"We are starting 1928 in much better condition than we began 1927," Farmers and others are more careful with their money—they are spending just what they have to spend.

L. M. THOMPSON, County Agent

"While I am sure financial conditions are much better I do not believe the agricultural outlook for 1928 is as good as it was last year. At this time in 1927 the season in the ground was one hundred per cent better."

W. S. MOORE, Moore Hardware & Furniture Co.

"Hall county's prospects for prosperity in 1928 are the best since 1919 because crops were normal and prices were normal. The majority of farmers are now out of debt and holiday business was unusually good."

NEW VICTORY 6 ON DISPLAY IN CITY

ALLEN-FIGH MOTOR CO. HAS NEW DODGE CAR

Millions of dollars and millions of hours have been spent by the automotive industry during the last few years in the never ceasing war on noises. Over the drafting machine shops, hundreds of ing boards, on the test tracks, in men are constantly trying to make motor cars quiet, and to build them so that they stay quiet after long service.

A number of discoveries have been made, according to Sheriff Christian, but the evidence at hand is not of a sufficiently tangible nature to cause arrests or positive charges. It is expected, however, that the next session of grand jury will make one or two indictments.

Officers cling to the opinion that much valuable evidence was destroyed when the train hit Collier's car, as it was impossible to ascertain after the wreck whether Collier was dead before struck by the train, as many believe.

ZERO WEATHER HITS THIS SECTION OF COUNTRY

The Chevrolet sedan, stolen from Judge J. M. Elliott Wednesday night of last week, was found two miles this side of Amarillo by officers of that city last Friday. A Message of Interest to MODEL T Ford OWNERS

The fact that the Ford Motor Co. is producing a new and better automobile must not be construed to mean that Model T owners will receive less attention or consideration.

Concerning the manufacture of Model T parts Mr. Henry Ford has made this statement:

"Let me say this—as long as there is a Model T on the road we will keep up the business of manufacturing repair parts, and we will produce them better than ever before."

The Parker Motor Company now maintains and shall continue to maintain a complete stock of Model T parts, in fact every precaution is being taken to prevent the occurrence of any shortage on our shelves.

When you drive your Model T into our shop you may expect our careful attention for we are striving to serve Model T owners even better than before.

Rumors have been current that we will not accept any Model T trade-ins on new Ford purchases. This is entirely untrue.

If you desire to apply your old Ford on the purchase of a new Model A you will receive every courtesy and respect and we shall allow you every penny consistent with good business judgment.

Just remember that EVERY Ford owner will receive our courteous and careful attention and consideration to which he is entitled.

The Ford Motor Company desires to render even better service in the future to Model T owners and we, as their local representatives, pledge ourselves to the best interests of ALL Ford owners whom it may be our pleasure to serve.

Yours for service,

EARL PARKER

COWBOY BAND COMING HERE THIS MONTH

FRANK R. RAINWATER
Solo Cornetist and Asst. Director

The famous Cowboy band of Simmons University is bigger and better than ever this year, according to reports received here.

The cowboys, if present plans materialize, will be in this city about the middle of January for a one night concert and entertainment.

Perhaps no college organization in the United States has attracted attention throughout the country as has the Cowboy Band. Due to the picturesque uniforms of the bandmen and the musical ability of the organization, the Simmons band has been written up in newspapers from coast to coast and has appeared in newsreels time after time.

During the last five years the Cowboy band has been the official Abilene band at all West Texas chambers of commerce conventions, giving the band the recognition of all West Texas.

It became of State interest in Dallas at the state convention of the United Confederate Veterans in 1925, and at Abilene in the fall of the same year, the band was voted the official band of the U. C. V. of Texas. After numerous invitations from the officials of the Confederates, the band decided to make the trip to Birmingham, the Cowboys received much attention throughout the South. Here the Cowboy band was elected the official band of the United Confederate Veterans for life, and won the right to lead the heroes in grey down the streets of Tampa, Florida, the following year.

When it became known that the Cowboys would take up the concert, invitations began to come into the band headquarters thick and fast for appearances. Vaudeville and Lyceum men began to make special trips to Abilene to try to book the band for tours. Prominent bandmen pronounce the Cowboy band one of the best college bands in the United States. The program of the band last year was extremely interesting and was highly praised. The whistling solo, the cornet virtuoso, the trombone solo, the saxophone sextette and the cowboy quartet were invariably encored. The program for this city has not been definitely arranged, but the reputation of the band insures us only the best of entertainment.

Director D. O. Wiley of the Cowboy band has been away the past season studying under the famed H. A. Vandercook, master director, and coming to the Cowboys direct from him, the music should be better than ever.

"Wish I had one."
"Best looking car Chevrolet ever built."
"A beautiful automobile."
"Looks like a high priced car."
"—And it doesn't cost as much as the old one."

These are a few of the expressions overheard by a Democrat reporter at the first showing of new Chevrolet models at D & M Chevrolet Company salesroom Sunday.

Every one seemed to praise the new cars highly and many were astonished at the new low prices. The D & M sales force was on hand to explain the fine points and answer questions concerning the new models.

Over a thousand people saw the new Chevrolet Sunday alone, B. E. Davenport estimated.

ELECTRICITY-- The Foe of Drudgery!"

Says Mrs. John D. Sherman
President, General Federation of Women's Clubs

"Electrically equipped homes mean happier and more healthful homes. The cost of electrically operated labor-reduction devices is offset many times by the saving, the increased efficiency, the protection to health and the contribution to the general well-being of the family of such devices."

The constructive efforts of the forward-looking electric power companies of the United States have released an ever increasing number of women from the exacting duties of the household to more congenial and interesting pursuits of life. Every new electrical invention finds an abundance of power ready to serve it.

Through the enterprise of these companies, inspired by individual initiative, electric power plants and service facilities are being constructed five years in advance of consumer demand. Since 1900 the capacity of these plants has been doubled every five years.

Keenly alert to their social obligations, these electric power companies have not been content to rest on the expansion of their facilities. The most expert, highly skilled and highly trained technical personnel in the whole field of industry is working for the betterment of electrical service.

As a result of this sense of trusteeship, the average home today enjoys the comforts and conveniences of electricity at a cost of only a few cents per day.

Operating under the American principle of individual initiative, and working in the interest of the public, these specialists in science, engineering, finance and administration constitute one of society's greatest forces in the promotion of freer and more enlightened and abundant life.

In the continued support of this principle lies America's assurance of all that makes for progress, prosperity and cultural opportunity.

SURPRISING RESULTS

RESULTS from the Democrat extra published last Sunday were surprising to the D. & M. Chevrolet Company as evidenced by the letter reproduced below. Results Democrat advertisers realize are not surprising to us for we are well aware of the extraordinary pulling power of this newspaper. But it is more convincing for our clients to declare satisfaction as Davenport & Meacham have done in the following letter:

January 4, 1928.

Memphis Democrat,
Memphis, Texas.
Gentlemen:

We wish to thank you and express our appreciation of the excellent manner in which The Democrat Extra of Sunday January 1st 1928 was handled, carrying the increased volume of publicity and advertising on the NEW CHEVROLET.

This extra edition for which we contracted exceeded our expectation by far in bringing great crowds to our new show-room, as on the first day spectators and prospects for the New Chevrolet numbered more than 1000 and the second day exceeded 1500 and equally as well on the third day and prospects continue at the present writing.

So great are the improvements on the New Chevrolet we deemed it advisable to broadcast the striking new features of this popular automobile in an emphatic manner, and the method we selected has indeed brought pleasing results.

Please accept our thanks and sincere hope that your future may be as bright as our New Chevrolet is popular.

Yours very truly,

Greetings from the Pastors

By E. T. Miller, Pastor First Baptist Church

FORGETTING the things which are behind and stretching forward to the things which are before."—Phil. 3:13
There is a practice in which every successful business man engages about this time of the year. He makes an inventory of his goods. He takes stock. He plans to dispose of antiquated goods. He arranges and directs his energies toward coming year. He invoices because it pays. Is it not well to do likewise?

"forgetting the things which are behind," implies incompleteness. There is room for something better in the life of every person in Memphis. We would do well to forget our mistakes and blunders and failures of the past year. We need to forget them that we might make room for a profitable New Year, in higher citizenship, in closer friendship, and in more endearing comradeship and fellowship.

"Stretching forward to the things which are before" permits progress. The business man abandons all previous successes as well as failures and stretches himself for a better year in business. We as citizens of our goodly city must not become satisfied and content with what we have accomplished through the Memphis Spirit of good will and co-operation. We have just reasons to be proud of our beautiful homes, our paved streets, the city appearance of our own, of our schools, of our churches, and of our newspapers and our enterprising business men. All of these we are truly thankful for. But with all of this, it becomes the duty of every one of us to stretch ourselves from tip to toe to the things which are before.

The New Testament writer, invoicing his possessions, for the past, and stretched himself for a greater future. After things are ahead of us. The New Year demands we take stock of ourselves, discard the disappointing, and stretch ourselves for greater things in the year 1928.

By S. E. Templeton, Minister Church of Christ

UNTIL The Memphis Democrat Family is extended New Year greetings. In this family will be found doctors, farmers, merchants, teachers, students, "workers at home," and others. I am sure that this great family deserves the best the New Year can bring. The Old Year has been very good to us, but may the New Year give added peace and success.

May I ask you to remember that success without righteousness for its foundation is a failure? Throughout the New Year let us remember that God has no "creature that is not manifest in His sight; but all things are naked and laid open before the eyes of Him with Whom we have to do;" and that Jesus Christ is "the way, the truth and the life." With these truths in our hearts let us reconsecrate ourselves to serve God, Christ and all people this year better than ever.

By C. E. Jameson, Pastor of First Methodist Church

THE OLD YEAR with all of its sorrows and joys is in the past. It was not such a bad year after all but it is gone. We shall not attempt to place a wreath of flowers upon it nor decry its tragedies, it is gone forever.

Now let us greet the new with courage strong and faith in our fellowman and God, resolve to make the most of life this year in a way that will be helpful to others as well as ourselves.

Are you beginning the year with handicaps? Then take that handicap and make it an instrument to fight your way to success. Have you an aim or goal for this year? Then strive to attain it.

To the farmers who till the soil, to the merchants who sell us clothing and food, to the bankers who lend us money, to the Doctors and druggists who keep us well, to all who toil in any capacity to help build our country, and to the several hundred homes and home builders in Memphis, together with our schools and churches, our newspapers which tell us about it, and in the name of Him who has commissioned me to publish glad tidings, I greet you.

CANDIDATES ARE THROWING THEIR HATS INTO THE RING

Tom L. Colvin
For County Judge

The Democrat is authorized to announce the candidacy of Tom L. Colvin of Turkey for the office of County Judge of Hall county, subject to the action of the Democratic primary in July.

Mr. Colvin is too well known to need introduction to the voters of this county, having been a citizen of the county for a number of years and actively engaged in business at Turkey, and has been actively identified with every worthy and progressive movement for the good of the county. He is well qualified to fill the office to which he aspires, having executive as well as business ability.

He asks for a fair consideration of his candidacy and plans to make the race strictly on his own merits, and promises if elected to conduct the business of the office in a straightforward and businesslike manner.

Theo. Swift for
Superintendent

The Democrat is authorized to announce the candidacy of Theodore Swift for re-election to the office of County Superintendent of Hall county, subject to the action of the Democratic primaries in July.

Mr. Swift is now serving his first term in the office for which he is asking re-election, and is standing upon the record he has made since coming into the office. He has been in Hall county for many years, and taught in a number of the schools of the county, thus being familiar with the work, and as superintendent has better qualified himself to carry on the work another term in a businesslike manner. He promises, if re-elected to give his time and careful attention to the duties of the office even more than he has in the past.

Bailey Gilmore
for Tax Assessor

The Democrat is authorized to announce the candidacy of Bailey Gilmore for re-election to the office of Tax Assessor of Hall county, subject to the action of the Democratic primaries next July.

Mr. Gilmore is willing for the record he has made speak for itself, and asks the voter to consider his candidacy upon his record and ability to fill the office efficiently and businesslike. He is well and favorably known all over the county, and is better qualified than ever to serve the people intelligently, and promises, if re-elected, to give his undivided attention to the duties incumbent upon the office and give fair and impartial service.

Investigate the record he has made, and give his candidacy your earnest consideration.

Henderson Smith
for Tax Collector

The Democrat is authorized to announce the candidacy of J. H. (Henderson) Smith for re-election to the office of Tax Collector for Hall county, subject to the action of the July Democratic primaries.

Mr. Smith is too well known to need any introduction to the voters of Hall county, and his record is also too well known to need attention called to same. He is running for re-election strictly upon his merits, ability, and the record he has made, and invites investigation of the manner in which all county business has been transacted by him and the office. Give his candidacy your earnest consideration.

J. B. Landis for
County Treasurer

The Democrat is authorized to announce the candidacy of J. B. Landis for re-election to the office of Treasurer of Hall county, subject to the action of the Democratic primary in July.

Mr. Landis is serving his first term as treasurer, and has become conversant with the duties of the office and is making good as an official. He invites an investigation of the records with which he has to do, and asks for the support of the voters upon his merits and the record he has made. He believes he will be better able to look after the business another term than in the last because he has become more familiar with the duties of the office. Give his candidacy your earnest consideration.

Judge Templeton
May Announce
for District Judge

Judge R. H. Templeton, county judge of Collingsworth county, will likely be a candidate for the office of District Judge of this Judicial district, should Judge C. C. Small not be a candidate for the office which he has held since the death of Judge R. L. Templeton, a brother of R. H.

So far no candidate has announced for the office, and should Judge Templeton decide to enter the race he will make a formidable candidate. He has been county judge of Collingsworth county for two terms, is an able lawyer, and stands for progressiveness.

The Four County Bankers Association, comprising bankers of Hall, Childress, Donley and Collingsworth counties held their annual meeting here last Thursday and elected officers for 1928.

Meeting was opened by an executive session of the principal officials of each bank at 6 o'clock, Thursday evening in the lobby of the First National bank and at 7 o'clock the entire association including all officers and employees, were served a special banquet at the Memphis hotel. Special music and decorations of the banquet hall lent a feeling of good cheer and friendship that always comes with the Yuletide season.

After the banquet the ladies were entertained at the theatre while the men held their usual business meeting which lasted until 10 o'clock. Then the fun of the evening started.

W. H. Patrick, president of the First National bank of Clarendon presided over the meeting. W. W. Taylor, cashier of the First National bank of Clarendon, has served the association as its secretary very faithfully the past year.

The newly elected officers of the association are: C. J. Glenn, president, and Earl Hunter, secretary, who are president and vice president respectively of the First National bank of Wellington. There were three vice-presidents elected as follows: R. D. Wiley, assistant cashier of the First National bank of Clarendon; I. H. Read, vice-president of the Hall County National bank.

The bankers expressed themselves as highly pleased with business conditions in the four counties and especially did they comment upon the value of diversified farming which is now being carried on more extensively in these counties than any other section of Texas.

Mr. Cuykendall will, at the same time, distribute literature on exchanging cottonseed for cottonseed meal and hulls; also literature on the feeding of livestock and poultry according to the recommendations of the A. & M. College of Texas.

PONTIAC IS SHOWN IN MEMPHIS

Beautiful in a complete body styles by Fisher, enhanced by numerous engineering advances, the new Pontiac Six is shown by Vallance Motor Company, provides even more variety over all other cars than it ever offered.

new body types suggest speed that is beneath its hood, hood and cowl, high-appearing radiators, full crowned fenders, everyone who sees the word in motor and distinction.

use of the famous head, already a feature on the Oakland Six. And with this, the Pontiac also smoothness, silence.

For the G-M-R reduces detonation to a negligible amount, permits the auto-controlled spark to be of greatest effect, creating disturbance.

specialized designed attributes additional ability to the Pontiac a gasoline pump, a filter, which regular vacuum system, the new carburetor and choke and the motor. Extreme and reduced result from the economy and performance at all times. And still is the acceleration.

ing pump, from which device the Pontiac draws a new and flashing ability to pick up speed—a new and thrilling vitality when traffic lights change to green. A sturdier frame, 1-2 inch deeper and more ruggedly cross membered, increases the endurance qualities for which the Pontiac Six has always been famous. Approximately 16 per cent greater stiffness has been obtained and the frame is designed with a kick-up in front as well as in the rear, thus permitting lower chassis and body construction, with road clearance actually increased.

Four-Wheel Mechanical Brakes

Four-wheel brakes are standard equipment on the New Series Pontiac Six. They are mechanically operated, of internal type on front wheels and external on rear wheels. Equalization of front and rear brakes is provided and each brake is adjustable at the wheels.

In this new Pontiac Six series the "cross-flow" radiator makes its first appearance. The distinguishing feature of this radiator is that water instead of flowing from a tank at the top to one at the bottom passes horizontally from a tank at the left to another at the right of the core. Losses of water or water vapor from any cause are lessened, losses of alcohol in winter are decreased, damage from freezing is virtually eliminated and a more rugged construction is obtained. From an engineer's viewpoint the "cross-flow" radiator is one of the greatest automotive advancements of recent years.

A new, smoother, more easily operated clutch—crankcase ventilation which reduces dilution of oil—a new, beautifully designed instrument panel including a gasoline gauge—and a new semi-coincidental transmission and ignition lock—

—these are among the most prominent of the notable engineering advancements offered in this New Series Pontiac Six with the result that the Pontiac of today stands unrivaled as the world's finest low priced six.

Just Tottering, So Weak

"I was in a bad state of health and was going through a critical time of my life," says Mrs. Ella Scarborough, R. F. D. 5, Dothan, Ala. "Several different things were recommended to me, but I did not get any real relief until I began to take Cardui."

"I was just as weak as could be. My legs were shaky, and often I would just totter around the house. I finally got so bad that I was in bed several weeks."

"It was then that I began to take Cardui. I kept it up for quite a while, and at last I regained my health. Cardui was certainly a friend to me in time of need."

"My health is splendid now, and I seldom have to use medicine, but I gladly say a word about Cardui whenever I find a friend going through the same suffering which I endured." For sale by all druggists. EX-128
