Lions Carnival Is Re-Scheduled

"Oh, the merry-go-round broke down..."

No, that wasn't the reason the Lions Club Carnival did not open as scheduled last week. Disappointed Oltonites, the young in heart and the young in years, will get their chance at the fun and excitement yet. The carnival has been re-scheduled for Monday, July 19 through Thursday, July 22, and promises as much fun-filled entertainment as always.

In addition to the thrill of the carnival rides, there will be the ever-popular dunkin' board and the bingo stand. Other treats are also in store.

Tax Attorney Hired By Board, School Lunch Prices Raised

Tax attorney Howard Perdue of Amarillo met with the board of trustees Monday night to discuss the district's delinquent taxes and methods of collecting them.

The board granted Perdue a contract for the period of July 12, 1971 to July 11, 1972 for the purpose of collecting delinquent taxes. Fifteen percent of all taxes collected will go to Perdue. Tax suits will be filed in the event that the delinquent taxpayers make no effort to pay the taxes or make arrangements to pay them.

Mrs. Doris Cagle was hired as a first grade teacher under Title I program. Mrs. Cagle, a graduate of West Texas State University, had served the school as a teacher aid and has since returned to college to get her degree.

Boiler bids were opened and the low bid of \$4350 was accepted. Submitting the low bid was Bailey Boiler of Lubbock. Others submitting bids were Anthony Mechanical of Lubbock, \$5973; Jack's Plumbing, Amarillo, \$4620; and Plumb-

ing Service of Lubbock, \$5633.

Price of lunches got the okay of the board. Prices were raised 5¢ each on student lunches and adult lunches received a 25¢ hike. Grades one through five will pay 40¢ per lunch, while junior high and high school will pay 45¢. The 75¢ lunch pertains only to those who visit the school. Teachers receive their lunches for the high school student price.

Superintendent Joe Turner told the board that Margie Slatten had agreed to remain as supervisor of the lunch room for another year.

Turner told the board that a letter regarding fire extinguishers had been received by the school from the state and that the extinguishers that the school now had in some parts of the buildings could no longer be used because of "danger if inhaled or ingested."

Turner said that there were 32 such extinguishers which would have to be replaced with the dry chemical type extinguisher plus one large extinguisher. Jasper-Wood will

replace all for \$311 and service all extinguishers.

John Galaviz submitted his resignation as Spanish teacher, as he has accepted a position with the Atomic Energy Commission.

Positions of choir, Spanish, and history teachers remain to be filled before the opening of school.

A public hearing on the proposed budget will be held Monday night, Aug. 9. All interested persons are invited to attend.

Local Babe Ruth All-Stars To Begin Tourney July 19

Junior Babe Ruth All Stars were announced last Tuesday night and tournament play for their division will begin Monday, July 19 in Plainview. Both tournaments - one for thirteen-year-olds and the other for 14-15 year-olds - slated for Plainview and will be held at the field located in the South Broadway Park.

Fourteen-fifteen All Stars from Olton will meet their counterparts from Muleshoe at 6 p. m. Monday in the opening tournament game. Thirteens meet Muleshoe at 4 p. m. Tuesday.

All Stars in the 14-15 bracket are Pablo Longoria, Trent Gaiter, Freddie Longoria, Aubrey Hooper, Halfway; Vic Allcorn, Monte Chitwood, Bryan Allcorn, Kenneth Burgess, Olton Grain Coop; Joe Snider, Alan Carson, Jimmy Parker, Parsons Funeral Home; Joe Alcorn, John Carl Sudduth and Jimmy McCurry, Olton Enterprise and Brian Britton, Farm Chemical (Springlake-Earth).

Thirteen-year-old All Stars named were Greg Burgess, Robert Offield, Greg Pollard, Ruben Saldivar, James Mathews, Glen Johnson, Freddy Stockdale, Larry Kirk, Kevin Workman, Allen Williams, Dean Palmer, Randy Latham, Johnny Cleavenger, Brad Barden and Cliff Wood.

Dale Parsons of Parsons Funeral Home and Mark Stroebel of Olton Grain Coop were selected to the All Star teams but broken bones prevented their participation so alternate players were named to complete the 15-member teams, Freddy Stockdale, attending

District Tournament Begins Here Today

All Stars have been named in all four baseball leagues and tournament action begins today in the first championship action.

Olton is host town for the North District Senior Babe Ruth Tournament - a division for boys 16 through 18. Play gets underway at 8 p. m. today when the All Stars from the ALMO League (Olton, Amherst, Littlefield, Muleshoe and Morton) battle the All Stars from South Plains (Seagraves, Seminole, Denver City and Levelland).

Friday's action will see Lubbock, who drew a bye, meet-

ing the winner of Thursday's game. Game time for that game is 5 p. m. At 8:30 p. m., the losers of games one and two will meet with one team being eliminated from the double-elim contest.

Championship title is the prize for Saturday's competition with the winner of the two Friday winners ready for battle at 5 p. m. A fifth game, if necessary, will follow at 8:30.

Winner of the tourney will meet the winner of the South District Tournament in the State

Tournament July 23-24. South District leagues include North San Antonio, South San Antonio and Graham.

Site of the State Tournament is decided by the flip of a coin or mutual agreement of the two teams involved. Should the ALMO League win the tournament held here, there is a strong possibility that the State Tourney would be held in Olton since the tournaments for the past two years have been held in South Texas.

Babe Ruth regulations request that visiting players be

housed in homes in the host town. A number of generous offers have been made and residents of Olton are prepared to once again show their hospitality.

Considerable work has been done in the past few days since learning one week ago that the tournament would be held here. Hosting the tournament would not have been possible without the wonderful cooperation of a lot of people.

ALMO All Stars include Favian Minjarez and Steve Stockdale, Olton; Randy Fields, James Turnbow, Don Heathington, Bill Rials and David Favor, Muleshoe; Tony Barton, Doug Cummings, Roger Boyles, Don Risinger and Eddie Moates, Amherst; Keith Embry, Norman Mason and Eddie Lewis, Morton and Keith Slaughter, Dennis Hartley and Larry Birkelback, Littlefield.

Alternates named were Luis Jimenez of Olton and Dennis Cowen of Littlefield.

Marshall Rites Held July 3

Last rites were conducted at 2:30 p. m. July 3 in the Church of the Nazarene for Alvin Jeff Marshall, 52.

Officiating was the Rev. E. A. Rawlings, pastor. Interment was in Olton Cemetery under the direction of Parsons Funeral Home.

Marshall died July 1 in Veteran's Hospital in Amarillo. He was injured in a truck accident March 25 of this year and had been hospitalized since that time.

A resident of Olton 21 years, Marshall was born Nov. 4, 1918 in Sulphur Springs.

Survivors include his wife, Aleene; one son, Johnny of Plainview; his parents, Mr. and Mrs. Leslie H. Marshall; three sisters, Mrs. Guy Martin, Mrs. Benny Moore and Mrs. Abbie Goldsmith and two brothers, L. A. Marshall of Fort Worth and Cleburn Marshall of Sulphur Springs.

Pallbearers were Wallace Mathews, Rube Powers, Weldon Daniels, Bud Hukabee, Terry Goodman and Alva Kersh.

Final Warning

Meters To Be Installed

Water, meters, sewer lines and dogs took up most of the council's time when they met Tuesday night at the city hall for their regularly scheduled meeting.

Water usage in the city has reached an all-time high with 900 to 950 gallons per person per day being consumed.

Water superintendent Orian Hackler said that residents failing to comply with the watering regulations would not receive any more warnings. A meter will be installed at the residence of ANYONE who does not abide by the rules of watering every, other day or anyone who flagrantly wastes water.

Councilmen gave their support to the action of installation of meters and said that absolutely NO EXCEPTIONS would be allowed, as the water situation in the city is critical.

The problem of stray dogs in the city has been growing recently and the council asked that all dogs either be kept in a yard or chained. Any dog not tagged will be destroyed if caught. The council also asked persons who would be interested in serving as dog catcher to contact Mayor Parley Myers.

Inspectors recently visiting the city told Mayor Myers that a shower and vent should be installed in the jail. The council okayed the installation of such facilities.

A fire arms ordinance was passed by the city council con-

cerning the firing of guns inside the city limits. A copy of the ordinance appears on page 7 of this issue of the Enterprise.

In discussing the salary of the building inspector, it was decided that the check should be made to the assistant building inspector Joe Chester in the absence of David Maxey. Further action concerning the salary was also taken by the council. They agreed to pay \$3.00 per permit issued instead of a monthly salary.

Appearing before the council asking for a sewer line to be installed for the usage of residents in his block was Tom Seawright.

Seawright said there would be as many as six permanent

residents who would tie on to the line and more at other times during the year. Council agreed to get the city engineer to survey the area and check into the costs of installing the line, while they asked Seawright to secure names of persons who would be willing to tie on to the line in his area.

Water lines were requested on behalf of Salas Melina, who moved a house in near the Babe Ruth Baseball park earlier last year. At the time the house was moved in, Mayor Myers said he told Melina that the city would provide only 200 feet of water lines and that he would have to furnish the remainder. Council stood behind Myers' decision.

Because Of Spraying

Corn Patches Dangerous

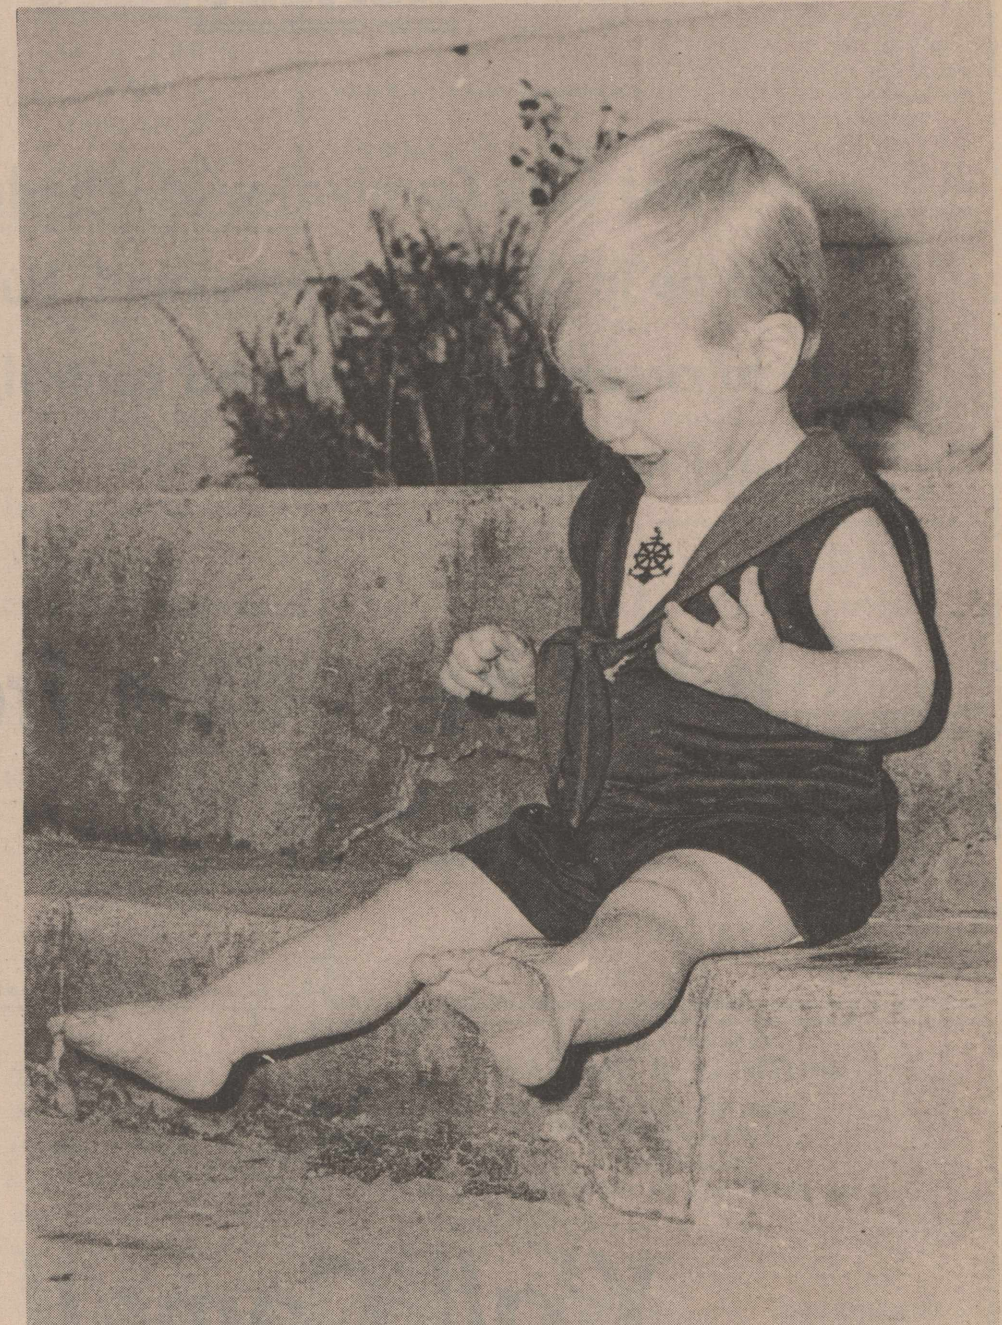

Words of caution are already being issued concerning corn and other vegetables which may have been sprayed and will therefore be unsafe for human - or animal - consumption.

Most corn patches have been sprayed with D1-syston or Thimet and both pesticides render the food and fodder unsafe for a period of 40 days which

will extend past the mature stage.

Vegetable patches near milo fields may also be affected by the settling sprays.

West Texas hospitality has long included a custom of "help yourself to a mess of corn, etc." but that practice is now dangerous. Persons are cautioned to "know" the corn or garden patch they raid.

Dear Editor

Dear Editor:

Once again the ORC wishes to thank the many fine people who made our barbecue a huge success.

All the publicity given the event by the Olton Enterprise, Hart Beat, Plainview Herald and Lubbock Aylanche was so nice. We thank you.

Also I wish to express an extra special thank you to each and every committee member who worked, donated food, and sold tickets and to the men who worked so hard getting the tables and chairs, cooking the chickens and helping serve. Even with all this good help, it takes people who come and eat to make it suc-

cessful. We appreciate everyone who shared this with us and were very pleased to have plenty of food - including chicken - to serve everyone.

The Rainbo Bread Co. of Lubbock donated our bread, K. Y. Givens and Richard Roberson donated ice and we thank you. The effort on Don's Super Market in obtaining, halving and storing our chickens was great.

Sincerely
Mrs. J. L. Snider

Cook Of The Week

Our Cook of the Week column is replaced this week with a special feature on that ever-popular favorite - ice cream. We share with you some of its history and some of the more unusual recipes.

It is generally believed that ice cream was first made in Italy in 1550. People there were long used to using ice from the mountains to cool their beverages and one day they discovered that salt mixed with ice froze mixtures to a consistency much like our modern ices. Experimenting with adding milk and cream resulted in ice cream.

Most likely, ice cream was not eaten in the United States until the 1700's and was still a very rare delicacy when President Madison's wife, Dolly, served it at the White House in 1809.

For many years, recipes for ice cream were the secrets of expert chefs but eventually enterprising Americans made the knowledge generally available.

The first ice cream factory was begun in Boston by Jacob Fussell but it was not until the 1900's that the tasty treat became a national favorite.

The ice cream cone first appeared in St. Louis at the Louisiana Purchase Exposition in 1904. Story has it that a concessionaire next to an ice cream vendor was offering waffle squares made of sweetened batter and some unknown, enterprising customer purchased one of the penny waffles, rolled it into a cone and had it filled with ice cream. The neighboring vendors quickly realized the advantages of the combination, joined forces and created the first ice cream cone. St. Louis is still one of the few places where the cake cone is made today.

Other early ice cream treats were sodas and sundaes and for many years, the ice cream parlor was one of the most popular enterprises.

Ice cream on a stick also became a popular item and Americans eat one billion of the sweet treats each year. (From information found in the World Book Encyclopedia, 1962).

The same source of information also reports that manufacturers produce 17 quarts of ice cream per person in the US each year.

Offields Visit In Virginia

Mr. and Mrs. Denver Offield and Robert visited recently in Norfolk, Va. with the Offield's daughter and family, Mr. and Mrs. Charles (Butch) Huggins and Tammany. The Offield's daughter Bonnie had been in Norfolk about a month with the Huggins.

The Offields spent one day on the ship "The U.S.S. Independence." This was July 6 and had been designated as "family day". The visitors boarded the ship at 6:30 in the morning and remained there until 7 o'clock that evening. The ship is 1,052 feet long and corresponds in height to a 25 story building. In its construction were used 1000 tons of melted metal and 57,615 tons of steel. Its operation displacement is 78,000 tons. Each of its deck edge elevators has a lift capacity of 79,000 pounds. The two anchors weigh 30 tons each. The minimum cruising speed is more than 32 knots.

The ship has a berthing capacity of over 4000. It has 1501 compartments and 2300 telephones. It supplies 36,000 gallons of fresh water and 12,000 meals each day.

Planes are in a four acre area. In the air show that day a man jumped from a helicopter into the ocean. Another man jumped from the helicopter to rescue him. A stretcher was lowered from the aircraft into the water. The drowning man was placed on the stretcher and drawn into the helicopter. The second man was thrown a rope which he used in his escape from the ocean. The spectators saw a shark in the water near the men. They were told that the sailors were wearing shark proof suits.

The ship is encircled by planes 24 hours a day as a safety measure.

The guests on the ship were fed three meals with no charge. Sandwiches, coffee and cold drinks were available without cost throughout the voyage. On leaving the docks the water in the path of the ship was white and green but out deeper in the ocean it was a beautiful deep blue.

At Williamsburg, Mr. and Mrs. Offield and Robert saw replicas of the colonial days. The people wore costumes typical of that era. They demonstrated the making of wooden tubs, barrels and buckets, and leather shoes with leather soles. The shoes were fastened with buckles. Women were making flaxen material.

The Rev. James T. Carter, pastor, officiated. Vows were recited before an altar decorated with a background of greenery flanked with baskets of summer flowers. A Bible opened to Mark 10:9 was placed on each end of the altar with a single white rose marking the selected verse.

Parents of the couple are Mr. and Mrs. T. D. Evans and Mr. and Mrs. Vernon Carlisle all of Tulia. The bridegroom's parents are former residents of Olton.

Wedding selections were presented by Miss Charlotte Doan, organist, and Richard Edwards, soloist.

Presented in marriage by her father, the bride wore a mid-length gown of white organza over peau de soie. Styled with soft fullness, the skirt fell from an Empire bodice fashioned with long full sleeves and scalloped sweetheart neckline enhanced with appliques of lace and adorned with seed pearls and sequins. The hemline was accented with a band of matching lace.

Her veil of imported illusion, edged with lace, swept to a chapel length train. She carried a cascade bouquet of white roses and greenery sur-

rounding a cattleya orchid. A white linen handkerchief, belonging to the bride's mother, was arranged in the bouquet for "something borrowed".

For the traditional "something old", she wore a wedding band belonging to her grandmother, the late Mrs. Dave Evans. She wore the traditional blue garter and carried a penny in her shoe.

Mrs. Ted Latham was matron of honor. She wore a street length dress of lavender crepe fashioned with an Empire bodice, rounded neckline and long sleeves. She wore a wide-brimmed white hat with lavender ribbon streamers and carried a nosegay of summer flowers with predominating lavender blossoms.

Larry Story was best man. Guests were seated by David Evans and Kent Carlisle, brothers of the couple.

A reception was held in the church parlor. The bride's table was laid with a white linen cloth centered with a hurricane lamp holding a lavender candle. Summer flowers, with predominately lavender flowers encircled the candle lamp.

Mrs. James Oringderr of San Antonio, sister of the bride, poured lavender punch. The three-tiered wedding cake, topped with a white wedding bell, and decorated with accents of lavender, was served by Mrs. Linda Nall of Lubbock, sister of the bride.

Guests were registered by Miss Sharon Miller.

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor.

Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.
