WILLIAMS ELECTED CONGRESSMAN

WOMEN PUT OVER BIG SCHOOL BOND ISSUE BY MARGIN OF SEVEN TO ONE

Biggest Vote Ever Cast for Such Purpose In City Rolled Up for Junior College and Additional Equipment for Wichita Falls' Educational System Is Now Assured

Polling the biggest vote ever cast in Wichita Falls in a school bond election, the $850,000 bond issue carried Saturday by a vote of over 7 to 1. Voters poured into the corporate court room at the city hall, where the election was held, all day yesterday.

It was estimated by the officials in charge of the box late last night that half of the votes cast were polled by women, who turned out in great numbers.

A total of 1,702 votes were cast in the election. Previous bond issues have drawn less than 300 voters to the polls on any occasion, city officials state.

Of the total vote, 1,409 voted for the bond issue, and only 206 voted against it. Seventeen of the votes cast were recorded and filed as nil.

Women led the voting during the morning hours, and were seen departing from the city hall to go direct to some ward and cast a vote in the congressional race. The men came to life later in the day, and held their own during the afternoon and closing hours.

SCHOOL BOND VOTE

Total votes cast	1,702
For bond issue	1,479
Against issue	206
Votes made void	17

Civic Clubs Active

Especial effort was put forth in the election by several clubs and civic organizations here, the University club having a delegation of 100 voters working among the citizens, headed by Edgar P. Haney. A great deal of credit in drawing such an enormous vote to the polls is due the personal workers, it was reported last night.

The bond election was authorized several weeks ago, when the school board agreed that Wichita Falls should take the initiative in bringing one of the first municipal junior colleges to the student body in a city in this state. It was pointed out at several club meetings held in the Kemp hotel that the universities and colleges of the south have approved the idea of

The Political "If"— What It Means to Two— Reed and Wilson—

By H. N. F.

INDIANA WAS ON THE POLITICAL map. Beveridge knocked it off when he led Harry S. New to the slaughter. Pennsylvania will be on the political map until the night of May 16. If Gifford Pinchot wins the Republican nomination for governor it will be a slaughter for the old guard. If Pinchot loses there will be an old guard celebration and Pinchot will be put away with the political cadavers. But Missouri is always on the map.

MISSOURI REPUBLICANS have their E. Mont Reilys and their Nafa Goldsteins and many others who accepted Lowden money when the big mellon was cut early in the campaign of 1920. Missouri has Senator James A. Reed, the stormy petrel of politics and the most vitrolic debater in America. There is a war on in Missouri. Woodrow Wilson is pitted against James A. Reed. Woodrow Wilson has thrown a harpoon into James A. Reed. He has branded him as the marplot of democracy. It is a beautiful fight.

WOODROW WILSON HAS DEmanded that the Democrats of Missouri shall substitute for Reed "a man of the true breed of Democratic principles." Reed opened his campaign before an audience of 15,000. He said he had come to bind up wounds not to reopen them. His audience cheered until his audience was hoarse. Woodrow Wilson is backing Breckenridge Long. Woodrow Wilson it is said is gamely trying to beat back to health and the Democratic leadership both at the same time. Woodrow Wilson has made the Reed candidacy a national issue. He has lifted the battle to the national stage and given it a national setting. It was claimed by the Democrats that President Harding was given a body blow when Beveridge defeated New.

IF REED IS A WINNER IN THE August primary, the Republicans will say that Woodrow Wilson and his politics have been given a body blow and that the former president has been repudiated by the Missouri Democracy. If Long wins the nomination it will signify that the former President is all powerful once more and is the moral leader at least of the Democratic party. Woodrow Wilson is shaking dice with defeat. He has a tremendous following in Missouri. But Reed has a tremendous following. There are thousands of Democrats in Missouri who did not take kindly to the League of Nations for reasons of their own. There are thousands of Democrats who

Big Time Vaudeville Is Booked for Wichita

Artists Coming to Include Authors of "Steamboat Bill"

Theater-going Wichitans will be presented with big time vaudeville during this week.

Manager H. S. Ford of the Wichita theater, announced last night that he has completed arrangements with an excellent troupe at San Antonio, the company closing there Saturday.

Catching a snappy and entertaining company as he did, the management will present them Monday, Tuesday, Thursday and Friday, the show being interrupted here Wednesday when the senior class of the high school present their play, and being forced to depart on Saturday in order to fill their engagement at St. Louis, which opens there on Sunday of the next week.

Communications received from W. J. Lytle, manager of the San Antonio theater, states that the company which is coming here is above the average, and that it is considered the best which has appeared in San Antonio during this year.

All five of the acts in which the troupe appears, Mr. Lytle's message states, are excellent attractions.

Among the acts which will be presented here will be included Leighton brothers, blackface comedians who composed "Casey Jones" and "Steamboat Bill."

Saxl Holsworth and Vera Burt, with their jazz orchestra will also be one of the attractions.

REMEMBER YOUR MOTHER

THERE'S a quaint, old-fashioned cottage in a far-off Southern clime,
With it's windows almost hid among the flowers;
There's a mother who is longing for her children all the time,
And she waits through all the long and dreary hours.
Though her hair has turned to silver, and her form is bent with years,
She is just the same sweet mother as of yore.
She is sitting by the window and is smiling through her tears
Thinking we will soon be coming home once more.

WE have wandered from that homestead down among the Southern hills
Yet today in memory's vision we can see
All the places that in childhood caused us many happy thrills
And we fancy we're back there on Mother's knee.
If success shall crown our efforts, 'tis our Mother whom we owe;
'is a debt so great no one can ever pay
We can make her dear heart happy just to write and let her know
That we're thinking of her now on "Mother's Day."

PREMIER FAILS TO WIN FRENCH

Barthou and Reds Still Locked

By Associated Press.

GENOA, May 13.—Premier Lloyd-George and M. Barthou were in private conference for two hours this afternoon apparently without reaching an agreement for solving the Anglo-French deadlock on the plans to continue the discussion of the Russian problem.

The sub-commission on Russian affairs also met and argued for more than three hours without definite results.

Mr. Lloyd-George will have a conference at his villa tomorrow morning with Baron Hayashi, M. Barthou, M. Jaspar and Signor Schanzer, in an effort to reach a compromise.

After the meeting of the sub-commission, Sir Edward Grigg, secretary to the British prime minister, said there had been progress but gave no definite explanation of its nature. The French and British delegations, he asserted, were well on the road to an agreement but nothing definite was reached. Accounts of the meeting by members of other delegations, however, give little indication that a compromise is any nearer.

Want U. S. on Board.

The Russians have announced that they will not accept any plan excluding them from the discussions. On one thing all the delegations agree, the inviting powers, the little entente and the Baltic entente as well as the neutrals, namely that somehow the United States must be induced to participate in the mixed commission.

M. Colrat, French under-secretary of state informed The Associated Press that he still felt confident of an accord. France is still unwilling to have Russians sit with the mixed commission discussing Russian finances but suggestions have been made that a special commission of Russian experts be formed which may be called in by the mixed commission when it desires information.

Young Co. Blames Wichita for Loss Of Court Bill

"Young county voting today landslide for Williams as protest against Wichita Falls obstruction of court bill for Clay, Archer and Young counties."

The above message, bearing the signature of Elmer Graham, former attorney here addressed to the Record News, could not be understood here.

It was believed here that Graham had reference to the bill for the creation of a criminal district court for Wichita county, and the placing of the other three counties in a separate judicial district. This measure was supported by representatives from Wichita county and the other three counties in the last legislature, and which was killed by action of Governor Neff.

INDIAN DENIES LETTER SALE

By Associated Press.

MONTREAL, May 13.—Specific denial that he had ever sold any letters to lawyers of James A. Stillman, who is suing his wife for divorce, was made today by Fred Beauvais, Indian guide. At Poughkeepsie yesterday it was stated in court that Beauvais had sold four letters addressed to him by Mrs. Stillman for $15,000.

SHERIFF ADMITS HE WAS ONCE KLAN MEMBER

But Others Say He Was Never Seen In Robes

By Associated Press.

BEAUMONT, Texas, May 13.—Sheriff Tom H. Garner of this county, against whom impeachment proceedings have been filed in the district court charging Ku Klux Klan activities, today filed a statement with a notary public admitting that he joined the Beaumont klan about a year ago.

He says in the statement that he is not now a member.

The purpose of filing this statement, according to its workings, is to end a hearing now being conducted in this city to take the oral depositions of 17 witnesses whose evidence may be used in the impeachment proceedings.

Among these witnesses are many who have admitted former membership in the klan and who have denied ever seeing the sheriff at a klan meeting or knowledge that he was ever a klansman.

The sheriff's statement says he wants to correct the impression that these men are trying to shield him.

S. Bronson Cooper, notary public, took no action and the hearing is being continued. The impeachment proceedings come up before the 60th district court here Monday.

MORGAN ADMITS LOSS OF RACE

Williams Expected to Win Full Term

Election of Guinn Williams of Decatur to succeed to the place of the late Lucian W. Parrish in congress was conceded at the local campaign office of S. A. L. Morgan about 10 o'clock Saturday night.

A. H. Britain, one of the law partners of Mr. Morgan and one of his campaign managers made the statement.

Mr. Morgan, when called at home, had no statement to make at this time. It is expected that he will make a statement some time today.

Whether the election of Mr. Williams to the short term will mean that he will not have opposition for the democratic nomination in July is not known at this time.

It is believed, however, that he will have the place without a contest from his opponents in the Saturday race.

His vote, on the face of practically complete returns from the district, seems to have given him a majority of the election—in other words more votes than those cast for all of his opponents combined.

DRURY SAYS NOT GUILTY

By Associated Press.

HAZLEHURST, Miss., May 13.—Milton E. Drury, who today faced life imprisonment, following his confession yesterday while his trial was in progress here, that he had murdered his mother, Mrs. Ada Drury Converse, declared to newspapermen that he was innocent and confessed only to escape the hangman's noose, as circumstantial evidence against him was too strong.

ELECTRA AREA IS EXTENDED

The Electra field was extended two miles with the completion of the Dr. C. B. Bailey and associates well, on the John and Jeff Waggoner tract, eight miles southeast of Electra late yesterday. The flow is estimated at from 300 to 500 barrels.

Senator Culberson's Daughter Goes For Tour of Europe After Notoriety Following Charges of Her Admirer

By Associated Press.

WASHINGTON, May 13.—Senator and Mrs. Culberson of Texas announced in a statement tonight that their daughter, Mary, sailed from New York today for a tour of Europe.

The attentions of Alexander E. Robertson, a British war veteran, toward Miss Culberson recently attracted attention because of charges of a plot to kidnap him which were considered by the British embassy.

The statement said:

"Miss Mary Culberson, daughter of Senator and Mrs. Charles A. Culberson, who has been at home with her parents since her return from Texas sailed from New York today with a party for a tour of Europe, in pursuance of plans made several months ago."

Denton Conferees Say Henry Will Get Ku Klux Vote

By H. N. F.

DENTON, Texas, May 13.—This is a cold blooded review of senatorial possibilities in Texas and surface indications as garnered in three days contact with the representatives of the Texas Press association, the editors and writers for the daily and weekly newspapers.

This writer has no favorites to play in his review of political conditions. Three articles have appeared in the columns of this newspaper dealing with the senatorial race and the men who are making it. In the preceding reviews Culberson and Thomas were named as the leaders at that time. There has been no change in the situation.

Culberson and Thomas Lead.

Culberson and Thomas are the leaders today, with Mayfield and Ferguson developing a great deal of strength, Henry generally given fifth place and no strength what-so-ever found for Sterling P. Strong.

Predictions All Alike.

The writer is not giving Culberson or Thomas second. There are counties where Culberson is said to have the lead and other counties where Thomas is said to have the lead.

There are editors here from nearly every section of this vast commonwealth and almost to a man they pre-

MORGAN LOSES 2 BOXES HERE

Change in Road Is Given Majority

Morgan's overwhelming majority over all candidates in the field in Wichita Falls and Wichita county was spotted by the loss of two boxes. Both of these went to his successful Wise county opponent, Guinn Williams.

They were the No. 11 box in Wichita Falls, voting at the court house and taking in a district to the north of Sixth street, east of Brook and west of the Fort Worth & Denver. The other box was at Iowa Park which gave Williams a sufficient lead to give him the top vote in the town.

The proposed change in the form of roads in the Iowa Park precinct from concrete to gravel, was approved by overwhelming votes all over the county.

A county-wide vote was taken on the question through the fact that the fund for building the roads was a county fund. In many boxes, however, the question was not voted on—in others it was voted on only by a part of the voters. Many of the voters apparently did not understand the question they were voting on—some thought they were voting for road bonds.

WICHITA GIVES MORGAN 2 TO 1 MAJORITY WITH WILBARGAR VOTING HIM NARROW MARGIN

Wise County Senator Sweeps Entire Field Outside These Two Sections; Miss Blanton Runs Third, With Three to Two Vote Over Bullington; Williams' Lead 4,500

Sweeping the entire district outside of Wichita and Wilbarger counties State Senator Guinn Williams of Decatur was Saturday elected to succeed to the place of the late Congressman Parrish by a plurality that promised to go over 5,000 above his nearest opponent, and to give him a clear majority over the field.

With every county in the district practically complete, with only small boxes outstanding, 10502 votes had been tabulated for Williams with 6061 for S. A. L. Morgan of Wichita Falls, who was, by several thousand votes, his nearest opponent.

Morgan carried Wichita county by a two to one majority over the field, and carried Wilbarger county, his home county before removal to Wichita Falls by a narrow margin on the face of 60 per cent of the votes. Outside of these two counties the district went for Williams.

Neither Miss Annie Webb Blanton, state superintendent of education, nor Orville Bullington, local attorney running as an independent, "scratched" in the race, although getting good votes in some districts. Their combined vote was only approximately half of that of Morgan, the second candidate. Morgan frequently ran behind the two local candidates, however, running fourth in the early returns from Cooke county, including Gainesville. Williams nowhere ran poorer than second.

Bullington got an exceptionally good vote in Perrin, in Jack county, where Williams is the president of a bank, getting 50 votes to the 66 cast for Williams.

The vote was a light one, approximately 40 per cent of the voting strength of the district. The vote was particularly light in Wichita county, the largest county in the district, where Morgan was accorded a smaller vote than Wise county, with only 70 per cent of its voting strength piled up for Williams.

Miss Blanton lost her own county decisively, running third on a practically complete report. She was slightly behind Morgan and getting only a little more than half the vote accorded Guinn Williams.

In Wichita county, where the Morgan forces had made a strong

PROBE OF GAS RAISE ORDERED

Understanding to Be Gone Into

By Associated Press.

WASHINGTON, May 13.—Investigation of the recent nationwide increases in the price of gasoline was ordered today by the senate.

Without a roll call and after only brief discussion the senate adopted a resolution proposing the inquiry, offered by Senator McKellar, democrat, Tennessee.

The investigating committee would determine and report whether there had been an understanding between the various companies to raise prices.

Urging his resolution, Senator McKellar said stocks of crude oil in the country were greater than ever before and that prices were below what they were sometime ago when the price of gasoline was less than at this time.

dict along the same line—that Culberson and Thomas are the leaders, that the indications are that they will be in the run-off with some few contending that Thomas is losing strength and Mayfield gaining, while Ferguson may be said to be making a hard struggle for third place.

Ousley Race Disorganized.

Clarence Ousley has many close personal friends among the newspaper men here, but they are disappointed in his running thus far. They say he has no organization and that while friends of other candidates are forming clubs everywhere, friends of the former editor do not seem to realize the value of organization.

Klansman May Figure.

In their caucusses and friendly chats, the men of the press declare that Mayfield's fight for freight rates has won for him many votes and in speaking of the Klan in Texas, all agree that the railroad commissioner is certain to get the bulk of the 'invisible empire vote. Henry made a play for it and lost. The best they give him is fifth place in the July primaries and a clean shutout on primary election day.

The writer has a large acquaintance in the ranks of Texas newspapermen and the editors of weekly papers are always in touch with home sentiment. Thomas has been here all the week. He has aged 10 years in six months and the campaign he has been making is a marvelous one. He made more speeches in west Texas than any candidate for office has ever made before and he is confident that he will not only be in the runoff but the leader—the same position that Oscar B. Colquitt won six years ago.

Predict Strong Woman Vote

It is conceded that Mayfield will get a large vote and there are men here hostile to Ferguson, who predict third place for him in the race. There are others who give third place to Mayfield and some few who contend that Mayfield and Ferguson will run neck and neck very close to the leaders. All admit that the woman vote will have a vast deal to do with naming the winner and all say that Culberson and Thomas are closer to the women voters than the other candidates or contenders for the senatorial prize.

A Thomas-Culberson Race

South Texas editors predict a large vote for Culberson in many counties. Editors from thecountry south of San Antonio predict a large vote for Culberson and the same editors without stuttering, give Thomas a place in the run-off. There are some few exceptions. C. F. Thompson of the Mc Kinney Examiner, coming from the heart of the black land countties, says that Thomas will run away from Culberson in Collins county. Harry Koch of the Quanah Tribune Chief, places Thomas away ahead in Hardeman county and gives Ousley second place. Sam E. Miller of the Mineral Wells Index says the three leaders in Palo Pinto county are Culberson, Mayfield and Thomas. Mayfield has large family connections there and is well known.

Mayfield Will Carry Bosque

Bosque, his home county, is conceded to him, with Culberson and Thomas the other favorites.

W. D. Cowan of the San Saba Star says that the favorites in San Saba county are Ferguson, Thomas, Culberson and Mayfield in the order named, with Strong in the fourth place and Henry last. He predicts that Ferguson will lead in the July primary by 30,000 and that he will be defeated in the run-off by Culberson by 50,000.

W. W. Smith of the San Saba News gives Thomas first place in San Saba county, Culberson second, Mayfield third and says it will all depend on the democrats who voted for the American party candidates two years ago. Smith believes that Thomas and Culberson will go into the runoff.

No Lineup in Kaufman

Sherwood Spotts, veteran editor of the Forney Daily Favorite, says there has been no real lineup in Kaufman county, that he expects Culberson to be in the run-off, that he had hoped for Ousley to make a big showing and that Ferguson had many followers in Kaufman county. Frank Cox of the Grandentry News has been in business 40 years. He predicted that Ferguson had many friends in a democratic majority and that Culberson would run second. A. W. Sledge of the Terlinger Daily Ledger gives the honorable honors to Thomas and Culberson in Runnells county with considerable strength for Mayfield.

Rio Grande Valley Sits Tight.

E. W. Dickey, publisher of Weekly Facts at Harlingen in the Rio Grande valley, says that the country down there is for Culberson and Thomas with a good deal of strength for other candidates in that section of the state. Mr. Dickey has lived many years in that section of the state and was trained in the school of the late Jesse H. Wheeler of the Brownsville Herald.

John R. Lanford, another veteran of the press fraternity, is widely known in the ranks of the Fourth Estate, is editor of the Temple Mirror. He puts Culberson, Thomas and Ferguson as the leading contenders and says a surprise kind of Ferguson boom may exist. He admitted that Culberson had traveled the only ground and was living up for Culberson.

J. D. Moyer of the Honey Grove Citizen places Culberson in the lead with Thomas second for a heavy vote for Ferguson and Mayfield in many counties. J. P. Chambless comes from Waxahachie where he publishes the Enterprise. He gives Ellis county to Culberson and says unless all signs are misleading Ferguson will show a surprising vote in this great agricultural county of Texas.

Names the Favorite.

Harry Galbraith, publisher of the Terrell Daily Transcript and has been very active for many years in the politics of Kaufman county. He places Culberson, Thomas and Ferguson as the favorites in the order named in his section and gives Mayfield fourth place. Speaking of the sentiment in Kaufman county, he said: "An old war horse of the party said to me the other day: 'If there has been a vacancy in the senate for six years, then I am in favor of keeping the vacancy there another six years as it is the best offering before us.'"

Thomas Has Supporters.

J. G. Buckner, publisher of the San Marcos Times gives Thomas first place, Mayfield second and declares that Culberson should retire on his honor. He admits that he is taking no part in the campaign but this is the way we would like to see it.

Dallas Klan For Mayfield?

Dallas is the home county of Charles A. Culberson, Cullen F. Thomas and Sterling P. Strong. There are men here who say that the Invisible Empire has eight thousand voters in the county. Will Holford is the editor of the Garland News and has lived his 45 years in Dallas county. He is of the opinion that Culberson and Thomas will lead in the balloting in that county, that Mayfield will get the bulk of the Klan vote, the other going to Henry and Strong.

instituting municipal junior college courses in the larger cities in view of the crowded condition of the schools of higher learning.

To Better Equip Schools

It was argued in presenting the proposed bond issuance that numerous students reach college before they have attained the age of maturity and necessarily return home, defeated by too deep study. In this connection it was pointed out that courses for the masses, and at no cost of attendance and enrollment could be procured for Wichita Falls boys and girls, and better equip them for college curriculum if they desired to further their education, or prepare them better for life if they could not attend college.

Officials of the school board have already indicated that the bonds which were authorized to be floated yesterday will not only be used in erecting a new school building to be known as the junior college, but will also be used in better equipping the several ward schools of this city.

Plans Approved.

Tentative plans for the junior high school, which will take approximately $650,000 from the $850,000 bond issue, were approved last Monday afternoon by the school board. W. B. Ittner of St. Louis, a school specialist, was authorized to complete the plans.

The junior building will accommodate approximately 1,500 students, and the plans call for future expansion when necessary.

The new school structure will incorporate a course of two years in college courses, and part of its work will be high school corriculum. Included in the courses which will be offered in the structure, it was announced previous to the election, are commercial coarses such as typewriting and stenography, penmanship, bookkeeping and banking.

The building will provide full health and educational facilities.

WILLIAMS—

effort to secure a lead, the vote was entirely in Morgan's favor. Morgan got 2,476 votes, to 845 for Williams, 424 for Bullington and 129 for Miss Blanton.

This is practically a complete report on the county with less than 100 votes to be accounted for. In Williams' larger county, where the vote reported was estimated to be 60 per cent complete, Morgan lead Williams 750 to 682, with Bullington and Blanton trailing with 88 and 121 respectively.

Baylor county furnished a rather close vote, Williams lead here being 315 to 287, with 36 and 78 for Bullington and Blanton.

In all other counties Williams' lead was much more decisive. This was particularly the case with Williams' state senatorial district—Wise, Montague, Denton and Cooke, which gave heavy pluralities to the Decatur man.

Wise Votes for Williams

His lead in Wise on the face of practically complete returns was 2,588 to 390 for Morgan. In Cooke, with the larger boxes complete, the vote was 1,000 for Williams to 201 for Morgan, with both the other candidates running a few votes ahead of Morgan.

Montague gave Williams 1,035 to 388 for Morgan—Bullington leading Morgan in this county. Denton gave Williams 1,244, with 756 for Morgan, with Miss Blanton getting 726 votes on a practically complete vote of her home county.

Archer county, where Mr. Williams has a number of relatives, gave him 300 votes to 42 for Morgan. Miss Blanton lead Morgan in this county with 123 votes.

Clay county, which gave Williams a clear majority against the field on the face of early returns—the home county of Congressman Parrish, for whom Morgan campaigned two years ago, and who was opposed by Williams at that time—furnished another upset. Clay county gave Williams 1074 votes, with 486 for Morgan, 69 for Bullington and 168 for Miss Blanton.

Young county also gave Williams a decisive majority, and Morgan again ran third here, on the returns from all the larger boxes. The vote was 894 for Williams, to 156 for Morgan, 267 for Miss Blanton and 98 for Bullington. Bullington was accorded a particularly good vote at Olney in Young county, where he taught school for a term during his struggle to educate himself.

Jack county, on the face of returns from Jacksboro and about half the outside voting strength, gave Bullington a good vote. He ran second to Williams in this county, while Morgan and Miss Blanton tied for the trail, Williams vote was 286, with 142 for Bullington and 138 each for the others.

Throckmorton county paid little heed to either of the Wichita Falls candidates, Morgan getting only 41 votes, and Bullington only 2. Miss Blanton ran second, with 157, to Williams 230.

have never accepted prohibition. There are thousand of so-called Republicans in the city of St. Louis and elsewhere who prefer Reed to most men in their own party.

REED MAY WIN THE NOMInation and then meet with defeat at the general election in November. If fortune favors him and he should be returned to the senate, then James A. Reed will be a powerful contender for the Democratic presidential nomination in the year 1924. He is playing for high stakes. Woodrow Wilson is playing for high stakes. He is playing to come back to the same leadership "he was given unquestioned by his party during eight years in the White House" to quote the exact words of a Washington correspondent.

IN INDIANA THE DEMOCRATS said in the New-Reveridge contest that President Harding was on trial. In the Reed-Long contest in Missouri the Republicans say that Woodrow Wilson and his policies are on trial. Of course the Democrats are worried over the situation. They are fearful that whoever wins in August will lose in November and one Republican senator is quoted as having said, "If Wilson just writes enough letters he will renominate Jim." Sure, but if Wilson should keep on writing letters until the November election, he may defeat "Jim" and elect a Republican senator. It is Gifford Pinchot against the old Penrose machine in Pennsylvania on the 16th. It will be Woodrow Wilson against James A. Reed in Missouri until the August primary decides which shall be the winner—Reed or Wilson. Breckenridge Long is not a political heavyweight but he has an ample fortune, he's crazy for political distinction and he freely admits that he stands for the Wilson ideals or policies. Democrats are magnificent fighters when they are not in control of the national administration. When they are in control they grow fat and lazy and fussy and factional.

Hard times seldom worry those who saved money when times were good. As a rule the systematic savers are systematic workers who seldom lack employment. The City National Bank of Commerce provides NATIONAL BANK SAFETY for savings and pays 4 per cent compound interest.—Adv.

BURK WOMEN FACE HOLDUPS

One Runs and Other Screams

Special to The Record News.

BURKBURNETT, May 13.—Failure of one Burkburnett woman to stand and deliver when two hijackers stuck the muzzles of their pistols in the face of herself and a companion, and the screams of the companion, who had a child in her arms, resulted in the failure of the two hijackers attempting to hold up the women—the gallant pair taking to their heels in opposite directions.

The woman who refused to stand, Mrs. A. O. Meyer, who had in her possession over $100 representing the day's receipts of her husband's transfer business, in her care while he was out of the city, ran toward the nearest house, pursued by the highwayman. Her companion, Mrs. Neda Kirk, screamed, the resulting alarm routing the hijackers.

The attempt seems to have been carefully planned in advance. Mrs. Meyer had been several times during the day's business questioned about the cash taken in. When she returned to her home after the affair, she found it ransacked, but watches and other valuables were undisturbed save for a wallet containing business papers and two stock certificates of a public service corporation.

SUPREME COURT TO DEFINE OUIJA BOARD

By Associated Press.

WASHINGTON, May 13.—The supreme court has been asked in a petition filed by a Baltimore manufacturing company to solve the question, what is an ouija board.

The federal government has determined such boards are properly to be classed as "sporting goods" along with tennis rackets, baseball bats, golf clubs and similar articles. The Baltimore company therefore has asked the court to determine whether the board is, as the company claims, "a grade of motor automatism, involving considerable sub-conscious action of intelligence," and not "sporting goods" subject to a ten percent tax.

McCONNELL BROTHERS

To Be Married!

And have a home entails careful consideration on the part of prospective "newlyweds" in regard to selection of home furnishings. Considering that, McConnells offer furniture of the better sort moderately priced and at terms that any employed party can easily pay. I is no wonder that this is the logical store for young couples.

A "Tip" to the Bride

If you would have your husband stick close to the "home hearth," see that your household furnishings include a large "comfy" chair and an attractive reading lamp. An interesting book and perfect home comfort discourages his seeking adventure in other quarters. Then, too, this happy combination adds so to the appearance of your home.

Dining Should Be Delightful—

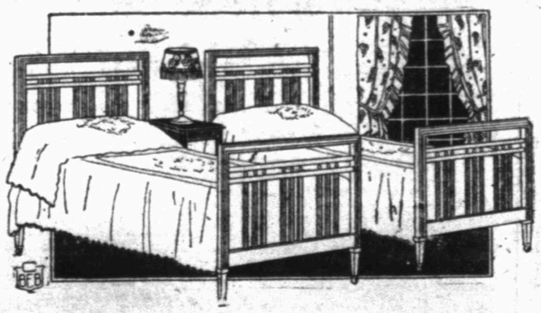

but oftime 'tis a drudgery

From medieval times, throught the ages, dining has always been associated with pleasure and hospitality. But unattractive environment and other elements sometimes make the reverse the rule.

Here, at moderate cost, you may select a dining room suite that will make home dining a pleasure and the kind, of which, you will be proud when you entertain.

BED ROOM SUITES

in Mahogany, Walnut and Ivory

From our large stock of bedroom suites you may select the sort of beds that insure complete relaxation. The kind of furnishings that add cheerfulness and beauty to your boudoir Selection here is a pleasure—not a task.

COMPLAINS OF CITY LOCKUP

Police Probe Shows Fair Treatment

"At 8 o'clock the Mexican jailer brought us an egg sandwich and a tin bucket of coffee—and that is all we had to eat all day, and we had no water to drink except the water we dipped out of the toilet box on the side of the wall."

Those are some of the charges contained in a letter received by the editor of the Record News Saturday, which the writer, John Crain, brings against the city police department and the city jail.

Crain charges that he was arrested Sunday in a local hostelry from which 48 quarts of Gordon gin were removed by the police officials. He claims that he had no interest in the gin, and claims that he was taken from his room "at 3 a. m., on the third floor, and the whiskey was found on the second floor."

He further states that he was released on his own recognizance, and denies that he had any connection with the liquor whatsoever.

An investigation at the police department made Saturday morning following the receipt of the letter indicates all the police keep the city prison in an unordinary sanitary condition all the time. The room in which male prisoners are confined is cleanliness itself, sanitary double-decker prison cots are used, and the bedding which is used is sunned and cleansed at regular intervals, the officials stated, to prevent them from containing contagious diseases.

Chief J. W. McCormick said Saturday that drinking water is placed in the male ward at regular intervals and it was his opinion that if Crain drank water from the toilet container, he was not compelled to do so.

Commissioner J. B. Fitts of the department stated that the jail is to be whitewashed at an early date, and that running water and a wash basin is to be placed in each of the three wards to better care for the prisoners. At the present time, the prisoners confined in the city prison, it was said, are cared for on a basis equal to that of any other city.

United States Commissioner Lantz says that Crain has been charged on a federal case jointly with two other persons, with possession of the gin captured last Sunday, and that he has been released on his own recognizance.

Crain brings charges against the jail and the police commissioner and asserts that he once lived at Commissioner Fitts' house.

Private wards for women prisoners and a separate cell for drunks are prepared at the city hall and Chief McCormick intimated that they were given as kind treatment as possible.

Welfare Workers Co-Operate Here

Co-operation must exist in the work of social welfare organizations as in all other businesses, according to the Travelers Aid secretary at the union station.

That much needed co-operation does exist here, they said, and is an important factor in the welfare activity.

Recently an elderly woman and a child approached the desk of the matron. Bundles and grips, the matron said, were galore.

"I'm on my way to South Bend," the matron said the woman stated. "I'm from Oklahoma City. my husband is dead, and I have come this far and can't go any further because I have no money."

Questioned as to why the woman, her child and the luggage were being moved to South Bend, and why the travelers had started on the journey knowing they had insufficient funds followed, the women replied:

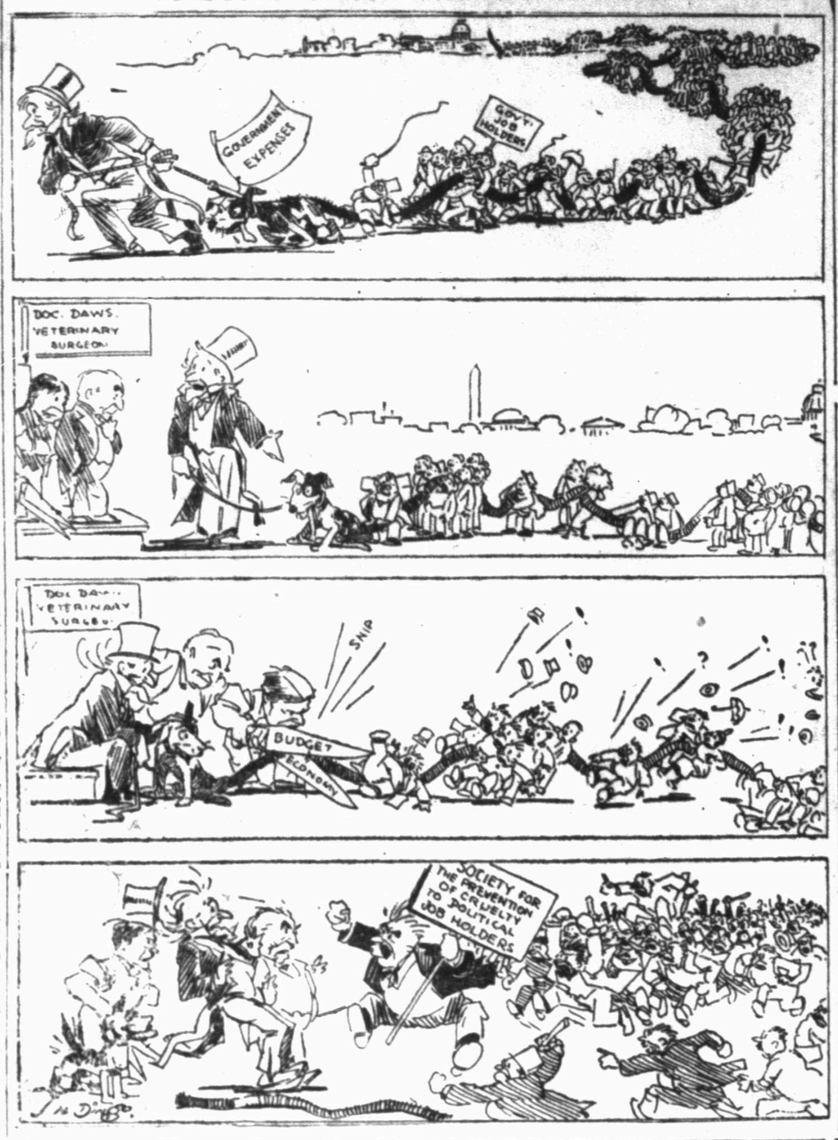

"Well, I thought Wichita Falls had lots of money, and that if I could get this far I could get money to complete my trip. I have an uncle in South Bend and he will take care of me if I can get there."

Some other questions were asked by the matron, and "Pa" Burdick of the Salvation Army was called.

"It's your case" he was told; and it was "Pa" Burdick authorized the matron to purchase a ticket to South Bend for the passengers, and to accept them on the train.

Although the train was delayed several minutes waiting for an unfortunate woman and child, the incident showed co-operation existing between the Salvation Army and the Travelers' Aid society, the matron pointed out.

STUDIO STARS CLOSING YEAR

Depict Shakespeare For Final Show

With the presentation at the Wichita theater on June 1 and 2 of Shakespeare's "Midsummer Night's Dream" the Community theater will close its first season, after a record of unusual success.

The Community theater movement in Wichita Falls started a few months ago with the organization of the Studio Players, and through excellent work and interesting public and private dramatic performances, won for themselves and Wichita Falls the first little theater charter of the drama league to be awarded to any Texas city.

The program on June 1 and 2 at the Wichita theater will be under the direction of Mrs. F. L. Fulton who has been active in the work of the Community theater movement in Wichita Falls from its inception. Emil Hermann is in charge of the stage settings of the Shakespearean offering.

The cast of "Midsummer Night's Dream" will be composed largely of the Community theater's best talent who have appeared in other performances of the organization during the past season. Rehearsals are already indicating the familiarity of the players with their parts, and the Community theater has announced it as their ambition to make of the Shakespearean program an entertainment so creditable in dramatic ability, costuming and stage setting that it will attract greater interest in the drama league work in Wichita Falls next season.

The presentation of "Midsummer Night's Dream" will be the first complete Shakespearean performance given on the Wichita Falls stage in many years.

2200 Feet Finished On Burk Road

According to statements made yesterday afternoon, about 2,200 feet of concrete road work was completed during the past week on the Burkburnett highway.

The work, despite the interference of inclement weather occasionally, is progressing rapidly, the present stand being beyond the Cashion school house.

ALAMO YOUTH WINS TROPHY

Fred Couper Wins Loving Cup

Fred Couper, son of Mr. and Mrs. Fred Couper won for his school, the Alamo, the loving cup offered for the best junior boy's declamation at the state interscholastic meet held recently at Austin. In winning this honor, Master Couper also won the distinction of being the first pupil of the Wichita Falls' ward schools to bring home a state trophy. "Patrick Henry" was the subject of his discourse and in presenting the cup, Governor Pat Neff referred to the young orator, as a future "Patrick Henry."

Friday afternoon at the Alamo school, a "pep" meeting was held by the students honoring their fellow student. A program was given in which Rev. J. W. Loving, pastor of the Floral Heights Baptist church gave the invocation, and Doris Roodhouse gave a greeting to "Fred Couper." In an appropriate response, Fred presented the trophy to the school to be held by it until after the meet next year, when the next winner will claim it.

Music and yells were given by the pupils of the various grades after which Mrs. J. W. Culbertson presented the $5 prize offered by the Alamo Mothers club for the best essay written in the history contest, to Miss Audrey Kemp, and the second prize of $2.50 to Miss Dorothy Vandeventer.

TEN PERMITS FOR BUILDING

Ten building permits were granted by the city secretary's department during the past week. This was a slight gain over the previous week, it was said, and reports indicated that Wichita Falls is still growing.

A permit granted to J. F. Hickman to construct a one-story, five-room brick house at 1820 Lucille contained the largest consideration of the week. The house is to cost approximately $4,000.

Other permits granted follow:

A. J. Owens to erect one-room frame residence at 1615 Lucille, consideration $300.

W. J. Wilke to repair one-story frame business house at 813 Lee, $300 consideration.

F. K. Smith to erect one-story, five-room frame residence at 2106 Bluff, $1500 cost.

D. B. Churchwell to repair a roof at 1303 Austin, for $300.

J. W. Mossett to add a porch to a frame residence at 1010 Tenth, for $200.

Phil Lowrey to erect a new roof to a frame house at 1410 Seventeenth street, consideration $200.

Petrolia Supply company to repair a two-story brick business house at 617 Ohio, $1,200 consideration.

M. E. Woodson to erect a garage at 1659 Elizabeth, $200.

Morgan-Cain to erect a warehouse on West Lee street, consideration $800.

STEEL MAKES EXTREME GAIN

Lackawanna Rises to New Maximum

By Associated Press.

NEW YORK, May 13.—Trading in stocks today would have been dull and featureless but for the further speculative activity in steels at extreme gains of 1 to 4 1-2 points with subsequent reactions of profit taking.

Foremost in this movement were Sloss-Sheffield, Gulf States, Nova Scotia, Midvale Vanadium, Republic and Replogle, together with several other issues which owe their comparative prominence to merger rumors.

Lackawanna steel rose to a new maximum for the current movement and Bethlehem was firm but Crucible eased under realizing sales and United States steel gained only a fraction, although heavily traded in.

Changes elsewhere were mainly upward and embraced some of the better known shipping, chemicals, sugar, tertilizers, coppers and equipments, such as United Fruit, Cuban American sugar, American Smelting, Bosch Magneto, General Electric and Mack Trucks.

Oils were relatively backward, aside from the demand for low priced issues and strength among rails was limited to a few investments, notably Reading, Atchison and Atlantic Coast line.

Sales amounted to 630,000 shares.

An increase of $29,300,000 in actual loans and discounts, accompanied by a gain of almost $60,000,000 in net demand deposits and a consequent expansion of excess reserves to about $37,000,000 were the noteworthy items reported.

OILS UNDER PRESSURE DURING WEEK'S TRADING

By Associated Press.

NEW YORK, May 13.—Reactionary tendencies in the financial markets became more clearly defined this week, but the reversal was suddenly checked on news of the prospective absorption of the Lackawanna steel company by the Bethlehem steel corporation.

Details of this deal have not been disclosed but the announcement caused an advance of 5 to 18 points among many of the independent steel shares with Lackawanna leading.

Equipments, motors and other issues closely related to the steel and iron industry shared in the rebound rumor in several instances associating their advance with ambitious merger plans. Incidentally however, negotiations for the consolidation of the Pierce Arrow and Lafayette Motor companies were dropped.

Oils were under pressure, regardless of additional advances in prices of products and the increasing prominence of that commodity in the world's markets. Rails were sluggish at best, but metals showed firmness as available supplies diminished and the foreign demand increased.

Shares of miscellaneous companies which follow the trend of general trade were only moderately responsive to signs of current business revival although textiles, rubbers and tobaccos were in better demand. Industrial conditions were more hopeful save in the sections affected by the coal strike.

Carloadings gained, crop prospects in the west and northwest were highly encouraging and money rates imposed no restraints, call loans again relaxing to 3 1-2 percent.

Sterling bills were at their highest levels in three years.

$37,000,000 were the noteworthy items reported in the weekly statement of clearing house banks.

Sterling exchange recovered its moderate reversal of the previous day, the Paris rate also rallying, with firmness in the general continental range. Of the less important remittances, the Greek rate reflected further heaviness.

BOND MARKET.

NEW YORK, May 13.—The turnover in the bond market today was unusually light and prices unchanged continued irregular.

Liberties eased at the outset but closed with almost an even proportion of nominal gains and recessions.

International evinced the same uneven tone. French, Swiss, Belgian and Mexican government offerings showed moderate strength while French 7 1-2s and several of that country's municipal offerings were inclined to ease.

Several of the independent steels bonds rose on the higher prices made by stocks of that description but rails, especially underlying or speculative issues as well as utilities moved within very narrow limits, local tractions also lacking special features. Total sales, par value, aggregated $7,843,000.

PETITION URGES BOND ELECTION

Friberg District After New School

Petition from the Friberg district, No. 20, urging a bond election for $5,000 worth of school bonds was received Saturday at the office of Burl Bryant, county school superintendent.

Superintendent Bryant said that the bonds will be used to erect a three room school house, which will be adequately equipped for teaching purposes.

The old building which is now in use, he said, has been used for the past 20 years, and is antiquated.

The bond election will probably be held June 10.

PRICE OF WHEAT BREAKS SHARP

May Leads Decline On Selling

By Associated Press.

CHICAGO, May 13.—Wheat prices broke sharply during the last half hour of the session here today, May leading the decline. Selling, believed to be by the leading long interests, started the break. At the finish wheat was ¼ to 2 cents lower, with May 1.43 to 1.43½ and July 1.23 to 1.23½. Corn was down ¼@⅝c, oats showed a net loss of ¼@½c and provisions ranged from unchanged to 47½c higher.

The September showed more strength than the early deliveries. Long May came out on all the swells but the trade was not as marked as the previous day. Deliveries on May contracts aggregated 246,000 bushels.

Corn and oats held within relatively narrow limits with trade almost entirely of a local character. The relative strength of wheat tended to prevent the pit element from taking the selling side freely and the market responded quickly to any good buying or selling.

Provisions ranged higher with the strength in hogs and a good demand for cash meats.

PLEA TO HELP SICK SOLDIERS

Here's Mothers' Day Legion Message

Mothers' Day greetings from the Womens' Auxiliary of the American Legion will be read by each pastor in Wichita Falls today, in compliance to a request from national headquarters. These greetings by the National Chaplain, Mrs. F. O. Burdick, of Wichita Falls, were extended to every unit in the United States, and carry a plea for the mothers to remember other mothers sons, who are still in hospitals, paying the price of the world war. The message follows:

"Today is Mothers' Day and it calls back to me the spirit of the mothers for the boys during the great world war.

"I was privileged to serve in the place of thousands of mothers who could not "go over" with their boys. It was the mother's love that helped our boys to win in the great conflict. We could feel their prayers in the darkest times, and, how many boys have said: 'If I ever get home to mother, I will never leave her again.'

"Now comes Mothers' Day when every son can show that dear old mother (with the silver locks chasing away the brown) how they really love and cherish her by wearing a flower in honor of her love and devotion or, better still, send her a telegram with a message of love. Many will remember how a letter from Mother would set the joy bells ringing in our hearts and give us new courage as they came to us "over seas" when we were the most downhearted.

"May God bless the mothers of our country. I shall never forget to thank God that I am a mother of a soldier boy and that I had the privilege to comfort and help the American soldier boys 'over there.'

"Now as to our boys.

"I feel that we should forget our side. When we gave our best for our country, God alone only knows the sacrifice we made.

"In His goodness, some came home well, some not so well and many are lying in our hospitals today trying to get back their health again.

"Many are the thoughts and heartaches as they lie there and we Mothers are just as thoughtful and loyal to our boys today as ever.

"We are trying to give them every comfort we can. Just now they are suffering for cool pajamas. Could not we Mothers honor our boys by giving this comfort to those who are trying to regain their health?

"The hand that rocks the cradle, is the hand that rules the world'.

"May God bless our boys.

"Mrs. Adjutant F. O. Burdick,
National Chaplain.
"Mrs. A. H. Carrigan.
"President Pat Carrigan Post Auxiliary."

COTTON QUIET: LIGHT SELLING

Old Crop Months Jump Higher

By Associated Press.

NEW YORK, May 13.—The cotton market was comparatively quiet today and much of the business was attributed to a further reduction of scattering interest for over the week-end. There was some selling on improving weather condition in the south, but offerings were restricted by the reports of a better trade demand and after selling off from 19.58 to 19.41, October closed at 19.51 with the general market closing steady, net unchanged to three points lower.

The opening showed the effect of conflicting influences being steady at an advance of 8 points to a decline of three points. Old crop months were higher on reports of increased spot sales in the south and favorable week end reviews of the cotton goods markets. Later deliveries were unchanged to 3 points lower on the favorable showing of last night's weather map and prospects for generally clear weather today and tomorrow.

In addition to realizing there was some local and Liverpool selling and an early rally was followed by declines which carried May off to 19.75, July to 19.40 and December to 19.43, or 8 to 12 points net lower. Offerings were comparatively light, however, and the close was some six to 10 points up from the lowest.

Private wires reported heavy rains and floods at Austin, Texas, and a cloudburst in northeast Alabama but otherwise the news was commented upon as favorable and the market apeared to be looking for a spell of more settled conditions over the belt.

People who live well take ice the year 'round

BY LIVING well we mean getting the full flavor and the full nutriment out of food which we eat. That need not mean *expensive* materials; but it does mean *fresh* food well cooked. It must be *kept* fresh. Just as soon as food becomes stale—that is, infected by bacteria—it loses that appetizing flavor which makes eating a pleasure and that wholesome quality which *nourishes*.

The only safe way to keep food from spoiling is by keeping it in an even, dry cold. That means a well-iced refrigerator the year 'round. At no season of the year can you keep milk, meat and butter in prime condition in a cellar, pantry or out of doors.

TO HOLDERS OF VICTORY NOTES AND OTHERS CONCERNED

Notice is hereby given as follows: First call for redemption of three and three-quarter per cent Victory notes. All of these three, three-quarter per cent series of United States of America convertible gold notes of 1922 and 1923 otherwise known as three three-quarter per cent Victory notes are hereby called for redemption on June 15, 1922. Pursuant to the provision for redemption contained in the notes and in Treasury Department circular number 138, dated April 21, 1919, under which the notes were originally issued, interest on all Victory notes of the three three-quarter per cent series will cease on said redemption date, June 15, 1922.

Second—suspension and termination of Victory note conversion privilege in view of the call for the redemption of all three three-quarter per cent Victory notes on June 15, 1922 and pursuant to the provisions of said Treasury Department circular number 138, the privilege of conversion of Victory notes of either series into Victory notes of the other series is hereby suspended from February 9, 1922, to June 15, 1922, both inclusive and on June 15, 1922, will terminate. Victory notes accordingly cease to be interconvertible effective February 9, 1922, and on and after that date no conversions of the notes may be made.

Third—detailed information as to the presentation and surrender of three three-quarter per cent Victory notes for redemption is given in Treasury Department circular number 277, dated February 9, 1922, copies of which are available at the Treasury and Federal Reserve Bank.

Summary: Two base hits, Eiffert; three base hits, Whitman, Adams; home runs, Pearson, Blades; sacrifice hits, White, DeNoville, Eiffert, Bailey; sacrifice flys, Doyle, Adams; stolen base, Blades; bases on balls, off Ramsey 1, off Pearson 3; struck out, by Mokan 1, by Ramsey 2, by Pearson 3; 5 hits and 6 runs off Mokan in 2 1-3 innings; 6 hits and 3 runs off Ramsey in 6 2-3 innings. Time of game, 1 hour, 55 minutes. Umpires, Hill and Ware.

Parson Pearson ambled along in fine style yesterday afternoon and stood the Spudders off without a threatening margin and the Buffs took the final game of the series 9 to 4.

More or less indifferent playing, timely hitting and a couple of uncalled for breaks put the Houston team far out into the lead. The Spudders started a late inning attack on the Buff heaver, but four runs collected did not seem to disturb his peace of mind and he continued mound duty.

Shorty Adams shook his flail in the face of the Buffs, and when he had finished this day's work, three blows were resultant. One of the knocks was a terrific triple to right.

A fluke home run was possibly the feature of the game. In the fifth inning Blades dropped a short fly behind second base. O'Brien, White, Summa and Adams all rushed back after the ball, but none reached it. Ray O'Brien was closest and as the others made room for him, he made a hard try for the catch. His reach was inches short and as he charged through, his foot caught the ball on the hop and was booted to the clubhouse. Finally capturing the elusive pellet, O'Brien had no chance to stop the flying Blades as he was crossing the plate.

Pearson uncorked a drive over the left wall despite the wind. It was a well hit smack and scored DeNoville from first.

Steve Mokan started in the middle for the Spudders. A furious bunting game which seemed to result successfully soon sent the youngster to cover.

Jumbo Ramsey took up the job in the third after one had been retired. The tall heaver was touched for three tallies in the next two frames, but after the fifth stopped the Buffs completely. Only one safety was recorded from the beginning of the sixth. Danny Gross singled to center in the ninth as the only threat of the Houston tine.

Fred Beck dedicated a new war club by splashing a couple of safeties. They were his first blows in several days. The slump seems to have been shattered.

DeNoville pulled a great running catch of a foul by McDonald in the sixth. The Buff first sacker raced almost to the clubhouse and barely took the catch with his finger tips.

The customary late inning start of the Spudders netted three tallies in the eighth. A nice catch by Boss Whiteman for the final out prevented still more scores, for the bases were loaded when Summa sent his long fly to the fence in deep center.

Mokan got away to a good start in the first. Bittle was thrown out by Adams and Danny Gross fanned. Gene Bailey flied out to Miller.

Spuds Threaten in First

The Spuds threatened to mark in their half. Adams led off with a walk and White sacrificed him along. Summa hit to Doyle who played to get Adams trying to return to second from on the line and both runners were safe. Tex McDonald took a third strike and Miller grounded out, Blades to De Noville.

Buffs Get Four

In the second, Adams let a fast grounder by Whiteman get through him and Blades beat out an infield hit on a bunt down first base line. De Noville bunted to Beck, who played too late at third and the bases were filled. Doyle sent a sacrifice fly to O'Brien and Whiteman scored, Blades moving to third. Eiffert and Blades executed a perfect squeeze play scoring Blades. A drive over the left wall sent De Noville in ahead of Pearson who lambasted the ball. Bittle attempted to bunt his way to first but popped up to Mokan. Four runs were scored on two hits, one of which was of the scratch variety.

Beck popped out to Doyle with a foul in the Spudders' section. O'Brien grounded sharply to Blades, but was out. Kitchens fanned.

Two More Counters

Danny Gross led off in the third with a single into left. It was his first hit of the series. Bailey sacrificed him along and he scored when Whiteman tripled over Summa's head against the right field fence. Blades beat out a hit down first base line and scored the skipper. Mokan yielded up his job to Ramsey, who retired the side without further damage. DeNoville popped up to White and when Blades attempted to steal third on the fourth ball pitched to Doyle he was thrown out by Kitchens.

Ramsey popped up to short, but Adams began his mauling by singling to center. White fanned and Summa grounded to Blades for the final out.

The Buffs got one more in the fourth. Eiffert doubled to right and scored a moment later when Pearson hammered a line single to left. Bittle attempted a sacrifice and again popped to the pitcher. Gross filed to O'Brien and Pearson was forced at second when Bailey grounded to Adams.

McDonald shot a fast grounder to Pearson, but was retired at first. Miller singled to center. Beck lined a long foul barely outside and Whiteman made a nice catch. O'Brien drove one to Blades too fast to handle and both runners were safe. Kitchens' drive to right was too high and he was out.

Whiteman crashed one through McDonald with a terrific drive for a hit. Blades, Texas leaguer, went for a home run when O'Brien foot-balled it to the club house.

DeNoville singled to left. Doyle filed out to O'Brien nad DeNoville was forced at second when Eiffert grounded to Ramsey, who threw to Adams. Tex robbed Pearson of another hit by knocking down a drive and with a quick recovery and great throw stopped him at first.

Ramsey was out. Doyle to first. Adams again singled with no one aboard. Whiteman made a hard try for the catch, but could not hold the ball. White popped up to short and Summa fouled out to Eiffert.

Bittle flied to O'Brien in the sixth. Gross fanned for the second out and Bailey filed to O'Brien.

McDonald was out on a long foul near the clubhouse. DeNoville made a great catch of it. Miller popped out to short. Beck shot a fast single to right, but failed to advance as O'Brien grounded to Blades.

Whiteman grounded out, Adams to Beck in the seventh. Blades was out swinging and DeNoville flied to O'Brien.

The first Spudder run came in the seventh. Bischoff went in for Kitchens and Tanner for White. Bischoff led off with a pop fly to Gross. Ramsey singled to right and scored when Adams tripled to right. Tanner flied to short left and Summa was out, Pearson to DeNoville.

O'Brien took Doyle's fly in the eighth. Eiffert popped up to Adams and Pearson flied to Miller.

Spuds Late Start

It looked like the Spudders might come back in the eighth. Tex led off with a single which was too fast for Blades to hold and in his haste the second baseman threw wild to first, advancing McDonald to second. Miller popped up a foul to Eiffert and Beck came through with a single to center, his second of the game. O'Brien was passed filling the bases and when Pearson hit Bischoff with the first pitched ball, McDonald was forced across. Ramsey's second single scored Beck. Adams sent a sacrifice fly to center, on which O'Brien scored and Bischoff moved up to third. Tanner walked refilling the bags, but Summa's drive was a few feet short of a homer in right and Whiteman retired the side with a nice running catch.

Bittle drove a hot one to Ramsey but was out in the final round. Gross singled to center, but never advanced. Bailey flied to Summa and Whiteman popped to Tanner.

Tex McDonald flied to left in the last half. Miller was out on a drive to center and Beck ended the game by popping a foul to Eiffert.

Morvich Walks Away With $50,000 Derby As 70,000 Cheer

CROWD RUSHES TO ANIMAL AS SHE COMES IN

Jockey Never Forces Horse During Entire Course

By Associated Press.

LOUISVILLE, Ky., May 13.—Morvich, unconquered as a two-year old, is the winner of the $50,000 Kentucky derby.

The brown son of Runaymeds-Hymir, running true to form, won the event at a mile and a quarter, in a field of ten starters today before a record-breaking throng of 70,000 spectators, the largest crowd that ever witnessed the running of the blue ribbon event for three year olds.

Morvich, running his first race as a three year old, triumphed over the best field that the nation had to send against him, and won for Owner Benjamin Block, the New York sportsman, $46,775 and $7,000 worth of old plate.

Behind Morvich was Bet Mosie, E. R. Bradley's entry, trailing the victor by two lengths.

John Finn was third in the van, just a neck behind Bet Mosie. Six thousand dollars went to second place, while John Finn and Deadlock, the third and fourth horses, drew down $3,000 and $1,000 respectively.

Morvich paid the surprising by good odds of $4.40 to win in the mutuels $4.30 to place, and $3.50 for a $2 ticket. The mutuel prices on Bet Mosie were $2.90 and $2.70 and $6.60 on John Finn.

Speeding into the leading soon after the start Morvich made every post a winning post and he apparently never was in danger.

He accepted every challenge from the field trying to defeat him. The colt was admirably ridden by Albert Johnson and carried 126 pounds.

My Play, a full brother of Man O'War, staggered into fifth place, with Letterman pulling up in sixth position.

Surf Rider was seventh and far back was Startle, the great juvenile filly of 1921, with By Gosh eighth. Busy American, another Bradley entry, did not finish. The injured leg of the Bradley star failed to withstand the strain. The colt broke down rounding the first turn and was pulled up as the flying field sped on in quest of the premier honors of the turf.

The sun was just beginning to sink in the west as the nine kings and one queen of the turf were sided up for the getaway under the concentrated gaze of the great crowd. Starter Bade, the grey haired veteran of the spot, yelled his instructions to the jockeys, each of whom was trying to maneuver the other for the advantage in the start.

My Play Takes Lead.

Jockey Robinson, riding My Play, shot into the lead as the barrier was sprung. Behind him thundered Morvich with the rest of the field fighting for the pace and watching the two leaders.

Fifty feet from the start, Jockey Johnson urged Morvich into the lead and before the finish of the first quarter it was evident that the great colt would retain it. When the flyers fled past the stand on the start of the punishing mile and a quarter race, Morvich led by a length, with Busy American in second place, My Play third, and Startle trailing fourth. The field spread out in the back stretch with Morvich setting the pace, followed by three horses running abreast.

Morvich, running with marvelous pace, made the turn into the stretch without losing a foot and straightened away for the run to the wire. Bet Bosie began to show a burst of speed, closing the gap between him and Morvich. Jockey Johnson, on Morvich, knew he was in for a race and he laid his face down against the steaming neck, shouting words of encouragement to the horse, but never applying the whip.

The time of 2:04 3-5 made by Morvich was but 1 1-5 seconds slower than the Derby record set by Old Rosebud in 1914.

COYOTES TAKE FAST GAME AT SEYMOUR 4-0

Stallings Gets 16 Strike-Out but Loses Game

By "HANK" HAYES

Wichita Falls high school "Coyotes" in their appearance against the Seymour Jackrabbits yesterday at Jackrabbitville, resulted in a hard fought, close contest, in which the visitors out-hit and out-played the losers and took the long end of a 4 to 0 score.

Bourland of the Coyotes, pitched a good game and was given fast support by his teammates. At bat they were rather weak, Baldwin, Kizziar and Ross, leading sluggers of the club, found their portside opponent in the pinches and collected enough wallops between them to win the game. Seymour was robbed of several scoring chances by brilliant playing. Kizziar shoestrung one and touched third for a double play. Kenley did the same trick in the eighth and suppressed an attempted rally.

Bourland let up a trifle in the final frame and got the bases partly loaded. Harris relieved him and filled the stations before he could do anything with the Jacks. But he found the plate and they banged them to the fielders' waiting gloves, all chance for the Seymour lads to score on the Coyotes was gone.

Stallings, in his mound work, pitched veteran ball, making 16 of the Wichita batters swing at the breeze, and only three of the winners were able to connect his southernly directed heaves safely. His defense was poor at the critical moments. Only one earned tally could be charged against him. At the plate the Seymour batters could not pierce the Coyote defense and were held atbay until Durham "horse-shied" over send for their first safe bingle. On the bases the Jackrabbits were anything but jackrabbits, being pegged out, or dying there.

By virtue of this victory over Seymour, the conquerors of Throckmorton, Bomarton and Goree nines, the Red and Black ball tossers have another division of the state to claim supremacy over and are now ready to meet for a final contest for state honors on the diamond.

FOUR SPUDDER REGULARS HIT IN BIG CIRCLE

Buff Boss Takes Lead With .382

George Whiteman, boss of the Buffs, who started out the season with the apparent intention of doing most of his work on the sidelines and who resumed his place in the outfield on DeNoville's injury, has been hitting the ball so hard he can't retire. Whiteman, through Thursday's games, had assumed the leadership of the league, with an average of .382. Hard on Whiteman's heels were Shorty Adams of the Spudders, his team-mate, Homer Summa, and Ewell Gross of San Antonio.

Genie Bailey of Houston and Strong of Beaumont were tied for the lead in the race for the first century with thirty-eight wallops each. Thirty-two Texas league hitters were batting better than .300.

Leading Base-Stealers.

This early in the season, Edington, the stocky Beaumont outfielder, and Ezzell, the infielder who is now wearing a Shreveport uniform, are tied for the leadership of the league in stolen bases. Each has pilfered safely nine times and has been stopped but twice. Leading base thieves, with the number of times they have been caught following the number of safe thefts, follows: Edington, Beaumont, 9-2; Ezzell, San Antonio-Shreveport, 9-2; McDonald, Wichita Falls, 8-2; Miller, Wichita Falls, 8-2; E. Gross, San Antonio, 8-2; Rader, Beaumont, 8-4; Strong, Beaumont, 7-1; Adams, Wichita Falls, 7-3; White, Wichita Falls, 6-3; Falk, Dallas, 6-3; L. Smith, Galveston, 6-3; Bentty, San Antonio, 6-5.

Marvin Smith of Galveston has been caught stealing six times, while Wetzel, DeMaggio, Fuller and Bittle have been stopped five times each.

Leading Pitchers.

Thirty-two pitchers have won half or better of their games to date. Morgan of Fort Worth with three wins, is still undefeated. Jacobus, of Beaumont, has five victories to his credit.

SHOOTERS IN FINAL TRIALS FOR BIG MEET

Deatherage Scores High in Doubles Event

Final practice for the Wichita shooters who will journey to Ardmore today was held Friday morning over the local traps.

Several good scores were shot in the regular weekly shoot. Pate was high man in the singles event, crashing 48 out of a possible 50 targets. In the doubles, Deatherage scored 19 in the 24 targets.

Following the regular program, several exhibitions were shot, in a special double event. Deatherage broke 21 out of 24 birds.

Scores for the regular program were:

50 Target Singles.

Pate	48
Nabb	47
Dempsey	45
Adams	45
Carter	43
Rhodes	43
Deatherage	42
Fraser	41
Greenburg	39
Berner	39
Goetzbee	34
Randle	34
Adrian	34
Maer	32
Landon	29
Soderlund	28
Reinhart	28
Hull	14

24 Target Doubles.

Deatherage	19
Rhodes	17
Dempsey	17
Adams	16
Greenburg	13
Adrian	13
Maers	8
Carter	6
Soderland	7

Just who will compose the personnel of the team to represent the local club was not known definitely last night.

It is probable that Hunter Dempsey, W. D. Gibbs, Paul Adams, A. G. Deatherage, Charles Greenburg, Nick Carter, Will Daniel, R. A. King, J. L. Nabb, Joe Pate and possibly one or two others will attend.

There are excellent chances that prize money will be brought back by the shooters when the return from the big three day card staged as the Oklahoma State Shoot at Ardmore, May 15, 16 and 17.

WITT AT TOP OF AMERICAN SAFE HITTERS

He Boosts Record From .395 to Over .400

Lawton Witt, the former Philadelphia outfielder, who is holding down one of the garden positions for the New York Yankees is at the top of the list of batters in the American league, according to figures which include games of last Wednesday. The averages are of players who have participated in 15 or more games.

The pitching in the past week has been to Witt's liking and he boosted his average from .395 to .410. Catcher Severeid, for the Browns brought his mark of .319 to .404, for the runner up honors. George Sisler, leading member of the Browns, who topped the hitters a week ago, slumped a little and is in third place with a mark of .402, with Steve O'Neill, star catcher of the Cleveland Indians, pressing him with .400.

Sisler, however, continues to be the best run getter with 2 tallies and is setting the pace for the base stealers with an even dozen thefts. His team mate, Kenneth Williams, is on Sisler's heels with ten thefts. Williams added to his home run mark yesterday, his total amounting to eleven again already of the 1921 schedule of Babe Ruth, the home run king, scheduled for reinstatement next Saturday.

Other leading batters for fifteen or more games: Clark, Detroit, .393; Jamieson, Cleveland, .379; Ed Miller, Philadelphia, .373; Gardner, Cleveland, .361; Pratt, Boston, .355; Williams, St. Louis, .348; Scott, New York, .348.

George Toporcer of the St. Louis Cardinals has struck a batting stride which promises to make to make batters of the National league hustle to keep pace with him. He cracked out nine hits in his last five games, including last Wednesday's contest, and boosted his average from .360 to .439. Rabbit Maranville of the Pirates leads the point, but with an average of .413 is the runner-up to Toporcer, while George Kelly, the slugging Giant first baseman, who topped the list a week ago, lost 40 points and is resting in third place with an even .400.

Rogers Hornsby, the St. Louis star, had tied the slugging Kelly for honors in home-run hitting, each with five.

Half a dozen players are in the race for base stealing honors. Maranville, who was showing the way the week ago with five thefts, failed to swell his total, while Rawlings, Young of New York, Mueller of Boston, Carey of Pittsburgh, and Sisler of Chicago, caught up with the ball hit.

Other leading batters for 15 or more games: O'Farrell, Chicago, .355; T. Griffith, Brooklyn, .350; Hornsby, St. Louis, .350; Barbare, Pittsburgh, .370; Terrell, Boston, .373; Walker, Philadelphia, .367; Meusel, New York, .358.

AYLOR ROUTE TO BE REVIVED

Military Road Being Remapped

By Associated Press.

SAN ANTONIO, Texas, May 13.—Revival of a route close to the old military highway between Brownsville and El Paso, built by General Zachary Taylor during the war with Mexico, is the object of the party of good roads enthusias and federal and state highway engineers which left here under the auspices of the Old Spanish Trail association to inspect the route between Brownsville and the Rio.

From Brownsville the new route will follow the present improved highway north through San Benito and Harlington in Cameron county, and then turn west through La Feria passing through Hidalgo county, touching the towns of Mercedes, Weslaco, Donna, Alamo, San Juan, Pharr, McAllen and Mission, and on to Sam Fordyce and Starr county line. This portion will not be along the old military route, which went directly up the river, but it practically parallels it at a distance from one to eight miles. Out of Mission the new route joins the old one and passes through Starr county to Rio Grande City and Roma.

From Roma the proposed highway will pass on through Starr, Zapata and Webb counties to Laredo, where it crosses the International Peace highway. From Laredo it will continue through Webb county, across a corner of Dimmit county and through Maverick county to Eagle Pass. Continuing through Maverick county along the river, across a corner of Kinney county and to Valeedo county to Del Rio. This is as far as the route will be inspected at this time. Just how the route will go from Del Rio is undecided as yet, but it is likely it will cross parts of Valverdo, Terrell, Brewster, Presidio, Jeff Davis, Culberson and El Paso counties to the city of El Paso.

'Y NO QUITTER, LACKS AUTHORITY

Somebody has started a rumor that Ty Cobb intends to retire as player and manager. The dope is that Cobb is disgusted with the Tiger team, which still lacks punch Cobb may be considering such a step as resigning but not because of the reason hinted at. If he does step out it will be because he has not been allowed free rein in his efforts to build a winner.

MILLIONS FOR LABOR PRESS

Plan Is to Assess Members

By Associated Press.

HOUSTON, May 13.—A special committee considering the establishment of a labor press recommended to the convention of the International Brotherhood of Locomotive Firemen and Enginemen today that a fund of $5,000,000 be established for that purpose. The plan is to assess each of the 110,000 members 25 cents a month until the fund is obtained. The convention has not yet acted on the recommendation.

The plan includes also the establishment of a department of the brotherhood to handle the papers it is proposed to establish. A committee is considering a proposal from the chairman of the four railway brotherhoods that each of the four advance $6,500 to the legislative boards of the brotherhoods for the furtherance of the campaign of Senator Robert M. LaFollette of Wisconsin for re-election to the United States senate.

A motion to ask a reduction in the service hour law, which at present provides that men may be required to work sixteen hours, is in the hands of a committee for consideration. The motion would make the maximum working time twelve hours.

SUCH PAINS AS THIS WOMAN HAD

Two Months could not turn in Bed
Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. RICHARDSON, 4640 Orcas St., Seattle, Wash.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed.

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound.

TEXAN KILLED AT FORT WORTH

Merchant Shot to Death in Street

By Associated Press.

FORT WORTH, May 13.—L. T. Martin, merchant, was shot to death this morning at 9 o'clock as he was walking along East Front street. The shot was fired from the second story of a nearby building.

Martin moved here 10 days from Oak Cliff, Dallas, buying a dry goods store.

H. J. Henley, aged retired merchant, was placed under arrest at noon on a charge of killing Martin.

Following the filing of a formal murder charge he was committed to jail and the district attorney announced efforts to obtain bond would be resisted.

Two civil suits are now pending in Dallas courts, one for debt and one for slander, between Henley and Martin. The latter purchased the East Front street department store from Henley about a year ago, but did not move here until 10 days ago.

Driller Shot Down; Another Wounded

By Associated Press.

AMARILLO, Texas, May 13.—W. C. Frazier, well driller, was shot to death at Clovis, N. M., this afternoon and George C. Herrill is held in jail charged with the shooting. Frazier is alleged to have attacked Herril during a quarrel over domestic troubles. Herrill, who surrendered to Deputy Sheriff Pat Woods of Curry county, was treated for wounds he received during the fight.

IF YOU ARE SICK

PROFIT BY THE EXPERIENCE OF OTHERS

Consult
Dr. Schultz
THE RELIABLE SPECIALIST

For scientific treatment of chronic, nervous and special diseases of both sexes, catarrh of all mucous membrane, stomach, liver, kidney complaints, blood and skin diseases. Hemorrhoids and prostatis complications treated without the knife, by a safe and humane system of scientific treatment.

If you are sick of experimenting, sick of failures, sick of being sick, come to me. I invite sick people who contemplate taking treatment to come. Special attention given in the combination of curative powers, modern electricity, vibrations, etc., with the scientific administration of selected Specific Medicines. I endeavor to do everything to promote the welfare of my patients.

IF YOU NEED A SPECIALIST WHY NOT THE BEST?

Are you a nervous wreck? Are you worn out and broken down? Are you suffering from vicious Blood and Skin Diseases, that destroy bone tissue, and disfigure for life? Backaches and kidneys give you all-gone feeling? Whether these conditions were caused by early excesses, or contracted by inoculation, it does not matter, for they will all respond to my treatment. Consult Dr. Schultz, the Reliable Specialist, who is well equipped by long experience that enables him to offer his service on a basis that no other can; his charges are lower for cures than the average physician generally charges for failure.

Those who have wasted time and money, and failed to get rid of their ailments, are especially invited to consult FREE. I am giving the benefit of over 30 years' honorable experience; some of my cures are truly wonderful, yet I do not work magic; I do not make the old younger, nor the blind see; I simply apply the knowledge my years of honorable experience have given me, and I do this honestly and intelligently.

NOTICE OF TRUSTEE'S SALE

WHEREAS, Barnet Sedler, president of the Montout Oil company by his Deed of Trust dated the 17th day of September, 1920, filed for record on the 5th day of October, 1920, and duly recorded in Volume 30, page 371, of the Deed of Trust Records of Wichita County, Texas, conveyed to the undersigned R. E. Shepherd, trustee, for the Chandler Drilling company, the property in said deed of trust described in Wichita County, Texas, to secure the Montour Oil company's note dated and described as follows:

Said note being dated December 17, 1920, in to principal sum of eleven thousand nine hundred seventy-eight and 50-100 ($11,978.50) dollars, said note being payable on or before eighteen (18) months from date, containing the usual attorney's fee clause.

WHEREAS, there has been paid and credited on said note the sum of $7,715.41, leaving a balance on the principal of said note of $4,263.09, with accrued interest to May 17, 1922, making a balance due as principal and interest of $5,007.07.

WHEREAS, I have been previously requested by C. R. Yarbrough, president of the Chandler Drilling company, and owner and holder of said note and Deed of Trust, to sell said property under the terms and conditions provided for in said Deed of Trust.

NOW THEREFORE, public notice is hereby given that I will, at the request of C. R. Yarbrough, president of the Chandler Drilling company, owner and holder of said note and Deed of Trust, on the 6th day of June, 1922, between the hours of ten o'clock a. m. and four o'clock p. m., at the front door of the Wichita County, Texas courthouse in Wichita Falls, Texas, sell at public vendue and outcry to the highest bidder for cash the following described property in said Deed of Trust as follows, to-wit:

Being a tract of land of two and ninety-eight hundredths (2.98) acres out of the center of the A. A. Morgan tract of land in Wichita County, Texas, being 1847 feet in length and 62 feet in width on the east side and 79 feet in width on the west side, together with all improvements thereon, situated, or to be placed thereon, belonging to the said Montout Oil company.

And also twenty (20) per cent of seven-eighths (7-8) of the oil in place and now being run to the credit of the Montour Oil company from said above described property, or that may hereafter be run to the credit of said Montour Oil company from said property, with the understanding that twenty per cent of seven-eighths of the oil as it is produced shall be paid to the City National Bank of Commerce of Wichita Falls, Texas, to be collected and applied to the satisfaction of the note herein described, each payment to be made as collected; said note herein referred to to be held by said bank in escrow for the purposes herein specified.

It is expressly understood that the twenty per cent of oil above referred to is to come from that portion of the seven-eighths of the oil being produced, or that may hereafter be produced, from said lease which is being run or that may be run to the credit of the Montour Oil company.

It is further understood that this instrument is to also cover the undivided one-half interest of the grantor herein and to the following described property, to-wit: The east five (5) acres of 7 1-2 acres, which 7 1-2 acres is described by metes and bounds as follows:

Beginning at a point on the north line of block 69, 475.3 feet east of the northwest corner of said block; thence east 699.2 feet; thence south 468.3 feet; thence west 699.2 feet; thence north 465.8 feet to the place of beginning, containing in all 7 1-2 acres, same lying and situated in the County of Wichita, State of Texas.

For the purpose of satisfying said indebtedness, interest, attorney fees, cost in court of executing this trust.

R. E. SHEPHERD, Trustee.

SHERIFF'S SALE.

THE STATE OF TEXAS,
COUNTY OF WICHITA.

By virtue of a certain alias execution issued out of the Honorable 48th District Court of Tarrant County, on the 29th day of March, 1922, by J. S. Lutes against Edward D. Davenport and Stanley Watson, for the sum of Seventeen Thousand Eighty and 89-100 ($17,080.89) Dollars, with interest thereon at the rate of six per cent per annum from the 2nd day of September, 1919, less credits in the following amounts as of the dates specified: January 9, 1920, $2,000; January 11, 1920, $2,000; April 30, 1920, $488.93; June 28, 1920, $155; plus costs of suit, in cause No. 49933 in said court, styled J. S. Lutes versus Edward D. Davenport and Stanley Watson (an abstract of said judgment having been duly recorded in Wichita County, Texas, on the 24th day of September, 1919), and placed in my hands for service, I, Fred K. Smith, as Sheriff of Wichita County, Texas, did on the 11th day of May, 1922 levy upon certain real property situated in Wichita County, Texas, described as follows, to-wit:

An undivided 1-8 interest in and to that certain oil and gas lease and leasehold estate covering the North 4 acres of the E. ½ of the S. W. 1-4 of the S. W. 1-4 of Block 73, Red River Valley Lands.

And I have levied upon the same as the property of said Edward D. Davenport; and on Tuesday, the 6th day of June, 1922, at the Court House door of Wichita County, in the City of Wichita Falls, Texas, between the hours of 10 a. m. and 4 p. m. I will sell said real property at public vendue for cash to the highest bidder as the property of said Edward D. Davenport, by virtue of said levy and said alias execution.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Record News, a newspaper published in said Wichita County.

Witness my hand this the 11th day of May, 1922.

FRED K. SMITH,
Sheriff of Wichita County, Texas.
By F. E. JOHNSON, Deputy.

SHERIFF'S SALE

Riley; lots 1, 2, 3, block 220 of the original townsite of Wichita Falls, Wichita county, Texas, as shown by deed of the records in Vol. 134, page 298 deed records of Wichita county, Texas, and levied upon the the property of J. R. Wilson, W. B. Johnston, J. C. Jenkins, and that on the first Tuesday in June, 1922, the same being the 6th day of said month, at the courthouse door of Wichita county in the city of Wichita Falls, Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said Order of sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder, as the property of said J. R. Wilson, W. B. Johnston and J. C. Jenkins.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Record News, a newspaper published in Wichita county.

Witness my hand, this the 13th day of May, 1922.

FRED K. SMITH, Sheriff
Wichita County, Texas.
By F. E. JOHNSON, Deputy.

YOUTH WINS TALBERT PRIZE

Joe Bashara Makes Speech on Bonds

Epeaking extemporaneously, Joe Bashara, junior student of the Wichita Falls high school, won the J. Wilkie Talbert loving cup in a recent speaking contest at the high school, urging that the bonds which were voted upon yesterday be supported by Wichitans.

The address, as it was delivered by Joe, follows:

"The question I am to discuss is one of great, immediate interest to every one in the community of the town of Wichita Falls.

"At the present time this question is the need of the new high school and junior college.

"We all know next Saturday, May 13, there is to be an election and upon this election will rest the fact whether we have a new high school and junior college or whether we will not have one.

"At the present time the most discussed question in the high school for the last two years or three or four years has been a new high school. I will take that phase of the question first and then discuss the new junior college in Wichita Falls.

"In the first place we need a high school building, for the mental development of this school in its present size proper attention cannot be given. If a student is indifferent about school work because of the existing conditions he will be discouraged and not go to school.

"At the present time the Rotary club is launching a new campaign, a 'back to school' campaign. This must be supported by everyone, boy or girl, man or woman, in this community. It is the greatest campaign ever launched and the Rotary club should be commended for its efforts in launching this campaign 'back to school.'

"We know at the present time a great many should be going to school and who are not. The high school which the bonds are to be voted for, to be erected next year, will afford next year the greatest opportunity to many to go to school, and who in all probability will go if the new high school is erected. We also need a high school for the athletic side of the question. Mental development is not the only thing, a boy is not well trained unless he at least has the proper athletics as well as the mental development to round out his physique. Foot ball, baseball and basketball do not give very many students this opportunity for development, mostly in foot ball 16, in basket ball 6 and in baseball hardly 18, and thus the major part of the student body is neglected. The physique side of the question must be taken up, and we have been informed in the new high school to be built, that is, supposing the bonds are voted for on next May 13, it will have three years for every student in the high school to develop himself or herself, as well as receiving the mental development and proper individual attention as will be given them in a larger school, with a larger athletic equipment.

"The junior college will also be a great blessing to Wichita Falls. At the present time there is only one other in the state of Texas. This is a great educational advantage the junior college will offer to those boys who cannot afford to go off to school like a great many others. Many are deprived of the opportunity to have a college education merely because they cannot afford to go off to school and the junior college will offer them the splendid opportunity.

"If there is any greater generation it seems to be the future generation and the present generation cannot make a greater generation than to improve the conditions and the means of education for the future generation and thus better the education of the future world.

"I urge you, one and all, to vote for the bonds for the new high school and junior college on next Saturday, May 13.

"I thank you."

Wichita and Burk Send Big Crowd to Dallas Reunion

Wichita Falls and Burkburnett will have an unusually large number of candidates at the Dallas Scottish Rite reunion, starting Monday. A special Pullman car will be handled by the Katy from Burkburnett to Dallas Sunday evening for the special comfort and accommodation of the candidates and members.

Frank Collier, Otto Steblik, J. D. Avis, C. W. D. Cline, U. H. Griggs and C. O. Fritz, members of the consistory from here will attend the reunion.

3 WILDCATS BY TEXHOMA CO.

Big Program Gets Under Way

Three new wildcats in the Wichita Falls district, two in Archer county and the third in Wichita, will start drilling this week, the initial activities in the Texhoma Oil & Refining company's progress for extensive wildcat developments during the coming months, according to announcement Saturday by the president and general manager, W. B. Hamilton.

Four miles west of the Texhoma pool on the Goss, in Archer, the derrick is up and tools are moving in for the No. 1 Tad Wilson, in Section 12.

One and a half miles south of the courthouse at Archer City, tools are moving in for the No. 1 W. C. Young.

The third new wildcat location is on the John and Jeff Waggoner ranch, Block 11, south of the activity occasioned by the recent developments in the 1900 foot sand of South Electra.

The Texhoma has been one of the leading wildcatters in the district since its organization, and has several pools to its credit as the result of this wildcatting. The South Burkburnett 1200 and 1300-foot sands producing area is called by the name of the Pioneering Co. the Texhoma Burk pool and the Archer county Texhoma is its most recent discovery in this district.

Development of the Robertson Colleft pool at Strawn, and the opening up of new territory by the Black well in Shackelford county, are other discoveries to the Texhoma's credit.

The company is just now completing a new semi-wildcat in the South Electra territory, the No. 1 Throckmorton, which is about a mile from production.

The Texhoma is also preparing to drill an important test in the newly opened area, between the town of Electra and the south pool, on the Waggoner Block 13, and directly between the Gulf's Jennings well and the Harvey Cullum Rio Bravo producers.

AUSTIN TEMPLE TO PLAY MASKAT HERE

Ben Hur Temple, A. A. O. N. M. S., of Austin, Texas, has a crack baseball team which will play the Maskat Wildcatters a series of three games on May 20, 21 and 22.

Tickets for the three games are being sold by the band and patrol members under the direction of Otto Steblik.

WILD MEN EAT BLOODY MEAT

If you don't see what you want at the Kemp hotel, just ask for it. You'll get it, whether it's on the menu or not.

Saturday at noon the two Shrine minstrel wild men in their black unions, rope petties, and woolly wigs, accompanied by their keeper, visited the lunchroom, put on a lovely show for the enjoyment of all those present, and a large crowd that soon collected, and shouted long and loudly for "raw meat."

They got their raw meat, gobs of it. Manager De Fries had a 20-pound cut brought up, for fear that the steaks, juicy and dripping, would not prove enough.

The "wild men" were just as game sports as the cafe manager. They sat up there at the counter and gnawed their raw meat, and provided much hilarity for about an hour around the hotel lunch room and lobby.

One reason why a woman goes to her husband so often for advice may be because that is about all she can get out of him.

Through the doors of the City National Bank of Commerce leads the way to financial independence and thousands of West Texas people are following it, in safety and convenience. The bank welcomes deposits of any amount from One Dollar upwards.—Adv.

PRETTIEST GIRLS IN WORLD LIVE IN WICHITA FALLS!

SET OF 26 MEN MAKE UP ALL WICHITA JURIES

Same Men Serve Over and Over Again

Six and a score of Wichita county citizens have controlled the grand jury indictments of all regularly impaneled grand juries in this county for the past five years, according to J. W. Bentley, special investigator, who made a court survey for the Wichita County Citizens association in the early part of the year.

Four of these men were on 10 of the 11 grand juries. Four men can prevent the bringing of an indictment.

The total membership of all these grand juries, his figures show, were taken from 105 men. This is less than one per cent of the total voting strength of the county, and less than two per cent of the voting strength among the men.

"In my deductions from these figures I do not want to be understood as saying that these men, who happened to be picked for service, were picked for the purpose of controlling law enforcement," Bentley said. "In fact, I don't think any such thing. I do think, however, that it shows a laxity in the drawing and handling of the grand juries—the best instruments for law enforcement in the county, and a situation which should receive careful attention in the selection of future grand juries."

"Inbreeding" of the grand juries, and lack of knowledge which might improve chances for law enforcement through failure to gain wider knowledge of conditions than were known to the 105 are other features brought to mind in this connection.

Some of Bentley's deductions in this connection are:

"Of a certain three, some one of whom were members of eight of the eleven grand juries.

"Another combination of three were members of eight of eleven grand juries.

"Another combination of three appeared on eight of ten.

"Another combination of four appeared as members of ten of eleven.

"A combination of six provided from one to three on each and every grand jury.

"A combination of 22 of the 26 furnished from four to six on every grand jury from 1917 to 1921, except special grand juries.

"This 26 citizens had served 5, 4, 6, 6, 5, 4, 6, 7, 4, 4, 7, times respectively on the grand juries regularly impaneled in 1917, 1918, 1919, 1920 and 1921.

"You will see that if this number of citizens had so desired they could have controlled the grand juries for the past five years. That being true have they not occupied the position, where one might charge them with the power to make public opinion, and set the standard for law enforcement in Wichita county

"To the curious: You can ascertain these facts from the court records, and having the time and patience figures out just what is shown above."

Women Will Make Pajamas for Vets

The American Legion Auxiliary will take up at the Tuesday meeting another sewing day, when the unit members, and all other Wichita Falls women interested, will be asked to meet and make pajamas for the hospital. The need is as great this summer as last, it is stated, and the patients are receiving nothing of this sort from the government.

Mrs. A. H. Carrigan, the first president of the Auxiliary, is still at the head of the unit, and Mrs. R. C. Thaxton is still secretary. Miss Mable Winfrey is treasurer, being elected to fill the vacancy made by the departure of Mrs. T. R. Brunson for Oklahoma to make her home.

There are various active committees in the unit. Of these the hospital and entertainment committees have been most active. The auxiliary in connection with the Legion post have given several large social affairs, which have helped materially to stimulate interest on the organizations.

When Radio Is Used All Over Globe Look Out

Wichita is radio enthused.

Almost any day in the week one'll meet a friend packing a roll of right and rather expensive wiring home or buying a screw-driver, pair of pliers and other tools to manipulate his "set."

Soon the craze'll spread 'round the world.

Then look out.

For when China, Poland and Zululand start to broadcast someone is going to need an interpreter with about 93 languages, dialects and jargons ready for action.

Imagine sitting in with a parlor radio outfit.

"Bo-la, glub, blup, bub." Gasps as the grand opera selection is interrupted. Follows the interpreter.

"It's only a Kaffir making love to his dusky sweetheart." So much

for that and the opera selection is resumed.

"Chee klick il se," comes over the radio and once again the interpreter comes to the rescue.

"It's only the missing link somewhere in darkest Africa calling to its mate." That's that.

On with the concert, only to be interrupted again. This time it's different.

"Dearie, can I have $3.48 for a new hat—I should say not, whaddye think I am, a millionaire?"

Just a husband and wife accidentally broadcasting a little family opera.

All of which ought to stimulate the study of all known languages, flapper or otherwise, and the invention of a few new ones so that confidential radio messages will be possible.

TROUT BITES IN DEVIL'S STREAM

Local Party Follows Big Rain

Fish stories are now in order.

The first expedition has safely returned from foreign fields.

Ollie Presley, J. M. McFall, A. F. Bowden, Perry Wright and Cliff Moore are home after a two weeks trip to Devil's river.

The party departed and returned in the rain. True sportsmen they must have been. An 11 inch downpour preceded the Walton's to the stream which is seldom known to have a rise.

Arriving at the chosen spot, a couple of days inactivity was necessary, due to the muddy and swollen condition of the stream.

Receding waters however left fishing of the highest order.

Not only fishing, but a story well worth telling.

Fishermen who can return from a trip and tell of catfish and turtles caught on artificial casting bait are of the first water. Even an eel is the victim of a like catch.

The report of an abundance of bass and trout are a life-saver however. Despite the fact that most disconcerting weather fostered the trip, the party put in a full time vacation.

LUMBER PRICES STEADILY MOVE NEAR OLD PEAK

Building Cost Up 20 Per Cent in 12 Months

Lumber prices have increased approximately 20 per cent over the low level of prices since the war. The bottom was reached possible 12 months ago.

Just what the future holds for the prospective home-builder is somewhat perplexing. Whether the slight advance in prices of material will continue or not is uncertain. During the past 30 days there has been little appreciable change in the lumber market, but the gradual rise is still noticeable.

There has been no jump during the rise, but a steady advance in practically all lines of building material.

Some articles have not advanced in proportion to others as in the case of sashes and doors. A bare five per cent marks the increase in these supplies.

Dimension lumber and ship lap which was on the market a year ago at $35.00 is now retailing at about $40.00.

Finished material, flooring, siding and such have taken a $5.00 advance over the $60.00 price of the low period.

Shingles were bought for $5.50 per bale a year ago, but now the customer will pay around $6.00.

Other materials such as brick, tile, cement and concrete have been effected in about the same proportion as lumber.

Builders hardware is probably stationary when compared to the prices of one year ago.

Baby Gets Lost But Remembers Its Phone Number

"Hello, son, what are you doing here?"

"No'fin."

It was the end of a busy day—a usual day, though, for the matron of the Travelers' Aid society at the union station.

She had been outside the station, the day was drawing to a close; the little chap was a boy, and he was perched on the edge of a roomy waiting seat beside the matron's desk.

He looked up at her with his brown baby eyes when she asked him who had sent him there and readily assured her:

"Muv'ver."

And then when she asked him if he knew where he lived, and he had replied in the negative, the thought occurred to the kind matron that possibly the little lad knew his phone number. He quickly lisped a number when she queried, and the little fellow was returned to his home.

"That's just the usual routine of a day's work," the matron smiled when she had narrated the incident.

"The baby didn't know his home address; and all he knew about his parents was that they were just 'muv'ver and dad.' But he did remember that he'd been told to learn his phone number, and when I asked him who taught him to be so clever, he answered:

"'Muv'ver.'"

Police Court Is Idle Saturday

Although the docket of the corporate court is crowded, and there are a number of important city charges to be fought out, the court was idle Saturday because of the city school bond election, which was being held in the courtroom.

It was stated that all cases had been postponed until Monday.

Pa and Ma Burdick Made Adjutants

Pa and Ma Burdick, heads of the Salvation Army work in Wichita Falls have been promoted. They are now Adjutant and Mrs. Floyd O. Burdick, one step up from ensign, the rank they held when first assigned to Wichita Falls.

The promotion occurred two months ago, but there has been no mention made of the fact until now. Neither of the Burdicks happened to think about telling any such a personal thing as their own promotion, and it was not until a reporter stumbled on a letter addressed to "Mrs. Adjutant Burdick" and made inquiry, that the advancement was made known.

The Burdicks have three helpers in the local work. Lieutenant Hicks and Cadet Lancaster are well known to the Wichita Falls folks that come in contact with the army, in it's various activities.

CHEERO! CHAPS TACKLE'S DOWN

25 Per Cent Cut in Fishing Stuff

Local sporting goods dealers report fishing tackle 25 per cent cheaper than last season. Practically throughout the list of tackle is a reduction noticeable. Some of the finer grades of reels have not dropped in price, but the decline noticeable in other supplies bring the general average down a full 25 per cent.

Not only is the decline noticeable in angler's requisites, but in all goods on the market for summer sports. There has been a reduction in the factory prices and the 10 per cent war tax in vogue for the past two years has also been lifted. This tends to lessen the prices still farther.

The golf bug is no longer burdened with watching a kope'k flit away as a ball is sliced into the rough for a possible loss. The dollar balls of last year are selling at an average of 75c.

A new club is not an outlay of the price of the butcher's bill any longer, but new stock permits the purchase without the cash extraction of other days.

Baseball goods from bats to unics are off about 35 per cent, too. Not only is the price lower, but the quality better. Leather goods show an improvement in material over the period effected by war prices.

Shot guns and ammunition have been least affected of any line. Barely 17 per cent has been sliced off there. The prices now ruling are guaranteed until Jan. 1, 1923. Another noticeable feature in the "shooting iron" market is the fact that only high class, standard guns are in demand. The old single barrel is about extinct from the shelf or case. The majority of sales require standard merchandise.

Net supplies, rackets, balls, shoes and all other court supplies are about on an average with those of golf. At least 25 per cent has been knocked off the 1921 price.

Spring and the "old swimmin' hole" find an array of the most attractive bathing suits ever displayed. Tags attached to the nattiest models and patterns are not prohibitive. Flashing colors, both solid and in combinations prevail, with two-piece suits shown in profusion.

Sport clothes, both for men and women have been in greater demand than ever before, merchants report. Golfing togs are gaining in popularity here and extra orders have been necessary to supply the demand.

Looks like a big year for the sport merchants and a far less painful one for the buyer.

SULLIVAN GOES TO NEW ORLEANS

P. H. ("Pat") Sullivan departed late Friday night for New Orleans, where he will meet the body of his brother, D. Sullivan, general superintendent of the Apalachicola & Northern railroad, who was killed in a smash-up at Fort St. Joe, Fla., several days ago.

LUTHERAN PICNIC

A Sunday school picnic for the children of the Lutheran Trinity church will be held Saturday, May 20. All children who wish to enjoy the outing are requested to be at Sunday school today.

SKIES BRIGHTER FOR NEEDY OF WICHITA FALLS

99 Families Cut Off Salvation Army Roll

Want and distress, occasioned by lack of employment, has been reduced about 50 per cent in the past two months, according to the Salvation Army relief work reports, perhaps the best indexes of conditions among classes who make welfare organizations necessary.

At the peak of distressed conditions from Christmas until well into January, there were 199 families on the Salvation Army's list for partial or complete maintenance, the reports of Adjutant Burdick show.

The month of May finds less than 100 families being looked after, either regularly or occasionally.

The gradual resumption of normal conditions in various branches calling for day labor, with the irrigation construction work with its 600 to 700 employes the biggest single item, has been responsible for this improvement, it is stated. In many of the families which the army still has "under its wing," the bread winner of the family, frequently the mother, or an older son or daughter, where there is no father, has some work, and is not wholly dependent outside agencies for support.

Keeps Family Together.

In these instances the army is the link that keeps the family together, providing the little bit extra that is needed to make ends meet. This is frequently such a little bit, not more than a couple of dollars a week sometimes, but it means a great deal to the one making the struggle.

Daily distribution of free bread is continuing.

Bakery owners and managers instituted this co-operation with the Salvation Army in the winter months, when unemployment was a much greater menace, and bad weather and sickness added to the burden. They have kept up their contributions, and since the loaf or two of bread free to the day's supply, will mean ten or twenty cents more to be spent on other necessities, a not unimportant item where the problem of existence is an actual day-to-day struggle, the Salvation army is very glad indeed to accept this gift.

The lightening of the drain on the army's budget for the year, are the result of improved conditions, comes at a very opportune time. The first quarter of the year saw the cash resources drawn upon very heavily, because of the unusually distressing conditions. Economy was practiced as rigidly as possible, and Salvation Army workers are experts at economy from long training, but a dollar will go only so far, even with all the ingenuity in the world behind it. In the next few months, if conditions continue to improve, the local heads expect to economize enough to sort of catch up with their overdrafts.

Warning Against Turning in Ohio At Post Office

Auto drivers who turn in the middle of block on Ohio street in front of the post office will be dealt with severely.

That was the warning issued at police headquarters yesterday morning. The officers complained that drivers have been accustomed to turning their vehicles anywhere in front of the post office, and that in the future this will not be permitted.

It was asserted that numerous persons have been arraigned in the corporate court recently for having made turns in front of the government building, and that they complained to the court that they had never been warned or notified that city ordinances were violated when such acts were committed.

The officers suggested that it is plainly evident that there is no turning place in front of the postoffice, and that vehicles should continue to the nearest corner, and make their turns to the right around the "silent policemen."

ONE OF OUR MOST BEAUTIFUL

This picture was snapped by a Record News reporter who took out a camera to give evidence to the people outside this city that some of the prettiest girls in the world live here. He wrote a story about Wichita's beautiful girls and got a "close-up" of this one—which he had enlarged. Who is she? The reporter didn't get her name.

AUXILIARY WILL SELL POPPIES

Local Unit Expects to Swell Fund

Tuesday, May 16, the American Legion Auxiliary of Wichita Falls will be one year of age, and at the regular monthly business meeting to be held at this time, plans will be made for the Auxiliary's second Poppy Day sale and Memorial Day observance, just as these matters were the first taken up on the first meeting day in 1921. Tuesday's meeting will be held in the Y. W. C. A. restrooms, at 3 p. m.

Saturday, May 27, will be Poppy Day, when Legion and Auxiliary members all over the United States will sell poppies, replicas of those that "blow in Flanders Field," the proceeds to go to the hospital funds of the various states. The Pat Carrigan Post Auxiliary has already started on the Poppy sale, taking advance orders from merchants who will decorate their stores and windows with the poppies for Memorial Day, May 30. In addition Auxiliary members, with their baskets of poppies, will give the public an opportunity of buying a flower to wear in memory of those who died overseas, and helping those who came home, with members missing, or with nerves and minds torn by shell shock, or lungs burned out with gas.

As the Pat Carrigan Post Auxiliary's first year closes, it is interesting to the members, and well wishers to know that the local unit stands at the head of the Texas organizations, as 100 per cent in responses to every call that has been made for help.

Several hundred dollars has been contributed to the hospital fund, which goes to supply items of wearing apparel, and little delicacies of food to the soldiers in the government hospitals in Texas. In addition the unit last summed made and sent 35 pairs of pajamas to the Houston hospital, where the invalids were suffering from the heat, with only flannelette issues pajamas to wear.

No. 1 Throckmorton Good for 60 Barrels

About a mile east of the Gulf's 1900 foot producers on the E. D. Collett, south of the new excitement, the Texhoma Oil and Refining company's No. 1 Throckmorton is estimated good for 50 or 60 barrels in the sand at 1765 feet. There are several dry holes, abandoned some time ago, between this new well, and the south pool producers. The sand is at approximately the same depth as a recently completed well on the Harris lease, in section 6, now the Thomasson and Mallory lease. The sand will be drilled deeper, and given a thorough test it is reported.

MONEY EASIER; CASH TO LEND

Banks Have Coin to Let Go

Your banker who only a few months ago looked like he wanted to hurry on when a customer of borrowing mien appeared, is now a changed man.

In fact he has again become even inviting when discussing a loan, for easier money is now more than a figure of speech, an attempt to kid oneself into believing that business is better—it is an accomplished fact.

Credit To Business Man.

The situation has so much reversed itself that many banking houses have less money out on loans than they would like to have, and they have larger cash reserves than they and their boards want. So there is again plenty of credit.

It is credit for the business man, and the legitimate business, however. The banker wants to loan—but he don't want to make loans like many made in 1919.

It is not speculative loans that he is looking for—it is loans to legitimate business.

And legitimate business is easier on its own account, and is not so badly in need of credits as it was a few months ago when the pressure was being felt. So it is borrowing little.

And the banker for the first time in many, many months has money he would like to lend.

RARE BEAUTIES DRIVE REPORTER TO TYPEWRITER

He Swears They're Darlings, Found in All Parts of City

Wichita Falls girls are the prettiest of all.

This is what one of this paper's writers thinks.

Sent forth to gaze upon the beauties that daily tread the streets, this writer brought back a picture and an article quite sentimental and rather personal, but at the same time it carries the thought. Read it through. It is lightly written, but the intention is serious. Read it then write the editor of the Record News your opinion. Are the girls here as pretty as we say they are? Tell us, if you agree with us, or tell us if you don't.—Editor.

By "Spike" Cooper.

Would that I might change "Spike" to "Shiek" in this gold-laden land of fair maidens.

Can it be the driving sand, blown in fitful gusts as in Saharaland, that bears the magic kiss of beauty which fawns on the cheek of Wichita's fairest?

'Tis easy to think, but hard to say, when one would express an opinion to the effect that the girls in Wichita Falls are more lovely than in any other known where.

That is the unanimous opinion of connoisseurs of beauty, grace and youth. Hailing fresh from a clime where they boast of elegant women, at that.

It is a treat to stand on the corner of Eighth and Indiana and in all rudeness, drink in the beauties of nature, debs, subdebs, flappers and all.

But Wichita is the town of pretty girls. Anywhere you go, everywhere you go, or you don't have to go at all (if you'll stand still they'll come by) they're found. The cafes, the movies, in street cars, on the walks, in automobiles, in fact everywhere there's humanity, then there will be "the Ladies."

Not of Fragile Type.

Their number is surpassed only by their beauty, and their beauty surpassed only by their number. Beauties, not of the pastel type nor the "fragile" kind, but they're the honest-to-goodness variety, unaffected and good to look upon.

Atlanta may boast of southern queens and Hollywood of its stars but an afternoon parade would

Travelers' Aid Runs Real Estate Service Bureau

Real estate agencies are not always searched for in the downtown sections of the busy business street.

The anxious traveler often stops a kindly-faced passerby and queries: "Where is the nearest hostelry, and do you have any idea where I might locate a house for permanent location?"

Such was the question propounded to the matron of the Travelers' Aid desk at the union station recently.

"My husband will follow me presently," the woman who had applied informed the matron. "I just came ahead to straighten out affairs."

Filled with the ready knowledge of the public servant, the matron soon had a local real estate agency on the phone, an engagement was promptly made and a sale followed.

"Of couse we're not engaged in the real estate business, but it is our business to help those who are in need of help, and a stranger ordinarily doesn't know the way up town when they've just arrived here," the matron replied when she was asked if the woman who had approached her had not asked questions which are unusual for the Travelers' Aid to receive.

Wichita Falls Reporter's Thrilling Aerial Trip That Failed to Thrill His Boss

By R. William Archer

"Who wants to take an airplane ride to Fort Worth and get this picture made?"

The "clickety-click-click" of the typewriters in the editorial department came to standstill.

The future "Arthur Brisbanes" craned their necks forward.

It was 2 o'clock Sunday morning; the managing editor's stentorian voice had rung out clear and unmistakable.

"Well—don't all speak at once—the silence seems to be unanimous. Spike, get me a cut of this picture; get it today; I want it back here in less than 12 hours."

Twelve hours later, faithful "Spike"—I've known him ever since he was tall enough to chin a biscuit—returned.

Minus the "breath" he usually displays in certain articles; his collar torn aside and wilted from the excessive heat of the day; his hat in his hand, and his cheeks displaying the rosy red of toil (?) "Spike" dashed hurriedly into the editorial office, rushed up to the managing editor's desk and reported he had failed to get an engraving made of the picture.

Sad, Sad To Relate.

"Unfortunately and inadvertantly —" he began, but he was ruthlessly interrupted with the terse remark:

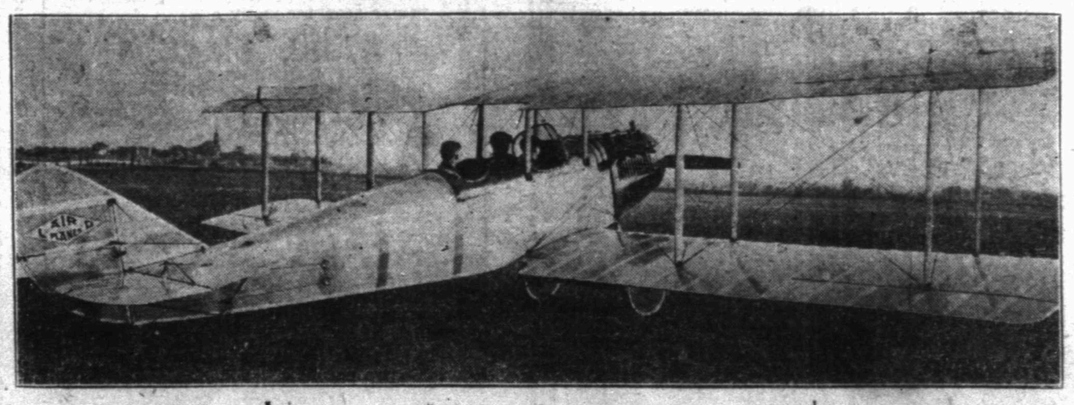

"No explanations necessary; I didn't expect it for a week anyway." Then "Spike" got wise to himself. He cooked up his own private little second journey to Fort Worth.

Some 48 hours after the order had been given on Sunday night, and a day or so after the picture had become antiquated "news," Walter S. Beech, chief pilot for the Laird Airplane company, cranked his atmospheric lizzie, turned on the juice and challenged the air of Call Field.

They were off—it wasn't a horse race, but they were off anyway—the "boss" thinks "Spike" has been "off" ever since—the pilot with his machine and "Spike" with the picture he had been given previously.

Aha! Victory at Last.

Hours later, "Spike" returned, placed a large package and a smaller one on the managing editor's desk and marched triumphantly over to his seat. He was the all-victorious; he should feel the sting of his success, because he had executed the orders of his peer—and he did feel it. He even showed it and talked it. It only required the space of a few minutes to undo the smaller package—it contained the "finish" of a picture the whole world prized. Not only was the picture wanted in Wichita Falls, but the whole nation thirsted for a glimpse of it. For it was none other than one which dealt with the killing of "Bud" Ballew here. Editors in New York had fragitically repeated telegrams making unheard of promises for the picture. Chicago went wild and telephoned for one. Truly it might be said that the world waited while "Spike" went out in quest of a steel engraving of it—that it might be used in Wichita Falls first.

The editor finally untied the last string of the package and threw away the surplus paper binding the tiny thing.

At last the last string and the last piece of wrapping paper had been torn away, and there on the managing editor's desk lay what the engraver had done.

The "boss" looked at it for an instant—no one could hear what he was saying, but he was saying it anyway, for there before him lay a piece of lead that somebody had punched a few dots on—it was a typical typographical misnomer.

Nervous fingers untied the other package.

The picture of a wonderful, beautiful Laird airship—a four column cut, to be explicit, lay on the table there.

Without a doubt it was a work of art. Huge in size, as one may see from the accompanying photo and perfect in its engraving and photographic detail. This was a clear picture. A prominent one. It stood out and said something. It was a marvelous picture of an airship.

And in the airship rode Pilot Beech and our "Spike"—a graphic account of "Spike's" long trip to Cowtown. But who the devil cared about "Spike's" trip. Wichita waited for the smaller cut—and it waited until one could be rushed here from Oklahoma, two days later.

Sons and Daughters Turn Today to Mother and Praises Her

Society Pauses When Tribute Is Paid Here To Greatest of Women

"IF I were hanged on the highest hill,
Mother o' mine, O Mother o' mine,
I know whose love would follow me still,
Mother o' mine, O mother o' mine."

o o o

TODAY is Mothers' Day. Since the signing of the proclamation in the year of 1914 by Woodrow Wilson, the beautiful custom of honoring the mothers of our country has been an annual event, on this the second Sunday of May. Memorial services at the churches, and a display of flags on public buildings are called for in this proclamation, in honor of the worthy occasion.

Many do not know that that idea was conceived by a woman, Miss Anna Jarvis of Philadelphia, president and founder of Mothers' Day International association, who realized the growing lack of consideration for absent mothers among worldly minded, busy people.

Another custom which is as impressive as it is beautiful, in observation of the day, is the wearing of a pink carnation or a rose, for the living mother, and a white one for the mother dead.

o o o

TODAY Wichita Falls sons and daughters, whether they be of tender years or have reached the dignity of graying heads, with sons and daughters of their own, are recognizing Mothers' Day, in common with the millions that make up the citizenship of the United States, where this beautiful custom prevails.

There will be public commemoration of Mother, after the custom of a number of years. Ministers in their pulpits will speak of the greatness of Mother, of her kinship and nearness to God Himself. Sweet-voiced singers will sing of mother love, in words and tones that will carry a tear, for the mothers gone before, or perhaps for the mother who is far away on this—Her Day.

But best of all will be the heart-tribute to Mother, your mother, my mother—the little gift, the spoken word and kiss, the letter or telegram. Better than all the tributes of silver tongue and brilliant pen will be the individual love expression from son and daughter to the one Mother.

CYPHER CLUB TO DANCE WEDNESDAY

The Cypher club will give an informal dance at the Wichita club Wednesday evening when music will be furnished by Saxie Hollsworth and his Harmony Hounds, which will appear here during the week in vaudeville at the Wichita theater. The orchestra is well known especially in the east, where they played a year at the Palais Royal in New York city, and the Cypher club considers that they were exceptionally lucky in securing their services.

Two vaudeville acts will also be given. Members may secure guest cards from the secretary.

BEATS HUBBY

Mrs. Louise Stillman.

(By Central Press.)

CHICAGO, May 13.—Allen Stillman is a husky plumber. He stands just six feet up in the air and looks like Jack Dempsey.

His wife, Mrs. Louise Stillman, is just a wee bit of girl, bashful and demure.

That's why court attaches here almost had heart failure when Stillman walked into court here and asked for a divorce charging that Mrs. Stillman hit, struck, beat and bruised him.

But Mrs. Stillman also had something to say about her husband, big and strong and everything.

She charges that Stillman was like ice—like a block of wood.

WESLEY GIRLS MEET FRIDAY

Election of officers featured the meeting of the Floral Heights Wesley at the all day session held at the church Friday. Mrs. Rhea Howard was elected president; Mrs. J. C. Hopkins, vice president; Mrs. F. C. Elkins, secretary and treasurer, and Mrs. Clyde Tittle, press reporter.

A delightful picnic luncheon was served at noon and a social hour was a feature of the session.

Those present included: Mesdames Rhea Howard, R. C. Prim, Clyde Tittle, F. C. Corbin, W. B. Gutschaw, Loran Taylor, H. R. Hanks, Fred Sehmann, Floyd Billingsley, Wade Gaskin, Mary B. Adams, S. E. Trevathan, J. C. Hopkins, Alexander, W. A. McGee, Harvey McCarty, Leon Deaton, Charles Crewell, Earl Buffner, A. W. Simmons, O. W. Harvey, F. G. Elkins, Charles Green and Lester Jones.

COMUS CLUB TO OPEN SEASON

Opening the summer social season, the Comus club will give a "crystal" ball at Lake Wichita pavilion Friday evening. Special features of the occasion will be new dance novelties arranged by the Billy Bussard orchestra and a series of large crystal mirrors revealing blue and green spot lights in the path of the dancers.

Members may secure guest cards upon aplication to either of the club officers.

VOLUNTEER CLASS GIVES SHOWER.

Members of the Volunteer class of the Central Presbyterian church enjoyed a delightful party at the home of the teacher, Mrs. D. B. Read Friday afternoon and presented a shower of beautiful articles to two of the members, Misses Frances and Ada Gullatt, who are also members of the 1922 graduating class of the high school.

The articles were daintly arranged in a basket trimmed in the pink and green, the class colors.

Reminiscences of school days by the guests interspersed with music furnished the diversion, after which kodak pictures were taken on the lawn.

At a late hour, strawberry cream and angel food cake was served. The hostess was assisted in serving by mothers of the honor guests, Mesdames Gullatt and Jones.

* * *

HOMECRAFT CLUB GIVES DINNER.

Thursday, members of the Homecraft club spent a pleasant day at the home of Mrs. G. T. Drinkard and served a tureen dinner at the noon hour. The menu consisted of fried chicken and gravy, cinnamon rolls, nut bread, new creamed potatoes, combination salad, olives, coffee, ice tea, sherbet and cake. The table was prettily decorated for the occasion, a bowl of sweet peas forming the centerpiece.

In the afternoon, conversational, political discussion, kodaking "42" and bridge furnished the diversion. Sherbet and cake was served to Mesdames Frank G. Lewis, J. L. Fox, A. W. West, O. P. Marcle, T. Kelly, D. B. Sartin, E. A. McMurdy, W. H. Felder, Fred Goss, C. L. Baum, W. P. Wilson and Miss Gayle Gibbens.

Wilbarger Farmers Looking Toward Bright Crop Prospects

SOME COTTON IS REPLANTED

Vernon Area Escapes Heavy Damage

Special to the Record News.

VERNON, Texas, May 13.—With growing crops in evidence everywhere in the county, with farmers turning the soil and hogs on pasture, summer appears in near proximity in Wilbarger agricultural circles. There is intense activity at present in plowing and planting of cotton, and few farmers can be found idle on Vernon streets.

A super-abundance of rain recently has been the cause of much replanting of cotton and some corn, but there is on the whole a decided feeling of gratification in local farming circles over the fine season provided for the ground. Where land is dry enough most farmers are plowing, and sandy land is at this time providing the best area for cultivation.

Nearly all corn is up, and some is almost knee high. Some cotton, too, is up but the rain has given it a yellowish tinge. Wheat is looking fairly good, and has not suffered from an abundance of rain. In sections where farmers broke their land to the smallest depth, wheat is appearing to best advantage.

Alfalfa over the county is looking fine. The first crop will soon be ready for cutting, and there is an abundance of this product everywhere.

CLEBURNE TOLD OF MARRS' PLAN

Candidate in Favor of Strict Economy

Special to the Record News.

CLEBURNE, Texas, May 13.—S. M. N. Marrs opened his candidacy for the office of State Superintendent of Public Instruction here today.

Addressing a large audience of old friends who knew him when he was in charge of the city schools of the city he said in part:

"In this time when our people are burdened with high taxes I wish to assure my friends that I shall advocate the strictest economy consistent with efficient service—not only in the department of education, but also in all of the state's higher institutions of learning as well as in the elementary and secondary schools.

Change of Text Books.

"There should be no unnecessary changes of text books since such changes mean an extravagant use of the state's money and at the same time a reduction of the state per capita apportionment.

"Whatever may be your opinion as to the wisdom of furnishing free text books, that question has been settled in the good old democratic way by the majority of the voters incorporating it into the state constitution. The administration recognizes that it has placed an extra burden upon the county superintendents and teachers and the salaries of county superintendents have been increased 25 to 66 2-3 per cent since the text book law went into effect; in addition provision has been made for office assistants.

"I was an original advocate of uniform text books. When my friends among the leading school men of the state were opposing this legislation I stood firmly for it and time has proved the wisdom of my judgment.

"I am in favor of the prompt payment of teachers' salaries. My experience in the office leads me to believe that plans may be devised by the enactment of remedial legislation whereby the schools may be financed in such a manner as to enable teachers to be paid warrants at the end of each month which may be cashed at face value.

"Sound democratic principles of government are opposed to centralization of power at Austin but the other extreme of local self-government and local support in the small district prevents the co-ordination and development of an efficient public school system which will distribute the burdens of taxation and equalize the opportunities of the children. I am in favor of giving more importance to the county as a compromise unit and investing the county boards of trustees with more authority and responsibility in the administration of school affairs.

"No system of education can be complete that does not provide for higher education. While the common schools have been the bulwark of the nation in that they have contributed to a general diffusion of knowledge and while we must make liberal provisions for their support we must not lose sight of the fact that if we rise above mediocrity we must also provide liberally for the support of those institutions which in their search for truth in the various fields of human endeavor are performing an invaluable service to our modern civilization.

"While I believe in secondary and higher education we must not attempt to promote these phases at the expense of elementary education. Poorly paid, poorly equipped teachers and crowded rooms in primary and elementary schools ill prepare students for advanced work. We should not attempt to build upon a weak foundation. Too frequently communities attempt to meet requirements for standard high schools to the neglect of the large number of children in the elementary grades."

EX-STUDENTS REVIEW DAYS

Henrietta Girls in Novel Party

Special to The Record News.

HENRIETTA, May 13. — The Mamie Wright Walker chapter of ex-C. I. A. students entertained with a very interesting party Thursday evening at the home of Miss Allie May Marberry honoring the girls of the senior class of the local high school. The house was beautiful in a profusion of red and white rosebuds, red and white being the collegecolors. A very clever program featuring the red letter days of C. I. A. was given, each number being announced by Mrs. Frank Bunting in appropriate rhyme. The program follows:

The Big Little Sister "Prom" enacted by Misses Lois Mangum and Dorothy Dale.

"Thanksgiving Day," portrayed by Misses Mildred and Miriam Holly dressed as turkeys and giving the Clap Dan folk dance.

Halloween was represented by Miss Maurice Mount; in costume and singing a Halloween song.

Valentine day was represented by Miss Virginia Edwards in costume with a solo dance.

The "22" of February was represented by Misses Mangum and Dale as George and Martha Washington doing a minuet.

The next day portrayed was April Fools' day, which is a gala day at C. I. A. It is the day on which the present president made his advent into the school. It was represented by little Elbert Dodd in overalls and large hat carrying a tin can from which each guest received an imitation weine which contained a verse telling the guests why this day was celebrated. After this, a medley of college songs was rendered by Misses Mangum and Dale with Miss Kathryn Hall at the piano. Then Miss Ruth Palmer gave an interesting talk to the girls on C. I. A. school life. Delightful refreshments in red and white were served.

The guests of the club were Misses Anna Beth Herd, Mamie McConnell, Louise Allen, Catou Graham, Theeon Frank, Reyalon Smith, Pearl Reedy, Belle Satterfield and Martha Edwards

Salvation Army In Austin Storm

Special to the Record News.

BURKBURNETT, May 13.—Captain Ellis, with his family and local workers, of the Burkburnett Salvation Army Post, returned Frida, from their overland trip to San Antonio. They attended the Annual Congress of Young People from the Southwestern division of the Salvation Army. They report a splendid session in which the three candidates from this post were accepted. They were Lester Ballard, Romena Ballard and C. Bancall.

The party barely escaped the storm at Austin and saw the St. Edwards' college building destroyed. A child's toy pink Teddy bear, with a large wooden spear thrust its throat, was picked up by the party some distance from the scene of the cyclone, and brought to Burkburnett as a souvenir of the disaster.

NEW BURK FIRM IS OPEN FOR BUSINESS

Special to the Record News.

BURKBURNETT, May 13.—Among the new firms in the business circles, the M. and K. Cash grocery announce their opening Saturday morning, 315 East Main street. The principals of the new business are W. D. Kidd, and G. Earl McCreary, both former employes of the R. H. Henry company in this city for the past several years.

MISS FINLEY IS BURK HONOREE

She Will Be One of June Brides

Special to the Record News.

BURKBURNETT, Texas, May 14.—On Monday afternoon at 4 o'clock the pretty home of Mrs. W. H. Kerby and Mrs. Horley Snyder on East 2nd street, was the center of a happy gathering of Burkburnett ladies at the special invitation of Mrs. Ross White in honor of Miss Pauline Finley, whose marriage to B. H. Lamb of this city, is announced to take place on June 1st, in Burleson, Texas, the home of the bride-elect.

The color scheme was in white and gold, artistically carried throughout the entertaining hours, and in the dainty service of brick cream, cake and ice-tea at the concluding hour.

The program of amusement opened with a contest of selecting and packing the bride's club bag, which afforded much merriment and the contest honors fell to Mrs. Chas Clisbee, who graciously, in turn, presented the pretty household souvenir to the bridal honoree.

The miscellaneous shower for Miss Finley was the feature of the occasion, and was presented by the hostess in a most unique manner. A big golden umbrella, open and upside down, was suspended over the dining table, filled to overflowing with many a dainty package, each one tied with a golden thread. The pretty bride-elect was bidden to clip the golden cords, and behold the beautiful tokens of loving interest and good wishes from her many friends assembled.

As a bit of practical training from the house-wife-to-be, a concluding contest was made, recognizing by touch and smell ten articles of food staples, used in the kitchen each day. Several ladies tied at 100 per cent and the prizes were awarded, like the first winner, the recipients added the dainty gifts to the bridal collection.

At the parting hour, the guests thanked Mrs. White and her assisting friends for a delightful social occasion.

NAZIMOVA IS HERE MONDAY

"Doll's House" Plays At Strand

When Henrik Ibsen wrote the words, "The sound of a door is heard from below," as the finishing touch to his now famous drama, "A Doll's House," he made a phrase the echo of which has been heard round the world, and laid the corner-stone of an idea that has developed in the last forty-odd years, into the present day status of woman in the home, in the business world, in politics and in the nation's life in general.

For several years the startlingly realistic portrayal of Nora, the doll-wife, as presented on the stage by Nazimova, the noted Russian actress, has made this remarkable character more and more familiar to the American public. Nazimova has won her greatest distinction in this role, and no one ever has given a more clear-cut impression than she of the petted and spoiled young wife, dependent on her husband's every whim and wish till the great crisis comes, and she suddenly awakens to the right of every woman to create her own destiny, to develop her own personality, and to live her own life along lines her conscience may dictate.

And now Nazimova has transferred this characterization to the motion picture film, and her screen version of this great Ibsen drama, produced by her own company for United Artists Corporation, will be seen at the Strand theater Monday, Tuesday and Wednesday.

So consummate an actress is Nazimova and so perfect her understanding and interpretation of the role of the doll wife's subjection and ultimate revolt against the standards under which woman existed at the time Ibsen wrote "A Doll's House," that the character has lost none of its realism, none of its appealing qualities in its transfer to the film.

Nazimova and her director, Chas. Bryant, have adhered exceptionally close to the drama as presented on the speaking stage, and every detail of characterization of the two outstanding characters, Helmer Torvald and Nora, the doll wife is kept intact through the superb artistry of Nazimova and her leading support, Alan Hale.

PARE—

CONTINUED FROM P. 1

justify the prediction that a thousand "Ziefeld Follies" are in town.

There's the girl of the butterfly life, yet she does not boast of her luxury. Behind a counter, the one who must shift for herself does not present the type worn and wearied with toil. And the flappers, darting in and out of the movies and sweet shops—truly flappers, but art of that mammoth showing of which only Wichita can boast.

All carefree and equal they are. A ringing laugh, the kind that tells of happy youth may come from any of them. Natural both in appearance and intent, the fairest of southern beauties know no other home than Wichita Falls.

Truly said by those who have journeyed far and near, beauty and grace abound in profusion as nowhere else.

Wichita Falls is a paradise for the unincumbered man. Far be it from "Spike" to pose as critic, but the eye is the guide and opinion a privilege.

This realization was not so completely confirmed until the managing editor sent for a story on the "Rodeo Dance" at the Kemp hotel last Wednesday night. Seeing is believing. There could not possibly be a more tempting sight to the hungry eye of an ambitious sport ed. than that array of beautiful girls extending theirs hospitality to the visitors there. 'Twas hard to tear away from that fascinating picture and return to the editorial room. Had the m. e. known the circumstances, that one bit of copy would never have been missed off the "hook." But he didn't and never will know that "aching void" which surrounded that "I hate to leave you" feeling.

Poor Kid!

There is nothing more disconcerting that to amble down the "main drag" perspiring in search of a feature story, and see high-powered cars idling along at the tough and guiding hand of some "Cleo."

It's a funny thing that these "honey bounds" can be the only lucky guys. While a poor sport ed. pours it on an Underwood word mill, these "Packard pups" and "Caddie Clowns" get by with their line. An hours worth of "air catching" would be worth more in satisfaction than three good stories on the "copy hook." Yet "Spike" persuser of box scores and compiler of "Ups and Downs" on the sport page is forbidden the opportunity of even standing on a corner to "give the girlies a treat." And yet still further is all this merely opinion. It is one on the inside looking out.

Miss Sheba herself drove past the office a couple of days ago and waved a smile at the forlorn "Spike." A pity it is that if for no other reason that charity, this exile might not be lifted.

The nightly grind goes on. Over the sport page deadline and on to the desk, while the star reporter basks in the admiration of some Miss God.

But again to the Wichita fairest they're here, both in quantity and quality. Even one of New York's own admitted last week that the most noticeable feature in connection with a visit here was the girls.

"Pretty girls, prettier girls and more of them than any other known place" was the expression of the Gotham visitor.

And that same visitor expressed the unutterable speech of the lonely, unknown "Spike."

NAZIMOVA STRAND STAR

Nazimova, Polish queen of filmdom, will be seen here Monday at the Strand in "A Doll's House." This is said to be one of Nazimova's best pictures.

Look Out For the Fellow Known As The He-Man Of the Waves Who Shows Strenuous Life of Sea In All Actions

Hobart Bosworth is the he-man of the seas. For more than two years now his association with motion pictures has been in the role of rugged, physical manhood born of the brine.

Questioned recently as to why he adhered to this type of character, the star-producer answered that he preferred such parts because they came to him automatically.

"Why shouldn't I play those parts?" he asked. "If the art of acting is to be realistic and an actor is to give an empersonation that rings true to life it's only logical for me to have such roles.

A scrutiny of this actor who has made his Captain Kraft and Nels Nelson vivid figures of life, confirms his theory. Bosworth is a six-foot man of massive build who tops the scales somewhere around the 200 mark. His eyes are a soft blue. His hair is blonde. The combination is apt to deceive one into believing that he is an easy going gentleman, perhaps of the retired country squire class.

Nothing could be more erroneous. Such a statement should not be taken to mean that Bosworth is hard boiled or calloused. But it does mean that he is anything but the flabby man of leisure and easy going ways that authors have usually associated with blonde hair and light bleu eyes.

Both by physique and training he is brilliantly equipped for the characters he has assigned to himself. Prior to his advent in the motion picture field, Bosworth spent many years on the sea. He has ranched, boxed, broken in wild ponies and hunted whales in the Behring sea. He is an expert rider, boxer, wrestler and swimmer.

His is the stern, unrelenting appearance of the Viking sea kings who first wrested the dominion of the waters for commerce and warfare. The type of the Viking sea captain, often brutal and domineering through force of circumstances, is one that Bosworth typifies ideally through his able acting.

It is such a role that he brings to the screen in "The Sea Lion," which comes to the Empress Monday, his latest production to be distributed through Associated First National Pictures, Inc. In this picture Bosworth is cast as Nels Nelson, captain of a whaling cruiser, whose reputation is as notorious and as feared as a cobra's bite. The tyrant of the sea, nursing an old wrong, rules his men with an iron hand until the moment of his great awakening.

FEATURE SHOW FOR OLYMPIC

Drama of Interest Starts Monday

"The Child Thou Gavest Me" the Perry N. Vekroff story which will be shown at the Olympic theater for three days, starting Monday, sets forth in a logical and interesting manner the complications that arise from a marriage solemnized without the groom knowing that his bride has a child. The girl herself does not know that the child is still alive until after the wedding, and then, for sufficient reason, she refuses to reveal the identity of its father.

Thus, before the echo of the wedding march has died out, the couple are estranged, but are compelled to live in the same house. The man is filled with antipathy for his wife's son and, feeling that he has been tricked and cheated, devotes his life to a search for the father of the child.

It is an obsession with him that casts suspicion upon every man who shows the slightest friendship for his wife. In a jealous rage he fires upon his best friend one night, only to learn later the real identity of the object of his search—a revelation that fully vindicates his wife and brings him to realize how unjust has been his treatment of her. The friend's wound proves to be slight, and the story ends in reconciliation and happiness.

The climax is a startingly novel and original ending. There is a shock to both husband and wife when enlightenment comes, making a dramatic situation of uncommon force and power.

"The Child Thou Gavest Me" was produced by John M. Stahl for Associated First National Pictures, Inc. It is the first to be produced by this unit.

A sterling cast interprets the story including such accomplished actors and actresses as Barbara Castleton, William Desmond, Lewis Stone, Adele Farrington, Winter Hall and little Richard "Itchie" Headrick, who is the most wonderful child actor in the motion picture business.

FILM VILLAGE BUILT TO STAY

Peacock Alley Shot In Real Town

A tiny Norman village stands at Forest Hills, Long Island. It was built for Mae Murray's first independent production, "Peacock Alley," a Metro release presented by Robert Z. Leonard, which shows at the Gem Theater Friday. Houses simulating the old peasant buildings in northwestern France were erected along a road, which crosses a small stream. It was necessary to cut a road through a hill, pave the road and erect a small bridge for this location.

Each house has its own courtyard, surrounded by a high cement wall, topped with French tiles. There are also the broken glass bottles on the tops of the walls; the sort of bottles that make a memorable impression upon American soldiers who attempted to climb over walls in France. It was impossible to obtain a sufficient number of native farm implements and vehicles for this scene, and they were built by Frenchmen in New York city. The village was designed by Charles Cadwallader, artist and architect, who is art director for Tiffany productions. Mr. Cadwallader designed many of the scenes in "Sentimental Tommy" and other well known screen productions.

"Peacock Alley" concerns the adventures of a French girl who leaves her home in Normandy and becomes a sensational success in Paris as a dancer. The photo-drama is by Edmund Goulding, based on a story by Ouida Bergere. Robert Z. Leonard directed the picture; the photography is by Oliver T. Marsh and the subtitles by Frederic and Fanny Hatton.

No Change in Fowlkes Area

There is no change reported in operations in the Fowlkes district. The Gulf Production company and the Humble Oil and Refining company are reported completing wells in the 800 foot sand, and the Texhoma Oil and Refining company's No. 3 Dake is drilling around 600 feet.

The Gulf's No. 1 T. W. Roberts, lease A is reported drilling around 1810 feet in a hard lime.

Other drilling in progress includes the T. F. Hunter-Monra Marie No. 3, Roberts on the 600 foot sand, the Sooner Oil company No. 2 Roberts, on the sand, and two tests drilling of the Magnolia on the Duke.

Southwest of Fowlkes, about a mile and a half, the Hobbs interests No. 3 Douglas is reported a location. This is in the 1700 foot pool opened up last fall by the wells of the Gloria Oil company and Sheegog and Fisher.

CHARLES RAY'S COMING

Charles Ray's to be here Thursday. The star who has made such a hit in rural roles will be at the Empress Thursday in "A Midnight Bell." He will play with Doris Pawn, shown with him in this picture.

KID STAR

"The Child Thou Gavest Me" is the feature picture opening at the Olympic Monday to Wednesday. This little girl, hardly more than a babe, has a very gripping part in the picture.

Musical Troup to Appear Thursday

Lovers of good music and high grade entertainment have a rare treat in store for them next Thursday, when they will have opportunity to hear the Metropolitan Entertainers at the Olympic theater.

The manager of the Olympic was able to secure the services of this popular amusement for one day only. The Metropolitan Entertainers enjoy favorable press reports throughout this country as well as most of Europe. It is expected their local appearance will prove one of the "high lights" in the season's theatrical calendar.

MAJESTIC HAS BIG PROGRAM

William Farnum to Be Seen Monday

The Majestic theater will offer three of the best pictures this week that it has been their privilege to offer in a single week.

Starting Monday for two days, William Farnum, a great favorite in Wichita Falls, will be seen in Rex Beach's story "The Spoilers" and has an all-star cast of players in support including Kathlyn Williams, Wheeler Oakman, Bessie Eyton and other favorites.

This picture follows very closely after the novel by Rex Beach and was directed under the personal supervision of Mr. Beach. This picture has one scene which is very much out of the ordinary. It shows a real fight. The characters who were supposed to pull this fight, really got mad, and had a real fight. The camera man got it all.

Wednesday and Thursday comes William Desmond in "They're Off." This is a fast moving western comedy drama, full of action and beautiful scenery. On the same program is another two reel century comedy "Dumb Bell" which have proven popular.

Friday and Saturday, Frank Mayo in his latest western feature "Tracked to Earth." This has proven to be the most popular picture that Frank Mayo has ever made. In nearly every place it has been shown it has been held over for longer runs. Also on Friday will be shown for one day only "Tarzan."

Saturday's bill will be shown in connection with "Tracked to Earth" an extra funny two reel comedy, "Italian Love."

Mrs. Hardy is now furnishing the music on the organ both afternoon and night.

MARMON CUTS PRICES DOWN

Means Cut of 34 Per Cent

Announcement is made of a reduction in the list prices of Marmon automobiles from the office of Nordyke & Marmon Co., Indianapolis.

The reduction, effective May 1, 1922, means a cut of approximately $4.5 per cent, or an average of about $2,000 for the various body styles from the prices that prevailed a year ago, May 1, 1921. In the space of a year, the price of the seven-passenger touring car, for example, has been reduced from $5,000 to $3,185, a total of $1,815.

The new price of the touring car is $3,185, an immediate reduction of $515. The new prices on the complete line of body styles are as follows:

Seven-passenger touring, $3,185; four-passenger touring, $3,185; four-passenger roadster, $3,185; two-passenger speedster, $3,385; four passenger speedster, $3,435; four-passenger coupe, $3,985; seven-passenger sedan, $4,385; four-passenger sedan, $4,385; seven-passenger Suburban, $4,685; limousine, $4,685; town car, $4,685.

Wood wheels are now standard on all cars in the Marmon line. Wire wheels, shock absorbers and motometer are $190 additional.

Frits Motor company are Marmon dealers in Wichita Falls. Manager D. L. Fritz reports good sales on Marmons since the reduction became effective.

BLOW-OUTS By Cold Patch

Federal Tires are now housed in a new home. No, your wrong brother, Manager Leslie of the Auto Tire company, still handles them and is as strong for Federals as ever, but Leslies' place has been turned wrong side out for the last few weeks until it looks like a new location. Plate glass sure makes a world of difference and the Auto Tire now boasts as nice a home as you will find anywhere. Leslie says he is selling lots of Federals these days and the future outlook is good.

Mr. Maupin of the Wichita Falls Battery company, says he is receiving lots of inquiries about the new Willard Radio Batteries and selling all of them he can get hold of. The factories are way behind on their orders for the radio battery due to the present demand of amateur operators. Eastern cities have had the craze for several months and Mr. Maupin says Wichita Falls bids fair to rival any of them in the number of instruments and equipment now being installed.

Federal Tires are now housed in a new home. No, brother, you are all wrong. Manager Leslie of the Auto Tire company is still as strong for the Federal as ever. Leslie has turned his place wrong side out the last few weeks, put in new plate glass along the sides, painted the office white and says the Federal is making new friends every day now and he is expecting a big play on them.

Joe Zihlman, smiling Kelly-Springfield dealer, says a certain competitor of his is so strong for Kelly's that he even uses a Kant-slip cord as an illustration in his advertising. Joe says he can't blame the tire man for admiring the style and shape of Miss "Lotta Miles."

E. B. Ebner of the Overland Motors company, says the Overland isn't a hard car to sell when you can get them, but right now they are about as hard to get as a loan on oil stock from a bank. The factory is now about 1,200 carloads behind in their production and can't promise normal shipments until June 1. However the car scouts are now out and Mr. Ebner says he has managed to get hold of four in San Angelo and one in Oklahoma City.

Henry Hund is receiving visitors at his new filling station, corner of Eighth and Lamar. Henry is proud of the place and has a right to be. It's big town stuff and a decided improvement on the structure that formerly graced that corner. Henry says he is getting his share of the business there, too.

Lloyd Weaver company is showing the new Hudson Motor at their place this week. Lloyd says it is a revelation to even Hudson owners themselves. The new motor is practically noiseless and is said to be an improvement over the old.

Lloyd Weaver company has a good week and delivered several new Hudson and Essex cars, among them a new seven-passenger Hudson to D. A. Coombs, a speedster to L. M. Fisher, an Essex to G. C. Catterice of Electra and a five-passenger Essex to John O'Neil of Burkburnett.

W. F. Stout of Akron, Ohio, factory representative of the Goodyear rubber company, visited C. L. Randle, local Goodyear dealer, last week. Mr. Stout came in the interest of the new tire Goodyear is putting on the market and addressed a big gathering of Goodyear dealers at the Kemp. The new tire will be placed on the market next month and according to Mr. Randle, will sell at about 20 per cent less than the two cured Goodyear now being sold. The new tire is a single cured tire.

James King of the King & Weaver company, is in Tipton, Okla., this week on business.

King & Weaver report two sales this week. A Nash Six sport model to J. C. Searle of Iowa Park and Nash Four touring to E. O. Albert of the Gate City Grocery company.

Leslie Stringer of the Nolen-Stringer company, has been out in the plains country for the last week. Charlie Nolen has been running the place alone during Leslie's absence. Charlie says with selling automobiles and being end man in the Shrine minstrel nights, he has had a full week of it.

Al Booth sojourned in San Angelo for a few days last week, on the trail of some new Overlands.

Mr. Maupin of the Wichita Battery company, says he is receiving numerous inquiries about the new Radio battery the Willard people are making. His only difficulty, he asserts, is to get the batteries. With the big demand for radio equipment through the East, the various factories are working to capacity to fill the many orders they are now receiving.

PASSION PLAY IS ON

Anton Lang, the Christus, working in his pattern shop.

The 28th decennial celebration of the Passion Play at Oberammergau is now under way. The first performance was given before a select audience invited for the occasion. Anton Lang again is taking the role of "Christ," and Martha Velt is the new "Mary."

Southwest Highway Trail is Routed Through Wichita Falls From Corpus Christi Direct to Oklahoma Towns

At a meeting in Coleman, Texas, last week, the tentative organization of the Southwest Highway Trail was perfected. A large number of good roads boosters from various parts of the state attended and assisted in designating the routes over which the trail will gover. The proposed route adopted at the meeting lies over state highways the entire distance from Corpus Christi through Wichita Falls and on to Renfrow, Oklahoma. Many improvements have been made along the highways, the delegates stated, but there still remain stretches here and there that must be connected up. It will be the purpose of the new organization to devote its time and energy to helping those communities that desire better roads, to attain that end.

One unique feature of the new association is that there will be no membership fees of any kind attached. It will be composed of prominent good road advocates who are already well known for their activities in this direction and membership will be strictly honorary.

The new route as planned will mean a great saving in milage from northern Oklahoma to San Antonio and Corpus Christi. Beginning at Renfrow, just a few miles from Caldwell, Kansas, the route runs through Medford, Enid, Kingfisher, El Reno, Chickasha, Anadarko, Lawton, Randlett and crosses the Red river into Burkburnett, then Wichita Falls, on to Archer City, Olney, Throckmorton, Albany, Cisco, Eastland, Coleman, Sanburg, Boerne, San Antonio, Karnes City, Beeville, Sinton and Corpus Christi.

WHITE TRUCKS PROVE ABILITY

New York City to Have Big Fleet

"In a request for bids from several leading national truck manufacturers, the city of New York recently chose the White truck," says E. B. Ebner, manager of the Overland Motors company and local White truck dealer.

The purchase called for 210 five-ton White trucks, only manufacturers who could produce proof that they had at least 500 five-ton trucks in successful operation for five years or more, were permitted to bid. This provision eliminated every other manufacturer with the exception of one, and the White company received the order.

Through many different and varied tests the White has shown its dependability, especially in the oil fields where a truck is called upon to show its "stuff," has it done so. We are expecting a big business in White trucks and are making a drive for the oil field business. Renewal of activity in the Electra field will mean a demand for trucks that are equal to the oil field work, and in the White we know we have a truck that meets these qualifications. We have added an additional stock of parts and placed orders for future White deliveries, so as to be assured of getting trucks should a shortage occur. Our truck department is now complete and every salesman keyed with the idea of getting the business.

KELLY'S HAVE NEW SYSTEM

Change Benefits All Local Dealers

The recent move made by the Kelly-Springfield Tire company in consolidating its general offices in the new building at 250 West 57th street, New York, is indicative of more than merely an effort to organize more efficiently the executive branchof its large business.

The truly interesting and significant feature of the re-organization of office arrangements is the fact that the New York branch has been moved to the company's warehouse at 535 West 57th street, a step which is really equivalent to giving up the branch altogether, since it has now no display rooms, sales counters or any of the other appurtenances of the usual tire store.

"For many years the Kelly company in common with other large tire companies, maintained handsome and attractive showrooms. The Kelly company, however, realised that with the stabilizing of the industry the maintenance of these expensive establishments was a relic of the prosperous days of a rapidly growing industry rather than an economic necessity for a concern manufacturing articles that have now become almost staple products.

With the discontinuance of all retail sales—a step which was taken to protect the dealer—the factory branch was deemed an unnecessary expense which only added to the overhead; in cutting out this expense in all cities, which the company intends to do as soon as practicable, a considerable saving will be effected, and it was partly in anticipation of this saving in operating costs that the prices of Kelly products were recently brought down to a competitive basis.

The company intends to establish warehouses in various centers of distribution where railroad facilities are best suited to give prompt service to its dealers, and where it now maintains branches these will be supplanted by offices, which in many cases will be in the warehouses themselves.

There seems to be good reason to believe that this move of the Kelly company in being the first to discontinue its branch in the largest city of the country may forecast the attitude of other large tire companies with respect to the future conduct of the industry in an endeavor to bring the tire business to the same point of economic perfection as that which marks the older lines of trade.

SPARE TIRE RULES

Two good rules to follow with regard to spare tires, says the United States Tire company, are to keep them covered so that they will not be subjected to sunlight, and to use each spare for a day or two every month. Sunlight has a most harmful effect on rubber, whether the weather be hot or cold. Using the spare occasionally lengthens its life for some reason that the scientists have considerable difficulty in explaining.

Spring Sales Are Good in Wichita

Otto Somers of the Somers Spring company, 608 Indiana, says the spring business is good these days. Mr. Somers is receiving orders from various dealers and garages throughout this section, parts of Oklahoma and even from Dallas and Fort Worth.

"A certain concern in Mexia sent to Dallas the other day for a spring they needed right away. They didn't have it in Dallas but suggested that the oil man try Fort Worth. Going to Fort Worth he met the same response. As a last resort he came to Wichita Falls. We sold him the spring," says Mr. Somers.

"This is the kind of business we are out after," Mr. Somers says, "and although it is going to take time we intend that every automobile owner shall become acquainted with the fact that in Wichita Falls they can get any spring they want, and for any make of car."

They are expecting a car load of springs soon and upon its arrival, expect to have the largest stock of springs in this section or anywhere in the state, according to the manager.

DRIVE CAR TO BEST JUDGE IT

That's What Oakland Man Urges

How should an automobilist judge a car today?

"Get behind it and drive it," is the answer given by C. J. Nephler, general sales manager of the Oakland Motor Car company.

Mr. Nephler sums up the reasons for this answer as follows:

"The public is accustomed to judge an automobile too much today by hearsay. Some of these opinions reflect an old judgment on a car and do not reflect the judgment that would be made on the car if the prospective purchaser actually got behind the car today and judged for himself.

"Automobile shows have been developed for just this purpose—to keep the public informed as to the developments of each make of car. Each manufacturer makes changes, additions, and improvements in his car—some more, some less. The problem is for the automobilist himself to decide for himself just how much "more automobile" each manufacturer is giving to the public each year.

"This can be decided in but one way—ride in the car. After all, how the car rides is the most important thing. Has it a feel of life, of power? Does it accelerate quickly? Is the mechanism easy to handle? Is the car comfortable to ride in? Will it stand the gaff of rough travel?

"It is the only test of a car today. For after all, a motorist's judgment of a car after he has ridden in it, is apt to pretty thoroughly reflect the quality of the car."

GENERAL TIRES GIVE MILEAGE

Dixie Service Cites Home Users

Pat Jarratt of the Dixie Tire Service company says the General tire is making lots of friends for his company.

"The average mileage of General tires, based upon observation of local General users, is 15,000 miles, which is practically twice that of many other standard tires," he says.

"For instance, to cite local users, Nafziger Baking company have averaged a mileage of 20,000 miles on three General tires used on their trucks here. The tires are still giving service. C. W. Reid has four Generals on his Pierce Arrow that have been in use for over two years. Among our other satisfied users are: Blair-Hughes Grocery company, James Construction Gin company, Meskle-Lunn Undertaking company, Peoples Ice company and the Coca Cola Bottling works. Every one of these concerns, and many others not mentioned, are enthusiastic General users. Motorists are strong for the General because they know the General does give real service," added Mr. Jarratt.

Since taking over the distribution for General tires in this district, Mr. Jarratt reports excellent sales and a growing demand for this tire. Associated with Mr. Jarratt in the company are Jack Hale and P. G. Putty. All three members of the firm are well known, having formerly operated the W. W. company at their present location.

OLDSMOBILE TO GAIN IN 1922

Victory Motors to Offer Service

"If by taking the first three months as a forecast, 1922 should see general business back to normal, according to S. O. Brown, general manager of the Victory Motor company.

The public has lost none of its interest in or its enthusiasm for motor cars. It is, however, highly critical, but eminently fair in its judgment.

This attitude has brought the Oldsmobile squarely into the limelight. It could hardly be otherwise, for when any one makes a serious study of comparative values, it becomes perfectly apparent that each and every Oldsmobile model offers more car for the money than any other car of its general type. The Oldsmobile is fortunate in having a wide range of models in different price classes that makes its appeal to a great variety of purchasers, starting with the four cylinder model equipped with the roadster and touring bodies in the open car and the coupe and sedan in the closed cars.

Service Big Factor.

"The Victory Motor company realizes this coming year, more than ever before, is going to be a big factor in the sale of automobiles, are giving particular attention to securing the best class of mechanics; men who know how to turn out good work, and in the shortest possible time.

"The combination of a low shop-rate, competent mechanics, and high grade product is becoming more and more recognized by the purchasing public as a combination that is hard to beat. The number of new purchasers who are being daily added to the list of satisfied Oldsmobile owners is a basis for predicting a full measure of success to the Oldsmobile for the year 1922."

Supply Dealer Very Optimistic

Archenhold Automobile Supply company, of Waco, who recently opened a branch house at 819 Tenth street, report they are more than pleased with the outlook in Wichita Falls and the surrounding trade territories. Mr. Parks, local sales manager, asserts that his crew of salesmen now on the road, are sending in large orders and that the new enterprise is getting off to a flying start.

While the Wichita Falls house is a branch of the Waco concern, Mr. Parks says that they buy their stocks direct from the various factories, all shipments coming direct to Wichita Falls. The local concern is operated independent of the Waco house.

"We are wholesalers only, and our coming here was only to give our customers of this section better service and more direct shipments on the merchandise they buy from us," said Mr. Parks. "We have had our salesmen in this territory ever since the establishment of our Waco house. In selecting the city for our new branch, we choose Wichita Falls because we thought it offered the best opportunities for expansion and for future growth," he further said.

As a result of the Archenhold people coming here, automobile dealers report that various accessory concerns in Dallas, Fort Worth and other cities now make deliveries here minus freight and express costs, which prior to this time have been paid by the individual dealer.

Completion of Griswold's No. 24 Feature of Week In This Area

NEW LOCATIONS IN S. ELECTRA

New Well Making 2400 Barrels

Completion of the Griswold Oil company's No. 24 Burnett in the South Electra field with an initial production of 100 barrels an hour, or 2400 barrels a day in the 1940 foot sand, was the outstanding development of the past week in the Wichita Falls district, and coming on the heels of the several other big producers in the newly opened 1900 foot sand in the old shallow field, served as an added impetus in the movement for numerous tests for the new sand.

Even with the rainy weather, which has prohibited any great amount of activity in moving machinery, there have been several new locations made, and preparations under way for much new drilling within the generous sized triangle opened up by the new 1900 foot wells.

The apex of the triangle, the Gulf Production company's No. 1 Grace Jennings, has encountered some little trouble in completing, and so far is only making around 100 barrels a day, what a few weeks ago would have been a nice well, but now, because of the wells further south with their thousand barrels, and better, rather small.

New Tests.

North of this well, and across the railroad, the Gulf is rigging up to drill it's No. 1 L. P. Douglas. Offsetting the new well on the south the Griswold Oil company has started it's No. 1 Grace Jennings.

Between the Gulf's Jennings, and the bigger producers, three miles to the south the Gulf's No. 8 Burnett C., in section 8, is drilling around 1550 feet. This offsets the No. 7, brought in for a nice producer in the deep sand. The No. 9 this lease is rigging up.

On the Jennings southwest corner of section 12, and between the two above mentioned Gulf wells, Cumley et al are drilling, reported now down around 1,000 feet.

The big Griswold well is only 600 feet south of the original 1900 foot well in this pool, the Lincoln and McDaniel No. 2 Burnett, which was a 175 barrel well. The extraordinary production of the new well was something of a surprise.

However, it is understood that the Lincoln and McDaniel well is only about three feet in the sand, and that it has not been deepened since the sand was first drilled. The well came in for about a hundred barrels and gradually increased it's production to about 175 barrels. It is reported still holding up remarkably to the increased production.

Second Deep Test.

A second deep test on the Lincoln and McDaniel, four more on the Griswold's two Burnett leases, south of the No. 24, four deep tests for the Hobbs interests on the Gladiolus lease, three on the Planet lease, two new deep tests on the Bridwell and Heydrick Waggoner lease, and four on the Texas Company's Waggoner, about the No. 215, which was the sensation of a week back, are the new wells drilling inside the pool started since the Planet and Texas Company completions. These tests are all in section 5.

Something over a half mile east in section 6, Thomasson and Mallory are deepening the No. 3 Burnett to the 1900 foot sand.

The theory that the Harvey Cullum No. 2 Rio Bravo, two miles northwest of the Texas Company's No. 215, is an extension of the 1900 foot sand, both ways from the Gulf Jennings, and the southern producers, is due to be proven or disproved shortly, several tests being under way.

One of the most important is the No. 1 Waggoner of the Texhoma, in section 13, about half way between the Harvey Cullum and Gulf wells. This test is now waiting for a rig to be moved from the Duke lease at Fowlkes.

Due For Sand.

Offsetting the No. 2 the Texas Company's No. 224 Waggoner is due to get the sand in the next day or so, spending several days this past week drilling the hard rock around 1800 feet. The No. 218 less than a mile to the north, is drilling into the 1,500-foot sand, with a star. This latter well offsets the Spencer and D'Yarmett No. 1, completed for a nice well several weeks ago in the 1500 foot sand.

In section 31, a couple of thousand feet west of the Harvey-Cullum wells, the John O'Neal Rio Bravo No. 1 is drilling around 1300 feet, with cable tools. The No. 2 is still shut down on the 800 foot sand, waiting on developments, while the No. 3 is drilling around 500 feet with the rotary.

Two New Wilbarger Tests.

The two new Wilbarger county tests of O'Neal, are drilling, the No. 1 in section 18 being down around 300 feet, drilling with cable tools.

The No. 1 in section 19, rotary test, is drilling around 1400 feet. These two wildcats are drilling slowly and coring frequently preparing to test the first promising sand.

On the Harvey Cullum Rio Bravo lease the No. 5 is drilling around 750 feet and No. 3 and 4 are still waiting for the rigs to be moved in. About 1500 feet northwest of the producers on this lease location was made this week for No. 6.

The Panhandle Refining company's No. 1 Waggoner, in section 27, over a mile southwest of the nearest deep production, the Texas Company and Bridwell and Heydrick wells, is reported under reamin below 1,000 feet. This well is about a half mile south west of the 500 foot pool recently opened up by the Petroleum Producers company.

The Shamrock Oil company has made location for it's No. 1 Waggoner, Gibson survey, offsetting the Texas Company's No. 219 Waggoner on the south.

The Grisham and McCallister, between the Panhandle test and the shallow producers, is reported drilling around 1500 feet.

The Ladd and Hannon No. 1 Waggoner, and the Bankers Petroleum No. 2, both in section 23, northeast of the shallow producers, are reported drilling, both being several hundred feet deep.

Abandoned tests drilled several years ago, scattered around the field about these various newly opened pools have caused some to doubt that the three important strikes will be linked together.

Others are of the opinion that these dry holes are not an indication. At any rate the developments of the next few weeks will collapse one or the other of the theories.

BURK SHALLOW IS LOOKING UP

Three Completions During Week

Operations in the South Burkburnett shallow field were featured this week by the completion of the T. F. Hunter No. 3 Murdock for a 200 barrel well in the 1200 foot sand. This well is in the new north pool, recently opened by the No. 1 Cropper of Laning and Moninger, and is on the south offsetting lease to the discovery well.

Two other completions are reported from this north pool, the No. 4 Cropper lease 1 of Laning and Moninger, 40 barrels on the pump, from the 1200 foot sand, and the Stumpf Oil company's No. 3 Fowler, 25 barrels in the 1400 foot sand.

The Texhoma Oil and Refining company spudded in this week on their No. 3 Fowler, their first deep test on this lease.

The Laning and Moninger No. 1 Dodson is on the sand and drilling in with a star. The No. 3 Cropper, lease 1, is also reported drilling in, as is the No. 4 Cropper, lease 2.

The No. 5 Cropper lease, same operators, got the 1200 foot sand Thursday and the No. 5, lease 2, spudded in the latter part of the week.

The Hill and Jones No. 1 Cropper, just west of the Laning and Moninger No. 1 lease, is preparing to complete in the 1300 foot sand drilled last week.

Old Burkburnett.

The No. 11 Ramming of W. G. Skelly, in the 1300 foot sand, is reported a 50 barrel well.

The Magnolia Petroleum company's No. 10 Anderson, 1850 foot sand, is reported a 40 barrel producer.

Panhandle Wildcat.

The Panhandle Refining company's No. 4 Goetze, east of Sunshine Hill, is drilling around 1250 feet. This is the first deep test on this lease where there are shallow wells. The Goetze lies betwen the Sunshine Hill shallow field, and the old Burkburnett deep field.

A new 600 foot producer is reported from the Sunshine Hill district this past week, the No. 5 of Thomasson and Mallory, a 15 barrel well.

BOY SHOT WHILE DELIVERING PAPERS

By Associated Press.

FORT WORTH, May 13.—Following the shooting of a newsboy at the home of W. C. Summers, Armour & company general manager, in the Rivererest district last night, Summers issued a statement this morning, explaining that he was awakened by some one crossing his lawn. The figure he said, approached his front door and appeared to be making an effort to open it. Obtaining a gun Summers asked who was there and receiving no reply, fired. The shot entered the boy's leg and inflicted a flesh wound. The boy, employed by a local newspaper, was distributing sample copies from door to door and had opened the Summers screen to drop in a paper.

SMALL BOOM IN ARCHER CO.

Field Extended by Texhoma's 17

A miniature drilling boom is under way in the south end of the Texhoma-Archer county pool, as the result of the completion of the Texhoma's No. 17 Gose, an extension of several hundred feet south of production. The new well got the sand at 1581 feet, 30 to 40 feet above the usual depth, a very favorable indication, and first showings were for a producer of 250 to 300 barrels.

A gradual pinching of wells south of the discovery well on the Texhoma's lease, and a couple of failures some distance to the south tended to discourage drilling very far south from the discovery well in the east and middle portions of the lease.

Several weeks ago, however, the Archer Oil company drilled their No. 1 Gose, a couple of thousand feet south of production and got a nice pumper. The Texhoma followed this with an offset to the north, also getting a nice well, then offset on the south with the No. 17, which is now being completed.

Locations have been made on the Coffman, adjoining the Gose tract on the west, and two more tests to extend production south will be drilled immediately.

The J. J. Staley No. 3 Coffman will offset the Texhoma No. 10 Gose and the J. J. Perkins No. 2 Coffman offsets the Archer Oil company's first well.

The No. 2 of the Archer Oil company is being completed, showing up for a 150 barrel pumper.

The Texhoma is rigging up it's No. 1 W. C. Young, south of Archer City. This will be the company's first test to be drilled in Archer outside the Gose pool, and adjacent leases.

NOVICES WALK SANDS SUNDAY

Shriners Plan Big Ceremonial

Final arrangements have been made for the biggest ceremonial ever staged by Maskat temple. The entire program will be rendered in the evening, thereby affording every Shriner and novice in Northwest Texas an opportunity to attend. Recent rains have increased the prospects for a large class of novices. Potentate Cline has his organiaztion in full array and the sand haulers are all busy hauling sand from the Wichita river to Call Field for use in the second section. Al Ellis, director, and the Arab patrol, under the direction of Captain Robbins will heat the sand and everything will be in tip top shape. Joe E. Ward and his crew of noise makers have been tuning up for several weeks and the noise they will make on the 23rd will be fearful.

Paul Von Allmen and his chanters will sing "Sunny Jim." "Sunny Jim" is a new shrine song written in honor of Jas. S. McCandless, who will be elected Imperial Potentate at the session held in San Francisco in June.

Recorder Fritz declares that the attendance of nobles and novices at this ceremonial session will be the largest ever.

LOW RATE ON COTTON

By Associated Press.

AUSTIN, Texas, May 13.—The application of the San Antonio & Aransas Pass railroad for a reduced rate on cotton and corn for replanting purposes in the flood stricken areas was granted by the railroad commission today. A rate of one cent per hundred pounds was fixed and expires May 31. Other roads are expected to apply for the reduced rate.

REO SPEED WAGON

In every phase of hauling and delivering the Speed Wagon is supreme.

Ask twenty owners or drivers and each will give you a different reason for his own preference for Reos over all others.

One will mention the power, another the superior clutch, another the wonderful chassis and rugged axles; while still others dilate on the simple, certain Reo control system and superb starting device.

Owners of service shops will tell you of accessibility; reasonable cost of replacement of parts; of Reo Service; and general freedom from trouble.

Is it any wonder that Speed Wagons perform every class of carrying—from 500 to 2500 pounds—a quarter-ton to a ton-and-a-quarter— and do the work cheaper and quicker?

Why Did He Sell That Car?

YOU'LL probably ask that question more than once if you visit the salesrooms of the automobile dealers listed below, and inspect the USED cars offered there. . . . A "USED car" is merely a name for a car that has been in service. . . . And on the floors of these dealers you will find cars that have been in service—USED cars—that LOOK so good, and ARE so good, that you'll wonder why the former owners sold them!

Oftentimes a man will sell his car and buy another, merely to gratify a whim. He thinks he likes another car better than the one he has. He can afford to satisfy himself and he does so. And then, some one else benefits by purchasing the car he has relinquished.

OTHER men, after using a new car for a short time, conclude that they would like to buy a more expensive car. In buying this other car, they dispose of the car they had—which is perfectly good—and may have been in service only for a short time. A bargain for you!

Others may make a practice of disposing of a car when they have driven it a year—and buying another just like it. The car they sell possesses thousands of miles of useful, satisfactory service, and is a bargain for you if you buy it.

Cars of this type—attractive and possessed of years of economical service—come regularly into the hands of the established automobile dealers listed below. The values are so apparent that, when you see them, you will at times wonder why the owner sold such a car!

IF YOU have never inspected USED cars at a reliable dealer's, you will be surprised at what you will find there. The values are REAL. The owners of these cars, in selling, naturally made a financial sacrifice, and you get the BENEFIT of it.

Remarkable motor car values exist in the used car departments of these established automobile dealers. In buying a used car, be sure to buy of a reliable dealer who will tell you frankly the value of the car in question—and you can be certain of satisfaction. Go to these dealers. They KNOW the value and will tell you frankly. They display the symbol shown below: "Used Cars of Known Value." The very car you have been wanting may be waiting there for you. Call on them today.

Why These Dealers Can Give You Better Values

Go only to reliable dealers for reliable used cars.

The dealers named below are established merchants in this city. They are here to stay. They have a reputation for honesty and square dealing to maintain; they conduct their used-car department on a high plane of frankness and square dealing. Go to them for "Used Cars of Known Value."

The sale of used-cars is a necessary part of the business of every established automobile merchant. These dealers are organized to conduct their used-car business in accordance with the highest standards of square dealing. Their used-car departments are permanent, convenient salesrooms where you may see their offerings and inspect them at your convenience and with the utmost comfort.

These reliable dealers handle only used cars of merit—cars still holding legitimate service and satisfaction for you.

The used cars they offer you are acquired in the conduct of their business, not by trading or buying in for the sole purpose of re-selling at a profit. They are satisfied with the original profit on the new car, therefore, you may buy good used cars from them at very remarkable prices.

POLICE TO SEEK JOBS FOR IDLE

Announce Vagrant Drive Too

City police are going into the employment agency business.

Announcement to that effect was made Saturday morning, when Commissioner J. B. Fitts stated that this week, such an agency will be established in the police headquarters. It will be established in connection with the police drive against vagrants.

The object, it was explained, is to give all idle men who really desire to obtain employment, an opportunity to go to work.

The employment agency or bureau will probably last but one week, it was stated, and will be the first step taken by the police department prior to the initiation of a dragnet which the officers will form to take in all professional vagrants.

Commissioner Fitts stated Saturday, in discussing the necessity for ridding Wichita Falls of vagrants, that shortly after the bureau has been established, the officers will begin a concentrated drive, as it were, to arrest all men and women who are idle.

"We believe that if there's really any man here who wants to work and can't find employment, that he will appreciate the assistance which the department intends to give him," the commissioner said. "And if he doesn't really want work, he will stay out of the way of any kind of an employment bureau, and we have other kind of work for that kind of a man."

11,134 TEXAS AUTOS

By Associated Press.

AUSTIN, Texas, May 13.—There were 11,134 automobiles, motor trucks and motor vehicles registered in Texas during the week ending April 29, according to reports at the State Highway department.

These are not all new automobiles or other vehicles, officials of the department said, but some are a part of those left over from last year, the owners having failed or neglected to register them within the required time.

The last registration number at the end of the week was 424,072 which is the number of vehicles registered so far this year.

SHRINE CIRCUS IS NEXT STUNT

Big Top at Ball Park June 1 to 8

There is always something new under the sun. The shriners are noted for their originality in pulling stunts, and the next big event for Maskat temple, following the ceremonial on May 23 and the series of baseball games between Alzafar temple of San Antonio on May 28, 29 and 30, will be a large and spectacular shrine circus.

The shrine circus was originated two years ago by Moslem temple of Detroit, Michigan, when they assembled several good circus atractions and pulled an indoor circus lasting ten days during the winter months. They turned away hundreds of people every evening, and the circus was a wonderful success. It is now an annual event and affords very cheap entertainment for everyone. Since that time the idea has spread over the country like wild fire and is always an overwhelming success. The public is invited.

Potentate Cline has engaged the American Exposition association for an eight day circus from July 1 to 8. Arrangements have been made for the use of Athletic park, and advertising is already under way. The red and white fez will be very much in evidence, as all Shriners and their ladies are requested to wear them.

The circus is being staged as a benefit for the patrol, band, drum corps and chanters. Members of the local temple will have full charge of everything and a record attendance is expected. Ten large high class circus attractions have been booked.

Robert H. Morton, Texas representative of the American Exposition association, was in the city Friday and conferred with the executive committee of the local temple relative to the promotion of the circus. The executive committee consists of the following members of Maskat temple:

Walter D. Cline, potentate; Frank Collier, chairman executive committee; Horrace Robbins, chairman soliciting department; Albert Ellis, chairman advertising department; R. E. Shepherd, chairman bally hoo ground men; M. D. Rowe, chairman concessions department; Julian Montgomery, chairman home talent shows; Otto Steblik, chairman purchasing department; C. U. Daniels, chairman arch and decorations department; Clifford O. Fritz, chairman finances; Burton A. Stayton, chairman big shows; W. M. McGregor, treasurer.

Weeds Must Be Cut by June 1 Douglas Warns

Have you got any weeds around your premises?

If you have, cut them down before June 1, warns Dr. A. H. Douglass, of the Wichita Falls health department.

Dr. Douglass said Saturday morning that the weed ordinance goes into effect June 1, and that persons whose premises are litered with growing weeds will be dealt with accordingly.

Everyone must comply with the ordinance, he warns, and especial effort to make the city clean up in this respect will be made by the department.

The ordinance, according to Dr. Douglass, sets forth that "weeds shall not be permitted to grow in rank profusion." The new law also states that weeds must be cut once every three weeks, at the least, and that they must not be permitted to obtain a height of over 12 inches.

The wet weather which this vicinity has had during the past week and prior to that time, Dr. Douglass said, has given the weeds an opportunity to get a rapid start. As a result, weeds are seen in abundance all over the city, he said, and will be quite conspicuous by June 1.

He urged that Wichitans begin now to cut them own.

Hotpoint

The most celebrated Iron in the world ~

MANY a woman can still remember the thrill that came over her when she first handled a Hotpoint Electric Iron.

Not that she had never seen or heard of electric irons before. There were *already* several irons on the market.

But here was an electric iron made for *ironing*.

Not a device or novelty to be bought and laid aside—but a *housekeeping tool to use*.

The *first electric iron* with a *point* even hotter than the rest of the iron.

Three More Notable Features of the Hotpoint Iron

The Hinged Plug Cord Protector
Does away with most of the jerk, bending and breaking of the cord.

The strength-saving Cantilever Handle
Lessens the strain, and makes ironing easier than you ever thought it could be.

The Attached Stand
One simply tilts the iron back on its heel, instead of lifting it to and from the old-fashioned iron stand—a saving of *many hundreds of pounds of lifting in a day's ironing.*

Mr. E. L. Jones says:

Many trucks are selected and bought about as follows:

The head of the Company summons the Purchasing Agent to his private office and instructs him to buy one or more trucks of a certain capacity. The Purchasing Agent usually asks what make of truck to purchase and in reply is told there is very little difference in the quality of trucks and to buy the one that can be had for the least outlay of money, as financial conditions are not as good as they might be at present.

Having dismissed the Purchasing Agent, he will ask Dr. So and So's secretary for an immediate interview as he is not feeling well. Upon being advised that Dr. So & So is busy, but that Dr. Bugg can see him at once, and that his services are much cheaper, he curtly informs the Secretary that he is able to pay for the best to be had and does not propose to experiment with death for the sake of saving a few dollars.

"The Million Dollar Butler" Tells How "Inside" Burglars Get the Booty

"Millionaires," Says Joe Fried, "Spend Fortunes for Protection Against Outsiders, and Then Engage as a Servant the First Crook Who Happens in from Sing Sing or Joliet!"

The Home of Henry Graves, III., Ardsley-on-the-Hudson, During the Robbery of Which Mr. Graves Was Killed.

Mrs. Charlotte King Palmer, Who Was Robbed of Jewels Valued at $100,000.

MILLIONAIRES with homes that seemed as invulnerable as the ramparts of Babylon have suddenly been brought to realize that they are at the mercy of the "inside worker." Armed patrols, steel doors and barred windows made citadels of their houses. Outer and inner guards preserved an appearance of inaccessibility that the Grand Llama of Thibet couldn't have boasted.

But a series of sensational robberies which have occurred recently in New York, Chicago and certain fashionable suburban communities have shown that the old-fashioned marauder has disappeared. The burglarious gentleman with the familiar bull's-eye lantern and jimmy has become passe. In his place is the smooth performer who first worms his way into a position of trust in the millionaire's household and then—while in the act of performing his routine duties—passes out the booty to some confederate. Perhaps he filches a necklace or ring himself or throws it into a waste-basket to be carried out by a peculiarly careful garbage man.

Occasionally an open raid is made upon some household, as was the case in the robbery of the Shattuck home in Washington Square, New York, recently, when jewelry valued at more than $100,000 was taken. But the preliminary plans, even for this sort of robbery, are always worked out by the man inside, who generally retains command throughout the proceeding. In the Shattuck robbery, a French butler, Henry Boilat, who had once been employed in this home, was suspected. Boilat enjoyed the confidence of the Shattuck family.

In many other cases, millionaires' homes that would have been called impregnable have been looted from cellar to garret. Invariably it was found that whereas a ring of steel prevented encroachments from the outside, the Master of the House had been unbelievably careless in employing his servants. In most cases he had left it to some other servant, who in turn had merely telephoned an employment agency.

Joe Fried, a criminal with a 28 years' prison record, tells on this page how he managed to get into a position of confidence in the home of Mrs. Hamilton Fish, Jr. He is now awaiting sentence for robbing this household of hundreds of thousands of dollars in silver and jewels. He explains how simple it has been to get employment with the rich. And he declares further that practically all of the big robberies of recent years—many of which were completed without leaving a clue—were carried out by methods similar to those he employed.

Among these unexplained thefts was the one which resulted in the disappearance of the $26,000 pearl necklace of Miss Marion Carhart of Tuxedo Park.

Not only was the Carhart mansion securely guarded inside and out, but Tuxedo Park itself, is and has always been, virtually a walled city. A barrier of brick wall and barbed wire fence surrounds the 120 country houses which make up this exclusive colony and the four entrances which admit to the estate are heavily guarded day and night. Yet on a certain evening not long ago Miss Carhart's necklace disappeared almost from under her eyes.

Her house was full of guests at the time and a moment before she sought her necklace—which she had seen about an hour previous when she put it in a jewel box—she remarked on the immunity from burglars her home enjoyed. Nevertheless, the necklace was gone. A thorough search of the house failed to reveal it.

Her guests, of course, were above suspicion. The servants had all been engaged the previous November. Miss Carhart felt certain, however, that they were all honest. But the pearls were gone. And no marauder had been detected.

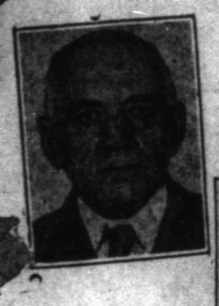

Equally mysterious was the robbery of the home of Henry Graves, III., at Ardsley-on-the-Hudson, during which Mr. Graves lost his life.

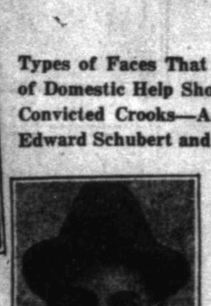

And the police of New Rochelle are anxiously hunting Edward Schubert, who robbed Matthew M. Looram. Mr. Looram had previously been the victim of another dishonest servant, George K. Shakoian, a house man, who stole jewelry valued at $50,000. Lieut. McGowan, of the New Rochelle force, captured this man and warned Mr. Looram to be more careful in employing servants. Despite this advice, however, Schubert, who had just finished a four-year-and-ten-months sentence for robbing Walter Burke of New York, applied to Mr. Looram and was hired. The robbery followed not long afterward.

Only a short time ago Arthur Gerard, who is known under a dozen aliases and who has served at least five terms in prison, was sent to Sing Sing for robbing Frederick H. Allen of Pelham Manor of jewels valued at $85,000. When Mrs. Allen was interviewed she said:

"I can't remember the name he gave me when he was engaged. I realized he had never been a butler before, as he pretended, for he had to ask the parlor maid for instructions. The day of the robbery I was in New York and he had the run of the house."

The robbery of Mrs. Charlotte King Palmer of New York is another case in point. Burglars sprang up about her one day when she was partially dressed. She was bound and gagged and one of the marauders entertained with a rapid-fire line of conversation, while the others, according to her story, went through the house. She lost more than $100,000 worth of jewels. It was generally conceded that this job was planned by somebody on the inside.

Types of Faces That Employers of Domestic Help Should Avoid—Three Convicted Crooks—Arthur Gerard, Edward Schubert and George K. Shakoian, All "Inside" Workers.

Robbed by "Inside" Burglars, Mr. and Mrs. Hamilton Fish, Jr.

By Joe Fried, the Butler with the Million Dollar Personality.

IT doesn't profit a millionaire much if he puts armed patrols outside his gates and then lets crooks into his household. When a robbery is committed in a mansion where there are many servants, it is always an inside job.

Joe Fried, "Inside" Burglar

Employers are very careless in engaging domestics. They will send to an agency for a servant and if his appearance is all right they will telephone, usually, the family he has given as a reference. When a really big job is in sight, a crook may even rent a mansion, or a suite in a high-priced apartment house, and place a confederate there who will answer the "reference."

I was very careful in working my way into the confidence of the Fish family. I had just finished a seven-year sentence in Sing Sing and when I first got out I worked in a shipyard. This was very hard work, so I got a job at Tumble-Inn on the Hudson. From there, using a reference I got from the manager, who said I did my work satisfactorily, I went to work for the banker, G. H. Walters, at his country home at Silver Lake, N. J. It was a small place and I like to work in a mansion. Besides, the banker was going to Cuba. I was only there nine days.

Mr. Walters discharged all the servants and left me in charge to send all the gold and silver to the vaults in New York, and for two days I had a chest in my room packed with stuff worth a young fortune. (Fried didn't explain why he didn't try to make off with this booty. In fact, he seemed to take pride in having honestly carried out this commission.)

An agency then sent me to the mansion of Mr. Fish. Mr. Walters had left for Cuba and I gave the address and telephone number of his nephew, who vouched for me. The nephew didn't say I had been with Mr. Walters only nine days. And the Fish family took it for granted that I must have been there a long time if Mr. Walters was ready to trust me with all his gold and silver. So I was engaged.

Now the only way an employer can be sure that a reference is O. K. is to make a thorough investigation. You should either go yourself or send some servant who has been more than five years with you to the address given on the reference and investigate it thoroughly. The prospective servant should be traced back for at least five years.

When I say that nearly all, if not positively all robberies are committed by an inside worker, it's because I know it is practically impossible for a stranger to get in those houses. There are always a number of servants and usually a trained watchdog. Besides, there are so many rooms that an outside burglar cannot know where to look for things. While he was foraging around the house, someone would be sure to come upon him.

It is seldom the head butler himself who commits a job. It is not his place to go through the private rooms, whereas the second butler usually cleans the brasses and silver and is often sent to fetch things for the family, so he can give an excuse if he is seen entering a room.

You can hardly blame the agencies. It is the employers themselves. For the amount an agency charges it would be impossible for them to take the time to investigate thoroughly everybody who comes to them.

REPUBLICANS ACTIVE.

REPUBLICANS are in the field for an active campaign. Vice-Chairman Eugene Nolte presided at the Dallas meeting of the state committee. He sounded a slogan when he said: "when the requirements of good government have been met it is the duty of republican holders of federal office to take care of republicans of merit in subordinate places." Why not? When the democrats are in power, democrats are taken care of. When Woodrow Wilson was in power democrats and mug-wumps were taken care of away down here in Texas and the mug-wumps were very much in evidence.

Texas republicans decided that they are not bound to hold primaries this year and notice to the secretary of state will be given that the party will follow its custom of nominating in convention. Director W. E. Talbot made his report and also the prediction that the year 1922 will witness in Texas a two party fight that will result in the building of a formidable republican organization in the state. In the San Antonio district Harry Wurzbach is to be sloughed and there is talk of nominating Dr. Frederick Terrell, a leading banker of San Antonio a native Texan and a man who has been prominent in the business life of Texas for many years.

Harry Wurzbach, it appears, has given offense to the republicans of Texas for his advocacy of the brother in black and his demand for the appointment of republicans who did not stand high with those in control of the party organization. Wurzbach was elected a member of the American congress two years ago. He is a native Texan and his father was a Confederate soldier. According to his critics he is for a black and tan party and not for a white republican party. For this reason he is slated to walk the gang plank by the leaders but he may put one over the leaders. In any event he is slated for retirement after serving one term.

Wurzbach voted for the Dyer Anti-Lynching bill and the Dyer Anti-Lynching bill does not and did not appeal to many of the ablest leaders of the republican party in the southern states. Congressman Dyer of St. Louis is the author of the bill. There are more than 75,000 negro voters in the city of St. Louis and for this reason St. Louis is a republican stronghold. With the blacks eliminated it would be a democratic stronghold by a sweeping majority. As a voter the brother in black is all right; as a leader and office-holder he is not popular in the training quarters of the elephant.

THEY DON'T WANT BONUS

NEW Jersey manufacturers are opposed to the soldier bonus but favor the greatest care of wounded men and dependents of those who lost their lives in the war. They demanded protection for American industries and agriculture and applauded the law-makers of their state for providing a $40,000,000 bond issue for a complete state highway issue.

They did this after a famous banking expert told them that the United States cannot help Europe if the tariff is high and the prosperity in in America is dependent in part on the prosperity of other nations. So there you are. They don't want a bonus. They want tariff protection. They favor millions for modern highways and modern highways are the demand of sane people everywhere.

THEY DON'T REPRESENT LABOR.

CHIEF of Police Charles Fitzmorris of Chicago has jailed three notorious labor leaders of that city. This followed the dynamiting of three police officers. The Chief does not claim that these aforesaid labor leaders hurled the bombs. He does claim that they are warts on the body of the labor movement, a curse to labor and a menace to society. These Chicago labor wars are very interesting.

The principal labor leader arrested is facing a long term in the penitentiary for robbing the mails, and his two associates are said to have rotten records. Organized labor should rid itself of men of this type. They represent their own pockets and their brutal instincts more than they represent the honest toilers of Chicago. There should be one law for all in this land of the free and no man should be permitted to flout the law whether he is a labor leader, a Napoleon of finance or a captain of industry.

THE MAN FROM EL DORADO

By ROBERT W. SERVICE

(From "Ballads of a Cheechako" Copyright by Barse & Hopkins. Published by special arrangement with the Wheeler Syndicate, Inc.)

ILLUSTRATED BY HUBERT MATHIEU

'E'S the man from Eldorado, and he's just arrived in town,
In moccasins and oily buckskin shirt.
He's gaunt as any Indian, and pretty nigh as brown;
He's greasy, and he smells of sweat and dirt.
He sports a crop of whiskers that would shame a healthy hog;
Hard work has racked his joints and stooped his back;
He slops along the sidewalk followed by his yellow dog,
But he's got a bunch of gold-dust in his sack.

He seems a little wistful as he blinks at all the lights,
And maybe he is thinking of his claim
And the dark and dwarfish cabin where he lay and dreamed at nights,
(Thank God, he'll never see the place again!)
Where he lived on tinned tomatoes, beef embalmed and sourdough bread,
On rusty beans and bacon furred with mould;
His stomach's out of kilter and his system full of lead,
But it's over, and his poke is full of gold.

He has panted at the windlass, he has loaded in the drift,
He has pounded at the face of oozy clay;
He has taxed himself to sickness, dark and damp and double shift,
He has labored like a demon night and day.

And now, praise God, it's over, and he seems to breathe again
Of new-mown hay, the warm, wet, friendly loam;
He sees a snowy orchard in a green and dimpling plain,
And a little vine-clad cottage, and it's—Home.

II.

He's the man from Eldorado, and he's had a bite and sup,
And he's met in with a drouthy friend or two;
He's cached away his gold-dust, but he's sort of bucking up,
So he's kept enough tonight to see him through.
His eye is bright and genial, his tongue no longer lags,
His heart is brimming o'er with joy and mirth;
He may be far from savory, he may be clad in rags,
But tonight he feels as if he owns the earth.

Says he: "Boys, here is where the shaggy North and I will shake;
I thought I'd never manage to get free.
I kept on making misses, but at last I've got my stake;
There's no more thawing frozen muck for me.
I am going to God's Country, where I'll live the simple life;
I'll buy a bit of land and make a start;
I'll carve a little homestead, and I'll win a little wife,
And raise ten little kids to cheer my heart."

They signified their sympathy by crowding to the bar;
They bellied up three deep and drank his health.
He shed a radiant smile around and smoked a rank cigar;
They wished him honor, happiness and wealth.
They drank unto his wife to be—that unsuspecting maid,

They drank unto his children half a score;
And when they got through drinking very tenderly they laid
The man from Eldorado on the floor.

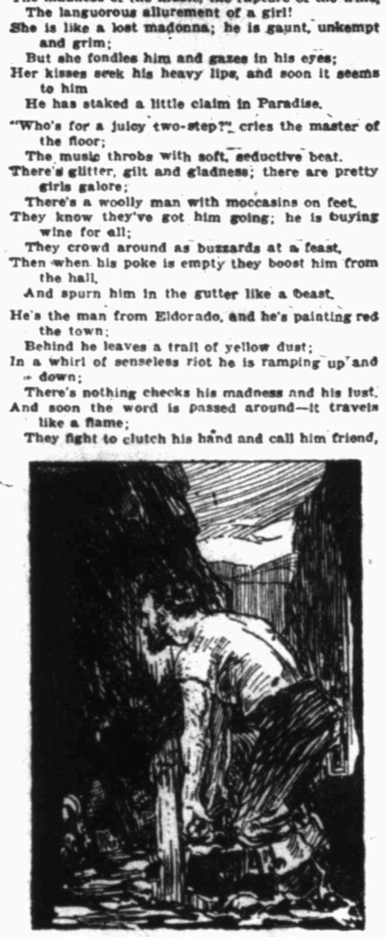

III.

He's the man from Eldorado, and he's only starting in
To cultivate a thousand-dollar jag.
His poke is full of gold-dust and his heart is full of sin,
And he's dancing with a girl called Muckluck Mag.
She's as light as any fairy; she's as pretty as a peach;
She's mistress of the witchcraft to beguile;
There's sunshine in her manner, there is music in her speech,
And there's concentrated honey in her smile.

Oh, the fever of the dance-hall and the glitter and the shine,
The beauty, and the jewels, and the whirl,
The madness of the music, the rapture of the wine,
The languorous allurement of a girl!
She is like a lost madonna; he is gaunt, unkempt and grim;
But she fondles him and gazes in his eyes;
Her kisses seek his heavy lips, and soon it seems to him
He has staked a little claim in Paradise.

"Who's for a juicy two-step?" cries the master of the floor;
The music throbs with soft, seductive beat.
There's glitter, gilt and gladness; there are pretty girls galore;
There's a woolly man with moccasins on feet.
They know they've got him going; he is buying wine for all;
They crowd around as buzzards at a feast,
Then when his poke is empty they boost him from the hall,
And spurn him in the gutter like a beast.

He's the man from Eldorado, and he's painting red the town;
Behind he leaves a trail of yellow dust;
In a whirl of senseless riot he is ramping up and down;
There's nothing checks his madness and his lust.
And soon the word is passed around—it travels like a flame;
They fight to clutch his hand and call him friend,

The chevaliers of lost repute, the dames of sorry fame;
Then comes the grim awakening—the end.

IV.

He's the man from Eldorado, and he gives a grand affair;
There's feasting, dancing, wine without restraint.
The smooth Beau Brummels of the bar, the faro men, are there;
The tinhorns and purveyors of red paint;
The sleek and painted women, their predacious eyes aglow—
Sure Klondike City never saw the like;
Then Muckluck Mag proposed the toast, "The giver of the show,
The livest sport that ever hit the pike."

The "live one" rises to his feet; he stammers to reply—
And then there comes before his muddled brain
A vision of green vastitudes beneath an April sky,
And clover pastures drenched with silver rain.
He knows that it can never be, that he is down and out;
Life leers at him with foul and fetid breath;
And then amid the revelry, the song and cheer and shout,
He suddenly grows grim and cold as death.

He grips the table tensely, and he says: "Dear friends of mine,

I've let you dip your fingers in my purse;
I've crammed you at my table, and I've drowned you in my wine,
And I've little left to give you but—my curse.
I've failed supremely in my plans; it's rather late to whine;
My poke is mighty weasened up and small.
I thank you each for coming here; the happiness is mine—
And now, you thieves, and harpies, take it all."

He twists the thong from off his poke; he swings it o'er his head;
The nuggets fall around their feet like grain,
They rattle over roof and wall; they scatter, roll and spread;
The dust is like a shower of golden rain.
The guests a moment stand aghast, then grovel on the floor;
They fight, and snarl, and claw, like beasts of prey;
And then, as everybody grabbed and everybody swore,
The man from Eldorado slipped away.

V.

He's the man from Eldorado, and they found him stiff and dead,
Half covered by the freezing ooze and dirt.
A clotted Colt was in his hand, a hole was in his head,
And he wore an old and oily buckskin shirt.
His eyes were fixed and horrible, as one who hails the end;
The frost had set him rigid as a log;
And there, half lying on his breast, his last and only friend,
There crouched and whined a mangy yellow dog.

THE WEALTHY CONVICT.

THERE is a negro convict in a Missouri penitentiary, D. P. Hayes by name, who is said to be the owner of 160 acres of land in Mexico. Oil is said to have been found there and the convict has been advised not to sell his holdings for less than $4,000,000.

He denies that he is a negro; he says that he is half Indian and concedes that he is serving three years for forgery. Think of a convict who has $4,000,000 within his grasp and is unable to take it down. Tantalus had nothing on Hayes.

MISSOURI FARMERS.

MISSOURI is on the map in many ways. Missouri farmers have 83,564 automobiles, one to every three farms. Trucks on farms number 4,844. Tractors on farms number 6,875. This is a dirt farmer listing.

It does not cover the number of cars owned by men who call themselves gentlemen farmers, who live in cities and towns and rent their land. Gone are the good old days. Missouri farmers are not clamoring for a return to the ox-cart period of civilization.

A reformer asks what is the most significant thing about our code of morals. Speaking off-hand, we should say its elasticity.

As a people, we never so fully appreciate our freedom and democracy as when we read that a millionaire's son has been lodged in jail.

MOTHER O' MINE — By Kipling

If I were hanged on the highest hill
Mother o' mine, O mother o' mine!
I know whose love would follow me still,
Mother o' mine, O mother o' mine!

If I were drowned in the deepest sea,
Mother o' mine, O mother o' mine!
I know whose tears would come down to me,
Mother o' mine, O mother o' mine!

If I were damned of body and soul,
I know whose prayers would make me whole,
Mother o' mine, O mother o' mine!

—Rudyard Kipling.

SELFISH NEW YORK

NEW York is always selfish. Now its senators and congressmen are doing all they possibly can to block federal action on the Great Lakes-St. Lawrence Waterway project.

They made a protest to the president who on several occasions has announced in favor of the canal project. He made them no promises but said he would take their protest under advisement. These New Yorkers overlook the fact that Ohio is west of the Alleghaney mountains. There is something in that.

William Jennings Bryan is the reputed father of the direct primary system. President Harding is for knocking it out and returning to the old convention system. There are many democrats, republicans and independents for the repeal system. What's wrong? Has Hodge, the rough-neck, been smashing favorites?

As cities become too congested for flats, no doubt landlords will rent parking space to be used between movies.

The grand opera one hears through a radio set will never be as popular as the gossip one hears on a party line.

"What is the highest point of animate life?" asks a scientists. In some people it is a line on a level with the ears.

Don't feel sorry for the birds trimmed to provide milady's spring hat. No doubt they would have spent it for hootch, anyway.

ART AND DRUGS

A MAN may be very eminent in his own profession and vastly ignorant outside of it.

Mr. Joseph Pennell is an eminent American etcher and illustrator. He made a speech the other day, however, in New York in which, according to the press reports, he stated that "no nation ever produced and maintained art without freedom of thought such as drink implies."

He also attacked those fanatics whom he pictured to be gradually reducing the United States to the point of becoming an artistic and intellectual desert.

"When a group of fanatics takes away such a privilege as wine," continued the distinguished artist, "not only freedom takes its wings but the graces are not long in following. You cannot have good art or good literature without drink. It is absolutely impossible. Unless something is done toward ameliorating the prohibition laws, art will go to the devil in the United States."

Reduced to it lowest terms and put in simple understandable English, Mr. Pennell's proposition is that the best work of the human mind is produced by drugs.

Alcohol is a drug just as opium, cocaine, heroin, and the like are drugs. This is nothing against it, as drugs have their human uses.

But it is a drug just the same, for the simple reason that it is not a necessary food. The normal healthy human being can get along without it. The only person who absolutely needs it is one whose system has been perverted by its continued use. The man who simply must have alcohol is precisely the same sort of type as the man who simply must have his happy dust.

The main difference between alcoholic and other drugs is that the use of alcohol has been almost universal for countless generations. It has behind it the tremendous momentum of tradition.

It is also entrenched in that institution known as society, which gives it an enormous power over a vast portion of the human race.

But for all that, alcohol is vastly more dangerous than any other habit-forming drug, for the reason that its effects are so closely parallel to those produced by a perfect state of youth, health and fitness. These effects are temporary and are invariaby followed by reaction, which is dangerous and often destructive.

But there are a large number of souls who are willing to throw away life, health and prospects for a high moment. This number includes not only geniuses but all children, and fools.

Mr. Pennell is not the first who has twanged his lyre and raised his voice in praise of wine. The cult of Bacchus is as old as delusion, which in turn is as old as the human race.

Mr. Stephen Crane once said that American literature might be divided into two classes, whiskey and opium.

Mr. Pennell seems inclined to restrict all American genius to one class, as he said nothing in praise of hasheesh, loco weed, or the hypodermic syringe.

MIND YOUR OWN BUSINESS

A MAN may not be punished for failure to report his neighbors violation of the Volstead act to the authorities according to an opinion of the United States Court of Appeals for the district of Ohio. There appears to be a shred of liberty left in this merry old world, if the judgment of the court isn't reversed. It pays for a man to attend to his own business. It is the duty of law enforcement agents or officers to run down malefactors and place them where they belong. Federal Judge James C. Wilson of Texas is right when he says that the state authorities have shifted most of the responsibility of law enforcement to the federal authorities. It should be up to the commonwealth to look after and prosecute violators of prohibition laws and all other statutes. Uncle Sam is doing his best but he needs assistance.

HEARD THE RUMBLINGS

WHAT has become of the soldier bonus bill? Has it been bludgeoned or pigeonholed? President Harding and Secretary A. W. Mellon sounded a warning. House Republicans refused to accept the warning. Senate Republicans had their ears open. Then came the Indiana election and now the senate will devote its attention during the next two months to the general tariff bill. There is a general election coming in November and the senators and congressmen who are up for re-election are between the devil and the deep sea.

Eugene V. Debs now desires the release of other political prisoners or his own return to the federal penitentiary. According to Northern newspapers Debs is suffering from a nervous breakdown. He is and in addition he is as mad as a March hare. Speaking of the political prisoners behind the bars Debs says, "they are no more guilty than I." This is true. Debs was their apostle. They accepted his gospel. They believed what he said and they followed his flag. They landed in prison. Debs is free. They are not.

Christ healed the woman with an issue of blood. His spirit can heal those who suffer from issues of flat currency.
