Walks 23 Miles To See Baby

Mrs. Mae Sharon Hayes, 29, of Long Beach, Calif., sits beside the bed of her baby, Marguerite Mary, 11 months, at a Los Angeles hospital as she told of walking 23 miles to visit the child. Mrs. Hayes explained to newsmen she had only 40 cents and hadn't seen the baby for two weeks, so she and a Long Beach neighbor girl walked down a freeway to the Los Angeles hospital. Marguerite has an intestinal ailment. Their husband and father is a Navy radioman.

Secret Army Steps Up Algerian Terror

ALGIERS, Algeria (AP) — Armored cars and riot troops swarmed into the heart of Algiers today but European terrorists killed 10 more Moslems, virtually under the eyes of police. The Algerian nationalist rebels' parliament was meeting in Tripoli and was expected to approve a cease-fire with the French before the day is over. This was expected to touch off another eruption of violence by the secret army, enemy of both the rebels and the French government. In its campaign to block Algerian independence and keep the territory French, the secret army Sunday staged one of its most daring attacks to date—a bazooka raid on a French military police barracks in the outskirts. At least 10 persons were reported slain and gasoline storage tanks were set afire. French authorities retaliated by moving armed forces into Algiers from outlying bases, but still the killings went on in the crowded street of Algiers. Six Moslems were slain on the Rue Michelet. Police arrested a European and said he admitted one of the attacks. Four Moslem dead and one wounded were sprawled over a

Ambassador To Mexico Is Honored At Laredo Fiesta

LAREDO (AP) — Thomas Mann, a Laredo man who is ambassador to Mexico, was honored Sunday as "Mr. South Texas" by his home town. He was recognized for his achievements in the "development of amity and understanding between the people of the United States of America and the Republic of Mexico." Speaking at a luncheon, Mann praised "the peaceful mingling" of the people and soldiers of both countries at the annual Washington birthday celebration as "a unique homage to those principles of freedom and democracy which are the heritage of the two countries." "While walls are being built in Berlin to close the last gateway between Communism and the Free World, the gates of the two Laredos were thrown open so that the people of both countries could mingle peacefully," Mann said. Mann said social and economic injustices of the 18th and 19th Centuries have been corrected under the "principal tenets of the American Revolution." But Communists, he continued,

Drive Gains \$1,700 For Heart Fund

Heart Sunday, plus Cartoon Carnival, produced in excess of \$1,700 for the Heart Fund, tabulations indicated Monday morning. There were still some unworked areas in the city, and campaign leaders hoped to rally workers for these points so all residents will have an opportunity to give. Around 200 volunteers knocked on doors Sunday afternoon to gather gifts for the Howard County Heart Fund, an affiliate of the state and the American Heart Association. So far Monday, the total stood at \$1,605.83 from the appeal. An even \$100 came through the cartoon show at the Ritz Theatre Saturday morning. Mrs. Tommy Hubbard, co-chairman of Heart Sunday, urged those not contacted to mail gifts to the Howard County Heart Fund, Box 407, Big Spring. Addressed envelopes were left at the door of residents who were not home. The appeal for support of the Heart Fund will continue to the end of the month. Heart collectors are at many business firms to enable the people to make gifts to the fight against the disease which is responsible for 54 per cent of all the deaths in the nation annually. Special gift teams also are making contacts in an effort to bolster the working balance of the local, state and national units. An estimated 80 per cent of all gifts to the Heart Fund go to research and to professional and lay education on cardiovascular developments.

AND SOME ARE HEARTLESS

Some people who don't have heart difficulties don't have a heart either, local Heart Fund leaders have concluded. Among envelopes returned from the Heart Sunday appeal were those containing three washers, a piece of melted pewter, and a Mexican 10-centavo piece. On the brighter side, however, some child had painstakingly hand lettered a facsimile envelope and enclosed five pennies.

Shotgun Blast Kills Odessan

ODESSA (AP)—Billy Calhoun, 29, of Odessa, died from a shotgun blast early today in his trailer home. Ector County deputy Sheriff Bill Lowe said the man's widow told him her husband left Sunday evening and then called, threatening her life. Lowe quoted her as saying her husband came to the trailer house at 1 a. m. and was involved in a scuffle with her when the 24-year-old husband of another family, living with them in the trailer house, walked in. She said he fired the shotgun, hitting her husband in the head. Lowe said no charges have been filed. The tenant was jailed.

Weather - Plagued Astronaut Gets Washington Welcome

WASHINGTON (AP) — Astronaut John H. Glenn Jr. rode down the parade route of great heroes today to a ceremonial meeting of both houses of Congress assembled to honor him for his achievement as the first American orbital flier. Just over an hour after President Kennedy had flown Glenn and his family to the capital from Florida for a day of ceremonies, the astronaut set out from the White House in the presidential bubble-top limousine for the run past cheering throngs. The weather that had beset Glenn's orbit flight itself interfered with the first welcoming ceremony, driving it indoors in a big hangar at Andrews Air Force Base in suburban Maryland. It also shifted plans for a helicopter flight to the executive mansion, requiring a change to an impromptu motorcade. The rain, however, had virtually stopped by the time the parade party — this time minus the President — set out down historic Pennsylvania Avenue. Despite the weather, crowds lined the parade route. The jet silver and orange presidential jet plane—President Kennedy was host on the flight — touched down at Andrews Air Force Base at 11:16 a. m. after a flight from West Palm Beach, Fla. The rain was so heavy it "scrubbed" — to use an astronaut's term — plans for Glenn and the President to fly to the White House in a helicopter. Instead, they turned to a motorcade. Thus, once again, weather threw a kink into the planning that has surrounded almost every step of Glenn's career as an astronaut. Repeatedly, before his triumph

Weather Plays A Big Role In Glenn's Life

A cab driver on Connecticut Avenue told a reporter en route to the White House: "It seems like weather plays an important part in that feller (Glenn) doesn't it?" "I have seen a lot of women with children around the parade route so far, I wouldn't bring my kids down on a day like this." When the plane stopped, the ramp was rolled up and the President stepped out, followed closely by Glenn. A band struck up "Ruffles and Flourishes" and "Hail to the Chief." The President and Glenn both stood at attention at the foot of the ramp while the band played the national anthem. The President and the astronaut stepped out in the rain shoulder to shoulder to march through an honor guard of Marines up to a small reviewing stand facing detachments from each of the armed services. Glenn's alternates in the space venture also had been flown here from Florida. Glenn walked out alone to shake hands with the commander of the Marine color guard, then returned to the President and his family. They quickly climbed into the presidential bubble top limousine and drove away without further ceremonies. The automobile had the bubble up to shield against the rain. The trumpets pealed again as Kennedy, Glenn and the others stepped into waiting limousines, wheeled through the hangar in front of the troops and sped off toward Washington. Glenn and his wife, Annie, occupied the back seat of the leading limousine, which had the American flag and the President's flag fluttering from the front fenders. The motorcade pulled up at the southwest entrance of the White House at 12:02 p. m. Glenn's daughter, Lynn, was first out of the bubbletop limousine to be greeted by Vice President Lyndon B. Johnson. The presidential party moved quickly into the executive offices, leaving a mob of photographers and newsmen outside in the rain. After about 15 minutes at the White House, Glenn, the President and vice president emerged at the north portico, followed by

Hero Tells Of Great Frontiers In Space

WASHINGTON (AP) — America's first orbit-flying astronaut told Congress today that space flight now poses the bright promise of an expansion of knowledge "beyond description." The spaceman, Marine Lt. Col. John H. Glenn Jr., told of the prospect he sees ahead, in a speech prepared for a joint meeting of the House and Senate. It is a far greater future that now beckons, he said, than had originally been expected as "the result of research in space." And, as for the worries of some congressmen about the tremendous cost of this research, Glenn said that even at this stage of development, space flight "indicates a much broader potential impact than electricity." "We are just probing the surface of the greatest advancements of man's knowledge of his surroundings that have ever been made," Glenn said. "There are benefits to science across the board. Any major effort such as this results in research that it is hard to even envision the benefits that will accrue in many fields." Glenn said Project Mercury experiments thus far already have demonstrated that the spacecraft and systems design concept are sound and that man can operate intelligently in space and can adapt rapidly to his new environment. "Zero G or weightlessness—at least for this period of time—appears to be no problem," Glenn said. "As a matter of fact, lack of gravity is a rather fascinating feeling. "Objects within the cockpit can be parked in midair. "For example, at one time I was using a hand-held camera. Another system needed attention, so it seemed quite natural to let go of the camera, take care of the other chore in the spacecraft, then reach out, grasp the camera and go about my business." Glenn also described for the legislators his spectacular views of horizon colors and sunsets. Extending full credit to all the others involved in his great adventure, he said there were far too many to be mentioned individually. He said the Congress itself deserves credit for its vision in establishing a national program of space exploration. Glenn noted that from the original action in Congress to completion of manned orbital flight was a period of just over three years, a fact he said speaks eloquently of hard work and devotion. Glenn also pointed out that the launch itself was conducted openly with full news coverage by representatives of nations around the world. "Complete information is released as it is evaluated and validated," he said. "This is certainly in sharp contrast with similar programs conducted elsewhere in the world and elevates the peaceful intent of our program," Glenn said. As was to be expected, he reported, not everything worked perfectly on his flight. "We may well need to make changes—and these will be tried out on subsequent three-orbit flights later this year, to be followed by 18-orbit, 24-hour flights," he said.

Fast-Moving Front Ends Warm Spell

Deep cold spread rapidly over Texas Monday, ending springlike weather, and endangering budding fruit trees and tender vegetation in the northern half of the state. The Weather Bureau issued a cold wave warning for Northwest and North Central Texas in which it predicted zero temperatures for the upper Panhandle Monday night. Readings of 18 to 20 degrees were forecast for areas of North Central Texas. By mid-morning the leading edge of the icy blast was deep within the state. The thermometer dropped 12 degrees at Fort Worth within an hour—69 to 48 degrees. Heavy thunderstorms heralded the arrival of the cold blast in Fort Worth and Dallas. Dallas was drenched with 1.16 inches of rain and Fort Worth .71. Other rainfall included Bonham .57, Crandall .57, Clarksville .72 and Idabel 1.23. A freezing drizzle at Bowie, northwest of Fort Worth, glazed trees and shrubbery with ice. The temperature dropped to 28 degrees during the early morning hours. Dalhart, in the upper Panhandle, shivered in 10-degree weather. Amarillo had 18 degrees. Both cities reported a trace of snow. Heavy thunderstorms preceded the arrival of the cold blast at Fort Worth and Dallas. Dallas was drenched with 1.16 inches of rain and Fort Worth .71. The Weather Bureau issued cold wave warnings for Northwest Texas and portions of North Central Texas. The Weather Bureau has forecast lows in the teens in the Panhandle Monday night with below freezing temperatures expected in all of the northern half of the state. Occasional light snow is forecast for the Panhandle with light or freezing drizzle possible in the south portion of Northwestern Texas Monday night.

New Stanton Band Hall Open

STANTON — About 400 persons visited the new band hall at the Stanton High School Sunday afternoon during the open house and dedication, according to L. M. Hays, superintendent. The new \$160,000 building was built through a bond issue approved by the Stanton Independent School District. Rose Construction Co., Abilene, contractors, began work in July, 1961 and the building was accepted Feb. 15. It can accommodate a band of about 75 members. The first class period was held there this morning, Hays said. The modern concrete building is the first such facility expressly for a band. The old building will be used for storage and for use by the Girl Scouts. Open house began Sunday at 2 p. m. and the dedication ceremony was held at 3:30 p. m. Dr. R. Gage Lloyd, pastor of the First Presbyterian Church, Big Spring, delivered the dedication address. He spoke on education for democracy and freedom. The Rev. W. H. Uhlman, pastor of the First Baptist Church, Stanton, gave the invocation and the Rev. Ellis Todd, pastor of the First Methodist Church, Stanton, gave the benediction. Supt. Hays introduced members of the school board. The band, under the direction of Taylor Stephenson, presented two numbers for the visitors. Refreshments were served during the open house.

County Authorizes Voting Booths For Elections Here

Voting booths, as required by law in cities the size of Big Spring, will be provided for the seven election precincts in the city. Howard County Commissioners Court Monday morning authorized the purchase of 50 voting booths, to be purchased as soon as samples can be examined and bids obtained. The decision to buy the booths climaxed several weeks discussion. A petition signed by 240 residents of Big Spring, asking that booths be provided for the election precincts, was laid before the commissioners Monday. It was pointed out in published news reports some weeks ago that state law requires that booths be provided in voting places in towns where the population is 10,000 or more. The law has been on the books since 1951 but has never been observed here. After considerable discussion of the question Monday, Judge Ed Carpenter asked if he could have a motion to purchase the booths. He said that he personally favored the plan. Joe Hayden, county commissioner, said he had made a survey. And that 326 persons he asked if they favored voting booths said "no." 323 said "yes." 47 replied they didn't know; 30 replied they were not interested enough to vote one way or another. The petitions, which were submitted to the court, were checked by the commissioners. Hayden said that some of the persons who had signed the petition have since told him they regretted they had done so. When discussion had closed, Ralph White, made a motion that the county buy 50 voting booths. L. J. Davidson seconded the motion. All the commissioners present voted for the motion. Rufus Stallings, the fourth member of the board, was not present. However, Judge Carpenter said that Stallings had told him last week that he felt the booths should be provided for the voting precincts.

"MY LORD AND MY GOD"

By A Christian Writer

There is one God, who is manifested in three persons. In a sense that can be, Jesus Christ is God's Son. He is "the Son of God." He is "declared to be the Son of God . . . by the resurrection from the dead." Rom. 1:4. John 20 tells of His resurrection. It tells us that when Thomas was convinced of His resurrection, he exclaimed, "My Lord and my God."

Was Thomas an idol worshiper in confessing Christ as Lord and God? Christ did not reprove him for what he did. When men offered worship to Paul and Barnabas and Peter and an angel, they were all told to "do it not" (Acts 14:12-16; 10:25, 26; Rev. 22:8, 9.)

Fountain Of Youth For Elderly Man

NEW YORK (AP)—John Olsen, alone at 79, has found a fountain of youth through a relatively new twist on an idea that has given meaning to the lives of countless orphaned children.

He lives in a foster home for the elderly.

"This has been the life for me," Olsen said of the time he has spent in the home of Mr. and Mrs. Ernest Maxfield and their children in the Bronx.

"I am 79 and don't feel any different than when I was 20," he said. "They treat me like I was one of the family. The children call me Uncle John."

His was a situation typical of those of many of the nation's elderly. He had just been released from a hospital after suffering a broken hip. He had no immediate relatives. His hotel rent was \$90 a month and his social security check only \$78 a month.

Olsen was sent to his foster home through the Catholic Charities Family Service Department. Olsen told the New York Herald Tribune that it's the attitude of the Maxfield family that makes his foster home a happiness house.

"In some places they could keep you in the ice chest upstairs and only let you come down to eat. Now you take the two boys here—David (18) and Tommy (14)—they bought a big birthday cake for me when I was 79. The boys did this and gave me a party."

"All kidding aside," he added, "I'm in a pretty good spot."

The Maxfields receive \$150 a month, with Olsen contributing his Social Security and the City Welfare Department making up the difference. Olsen also receives

about \$10 a month spending money from the city.

"Oh, I don't have any money left," he said. "I guess I had \$2 in the bank when I came here. I had it, but I spent it. My advice to older people is, 'Enjoy your money, it's later than you think.'"

Women's Dorm For Tarleton

COLLEGE STATION, Tex. (AP)—Directors of the Texas A&M College system awarded a contract for a women's dormitory at Tarleton State College and appropriated a total of \$1,357,940 for four schools.

Joe Badgett Construction, Inc., of Austin will build the Tarleton dormitory at Stephenville. Its bid was \$379,300.

The directors voted \$440,200 for Tarleton altogether. They approved a \$17,515 contract with Metals Equipment Co. of Hicksville, N.Y., for science building laboratory furniture at the school. For Arlington State College the board appropriated \$572,900, including \$186,800 for stadium improvements. Watkins & Murphy of Corsicana holds a contract for the first stage of this work. Bids on the rest of the project were rejected and new designs ordered.

Other appropriations for Arlington State include \$240,000 for land and improvements and \$200,000 for science building equipment. The directors confirmed a \$401,368 contract for Texas Mechanical Contractors of Fort Worth to install a central heating and cooling plant at Arlington.

Texas A&M College received \$321,140 in appropriations, including \$125,000 for plants science building equipment and \$85,500 for fireman's training field improvements. Other items include \$119,740 for major repairs for Ft. Crockett buildings near Galveston to be used by the Texas Maritime Academy and \$21,300 for expenses of the academy.

The directors awarded B-W Construction Co. of Bryan a \$45,579 contract to build livestock pens and shelter at the Texas A&M school of veterinary medicine.

Hair View A&M received \$23,000 in appropriations, including \$10,000 for home economics equipment, \$6,000 for utility extensions and \$4,000 for power plant improvements.

The board changed the title of W.C. Freeman Jr., who has been controller of the Texas A&M system, to vice chancellor for fiscal affairs and comptroller.

Named councilors of the Texas A&M Research Foundation were Clyde Wells, who is one of the A&M directors, and Deans W.C. Graft, F.W.R. Hubert and A.A. Price.

First Lady Plea For Peace Asked

WASHINGTON (AP)—Edward R. Murrow, director of the U.S. Information Agency, says he sees no harm if Mrs. John F. Kennedy were to broadcast an appeal for peace to the Soviet Union to match a similar broadcast by Mrs. Nikita Khrushchev to the United States.

Murrow didn't specifically endorse the idea during a taped television interview Sunday but he described the First Lady as "a national asset in the field of communications."

A women's peace group suggested last week following a broadcast by the wife of Soviet Premier Khrushchev that Mrs. Kennedy make a similar appeal to the Russian people.

Oil Well Burns

Only a roaring torch of oil and gas remained triumphant after this oil well blew out of control and ignited two miles south of Albion, Mich. Heat from the flames sent vapor dancing over the snow. The flames reached 60 feet high, and the clouds of black smoke could be seen for more than 10 miles. The fire was in the midst of the most productive area of the Albion Township field.

Cop Works Hard, Becomes Lawyer

BALDWIN, N. Y. (AP)—Nassau County patrolman Walter R. Henesy is a devoted father to a family that soon will number a dozen children. But he hasn't had much time to enjoy the role.

For the past six years, he has been grinding away at his studies—going to bed late, arising early for his regular job and doing odd jobs on the weekend to pay for his education.

Now that's all in the past. He recently passed his bar examination and expects to be admitted to the bar in June.

The Brooklyn-born patrolman, now 42, grew up in Oceanside, N. Y. He had to leave high school to take a job to help support his family, which had 10 children.

After Army service in the China-Burma-India theater, he married his childhood sweetheart, Ileen Maloney, and set about having the large family.

His bid to realize the dream of an education came after he joined the police force in 1949. First, he got his high school equivalency diploma, then attended Hofstra College by meshing it into his work schedule. Next he attended St. John's University Law School in New York City, again on a staggered schedule.

"It meant going into a room with the books and shutting yourself off from the world," said Henesy, who earns \$7,400-a-year as a patrolman. He has no immediate plans for leaving the police force. He says a law office is the dream of every lawyer "but I've got 11—no 12—kids to take care of."

The Henesys hope the next child—due in May—will be a boy.

Too Much Redeye

BERLIN (AP)—An armed Soviet soldier who evidently celebrated Red Army Day with too much gusto stumbled over the border into West Berlin during the night and was picked up by West Berlin police.

The U.S. Army command said the soldier "was apprehended in an intoxicated condition" at 2 a.m. in the American sector suburb of Rudow, south of the city. The Soviet garrison in East Berlin Friday celebrated the 44th anniversary of the foundation of the Red army.

West Berlin police turned the soldier over to U.S. military police, who held him at Andrews Barracks while arrangements were made to return him to Soviet authorities. A Soviet officer collected him from the barracks at midday and took him back to Communist territory.

No one seemed to know how he got across the heavily guarded barbed wire and concrete wall into West Berlin. His name was not disclosed.

Another Storm Covers Midwest

By The Associated Press
Another snow and sleet storm hit sections of the Midwest today, dumping another blanket of white across the snow-covered midlands.

Wet weather also was in prospect for most of the eastern half of the nation, with snow and rain in the Northeast and rain in other areas outside the Midwest snow belt.

That would even things out. Presently, they have six girls and five boys.

Relaxed Beauty

Eva Marie Saint believes that a girl who is relaxed and happy will attract more attention than a self-centered beauty. She will soon be seen starring in MGM's "All Fall Down."

HOLLYWOOD BEAUTY

Being Good Listener Is An Asset To Wives

By LYDIA LANE
HOLLYWOOD—Eva Marie Saint has become one of Hollywood's top stars and the career of her husband Jeffrey Hayden, is going well, too, but this good fortune has not changed the basic sweetness that was Eva's when she first arrived. When we met recently for lunch in Beverly Hills, she looked very chic, but I noticed that she was still wearing a chip diamond in a gold setting that had been given to her as an engagement ring.

"I took every cent that Jeffrey had at the time," she explained, "and it means more to me than any jewelry I have." Eva Marie is a devoted mother and wife, and she praised the example set by her mother. "My parents were devoted to each other and we children knew they loved us. I hope my son and daughter will feel about us the way I feel about my parents."

"A woman should understand that when a man works hard all day, he may seem cross when he comes home. This is natural for fatigue and tensions affect the disposition. I listen to Jeffrey talk and talk. He knows I'm interested, and then suddenly he'll look at me and say, 'Now what have you done?' and then I know that he is feeling better. Being a good listener is the duty of every good wife."

"Femininity goes hand in hand with security," she continued. "If you feel integrated, you are not trying to be competitive. You are only being yourself. A woman."

"My mother always stressed individuality. She made us feel that everyone had something that was all his own, if he would find it and express himself. She always comforted me and I find that I am using some of this advice with my children."

"I heard myself saying to my son something I'd been told many times. There is nothing to worry about, if you have really tried to do your best. That is all anyone can expect of you," she added. Eva Marie spoke of the clothes she had worn in "All Fall Down," which will be released soon by MGM.

"No matter how much I have in the bank, I have a terrible time paying the prices they ask for."

BLONDES

They Are At Work And Far Removed From 1926

By MARY CAMPBELL
AP News Features Writer
NEW YORK (AP)—Author Anita Loos, who can remember when gentlemen preferred blondes and blondes preferred diamonds to a kiss on the hand, says there is only one Lorelei Lee around today.

The kept woman business crashed with the stock market in 1929, Miss Loos says, and, because of economics, it never made a recovery. "With the rising cost of living, extra-curricular girls—the beautiful blonde Lorelei Lees—were out of the question. Also, there was no way to charge them off on income tax."

"So the situation has completely changed."

"Today a blonde just automatically goes to work—some of them are even supporting husbands and boyfriends."

"And the two greatest blondes we have — Marilyn Monroe and Brigitte Bardot — work harder than any gentleman I know."

The tiny author, who wears her dark hair in a fringe around her small, animated face, acknowledges, however, that one Lorelei Lee is thriving today—the heroine of her 1926 book "Gentlemen Prefer Blondes." After two movie adaptations, two Broadway plays, 65 editions and 13 translations of the book, it now is out in a new paperback edition and in a new record with Carol Channing reading the book. The play will be produced next fall in Paris.

But Miss Loos, whose husband died eight years ago, doesn't just sit around her Manhattan apartment enjoying the gold Lorelei continues to dig.

"I write all the time," she says. She currently is finishing a play, "The Flanders Mare," a comedy about Henry VIII and Anne of Cleves, for production on Broadway.

Mr. and Mrs. A. J. McNallen have been in Abilene to visit their daughter, Mary Kay.

way next fall. Another of her comedies, "Happy Birthday," in which Helen Hayes played, is being launched here—this time with music—this spring.

"The theater is my area," Miss Loos says. "I practically was born writing movies and later graduated into writing plays. For 'Blondes' I stepped out of my area."

The present popularity of that book Miss Loos attributes partly to nostalgia for the Twenties.

Miss Loos adds that she thinks "Blondes" stays alive because its characters all were based on real people. "There may not be any now," she says, "but in those days I knew lots of girls like Lorelei. The particular one she is based on was a starlet who later dropped out of sight—probably to marry."

"I expect that now she's a very proper Grosse Pointe grandmother."

DEAR ABBY

Abby Has A Problem!

DEAR READERS: I am frequently asked, "Do YOU ever have a problem, Abby?" The answer is yes. And right now I have a dandy and am appealing to my readers for a solution. I have just written a new book. It's all about marriage, why it fails and how to save it. I titled it, "Marriage on the Rocks." (The condensation is presently appearing in McCall's Magazine.) I have just been informed that the title of my book was so good that someone else used it years ago. This was news to me. Furthermore, if I insisted on using the title, I would have to fight it out in court. No, thank you. I decided to change the title, instead. It's a serious book (but not without humor) dealing with marriage and "hi infidelity." So, Dear Readers, wherever you are, if you can think of a fitting title for my new

book, formerly "Marriage on the Rocks," please rush it to me. Abby (AUTHOR WITHOUT A TITLE) DEAR ABBY: I am married to a fishing bum. During the summer months he fished only on weekends. I didn't mind getting up at four a.m. to fix him a hot breakfast and pack him a good lunch. But recently he has taken up night fishing. He tells me blue fish bite better at night, so he takes off in the evening and returns at dawn, all done in, and with a very small catch. The fish he catches at night do not seem as fresh as the fish he caught in the daytime, and they look more like flounders than blue fish. I want to know if blue fish really bite better at night. FISHERMAN'S WIFE DEAR WIFE: It doesn't matter when the blue fish bite better if you continue to go for his line. Any man who can pass off a couple of fish market flounders for fresh blue fish should spend his time selling, not fishing.

Income Tax Time Again.

By JAMES MARLOW Associated Press Staff Writer Highlights on filing an income tax return for 1961: Deadline — midnight, Monday, April 16, 1962. Income to report — Only the taxable kind. Some, like Social Security payments, is nontaxable and should NOT be reported. Refunds — If your 1961 income tax was too low for the amount of tax withheld from it, you can get a refund but only by filing a return. MUST FILE You must file a return, whether or not you owe tax, if: 1. You were under 65 and your 1961 income was \$600 or more. This includes children. Their parents are responsible for their filing. 2. You were 65 on Jan. 1, 1962 or blind by Dec. 31, 1961 and had \$1,200 income or more. A self-employed person of any age with net taxable income of \$400 or more must file a return and pay a self-employment tax, really a Social Security tax, of 4 1/2 per cent on income up to \$4,800. Thus a man over 65, even though drawing nontaxable Social Security payments, would have to file a return and pay this tax if he had net taxable income of \$400 or more from self-employment. W-2 withholding statements — Enclose with your return all these receipts for tax withheld from your pay during 1961. Help — You'll get a lot by reading the 14-page instruction sheet sent every taxpayer by the Internal Revenue Service (IRS). It has tax rates and tables. MORE DATA You'll get even more information in the 144-page booklet, "Your Federal Income Tax," which the IRS will sell you for 40 cents. Tax returns — In making their returns individuals will use either form 1040 or 1040A. The latter is a punch card. Last year there was a third form, 1040W, IRS, trying to simplify things, scrapped that one and streamlined 1040. Anyone can use 1040. You can use 1040A only if your income was under \$10,000 and was entirely in wages from which tax was withheld plus NOT more than \$200 in dividends, interest or wages from which tax was NOT withheld) and if, instead of itemizing your deductions, you're willing to accept the standard deductions of about 10 per cent already allowed for in the table used to figure your tax. MUST USE 1040 If you don't meet these conditions, you must use 1040. Deductions — You may save by checking the expenses you can deduct from your income before what's left is taxable. Example of deductible expenses: state income taxes, interest on the house

mortgage, state gasoline taxes. Everyone gets a standard deduction of about 10 per cent up to \$1,000 for personal expenses. If yours don't exceed that, you don't have to claim or itemize them. They're allowed for in the table used to figure your tax. If they do exceed 10 per cent of your taxable income, you can claim them in full but only by itemizing them and figuring your own tax. \$600 EACH Exemptions — Each one you can claim means \$600 knocked off your income before what's left is taxable. Everyone filing a return gets a \$600 exemption for himself and \$600 for each dependent. A wife is NOT a dependent. If your wife had NO income, you can file your own return, claiming a \$600 exemption for yourself, \$600 for her. The tax is split for husbands and wives filing a joint return. So most couples file jointly, whether or not the wife had income. If your wife had income, no matter how small, you can't claim an exemption for her unless she files jointly with you. Then each of you claims a \$600 exemption, total \$1,200, on the same joint return. If your wife had income but for some reason files her own return, she claims her own \$600 exemption on her return, you claim your \$600 exemption on your return. EXAMPLES Examples of taxable income, which must be reported: Wages; salaries; profits from a business, profession or farm; income from estates and trusts; fees; tips; commissions; bonuses; rents; interest on savings bonds; stock dividends; dividends from savings and loan associations; prizes for which you did something to win; profits from the sale and exchange of property; generally strike benefits paid by unions; gambling winnings; severance pay. Examples of nontaxable income, which doesn't have to be reported: Gifts in money or anything of value for which you performed NO service; state or federal social security benefits; unemployment compensation paid by a state, although supplemental unemployment benefits from a company-financed supplemental employment fund are taxable; life insurance proceeds paid because of the death of the insured, unless the policy was transferred to you for a valuable consideration; veterans benefits from the Veterans Administration to veterans and their families; interest on state and municipal bonds; subsistence and rental allowances to members of the armed forces; public assistance payments to the blind. Tomorrow: Choosing the right form.

A Devotional For Today

He said unto them, Unto you it is given to know the mystery of the kingdom of God; but unto them that are without, all these things are done in parables.

PRAYER: Our Father, we thank Thee for Jesus who walked with men and taught them in parables. Help us also to walk with Him in daily growth and action. Empower us with spiritual fervor. In Christ's name we pray. Amen.

(From The 'Upper Room')

A Tedious Problem

Before long the Big Spring Concert Association will be faced with decisions about the program for a new season. The recent experience in staging "The Music Man" indicates that this task will be like walking a tight wire in an effort to continue real drawing cards as well as top quality.

Although the problem has existed for two or three years, there was no awareness of it until the settlement of accounts on the Fred Waring show revealed that the Odessa-Midland local of the stage hands union had jurisdiction over miscellaneous help. This automatically doubled basic staging costs. On small productions, this may present no great problem, but on those comparable to "The Music Man," the auxiliary expense imposed on the association could run up to 15 per cent of the contract charge for production.

In recent years, like everything else (and perhaps more so), talent charges have gone up and up. Even for a minimal association like ours, relatively untried soloists start at \$500. Better attractions may range up to \$4,500 and \$5,000, and the top personalities can go even higher and higher.

If every seat in the city auditorium could be sold at the adult price, the total yield would be only about \$13,000. But the series is not just for adults; it is also to encourage the younger generation—the children and the students. This is one reason why Howard County Junior College has worked with the association in contributing to the budget in return for

student admissions. So when considering potential gross, it is apt to be considerably less than the maximum at adult prices unless the door is closed to students.

What, then, is the answer? There likely is no easy one answer. One alternative is to book productions not bound by union restrictions, yet as a practical matter most of the actors as well as the crew members are union members. It may be possible to reach some understanding with the local, such as on the recent production, on a certain number of key workers to be furnished by the local.

Another possibility, although likely remote, is to arrive at package deals with booking agents—that is, the contract program fee to include all expenses connected with the staging of the production. Still another alternative is to practice austerity in booking programs, tending more to soloists and small groups. Another, which few would even want to attempt, would be to secure underwriters—or private, subsidizers, if you please.

Somewhere down the line there is the matter of exploring the possibility of additional or larger auditorium space so that the seating capacity would offer greater budget potential. Finally, there is the angle of higher admission fees, which admittedly might defeat its purposes. The final alternative is to chuck the whole idea, but none who has seen the association's tortuous uphill struggle toward cultural enrichment of the city would want to entertain that thought.

Making Improvement Possible

With the award of a contract to Cage Bros. for construction of a four-lane divided highway from Big Spring to Fairview, the Howard County section of this projected improvement or US 87 is assured.

Howard County has a record of awareness of its responsibility in cooperative effort with the State Highway Department to develop the best possible highway system. In turn, the highway de-

partment has responded in an exemplary manner.

The lines are being staked in Dawson County, and part of the four-lane divided project is under construction in Lynn County. Thus, we hope that before long the road can be similarly improved all the way to Lubbock.

For clearing the way for this program on this end, the Howard County Commissioners Court is due commendation.

More Power For Federal Government

WASHINGTON — Despite the fact that the House of Representatives overwhelmingly defeated the administration's latest reorganization plan, President Kennedy predicts that the establishment of a Department of Urban Affairs, which he unsuccessfully advocated, is an inevitable development.

BUT THE PRESIDENT, unhappy, has not analyzed the real reason for the setback. It wasn't personal. It wasn't based, as he suggests, on opposition from rural areas to giving aid to cities. It wasn't motivated by the ill-advised interjection of a racial issue in the announcement that Robert C. Weaver, a Negro, would be appointed to head the new department. The refusal of Congress to go along was due primarily to a deep-seated revolt against the concept of a centralized government which could conceivably convert the White House into the most powerful political machine this country has ever known.

FOR IF A Department of Urban Affairs is needed to work with municipal governments, it is just as logical to ask for the creation of two other departments—one covering all relations between the federal government and state governments, and another to embrace all relations with county governments. Likewise, it can be argued that the Department of Health, Education, and Welfare has too broad a scope, and that it should be separated into two departments, so that one can specialize in education.

But, the basic mistake is in the concept that few departments are needed for urban affairs, just because city problems have increased. Fundamentally—if the federal government is to maintain the constitutional principle of state, city and county systems, as separated from the federal system—what is desirable is not several new departments, but one department that specializes in the disbursement of federal funds and the making of contracts with the states, counties and cities.

ALSO, IF THE argument that the federal government doesn't intend to control the educational process of the states—when federal funds are furnished to them—is accepted as sincere, then all that is needed is a good business organization to see that federal funds are matched by the

The Trouble With Women

NEW YORK (AP) — Women sure are a lot of trouble to themselves—and anyone else who has the misfortune to get caught up in their turmoil.

There are only two types of ladies a man sits next to on airplanes:

(1) Those mad as their son-in-law, who insist on telling you why.

(2) Squirmlers.

The other day I boarded a plane and the stewardess flagged me to a seat next to a strange lady.

She had the look of a woman who had been ordering the same man around for years. I could tell at a glance she was a squirm.

All I wanted to do was to nap until we reached our destination. But instinctively I realized I was in for trouble.

Sure enough. As soon as I closed my eyes, the lady said: "This airplane is too cold. I feel a draft in here."

Automatically I reached up and began to turn off the air vent.

"You're turning it the wrong way," the lady said positively. I kept on turning the gadget in the same direction. The flow of air stopped.

The lady gave me a 300-kilowatt glare. I had done the unparadigmatic thing. I had proved her wrong.

I closed my eyes again as the plane started down the runway and rose into the sky.

"He took off too fast," said the lady.

"Probably a beginner." I mumbled, and closed my eyes.

"My, it's getting warm in here," said the lady.

I reached for the air vent.

"You're turning it the wrong way," she said. I kept on turning it in the same direction. Cool air rushed out.

The lady gave me a 600-kilowatt glare. I had proved her wrong twice in 10 minutes. I realized I had made a lifelong enemy.

I closed my eyes.

"I hate to bother you, but could you reach me a pillow?" I reached for a pillow, and closed

my eyes. Three minutes later she said, "Would you mind putting the pillow behind me?"

Well, so it went. Every time I closed my eyes the lady wanted something else—a magazine, a drink of water, et cetera, et cetera and et cetera some more.

When the meal came, the lady couldn't get the paper off her dab of jelly. I got it off all right—and got the jelly all over my hand. Gallantly, I offered her my jelly.

"Is it the same flavor?" she demanded suspiciously. I assured her the airline played no favorites.

I closed my eyes.

"I've been visiting my daughter," said the lady, "and—"

She went into a 45-minute denunciation of her son-in-law.

"Par'n' me," said the lady, climbing over me to go to the rest room. On the way one of her spiked heels raked my right shinbone. On the way back she wounded the left shinbone.

Then she dropped her handbag twice and I picked it up both times. She opened her compact and spilled powder on my suit. She opened a bottle of perfume, put a drop behind each of her ears, spilled the rest of the bottle on me.

Desperately, I closed my eyes—but we were coming in for a landing.

She tromped on both my shins getting out. As we left the plane she was met by her husband.

"Did you have to wear that suit?" she asked. "You know I don't like it."

"Have a nice trip, honey?" replied her husband.

"Terrible," I heard her say. "I tried to get a nap, but the man sitting next to me jabbered all the way."

If her husband had been half my size, I would have rushed up and hit the lady in the nose right there. Unfortunately, her husband was more than half my size, so I didn't.

I just went home and tried to explain to my wife why I smelled of perfume, and she said, "A likely story—what really happened?"

Aspirin Excellent For Osteoarthritis

BY JOSEPH G. MOLNER, M. D. Dear Dr. Molner: My husband has a mild form of osteoarthritis which affects the spine in the neck. It causes frequent and rather severe headaches. We would appreciate knowing of medication and other measures to treat it.—MRS. W. C. T.

People with osteoarthritis of the spine in the neck often slouch—and that's just asking for more trouble. Correction of posture is necessary.

Medication? Aspirin remains one of the best ever discovered for this. Occasionally stronger pain-relievers are needed. To relieve muscle spasm—heat, gentle massage, sometimes muscle-relaxing drugs.

In my experience neck traction has been quite effective. This can be done at home with suitable apparatus, and relief after a series of treatments often lasts for a considerable time.

Dear Dr. Molner: Please send me your booklet on pinworm. According to your instructions, I am enclosing 20 cents in coin and a long, stamped, self-addressed envelope.

How long do eggs of pinworm remain dormant or alive? Regardless of boiled bedding

and clothes, plus sulphur or gentian violet cures, we have recurring infections after a few months. Could such infections lurk in a diverticulum after the rest of the tract has been cleared?

Do dogs and cats carry the worms?—A. P.

The complete cycle, from swallowed eggs to hatched worms, takes two to three weeks.

Recurrent attacks: raise suspicion of (a) incomplete treatment to start with, or (b) re-infection from other members of the household—adults as well as children. There are newer and more effective medications now than the one you mentioned. The booklet names some.

Yes, pinworms are known to lurk in the appendix, for example, so perhaps could infect a diverticulum.

Animals do not carry pinworm.

Dear Dr. Molner: I read in your column that a woman was told that using deodorant would stop up the glands and you said it wasn't true.

A few months ago I had the same trouble and the doctor said the deodorant stopped up the glands. I had six abscesses under

my arm and spent a week in the hospital.—MRS. G. S.

I'd like to hedge a bit on this, or at least define some things. I find no reason to believe that deodorants cause abscesses or infections. I will grant that they can tighten up the pores, and if some germs are present, especially the prevalent staphylococcus, the stringent action, tightening the pores, might help trap the germs.

I've certainly known many people who regularly use such deodorants without the slightest trouble with infection. And I've also known abscesses to afflict people who never have used deodorants.

The underarm area, being warm and moist, is ideal for germs to flourish, given half a chance. I can't put the blame on deodorants—but I can't say their stringent action may not be a contributing factor at times. I'd say that any irritation directly from the deodorant would manifest itself as a red or itchy condition not as an abscess.

For those who want to avoid the astringent effect, a strong baking soda solution may serve as well as a deodorant. Antiseptic soaps also are effective.

What Does A Phone Dial Look Like?

One thing and another: How many of the readers can draw an ordinary telephone dial without peeking, placing all the numbers and letters where they should be?

Do you know which letters are omitted? Did you remember to start the letters in the No. 2 hole rather than the No. 1?

MAYBE YOU'VE heard it, the one about the small boy who yelled to his mother:

"Mom, can I eat this piece of candy I found on the floor?"

"Heavens, no, son. It has germs on it."

A few seconds elapsed, then the boy called back:

"Can I eat it now? I licked all the germs off."

DR. C. F. RICHTER, professor of seismology at California Tech, warns that enough stress has been built up in Southern California's network of earthquake faults to bring about a major quake at any time.

He reasons such earth shuddering is long overdue.

According to Dr. Richter's calculations, in parts of the world where about 500 minor quakes occur annually, a great quake may be expected once in 40 years. By the same reasoning, he says that in areas which have 50 small quakes a year,

a great one can be expected once in 400 years.

SOUTHERN CALIFORNIA has about 200 minor earthquakes a year, which means that a great earthquake should be expected in that area about once a century. So contends Dr. Richter.

Southern California's most recent "great" quake occurred 105 years ago, at which time it centered near the town of Gorman. Had the southern part of California been as thickly populated as it is today, the quake quite probably would have killed more people and done more property damage than even the San Francisco earthquake of 1906.

THEY TELL all young men on the verge of marriage to be prepared to bend to the yoke.

This vignette is offered as a sort of indoctrination for those about to make the leap:

There was this young bride who had to return to her mother's home when the parent became ill. She left several notes around the house for her husband to find. One in the coffee canister reminded him of her love. Another on the TV set suggested a chore he should perform. But the one he found among his white shirts brought him up short.

It read:

"Where do you think you're going that you need a white shirt?"

In Defense Of Romney's Religion

Bigotry is always off and running, although the nation can console itself by the visible evidence that as time goes by it has less and less attraction except for the loud-mouthed but limited lunatic fringe of the far left and right.

After all, we did elect a Catholic to the Presidency in 1960. That is no small triumph to those of us who remember the cruel and bitter campaign, much of it pure bigotry, waged against Al Smith in 1928.

SO I HAVE BEEN a little taken aback by the mail that has flooded across my desk since George W. Romney, former president of American Motors, entered the G.O.P. race for the governorship of Michigan. And since I wrote that he is one of the most intelligent, dynamic and attractive persons I have ever interviewed.

"Do you want a Mormon to be President of the United States?" demand indignantly writers, ignoring the Michigan situation and leaping ahead to the national picture. How dare you speak well of that man, they continue. In all probability, the parents and grandparents of these correspondents, in 1928, were writing angrily to newspapers and asking, "Do you want a Catholic to be President of the United States?"

WELL, MY ANSWER to the query as to whether or not I would vote for or condone a Mormon in the White House is yes, sure, indeed, of course, and why not? As far as I am concerned, Mr. Romney has only one score against him, and it's not because he, in his devout way, is as devoted to his church as President Kennedy is to his. The strike against Mr. Romney, from this Democrat's point of view is that he's running on the wrong ticket, the Republican.

OBVIOUSLY, the popular image of Mormonism in many minds remains the

doctrine of plural marriage, although it has not been practiced in many decades. It may be all in the imagination, but methinks in the letters from men denouncing this obsolete practice there is a wistful indignation, while the ladies, one and all, are just plain outraged. From the tone of all the missives, one would gather that the church is still practicing polygamy.

Perhaps my warm and friendly feeling for the Mormons stems from the fact that I lived among them when I was growing up in Idaho. They were just other nice, kind, churchgoing persons.

IT IS MY experience that persons of all faiths who live with Mormon neighbors are impressed with the fact that young Mormon men are expected to do a tour of missionary duty. They give one to two years of their life to church work with every sign of joy and satisfaction.

No one who lived side-by-side with Mormons during the depression could have anything but admiration for the manner in which they took care of their own church members who fell upon lean, wretched times. Mormons, who were as hard hit by that era as any other faith, rallied to provide shelter, food and clothing for their needy.

WIN, LOSE OR DRAW, the entry of a man of Romney's caliber into the political scene can do nothing but elevate that scene and benefit all of us. But those of us who thought that religious bigotry in Presidential contests had been scotched by Mr. Kennedy's election were naive.

Now it starts all over again, with Mormonism the target. The only way amusement—and not much of it—in the situation is that, for the first time, the shoe is on the G.O.P. foot.

Republicans Gather Optimism

WASHINGTON — Aside from the upset election last year of Senator John Tower of Texas, the Republicans have had almost nothing to cheer them — yet they continue, to their credit, to bet to the prescribed line.

That is, they are making a serious drive into the heart land of national affairs, going after governorships and House seats, which are far closer to the American people than U. S. Senatorships and the lonely life of the political gypsy as personified by Harold Stassen.

IN 1952 the GOP held a majority of the governorships, and it led on to national victory. The succeeding years saw hideous slaughter in the state capitals of supposedly impregnable Republican strongholds from Maine to Oregon, from Pennsylvania to California. Only this year the GOP stalwarts were tantalized when, against every expectation of winning in New Jersey, they lost to the Democratic underdog Richard Hughes who, as we learned later, "neglected to read his own political obituaries."

NEVERTHELESS, the feeling of the railbirds is that the Republican nag is overdue for a win in some of these governorship stakes, and is due to continue an improving performance in elections for the House. Nothing that's happened to Nelson Rockefeller will prevent his making a re-election sweep in New York. Richard Nixon, winner in California over John F. Kennedy in 1960, believes that this augurs well for a win over Governor Pat Brown this year.

WITH A DEMOCRATIC donkeybrook including Governor Daniel, General Walker and John Connally working up in Texas, either of the Republican candidates, Jack Cox or Rog Whittenberg, could get lucky and win. The appearance of George Romney in Michigan, despite some disgruntlement by the Old Guard, makes a Republican the favorite for the governorship, which long has been in Democratic hands. Oregon has been recovered for the Republicans by Governor Mark Hatfield, and there is a strong likelihood that the incredible Theodore Roosevelt McKeldin will once more become the first citizen of Maryland.

PENNSYLVANIA, another lost province of Republicanism, could be the best news of the year for the GOP party chiefs. Republican Senator Hugh Scott, who says he's tired of seeing losers pick losers, in a candidate for the gubernatorial nomination. He will try to wrest it from Superior Court Judge Robert Woodside, who is the choice of a well-meaning but luckless oligarchy which for years has been sending sacrificial lambs down the gullets of Democratic wolves.

It won't happen this year, if Scott gets the nomination. He was born in Virginia, where political professionalism is acquired at puberty. Since then the Senator has become as proficient and personable a practitioner as any man in the country. Nothing is sure in politics, but Scott's announcement has changed the Keystone State from a probable lost cause to a glowing opportunity for Republicans.

IT MAY CHANGE something else as well. Although he is definitely left-of-Goldwater, a Scott victory would lower the content of Mc-Too in the GOP. If the Senator goes to Harrisburg, no other Governor will match him in what the Republicans most need — a witty, enlightened, personally unassailable needer of Democrats. From the day of Mr. Kennedy's nomination in 1960, Scott has lampooned him, his family, his Frontier, his Hundred Days, his failures, his favoritism in press relations, his No Win advisors, his fondness for neutralist nations and his cumbersome legislative programs.

WASHINGTON soothsayers are at a loss to know why Scott would voluntarily leave this flowery city for the less conspicuous charms of Harrisburg. There are no recent indications that Governors fare better than Senators in the grab for presidential nominations. The easiest explanation of Scott's motives may be the best one. He likes to fight Democrats, and he'll be a very big national Republican if he whips them this time.

Discusses Altitude

Astronaut John Glenn Jr. explains at his news conference at Cape Canaveral, Fla., the low and high points of his orbital flight.

Three Scuba Divers Die In Old Quarry

KINGSTON, N.Y. (AP)—Three scuba divers died Sunday when a mud slide trapped them 130 feet under water in an abandoned stone quarry and their air supplies ran out.

A fourth diver, who made a daring attempt to rescue them, was reported in fair condition at a hospital today, suffering from shock. He knew his own breathing apparatus was defective when he made the rescue attempt.

Dean DeBene, treasurer of the 1,000-member Illinois Council of Skin and Scuba Divers, an affiliate of the Underwater Society of America, called the deaths of the three men "definitely the worst tragedy in the history of scuba diving."

Those asphyxiated were: Jack Lepinski, 27, of Wakefield, Mich., a U.S. Air Force man who had been attending courses at an International Business Machines Corp. plant here; David Lasher, 32, and William Mills Sr., 45,

both of this city on the Hudson River.

Under treatment at Beneficent Hospital is Gerry Klemm, 27, of Kingston, who attempted the rescue.

Eight members of the Ulster County Skindivers Club went to the quarry, a favorite spot for skindivers because the water—200 feet deep at spots—doesn't freeze in the winter.

Lepinski, Lasher, Mills and Klemm entered a narrow tunnel and made their way to the dark quarry shaft 150 feet inside a hill. The quarry shaft drops off from the end of the tunnel at about 20 degrees from perpendicular. A number of rooms, more than 100 feet long, lead off the shaft at different levels.

Klemm's oxygen regulator did not operate properly, and he remained at the top to hold ropes tied to each of the others. When they failed to give the customary periodic tugs on their ropes to let him know they were all right, Klemm rushed outside and told the other club members to call police. He then sped back into the tunnel, put on his own defective apparatus and dived into the pool to search for his companions, who had a one-hour air supply.

Klemm found them partially buried in mud. The bodies of Lepinski and Lasher were lifted to the surface on ropes. Police and firemen tried in vain for two hours to revive them.

The rope attached to Mills' waist broke as the other divers tried to lift him.

Fidel Shows At Ball Game

HAVANA (AP)—Looking happy and healthy Fidel Castro emerged from 12 days of silence and seclusion Sunday for a baseball and television appearance.

The Cuban prime minister lined out two hits—one with two strikes against him—after making an unannounced appearance at a doubleheader in "Latino Americano" stadium.

The crowd of 32,000 cheered and the nation's television audience watched as Castro accepted the challenge of two pitchers to strike him out.

Castro's disappearance from the public eye set a variety of rumors to flying. One was that he had gone to Moscow, another that he had taken asylum in the Mexican Embassy.

The Communist party newspaper Hoy published a long communique over Castro's name charging the United States was plotting an invasion and thanking the Soviet Union for pledging support of Cuba.

Kennedy Wants Eventual Arms Parley At Summit

WASHINGTON (AP) — President Kennedy has told Soviet Premier Khrushchev he hopes developments at the Geneva disarmament conference can lead to a summit meeting by June 1.

The United States and its Western allies reportedly are considering short-range disarmament proposals which they hope the Soviet Union might accept quickly at Geneva, thus providing a basis for a summit meeting in May. Included is a proposal banning transfer of nuclear weapons to other nations.

open the Geneva talks March 14. The President, who wants the talks opened at the foreign ministers level, told Khrushchev that to have a heads of government meeting at the beginning of the conference "would be to begin with the wrong end of the problem."

U. S. resumption of atmospheric nuclear testing would be an aggressive act. He said it was strange that the Soviet Union, which broke the truce on atmospheric testing last fall, should now accuse the United States of aggression.

Krishna Menon Forges Ahead In Indian Race

NEW DELHI, India (AP)—Defense Minister Y. K. Krishna Menon took a big lead today in unofficial returns in the parliamentary race that put Prime Minister Nehru's prestige at stake.

Menon had 30,728 votes to 16,424 for J. B. Kripalani, a disciple of Gandhi. Kripalani is backed by a coalition that charged Nehru's left-leaning foreign policy conflicts with being pro-Communist.

Only 10 per cent or less votes remained to be counted in the north Bombay contest. The counting will be completed Wednesday.

Nehru took the stump for his side, running in a north Bombay district, and argued his defeat would mean a setback for the ruling Congress party's development program.

Rush Is Over At Draft Board

After a sort of grand rush for several months, matters at the Howard - Martin - Mitchell County Draft board in the Big Spring Post Office basement have settled back down to normal.

The draft quota for the tri-county area for March calls for only two inductees. There is no call for any draftees to take preinduction medical examination during the month.

Mrs. Louise Nuckolls, chief clerk, said that she had orders to dispatch the two inductees on March 6.

"We're pretty well stocked up on prospects who have already had their medical examinations," she said. "I suppose that's why we won't have to send any to Abilene for that purpose this coming month."

Tech, A&M Clash Could Give SMU The SWC Title

By HAROLD V. RATLIFF

Texas Tech and Texas A&M clash at Lubbock Tuesday night with the possibility that it will decide the Southwest Conference basketball championship for Southern Methodist.

An Aggie victory and a Southern Methodist triumph over lowly Baylor at Waco would put the Methodists in the driver's seat.

Tech, the defending champion, and Southern Methodist swept over two opponents each last week to remain in a tie for the lead with 9-3 records.

Each team has two games to play with Southern Methodist having the most favorable schedule—Baylor, winner of only one game, at Waco and Arkansas, eliminated from contention weeks ago, at Dallas next week.

Texas Tech has the roughest road to hoe. The Red Raiders meet an Aggie team that beat them 70-61 before and then close out against a Rice team that is almost impossible to defeat at home.

Texas A&M has the game at Lubbock as its biggest stumbling block. The Aggies end the campaign against Baylor at College Station next week.

Rice might tie for the championship but chances are quite remote. There would have to be a great round of upsets for the Owls to make it. They have Texas Christian and Texas Tech left to play and boast a 7-5 record.

Southern Methodist, Texas Tech and Rice went their games last week. SMU beat Texas 69-64 and Texas 94-71 and Rice downed Texas as A&M and Baylor, beating the latter 77-69 in an overtime game.

Arkansas clipped Baylor 76-75 but lost to Texas A&M. The teams play only once this week and that's Tuesday night, Arkansas and Texas meet at Fayetteville and Rice clashes with Texas Christian at Fort Worth in addition to the A&M-Tech and SMU-Baylor battles.

Jan Loudermilk of Southern Methodist may have the scoring title sewed up. His 57 points last week boosted him to 438-30 points better than runnerup Jerry Carlton of Arkansas. Loudermilk also looks over the lead in conference scoring with 248 points. He is averaging 19.9 for the season and 20.6 in the conference games.

RAMA, B&M Motors of Hobbs, N. M., won gifts from Hemphill-White for the team coming the greatest distance.

Results of the tournament following final rounds Saturday and Sunday were:

Shantz Ready To Prove He Can Still Pitch

APACHE JUNCTION, Ariz. (AP)—Connie Mack's little Dutchman is eager to prove he can be a starting pitcher again.

Bobby Shantz, 36, was one of baseball's great little men until he hurt an arm in 1952. He later battled back to become a key reliever pitched for the New York Yankees from 1957 until 1960.

Now he's the elder statesman of the Houston Colts, a young National League entry, Shantz got to see the rest of his teammates when the Colts infielders and outfielders joined the pitchers and catchers at the Apache Junction training camp.

Little Bobby had a 24-7 record for Mack's Philadelphia Athletics in 1952. He earned the most valuable player award in the National League.

But late that season a pitch hit him on the arm, breaking his wrist. The wrist healed, but Shantz developed shoulder trouble.

He spent two dark years at Kansas City and then went to New York in a trade.

He won six games for Pittsburgh last season and Shantz is quick to point out four of them were starting jobs.

AAU Offers Representation

NEW YORK (AP) — The Amateur Athletic Union, in a struggle with the National Collegiate Athletic Association over administration of athletics, has offered the NCAA equal representation on three of its key international sports committees.

In a special executive session Sunday, the AAU offered the NCAA equal representation on its committees governing track and field, basketball and gymnastics. These are the three sports in which the NCAA has threatened to set up separate federations.

The AAU also offered the NCAA partial representation on 10 other committees in an effort to forestall a threatened walkout by that group. AAU officials said they will go ahead with the new plan even if the NCAA refuses to accept it.

The NCAA wasn't overly impressed by the offer. Walter Byers, the NCAA executive director, said he believes are vital for reorganization of amateur sports administration.

The controversy revolves around the accreditation of athletes for such things as the Olympics, over which the AAU has had control for years. The NCAA complaint has been that it does not have adequate representation in picking such teams.

State Tourney Opens Thursday

By The Associated Press

Twenty-four teams go to Austin this week for the Texas Schoolboy Basketball Tournament, three of them seeking championship repeats and another believing at least it has the team that can come through.

Thomas Jefferson of Dallas in Class AAAA, Clear Creek in Class AAA, Buna in Class AA, James Bowie in Class A and Huntington in Class B probably will be the favored teams when action starts Thursday.

Class AAAA and Class B do not have defending champions but South San Antonio is back seeking a second straight in Class AAA. Buna in Class AA and James Bowie in Class A.

South San Antonio will find itself an underdog in view of the terrific team at Clear Creek. This school has been in the state tournament six times and last year reached the finals, only to lose to South San Antonio. Clear Creek has a 31-2 record. South San Antonio (29-5) has only one regular back from last year.

Buna is 35-2 and will be expected to repeat with the title, making it the sixth. That would make Buna the winner of more championships than any other school.

James Bowie is 25-3 and is led once more by Donald Kruse, the 60% star who is averaging better than 30 points per game. This team is considered stronger than the one that won the title last year with a 53-2 victory over Brownboro.

Battling for the Class AAAA championship will be Lubbock Monterey, Dallas Jefferson, Houston Jeff Davis and Bryan. Jeff Davis is considered the most dangerous foe of Dallas Jefferson in the fight for the title although Monterey and Bryan have top records. Jefferson has the best one—31-2.

In the Class AAA division the contenders will be Dumas, Waxahachie, Clear Creek and South San Antonio with Waxahachie boasting the top record—28-2. There will be two all-stars with Bill Hughes working for Waxahachie and Bill Doty for Clear Creek.

Fort Stockton (31-1), Jacksboro (23-5), Donna (21-4) and Buna make up the field in Class AA. Contending with James Bowie for the Class A title will be White Deer (30-5), West Sabine (27-8) and Woodboro (26-5).

All the A classes send only four teams to the state tournament but Class B has eight. Huntington probably will be the favorite because it beat Cayuga and Cayuga knocked out Frankston, the 1961 champion. But there are some gaudy records among the contenders, like Quitaque (32-3), Hawley (34-5) and Roston (33-4).

Santa Rosa and Aspermont are the only returnees. Others in Class B contention are Snook and Kyle.

Fairings for the tournament were made Monday. Class B starts play Thursday morning, Class A and Class AA will begin Thursday afternoon and night, Class AAA Friday afternoon and Class AAAA Friday night. All championships will be determined Saturday.

CDR. JOHN S. SAWYER, OFFICE OF NAVAL INTELLIGENCE, TO SEE THE COMMANDING OFFICER.

HE'S EXPECTING YOU, COMMANDER.

HERE'S THE STORY IN A NUTSHELL. A HONG KONG TAILOR PERSUADED ONE OF OUR SAULDOERS TO DELIVER A SUIT OF CLOTHES TO THE TAILOR'S BROTHER IN ATSUHI. THE SUIT-CASE BROKE OPEN... NO SEWING... JUST REMNANTS OF CLOTH. WE THOT IT SUSPICIOUS.

VERY.

GASOLINE ALLEY

Hi, Skee-zik. Did you talk to Gorky about the pup?

Yes, but he doesn't think they can take him.

Why? I thought he and Hope would love to have him.

He didn't give any reason.

On no!

But I can think of ten reasons why nobody would want him!

Oh, dear! Your daily paper!

I HATE MYSELF FOR BEING SO UNREASONABLE!

DICK TRACY

YES, YOU'RE THE JUNIOR MEMBER, YOU GET LESS.

NEW YORK (AP)—Television is full of pretty girls with nice voices and special ways with a song. But none can compare with Judy Garland. A tiny figure against a dramatic, stark background, she sang for most of an hour Sunday night, and it was a special sort of communication between an audience and a great performer.

It wasn't the songs—they were mostly old popular numbers like "I Can't Give You Anything But Love," "Just In Time" and, perhaps her best number, "The Man That Got Away." Miss Garland invested them with excitement and emotion.

Actually, it was not the greatest television show of the year. Too much of the time Miss Garland was performing against dark backgrounds, and there were attention-diverting tricks of the camera. The inclusion of Frank Sinatra and Dean Martin, neither in particularly good voice nor well rehearsed, added little. They seemed much more interested in insulting each other and being cute than in backing up the star.

The adaptation of an early Maxwell Anderson play, "Saturday's Children," did not come off particularly well in its CBS hour Sunday night.

The story, penned over 30 years ago, showed its age despite efforts to bring it up to date. Inger Stevens and Cliff Robertson worked hard—too hard—as the newly married couple having their trials and tribulations. Ralph Bellamy played the girls' philosophical father, specializing in little lectures on patience and forbearance.

The rather long hour seemed to consist mostly of door-slaming, furniture-throwing, quarrels and tears, but not much comedy or even much reason for the fights.

The greatest concentration of plot in all of the weekend's dramatic offerings was concentrated in the NBC Opera Company pro-

duction of "The Love of Three Kings" Sunday afternoon.

The colorcast was beautiful, the voices and music fine. Because it was in English, it was, unfortunately, possible to follow the plot—faithless wife, jealous husband, a strangling and a double poisoning. As a matter of fact, the only principal singer on his feet at the end of the program was the blind old father. The story line would keep a soap opera going for five years.

ABC's musical variety "Winter Carnival at Sun Valley" on Friday was a casual hodge-podge of performances ranging from Louis Armstrong's music and Jack Carter's strenuous comedy to some fine singing and skating. It was probably great publicity for the winter resort but only mildly entertaining.

By all odds, the big star of weekend television was Lt. Col. John H. Glenn Jr. The moments during the welcoming day when he was describing his space capsule to his wife, children and parents were delightful, informal moments for all the viewers.

CBS has made it official: Jackie Gleason will be back next fall with a new variety hour much like his old one. It is set for Saturday nights in "Jerry Mason's" present time. The courtroom series will be switched to Thursday evenings.

Recommended tonight: "Ben Casey," ABC, 10-11 (EST)—Kean Wynn and Suzanne Pleshette are guest stars in another episode of the popular dramatic series.

Paralyzed Pianist Turns To Painting

NEW YORK (AP)—Vincent J. Vita was a piano virtuoso at 31 but a year later he became completely paralyzed and totally blind.

Today Vita opens his first one-man exhibition of oil paintings. Still severely crippled and partially blind, the 36-year-old artist is showing 28 well-executed oils that display a range of style and technique—romantic, impressionistic, abstract, and surrealist.

His brilliant colors and icy pastels, most of them landscapes, are haunted by his personal sense of loss, his love for music, and his strong will to come back into society as a productive and self-sufficient person.

Born and raised in Brooklyn as one of eight children, Vita was drawn early to study the piano and compose music. At 21, he performed one of his pieces, "Fantasia in Three Movements," for the late maestro Arturo Toscanini who was so impressed that he gave the young man his baton.

Vita gave a series of recitals including one in Carnegie Hall. He also performed at private concerts, continued to compose and taught piano.

Then he developed a brain tumor. Vita lost all his sight and the use of his body.

Physicians gave him little chance of recovering even partial sight or mobility. He would not believe them. In addition to following a strenuous routine of physical therapy, he underwent several operations which doctors were not at all sure would do any good.

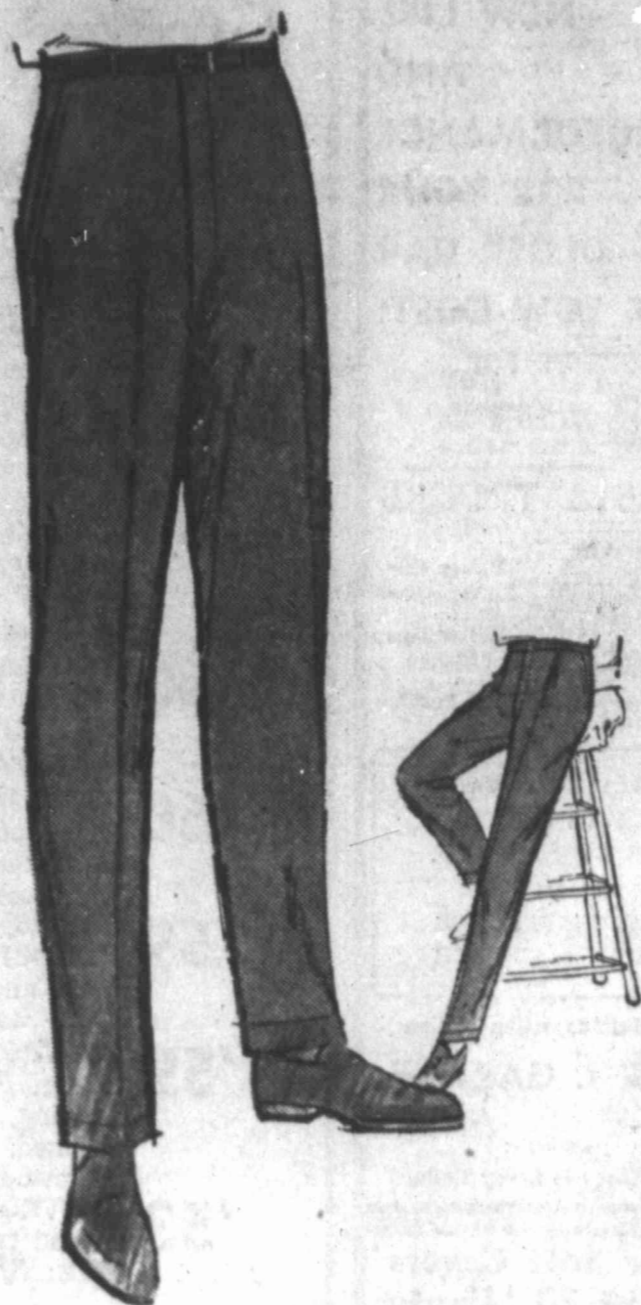

His sight began to return in one eye. Operations restored sight in the other. Now, he has only direct and limited vision. He cannot move his eyes to right or left, nor can he see farther than three feet without double vision.

Working under the guidance of the Institute for the Crippled and Disabled, Vita began to paint as therapy. Some of his equilibrium returned, although he still loses his balance and becomes dizzy after a small amount of physical exertion.

The institute taught him how to walk again, and slowly, over a period of four years, he gained the use of his arms and legs to a great degree.

Painting is now his whole life. Pointing to the admiring crowd at the exhibition preview, he said, "I found myself after the operation. I discovered it was wonderful to live again and to help other people in the institute who had given up hope."

He paused. "But I do really miss my piano."

Sgt. York Lauds Glenn

PALL MALL, Tenn. (AP)—The man who became an American hero during World War I has joined the nation in paying tribute to its new hero of the space age.

"God bless you is my prayer," Sgt. Alvin C. York said over the weekend in a telegram to astronaut John H. Glenn Jr.

"You have done more to achieve peace than two presidents have done in the last 20 years," Sgt. York wrote. "As I watched you on television, my mind went back to the battle of Argonne, and I know what you were going through."

The 70-year-old hero of yesterday was referring to the battle on Oct. 8, 1918, when he was credited with putting a German machine gun battalion out of action, killing 25 Germans and taking 132 prisoners.

The Tennessee, then 31, returned from France to receive the cheers of the nation, a rousing New York reception, a tremendous ovation from Congress and the Medal of Honor.

SHREVEPORT (AP)—Charles Parry, 31, who received a college degree while a polo iron lung patient, died here Sunday night.

Romance Ended

Dancer Juliet Prowse and Frank Sinatra, shown together in January shortly after they announced their engagement, have called off their planned wedding. In a joint statement they said a "conflict of career interests" led to the decision.

Stars' Break Laid To Career Conflict

By BOB THOMAS

HOLLYWOOD (AP)—Now that Hollywood's most noted Romeo has parted with his Juliet, the whole town is wondering why.

Despite the advent of the twist, Hollywood's favorite pastime is still gossip. And how the tongues have been clacking since Frank Sinatra and Juliet Prowse called off their marriage plans.

The engagement lasted 44 days. It began with a terse announcement from a public relations source.

Reached for confirmation, Sinatra glowed. "I'm very very happy and very, very lucky."

The leggy South African beauty agreed that she was, too.

But interviewers detected trouble in their new found paradise. "I think it will be better if she didn't work," Frank told me.

"I am definitely going to continue with my career," Juliet remarked as she returned to Johannesburg to make wedding plans with her mother.

Last week came another terse announcement from a public relations source: "It was all off. Reason given: 'Conflict of career interests.'"

Juliet started dining with other men, and Frank flew off to Las Vegas, reportedly to forget. When Sinatra aims to forget, it can be a winding.

Meanwhile, Hollywood tried to fathom the reasoning behind the bare announcement.

Said a member of the Sinatra camp: "Frank wants a full-time wife, not one he will have to share with the American public. He did that once—with Ava (Gardner, wife No. 2). That was the blackest period of his life. 'Ava's career was going full blast while Frank's was on the

Senator Asks \$25 Stock In Satellite Firm

NEW YORK (AP)—Sen. Kenneth B. Keating, R-N.Y., urges that stock in a government-sponsored communications satellite corporation be sold for as little as \$25 so average Americans could share the program.

Keating said President Kennedy's proposal that the stock be sold in \$1,000 denominations would limit the program to the very rich.

"I hate to see the President limit participation in the space communication program to millionaires, when I am sure a lot of less prosperous but equally patriotic and equally space-minded citizens would love to have a chance to support the idea, too," he said.

Convertible debentures might be sold for as little as \$25 apiece, Keating said in an address for the Women's Press Club of New York.

Keating said he proposed last year that the government issue space bonds, but the Treasury objected it would mean bookkeeping problems.

Keating said he has asked the National Aeronautics and Space Administration and the National Space Council to work out a plan under which small investors could buy shares in the corporation.

Keating has asked Congress to charter a communications satellite corporation to relay messages all over the world.

Under the President's plan, the corporation would issue up to one million shares of Class A stock available at \$1,000 a share.

Dividends would be paid on class A stock, but they probably would be slow in coming because of the initial outlay required. A commercial satellite system could cost \$500 million or more.

The corporation also would issue up to 10,000 shares of class B stock, which wouldn't pay dividends or carry voting rights.

Model Ship

BELGRADE, Yugoslavia (AP)—President Kennedy's sisters, Eunice Shriver and Jean Smith, admired a model of an 18th century warship when they visited Dubrovnik last summer.

The model builder, Ivan Pastuhovic, has now sent them a similar one—on which he worked for nearly 4,000 hours.

Others pointed out another difference between them: 21 years. The age gap might be too great for Frank, 46, and Juliet, 25, friends remarked.

One ground for speculation can be ruled out: That Sinatra's cronies turned thumbs down on the union. Frank is still The Leader and what's good for Sinatra is good for the Clan.

Final Note: Some sources still believe the wedding will eventually take place. They argue that the pair broke up before, but still felt the need for each other. It could happen again.

Scout Sponsors Sought In Lamesa

LAMESA (SC)—Lamesa scouting leaders have formed a "Together We Organize" committee to seek sponsors for 350 boys who want to join the Boy Scouts, but cannot because of a lack of sponsorship. David Fry is chairman of the special group.

During the next two weeks, members of the committee will be contacting institutions and firms who might be interested in sponsoring a troop. The campaign will be climaxed at a dinner meeting on March 12.
