## 4-H's Go To The Market Place

Older 4-H members are concerning themselves more and more with the economics of farming, particularly supply and demand. In addition to learning how to grow quality crops, the young agri-businessmen are eager to learn how to sell their products at the peak profit periods.

The 4-H Grain Marketing program is an example of this kind of activity. And it is the consensus of 4-H leaders that the various phases of the program "provide an excellent opportunity to learn about the economics of market processes."

To make the learning more realistic, the Chicago Board of Trade will sponsor trips for two grain project members and an adult 4-H leader to Chicago where they will participate in a three-day educational grain marketing tour and clinic. The offer is made annually to a total of 13 states in the grain and corn belts. The project is supervised by the Cooperative Extension Service.

The next clinic is scheduled for January 29 through 31. Arrangements for the event are made by the National 4-H Service Committee.

One of the highlights for the young people is to watch the opening of the trading pit at the Board of Trade, and later to mingle with the traders and witness the exciting trading procedures. The delegates will see educational films, exhibits, and visit some of the testing and grading labs.

To be eligible for a trip, the 4-H'er must be over 14 years of age, and have completed at least three years of club work with emphasis on crop production and marketing.

## Pony Passer Quits Team

DALLAS (AP)—Southern Methodist University has lost Jerry Rhome, the quarterback who led the Southwest Conference in passing as a sophomore.

Rhome quit SMU Wednesday with the explanation that he did not want to play under the style offense that Coach Hayden Fry is installing.

Rhome played under Bill Meek last fall and got to pass a lot. He explained, however, that Fry was using a ball-control style and that he wanted to play on a team that used a more wide-open attack.

Rhome will not be eligible to transfer to another Southwest Conference school but he said he had several colleges outside the Southwest Conference in mind.

## Connie Mack Series Won By Fort Worth

SPRINGFIELD, Ill. (AP)—Fort Worth won the Connie Mack World Series Wednesday with a 5-0 shutout over Springfield, Ill.

Fort Worth pitcher Tom Matlack struck out 12 Springfield batters in fashioning a two-hit triumph.

## Russian Netter In 'First Time' Win

By ED CORRIGAN  
Associated Press Sports Writer  
FOREST HILLS, N.Y. (AP)—"I was scared when I first got out there... plenty scared. But then after a while, I wasn't so nervous and by the end of the match, I felt fine."

That's how 17-year-old Alexander Metreveli, the first player from the Soviet Union ever to win a tennis match in the United States, described his feelings on Wednesday after winning his qualifying match and earning a spot in the National Tennis Championships. The tournament proper gets under way Friday.

Metreveli, shaky at the start, downed Bronson Van Wyck of Montclair, N.J., 3-6, 7-5, 6-3, 6-2 in one of the two qualifying rounds played at the rain-drenched West Side Tennis Club. David Asz of Israel turned back Ed Turville Jr. of St. Petersburg, Fla., in the other, 6-4, 9-6, 8-6, 1-6, 6-4.

"I thought the turning point in the match came when I started returning Van Wyck's service better," said Metreveli through an interpreter. He speaks English, but said he can express himself better in Russian.

"We don't have any grass courts in Russia," he added, "so I take some time getting the feel. But with a little practice, I think I'd like them better than any others. Actually, I have played grass before at Wimbledon. But there is a difference in the bounce of the ball there and here and that's something else I had to master."

Metreveli plays the standard game that all the youngsters follow these days—hit service and rush to the net for the kill. Van Wyck, the fifth ranking junior in

## Speed, Size, Depth Problems Face Gail's New Head Coach

By JERRY JACKSON  
News Sports Editor

GAIL—Gail's Coyotes, hurtling for speed and size, will be hard-pressed to measure up to past glories.

That opinion was expressed by the Borden County school's new coach, Jim Hooper, who replaces Eddie James at the helm of the team. A lack of reserve strength will also hamper the Coyotes in their assault on the District 2 (Region 1) flag, as only eight experienced returnees are back to help staff the eight-man team in its efforts.

The Coyotes have a fine tradition and reputation to uphold, however, and could end up being quite a bit tougher than the painted picture, barring unforeseen injuries. Hooper is particularly gratified at the attitude and desire which is evident in his charges, and—though he does not expect

## Tigers Test Tribesmen Tomorrow

Tomorrow night is "the" night when Snyder's Tigers test their spurs against an opponent for the first time this season.

It is at that time that they will go up against the Seminole Indians in Seminole in a practice scrimmage set to get underway at 7:30, with a large group of Snyder's people expected to make the trip over in order to witness the preview battle.

That practice session will be one of two such pre-season clashes, the other being against Midland in Snyder one week hence.

the East, has a good service, and so long as he kept it under control, he did all right. But Metreveli solved it and that was the match.

Actually, few questions were answered on the quality of Metreveli's play. Van Wyck, also 17, holds no national ranking at all. On the other hand, Metreveli did beat Ken Fletcher, a pretty good journeyman Australian, in Moscow recently.

## Texas-Size Welcome

DEL RIO (AP)—Del Rio's Little League players came home to a roaring reception Wednesday. A crowd of more than 10,000 turned out to greet the 14 boys who played in the Little League World Series at Williamsport, Pa., winning fifth place.

Not since President Eisenhower came here in 1960 had there been such a reception.

Del Rio lost its first game in the opening round of the series but defeated the Canadian and European champions to become known as world champions.

## Longhorns Dubbed As Team To Beat

AUSTIN (AP)—The University of Texas Longhorns loom as the football team to beat in the Southwest Conference this fall.

With 27 lettermen from 10-1 season last year, Coach Darrell Royal will be looking for his first undefeated year since taking over in 1957.

Royal is banking heavily on fullback Ray Poage, a swift runner who averaged over five yards a carry last year.

Pat Cullenpepper will carry much of the defensive load in his third year as Royal's number one linebacker.

For All-America tailback James Saxton, Royal finds two ready replacements in Jerry Cook and Tommy Ford. Each of the tailbacks had more playing time last year than Saxton.

One of Royal's main problems will be finding a replacement for quarterback Mike Cotten who provided steady leadership for two seasons. The top contenders are Johnny Gemm, Duke Carlisle and Tommy Wade.

The powerhouse in the line will be tackle Scott Appleton, a 225-pound junior. End Tommy Lucas and guards Marvin Rubin and Johnny Treadwell were starters last year and will return.

At wingback Royal will probably start senior John Allen Cook, but will have promising sophomores Ernie Koy Jr. and Joe

Dixon to alternate Koy, the son of a former Longhorn great, will see a lot of action in the Longhorn's kicking game. As a freshman, Koy kicked 28 times for a 38.1-yard average.

Texas opens practice next week to prepare for a Sept. 22 opener with Oregon.

Texas had a spring practice full of injuries and fears the same can happen this fall. Poage ran on the track team during the spring after missing three games last year with an injury.

"Our strong point will be experience this year," Royal said, "but we still have to replace seven starters—three of them in the backfield."

"Our defense also will be down a bit from last year."

The Longhorns, who scored 303 points to 66 for the opposition last year, meet Tulane, Oregon and Oklahoma as the only non-conference foes before taking on the seven conference challengers.

Royal is banking heavily on 11 seniors to provide the leadership he will need to keep his team fired up each weekend.

Ed LaDuke, second baseman for Indiana, led the Big Ten in hitting last spring with .431. He has signed with the New York Mets.

# Tribe Trips Yanks Twice

By JIM HACKLEMAN  
Associated Press Sports Writer

Bob Allison homered with two on, highlighting a four-run first inning that carried the Twins over the White Sox. Minnesota's early spurge against Ray Herbert came with two out on singles by Rich Rollins and Harmon Killebrew. Allison's homer, a double by Bernie Allen and Zolo Versalles' single.

Pena, winner in three of four decisions since being brought up from the minors by the A's a month ago, allowed a pair of singles to Jim Fregosi, one to

added to their total off relievers Bob Turley and Tex Clevenger.

Jackie Brandt swung the big bat as the Orioles exploded after two successive shutouts at Washington. Brandt homered, tripled and doubled for three of Baltimore's eight extra base hits, knocking in four runs.

They're heading into the stretch now and the Indians have dropped off sharply. But they're still giving the Yankees fits.

With a late-inning rally in one game and an early-inning spurt in the other, Cleveland's seventh-place Tribe beat Ralph Houk's reeling Yankees twice 3-2 and 9-5 Wednesday. It was the Indians' fourth doubleheader sweep over New York this season and gave them 11 victories in 17 games with the fizzling Bombers.

More importantly, it made eight losses in the last 10 games for the Yankees — and a couple of pursuers are moving up.

Star right-hander Camilo Pascual won for the first time since afflicted with a sore elbow a month ago as Minnesota took its fourth in a row, 5-3 over Chicago, and moved into second place — two games back of New York. Kansas City trimmed Los Angeles 6-0 on Orlando Pena's three-hit pitching, but the Angels inched up a half game on the Yanks and are three games off the pace.

Baltimore cut loose for a 9-3 romp over Washington. The Detroit Tiger-Red Sox doubleheader at Boston was rained out.

In the National League Los Angeles pushed its lead to 2-1/2 games, overcoming Cincinnati 2-1 in 13 innings following runnerup San Francisco's 19-3 loss to Milwaukee; Pittsburgh beat Chicago 5-2; Houston shaded St. Louis 3-2 and Philadelphia tripped New York 3-2 in 10 innings.

The Indians settled the opener at Yankee Stadium with a taloo of four straight singles off southpaw reliever Bud Daley after two were out in the eighth inning. Hits by Tito Francona, Willie Kirkland and John Romano broke a 1-1 tie and Woody Held drove across what proved the clincher. Roger Maris homered in the last of the eighth and hit no. 31 in the second game.

Cleveland warmed up with two runs off rookie Jim Bouton in the second inning of the nightcap, made it 5-0 in the third on Kirkland's three-run homer, and

## Folley Fells Odessa In Heavyweight Bout

PHOENIX, Ariz. (AP)—Zora Folley, the world's third-ranked heavyweight, knocked out Al Gonzales of Odessa, Tex., in 1:55 of the fifth round Wednesday night.

Folley weighed 200, Gonzales 191. A crowd of about 2,000 watched the bout.

Folley, of Chandler, Ariz., started slowly, but quickened the pace in the second round and had Gonzales back-pedaling through much of the bout.

He sent Gonzales to the canvas for a mandatory eight-count in the third round.

Folley ended the bout with two quick lefts and a right cross.

Billy Moran and one walk in throwing the Angels Norm Sabren carried in the first run off Bo Belinsky 8-4 in the fourth when he tripped and scored on a ground out. Bobby Del Greco singled a run across against the celebrated Los Angeles left-hander in the fifth and Jerry Lane's shanked hit for a two-run double in the seventh.

## Bathing Suit Issue Offers Some Oomph For Campaign

By INEZ ROBB

It resolves itself into a question of whether or not voters can afford to wait until the November election to repudiate the occupants of the White House and salvage the national honor.

Would it not be simpler and quicker to impeach the President and the First Lady for the heinous offense of wearing what other Americans do when they spend a day at the beach?

The overriding issue of the 1962 campaign, hurled into the political fray by a Baptist minister, centers on the one-piece bathing suit for women and bathing trunks for men—beach garb that has been standard in this country for at least a quarter of a century. Here at last is an issue into which every voter can sink his teeth and his prejudices!

The issue has been raised by the Rev. Willis J. Ray, executive secretary of the Colorado Baptist General Convention. He has leveled the harshest of charges against President Kennedy and the First Lady for appearing publicly in such raiment.

From pictures appearing in our daily press, the Rev. Ray has written Sen. Wayne Morse (D., Ore.). "It appears that all decorum, dignity and decency has been thrown overboard by our President and our First Lady!"

Here is a ready-made issue for the GOP and the Republican press. The Kennedys, wearing the accepted bathing attire of millions upon millions of their fellow citizens, have, nonetheless, destroyed the decorum, dignity and decency of the nation!

Indeed, this issue is so serious

Roosevelt? Dwight D. Eisenhower? Could Cal Coolidge Swim?"

The issue of the one-piece bathing suit will not much-needed oomph and pep into the coming campaign. For this we are indebted to the Baptist minister who also complains to Senator Morse that Mrs. Kennedy has no business going to Italy to visit a beloved sister or to have innocent fun.

Well, sir, I can't wait to read the reply of Oregon's senior Senator, a noted maverick. As the nation knows, Senator Morse is apt to say anything, even "Honi soit qui mal y pense."

### 'Black Box' Is Confused

EDWARDS AIR FORCE BASE, Calif. (AP) — Something in the Black Box kept tripping switches that weren't supposed to trip, the X15 pilot said after his heat test flight Wednesday.

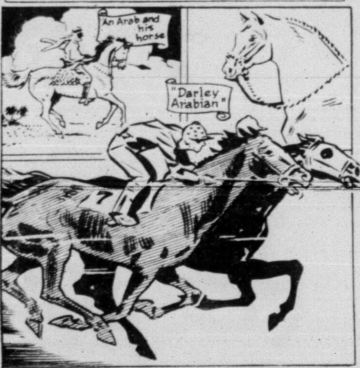

Air Force Maj. Rober Rushworth was referring to the Stability Augmentation System on the sleek black craft. It's designed to shut off the yaw damper, which checks side-to-side motion. Instead, the roll damper went off Wednesday.

Rushworth switched to an auxiliary system and landed without further incident.

It was the third straight such incident on X15 test flights. Officials said an investigation is under way.

The stubby-winged rocket ship shot up to 97,000 feet and 3,443 miles per hour. Temperatures on its steel alloy skin reached 1,100 degrees, 180 below the ship's high reported to date.

### Junior Editors Quiz on HORSES

QUESTION: What is the fastest breed of horse?

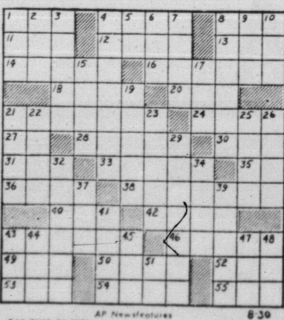

ANSWER: Racing fast horses is a very ancient pastime, having been practiced in Asia Minor about 3,500 years ago. The Arab, especially, loved his horse and took great care of it. Gradually a breed of beautiful Arabian horses faster than others came into existence. It is said that the depth of chest and large windpipe made this speed possible. As England became richer, horse racing developed and the English discovered the famous Arabian breed, importing a number of them to breed with their own stock. From this combination came the Thoroughbred, or race horse, the fastest horse in the world. It is said that all Thoroughbreds of today can trace their ancestry back to the famous sires imported from the East: the Byerly Turk, the Godolphin Barb and the Darley Arabian. While an ordinary horse trots at nine miles an hour and gallops at twelve, the Thoroughbred can make over forty miles an hour at full gallop.

FOR YOU TO DO: Sketch a horse. Notice how long his legs are. See how the neck goes high up in the air. Notice, too, that in the gallop, the horses' necks are reaching forward.

(Bryan Sorensen of Manhattan, Kan., wins \$10 for this question. Mail yours on a post card to Junior Editors in care of this newspaper.)

## Mutual Funds Point Up New Angles

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP) — The furor over whether mutual funds are managed to the small investor's greatest benefit points up yet another angle of the securities business—the growing dominance of financial institutions in the corporate field.

Mutual funds, pension funds, foundations, insurance companies, personal trusts, college endowment funds and the like, all are steadily increasing their share of outstanding common stock in the larger and more prominent corporations—whether blue chip or growth.

Since the 17 million individuals who own shares rarely hold a large percentage per person in any one company, the influence of the big institutional investors grows more important each year.

Traditionally the funds have stressed that they do not interfere in corporate management. The publicly stated policy is to switch holdings if a company's future looks doubtful or its management ill-advised. But there have of late been a few instances when large institutional holders have questioned whether they should follow this course or take a hand in better affairs.

The phenomenal popularity of the mutual funds—total assets soaring from \$1.5 billion in 1948 to \$19.5 billion today—has meant a growing ownership by these financial institutions of common stocks in U.S. industry, although total assets also include other forms of investment.

Pension funds have grown as fast or faster. And they have bought more common stock in recent years than have the mutual funds. Pension fund purchases last year alone are put at \$2 billion. Their total reserves, including other forms of investment, are estimated as high as \$55 billion.

Personal trusts managed by banks or professional investment advisers are put at around \$60 billion. The amount in common stock fluctuates as first stocks or then bonds look better to the experts.

Life insurance reserves of around \$128 billion are only partly invested in common stock. But such investment holdings add to the total in institutional rather than private hands.

Foundations often hold huge blocks of common stock in one corporation. Although frequently such shares are denied voting privileges, the ownership of company assets is still a potential, and the dividend takes in a very tangible fact of corporate life.

Few large corporations have any one individual shareholder with a large percentage of outstanding stock. Often the biggest holder is a pension fund, or some other financial institution.

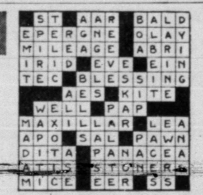

Against some 17 million individuals who own shares personally, there are about 100 million who are benefited by corporate profits as dividends are paid to the pension funds or other institutional investments in which they are involved.

BALTIMORE (AP) — Herbert Herman's cleanliness helped a thief make a clean getaway.

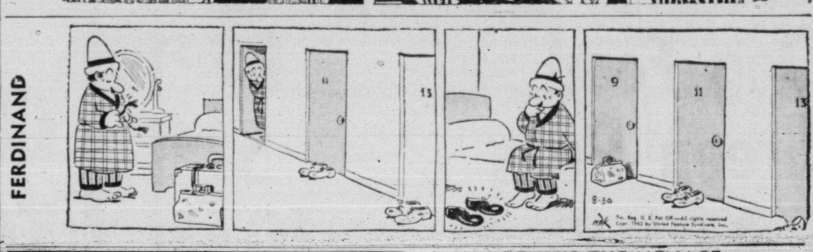

Herman gave chase Wednesday when he saw a youth take a \$200 ring and a wallet containing \$94 from his bedroom.

When the thief ran out the back door, Herman stopped short, remembering he had been taking a shower.

**MEXICO CITY**—In response to queries about journeying around Mexico your shipwrecked correspondent offers the following information.  
 I UNDERSTAND THE COST OF LIVING IN MEXICO HAS GONE UP AND IT IS AN EXPENSIVE PLACE FOR TRAVELING. COULD YOU GIVE ME ANY COMPARATIVE FIGURES WITH VACATION COSTS IN THE UNITED STATES?  
 Living has gone up here the same as everywhere else. But Mexico still is cheaper. Travelwise. Fares on planes, trains and buses are lower than in the U. S. Gasoline here is not taxed by cities, states and the federal. Your vacation can cost you as much, or as little, as you want to spend. There are a good economy hotels where you can stay for as little as four dollars per person a day, meals included. And many others ranging up to luxury hostels for those who are not bothered by a high tariff.

**DO YOU KNOW??**

**Classified Ads Produce Big Results Because They're The Only Advertising Medium Prospects Voluntarily Seek Out When They Want To Buy!**

**IS IT MORE ADVISABLE TO DRIVE OR FLY TO MEXICO CITY? WE PLAN TO SPEND ABOUT TWO MONTHS THERE BUT WOULD LIKE TO KNOW ABOUT THE ROADS.**  
 Either way is all right. Mexico has good air connections with all points in the United States. The major highways here are paved and gas stations are open 24 hours a day. If you want to see more of the country, a car comes in handy because you can travel when and where you want. There are plenty of authorized auto agencies with trained mechanics in case you need them. The drive from San Antonio, Tex., takes about two days via Laredo, Monterrey, Saltillo, Matehuala, San Luis Potosi and Queretaro. All points have good hotels and tourist courts if you want to stay overnight.

**IS IT MORE ADVISABLE TO DRIVE OR FLY TO MEXICO CITY? WE PLAN TO SPEND ABOUT TWO MONTHS THERE BUT WOULD LIKE TO KNOW ABOUT THE ROADS.**  
 Either way is all right. Mexico has good air connections with all points in the United States. The major highways here are paved and gas stations are open 24 hours a day. If you want to see more of the country, a car comes in handy because you can travel when and where you want. There are plenty of authorized auto agencies with trained mechanics in case you need them. The drive from San Antonio, Tex., takes about two days via Laredo, Monterrey, Saltillo, Matehuala, San Luis Potosi and Queretaro. All points have good hotels and tourist courts if you want to stay overnight.

**YOU HEAR SO MANY THINGS ABOUT THE FOOD IN MEXICO. ARE THERE GOOD RESTAURANTS WHERE YOU CAN EAT AS WELL AS WE DO AT HOME?**  
 Yes ma'am. There are so many restaurants, it would take a book to list them all. In Mexico City alone, you find eateries that specialize in Chinese, Spanish, Arabian, Italian, French, U. S., Jewish, Hawaiian, Argentine, Russian, Swiss, German, Japanese and Hungarian food. To name a few. Prices are less than corresponding restaurants in the States and the health ministry keeps a close check on sanitary conditions in the kitchens. You can get excellent T-bone, sirloin and porterhouse steaks here that cover your plate. For as little as \$1.50 U. S. with all the trimmings.

## Public Works Bill Passed By House

**By GEOFFREY GOULD**  
**WASHINGTON (AP)**—The House has passed President Kennedy's emergency public works program aimed at cutting unemployment and stimulating the economy.  
 Backers contend it would create as many as 300,000 new jobs, directly and indirectly.  
 Democratic leaders—shooting for a quick double-barreled victory—were hopeful today they could persuade the Senate to accept the measure as is.  
 Sen. Robert S. Kerr, D-Okla., indicated it might not take too much persuasion for the Senate to accept quickly the \$900 million measure which passed the House on a voice vote.  
 Kerr, author and floor manager of the previously passed Senate emergency public works bill, told newsmen there's a possibility the Senate will agree to the House version without sending it to conference to iron out differences.  
 The key House roll call vote came on an earlier Republican move to kill the bill by sending it back to committee. The margin was a surprising 29 votes, 221-192.  
 House leaders had been counting on a five-vote margin.  
 The Senate-passed measure would provide for a \$1.5-billion program, \$750 million for immediate use this year and \$750 million in standby authority next year if unemployment stays at 5 per cent or more.  
 The House bill has no standby authority for next year, but its \$900 million for immediate use is higher than the Senate's \$750 million. This could be attractive to the generally more liberal Senate.  
 Rep. John A. Blatnik, D-Minn., shepherded the bill through the House. One of his aides said a key amendment to the House bill brought the measure closer to the language of the Senate bill. The amendment would allow projects in some critically depressed areas to have as much as 75 per cent federal financing.  
 The limit for federal financing of local projects had been 50 per cent, with localities required to provide matching funds.  
 The House passed another amendment which eliminated a proposed federal agency, the Office of Public Works Coordination. Republicans said the proposed \$20,000-a-year director would be a "junk barrel czar."  
 Nineteen Republicans joined 22 Democrats against killing the bill; 148 Republicans and 44 Democrats, mostly Southern conservatives, voted to scuttle it.  
 Almost any kind of project could qualify under the bill, as long as it could be started immediately and finished in 12 months. These could include water and sewer lines, streets and sidewalks and public buildings—but it specifies no particular projects. Schools are excluded.

## Frankfurter Dedicated Life To Constitutional Processes

**By JAMES MARLOW**  
**Associated Press News Analyst**  
**WASHINGTON (AP)**—The greatest irony in Justice Felix Frankfurter's life is this: at the beginning and end of his career on the Supreme Court an attempt was made to give him a red tinge. It is ironic because this prim and pedantic justice who retired at 79 Wednesday because of illness went on the court as a hero to liberals and as "the years passed, increasingly disappointed them with his conservatism."  
 His whole life was dedicated to American constitutional and democratic processes but he could be painted. He lectured lawyers before the court, picking and pruned his way through their arguments.  
 He wrote opinions endlessly, when he was with the majority and when he was against it, particularly when he was against it. These opinions were often tough to read and full of hair-splitting.  
 He did so much of this he seemed to be writing less for his contemporaries than for history as if in the hope scholars of an other day, reading him with the benefit of hindsight, could better attest to his correctness.  
 When President Roosevelt appointed him to the court Jan. 5, 1939, and the Senate Judiciary Committee held hearings on the nomination, extreme right-wingers protested and made the air of the committee room foul with anti-semitism.  
 It was Mrs. Elizabeth Dilling, author of the "Red Network," who tried to put the red tag on him. She said he had long been one of the principal "aides to the Red revolutionary movement in the United States."  
 Frankfurter, always a kind of take-charge man, looked back upon those hearings later, and they looked like Madison Square Garden and then added: "I took charge."  
 Last May, while Frankfurter was home with the illness which forced his retirement, an extremely conservative Mississippi Democrat, Sen. James O. Eastland, attacked the Supreme Court in the Senate and said "a majority of the court voted in favor of the positions advocated by the Communist Party."  
 He put Frankfurter in the group. Eastland's performance was called a "disgrace" by the assistant Republican leader, Sen. Thomas H. Kuchel of California.  
 As a justice, Frankfurter seemed to feel—he said as much called upon to be a brake on the enthusiasms of the more liberal justices. He said: "the court is a brake on other men's actions, the judge of other men's decisions."  
 The day after Roosevelt appointed him, to the delight of liberals, the New York Times in a remarkably clairvoyant editorial predicted he would reveal an "organic conservatism."  
 Nevertheless, Frankfurter said he belonged to no one camp of opinion. "This is understandable. He was never entirely predictable. Perhaps he felt some contradictions within himself."  
 It would seem so from a statement he made in a series of recorded conversations later published as a book, "Felix Frankfurter Reminiscences." Trying to describe his attitude toward religious belief, he called himself a "believing unbeliever" and a "freewheeling agnostic."  
 Walton Hamilton, commenting in the Yale Law Review in 1947 on the mind of the conservative wing of the court, in which he placed Frankfurter, described this particular kind of mind as: "So esthetically judicial that a slight deviation from court procedure—even existing only in the mind of the justice—is a mortal sin."  
 Hamilton sized up the differences between the court's liberals and conservatives as the difference between the "activist" and "legal" approach to cases.  
 It was the difference between the "Let's be cautious" and "Let's get moving" view of jurisprudence as Frankfurter had demonstrated a year before Hamilton wrote his piece.  
 In 1946 the court refused to tell state legislatures they had to reappropriate their membership to give voters in a state fairer representation. Frankfurter, writing the opinion, said the court should not enter "this political thicket."  
 The "activists" took over in March this year when a majority, brushing aside Frankfurter's view of 1946, ruled for the first time that the court had to take a hand in reapportionment. It was a landmark decision but Frankfurter was still against it.

## Continental Has '63 Refinements

Lincoln Continental's classic styling undergoes only subtle refinements in 1963 and the car is enriched by increased roominess, additional luggage space and higher performance in the engine.  
 "The car's high reputation for reliability and durability is enhanced further by additional improvements in quality throughout all areas of design and manufacture," said Ben D. Mills, Ford Motor Company vice president and general manager of the Lincoln Mercury Division. Mills pointed out that the Lincoln Continental continues to carry a 24,000-mile, two-year warranty.  
 Interior design improvements yield almost an inch more leg room for front seat passengers and more than an inch additional legroom for rear seat passengers. Rear seat headroom also is increased slightly.  
 The sedan trunk has 1.8 cubic feet additional usable capacity, which permits carrying one additional 2-stair.  
 The car's elegant styling shows a slight modification resulting from a new and higher rear deck and three-dimensional ornamentation on the lower back panel.  
 The distinctive front-end features a new grille and upper grille moulding. Amber lights for front turn signal and parking lights are a new safety feature.  
 Eighteen subtle refinements are offered for the exterior. The Lincoln Continental four-door convertible—the only one made in America—offers a new blue top in addition to a white and a black top.  
 New goals of luxury are attained in the interior styling, with new upholstery fabrics and redesigned instrument panel.

**SUBTLE STYLING REFINEMENTS**, increased roominess, a higher performance engine and more luggage space are features of the luxurious 1963 Lincoln Continental. The car's appearance is modified only slightly to continue its classic styling theme.

## Louisiana Town Launches Clean-Up Following Storm

CAMERON, La. (AP)—Undaunted by its latest battle with the elements, this low-lying coastal town starts today to clean up after a death-dealing windstorm and high waters.

It was Cameron's third severe onslaught by storms and swirling waters in less than five years.

The official casualty list shows two dead and 30 injured. Eighteen were hospitalized. The Red Cross reported 125 families affected by the storm. One home was demolished and 16 house trailers were destroyed or severely damaged.

There were 22 homes with major damage and 76 with minor damage.

"It happened in just a wink," said Deputy Sheriff Norman Labove. Labove went through 1957 Hurricane Audrey which killed about 530 persons, and the backlash of last fall's Hurricane Carla, which took no lives but brought severe flooding.

Everyone who went through the Tuesday night storm agrees it was

## Home Safety Program Set To Enter Its Second Year

The year-round home safety program inaugurated in 1961 by Lone Star Gas Company will enter its second year Sept. 1. The Texas Safety Association and The Snyder News will be co-sponsors of the program.

"As in 1961," Lone Star Manager C. L. Callaway said here today, "this public service program has as its objective the saving of lives and the prevention of home accidents by teaching the individual how to detect and eliminate home hazards."

Home accidents occur in Texas at the rate of one every 16 seconds and a victim of a home accident dies every seven hours, the Texas Safety Association reports.

Newspaper advertisements and stories will tell how home accidents occur and will suggest methods of elimination of these hazards to life and limb.

A free four-page pamphlet on home safety may be obtained at the offices of Lone Star and co-sponsors shortly before the first of each month, starting Sept. 1. Based on Texas Safety Association records of home accident deaths and injuries in preceding years, each pamphlet tells the number

### School Band Honors Solon

MILWAUKEE (AP)—The Mukwonago High School band, which won a measure of fame earlier this month when Sen. Alexander Wiley was pictured locked in a trapeze combat with one of its trombones, paid the Senate's senior Republican back Wednesday—with ruffles and flourishes.

Wiley, home for a five-day campaign trip, greeted each member and in the best political traditions kissed band director Richard Underberger's baby daughter, Vicki, three times—twice for photographers.

The trombone-playing picture was distributed over the Associated Press Wirephoto Network and the band has been getting mail on the subject ever since.

### Surgery Telecasts Puts 'Em In Aisles

TORONTO (AP)—Live telecasts of surgery on small animals are laying them in the aisles of the annual Canadian National Exhibition here.

Spectators are fainting at the rate of three an operation. More than 60 visitors have been carried or helped out, and a few have required hospital treatment, performed twice daily on small animals needing treatment, are the chief attraction of a \$1 million "vetoscope" exhibit put on this year for the first time by Canada's 2,000 veterinarians.

Other materials include a list of 20 suggestions for home safety activities at the community level for use by club, school, business, church and neighborhood groups. Available for club and other speakers is a list of speech starters tailored for talks of five to 30 minutes duration.

The hottest areas in the world are in the deserts of North Africa.
