

Take Religious
Census in City
Sunday Afternoon

A city-wide religious census will be taken by workers from the First Baptist Church Sunday afternoon, April 22, the Rev. Russell Pogue, pastor, has announced.

This census will be similar in purpose and information sought as that taken a little more than a year ago.

Each block in the city will be assigned to a team of two members, who will begin work at 1:30 p. m., and is due to be completed in two hours. All workers will bring their lunch to church and following services will enjoy a fellowship meal.

"The information gained in this census will be available to all workers in the First Baptist Church and to those of any other church in town desiring the information," Rev. Pogue said.

Purpose of the census is to locate newcomers, residents who have changed addresses, those not active in church work and those who are church prospects, they explained.

"We ask the full co-operation of the people of Wellington in this vital work," Rev. Pogue requested.

Sandy Parsons III
Buys Palace Drug

Sale of the Palace Drug Store by Mrs. Helen Hurst to Sandy Parsons III, was announced by them this week.

He is already in active charge at the Palace after returning recently from nearly two years service in the Army.

While this places Wellington's two drug stores at southwest corner of the square under the same family ownership, the management will remain separate, it was pointed out.

Mrs. Hurst and her husband, the late Jack Hurst, bought the Palace Drug from T. E. Benje 16 years ago. Following Mr. Hurst's death, she continued its operation.

Mr. Parsons' father has operated Parsons Drug here for the last 20 years, having bought it from the late Joe Hardy. Sandy Parsons III has grown up in the store and is well acquainted with the management and operation of a drug store.

He announced that plans are under way to greatly enlarge the stock of the Palace Drug within the near future.

Mrs. Parsons III will be associated with her husband in the store as her time permits.

Mrs. Hurst WTU
Home Economist

Mrs. Helen Hurst began work Tuesday as home economist for the West Texas Utilities Company in the Childress District.

She recently sold the Palace Drug Store, which she has operated for the last 16 years, to Sandy Parsons Jr.

Mrs. Hurst will work with women who are customers of the company, assisting them with their homemaking appliances, in Wellington, Shamrock, Childress, Paducah, Matador, Quitaque, Memphis, Estelline, Lelia Lake, Hedley, Turkey, and Clarendon.

She, with her daughter, Elizabeth, and her mother, Mrs. R. C. Ritchey, will continue to maintain their home in Wellington.

Mrs. Ritchey
Breaks Hip in Fall

Will Select Spotters

Additional Siren for
Storm Warning Use

The Wellington Fire Department is installing a new siren in the south part of town as part of the storm-warning system now being set up, Lawrence Warrick, assistant chief, said this week.

It was being tested this week. Exact location of the siren has not been picked but it probably be in the vicinity of the schools, Warrick said.

Chief Hiram Cudd announced that a committee composed of

himself, Warrick and Toots Breedlove will meet this week to pick storm spotters throughout the county to work in conjunction with the Wellington Fire Department and the Sheriff's Department.

These spotters will be farmers who have telephones and if a storm cloud is cited, they will contact the Fire Department here. Instruction will be given the spotters regarding the types of clouds that are potential storm clouds, as well as other necessary information.

The new siren will be controlled from the fire department, along with that on top of the city hall.

The tornado warning will continue to be two long blasts.

In addition to its use for storm warning purposes, the siren in the south part of town will also be used at night for fire purposes.

Your newspaper has been adjudged worthy of inclusion in this exhibit," William J. Good, assistant to the president of the University, wrote.

"Worship Through Music"

McMurry Indian Band To
Play Here Thursday Night

ABILENE -- The McMurry Indian Band of Abilene will be presented in a "worship through music" service at the First Methodist Church in Wellington at

7:30 p. m. Thursday, April 19. Under direction of Raymond T. Bynum, the band's church service is performed entirely by the students, from the opening hymn to the final benediction.

The appearance of the McMurry musicians in Perryton will be one of 16 concerts they are scheduled to play on their spring tour of 15 Northwest Texas cities and communities Bynum said. The tour will take them as far north as Liberal High School, Liberal, Kansas.

For the church service, four McMurry bandmen who are also ministerial students at the Methodist college will bring the scripture reading, prayer and other ritual parts of the program.

Major portion of the service will consist of worshipful music played by the band, Prof. Bynum said.

Most stirring numbers in the band's extensive repertory of religious music are "The Nation's Prayer" and "Battle Hymn of the Republic." Vocal choruses of these two numbers are sung by (continued on page twelve)

Let's think about Money...

and how to get more for it

MONEY is pretty stuff to look at . . . not so much, probably, because of its artistic design as because the sight of it brings to our minds the many wonderful and necessary things that it can do for us.

Yet . . . if we're not careful about how we handle it . . . we may thoughtlessly cheat ourselves out of some of the fuller life that our money can give us.

Because only a PART of each dollar we spend puts actual goods and services directly into our hands. Whether we like it or not . . . part of each dollar ALSO goes toward the support of the community in which it is spent . . . to pay the people who work there, to build and maintain its schools and churches, to build and strengthen its economy as this portion of our dollar circulates through its business veins.

IF the community which benefits from our spending is the community that we live in, then WE get our money's worth . . . and often many, many times over . . . in better living, better business, better jobs, more good and useful neighbors.

But . . . when we shop in some other town or city . . . we get merchandise only. And we've left for someone else to enjoy all of the other things that our beautiful money pays for.

*It Pays to Buy
where you Live*

Wellington firms are the only business establishments in the world that are genuinely interested in this community's future . . . and in the future and prosperity of us who live here

.. with HOG CHOW and grain

Thousands of Purina Program hog feeders report hogs ready for market when only 5-5½ months old. When shoots weigh 100-125 lbs. they are fed Hog Chow and grain to market weight. And it takes only about 322 lbs. of barley or 308 lbs. of milo and 45 lbs. of Hog Chow to put on 100 lbs. of gain!

SAVE YOUR GRAIN, get more for it by walking grain to market as pork. Lots of your neighbors feed Hog Chow. We invite you to ask them what they think of Hog Chow results.

COME SEE US. Let us tell you more about Purina's proved plan for feeding hogs. Make it soon!

PURINA PIG STARTENA
now better than ever!

Hog men all over the country, Purina Dealers raising pigs in their own stores, results at Purina's Research Farm are all proving the value of Pig Startena.

Now even better with the addition of Pura-Fat (selected fats) and stepped up amounts of "growth booster" ingredients.

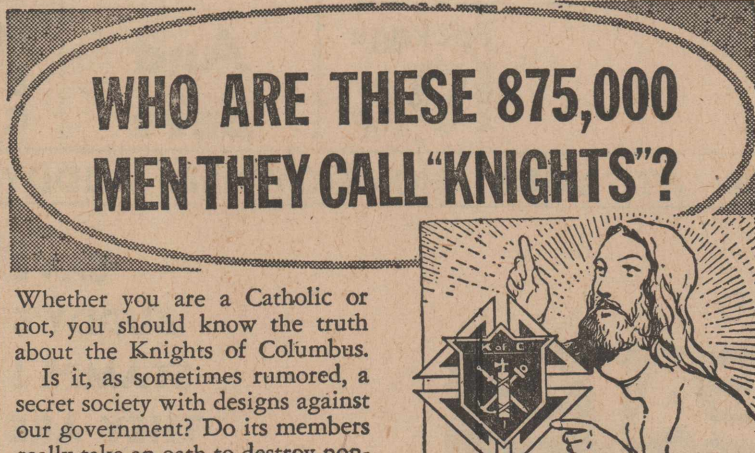

Many hog men following the Purina Program report results like this from Pig Startena:

1. Pigs eat it early, relish it.
2. Litters weigh up to double U. S. average at weaning.
3. Hogs reach market weight as early as 5 months.

Whether you are a Catholic or not, you should know the truth about the Knights of Columbus. Is it, as sometimes rumored, a secret society with designs against our government? Do its members really take an oath to destroy non-Catholic political power?

If such rumors were true, the Knights of Columbus would not deserve the friendship and trust of non-Catholic citizens, which it invites and merits. Actually there is no more thoroughly patriotic organization than this fraternal order of Catholic men.

It is composed of plumbers and lawyers, farmers and doctors, business men and scientists—of Catholic men at every level of the social and economic scale. Some are rabidly partisan on political and public questions. They "choose up sides" with all the freedom and enthusiasm of any other citizens.

The Knights of Columbus was formed in 1882, by a small group of the men of St. Mary's Church, New Haven, Connecticut. They had met, at the invitation of Father Michael J. McGivney, not to form a national fraternal society, but to "render mutual aid to the members of the parish and their families."

In the years that since have ensued, the Knights of Columbus has grown into a fraternal order of 875,000 members, spread over the United States, Canada and other countries of the Western World. But its purpose of "mutual aid"...and its principles of charity, unity, fraternity and patriotism...remain unchanged after more than 70 years.

Millions of dollars have been spent by the Order for the relief of victims of fire, flood and famine...for the support of Christian youth work...aid to Christian education. During both world wars, the Knights of Columbus

performed a service in ministering to the spiritual welfare and comfort of the armed forces regardless of creed, that brought sincerest thanks from a grateful nation.

Nearly one out of every six Knights served his country in World War II, and many laid down their lives.

Despite these and many other signal demonstrations of its principles of charity, unity, fraternity and patriotism, some people have the most absurd beliefs and suspicions about the Knights of Columbus, just as they do about the Catholic Church. Even today, misinformed people give publicity at times to a false alleged Knights of Columbus oath which has been proved to be fraudulent, and which scores of others have been forced publicity to admit is untrue.

If you wish, we shall send you free, in a plain wrapper, an interesting pamphlet about the ideals, history, achievements and aims of this international society. And nobody will call on you. Write for Pamphlet No. KC-9.

Salt Fork SCD Buys Sprayer For Bindweed Work

The board of supervisors of the Salt Fork Soil Conservation District, in a regular meeting Saturday night, conferred with a committee from the Bindweed Association regarding the control of bindweed, then voted to buy a sprayer to help in its control.

The district will also handle chemicals necessary to spray the bindweed provided no commercial dealer in Wellington wishes to stock it.

The sprayer, which is due here in about two weeks, can be mounted in the back of a pickup, and the District plans to hire a man with a pickup for this work, Fred Squyres, work unit conservationist of the Soil Conservation Service, said.

The spray would be carried to various communities that have a bindweed problem. Farmers with bindweed in each area will be notified ahead of time, and the sprayer will visit each one.

There will be a nominal charge, just enough to pay for the chemical, driver and pickup, Squyres said.

The commissioners court has agreed to pay for the bindweed control work done along county road right of way.

Implement Dealer—SCD Organization Planned Here

The board of supervisors of the Salt Fork Soil Conservation District, in a meeting Saturday night, April 7, discussed plans to start an implement dealer-conservation district program, such as exists in many districts throughout the nation.

"Implement dealers have organized on a national level for the purpose of helping get soil conservation on the ground," Fred Squyres, work unit conservationist of the Soil Conservation Service said.

All implement dealers in the Salt Fork SCD will be invited to the next meeting of the board of supervisors, May 5, to discuss the organization further, Squyres said.

Salt Fork SCD Tour Date Reset

The annual tour of the Salt Fork Soil Conservation District has been moved from May until October, Fred Squyres, work unit conservationist of the SCS said following a meeting of the board of directors of the district Saturday night, April 7.

Supervisors felt that there would be more for the visitors to see in the early autumn than at the usual spring date. Previously this tour has been held during Soil Conservation Week, in early May, but for the last two years it has been rained out.

It was also pointed out by the supervisors, that many farmers do not have crops planted by May, and in some areas, there is little for the tour members to see.

Mrs. and Mrs. Fred Hankins and their grandson of Eldorado, Oklahoma, were here Sunday visiting their son Lyndon Crelia, also in the home of Mr. and Mrs. Sandy Parsons, Jr. and other friends.

ASC Approves Bindweed Control

Bindweed control has been included in the practices approved by the county ASC committee, Millard Brown, secretary, has announced. Authorization was received only recently from the state ASC office.

Farmers wishing to participate in the practice can secure information at the local office, Mr. Brown said.

Mr. and Mrs. G. N. Davis and sons, Mike and Keith, of Ralls were here this week end visiting her parents, Mr. and Mrs. T. J. Buske and family. Mike remained for a longer visit with his grandparents.

Rev. and Mrs. John Ferguson and her mother, Mrs. Kelly, visited last week with their son, Rev. and Mrs. J. R. Ferguson, Jr. and Jimmy of Fairview, Oklahoma.

Mr. and Mrs. Bobby Jack Watson were in Canyon Sunday visiting his brother, Nathan Watson.

Don't let "Shrinking Horsepower" put a drag on your engine

Keep the full, safe power of your engine

Clean-burning Gulf NO-NOX protects against the deposits that cause "Shrinking Horsepower" in today's sensitive, high-compression engines. NO-NOX helps you keep new-engine power... new-engine safety and thrift... for thousands of extra miles.

Get the gasoline that burns clean*

* PROOF: See how the asbestos glove, on the left in the picture, is smudged by the "dirty-burning tail-end" of gasoline... while NO-NOX leaves the glove on the right clean. That's because Gulf refines out the "cupful of trouble"—the "dirty-burning tail-end"—from every gallon, in making NO-NOX.

WHAT DO YOU MEAN, "JUST FACE LIFTING"?

EVERY NOW AND THEN, we run across someone who seems to think that 1956 cars do not offer anything really new—just a little face lifting from the year before.

We won't try to speak for the automobile industry. But we certainly can speak for Buick.

And let us announce in no uncertain terms—it's the newest thing on wheels.

The Styling is New

Sure, it looks like a Buick. But it has a new V-prowed grille that says 1956 and no mistake. The hood's new—the fender ports are new—the sweepspear is new—and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours.

But that, friends, is only the beginning.

The 1956 Dynaflo* is New

It introduces what the engineers call "double regeneration"—which means a double-action take-off. It gives you new,

split-second response in the first inch of pedal travel—plus the "switch the pitch" at full acceleration, which no one else has yet approached.

The Ride is New

To coil springs on all four wheels, a brawny X-braced frame, and torque-tube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

The Power is New

All 1956 Buicks have new 322-cubic-inch V8's—with record highs in power and compression—with unique new double "Y" manifolding to step up efficiency—with new carburetor "deicing"

—and a host of other new features to make owning a Buick pure pleasure.

The Thrill is New

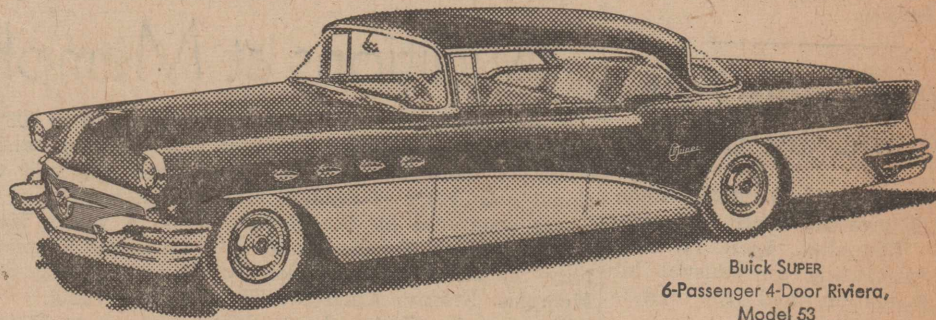

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the *best Buick yet*—by a wide measure—and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Deck's DIDACTICS

—By Deskins Wells

The Farm Bureau is liable to run into some static when they conduct their next membership drive. Texas farmers wanted rigid support of 90 per cent parity; but the national organization urged the President to veto the bill.

Went to a meeting of Panhandle editors last week and most of them thought that Sen. Lyndon Johnson would capture the precinct and county conventions in the Panhandle. In addition, the idea of having a favorite son candidate from Texas is becoming more popular. Shivers is for Johnson as a favorite son; but wants to lead the delegation himself. Some of the editors believe that Johnson may well do both.

That reminds me of the precinct conventions. This is the only time and the only place in which the individual citizen has any say in nominating a candidate for president. He has a little in the county convention by faithful attendance. But from there on out the nomination is in the hands of the professional politicians and is subject to their maneuvers and trade outs.

Another important thing is to file the name of the precinct delegates to the county convention with the county clerk in the legally prescribed time. Two years ago the delegates from three precinct conventions could have been barred from the county convention due to the fact that the names had not been filed. Dick Sweat urged that they be seated in the interest of county harmony and this was done.

The City has warned people that rabies has been found in the town and that all dogs that are not vaccinated will be destroyed. Something should also be done about these wild and half wild cats that roam up and down the alleys. They are as much a menace as dogs.

Crossroads Report

Dear Editor:

I note that nearly every time the government bureaus cook up a new mess of statistics, it shows that more women are out in the world holding down jobs.

In fact, we are being told that these higher and higher figures on the number of employed people is evidence that prosperity is in full stampede.

But my neighbor with the school-teaching wife says what it really proves is that under our fine new American way of life, mamma has to work to support the family, while papa works to support the government and its foreign pet collection.

CARD OF THANKS

This seems to be the best way of expressing our heart felt thanks and humble gratitude to the many good people of Wellington for the way they have shown a Christ-like love in the many, many deeds of kindness during the illness and death of our loved one, Robert L. (Bob) Blackshear.

We have known good people and ones who were friends in need, but never have we seen such acts of love as were shown after his death, and we fail to find words to express our deepest gratitude.

Bob had told us what wonderful people he was surrounded by, and I'm convinced Wellington has a great portion of the salt of the earth.

We, the family, pray when death enters your homes you will know the great love and friendship we have experienced. For the abundance of food, flowers, and every word or deed of comfort, we thank you. You have made our burden lighter.

The family of Robert L. Blackshear

Walls stay cleaner and brighter longer when you cook electrically. There's no greasy, hard-to-remove film deposited over your kitchen colors.

Clean Curtains

Curtains stay bright and sparkling... for electric cooking is clean as electric light.

Clean Pans

Aluminum, copper, stainless steel—cooking utensils will no longer need scouring to keep them shining.

Clean Pots

Use the "white glove" test to see how smudge-free your pots will remain.

With a modern Electric Range, you can be sure of "White Glove" clean cooking. With electric heat from sealed units, there can be no products of combustion—soot and fumes—to soil pots. Curtains and drapes need less laundering—they stay clean longer.

Scout Workers Receive Awards At Round Table

Tuesday evening, April 10, the regular monthly meeting of the Southern District Scout Leaders Roundtable was held in the Wellington High School.

The meeting was presided over by Seibert Worley, of Shamrock District Commissioner of the Southern District. The Cub Leaders section by Murray Davis of Shamrock. The Explorer Leaders section was directed by Bill Eller, Professional District Executive of the Southern District.

Attending from Wellington were: Mrs. Calvin Hurst, Mrs. Bill Hatch, Jack Scott, Vernon Rudy, Ronnie Rudy, Jack Scott Jr., Royce Daves, Kelly Pigg, and Reece Norman, and Carl Daves.

A highlight of the meeting was the presentation of a Twenty Year Veteran Award to Murray Davis of Shamrock for 20 years of service to Scouting. Sandy Parsons Jr. of Wellington was to have received his Fifteen Year Veteran Award but was unable to attend the meeting. He was, however, presented the pin at his place of business later in the evening.

"It is truly regrettable that Sandy could not have received public recognition. The man who has served so faithfully and as long as he, in the interest of boys and the community in which he lives, certainly deserves all the credit we can give him," Eller said.

The next Roundtable is scheduled for May 8 but the place has not yet been set.

Prior to this meeting there was a meeting of the Explorer Post No. 32 of Wellington that was attended by members of the Post committee and some of the young men of the Post. The purpose of the meeting was to institute the reorganization of the Post and to introduce to the boys and to the Post Committee the new Explorer Advisor of the Post, E. W. Clements.

I shall continue to be in Wellington part of the time, and I will be associated with you in my new work.

Boys Honor Their Dads

"Think of the Future" FFA told at Banquet

"You must think not of today, but of tomorrow ... If not, you'll be left out of the race of success," Lonesome Bill Smith, Amarillo radio farm editor, told Wellington Future Farmers and their dads Thursday night, April 12, at the annual Father-Son banquet. This traditional event featured a speaker who is a former student of M. L. Burks, Wellington Vocational ag instructor.

Chapter officers opened the program with their regular ceremony, with DeRay Useton, president; Denzil Lacy vice president; Troy Thomason secretary; Glen Reeves treasurer; A. C. Gray, sentinel; Don Wheeler reporter and Mr. Burks advisor.

Farris Wood was toastmaster; Randall Raburn gave the vocation and Mike Glenn told of chapter accomplishments.

Entertainment included. Songs by Jimmie Nash of Amarillo and dinner music by Frankie Sue Campbell.

The dinner was served by Floyd Hood.

Smith's complete speech follows:

The Future Farmers is one of the greatest organizations that we have today for boys. I say this for two reasons. It gives a boy the initiative to think for himself and to me that is one of the greatest accomplishments that there is. To many times in our history we have let other people do our thinking. This is true because we are a little bashful to get up in a group and express ourselves. In politics, in farm meetings, in church, and even in groups of boys we let the other fellow do the talking. Of course, some times it's good to keep our mouth shut and listen, but our country is founded on democracy, and in order to keep this way of life we can not let one person, one group, or one party do all the dictating. The F. F. A. teaches this boy to rise on his feet and express his conviction. And not only can he do that but he can do it in an orderly method which eliminates the group which may drown the minority out by being the loudest. This again comes from the Parliamentary Procedure he learns in the F. F. A. ...

Then there is the fact that any boy gets an appreciation of the farm, the farmer and his problems with soil. Whether this young man intends to be a farmer, lawyer, doctor, or any field he may enter, an appreciation of the soil is gotten in the F. F. A. To his future is going to depend the way this soil we have left is handled. When our forefathers started to build this empire the timber was so thick that mass cutting took place. Today the government is having to urge in every way possible for trees to be planted. Thank goodness that the large lumber co. had the foresight 20 years ago to see this destruction of timber because you go to the timber regions today and they have accomplished miracles in the restoration problem and we now grow timber as we do wheat. But this soil is not replanted in 10 years as a tree. It takes from 400 to 700 years to put back one inch of top soil that can blow and wash away in one hour. So the F. F. A. sees this and can help prevent it in any life he may enter.

Now if I were to say anything tonight that I would like for you to remember it would be this. To you young men who are 14 to 17 years of age. Start now and I emphasize the word now, to prepare for your future. Twenty years ago students finished school at 21 and 23 years of age. They stayed at home with the family longer than that, except those who had to make a living for themselves. Today the age 18 means a great deal, you can drive a car legally and are half way through college. Some are married and have started a family. You must think not of today but of tomorrow. If not you'll be left out of the race of success. Your future looks the brightest ever, and even though you are inclined to think mother and dad are a little old fashioned at times when they caution you about spending every nickel you can get your hands on, they are looking after your own welfare. The dollar you have is worth much less than the one's they used as children. So begin now. Think and plan for the age of 30 and 40. If you don't you'll be working and doing all you can to keep your head above water in this world of fast economy.

In addition to the fathers, those honored were the chapter sweetheart, Gayle Young; honorary members, Cameron Beam, Pete Scott and Fleet Pruden.

Chapter Farmers in the Wellington FFA chapter this year are Cobb, Bobby Lee, John Montgomery, Thomason, Wheeler, Don Browning, DeRay Useton, James

Colson, Carl Daves, Glenn, Willie Johnson, Bobby Langford, Spencer, McCormick, Wood, Glen Reeves, Cloyce Scarberry, Richard Tiggert, Ray Thomas, Glen Warrick, and Junior White.

Dear Friends

As a part of their work in Humble's Refining Research Laboratory, Humble scientists bombard petroleum hydrocarbons with electrons in a 2-million volt Van de Graaff Accelerator.

But if you ask one of these scientists what he expects to find, he'll answer, who knows!

For this is fundamental research. Results may be quick or they may be a long time developing. Who knows?

... Perhaps the scientists will find a way to increase the yield of useful products from a barrel of crude oil.

... Perhaps they'll be able to make improvements in the fine products already supplied you.

... Perhaps they'll develop an entirely new group of petroleum products.

Who knows!

This much, however, is certain: Humble research scientists at Baytown use every device of physics, chemistry, mathematics and mechanics to provide you with more and better petroleum products.

Two quick examples: The specifications for Esso Extra gasoline, the formula for Humble Uniflo motor oil. These, without question, are the finest products you can use in your car.

Sincerely

HUMBLE OIL & REFINING CO.

600 Register at Open House at Dodson Bank

More than 600 visitors converged on Dodson Sunday afternoon to attend the open house of the First State Bank, upon the completion of the remodeling of the building.

Hosts were bank officials and employees: Mr. and Mrs. Frank Smith, Mr. and Mrs. Floyd Teutsch, Mrs. Nadine Birchfield, and Mrs. Wanda Estes. Assisting them were Mr. and Mrs. Lee White of the Kelley community; Mr. and Mrs. Boyd Loar of Paducah; Mr. and Mrs. Grover Mitchell of Lubbock; Mr. and Mrs. E. J. Smith of O'Donnell; Mr. and Mrs. Rufus Stinnett of Oklahoma City and Mr. and Mrs. Dewey Malone of Leno.

Mrs. Loar, Mrs. Mitchell, and E. J. Smith, who was formerly with the bank, are the sisters and brother of its president, Frank Smith. members of the band. Bynum said that "these selections have proved inspirational to more than 70 church congregations which we have played them for. Besides that, they provide a spiritual uplift for the band members."

Dorothy King, Throckmorton soprano who sang with the band last spring in five European cities, will be featured soprano soloist on the Perryton program.

Miss King will sing "Ave Maria" and "The Lord's Prayer," both with band accompaniment.

Instrumental soloists to be heard on the program, and their selections, will be Don Hamilton, cornetist, "The Holy City"; and Don Davis, trombone; and Bob Newman, trumpet; "Beautiful Garden of Prayer."

"My God and I" will be sung by a mixed quartet composed of Peggy Campbell, Audrey Carver, Forshey and Bill Parrish.

The Campbell sisters of Lamesa—Peggy, Betty and Carol—will sing "Lift Thine Eyes," from the oratorio "Elijah," by Mendelssohn. Peggy will also play a medley of church hymns as a vibraharp solo.

Each soil conservation district was organized only after landowners of the area voted to have such a district. SCDs are legal sub-divisions of state government,

The vibraharp was added to the McMurray Bard's equipment especially for use in the church worship services, Bynum said. Another unusual instrument used in the service is the band's cathedral chimes, played by Miss Carver.

These two instruments and a large volume of religious music have been added to the band's equipment and materials since they played their first "worship through music" service in 1947.
