THIRTIETH YEAR

TALCO, TITUS COUNTY, TEXAS, THURSDAY, JUNE 16, 1966

ZIP CODE NO. 75487

NUMBER 18

Austin. — State Board of Insurance is disturbed over the "growing tendency" of some insurance companies to cancel out or refuse to renew auto coverage on certain classes of drivers.

At its mid-week (June 15) rate hearing, Board debated whether it should ask for new legislation or put into effect new administrative regulations to deal with the situation.

Board Chairman Wm. Hunter McLean said more and more drivers are being forced into higher-cost "assigned risk plan" coverage because of "unwillingness of companies to voluntarily issue insurance to young drivers, older drivers and drivers with poor driving records."

Another insurance rate boost is anticipated due to increasing accidents, injuries and traffic deaths, and higher repair and hospital costs. Rates were boosted 13.4 per cent in 1965.

McLean placed these among items for consideration at the mid-week meeting:

Revival of a "penalty system" based on number of accidents and serious traffic violations in figuring rates. A version of the system was abandoned four years ago after a brief trial and strong public opposition.

Alteration of the assigned risk plan to force all companies to take a proportionate share of "sub-standard" risk coverage.

Action to curb mass cancellation due to class, age, territory or agency and individual cancellations of policies of those who have no record of accidents or moving traffic violations.

Request for more uniform traffic regulations and enforcement procedures from county to county. Modification in methods of classifying drivers. Board wants to find a way to "avoid further 'drying up' of the insurance market," emphasized McLean.

Companies writing auto insurance in Texas lost \$13,000,000 last year on the coverage. McLean calculated earned premiums at \$417,200,000, net premiums at \$388,000,000, losses at \$233,200,000, loss settlement, adjustment and litigation expenses at \$42,600,000 and company "expenses" at \$125,000,000.

He termed "an all-out, effective traffic accident prevention program" the state's "single greatest need."

McLean said he would urge the insurance industry to take the lead in "bringing safety to our streets and highways."

NEW TAXES? — A state tax rate boost next year is inevitable, according to House Speaker Ben Barnes.

He predicted the 60th Legisla-

ture will "definitely face tax legislation."

Barnes declared that increasing cost of education alone will "require additional monies raised by taxes." Forty-eight per cent of every tax dollar paid to the state goes to education, he noted.

In a brief preview of his own ideas for legislative action, Barnes said he will ask an increase in juvenile parole officers to help curb teenage crime. He noted a study committee is exploring possible need of legislation dealing with obscene and pornographic publications.

STATE PAY BOOST FAVORED

—Three state officials with most influence over the Legislature are united in pledging high priority backing for a "substantial" state employees' pay boost in 1967.

Lt. Gov. Preston Smith and House Speaker Barnes made strong public commitments to that effect last week. Gov. John Connally earlier had stated that a salary boost for the 44,000 state workers will be "one of (his) strongest recommendations to the next legislature."

Texas Public Employees' Association has agreed generally on a revision plan which would cost about \$70,000,000 overall for the next biennium—\$21,000,000 from general revenue. This would mean something like eight per cent more for lower bracket employees up to 25 per cent more for higher echelons.

School teachers are pushing hard for a "national average" pay level, but Connally and Barnes indicate they think the state employees are in greater need.

AG RULES — Corporations providing television cable service are public utilities and have a right to place their cables along state highway right-of-way, Atty. Gen. Waggoner Carr said in an official opinion.

In other opinions, Carr concluded that:

Investment of state employee retirement funds in corporate securities is subject to discretion of Employees Retirement System Board of Trustees and not that of University Board of Regents. Boards have right to exercise independent judgment in investing their respective trust funds.

State can pay the expenses of replacing an employee's eyeglasses destroyed in an on-the-job accident.

Control of building and grounds purchased with Texas Employees Retirement System Trust funds is within jurisdiction of Board of Trustees of Texas Retirement System.

Grayson County can accept a deed to the bridge over Red River nine miles east of Denison and spend the tax money to operate and maintain span.

Sunday, June 19 Is Father's Day

Sunday, June 19, is Father's Day. As the family gathers around the head of the house, they'll pay tribute to Dad. This special day of honoring dad grew out of a tragedy.

When his wife died in 1898, the burden of rearing six children fell upon William Smart of Spokane, Wash. The pioneer father endured many hardships in order to keep his little brood together. And one of his daughters, Mrs. John Bruce Dodd, nee Sonora Louise Smart, never forgot the devoted care of her parents.

Inspired by love and sacrifice of her dad, she proposed a special day honoring father, and in 1910 the first Father's Day was observed in Spokane. Celebration of the unpretentious local holiday began to spread, and today, Father's Day is observed from coast to coast and in other countries.

Fulbright Homecoming Is Success

Fulbright's annual homecoming Sunday was a big success with 375 people registered and an estimated 75 more who did not register. People came from as far away as San Francisco and Los Angeles, Calif., Washington, D. C., Gadsden, Ala., Rockdale and Lubbock. Many more from Grand Prairie, Dallas, Denton, Longview, Tyler, Texarkana, Wichita Falls, Abilene, Sweetwater, Ft. Worth, Mt. Pleasant, Clarksville, Detroit, Bogata and Deport.

Miss Selma Baker and Mrs. Oscar Legate of Bogata, arranged a display of pictures of Fulbright and residents, pupils and teachers from 1900 to the present time. The crowd spent hours looking at the display and reminiscing.

A bountiful noon meal was enjoyed and after the tables were cleared, the crowd settled down to watch crowning of the Homecoming Queen. Slips of paper were drawn from a box and Keyewhinia Dugger, 8 year old daughter of Mr. and Mrs. Raymond Dugger Jr., drew the lucky slip. After the crown was placed on her head and a corsage pinned on her shoulder by Miss Selma Baker, Mrs. Bill Powell made the picture.

Mrs. Edda Mangrum of Bogata received a silver tray and pin for being the oldest lady present. Jake Hastings of Detroit was given a silver tray and poem book for the oldest man, and a silver tray and book of poems went to Mrs. Will Rogers of Clarksville for having the most children present.

After announcements were made by chairman, Newt Bryson, Mrs. Earl Legate, Mrs. Worth Baker and Mrs. Leo Ridens sang "End of a Perfect Day" and "May the Good Lord Bless and Keep You," and the crowd adjourned for more visiting.
