The Pampa Daily News

Only a free man can ever possibly be moral. Therefore if men are free to do what is right, they must necessarily be free to do wrong. This is what we mean by moral responsibility.
—Everett Dean Martin

'Dimes' Totals Move Closer To 5-Figure Mark

The 1953 March of Dimes — with only one week to go — moved ever closer to the five-figure bracket last night after a total of \$600 was turned in from the McLean road block set up on U. S. Hwy. 66 all day Saturday. In addition to that figure, McLean turned over another \$250 to drive chairman Warren Hasse.

Saturday's Washline of Dollars netted Pampa Girl Scouts \$54.39 for the MOD while the Jaycee-Bettes turned over \$52 from their Friday bake sale.

A complete count of the grand total to date was not available last night, according to Hasse.

The last week of the month-long 1953 March of Dimes campaign will be filled with special events, the biggest being the Mothers March at 7 p.m. Thursday under direction of Mrs. Carlton Nance.

Sneak Shoot Today
Starting things off, is the second sneak shoot sponsored by the Pampa Skee Club today.

Monday, most of the annual Mothers March will be held with the PTA running the show under direction of Mrs. Bill Shaddid, president.

At 8 p.m. the McLean Jaycees will play the Masked Hula Hoop Walkers in a basketball game in the McLean Municipal Auditorium for the county championship. Larry Fuller, McLean chairman of the MOD said:

"We'll beat em, or cripple 'em."

Two Events Tuesday
Two events are on tap Tuesday night in Pampa: game night in the Pampa Room, City Hall, sponsored by the B & P and a skating (See DIMES, Page 2)

Legislator Offers Bill To Combine Denton Colleges

AUSTIN, Jan. 25—UP—A proposal calling for North Texas State College and Texas State College for Women at Denton to be combined under the name of North Texas University was offered Saturday by Rep. Bert Hall of Rio Vista.

"The result of such a consolidation," he said, "would be a single, much stronger university and educational opportunities of North Texas youngsters would be greatly improved."

Hall said his bill, filed for introduction in the House of Representatives, was in line with suggestions by Gov. Allan Shivers calling for a study of duplication and overlapping efforts in Texas' higher education program.

"The Denton situation is one," Hall said, "where we can economize, and at the same time create a stronger educational program." The bill provides for combining the present nine-member boards of regents of the two institutions into one nine-member board.

Appointments would be allowed to expire until the board's membership was reduced to nine, under Hall's plan.

A single executive staff would operate the two schools.

"My proposal," Hall said, "is for the mutual benefit of both institutions."

"You may rest assured," he added, "that the legislature is looking carefully at the Denton situation, where there are two state-supported senior colleges in the same town, only a few blocks apart. This appears to be a duplication which we can well afford to correct."

"If it comes from a hardware store we have it. Lewis Hardware."

Platinum Blonde Is Arrested In Connection With Vice Ring

NEW YORK, Jan. 25—UP—A platinum blonde cafe society showgirl, who was reported to have consorted with ex-King Farouk of Egypt in Europe, was held Saturday in \$25,000 bail as a material witness in the Minot Jelle vice ring case.

Diane Harris, 21-year-old mink-clad beauty, was accused by Assistant District Attorney Anthony Leibler of giving proceeds from prostitution to oleo heir "Mickey" Jelle, who is facing trial on charges of procuring.

Leibler told General Sessions Judge Louis Capazoli that Miss Harris was a prostitute in New York, but left for Europe in the spring of 1952 in the company of a wealthy foreign tycoon, who was married.

In Europe Leibler said, Miss Harris left her married friend and took up with another extremely wealthy man who took her on a tour of the continent.

Miss Harris, whom Leibler described as the "golden girl" of cafe society, received quantities of expensive jewelry and an expensive Italian sports car.

Leibler said Miss Harris was wanted for questioning in connection with the Jelle case since the oleo heir was arrested Aug. 15, 1952 on charges he ran a cafe society prostitution ring, furnishing \$500, a night call girls to his wealthy friends.

"No, no," Miss Harris protested. "I'm not a prostitute. I never was a prostitute. Why must this be done to me?"

Leibler said while in Europe, Miss Harris met Pulley Bey, described as official procurer for the then King Farouk and accompanied him to Egypt. She was there when Farouk was deposed, Leibler said.

Slight Damage In Electric Line Fire
A high-voltage fire at 3:50 p.m. Saturday was snuffed out in a few minutes by firemen before it had gotten a chance to do any serious damage.

Firemen said an electric meter at 720 N. Sumner, shorted-out and backed up to the power line feeding the house. The residents were away from home at the time.

Solons Insist Officials Dispose Of Holdings

'A Mad, Sudden Thing' . . . Bizarre Death Of Envoy Investigated

WASHINGTON, Jan. 25—UP—Security agents Saturday checked into the bizarre hanging of John C. Montgomery, a State Department official "in the social whirl" whose nude body was found in the fashionable Georgetown house he shared with a former beau of Margaret Truman.

No motive immediately was apparent, and a close clergyman friend described the action as a "mad, sudden thing."

'Samaritan' Critically Hurt In Accident

A White Deer man who played the Good Samaritan was critically injured at 6:45 p.m. Saturday in a two-way accident at the west city limits of White Deer.

W. S. Berry, 52, was still in the Highland General Hospital emergency room at 10:30 p.m. receiving treatment for numerous injuries he received when he was struck by a truck while trying to escape being mashed between two other vehicles.

Highway Patrolmen gave this account of the complicated events leading up to the wreck.

Enid O. Shepherd, 39, of 1043 S. Barnes, was driving his car west on U. S. Highway 60. A few feet west of the city limits he attempted to turn around and head east when he found himself stuck on the south shoulder of the road.

Shepherd headed to the nearest house — the home of Berry — and asked to be pulled clear of the shoulder. Berry, with his wife, pulled the car out of the mud.

The two men just finished unhooking the tow chain when they saw another car approaching from the west. They jumped from between the pickup truck and Shepherd's car — right into the left front fender of a heavy-duty truck-tractor and semi-trailer which was headed west.

Berry's head was also struck by the truck. (See SAMARITAN, Page 2)

Secret Stratojet Flights Revealed

SEATTLE, Wash., Jan. 25—UP—The nation's newest jet bomber roared out on 47 secret "bombing missions" over major cities from coast to coast during the last 31 days, the Boeing Airplane Co. revealed Saturday.

The 600-mile-an-hour, swept-wing B-47 Stratojet flew 217,803 miles, the equivalent of nearly nine times around the world, in a "highly successful" 500-hour "shake down" program, the company said.

It will fly another 500 hours on missions over cities in 33 states to accumulate flight time, Boeing said. The purpose is to put the ship through a flight schedule such as expected in wartime.

Boeing test pilots, in co-operation with the U. S. Air Force, made nearly half the "runs" at night. Their big plane was fueled in flight 39 times by a Boeing KC-97 Strato-freighter tanker plane.

Boeing said the B-47 is "the most advanced jet bomber in the world today."

LT. GEN. MAXWELL TAYLOR replaces Van Fleet

Ike, New Korean Chief Map Strategy

WASHINGTON, Jan. 25—UP—Lj. Gen. Maxwell D. Taylor, Korean-bound to take command of the embattled Eighth Army, conferred with President Eisenhower Saturday, evidently on new war plans.

Mr. Eisenhower and Taylor, one of his field commanders in World War II, talked a half-hour about the new assignment which lifts the general out of the Pentagon, where he has been deputy chief of staff, to replace Gen. James A. Van Fleet in the battle command.

The President was moving quickly to take direct interest in the Korean war. He conferred Thursday with Gen. J. Lawton Collins, Army chief of staff, and Collins took off Saturday for the Far East.

Taylor said he will leave for Tokyo at 5 p.m. est. Monday. He plans to confer there with Collins and Gen. Mark W. Clark, the Far East supreme commander, before going to Korea.

There was speculation that the change in Eighth Army commander might foreshadow a new United Nations offensive. But Collins said his "routine inspection" trip to Korea and Japan at this point had no relation to possible strategic moves.

Taylor was quiet on this score. He did say he would push vigorously in the field for a stepped-up program to train South Korean army units, as he had in the Pentagon.

South Korean units now hold about 60 per cent of the front. Van Fleet, like Mr. Eisenhower and Taylor, wants to increase their strength and battle efficiency to the point where they can hold more of the political campaign last fall.

Mr. Eisenhower stressed this point.

It was against this background that speculation arose about future Allied moves. But the White House took pains on Friday to assure that Mr. Eisenhower regards Van Fleet as "probably the best qualified combat officer" in the Army and established that "only the passage of time" caused him to be relieved in a prologue to retirement.

Uneasy Congressmen Press Benson To Air Farm Plans

WASHINGTON, Jan. 25—UP—Uneasy congressmen Saturday started forcing Secretary of Agriculture Ezra T. Benson into a corner, apparently determined to make him break his long silence on farm policy.

Heaviest pressure came from members of his own Republican party who are aroused by slumping farm prices.

Rep. August H. Andresen (R-Minn.) warned that the Eisenhower administration — meaning Benson's department — will have to buy 100 million pounds "or more" of butter in the next five months to keep prices up. This probably will be the first major price support decision Benson will come to grips with.

Buys \$27 Million In Butter
Andresen and Sen. Karl A. Mundt (R-S.D.) said Benson must keep butter supports at 90 per cent of parity — although he has an option which would permit him to drop (See UNEASY, Page 2)

Wilson's Plan Gets A Cold Reception

WASHINGTON, Jan. 25—UP—Republican and Democratic Senators insisted Saturday that President Eisenhower's nominees to be Army, Navy and Air Force secretaries sell their stocks in companies doing government business or step aside.

Opposition grew to a plan urged by Defense Secretary-designate Charles E. Wilson by which the service chiefs would be permitted to retain their stocks while keeping hands off matters touching such holdings.

There were insistent demands, too, that before the Senate votes confirmation they follow Wilson's action in agreeing to sell his stock in General Motors Corp. The stock, on today's market, is worth \$2,674,092.50.

Wilson's confirmation by the Senate, possibly Monday, is certain. But there will be at least one protesting voice — Sen. Wayne Morse.

The Oregon Independent who told a New York news conference that Wilson's nomination was "shocking and unconscionable."

Fate Uncertain
Wilson's subordinates await an uncertain fate.

Particularly involved are Robert T. B. Stevens, prospective Army secretary who holds 42,488 shares in the huge J.P. Stevens & Co. textile firm which does one-third its business with the government, and Harold E. Talbot, prospective Air Force boss who has 2,000 shares in the Chrysler Corp., and 8,000 shares in the Electric Auto-Lite Co.

Robert B. Anderson, chosen to be Navy Secretary, is less involved because he has informed the Senate Armed Services committee he has no holdings in companies dealing with the government.

Senate majority leader Robert A. Taft was a notable dissenter with the position taken by many others on the service secretaries. He told reporters it is his "personal view" that Wilson's plan could be "satisfactory."

Confers With Ike
Wilson, who conferred on undisclosed business with Mr. Eisenhower Saturday, told the Armed Services committee Friday that under his plan he would be "taking orders" to the secretaries' stating specifically "the thing they should not handle" — matters affecting companies in which they are interested. In such cases, Wilson said, he would take over the matter himself.

But the committee gave that a cold reception. It will question Stevens, Anderson and Talbot for a second time when Mr. Eisenhower formally submits their nominations.

Hungary Turns Down Compensation Plea
VIENNA, Jan. 25—UP—Hungary announced Saturday that it has turned down a U. S. demand for compensation for an American Air Force transport plane, forced down in the Communist country in 1951.

Radio Budapest said Hungary has informed the United States, in a note handed American Minister Christian Ravnitzky Friday, that the U. S. demand was an unwarranted interference in Hungarian internal affairs.

The warm weather followed by a day, deep water at crossings hit Pampa this winter.

The storm moved in slowly during the early Thursday morning hours and jumped into real action by mid-morning, forcing schools to close by 2:15 p.m. The storm brought with it a weather U. S. demand was an unwarranted interference in Hungarian internal affairs.

Pampa Wades . . .

Snow Turns To Slush

A warning of Thursday's snow into a sea of dirty brown slush and mud over Pampa and most of Gray County.

Highways were open and most sidewalks cleared and dried. But on Pampa storm-sewerless streets it is necessary for galoshes to wade through what is sometimes ankle-deep water at crossings.

A low temperature of 33 was registered at the KPND transmitter between 7 a.m. Friday and 7 a.m. Saturday. The morning wore on the mercury started a steady climb and hit 41 by noon.

It jumped 10 degrees in three hours to read 51 at 3 p.m. There it stayed until 4 p.m. when it started back down the ladder. By 8 p.m. it was resting evenly at 35 and still dipping.

The warm weather followed by a day, deep water at crossings hit Pampa this winter.

7 Pampan Home From NAHB Meet

Seven Pampan have returned from the annual National Association of Home Builders convention where one of them was elected a top official for 1953.

An estimated 20,000 persons were on hand in Chicago for the convention, held Jan. 18 through Thursday, according to Jay Thompson, one of those attending.

R. G. (Dick) Hughes was elected NAHB first vice president for the coming year, Thompson said. Other four top officers for 1953 all from New York, Cleveland, Seattle and Burbank, Calif.

Hughes' main job will be to take charge of legislation.

This is the third year that Hughes has been among the top five officials. In 1952 he was treasurer and in 1951, secretary.

Other Pampan attending the yearly convention were Troy Curles, Bob Williams, John Helms, E. L. Campbell, Mrs. R. G. Hughes and her son, Lynn.

An estimated \$5,000,000 worth of material was on display at the convention, Thompson continued, and there were many speeches by officials and public servants from Washington.

Various committees, to function throughout the year were named, he concluded.

TB Seal Donations Near 1952 Total

Results from follow-up letters in the annual tuberculosis Christmas seal sale have brought the total proceeds for Gray County to \$2,342.87, it was announced yesterday by R. R. Nuckols, treasurer of the Gray County TB Association.

Letters reminding residents that seals could still be bought were sent this week by Mrs. E. H. Anderson, executive secretary of the association.

Net proceeds are \$30 under total contributed last year, Nuckols reported.

County 4-H Clubs Sponsoring Bake Sale

Cakes, pies, cookies and cupcakes will be placed on sale by all members of Gray County 4-H Clubs next Saturday at 9 a.m. Products, to be taken to the county home demonstration office, will be on sale in the Hughes Building, at Mitchell's Grocery, 626 S. Cuyler and in the court house hallway.

Texas Termites Do Capital Job On State Capitol; Nibble Into Dome

AUSTIN, Jan. 25 — UP — High-climbing termites have bored into the dome of Texas' historic state capitol.

The job of replacing termite-nibbled window frames and doors at the eighth floor outside level of the massive pink granite building is part of a \$16,300 overhaul being given the upper structure.

Visitors are temporarily barred from the four top floors of the capitol which tops the national capitol in Washington by seven feet in height while the project is underway.

The overhauling task, which includes painting some four and one-half floors of the interior shell of the dome, began Dec. 29 and is scheduled to take 85 working days or about 17 weeks.

Officials of the State Board of Control had no explanation of how the termites reached their lofty perch. Wood at lower levels hasn't been damaged.

An official said the repair job was long overdue because the interior of the dome and the winding stairway to the top have been an "embarrassing" sight to be presented to visitors, especially those from out of state.

Missing pieces of wooden circular hand rail caps, and other missing handrail parts which apparently have fallen victim to souvenir hunters will be replaced on the stairway from the fifth floor to the seventh.

Visitors will also find it safer in the stairhall from the fourth to the seventh floors after workmen remove the present tread covering which a work order calls for "if existing" and replace it with a nonsplit covering.

The overhauling is being done by the Austin Engineering Co.

The capitol, completed on May 16, 1888 after more than six years' work, covers about three acres of ground and is 328 feet long, 290 feet wide and 311 feet high.

Mainly About People

Cecil Stewart, son Mr. and Mrs. Weldon Stewart, is visiting here with his parents. Stewart is a student at Texas A & M in Bryan.

Don Burns, son of Mr. and Mrs. Raymond Burns, 810 North West, left Thursday for Chicago where he will attend a school for electricians.

Anti-Death Bill Pushed

AUSTIN, Jan. 25 — UP — A young Denton legislator dug in Saturday ready to battle for his bill banning the death penalty in Texas.

He frankly admitted prospects of passing his measure seemed slim. The last time such a proposal was introduced was in 1947.

The House of Representatives, the same group that will have first crack at this bill killed the proposal by a vote of 18 for it to 103 against it.

Rep. Douglas Crouch, starting his second session as a member of the lower chamber, would banish the death penalty in Texas for any offense.

Six other states now have similar laws, with life imprisonment topping the list of punishments. They are Maine, Michigan; Minnesota, North Dakota, Rhode Island and Wisconsin.

Crouch attacked the death penalty as "inhuman, cruel and without justification under modern concepts of criminal punishment."

A comparison of states that provide the death penalty for murder with those that do not shows the homicide rate to be two to three times as large in the states which have the death penalty, thus affording support for his bill.

Samaritan

(Continued from page one)

the large truck's rear view mirror.

Into Path of Truck

At the same second the man jumped into the truck, the oncoming car — a station wagon, driven by Frank M. Mitcham, 59, 1109 N. Starkweather, plowed into the back of Shepherd's car, throwing it into the pickup truck.

A traffic snarl resulted and it took sheriff's deputies from Carson County, local patrolmen and Amarillo-based patrolmen more than an hour to get it moving.

Mitcham was brought to Highland General by Mrs. G. L. Craddock, Pampa, where physicians learned he had at least one broken rib. Shepherd refused hospitalization. The full extent of Berry's injuries are yet unknown. Berry was brought in by ambulance.

Mrs. Berry suffered only negligible injuries when her head hit the pickup's windshield.

No Charges

Patrolmen said the front end of Mitcham's station wagon was heavily damaged and both ends of the Shepherd car were extensively damaged. A heavy iron bar saved the pickup truck from much damage.

The large truck-tractor was driven by Carl R. Arnold, 29, Hennessey, Okla.

Police said no charges would be filed and that the investigation was closed.

Flares, railroad fuses, flashlights and volunteer drivers, had to help policemen direct traffic at the scene of the wreck.

ers organized Saturday for a MOD dance.

The MOD dance scheduled for the Pampa Moose Lodge last Thursday fell through when snow and ice prohibited patrons and part of Leon Howell and his orchestra from getting to the lodge auditorium. Earl Miller, governor of the lodge, said Saturday efforts to hold the dance Thursday at 9 p.m. are being made now by the lodge.

McLean will come back into the picture Thursday, too, when a special MOD dance will be held at the American Legion Hall with Emmett Allen and his Sunset Ramblers.

That same night Alandred will hold a minstrel and box supper in the Alandred school building. Thursday will also be the Mothers' March night at LeFors and will be sponsored by the Art and Civic Club.

Friday night another MOD dance will be held in the Pampa American Legion-VFW Hall with Howell and his orchestra furnishing the music.

Friday night another MOD dance will be held in the Pampa American Legion-VFW Hall with Howell and his orchestra furnishing the music.

Safety Checks Are Ordered For Trains

BOSTON, Jan. 25 — UP — Special around-the-clock safety checks of all New Haven railroad passenger trains were ordered Saturday, as the FBI investigated the second suspected attempt to sabotage the railroad since the pre-inauguration wreck in Washington last week.

Federal and railroad officials feared another crash, such as that of Jan. 15, when a train smashed into Washington's Union Station after the brakes failed. More than 50 persons were injured.

In that case and in the two New Haven incidents since, inspection showed that angle cocks on air brake valves were not in proper position. Angle cock valves between railroad cars must be open in order for engineers to have full control of a train's brakes.

"Those things don't happen accidentally," a New Haven spokesman said. "We wouldn't talk about it, if we thought it was accidental."

The latest instance was discovered Friday, when an alert New Haven crew found a partly closed angle cock on the second car of the railroad's Boston-to-New York train, the "New Yorker," during a stop at Providence, R. I. The valve was adjusted and the train continued to New York.

"The angle cock was not in its proper position and didn't get here of its own accord," a railroad spokesman said.

In the crash of the "Federal Limited," operated by the New Haven from Boston to New York and by the Pennsylvania Railroad from New York to Washington, one angle cock valve was closed and another was partly closed.

On Wednesday, an inspection of the New Haven's Boston-to-Washington "Colonial Express" at New Haven, Conn., disclosed a half-shut angle cock valve on the fifth car. The trouble was remedied, and the train proceeded without mishap.

If undiscovered, the train's brakes might have failed and caused another crash, railroad officials said.

Railroad men said it is almost impossible for valves to open or close accidentally, because they are locked in position. Even under normal circumstances, the valves are difficult to turn, officials said.

Stephen P. McDonough, New Haven railroad superintendent in Boston, told a meeting of car crews Friday night that extra precautions must be taken and braking equipment must be checked before every run.

Uneasy

(Continued from page one)

them to 75 per cent. Both lawmakers indicated they might demand higher import controls. In the last two months, the government has bought \$27 million worth of butter. The current support rate is about 67 cents a pound.

What Benson thinks about price supports, in general, is a Washington enigma. The new Agriculture chief deftly sidestepped a more direct effort, by Sen. Milton R. Young (R-N.D.), to smoke him out. Departmental policy talks Monday may produce some answers in the coming week.

In a letter on Friday, Young told Benson flatly "there are some doubts the Republican party will be as aggressive in supporting farm prices" as the departed Democratic regime. Benson's answer was to telephone Young and promise "immediate consideration" of the letter.

"Takes Need Seriously"

At the Agriculture Department, Benson's aides profess not to know much about future policy, except that the new administration "takes seriously" the need for efficiency and economy in farm programs — but without trimming where farmers' "real needs" will be harmed.

Under present law, mandatory price support is required on six basic crops through 1954 at 90 per cent of parity. These are wheat, corn, cotton, peanuts, rice and tobacco. Without further legislation, the secretary would be free after 1954 to determine the support level.

Moose Schedule Initiation Rites

Pampa Moose Lodge 1385 will hold its first 1953 full initiation ceremony at 8 p.m. Tuesday in the lodge auditorium for the biggest class of candidates in its 1952-53 fiscal year.

More than 20 initiates have been notified to appear for their first degree by lodge officers, Earl Miller, governor, reported.

Winners Named In Wheeler Jr. Livestock Show Saturday

WHEELER — Winners in the Wheeler County Junior Livestock Show, sponsored jointly by the Wheeler County Farm Bureau and Wheeler Kiwanis Club, were announced late Saturday afternoon by Ray D. Seigmund, Wheeler County Agent.

FAT STEER CLASS: Grand Champion and Reserve Champion, Joe VanZandt, Wheeler 4-H.

HEAVY STEER CLASS: Joe VanZandt, first, Jimmy Harris, Kelton 4-H, second; Earl Corse, Mobettie 4-H, third; John Taylor, Mobettie 4-H, fourth; Dean Sims, Wheeler 4-H, fifth; Jack Dayberry, Kelton 4-H, sixth; William Whitener, Wheeler 4-H, seventh; Carl Willyard, Mobettie 4-H, eighth; Geoffrey Caldwell, Mobettie 4-H, ninth and 10th places; Don Meadows, Briscoe 4-H, 11th.

LIGHT-WEIGHT STEER CLASS: Joe VanZandt, first; Earl Corse, second; Charles Walser, Mobettie 4-H, third; Jack Dayberry, fourth; Tom Christner, Shamrock FFA, fifth; Joe VanZandt, sixth; Jim Porter, Wheeler 4-H, seventh; Pete Hyatt, Wheeler 4-H, eighth; Kenneth Gossett, Kellerville 4-H, ninth; Burris Stokes, Shamrock FFA, 10th.

SHOWMANSHIP FOR BEEF ANIMALS — Joe VanZandt, first, winning a halter, Earl Corse, second, winning a brush and comb; Herford Breeders Show.

State Tries Third Time In Parsons Trial

WICHITA FALLS, Tex., Jan. 25 — UP — Texas tries for the third time Monday to bring Mrs. Mary Jean Parsons to trial on charge she murdered her husband nearly a year ago because he said she was "immoral, fattening and illegal."

Mrs. Parsons' attorneys successfully stopped the first two attempted trials when they posed technical objections to the way prospective jurors were chosen.

It was rumored, although it could not be confirmed, defense attorneys would try to delay the trial again.

The trial of Mrs. Parsons, a 22-year-old blonde Tulsa, Okla., heiress, was moved to Wichita Falls from El Paso, where her husband was killed last Feb. 16.

Been Free on Bond

Defense attorneys said it would be impossible for her to have a fair trial in El Paso, because of wide publicity at the time her husband was shot and killed, and the hearing in which she was found sane last May.

There was no indication from the prosecution whether it would ask for the death penalty.

A special venire of 300 was called for the trial.

Mrs. Parsons has been free in \$50,000 bond since shortly after the killing. She has been in Timberlawn, (mental) sanitarium at Dallas.

Li. Richard O. Parsons, 34, Pleasantville, N.Y., was killed only six weeks after he married Mary Jean Jan. 2. The wedding was described as the biggest of the Tulsa social scene last year.

Was Second Husband

He was her second husband, and they married after he was graduated from officers' training school at Fort Sill, Okla. Her first marriage, to William Tucker, ended in divorce.

Her parents are Mr. and Mrs. Burton Fleeger of Tulsa. He is president of the Oklahoma Steel Castings Co., Inc., an oilfield supply firm.

Mrs. Parsons told police she sat with the body of her husband for 10 hours after the shooting.

The trial is called for 9 a.m. in district court before Judge Arthur Tipps. The state will be represented by District Attorney George Anderson Jr., of Wichita county; District Attorney William Clayton of El Paso, and Clayton's assistant, Jack Fant. Defense attorneys will be O. B. Fisher, Paris, Tex., and C. C. McDonald, and Leslie Humphreys, both of Wichita Falls.

TO HELP THEIR CHURCH — These four young persons of the Harrah Methodist Church have worked two days — and will work three more days this week — tending Long's Service Station, 321 S. Cuyler, in order to help raise \$1,000 toward construction of a new church next door to the present structure at 639 S. Barnes. At the left, Floyd and Paul Sackett talk over the service station business while John Pigg (center) wipes a windshield and Dan Sackett (far right) puts in some gas. Long's agreed to let the Harrah youths work the gas station Thursday, Friday and Saturday this past week but the Panhandle's snowstorm wrecked some of the plans; so permission has been given to let them work it this Thursday, Friday and Saturday — with them keep'g all the profits. Funds raised through this and other ventures will be used to decorate the Sunday School classroom, to buy general equipment and to construct recreational facilities. (News Photo)

McLean Voting Interest Lags With Only 177 Poll Taxes Paid

McLEAN (Special) — The McLean voters seem to have little interest in the coming elections of 1953. This statement is based on the fact that only 177 poll tax receipts had been issued as of last Friday morning. Mrs. Ruby Cousins, deputy assessor-collector for the McLean sub-station of the Gray County tax office, said about five hundred receipts had been issued at this same time last year. The total voting strength of the two McLean precincts (5 and 17) was over 700 last year. The presidential election had much to do with the large number of people who qualified themselves to vote in 1952.

Soil Conservation Meet Held In Claude

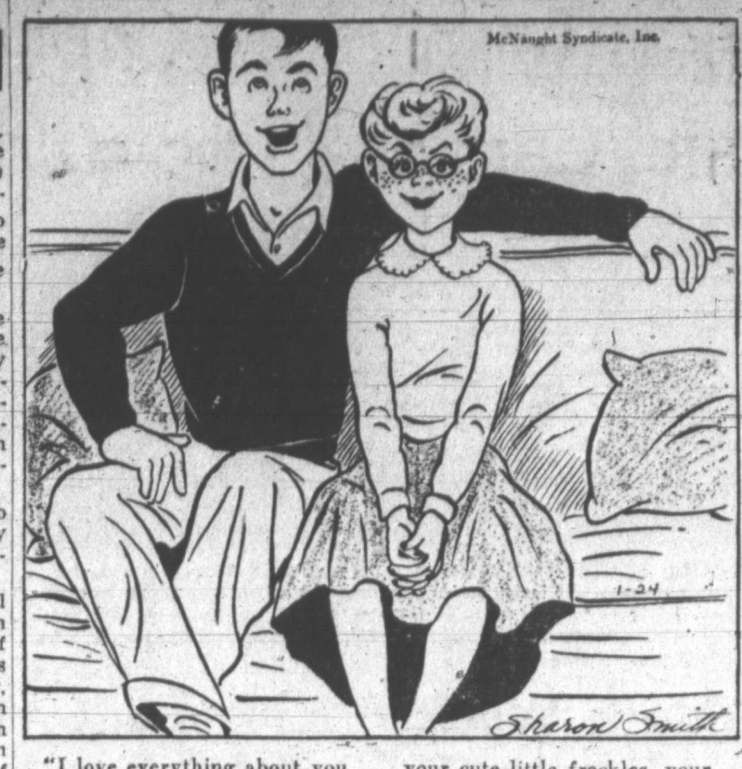

WHITE DEER (Special) — The Claude Court House was the meeting place for the regular meeting of The Staked Plains Soil Conservation District Supervisors recently. Local agencies working with the district were represented.

Louis Hollingsworth, acting leader of the board, expressed appreciation to the agencies for their interest in the District Program and for their efforts in carrying out the conservation plan in the district.

Arrangements were completed with Carson County Future Farmers of America chapters making them custodians over district equipment in this county.

Seven cooperators joined the district this month: J. A. Ranch, Armstrong County; Carl Metcalf, A. A. Callihan, R. Wasson, T. L. Haiduk and Aubrey Thompson, Carson County. Each has begun the initial phases of the conservation plan.

Buttons And Beau Sharon Smith

"I love everything about you... your cute little freckles, your cheery smile, the way you do my homework..."

Fireman Dismissed For 'Helping' Woman

PHILADELPHIA, Jan. 25 — UP — Joseph W. Fritz was dismissed from the fire department because he stepped out of the fire house to assist a woman being beaten by a man. While he was out, the company responded to an alarm without Fritz.

Carson Library Service Extended

WHITE DEER (Special) — Jo Battle, Carson County librarian, has released figures which show the system in the county had a total circulation of over 66,000 books and magazines for 1952. This was an increase of some 9,000 over the previous year. The circulation averaged out at nine books and magazines per capita during the last year.

Miss Battle says this to be one of the highest ratings in the nation. She attributes this high average to the facilities afforded through the Bookmobile to all parts of the county.

Reports show that 409 new library cards were made in 1952, making a total of 3,205 borrowers in the county.

Six hundred forty eight books were added to the library last year, with only 164 books being required due to loss, damage or outmoded information.

Temporary Agent For Hemphill County

CANADIAN — Warren Pickens, assistant county agent in Brownwood, is scheduled to arrive in Canadian Monday to take over temporarily — the duties of county agent in Hemphill County.

He will replace former Hemphill County Agent Walter Gist, killed recently in an automobile accident.

According to Knox Parr, district agent, Pickens will be in charge for 30 days or until permanent assignment can be made.

Professions Join Forces To Help Harried Housewife

WASHINGTON, Jan. 25 — UP — ending the idea that the kitchen is a place for drudgery only. The home building industry, sociologists and medical profession have joined forces to make easier the kitchen chores of harried housewives.

The three groups want the same thing — more comfortable and more convenient kitchens — but for different reasons. The improved kitchens help sell more homes for the building industry, make home life more enjoyable from the sociological point of view and reduce the risks to life and limb from the medical standpoint.

The combined effort of the groups make the kitchen again a central part of the American home.

Home Builders also is urging improved designs and has joined with the Woman's Home Companion magazine in offering special awards for "drudgery proof" kitchen designs.

The American Gas Association sent its experts to Chicago last week to show the NAHB annual convention how builders can use gas more efficiently in the home.

Builders have found that housewives want more space, including a dining area, in their kitchens — and at the same time, want to cut down the many steps they must walk to prepare a meal.

At present only one woman out of every 20 is employed in domestic service in Britain, while in 1931 the ratio was one-in-five.

JOHNSON ★ IN HOLLYWOOD ★

By
ERSKINE
JOHNSON
NEA Staff
Correspondent

HOLLYWOOD (NEA)—Behind the Screen: Wonder why so many veteran movie queens are beginning to look more like Whistler's mama on the screen than glamorous sirens?

Because they're worried about their age and insist on putting on their own make-up.

"All they need," U-I make-up artist, Frank Westmore, told me, "is a nice, simple make-up that would make their age less obvious. But they slap on the goo, they cake it on, they're making up the way they did 20 years ago. New camera-techniques and the speed of film have changed the art of make-up. But the poor girls don't know it. The call attention to their wrinkles and lines with all that goo."

Frank rates Barbara Stanwyck, to whom he's applying the powder puff in "All I Desire," as one tucker empress who has retained that younger-than-springtime look.

"She doesn't go in for heavy make-up," he said. "She leaves it all to me. I give her a little powder and shading over the eyes and she looks terrific."

Bob Hope was offered \$10,000, according to Quick Magazine, if he and his wife would appear at a party in New York City. Bob wired back:

"Can't make it. Can't I phone for \$5,000?"

He Has A Point

Now it can be told that Barbara Payton's first studio biography, written by the publicity department, based on her favorite hobby as "pet-point." Then came all those newspaper headlines and the fellow who wrote it is still blushing.

Maybe it's information that belongs in a medical journal, but a Hollywood plastic surgeon just finished building up a starlet's derriere with pliable plastic material that feels like skin. Rich and Conte have optioned a novel, "Prince Bart's" for conversion into a stage play and a movie. It's about a movie idol whose didoes are highly recognizable.

Further proof of the Agnes Moorehead - Robert Gist secret marriage.

Producer Paul Gregory will co-star them as "Those Fabulous Revueheads" in a nation-wide road tour in 1954. Agnes will do a stage version of "Sorry, Wrong Number," as part of the show.

It happened at a well-known night spot. Hollywood celebrities were being called to the floor to entertain at a charity affair. After much coaxing, Producer Joe Pasternak was hauled up, took a quick bow and mumbled, "Glad to be here but I have no talent. Thank you."

But as Joe returned to his table, a drunk looked up, applauded madly and yelled, "More, more, more!"

Here Go The Girls

Producer Alex Gottlieb is turning cartwheels over the emulating of Anne Baxter in "The Blue Gardenia" and vowing that "she's a great actress who's been buried in men's stories for years."

The producers' big argument with Hollywood:

"If we don't start writing women's stories again, there won't be any great women stars. After Bette Davis, Joan Crawford and Olivia de Havilland, whom have you got?"

Susan Hayward is telling it around that her hubby, Jess Barker, may bust out as a sports writer.

Bob Dalton's telling this story about Tallulah Bankhead: Her dog was killed by an automobile and the motorist tried to ease her grief by saying: "I'll be happy to replace your dog."

Tallulah snarled back: "Don't flatter yourself, sir."

There's still talk of a coast-to-coast TV program for the 25th

WILL CONDUCT SERVICES—Jimmy and Marvin Bond, left, and right above, will conduct services today in Pampa's Church of The Nazarene. Jimmy Bond will preach for morning services at 11 a.m. while his brother, Marvin, will lead evening services at 7:30 p.m. (News Photo)

Youth Week Begins Today In Church Of The Nazarene

This is Youth Week in Pampa's Church of The Nazarene. Today the youth of the church will be in charge of both morning and evening services, according to Herbert Land, pastor of the church.

Preaching at the 11 a.m. service will be Jimmy Bond; his brother, Marvin, will conduct the 7:30 p.m. services.

Every young person in the church has been assigned to some place of responsibility during the week (today to Feb. 1), Land said.

Included in the week's activities to be conducted by the church's youth will be song-leading, special singing, teaching Sunday school classes, secretarial work and ushering.

D. D. Monroe Due To Speak For C-C Meet In Canadian

CANADIAN—Featured speaker at the annual banquet of the Canadian Chamber of Commerce will be D. D. Monroe, Clayton, N. M., businessman and widely-known after-dinner speaker.

Banquet is scheduled for 7:30 p.m. Thursday in the Women's building.

Tickets for the affair will be on sale this week.

Rev. Taft Holloway, pastor of the First Baptist Church, Canadian, will be toastmaster.

Also featured on the program will be special music by local entertainers.

On the menu will be a turkey dinner, served "family style."

TB Seal Meeting In Panhandle Slated

WHITE DEER (Special)—Mrs. Olynn D. Harrell, secretary of the Carson County Tuberculosis Association, made the announcement this week of a meeting of the Association, which will be held in the War Memorial Building, Panhandle, Jan. 29.

The meeting is open to the public. Each family who has purchased at least a dollar quota of TB stamps is considered a member of the association and is entitled to vote in the election of incoming officers.

School officials are urged to attend the meeting as plans will be made for the intradermal test survey.

"If we don't start writing women's stories again, there won't be any great women stars. After Bette Davis, Joan Crawford and Olivia de Havilland, whom have you got?"

Susan Hayward is telling it around that her hubby, Jess Barker, may bust out as a sports writer.

Bob Dalton's telling this story about Tallulah Bankhead: Her dog was killed by an automobile and the motorist tried to ease her grief by saying: "I'll be happy to replace your dog."

Tallulah snarled back: "Don't flatter yourself, sir."

Strictly Hollywood Gossip... Hank Finds It's A Neat Trick To Keep Both Ears To Ground

By HENRY McLEMORE

HOLLYWOOD, Calif.—Any newspaperman visiting Hollywood who doesn't write at least one gossip column is likely to be asked to turn in his union card, be stripped of his typewriter, shipped to Devil's Island, scorned by his readers, and cashiered on the ground of neglect of duty.

Knowing this full well, I have kept both my ears to the ground since I have been in Hollywood. Keeping one ear to the ground is no effort, but try to keep two on the ground at the same time. It's quite a feat, but I have been well-repaid. Here are some of the things I have learned.

The secret ambition of Irene Dunne, one of Hollywood's loveliest ladies, is to own a dirigible and fly it across the North Pole to study the behavior of whales. Who would ever think this of Irene?

Betty Grable squeezes the toothpaste tube in the middle despite the fact that her husband, Harry James, has told her this constitutes a waste of paste. Harry and Betty are not expecting.

Lana Turner can't make fudge.

Friends tell me this was the real reason why she and Bob Topping couldn't make a go of it, and that her last words to him, when they broke up, were "Oh, fudge."

Mickey Rooney is not being considered for the part of Abraham Lincoln in Metro-Fox's proposed picture based on the life of the Civil War President. Seems the studio heads think it would be disrespectful to have Lincoln played from a stepladder.

Burt Lancaster likes to make his own bed, and surprises his friends when they drop in for formal parties by cooking his favorite dish—pickled peach seeds and hump of buffalo. Sounds strange, but 'tis delicious.

Who in the world would think of this but Phil Harris? To awaken Alice in the morning, he nudges her and says, "It's time to get up." So many of the stars out here awaken their wives in the morning by beating them over the heads with mink pelts.

Jane Russell doesn't own a single pair of ear muffs, while Marilyn Monroe is a collector of them. Marilyn has ear muffs from

Engineer Checks Shamrock School

SHAMROCK (Special)—Bill Powers, assistant state water engineer, made a check of the Shamrock school plant during the week. He checked the other schools of the county in November.

The reports on the survey of the lighting, covering ceilings, all parts of the world and her collection is valued at somewhere between two dollars and two dollars and seventy-five cents.

Speaking of Marilyn, Joe DiMaggio is here and 'tis rumored that Joe has no more interest in Marilyn than Napoleon had in Josephine.

Joan Crawford won't sleep on a bed that doesn't have a mattress. And Joan is also one of the stars who is contributing heavily to the research group which is studying the control of elm tree blight in Ohio and Colorado.

Mario Lanza washes his own shirts, no matter what size they are at the time.

Betty Hutton hates the sound of a fingernail being drawn across a blackboard.

Tyrone Power loves to eat frog legs while shaving. His wife, Linda, abhors men who go around complaining about having ear aches.

I have done my duty. No more gossip from me from Hollywood.

walls, and artificial lighting, seating arrangement for best light; ventilation, rest room, fire extinguisher; cafeteria; and safety hazards, particularly pertaining to gas furnaces will be returned to B. Henderson, president of the board of trustees of the Shamrock schools, Supt. Elmer J. Moore, and Wheeler County Sanitarian W. R. Ritter.

Powers' work is partly in conjunction with the State Board of Education and the State Health Department.

WRONG MAN, RIGHT MEDAL—Pvt. Walter N. Johnson, of Creeley, Neb., at right, looks slightly dazed upon being congratulated by Maj.-Gen. Fridtjof Dhaqqon Davakul, back to camera, Thailand's delegate on the UN Commission for the Unification and Rehabilitation of Korea. Johnson was flown to Seoul to receive the Silver Medal of the Crown of Thailand, for an action in which he never took part. Because of an error in translation, the Army called the wrong Johnson from the lines. The correct Johnson will receive another medal, and Walter will keep his as a souvenir.

JACOBY ON BRIDGE

Versatility Makes Bridge Champion

By OSWALD JACOBY
Written for NEA Service

Bridge experts are a versatile group, so I wasn't especially surprised when my friend, Albert Morehead, recently brought out a book of crossword puzzles. They are good puzzles, to be sure, but I will probably continue to think of Morehead primarily as a first-class bridge player and a bridge writer.

In today's hand, Morehead's skill as a player is demonstrated. When West opened the queen of diamonds, against Morehead's logical contract of four hearts, he resisted the temptation to cover with dummy's king.

Such a play would, of course, establish dummy's ten of diamonds. The trouble was, however, that East would immediately switch to clubs after winning the first trick with the ace of diamonds. The defenders would then therapeutically take three club tricks to set the contract immediately.

When Morehead played a low diamond from the dummy at the first trick East naturally played a low diamond from his hand. He assumed that his partner was leading from diamonds headed by the queen and jack, and East wasn't

skill as a player is demonstrated. When West opened the queen of diamonds, against Morehead's logical contract of four hearts, he resisted the temptation to cover with dummy's king.

Such a play would, of course, establish dummy's ten of diamonds. The trouble was, however, that East would immediately switch to clubs after winning the first trick with the ace of diamonds. The defenders would then therapeutically take three club tricks to set the contract immediately.

When Morehead played a low diamond from the dummy at the first trick East naturally played a low diamond from his hand. He assumed that his partner was leading from diamonds headed by the queen and jack, and East wasn't

Peacetime Use Of Atom Power Is Nearer Than Most Believe

By DR. JOHN R. DUNNING
Dean of the School of Engineering,
Columbia University

The recent talk of "push-button warfare" and the development of atomic weapons may have given rise to the thought that a "push-button peace" may not be too far distant.

But the prospect of a home owner heating and air-conditioning his house, operating the family washing machine and the family car and even mowing the lawn from power supplied by a lump of uranium in his cellar isn't an immediate prospect. Nevertheless, the general peacetime use of atomic power is nearer than he thinks.

The atomic energy field typifies great power and energy which can be used for human good or destruction. Man has always had to make a choice, even when he invented the axe, as to whether to use that axe to build a house

or batter out his neighbor's brains. Man answered the question by using the axe for both. The enormous energy in a block of uranium dramatizes the same problem of choice simply on a larger scale.

The present U.S. atomic energy program is largely the stockpiling of fissionable fuels which can be used later either for war explosives or energy production. Basically, nearly everyone working in this field always has in the back of his mind that we are really working to use this atomic fission in all kinds of peacetime applications.

The real source of energy is in the tiny nucleus inside the atom. The problem is to find out more about this nucleus.

To do this, scientists the world over have been building larger and larger atom-smashers, or cyclotrons. We have one of the largest in the world at Columbia University. It's about the size of a banquet hall and weighs 8000 tons.

Its sole purpose is to make high speed atomic fragments serve as bullets to bombard other atoms and find out how their nuclei are made. This process has produced over 700 new synthetic kinds of atoms. Nature made only about 280 atom types.

Through the process, other metals can be changed to gold. Unfortunately platinum is the best starting material for this so it is not too successful economically.

However, uses of atomic energy in practical ways outside the research laboratory are constantly opening up. Nuclear power plants for submarines and ships are being developed. The released energy in a one-inch cube block of uranium is enough to drive a ship across the Atlantic and back.

A few months ago, the announcement of the end of the first phase of the application of uranium power to aircraft propulsion was made, and the first units are being designed by aircraft companies.

These developments in transportation are conditioned by the fact that U-235 chain reactions at high power levels give off a large amount of radiation. The nuclear reactors must be surrounded by a number of feet of shielding, which makes such power devices have a minimum weight of perhaps 30 to 50 tons. Because of this, atom-powered automobiles and lawnmowers are some distance in the future.

Atomic power plants to produce electricity and to operate industrial factories are approaching realization. Four industry teams are working on the best design for such atomic power plants, which will not only be able to produce power, but may also produce appreciably more atomic fuel than is actually burned.

Even now, the production of this atomic power is cheaper than aviation gasoline. U-235 costs perhaps \$10,000 to \$20,000 a pound, but compared to the cost of coal of equivalent energy content, the cost of the energy would be around \$10 per ton and maybe eventually as low as \$2 a ton.

While there may never be an atomic reactor in every cellar, it is certainly probable that when you toggle the switch on your electric toaster the toast will pop-up, browned to a turn by power from atomic energy.

Our present achievements are based squarely on the use of energy. We are almost at the threshold of a new industrial and social revolution based on this new source of energy. All of this mechanization, as we look into the atomic age, provides a broad base for the development of the finest aspects of man.

Wrote a Moscow-directed Communist newspaper in Paris: "Eisenhower entered the White House Wednesday, where he plans to put his program of fascism and war into action."

So, too, Russian citizens who fall under arrest are accused of ties with U. S. espionage. Completing the link in the hate campaign is the fact that most of them are Jews.

even sure that South would follow suit to the first trick. East could have been a hero by playing the ace of diamonds, anyway, but he cannot be blamed for failing to make this miraculous play.

After West won the first trick with the queen of diamonds, no further defense could defeat the contract. West actually shifted to a trump, as good a defense as any, whereupon Morehead drew three rounds of trumps ending in dummy. He then led the king of diamonds from dummy, ruffing out East's ace.

It was now simple to discard one club on the ten of diamonds, run five spades in order to discard all the clubs from dummy, and ruff a club in dummy. Morehead thus won 11 tricks instead of being set one.

TO HELP PAMPANS understand the workings of their local government, Aubrey Jones, city tax assessor-collector, used these posters — among others — in speaking before local civic clubs during the past week. Prepared by Darrell Raines, eighth-grade student in junior high school, the uppermost poster shows how a Pampans' average monthly tax on personal property and real estate is distributed among the various municipal services. Based on an assessed valuation of \$2,360 — an average one — his monthly tax cost is computed at \$3.44, which is split up as shown. That \$3.44, however, only pays about one-third of the total cost of the services. Other two-thirds comes from the gross receipts tax, parking meters, fines, permits and transfers from water and sewer departments. The second poster, below the first, indicates the change each year over a five-year period of building permit values and assessed valuations on personal property and real estate. Building permit values include only new construction, remodeling, redecorating, etc.; whereas assessed valuations include all taxable belongings. Percentages at right, in both graphs, indicate the increase or decrease each year from the one previous. Correlation between the permit values graph and actual construction in certain years can be understood if memory brings back this building activity: In 1949, Highland General Hospital and Hughes Building; in 1950, The Pampa Daily News building; in 1951, First National Bank, several public school buildings and remodeling of Citizens Bank and Trust; and in 1952, several churches and many private residences. Schools and churches, of course, would not show up in the assessed valuation graph for they are non-taxable. This second graph was drawn by Fred Brook, assistant city engineer, (News Photos).

Sunday School For Youthful Exhibitors In Fort Worth Show

FORT WORTH — Parents of the youthful exhibitors in the junior show of the Southwestern Exposition and Fair Stock Show need not worry that the boys and girls will miss Sunday School — for a breakfast Sunday School class will be held at the exposition. The occasion will be held on Feb. 1 in Pioneer Palace and will be sponsored by the First National Bank. J. Lee Johnson Jr., president, declared that the bank considers it a great privilege to be host on such an occasion. There will be a beautiful breakfast to which all the Future Farmers and 4-H Club members will exhibit animals as invited. The kind held by a livestock exhibition as well as their county agents and position anywhere.

TWO TURBINES are quicker than One

We raised our eyebrows the first time the engineers told us about it.

A new Dynaford Drive? Better than the one that over a million and a third people are so happy with?

That's right, the engineers assured us. A new Dynaford that's just as smooth, just as simple to operate—but far faster and quieter on getaway, and a great deal more efficient.

This, we told ourselves, we have to see. And we did.

We tried the new Golden Anniversary Buick with Twin-Turbine Dynaford Drive—and mister, it's spectacular! As before, no gears ever shift in this wonder drive.

As before, you have infinite smoothness through every speed range—feel wonderfully fresh and relaxed even after a long day's drive.

But on getaways you can soar to cruising speed in less than a half dozen seconds—and with lullaby quiet.

At every speed range you have more efficient power transfer. Acceleration is increased 20%, but with fewer engine revolutions—which means you get going quicker, with less engine speed, less getaway sound.

What works these wonders is a new kind of engineering which places two turbines instead of one in the Dynaford transmission. At the same time, fewer parts—four elements instead of five—simplify the unit even more.

But there's more than just this sensational Twin-Turbine Dynaford to be had in the 1953 Buicks.

There's new power—including the world's most advanced V8 Engine—Supers and Roadmasters. There's a still finer Million Dollar Ride. There's superb new comfort, and handling ease, and a host of other advances—87 in all.

Why not come in this week and try one of the greatest Buicks in fifty great years?

**Standard on Roadmaster, optional on extra cost on other Series.*

Plans Develop For Annual Celebration Of St. Pat's Day

SHAMROCK (Special) — Plans for the St. Patrick's Day Celebration, that almost wasn't, are gaining momentum. Volunteer workers who held a mass meeting and voted to go on with the fete elected Harry Fry as general chairman. The steering committee is made up of Norman Patrick, Jack Stroup, Winfred Lewis, Clayton Sanders, Earl Hunter and Glynn Bell. Mrs. Jack Stroup is acting as treasurer. The traditional Donegals (beard around the jaw bone) are not being required of the male population but all willing to voluntarily grow them are requested to start them by February 1.

Tax Ruling Will Benefit Stockmen

WASHINGTON, Jan. 25-UP — Many farmers and stockmen who heavy income tax savings, a Treasury spokesman said Saturday. The farmer for at least 12 months sent dairy cattle and breeding animals to market last year will reap. Under congressional orders, tax officials now will regard dairy breeding and work stock as capital assets. Profits on the sale of such animals will be classed as capital gains and taxed at a relatively low rate, if the animals were owned by the farmer.

Youngster Hanged In Ghost Play

DETROIT, Jan. 25-UP — A 12-year-old boy hanged himself accidentally Friday while performing in a "haunted house" play before a dozen young playmates in the basement of his home. Police said young Dennis Furman apparently dangled helplessly for 15 minutes behind a blanket used as a curtain in the "play" while the other youngsters jostled for position as a "refreshment stand" in the room.

The body was discovered by 12-year-old Patricia Doyle, the leading lady in the play, which also starred Dennis and his brother, David, 13.

Patricia said she had been serving the other children soft drinks for about 15 minutes when she missed Dennis. "I knew he was going to do the hanging trick and I wondered why he didn't ask us to pull back the curtain so we could see," she said. "He was standing on a table and a light was supposed to throw his shadow, all hunched up, on a sheet in front."

Canadian Bank Officers Named

CANADIAN (Special) — Officers of the First National Bank were re-elected at a recent meeting of stockholders.

A. V. McQuiddy is chairman of the board; H. S. Wilbur, Sr., president; C. W. Isaac, vice-president and cashier; and Russell Carver, assistant cashier. Directors are A. V. McQuiddy, Frank Chambers, C. W. Isaac, C. McQuiddy, H. S. Wilbur Sr., H. S. Wilbur Jr., and Earl L. Wilbur.

Shamrock Church Officers Installed

SHAMROCK (Special) — New officers of the congregation of the First Christian Church will be installed during the morning service today. They are: Earl Harrington, the chairman of the congregation; H. S. Gray, vice chairman; Mrs. J. R. Brewer, secretary; and Mrs. Cecil Rook, treasurer. Four new deacons will also take office: J. R. Brewer, H. S. Gray, Walter Jett and John E. Wilson. Four Junior Deacons are Charles Harrington, Donald Horton, Jerry Jett and Sanford Jett.

Mary Hardin-Baylor Exes Plan Banquet

WHITE DEER (Special) — Mr. and Mrs. Bill Vernon, Happy, Jr. and Mrs. C. C. Kelly, White Deer and Mr. and Mrs. Doug Smith, Panhandle, met recently to discuss the annual banquet of ex-students and alumni of Mary Hardin-Baylor of Belton, Texas. The banquet will be held at the Blackstone Hotel, Amarillo, Jan. 31. The traditional candle-lighting service will be held with Mrs. Vernon in charge.

Default Judgement

A default judgement, amounting to \$2,331.83, was handed down against V. M. Larkin in 31st District Court by Judge Lewis M. Goodrich. The judgement was in favor of the Exchange Bank of Skiatook, Okla., and came on the heels of a similar judgement against Larkin in the district court of Osage County, Okla., last year.

Response Good To WD Dimes March

WHITE DEER (Special) — Response has been good from the early donations to the March of Dimes Campaign, according to Gene Skaggs, Panhandle, Carson

County MOD chairman.

Last year, \$2,280 was raised in the county and workers hope that amount will be exceeded this season. To raise funds, the coffee plan and the Mother's March are being staged in the Carson County communities.

Two Champions Crowned In Golden Gloves Tourney

Other Champs To Be Named Monday

By BUCK FRANCIS
News Sports Editor

Kenneth Wood of Shamrock and Duggy Jameson of Wellington emerged the winners in two championship fights last night at the Southern Club Sports Arena during the second of the three-night District Golden Gloves program.

The third and final program will be unreeled Monday night when champions in all other weights will be determined.

Eleven title matches are on the Monday card. A match also is being sought for Bobby Wilhelm, flashy Pampa 147-pounder who won his weight title on opening night Friday. Wilhelm was to have had another fight before gaining his third district title here but he won by a default.

Wood had little trouble in capturing his third consecutive district title here in taking a second round TKO from David Lunday of Dumas.

The Shamrock blaster, using his smooth footwork, felt Lunday out through most of the first round before getting in a few telling blows at the bell.

at the bell, Lunday continued to rush Wood throughout most of the round but could never get in to Wood's defense.

The end came for Lunday midway through the second round. Lunday became over fatigued and Referee Dean Webb stepped in when it appeared hopeless that Lunday could not stand the pace much longer. The TKO was clocked at 1:56 of the second round.

Jameson Had Pressed

Jameson had a little tougher time in gaining his title. He won a close decision from Raul "Rabbit" Ramirez of the Pampa Boys Club.

The two 105-pounders staged one of the most bitter fights of the evening with Jameson holding the upperhand for the most part. The Wellington led kept Ramirez in a corner through most of the first round. Then Ramirez came back in the last two rounds to make a battle of it but Jameson held his advantage and won the close decision.

Nine other fights were unreeled on last night's program. In probably the top fight of the night so far as the crowd appeal was concerned was the Jimmy Thompson of Wellington and Jerry Bruce of Pampa Boys Club bout in a 126-pound semi-final match.

Thompson, the champion of his weight division the past two years here, kept his chances alive for a third title by outpointing the less-experienced Bruce.

Bruce, however, after being floored for an 8-count in the second round, fought back gamely and got in several telling blows to the head of Thompson. This is Bruce's first year to box and although he lost to the classier Thompson, it was a "moral" victory for him.

Thompson fixed his left jab effectively throughout the match and had Bruce's nose bleeding through most of the fight.

Brynmor vs Braly

A heavyweight bout pitting Elmer Brynmor of the Pampa Boys Club against Hugh Braly of Lefors also was a crowd pleaser.

The more experienced Braly won the decision and was in command ever-say-the spirit of Brynmor met through most of the fight but the crowd's fancy.

It was apparent at the outset that Braly was the master but he took several telling blows from Brynmor that made it an interesting fight all the way through.

2 More TKOs

Two of the other six bouts on the program ended in TKOs. Doug Kirkland of Dumas, flashing a wicked left, took a third round TKO from Pampa's Phillin Mangum. Kirkland, after a dismal first round, blooded the nose of Mangum in the second and was moving in the kill at the bell.

Kirkland picked up in the third where he left off in the second and Referee Doug Graham stopped the fight after 1:30 minutes. Both were 126-pounders.

Billy Branch of Wellington got the other TKO, driving a glove into Joe Kirkland of Dumas' stomach that nearly doubled the Dumas lad up. The bout was halted after 51 seconds of the first round.

Malone Whips Ring

The other fight in upper weights saw Jimmy Malone of the Pampa Boys Club outpoint teammate Jesse Ring. Malone was the aggressor most of the way. It was possibly the closest decision of the night.

The other four bouts on the program were in the Pee Wee Division. Carson Watt and Dickie Willis, in the 60-pound class, opened the show and after three fast and furious rounds with the boys throwing leather all over the place, Watt was awarded a split decision.

In 80-pound scrap, Benny Dick-

in the conference standings, and boosted the Rice Owls to a second place tie with Baylor. A&M and Rice entered the game tied for third with Arkansas and Texas Christian with two wins and two losses each.

Center Gene Schwinger maintained his 20 plus scoring average with 24 points, even though he missed nine of 15 free throws.

For the Aggies, Bob Johnson, forward, was the nearest to a high scorer, getting 11 points. A&M made only 10 of 44 field goals attempts.

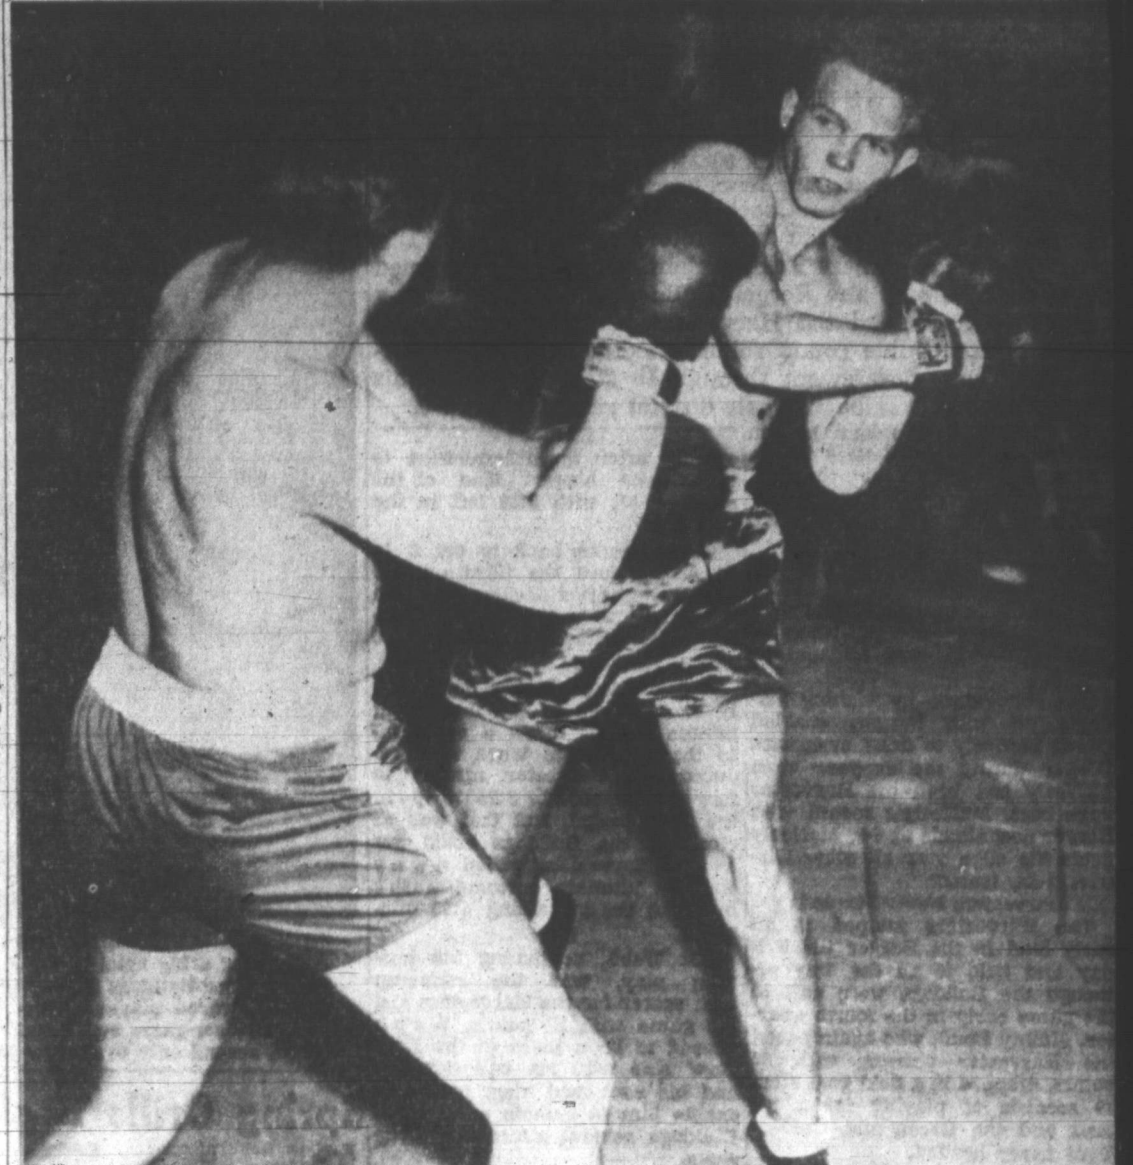

The game started as a "dead-eye" marathon, and 16 points were scored—10 by Rice—before anyone missed a goal attempt. After the initial outburst, though, the A&M shooters chilled.

The smallest star is believed to be about 2,500 miles in diameter, says the National Geographic Society.

TITLE MATCH—Duggy Jameson, left, of Wellington, won the 105-pound division of the District Golden Gloves last night with a three-round decision over his above opponent, Raul "Rabbit" Ramirez of the Pampa Boys Club. Jameson met a determined fighter in Ramirez but he held the advantage through most of the bout. Jameson thus became a district champion for the second straight year. He won the 95-pound division title last year. (News Photo)

BRALY CONNECTS—Hugh Braly, Lefors heavy weight, is shown following through with a right to the head of Elmer Brynmor of Pampa Boys Club during last night's Golden Gloves show at the Southern Club Sports Arena. Braly won by decision. Brynmor, however, put up a game scrap throughout the three-rounder. (News Photo)

Majors Prep For Training Camps

By CARL LUNDQUIST

Major leagues completed preparations this week and for baseball's most pleasant pilgrimage—the annual trek to the sun country for spring training—by announcing a total of 472 exhibition games to be played before the start of the regular season in April.

The training period begins unofficially on Feb. 17 when an advance squad of pitchers and catchers reports to Manager Jimmy Dykes Philadelphia Athletics' base at West Palm Beach, Fla. Manager Eddie Stanky will whip in his Cardinal catchers and pitchers at their St. Petersburg, Fla., base the following day and from then until Feb. 26, athletes will be checking into hotels in Cuba, Florida, Arizona and California.

This year for the first time since before World War II, there will be only two clubs left in sunny California, the Browns at San Bernardino and the White Sox at Pasadena. The Cubs deserted to Mesa, Ariz., where they will have the Giants at Phoenix and the Indians at Tucson for sparring partners, while Branch Rickey is shipping off to Havana with his Pittsburgh Pirates.

All of the other clubs will be returning to their usual haunts in Florida. The 10 clubs which train there have had the same bases since 1948. The Yankees also will be in St. Petersburg with the Cardinals, the Braves at Bradenton, the Red Sox at Sarasota, the Phillies in Clearwater, the Reds at Tampa, the Tigers at Lakeland, the Senators in Orlando, the A's in West Palm Beach, and the Dodgers in their advance base at Vero Beach which precedes the trip to Miami for the exhibition game schedule.

Opening day in the exhibition "Grapefruit league" season will be March 7 and the teams will play daily thereafter until the beginning of the major league campaign on April 13.

The American League clubs will play a total of 245 games and the National will have 224. There will be 160 games between the two leagues.

Lamesa May Have Baseball In 1953 Yet

ABILENE, Tex., Jan. 25—UP—Final placement of the Pecos franchise in the Longhorn League probably will be settled at the loop's Feb. 1 meeting at Big Spring, President Hal Sayles said Saturday. Pecos, which had been voted the franchise held previously by Sweetwater, backed out of its plan to enter organized baseball earlier this week.

Owner A. C. Gonzalez, of Del Rio, who owns the floating franchise, said he definitely would move it to another city, possibly Lamesa, and operate in 1953. Sayles and Gonzalez will investigate the situation at Lamesa next Saturday. Citizens of that town were reported interested in getting in the Class D Longhorn circuit after its Class C West Texas-New Mexico franchise was sold to Plainview.

Rice Clips Ags, 52-34

HOUSTON, Jan. 25—UP—Rice Institute shot an amazing 20 field goals in 52 attempts Saturday night to master completely Texas A&M by a 52-to-34 score in a Southwest Conference game.

In addition to having a hot night on the offense, Rice threw up its best defensive show of the year, and held the Aggies to a mere 11 points in the second half.

A&M could seldom break and when it did, had trouble coming through the Rice outer defense, including close to the hoop.

The loss put A&M in sixth place

The Pampa Daily News SPORTS

PAMPA NEWS, SUNDAY, JANUARY 25, 1953 Page 7

Murdocks Will Be In Tag Bout Here

The fabulous Murdocks, one of the most popular brother teams in the country, come to Pampa Tuesday night to share main event time against Dizzy Davis and Herb Parks at the Southern Club wrestling arena.

Frankie Hill Murdock of Waxahachie, and Paul "Farmer Jones" Murdock of Mount Ida, Ark., are two of the more colorful wrestlers of the junior heavyweight class, whether they're wrestling individually or as a team.

Fans in Pampa will see at least one of them, Frankie, in a man-to-man duel to open the program.

Frank, with the long, delicately waxed moustache, meets Herb Parks in the first event, a one-fall or 15-minute match that should set the stage and the audience attitude for what is to follow.

Second match of the Tuesday night card brings likeable Frankie Hart of Pine Lodge, Ontario, Canada, against Rey Urbano, personable Pride of the Philippines. This, the semi-final match, will no doubt produce some expert wrestling, somewhat shy of the rough and tumble, blood-and-guts rivalry that prevails in the other matches.

Hart and Urbano will demon-

strate scientific wrestling. Hart, using his tricks learned in Canadian wrestling, Urbano devoting his time to showing what the Filipino grappler can do. Young Urbano, former California college football player and amateur wrestler, has a style all his own, although he was taught the rudiments of wrestling by the former great Filipino, Pantaleon Manlapig.

Most wrestling fans have heard about Dizzy Davis and Herb Parks. Davis comes from Houston, where he is a designer of ladies fancy dresses in his off time, an odd parallel indeed to his vicious style of fighting. Parks has become one of the most outstanding wrestlers in the Southwest States territory in recent weeks. His loss to Champion Danny McShain in a non-title match seemed only to whet his appetite for the rough and tumble style, and he still wants to meet McShain in a championship contest.

Tickets for the Tuesday night show will be on sale at the Sportman's Store all day Tuesday. Box office at the Southern Club opens at 7 p.m. Tuesday.

The mat program will commence promptly at 8:15.

Bulla Leads At Phoenix

PHOENIX, Ariz., Jan. 25—UP

Johnny Bulla, veteran Verona, Pa., and Phoenix professional, shot a four-rounder par 67 Saturday to take a two-stroke lead at the end of the second round of the \$10,000 Phoenix Open golf tournament.

It was a tough day for Jimmy Clark, Laguna Beach, Calif., and other first-round leaders, but Bulla, Jackie Burke Jr., Klamath Falls, N.Y., and Jimmy Demaret, also of Klamath Falls, shattered par. Burke also had a 67, while Demaret fired a 66—lowest score of the tournament after 26 holes.

Two strokes behind Bulla, who had a two-day score of 136, were Al Broach, Garden City, N.Y., and Leonard Hebert, Verona Lake, Pa., each with 138. Broach had a 70 and Hebert a 69.

A two-day score of 148 qualifies the top 60 professionals for Sunday's tournament over the Phoenix Country Club course.

Conspicuous by his absence from the qualifiers was Tommy Bolt, Maplewood, N.J., winner of the San Diego Open and second leading money winner on the winter tour. Bolt had a two-day score of 152.

The top money winner of the winter tour, Lloyd Mangrum, Niles, Ill., Doug Ford, of Harrison, Pa., and Guinea-Kop, Honolulu, followed Broach and Leonard Hebert with scores of 139.

Loss To Harvesters Is Only Blemish On Clovis Wildcat Basketball Slate

THE CLOVIS HIGH SCHOOL Wildcats have been rolling merrily along since they met the Hustlin' Harvesters here in December.

The Wildcats have a season record of 14 wins in 15 games, the lone loss being to the Harvesters. The New Mexicans "bowed to the Green and Gold quint, 48-46. Guess the Wildcat coach hasn't changed his mind either when he said "the Harvesters are the best high school basketball team I've ever seen."

WHO WILL BE THE NEW Oiler baseball manager? This question has been running through the minds of a lot of diamond fans here the past several days.

We conferred with Doug Mills yesterday and Doug still hasn't found his manager yet. Although he is presumably conferring with several about the job, he wishes to keep all names a secret.

He did say we could guess who the new manager would be. If Jake Phillips isn't rehired, our prediction would be Deck Woldt.

OUR BELATED CONGRATULATIONS to Hal Sayles, the new West Texas-New Mexico prexy. Sayles hardly needs an introduction in the baseball world in these parts. He has put the Longhorn League of sound footing during his five years as its president and we believe he'll do the same for the WT-NM.

As we've stated before, Sayles was our boss for three years and we were with him through the ups and downs of the WT-NM.

Odell came to Washington from Yale, where he coached six seasons, in 1948. An illness kept him away from the team most of his first year, and the next season Washington won only three of 14 games.

But in 1950 the Huskies wound up second in the Pacific Coast Conference, losing the crucial "championship" tilt to California 14 to 7. In 1951 his record was 3-6-1 and in 1952 it was 7-3, with Illinois.

Odell was noncommittal on future plans but it was rumored he would leave the coaching profession to enter private business.

Rail Strike Scheduled CHICAGO, Jan. 24—UP—The chief negotiator for four railroad unions announced Saturday night that a strike has been set for 6 a.m. set Sunday against the Chicago & Great Western Railway. The road, primarily a freight hauler, serves Illinois, Iowa, Minnesota, Missouri and Nebraska.

Ask Death Penalty BORDEAUX, France, Jan. 24—UP—An attorney demanded the death sentence Saturday for all of the 21 Germans and Frenchmen bicycling last week "Oradour massacre" of 442 French men, women and children.

The 21 defendants are the only known survivors of a company of the Reich division of Adolf Hitler's Elite Guards which descended on the farm village of Oradour-sur-Glane on June 10, 1944, set the village afire and shot, burned, clubbed most of the villagers to death.

while we were on the Abilene Reporter-News staff and can vouch for the fact that he is fully qualified for a position such as has been bestowed upon him as WT-NM prexy.

You'll recall that we more or less backed Callier Parris for the vacated president's post. Callier too could have filled the bill by Sayles' experience as president of a baseball loop possibly had much to do with his getting the job.

Anyway, the WT-NM fathers are to be commended for getting such a well qualified man to head the WT-NM Loop for the coming year. The 1953 season looms as one of the most successful in WT-NM history.

Valle Grande, near Los Alamos, N. M., is the greatest extinct volcano in the work.

BRUCE DUCKS AWAY—Jerry Bruce, left, rugged Boys Club glover, dodges a right thrown by Jimmy Thompson of Wellington in their 126-pound semi-final scrap last night during the second portion of the three-night District Golden Gloves show. Thompson, although hard pressed through most of the fight, took the decision. (News Photo)

Harvesters Finish 1st Round Of 1-4A Slate Unbeaten

Borger Falls To PHS Quint, 72-65

By BUCK FRANCIS
Pampa Daily News Sports Editor

BORGER, Jan. 25 — Coach Clifton McNeely's Hustling Harvesters completed the first round of their tough District 1-AAAA slate here Friday night with a hard-earned 72-65 decision over the Borger Bulldogs.

The win enabled the Harvesters to finish the initial round of the double round robin schedule in 1-4A unbeaten. They have now swept through 15 straight games this season without a setback. Their district record reads 7-0.

Amarillo's Sandies kept hot on the trail of the Harvesters in the district race by trimming the Lubbock Westerners at Lubbock Friday night, 71-62. The Sandies have a 6-1 District 1-4A record.

In other district tilt Friday night, San Angelo's Bobcats upset the Abilene Eagles at San Angelo, 60-57, and the Odessa Broncs carded a 46-39 win over Midland at Odessa.

The Harvesters, by winning Friday's tilt with Borger, enabled Coach McNeely to draw even with Borger during the six-year span. McNeely has been the Harvester cage boss. McNeely's record with Borger now stands at 6-6. McNeely holds the edge over all other District 1-4A teams.

Harvesters Never Headed.

The Harvesters jumped to an early lead in the Borger tilt Friday and held it all the way although the Bulldogs were still in the game early in the fourth quarter. Jimmy Bond, who again paced the Harvester scorers with 22 points, dropped in a field goal after 29 seconds of playing for a 2-0 lead and the Green and Golders were never headed.

Pampa ran up a 6-0 score before Borger scratched the scoring column. Buddy Cockrell hit a free throw, Fred Woods a field goal and Bill Webb a gratis toss that gave the Harvesters a 6-0 lead with 2:35 gone in the first quarter.

Then Tommy Newland broke the scoring ice for the Bulldogs with a field goal seconds later. The Harvesters, however, with Woods hitting two from the field and Cockrell one from the gratis line, boosted their margin to 13-3 midway through the period.

Borger rallied back to cut the margin to 12-8 and 14-10 but the Pampans collected themselves to again boost their margin. Bond connected with a field goal and free loss while Cockrell dunked in a two pointer that gave the Harvesters a 19-10 first quarter lead.

The closest Borger came to catching up in the second quarter was 21-27 and 36-32. Cockrell hit a field goal just before the half ended to give the Harvesters a 26-32 halftime lead.

The Harvesters went to work

quickly after the intermission to take their biggest lead of the night, 49-37, with 3:30 left in the quarter.

Borger came back to cut it to 54-45 before the third quarter ended as Charles Jackson hit from the floor just as the buzzer sounded ending three-quarters of play.

Bulldogs Threaten

The Bulldogs, trying desperately to catch up in the final eight minute period, threw a scare into the Harvesters when they reduced the Harvester margin to four points, 60-56, 3:25 deep in the final period. But that was as close as the Bulldogs could get and the ultimate outcome wasn't in doubt the remaining 4:30 minutes.

Bill Webb, continuing his hustling play, was the runnerup high scorer for the Harvesters and the game with 17 points. Webb proved to be a thorn in the Bulldogs' side with his ball hawking and his continued alert play that enabled him to dribble around the Bulldogs several times for layup shots.

Harvester Fred Woods was the third high scorer with 16 points. Allen Simpson was high for Borger with 11 points.

The Harvesters outshot the Bulldogs in field goal percentage. The Pampans hit 20 out of 41 field goal tries for 48.7 while the Bulldogs hit 24 out of 66 for 36.3.

From the free throw line, the Harvesters hit 32 out of 46 for 69.5 to 17 out of 23 for Borger for 73.9.

Second round of play in the 1-4A race will commence next weekend. The Harvesters host Midland Friday and Odessa Saturday.

Simpson, Westlake Get On Dotted Line

CLEVELAND, Jan. 25 — UP — The Cleveland Indians counted Harry Simpson and Wally Westlake in the fold Saturday, making a total of 16 players signed for the 1953 season.

Simpson, a rightfielder, was the second regular to come to terms. General Manager Hank Greenberg signed Ray Boone at the winter meetings.

Simpson hit 266 last season and had 63 RBIs. Westlake was used as a utility outfielder, mostly in centerfield. He hit .232 and had nine RBIs.

SHINES AGAINST BULLDOGS — Billy Webb, flashy Harvester guard, had a big hand in the Harvesters' 72-65 win over the arch rival Borger Bulldogs Friday night at Borger. Webb, possibly the most improved player on the Green and Gold squad, played a brilliant floor-game and in addition poured 17 points through the hoops, second only to Jimmy Bond's 22. (News Photo)

Spring Drills Begin Wednesday . . . Baylor To Get Feel Of 2-Platoon Ban

WACO, Jan. 25 — UP — The er-halfback, as a quarterback although last season's No. 1 T formation signal caller, Davidson. The players themselves seem jittered the year before as a defensive back and seems fully capable of going both ways.

That amounted to a command performance, one to compare with President Roosevelt's "green light" message in which he urged continuation of football during World War II as long as it did not interfere with the war effort.

Coach Blaik of the Army team made no secret of his extreme regret that the series had to be abandoned in the first place and Frank Leary, the Notre Dame coach expressed similar disappointment.

Feeling Ran High
Feeling ran high in the series when in the two final war years Army had perhaps the greatest collegiate team of all time featuring the great backfield duo of Glenn Davis and Felix (Doc) Blanchard, the "Mr. Outside" and "Mr. Inside" runners, and the quarterback trickery of Arnold Tucker. In 1944 Army crushed Notre Dame, 59 to 0, for the most lop-sided defeat in Irish grid history. In 1945 it was almost as bad. Army putting on a 48 to 0 steamroller.

Came 1946 and Notre Dame's legions were back from the wars. With a slogan of "59 and 48—now's the time to retaliate," they came to Yankee Stadium with vengeance in their hearts. Army, too, was loaded again and the game was billed as the "battle of the century." It was almost that, too, a historic savagely fought 0 to 0 tie.

In 1947, when clamor for de-emphasis forced transfer of the game to South Bend, the Irish came through with a 27 to 0 key triumph in a perfect record 9-0 season that gave them the national championship.

And that's how it stands until 1957.

Carpenter Burns to Death
HOUSTON, Jan. 25 — UP — Eugene Cummings, 38, a carpenter, burned to death early Saturday when fire swept his room at the rear of a Houston cafe. Neighbors were unable to rescue him.

Irish, Army To Renew Relations

WEST POINT, N. Y., Jan. 25

—UP—With a "green light" from President Eisenhower, the Fighting Irish of Notre Dame and Army's Cadets agreed Saturday to resume football relations in 1957.

But the subway alumni of New York were shut out.

The series was resumed on a home and home basis with the first game to be played at Notre Dame's Memorial Stadium in South Bend, Ind., on Oct. 12, 1957. The next game will be picturesque Little Michie Stadium at West Point the following year on Oct. 11.

And the future "Fighting Irish" and the sons of "slum and gravity" who will battle in that first renewal in 1957 are now sophomores in high school.

There was little or no fanfare and little or no official comment from either institution over the joint announcement, which was made at mid-day by Earl (Red) Blaik, director of athletics and coach of the Army team, and Ed (Moose) Krause, director of athletics at Notre Dame.

Almost No Emphasis

That was the way they wanted it—almost no emphasis to contrast with the over-emphasis that finally caused termination of the historic series after the 1947 game in South Bend.

Before that it had been a gala ticket-scalping, whoop-it-up annual affair at New York's Yankee Stadium, which became an annual sell-out battle for blood attended by crowds of close to 80,000.

The first indication that the resumption of the game would at least get high official approval if not encouragement should General Eisenhower be elected, came when he attended a New York press conference of sports figures. Mr. Eisenhower, who played varsity football at West Point, was asked how he felt about the Army-Notre Dame game.

"I am in favor of resuming relations," he replied. "The teams should play."

That amounted to a command performance, one to compare with President Roosevelt's "green light" message in which he urged continuation of football during World War II as long as it did not interfere with the war effort.

Coach Blaik of the Army team made no secret of his extreme regret that the series had to be abandoned in the first place and Frank Leary, the Notre Dame coach expressed similar disappointment.

Booster Club To Convene Tomorrow

The Harvester Booster Club will resume activities Monday night at the 3 a.m. Houston "Auditorium" when they will convene for the first time in two weeks.

Time of meeting has been set for 8 p.m. Last week's meeting was postponed due to the March of Dimes Civic Club basketball tournament.

Harvester coach Clifton McNeely is expected to show movies of the recent games with Abilene and San Angelo played at the Harvester Fieldhouse.

McNeely, along with Gueffilla coach Terry Culley and Reeper coach Fernal Scoggin will address the club tomorrow night.

All sports fans of the city are invited to attend the meeting and become a member of the club.

16 Games Set For Lamar Nine

BEAUMONT, Jan. 25 — UP — Lamar Tech, already with a 16-game baseball schedule, including a double round robin with Sam Houston and Sul Ross for the Lone Star Conference crown, Saturday was looking for other opponents for additional exhibition games.

Coach J. B. Higgins said Tech will play home-and-home series, with Rice, University of Houston, Northwestern Louisiana, Southwestern Louisiana Institute.

The games already lined up: March 14, Houston, there; March 18, Houston, here; March 21, Northwestern Louisiana, here; March 24, SLI, here; March 27, SLI, at Lafayette; April 8, Northwestern Louisiana, at Natchitoches; April 16, Rice, here; April 21, Sam Houston, here; April 24-25, Sul Ross, here; April 29, Rice, at Houston; May 5, Sul Ross, here; May 8-9, Sul Ross, at Alpine; May 14-15, Sam Houston, at Huntsville.

TIL Plans No Immediate Change In Grid Rules

BEAUMONT, Jan. 25 — UP — There will be no change in Texas high school football rules in the immediate future, a spokesman for the prep coaches said Saturday.

There had been some agitation that Texas schoolboys, who have played in the past under the same rules used by the National Collegiate Athletic Association, should have a different substitution rule from the restricted one adopted recently by the NCAA.

But Stan Lambert, publicity director for the Texas High School Coaches Association—whose board of directors voted 15 to 4 not to abide by the NCAA change—said he had been told there couldn't be a change before spring practice starts.

Talks To Head
Lambert said he talked to R. J. Kidd, director of the Texas Inter-scholastic League and the supreme body in schoolboy sports matters.

"Rome was not built in a day, and Texas is a big state," Kidd told Lambert.

He referred to the time involved in making a switch away from the NCAA rules and the mechanics of polling member schools, tabulating the results and then making a final decision.

Many Requests Received
Kidd said his office had received

many requests, both for and against the new rule, but said neither he nor Rhea Williams, the TIL's athletic director, knew what they should recommend to the league's executive committee.

Kidd is believed to favor the unlimited substitution rule which prevailed before the recent rule change.

But he also was concerned about the future complications if the TIL got into "the rules making business" itself by making a change in the NCAA substitution provision.

Reason for Lack of Report

HOUSTON, Jan. 25 — UP — The Houston city health department, with not a single official report Saturday of an influenza case, admitted that one of its clerks was home sick—with the flu.

Cafe Owner Charged
HOUSTON, Jan. 25 — UP — John V. Arriola, 35, owner of a Houston cafe where Severiano V. Montes, 33, was shot to death in an altercation Friday night, Saturday was charged with the fatal shooting.

Restricts Visiting
LAREDO, Jan. 25 — UP — Richard B. Ward, engineer in charge for the U.S. section of the International Boundary and Water Commission, announces that visitors to the huge international Falcon Dam project, 75 miles downstream the Rio Grande from here, hereafter will be restricted to Sundays only from 9:30 a.m. to 5:30 p.m., and closed to certain construction areas.

Cleburne Merchant Dies
CLEBURNE, Tex. Jan. 25 — UP — W. T. Bradbury, 84, a leading Cleburne merchant since he moved here from Panola county in 1910, died early Saturday. Bradbury was a founder of the Cleburne Chamber of Commerce and an honorary life member of the board of Knights of Pythias home at Weatherford.

Will Compete in Boston Meet
BOSTON, Jan. 25 — UP — Vesper hurler Harrison Dillard, who set a new world record in Philadelphia Friday night, and pole vaulter Rev. Bob Richards will compete at Boston Garden meet next Saturday. It was announced Saturday. Dillard swept to a flat six-second world mark in the 60-yard high hurdles in the Philadelphia Inquirer meet.

Phil Sign Wrostek
PHILADELPHIA, Jan. 25 — UP — The Philadelphia Phillies Saturday announced the signing of right fielder John Wrostek.

Fight Set
NEW YORK, Jan. 25 — UP — General Manager Tex Sullivan announced Friday that middleweights Jimmy Herring and Jimmy Flood have been signed to meet at Brooklyn's Ridgewood Grove Club Feb. 17 in a 10-round bout inaugurating the fifth regularly scheduled network television boxing show.

Sullivan said the bout and subsequent ones will be televised by the American Broadcasting Co. Three or four cities—including New York—will be used as sites for the bouts.

The Army's oldest regular unit which has never been deactivated even for a short time is Battery D, 5th Field Artillery Battalion.

Cleveland Tribe's Big 3 Holding Out

By UNITED PRESS
General Manager Hank Greenberg of the Cleveland Indians may need some three-way headache tablets to cope with the contract problems threatened by pitchers Mike Garcia, Bob Lemon and Earl Wynn, who combined to win 67 games last season. They want more money in 1953 and they have told Greenberg so in no uncertain terms.

Garcia (22 victories) told Greenberg: "I've got a farm with 10,000 chickens. That looks better than my contract." He said he had been offered less than \$30,000.

Said Lemon (22 victories) "I don't like what I read in the contract he (Greenberg) sent me." He indicated he would sign for \$50,000 but there was no indication that he would be offered it.

Wynn (42 victories) also said the offer made him was too skimpy. When asked how far apart he and Greenberg were in salary negotiations, he replied: "From here to the end of this room." It was a long room.

Others Come to Terms
While the three star pitchers were steadfast in their salary demands, four other Indians came to terms, making 16 who have signed. They were Dick Wisk, a right-handed fast-ball pitcher just discharged from the service, first baseman Bill Glynn and outfielders Harry Simpson and Wally Westlake.

The world champion New York Yankees and the National League champion Brooklyn Dodgers had no such problems.

Johnny Sain, the tall, tobacco-chewing right-hander, telephoned the Yankees management from his home in Newport, Ark., and said he was satisfied with the salary offer made him. Sain had an 11-6 record last season, including two im-

Seven Coaches Vieing For DU Mentor's Post

DENVER, Jan. 25—UP—Denver University officials released the names of seven football coaches, including former mentors at North Carolina and Arkansas, who are among an unrevealed number of prospects for the DU coaching berth this season.

The seven whose names were made public by Athletic Director E. E. (Ted) Wieman are:

Carl Snavely, who resigned as head coach at the University of North Carolina last year; Otis Douglas, who quit at Arkansas; Glenn Harneson, backfield coach at Purdue; Forrest England, head coach at Arkansas State College; Bob Blackman, head coach at Pasadena, Calif.; Junior College; Chuck Purvis, backfield coach at the University of Illinois; and Ernie Jorge, head coach at College of Pacific.

Wieman declined to reveal how many are under consideration to fill the post vacated by Johnny Baker, who resigned at the end of the 1952 season.

Earlier, newspaper reports said that Blackman already had been picked for the DU job. DU officials denied the report, however.

Wieman said several coaches from the Rocky Mountain States also are being considered. He said it was hoped that a decision on the new coach could be reached "within a week."

Humez In Second Round Knockout

CAREN, France, Jan. 25—UP—Charles Humez, French middleweight champion, knocked out Wilmer Milandri, former Italian 160-pound title-holder Friday night at 2:45 of the second round in their scheduled 10-round bout.

Humez, one of the leading challengers for the vacant world middleweight crown, had Milandri groggy at the end of the opening round. He resumed his two-fisted barrage in the second round and beat the bell by 15 seconds in achieving his knockout victory.

Mel Ott Retires From Baseball

NEW ORLEANS, Jan. 25—UP—Mel Ott, who earned a niche in baseball's Hall of Fame for his 22 home-run packed playing years with the New York Giants, reluctantly resigned himself Saturday to the role of just another American fan.

After 27 baseball seasons, during which he set a host of batting marks which probably will stand for a long time to come, Ott announced Friday that he is retiring from the game to devote full time to his building construction firm in New Orleans.

"I'll always maintain my love for the game and keep a keen interest in it," said the good-looking, 43-year-old Ott. "Maybe sometime I'll be able to give some kid a few tips to help him make the grade."

In leaving the diamond for the swivel chair of the executive, Ott bowed out with the same soft-spoken tones and pleasant smile that characterized his brilliant playing days. Ott holds more batting records than any other National League player.

For the past two years, Ott has been manager of the Oakland Oaks in the Pacific Coast League. Though his team finished second last season in the regular season race, it was plain that Ott was not completely happy in the minors.

When the pressure of his construction business became too great, he made his decision to leave the game in which he rode to fame.

Started in 1926
Ott reported to Manager John J. McGraw of the Giants in 1926 as a 16-year-old youngster, fresh from a farm in Gretna, La. He immediately impressed McGraw and by 1928 had won a regular outfield job.

Battling with an unorthodox left-handed stance in which he raised his right leg stiffly just before his swing, Ott became the National League's greatest home run hitter. When he retired as a player after four pinch-hitting appearances in 1947, Ott held the following league records which still stand: 511 home runs scored; 5,041 total bases; 1,071 extra bases hits; 1,708 bases on balls.

In addition, Ott led the league in

Baylor, Houston In MOD Cage Tilt

WACO, Jan. 25—UP—The Baylor University basketball team will be playing extra hard against the University of Houston Monday night in an effort to run up points to help the March of Dimes.

If the Bears maintain their point-making average of 57.9 per game, it will mean \$368.50 for the polo fund. So far, 15 Waco merchants have agreed to back Baylor's output at the basket on a "dollar-per-point" basis for the March of Dimes.

This figure will be in addition to the "gate," which athletic director George Sauer has promised will go to fight polio, together with any contributions made by spectators at the game.

home runs six times, compiled a .304 lifetime batting average, and played in three World Series and 11 all-star games. He was voted into the Hall of Fame in 1951.

Rochester's Son Drafted By Bears

LOS ANGELES, Jan. 25—UP—William Anderson, son of comedian Eddie (Rochester) Anderson, said Saturday that his being drafted by the Chicago Bears professional football team was the "chance I've been waiting for."

"It's always been my ambition to play pro ball," said the husky 24-year-old Negro star. "and I really appreciate getting this chance."

The 6-foot-1, 196-pound halfback said he had learned Friday that an earlier contract he signed with the Cleveland Browns was invalid because the Bears had draft rights to him.

Anderson's draft call earlier this week was as much of a surprise to him as it was to many grid fans. He never played major college football. However, he won attention with his work at Compton, Calif., Junior College, and after the reservist was called back into the Army in 1950, he put his talent to work and made the Army All-America team in 1951, while playing for the Fort Knox Army squad.

Anderson also starred in track both at Compton and in the Army. "When I found out that I couldn't

Death Claims Mike Jacobs, Famed Boxing Promoter

MIAMI BEACH, Fla., Jan. 25—UP—Mike Jacobs, a one-time newsboy in the New York slums who rose to become the first international boxing "cesar" in ring history died here early Saturday. He was 72.

The famed boxing promoter died at 6:15 a.m. EST at the Mount Sinai Hospital here of a "coronary insufficiency," the result of a lengthy heart illness.

The balding little man was a regular winter visitor to Miami Beach. He had been here this season since November. He entered the hospital Friday afternoon. Sick in 1946

Jacobs fought for his life in 1946 after suffering a light stroke and then a brain hemorrhage. For weeks his life hung in the balance. But he later said he was in the "best of health," then stepped down as head of the 20th Century Boxing Club.

Jacobs is survived by Josephine, his wife, and by a younger brother Jake and by four sisters—Mrs. Fred Kanan, Mrs. Mary Betts, Mrs. Etta Hirsch (all of New York) and Mrs. Hanna Oppenheimer of Chicago.

He and Josephine had no children of their own, but they adopted a daughter, Joann, and had raised a boy, Joey, the son of friends.

His survivors are expected to share in a fortune estimated by friends at approximately \$7 million—wealth in cash, bonds, New Jersey real estate and stocks in various enterprises that range

from department stores to television companies.

Mike of the golden touch and the ruthless desire for accumulation, did not die "nearly broke" as did the late Tex Rickard, the ring's first million-dollar promoter, who was a close friend and undercover business associate of Jacobs.

As a promoter, Mike picked up where Tex left off, but as an accumulator of wealth, Mike made farcical any comparisons between his harvest and that of the genial, free-spending, easy-going Tex, who died in 1929.

Richard—a gambler from the Klondike and from the Nevada gold fields—may have had more "color," more showmanship as a promoter than Jacobs; but he lacked the ruthless shrewdness that enabled the hustler from the sidewalks of New York to become the fight game's greatest "monopolist." Rickard introduced the procedure of "tying up" heavyweight champions with contracts. Jacobs tied up all champions from the heavyweight down through the featherweight divisions. Likewise, most of the prominent contenders.

"THE ELVES AND THE SHOEMAKER"

"THE MAN WHO CAME TO DINNER"

Curtain Time...

AND SO ON WITH THE SHOW — Every production has its trials and tribulations. All of these have been experienced by the Pampa High School Speech Department headed by Miss Billie Hutchings. These students spend many hours in rehearsal. Miss Hutchings, a member of Alpha Psi Omega, national dramatics fraternity, and Zeta Phi Eta, national association for outstanding women in the field of speech, believes a production is half lost with a bad selection of plays; therefore, Pampans can depend upon the choice of literary work to be entertaining when the department makes a presentation. Miss Hutchings received her Master of Arts degree from the University of Iowa.

"THE ELVES AND THE SHOEMAKER" was presented by the Children's Theater Class recently in a special matinee performance given for Pampa elementary school children. This type presentation will be repeated late in the spring by the class under the direction of Miss Hutchings. Ronal Patton, left, played Finello; Kenneth Van Sickle, center, played Widget; and Jerry Bray was Gremlo. This three-act play is the first play given by the Children's Theater Class.

"THE MAN WHO CAME TO DINNER" will be presented Feb. 9 by the Senior Class of Pampa High School. This is a story of Sheridan Whiteside, a famous orator, lecturer, radio personality, author and an intimate friend of the great and the near-great. Jerry Bray plays the lead role, with Miss Ann Jordan, center, playing the part of Miss Lorraine Sheldon, an actress and one of the ten best dressed women of the world. She is one of Whiteside's many rich and famous friends. Miss Joan Cantrell plays Whiteside's secretary, Maggie Cutler. She is one of the most sincere down-to-earth characters in the three-act play.

"TWELFTH NIGHT" will be presented March 23 by an all-school cast. Reggie Mayo, left, and Jean Martindale have leading roles in this play, a cutting of which will be given in Canyon for the Texas University Interscholastic League contest.

"RIO RITA," musical comedy, will be presented April 20 and 21 featuring Miss Ramona Meadows and Scotty Davey, pictured, double cast with Miss Mary Windsor and Sam Daugherty. This is a combined production of the Pampa High School Music and Speech departments. Kenneth Baumgardner is co-director of this production.

"TWELFTH NIGHT"

"RIO RITA"

Peg O' Pampa

HE WHO HESITATES IS LOST — that's what happened to Peg when she decided to wash Thursday instead of Wednesday. 'Cause the fifth day of the week turned into an afternoon and evening of blowing snow... and such beautiful weather we had been having too. No sir, you can't always "put off till tomorrow what you can do tomorrow"... not in this part of the country anyway.

OVERHEARD: Frank Pata and Mickey Ledrick talking about (of all things) recipes... but not so amazing when Peg found out that they both can cook "a mean dish." Frank's (Peg's told) specialty is spaghetti. This isn't his recipe (which Peg would like to have) but it is good Italian spaghetti...

1 can Italian tomato paste 1/2 cup grated Parmesan or Italian cheese
2 cans water 3 eggs
1 large can tomatoes 1 cup bread crumbs
1 small clove garlic 1 T. sugar
1 onion 2 T. parsley 1 T. pepper
1 lb. ground beef Salt
1-2 lb. ground pork Pepper

Fry onion in 1 heaping tablespoon of fat. Add tomato paste, two cans water. Let simmer and add the can of tomatoes, salt, and pepper to taste, and the sugar. Let this cook while preparing beef, pork ground together. Mix in bowl, add parsley, garlic, cheese, one cup of bread crumbs, eggs, and mix well. Salt to taste, and make into balls and brown in hot fat. Let cook slowly for about one hour in sauce mixture. Pour this over spaghetti, which has been cooked in salted water. Do not break spaghetti in pieces, leave in long strings... serve on hot plate with crispy crackers. (Here's where you can use that revolving spaghetti fork, that Peg has mentioned before... it's patented and out for sale now.)

"To love and honor are okay.
And one might promise to obey."
But what makes wives turn slowly gray,
Is what to cook each blessed day."

A GOOD JOB WAS certainly done by Paul Brown and Ben Ogden on the March of Dimes Marathon last Sunday as the results show... over two thousand dollars taken in. Also hats off to Rufe Jordan who displayed that the "show must go on" when he sang "I Ain't Got Nobody" from his sick bed. Remember the Lions Minstrel last year when Rufe got out of bed to sing the same song in the show? Yes sir, a real trouper.

NOW THEY HAVE THEM: For icy driving... metal clips for your tires. They take only a few seconds to snap on and are supposed to get through ice and mud much faster than chains.

BOY! STEAK is going to taste good after a diet of poached eggs, soup, and fruit juice. More people have been on soft foods lately. So you know what Peg means. The young'un came home from school telling me a good way to help prevent flu is "to eat lots and lots of fruit and drink lots of fruit juices, get lots and lots of rest, and drink lots and lots, and lots of water"... now they tell me.

PAMPA PANORAMA: Ellen Kough and Mrs. J. M. Nutting on their way to the annual Girl Scout Association installation banquet Monday night where both were among officers installed for the present year... lots of parties honoring Donna Robinson, bride-elect of Hugh Gracey, and daughter of Wayne and Loretta Robinson... Congratulations to Mrs. (Sara) Leverich on her election as president of Twentieth Century Allegro and Mrs. Rex (Maxine) Rose as the new prexy of Parent Education... Mrs. H. E. Crocker and Dolores Davis back from a visit in Oklahoma City (wonder if they brought back that Thursday snow with them?)... School out Friday, giving the kids an extra day to play, the teachers time to grade those important semester exam papers, and to make out report cards... Mrs. May Foreman Car coming out of the post office wearing one of those "hard to tell from real" red flower corsages... Mrs. W. A. Waggoner and Mrs. J. R. Spearman on way to Varietas Study Club to hear discussion on world religions... Ruth Sewell back in town after vacationing in California... B. O. Lilly, former Pampa, visiting friends here the past week from his home in Santa Ana, Calif. Congratulations to the Grover Lee Heiskella who are parents of a daughter born January 16 in Miami, Fla., where Grover is stationed as captain with the Marine Air Force... Hostesses Mmes. F. E. Imel, Ivey Duncan, George Scott, and J. B. Phelps Jr., postponing the Country Club bridge luncheon Friday, because of the impassable road to the club... The familiar scene of Pampans digging out of Thursday's freak snow-storm...

Father calls me Margaret.
Sister calls me Meg.
Mother calls me Peggy.
But you all call me...
PEG O' PAMPA

Foods Are Plentiful During February

Don't overlook the plentiful stocks of fresh cabbage in your grocer's bins during the next couple of months. A bumper crop of cabbages, a bumper crop of cabbages, a bumper crop of cabbages... at the head of the U.S. Department of Agriculture's February-plentiful-foods list.

Also a good buy will be raisins. About 295,000 tons of this nourishing treat assure ample supplies for all markets in weeks ahead. Another good seasonal buy during February will be oranges, and grapefruit. This year's production of oranges is expected to be nearly one-fifth greater than the average for the past ten years. And most of the increase is coming in the early and mid-season varieties. They'll be moving into the market in heavy volume very soon.

Though the total U. S. grape fruit crop is smaller, Florida's crop is above average and will account for nearly all of the fruit on the market. Reasonable prices may be expected for these, also processed oranges and grapefruit products. You can plan your main dishes around carrots, frozen fish, dry baby lima and pea beans, and turkeys. They're all in plentiful supply, too.

The remainder of the plentiful foods include: lettuce, domestic dried figs, almonds, filberts and walnuts. Also, peanuts and peanut butter, eggs, dairy products, and margarine, lard, vegetable shortening and salad oils.

American homemakers accept frozen food products as normal items in grocery stores. They can eat strawberries in January, black-eyed peas in September, turkeys in May, or corn on the cob in December, all as tasty and fresh as the day they came from the farm.

And this year we have a record 2,400,000,000 pounds of food in frozen storage, according to the U.S. Department of Agriculture's Production and Marketing Administration. British homemakers close to the same amount of food in cooler storage. That is, stored at above 29 degrees F.

Now, contrast our year-round food marketing with the system used in Great Britain. There, homemakers buy most of their food as the season permits. Very little of it is obtainable in frozen form.

I 1951, British homemakers found only about 19,000,000 pounds of frozen fruits and vegetables available. Since meat is severely rationed and only a small amount of their poultry is frozen, American production of frozen commodities exceeds Great Britain's by about 120 times.

America's cold storage industry results from great harvests of food, more than our population can consume in one growing season. This also puts us in the food export business and builds huge reserve stocks for future emergencies.

But Great Britain, a food importing country, has less use for freezing plants. Only 30 to 40 such plants are now in operation. We have hundreds. In addition, the average British making \$20 a week cannot afford to pay 24 cent for a 12-pound package of frozen green peas, for example.

MRS. BOBBY GENE PHILLIPS

Miss Pauline Allen Is Bride Of Bobby Phillips In Miami Ceremony

MIAMI (Special) — The setting, with white gardenias with long white streamers, Kenneth Lampkin of Amarillo, college friend of the bridegroom, was best man. Groomsmen were Arthur Lamb, of Amarillo; Fred Hansard Jr., of Canyon, and Gilbert Hatcher of Dallas.

Mrs. Allen chose for her daughter's wedding a floor-length ice-blue lace gown. Her ice-blue hat was encrusted with rhinestones and sequins. She wore long white lace gloves and a corsage of pink rose buds. The bridegroom's mother was attired in a costume of mal-lard blue faille in ballerina length. It was accented with a winter white hat and white accessories.

Mrs. Allen chose for her daughter's wedding a floor-length ice-blue lace gown. Her ice-blue hat was encrusted with rhinestones and sequins. She wore long white lace gloves and a corsage of pink rose buds. The bridegroom's mother was attired in a costume of mal-lard blue faille in ballerina length. It was accented with a winter white hat and white accessories.

The serving table was laid with white organdy cloth over aqua satin and centered with bouquet of white carnations and gladioli with aqua silver leaves. Tall aqua candles burned in silver holders. Mrs. Homer Allen and Mrs. Garrett Allen of Spearman, and Mrs. L. E. Gumm of Canyon, and Mrs. Clyde Hodges of Miami presided at the bride's table.

Included in the house party were Mrs. Horace Smith, Mrs. Theo Jenkins, Mrs. Grady Adcock, Mrs. Dale Low, Mrs. James A. Reeves, and Mrs. John Arrington. Miss Adelia Craig registered the guests.

For the wedding trip, Mrs. Phillips traveled in a smoke blue suit with white and navy accessories. Mrs. Phillips was graduated from Miami High School and is a junior at West Texas State College. She is a member of the Buffalo Mask-quers and Kappa Tau Phi Sorority.

The bridegroom is a graduate of Amarillo High School and Amarillo Junior College where he was a member of Tau Delta Fraternity and Badger Club. He is a senior at West Texas State and will receive his degree in May. The couple will make their home in Amarillo.

The bride wore a latticed seed-pearl collar, a gift from her mother. The something old was a coin that belonged to her paternal grandmother. Her bouquet was of white carnations centered with white streamers.

That's about the same price as we pay here, where the average wage is perhaps three times \$30 a week. Also, very few British homemakers have electric refrigerators. They must confine their perishable food buying to quantities which can be consumed the same day.

Remember these things when you're laying aside your corn on the cob this month, and reaching for some strawberry shortcake. American farmers and industrialists make a pretty good team, don't they?

Live In A New Home For A Planning Period Before You Make Decorations

Don't be too hasty in decorating your new house. "On should first live in it a while, putting up ends served as best they could, with odds and ends of furniture, until you are able to judge what you want and what the house needs," says House and Home Editor Mary Davis Gilles. Writing in McCall's for February, she tells how one young family planned in this way:

"This young family had a spacious living room 23' by 12', but it started out looking like a cluttered attic. But the young family bore with it for three months before they bought so much as an ashtray. Before refurnishing and during the planning period, unrelated odds and ends served as best they could. Since then, the family's old furniture has been transferred to other rooms, and borrowed things returned."

"First made out a long wish-list. I wish there were some way to lie down and read or watch TV — some place to put all our magazines and current books so they'd look neat — a good table it started out looking like a cluttered attic. But the young family bore with it for three months before they bought so much as an ashtray. Before refurnishing and during the planning period, unrelated odds and ends served as best they could. Since then, the family's old furniture has been transferred to other rooms, and borrowed things returned."

By GAYNOR MADDOX
NEA-Food and Markets Editor
If your family likes apples, they'll be delighted with this new apple pie.

Cinnamon Whiskey Glaze Pie (Serves 6)
To prepare the filling use: one-half cup sugar, 1/4 teaspoon salt, 2 tablespoons cornstarch, 1 tablespoon flour, 2 1/2 cups milk, 2 eggs, 1 tablespoon butter or margarine, 1 teaspoon vanilla, 9-inch baked pie shell.

Combine sugar with salt, cornstarch and flour; stir in milk and cook over low heat until mixture thickens and boils, stirring constantly. Boil for 2 minutes. Remove from heat and 1/2 cup of the mixture into beaten eggs. Return to heat and cook 1 minute longer, stirring constantly. Blend in butter and vanilla and cool. Spoon into baked pie shell and set aside.

For the Cinnamon Apple Glaze use: Two red apples, 1 cup water, 1/2 stick cinnamon, 1/4 cup sugar, 1/2 teaspoon red food coloring, 1 tablespoon cornstarch, 1 tablespoon cold water, pinch of salt. Peel and core apples and cut into eighths. Bring water to a boil, add cinnamon stick, sugar and red food coloring. Add apples from liquid. Mix cornstarch with cold water and salt, and stir into syrup left from cooking the apples.

Cook over low heat until thickened and clear. Cool slightly. Arrange apples over the top of cream filling and pour glaze over evenly. Chill.

A reader asks for a recipe for a large punch bowl, but doesn't want to go to a lot of bother. Here's one:
Lemon-Orange Barbecue Punch (Serves 48 4-ounce servings)
Four cans concentrate for lemonade (frozen or canned), 2 cans frozen orange juice, 1 quart ginger ale, water.

Blend concentrate for lemonade with water as directed on can and pour the lemonade into punch bowl. Combine frozen orange juice with water, following directions on can, and add to punch bowl. Just before serving, add ginger ale and ice and mix well.

to members of the local clubs for having coffees and luncheons to raise money for the March of Dimes fund.

Educational Rut
SCHENECTADY, N. Y. — UP — W. Richard Galt Duane Jr., is the ninth generation Duane to attend Union College here. The first of the line to be interested in the 168-year-old institution was Judge James Duane, a member of the Continental Congress and first mayor of New York City.

ENGAGED — Mrs. Hattie McWhorter of El Reno, Okla., has announced the engagement of her daughter, Miss Pat McWhorter, to Jack Dyer, son of Mr. Ray Dyer of El Reno. Father of the bride-elect, W. J. McWhorter, is a resident of Chickasha, Okla. Date of the wedding has not been announced. Miss McWhorter, sister of Mrs. O. G. Ferguson of Pampa, was a resident of Pampa until 1946.

MD Advises On Hearing Defects In Children

Impaired hearing in children can be remedied in nine out of ten cases provided that the condition is detected early and treatment begun immediately. Allergies and the neglect due to depending on "wonder drugs" are among some of the causes of deafness, according to Dr. David I. Frank, who discusses the problem of deafness in McCall's for February.

"About 90 per cent of impaired hearing in children can be remedied. Early detection and immediate treatment are important; delay can cause permanent impairment. Unless a serious illness or hearing injury caused your child's loss of hearing, chances for improvement of hearing are good."

"In the outer ear some of the causes of deafness are wax, foreign bodies, growths or chronic infections — all correctible. In the middle ear, where most remedial causes occur, an abscess or a swelling from an infection. Allergies also cause swelling. Diseased tonsils and adenoids, sinus infections, nose obstruction may be other removable causes. Inner-ear damage is usually most serious, may have been caused by head injuries, drugs or infectious illness. It may also be congenital. Promiscuous use of sulfa, penicillin and so forth can also indirectly cause hearing damage. These drugs do reduce danger from infections, but if an abscess of the middle ear is present, it must be incised. The absence of pain and fever, due to a 'wonder drug,' may not mean the infection has cleared up. Relying on the doctor's advice can be dangerous."

"Allergies may cause swelling in any part of the hearing apparatus and thus interfere with proper reception of sound; if adequate treatment is not instituted early, the swelling will become permanent and so will the hearing impairment."

"The average two-year-old cannot be fitted with a hearing aid but every attempt should be made to do so. Winning the confidence of the child by presenting the hearing aid as a game may occasionally permit for success, which will mean all the difference in his learning to talk properly. If a small degree of sound can be transmitted through the aid, the child will benefit greatly because stimulation of speech is thus accomplished."

GAMMA CHAPTER OF THE DELPHIAN SOCIETY met in the home of Mrs. Chester Thompson Thursday morning for coffee and to sign the charter of Gamma Chapter. The social committee consisting of Mmes. Knox Kinard, D. P. Bonner, Sam Cook and E. T. Cleveland had charge of the coffee which was served from a lace-covered table centered with pink carnations. Mrs. J. F. Curtis presided at the coffee service. Fourteen members were present for the ceremony of signing. Present were Mmes. D. P. Bonner, H. H. Boynton, W. L. Campbell, J. F. Curtis, Alfred Cowan, W. R. Ewing, Georges Hrdlaca, Knox Kinard, R. W. Karr, Azelle Loftus, Ervin Pursley, J. D. Schroedel, W. D. Waters and the hostess, Mrs. Thompson.

MATURE PARENT

By MURIEL LAWRENCE

A month ago, Jennifer caught cold. She was kept in bed for three days and in the house for two more. On the fifth day, she was sent out into the yard to get some fresh spring air. As her mother zipped Jennifer into her brown snowsuit, she said, "I shouldn't be letting you go outdoors today. If you catch more cold you may get very ill."

Jennifer did not remain in the yard very long. The next day, when she was told to put on her snowsuit, she found that her doll needed a blanket that had been left upstairs. Next, she wanted a glass of water. Thirst quenched, she announced that the snowsuit straps over her shoulders "pulled." Her mother, after 20 minutes of alibis, impatience, tears, and squirms, Jennifer was sent outside to enjoy herself.

After a few days of this, Jennifer's prejudice against going outdoors to play had reached a point where only a strong man could put her into her snowsuit. Did she resist because of the hint that fresh air might make her sick?

Yes, this fear was part of her objection. Mostly, however, Jennifer was frightened by the idea of having a mother who kept insisting, day after day, on sending her out into this place "where you may get very ill."

A child, Jennifer knows, must trust a mother's judgment on things harmless or hurtful. To find this trusted creature bent on sending out her little girl into the "outdoors" which she herself admits is a dangerous place — well, if you're the child of such a mother, this is an alarming experience. You fight a snowsuit forced on you by a mother like that for all you're worth.

Suppose Jennifer's mother is afraid of her catching more cold? Must we be forever censoring what we say to children because they scare so easily?

No, we don't have to. Children do not scare easily unless we keep them all stirred up with our half-baked decision. These are indeed trouble-makers involving us in perpetual, fearful, vacillating procon discussions of the hazards of this possible action against the hazards of another.

If Jennifer's mother had resolved her own doubts about sending her convalescent child outdoors — before acting on her half-baked decision, she would have had no doubts slinging about to harass the youngster with Jennifer's mother is embattled with her daughter because of indecisiveness.

Young children are uncomplicated people and are happy when we uncomplicate life for them by making simple, clear-cut decisions for them.

If we believe that going out will give them more cold, they will be grateful if we keep them in. If, on the other hand, we make up our minds that we think a little fresh air would be fine for them, they will appreciate our sending them out confidently, as though we had respect for our own decision.

If we lack confidence in our action, they lose confidence in it.

"THE VIOLIN" is viewed at the Pampa Public Library here by city officials. The New Mexico exhibit of modern art is sponsored by Pampa Art Club. This exhibit is open to the public and will remain in Pampa during this week.

Orthodontics Remolds Faces

By ALICIA HART

NEA Beauty Editor

Even when you aren't smiling, others can "see" your teeth. They reveal their shape and arrangement in the entire structure of the lower part of your face.

If you're dissatisfied with the outline of your jaw and the set of your upper and lower lips, your dentist can perform wonders in making these facial contours prettier.

Even one vacancy in your mouth which is not immediately filled by an artificial tooth will eventually throw the other teeth out of line. As the other teeth shift out of position, the muscles of the face sag and the height of the face is shortened. This factor of tooth neglect alone is responsible for an old look on many faces that would still look young if each tooth lost was immediately replaced.

Do you realize that if you should have had orthodontic (tooth-straightening) treatment as a child and didn't, you can still have it done?

Orthodontics was once confined largely to children but, according to Dr. J. A. Salzmann, head of orthodontics at Mt. Sinai Hospital, New York City, dentists trained in this specialty are now correcting bad tooth-arrangement in more and more adults. They use fine wires, small rubber elastics, and plates, made of plastic and other materials.

It takes a series of visits to orthodontic specialists but after some time these adults are rewarded by redesigned facial contours — and you will indeed have a jumpy, angry little boy or girl.

Attends Fashion Showings In Dallas

Helene Maderia has been in Dallas attending the American Fashion Association's Spring and Summer Market, held at the Adolphus, Baker and Blue Bonnet Hotels, this week.

"Summer Extras" was the theme of the American Fashion breakfast clinic style shows which were presented on Tuesday and Wednesday at the Baker Hotel. Seven summer themes were staged, previewing graduation, wedding, trousseau, and weekend costumes for the coming season. Each garment modeled is taken from current lines shown in the market.

Steady, good care helps you keep your own teeth longer. Many Americans don't take enough time when they brush their teeth. They spread a huge gob of paste on a dripping brush, give a hasty scrub and are finished.

This is not only wasteful of toothpaste but of time as well. They waste that time spent on their teeth because they accomplish nothing.

If you are of that number, use less toothpaste or powder and a dry or damp brush and prepare to spend at least three minutes on your teeth. The front and back and grinding surface of each and every tooth must be gone over with the brush, using a sweeping rather than a scrubbing motion. Do this after each meal if possible, or at least twice a day.

Piano Pupils Will Present Recital

Piano students from the class of Mrs. H. A. Yoder will be presented in a recital this afternoon at the Central Baptist Church.

Pupils of all ages will play, including four students who have prepared records for the International Recording Festival which is sponsored by the National Guild of Piano Teachers.

Assisting in this recital will be "The Blue Notes," ninth grade girls' sextette directed by Miss Carolyn Boyle, who will sing two numbers. The piano students will present solos and duets. Of special interest will be the premiere Ballade by Chopin played by June Guili.

To be presented are Francine Forrester, Cecily and Jocelyn Morgan, Becky and Donna Walsh, Gail Cole, Linda Andis, Susan Kay, Nora and Sheila Nelson, Vicki Payne, Linda Woodall, LaVonna Andrus, Johnlyn Mitchell, Marcia Ward, Mary Ann and Martha Lou Kelley, Virginia Hopkins, Donna Tarpley, John Campbell, Joy Dawn Vanderburg, Linda Skewes, Kay Waggoner, Tommy Gindorf, Donald Bruns, Nancy McConnell, Margaret Scott, Sarah Lou Hamly, Carol Hughes, Charlotte Parker, Sue Foster and June Guili. Members of "The Blue Notes" are Jerry Hill, Janice Spencer, Mary Pippen, Betty Hogsett, Donna Hegwer, Lynn Followell, and Nancy Coley, accompanist.

The public is invited to attend this recital.

SOCIAL CALENDAR

SUNDAY

2:30 — Gray County Community Singers Association will meet in Pentecostal Holiness Church.
3:00 — Piano pupils of Mrs. H. A. Yoder will be presented in recital in the Central Baptist Church.

8:00 — De Pauw Infirmary Chorus, Community Concert, Junior High School Auditorium.

FRIDAY

6:30 — The Gavel Club will have regular covered dish dinner in home of Mrs. Wilson Hatcher, 210 North Gillespie with Mrs. Artie Reher co-hostess. Gifts will be exchanged by secret pals.

Pampan On Faculty Of Youth Training School

Miss Dorothy Benson is a member of the faculty for the Interdenominational Leadership Training School starting today and scheduled to go through Thursday in Amarillo.

Miss Benson of the First Presbyterian Church will lead a training course in "Junior Department of the Church School."

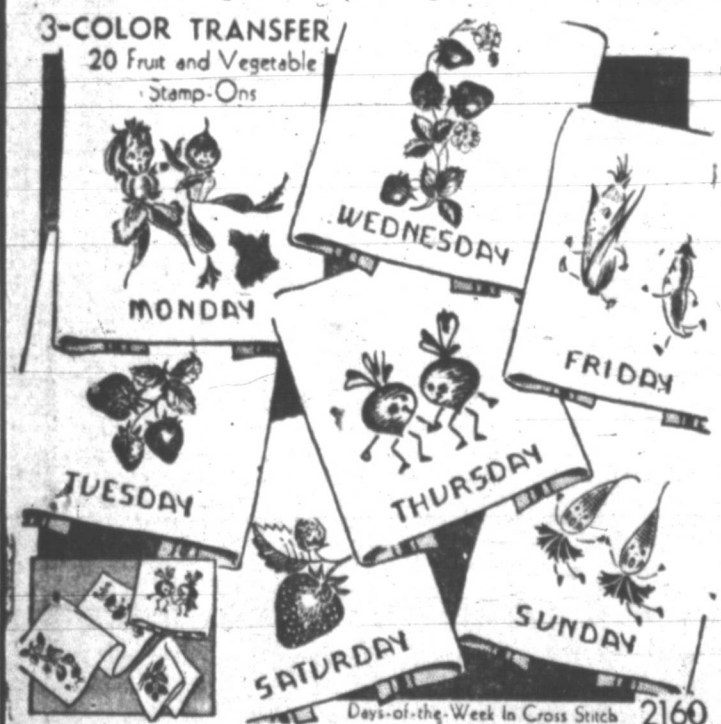

The training course is in connection with United Christian Youth Activity Week. Meetings will be held in the Amarillo First Christian Church.

MISS RAYNELL WRIGHT

MR. AND MRS. A. L. WRIGHT, 949 Barnard, announce the engagement of their daughter, Miss Raynell Wright, to Jeff Melton Anderson, son of Mr. and Mrs. Lee Anderson, Harleton, Texas. The wedding will be held February 2 in Clayton, N. M.

Colorful Stamp-Ons And Gay Cross Stitch

A combination hard to beat! Just iron off the design and finish by embroidering the day-of-the-week in cross stitch. This set of towels will add a note of color to your kitchen, and there will be enough motifs left to trim other linens.

Pattern No. 2160 contains color stamp-on for 20 vegetable and fruit designs, hot-iron transfer for days-of-the-week in cross stitch, and transferring and laundering directions.

Send 25 cents in COINS, your name, address and the PATTERN NUMBER to ANNE CABOT (Pampa News), 1150 Ave. Americas, New York 36, N. Y.

Presenting the NEW Anne Cabot Needlework Album, Directions for puppet mittens, basic embroidery stitches and grand designs are printed in this issue, 30 cents.

Tips For Tasks

Fresh grated coconuts taste like something out of this world. Place the whole coconut in a warm oven after the gas is turned off. Leave the coconut in the oven for a half hour for the shell to crack. Puncture the three eyes and pry off the shell with a screw driver or spoon. Grate on a coarse grater and pour the coconut milk over the grated

Make Slipcovers, Drapes, Save Money

By GAILE DUGAS

NEA Woman's Editor

NEW YORK — (NEA) — In any decorating project, large or small, costs are appreciably higher if you hire all your work done. Even though you have your own ideas, it costs to have someone else execute them.

Many housewives are adept, not only at painting, but at wallpapering, too. They've learned how from sheer necessity, in times when the budget wouldn't stand for an expert painter or paper-hanger.

In our decorating project, the apartment owner told that the paint and paper should be handled by experts. She didn't feel that she could do an adequate job. But she could and did cut corners by making her own slipcovers and drapes. This seemed the logical place to show a saving in the budget.

She had had previous sewing experience, which proved a great help. But even if she had not, there are excellent patterns and instruction books available that would have told her just how to proceed, step by step.

She was helped in her sewing by a machine that literally performs wonders. It does zigzag stitching, overcasts edges, makes blind stitches, applies embroideries, sews on hooks-and-eyes, sews on button, makes button holes of any length and mends and darns, all without special attachments.

all without special attachment like a television cabinet. The cabinet conceals a matching chair, and a deep storage drawer to keep sewing odds-and-ends out of sight.

In planning your decorating project, try to plan to do at least a part of the work yourself. This will give you more leeway for the particular paint or fabric that you want and will make it unnecessary for you to skimp on anything.

Imagination and skill that you develop make a combination unbeatable in giving your home charm and personality.

switching it back to something more personal.

Her own interests are so narrow she feels lost when the conversation gets beyond children and household problems and is always determined to bring it back to some domestic topic on which she feels she can speak with authority.

Such women never listen attentively and intelligently to what others have to say.

And because they don't, they really get nothing from even the most stimulating conversations.

If they would only listen while other people talk they would not only learn a lot, but they might find that they really do have something worthwhile to contribute to the conversation.

REDUCING?

TRY DIAMEL

DIETETIC FOODS

The sure, sensible way to reduce is to cut down your caloric intake. Do it easily, tastily, deliciously with DIAMEL dietetic foods... specially prepared for use in short and sugar restricted diets. Food analysis on every package enables you to arrange your dietetic menu. Come in and ask for Free booklet.

Panhandle Oil Field Pace Continues To Show Increase

Two Wildcats Staked; One Is Completed

Oil field activity indicated a continued rise during the past week as operators filed for 12 new locations and completed 14 locations.

Among the new locations were two Anadarko Basin tests, one of which is in the booming Quindaro Field of Roberts County. The other is a dolomite test in Lipscomb County.

Completion report was filed during the past week on Shamrock O&G Co.'s No. 2 Maddox, another Quindaro test. Potential was set at 398 barrels on 24-hour Railroad Commission test.

The following is a run-down on activity for the seven-day period:

Texas Will Lead The Nation In Wildcatting During 1953

Texas will be the biggest wildcatting area of the country this year - the site of nearly half of all the exploratory wells scheduled for drilling in 1953.

Oil and gas operators plan to drill 5,181 wildcat wells in Texas this year, which is 46 per cent

of the 11,115 wildcats scheduled for the entire United States. For Texas this is an increase of 300 wildcats over the 1952 record, and the state thus accounts for 55 per cent of the total increase of 544 wildcats to be drilled.

These figures are revealed in the annual review and forecast issue of the Oil and Gas Journal and are based on survey of the drilling programs of large and small operators throughout the country.

Development drilling in known fields is expected to decline in many areas and by a total of 154 wells for the entire country. In Texas the decline in activity in the Spraberry Trend is largely responsible for the forecast that the state will be 988 fewer than last year and will total 11,125.

This is a total of 16,579 wells scheduled for Texas this year compared with 16,845 completed in 1952, a decline of 266.

Drilling activity in Texas hit a new record high last year. The 15,845 wells completed had a total footage of 82,450,954 feet, an average depth of 4,301 feet per well. Of this total, 9,862 were successful in finding oil. 778 were completed as gas wells, and

6,532 were dry. There were also 33 service wells drilled during the year. The 4,851 Texas wildcats in 1952 resulted in 823 oil discoveries, 128 gas discoveries, and 3,902 dry holes, a success ratio of 16.6 per cent for the state.

Production of crude oil and lease condensate in Texas during 1952 totaled 1,035,173,000 barrels, a new record for the state and 45 per cent of the total production of the United States. This was an average of 2,822,377 barrels per day, and an average of 20.6 barrels per day per well from the state's 138,975 producing wells.

The United Press survey showed Chairman Daniel A. Reed (R-N.Y.) of the tax-writing House Ways and Means committee, against changes now, and oil and mining state law makers lined up solidly behind him.

In addition the American Taxpayers Association and the Independent Petroleum Association of America are ready to give the opposition forces their support.

Rayburn Against Change
Vice President Daniel Casey of the Taxpayers Association, which numbers oil and mining interests among its members, said flatly "there is little likelihood of change," especially with House Democratic Leader Sam Rayburn of Texas in the "no-change" camp.

General Counsel Russell Brown of the IPAA, said an occasional review of the tax laws is necessary but "there is nothing to warrant altering the depletion provisions."

Sens. Douglas and Humphrey caused most of the furor over the issue in the 81st and 82nd Congresses. In effect, they subscribed to former President Truman's view that the present allowances are a "grave bowl" of loopholes which make the rich richer at the expense of all the taxpayers.

Douglas said he plans "at this time." But Humphrey said "several of us are continuing to study the matter. We are waiting to see what type of tax legislation the Eisenhower administration comes up with. When the occasion presents itself we will have new suggestions on depletion allowance."

Depletion deductions, for income tax purposes, range from 10 per cent for coal to 27-1/2 per cent for oil and gas. They correspond, but far more generously, to depreciation allowances for factory plants and equipment.

Mr. Truman persisted in a fight to have them cut from 5 to 12-1/2 per cent but got nowhere. He wanted the oil and gas allowance cut to 15 per cent; sulphur, a big cousin of oil in the Southwest, from 23 to 15 per cent; metals unchanged at 15 per cent, and coal from 10 to 5 per cent.

Privilege Charged
His purpose was to bring in \$750 million more in annual revenue and revise a system which he argued allows a "privileged group" to recover tax free, all its originally invested capital.

Humphrey went further. He said "it is a shocking fact that writing tax legislation has come to resemble the log-rolling and pork barrel of special interest groups" and "is undermining the integrity of the tax system."

The survey was made in advance of President Eisenhower's first State of the Union message which he will deliver in person next week. It is not known whether he will make specific tax recommendations but present high taxes were a major issue in his election campaign.

PAMPA NEWS, SUNDAY, JANUARY 25, 1953 Page 15

Wildcat Reports

COTTLE COUNTY
Gulf Oil Corp. No. 1 C. D. Shamberger, Sec. 5, P. P. Knott Survey, 660 feet from S&W-L; drilling below 4,353 feet.

HANSFORD COUNTY
J. M. Huber Corp. No. 1 Owenbey, Sec. 33, Blk. 3-T, GH&H, flowed 26 barrels oil 24 hours through 128 perforations 5,280-76 feet; gas gauged 2,100 MCF; casing pressure 520; tubing pressure 415 pounds.

Phillips No. 1 Bivins GG, Sec. 28, Blk. 21, CSL, 330 feet from S&W-L; coring below 5,666 feet.

Sinclair O&G Co. No. 1 Mary E. Bivins, Sec. 20, Blk. 21, CSL, 330 feet from N&W-L; drilling below 5,426 feet in limestone.

OCHILTREE COUNTY
The Texas Co. No. 2 C. S. McGarrath "B," NCT-1; Sec. 139, Blk. 12, T&NO, 660 feet from N-1, 1,980 feet from W-L; drilling below 1,186 feet in shale.

Lewis W. Welch No. 1 M. L. Brillheart, Sec. 926, Blk. 43, H&TC, 660 feet from N&W-L of E-2; drilling below 4,040 feet in lime and shale.

OLDHAM COUNTY
Ray A. Although No. 2 Matador L&C Co., Sec. 93, Blk. 7, EL&RR, 1,090 feet from E; 2,346 feet from S-L; drilling below 2,476 feet in granite wash.

ROBERTS COUNTY
Gulf Oil Corp. No. 3 John Haggard, Sec. 20, Blk. 2, I&GN, 660 feet from N&W-L; cored 6,880-8,910 feet; recovered 60 feet granite wash and sandstone; drillstem test 66-581-6,940 feet, open 1 hour, medium blow decreased to 0; recovered 139 feet drilling mud; 4,570 feet saltwater, flowing pressure 900-2,300 pounds; 20 minute shut in pressure 2,500; hydrostatic pressure 3,200 pounds; coring ahead.

Gulf Oil Corp. No. 4 John Haggard, Sec. 199, Blk. M-2, BS&F, 1,980 feet from N&W-L; perforated 12 shots 4,119-22 feet; spotted 200 gallons mud acid at 4,121 feet; pumps.

Gulf Oil Corp. No. 6 John Haggard, Sec. 19, Blk. 2, I&GN, 660 feet from S; 1,380 feet from W-L; flowed 26.8 barrels oil, 17.7 barrels water through 1/4-inch choke in 13 hours; gas gauged 820 MCF; GOR 16.701; killed well, perforated 4,109-01; ran tubing and packer at 4,109 feet; set plug at 4,110 feet; ran tubing and packer at 4,098-4,101 feet; swabbed 10 barrels mud to pit in 1 1/2 hours; well kicked off, flowed through 5/32-inch choke 1,790 MCF, gas no fluid; then flowed 2 barrels oil, 2 barrels water on 1/2-inch choke in 7 1/2 hours; set retainer 4,099 feet; perforated 12 shots 4,112-17 feet, swabbing.

Gulf Oil Corp. No. 8 John Haggard, Sec. 5, Blk. 2, I&GN, 1980 feet from S; 660 feet from W-L; swabbed 11.8 barrels oil, 62 barrels saltwater in 24 hours; swabbed 26.7 barrels salt water, trace gas in 6 1/2 hours.

Gulf Oil Corp. No. 2 McCustion, Sec. 193, Blk. M-2, BS&F, 660 feet from S&E-L of N-2; drilling below 200 feet.

Gulf Oil Corp. No. 3 McCustion "A," Sec. 193, Blk. M-2, BS&F, 660 feet from S; 1,880 feet from W-L of S-2; drilled to 6,898 feet; DST 4683-98, open 1 hour, recovered 20 feet of mud; well blew out sprayed oil and gas emulsion mud 1 1/2 hours; gas estimated 20,000 MCF. Believed from brown dolomite about 4,100 feet. Cored 6,698-6,733 feet; recovered 33 feet black shale with vertical fractures; drilled to 6,794 feet; DST 6,745-94 feet, open one hour, good flow decreasing to zero; recovered 180 feet mud, 4,410 feet saltwater; flowing pressure 1,575-2,275; 20-minute shut-in pressure 2,275 pounds; hydrostatic pressure 3,250; testing in granite wash and arkose limestone.

Alert For Ochoa's Return
LAREDO, Tex., Jan. 25-UP—Laredo police Chief David O. Gallagher said Saturday he will serve a warrant for the extradition of George Ochoa "whenever they extradite him from Mexico or he comes back across the Rio Grande of his own accord." Gallagher made the statement because he said he heard reports that Ochoa, now held at Mexico City, was anxious to return to Laredo.

Nothing To Fear . . . No Attempts Seen To Cut Depletion

WASHINGTON, January 25 -UP- The oil, gas and mining industries have nothing to fear from new attempts this year to cut their "depletion allowance" tax benefits, a spot check of Congress revealed Saturday.

Two influential Senate Democrats, Paul H. Douglas, Illinois, and Hubert Humphrey, Minnesota, may launch such a campaign, depending on what kind of tax bill President Eisenhower proposes. But they face formidable opposition.

The United Press survey showed Chairman Daniel A. Reed (R-N.Y.) of the tax-writing House Ways and Means committee, against changes now, and oil and mining state law makers lined up solidly behind him.

In addition the American Taxpayers Association and the Independent Petroleum Association of America are ready to give the opposition forces their support.

Rayburn Against Change
Vice President Daniel Casey of the Taxpayers Association, which numbers oil and mining interests among its members, said flatly "there is little likelihood of change," especially with House Democratic Leader Sam Rayburn of Texas in the "no-change" camp.

General Counsel Russell Brown of the IPAA, said an occasional review of the tax laws is necessary but "there is nothing to warrant altering the depletion provisions."

Sens. Douglas and Humphrey caused most of the furor over the issue in the 81st and 82nd Congresses. In effect, they subscribed to former President Truman's view that the present allowances are a "grave bowl" of loopholes which make the rich richer at the expense of all the taxpayers.

Douglas said he plans "at this time." But Humphrey said "several of us are continuing to study the matter. We are waiting to see what type of tax legislation the Eisenhower administration comes up with. When the occasion presents itself we will have new suggestions on depletion allowance."

Depletion deductions, for income tax purposes, range from 10 per cent for coal to 27-1/2 per cent for oil and gas. They correspond, but far more generously, to depreciation allowances for factory plants and equipment.

Mr. Truman persisted in a fight to have them cut from 5 to 12-1/2 per cent but got nowhere. He wanted the oil and gas allowance cut to 15 per cent; sulphur, a big cousin of oil in the Southwest, from 23 to 15 per cent; metals unchanged at 15 per cent, and coal from 10 to 5 per cent.

Privilege Charged
His purpose was to bring in \$750 million more in annual revenue and revise a system which he argued allows a "privileged group" to recover tax free, all its originally invested capital.

Humphrey went further. He said "it is a shocking fact that writing tax legislation has come to resemble the log-rolling and pork barrel of special interest groups" and "is undermining the integrity of the tax system."

The survey was made in advance of President Eisenhower's first State of the Union message which he will deliver in person next week. It is not known whether he will make specific tax recommendations but present high taxes were a major issue in his election campaign.

Rig Activity In Nation Declines

DALLAS - A total of 2,652 rigs were active in oilfields of the United States and Canada for the week of January 19, 1953, according to a report to American Association of Oilwell Drilling Companies by Hughes Tool Company.

A comparison by principal areas for the past two weeks shows: Pacific Coast, 179, down 5; Oklahoma, 329, up 1; Kansas, 151, down 11; Rocky Mountain, 215, down 7; Canada, 165, down 3; Ark-La-Tex, 139, up 1; West Texas & New Mexico, 442, down 14; Gulf Coast, 608, up 1; Illinois, 89, down 8; North Texas, 220, down 8.

Brownell Is Expected To Ask Delay On Oil Cartel Decision

WASHINGTON, Jan. 25 -UP- Attorney General Herbert Brownell Jr. must decide next week whether to prosecute the Truman-inspired International Oil cartel case, drop it, or ask for a court delay until he has time to review the matter. The best informed guess Saturday was that he would ask for a delay.

His decision may come Monday. He must make up his mind by Wednesday, the deadline set by Federal Judge James R. Kirkland for the accused companies to present records subpoenaed for a federal grand jury investigation.

The inquiry was started last summer on former President Truman's orders by ex-Attorney General James P. McGranery. The objective was a criminal indictment if the companies were found to monopolizing the free world oil market through price-fixing and other allegedly collusive arrangements.

Brownell and President Eisenhower inherited the case when the Republican administration took office Jan. 20. Before this Mr. Truman had offered to drop the criminal proceedings if the accused would produce the same controversial documents in a civil suit.

This action, aimed at an eventual "cease and desist" consent decree, was turned down as "blackmail" by Standard Oil Company (New Jersey) and the other alleged cartelists.

The stalemate caused Judge Kirkland to throw the whole case into Brownell's lap, with inferential orders that the new administration make up its mind whether

tractors by Hughes Tool Company. This compares with 2,705 reported a week ago, 3,032 a month ago, and with 2,981 in the comparable week of 1952.

A comparison by principal areas for the past two weeks shows: Pacific Coast, 179, down 5; Oklahoma, 329, up 1; Kansas, 151, down 11; Rocky Mountain, 215, down 7; Canada, 165, down 3; Ark-La-Tex, 139, up 1; West Texas & New Mexico, 442, down 14; Gulf Coast, 608, up 1; Illinois, 89, down 8; North Texas, 220, down 8.

Some quarters believe President Eisenhower and Secretary of State John Foster Dulles will have to make the final decision on prosecution.

The subpoenaed documents are said to reveal the companies' secret financial, diplomatic, structure in the world oil market. The firms claim that exposing it would amount to a breach of security which could imperil the nation's global interests.

Some quarters believe President Eisenhower and Secretary of State John Foster Dulles will have to make the final decision on prosecution.

They'll Do It Every Time

By Jimmy Hatlo

GIVE UP BROTHERS YOU CAN'T WIN—WAKE HER UP—THE GROWLS BEGIN—

NEXT TIME GO IN NICE AND QUIET—DON'T TRY TO REASON—SHE WON'T BUY IT—

YOU BIG OX!! DO YOU HAVE TO STAMP AND THROW YOURSELF AROUND LIKE THAT? YOU WOKE ME UP!!

OW!!

YOU DIRTY SNEAK! CRAWLING IN LIKE A WEASEL! YOU DON'T FOOL ME! WHERE'VE YOU BEEN? WHAT TIME IS IT? WHY SO QUIET? GUILTY CONSCIENCE, EH?

THANK AND A TIDY TO THE HATLO! BY THE WAY, MAE ROSS LOVES YOU, N.C.

Pressure Off Inspection Law

AUSTIN, Jan. 25.—UP—The author of a bill to retain Texas' controversial automobile inspection law said Saturday sentiment in "running strong" against repeal of the act and predicted it will stay on the books.

Rep. D. H. Buchanan of Longview praised the law as one that "has done more than any other single law in the past 15 years to save human lives."

He has introduced a bill which he said "meets all the reasonable objections raised last year to the present law. It will give Texas a 'workable inspection'."

Buchanan added that "last summer sentiment was so strong against it that the law might have been repealed almost without debate if the Legislature had been in session."

However, he said, since then "members of the Legislature, like the public, found that only the wording of the law, not the purpose, was bad."

"During this first week of the Legislature," Buchanan said, "I have found that the tide is running strong against repeal of the measure and the repeal bills will not receive serious consideration."

Bills calling for outright repeal of the inspection law have been introduced in both House and Senate.

Deadly Virus Still Alive After 25 Years In Forgotten Test Tube

AN ARBOR, Mich., Jan. 25.—UP—The University of Michigan Saturday announced discovery of a deadly virus that still lives after 25 years in a lost test tube.

The test tube was found during the cleaning of a bacteriology laboratory, although a long search was given up years ago.

The virus was still potent enough to kill a rat when placed in a sub-microscopic one ten-billionth of a drop of fluid and injected in the blood stream.

May Revise Thinking

Bacteriologists agreed that re-discovery of the living microorganism may bring about a major revision in scientific thought in the field of bacteriology, although they hesitated to predict what changes might be made.

This most potent of all known viruses was named the "Novy rat virus" in honor of its discoverer, Dr. Frederic G. Novy. He was one of the nation's first bacteriologists.

former head of the Michigan Hygienic Laboratory and dean of the medical school.

Now retired, Novy has the title of both dean and professor emeritus.

"It is hard to explain how it feels to learn that this virus still lives," Novy said at his home. "There was a time when I thought my work was just about done. Now I learn that the fruits of my labor are just beginning to be harvested."

Dr. Novy explained that viruses usually require the presence of living animal cells in order to survive and multiply. Most of the 100 viruses known to science die within a few days after they are removed from the living host cell.

"No one knows what our prodigal virus will do to humans," Novy said. "So far, only rats have been used in experimental work, and the virus shows itself to be very powerful—perhaps very dangerous if it used the wrong way."

More Like A Baker Than A Killer . . . There's No Room For Chances, Says Leading Jet Ace In Korea

AN AIRBASE (Korea, Jan. 25)—UP—The leading jet ace in Korea behaves more like a baker than a killer.

He's a quiet, 34-year-old father of four children who said Saturday in a room full of chattering young fliers, "I don't take chances."

The lead-faced Texan, Col. Royal N. Baker, has shot down eight Communist MIGs and one LA-9. Every plane he ever caught in his sights, he destroyed. He has no damage claims.

Baker, of McKinney, Tex., passed up a chance two days ago to get his ninth MIG because of his sense of discipline and teamwork.

"There's no room for a daredevil in my outfit," he said. The handsome colonel commands the Fourth Fighter-Interceptor Group, which is credited with the record number of MIG kills.

"I would have had another MIG," he said, "but I could have justified myself to my men."

Baker believes that a commander—like a father—should set the example. For him, MIG killing is a scientific process based on teamwork.

He got his eighth MIG on a sweep over the Yalu River. "It was one of those days you dream about," he said. "It was like the first MIG I got after going 42 missions in the doldrums without a claim."

"I got word that there were bandit tracks near Anju in the same formation we use," he said. "I started after one, then changed my mind. Another one looked closer and better."

Baker chased the MIG down to 1,600 feet, firing short, methodical bursts that hit every time in the wing or fuselage.

"The other three bandits broke up in the sun," he said. "And I told my guys to tail them. That's one of their favorite tactics. They let you get after one and then scissor back on your tail."

"The Texan fired until the Communist pilot bailed out of the smoldering MIG. After the pilot ejected," Baker said, "the plane went up and back over me and almost hit me, but my wingman told me to break away. He saw it crash."

Baker and his formation rushed back to join the dogfights to the north. On the way, he spotted one lone MIG flying fast and low to the south.

Plays It Safe

"I started down after him," Baker said. "It would have been a sure kill, but my wingman lost me in the sun, so I let it go. I would have had to go down without protection from behind."

In the same breath, Baker told about another MIG he could have gotten if he had not been running low on fuel.

The youthful looking colonel said his children—two boys and a girl—were too young to realize fully what he was doing in Korea.

"They get a general idea," he said, "because other kids in school show them pictures or clippings of me."

What does his wife think?

Baker laughed fondly. "She tells me not to get too cocky," he said, "but she doesn't worry about me not coming back. She knows I'm not a damn bit cocky."

★ EDSON IN WASHINGTON ★

Here's How Nixon Was Picked As President's Running Mate

By PETER EDSON
NEA Washington Correspondent

WASHINGTON — (NEA) — The story of how Sen. Richard M. Nixon of California was picked to be Republican vice-presidential candidate can now be told in full and for the first time. Vice President Nixon himself said he didn't know how he came to be chosen as President Eisenhower's running mate, when asked about it on a "Meet the Press" television interview last fall. Nixon said he hadn't taken any trouble to find out. It was an honest answer. But for his information now, this is how it happened.

After General Eisenhower's nomination at Chicago, early in the afternoon of July 11, a meeting of representatives of all the Republican presidential candidates was called on the 11th floor of the Conrad Hilton hotel. The purpose was to pick a vice-presidential candidate.

Sen. Henry Cabot Lodge of Massachusetts, national chairman of the Eisenhower-for-President drive, called the meeting. He asked Wesley Roberts of Kansas, who had been working with Herbert Brownell on the Eisenhower delegate round-up, to get the group together. There were Taft, Warren and Stassen men there, and all the Republican governors who could be reached. But mostly they were the Eisenhower convention floor leaders. General Eisenhower himself was not present.

No minutes of the meeting were kept and no attendance records. There were 20 to 30 in all. Among them: Governors Thornton of Colorado, Fine of Pennsylvania, Adams of New Hampshire, Dewey of New York, Lodge of Connecticut, McKay of Oregon, Beardley of Iowa.

Senators Lodge of Massachusetts, Carlson of Kansas, Duff of Pennsylvania, Smith of New Jersey, Herbert Brownell of New York, Arthur Summerfield of Michigan, Sinclair Weeks of Massachusetts, Russell Sprague of New York, Jack Porter of Texas, Gene Pulliam of Indiana, Paul Hoffman of California, Rep. Christian A. Herter, now governor of Massachusetts, and a few other congressmen.

Memories of the meeting have grown dim with the passing of time, and there is some reluctance to talk about it. GOP National Chairman Arthur Summerfield, the new postmaster general, told this reporter during the campaign that he would tell the story after the election. To tell the story before might give the wrong impression. After the election, Mr. Summerfield begged off with the explanation that nobody was interested in that now. But from various sources the story has been pieced together. "It was far from a smoke-filled room at midnight," one informant recalls. It was mid-afternoon and hot as — Chicago. The windows were wide open, but there was

no breeze and no air conditioning.

Senator Lodge presided. The rule was that anyone who suggested a vice-presidential candidate would then leave the room. This was to permit those remaining to hold frank and free discussion.

Senator Carlson, at the request of Sen. Robert A. Taft, suggested the name of Sen. Everett M. Dirksen of Illinois. Then Carlson left the room.

Arthur Summerfield of Michigan suggested the name of Senator Taft to create a harmony ticket. Sen. H. Alexander Smith suggested the name of Gov. Alfred E. Driscoll of New Jersey.

Several Spoke UP For Nixon
Several other candidates were suggested, but nobody seems to remember who they were now. As mentioned above, no record was kept. But having exhausted all other possibilities, the meeting then turned to the man whose name had been kicked around in convention gossip as the likeliest candidate — Sen. Dick Nixon of California.

None of those present, as contacted by this reporter, can recall or will admit who first suggested Nixon. Gov. Lodge, Gov. Herter and several others who had served in the House of Representatives with Nixon did speak on his behalf.

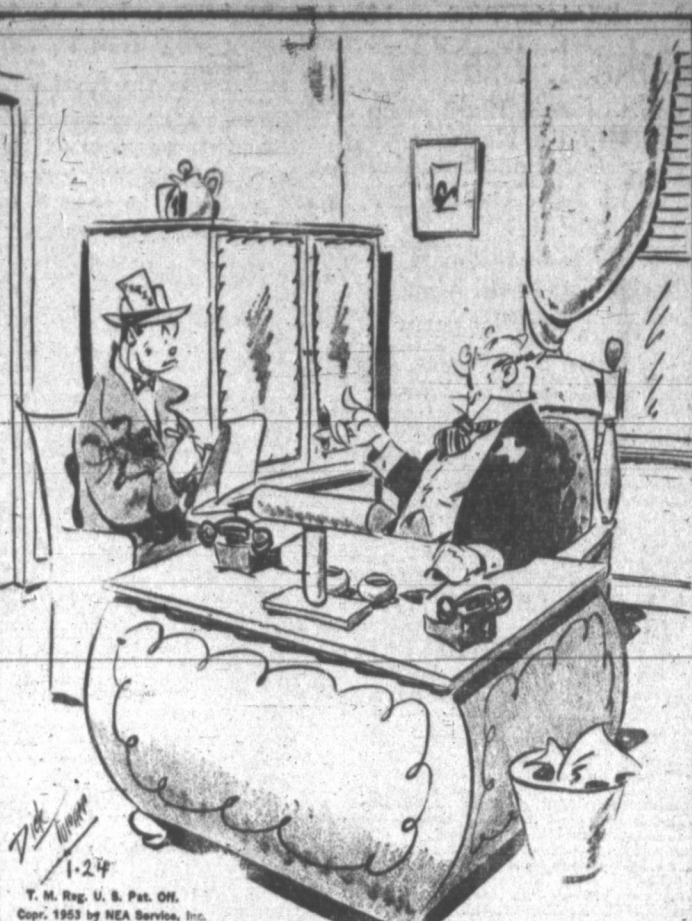

The consensus was that he had everything. He was a new face. He was young and he would appeal to the youth vote. He was a campaigner. He had broken the Alger Hiss case. He would give the party more freedom in handling McCarthy.

The meeting lasted about an hour. Senator Lodge and Herbert Brownell then walked across the street to General Eisenhower's suite in the Blackstone Hotel and informed him the meeting had decided unanimously that Sen. Nixon should be his running mate. Like approved, and that was that.

This wasn't, of course, the first time that General Eisenhower had heard of Nixon. The young senator had visited Ike's headquarters in Paris and made an impression. Nixon had worked for Ike in California. There had been a build-up for Nixon before the Chicago convention. Ernest Lindley of Newsweek magazine had broken the story in mid-May. So the selection wasn't exactly arrived at by spontaneous combustion in a hotel hot box.

Bank Begins Issuing Left-Handed Checks

NEW YORK, Jan. 25 — The New York State Bank and Trust Co., has begun issuing left-handed check books. The bank said the new book, which has the stubs on the right instead of the left, was designed to eliminate ink blots caused when left-handed writers' cuffs, wristwatches and bracelets caught on the conventional stubs.

Thornton Rites Today

Funeral services for Mrs. Lula Thornton, 82, one of whose daughters is a Panamanian, will be held at 2:30 p.m. today in the Kelton Methodist Church, nine miles east and three miles south of Wheeler.

Prior to the services, her body is lying in state in the Kirk-Mason Funeral Home, Wheeler. Mrs. Thornton, wife of the late A. G. Thornton, Wheeler, died Friday after a long illness at the home of a daughter, Mrs. E. T. Clemens, 413 Roberia, with whom she had made her home.

Born in 1870 in Haywood, Tenn., she was preceded in death by a son, Clay H. Thornton, and a daughter, Lillian Thornton, both of Amarillo.

Other survivors include three sons, James E. Thornton, N. Hollywood, Calif.; Roy A. Thornton, Silver City, N. M.; and Willis D. Thornton, Amarillo; three daughters, Mrs. James Exum, Dumas, Mrs. Bayne Young and Eunice Thornton, all of Amarillo; 20 grandchildren and a number of great-grandchildren.

Board Finds A Way To Combat Pigeons

PORT WILLIAM, Ont., Jan. 25 — The Board of Works has started a campaign to rid the courthouse here of pigeons which for years have considered the local seat of justice their legal residence. Alderman J. J. Spooner said a new successful weapon has been employed in the board's war against the birds. "We put grease on their perches," he said. "The grease prevents the pigeons from getting a good grip. And when they've fallen on their tailbones once, they never return."

JACOBY ON CANASTA

Three-Hand Gin Rummy Is Fun

By OSWALD JACOBY and ALFRED SHEINWOLD
Written for NEA Service
"What is the best way to play gin rummy three-handed?" asks a San Francisco correspondent. "We usually have even numbers for our games of gin rummy, and we know how to handle this. Our trouble comes only when we have just three players."

The best way to play gin rummy three-handed sounds complicated but is really very easy once you try it. The game, called "Bad the Royal," is very popular at the Cleveland Athletic Club, where it was invented some years ago.

Each player is given ten cards, as usual, and the next card is turned up. If the player at dealer's left refuses the up-card, the next player has a chance at it. If both refuse it, the dealer may decide to take the up-card. If all refuse, the player at dealer's left begins the play by taking the first card from the stock pile.

Play then continues as in a normal game of gin rummy with a few important changes. Whenever it is your turn to draw a card, you may take either of the two previous discards.

In other words, you may take the card just thrown by the player at your right, or you may take the card immediately underneath that, which was discarded by the player at your left. No matter which card you decide to take, you naturally take only the one card.

If you knock and win, you get a score from each opponent. For example, suppose you knock with 8 points, and one opponent has 20 points while the other has 15. You collect 12 points from the first opponent and 7 points from the second opponent, so that your total score for the hand is 19 points.

An undercut is scored like a knock except that the undercutter gets a bonus of 25 points. For example, suppose you knock with 8 points, the next player has 20 points, and the third player has 6 points.

The player with only 6 points gets a bonus of 25 points plus a difference of 2 points from you and a difference of 14 points from the other player. His total score for the hand is 41 points.

A bonus of 50 points is awarded for gin, since this is very difficult to get. There is no lay-

Lazy Alligator Due To Get Spring Cleaning

LONDON, Jan. 25 — UP — George the Mississippi alligator, is in for a spring cleaning. Officials at the London zoo said that George, who is more than 100 years old, is so lazy his hide is gathering moss at the bottom of the zoo's pool.

Keepers plan to drain the pool and descend with brushes and hose to give George his bath.

Workers at the nation's first iron works in 1644 were exempt from paying taxes. Also, unlike other colonists, they were exempt from watching for Indians.

KILL THE TASTE BUD APPETITE TO TAKE OFF UGLY FAT

Over four and a half million bottles of Barcetrane have been sold in Texas in nine years. During the past year, the makers of this product have done extensive research work and experimentation toward making an excellent product still better.

We now announce the new, improved Barcetrane. The original formula remains the same, except that an additional ingredient has been added.

In addition to the liquid Barcetrane, we have added tablets which are dissolved on the tongue before eating. These tablets help to lessen the taste buds which lie on the surface of the tongue. Thus, with the new improved Barcetrane, your stomach appetite is satisfied so that you need not know a hungry moment. And the "false" appetite created by the taste buds is lessened.

With the new Barcetrane, you will eat all the body requires, but you will eat less and still not know a hungry moment. The liquid Barcetrane eliminates, dehydrates and also helps to satisfy stomach hunger with less food. The new ingredient added to the liquid supplies nourishment and energy.

Just go to your drugstore and get the new improved Barcetrane. Pour the contents of the four-ounce bottle into a pint bottle or jar. Add enough grapefruit juice to fill bottle. Then take just two tablets spoonful twice a day as directed on label. Take the tablets as directed on container and gradually watch the fat roll off. If the very first bottle and tablets don't show you the way to reduce simply, easily and help regain slender, more graceful curves, return the empty bottle for your money back.

LOST 90 POUNDS

Mrs. Ed Leach, 730 E. Guenther St., San Antonio, Texas, writes us as follows: "I take Barcetrane to keep down my fat. I lost about 90 pounds taking this excellent product. I wore size 38 dress when I started. I now wear size 24 1/2."

14 POUNDS LOST

"I have lost 14 pounds taking Barcetrane," writes Mrs. Belle Alexander, 1109 Elmwood, Fort Worth, Texas. "I have found Barcetrane very beneficial in many other ways, other than reducing. Barcetrane left me feeling so much better."
