LOS ANGELES, July 30 (AP).—The dangers of golf, Henry O'Hara, an Omaha hotel man learned, are not in proportion to the size of the lines.

Waiting for a twosome to precede him on a miniature course here, O'Hara seated himself on a weak chair. It executed a pitch shot which neatly tossed him down an embankment against a concrete hazard.

"That game," said O'Hara as eighteen stitches bound his wound, "is tough for its size."

Natives of Venezuela are developing an appetite for American "hot dogs."

Rubbers cheap..

You can afford the world's best tires!

Crude rubber prices are low. Tire prices are down so far almost anyone can afford the world's best tires.

You can buy them for less than you used to pay for inferior or unknown tires. In short, you can enjoy the extra value in Goodyear Tires at the lowest prices in history!

This extra value in Goodyear Tires is not accidental. It is the direct result of definite Goodyear superiorities in the two main parts of a tire.

The Goodyear All-Weather Tread is superior in traction.

The Goodyear Supertwist Carcass is superior in vitality and long life.

You are not asked to accept this without proof. Any Goodyear Dealer will be glad to demonstrate the facts.

And the facts are: Goodyear Tires do give extra value.

That's why more new motor cars leave the factories on Goodyear Tires

than on any other kind!

That's why more trans-continental, urban and inter-urban buses and coaches operate on Goodyear Tires than on any other kind!

That's why more tons are hauled on Goodyear Tires than on any other kind!

That's why, throughout the world, year after year, more people ride on Goodyear Tires than on any other kind!

From a price-and-value standpoint, Goodyear Tires are right where the wise buyer would like to have them this summer.

That's why we say: now is the "me to get yours!"

Dear Readers:

May We Borrow From You!

\$30,000.00

??????

JUST AN OLD SPANISH CUSTOM
IT'S RIDING FREE--NOT PUSHING

\$5.00

Worth of

Cleaning Work for

\$1.50

But it cost you \$25.00 more to get the \$5.00 service that you purchased for \$1.50

In the adoption of new services to offer you, we wish to present all sides of the story. WE DO THAT IN BORROWING MONEY FROM OUR BANKERS. This money that we borrow from you will give us money to operate on without paying interest for its use.

And the money that we have for our own operations will be at our disposal to loan out at profitable interest rate

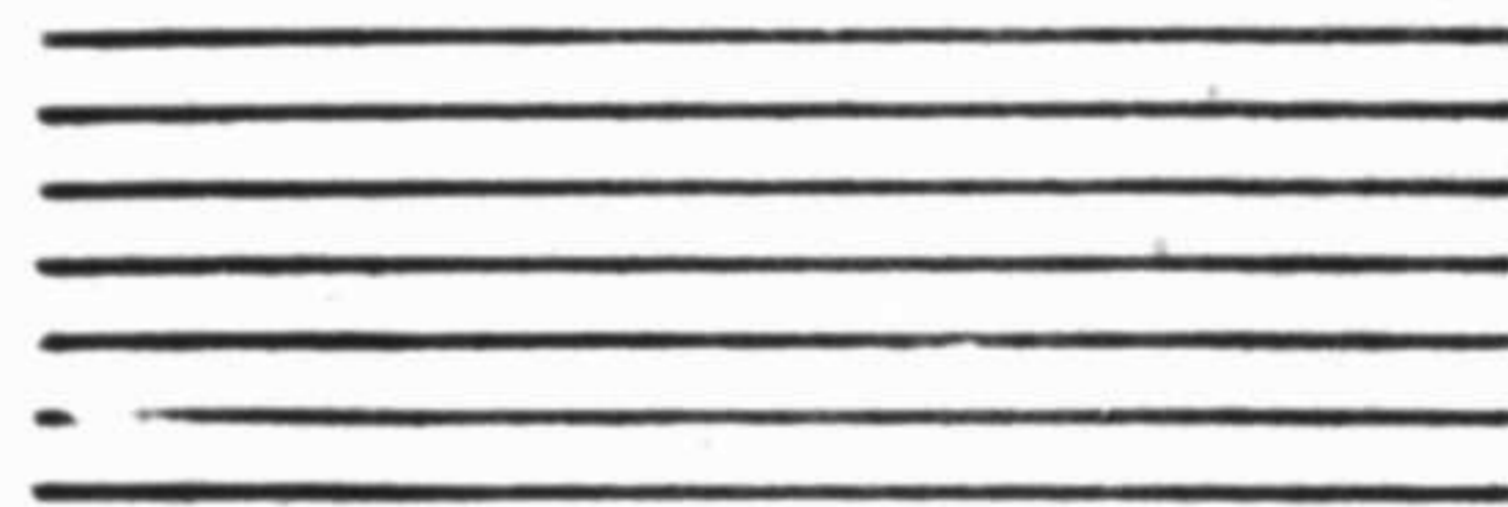

20,000 people pay in advance for the \$5.00 Dry Cleaning Service. Now 20,000 times \$1.50 is a total of \$30,000. \$25 more from each individual to enforce the \$5 tailoring service that you have purchased for \$1.50 will total 20,000 times \$25 or \$500,00

This new method of cleaning service is now offered by other tailors and there has been many people that are pleased with this new policy of operating a service for them.

And we too, now announce that to all those that wish to take the opportunity of doing business with us in this manner, we will be more than delighted to serve.

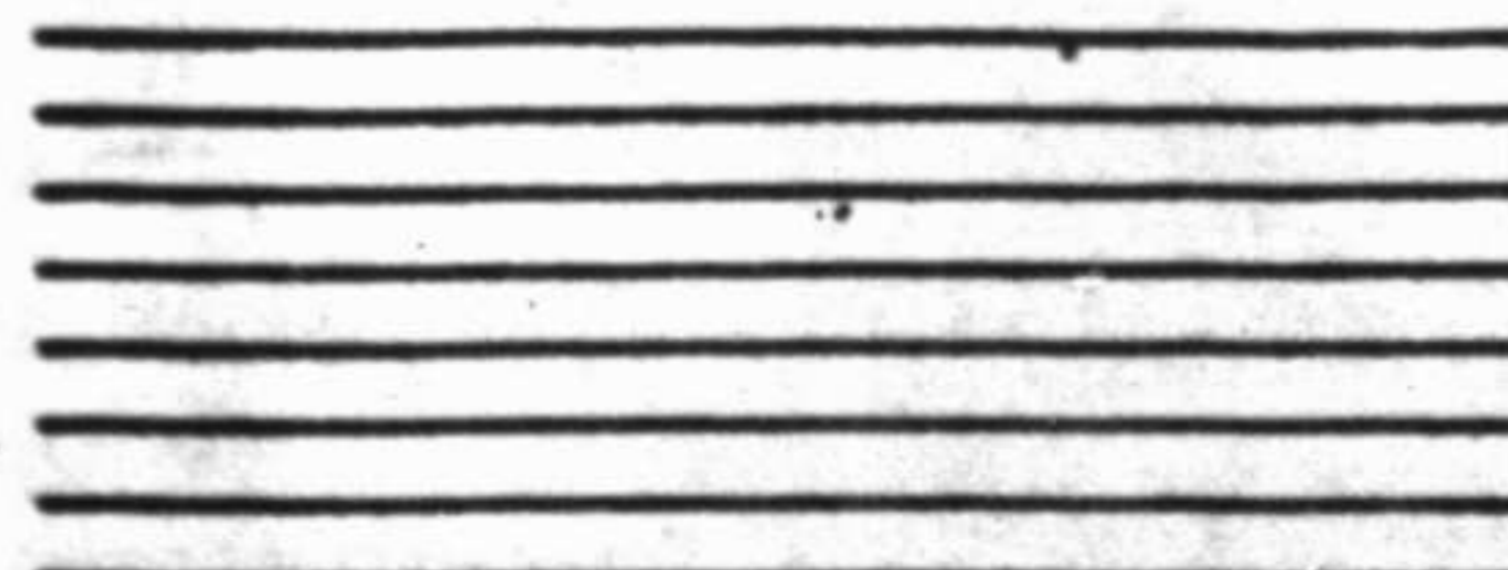

This new service is offered to you, which really means that you must use \$25 worth of cleaning and pressing in order to get the \$5 discount, for which you pay \$1.50.

This new service that is offered to you from us must be free and voluntary on your part, for we cannot ask that much from our friends and customers.

Yes, Lubbock Is Going Ahead

The Great South Plains of Texas, with Lubbock as the 'Hub,' is the newest and most progressive empire yet undeveloped in America today. Its untold resources have not been touched. More and more each year, the people from all over America and the world are recognizing this. With our virgin soil, and mineral resources yet undeveloped, this territory cannot fail to progress. We believe and know that it will go ahead. We have staked our lives and fortunes to this end, and with the continuance of co-operation toward developing the Plains, Lubbock as an even greater city, cannot fail.

\$5.00

Tailoring Service for

\$1.50

Here's how this new service operates. A \$1.50 is deposited in advance and then when you bring a Dress or Suit to the shop and have it cleaned and pressed, "cash and carry," you pay all the cost of the suit but 10c and this is credited to your \$5.00 tailoring service that you have payed in advance \$1.50.

For a Ladies Dress, you pay all the cost of cleaning and pressing but 10c, and this is credited to you on your \$5.00 credit that you have purchased for \$1.50. In consuming the \$3.50 credit, you will have done a tailoring and cleaning business with us of around \$30.00.

LIL STONER SETS MODERN TEXAS LEAGUE STRIKE OUT RECORD

MOVING THE SPORTS WORLD

WITH COLLIER PARRIS
JOURNAL SPORTS EDITOR

Night baseball has one of its most devoted followers in Alvin Gardner, president of the Texas League. Against the proposition at first, Mr. Gardner has reversed his decision and proclaims the after dark contests successful and in keeping with the modern trend of life. He believes, like many others of more or less prestige, that the bed time games are here to stay, and that every park in the Texas League will be lighted next season, with all of the games being played at night except on Sunday's. "We are living in a progressive age," he says. "Night baseball has had its defects, like any other innovation, but everything will be smoothed out before next year. Night baseball is here to stay."

Half of the Texas League parks are equipped for night games. Houston followed Waco, Shreveport and San Antonio. Fort Worth persists in declining the idea, and for a while Wichita Falls was opposed to baseball under the floodlights. Dallas and Beaumont have had little to say, and are supposedly in favor of artificial lighting. The major leagues fight the nocturnal idea with strange emphasis, but then they have never tried it. It has been the salvation of many minor league clubs, but the big shots are apparently satisfied to play in 107 degrees of temperature.

Possibilities of a play-off between Waco and Wichita Falls seem bright at the moment, with first one team and then the other in the lead, but as the last month of the race hovers around the corner these chances are due to be dimmed. With August 9 and the lifting of the player limit rule, the teams of the league are likely to be bolstered with wham-bams from the big circuits. The Spudgers probably will be furnished with some of the best from St. Louis, which owns the Texas. If the usual rule is followed, and Wichita Falls may tear down the home stretch with the other clubs trailing.

Some time ago this department ventured to suggest that the Lubbock Westerners would go a little further than Falls and Idalou in this fall's high school football campaign. Our suggestion was based partly on state wide comment by followers of the game, not necessarily sport writers, but mostly on the prospective strength of the team itself. Almost immediately we were attacked by sectional scribes who were prone to take our hint as a joke. The scribes cannot be blamed for standing up for their home town teams, but we deemed it wise to inform their admirers concerning the prospects of the Westerners and our contemporaries.

We have at hand a clipping from a Waco paper sent in by a faithful Lubbock fan in which the Waco scribe reverses a former statement and intimates that Waco will be one of the contenders in the semi-final of the state race, "after Lubbock has won the Section 1 title." If it does not lose to the champion of the Oil Belt, which the winner of Section 1 always does. He had not changed his opinion of Lubbock, but has been quoted as saying Waco would not be in the thickest of the fight. Perhaps
