THE SNYDER DAILY NEWS

VOL. 27 NO. 121 SNYDER, TEXAS (79549), TUES., SEPT. 21, 1976 8 PAGES 10c

The SDN Column

A lot of people have moved in and out of Snyder since the oil boom days of the late forties and the fifties, but many of them never really left.

That's the way R.T. (Dick) Roberts expressed it. He and his wife, Jan, are among those who no longer get their mail in Snyder, and haven't for more than a decade because they have been living and working in Austin all these years. But, as Roberts says, "Once you've lived in Snyder, a part of you stays there."

This observation came to light Monday when Roberts called to report a Snyder reunion that he and Jan hosted the past weekend. Attending were Mr. and Mrs. Robert R. Patterson, Mr. and Mrs. W.W. (Doc) Grief, Mr. and Mrs. Bob McAlister and Mrs. Edith Dabbs, all of Austin now, plus Mr. and Mrs. William E. Byers, now of San Antonio.

"When this bunch got together, the question heard most often was 'when did you leave Snyder?' " Roberts said.

★ ★ ★

While they were congregated another unexpected visitor stopped by. Dr. Jean Andrews (the former Jean Wasson) was in town for the North Texas State-U. of T. football game. She recently got her PhD degree at NTSU and now teaches in a junior high school in Corpus Christi, Roberts revealed.

Several other former Snyder residents were unable to join the group for various reasons, including the Joe Carrolls who had house guests of their own, the Renal Rossons, who are in Snyder for the weekend, and the Jim Heaths, who also had other commitments.

★ ★ ★

Roberts said that a casual observer would have thought that the fact that these people once lived in Snyder was the most important thing that ever happened to any of them. Dick and Jan had arranged an appropriate setting, with a white buffalo and even a photograph of a former Miss Snyder back in the days when this city had an entrant in the annual Miss Texas Contest. Roberts was working in this office back in 1963 and had saved a picture of Miss Snyder, who, that year, happened to be Betty Morgan. Roberts also hauled out his recording of "Tool Pusher from Snyder," by the late Slim Willet, and played it a few times.

Roberts said the group had gone to see the play, "The Last Meeting of the Knights of the White Magnolia," which has a West Texas setting and was playing at the Zachary Scott Theatre in Austin.

"You never really get away from Snyder. When you leave Snyder, you just become part of a club," Roberts concluded.—WACIL McNAIR.

Today In History

By The Associated Press

Today is Tuesday, Sept. 21, the 265th day of 1976. There are 101 days left in the year.

Today's highlight in history:

On this date in 1949, West Germany came into existence as the U.S., British and French occupation zones in Germany were transferred to German control.

On this date:

In 1972, the French Assembly voted to abolish France's monarchy.

In 1938, Czechoslovakia agreed to cede the Sudeten German area of that country to Nazi Germany.

In 1929, the Soviet Union and Germany agreed on the demarcation of Poland.

In 1942, Soviet armies crossed the Volga river in World War Two.

In 1953, during the Korean War, a North Korean pilot landed his Soviet-built MIG in South Korea to collect a $100,000 reward for the first of the planes delivered to the U.N. Forces.

In 1973, Henry Kissinger was confirmed by the U.S. Senate as Secretary of State by a vote of 78 to seven.

Ten years ago: U.S. jet pilots downed two Communist MIGs over North Vietnam in the biggest day of air combat in the Vietnam War up to that time.

Five years ago: The 26th General Assembly of the United Nations opened in New York and elected Indonesian Foreign Minister Adam Malik as President.

One year ago: South Africa, hard hit by falling gold prices, announced an 18 per cent currency devaluation.

★ ★ ★

The Weather

SNYDER TEMPERATURES: High Monday, 73 degrees; low, 56 degrees; reading at 7 a.m. today, 57 degrees.

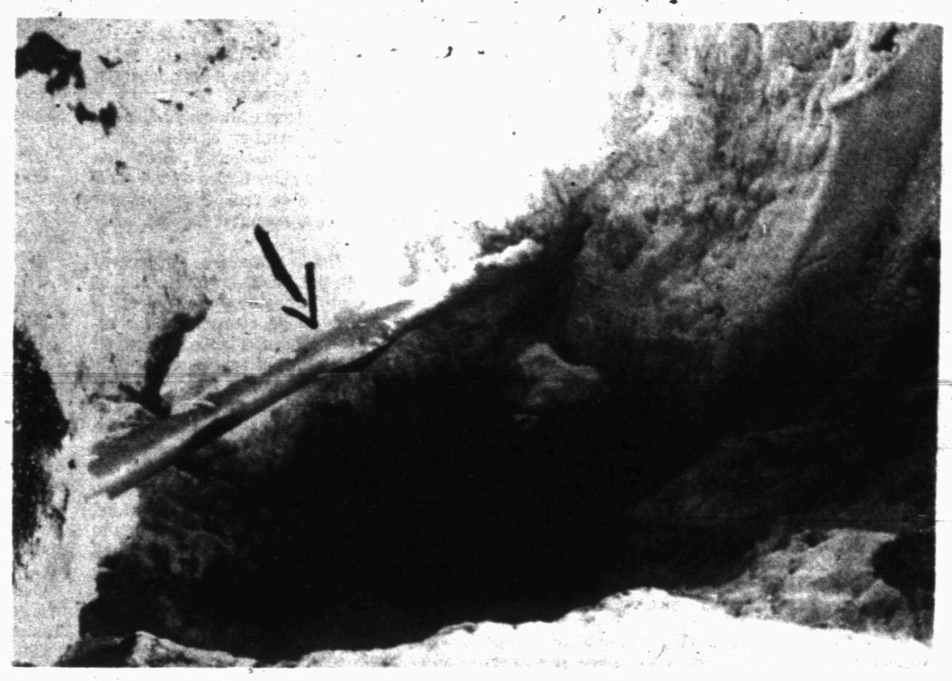

West Texas: Generally fair tonight. Increasing cloudiness Wednesday with a few showers extreme west portion. A little warmer most sections through Wednesday. Low tonight 52 to 68. High Wednesday 82 to 98.

North Texas: Mostly fair through Wednesday. Cooler tonight. Low tonight 52 to 58. High Wednesday 76 to 83.

South Texas: Generally fair and cool tonight. Partly cloudy and mild Wednesday. Low tonight 55 to 65. High Wednesday 78 to 86.

Upper Texas Coast: North winds 15 to occasionally 22 knots, diminishing tonight and becoming northeast 10 to 15 knots Wednesday. Seas increasing to 3 to 6 feet by this afternoon.

Lower Texas Coast: Northwest to north winds 15 to 22 knots, diminishing tonight and becoming northeast 10 to 15 knots Wednesday. Seas increasing to 3 to 6 feet by this afternoon.

RUPTURED PIPE—A leak in a pipeline (see arrow) unleashed liquefied petroleum gas early today northwest of Snyder and caused icing conditions around the break as the gas escaped.

Several Families Flee Escaping Gas

Residents in Western Snyder awakened this morning to the smell of escaping gas.

Early this morning, probably just after midnight, a pipeline carrying liquefied petroleum gas burst about five miles northwest of Snyder and forced the evacuation of at least three families.

It was reported that three families outside the city limits were evacuated from their homes in the pre-dawn hours today and that several other families also left their homes to escape the potentially deadly gas fumes.

Workers at the near-by Mid-American Pipeline Co. and Sun Oil Co. facilities were first alerted to the danger by the smell of escaping gas.

The source of the gas fumes was found to be a cotton field near the two facilities. Using picks and shovels, workers dug a hole in the ground and pinpointed the ruptured gas line.

Liquefied petroleum gas flowing to the line was quickly shut off. The pipeline was operated by Mid-America Pipeline System, a division of Mapco Inc.

The ruptured line was sealed off at approximately 4:35 a.m. today.

One company spokesman said that the cause of the break in the gas line is still under investigation.

The escaping liquefied petroleum, mixing with the air, formed a layer of ice several inches deep in places.

There were no casualities or injuries reported.

Snyder firemen, crews from various oil and gas firms and others were called to the scene, and Snyder Jaycees and city firemen set up evacuation centers in the event they were needed. As things worked out, however, only the three families were evacuated, and a few others left their homes voluntarily because of the gas fumes.

The excaping liquefied petroleum gas formed ice in the area of the pipeline break, which was in a cotton field.

Education Move Aids 9-Year-Olds

By JOHN STOWELL
Associated Press Writer

WASHINGTON (AP) — School desegregation and a return to the basics in elementary schools may have contributed to the recent rise in reading ability of 9-year-olds and the "dramatic improvement" among black youths, according to a new national survey released today.

However, the federally financed National Assessement of Educational Progress found that while 9-year-olds were able to read better in 1975 than in 1971, there was little change in the reading performance of 13-year-olds and 17-year-olds in school.

A panel of six reading specialists who studied the results of the national probability sample of more than 63,000 pupils concluded that renewed emphasis on reading fundamentals at the elementary level, racial desegregation, heavier funding in impacted areas and "social factors outside the school" may all have played a role in the higher scores of 9-year-olds.

Projections of the sample indicate that 50,000 more 9-year-olds performed higher in reading tasks last year than did their counterparts four years earlier.

Survey officials were reluctant to flatly attribute the improvement to desegregation, since the study did not isolate school districts under busing orders.

"Students from the Southeast, from low-income urban areas, who are black or whose parents had limited education, have traditionally achieved below the level of their age group," said Roy H. Forbes, project director.

"It is encouraging to see these gaps in achievement levels beginning to close at age 9; it is alarming to see the gaps remain at ages 13 and 17. This pattern, however, is consistent with NAEP's findings in both the science and writing assessments, indicating that special programs at the elementary level are paying off."

Black 9-year-olds scored 4.8 per cent higher on the reading tests than they did four years earlier, compared with a 1.2 per cent gain for white 9-year-olds. But blacks still remained 13 percentage points below whites in over-all reading levels, the survey showed.

The disproportionate performance between the races increased with age. Thirteen-year-old whites scored about 17 per cent higher than blacks, and 19-year-old whites were over 19 per cent higher in reading achievement.

At each age level, girls performed better than boys.

Bids For Supplies, Golf Shop At WTC Accepted

Scurry County Junior College District Trustees last night accepted bids for the purchase of some equipment and a pro shop for the Western Texas College golf course, and okayed an audit of federal funds handled through WTC.

A bid of $15,085 submitted by Tusha Building, Inc., of Lubbock, was accepted for construction of the pro shop building. This will provide a basic building only, with the college itself to take care of the remainder of the work.

Bids for audio-visual equipment totalling $4,459.65 were accepted. Four bidders shared in the awards, with $2,675.60 going to Baker and Taylor, $185 to Sound Photo Equipment Co., $245.10 to Trice Wholesale Electric, and $1,353.95 to Miller's Visual Aids. Some of the firms did not bid on all items purchased.

Bids totalling $3,676.79 for science equipment were accepted, with $3,176.79 going to Sargent-Welch and $500 to Ward's.

Also received were bids on uniform rentals for maintenance, custodial and security personnel. These were tabled pending a decision on whether the employes involved will share in the costs. The college also will seek additional quotations on diesel engine stands. Only one quotation was submitted Monday night.

The board voted to renew the college district's contract with the Scurry County Tax Assessor-Collector to assess and collect taxes for the college. The contract calls for a fee of one per cent for assessing and one per cent for collecting the taxes.

A student policy convering refunds of tuition, fees, etc., was revised to reflect specific items. Heretofore the policy had existed in general terms only. A policy covering tuition and fees for the new cosmetology program also was approved. Tuition, fees, textbooks and materials for a cosmetology student will total $407.50.

An agreement with the Scurry County Sheriff's Posse for installing a pump in a well to provide water at the rodeo grounds west of town was approved. The WTC Rodeo Team uses the rodeo association facilities.

The board instructed the administration to seek proposals for providing health insurance for WTC personnel. The present carrier has advised that rates will increase in October.

Dr. Sid Simpson, athletic director and head of the physical education department at WTC, discussed some proposed rules governing the use of the WTC gym and tennis courts. These will be presented for final approval at a later meeting.

Bill Wilson, vice president of the board who has been working with the college staff on the project, discussed development of grounds around the new vocational building now under construction to house welding facilities and the cosmetology program..

Dr. Robert Clinton, WTC president, was authorized to seek estimates on cost of purchasing and equipping a trailer to be used in student recruiting.

The appointment of George and Becky Maxwell director and assistant director of the WTC residence halls was formally approved by the board.

INFLATION RATE AT 6%

Consumer Prices Up Third Month

By ROBERT A. DOBKIN
AP Labor Writer

WASHINGTON (AP) — Consumer prices rose five-tenths of a per cent during August for the third month in a row, the government said today. A decline in meat prices failed to offset higher costs for most other foods, fuel and clothing.

The increase means inflation is running at an annual rate of 6 per cent, a level in line with the Ford administration's forecast.

At the same time, the Labor Department reported a further shrinkage in the purchasing power of the average workers' paycheck as inflation last month offset a slight increase in pay.

President Ford has claimed that his economic policies have helped cut the inflation rate in half from its 1974 levels. His Democratic challenger, Jimmy Carter, has charged that the current rate still is twice as high as when the Democrats were in office. Price increases averaged 2 per cent in the 1950s and 2.3 per cent during the 1960s.

Consumer price increases were smaller earlier this year but picked up to a 6 per cent rate in the spring. As the pace of inflation quickened, the economic recovery slowed and unemployment began rising again.

Although the administration contends the recovery will continue through next year, the Democrats have attempted to put Ford on the defensive about the economy.

In its August report, the Labor Department said consumer prices were 5.6 per cent higher than a year ago.

Food prices rose three-tenths of a per cent in August as lower meat prices helped offset increases for fruits, vegetables, dairy products and coffee.

But new increases for gasoline and clothing helped drive nonfood commodity prices up six-tenths of a per cent, about the same rate as in the previous three months but twice as much as during the first quarter of the year.

The cost of services also rose six-tenths of a per cent last month, matching increases in June and July.

All prices are seasonally adjusted. Unadjusted, the August increase in consumer prices also measured five-tenths of a per cent.

President's Name In Two Reports

By DAVE RILEY
Associated Press Writer

As President Ford and Jimmy Carter boned up for this week's fully-televised presidential debate, the President's name cropped up today in reports of a Watergate special prosecutor's investigation and of lobbyist-provided golf outings in New Jersey.

The GOP county chairman in Ford's hometown of Grand Rapids said Kent County Republican party records have been subpoenaed by prosecutor Charles Ruff. The county chairman, Paul Henry, said "We have no idea what they are looking for."

In Washington, a spokesman for Ruff said: "We can't confirm it (the investigation) for you. Subpoenas are grand jury documents."

Henry said the investigation, first reported in today's Wall Street Journal, involves the records of two Republican committees in Kent County dating back to 1964. The Journal said Ruff also subpoenaed campaign-contribution records of the Marine Engineers Beneficial Association, which the newspaper said was Ford's largest backer in 1972, the last time he ran for Congress.

In Washington, White House Press Secretary Ron Nessen acknowledged that Ford accepted free golf weekends.

"The President has been a personal friend of Bill Whyte for 28 years and twice, on two weekends, he was a guest of Whyte at the New Jersey golf course while he was a member of Congress," Nessen said.

Whyte is now a vice president of U.S. Steel. He could not be reached immediately for comment.

Nessen was asked if his statement was an admission that Ford had accepted a free weekend paid for by Whyte. The press secretary replied, "Yes."

Nessen made the statement after columnist Jack Anderson said Whyte hosted Ford at the Pine Valley Golf Club near Clementon, N.J., between 1964 and 1971 while Ford was in the House of Representatives. Anderson, appearing on ABC-TV's "Good Morning America," said Whyte conceded that U.S. Steel paid for the golf outings.

The White House said one of the outings was in 1964 and the other was in 1971.

The House adopted a code of ethics in 1968 prohibiting members from accepting a "gift of substantial value, directly or indirectly, from any person, organization or corporation having a direct interest in legislation before the Congress."

The rule does not cite a specific dollar figure considered to be "substantial." But a House ethics committee spokesman says it answers House members' queries by citing the State Department interpretation of the Foreign Gifts and Declaration Act, which prohibits government employes from accepting gifts with a retail value of more than $50 from foreign governments.

Neither Nessen nor Anderson specified the amount of money Whyte spent to entertain Ford.

The Carter-Ford debates are going to have very little trouble in the ratings because all four national television networks are going to carry them.

Drive Launched By United Way

"The United Way is a united way of people helping people," said Sam Hill at the kickoff dinner of the United Way Monday night. Hill, a former president of the Abilene United Way, addressed an audience of approximately 60 persons.

The 1976 United Way drive was formally launched last night with a flotilla of speakers. Mrs. Carol Davis, one of the speakers to ascend to the podium, said that a total of $20,770 has been collected so far against a goal of $48,000.

Roger B. Mize said that the Advance Division, of which he is chairman, has collected $19,360 or about $2,360 more than was targeted for his division. The remaining $1,410 of the $20,770 total collection figure came from the Branch House Division, Davis, the Scurry County United Way Co-Chairman said.

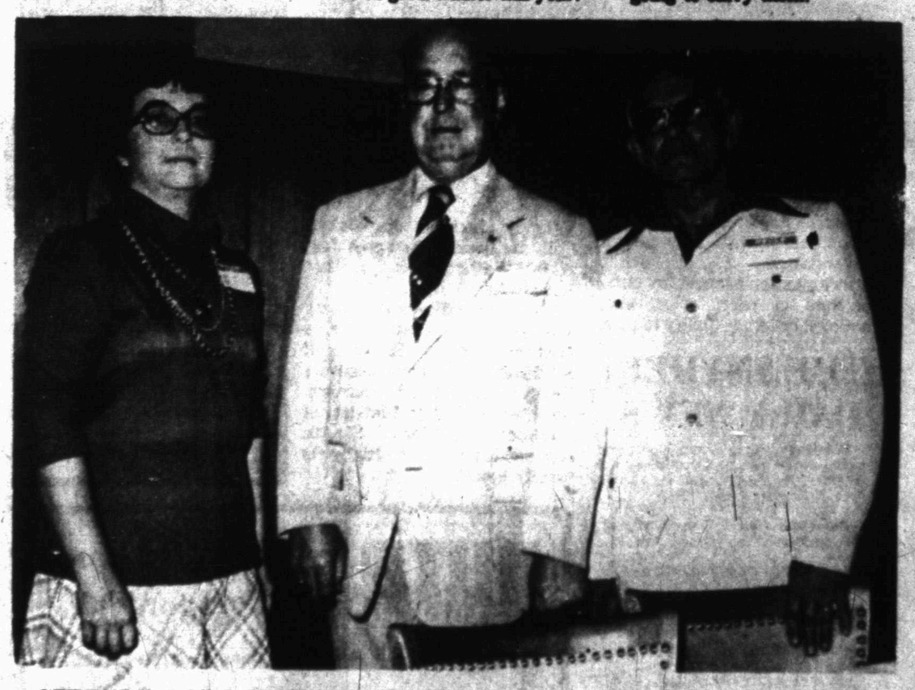

The United Way is a multi-faceted charitable organization. The Scurry County chapter of the United Way will aid 13 agencies.

Ed Barkowsky and Bob Clifton presented a slide presentation to the group explaining how the money collected will be spent to help the designated agencies.

The Scurry County United Way will aid the Boys Club; the Boy Scouts; Girl Scouts; Snyder Day Care Center; Scurry County Unit of the West Texas Rehabilation Center; Red Cross; Salvation Army; the county mental health department; the USO, the Texas Rehabilitation Center; the Southwestern Diabetic Foundation Center; and the Cerebal Palsy center.

Hill, the guest speaker at last night's kickoff dinner, referred to the United Way as a united effort in which people help people.

Joe Williamson, the drive co-chairman in Scurry County, addressed the group, and, noting the huge strides made by the United Way, concluded the presentation when he said, "We've got a winner this year."

ATTENDING THE KICK-OFF DINNER—The United Way officially launched its campaign Monday night. Attending the dinner were, from left, Mrs. Tommy Davis, co-chairman of the Scurry County United Way campaign; Sam Hill, the guest speaker and former president of the Abilene chapter of the United Way; and Joe Williamson, the other co-chairman of the drive.

PASSENGER TRAIN DERAILS—This is an aerial view of an Amtrak passenger train derailed in a rainstorm Monday and tumbled down an embankment, injuring slightly as many as 30 of the train's 40 passengers. The train was enroute from St. Louis, Mo., to Laredo, Tex. (AP Wirephoto)

Bubble Boy To Get Space Suit

HOUSTON (AP) — David—who has spent his life in a plastic bubble—observed his fifth birthday today but a very important present will be delayed a few months.

Just what other presents David received was not known but officials at the Johnson Space Center and Texas Children's Hospital agreed Monday he may soon receive an astronaut-like space suit.

The suit could permit the youngster to leave his germ-free plastic bubble for brief excursions.

David was born Sept. 21, 1971 without natural body defenses against disease. The simplest of germs most persons ignore could kill him, doctors said.

Seconds after his birth he was placed in a plastic environment. Doctors said he was a victim of severe combined immune deficiency (SCID), an inherited disorder thought to strike about one in every 10,000 males.

The dark-haired, brown-eyed youngster has never been touched by ungloved human hands.

Officials at the space center and the hospital said legal documents authorizing the child-size space suits have been signed.

Signing of the documents ended more than two years of negotiating that began after space officials were asked to study the possibility space technology and hardware might be adapted to assist David, said Gary Primeaux, a space scientist in charge of the project.

"We are now in the process of fabricating the suits," Primeaux said. "The suits are scheduled for delivery to Texas Children's Hospital in December."

The suits carry the official name of Mobile Biological Isolation Systems that consists of a spacesuit-like garment and a pushcart transporter-ventilator.

The suits are of rubberized fabric similar to that of life-rafts and have helmets made of soft transparent plastic.

The system provides a mobile sterile environment with a four-hour minimum outside excursion capacity. A lawnmower frame serves as the basic transporter unit.

David will be able to ride on the transporter or walk alongside within a 10-foot radius of the air supply hose.

The youngster now divides time between plastic-walled bubbles at the hospital and at his home, travelling between the two in a specially equipped van.

David's medical care is financed through a federal grant to Baylor College of Medicine's Research Center at Texas Children's Hospital.

Baylor now described David as a "healthy physically active child and the oldest immune deficient patient in medical history to survive without reconstitution of the body's protective system."

David's parents have refused to be identified and have not given interviews.

Child Care Food ProgramAnnounced

The Snyder Child Day Care Center has announced the sponsorship of the Child Care Food Program. All children in attendance will be offered the same meals with no physical segregation of, or other discrimination against any child because of race, color, sex, national origin or ability to pay.

Two Killed In Embassy Blast

WASHINGTON (AP) — The former Chilean ambassador to the United States and a woman colleague were killed today when a bomb exploded in their car as it passed near the Chilean Embassy, hospital officials said.

Another person was seriously injured in the blast.

The two persons killed were identified as Orlando Letelier, 44, ambassador during the regime of the late Marxist President Salvador Allende, and Ronnie Karpen Moffitt, who worked with Letelier at a research institute. Mrs. Moffitt's husband was injured in the blast.

Officials at George Washington Hospital said a bomb caused the explosion.

Police said the blast ripped the metal siding off the drivers' door and twisted the hood and roof of the car.

Letelier was director of the Trans National Institute, a division of the Washington-based research organization Institute for Policy Studies. He also taught at American University. Mrs. Moffitt, 25, was a staff member of the institute.

Her husband, Michael, 44, a research associate of the institute, was in serious condition at the hospital.

Allende, a member of the Socialist party, died in a bloody coup in September 1973 when the armed forces overthrew his government. Military authorities said he committed suicide.

Letelier was ambassador to the United States from 1971 until May 1973 when Allende called him back to Chile to become foreign minister. He also served as defense and interior minister under Allende.

He was arrested on the day of the coup and jailed for about a year. Secretary of State Henry A. Kissinger said his intervention was partially responsible for Letelier's release.

HOSPITAL NOTES

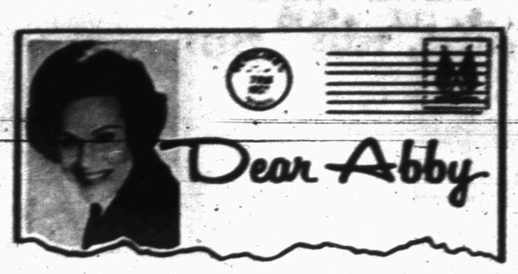

ADMISSIONS: Ermine Garza, 1307 Twenty-fourth; Dynette Willborn, 2301 Montcrief Ave.; Pablo Coronado, 201 Thirty-sixth; Frank Taylor, 2401 Forty-second; James Cain, Rt. 2; Mary Williams, 1006 Twenty-fifth; Fidenco Contreras, Box 13; Kenneth Hess, Rt. 2, Roscoe; Roy Childress, Rt. 2; Charles Washburn, 4000 Ave. R; James Moore, Rt. 1; George Montandon, 112 Browning; Martha Cook, 314 Thirty-third; John Roemisch, Rt. 1, Hermleigh.

DISMISSALS: Johnnie Herrley, Billie McCormick, Joe Williams, Christina Delao, Israel Ortegon, Richard Garcia, Jesse Johnson, Oleta Lange, Aubrey Gray, Ruby Ince, Jessie McClain, Leona Snider, Beatrize Escalera, George Evans.

Rodeo Club's Officers Named

Randy Jackson of Wichita Falls has been elected president of the Western Texas College Rodeo Club.

Other new officers are Larry Turner of Austin, vice president; Kerry Harston of Southlake, secretary-treasurer; Kenny Lemond of Andrews, reporter, and Jeff Matsler of Lubbock, Student Senate representative. Van Rigby is faculty advisor.

Don't Punish Kids for Sins of Mother

By Abigail Van Buren

© 1976 by Chicago Tribune-N. Y. News Synd. Inc.

DEAR ABBY: I was recently granted a divorce after being married for 30 years. I had a lot of suspicions about my wife, but I had only a second-grade education and was pretty dumb then. I didn't begin to add things up until after she had two children who couldn't possibly have been mine. Even so, I was always a good father to them, and they never had any idea they were illegitimate.

My question: I'm making out my will and have brothers and sisters who could sure use some money. I own my own home plus some stocks and savings, and I don't see why I should leave anything to my illegitimate children, do you? Who should be punished?

A PROBLEM OUT EAST

DEAR PROBLEM: Any children born during your marriage are legally your children. You say you've been a "good father," and I believe you. But how can you write off all the years during which they grew up loving you and being loved in return?

To leave them nothing would be punishing them for the "sins" of their mother. Unfair. Please reconsider.

DEAR ABBY: I graduated from high school last June and received some very nice gifts from friends and relatives.

Since I've had a very busy summer and hate to write letters, I decided to telephone all those who sent me gifts to thank them personally. I even called long-distance to thank those who live out of town, and I intend to pay for the calls myself.

My parents aren't satisfied. They think a written thank-you note is necessary. I think a telephone call is enough. What do you think?

PHONED MY THANKS

DEAR PHONED: Phoning one's thanks strikes me as the lazy man's way. It's adequate; but those who do it right write!

DEAR ABBY: I received an invitation to a golden wedding anniversary party. I am only an acquaintance, not a dear friend or relative, but I was told by a relative of the celebrating couple to bring money rather than a gift because the golden wedding couple are having a money tree. With the money collected, they plan to take a cruise.

I asked how much I would be expected to contribute and was told, "At least a dollar for every year the couple have been married."

Abby, that's a minimum of $50—as much as I gave my own niece for a wedding present!

What do you think?

PASADENA READER

DEAR PASADENA: I think you should give whatever you feel is appropriate and no more.

For Abby's new booklet, "What Teen-agers Want to Know," send $1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (24¢) envelope.

Temps Dip In Texas

By The Associated Press

Cooler and drier weather took over in the north half of Texas today. A little of the rain that brought flash flooding in many areas the past two days lingered in the extreme south part of the state.

A cold front which set off the deluges crossed the Upper Texas Coast into the Gulf of Mexico. On the opposite side of the state, it came almost to a halt between Corpus Christi and Brownsville, and that's where the moisture persisted.

There was no further word, however, of downpours like the 7.32 inches in 13 hours Monday at Houston's International Airport. Considerable street flooding occurred in Houston and the northeast part of Harris County.

Clear skies accompanied the cooling over the state's northern half, where early morning temperatures sagged to 51 degrees at Amarillo and 52 at Dalhart in the Panhandle. It was partly cloudy to cloudy at many other points and the readings stayed as high as 75 at Brownsville and McAllen in the extreme south.

Another cool night was in prospect for North and South Texas. Increasing cloudiness and occasional showers were forecast by Wednesday in the west portion of West Texas.

Queen Economizing On Her Wardrobe

LONDON (AP) — Queen Elizabeth II is very economy minded about her clothing, her newest fashion designer says.

Ian Thomas said he has a rack of three-year-old garments belonging to the queen, who wants their hems let down before putting them back into her wardrobe.

Thomas also said the queen favors culottes, the long fashion pants that look like an evening skirt until the lady starts to walk, for informal, at-home affairs.

She has not worn them in public, Thomas said in the latest edition of the British weekly magazine Woman's Own Monday.

Cosmetology Exam Is Set

Persons interested in enrolling in the cosmetology program at Western Texas College may take the required pre-entrance test at 1 p.m. on Sept. 30 in the WTC Student Center, Vallene Turney, cosmetology instructor, has announced.

The cosmetology course will be starting its first classes at WTC within the near future. Cost for taking the preliminary test is $5 per person.

Anyone wishing further information about the test or the cosmetology course may contact Ms. Turney by calling extension 241 or extension 219 at WTC, 573-8511.

City Firemen Called Twice

City firemen extinguished a fire in a vacant house three miles north of Randall's Corner at 2:05 a.m. today.

They also answered a call to 2904 Thirty-third Street at 7:05 p.m. Monday where there was a dishwasher on fire.

The Black Sea separates eastern Europe and Asia Minor.

Panel Sets Bell Hearing Date

AUSTIN, Tex. (AP)—The Texas Public Utility Commission has set Nov. 1 as the starting date for a estimated month of hearings on Southwestern Bell Telephone Co.'s request for $298 million worth of rate increases.

Commissioners also cleared the way for more than 100 cities and organizations to present evidence in opposition to the increases.

The Texas Municipal League and a number of cities complained, however, about the ground rules issued by the commission to reduce the amount of time required for the hearing.

The commission instructed all the parties within each of four categories to select a single lead counsel and, in effect, present a common case on the issues of rate base and fair rate of return.

Once those key economic issues have been dealt with, the parties can go their own ways in fighting various parts of the package, which includes raises in rates for local service and long distance. Bell also wants to double the cost of pay telephone calls and impose charges for more than three "411" directory assistance calls a month.

Chairman Garrett Morris said he wants the commission to act before Jan. 3. That would be the 125th day after Bell filed its rate increase request. Texas law allows a rate increase to take effect if the commission has not acted in 125 days, provided the utility posts bond to guarantee refunds to customers if the commission subsequently disapproves it.

"I don't think it is in the public interest for any rate of this magnitude to go into effect under bond without somebody having time to look at it and say it is fair and reasonable," Morris said.

Once the hearings end, the commission will have just over a month to make its decision, he added.

If 185 days elapse from Sept. 1 without a decision, Bell's increase would take effect automatically.

The categories created by the commission for the hearing are: the federal government, represented by the General Services Administration; the Texas Municipal League, attorney general, state comptroller and Rep. Lane Denton, D-Waco, presumably represented by Atty. Gen. John Hill; consumer groups and the Texas AFL-CIO; and a catchall group including the Communications Workers of America and the Texas Retail Federation.

Cities wanted to present their case independently of the state, saying that vital points are not always the same.

Spokesmen for Abilene, Amarillo, Lubbock, Midland and Odessa also asked to make an independent case. They said Bell's proposal could raise rates for local service by 35 to 102 per cent in their areas.

The reason, they said, was that Bell lumped them into a rating bracket with a number of coastal cities where Bell's capital investment is higher and fewer long distance calls are made. They said Bell has given the West Texas cities lower rates for local service in the past because they make more long distance calls.

Offshore Lease Push Is Slowed

NEW ORLEANS (AP) — Plans to speed up leases of offshore oil and gas reserves to push the United States toward energy independence have slowed to half.

Instead of six offshore lease sales a year envisioned in June 1975, or the four originally targeted, Outer Continental Shelf sales have been running three a year.

Only in the Gulf of Mexico is the effort nearly on target, the Bureau of Land Management reports.

Several sales have been delayed by court challenges from environmentalists and adjacent states.

Adding to the slowdown is a move by federal officials to work more closely with state and local officials and with environmental groups and representatives.

A New Orleans land management official agreed the move was made in part to take the edge off some of the opposition in what he called frontier areas, where the oil rigs have never been.

"It's not that they are more concerned in the frontier areas with the environment," he said. "It's that in the Gulf there's more understanding."

First of the lease sales off the Louisiana and Texas coasts came in October 1954.

Of 17 lease sales projected through 1978, five are in the Atlantic. The Baltimore Canyon sale last month was challenged in court. A hearing in the U.S. Court of Appeals is scheduled in New York Sept. 27.

Eight others involve offshore areas in Alaska. Onshore forces there would like to see delays up to three years.

Opposition has sprung up, too, on offshore areas of California and Washington-Oregon.

Two Gulf of Mexico sales of leases off the coasts of Louisiana and Texas are scheduled — one in November and a second in April 1977.

The November sale, originally listed for October, will consist of 61 tracts totaling 255,163 scattered Gulf acres. Final environmental impact statement was filed Sept. 3.

The 1977 Gulf sale, although still on the list at its original time, could be pushed back to July, a land management official said. It covers 1,117,827 acres in 295 tracts.

A sale process begins with a call for nomination of tracts by prospective bidders, running through six more steps. Now the process takes about 12 to 19 months. That period may stretch out as environmental and onshore impact studies grow more detailed.

In an attempt to accelerate the program, land management officials are working on a revised schedule of sales, and one official said it couldn't come much before the end of the year.

The diode radio tube was developed in 1904 by Sir John Ambrose Fleming.

Opening lead — 6 ♠

By Oswald & James Jacoby

If you want to play all four-notrump bids as Blackwood you are using the bid in its simplest form. You are also using it in a way that no expert, including Easley Blackwood himself, uses it today.

Every expert partnership uses its own special variations. We are going to suggest that you employ the following, simple variation which is: Any jump to four notrump directly in response to partner's bid of one or two notrump, **can** be an invitation to a **slam and** show enough strength to guarantee four notrump.

North's jump to four notrump is an example of that bid. If he really wanted to ask for aces, he would either have to use the Gerber Convention, which we will discuss tomorrow, or make some unusual forcing bid at the three level, preparatory to a Blackwood four notrump at his next turn to bid.

With a minimum hand, South passes at four notrump. West opens the six of spades. South is sure to make at least 10 tricks and may score as many as 12, if the defense tries to beat four. But there is no play for a slam if one is bid.

Ask the Jacobys

A Kentucky reader wants to know the correct response to partner's opening bid of one diamond with:

♠ A K 8 5 4 ♥ A K 2 ♦ J 9 7 3 2 ♣ —

The correct response is a **game** forcing two spades. Your great distribution makes up for the fact that you only have 15 high-card points.

Michigan Boosts Its Lead In Poll

By HERSCHEL NISSENSON
AP Sports Writer

Top-ranked Michigan, which led runner-up Ohio State by just one point a week ago, widened the margin in today's Associated Press college football ratings following a 51-0 slaughter of Stanford.

With numerous voters switching from Ohio State to Michigan, the Wolverines received 47 first-place ballots and 1,156 of a possible 1,200 points from a nationwide panel of 60 sports writers and broadcasters.

Meanwhile, Ohio State received three No. 1 votes and 998 points for second place after a 12-7 triumph over Penn State, which dropped from seventh to 11th.

Last week, Michigan received 28 first-place votes and 1,077 points to 18 and 1,076 for Ohio State.

Pitt, Oklahoma and UCLA held onto the 3-4-5 positions. Pitt received seven first-place votes and 947 points after trouncing Georgia Tech 42-14, Oklahoma got the other three top votes and 820 points for beating California 28-17 and UCLA polled 761 points in the wake of a 37-9 whipping of Arizona.

Nebraska, No. 1 in the preseason ratings but eighth last week after an opening tie with Louisiana State, climbed to sixth after beating Indiana, 45-13. The Cornhuskers replaced Missouri, which cracked the rankings by walloping Southern Cal in its opener but promptly dropped out by losing 31-7 to Illinois last weekend.

That game also pushed the Illini into the rankings for the first time this season. They are 14th.

Georgia jumped from ninth to seventh — replacing Penn State — with a 41-0 rout of Clemson, Maryland rose from 10th to eighth by trimming West Virginia 24-3, Texas A&M shot from 11th to ninth by drubbing Kansas State 34-14 and Kansas made it from 13th to 10th with a 37-16 victory over Kentucky.

Following Penn State in the Second Ten are Arkansas, Alabama, Illinois, Louisiana State, North Carolina, Mississippi, Boston College, Southern Cal and Texas Tech.

Last week's Second Ten consisted of Texas A&M, Arkansas, Kansas, Alabama, Boston College, LSU, North Carolina, Arizona State, Texas and Ole Miss.

Southern Cal got back into the Top Twenty by crushing Oregon 53-0. Texas Tech, idle last weekend, made it for the first time this season when Arizona State and Texas fell out. Arizona State also was idle while Texas was hard-pressed to defeat North Texas State, 17-14.

The Top Twenty
By The Associated Press

Top Twenty teams in The Associated Press college football poll, with first-place votes in parentheses, season records and total points. Points based on 20-18-16-14-12-10-9-8-7-6-5-4-3-2-1:

1.Michigan(47)	2-0-0	1,156
2.OhioSt.(3)	2-0-0	998
3.Pitt(7)	2-0-0	947
4.Oklahoma(3)	2-0-0	820
5.UCLA	2-0-0	761

19.S.Calif.	1-1-0	49
20.TexasTech	1-0-0	32

Pirates Out Of Time, Patience

By KEN RAPPOPORT
AP Sports Writer

Willie Stargell's running out of words, Danny Murtaugh's running out of patience ... and the Pittsburgh Pirates are running out of time.

There seemed to be little of anything left for Pittsburgh after Monday's heart-breaking 5-4 loss to the New York Mets.

"I don't want to talk," said Stargell, the usually talkative team leader of the Pirates. "I've run out of words."

"I'm upset," said Murtaugh, the Pirate manager. "I have to be upset. We can't afford to lose, especially not like this."

The Pirates were understandably at the end of their rope after the defeat dealt a hard jolt to their National League East pennant hopes.

On the verge of picking up one-half game on the idle Philadelphia Phillies, the Pirates saw the apparent victory vanish over the right center field wall at Shea Stadium — on the wings of rookie Lee Mazzilli's two-out, two-run homer in the ninth inning.

The loss dropped the Pirates 4½ games behind the Phillies, five games down in the loss column. The Phillies have 14 games left to play in the regular season and the Pirates 13.

The game was the only one played in the National League Monday. In American League action, the Milwaukee Brewers beat the New York Yankees 4-2; the Boston Red Sox routed the Detroit Tigers 12-6 and the California Angels nipped the Texas Rangers 1-0.

The Pirates had erased an early 3-0 deficit to take a 4-3 lead in the eighth inning on Stargell's 19th homer of the season. In the Mets' ninth, pinch-hitter John Milner singled off Pirate reliever Kent Tekulve, 5-2, and Mazzilli, who was brought up from the minor leagues earlier this month, followed with his second home run of the season.

Brewers 4, Yankees 2

Rookie Dan Thomas' fourth-inning homer and Don Money's two-run single helped Milwaukee defeat New York. The defeat left the Yankees' "magic number" for clinching the American League East title at three games. Runnerup Baltimore did not play and trails New York by 11½ games, going into a four-game series between the teams which begins Tuesday.

Red Sox 12, Tigers 6

Cecil Cooper drove in four runs with a homer and a single and Jim Rice blasted two solo homers to lead Boston's rout of Detroit. boston pounded out 13 hits and collected nine walks as the Red Sox won their sixth consecutive game, their longest winning streak of the season.

Angels 1, Rangers 0

California right-hander Nolan Ryan got a run-scoring double from battery mate Terry Humphrey and made it stand up for his fifth consecutive victory, a three-hit shutout over Texas.

'Flags And Fumbles' Sink UT

AUSTIN, Tex. (AP) — "Some calls can go either way," Texas Coach Darrell Royal said Monday, after making it fairly clear that he didn't think officials' calls went Texas' way Saturday night.

Nineteenth-ranked Texas barely beat unranked North Texas State, 17-14, even though the Longhorns nearly doubled North Texas' total offense — 408 to 216 yards.

"We're just not delivering," Royal told his weekly news conference, blaming "flags and fumbles" and an official's end zone call for making the score so close. He said the official erred in awarding North Texas a touchdown pass with 7:18 left in the game.

Royal said on that 69-yard scoring drive, which enabled North Texas to pull within three points, "43 (yards) of the 69 was officials."

A 15-yard penalty for holding wiped out a 9-yard North Texas loss and advanced the ball to the Texas 37. A 9-yard pass gain, with a 14-yard penalty for "spearing" the receiver moved the ball to the Texas 14.

SHS Girls Decision Monterey

The Snyder High school varsity girls volleyball team defeated Lubbock Monterey, 15-6, 15-8, here last night after the junior varsity took a 17-15, 15-6 decision over the Monterey JV.

Scoring for the varsity: Susan Walker 9 points, Shelly Nutt 8, Donna West 4, Kim Nicholson 4, Dana Elrod 2, Della Braziel 2, and Kathy Harrell 1.

Susan Walker and Shelly Nutt were outstanding on offense, and Julia Glass did a good job of dinking the ball. Defensively, all of the girls had a good night. They made more serve receives than in any previous game this year, receiving 81 per cent.

Soring for the junior varsity: Debbie Meyers 8 points, Sherry Neves 7, Connie Pollard 6, Shanna Smith 5, Cindy Koonsman 3, and Dana Myers 3.

Three Snyder teams will play at Colorado City today. The Freshman Gold team has a 5:30 p.m. match, the junior varsity plays at 6:30 p.m., and the varsity plays at 7:30 p.m.

Beard Leads Ball Carriers

Ricky Beard was the leading ball carrier in the Big Spring game with 146 yards rushing on 23 carries.

Tim Falls, Tiger quarterback, netted 67 yards on 18 carries, and Clay Peterson gained 36 yards on eight carries.

Falls completed two passes for 17 yards. Both receptions were made by James Wells.

Defensively, the Tigers yielded 114 yards passing and 90 rushing for a total of 204 yards. However, Big Spring averaged only 2.9 yards per rush against the Tigers. But, they averaged 19 yards per pass completion.

TIGER PUNTER—Snyder High School's Doyle Browning has been doing a good job of punting the ball this year. Here he is shown in action against Big Spring. He will be in the lineup at Andrews this week. (M—W Photo).

Raiders Happy Kenny Was Hot

KANSAS CITY (AP) — When Kenny Stabler is hot, there is probably not a defense in the National Football League that can stop him.

Before a national television audience Monday night, the Oakland quarterback was an artist, completing 22 of 28 passes and systematically shredding the Kansas City defense for 224 yards and three touchdowns.

Then Stabler left early in the fourth quarter with a strained knee and watched, no doubt flabbergasted, as the Chiefs upstaged his performance with an amazing comeback before finally succumbing, 24-21.

"Ken Stabler was as sharp as I've ever seen a quarterback be," said Chiefs Coach Paul Wiggin. "He was the ultimate passer."

Stabler and the unbeaten Raiders, two-touchdown favorites over the rebuilding Chiefs, humiliated their hosts in the first half, constructing a 17-0 lead that actually was deceptive in light of the halftime statistics: Sixteen first downs and 288 total yards for Oakland, two first downs and 37 yards for the Chiefs.

After Stabler fired touchdown strikes of 15, 10, and 14 yards to Dave Casper, Cliff Branch and Mike Siani, and Fred Steinfort booted a 37-yard field goal, it looked for all the world like a rout had been ordained.

But after intermission it was as if the teams had swapped uniforms. On the Chiefs' third possession of the third quarter, MacArthur Lane capped a 54-yard march with a one-yard touchdown plunge to make it 17-7. Stabler's touchdown toss to Siani a few minutes later gave the Raiders what would prove to be an insurmountable 24 points.

But the Chiefs, behind quarterback Mike Livingston, swept 87 yards in 12 plays and tallied on Livingston's one-yard keeper.

Less than two minutes later, reserve quarterback Mike Rae fumbled at the Oakland 25 and Chiefs linebacker Billy Andrews pounced on the loose ball.

Livingston needed one play, a 25-yard pass to Billy Masters in the end zone, to pull his team to within three points with less than three minutes remaining.

The Raiders handled Kansas City's onside kick and ran out the clock, but Chiefs players and coaches left the field feeling like winners.

Dusters To Open Slate Nov. 12

The Western Texas College Dusters will open their 1976-77 basketball season on Nov. 12 when they play McMurry College in Abilene, Dr. Sid Simpson, WTC Athletic Director and women's coach, said.

The first home game will be on Nov. 19 when the Dusters host a team from Angelo State University in the Scurry County coliseum. Eleven home games are on the schedule.

The complete schedule follows:

Nov. 12	McMurray	Abilene
Nov. 16	Baylor	Waco
Nov. 19	San Angelo	Coliseum
Nov. 22	Midwestern	Knox City
Nov. 29	Ranger	Ranger
Dec. 2	Texas Tech	Coliseum
Dec. 4	ENMU	WTC gym
Dec. 7	Northwest Okla.	Alva, Okla.
Dec. 8	Northern Ok.	Tonkawa, Okla.
Dec. 10-11	Tournament	Kansas City
Dec. 17	Wayland	Plainview
Jan. 10	Baylor	Coliseum
Jan. 15	ENMU	Portales, N.M.
Jan. 20	Howard College	Coliseum
Jan. 24	Odessa College	Odessa
Jan. 27	Clarendon	Clarendon
Jan. 29	Wayland	Coliseum
Jan. 31	Weatherford	Coliseum
Feb. 3	Clarendon	WTC gym
Feb. 5	SPC	Coliseum
Feb. 9	Ranger	WTC gym
Feb. 14	SPC	Levelland
Feb. 15	Texas Tech	Lubbock
Feb. 17	Weatherford	Weatherford
Feb. 21	Howard College	Big Spring
Feb. 24	Odessa	Coliseum

Tigers Expect A Tough Game At Andrews Friday

"It will be a tough football team, but our kids are looking forward to it. It will be the toughest game we've played so far."

Thus Coach Mike Jenkins of the Snyder Tigers summed up the challenge facing the Snyder High School varsity football team this week. They journey to Andrews Friday night to take on the tough Mustangs.

Jenkins spoke at the regular weekly meeting of the Tiger Booster Club, held last night in the high school cafeteria.

Coach Bill Boles gave the scouting report on Andrews. He said they run the Veer offense just like Snyder.

"They have a good quarterback and good speed," he said. He pointed out they beat Brownfield 26-0, and Lamesa 12-6.

"They should have beaten Lamesa by a much bigger margin," he said, "And they looked like a college team against a Junior High team against Brownfield."

Boles said Andrews uses a "monster type defense" like Snyder. They throw the ball well, but their quarterback would rather run with it.

"The quarterback is the key to their offense," he added.

Boles also said Andrews has a good punter and a tough linebacker. They have seven juniors, three seniors and one sophomore on defense, and seven juniors and four seniors on offense. Their line averages 180 pounds per man and their backs 153 pounds.

Coach Jenkins said he was proud of the Tigers in their game against Big Spring. He said he was not disappointed over their mistakes because they came back in the fourth quarter. That last touchdown and two-point conversion "overshadowed our earlier mistakes," he said.

Jenkins said he knew Big Spring "would play us tough. Hopefully we will learn from our mistakes."

Snyder turned the ball over four times out of the first five times they had the ball, mostly in the Big Spring end of the field.

Jenkins pointed out the backs run hard, twisting and turning. Several of the boys came out of the Big Spring game with bruises and sore muscles, but everyone will be ready to play Friday night, Jenkins said. Darrell Lester will be going full speed today.

Monitoring films of the Big Spring game, Jenkins said he thought the secondary and inside people played well. He also praised the blocking of the offensive line and the punting of Doyle Browning.

"We had good deep coverage all night," Jenkins pointed out. He praised the play of Johnny Velasquez and Hurbert Thompson on the specialty teams.

Members of the Freshman football team were guests of the Club. Each boy introduced himself and told what position he plays. The Freshman coaches--Albert Lewis, Bill Boles and Jack Stevenson--also were present.

The meeting was presided over by Erwin Pavlik, club president, who urged everyone to attend the Andrews game and support the Tigers.

Ponies May Dust Off 'Shotgun'

DALLAS (AP) — Don't be shocked if Southern Methodist dusts off the spread formation in the near future.

SMU Coach Ron Meyer, who was a scout for the Dallas Cowboys of the National Football League, said Monday "I've been thinking about getting into the shotgun situation."

Quarterback Rickey Wesson, who only stands 5-feet-9, had trouble seeing over Alabama's huge defensive linemen in last Saturday's 56-3 thumping of the Mustangs.

Wesson is an excellent scrambler and has developed an average passing arm out of SMU's Slot I attack.

Meyer didn't come flat out and say SMU was going to do it.

"We're not going to emulate the Cowboys or anything like that but it would give Rickey a chance to see his receivers a little longer," said Meyer.

Whatever couse of attack SMU decides something needs to be done quickly because North Texas State and the coach SMU fired, Hayden Fry, is on the schedule Saturday night in Texas Stadium.

"It will be real competitive," said Meyer. "I don't think there's any animosity between the two schools. It should be just a great game."

Fry's only shot at SMU since he joined North Texas State ended in a 7-6 defeat and it's no secret he'd dearly like some revengenon the Mustangs.

NTSU gave Texas fits Saturday night before falling 17-14 to the Texas Longhorns in Memorial Stadium.

Meyer said "We're just not very deep. Alabama had 19 running backs in Saturday's game at various times. We had three.

Meyer added "We are hurt tremendously. This is the worst defeat in any program I have ever suffered. I take the blame. We didn't have the effort."

SMU will be without the services of linebacker Paul Sturdivant for at least eight weeks with a dislocated shoulder.

AVISO PUBLICO

RESUMEN DE
LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION
ELECCION GENERAL DEL
2 DE NOVIEMBRE DE 1976

NUMERO UNO EN LA BOLETA (S.J.R. 49)

Revocando Secciones 49-d and 49-d-1 del Artículo III de la Constitución de Tejas, S.J.R. 49 enmienda Sección 49-c del Artículo III de la Constitución de Tejas para disponer y autorizar $400 millones adicionales de bonos para el desarrollo de agua en Tejas que se puede emitir a la aprobación de dos terceras partes de los miembros de cada cámara de la Legislatura para tales fines de desarrollo del agua que la Legislatura pueda prescríbir.

La enmienda contiene prohibición específica contra el uso de fondos del estado para el desarrollo de recursos acuáticos del Rio Mississippi y también requiere que antes de que pueda encargarse de cualquier proyecto particular para el desarrollo de agua que requiere un gasto de mas de $35 millones de producto de los bonos, debe de ser aprobàdo por resolución de la Legislatura.

La enmienda remueva el requerimiento constitucional que ciertas rentas deben de ser usadas para retirar bonos para el desarrollo de agua y el encarecimiento de la calidad de agua y remueva el límite constitucional de la tasa de interés en tales bonos.

La fraseología de la enmienda propuesta tal como aparecerá en la boleta es lo siguiente: "La enmienda constitucional autorizando un incremento de $400 millónes de la cantidad de Bonos del Desarrollo de Agua en Tejas que podrán emitirse al ser aprobada por dos terceras partes de la legislatura; enmendando y consolidando disposiciones de Secciones 49-c, 49-d, y 49-d-1 del Artículo III de la Constitución de Tejas; y revocando Secciones 49-d y 49-d-1 del Artículo III de la Constitución de Tejas."

NUMERO DOS EN LA BOLETA (H.J.R. 99)

H.J.R. 99 propone una enmienda a la Constitución de Tejas para aumentar de $100 millones hasta $200 millones la cantidad principal agregada de bonos para el desarrollo de agua en Tejas que se puede emitir y que están en circulación por el Texas Water Development Board para proveer donaciones y préstamos para la mejoría de la calidad de agua como establecido por la Legislatura. La fraseología de la enmienda propuesta como aparecerá en la boleta es lo siguiente: "Una enmienda constitucional para incrementar desde $100 millónes hasta $200 millónes la cantidad de Bonos de Desarrollo de Agua en Tejas que podrán ser emitidos con el propósito de mejorar la calidad del agua."

Shrimper Claims Mexico 'Sell Out'

By MILLER H. BONNER JR.
Associated Press Writer

BROWNSVILLE, Tex. (AP) — A former official of the Texas Shrimp Association (TSA) says its executive director "sold us out to the Mexican government."

Carl Gayman said he resigned from the TSA's board of directors after the board failed to take a tougher stand in opposing a proposed agreement between Mexico and the United States. That agreement would phase out all American shrimp fishing in Mexican waters over three and a half years.

"I feel that Bob Mauermann (TSA's excutive director) has been bought off by the Mexicans," said Gayman, a shrimp fisherman and board chairman of the Brownsville-Port Isabel Shrimp Producers Association.

"I think we should fire him. He sold us out to the Mexican government. I don't think he'll last (at his current job) into next year."

"That's absurd," countered Mauermann. "I have no way of selling anyone out to anybody. I have no connection with the shrimp industry here or in Mexico other than my position as executive director. I believe I'll be around next year."

The proposed agreement that spawned the controversy is currently being studied by the U.S. State Department, said Mauermann.

"The United States and Mexico unilaterally agreed to establish a 200-mile zone from the coast lines of each country and limit fishing within those zones to boats from their respective countries," said Mauermann. "The United States will begin enforcing the limit on March 1, 1977.

"The Mexican government began enforcing the limit on May 5, 1976. That presented serious problems to South Texas and Gulf Coast fishermen."

Gayman, however, said the program is more than serious.

"Mauermann doesn't have a mortgage on a boat," he said. "We spend half the year fishing in Mexican waters. If we have to limit our fishing to six months, a lot of people are going to go broke."

The U.S. State D.epartment, said Mauermann, applied pressure on the Mexican government and gained a gradual phaseout of all American boats in Mexican waters.

"This year the Mexican government will grant 318 licenses (at $2,006 per license) to American boats enabling them to take no more than six million tons of shrimp from their waters," he said. "Over the next three and a half years the phaseout will be gradual until no American boats are allowed.

"We met with representatives of the Mexican government twice on this matter. The first meeting, they wouldn't budge. But we pointed out that Mexico exports $200 million worth of shrimp into the U.S. per year and they could be endangering that business."

"They then agreed to a phase-down, phaseout proposal."

Mauermann said the TSA drafted a resolution stating it "finds the terms of the agreement in its present form unsatisfactory and requests the President to take personal interest in the U.S. shrimp industry and initiate such action as necessary to obtain a more equitable shrimp fishing agreement with Mexico."

Mauermann said the resolution was sent to all congressmen and to the White House.

Gayman said the shrimpers from Brownsville and Port Isabel, Tex., take about 20 million tons of shrimp from Mexican waters every year.

"If the State Department doesn't get a better deal, a lot of people around here are going to be looking for jobs," he said.

"And we have a nickname down here for Secretary of State Henry Kissinger. We call him Santa Claus because he gives away everything and gets nothing in return."

Police Concerned Stolen Treasure May Be Melted

CAPE CANAVERAL, Fla. (AP) — Police say they are concerned that thieves who stole about $750,000 worth of Spanish coins and jewelry from the Museum of Sunken Treasure will melt their booty down to disguise it.

The gold and silver artifacts — some considered priceless — date back to 1715 and were recovered by divers from sunken Spanish galleons off Florida's East Coast. They were stolen early Monday from the private museum here.

"The fear I have is that they (the thieves) will try melting down the coins and gold jewelry to hide their tracks," said Police Chief Bob Tweed.

Tweed said a few replicas of valuable artifacts were mixed in with real treasure dredged from the sandy resting places of ships driven ashore by hurricanes.

"Unless they know what they have got, it will take some time for them to discern what are replicas and what is the real thing," Tweed said.

Museum officials said the value of the haul could only be estimated.

"The rarity and historic value of each item stolen makes it difficult to name specific values," said Alan McNair. He is vice president of the Patterson Erie Corp. of Vero Beach, which has a controlling interest in the museum's operator, the Real Eight Corp.

"Depending on how badly a collector wants an item, the price will vary," McNair added.

He said the stolen items included a chest of 1,000 silver coins and 500 gold coins and a $33,000 Spanish captain-general's whistle on an 11-foot-long, pure gold chain.

He said the thieves also took a gold emblem showing the cross of Jerusalem, numerous gold rings with rare stones containing inscriptions of their origin, and various types of gold pendants — one measuring five feet long.

Tweed said the theft was discovered by an employe reporting for work Monday morning.

The chief said the thieves had forced open a door to enter the eight-year-old museum in this historic city, now known for futuristic space launchings. They then smashed open 10 glass-plated showcases and stole items selectively.

"Although the thieves do not appear to be professionals ... they certainly knew what to take," said Tweed.

WIN TROPHIES—Keith Early and Weldon Bragg display trophies their hogs won in the carcass cut-out division of the West Texas Fair at Abilene. Bragg of Abilene FFA had the grand champion, a Hampshire, which had lean cuts of 66.14 per cent to his dressed weight. His prize was $500. Early of Snyder FFA had the reserve champion, a lightweight Duroc that had lean cuts of 65.55 per cent to his dressed weight. His prize was $250. Tom Bills of Snyder 4-H also had swine placing high enough to qualify for the cut-out contest and placed fifth in the event.

Dr. Lamb

Disease can drain energy

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB—Would you write a list of foods that are good for my health? Some days I go through hell. I feel like all the energy is drained out of me. I have emphysema. What vitamins should I take?

DEAR READER—I wish your problem were that simple but it is not. Your loss of energy may be related to your emphysema. When the lungs do not function well for any reason and there is not enough oxygen provided to the body it will cause fatigue.

The food you eat contains energy, originating at some point from the sun. The energy literally glues the atoms together that made the food. The cycle starts with the plants. They trap carbon dioxide and water and combine them into carbohydrate, using solar energy to do the trick. In the process they release oxygen. Animals, including two legged ones, use oxygen to reverse the process, releasing carbon dioxide and water and the energy originally used to form the carbohydrate. Proteins and fats are just further modifications of the original carbohydrate in nature's scheme of manufacturing foods.

When you cannot provide enough oxygen to the cells you can't do this and that means you can't release enough energy from food regardless of what or how much you eat. The same principle applies to anemia and heart disease. Any condition that interferes with the healthy process of providing oxygen to the cells interferes with the release of energy and can cause fatigue.

Carbohydrates and many proteins require less oxygen to metabolize them. For that reason I would think a diet that is low in fat, but includes sufficient carbohydrates plus good quality protein, would be your best choice.

I'd like to point out, however, that any more than your daily normal vitamin intake that you should get from a balanced diet, or from a simple all purpose daily vitamin tablet, will not increase your energy. The energy is in the foods you eat, not in the vitamins. The vitamins are part of enzymes that are used to metabolize your foods, but they can be used over and over again in the process. All the vitamins in the world will not increase the release of energy if you do not have enough oxygen or if a person does not have enough good food calories to begin with. If that were not true we could all just take vitamin tablets and forget about eating entirely.

To help you understand your energy system better I am sending you The Health Letter number 5-2, Understanding Your Energy System. Others who want this information can send a long, stamped, self-addressed envelope with 50 cents for it. Address your letter to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

DEAR DR. LAMB—Would you please recommend what can be used on bran cereals instead of milk to make them palatable?

DEAR READER—If you can't tolerate milk you may like one of the milk substitutes that are found with the infant foods in most supermarkets. Look at the ingredients and find one that contains no milk or lactose or milk solids. Usually these are made with soybeans. A good example is Prosobee, A Mead Johnson product. Such products come in cans.

Hughes Almost Bought ABC

PHILADELPHIA (AP) — Howard Hughes would have bought the American Broadcasting Co. in 1968 if the purchase had not required a personal appearance before the Federal Communications Commission, TV Guide reports in next week's issue.

In an article by former ABC executive and board member Thomas Moore, TV Guide says the late billionaire industrialist had arranged to purchase a majority interest in the radio and television broadcasting company for $148 million.

Moore said the sale fell through when the reclusive Hughes refused to make the required appearance before the FCC, which must approve such a sale.

Bernice Bede Osol

For Wednesday, Sept. 22, 1976

ARIES (March 21-April 19) You could be a trifle careless regarding health habits. Remember, the ounce of prevention is worth the pound of cure.

TAURUS (April 20-May 20) Today you're a bit too gullible in business matters. Be extra careful when dealing with strange merchants.

GEMINI (May 21-June 20) Doubts about associates should not be ignored today. If something bothers you, bring it out. Discuss it with the person himself.

CANCER (June 21-July 22) If you ignore a task today, figuring you'll get around to it tomorrow, you're barking up the wrong tree. Postponement only means delay.

LEO (July 23-Aug. 22) Spendthrift ways could cause serious financial problems today. Stop telling yourself you need things that you'll buy now and not use later.

VIRGO (Aug. 23-Sept. 22) Don't anticipate defeat today before you even enter the fray. You have at least as much chance of winning as you do of losing.

LIBRA (Sept. 23-Oct. 23) You may be tempted to resort to subterfuge today. Don't operate in a way that will make you feel guilty.

SCORPIO (Oct. 24-Nov. 22) Your generous nature may be taken in today by someone with a sad tale. Before opening your heart and your purse, check her story out.

SAGITTARIUS (Nov. 23-Dec. 21) Success may be denied you today through your own fault. If you're not willing to help yourself, don't expect others to either.

CAPRICORN (Dec. 22-Jan. 19) Fight a tendency to feel sorry for yourself today. It's futile. Others have their own troubles and you'll get little sympathy.

AQUARIUS (Jan. 20-Feb. 19) Don't feel obligated to do business with one you've dealt with before. Go where you can get the best bargain. Sentiment isn't good sense today.

PISCES (Feb. 20-March 20) Inconsistency will be annoying to your friends today. Stick to your agreed course of action. Do what you say you will.

Your Birthday

Sept. 22, 1976

You could be restless this year and anxious to make change for change's sake. Better to stay where you are, for things will work out.

Warrants Issued In Stock Fraud

AMARILLO, Tex. (AP) — Arrest warrants have been issued for three Amarillo men accused in Randall County grand jury indictments of violating state securities laws.

O.D. Morgan, his brother Larry Morgan and William Garrett, all officers of Western Petroleum Resources, Inc., of Amarillo, were named in the indictments.

Larry Morgan was charged on two counts and the other two men on one count alleging the sale of fraudulent oil and gas stock in Randall County.

Criminal Dist. Atty. Randy Sherrod said investigations by his office show the corporation sold $250,000 worth of stock in the Texas Panhandle area.

"They were supposed to have started drilling last December," said Sherrod. "There has been no drilling so far. There has just been excuses."

Sherrod said a prominent Randall County farmer invested $12,600 in fractional stock.

A district attorney's investigator, Harold Hooks, said securities purchases from Western Petroleum Resources ranged from $3,000 to $50,000. He noted that corporation officers paid themselves salaries of $400 to $600 per week for expenses and occasional extra sums.

Larry Morgan and Garrett also are under indictment in Colorado on charges of illegal securities sales in operation of Farm Buying Service, Inc., of Amarillo, of which Larry Morgan was president and Garrett treasurer. Morgan was charged on 22 counts and Garrett on 37 counts in the indictments returned last July.

'Crippled' Pair Sought In Robbery

HOUSTON (AP) — Police sought a pair of unusual holdup men today.

One walked with the aid of a cane and the other was in a wheelchair when they robbed a hotel cashier of $234 Sunday.

Police quoted Doris Session, a Grove Hotel employe, as saying the men came in shortly after midnight, told her they were waiting for their girl friends, pulled a pistol and robbed her.

The girl friends soon arrived and all four left in a late model car, police said.

Tighter Control Best Cure For Welfare Cheats

By ROBERT TAYLOR
(Last of Two Parts)

NEW YORK—(NEA)—Welfare cheats may account for no more than five per cent of all those collecting unemployment compensation.

But with $17.5 billion paid out in jobless benefits in 1975, that still amounts to almost a billion-dollar rip-off of the UC system last year alone.

How can the government root out the abusers?

"Tougher administration," economist Martin S. Feldstein of Harvard asserts.

Kathleen Classen, a staff economist for the Public Research Institute of Arlington, Va., says that a careful check of claims helps. In an Institute study she did for the Department of Labor, she found lower unemployment rates in districts where claimants were screened thoroughly.

Dick V., 26, of Connecticut, inadvertently corroborated her finding. A jobless social worker, he told what happened when he applied for benefits in Willimantic, Conn.

"I was given an interview. The guy asked what I'd done the last two weeks. I told him I'd looked in the newspaper. He said that wasn't enough. That I'd have to come back in 10 days and give him a list of 10 places I'd been to."

Unwilling to comply, Dick crashed with friends in another town, used their address, and reapplied for benefits. His claim was processed without an interview. He collected for 11 consecutive months.

Among chronic collectors in Northeastern Connecticut, the word is: "Stay away from Willimantic."

James M. Rosbrow, unemployment insurance program specialist for the Department of Labor, warns, however, that a careful balance must be struck between administrative efficiency and bureaucratic rudeness.

"The money is there to be used under appropriate conditions," he said. "It is just as wrong to harass claimants as it is for claimants to cheat the system."

Professor Hamermesh doesn't believe the abuses are major. But he thinks they give the program a bad name. Therefore, he favors stricter rules.

"One of the things I'd do is tighten up on eligibility by requiring more time spent working before you become eligible for benefits. In a lot of states, you can work at the minimum wage for seven weeks, then qualify for benefits for anywhere from 10 to 26 or more weeks."

Hamermesh also would transfer claimants who had collected for 26 weeks to a public-employment program or a federally subsidized private-employment program.

"That's compassionate and it also would get people to do something for the money," he declares.

Eighteen states permit workers who quit to collect after a so-called disqualification period. That may last five weeks in one state, 13 in another. Some critics would permit payment only when a worker is fired or laid off. Others would limit the number of times the job quitter can collect.

Cathleen Classman philosophizes thusly: "I don't think all the violators can be rooted out of the program. You're never going to find only Horatio Algers going into the unemployment security office. There is always going to be...I wouldn't call it abuse...I'd just call it changing behavior because of unemployment insurance. It's just like when you make chocolate bars cheaper; people buy more of them. When you make unemployment cheaper, people buy more of it."

(Newspaper Enterprise Assn.)

Ethel Kennedy Pays $31.25 Fine

BARNSTABLE, Mass. (AP) — Ethel Kennedy has paid a $31.25 fine after being convicted on a charge of mutilating a parking ticket.

Mrs. Kennedy, widow of Sen. Robert F. Kennedy, pleaded innocent to the charge, but was convicted by Judge John P. Curley Jr. She was not present in court, but was represented by an attorney.

The offense occurred on Sept. 4. No additional details were available.

"How is lignite coal helping my electric bill?"

UNDERSTANDING YOUR ELECTRIC BILL

By using lignite coal to generate electricity, Texas Electric will be saving its customers $44 million in 1976.

We've turned to lignite because natural gas, our main fuel, is running out. New supplies of gas just aren't available in the huge quantities we need. Those supplies that *are* available have soared in cost.

In 1976 the lignite and the plants that use it will cost less than new natural gas alone. Here's how:

$86 million — The additional natural gas we would need in 1976 if we weren't using lignite.
– 42 million — The cost of lignite and the one-year cost for plants to use it in 1976.
$44 million — Money our customers won't have to pay in 1976 because we're using lignite coal.

These savings will continue in the years ahead. In fact, they will increase as we add more lignite power plants and our nuclear plant.

This doesn't mean rates will go down. But we will be able to keep increases in your electric bills as low as possible.

SALE IN PROGRESS—Hoyle Dean Strickland, owner and operator of Strickland's T.V. Service, 2413 College Avenue, points to a sign in front of his store telling about a sale that now is in progress. Customers can save $50 to $100 on 1976 models with trade in. Strickland services all of the sets that he sells.

All 1976 Model Televisions On Sale Now At Strickland's

Strickland's T.V. Service, 2413 College Avenue, provides a complete service center with all the latest equipment to work on your television sets. Strickland makes service calls to all parts of town, and he works on most brands of television sets.

Strickland sells Quasar television sets, Kitchen Aid appliances, and Tappan microwave ovens. He has built his reputation in Snyder on "We service what we sell." He said so many people buy a product and find out later its almost impossible to find someone to service it or the service is not to their satisfaction.

"We believe a satisfied customer is our most important asset," said Strickland.

Strickland has all 1976 model TV's on sale now from $50 to $100 off regular price with a trade. If you have thought about a second T.V. he has a 19-inch remote control which was regular $599.95 for only $499..95 with trade.

Strickland has new 1977 model televisions in his store now. He invites you to come by and see these sets. The new console models still carry the one year in home gaurantee on parts and labor.

If you are building a new home now is the time bo build in Kitchen Aid appliances or a Tappan microwave oven. Come by and visit Strickland's anytime and see these appliances.

Strickland will leave Thursday to go to Chicago, Ill., to visit the Quasar plant. He has happy to be among the dealers invited by Quasar to make this trip and to see first hand how the Quasar TV's were made.

U-Rent-Em Offers Wedding Equipment At Reasonable Prices

If you've got a job to do, you can do it yourself and save money. You don't have to hire someone else to do it for you. The do-it-yourself philosophy has taught the homeowner that it is cheaper, and in the long run, easier if you do it yourself.

That's why U-Rent-Em was established. U-Rent-Em, located at 3403 College Avenue, has a host of equipment that can be rented out to the do-it-yourselfer.

Norman Clement, manager of the U-Rent-Em store here, has everything from post hole diggers to carpet cleaners.

Renting has its advantages. When you rent a piece of equipment, you don't have to worry about its upkeep. You simply use it when you need it. You don't have to worry about storage of the equipment and when you rent from U-Rent-Em, you can be assured of getting top-notch equipment.

The U-Rent-Em store here has just added an annex to the building that has increased the store's size by about 30 per cent. Available now at the U-Rent-Em are a power post hole digger, a Troy belt tiller, a Ditch-Witch trencher, several lawnmowers, hedging shears, and a Steamex carpet cleaner.

Also available for rent at the U-Rent-Em store is a bed, a table and several chairs. And, for the couple about to be married, there is now a wedding arch and several beautiful candelabra.

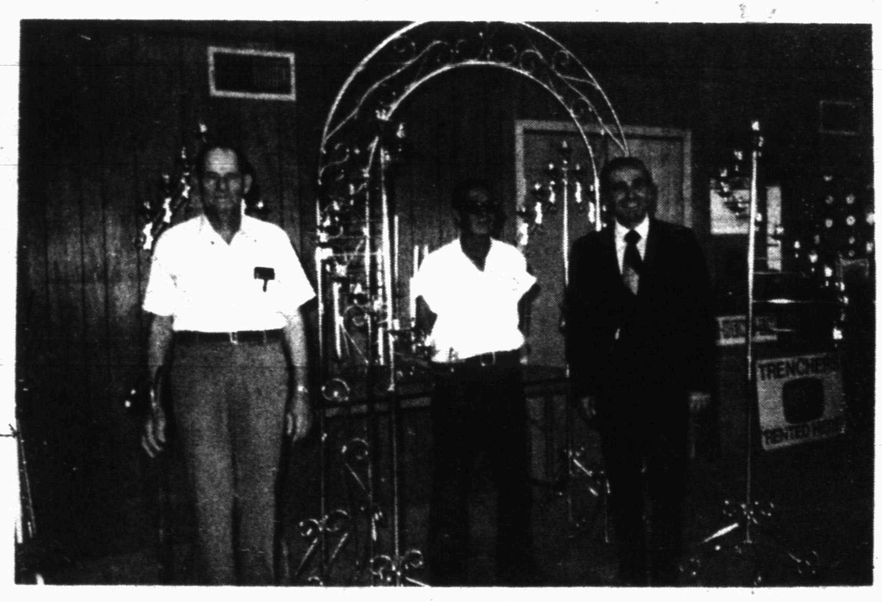

Weddings don't have to be expensive to be beautiful and to be remembered. The wedding equipment available at the U-Rent-Em is proof of that. Just go in and take a look at it and you'll agree that it's best to rent wedding equipment. And Norman Clement offers the wedding equipment at money-saving prices.

But, there is still more at the U-Rent-Em. Norman Clement is also an expert lock smith. He has over 400 key blanks to duplicate any key. He can re-key locks or he can repair the locks. Clement has been locksmithing for many years and is very good at his job.

Clement can also sharpen claws. If your hedging shears or your scissors are dull, take them by the U-Rent-Em and let Clement sharpen them for you.

And, while you're at the U-Rent-Em, you can have your car given an expert cleaning at the Robo Car-Wash.

The U-Rent-Em store is located at 3403 College Avenue and is open from 8 a.m. until 6 p.m., Monday through Saturday.

WEDDING EQUIPMENT FOR RENT—U-Rent-Em also rents wedding equipment. Shown, from left, are Ennis Floyd; George Lowe, manager of the Robo Carwash; and Pat Abbanarito, minister of the Thirty-seventh Street Church of Christ.

SHOWING THE NEW ADDITION—Norman Clement, manager of the U-Rent-Em, is shown standing beside a new addition to the store that houses new earth-moving equipment.
