Beneficial Rain Falls Monday In This Area

A good general rain fell in this area Monday night and brought much needed moisture. The first precipitation for the month of May began falling about 9 o'clock with the hardest rain about midnight. Some wind accompanied the moisture, but no damage was reported in this immediate vicinity.

At Deport 1.16 inches was measured on the official rain gauge, according to Jack Nixon, in charge of the instrument. As the squall line moved eastward the rain was reported in lesser amounts.

Bogata had an inch, and TP&L Rivercrest plant measured .89 of an inch. Talco also had a good rain.

The mercury dropped several degrees following the rain with temperatures registering in the mid-50's.

State Capital NEWS

By Vern Sanford

Austin.— Eight tired men will sit down Saturday night—but not to relax.

Probably it will be well into Sunday before four know that they have won and four know that they have lost the Democratic runoff primary for four important statewide offices.

John Connally and Don Yarborough have battled it out for governor. James A. Turman and Preston Smith are the two tired men in the race for lieutenant governor, possibly the most important job in state government. Waggoner Carr and Tom Reavley competed for attorney general. Woodrow Bean and Joe Pool were the busy men seeking nomination for Congressman-at-large, a statewide seat in Congress which likely will be abolished within two to four years.

Following Saturday, they can rest a bit before taking up their campaigns against the Republican nominees who are expected to make the strongest bids since 1874 in the general election on Nov. 6.

But no matter how the democraitc primary and the general election turn out, Texas will have new men in the three top state offices beginning next January.

STATE AND SYMPHONIES CLASH — A new order from the State Comptroller's office struck a discordant note with supporters of Texas' 13 symphony orchestras when they were informed that their productions will no longer be considered exempt from the 10 per cent admission tax.

The Dallas Symphony society was first to be taxed. They paid $12,999 back admission taxes under protest.

Now symphony groups in Houston, San Antonio, Abilene, Amarillo, Austin, Corpus Christi, El Paso, Fort Worth, Lubbock, San Angelo, Tyler and Wichita Falls are under surveillance of the Comptroller's staff.

Actually, no one ever told the symphonies that they were exempt from the ticket tax. But they so considered themselves under a clause in the law passed in 1936 exempting "charitable" and "educational" organizations. They never were informed otherwise.

With the advent of the new sales tax law, an enlarged staff in the State Comptroller's office was mandatory. Interpretations and rulings were necessary. One rule defined "charitable" and "educational" organizations in such a manner that collectors started hitting the symphonies for back admissions taxes.

Sen. George Parkhouse of Dallas said he thinks exemption of symphonies and similar organizations was "the intent of the 1936 law." He has promised to support redrafting of the state amusement tax law to exempt non-profit cultural institutions.

The Dallas society's payment "under protest" may pave the way for a court decision. State Comptroller Robert S. Calvert said he'll welcome one. "Frankly, I don't know if symphonies should pay an admission tax," he admitted, "but I don't think they can be called charity."

WATER PROGRAM ACCELERATED — Speed with which federal water projects are coming into final stages is shown by the fact the Texas Water Commission has reviewed 17 federal projects since September 1, with two more coming up for hearing June 11.

Chief Engineer John Vandertulip said that projects already reviewed by the commission have a total first cost of $325,366,000 of which $192,052,000 is federal.

Those projects are up for congressional authorization or financing this year, so odds are fair that work by federal agencies in Texas will be accelerating greatly in the next two or three years.

Water Commission will hold hearings on June 11 on two U. S. Corps of Engineers' projects — Plum Creek and the Sabine-Neches Waterway improvements. The latter project, which calls for deepening of existing channels to accommodate super-tankers, totals $20,830,000 federal cost and $1,548,000 non-federal.

LIVESTOCK CONTROL FUNDS SUPPLEMENTED — R. Garrett, executive director of the Texas Animal Health Commission, notified Gov. Price Daniel that nearly $9,000 of a $10,000 appropriation for livestock tuberculosis control program has been spent. Remaining funds virtually are exhausted.

So the governor approved a $5,000 emergency grant to boost the commission's program to August 31.

Animal Health Commission now has 69 herds of cattle under quarantine due to tuberculosis. Plans call for completion of testing in 15 counties as well as additional testing in 19 more counties.

36TH COMMANDERS PROMOTED — Governor Daniel announced the promotion of the Texas' 36th Infantry Division's two top commanders. Amarillo Attorney Everett S. Simpson, commander of the division, was promoted to major general, and Ralph M. Krieger, an Abilene businessman, was named to the rank of brigadier general.

Simpson, one of Texas' most-decorated soldiers, participated in every major engagement that the 36th Division was involved in in World War II. In the same campaign, Krieger won the Combat Infantryman's Badge, Bronze Star, and Legion of Merit.

SHORT SNORTS

Gillie R. McElroy of Austin, firearms training specialist for the Texas Department of Public Safety, won the Elihu Root medal for markmanship for training civilian marksmen.

Texas Education Agency revealed that more than 100,000 Texans now have completed the Civil Defense "Education for Survival" course, leading the nation in adult participation in this program.

Miss Ruth LaVerne Gallman of Temple, education coordinator at Scott and White Hospital School of Nursing, was named to the State Board of Nurse Examiners.

Governor Daniel appointed C. D. Acker of Jacksonville, H. T. Latham of Stephenville and Paul D. Lindsey of Dallas to the Texas Finance Commission.

Mr. Merchant

YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save them money, and, take it from John D. Rockefeller, the way to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

Beneficial Rain Falls Monday In This Area

A good general rain fell in this area Monday night and brought much needed moisture. The first precipitation for the month of May began falling about 9 o'clock with the hardest rain about midnight. Some wind accompanied the moisture, but no damage was reported in this immediate vicinity.

At Deport 1.16 inches was measured on the official rain gauge, according to Jack Nixon, in charge of the instrument. As the squall line moved eastward the rain was reported in lesser amounts.

Bogata had an inch, and TP&L Rivercrest plant measured .89 of an inch. Talco also had a good rain.

The mercury dropped several degrees following the rain with temperatures registering in the mid-50's.

State Capital NEWS

By Vern Sanford

Austin.— Eight tired men will sit down Saturday night—but not to relax.

Probably it will be well into Sunday before four know that they have won and four know that they have lost the Democratic runoff primary for four important statewide offices.

John Connally and Don Yarborough have battled it out for governor. James A. Turman and Preston Smith are the two tired men in the race for lieutenant governor, possibly the most important job in state government. Waggoner Carr and Tom Reavley competed for attorney general. Woodrow Bean and Joe Pool were the busy men seeking nomination for Congressman-at-large, a statewide seat in Congress which likely will be abolished within two to four years.

Following Saturday, they can rest a bit before taking up their campaigns against the Republican nominees who are expected to make the strongest bids since 1874 in the general election on Nov. 6.

But no matter how the democraitc primary and the general election turn out, Texas will have new men in the three top state offices beginning next January.

STATE AND SYMPHONIES CLASH — A new order from the State Comptroller's office struck a discordant note with supporters of Texas' 13 symphony orchestras when they were informed that their productions will no longer be considered exempt from the 10 per cent admission tax.

The Dallas Symphony society was first to be taxed. They paid $12,999 back admission taxes under protest.

Now symphony groups in Houston, San Antonio, Abilene, Amarillo, Austin, Corpus Christi, El Paso, Fort Worth, Lubbock, San Angelo, Tyler and Wichita Falls are under surveillance of the Comptroller's staff.

Actually, no one ever told the symphonies that they were exempt from the ticket tax. But they so considered themselves under a clause in the law passed in 1936 exempting "charitable" and "educational" organizations. They never were informed otherwise.

With the advent of the new sales tax law, an enlarged staff in the State Comptroller's office was mandatory. Interpretations and rulings were necessary. One rule defined "charitable" and "educational" organizations in such a manner that collectors started hitting the symphonies for back admissions taxes.

Sen. George Parkhouse of Dallas said he thinks exemption of symphonies and similar organizations was "the intent of the 1936 law." He has promised to support redrafting of the state amusement tax law to exempt non-profit cultural institutions.

The Dallas society's payment "under protest" may pave the way for a court decision. State Comptroller Robert S. Calvert said he'll welcome one. "Frankly, I don't know if symphonies should pay an admission tax," he admitted, "but I don't think they can be called charity."

WATER PROGRAM ACCELERATED — Speed with which federal water projects are coming into final stages is shown by the fact the Texas Water Commission has reviewed 17 federal projects since September 1, with two more coming up for hearing June 11.

Chief Engineer John Vandertulip said that projects already reviewed by the commission have a total first cost of $325,366,000 of which $192,052,000 is federal.

Those projects are up for congressional authorization or financing this year, so odds are fair that work by federal agencies in Texas will be accelerating greatly in the next two or three years.

Water Commission will hold hearings on June 11 on two U. S. Corps of Engineers' projects — Plum Creek and the Sabine-Neches Waterway improvements. The latter project, which calls for deepening of existing channels to accommodate super-tankers, totals $20,830,000 federal cost and $1,548,000 non-federal.

LIVESTOCK CONTROL FUNDS SUPPLEMENTED — R. Garrett, executive director of the Texas Animal Health Commission, notified Gov. Price Daniel that nearly $9,000 of a $10,000 appropriation for livestock tuberculosis control program has been spent. Remaining funds virtually are exhausted.

So the governor approved a $5,000 emergency grant to boost the commission's program to August 31.

Animal Health Commission now has 69 herds of cattle under quarantine due to tuberculosis. Plans call for completion of testing in 15 counties as well as additional testing in 19 more counties.

36TH COMMANDERS PROMOTED — Governor Daniel announced the promotion of the Texas' 36th Infantry Division's two top commanders. Amarillo Attorney Everett S. Simpson, commander of the division, was promoted to major general, and Ralph M. Krieger, an Abilene businessman, was named to the rank of brigadier general.

Simpson, one of Texas' most-decorated soldiers, participated in every major engagement that the 36th Division was involved in in World War II. In the same campaign, Krieger won the Combat Infantryman's Badge, Bronze Star, and Legion of Merit.

SHORT SNORTS

Gillie R. McElroy of Austin, firearms training specialist for the Texas Department of Public Safety, won the Elihu Root medal for markmanship for training civilian marksmen.

Texas Education Agency revealed that more than 100,000 Texans now have completed the Civil Defense "Education for Survival" course, leading the nation in adult participation in this program.

Miss Ruth LaVerne Gallman of Temple, education coordinator at Scott and White Hospital School of Nursing, was named to the State Board of Nurse Examiners.

Governor Daniel appointed C. D. Acker of Jacksonville, H. T. Latham of Stephenville and Paul D. Lindsey of Dallas to the Texas Finance Commission.

Mr. Merchant

YOU NEED THE NEWSPAPER!

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save them money, and, take it from John D. Rockefeller, the way to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right now! Just read what the merchants are offering. Notice the invitations for you to do business with them. Notice how attractively the advertisements are set up and how inviting they are.

Business men—that is the successful ones—know advertising pays big returns. Look over this newspaper right now and pick out the successful firms. They're the advertisers. Advertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today! Mr. Merchant, is your advertisement in this newspaper?
