NUMBER 49

ORGANIZATION PLANS FOR COUNTY COOPERATIVE HEALTH GROUP GIVEN

A good many people of this county have, in the past few months, manifested considerable interest in a proposed plan for the securing of medical and hospital care for their families on a co-operative basis. In view of this apparent interest this article is being published in order to acquaint the people of the county with the meaning and the method of operation of such a plan.

In as brief a manner as possible the plan is described as follows:

The organization would be spoken of as a Cooperative Health Group. Its purpose would be to make available to the people of this county a high grade of medical and hospital care on the basis of group payment so as to place it within the reach of everyone.

This type of organization would be financed by the sale of membership and property right to each interested family head. This membership would entitle the participating family to one property right in the Cooperative Hospital and the right to receive complete medical and hospital care for him and his family on payment of dues ranging from \$1.50 to \$5.00 per month depending upon the size of the family.

The membership charge is necessary to supply funds to buy, build and equip a hospital, to care for the members. The dues mentioned are necessary to furnish money for maintenance of the hospital and to pay salaries of doctors, nurses and other employees.

The organization would be incorporated. It would be owned and controlled jointly by its members and as a member you would have a voice in its government equal to that of any other member. Each

member would be allowed one vote in electing a board of directors and each member would be eligible to become a director. One director would be elected from each County Beat. The board of directors would have full control of the hospital, dictating its policies, handling its funds and managing its employees. The center of activity of the Health Group would be its hospital and it is here that members would receive their treatment for the most part.

The staff of doctors would be made up of those local doctors whose wish it was to cooperate with the group and would allow you your choice of these doctors. They would be paid on a salary basis by the Cooperative Group and you as a member would be entitled to the services of any and all of them as required.

Those whose names appear below have expressed themselves as favoring an organization of the type described:

John T. Brown, M. D., E. E. Lowrey, M. D., Dean Jones, M. D., J. H. Hamilton, M. D., T. M. Hall, M. D., H. M. Haynes, M. D., K. R. Jones, M. D., M. W. Lowrey, M. D., Dan E. Graves, C. M. Spalding, J. P. Kendrick, L. S. Holmes, Leake Ayres, H. S. Compton, M. Blankenship, Otis C. Ray D. D. S., Guy Powell, Evan J. Smith, C. E. Alvis, L. S. Secrest, C. E. Alvis Jr., E. A. Shingle, Floyd Zeigler, H. K. Jackson, Byron Leaird Sr., J. H. McClelland, L. M. Stinnett, Byron Leaird Jr., E. W. Jones Jr., C. F. Caruth Jr., Robert Scott, C. H. Wallace, C. C. Sadler, J. A. Painter, R. H. Miller. Also endorsed by the Gatesville Lions Club.

(See article on front page of second section.)

LOCAL LIONS ATTEND STATE CONVENTION IN WACO

Many members of the local Lions Club attended the statewide convention held in Waco Monday and Tuesday honoring Texas' five district governors of Lionism. Those who attended the Monday morning sessions of the convention were George Painter, Otis Ray, W. E. Lasseter, Guy Powell, and Floyd Zeigler. Local Lions who attended the affair Monday night were Mr. and Mrs. Bill Wiegand, Mr. and Mrs. W. C. Guggolz, Dr. and Mrs. Kermit Jones, Dr. and Mrs. Dean Jones, Dr. and Mrs. E. E. Lowrey, Mr. and Mrs. L. S. Secrest, Mr. and Mrs. Lewis Holmes, Jessie Yates, Mrs. Guy Powell and Mrs. George Painter.

At their regular luncheon Wednesday two guest speakers, Mr. Larner of the Soil Conservation Service and Mr. Palmer of the Bureau of Agricultural Economics discussed soil conservation.

Also new officers for 1939 were elected. Dr. Otis Ray, popular Lion, was elected president, R. D. Foster first vice-president, E. D. Shelton, second vice-president, J. A. Painter third vice-president, Howard Franks, Secretary-Treasurer, Joe Bailey Walker, Lion Tamer, and Luke Walker, Tail Twister.

Newly-elected directors were Dr. E. E. Lowrey, E. A. Shingle, and Lewis Holmes.

LOCAL VALEDICTORIAN WINS READER'S DIGEST AWARD

Earle Worley, principal of Gatesville High School, announces that the coveted Reader's Digest Award for scholastic achievement has been won by the valedictorian of the class of 1939, Miss Martha Moore, box 417, this city.

She has received an engrossed parchment certificate of this honor.

The Reader's Digest confers this annual award as encouragement to young men and women throughout the nation who, by their scholastic achievement, give promise of growing into leadership in their communities.

MOUND-JONESBORO FRAY HEADS SUNDAY LEAGUE BOUTS

The Mound and Jonesboro clubs, perennial rivals in the county baseball league, will hook up in the feature baseball battle of Sunday's schedule. The Eagles will attempt to effect a comeback from last Sunday's whitewash administered them by Gatesville, while Mound will be striving to get off to a flying start in the race, their last week's game with Moshier being postponed because of rain.

The game will be played on the Eagles' home diamond, thus assuring a large crowd because Jonesboro is a red-hot baseball town, backing their team well.

Other games find the seemingly championship-bound Gatesville club at Moshier, Blackfoot at Topsey, Pidcoke at Pearl, and Turnersville at White Hall.

The games will lend a great deal of light as to the strength of various clubs. It will be the first games Turnersville, Topsey Pearl and White Hall have ever played in league competition.

Visitors in the home of Mr. and Mrs. H. E. Summers Sunday were Mr. and Mrs. E. V. Mustin and boys of Vivian, Louisiana, Mrs. Otis Richards and daughter of Coryell City, Mr. and Mrs. Reuben Adamson, and Mr. and Mrs. Frank Gault of Killeen.

WINNERS OF ANNUAL RODEO EVENTS ANNOUNCED BY SECRETARY LOVEJOY

Rodeo Secretary Eiland Lovejoy has released the list of winners in the various events of Gatesville's third annual Rodeo. Judging from this list, it seems that Tack Bolton, hard-riding cowboy, was the top money winner in this year's show, placing first in both Brahma Bull Riding and Saddle Bronc Riding, and winding up second in the Bareback Bronc Riding. Eddie Cameron, another "top hand" finished on top in the Bareback Bronc Riding, fourth in Saddle Bronc Riding, and third in the Bull Riding classic.

In the Bulldogging event, in which four or five cowboys were injured, Dub Phillips placed first, Jack Favors second, and Chick Martindale third.

Bull Riding: Tack Bolton, first; Alleh Cameron, second; Eddie Cameron, third; and Jim McHoland, fourth.

Saddle Bronc Riding: Tack Bolton, first; Jack Favors, second; Andy Robinson, third; and Eddie Cameron, fourth.

Bareback Bronc Riding: Eddie Cameron, first; Tack Bolton, second; O. B. Lynam, third; and Allen Cameron, fourth.

Junior Calf Roping: Claud Love-

joy, first; Bub Wilkerson, second; Leroy Lang, third; and Kenneth Frye, fourth.

Cowgirls (Judged one-third on horsemanship, one-third on general appearance, and one-third on horse): Mary Jane Harris, Evant, first; Estelle Lovejoy, Pidcoke, second; and Fredonia Robinson, Pearl, third.

Calf Roping: T. J. Brannon, first; Doc Spence, second; Curtis Barron, third; Johnny Mellon, fourth; and James Kinney, fifth.

Mexican Steer Roping: Frank Hosley, first; Doc Spence, second; Tom Taylor, third; Curtis Barron, fourth; and Richard Miller, fifth.

The three most popular events of the rodeo proved to be the bull riding, bulldogging, and Mexican steer roping events. The rodeo officials obtained the meanest Brahmas in the state, and only two or three men out of eight or ten riders could stick on these bulls during one performance.

The Mexican steer roping was one of the most amusing events. It was a great sight to see those tall, bow-legged cowboys in their boots take off across the arena. This event kept the customers shrieking with laughter.

RAINS FOR PAST WEEK VARY IN SECTIONS OF COUNTY

Reports have come in from almost every section of the county concerning the rains last week end. Gatesville's rain for Sunday and Monday totaled 1.60; some sections received much more, while others were the recipients of only a slight rainfall.

Coryell City had a heavy rainfall early Monday morning, which helped the crops. White Hall community needed rain very badly, but a report has not yet been received from that section.

From Ireland comes the statement that everyone has a good garden, and if he doesn't, it's because he didn't plant it. Brown's Creek correspondent states that the farmers were glad to get the rain, because it was badly needed on their crops.

Our neighboring city, Oglesby, also had heavy rains which have done much damage to the grain crops.

MEETING OF SOFTBALL OFFICIALS AT 1 P. M.

There will be a meeting of officials and managers of the city softball league to be held in Dr. Ray's office this afternoon at 1:00. The purpose of this assembly is to work out some minor schedule difficulties, players' dues, nights on which to play, umpires, and in general to prepare for the opening of the season Monday.

All managers and officials are urged to be on hand.

HIGHWAY 84 TO BE CONCRETE PAVED ONLY UNDER EVANT UNDERPASS

One of the larger Central Texas dailies stated in its Thursday issue that bids were being asked for "single asphalt surface treatment and concrete pavement from Mills county line to Gatesville." As you know, the News stated Tuesday that it would be an asphalt topping on the road. Some local citizens seemed to misunderstand the write-up in the daily and thought that the highway would be concrete. The News asked the local highway department which was correct, and they stated that the road would be asphalt topped except for about three hundred yards under the underpass at Evant. The section running under the underpass would be concrete pavement.

Mrs. O. K. Lovejoy returned Monday afternoon from the Hillcrest Memorial Hospital in Waco, where she has been for the past three weeks. She is improving nicely.

J. W. Ramsey returned Thursday afternoon from Waco where he has been spending the week with Mr. and Mrs. Dillard Ramsey.

AMENDMENT FAILS TO PASS IN HOUSE FOR FIFTH TIME

The sales-natural resource tax amendment favored by Governor W. Lee O'Daniel to finance social security was defeated by a vote of 90-53 in the House of Representatives yesterday. This marked the fifth time the amendment plan to meet the social security problem has been rejected by the House, although it has already been approved by the Senate. Only a simple majority of votes, however, will be necessary to reconsider and permit still another test.

KNIGHT AND HINSON TAKE OVER OPERATION OF CITY FILLING STATION

Dub Hinson and Johnny Knight have taken over the operation of the City Filling Station, located at the southeast corner of the square and formerly managed by J. B. Martin. Both these boys have had experience in this work, and promise to give you competent service.

These boys handle Texaco products, and also do washing, greasing, fixing flats, and have a complete line of fan belts. Continuing the policy of Mr. Martin, the new operators will give 24-hour service.

RAYMOND MAXWELL ONLY SLIGHTLY INJURED AS CAR HITS BIKE

Raymond Maxwell, local youngster suffered no serious injury when the bike he was riding was struck by an automobile driven by G. C. Martin Jr. at the intersection of Main Street and Lutterloh avenue Tuesday night. Raymond was riding west when some of his young friends called to him. He cut over to join them and Martin did not see him in time to stop his car. Raymond was thrown off the bike onto the pavement, but was only badly shaken and bruised.

An automobile party composed of Mrs. E. J. Brooks, M. H. Shepherd Sr., Price Graves, and Miss Pauline Latham left this morning for Sulphur, Oklahoma, where they will spend the week end and attend a reunion.

Spring Hill

Mrs. Fred Dyer, Correspondent

We surely had plenty of rain at this place Sunday and Monday. Some few farmers are not thru cutting grain.

Mrs. Charles Aishman of Rio Grande City and Mrs. H. T. Leonard and Billie John of Corpus Christi have been visiting their parents, Mr. and Mrs. John Morse. Mrs. Aishman returned home the first of last week and Mrs. Leonard this week.

Mr. and Mrs. John Morse and daughters visited Mr. and Mrs. John G. Morse of Cleburne one day recently.

Mr. and Mrs. John Prewitt and family of Kilgore spent Saturday night with Mr. and Mrs. Tom Dyer.

Visitors in the Fred Dyer home Sunday were Mr. and Mrs. Jack Wicker of Waco, Mr. and Mrs. Wade Dyer and Miss Eldean Lawrence of Schley and Mr. and Mrs. Owen Dyer and Billy Van of Jonesboro.

Mr. and Mrs. Charlie Rainer and family visited in Gatesville Sunday afternoon.

Mr. and Mrs. Walter Dildy and Theron of Waco spent Sunday with Mr. and Mrs. I. L. Dildy.

Mr. and Mrs. Bud Cummings went to Georgetown Monday to be present for the graduation of their niece, Miss Sue Waddill, from the University there.

Mr. and Mrs. Weldon Pope and Shirley Dean visited Mr. and Mrs. Miller of Gatesville Sunday.

Mrs. Doc Logan has been down with rheumatism the past two weeks.

Coryell City

Mrs. A. L. Hestilow, Corresp.

The Home-Coming at Coryell City last Sunday was enjoyed by a large crowd.

Rev. Will Jackson will fill his regular appointment here next Sunday, June 11. Everyone is invited to attend these services.

We are sorry to report Mrs. Tilman Cox is on our sick list this week, but is some better at this writing.

Mr. and Mrs. Pratha Lee spent Sunday in Crawford.

Miss Joe Marie Tubbs spent Sunday afternoon in the S. A. Goff home.

Mr. and Mrs. Hurl Goff and son, McNorman, spent Sunday afternoon with Mr. and Mrs. Lee Chapel at Osage.

Audie Hestilow and wife spent Sunday with her parents, Mr. and Mrs. George Clemons, near Ocee.

Mr. and Mrs. Curtis Powell of Gatesville spent Sunday with Mr. and Mrs. S. A. Goff.

By eliminating 400,000,000 man-hours of labor a year, agricultural machinery has enabled farmers of the Great Plains to increase their grain production 25 percent while using only two-thirds of the labor needed 100 years ago, a new WPA study reveals. Mechanization in the area, says the report, has cost 200,000 farm laborers their jobs.

HIGHWAYS. A MASTER PLAN

Last year, when Congress was flooded with bills to solve the nation's huge, ever-growing highway transportation problem, a favorite plan was one calling for a nationwide system of trans-continental superhighways, supported by tolls. Cautious, Congress did not make any such plan law, but instructed the Bureau of Public Roads in the Department of Agriculture to learn whether such a system was feasible.

Last week, President Roosevelt delivered the Bureau's report to Congress. Construction of a system of transcontinental toll roads, said the report, was entirely feasible but impractical, because (1) they could not be supported by tolls, and (2) they would not meet the nation's most urgent highway needs.

Accordingly, the Bureau offered a new master plan for an improved highway system to meet those

needs. In general, the toll highways would have extended in a straight line across the continent, making the cutting of entirely new routes necessary. But, under the master plan, existing routes would be utilized; they would simply be improved and converted into a 26,700-mile system of through inter-regional highways, on which no tolls would be charged.

To speed the movement of thru traffic, according to the master plan, express highways would knife directly through cities, preferably in canal-like lines below the level of ordinary street traffic; belt-line distribution routes would be built around them, while bypasses would sweep motor vehicles around small towns. Secondary and feeder roads would be improved to help rural dwellers. In addition, a Federal agency would be created to acquire rights of way for highway and street improvement. Cost of this system, the Board was unable to estimate.

Costs of some of the Congressional plans range up to 12 billion dollars.

Approved by President Roosevelt and Chairman Wilburn Cartwright of the House Roads Committee the plan, some guessed last week, might soon become law. Said the President: the plan "points definitely to the corrective measures of greatest urgency."

The 10 principal cotton producing nations have accepted informal invitations to attend a world conference in Washington late this summer, Agriculture Secretary Wallace has announced. Though no formal commitments will be made, the conference will discuss methods of establishing production quotas for each nation in an effort to control world prices.

The United States is by far the world's largest producer of petroleum, with Russia second and Venezuela third.

QUICK FLICKERS ON SUMMER FOODS

from Dorothy Greig

For breakfast: Combine equal quantities of tomato and unsweetened pineapple juice.

Sprinkle vegetable salad with crisp crumbled bacon. Gives it snappy flavor.

Start a meal with jellied consomme garnished with a dash of tomato catsup and a sprinkling of India relish. (Condensed consomme jells in the can in the refrigerator.)

Hot soup chases after-swim chills.

When little Johnny comes in from swimming, hand him a cup of hot soup—quick. Helps ward off the shivers and that blue look.

Add scoops of orange ice to frosty ginger ale in tall glasses. How the boys and girls love this on a hot afternoon!

To serve with chilled tomato juice on a warm night, pass crackers spread with:

- Chopped stuffed olives and cream cheese
- Cream cheese and minced onion
- Mashed sardines, minced parsley and lemon juice
- Pimiento cheese and raisins

To make a delicious sauce for ice cream take 1 cup of sugar and 1 cup of water and boil together until syrup begins to form. Then add 3/4 of a cup of crystallized ginger, cut in pieces. Serve hot over ice cream. This may be kept in the refrigerator and reheated before serving.

A filling and tasty salad to take along on a picnic is made this way:

PICNIC SALAD

- 1 can pork and beans (16-oz. size)
- 1/2 cup diced celery
- 2 hard cooked eggs, chopped
- 4 sweet pickles, chopped
- 1 teaspoon catsup
- 3 tablespoons mayonnaise or salad dressing

Mix all of the ingredients together. Then serve on lettuce. Garnish with watercress, tomato slices or pickled beets. Serves 5.

A hearty salad helps satisfy outdoor appetites.

Condensed soups are good soups for the boys to take along on camping trips. The cans are compact, 10 1/2 ozs., but give double that amount of soup when an equal quantity of water is added. Also mothers can rest easy that here at least is one good sensible food the boys will be eating on their big adventure.

LISTEN, EVERYBODY THE BIG OUT-LET SALE Is the Talk of the Country

I TOLD YOU that there would be additional merchandise coming in every day from the various stores. Just the gleanings of the various stocks. If it was not here yesterday it may be here today.

Mrs. Dick Derrick, Corresp.

Everybody would enjoy seeing the sun shine for a while.

Rev. and Mrs. Hollis Yeilding and children, Mr. Everette Yeilding from Coryell Creek, Mr. and Mrs. L. C. Meharg, Mr. and Mrs. Dodge Hollingsworth, Mrs. Lizzie Moore visited in the home of Rev. G. L. Derrick Saturday night.

Mrs. Lizzie Moore from Roscoe is back visiting relatives and friends.

Word was received here on last Thursday of the death of Mr. Thomas Wilson of Ralls, Texas. He was killed instantly by a tractor. Immediately his brother, Mr. David Wilson, left for that place, and was accompanied by his wife and three daughters and Rev. and Mrs. G. L. Derrick.

Rev. Derrick conducted the funeral on Friday afternoon at 4:00 o'clock. Burial was at Ralls, Texas. His relatives have the sympathy of this community.

Mr. and Mrs. Bennie Franklin and children visited Mr. and Mrs. Alvin Huckaby Sunday.

Mr. and Mrs. John Derrick spent Saturday night with Mr. and Mrs. David Wilson.

Mrs. Tobe Nichols and children visited her mother, Mrs. R. D. Painter, Sunday.

Mrs. B. J. Franklin visited her parents, Mr. and Mrs. J. E. Huckaby Monday.

Miss Addie Mae Moore from Abilene is visiting relatives and friends this week.

Mr. and Mrs. Dodge Hollingsworth from Pancake visited Mr. and Mrs. John Derrick Sunday.

Mr. and Mrs. Virgil Herring and children, Mrs. G. O. Dollins from Prairie View visited Mr. and Mrs. Sam Pruitt Sunday.

Mrs. Ida Huckaby spent Tuesday with Mr. and Mrs. J. E. Huckaby and Mr. and Mrs. Paul Hightower.

Peabody

Janese Upton, Correspondent

Mrs. Willie Barrington is on the sick list.

Mr. and Mrs. A. O. Upton of Harmon visited Mr. F. I. Upton and family Saturday night.

Mrs. N. N. Smith of Bee House visited Mrs. Jack Smith last Friday.

Mrs. Ira Upton and girls spent Friday night with Mr. and Mrs. Orville Upton of Harmon.

Mrs. Joe Piper and family were visitors in the S. T. Mariott home Sunday.

Miss Ira Dell Upton went to attend summer school in San Marcos last Saturday.

Mrs. Randall Moseley visited

relatives at the Mound Tuesday.

Several from this community attended the Rodeo at Gatesville last Saturday night.

Mrs. Ira Upton has returned to San Antonio with her sister, Mrs. J. B. Storm.

Miss Mary Guthrie, who has been with her ill father in Lampasas, has returned to her home here.

Miss Crystal Upton spent a few days with Dan and Loraine Murrah of Bee House.

Mr. Gerald Fowler is visiting relatives in this community for several days.

Frank Upton returned from a weeks visit with his brother at Harmon.

Miss Marie Butler is visiting relatives at Pearl this week.

Bee House

Verda Conner, Correspondent

Many from this community attended the Rodeo at Gatesville last week.

This community enjoyed a much needed rain Sunday.

Mr. E. J. Conner visited Mr. Otis Kinsey and family Sunday afternoon.

Miss Irene Conner visited Mr. and Mrs. Lloyd Conner Sunday.

Mr. Billy Smitherman visited Mr. A. B. Conner Sunday.

Misses Irene and Ione Conner have returned home from San Angelo where they have been attending college.

Rev. and Mrs. Loyd Williams and little daughters have recently moved in the new parsonage at Bee House.

Boyce and J. H. Conner visited Kenneth Conner Sunday.

Mr. and Mrs. A. B. Conner and children went to Waco Monday.

AN EXTENSION TELEPHONE

SAVES MANY HOUSEHOLD STEPS

IN THE BEDROOM

When the telephone rings while mother is busy with household tasks, this extra telephone saves her a hurried trip downstairs to answer the call. And for emergencies at night a bedside telephone is always most welcome.

IN THE KITCHEN

An extension telephone permits the housewife to "keep an eye" on things in her workshop and still answer incoming calls and order the day's supplies—extension telephones cost little.

LARGE ATTENDANCE AT METHODIST VACATION SCHOOL

The pastor, Rev. S. L. Culwell, reports a large attendance in the Daily vacation church school now being conducted at the Methodist church. This school began last Monday and will continue thru next week. The school opens at 9 o'clock each morning and closes at 11 o'clock. The children engage in study, worship, memory work and play or hand craft work. Mrs. R. R. Anderson is general director and supervises the work of the Primary group. Mrs. Leseter supervises the work with the beginners and Mrs. Clyde Bailey the Junior. Each of these supervisors has a number of helpers. Mrs. Potts has charge of the hand work

with the girls and Dr. Elworth Lowrey supervises the hand craft of the boys. The school will close Friday night, June the 16th at which time a public demonstration will be given of the work done in the school. The general public is invited to attend this demonstration. Children who desire to do so may enter the school any time and receive the benefit of the instruction being given.

SOCIETY

Mrs. Curry Entertains S. S. Class Monday

Mrs. Bailey Curry was hostess to members of her Sunday School class of the First Methodist Church last Monday evening when she entertained with an ice cream supper at her home on south 16th street.

After the ice cream had been frozen by some of the members of the class, the group went into the dining room, where they were seated at the table and served the ice cream and cookies. At the conclusion, Chinese checkers were played.

Attending were only a few members: Misses Martha Ann Powell, Martha Moore, Dorothy Swindall, Margaret Swindall, Margaret Gentry, and Annie Ruth Witt.

Mrs. Dan McClellan Entertains 1920 Club

Members and guests of the 1920 Club were entertained Wednesday afternoon at the lovely home of Mrs. Dan McClellan, club hostess. Bouquets of sweetpeas centered the three tables, and they were also placed at vantage points about the rooms.

At the conclusion of the games of 84, the hostess passed an ice course.

Miss Marie Wilson Weds in Fort Worth

The marriage of Miss Marie Wilson, daughter of Mr. J. D. Wilson of Fort Worth, to Mr. C. Page Stanley of Borger, son of Mr. and Mrs. Earl Stanley of Joshua, took place at 4 p. m. Sunday at the home of the bride's parent.

The Rev. Jesse Garrett read the ring ceremony for the couple and Mr. Wilson gave the bride in marriage.

Miss Jessie Lee McCarty sang, and was accompanied by Mrs. Garrett.

The bride is a graduate of North Texas State Teachers College, Denton, and has taught home economics in the Gatesville High School for the past year.

The groom, a graduate of the University of Texas, is an engineer for a petroleum company in Borger.

The couple are making their home in Borger.

Before his election to the American presidency, George Washington was president of a canal company.

Coming To Fair

Mrs. Erwin C. Easton is pictured with "High Time," one of the star performers of the Winona Farm stables of her and her husband, which will compete with other members of equine royalty at the California World's Fair on Treasure Island from June 30 to July 9. The international horse show has drawn entry of more than 1,000 champions of the show ring from all parts of the United States to compete for \$55,000 cash awards.

ROUND OF PARTIES GIVEN BRIDE-ELECT

Among the most outstanding social events of the season will be the wedding of Miss Lois Scott of this city and A. L. Welch of Longview which will take place Sunday afternoon, June 11, at 5:30 o'clock at the home of the bride's parents, Mr. and Mrs. Morton Scott, on east Leon street. This week Miss Scott has been complimented at several affairs.

Shower at Lowrey Home

Monday afternoon at 4 o'clock Mrs. M. W. Lowrey and Miss Mamie Sue Halbrook entertained at their home on College street with a miscellaneous shower honoring Miss Scott. Mixed garden flowers decorated the home thruout.

After the guests were seated around the room, a musical contest was conducted in which Miss Scott was the first prize winner. For the prize, she was awarded many lovely gifts. Mrs. Crawford Scott, second prize winner, received a gift also.

Refreshments, consisting of cake and punch, were passed to approximately 65 guests.

Co-Hostesses At Breakfast

Mrs. Hurl McClellan and Mrs. E. G. Beerwinkle acted as co-hostesses to a group of friends Tuesday morning at the home of the latter on Bridge street when they entertained with a breakfast. Place cards were miniature brides tied to the bouquets of zinnas which centered each table; the tables were laid with Madeira cloths.

Both the hostesses presented the honoree with wedding gifts; the two gifts were a set of dishes, presented by Mrs. McClellan, and a hand painted picture of the Washington monument, which was given to her by Mrs. Beerwinkle.

Guests were friends, who were in the house party at the tea given last week announcing the approaching marriage of Miss Scott, and included the following Misses Bess Holmes, Jacqueline West, Maude Alyce Painter, Edna Murray, Mamie Sue Halbrook, Orpa Mayo, Dorothy Culberson, and Mesdames Ola Mae Parks, Eugene Alvis, Jim J. Brown, Morton Scott, Sophie Presley of McKinney, Pearl White, Robert Scott, and M. W. Lowrey, and the honoree.

Bridge Courtesy

Another lovely affair given Tuesday was the bridge party extended to a group of friends by Mrs. Robert Scott, who entertained in the afternoon at her home on south Lutterloh, complimenting the bride-elect.

Games of bridge were terminated with prize awards going to Mrs. Bythel Cooper for high score, Mrs. Jim Brown for second high, and Miss Bill Cayce for low score. Also a beautiful gift was presented to the honoree.

Refreshments consisted of punch and cake, and favors were Japanese parasols on gum drops. Enjoying the affair were: Mesdames E. G. Beerwinkle, Kermit Jones, Bythel Cooper, Jim Brown, John T. Brown, Crawford Scott, Elworth Lowrey, C. B. Braden, Mat Jones, C. E. Alvis, Jr., Robert Brown, Jack Odell, and Misses Dorothy Culberson, Jim Ellen Wells, Maude Alyce Painter, Sally Martin, Mamie Sue Halbrook, Jacqueline West, Bill Cayce, Bess Holmes, Myrtle Lou Head, Vera Cayce, and Edna Murray.

Callers in the afternoon were Mesdames Pearl White, Hurl McClellan, M. W. Lowrey, and R. M. Ealy.

Bridge Party and Shower

Mrs. Kermit Jones' compliment to the bride-elect was the bridge party and shower given at her home on south 14th street Thursday evening at 7:45 o'clock. Vases and bowls of zinnas adorned the home thruout.

After a series of bridge games, Miss Scott was presented with a large basket of gifts, arranged around a colonial bouquet, which also was given to the honoree.

Plates holding delicious ice cream and cookies were passed to the following: Misses Edna Murray, Maude Alyce Painter, Bess Holmes, Jacqueline West, Mamie Sue Halbrook, Jim Ellen Wells, Doro-

thy Culberson, and Mesdames Robert Scott, Eugene Alvis, Jim Brown, E. G. Beerwinkle, Dean Jones, Rosser Sanders, John T. Brown, Elworth Lowrey, Morton Scott, Sophie Presley of McKinney, Hurl McClellan, and Pearl White, and the honoree.

Hostesses This Evening

Misses Bess Holmes, Edna Murray, and Maude Alyce Painter will entertain this evening with a bridge party in honor of Miss Scott at the home of Mrs. Andrew Kendrick on south 14th street.

Koch-Hill Nuptials Performed Tuesday

Miss Emma Irene Koch of the Plainview community and Mr. Adolph Hill of Kyle, Texas were married on Tuesday evening at 8 o'clock at the German Bethel Baptist Church with Rev. W. H. Buening officiating. The altar was decorated with pink radiance roses and fern where the single ring ceremony was performed.

Both processional and recessional were played by Miss Margaret Lengefeld who wore a pink taffeta frock. Miss Lengefeld also accompanied Irvin Koch, brother of the bride, who sang "I Promise You" and "I Love You Truly".

The bride descended the aisle on the arm of her father. She was attired in white lace over slipper satin fashioned with a standing collar with covered buttons down the back and a wide, circular skirt which formed a slight train. Her finger-tip length veil fell from an arrangement of lilies of the valley. She carried a beautiful bouquet of white carnations.

The maid of honor, Miss Elfreda Apel, wore a blue lace over taffeta.

The bridesmaids, Misses Frances Koch and Nadine Hill, wore pink lace over taffeta, and their shoulder corsages were formed of pink rosebuds.

Flower girls were Misses Thelma Jean Koch and Shirley Ann Schaub who wore baby blue organdy with bands of pink velvet ribbons. They carried baskets of rose petals.

Mr. Leroy Hill was best man and Julius Hill and Albert Koch were ushers.

Immediately following the wedding, a reception was held at the home of the bride's parents for members of the wedding party and close friends. The home was decorated with profusions of flowers, and centering the lace laid table was a three tiered wedding cake.

Mr. Hill is a resident of Kyle and is connected with the Red and White Store of that town.

Mrs. Hill is a graduate of Ursuline Academy of Dallas.

Following the reception the bride and groom left on a honeymoon to Monterrey and other points of interest in old Mexico after which they will be at their home in Kyle, Texas.

Shower for Bride

Mrs. Hill was complimented with a miscellaneous shower on Wednesday afternoon when Mrs. Fred Schaub Jr. and Mrs. G. P. Schaub were joint hostesses in the home of the latter.

Games of Bunco were enjoyed and after the gifts were admired, a salad plate was passed to twenty guests. A color scheme of pink and green was carried out, and tiny pink and green umbrellas were plate favors.

WHICH CALLS FOR MORE WORK—ANNUALS OR PERENNIALS?

"Aha" says the beginner when asked this question, "I know the answer to that one: perennials do not have to be started every year, while annuals must be started from seed each season. Perennials must be easier, therefore!"

The fact is, however, that there is little to choose between them on the score of work entailed, as many experienced gardeners will testify. Experience teaches that perennials need careful nurturing, otherwise they will deteriorate and die. Many annuals, on the other hand, self-seed and will come up again as dependably as the perennials.

In any case, the extra care which must be given to perennials compensates for the necessity of seeding them only once.

WORDS WITHOUT MUSIC

By LOUIS REID

NEW facts about Stephen Foster continue to come to light. A correspondent associated with the old music publishing firm of Pond & Co., which at one time had Foster under contract, states that the song-

Louis Reid

writer was a careful craftsman. Dissatisfied with certain words he had written for his Negro melodies, Foster "often used to go down to the shop, then located in Wooster Street in New York, to change them."

America is appreciating more and more the genius of her greatest writer of songs. Latest token of her esteem is a shrine which is to be built on the shores of the Suwanee (or as it's more correctly known, the Suwanee) in Florida.

Meanwhile, the race which Foster hymned so hauntingly is becoming more and more ambitious musically. It is spreading out from its plantation tradition, its "spirichels" and rhythmic excitements and is finding expression in the art forms of opera and symphony and tone poems.

Opera About "Haiti"

Comes word to this department that the musical directors of New York's World's Fair are planning a production of "Ouanga," an opera of Haiti, by the Negro composer, Clarence Cameron White. A prominent member of the American Society of Composers, Authors and Publishers, White is best known for his happily-titled "Bandanna Sketches," which include arrangements of such spirituals as "Nobody Knows de Trouble I Seen" and "Sometimes I Feel Like a Motherless Child," his "Cabin Memories" and "Levee Dance," which is being featured this season by violinist Jascha Heifetz.

White, violin virtuoso and composer, received his early training at the Oberlin Conservatory of Music. Later he spent three years in London as a pupil of the famous English composer, S. Coleridge-Taylor. At present he is serving in the capacity of music specialist on the staff of the National Recreation Association.

His works have appeared on the concert programs of the Boston Symphony, Kreisler, Spalding, Roand Hayes and Paul Robeson.

Still Also Honored

Another Negro composer, more representative of the modernistic school, who is to be honored by the New York World's Fair is the brilliant William Grant Still, A.S.C.A.P. His six-minute tone poem will ac-

company the presentation of the City of Tomorrow in the Fair's perisphere. Symbolizing a vision of Democracy, a merging of present and future, it has been written, it is said, in fresh, melodious music rather than in modernistic or the futuristic idiom. Thus, it is expected to be understandable to the great mass of visitors.

Orchestrated for a full symphony band, it will have a spirited finale of nearly two minutes of chorus with orchestra, the chorus singing the theme song of the Fair.

Still worked more than two months on his six-minute composition, using a time sheet and a metronome, the devices he employs

Clarence Cameron White, A.S.C.A.P. (His opera "Ouanga" is likely to be produced at the New York World's Fair.)

in writing motion picture music. An expression in tone, it will be timed to the second with the developing action of the changing vision.

The composer was chosen by a World's Fair jury in a novel manner. Various works by many men were played from records to the jury without the names of the composers being given. Still's "Lenox Avenue," written for the Columbia Broadcasting System and "From a Deserted Plantation," composed for Paul Whiteman, won the jury.

There will be but a fleeting breath of jazz in the tone-poem; though Still is expert as a composer and arranger of jazz. The jazz will accompany—appropriately—the night life scene of the future city.

DUSTING SULPHUR

Attention, Farmers!

Now is the time to dust your cotton for flea-hoppers. Obtain your sulphur at

Coryell County Cotton Oil Company
V. C. Ray, Mgr.

Personals

Pat Hollingsworth visited Miss Virginia Moser in Clifton Sunday.

James Franks of Austin is visiting his parents, Mr. and Mrs. Jim Franks.

Mr. and Mrs. John P. Reesing were Waco visitors Wednesday morning.

Eugene Parks of Midland is a guest of Mrs. Ola Mae Parks.

Mrs. James Moss of Port Arthur has been visiting in the Tom Mears home.

Mr. and Mrs. Davis Smith of Dallas were guests in the Frank Smith home last week end and attended the Rodeo here.

Mrs. Otis Richards and daughter, Gracie Ann, of Coryell City spent several days with her parents, Mr. and Henry E. Summer, last week.

Miss Margaret Melton and Sam L. Huey of Tyler spent the week end with her parents, Mr. and Mrs. W. A. Melton.

Mrs. George W. Baines of Fort Worth arrived the first of the week to spend the summer with her daughter, Mrs. John P. Reesing.

Mr. and Mrs. Howard Compton left Tuesday morning for the Davis Mountains, where they are spending this week.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Coryell County, Greeting:

You are hereby commanded to summon C. O. Collard by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but is not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Coryell County, to be held at the Court House thereof, in Gatesville, Texas, and the 2nd Monday in July A. D. 1939, the same being the 10th day of July A. D. 1939, then and there to answer a petition filed in said Court on the 31 day of May A. D. 1939, in a suit numbered on the docket of said Court as No. 4846, wherein Georgia Collard, Plaintiff and C. O. Collard, is Defendant, and said petition alleging: That the plaintiff has been for a period of 12 months an actual bona fide inhabitant of Texas, and has actually resided in Coryell County for more than six months next preceding the filing of this suit. And plaintiff alleges that she and defendant were legally married on October 15th, 1910, and by reason of his cruel treatment toward her, the same being of such nature as to make their living together unsupportable, she did on or about Sept. 1st 1937 permanently abandon the defendant and has not since lived with him; and by reason of said cruel treatment of her by the defendant, she prays that their marriage contract be dissolved, and for cost of Court. Plaintiff also alleges that she and defendant have no minor children and no community property; and that the defendant's residence is to her and her attorneys unknown.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. GIVEN UNDER MY HAND and the Seal of said Court at office in Gatesville this 31 day of May A. D. 1939. Carl McClendon Clerk Dist. Court Coryell County.

HOLLYWOOD NEWSSETTES

By IRVING PARKER

HOLLYWOOD's barbers are wearing dour expressions these days because of filmdom's current demand for furry faces and shaggy manes. A clean shaven actor is something of an oddity due to the run on historical pictures, westerns and stories glorifying hillbilly handits, such as "Gone With the Wind," "Dodge City," and "The Oklahoma Kid."

But the veteran tonsorial operators of the cinema capital can take heart because they have weathered many such screen cycles. They know they'll be doing land-office business when the trend is toward pictures which need beardless men with close cropped hair.

It's happened before and it'll happen again.

Richard Dix fractured his hand twice during the filming of "Man of Conquest."

That delightful theme number which introduces and closes each Wednesday oil program was written originally as a piano composition, "Through the Old Cathedral Window," by Maestro DAVID BROCKMAN.

Jane West, star and author of "The O'Neills," popular radio series, has been turning in scripts despite an attack of pneumonia which hospitalized her.

Did you know that Frank Gill, writer and co-producer of the Joe E. Brown radio program (Thursday-CBS) is married to Verna Hillis of film fame? Frank's partner in mirth is Bill Demling.

The newest thing in radio variety shows to come out of the West is "Let's Go Hollywood," a lively piece featuring stars from the Warner lot, Leon Leonardi's orchestra and Owen Crump as master of ceremonies. It attracted attention as a local program before it was released coast-to-coast over the Mutual network.

MAX REINHARDT, famed genius of the theatre, is directing a series of plays in his "Workshop" in Hollywood which has become the rendezvous of many cinema celebrities. Greta Garbo attended a recent production, attired in the usual Garbo manner, beret, slacks and jacket.

The lovely lady limned above is HILDEGARDE, songstress on the "Raymond Paige, 99 Men and a Girl" broadcasts, Wednesdays over CBS.

Report has it that Don Prindle will write comedy for a Tuesday transcontinental airshow and prepare gags for a major picture company. Don has been chief scripter for the Joe Penner program for the past two years.

Do you think John Wayne is the second Gary Cooper? Anyway, Republic studio executives are grooming the former football star for Cooper-like roles as the result of his hit in "Stagecoach."

Maxine Sullivan's recording of "Jeannie With the Light Brown Hair"—arranged by Claude Thornhill—will be on sale in your music store in a few days.

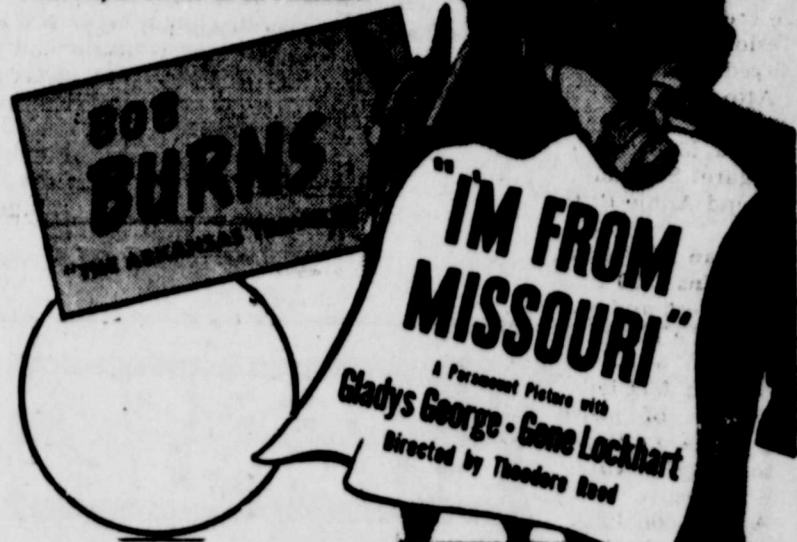

Jackie Coogan and Betty Grable have been reported as spitting again. Be that as it may, they were seen together at Mena Quevly Morgan's exhibit of sculpture the other day.

SOFTBALL SEASON TO GET UNDER WAY MONDAY NIGHT AT STADIUM

The curtain will be raised on the annual city softball race Monday night when the flashy Coca-Cola Bottlers tangle with the Red and White club in the season's inaugural, while Arnold Electric and the Firemen will meet in the second game.

The Coca-Colas, defending champions, will throw their No. 1 hurler, Woody Wilson, against Seth Anderson's boys, while Holt, outstanding hurler last year, will probably be on the hill for the Red and White Club.

Either Huckabee or Rutherford, ace of the Electricians' staff last season, will handle the chores for Arnold's, while that aged veteran, Lefty Ray, will start for the smoke-eaters.

This year's race looks as if it

will be a tight one right down to the wire, the three most classy clubs being the Highway, Red and White, and Coca-Cola. All of these club's line ups are filled with veterans who can slug the ball and are steady afield, and all boast pitchers who can hold their own against any team in the circuit. The Red and White organization has an especially fine hurling corps, consisting of Ivy and Holt, young fireballer. Last year Ivy, who was disappointing at the start of the campaign, finished strong, winning five straight games to pitch his club into the final playoffs, where they were beaten by the Highway ten. Holt was recognized as the top-notch pitcher of the league, being the ace moundsman of the All-Star club.

Following is the first week's

schedule:

MONDAY, JUNE 12

Coca-Cola vs. Red and White

Arnold Electric vs. Firemen

TUESDAY, JUNE 13

CCC vs. Firemen

Highway vs. Arnold Electric

THURSDAY, JUNE 15

Red and White vs. CCC

Highway vs. Coca-Cola

Levita

Mrs. P. H. Permenter, Corresp.

We had a good rain which was very much appreciated by everyone. The gardens were almost dead.

Visitors in the home of Mr. and Mrs. Oran Webb were their daughter, Mrs. Daniels and son of Taylor and two grandchildren and James Webb of Ranger and Morris Webb, who left for school in Austin Monday.

Mr. Harry Rogers is confined to his bed and is still not out of danger yet. Mrs. Kate Permenter and Mrs. Matie Rogers and Mrs. Ethel Rogers spent the day last Friday with him. Hope he will soon be up.

Mrs. Dutton has been very sick and isn't doing any good. She is still confined to her bed, but hope she will soon be up.

Rev. G. L. Derrick filled his regular appointment Sunday but a small attendance on account of the rainy weather.

The Methodist meeting begins on the fourth Sunday in June. Everybody is invited to come and bring someone with him.

Mrs. Juanita Williams has been sick in bed for the last two days. Hope she will soon be up.

Mrs. Anna Mae Maxwell visited her sister in East Texas last week and brought her niece home with her to stay awhile.

Oglesby

Dora Frances McCauley, Corresp.

The Bewley's Chuck Wagon Gang was here Thursday evening playing songs and serving hot biscuits made with Bewley's Best flour.

Mrs. Vernie Mae Loper and children were in town Thursday.

Betty Clyde Dixon was in Gatesville to see the parade.

Bonnie Lee Homan was in Gatesville shopping Monday.

Louise Ewing was visiting in the home of Ann Cavitt Wednesday evening.

We are sorry to report Mrs. N. B. Mooney is sick in bed.

Mr. Raymond Bankhead was in Waco one a business trip one day this week.

Emett Brumalow was visiting in the home of Mr. and Mrs. Ruby Loper one day this week.

Mr. and Mrs. Paul Johnson and children of Coryell Church was visiting in the homes of Mr. Will Johnson and Mr. Fred Homan Sunday evening.

Morris Parker Donaldson of McGregor was visiting here this week.

Dr. Dowd Jordon of Brady is visiting his mother, Mrs. D. M. Jordon.

Mr. and Mrs. Dan Carter moved to Waco. Mr. Carter is taking the summer term at Baylor University.

Mr. and Mrs. Vance Baker of Bynum are visiting his parents, Mr. and Mrs. Alex Baker.

Nancy McKelvain and Venelle Powell were in Kiddies Matinee Station, Waco Saturday from 10 o'clock to 10:30 o'clock.

Mr. and Mrs. Guy Rogers were visiting Mr. and Mrs. G. R. Green Friday and Saturday.

Festus Shope has returned to Oglesby and is taking care of the aged T. Y. Bannister.

The heavy rains over the past ten days have done great damage to the grain crop much of which is unharvested.

F. G. Collard Jr. has returned from College Station where he has been attending A. and M. College.

F. G. Collard Sr. was taken to Marlin last Friday, where he will take treatments for rheumatism.

The poison of wasps, vespa, and the venom of ants, forica, are used as remedies for various human afflictions.

Schley

Mrs. Jim Alford, Correspondent

Many from here attended the parade and Rodeo last week end. Jessie Morene Alford of near Gatesville spent Thursday with Mildred Alford.

Mr. and Mrs. Young of Lingleville visited her parents, Mr. and Mrs. B. B. Scott, last week end.

Miss Anna Belle Murray of Gatesville spent Saturday with Mildred Alford.

Miss Dorothy Koether spent last week with Juanita Graves of White Hall.

Miss Polly Alford spent Sunday with Kathryn McDonald.

Mr. and Mrs. Emmett Phillips visited in the T. J. Alford home Sunday.

Henry Koether visited his mother at Plainview Monday.

Mr. and Mrs. Charles Pancake and son spent Monday night with her father, Evans Painter.

Mound

Mrs. E. T. Lightsey, Correspondent

Miss Ima Fellers left Monday for Denton, where she will be in summer school.

Ford Roberts of Waco visited his mother, Mrs. H. S. Roberts, who is ill.

Mrs. W. S. Garnett and children of Big Springs came in Monday for a visit with her mother, Mrs. Geo. I. Draper.

Mrs. H. A. Davidson and children left Wednesday of last week for Dallas, where her little daughter, Helen, underwent an eye operation and at last reports she was resting well.

Mr. and Mrs. G. L. Lam have moved back to Mound.

Bruce Bomer, Mrs. H. M. Lam and several others are on the sick list.

The infant daughter of Mr. and Mrs. R. S. Hopson passed away Monday afternoon at 3:15 after a lingering illness.

She was laid to rest in Mound Cemetery at 3 o'clock Tuesday afternoon with the Rev. A. Loper and the Rev. George Franks conducting the funeral services. We deeply sympathize with them in their sorrow, and can only say, the Lord giveth, and the Lord taketh away. Blessed be the name of the Lord.

Turnersville

Mrs. Emma Jones, Correspondent

Dr. Harold Brenholtz and family from Denton were week end visitors in the E. A. Brenholtz home.

Miss Louise Basham from Temple was a week end visitor with home folks.

Misses Wilma and Juanita Harrell, who have attended TSCW, Denton, returned home Sunday.

Joe Milner and wife and Pete Tharp were Tuesday visitors to Stephenville.

Mr. Lisenbe and family from Belton, Mrs. Albert Talbert and children from Blooming Grove and Mrs. Dennis Jones were recent visitors in the Sam Jones home.

Mrs. Zilman Gillmore is home after spending the past three weeks in Kilgore.

J. T. Garren is home after spending this past year in Tulane Medical College.

—Watch the signal lights.

Society: An outstanding and distinctive affair of the season was the lovely party given by Mesdames Ola Mae Parks and D. I. Glass at the home of Mrs. Parks last Monday afternoon announcing the approaching marriage of Miss Elsie Wilson to Marvin Parr of Houston.

C.C.N.

TELEVISION—A SCIENCE, AN ART, AN INDUSTRY, MAKES ITS BOW

Television is here. The subject of laboratory experiments for more than 60 years is now a commercial reality. Developed at a cost of many millions of dollars, man's newest and most spectacular means of mass communication made its formal American debut last week.

To begin the first regular television service in the United States the National Broadcasting Company chose to broadcast sights and sounds from the opening of the New York World's Fair. Stars on the initial broadcast were Governor Lehman of New York, Mayor LaGuardia of New York City and Fair Director Grover Whalen. Chief performer was Franklin D. Roosevelt, who became the first

American President to be televised.

Even more important to the backers of television were persons in New York who watched the broadcast thru one of the receivers displayed in Radio City. Speaking as Mrs. John Q. Public one woman exclaimed: "I read about it but I never thought it would be like this. Why, it's beyond conception!"

To the half a dozen radio companies which have sunk \$15,000,000 in television research since 1934, such an attitude gives needed encouragement. The audience that watched NBC's ambitious, 3½ hour program thru privately owned receivers probably did not number more than 500. The number of individually owned sets in the United States is less than 1000.

In its infancy, television is an industry virtually without a public. Winning and learning how to serve an audience is the major task that the industry hopes to perform in the next five years.

According to a poll by the indefatigable Dr. George Gallup, 4,000,000 American families would like to own television receivers. But many of them cannot afford the expense, and others are beyond the short range of television broadcasts. By May, 1940, the industry will be satisfied to have sold 25,000 sets.

Television receivers were put on the market as long ago as 1931, when cheap models sold for \$119. Present receivers are better in quality, higher in price. The American Television Corporation, the Due Mont Laboratories and the Radio Corporation of America, parents of NBC, already have begun sales campaigns. Philco, General Electric and other are expected to begin soon.

A small screen receiver, which shows an image about three inches square, costs about \$150. Receivers with screen 10 inches wide and 8 inches high cost between \$350 and \$400. Other standard sets with larger screens cost up to \$650.

In the United States, 23 stations most of them owned by set-manufacturing companies, now televise programs. Six are near Philadelphia; five are near New York, Boston, Chicago, Kansas City, Mo., and Los Angeles each have one. Several may offer regular service within the year, but the only one to do so is NBC's station W2XBS, which broadcasts from the Empire State Building.

Television's first testing ground will be in and near New York. Eager customers who buy receivers may be somewhat shocked to learn that installing a set and making sure that it will work costs about \$50. Viewers who live in New York's canyons cannot expect the best possible service, since tall building interfere with reception.

New Yorkers will find that not more than six persons can watch a medium-sized television screen comfortably at one time. Eye fatigue may develop after half an hour of watching. Television images are equal in quality to an ordinary newspaper photograph, but are only one-fourth as sharply defined as motion pictures. Even so, they are 50 times better than they were 10 years ago, and much better than photographs make them seem.

Most serious defect in any television equipment is that it may be outmoded with shocking suddenness. Broadcasting sound, an integral part of television, is well established, but shooting pictures thru the sky is still an unsettled science.

What makes television work is

that light can be translated into electricity, then back into light. When light shines on the selenium in television cameras, the chemical give off feeble electric impulses, which can be amplified and broadcast. When these impulses strike receiving screen, they cause fluorescent chemicals to glow; the pattern of the impulses determine the pattern of light and dark which makes the picture.

A dozen men marching abreast could not get thru an ordinary door; nor could all the light reflections from an object be translated into electrical impulses and broadcast simultaneously. Television cameras divide the scene before them into 441 strips; television receivers reassemble the strips into pictures at the rate of about 30 a second. The images blur together and appear to move.

The stripping process, heart of television, is known as "scanning." It may be accomplished in one of two ways. In the mechanical system, a whirling disc pierced by tiny holes whirled in front of the camera, dividing the scene before it into lines. In the electronic system, the same result is achieved thru the complicated use of electric currents.

Mechanical scanning dates from 1884, when it was developed by a German named Nipkow. Electronic scanning is an American invention, dating from the early 1920's. Philo T. Farnsworth, then a 14-year-old Utah schoolboy, and Russian-born Vladimir K. Zworykin, then an employee of Westinghouse Electric, outlined its principles at nearly the same time.

Farnsworth, now 32 and vice president of a \$3,000,000 corporation named after him, is still the boy wonder of American television; Zworykin, employed by RCA, is its grand old man. Their system is inferior in some respects to the mechanical, but it is less likely to get out of kilter. For the moment, electronic scanning is the basis of American television.

From the public's point of view, scanning is vitally important. By means of radio waves, each receiver is synchronized with the transmitting station so that it reassembles pictures at the proper rate. Although the first crystal sets can still receive radio broadcasts, a slight change in scanning might make television receivers absolutely worthless.

Such a possibility is not outside the bounds of possibility. An ex-Navy engineer named Priess already has what he asserts to be an almost fool-proof mechanical system. Lee De Forest, radio pioneer has another. At least one major company—the Zenith Radio Corporation of Chicago—believes that television is starting too soon. Thus far, it has rented but refused to sell receivers to the public.

To enable manufacture to get under way, the Radio Manufacturers Association agreed on standards for television equipment last August. Their pact may have the

desirable effect of preventing utter confusion in the transmission and reception of televised programs. But it also may tend to freeze television equipment at a low point of perfection.

Brown's Creek

Geneva Keener, Correspondent

The farmers were glad to get the rain. It was very badly needed on their crops.

Mr. and Mrs. Alex Van Winkle are the proud parents of nine lb. baby girl.

Miss Katherine Brown spent Sunday in the W. B. Keener home. Miss Eunice Pruitt spent the week end with Geneva Keener.

Mr. and Mrs. Robert Bigham of Houston and Billy Bigham of Waco have returned home to spend the summer with their parents, Mr. and Mrs. M. C. Bigham.

Mr. and Mrs. Bud Manning and children spent Monday with her parents, Mr. and Mrs. Albert Hill near Harmon.

Mrs. Molly White is visiting her daughter, Mrs. Alex Van Winkle.

Mr. and Mrs. W. B. Keener, Mrs. Ira Graham and daughter, Doris Marie, are spending this week in Dallas.

Mr. and Mrs. Willie Keener and daughters, Geneva and Billy Yvonne, Mr. Bud Manning and Mr. Albert Hamilton visited in the Hulon Brookshire home Tuesday.

Mrs. Hulon Brookshire and children, Mrs. Willie Keener, and children and Mrs. Jesse Brown and children visited Mrs. Alex Van Winkle Tuesday.

Mr. and Mrs. Willie Keener and daughter, Billy Yvonne, visited here sister, Mrs. John Graham of Eliga Saturday afternoon.

Serious deficiency of sub-soil moisture and steadily smaller amounts of rain thru most of the mid-west led the U. S. Weather Bureau to report to President Roosevelt last week that chances for extreme drought this summer were greater than at any time since 1936. Agriculture Secretary Wallace has already organized a tentative drought relief committee and the President is ready to ask Congress for emergency drought relief funds.

Are You A Safe Driver?

The old question of who should drive the family auto can be settled without further argument in the Aetna "auto laboratory" at the California World's Fair, with a series of driving tests providing accurate estimate of ability. Here Miss Rosalind O'Connor takes a test on the "Reactometer" with pictures on a moving screen giving cause to ease off the accelerator and tramp on the brake quickly. An electric recording shows speed of reaction in one of a series of tests. All Fair doers are invited to take the test.

What are cotton flea hoppers? What do they look like? How do you find them and where do you find them? What do you do to them?

Mr. K. P. Ewing, Entomologist of the Bureau of Entomology and Plant Quarantine, will discuss the above subjects and also the proper steps to take toward control of boll worm, boll weevil and other cotton insects on Thursday, June 15th, 2:00 p. m. in the cotton field back of the Bob Brown property on West Leon street between the business section of Gatesville and the Leon River.

Experimental work is being carried on now at Waco to find better methods of handling cotton insects in this area. Many cotton producers are thoroughly convinced that methods of control must be employed if cotton is to be produced in the future.

Be on hand at 2:00 o'clock at the field.

Actual walls of Solomon's temple have been unearthed in Jerusalem.

Luminous beetles are carried by certain natives of South America when they journey at night.

Canada paid \$25,000,000 to farmers to stabilize the price of the 1938 wheat crop.

FEDERAL HOUSING ACT IS TO CONTINUE OPERATION

The amended National Housing Act, signed by the President on June 3, is designed to continue, with modifications, the liberalized home financing program begun in February last year under the National Housing Act amendments of 1938, stated Wm. H. Clark Jr., State Director, today.

Hesaid, "Its enactment should give renewed assurance to the residential construction industry, to home financing institutions, and to individual home buyers and builders who may have been holding up plans because of uncertainty regarding the future of the FHA. In other words, they may go forward with confidence that virtually all the financing facilities available to them in the past year will still be at their disposal."

As the Senate Banking and Currency Committee pointed out in its report recommending passage of the amended Act: "Such continuance directly concerns the orderly progress of recovery and employment and the opportunity of American families to obtain better living standards."

Principal features of the amended Act are:

1. Authorization for the President to increase to \$4,000,000,000 the amount of outstanding mortgage insurance obligations the FHA may have at one time. The present limitation is \$3,000,000,000 and the outstanding principal obligation at this time is approximately \$1,400,000,000 not including approximately \$400,000,000 in

outstanding commitments to insure.

2. Continuation of the FHA authority to insure mortgages on existing construction until July 1, 1941. Homes financed with FHA insured mortgages will continue to be eligible for FHA financing indefinitely.

3. Requirement that in the refinancing of mortgages the applicant for insurance must file a certificate that the mortgage holder has refused to grant him equally favorable terms.

4. Extension indefinitely of the authority of the FHA to insure mortgages on small homes involving mortgages of not more than \$5,400 for terms up to 25 years. Under the old bill the maximum maturity of 25 years reverted to 20 years, as of July 1st.

5. Authorization to continue insurance of lending institutions against loss of property improvement loans up to \$2,500 each with a new property empowering the Administrator to charge an insurance premium not in excess of three fourths of one per cent to off-set a portion of operating expenses and losses.

6. Establishment of a prevailing wage scale to be determined by the Secretary of Labor on large-scale projects (Section 207).

7. Revision of the conditions under which insurance may be granted on mortgages covering large-scale projects.

8. Repeal of Section 210 under which the Administrator was authorized to insure mortgages under special conditions in the price range up to \$200,000.

FRAGRANCE OR BEAUTY FIRST IN GARDENS

Frangrance is a precious quality in flowers which was once valued even more highly than color. Old-fashioned flowers, while not so flamboyantly beautiful as the modern giant, held a more subtle attraction in their delicate attars. Accordingly, our grandmother took more delight in their perfumes than we do.

Too many modern gardens sacrifice olfactory attractiveness in favor of visual beauty. In most cases it is wise to strike a balance between the two, to combine the appearance of the garden with fragrance too.

Devote one corner (or more) to flowers whose chief charm lies in their fragrance. It will prove a delightful spot to visit with your friends in the evening, when the scent is more dominant for some reason (possibly psychological. See if they, and you, too, are not delighted with the fragrance of evening flowers.

Lambs are easily dressed and convenient to handle on the farm. A carcass that will yield from 25 to 45 pounds is small enough for the average farm or ranch family to use as fresh meat.

Boulder dam cost approximately \$70,000,000.

The number of sheep on Texas farms and ranches is increasing and has already reached 9,400,000. Prospects are that more of the lambs produced in Texas will be fattened in Texas.

How To Win Friends in Warm Weather

Chilled tomato juice, served with crackers and cheese, renews lagging energies on a warm day.

— Serve Them Reviving Snacks To Perk Up Their Spirits

By Dorothy Greig

IN summer, the house of a friend of mine is an oasis of cool enchantment in a fretful world. For one thing, during the blaze of the day she keeps the blinds drawn against the heat. The house offers quiet and shade as you step gratefully into it.

Then, while you seat yourself my friend disappears, to reappear in her serene, unhurried way with a sparkling green glass saucer of rhubarb palely pink, and ice cold. You cool off and relax at the very sight of it, and the chill tartness of the rhubarb is wonderfully reviving.

Hot weather "revivers" can do more than a little to ease the burden of summer heat. They may be spicily hot or frostily cold. But hot or cold they have this in common: They stimulate and refresh.

Served mid-morning or mid-afternoon they perk one up and starch afresh spirits that have begun to wilt. Served at the beginning of a meal they awaken appetite for the dishes to follow.

Such warm-weather perker-ups can be extremely simple. For instance,

consommé pass cheese crackers or cheese straws. Condensed consommé also jellies in the can, in the refrigerator. It takes about four hours.

Then when you feel like going to a mite more trouble try this:

Jellied Cucumber Consommé

1 can condensed consommé
3 tablespoons fresh cucumber, grated

Chopped parsley
Lemon wedges

Place the condensed consommé in the refrigerator until jellied. Then mix the grated cucumber through the jellied consommé. Serve in cups with parsley for garnish and a wedge of lemon on plate at the side of the cup.

Of course, for hot stimulants there's nothing to beat hot consommé, hot consommé madrilène or hot tomato juice, because they are spicily seasoned, and at the same time light and refreshing.

And here's another you'll like, too:

Hot Tomato Bouillon

2 cans condensed bouillon
1 soup can of tomato juice (10½ ozs.)

1 can water (using soup can for measure)

Combine the bouillon, tomato juice and water. Then heat. Serves 6-8.

RITZ — TODAY AND SAT
"FRONTIER PONY EXPRESS"
WITH ROY ROGERS

ANOTHER LONG HORSE RACE TO BE PUT ON BY PARTON WITH MINERAL WELLS

Mineral Wells.—The longest horse race in history, an endurance contest for horse and rider, will be the interesting feature of Stage Coach Caravan which leaves Mineral Wells on July 15, headed for the New York World's Fair. Applications are already being received at the caravan headquarters in Mineral Wells from riders who are anxious to make the trip. L. A. Parton, manager of the caravan, states that he expects to have 100 riders to start the race on the morning the stage coach caravan leaves this city.

Rules of the Scout Race, limit the rider to one horse, and the race will start each day in the city where the caravan has bedded down for the night. A cash prize of \$1,000 will be paid the winner on his arrival at the World's Fair in New York Parton stated.

It is expected to take 50 days to make the trip with the stage coach caravan over the distance of 2,000 miles. Each night the caravan will "bed-down" in frontier style and put on a free show with the 16-piece orchestra and show troupe that will make the trip. The scout

race will begin in Mineral Wells and on the first day will end in Jacksboro, 33 miles north, where the winner for that day will be greeted and received by city officials. Each morning the race will begin anew and a complete score card kept with the grand winners of the \$1,000 prize announced at the end of the race in New York.

More than two hundred inquiries have been received at the caravan headquarters and stage coaches, covered wagons, musicians, handcraft experts, cowboys, school teachers and blacksmiths have been among those inquiring about the trip. Parton states that it has become necessary to stop soliciting entries for the caravan, however, more scout riders can be used. Riders will be allowed only one horse and will not need a truck, trailer or any helpers on the trip. The riders' personal belongings will follow them in the stage coach caravan.

The stage coaches will carry the mail, probably the last stage coach mail run in history, and with the aid of the scout riders will attempt to reach the world's fair on schedule time. Special covers for stamp collectors have been prepared.

CORYELL COUNTY NEWS

LARGEST PAID CIRCULATION IN CORYELL COUNTY

Local Representative Associated Press

Member Texas Press Association

Local Representative Texas Election Bureau

VOLUME VII

GATESVILLE, TEXAS, FRIDAY, JUNE 9, 1939

NUMBER 49

The Conference Committee is still working on the Agricultural Appropriation Bill. I feel hopeful that they may be able to come to an agreement soon and that such agreement will retain the \$225,000,000.00 for parity payments. Even with this appropriation our farmers are going to fall far short of the income that they expected and had a right to expect when they urged Congress to pass the present farm bill. The present farm bill declares it to be the policy of Congress to "assist farmers to obtain, insofar as practicable, parity prices for such commodities and parity of income". I thought when I voted for this bill, and I know most of our people thought, that the members of Congress from all sections of the country would feel bound by this promise, and especially so since both great parties are on record as favoring increased income for our farmers. I have, therefore, been both surprised and disappointed when many members of Congress from the big city and industrial regions have hesitated to make any appropriations for parity payments that have been provided. The cotton farmers of Texas and Oklahoma, because they can not increase their yield per acre by fertilization and intensive cultivation as can and has been done in the Southeast, have taken 81 per cent of the entire reduction in cotton production in the United States. Our farmers have made sacrifices. Thousands of families have been forced off of the farm onto relief because of the great reduction in production in Texas and Oklahoma. Our people have paid the price. Now our government should keep faith with them and pay subsidies large enough to at least give our farmers that "parity of income" that was held out to them. For this reason I have voted for every appropriation for the payment of farm benefits and have done everything I could to get these benefits increased.

Much of the past week has been devoted to the consideration of the Townsend Plan. It was apparently brought out of the Ways and Means Committee by an unusual trade between its friends and foes. Both groups agreed and stated on the floor that they did not expect it to pass. The sponsors of the bill apparently wanted to get it away from the committee and the committee was equally anxious to be rid of the measure. It was brought onto the floor under a rule that allowed no amendments of any kind. This of itself was enough to condemn the bill to almost certain defeat as no one yet has been able to write a bill on this subject that was satisfactory to even the author himself for any considerable length of time. Each bill that has been introduced has been changed and amended by its proponents. The bill we voted on was H. R. 6466 not H. R. 2, which was offered a few months ago and was at that time supposed to be a perfect and complete draft of Dr. Townsend's plan. In fact, H. R. 6466 was the third bill on this subject offered this session of Congress by Mr. Hendricks, and in each case he has stated that the bill he offered corrected all errors in past

bills, and in each case had Dr. Townsend's personal approval. The bill finally presented carried a gross income tax as well as special sales and transaction levies, but it did not contain an assurance as to the amount to be paid to the beneficiaries. Its most ardent advocates took the floor and stated that it would not pass. It was defeated by a vote of 97 to 302. Only one member of the Texas Delegation

tion voted for the bill. I felt that the measure was entirely unworkable and voted against it.

This does not mean that there is a sentiment in the House against old age pensions. In fact, we will take up amendments to the present social security law next week. I expect to see some liberalization of the present law, but I hope that any amendment relating to the old age pension will be in the form of the payment of a larger share of the pension by the Federal Government, thereby relieving our states and enabling them to care for more people rather than in raising the limit to some figure above \$30.00 as has been proposed. It could be of no help to our Texas people no matter how high the limit were raised so long as the states must match dollars, because in Texas, as in many states, the constitution only allows state contributions to the amount of \$15.00 per month. I am sorry that this legislation comes up before the Texas Legislature has completed its

work. Those of us here in Congress are reluctant to offer any amendment to the present Federal pension plan for fear that pendency of such legislation here might be taken by the Legislature as a reason for failing to properly provide for our local situation, and none of us want to embarrass the Legislature. It has a difficult job and needs all the cooperation it can get.

The fun of chasing fire trucks at Houston is gone. The city council banned use of red lights and sirens on automobiles and halt machines trailing speeding fire trucks.

Permission recently was given to Trans-Canada Airlines to fly non-stop across parts of Maine. The Canadian lines fly from Montreal to Moncton, New Brunswick.

The smallest and prettiest feet are said to be those of the Scots women from Edinburgh, Dundee, and Glasgow.

HOSPITALIZATION PLAN EXPLAINED AS TO COSTS, SERVICES

This notice is being published in order to acquaint the people of this County with the principles of Cooperative Medical, Surgical and Hospital organization and to request the people to express their feelings and desires about such an organization.

The proposed Cooperative Health Group has the following advantages to offer you:

1. It would relieve you of both Doctor and Hospital bills and insure you and your family of a high grade of Medical, Surgical and Hospital care.

2. You would know in advance what your sickness was going to cost you every year and you could budget for this expense. Even if there were serious and prolonged sickness in the family it would not cause you to suffer almost or complete financial failure as is so often the case.

3. It would leave with your own choice of doctors among those cooperating with you in this plan.

4. No individual would own or control this hospital and organization. It would be owned and controlled jointly by its members and governed by directors elected from the membership by the members.

5. Your membership would give you a voice in the control of the organization equal to that of any member or person.

6. This organization would not be operated for profit. All doctors, nurses etc., would be paid on a salary basis and any surplus money would be returned to the members by appropriate reduction in dues the following year or used in making improvements.

7. Your doctors would have the opportunity to specialize to some extent and to give you the benefit of more specialized knowledge on the various medical and surgical branches.

8. Your cooperative organization would make it possible for the doctors to have better and more abundant equipment of a technical nature to better diagnose and treat your illness.

9. An organization of this type would be a credit to your county and a source of personal pride. It would keep your money at home so that it would have a chance to get back to you.

10. For those who desired it the yearly cost of this service could be divided and paid in installments not requiring that you have all of the money in advance.

11. Under this type of organization it would be advantageous and proper for the doctors to practice more prevention of sickness rather than to wait until disease was present to go to work.

12. Finally, remember this, you owe it to your family to insure their health as far as possible and to insure them of all possible comforts and assistance in case of sickness or injury. Surely their health and comfort, while living, concern you as much as does their proper burial after death—many of you pay almost as much for burial insurance as this plan would cost to keep your family living and well.

We want to know YOUR ideas and opinions on this matter. Address inquiries to Box No. 266, Gatesville.

It is imperative that the opinion of the people be known on this matter. The whole plan is designed for the benefit of you and your neighbor so if you desire such an arrangement be sure and voice your desires either individually, by communities, thru club organizations or any other way at your disposal.

NATIONS TAKE INDUSTRIAL INVENTORY AS WAR CLOUDS LOOM OVER WORLD'S HORIZONS

OMINOUS war clouds make citizens shudder, military experts take inventory. Modern warfare is a highly mechanized operation, fought by nations rather than armies. No longer is manpower adequate; nation-power is necessary.

Development of that power requires the organization of a nation's industries on a war-time basis. The machinery of agriculture, transportation and a hundred other industries producing war materials are as essential as weapons and munitions. War has been brought close to home and shop and for every soldier at the front from 10 to 100 workers must be employed to grow, manufacture and distribute war material.

Modern armies need guns, ammunition, food, plus an infinite list of manufactured equipment likely to tax the productive power of industry. So military experts take inventory, not only of manpower, but of the ability of industry to function in the service of supply, usually beginning even before the "M" day of mobilization.

Oil Defense Necessity

Mechanized armies, oil-burning navies, oil-fueled transportation, oil-fueled and lubricated manufacturing operations have tended to make oil essential, oil production almost the first line of defense.

Fortunately for the American people the American petroleum industry has given the United States

virtually the only adequate domestic oil supply in the world. Also it has given this nation the means and the methods of increasing and prolonging this service of oil.

So far as oil is concerned the United States is far better prepared than in 1917. Today this country has nearly twice the number of producing oil wells, four times the annual production of crude oil and twice the number of refineries that were available for war service in 1917. Annual production of finished gasoline by American refineries is eight times as great as in 1917; lubricating oil production is double and fuel oil production is treble that of 1917.

Improvements Since 1917

Since 1917 the United States, virtually alone among the nations, has developed its petroleum industry through private enterprise. In that period the nation's oil reserves have been multiplied by three. Refining capacity has been multiplied by four and the gasoline recovered from each barrel of crude oil has been doubled in quantity, vastly improved in quality. Recent refining developments promise an even greater recovery of gasoline from crude oil and a higher octane, more powerful fuel.

Merchandising history has been made in the industry's development of a distribution system for petroleum products far surpassing that of

1917. The capacity of oil tankers flying the American flag has increased nineteenfold since World War days; the number of American tankers has been multiplied by nine. Three times the 1917 mileage of oil and gas pipelines, four times the tank trucks and three times the number of railroad tank cars owned or leased by the industry, serve America in peace and would be available for service in war.

Efficient Distribution

With such a vast maze of transportation and distribution arteries, with crude oil produced in 22 states, refineries in 35 states, local storage and marketing in all states, it would be a potent enemy which could halt this industry's service of supply, even in war time.

Although they anticipated chiefly the progressive demands of peace, American refiners are now producing the world's only adequate supply of high-octane, fighting grade aviation fuel—a supply sufficient to keep in the air mammoth fleets of bombers and combat planes. This industry also produces the world's sole supply of helium, the non-inflammable gas used by the dirigible. Moreover, American oil men are now prepared to produce not only petroleum fuels and lubricants, but, when circumstances dictate, synthetic products ranging from food and clothing to the most powerful explosives known to man.

Meat Cookery, Yesterday and Today

By RUTH J. COOPER, Home Economics Consultant
Breeder-Feeder Association

The meat roast of yesterday was often quite dry and tasteless. That of today is juicy, tasty and has several more slices than the other roast. It is less trouble to prepare, has a superior flavor, and besides going farther, saves time and fuel in the bargain. Yes, today's roasting methods are truly revolutionary.

The roast of yesterday was salted, preferably overnight, so as to "take the salt". It was then rolled in flour, generously, and seared at a high temperature either in a very hot oven or over flame. This process was thought to retain the meat juices. Today, we know that seasonings do not penetrate very far and they do draw out the juices. It makes very little difference when the roast is salted so it is generally salted at the beginning so as not to forget it. This may draw out some of the juices but they go into the gravy so this point is immaterial. This modern roast is not floured because the flour is more liable to burn and the black flecks are not very appetizing in the gravy. If a rich, brown gravy is desired, it is simple matter to brown the flour in the fat later.

At this point a decision must be made. What is the result to be? Is the roast to have a crusty, brown surface or the same color throughout the meat? If the crusty, brown surface is desired, the meat is seared in a pre-heated 500 degrees F. oven about twenty minutes and then roasted in a slow (300 degrees F.) oven for the balance of the time. If same color throughout is desired, meat is cooked in a slow oven for the entire period of time. This searing process is for appearance only. The searing does not retain the juices and if the high temperatures are continued too long, the roast becomes dry and tasteless.

The change in pan styles is significant.

Yesterday the pan was of the double variety and quite expensive. Today the pan is shallow and has no lid. It is inexpensive and often does double duty, sharing the honors with biscuits. Formerly the roast was placed in the roaster, enough water added to start the steam and often roast frequently basted until done. This method was not roasting in the true sense of the term. Today the roast is placed in the shallow roaster, fat side up. This roast is not basted as the melting fat does its own basting much more effectively.

Meat thermometers are available at household furnishing and hardware stores. They are not essential but do take the guess work out of roasting. Insert the thermometer bulb in the center of the meat muscle, being careful not to touch bone nor fat; roast the meat until the thermometer registers the required internal temperature—rare, medium or well-done. This is approximately thirty minutes per pound for a well-done roast.

While longer cooking time must be allowed for this low temperature of roasting, superior results are assured. Regardless of type of stove or fuel, lower oven temperatures produce tastier roasts.

So slowly do the apparent configurations of the star groups change shape, it is probable that Job 4000 years ago saw "Orion, and the Seven Stars" about as do moderns.

While most European peasants wear their gay national costumes only on festival days, those of the Zakopane region of Poland wear their every day.

There are no more cats in Killenny, Ireland, than in any other Irish town, in spite of the old yarn about the big fight.

EDWARD SMALL
presents
ADOLPHE MENJOU
"KING
of the TURF"

WHAT HAS GONE BEFORE:
Inspired by the hero-worship
of Goldie Smith, his young
jockey friend, Jim Mason, for-
mer "King of the Turf" whom
drink has turned into a tramp,
determines to make a come-
back as a racehorse owner with
Red Gold, a blooded but erratic
horse which he acquired for \$2
at an auction. Mason's and
Goldie's careful training turns
Red Gold into a winning race-
horse, and he begins bringing
home important victories. While
Goldie's mother, Eve Barnes,
wonders what has become of
her runaway son Nick Grimes,
crooked bookmaker, tries to in-
jure Red Gold but is foiled by
the quick work of Goldie.

Chapter Five

Nick Grimes opened the door
of his over-gaudy apartment in
answer to the buzz. Arnold, his
chief lieutenant, took up his ac-
customed post behind the door.
Mason walked in, holding an
automatic at his hip, and started
talking at once.

"Grimes, I told you what you'd

face to face with him, twenty-four
hours later, did Jim Mason realize
who Goldie's mother was.

"Eve! You!"

"Yes, Jim. You see now why I
came. I could have asked you to
send him back when you tele-
phoned me — but it wouldn't have
been honest. It would have haun-
ted me all my life."

"So that's what it was," said
Mason slowly. "The first time I
saw him I knew he reminded me
of some one. What a fool I was."
He reminded me of myself!

"Jim, you are going to let me
take him back, aren't you?"
Mason pleaded his case. The
boy was all he had. Without him,
the Jim Mason who had fought
his way up from the gutter would
sink back into the gutter again.
"For fifteen years I was looking
for something... hungry for some-
thing... a tramp. Then I found
Goldie, and in one minute every-
thing was changed."

But the mother knew what she
had to do, and she hardened her
heart to the task.

"I've got to make you give him
up, Jim. Remember what you told
me, 'Blood is the most powerful
thing in the world? My fight for
Goldie began long before you knew
that there would be a Goldie. I

He pinned Mason's hand behind his back.

get if you ever made a pass at
Goldie or my horse. Here it is!"
As he pulled the trigger, Arnold,
from behind Mason, clouted him
on the side of the head, deflecting
his aim. The bullet lodged in
Grimes' shoulder. "You silly ape,"
grated Arnold. He pinned Mason's
hand behind his back, forcing him
to drop the gun.

"Wait a minute," directed
Grimes, gripping his wounded
shoulder. "Don't get rough with
him; we'll take care of him an-
other way."

Mason, released, turned to go.
"Next time, Mason, I'll look be-
hind the door... and I won't miss."

It was none other than Sergeant
Brannigan, an old friend of Jim
Mason's who prided himself on be-
ing the "photographic eye" of the
police, who brought the big news
to Mason. The big news was con-
tained in a circular issued by the
Bureau of Missing Persons. And
with the usual laconic description
it contained a picture of Goldie!
Mason was hard hit, but as usual
refrained from showing any emo-
tion. He thanked the sergeant and
promised that the boy would be
returned to his home. Then, when
Brannigan had left, he summoned
Goldie and silently showed him the
circular.

Goldie stared at the piece of
paper, and panic came over his
face.

"Why did you lie to me, son?"
said Mason gently. "You told me
you didn't have a home."

"I... I lied to you, Boss — be-
cause I didn't want to go home."

"A boy can't do that to his
mother, Goldie — just drop out of
her life. Besides, a swell kid like
you should be with his own
father — not with a guy like me."

"What — what are you gonna
do, Boss?"

"I'm going to call your mother
and tell her where you are."

"Boss — please don't... Don't
you see, I couldn't leave you and
go back now!"

"If I didn't call her, Goldie,
we'd both be crooks." He picked
up the telephone.

TRUTH about ADVERTISING

By CHARLES B. ROTH

MONTAIGNE'S 'GREAT REGISTER'

IF EVERYTHING else that gifted writer, Michael Equem de Montaigne, wrote were to disappear, the world would still be indebted to him for his ideas on what he called his "great register."

Montaigne was a Frenchman who lived and wrote 400 years ago. Now admired excessively by a few readers, he's almost forgotten by the world at large. But every time you read an advertisement in your newspaper, you do homage to his memory.

For it was his idea that people, who want to buy, need some place where they can get information about the products which others have to sell. In Montaigne's time the buyer had to look for the seller, the seller had to look for the buyer.

Montaigne proposed a register to be posted where all might see. Here the owners of things they wanted to sell would list them. Here also those who had needs would list those needs. Buyer and seller would thus be brought together.

It was a good idea. It still is a good idea. Every time, indeed, you look over the "ads" in your newspaper you express your approval of the idea.

Sellers tell you what they have.

Charles Roth

You save time and money because you compare what one seller offers with what another offers. You judge which is the better value.

Norman Angell, the English writer, wished that someone had advertised more in England when he set out to buy a horse scraper for some farming operations he had on hand.

He scanned the advertisements. No scrapers. He wrote a few manufacturers he knew. No scrapers. Later he came to America and in Chicago discovered, through an advertisement, of a horse scraper for sale. He looked into the matter—and found it was made within 20 miles of his English farm.

That you have a "great register" coming to you regularly, with the day's best opportunities to buy the things you need, is one of the beatitudes of living in America and in these modern times.

You do not, like Mr. Angell, have to fret and worry and search for what you need. You merely open the pages of the newspaper, and, lo, there right in front of you, you find a world of useful things from all over the world.

The more you rely upon the "great register" of modern life to help you in your buying, the more you get from every penny you spend. The best values, the best merchandise, the best prices—they comprise the contents of that useful, indispensable modern version of Montaigne's sound idea.

© Charles B. Roth.
