AT CIVIC HOUSE

Breakfast To Launch Scout Drive Tuesday

Official launching of the boy scout drive to raise funds for capital improvements has been set for Tuesday, announced G. D. Foster, chairman, Wednesday.

Foster said a kickoff breakfast would be 7 a. m. Tuesday at Civic House. During the breakfast, he said, persons who wish will have an opportunity to make out pledge cards.

Scout installations which will benefit from the capital improvement drive include the Ed Murphy Aquatic Camp adjacent to Mitchell County on J. B. Thomas Lake, Buffalo Trail Ranch in the Davis Mountains, and council headquarters in Midland.

Get One-Third

Foster said each installation would receive one-third of the $297,400 that has been set as the goal over a three year period.

He said he would like to emphasize that money donated to the United Fund did not include capital improvement expansion and that it only covered operating expenses for the council.

This drive will be the first since 1947 when the Buffalo Council Boy Scout Ranch was purchased in the Davis Mountains.

Improvements Needed

The improvements are needed to accommodate an expected 12,000 scouts by 1959. At the time of the last drive, the council was serving 3142 scouts.

Currently, there are 8000 scouts registered in the Buffalo Council, Foster said.

Proposed Facilities

Proposed improvements to the present installations include a central lodge, sail boats, boats and canoes, archery and rifle ranges, caretakers quarters, dining hall, boat dock and piers, water systems, roads and fences, land expansion and other equipment.

Chairmen for Mitchell County in the drive are M. N. Caddell, advance gift chairman; Philip Berman, business division, and John Tom Merritt, boy scout family division.

Aviation Committee Studies Three Airstrip Possibilities

Will Submit Plans At Council Meeting

Three proposals for an airstrip will be submitted to the city council at its meeting April 8, announced Dr. E.H. Berkman, aviation committee chairman.

Proposals will include utilization of the land owned by the city at the water works.

Dr. Berkman said if an airstrip were located there, it would require grading and a caliche base.

The city owns two plots of ground at the water works located in the north well field.

Rollin Snethen, city manager, said the plots were 160 acres and 80 acres and that only the 160 plot would be suitable for a landing strip.

Second Proposal

Another proposal is the extension of the present runway southwest of the gravel pit and adjoining Colorado River.

Berkman said acquisition of a small strip of land and use of city property would allow the runway to be extended to 3100 feet.

The present strip is 2300 feet. Berkman said a 3100-foot strip would accommodate twin-engine planes and could be equipped to meet CAA standards for a class three airport.

A class three airport requires facilities such as lighting, paved runway, taxi way, signal beacon, approaching clearance and weather vane.

Acquire Land

A third possibility is acquisition of land suitable to meet CAA specifications and building a class three airstrip.

Berkman said funds may be obtained and that financial support from the city probably would be required.

He said the aviation committee had received numerous letters from companies in the county which favor obtaining a landing strip suitable for company planes to land on.

Get Letter

Just recently, a letter from J. B. Thomas, president of Texas Electric Service Company, was received by the committee.

It stated, "In reply to your recent inquiry, our company

"The board of trustees, administration, faculty and student body," the announcement said, "are proud of the new facilities just completed and now in use.

APRIL 15 DEADLINE

Inspection Rush Due If Car Owners Delay

With the April 15 deadline for vehicle safety inspection slightly more than two weeks away, 3307 of the 6045 vehicles in Mitchell County have been inspected.

Area Inspector John A. Marion of San Angelo said this number was about 54 per cent of all vehicles.

Urges Owners

He urged vehicle owners to have cars and trucks inspected as soon as possible to avoid last minute rushes.

J. S. (Jay) Craddock of Craddock-Witten Motor Company Wednesday said inspections were "picking up" but owners should come in now for inspections.

He said last year that they were pretty well rushed and could not handle all the inspections that came in at the last minute.

Dude Robertson, shop foreman for Jay Adams Chevrolet Company, said if owners did not come in now, they would have to turn a lot of them away.

"Last year two mechanics did not do anything but write stickers and then some vehicle owners had to be turned away," he said.

At the Hunter-Merket Pontiac Company, Foreman Stanley Hamner said that inspections were above par for the same time last year.

Director Cautions

Meanwhile in Austin, Col. Homer Garrison Jr., Texas Department of Public Safety director, cautioned motorist against waiting until the last minute for vehicle inspections.

The director reminded motorist of the impending deadline with a note of concern.

He suggested that automobile owners visit an inspection station before lines become long and cause a loss of time and effort.

Well, all we know is what we see in the papers, and note some of the candidates appear to be doing their utmost to knock Judge Yarborough. As far as we know, Judge Yarborough has never, at any time, knocked a single one of his opponents. In fact, Yarborough is good enough man to win without being a knocker. We freely predict he will poll at least 75% of the votes in this 13-county area. Yep, West Texas is Democrat country.

W. L. Doss, owner of W. L. Doss Drug, has received the new mortar and pestel trophy, presented by Rexal Drug Company as an annual award to its outstanding member druggists.

The award is an authentic replica of a 16th century bronze mortar and pestle cast at Deventer, The Netherlands, in 1590.

Making the presentation here to Doss was C. M. Wilcox, representative of the Rexall Company.

Olton Pastor To Conduct Revival Here

Rev. B. Winfred Ritter of Olton will conduct a revival at the Church of the Nazarene, beginning Sunday.

Services are scheduled daily at 7:30 p. m. through April 7 at the church, E. 15th St. at Vine and Austin, according to the pastor, Rev. James Poe.

Rev. Ritter is one of the outstanding young ministers in the Abilene District of the Church of the Nazarene, according to Rev. Poe. He has been pastor of the Olton church since June 1956 following his graduation from Bethany Nazarene College in Bethany, Okla.

Since Rev. Ritter's pastorship, the Olton church has expanded in membership.

Rev. Poe said the public is invited to attend the revival services.

Catsup Fire Routs Firemen

Firemen were called Thursday morning when a box car load of catsup caught fire while the train was en route here.

Workers on the train called ahead and Colorado City Volunteer firemen were waiting when the train arrived.

After about ten minutes, the blaze was extinguished.

It was said that the fire probably started when the brakes stuck and would not release which caused sparks that ignited the box-car floor.

Officials were not able Thursday morning to give an accurate report of damages, it was said.

Boys Compete In ACC Field Day Contests

Vocational agriculture boys of Colorado High School entered the Abilene Christian College field day and judging Monday at Abilene.

Agriculture Teacher James Trammell said the contests would serve as a preliminary to the district and area contest April 27 at Texas Tech.

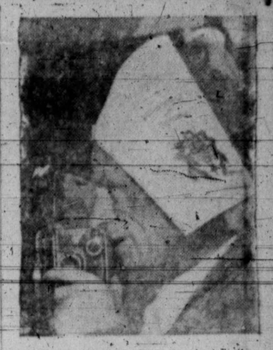

Boys who entered the competition at Abilene included Morris Hammond, Dickie White, George Davenport, Perry Mitchell, dairy.

Billy Ward, Clifford Franklin, Clifton Franklin and Marvin Holman, poultry; Robert Holman, Rex Northcutt and James Harris, land.

Tommy Hammond, Melvin Walker, Dwayne Carpenter and Charles Wiggins, livestock.

The administration has urged Congress to do away with the 46-year-old Postal Savings System to withdraw the government from this competitive business.

IN BLUEBONNET RELAYS

Wolves Face Rugged Test At Brownwood, Saturday

Colorado High's track meet will battle against the strongest teams in Central Texas Saturday when they enter the Bluebonnet Relays in Brownwood.

Coach Joe Burk's team will begin competition in the preliminaries at 1:30 p. m. Saturday and the finals Saturday night.

Each school is allowed only two entries to an event.

Lucky Merket is Burk's choice for the 100-yard dash while Bancker Cade will enter either the 100 or 220-yard dash.

Don Black, with either Don Powell or Barton Smith, will enter the 440-yard dash.

Delbert Lewis, with either Buzz Cade or Bernado Paredes, will take their strides in the open half mile race.

Freddie Womack, Mike Schoolcraft or Bob Aycock will be Burk's choice in the mile run.

Barton Smith and Jerry Lady will top the timbers in the 180-yard low hurdles while Smith will handle the 120-yard high hurdles alone.

Black, Lewis, Merket and Cade will handle the baton in the 440-yard relay. Powell will sub for Merket and join the other three in the mile relay.

Cade and Merket are entered in the broad jump with Jimmy Richardson and Bobby Caffey in the high jump. Doug Chandler and Truman Stinson will concentrate on the pole vault.

The two stars of the team Jim Windham and Dru Vowell will attempt to keep their winning ways in the shot and discus.

Windham, who set a new shot record of 52 feet 8 ½ inches last week at Odessa's West Texas Relays, is currently ranked third in that event in the state.

Raeford McIlhaney of McCamey has the year's best toss of 54 feet 4⅛ inches, but Windham whipped him last week at Odessa.

Second is Allison of Houston Lamar with a throw of 54 feet 2 and three fourth inches.

Windham will be favored to win the event at Brownwood.

Vowell, who should pick up points also in the shot, has started to excel in the discus throw. His toss of 149 feet 10 inches last week at Odessa gives him the ninth best throw this year in Texas.

He could possibly win first in the discus this week.

Brady and possibly Brownwood will be favored for the team title.

PROFESSIONAL MATCHES SET APRIL 13

McCallum to Attempt Unveiling Of El Diablo in Wrestling Bout

Will Bill McCallum be able to unmask El Diabo, the Masked Marvel?

That will be the big question in every fan's mind when they attend the Jaycee-sponsored professional wrestling matches in Junior High Gym, Saturday, April 13.

Texas Wrestling Association, in cooperation with the Jaycees, will present a spicy wrestling card on that date with five big events.

The wrestlers, in their prior appearance here in June of last year attracted a capacity crowd.

And Bob Reily, chairman of the Jaycee sports committee, said Thursday that he anticipated even a larger crowd of these matches.

The Masked Marvel and McCallum square off in the first event, a one fall, 20-minute time limit affair.

Diablo is one of the more colorful wrestlers on the circuit today. A special clause in his contract forbids the release of any information pertaining to his identity. He will unmask only when he is beaten in a singles match, but so far he has defeated all his opponents in Texas.

He is dynamite inside the ring, and backs up his claim to be the roughest, meanest grappler yet.

It is possible that some of the TV fans will recognize him, but he has changed his style of wrestling to preclude that possibility.

McCallum, Diablo's opponent, is a clean-cut college wrestler and another one of those who are daily entering the wrestling ranks and raising the standards of the profession.

As a college wrestler in Oklahoma, he won the light-heavy weight title, but has since graduated into the heavy division.

Although he is comparatively small 200 pounds — he more than makes up for his size by his aggressiveness. He dazzles his opponents with brilliant displays of aerial tactics and high speed maneuvers. Although outweighed in his match with Diablo, the contest will be an interesting one with Bill's speed and courage pitted Diablo's superior size and strength.

Diablo will weigh in at 230.

Entering the ropes for the second event will be Sailor Henson, 220, of Norfolk, Va. and Bob Gurley, 220, of Atlantic City, N. J.

Gurley is the only wrestler who appeared on last year's card to return this year. He was one of the more colorful performers last year.

The third event, also a one fall, 20-minute time limit, will feature Buddy Farmer, 255-pound heavyweight champion of Montana against Cowboy Bill Cody, 200, of Laramie, Wyoming.

The fourth event, with no time limit, promises to be a royal tussle. All six wrestlers will engage in a Battle Royal. The last four men eliminated will be eligible for the team-tag match.

And the fifth event will be those four men in the team-tag match, featuring two of three falls with no time limit.

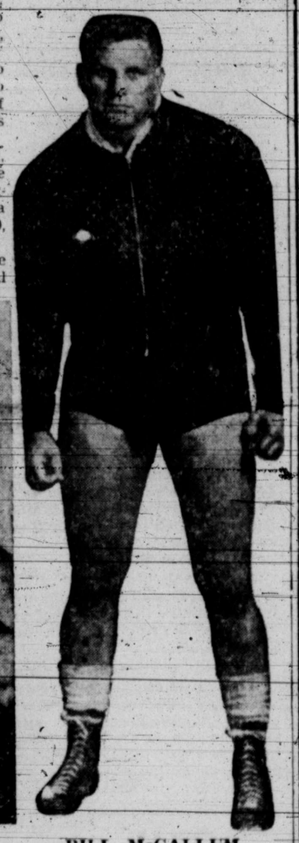

Prices have been lowered over the previous matches. Ringside seats will sell for $1.75, general admission $1.25, students and children 50c.

This is a reduction of 25c each on the ringside and student tickets.

Starting time for the matches will be 8:30 p. m.

Junior Trackmen Go To Sweetwater Meet

Colorado Junior High's three track teams will engage in competition again this week, meeting a host of teams Saturday at Sweetwater.

Expected to compete are Colorado City, Sweetwater, Snyder, Stamford, Silver, Big Spring and possibly other teams from the Sweetwater area.

The junior high district meet is scheduled Saturday, April 6 at Snyder.

In last Saturday's meet at Snyder, the three teams — ninth, eighth and seventh failed to produce a first place winner but picked up several places.

In the ninth grade division, Bill Davis threw the 8-pound shot 47 feet to take second place. Dickie Richardson sailed the discus 122 feet 5 inches for third and the sprint relay quartet picked up fourth.

In the eighth grade class, the local team picked up three third places and a tie for a first. Red Lemons won third in the discus with 115 feet and Jerry McKay broad-jumped 17 feet 4 inches for third. The sprint relay finished in third spot.

Lewis Harrison leaped 4 feet 10 inches in the high jump to tie with three other leapers for first place.

The seventh grade team scored in only one event with Jim Ruth taking fourth in the shot put.

Additional events added this week at Sweetwater include the 440, 880, mile and pole vault.

Housing A Postponable Item?

Asked recently what might be done to ease the repressive effects of the Federal Reserve Board's tight-money policy on home building and home buyers, Vice Chairman C. Canby Balderston replied: "Housing is a postponable item."

This cavalier attitude toward a 20 billion dollar a year industry and the millions of families who want and need housing raises some questions—to which, we believe, the people deserve straightforward answers:

If housing is postponable, is the huge building materials and supply industry postponable? Is the lumber industry postponable? Are the furniture, home furnishings and housewares industries postponable? Are the housing needs of American families of modest means postponable—in the face of clear evidence that we are heading for disastrous housing shortages in the 1960's unless production can be stepped up now? And are the jobs and living standards of the millions who work in and for the housing industry postponable?

Does the Federal Reserve Board suggest through its Vice Chairman that perhaps a little more unemployment would be good for the American people? Layoffs have begun in key industries dependent o nhome building. Once started, a downward spiral could be difficult to halt, and it is quite possible the Federal Reserve Board in the not-too-distant future may find itself fighting not inflation but recession.

We have no quarrel with the fundamental need for sound economic policies to prevent runaway inflation. But what are the facts? The board began tightening the monetary screws in 1955 with the announced intention of curbing credit. In that year industry spending for plant and equipment expansion amounted to about 25 billions. In 1956 it was 35 billions and so far this year the spending rate is 40 billions.

Where has this extra credit come from? It has come largely from the resources normally available to home builders. Favored with special tax advantages over home builders or buyers, corporate borrowers have been able to get all the credit they need (perhaps more) by paying increasingly higher interest rates. The result is clear. In 1956, there were 200,000 fewer homes built than in 1955 and a further drop seems inevitable this year. Practically all of this loss has occurred in the VA and FHA markets. The GI housing program is all but dead because lenders will not buy mortgages at a 4½ per cent interest rate.

Home building almost has been stifled here in Colorado City for months and months because of the tightening tight-money policy. And what construction and selling of houses here, and elsewhere, accomplished in light of current tight money policies just about forces a veteran or builder to break the low. For GI loan prohibits a veteran from paying extra loan costs, yet to obtain a loan someone now must pay almost 1½ per cent of the total loan just to place the loan mortgage on the market.

The blunt fact is that housing, and particularly moderate and low-cost housing, is the only segment of our economy which is being "postponed" by tight money. And it is high time for a re-examination of the board's policy, its overall effectiveness, and the fairness of its application to borrowers at every economic level—when the American family can borrow for a Caribbean pleasure cruise, but not for a VA-insured home.

Local voters need to check the calendar for a series of near dates which will call them to the polls.

True, the voting strength of all Mitchell County is seriously weakened this year because less than 2,000 persons were interested enough in their freedom's democracy to pay their poll tax and, thus, become qualified for the elections.

And unless those who are qualified put a reminder on their date books, that voting strength will be even less when the time comes to decide who will be the state's new U. S. Senator and who will represent the citizenship locally on the school board and city council.

'Do-It' Fad Hits Washington

TEXAS DEPARTMENT

Agriculture Marks Golden Anniversary

By JOHN C. WHITE,

The Texas Department of Agriculture is 50 years old this month.

Voted into existence by the Texas Legislature in January of 1907, to become operative in March of that year, the original agency had four employes whose duty was nothing more than to organize farmers' institutes over the state to keep alive agricultural interests.

Future sessions of the legislature broadened the scope of activities and established greater powers for the protection and furtherance of Texas agriculture.

Major Agency

Today, 50 years after its inception as a bureau of limited function, the Texas Department of Agriculture is a major state agency charged with the administration of agricultural laws and providing services to all Texans through its many and varied duties.

To carry out the numerous and important tasks of the department there are now some 140 employes with the Commissioner of Agriculture as head.

Briefly, the Texas Department of Agriculture serves to keep open the channels of trade within and without the state for Texas farm products.

Promotes Expansion

It promotes, fosters and encourages expansion of Texas agricultural industry through recognized inspection procedures such as quarantine control measures against certain plant diseases and pests; makes available to farmers and seedsmen better planting seed, both registered and certified; protects the entire public through inspection services from fraudulent and dishonest weighing and measuring devices; prevents operation of improper nursery, floral and other agricultural businesses through licensing, registration and inspection; provides market news reports of primary benefit to the farmer; and expands and develops better markets for Texas agricultural products.

Few Remain

It is the only major state agency established by statute and is one of the few independent farm agencies remaining in the United States.

Through reorganization plans carried out in the last few years, the Texas Department of Agriculture has become more self-sustaining in order to provide more services to more Texans at less general cost than at any time in its entire 50-year history.

SEVERAL LEGISLATORS TESTIFY

Insurance Probes Reach 'Pick-and-Shovel' Stage

By VERN SANFORD,
Texas Press Association.

Legislative digging into the affairs of ICT Insurance Co. has reached the pick-and-shovel stage.

Previous sensation-a-day pace could hardly be maintained. In prospect now is an exhaustive turning over of every detail of the bankrupt company's financial history. Goal is to discover if crash was due to any violations of law or lack of adequate laws or enforcement.

One possibility for fresh sensations would be the return of BenJack Cage, former manager of the company. Cage is in South America. He said he would be glad to talk with the committees, but was busy right now and couldn't get away.

Cage's successors at ICT have accused him of squandering the company's funds in numerous bizarre promotional schemes.

Recent disclosures from testimony:

(1) Former Insurance Commission Chairman J. Byron Saunders received some $7,000 from ICT Discount Corp. in monthly checks. Saunders said it was in payment for his interest in Wood County oil wells. Atty. Gen. Will Wilson questioned Saunders closely as to why the money was listed on his income tax return as legal fees rather than money from a property sale.

(2) Two former Insurance Commission examiners were asked to explain if they were the same men whose names appeared on checks from a BenJack Cage interest. A doctor certified the two, L. W. Blanchard and Robert Butler, were too ill to testify. Both had been discharged from the commission for alleged connections with another company that went broke.

(3) Renne Allred Jr., court-appointed liquidator for ICT, charged the company was organized with borrowed money, a procedure contrary to state law. He also said year-end statements were fattened by short-term loans.

(4) Several legislators and former legislators testified concerning fees from ICT. Most were small in amount and received some time ago.

Trouble Hits

Physicians Life Insurance Co. of Dallas is to appear before the Insurance Commission Thursday (March 28) to show cause why it should not lose its license.

This is only one of the difficulties faced by the company headed by Former Gov. Coke Stevenson.

It is one of several Dallas-based insurance companies that are to be investigated by a special Dallas County grand jury.

Governor Stevenson said the original founders of the company sold some of their stock through the company at a tremendous profit and retained the money themselves. None of these people is in authority now, he said, and the firm has sued for recovery of the money. "It will go a long way to get things straightened out," he said.

Stevenson also told stockholders the company's future solvency requires it to get loose from a commitment to take over assets of American Atlas Ins Co. fram the state receiver. Federal tax liens against American Atlas were discovered after the deal was made.

Another Insurance Commission order gives Legal Security Life of Dallas until April 15 to clear up charges it falsified its books to show assets in excess of their true value.

History Confused

House bribery investigators are having slow going with the Texas Naturopathic Association.

Efforts to uncover details of the TNA's past legislative activities have been repeatedly balked by faulty memories and lack of records.

On the committee's recommendation the House formally censured ex-Rep. James E. Cox of Conroe. Cox has been indicted on charges of agreeing to accept a bribe from the TNA.

Panel then turned its attention to reports of a fund raised by the Naturopaths "to educate" the Legislature in 1955. Fund was variously estimated from $8,000 to $50,000.

But only hazy and conflicting testimony was received. No records were kept, said a former office secretary.

Irked by it all, the committee prepared contempt charges against a Dallas naturopath, Dr. Robert Spears, for refusing to answer questions about his background.

Texas' big gush of oil production was short-lived. Europe couldn't use it after all.

Commission Cuts

Texas Railroad Commission cut the April allowable by 224,710 barrels a day. It is to be at 3,564,665 barrels a day on a 16-day producing pattern. This puts things back about as they were in February before the big jump to 18 producing days in March.

Major oil companies had strongly urged increased production on the commission. But after three weeks under the higher pattern, they were unanimous in asking a cutback.

News of the lower allowable brought uneasiness to Legislators. Hhey had been counting on high oil production to bring in the increased revenue to put over their record spending program without new taxes.

Calvert Forecasts

State Comptroller Robert S. Calvert had forecast an extra $100,000,000 for the next biennium. After the Railroad Commission order, Calvert said he was not changing that forecast yet. It included some leeway for fluctuation in oil revenue, he said.

Bill to prohibit limiting of sales for below-cost items is back. Senate State Affairs Committee approved the measure sponsored by Sen. A. M. Aikin Jr.

A similar measure passed in 1955 was outlawed by courts because it applied only to groceries. Aikin's bill applies to all retailers.

A record crowd attended the committee meeting. Bill is generally favored by smaller grocers who contend it is necessary to prevent big chains' usurping all the business with drastic price cutting.

Short Snorts

Texas Research League announced it has accepted the Insurance Commission's request to survey its activities and offer suggestions for more efficient operation. A bill to make parents liable up to $300 for a minor child's property damage is unconstitutional, ruled Atty. Gen. Will Wilson. Former Congressman Brady Gentry of Tyler was appointed Highway Commission chairman by Gov. Price Daniel. Gentry previously headed the Commission from 1939-45. Texas highway deaths during 1956 hit a record-breaking 2,611, reported the Dept. of Public Safety. In closing its statistical books for the past year. More discouraging, the number of deaths per miles traveled also inched up

Put its instant response and Precision-Touch Control to a traffic test. Choose your own rough stretch and feel it disappear under Pontiac's Level-Line Ride. Then head for the open road and give that deep-breathing power plant a chance to show its mettle in the fresh open air. *Man—you've got a champ on your hands for sure!* And to make it even more fun—there's a chance to win a free Pontiac! Just follow the instructions at the right—*you* may be a winning driver!

"SUFFERING ITSELF DOES LESS AFFECT THE SENSES THAN THE ANTICIPATION OF SUFFERING"

—*(Author's Name Below)—

Pain is a warning that something is wrong that needs correcting. To suffer any pain continuously in this modern age is unnecessary.

Modern dentistry is practically painless. New analgesics and tranquilizers can quickly ease any pain or relieve nervous tension. Never delay visiting your dentist at the first sign of any trouble.

Better yet, let your dentist check your teeth twice a year, and let him help you to prevent future pain.

DRY, ANYWAY—It might not be too comfortable, but this wastepaper basket is an excellent place to keep your feet dry while doing a little sight-seeing. This visitor to Paris appears to be quite satisfied with his perch while examining Notre Dame cathedral with the aid of a guide book.
