New City Ordinance Expected To Be Passed

A new zoning ordinance designed to provide orderly growth for the city's residential, commercial and industrial areas in the years ahead is expected to be passed by the City Council at its next meeting July 11.

At a public hearing on the ordinance, held last Saturday by the Council and the Planning Commission, approximately 20 persons attended. Among them were property owners, real estate people and subdivision developers.

Not only was there no op-

Michael's Next Art Classes Here Not In Mexico

The Pilot reporter made a mistake in last week's issue (second error this decade) when he stated that the next art sessions to be conducted by Simon G. Michael of the Rockport School of Fine Arts would be held in Mexico.

Actually, they will be held here, as follows:

July 11-22, portrait, figure, free composition and still life and,

Aug. 8-19, free composition, marine painting, sand dunes and shrimp boats.

Agriculture Dept. Making Loans

Effective June 17, the Department of Agriculture has authorized the making of emergency loans in the following counties: Aransas, Nueces, San Patricio, Starr, Willacy, Zapata because of excessive rainfall at critical periods, tornadoes, hailstorms, and high winds.

Therefore, as a result of this designation, the Small Business Administration has been authorized to accept and process applications under Economic Injury Disaster Loan Program.

According to W. E. Woodman, Regional Director of the San Antonio Office of SBA, any business affected by the above conditions in these counties may apply for financial assistance under the Program.

Any businessman interested in obtaining information relative to the Economic Injury Disaster Program should contact the Small Business Administration, San Antonio, Texas. (Farmers and stockmen are not eligible for assistance from the Small Business Administration.)

Youth Fined \$180 For Billfold Theft

A local youth has been fined \$180 by County Judge John D. Wendell on a misdemeanor theft charge after pleading guilty to stealing a billfold worth \$11.

The billfold was removed from the trousers of a boy who left them on Rockport Beach and went for a swim in the bay.

Sheriff Joe Earl Hunt reminds parents that during the summer vacation young people have much time on their hands and "it is wise to keep these youths as occupied as possible."

Stolen Car Recovered

A car stolen June 22 from Speck Howery, pro at Live Oak Country Club, was recovered in Corpus Christi after being involved in a wreck.

Sheriff Joe Earl Hunt said the man who stole the car was apprehended and, following a hearing, was placed in a mental institution.

HIGH SCHOOL YEARBOOKS IN

The High School yearbooks have arrived. Students may get them at 4 p.m. Friday in Room 1 of the High School building. Students are asked to bring receipts.

position to the ordinance, but those who expressed themselves voiced approval of such a measure to protect property values and help create and preserve beauty.

A few persons made requests regarding the tentative classification of their property, such as changing it from residential to commercial in the case of rental cottages. The Planning Commission agreed to consider each case and make its recommendation.

William Anderson, professional city planner, explained the land use study that he and consulting engineer William McLendon made here some months ago. It was made as a preliminary step to recommending a specific zoning ordinance.

Anderson pointed out that: "Much land is used here for streets, over 37 per cent as compared to 24 per cent for most cities, and 20 per cent found in good subdivisions."

In the city, 235 acres are used for residences, 467 acres for streets and 50 acres for commerce and industry.

Estimating that by 1985 Rockport (the city, not the area) will have a population of at least 10,000, Anderson said a city planner can project the amount of land needed for residents, for business and industry.

He stressed that future planning for Rockport should place considerable emphasis on the "tourist and recreation" (continued on page 8)

Accident Rate Up From 1965

Chief of Police Bob Hewes reported today that the accident rate for June 1966 is already above the June 1965 mark.

So far this month there has been six accidents inside the City of Rockport, one minor injury and an estimated \$1,950 worth of property damage.

Last year for June, four accidents were reported, three injuries and an estimated damage of \$2,925.

Chief Hewes reports that with the July 4th weekend being a long one, "We can expect several accidents although we would like to keep it below the level of last year when we had only one accident in the 4th weekend period."

The Texas Department of Public Safety will have all available personnel on patrol and the Aransas County Sheriff's office will be fully staffed for the weekend.

Chief Hewes advised the Pilot that he and his two patrolmen will be putting in quite a bit of overtime on traffic patrol work attempting to cut the accident rate down.

Hewes suggested that all persons drive not only for themselves but for the other drivers too, and to remember that "in an accident you might not only be right but you might be DEAD RIGHT."

Closed On 4th of July

The City Hall will be closed Monday in observance of Independence Day, and there will be no garbage pickup that day but there will be on Tuesday.

Also to be closed are First National Bank, United Savings Association, the Post Office, Court House, Roe's Food Store and H.E.B. Grocery in addition to others.

MRS. R. B. SIPE IS IN SERIOUS CONDITION

Mrs. R. B. Sipe, a patient in room 210 at Spohn Hospital, Corpus Christi, is in serious condition but her spirits are good, her family reports.

Her daughter, Mrs. Juanita Wagley, is doing Mrs. Sipe's real estate work, assisted by members of the office staff. All phases of the business are being handled by Mrs. Wagley and her staff.

BEATS WALKING—Hazel McMurtrie admits to being over 70, but she doesn't let age get in the way of exercise. The Mifflinville, Pa., resident likes to scoot around town on a tricycle. She says she brought the idea home from a Florida vacation.

Continued Progress Reported On City's Water Expansion

Director of Public Works Tom Shults this week reported to the City Council that Rockport's water expansion project continues to move ahead satisfactorily.

The Carl Vickers Water Wells Company of Corpus Christi has now completed

Four Injured In Bay City Crash

Mr. and Mrs. Travis Johnson sustained face lacerations, and Mrs. Charles Picton and Mrs. Fred Johnson, the latter of Sinton, were shaken up in an auto accident in Bay City Friday evening.

A car struck the rear of their auto, causing the accident, as the four were returning to a motel after attending a 40th wedding anniversary party in honor of Mr. and Mrs. Bill Gordon of Bay City and Mr. and Mrs. Joe Sneed of Refugio.

Three New Whoopers Are Reported

The world population of the near-extinct whooping crane has been increased by at least three baby whoopers, the Texas Parks and Wildlife Department happily reports.

The Texas agency was informed by W. E. Stevens, of the Canadian Wildlife Service, Edmonton, Canada, that aerial surveys of the whooping cranes nesting area shows at least three young cranes. Five nests have been spotted.

The whoopers spend the winter at the Aransas National Wildlife Refuge, then fly North in the spring to the nesting grounds on the Sassa River in Wood Buffalo Park Northwest Territory. The spring count of 40 whoopers was the highest in more than a decade.

Lions Club Barbecue Set For July Third

The 12th annual barbecue of the Rockport Lions Club will be held Sunday, July 3 from 9:30 a.m. until sold out.

This popular event will be held at the Lions Club pit in the city park, adjacent to the Turning Basin.

Regular Texas style barbecue will be featured, with beef, sausage or chicken available, plus all the trimmings.

Sandwiches will be sold Saturday night starting at 8 p.m.

Job Corps Program Provides New Life For Area Girls

Young women are eligible for the Job Corps who are between the ages of 16 to 21, who have been out of school for three months (not counting summer vacation); who have grown up in impoverished surroundings; who have been unable to find or hold an adequate job.

Girls are sent away for training for nine months to two years and learn skills such as typist, PBX operator, nursing, beautician, machine operator and others.

There is no waiting list for the Job Corps applicants for the first time since last September. Most of the applicants are girls who have dropped out of school for financial reasons or to take care of household where mothers are ill or working. Others simply had no ambition in school and quit, and later learned of the consequences.

There are 26 girls from Corpus Christi and Robstown who have gone to the 10 training centers across the nation since April 1.

The Job Corps Centers for girls have from 250 to 350 girls. Applicants are screened by women in community service. Dr. Mary McCaskey is the Project Director. The organization is located in the Office of Economic Opportunity at 2206 Crews in Corpus Christi. The office is open weekday mornings for screening purposes. Records are then forwarded to Washington for further election and assignment.

Job Corps women get a living allowance of \$30.00 a month plus . . . room, board, medical and dental care . . . \$50.00 for each month in the Job Corps as terminal allowance.

It is the goal of Job Corps to enrich educational backgrounds and teach vocational skills so young women can become useful citizens in our society.

Landings of large white shrimp from adjacent waters in May 1966 were a record 900,000 pounds, surpassing the 1964 record of 752,000.

Current May landings were made up of white shrimp, 46 per cent; brown shrimp, 44 per cent; and pink shrimp, 10 percent.

Local Youth Injured In Viet Nam

Curtis Hunter, Sr., has been notified that his son, Marine Curtis Hunter, Jr., was recently wounded in an engagement in Viet Nam.

According to the information received by the father, his son was injured while fighting with the 2nd Battalion, 9th Marines, E Company.

The injury was not serious, consisting of a foot wound accidentally inflicted by another Marine.

Young Hunter, who was sent to Viet Nam last September and now has the rating of S/Corp., is recovering aboard the hospital ship, USS Repose.

Ex-Athlete Talks At Baptist Church

Gerry Craft of Fort Worth former professional football player with the Cleveland Browns and now president of the Gerry Craft Youth Association International, spoke at the quarterly meeting of the Blanco Association Brotherhood Monday night at First Baptist Church.

Craft, 31, is a graduate of Oklahoma State University with a BS degree and was outstanding in football and wrestling. He was a citywide youth worker in Yuma, Colo., and youth director of the Travis Avenue Baptist Church in Fort Worth. He graduated from Southwest Baptist Seminary in 1960 MRE degree and was an instructor at Texas Christian University.

Craft recently spoke at a youth revival in the First Baptist Church in Portland with an overflow attendance.

Purchase of 17 acres of land for a modern shopping center on Highway 35 just north of Rockport was announced today by Mr. and Mrs. R. F. Borden of Rockport and Tulsa, Okla.

The Borden, who bought a home at Key Allegro last November, plan to spend about half time here and half in Tulsa where Borden owns and operates

RYSCO Builds Its Largest Vessel

The Rockport Yacht and Supply Company continues to break records.

John P. Mitchell, Jr., vice president, announced this week that the company had built and delivered the biggest boat RYSCO ever constructed.

It is the motor vessel "Wily Fox," a 92-footer with a 23-foot beam and a 8-foot overhang. Built for Ned Baron of Lake Jackson, Texas, it is to be used in seismograph work in gulf coast waters.

The Wily Fox is completely air conditioned, powered by two 12-cylinder General Motors diesel engines and has accommodations for 23 men. It is the second seismograph boat built for Baron.

Mitchell said RYSCO is building a sister ship, identical in every detail, for Robert Brushingham of Freeport, Texas.

A 60-foot shrimp trawler has been delivered to L. E. Casterline of Fulton, the eighth boat built for him by RYSCO during the past year.

Another delivery reported by Mitchell was a 60-foot steel trawler for T. J. Johnson of Rockport and Abe Bedre of Aransas Pass, the third built for them during the past year.

Mitchell also said the Rockport Yacht and Supply Company had received a contract to build five additional 72-foot steel trawlers for Henderson's Portion-Pak, a division of Borden Co.

Long Range Countywide Plan Being Considered

Aransas County, City of Rockport, School Board, Navigation District, and Reclamation and Conservation District are considering sharing the costs for preparation of a long range, county-wide comprehensive plan.

If the plan is prepared, it will cover the physical development of urban and non-urban portions of the county for the next 20 to 25 years.

Robert Grossman, Corpus Christi representative of Harland Bartholomew and Associates, St. Louis, planning and engineering firm, made the proposal for the comprehensive plan at a joint meeting of representatives of the five political bodies at the courthouse Tuesday.

Grossman said the total cost would be \$33,000 and that the job would take at least 18 months. It was pointed out that if this area decided to go ahead with the plan, it was virtually certain that a Federal grant of \$22,000 could be obtained under Section 701 of the U. S. Housing Act.

Thus, the cost to this area would be \$11,000.

In explaining the scope of the proposed planning program, Grossman said the work would include preparation of a land use plan, thoroughfare plan, downtown business district plan, community facilities plan, public improvements program, and suggested regulatory measures and administration.

At one point in his presentation Grossman said, "One reason our firm is interested in doing this job for you is (continued on page 8)

SECOND BIKE FALL 'REMOVES' ARM CAST

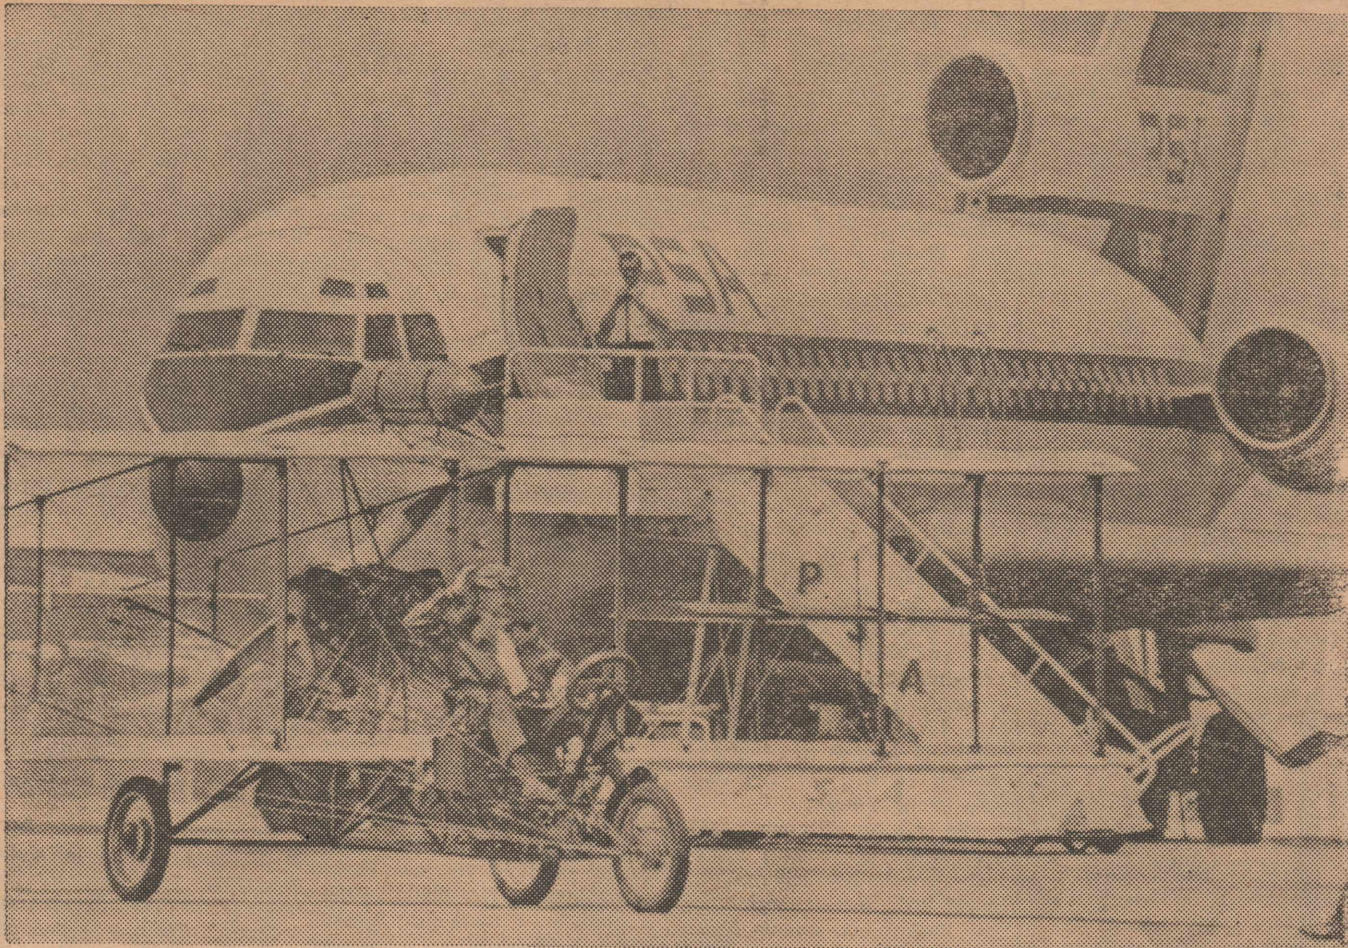

On Friday, May 13, Rickey McLester, 10-year-old son of Mr. and Mrs. Buddy McLester, broke his right arm in a fall from his bicycle.

This week, with his arm still in a cast, Rickey was riding his bike near the Fulton Yacht Basin. He got real close to the edge and then applied his hand-operated brakes.

Something went wrong with the brakes, and boy and bicycle plunged into water 10 feet deep. Rickey swam ashore safely. He was taken to a doctor's office and the physician removed the wet cracked cast.

After examining the arm, the doctor said, "If you want to get rid of the cast that bad, I won't put another on because your arm is O.K."

The boy's dad went back to the scene later and fished the bike from the water with a grappling iron.

VFW HOLDS MEETING TUESDAY

After an opening prayer by Chaplain Raymond Wolf Commander, H. C. Mullinax opened the regular business meeting of Stewart-Wendell veterans of Foreign Wars Post 3904 on Tuesday night.

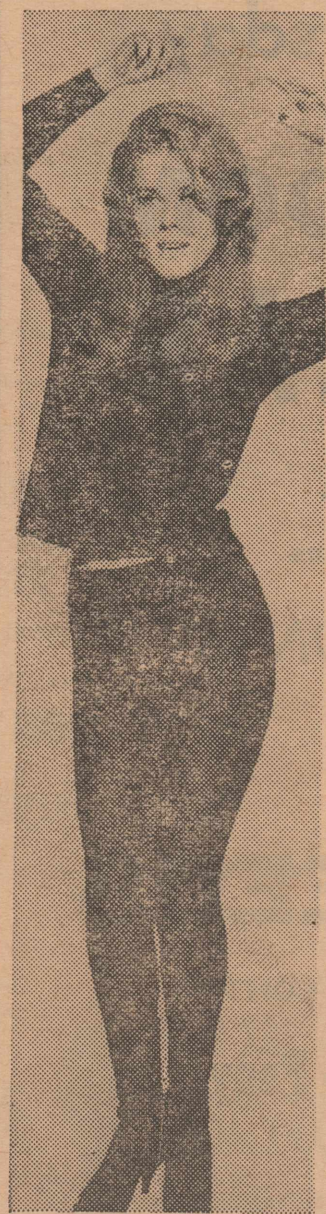

Quartermaster J. W. Hunt gave a report on the VFW Flag program. He reported that so far this year 101 persons had taken the flag program and that only 75 had been solicited last year. He reported that all funds were in good shape and that the Buddy Poppy Program had boosted the Welfare fund.

Commander Mullinax reported that he had been nominated for All State Commander for the State of Texas.

A lengthy discussion was held on the new building program. Retiring Commander Mullinax at the close of the business meeting turned over the Post Commander's pin to newly elected Commander Bob Hewes. Raymond Wolf closed the meeting with a prayer.

Medicare Effective July 1 for Persons 65

Arrangements for the start of medicare to begin Friday, July 1, are just about complete, says H. M. Cleveland, social security district manager in Corpus Christi.

In Corpus Christi and the surrounding area, hospitals are expecting some increase in the number of over-65 patients, but not an overwhelming number.

A total of 17 hospitals in the Corpus Christi area have been certified as eligible to participate in the medicare program.

Admitting a medicare beneficiary will be much like admitting a patient covered by a private health insurance policy, Cleveland said. The patient will be asked to show the health insurance identification card which was sent to him in the mail.

In Texas, Blue Shield will receive and pay physicians' bills under the medicare program. According to Herb Wright, South Texas manager of Blue Cross-Blue Shield, claims for payment under the medical insurance plan will be filed after the patient has incurred expenses of at least \$50 for services provided on or after July 1.

Answers to most of the questions of those who are eligible for the health insurance will be found in the green Medicare Handbooks which have been sent to beneficiaries through the mail.

Most people 65 and over in the Corpus Christi area have already received their Medicare Handbooks and their red, white, and blue health insurance identification cards, Cleveland said. Anyone who signed up for medicare, but has not received his identification card by the end of the 2nd week in July, should inquire at the social security office, 1802 South Staples, Corpus Christi.

Methodist WSCS To Meet July 5

The Woman's Society of Christian Service of First Methodist Church will meet Tuesday, July 5 in Fellowship Hall at 9:30 a.m.

In addition to the business meeting, Mrs. R. G. Stafford will bring the devotional and Mrs. I. E. Allemang will lead a program on "The Evangelical Brethren Story."

All interested women of the community are invited to attend.

VFW FLAG PROGRAM HUGE SUCCESS

VFW Commander Bob Hewes and Quartermaster Jimmy Hunt announced that the VFW flag program for 1966-67 was a huge success.

Both men feel that the surface has only been scratched in potential flag users. Hewes said that a committee of Chairman N. C. Vandagriff, Bill Gray and Albert Butcher were responsible for the success.

Last year 72 persons took the flag program and so far this year 101 have taken the flags.

It is the desire of the local VFW post to line the streets with flags not only on holidays but every day of the year. The waterfront for the first time in the VFW program will be nearly covered with flags as well as Austin and Highway 35, both business and bypass routes.

INPATIENT HOSPITAL SERVICE

Hospital insurance will help to pay for your care in a hospital for up to 90 days during each spell of illness.

DOLLARS AND CENTS

Each spell of illness provides for 90 days of benefit services. You have to pay the first \$40.00, the insurance pays the rest for the covered services you receive during the first 60 days.

From the 61st to the 90th day you would have to pay \$10.00 each day for covered services.

WHAT HOSPITAL INSURANCE WILL COVER

—Room and board in a semi-private room (2 to 4 beds in a room).

—Nursing services ordinarily furnished to the hospital patients.

—Supplies, appliances, and equipment ordinarily furnished to the hospital's patients, such as splints, casts, wheelchairs, crutches, etc.

—Blood transfusions, except for the cost of the first 3 pints of blood in one spell of illness. (But, arrangements can be made for donors to furnish these 3 pints.)

—Medical services ordinarily furnished by the hospital.

—Therapeutic services ordinarily furnished to the hospital's patients, such as X-ray or radium treatments.

—Operating room costs.

—Drugs and biologicals ordinarily furnished to the hospital's patients.

—Diagnostic services ordinarily furnished by the hospital to its patients. For example, blood tests, electrocardiograms, etc.

Hospital insurance will not cover the cost of a private room (unless your doctor determines that your condition requires you to be isolated). Of course, you can elect to take a private room, and pay the difference.

Hospital insurance will also not pay for private duty nurses, physicians and doctor's services (medical insurance—to be discussed in a latter issue helps to pay doctor bills), or personal comfort items such as telephone and TV.

SHOULD A PERSON RETIRE AT 65?

Should a person retire at 65? This is a question that only the individual can answer for himself, according to George A. Miles, Field Representative of the Corpus Christi office of the Social Security Administration.

"No matter what he decides though, he should file an application with the Social Security Administration during the three month period preceding his 65th birthday," Miles says. "There are certain advantages in filing an application during this period even if you may be earning too much money to permit payment of monthly benefits."

"By enrolling before age 65, a person may be eligible for hospital and medical insurance starting with the month he is 65. He will be entitled to these benefits regardless of the amount of his earnings. Another advantage is that a person will have his right to benefits established in case he should have to retire earlier than expected."

"Everyone should check with his Social Security office shortly before reaching age 65," Miles added. "This will enable us to discuss the individual circumstances and furnish information that will avoid any loss of benefits."

Further information or assistance in filing a claim can be secured from the Social Security Administration, 1802 South Staples Street, Corpus Christi, Texas.

As the last race of the day, Mike Hill, Mitchell Gillian, Vic Stuart, Vic Stuart, Jr., Ray Bland, Ann Leith, Tad Bailey, Ann Bailey and Frank Bailey hopped aboard their Sunfish, raced to the bridge, dismantled their boats in order to get under the bridge, put their sails back up and continued to race on around the island.

SHRIMP LANDINGS—
(continued from page 1)

May 1966, 4,208,400; January-May 1965, 5,459,300.

Totals: May 1966, 2,162,000; January-May 1966, 8,078,100; January-May 1965, 8,653,300.

Shrimp trawlers working inshore gulf waters made good catches of large white shrimp off Matagorda Island in 2-9 fathoms and from Galveston northward to east of Cameron, La.

Vessel captains reported trip averages of about 350 pounds per 12 hours' effort in all areas. Vessels working brown shrimp in waters off the Texas coast caught about 200 pounds of large brown shrimp per 12 hours and about 300 pounds per hour in 30-40 fathom depths off the coast of Louisiana. The Campeche fishing remained poor.

Small brown shrimp populations in all Texas bays were down considerably compared with May 1965. The Aransas-Corpus Christi Bay system produced about 75 per cent of the 1965 volume of 100,000 pounds. The Galveston, San Antonio and Matagorda system produced only 30 per cent of the volume harvested in May 1965. Brown shrimp were generally smaller than in May 1965 in all bay systems.

The demand for packaged bait was strong throughout May; consequently, fishermen received 15 cents per pound for heads-on juvenile shrimp.

Blue crab landings totaled about 250,000 pounds in May, a sharp decline in view of ex-

cellent weather conditions along the Texas coast throughout the month.

The Texas Parks and Wildlife Department closed gulf waters out to three marine leagues (about 10 miles) on May 31. The closed season will remain in effect until July 15. Waters out to four fathoms are open during daylight hours to 25-foot trawls, one per craft.

The commercial bay bait season opened May 15 in all major bays. The May 15-July 15 season allows each craft up to 300 pounds heads-on shrimp per day without regard to size. However, trawls are restricted to 25 feet from door to door—one per craft.

Ship building, along with the thus far poor showing of juvenile brown shrimp, dominated the current fishery interests along the entire coast. New trawl vessels entered the fishery weekly from Galveston to the International Border.

These new, \$800-\$900-per-foot fishing craft were quite conspicuous by the massive rigging that will support two nets as large as 70 feet across the lead line. The 75-foot class trawlers spread these large nets with 8-10 foot doors.

The ex-vessel value of all sizes of shrimp remained at the record level established in March this year and is expected to remain high.

Flood waters receded in late May along the Texas coast. The Trinity River kept a large portion of the Galveston system in a brackish condition throughout the month. It is not yet known to what ex-

COUNTY-WIDE PLAN—
(continued from page 1)

that we definitely are convinced that the Rockport area has great opportunities for growth and development."

Grossman stressed that one of the main advantages of a countywide plan is to prevent duplication of work and expenses by the various political bodies within the area.

James H. Sorenson, Jr., said that, as an individual, he is a strong believer in expert planning for all endeavors, and that he strongly favors the proposed countywide plan.

Attending the meeting were Mayor Delmar R. Hiller, Aldermen N. F. Jackson, Charlie Garrett and N. C. Vandagriff, Supt. of Schools J. D. Gray, School Board members Jim Jackson and Tom Rogers, and Matt Scott of the Navigation District.

The following county representatives: County Judge John D. Wendell, Commissioners Jack Sparks, Albert Wofford, W. B. Allen and Raymond Owens; James H. Sorenson, Jr., Weldon Cabaniss, Mrs. Fred Hunt and Herman Johnson, members of the County Planning and Development Board;

Harold Picton and Jack McDavid of the Aransas County Conservation and Reclamation District; and John Ross, president of the Chamber of Commerce.

Mayor Hiller, who presided at the conference, closed with the suggestion that all five represented organizations hold their own meetings as soon as possible and decide within two weeks whether they wish to participate in sharing the \$11,000 cost for the comprehensive plan.

"The city is so convinced that this study and long range plan is worthwhile that we plan to go ahead with it even if the other groups decide not to," the mayor said, adding:

"Of course, if the city paid the entire cost, then the plan would be confined to the area within the city limits."

CITY ORDINANCE—

(Continued from Page 1)

al aspect which is extremely important here."

Anderson also praised The Rockport Pilot for publishing a series of articles on land use and zoning to explain the need for up-to-date regulation to protect the future of this community.

The city planner emphasized that the new ordinance definitely would NOT cause any changes in the present size of lots, etc., but that it would apply to the future. He also said that certain provisions would be included to cover the likelihood of future construction of apartment buildings and duplexes.

Officials attending the hearing were Anderson, McLendon, Mayor Delmar R. Hiller, Aldermen N. F. Jackson, N. C. Vandagriff, Charlie Garrett and Ernest Harist and City Tax Assessor-Collector Herman Johnson, representing the city, and the following members of the Planning Commission:

Chairman Fred Bracht, Jr., Tom Rogers, Earl Harle and Jack McDavid.

At the conclusion of the public hearing, Mayor Hiller asked the Planning Commission to meet as soon as possible to decide on its final recommendation to the City Council regarding the zoning ordinance.

The Commission met Wednesday evening and, except for a few suggested changes in the zoning ordinance draft, recommended that the City Council adopt the measure.

The bride is the daughter of Lt. Col. (ret.) and Mrs. Donald M. Davis of Rockport. Mr. Marchelle Lee Williams of Los Angeles, Calif. is the father of the groom.

The cake was made and decorated especially for the bride by Mrs. William Franklin of Copano Cove.

The bride is a graduate of Aransas County High School and was employed as a legal secretary prior to her marriage.

FUN IN THE PRESS

An investigator for the Anti-Poverty Commission was recently asked to check on reports that a farmer was paying his help below standard wages. He went out to the farm and was introduced to all of the hired hands.

"This here is Gordon," said the farmer. "He milks the cows and works in the fields and gets 45 dollars a week."

"This is Billy Joe, the other hired man. He works in the field and tends the stock and gets 40 dollars a week."

"And this young lady is Sue Ann. She cooks and keeps house and she gets 30 a week and board."

"Fair enough so far," said the inspector. "Is there anyone else?"

"Only the half-wit," answered the farmer. "He gets 10 dollars a week, tobacco, room and board."

"Ah hah," said the inspector. "I'd like to speak to him." "You're talkin' to him right now," replied the farmer. — Ties.

This and That
*** JOHN KINSEY**
 Have you ever noticed it's always the bride whose attire is described in great detail in newspaper accounts of weddings?
 Maybe she wore a formal gown of candlelight silk or-ganza veiled over peau de soie, with a fitted bodice applied in pearl encrusted chantilly lace and fashioned with a portrait neckline above elbow sleeves with split detailing.
 Or possibly she wore a street-length sheath accented by lace tiers, with a shoulder length veil which fell from a crown of seed pearls.
 But what about the bridegroom, not groom because a groom is a guy who takes care of horses.
 I hope the Pilot some day defies tradition and gives a full account of what the bridegroom wore.
 Perhaps it would read somewhat like this:
 The bridegroom wore a navy blue suit, a bit tight fitting because he hadn't worn it for two years when he bought it to wear to his grandmother's funeral. His boutonniere was a white carnation.
 Mr. Smith's white shirt looked nice on him, representing quite a contrast from his usual bright colored, sleeveless sport shirt.
 His tie, dark blue with a small design, was the type that hooks on the collar by means of a plastic hook. This hook sort of worked up and the tie hung precariously, causing the bride and the minister to cast nervous glances in Mr. Smith's direction.
 The bridegroom's shoes and socks were black, replacing the white sweat socks and sloppy loafers he usually favors.
 On second thought, perhaps it's better for papers to just write about the bride's gown. The bridegroom's outfit certainly isn't very glamorous.
