores.

A Boarding and Day School for the moral, physical and military training for boys. Prepares carefully and thoroughly for business life, for college or university, or for West Point—Government Commandant. Subject to government inspection. Strict discipline. Sanitary conditions perfect. Terms reasonable. Next term begins September 15, 1904. Send for illustrated catalogue.

## ECZEMA

### SETS THE SKIN ON FIRE.

No disease causes so much bodily discomfort, or itches, burns and stings like Eczema. It begins often with a slight redness of the skin, followed by pustules or blisters from which a gummy, sticky fluid oozes, which dries and scales off or forms bad looking sores and scabs. It appears on different parts of the body, but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night or when overheated.

The cause of Eczema is a too acid condition of the blood. The terrifying itching and burning are produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders are soothing and cooling, they do not enter into the blood itself or touch the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses the general system, when the skin clears off and Eczema and all its terrifying symptoms disappear. Book on the Skin and its diseases free. No charge for medical advice.

### BROKERS POST ODDS ON PRESIDENTIAL RACE

NEW YORK, June 23.—Wall street brokers have begun already to post odds on the presidential election. The opening price is 2 to 1 on Roosevelt, this offer being made on the curb today by a representative of Halle & Steiglitz. F. H. Brooks of 7 Wall street was commissioned today to bet \$10,000 to \$8,000 that Roosevelt will be elected. As far as could be learned no large wagers were made today. The democratic voters are awaiting the action of the St. Louis convention. Enthusiastic republicans in the financial district are predicting that at least as good as 2 to 1 on Roosevelt will be offered before the campaign is far advanced.

### DAUGHTER OF "BILLY" MASON IS MARRIED

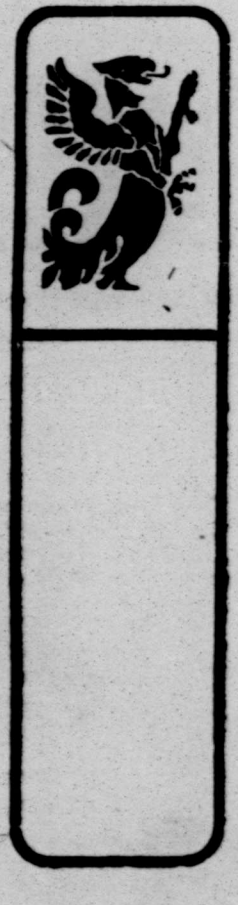

CHICAGO, June 23.—Miss Winifred Mason, daughter of former Senator and Mrs. William E. Mason, was married today to Robert Wardlow Huck of Washington, D. C. The ceremony was performed this afternoon at the home of the bride's parents in the presence of a small party of relatives and intimate friends. After a wedding trip through the east Mr. and Mrs. Huck will take up their residence in Colorado.

A bust of St. John Berchmans, a young Belgian Jesuit who was benedicted by the Catholic church, has been unveiled at Loyola college, Baltimore, as a memorial to the late James I. Gunning.

A WOMAN'S WISDOM.

What Experience Does.

THE worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup. She does not want to send for the doctor when perhaps the trouble does not amount to much. She is in a "stew" and does not know what to do. Finally, she thinks that medical book her father gave her, the "Common Sense Medical Adviser," by R. V. Pierce, M. D. She says, "Just the thing to find out what is the matter with the little dear." Two million households in this country and Europe have this useful book in the home. It is a good adviser in any emergency. It is for EITHER SEX.

A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, Motherhood is looked forward to with feelings of great dread by many women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nerve, a strength builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot help but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for this event.

When a woman has ill and pains that she cannot bear—when life seems dark for every woman, she should confide her troubles to a physician of standing in the community, or one who has a national reputation. Certainly it would not be the part of wisdom to confide in an ignorant person without medical education simply because she was a woman. There is every reason why she should write to some great specialist, one who has made the diseases of women a specialty for a third of a century, like Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. All his correspondence is held sacredly confidential, and he gives his advice free and without charge.

**We guarantee that Dr. Pierce's Favorite Prescription does not contain alcohol, opium, or any harmful drug. It is a pure compound of medicinal plants scientifically combined. Persons making false statements concerning its ingredients will be prosecuted.**

World's Dispensary Medical Association, *Dr. R. V. Pierce* PRESIDENT.

ENTHUSED OVER B.Y.P.U. GATHERING

Program of the Day Begins With Dip in the Gulf Which Hundreds Take

WACO, Texas, June 29.—Commercial Agent J. W. Byers of the International and Great Northern Railway has returned from La Porte, where he took in the encampment of the B. Y. P. U. of Texas, and he is perfectly enthused over the gathering. He stated that it is the nicest collection of people he has seen in a long time, and hundreds are present from all parts of Texas—from Laredo to Texarkana, and from Abilene to the Gulf. The park is given over for two weeks to

useful manner and enveloped in a cloak of self-respect. Ten years ago it was fashionable to be weak, to appear timid and to faint under any undue excitement. The woman of to-day is an altogether different creature. She recognizes that it is her duty to make an effort to develop her body and her mind, and there is no reason why she should suffer periodically from pains. Then again women approach the ordeal of maternity with great fear because of a run-down constitution owing to the drains and weakened vitality by reason of such periodic suffering. All such women should turn to the right person for consultation and good advice. In most cases Dr. Pierce's Favorite Prescription will fit the needs and put the body in a healthy condition. It has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength. It establishes regularity and so does away with monthly misery. It dries debilitating drains and so cures the cause of much womanly weakness. It heals inflammation and ulceration, and cures the bearing-down pains, which are such a source of suffering to sick women.

Before or after marriage should know themselves. Ignorance of the laws of SELF and SEX leads to misery and ill-health. Do not permit FALSE modesty to debar you from such knowledge. Know about the Process of Generation, Physical and Vital Properties of the Blood, the Organs of the Body. A great deal of sickness and a great many doctors' bills might be saved to any family by keeping a copy of Dr. Pierce's great thousand-page free book, "The Common Sense Medical Adviser," at hand. It gives valuable recipes for curing the diseases that are curable without a doctor and comprehensive information about Anatomy and Physiology with over 300 illustrations. "The Common Sense Medical Adviser" is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for the book in paper covers or 31 stamps for the cloth-bound volume.

the B. Y. P. U. and pleasure and recreation are doing their work. Among those who are present are Dr. S. F. Brooks of Baylor University, Rev. Dr. Hamlett and Dock Peegs of Tyler, Rev. George Truitt of Dallas, Rev. J. C. F. Kyger of Waco and numerous other well known Baptists. The program for the day is something like the following at La Porte: Rise early and take a fine salt bath in the gulf, hundreds participating; breakfast and rest a short time, when the crowd assembles to hear a discussion of certain religion topics and have a song service; rest and then have dinner; rest again, and at 5 o'clock gather on the beach for another surf bath; rest and supper, then a religious talk by Rev. George Truitt or some of the others present. Rev. George Truitt and in fact all others participating in the program have given some superb talks. The boating is very cheap, fishing good and enjoyment is to be found everywhere. The gathering is a great success, he states.

Staff Captain El Senor Leib, the social superintendent of the Salvation Army of Jamaica, commissioned by the headquarters in London, has arrived at Panama to arrange for the running of cheap food and shelter depots for the canal laborers and poor, combined with efforts to raise the spiritual and moral tone of the men.

**Nervous? Easily discouraged? Things look dark? Can't sleep? Restless and worn out? "Nervous exhaustion," your doctor says. Ask him to tell you all about Ayer's Sarsaparilla. Sold for 60 years.**

MOTHER, DYING, LEFT FORTUNE TO HER MISSING BOY

Charles Baggett, who lives at 707 East Third street, is an uncle of William Baggett, who has been missing from his home in Cleveland, Ohio, for twenty years. A last effort is being made to find the missing man to bestow on him a fortune left by his father. But it seems unavailing in spite of the fact that he has been advertised for throughout the length and breadth of the country.

Young Baggett left a happy home in Cleveland, Ohio, twenty years ago and did not return. No word came from him, yet the aged mother of William Baggett still waited. They found her sometimes in her arm chair gazing down the long, dusty street. Her heart was aching for the boy. Her eyes were wet with tears. But no word ever came from him. This spring she died.

William Baggett was the son of Frederick Baggett, a market buckster and commission man, now dead. The family lived at 1825 Lorain street.

Baggett was 20 years old when he disappeared. When he left home he said he was going to a matinee, and remarked that if he was not home early they need not wait supper for him. He did not return home. No trace of him was ever found. Baggett carried considerable money. It was suggested that he had been robbed and killed.

One thing fed the hope that he might be alive. When he was in the grammar grade at school he ran away with two other boys. He took his geography with him and followed in pencil on a map the course of their wanderings. Near Cincinnati Baggett's two companions turned back for home. Baggett was gone two years. One evening, without warning, he walked in the back door of the house. He had traveled through half a dozen states, tired of his wanderings and returned home.

In the years after the second disappearance the mother never gave up hope that he would sometime return in the same way again.

Frederick Baggett, the father, had made a comfortable fortune in his business. When the mother died, she left an equal share of the estate to each of the three children living in Cleveland. A fourth share was left to the missing son. The will provided that the money should be kept for him twenty years, or until he should be proven dead.

Now a last effort is being made to locate the missing William Baggett. In newspapers over the country the following personal has been inserted:

"William Baggett, son of Frederick Baggett, write your brother and sister, 1825 Lorain street, Cleveland, for information of advantage."

The fourth share in the estate is said to be a small fortune. A married sister, Mrs. Murphy, who lives at the Lorain street home, said that it "would be enough to keep him comfortably all his life." No trace of the missing William Baggett has been found.

Mr. Charles Baggett, the uncle of the missing boy, has lived in Fort Worth for twenty-seven years and is well known here. He says the boy's share of the fortune would now amount to about \$75,000.

SPARKMAN LEAVES FOR SOUTH DAKOTA

Gets to Be on Ground When When Rosebud Indian Reservation Is Thrown Open

J. W. Sparkman leaves here tonight over the Rock Island for South Dakota where he goes to be on the ground when the Rosebud Indian reservation is opened up for settlement. Mr. Sparkman goes direct to Bonesteel.

Two South Texas people passed through here last night on the same mission and on Tuesday of last week five others from near Houston went through Fort Worth for South Dakota. President Roosevelt about sixty days ago signed the proclamation throwing open for homestead settlement on July 4, 382,000 acres of land in Gregory county, S. D. At present this land is held by Indians and is known as the Rosebud reservation.

These lands will be disposed of under conditions named in the president's proclamation, for \$4 an acre, payable as follows: One dollar in cash at time of homestead entry, 75 cents an acre within two years, 75 cents within three years, 75 cents within four years and 75 cents within six months after expiration of five years after entry.

Registration of these lands will take place July 5 to 23 and Chamberlain and Yanktown have been designated as the points of registry.

Heavy rains fall on southern plains

MIDLAND, Texas, June 27.—Heavy rains have again fallen all over the Midland country on the southern plains of Texas. The rains have extended in every direction from Midland, Texas, for miles around. The country is very wet. It has been raining here since Saturday last, all day Sunday, Sunday night and today.

Denison, Texas, June 28.—This section was visited by a good rain today. The corn crop is made and does not need another drop of rain.

Several farmers in this locality planted an early maturing variety of North Carolina cotton this season. H. Brooks reports that the North Carolina cotton planted on his Red river farm is doing nicely. The stalks are over two feet high and there are many blooms. Squares are thick and the indications are favorable for a good yield.

NEWS OF PEOPLE LIVING AT GRAPEVINE

GRAPEVINE, Texas, June 28.—John Koonce has been very happy since last Thursday for on that day he had a visitor who came to stay. It is a boy.

Charles Wall, who has been doing business at Renner for some time, spent Sunday at home.

All crops are doing well now. The small grain crop is saved and prospects were never more favorable for corn and cotton.

A good rain is falling today.

B. H. Starr, who until recently was a candidate for commissioner of precinct No. 3, has withdrawn from the race.

Mrs. Less Wilkinson of Fort Worth visited her mother, Mrs. Maxwell, Sunday.

Mrs. Joyce of Dallas is visiting her daughter, Mrs. H. B. Wall, this week.

Cleve Wood of Lewisville was visit-

MAY LOSE LEG BY ACCIDENTAL SHOT

COLORADO, June 29.—A gentleman by the name of Harris of Westbrook, the next station west of this city, was shot accidentally in the leg yesterday and seriously wounded. The attending physician says he does not think amputation of the limb will be necessary.

The long drouth in the Colorado country has been completely broken at last. Rain commenced falling early Saturday night, fell all night about half of Sunday, most of Sunday night and several showers Monday. Fortunately most of the rain fell slowly and the ground is wet deep. The river was on a big rise and tanks and cisterns were well filled, the rainfall in this city being about five inches. Prospects for a bumper crop in these parts are now very auspicious.

Ed M. Whitaker, candidate for district attorney, spent yesterday in the city greeting the voters. Also Colonel Craig of Snyder was here attending court.

J. H. Cooper, recently from Sterling City, sold his general merchandise store there and bought a half interest in the blacksmith shop here of James T. Johnson. Cooper is now at work in the shop. He formerly lived here.

Arthur Williams, partner in the billiard hall here with Will Cooper, has this week sold his interest in the hall to Alf Nelson.

ANNUAL CONVENTION COMMERCIAL LAW LEAGUE OF AMERICA

West Baden and French Lick Springs, Ind., July 25-29.

The Chicago Great Western railway will on July 22 to 25, inclusive, sell round trip tickets at one fare plus \$2 to West Baden and French Lick Springs, Ind. Tickets good until August 11 for return. For further information apply to any Great Western agent or J. P. Elmer, G. P. A., Chicago, Ill.

SAN ANGELO KNIGHTS ARRANGE FOR PICNIC

SAN ANGELO, Texas, June 28.—The Knights of Pythias lodge of San Angelo had arranged a big picnic for today and invited lodges and visitors from neighboring towns, but the recent rain has made the ground so wet that the picnic has been postponed.

Sherwood will have a barbecue and roping contest and general grand picnic on the 4th and 5th of July. The big celebration here is progressing. Messrs. Jenkins of Brownwood and Guion of Balmora are invited to speak. A large crowd is expected and San Angelo expects to entertain them in a royal manner.

The Dyspeptics' Dream

The enjoyment of good living is only possible to the man with a healthy stomach. Floyd's Dyspepsia Tablets are a boon to the man who is obliged to live upon "slops" and "infants' food." Variety is the spice of life and a good meal should be a source of enjoyment to everybody. Dyspepsia cannot be cured by pepsin and preparations which simply assist in digesting food.

Floyd's Dyspepsia Tablets contain no pepsin or soda. They DO CURE the disease and make possible the healthy enjoyment of good food.

Take Floyd's Dyspepsia Tablets regularly for a reasonable time and we will return every penny you have spent if you are not cured. Every druggist who sells Floyd's Tablets is authorized to do this.

A CRIME TO MISS THE WORLD'S FAIR

An Emphatic Statement Comes From Distinguished Official of Chicago Exposition

Ferdinand W. Peck, who was vice president of the World's Columbian Exposition and commissioner general for the United States at the more recent Paris exposition, thus speaks of the St. Louis World's Fair: "I can freely say that this exposition is on a more colossal scale than any which preceded it. The grounds and buildings are larger and the exhibits more complete. If any citizen of the United States who can possibly attend, remains away he is almost committing a crime. "Beside my connection with the Columbian and Paris exposition, I have represented the state of Illinois at Atlanta, Nashville and Omaha and I state unequivocally that the world has never seen anything so valuable, so educational, so magnificent as this, and I repeat it would be a crime to miss it."

This is doubtless true, yet the fact remains that half the people of the country—probably not over a third of them—will be able to visit the World's Fair at St. Louis. How valuable then is such a publication as the "Forest City" World's Fair Art Portfolio, which brings the great exposition to the homes of all so fortunate as to possess them; so that they can, as it were, see it from day to day. The photographs for the work are not only taken by the official photographer, but Mr. Walter E. Stevens, secretary of the exposition. This, of course, makes the work thoroughly official and affords not only pictorial but a descriptive history of the event. As before stated, there are tens of thousands of people who will not be able to see the fair, but all of these may avail themselves of the "Forest City" coupon in the easy way we have provided for our readers. A "Forest City" Coupon clipped from one of our announcements, with 10 cents, to pay the cost of handling, wrapping, addressing and mailing, will bring you any part issued. The entire series comprises thirty portfolios of sixteen views each; aggregating 480 superb photographic reproductions, the regular price of which is 25 cents each, but which our readers secure at the nominal cost of 10 cents. Nine parts now ready for distribution at The Telegram office.

OPENING AT LAKE ERIE IS SUCCESS

First of the Vaudeville Performances Attracts a Large Crowd That Is Well Pleased. The vaudeville opening at Lake Erie last night proved to be an unqualified success, and the hundreds of people who attended went away well pleased with the initial performance, which, however, was cut short because of illness of some of the performers. Manager Taylor has gone to much expense in providing amusement at Lake Erie to meet the desires of the patrons of the Traction Company, some of whom do not dance, and in order that this class may be entertained, has arranged a vaudeville program that in the future will be a drawing card. The program last night was attractive. The negro specialties of Tom Reese, the moving picture scenes and the music and singing made up an evening of pleasure, which will no doubt be appreciated during the summer nights. Manager Taylor states that new attractions will be provided each week, the entertainment being given on the three public nights—Tuesday, Thursday and Saturday. Next week, beginning Sunday, a high dive act from an eighty-foot ladder will be a feature at Lake Erie, and on July 4 there will be held a general basket picnic, with dancing in the afternoon and fireworks at night. Lake Erie, through the efforts of the Traction Company, is becoming a very popular amusement resort and nightly hundreds of people go out to that place to spend a few hours. The place is rapidly developing into a veritable flower garden, and no prettier spot can be found in Fort Worth. The service to and from Lake Erie is good and special attention is given the patrons of the company.

NORTH SIDE AND ROSEN HEIGHTS

City Council Takes Up Pauper Question—Other Routine Matters Transacted. Nash Furniture Company. An executive session marked the first meeting of the North Fort Worth city council in their new council rooms in the Rosen building. Routine business was ground out at a pace that would make City Secretary Montgomery have the fidgets, until 10 o'clock, and then the absence of reporters and spectators was requested by the council. During the open session the pauper question was given a thorough airing, the ball being started by the city clerk, who objected to the furnishing of delicacies to patients unless in case of sickness. It then developed that the pauper committee had sunk into a state of inebriety. The committee was accordingly rejuvenated and instructed in the future to look after all pauper bills and matters. The city engineer reported an arrangement by which Twentieth street may be straightened out east of Main street, taking out the present bonds. He was instructed to see that the agreement was put on record. The regular poll tax of \$1 for each male citizen under sixty years of age was adopted. Bills amounting to \$220.40 were approved and ordered paid and the proper handling of bills on the new warrant register was discussed. Furniture for the new city hall it was announced had been purchased, given Pakes & Co. and the committee was given further time to arrange for fans in the council room. FIRE LAST NIGHT Fire last night destroyed one of the Stock Yard Company's houses in North Fort Worth, occupied by C. P. Smythe, the family being away at the time. Only a few household articles were saved. POLITICAL MEETING IS DECLARED OFF The meeting of county political candidates to have been held at Rouse's store last night, was declared off out of deference to the serious illness of Judge S. P. Green. Judge Green's residence is situated very near the place designated for the meeting last night, and fearing that some noise might disturb the sick man, the candidates announced that there would be no speaking. There will be a meeting tonight at the court house. All candidates will address the public.

RAILROAD NEWS

SHORT ROUTE TO PANAMA CANAL The Mississippi Central railroad, whose charter reads from Natchez, Miss., to Pascagoula, Miss., filed a \$5,000,000 mortgage a few days ago at Hattiesburg, Miss., the money to be used in constructing a line to Horn Island harbor. If a line should be drawn from the Panama canal to St. Louis, it would pass through the narrow sea between the west end of Cuba and Yucatan, and strike the United States at Horn Island harbor, on the Mississippi gulf coast, and by a slight bend to the coast, and then to Memphis. The harbor of Horn Island is protected as it is by Horn Bell Bois and Round Island and the main land at Pascagoula, with a depth of twenty-six feet, and easily made to forty feet, is said to be the best harbor in the south, and is also the nearest to the Panama canal. THE OKLAHOMA AND HOUSTON The Kansas City, Oklahoma and Houston line which has already been chartered, is supposed to be a Burlington proposition, but that has denied that it contemplates building to the gulf coast, at least for the present. Despite this contention it is pretty well established that the power behind the throne is the Burlington. The routing of the line has been under recent consideration by the company. It is practically decided that the line will cross the Frisco at Tulsa, the line of the Choctaw at Blanco, I. T.; the Texas and Pacific at Honey Grove, Texas and Pacific at Honey Grove, Texas.

thence south to Houston, where connection will be made with numerous trunk lines.

ROADS NOT DISTURBED

The railroad officials in Mexico are not much disturbed over the report that in case the district court judgments rendered against the Pullman Car Company recently at Austin are affirmed that the company will withdraw from Texas, which would naturally discontinue the service into Mexico. Discussing the matter, a prominent railroad man said: "On account of the Mexican through traffic from California, the Pullman company does an immense business in Texas. The Pullman business over the Southern Pacific might be routed elsewhere, but it would be extremely difficult indeed to carry the Mexican traffic without coming through the state of Texas. When viewed from a standpoint of discontinuation of service on the part of the Pullman company, the proposition is anything but a business one for the Pullman company, and I am sure that it will be considered by the company in that light. You can rest assured that whatever way the case goes, the Pullman company will never withdraw from Texas."

NEGROES MAY CAUSE TROUBLE

Union labor people throughout the state of Texas are much disturbed over the management of the St. Louis, Brownsville and Mexico railroad company give preference to colored men on the operating force of that line. It is said here that efforts are now being made to secure negroes for switchmen and other such places, and this is taken that the company intends to employ negroes on its trains. It is already reported that if the company does employ colored men as trainmen that there will be a race war in Southwest Texas.

MEXICAN BUSINESS GOOD

Passenger traffic men in the republic of Mexico report that they are very well pleased with the volume of the World's Fair business thus far and look for a larger increase during the remaining months of the exposition. The reasonable rates established between Mexico points and St. Louis has not been considered too high and as a consequence people are taking advantage of the same from all the larger cities in the republic. The lines operating to the Rio Grande border have well equipped trains and passengers are given the very best of service through to St. Louis. It was thought early in the season that the quarantine regulations promulgated by the Texas health authorities would have a tendency to decrease passenger traffic to St. Louis, but the amicable adjustment of the trouble removed about the only barrier to a big movement from the republic. Each week's business out of Mexico is reported larger than the preceding one.

WILL APPROVE CONCESSION

When the congress of Honduras meets next month it is expected that the concession, recently tentatively granted to an American company for the construction of a railroad from Truxillo to the Azwan Valley, will be approved. This valley is said to be the richest in Honduras. The Azwan river is navigable further into the interior than any other stream in that country, but development of the country has been retarded because navigation is difficult at the mouth of the river. When the railroad is completed agricultural, timber and other products can be shipped direct to Truxillo for export, and the valley will become a fruit exporting port. The survey for the road has been made already. The line will be about 200 miles long. Actual construction work will begin as soon as the congress approves the concession.

Schlitz Beer Is Just This— Barley—selected by a partner in our concern—from the best barley that grows. And we malt it ourselves. Hops—brought in large part from Bohemia—selected by our buyers from the finest hops in the world. Water—from six artesian wells bored 1400 feet to rock. Just a food and a tonic—brewed with the extreme of cleanliness—cooled and filtered air—sterilized after it is sealed. Schlitz beer is pure, because our process is clean, and because the beer is filtered, then Pasteurized. It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed. It is a health drink without germs in it. It gives you beer without biliousness. Ask for the brewery bottling. Phone 13, The Casey-Swasey Co., 1001 Jones St. Fort Worth, Texas. The Beer That Made Milwaukee Famous.

K. & T. Ry., Dallas, Tex. "THE KATY FLYER" AND THE "KATY FAIR SPECIAL" The World's Fair Trains from Texas, VIA "The Katy Way."

JAPS FLOCKING TO CALIFORNIA Leave Hawaii by Thousands Because of Labor Troubles That Exist on the Island. HONOLULU, June 23.—Thousands of Japanese are emigrating from Hawaii to California and the regular steamers have not sufficient accommodations to carry all who wish to go. The inadequacy of transportation facilities has resulted in a great deal of dissatisfaction among the Japanese and steps are being taken to charter a special steamer to carry them to San Francisco. It is rumored that 2,500 Japanese are ready to leave this territory for California as soon as transportation is provided. "Such a wholesale movement is greatly objected to on the part of the Japanese government, but it is a natural consequence of the labor situation in Hawaii," says a prominent Japanese, "and surely they have the right to go to the coast if they wish to do so and have the money to pay their fares." "The situation is that the Japanese desiring a booking must give notice six months ahead and also put up \$50 as a safeguard to the steamship company in case they are held back at the other end of the trip. This has resulted in several concerns being formed to secure passage for Japanese and they seem to have got possession of all the bookings so that the only way to secure tickets is through these agents. A charge of \$10 or \$15 is made over the fare in the guise of interest on the \$50, which the so-called agent advances. A heavy booking of Japanese has been made for an interisland steamer which leaves for San Francisco to be sold for the coasting trade. Consular Agent Jensen at Bilbao, Spain, reports that a very important factor in the exportation there is that of wine, which was represented in 1902 by 2,576,702 gallons, mostly exported to France, where it is conveniently elaborated and mixed with poorer and pale-colored classes. After such manipulation it is re-exported to all countries, including even Spain, as "Bordeaux."

### Woman and Four Little Children Stranded at Union Station on Way to Galveston

With a month-old babe at her breast, and three other children crying for food, Ida Cogdell of Springfield, Ohio, has been waiting at the Texas and Pacific station since last night for some one—any one—to come to her aid.

This morning the woman sat on one of the station benches and, with her youngest child in her arms, related her story to a Telegram reporter.

She said that she formerly lived in Springfield, Ohio, but that she had had domestic troubles and was forced to leave her home. She has relatives in Galveston and to them she is trying to make her way.

The people of Springfield bought her a ticket and put her on the train. The ticket did not read to Galveston, and carried her only a short distance from her former home. Here she was forced to beg and was again put on the train to be carried only a short distance further.

In this manner, begging and half starved and entirely at the mercy of the people of the towns in which she found herself, this woman has made her way to Fort Worth. She is now at the Texas and Pacific station, without money, food or friends and is depending on the city authorities to help her to get to Galveston.

Officer John Ternes of the local police force investigated the woman's case, and said that he would report it, and help her in any way he could.

**HAD NO SUPPER**  
 "What have you been doing for food?" The Telegram man asked the woman.

"We had no supper," was the reply. "This morning a woman gave me a dime and I bought some crackers for the children."

"What are you going to do for dinner?" she was asked.

"I have 15 cents," was the answer. "Several persons have given me nickels and I'll get some food with that."

**SEEMED INDIFFERENT**  
 The woman's face was sallow and drawn and her tired eyes wandered unseeingly around the station waiting room.

"Oh, I'm so tired of it all," she moaned. "I don't care what happens. I am almost dead and too weary to care."

The babe in her arms lay fast asleep, no doubt weak for want of food and care.

The woman wearily raised her head and spoke to the reporter:

"Tell them to help me," she said faintly, "and do it before it is too late."

## TEXAS WILL QUIT ON NOVEMBER 30

Then and Not Before, Says Paul Waples, Will State Exhibition at Fair Be Closed

Captain B. B. Paddock, Paul Waples, L. J. Wortham, J. H. Kirby, E. B. Perren and Jesse Shain, members of the executive committee of the Texas World's Fair commission, left this morning for St. Louis. Some of the above gentlemen left here at 11:15 over the Frisco.

There will be held in St. Louis next Monday a meeting of the Texas World's Fair representatives for the purpose of devising ways and means for securing additional funds needed to keep the Texas exhibit before the people at the fair.

Waples will quit making a show at the fair on the last minute of November 30," said Paul Waples when asked regarding the report that the Texas World's Fair commission was about to go out of business.

Mr. Waples says there has never been a thought to indicate that the Texas building was to be closed up, but on the contrary every possible effort is being made to make the Texas building even more popular than it is at present. Mr. Waples is very much wrought up that such an erroneous publication should have been made.

# PROHIBITIONIST IN SPEECH SCORES BOTH OF THE OLD PARTIES

INDIANAPOLIS, Ind., June 23.—The tenth national prohibition convention opened today at Tomlinson hall, with four thousand delegates, alternates and visitors present. The hall was profusely decorated with the national colors. Over the platform hung pictures of Abraham Lincoln, Clinton B. Fisk and Frances Willard.

The convention was called to order by the national chairman, Oliver W. Stewart of Chicago. In introducing Rev. George H. Peeks of Sandusky, Ohio, to make the opening prayer, he said: "There is one convention where the opening prayer is not a mere formality, and it is now about to be opened."

Chairman Stewart introduced W. S. Doane of Indianapolis, who welcomed the delegates in behalf of the prohibitionists of the city and the state. When he mentioned the name of General Miles there was an outburst of applause. When he concluded the Delaware delegation moved three cheers for W. S. Doane, the "next vice president of the United States," which were given.

National Chairman Stewart made a brief reply. He said the convention just assembled was the only one that had a real issue to present to the American people.

Mr. Stewart then introduced Homer L. Castle of Pittsburgh, temporary chairman of the convention. Mr. Castle said in part:

"That canker worm of the west, polygamy, today holds at bay our United States senate, and its power is so great that the greatest lawmaking assemblage in this country, composed of republicans and democrats, dare not strike because polygamy has said there is a national election at hand. This problem must be solved by a braver lot of men than the republican and democratic senators. The people of our land have stood for years at the doors of congress, asking for such uniform system of marriage and divorce laws as will protect the sacra-

ment of marriage. They have been treated not simply with scant courtesy, but with no courtesy at all. This problem of an indissoluble home life is one of the legacies. An intelligent national solution of the mutual rights and wrongs of the aggregation of capital called 'trusts' on one hand, and labor with its organization on the other, is a problem never yet approached from the standpoint of statesmen, but always as political."

Mr. Castle continued: "Men, who, as senators, have not courage to send back to little Utah its much married Smoot, can never be trusted to cope with the evil ways of the world. They have sunk deep into every municipality of this broad land."

"Shall we trust that crowd of unaged hyenas that will convene next week in St. Louis, and whose chief occupation seems to be to dig in a grave yard, uncovering the bones of some by-gone dead issues, and falling to find subsistence upon these, they return to rend each other, apparently caring nothing for the peace and dignity of the preservation of the nation. By no manner of means shall we wait to see what they will do, for the democratic convention can always be trusted to do the wrong thing at the right time."

"There is but one party left, with absolute monarchy existing today in the republican party, expressed in its imperialism, militarism and commercialism, on one hand, and democracy with its absolute anarchy and want of conservative thought on any subject upon the other hand. There was never a louder call for a party that can stand before the American people, sure of the needs of our great land and positive on its position on public questions and fearless in its espousal of the cause of right."

When Mr. Castle, after the denunciation of the democratic party, shouted "Nor will we wait to see what they will do," there was a tremendous outburst of applause, which broke out several times afterward.

## NEWSPAPERMAN SUICIDES FOR LOVE OF "WOMAN WHO DID NOT UNDERSTAND"

MISS JOAN HAYDENFELDT, IN THE COSTUME OF "THE QUEEN OF SHEBA," AND GEO. ASPEN, WHO KILLED HIMSELF FOR LOVE OF HER.

SAN FRANCISCO, June 23.—No sadder romance, be it fact or fiction, has been written than that of George Aspen, one of the editors of the San Francisco Call, who committed suicide a few days ago by shooting himself through the heart. Torn by the emotions that drove him to self murder, he was chivalrous to the last, and in a pathetically facetious note to the coroner of San Francisco, attempted to hide the real cause of his act in an effort to spare the feelings of the woman he loved.

Aspen, who was an unusually bright young man of 29 years, had written a playlet, the leading part in which was assigned to Joan Haydenfeldt, a noted California society beauty, who has made a brilliant career on the stage through her beauty and talent.

As such things frequently go, the author fell in love with his star, and his affection, it is whispered, was requited in a measure. But the star, he realized, too late, was of a higher firmament, and a few days ago there was an understanding. Aspen's mind was made up immediately. On the night before his suicide he wrote to the woman to whom he had lost his heart, telling her of his intentions, but the note reached her too late to prevent the tragedy.

Miss Haydenfeldt is a stunningly beautiful young woman, and frequently has been picked out as the handsomest woman in the state.

In his letter to the coroner Aspen said: "Let us all agree that my suicide was due to despondency and a long illness, or wouldn't temporary insanity be better? I shall consider it an impertinence and a guess and unbecomingly breach of faith if you cause trouble or sorrow to anyone who knew me in life by attempting to probe deeper."

Another singular feature of the case is the fact that the play written for Miss Haydenfeldt by Aspen was called "The Cycle of Love," and the star's role that of "The Vampire."

The costumes worn in the piece by the beautiful actress were designed by Aspen and were gorgeous in the extreme.

## RUNAWAY CHILD IS FOUND AT DALLAS

Yesterday afternoon about 2 o'clock Goldie Cohen, the 8-year-old daughter of A. Cohen, who lives at 616 East First, disappeared and was not found until 8 o'clock last night in the Katy

While They Last

**Burton Peck Dry Goods Co.**

yards at Dallas. The Dallas police notified the child's father in this city and she was brought home in care of an interurban conductor.

The child when first found in Dallas told a story of being kidnaped by a negro man, who, she said, walked all the way to Dallas with her.

The child's parents do not have much faith in this story. They believe that Goldie, who has a passion for going to Handley, simply ran off. It is their opinion that the little girl slipped aboard an interurban car and was carried all the way to Dallas.

## ONE VICTIM OF WATERS OF GULF

The remains of Gus Harmon, who was drowned while bathing at Galveston, reached here this morning en route to Newark, from which point they will be conveyed to Dido, this county, for burial.

Harmond is a young single man, 22 years of age. He left Fort Worth last Friday for Galveston, where he had secured employment in an elevator. On Sunday he went in bathing and got beyond his depths and was drowned. His body was soon recovered. He was identified by letters found on his clothes that had been left in a bath-house.

Before going to Galveston young Harmond lived with his widowed mother near Dido. The dead man was well known in Fort Worth.

## ANECDOTES OF THE LATE LEVI Z. LEITER

Levi Z. Leiter's death has revived reminiscences of the operations in wheat by his son, Joseph Leiter, in 1897 and 1898.

The deal stood upward of \$2,000,000 to the good at one time, but finished just six years ago almost to a day, with a loss of \$9,750,000. The family pride of the elder Leiter had induced him to put up the money for his son to speculate with. But when the losses began to pile up into the millions Mr. Leiter tired of putting up money and took hold of the deal himself. It was his refusal to put up more money that caused the collapse. At that time Mr. Leiter had more quick assets than any man in Chicago, with the exception of his old partner, Marshall Field, and he then sold Mr. Field one of his choicest State street corners to raise more money.

One of the peculiar features of the Leiter wheat operations was that most of his money was lost on the short side of the market, while he was running a bull deal. It happened in this way. He had sold around 10,000,000 bushels June and July wheat to hedge against the May holdings. The price advanced 15 to 20 cents, and the line was covered at nearly the top figures, which used up the profits in the entire twelve months' dealings.

"That gave Joseph Leiter all the experience in the wheat market he wanted and he has repeatedly told his friends since that he was through with it. Some of the accounts for wheat shipped abroad and sold have not been settled to this day, and may never be. The father, however, "cleaned up" \$5,000,000 in the rise in stocks during the recent boom.

The fortune of \$20,000,000 or more left by Mr. Leiter was made mostly in dry goods with Marshall Field, the two being associated for over twenty years. The two men bought real estate in the downtown business districts together and then quarreled about it. This is said to have been the reason for their split-up in 1881, when Mr. Leiter withdrew from active business. For years they were at war over the partition of their holdings, but were on more friendly terms in later years.

Mr. Leiter was the financial man of the firm when he and Marshall Field were together, while Mr. Field attended to the selling of goods. As a credit man he was the best in the west in his day.

A story is told of his operations in selling wheat during the panic of 1893. He was one of the largest stockholders in the Illinois Trust and Savings bank, and took especial pride in the management of its affairs, being a director. A run was threatened, whereupon Leiter went to the sub-treasury, secured \$1,000,000 in gold, and took it into the bank so that everyone might see what was going on. At the same time he announced that he would bring in \$1,000,000 more, if necessary. It stopped the run, and there was no more trouble.—New York Evening Post.
