Sorenson Speaks To Joint PTA Meeting Monday

Speaking before a joint meeting of the three Aransas County Parent - Teacher Associations Monday, James H. Sorenson, Jr., executive vice president of the First National Bank, suggested a three-step priority by which to attain family financial goals.

First of these steps is establishment of an emergency fund. "This," Sorenson said, "is a general financial fortification that every family ought to build as quickly as possible, as a bastion against unemployment, illness or other unanticipated eventuality."

Sorenson said the size of this fund can vary, but some authorities advise a sum equal to six months take home pay. If insurance is held against most kinds of possible emergency, a lesser sum might do, he stated, but made the point that any emergency fund is better than none at all.

Family protection was the second step, the banker said, and generally speaking, this means insurance to provide for the family in case of the death of the wage earner. Lastly, he emphasized, is the matter of security. This means accumulation of capital for retirement income and creation of an estate. Insurance can be used for this, and so can prudent investment in stocks and other property.

"The issue of whether or not to save can be summed up this way," Sorenson said. "Thanks to credit and various kinds of institutionalized financial protection, saving is not an urgent matter in the earliest months of a family's existence. But, save you must, in the long haul. Some saving will be forced upon you."

"How far a family progresses with the kind of orderly financial planning just described," Sorenson continued, "depends upon the family will to save . . . If you form the habit of saving from the start, no matter how tiny the sum put away each month at first, you will wind up with financial substance in the end. If you never form the saving habit, you will end up with nothing."

Preceding the meeting, the various PTA's held business meetings and the high school organization chose Mrs. Raymond Heimbuch, Mrs. L. R. Davenport and Mrs. Albert Wofford for a nominating committee.

Membership chairman, Mrs. Raymond Owens, reported 133 members, and the treasurer reported that final payment had been made of the PTA Scholarship Fund for Carol St. John, and a trophy purchased for the annual Toast of the Coast Relays.

Mrs. Hugh Morrison, president, reported that the Spring Conference will be held in Corpus Christi April 15-16, that the next regular meeting on March 30, when there will be a panel discussion.

A social hour followed Sorenson's Talk, with Mrs. James Sparks, Mrs. Frances Rouquette and Mrs. Edward Drummond serving coffee, punch and cookies.

At the short meeting held by the Rockport PTA, Mrs. Thomas Rogers, treasurer, gave her report and Mrs. Ed (continued on page 8)

Coast Shrimpers Have Good Year

Landings of headless shrimp in Texas ports during December amounted to 2,600,000 pounds, according to Ormand Farley, chief of the U. S. Fish and Wildlife statistical section in Texas. Farley said this brought the total for 1963 to 43,984,800 pounds, which is 8,800,000 pounds greater than landings in 1962.

Current December landings consisted of 1,300,000 pounds of brown shrimp, 881,000 pounds of white shrimp, 330,000 pounds of pink shrimp, and about 100,000 pounds of seabobs, he said. Texas bays produced 104,000 pounds of white shrimp during the month.

The volume of shrimp landed at the various ports, comparisons with with last year's catch and cumulative totals are as follows:

Port Arthur-Sabine Pass, 208,300 pounds in December, 1963, compared to 144,400 pounds in December, 1962; 1963 total, 2,902,000 pounds. In the same order other ports reported their catches:

Galveston - Seabrook area, 109,900 pounds, 182,100 pounds and 4,603,000 pounds for the year; Freeport, 252,000 pounds, 269,700 pounds, 9,525,100 pounds;

Matagorda - Palacios area, 39,500 pounds, 17,500 pounds, 834,800 pounds; Port Lavaca-Port O'Connor-Seadrift area 52,400 pounds, 26,300 pounds, and 1,310,200 pounds; Aransas Pass-Rockport area, 558,100 pounds, 635,900 pounds and 10,228,100 pounds; Brownsville-Port Isabel area, 1,360,700 pounds, 1,157,600 pounds, and 14,580,700 pounds.

Farley said that shrimp trawlers working the waters off the Texas coast made short broken trips throughout December, as a series of cold fronts across the state, bringing only a small part of the rain needed by the estuarine systems. Trawlers working brown shrimp were largely confined to grounds south of Freeport, which Farley characterized as the Mason-Dixon line for the Texas shrimp fishery, marking the separation the main white and brown brown fishing grounds.

The white shrimp fishery, he said, was most prominent from east of Galveston to waters south of central Louisiana. In general, waters off the northern Gulf coast produced good quantities of unseasonably small white shrimp from waters immediately adjacent to the passes along the coast.

Texas trawlers began working in the Bay of Campeche in December, and reported average catches of about 400 pounds of tails per 12 hours' effort, Farley said. Again, he added, a considerable proportion of their catch was 31/35 and smaller.

The oyster fishery in December produced about 400,000 pounds of excellent oysters, with over 90% of them coming from Galveston Bay and little activity reported from other bays along the coast. Fishermen received from \$5 to \$8 per Texas barrel of 285 pounds, shell weight, and the shell stock yielded about two gallons of shucked oysters per barrel. Wholesale prices ranged from \$6.50 to \$7.50 per gallon for certified processed oysters.

Blue crab landings dropped to about 20,000 pounds during December, a new low for monthly landings since 1959. One of the four producing plants suspended operations, and will re-open in the spring.

Landings of edible finfish amounted to 225,000 pounds, slightly below poundage for November as rough weather and low prices offered little incentive to fishermen.

Woman's Club To Give Benefit Game Party for Library

The Woman's Club of Aransas County has planned a games party for the afternoon of Jan. 27 for the benefit of the library book fund, to be held at the Woman's Club, with Mrs. F. L. McCord and Mrs. Harry McDow, of the library board, and Mrs. R. L. Harrell, of the Library Auxiliary, acting as hostess for the occasion.

This aid by the Woman's Club, original sponsors of the library, will be especially welcome this year, members of the library board said, as the budget on which the organization has been operating will be stretched almost to the breaking point this year, with expenses attendant upon opening the new library sometime in February or March.

"I'm not really set up," Mrs. Camehl said, "but will gradually get things under way so that I can serve my friends who have asked for this type of shop in Rockport. Actually, I am ready now, although it will be some time before I have everything the way I want it."

Picton Attends Causeway Bid Opening

Harold Picton left Wednesday to attend the opening of bids on the new Copano Causeway this morning. The old causeway, which has been in use for 40 years is still in good shape, but neither heavy enough nor wide enough to handle present traffic, so it is to be replaced.

In plans accompanying a request to the U. S. Engineers for a construction permit, the State Highway Department says that it proposes to dredge two areas, construct three dikes, and place other unsuitable material from the dredging on bayward from the zero contour at the bridge location.

The two dredged areas will be located in Aransas Bay in proximity to the approaches of the bridge. An estimated 93,000 cubic yards of embankment to be used on the north approach will be removed from the area adjacent to the northern shore, and 72,000 cubic yards of the south approach will come from that bay area.

The two dikes will be constructed about 200 feet bayward and parallel to the north and south right-of-way boundary lines of the Texas Highway Department on the shores of Copano Bay. Approximately 31,000 cubic yards of material unsuitable for the proposed dike will be placed bayward from the proposed dike and zero contour at the north end of the causeway, and approximately 33,000 cubic yards will be disposed of in like manner on the south end. The third dike will be constructed 800 feet north from the dike at the south end, to protect an existing channel and boat ramp. No material will be removed from the borrow areas below elevation minus 25 feet at mean low tide.

In the sketch map accompanying these specifications, the new causeway is shown as approximately 100 feet to the eastward of the present one. The high level middle span will be protected by a fender system constructed of piling and timbers. The fenders will be 60 feet long, with 36-foot wings extending shoreward at a 30-degree angle at each end.

Pirates Lose To Bishop 31-37

On Tuesday, Jan. 21, the Pirate basketball team lost to the Bishop quintette by a score of 31-37 in a game where neither team seemed to be able to muster enough offensive threat all evening to crack their opponents' defense, which was excellent.

High point man for the Badgers was Frank Diveney with 14. Thomas Lewis was high for the Pirates with 10. The Pirates play Tuloso-Midway as a start on the second round of district play. The game will be at Tuloso-Midway on Jan. 24.

Tuesday, Jan. 28, the Pirates play the Gregory-Portland five here, with the girls' game starting at 6:30 and the boys at 8 p.m.

MRS. HINTON INJURES BACK ON AUSTIN TRIP

Mrs. Roy Hinton, in Austin during the cold weather, slipped on ice and injured her back, necessitating confinement in Spohn Hospital, where doctors believe she chipped a piece of bone from her vertebrae.

She went to the hospital last Saturday, on her return from Austin.

Grocery Addition To Start Soon At Shopping Center

Construction is scheduled to start within the next few days on a 32-foot x 122-foot extension to the HEB grocery store here, according to Grady West, from whom the Corpus Christi company leases its present premises.

HEB stores recently bought the grocery and good will from West, and one of the conditions of the sale was that West construct this addition to give needed room for expansion. Target date for completion of the structure is around the first of May, West said, and the construction will be done by HEB's construction subsidiary.

At the time of sale to HEB, West also announced that he intended to construct two more buildings on the block on which the grocery stands. Both of these will have around five thousand square feet of floor space and will be started after the expansion of the grocery store is completed.

The space they will occupy was formerly covered with houses which West has had moved away within the past two or three weeks.

Fatal Wrecks Drop In County

Reports from the State Highway Patrol show that Aransas County had no fatal rural traffic accidents in December, although there were five wrecks in which seven people were injured, and \$4495 in property damage.

There were six deaths in Zapata County; Cameron, De Witt, Hidalgo, Kleberg, San Patricio and Starr counties each had two, and in Goliad, Nueces and Willacy counties there was one each.

In the 21 counties embraced by the patrol's District 3-A, which headquarters in Corpus Christi, there were 125 fatal wrecks, resulting in 152 deaths; 794 personal injury wrecks; 1395 people injured, and 1527 property damage wrecks for a total of 2446. Property damage was estimated at \$1,521,105.

In 1961, there were 150 people killed in rural traffic accidents in this district; in 1962 there were 149 fatalities; in 1963 there were at least 152, but this figure, the highway department says, cannot be reported as final, as there may be still other deaths resulting from injuries received in accidents during 1963.

Lieut. F. C. Carpenter, of the patrol, in commenting on this record, said:

Roadways in the district are straight, level, and with few curves and there should be few accidents. There are few accidents, but there are many wrecks, which are caused by occurrences-caused by people—and can be prevented. We must not be content with our past poor record, but should continue to educate drivers to drive safely at all times, with due regard for other people and himself."

BOSS MUST ISSUE FORM W-2 BY JAN. 31

Employers, Internal Revenue Service has a reminder for you—employees should receive two copies of a Withholding Statement, Form W-2, on or before Friday, Jan. 31, 1964.

Asa L. Crow, administrative officer of the Internal Revenue Service at Corpus Christi, said, "This statement shows the total wages paid and the income tax and social security tax withheld if any during the calendar year 1963."

Total wages shown on an employee's W-2 must include amounts received as sick pay from his employer, even though no tax has been withheld on such sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised statement must be issued and marked "corrected by employer."

Council Awards Sewer, Water, Tank Contracts

The City Council, in a called session, has awarded two contracts aggregating approximately \$333,000 for expansion of the water and sewer systems.

Mercer Construction Company of Edna was low bidder at \$234,530, for installation of approximately 50,000 linear feet of sewer and water lines of various sizes, along with 13 new fire hydrants, two de-ionization units, 29 manholes at various places, a lift station and roughly 10,000 feet of vitreous clay pipe.

This was \$46,812 below the engineering estimate and \$13,888 below the next bidder, the B&T Construction Co., of Port Lavaca, whose bid was \$248,428.

There were five other bidders on this contract: T. H. Lee, of Corpus Christi, third low with \$250,922; Mitchell Darby, Inc., of McAllen, \$273,787; Gerald Mora Construction Co., Houston, \$284,912; Heldenfels Brothers of Corpus Christi, \$289,191; and Raymond Dugat, Portland, \$298,710.

On the second contract, Chicago Bridge and Iron Co. was low bidder, although because the bid was entered on the wrong form, there was some confusion and, for a time, doubt whether the contract could be awarded, as Federal funds will pay for half of the structure. However, after Harold T. White, field representative for the Housing and Home Finance Agency consulted his home office in Fort Worth, the bid was approved and the contract awarded.

Awarding the contracts marked the culmination of more than two year's work by Mayor Herman Johnson, members of the City Council, the council's engineers, McLendon and Associates, and Congressman John Young to obtain funds for the projects.

Half of the cost will come from the \$200,000 revenue bond issue voted last year for expansion of the system; the other half will come from a Federal grant, through the Housing and Home Finance Agency.

Johnson said that in addition to the new lines, hydrants, lift stations, de-ionization units and the 500,000-gallon elevated storage tank, the city has purchased sites for three new wells northwest of Rockport, after test holes had been drilled and good water located. These well sites, he said, are in the Ellis and Riley tract, not too far from where the new tank will be erected in the Denver Heights addition.

The tank, he said, will be a torosphere, standing on six legs. Originally, Johnson said, it was hoped that one of the new spheroidal tanks could be built, but the difference in price of \$21,000 between Chicago Bridge and Iron's bid on the torosphere and the spheroidal tank was too great.

There was one other bidder on this tank, Johnson stated, Pittsburgh - Des Moines Steel Co., but their bids on the two types of tanks were even higher than the CB&I bids, being \$105,000 for the torosphere and \$126,500 for the spheroidal tank.

Over a score of firms were represented at the bid opening, which took place last Thursday night, although the contracts were not awarded until the following day. Included in the group, besides those already mentioned, were:

Robert H. Pyle, of Robert H. Pyle, Inc.; Robert Ernie, Western Filter Co.; I. M. Rogers, Trans Tex Supply Co.; R. Rueckle, McAllen Pipe and Supply Co.; Harold I. White, representative, Housing and Home Loan Agency of the Federal government, out of Fort Worth; E. H. Smith, Slovack Brothers, Corpus Christi; W. A. Tippit, B&T Construction Co., Port (continued on page 8)

WESLEYAN SERVICE GUILD ACTIVITIES ARE OUTLINED

Each year, during the month of January, international emphasis is given to Wesleyan Service Guild activities. This organization was formed to give employed women a channel through which they could work for their church and for a better world community. The local Guild has several activities planned.

On January 14, a special program was given on the "World Federation of Methodist Women." An introduction to the church-wide study "Our Mission Today," which is to begin soon, was also given. Mrs. Rex Lewis, an honored guest, was thanked for many things done for the Guild and for the church and was presented with a gift.

On Saturday, Jan. 15, the Guild will give its annual fund raising dinner at Methodist Fellowship Hall. Lunch will be served from 11 a.m. to 2 p.m. and dinner from 5 to 8 p.m.

Adult plates will be \$1.25 and children's plates, 75 cents. Plates will be fixed to be taken out on request. There will be a choice of ham, barbecued beef tips or chicken and a variety assortment of salads, vegetables and desserts, tea and coffee will be served. Mrs. Tom Jesse, the Guild president, is acting chairman for this affair, assisted by all the Guild members.

On Monday, Jan. 27, the Rockport Guild will be guests of the Aransas Pass Guild, with Mrs. B. W. Hamblin and Mrs. Barbara Rogers presenting a program on the organization of the Methodist Church. The program will be followed by a social hour.

On Tuesday, January 28, the Woman's Society of Christian Service has invited the Guild to be special guests to begin the celebration of the 25th anniversary of the organization of the Woman's Society of Christian Service and the Wesleyan Service Guild. A social hour will follow the program.

THREE YOUNG PEOPLE TO MAKE REPORT ON MEXICAN TRIP SUNDAY

Three young people of the Presbyterian Church, Misses Niki Dick and Nan Jackson, and N. F. Jackson, will report to members of the church the things they saw and the conclusions they drew from a trip to Mexico when they spent ten days under church sponsorship, along with 21 other high school students from the area, in examining the church's missions in that country.

"The purpose of the visit," said Rev. Cecil Lang, Jr., pastor, "was to see the Church in action in another country, and to seek to understand and appreciate a culture different from that to which they were accustomed. The three representatives from our church came back full and running over with new impressions of our neighbors to the south."

While on the trip, which consumed ten days immediately after Christmas, the group investigated the National Presbyterian Church in Mexico City, the Presbyterian Seminary in Mexico City, and the mission and hospital at Morelia.

TAX QUESTIONS ANSWERED BY IRS

One out of every four questions currently being asked the Internal Revenue Service by taxpayers has to do with Texas State sales tax, the cigarette tax and the state gasoline tax.

"The are good questions," said Asa L. Crow, administrative officer of Internal Revenue Service at Corpus Christi, "for those taxpayers who elect to itemize their deductions instead of taking the standard 10 per cent deduction."

"To assist taxpayers calculate the Texas State sales tax at a glance," he continued, "the Internal Revenue Service has developed a State Sales

Tax Table, thereby eliminating troublesome record keeping. The table is shown below. It covers the full 1963 calendar year. Taxpayers who itemize their deductions are encouraged to clip this table since IRS instructions do not contain these figures for Texas taxpayers."

Not included in the Sales Tax Table, but also deductible is the Texas State Tax on gasoline, which is 5 cents a gallon; the State Tax on cigarettes, which is 8 cents a pack; and the special tax on motor vehicle sales, which was 1.5 per cent through June 30, 1963, and 2 per cent after that date.

Gasoline tax is 5¢ per gallon for Texas.
