MOUNTED ESCORT FOR MARCHERS — Louisiana State Troopers mounted on horseback escort civil rights marchers on their 21-mile hike from Bogalusa, La. Leading the two-day march are A. Z. Young, president of the Bogalusa Voters League and Lincoln Lynch, associate director of the Congress Of Racial Equality (CORE). (AP Wirephoto)

US Planes Tangle With Soviet MIGs, Missiles

Radar, Fuel Sites Raided

By ROBERT TUCKMAN

SAIGON, South Viet Nam — (AP) — U. S. fliers tangled with two MIG21s and eluded a barrage of missiles over North Viet Nam during bombing raids on missile, radar and fuel sites, the U.S. command reported today.

In a day of furious air activity Monday, one missile site was destroyed and two oil installations and a radar site bombed, a spokesman said.

Carrier planes pounced on some 200 barges and junks and pilots reported destroying or damaging 59 of them.

The U.S. command announced the loss of an F105 Thunderchief to Communist groundfire Monday. The pilot bailed out but he could not be rescued because of heavy antiaircraft fire and is listed as missing, a spokesman said.

U.S. headquarters also announced that a Navy F8 Crusader went down 40 miles northeast of Haiphong today and that the pilot was rescued. It was not known whether the plane crashed because of mechanical failure or was shot down, a spokesman said.

A military spokesman said 286 U.S. planes had been lost to enemy action over North Viet Nam through last Thursday. With at least four more planes lost since then, the unofficial total now stands at 290 since the bombing began Feb. 7, 1965.

Disclosing U.S. helicopter losses for the first time, the American command said 179 had been the victims of enemy fire, including three in North Viet Nam. The latter presumably were on missions to rescue downed American airmen.

A U.S. spokesman said the figured losses did not include helicopters and planes destroyed on the ground when the Communists shelled airfields.

Ground action in South Viet Nam continued in a lull. A U.S. military spokesman described the situation as "very quiet in the last 24-hour period."

South Vietnamese army headquarters reported a sweep in the environs of Saigon by 1,000 rangers and regional forces Monday killed at least 40 Viet Cong. Another 40 to 50 enemy bodies may have been carried away by the retreating enemy forces, a spokesman said.

The seven-hour clearing action took place in swamplands within five miles of the capital and was aimed at forestalling a reprisal attack on South Viet Nam's major oil depot. South Vietnamese casualties were reported light.

The threat of political turmoil returned to the Viet Nam scene with a new call for the boycott of the September constituent assembly elections. The call, amounting to a declaration of war on the military government, was made by radical elements of some of the country's major religious and political groups.

Mrs. Gandhi Talks Peace In Moscow

By HENRY S. BRADSHER

MOSCOW (AP)—Prime Minister Indira Gandhi of India came to Moscow today to discuss Vietnamese peace proposals with Premier Alexei N. Kosygin.

Her plan includes the convening by the Soviet Union and Britain of a Geneva conference on Viet Nam. Russia has rejected repeated urgings to call a conference and Mrs. Gandhi's prospects are not good.

Communist China has already rejected the proposals made public by Mrs. Gandhi before she began a trip that took her to Egypt and Yugoslavia. She will spend four days here.

The 1954 Geneva Conference ended the French Indochina War. Agreements reached at the conference are in theory still in force and the Soviet Union and Britain remain conference chairmen.

British Prime Minister Harold Wilson visited Moscow in February in an unsuccessful effort to get the conference back in session. He is due back Saturday for another try as Mrs. Gandhi leaves, but there has been no public indication that the Soviet leaders have changed their position.

The Soviets in the past have taken the attitude that they are not a direct party to the conflict and therefore have no direct role to play in the settlement.

Diplomats believe this cautious Soviet approach is based partly on reluctance to try publicly to influence the North Vietnamese government for fear of failing. It is also believed based on sensitiveness to Peking's charges that the Soviet leaders are selling out the Communist cause in Viet Nam to arrange joint Soviet-American rule of the world.

ON THE MOVE — Secretary of Labor W. Willard Wirtz was on the move at the Labor Department in Washington as he sought settlement of the International Machinists Union strike against five big airlines. Union negotiators met in one room, airline men in another. Wirtz who met separately with each, is seen entering the employers' room. (AP Wirephoto)

ONE MORE WEEK LEFT TO SIGN VIET SCROLL

A scroll conveying messages of concern and support for U.S. military personnel in Viet Nam probably will be forwarded to its ultimate destination early next week.

U.S. Rep. George Mahon, Congressman for the 19th District of Texas, advised the Chamber of Commerce by telegram Monday that the scroll should be addressed to Gen. William C. Westmoreland, commanding general of the U.S. Forces in Viet Nam. Rep. Mahon had been asked by local leaders in the project to determine the proper method for forwarding the scroll.

Dennis Pomeroy, who has headed a special committee which launched the scroll, said it will remain at the Chamber of Commerce office until early next week, after which it will be mailed to Gen. Westmoreland. Rep. Mahon said Gen. Westmoreland had been advised that the scroll is coming from Snyder.

Pomeroy said the local group is not ready to conclude the project because more signatures are being added each day at the Chamber office. It is 18 inches wide and during the July 4 celebration in Towle Memorial Park enough signatures were affixed to require a length of about 40 feet. The length now exceeds 45 feet and it is still growing.

Any person wishing to sign the scroll and list his address may do so at the Chamber of Commerce office.

Johnson Sees Reduction In Deficit

WASHINGTON (AP) — President Johnson predicted today that the federal budget deficit for fiscal year 1966—which ended June 30—will be "less than half" of what was expected last January.

This was a more precise estimate than the President made at a news conference in Texas last week when he said that the deficit would be far below the $6.4 billion forecast in January.

He made the prediction in a talk to 3,000 military and civilian personnel at the Pentagon in which he cited the Defense Department as an example for other government agencies in cost cutting and administrative practices.

Johnson said the reduction in the deficit estimates came about in large part because of dogged, determined efforts of Pentagon officials.

The President — for the third year in a row — had driven across the Potomac River to the Pentagon to help honor military and civilian personnel receiving awards for money-saving ideas.

Citing secretary of Defense Robert S. McNamara's announcement that the department achieved savings of $4.5 billion in the last fiscal year, Johnson said that was not the full measure of the achievement.

"Most significant of all," Johnson said, "is that, with your help, we accomplished our great task in Southeast Asia without imposing wartime controls on our economy's wages, prices and non-military production.

"We have done it without calling up the reserves—and to put a small force in combat during the first year of the Korean War, it was necessary to mobilize 600,000 men from the reserves.

"And we have done it without imposing wartime tax burdens."

Johnson said "we are not gambling with the security of this nation in our cost reduction program. We are strengthening it."

He told the Pentagon audience he is determined "to bring the administrative practices of the entire federal government to the same hard, lean, and alert effectiveness that we expect and have received from the armed forces."

Power Failure Hits Sweltering Midwest

ST. LOUIS, Mo. (AP) — A blistering heat wave and the resulting demand for air-conditioning caused electric power interruptions in St. Louis and in areas of central and eastern Nebraska.

In St. Louis, the Union Electric Co. declared an emergency Monday and cut off power to wide areas of the city and its suburbs for up to two hours.

A spokesman said the company feared a massive power failure as consumption reached a record 3,230,000 kilowatts in 106-degree heat. He said the shutdowns would continue until the heat wave breaks.

The National Broadcasting Co., said it was sending tons of air-conditioning equipment to St. Louis by plane to cool off two mobile television trucks at today's All-Star game at Busch Stadium. The network said extreme heat could burn out filaments in its equipment.

Power failures in Nebraska were attributed to a relay failure at South Dakota's big Fort Randall Dam and a burned out main transformer at a Nebraska power station.

Two blackouts, one shortly after 11 a.m. Monday and the other at midafternoon, each lasted about an hour and a half to two hours.

Hit were the cities of Grand Island and North Platte in central Nebraska, Norfolk in northeast Nebraska, and Lincoln, the capital, and Beatrice in southeast Nebraska.

While the inconvenience was considerable as air-conditioners and, in some cities, water went off, there was no great hardship reported.

Omaha, the metropolis of Nebraska and 13 east Nebraska counties served by the Omaha Public Power District, escaped trouble when the situation was quickly assessed by district employes and the district was taken off the interconnecting state grid system.

The temperature was starting its climb from the 90s into the 100s when the first outage came. In Lincoln some persons were temporarily short of water when the city's electric pump shut down. The same was true at Norfolk and at Valentine, in north central Nebraska, where standby pumps were used.

WEATHER

SNYDER TEMPERATURES: High Monday, 97 degrees; low, 68 degrees; reading at 7 a.m. today, 76 degrees.

North Central Texas: Clear to partly cloudy and very warm tonight and Wednesday. Low tonight 74 to 80. High Wednesday 96 to 103.

Northeast Texas: Clear to partly cloudy and very warm tonight and Wednesday. A few late showers in south. Low tonight 72 to 76. High Wednesday 94 to 100.

Northwest Texas: Clear to partly cloudy and very warm tonight and Wednesday. A few late thunderstorms and showers in Panhandle. Low tonight 68 to 75. High Wednesday 96 to 101.

Coast: Southeast to east winds 8 to 18 knots tonight and Wednesday.

South Central and Southeast Texas: Partly cloudy and warm tonight and Wednesday with a few widely scattered showers mainly near coast. Low tonight 70 to 80. High Wednesday 88 to 98.

Southwest Texas, east of Pecos: Partly cloudy and warm tonight and Wednesday. A few late showers in northwest. Low tonight 68 to 76. High Wednesday 94 to 100.

Air Force Tests New Space Ferry

By ROBERT W. COOKE

EDWARDS AIR FORCE BASE, Calif. (AP)—A wingless metal capsule with a man inside dropped from beneath a bomber's wing today, maneuvered as it plunged earthward, then flattened out and glided to a landing on a dry lake.

U.S. space agency pilot Milton O. Thompson lifted his plastic canopy and stepped out grinning and happy after the revolutionary future space ferry's first flight.

The 2½-ton craft looks like a bullet cut in half lengthwise, and to observers on the ground seemed to fly at first like a brick.

After dropping from 45,000 feet it fell rapidly. Still, using controls and the slight aerodynamic lift provided by its shape, Thompson was able to maneuver the weird M2F2 through two 90-degree turns at 450 miles per hour. Then, nearing the ground, he pulled the nose up and skimmed to a landing at nearly 200 m.p.h.

Later Thompson told newsmen that he unintentionally set the controls wrong 'and I made it roll pretty badly from side to side but as soon as I realized what I'd done, I set things right again and it was a beautiful flight after that."

He said the next area to be explored is whether such craft could survive reentry into the earth's atmosphere.

"With today's test," Thompson added, "we've almost completed our whole program."

The 22-by 10-foot craft, called a lifting body, is one of several shapes under study to ferry men and equipment down from large satellites. Its rounded bottom provides just enough lift to keep it from falling like a stone. Small rudders at the rear enable the pilot to steer to a landing site—an advantage over the bullet-like trajectory of reentering Mercury and Gemini craft.

On today's flight, the M2F2 was dropped within gliding distance of the base. Later it will be equipped with a rocket engine to drive it to 80,000 feet and 1,200 m.p.h. to simulate reentry from space.

Tots Die In Closed Auto

MIAMI, Fla. (AP) — Three young children died in an oven-hot parked car while their mother was making a $10 a pint blood donation at a medical supply house.

Police said the children died either of suffocation or heat stroke. The car's windows were rolled up.

Geraldine Luke found her children's bodies when she returned to the car. The lab had been unexpectedly busy Monday and she had to wait for more than two hours, police said. They estimated the children, ranging in age from 18 months to 4½ years, were in the car about three hours.

The temperature outside the car was about 90 degrees but police estimated the temperature inside the car might have reached 130 degrees.

Sale Of Revenue Bonds May Be Negotiated By CRMWD

BIG SPRING—The Colorado River Municipal Water District may negotiate the sale of its $30,000,000 revenue bond issue to finance the lake at Robert Lee and connecting pipelines.

Directors Monday authorized Charles Perry, Odessa, president, to check with the fiscal agent, Eastman, Dillon and Union Securities Co. of New York City, regarding the advisability of negotiating the sale rather than putting the issue up for bids. The fiscal agents said that a nationwide syndicate could be formed with several Texas houses participating if the sale is negotiated. However, there was no firm commitment to go the negotiated route, although several board members said they thought this would save the district substantial sums in interest.

Meantime, the contract with the fiscal agent was extended another six months with a total fee of $51,350 for handling the entire $30,000,000. No date was set for the sale, although it likely will be in advance of the bid opening for construction around the end of September.

A contract with Standard Oil of Texas for 3,000 barrels of water a day for secondary recovery in the IAB-Northeast pool of Coke County was authorized. O. H. Ivie, general manager, said that there was this much difference between pipeline capacity and the water district's contracts with Sun Oil Company, which utilizes the same pipeline. Price will be 47.62 cents per thousand gallons, same as Sun Oil.

An option for water rights under 700 acres in the J. S. Sale ranch of Martin County was exercised, covering a 10-year period with an option to renew for another 20 years.

The tract will be used for water production and for water storage during the winter months. During the past season the district transferred 347,000,000 gallons of water from Lake Thomas to the Martin County well field for use in meeting summer peak demands. The contract calls for a payment of $7,200 a year to Sales.

Perry was authorized to execute a letter to the City of Midland agreeing to make available to it now water for use in serving a tract slated for development at the Midland Country Club. This would be under the same terms as the district will sell water to Midland under a contract which will take effect in 1969 or 1970, when the Robert Lee project is complete. The Midland Country Club is considering subdividing about 40 lots.

Transfer of $179,000, the residue in the 1963 Construction Fund, to the Improvement and Extension Fund was approved by the board.

In an extensive report on the project, S. W. Freese said that he thought the $30,000,000 would be ample to finance the acquisition of land, construction of the dam and pipelines for the new lake project. Ivie reported on negotiations for putting more than 20 oil wells "in the dry" in the new lake basin. Contracts so far have been with Humble Oil, which has 17 of the wells affected. He also touched on proposals for relocating several miles of State highway 70 (Sterling City-Robert Lee) and several miles of power and telephone lines. Total cost of these remedial steps may approach a million and a half dollars.

Contracts with Thomas B. Hale and N. M. McMichaels, Snyder, for lease of two lots at $100 each at Lake J. B. Thomas was approved. These will be used for hydroponic farms.

The board also voted to furnish uniforms to its employes through forman grade. Ivie was authorized to appear for the district at a hearing by the Texas Water Development Board on the upper Colorado River basin plan at Odessa July 25.

Astronauts Begin Two-Day Testing

CAPE KENNEDY, Fla. (AP) —The Gemini 10 astronauts donned their space suits today to participate in the first of two days of important rocket and spacecraft tests for Monday's double rendezvous and space walk launching.

Navy Cmdr. John W. Young and Air Force Maj. Michael Collins, both 35, practiced all launch day exercises as ground crews conducted a two-rocket countdown rehearsal.

The National Aeronautics and Space Administration reported that the early phase of the day-long test progressed smoothly.

The rockets involved are an Atlas-Agena, which is to boost the Agena into orbit as a target satellite at 4:41 p.m. EDT next Monday, and a Titan 2, which is to hoist Gemini 10 into space at 6:21 p.m. EDT.

The astronauts will be back in the spacecraft Wednesday — this time in street clothes — to participate in a simulated flight and practice several emergency procedures and key elements of the planned three-day flight.

The backup astronauts, Navy Cmdr. Alan L. Bean and Marine Maj. Clifton C. Williams Jr. also will take part.

These are the last two major tests before the launch.

The first afternoon launching was dictated by the position of another Agena, which the astronauts hope to rendezvous with on the second full day of their flight. That Agena was left in space last March after the Gemini 8 flight.

Young and Collins plan to link up with it during the fourth orbit.

They are to use the Agena's powerful engine to place them in a position to rendezvous with Agena 8. Collins is to step outside the spacecraft on a 50-foot lifeline and use a jet gun to move over to the Agena 8. He is to remove one micrometeorite detection package and attach another for later astronauts to retrieve.

That will be the second of two 55-minute working periods Collins plans outside. Earlier, he is to open his hatch, stand in the seat and conduct scientific and photographic experiments.

WITNESS TREE MARKER GOES UP

The public is invited to attend a ceremony at the erection of the "Witness Tree" historical marker Wednesday morning.

Hugh Taylor, chairman of the Scurry County Historical Survey Committee, said the marker will be unveiled at 10 a.m. in front of the Scurry County Library building, located on Twenty-third Street between Avenue S and T. The Library is only a short distance from the stump of the hackberry tree which was used as a "witness" or point of reference by early-day surveyors here.

Britons Would Slow Progress Of Cupid

LONDON (AP) — Couples in love should be required to register their engagements with the government and wait six months to marry, the British Bar Association's General Council says.

"If marriages were made more difficult, divorce would become less prevalent," said a memorandum from the council to the British government.

"It is our view that no license to marry should ever — except in some exceptional cases — be granted until the parties have been engaged for a period of at least six months."

The government is considering lowering the age for marriage without parental consent from 21 to 18.

110 Mark Noted In Several Spots

NEW YORK (AP)—The highest temperature in the country was 110 degrees Monday, registered at five places — Pierre and Huron, S.D., and Blythe, Imperial and Thermal, Calif. The overnight low was 42 at Reno, Nev.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Our daughter is 13, and everyone who meets her tells us how lucky we are to have such a sweet, well-mannered, intelligent child. The truth is, she's deceitful, cruel, and a real problem. We can't even keep a pet for fear she'll torture it to death. (She's already done away with a kitten and a full-grown poodle.) She cannot be trusted and is such a clever little liar she worries us.

Outside the home she puts on a goody-goody act that could fool anybody. Her ambition is to be an actress, and she would make a good one. How can we straighten her out? She's not dumb. In fact, she's too smart for her own good. Don't suggest a psychiatrist. She could turn on the charm and have him eating out of her hand in no time.

SARAH BERNHARDT'S MOTHER

DEAR MOTHER: A psychiatrist is exactly what she needs. And don't worry about his eating out of her hand. More likely it will be the other way around. And more important, he'll be able to tell you whether she is just "going thru a stage" or is ON one.

• • •

DEAR ABBY: A woman I see quite often but do not know very well came right out and asked me if I had ever had my face lifted! I never have and that is what I told her, but I could tell by the way she looked at me that she didn't quite believe me.

Later I heard that she asked a friend of mine the same question about me. What would you make of such a person?

INSULTED

DEAR INSULTED: A stranger.

• • •

DEAR ABBY: My 10-year-old son is a Little Leaguer. The position he holds is "bench-warmer." He and several other boys attend practice every night. Last night he announced that he didn't want to go to any more games, because it was boring just sitting in the dugout. But he said he wanted to continue going to practice because at least everybody got to play then.

Now I know this isn't an earth-shaking problem, but it seems to me the managers and coaches place too much emphasis on winning. I think it is only fair that each boy gets a chance to play, no matter how poor he is. It would be interesting to hear from some of the managers and coaches out there.

BENCH-WARMER'S MOM

• • •

DEAR ABBY: I chuckled when I read the letter from the "Hurt Grandmother," who had bought so many lovely little dresses for her granddaughters, but saw them only in mismatched jeans and blouses. I was reminded of a trick I once played on my mother, who also used to buy my daughters gorgeous dresses on every occasion.

When I knew mother was coming, I quickly washed two of the lovely fancy dresses she had given my girls. As usual, mother asked if she could 'do anything" while I prepared dinner. I told her she could iron the two dresses. Abby, it took her exactly one hour and five minutes to iron those two dresses! Not one word was spoken, but after that she bought the girls darling little slack outfits. Of the drip-dry variety.

Denies Move To Disqualify Jury Panel

HOUSTON (AP) — U. S. Dist. Judge Joe Ingraham Monday denied a defense motion to disqualify the jury panel for trial of seven persons and four firms charged with interstate transportation of obscene books.

Stenley Fleishman of Los Angeles, one of the lawyers for the defendants, argued that the Houston area's religious background would make a jury here "most likely to be unsymphathetic" to persons charged with offenses involving sex.

"We have people in this district who are religious and irreligious," Ingraham said. "We have acquitted a lot of real stinkers because we try them on the evidence."

The government charges the defendants shipped hundreds of copies of seven allegedly obscene paperback novels to Houston area newsstands last year. The jury will be asked to decide whether the books are obscene in terms of national standards.

The government contends the books are obscene. The defense says they are a portrayal of the sex habits and conditions in the community.

Individual defendants are William Hamling of Palm Springs, Calif.; Richard Yerxa of San Diego, Calif.; Stephen Keegan of San Diego.; Donald Patrick of El Cajon, Calif.; Mrs. Shirley Wright of La Mesa, Calif.; Howard Stephens of Sandusky, Ohio, and Walter Lonsdale of Gardena, Calif.

Pleas Are Entered In County Court

Pedro Rodriguez entered a plea of not guilty in County Court here Monday to a charge of child desertion. He was released on $500 personal recognizance bond.

Also in County Court, Keith Ainsworth was sentenced to 30 days in the county and assessed a find of $50 plus court costs. He had entered a plea of guilty on July 7 to charges of swindling with worthless check and theft.

Panel Asks Funds For Extension

AUSTIN (AP) — Gov. John Connally's Public School Study Committee agreed Monday to ask for funds beyond the Aug. 31, 1968, deadline for completion of its report.

The 15-member committee approved a $293,338 operating budget for 1967-69, including $40,000 to keep the committee and its staff available through the 61st legislative session in 1969.

The budget proposal includes $122,957 from state taxes and $170,381 from federal aid. A hearing before the governor's and legislative budget offices is set for Wednesday.

Also approved Monday was a research plan covering five major projects: defining goals for public education, evaluation of present programs, staffing public schools, financing, and organization and administration.

Teacher pay and local tax support for schools are included.

Committee members raised two points for the staff to study:

—How districts may rid themselves of incompetent teachers. "You just can't fire teachers for incompetence in Texas," asserted Loyd Turner, Fort Worth.

—Which teachers shall be retained when desegregation reduces the number of jobs in a district's schools?

"We simply can't ignore this problem," said Mrs. Savannah Cross Lockey of Troup, who said one suggestion has been to weed out teachers on the basis of a national teacher examination.

Picture Plans Uncertain

PASADENA, Calif. (AP) — Surveyor 1 resumed early today sending sharply focused pictures of its lunar surroundings, but the spacecraft's sick battery limited scientists' plans indefinite.

A spokesman at Jet Propulsion Laboratory said Surveyor's battery was operating well during the short picture-taking sessions but "we're feeling our way along."

He said the photographs duplicated some taken of the moon's surface after the 620-pound craft's soft landing June 1.

More photos are planned tonight, the spokesman said, if the battery survives. The power cell, operating at its normal 115-degree temperature, was weakened Friday when its temperature inexplicably rose to 140 degrees.

France Plans For Hydrogen Weapons

PARIS (AP)—The French hydrogen bomb will be operational in 1970 and an army regiment will have atomic tactical weapons in 1971, Defense Minister Pierre Messmer said today.

Writing in the weekly Paris Match, Messmer said that also in 1970 France will have a nuclear submarine armed with Polaris-type missiles and nuclear warheads.

Messmer confirmed that five more nuclear tests at Mururoa Island in the South Pacific are planned before the end of the year.

House Gets New Aid Bill

By WILBUR MARTIN

WASHINGTON (AP) — A multiyear foreign aid program, the first in history, comes before the House today. Debate is certain to focus on the administration's foreign policy, including conduct of the Viet Nam war.

House leaders scheduled five hours of debate. A final vote was not expected today.

In the past, Congress has authorized continuance of the foreign aid program for one year at a time. But the House bill contains a two-year authorization in all but two sections. Five-year authorizations would be allowed the Alliance for Progress program and economic development loans.

As approved by the committee, the measure authorizes $4.1 billion in spending for each of the two years. The administration, however, has placed a $3.5 billion price tag on the annual aid program.

The House version is a compromise with the administration. President Johnson advocated a five-year program with economic and military aid separated.

RETURN HOME — Madge Popnoe of Route 3 and Mrs. Mabel Brock of 2000 Avenue S have just returned from a fun cruise to Nassau aboard the completely air-conditioned S.S. Bahama Star. With the Bahama Star tied right at the dock in Downtown Nassau, adjacent to the straw market, it was easy to shop, swim, sightsee and enjoy native calypso, limbo and rhumbas at night. Of course, there was entertainment aboard ship too.

WOMEN

What About A Youth To Youth Program?

By VIVIAN BROWN
AP Newsfeatures Writer

HARTFORD, Conn. (AP) — A youth to youth program might bring errant juveniles to their senses. Young drug addicts and other misguided delinquents might react favorably because "they'd probably rather listen to young people their own age than their elders," says pretty Margaret Dempsey, 19, daughter of Connecticut's governor, John Dempsey.

"It's at least worth a try," says Margaret, a Luci Johnson look - alike. "As it is now, there's such a big age gap between the young people and those trying to help them."

A freshman at Hartford College for Women, she is active in programs for blind teenagers and adult mental patients.

She thinks a youth - to - youth program is something that would need to be worked out carefully, but it might work like the "Companion" program in which she is involved at Connecticut Valley Hospital in Middletown.

As a "Companion" to mental patients one can choose to have either their "own personal person" or to be with a group of youths visiting a ward. Margaret chose one person. The woman, 42, has been at the hospital for 11 years. The idea is that the companion should stimulate the patient to do something — play cards or games or to read magazines.

"We hit it off great because she wanted to play bridge and I didn't know how. It gave her great pleasure to teach me. It was as if she was saying, "I can do that and you can't."

When the woman, a diabetic, had a birthday recently, Margaret found there are such things as dietetic birthday cakes. They took it and some soda out on the lawn.

At the end of a visit, she and two other girls and three boys from Wesleyan University who are companioning that day meet in a group with the psychologist to review their visit and exchange ideas about the patients.

"The thought of working in a mental institution doesn't appeal to most young people. They think it is depressing. But after one visit, they'd change their minds," Margaret says.

Ten of the art works in the governor's 20-room residence were done by mental patients. In the sun room there are two — a delightful cheery woodland collage with animals, the other a scene of horses. Others in the house are scenics, and houses.

"Young people should get over being so all - concerned with themselves, never giving a thought to others. The feeling that you have something within you that can help a human being is a great feeling in itself," says Margaret.

It's the same idea with the blind youngsters, 16 and 17, that she helps at Oakdale School and summer camp. People are forever saying that "it must be depressing."

"These kids aren't dreary. They are the cheeriest people you'd ever want to meet. They aren't any more depressed than we are. They read and enjoy (in Braille) the same books and games that we like."

Margaret has plenty of time to go horseback riding which she enjoys and for dates with her steady beau, a Boston business school student who will soon go into the service.

"Extra - curricular interests help you decide what you want to do when you go to college," she advises. "It is a very difficult decision. I have changed many times. In high school, I wanted to be an English teacher. Then I wanted to be a psychologist. But I've decided that isn't necessarily for me either."

One reason she chose a junior college, she says, is to have two years to decide what studies she'd want to pursue in a senior college.

Avacado Citrus Salad

2 ripe avocados
2 cups each torn lettuce and chicory
Membrane - free sections from 2 large oranges and 1 large grapefruit
½ cup slivered fresh dates

Halve avocados; remove seeds and peel. Place halves cavity - side down and slice thin; arrange on the torn greens with the citrus fruit; sprinkle with dates. Makes 6 servings. Serve with this dressing: Beat until smooth ¾ cup salad oil, 1-3 cup catchup, ¼ cup red wine vinegar, 2 tablespoons sugar, ¾ teaspoon salt and ¼ teaspoon instant minced onion. Chill. Beat before serving. Makes 1½ cups dressing.

Most accidents are caused by the nut that holds the wheel. Bible Book Store,1402 Lubbock Highway.

Sunday Next For Rabbi?

SATURDAY THE RABBI WENT HUNGRY. By Harry Kemelman.

The reader gets double — or maybe triple — his money's worth in this book. You get a murder mystery, armchair variety, in which a rabbi solves the crime, an intertwined plot involving cliques in the temple congregation and you — painlessly — learn a lot.

Kemelman's style is easy to read and the reader can just zip along. You probably can guess who the murderer is from motive but if you're reading fast you probably won't arrive at the answer as the rabbi did—using logical deductions from his observations of small happenings and circumstances.

The rabbi uses the logic methods of the Talmud, one of them being — if some stated thing is so, then how much more sure would some other thing be.

Kemmelman's Rabbi David Small is old-fashioned, rabbi of a Conservative temple, but with an Orthodox background. As disagreements pop up about him among the members of the suburban temple — as easily can happen when various persons hope for different responses from one person — the reader learns a lot about what a rabbi is and formerly was.

Some members of the congregation expect the rabbi to be their spiritual leader, some want an employe who takes orders and some want a gregarious "representative of the Jewish community" to the rest of the town.

The rabbi remains in the old Eastern European tradition — none of these things. He is instead a scholar and he is willing to teach. (For example, he explains Jewish thinking about suicide.) He is ready to debate and to use his finely honed reasoning powers to judge disputes, settle matters of conscience or clear up puzzles.

Such a rabbi would soon be fired by a modern suburban congregation. Rabbi Small has managed — barely — to be retained by his congregation through "Friday the Rabbi Slept Late" and this book.

Let's hope they keep him at least through Sunday.

WOMEN'S CALENDAR

TUESDAY

Toperettes meet at Stanfield cafeteria.

Family night at Country Club.

THURSDAY

Snyder Duplicate Club, 1:30 p.m. at Martha Ann Woman's Club. Masterpoint day. Open.

Order of Eastern Stars called meeting for initiation, 8 p.m. at Masonic hall. Hostesses Laura Arnold, Dena Fay Sterling, Loretta Keller and Billie Dupree.

Triple L Club will leave First Baptist Church at 8 a.m. for trip to Hardin - Simmons campus, Abilene.

FRIDAY

Duplicate bridge at Country Club, 9:30 a.m. Open. Masterpoint day.

SUNDAY

Duplicate bridge at Country Club, 1:30 p.m. Open.

Order of Eastern Star will host tea honoring Mrs. Mildred Sparks, grand officer and member of glad tiding committee, 2:30 to 4:30 p.m. at Martha Ann Woman's Club.

Reversing Aids Fence

A tall, long privacy fence of flush boards, looks best if divided into four - foot - wide sections, boards nailed on the face side of one section, and on the back side of the adjoining section. The method develops a paneled look, with framework exposed in alternating sections to produce an attractive, three-dimensional look.

King Announces Assault On Chicago, Mayor Daley

CHICAGO (AP) — Dr. Martin Luther King Jr. has declared a nonviolent war on Chicago and Mayor Richard J. Daley.

King announced a "nonviolent assault" on the city and Daley after a two-hour meeting with Daley Monday. The meeting was "very disappointing," said King, chairman of the Southern Christian Leadership Conference.

"We are demanding, not begging," he told newsmen. "Our (the Negro) vote can and will be the balance of power.

"I do not think that the mayor understands the depth or dimension of the problem. If nothing is done, we are inviting a social disaster."

Daley told newsmen: "We asked them for their solution. They did not have any. All they could do was recite problems."

But another civil rights leader said King and Daley were "closer than ever before because of the meeting."

Dr. Edwin Berry, director of the Chicago Urban League, said the meeting "is the beginning of a concerted campaign."

"The mayor called on us to help him make Chicago an open city, after Dr. King had called on the mayor for an open city," he said in an interview.

"The mayor said he could agree with the demands we made almost unanimously. The mayor didn't agree with everything, however. There were no (formal) agreements. But Dr. King impressed the mayor very much."

"Mayor Daley said he would work hard on the employment problems. The difference is how long it takes and how satisfied we are expected to be with small gains at a slow pace."

King said the specific demands he made were for a civilian review board to hear citizen complaints against policemen and immediate action to eliminate slums.

Daley refused to consider a civilian review board, King said, because Police Supt. O. W. Wilson is against it.

In response to the slum elimination demand, King quoted Daley as saying, "There are things already going on."

Daley told newsmen the city already has extensive antislum programs and that he expects to eliminate all slums in Chicago by the end of 1967.

After a massive rally in Soldier Field Sunday, King led a march to City Hall where he taped a list of demands on the door.

Police estimated more than 50,000 persons, most of them Negro, heard King's speech at the rally.

The demands taped by King on the City Hall door included a $2-an-hour city minimum wage ordinance, open occupancy statements by public officials, and revocation of city contracts with firms that do not have fair employment policies.

Decision On Wheat Hike Delayed

WASHINGTON (AP) — A decision on possible further increases of 1967 crop wheat allotments will be delayed until late in the month.

An Agriculture Department crop report Monday indicated this year's wheat production will be 1.24 billion bushels, down 7 per cent from last year and less than anticipated demands for the next 12 months.

President Johnson, who several weeks ago increased next year's wheat allotments 15 per cent, has directed Secretary of Agriculture Orville Freeman to look into the need for a larger increase. The allotments are a crop control mechanism.

Undersecretary of Agriculture John Schnittker told newsmen his agency wanted more time before making the final 1967 wheat allotment.

In any event, it will be necessary to use part of this year's reserves to fill foreign wheat demands until next year's crop is available. The once huge wheat surplus has been used to meet food for peace needs of India and other countries.

The report said crop prospects are not quite as favorable as a year earlier when output matched a previous record. Farmers planted a slightly smaller acreage and weather has been hindering crop development in some areas.

Nevertheless, record crops of corn, soybeans and rice are in prospect. But the total tonnage of feed grains—corn, barley, oats and sorghum grain—is expected to be down about 2 per cent from last year. More tobacco and sugar cane are indicated than last year.

Milk production, which has been on a worrisome decline for more than a year, was 3 per cent lower in June and in the like month last year.

Mrs. Firestone Files Suit For Damages

PALM BEACH, Fla. (AP) — The wife of millionaire industrial heir Russell A. Firestone Jr. has filed suit for $6 million against Time, Inc., over a story that appeared in Life magazine.

Mary Alice Firestone, whose suit was filed Monday in Circuit Court, asked $3 million in actual damages and $3 million in punitive damages.

The suit alleged that "injurious photographs and quotations" were published in a Life story on snooping by private detectives.

Mrs. Firestone is suing her husband for separate maintenance and child custody. He has filed a counteraction for divorce.

Medieval alchemists were not above trickery to impress potential patrons. Unscrupulous members of the craft produced gold by sleight-of-hand and earned

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — Transportation in the old Aztec capital is a problem. And the city fathers plan to buy more than 200 used U.S. trolleybuses plus 3000 new Mexican - made conventional buses to ease things a bit.

The idea is to take pressure off traffic by getting commuters to leave their cars at home. Use the rapid transit system (considering that it does the job).

A half million cars clog the streets and avenues every day. During the morning, noon and afternoon rush hours it is murder.

Officials figure a few thousand buses and taxis are better than a few hundred thousand autos.

Frankly, I will buy this idea. Parking places now are almost impossible to find. If the bus fleet is built up big enough so everyone can leave his car at home, I can drive mine to town at an easy pace and find parking spots. It figures.

Like most cities in Latin America, Mexico City is having a rough time keeping up with its fast growth. And one of the big problems is the shortage of transportation to new suburban housing areas.

These areas sheet up like mushrooms. And the city keeps spreading out in all directions. It means longer runs for existing bus lines and the re-routing of the old rolling stock.

Consequently, you have streets filled with buses and cars. As well as taxis, bicycles and the little put-put scooters.

Suburban development is the big thing these prosperous days. The downtown section is filled in all directions, including up. Therefore, we must spread sideways. This way and that.

And the more we spread, the more people need automobiles to get in from the suburbs. It makes for a curious situation.

The city now has about 6,000 buses. Half of them need replacement and have problems chugging along. There also are 18,000 taxis, millions of bicycles and scooters plus a fleet of street cars.

Trollybuses cover a 250 mile network and it looks like nothing. The regular bus runs must be incredible.

Well, it is now a city of almost six million inhabitants. As far as I can estimate, half the people drive cars or ride buses and taxis. The other half is busy dodging in the streets.

The real answer, say some of the officials, lies in subway or monorail systems.

A U.S. firm which has tinkered with such systems suggests that Mexico build a monorail line from downtown to the residential areas around Unviersity City on the southern outskirts.

A line like this could carry 90,000 passengers an hour, they report. Heavenly days, are they going to run one train after the other or have ONE a half a mile long?

A Japanese firm is anxious to build either a subway or a monorail. It is a wonderful idea but the authoroties have no plans for such construction. They say it would cost too much.

Instead, they plan to open new streets, widen others and put on a few thousand more buses. Take several thousand automobiles off the streets.

It is an interesting problem that may have an interesting solution. Especially if they get all these new buses rolling and the cars keep right on driving down the avenue. Whooie!

Easements Sought On Ranch Road 1

AUSTIN (AP) — The state Highway Department is moving to create "scenic easements" that will prevent commercial buildings and signs between Ranch Road 1 and the Pedernales River near President Johnson's ranch.

The easements will not give the department title to any land nor interfere with grazing, District Engineer Tom Wood said.

Part of President Johnson's land is included in the 4.3-mile strip, Wood said, and "I hope they'll donate it."

"We'll approach them just like everybody else," he added.

Ranch Road 1 follows the course of the Pedernales, with the distance between the road and the river varying to as much as 200 yards or more.

The President recently donated right-of-way for Park Road 49, a paved loop which winds past his family cemetery and his reconstructed birthplace.

Wood estimated the easements would cost the state $22,000.

US Validates China Passport

PROVIDENCE, R.I. (AP) — A young business executive with a strong curiosity about Communist China has passed the first obstacle in an attempt to visit that country.

G. William Miller, president of Textron, Inc., was notified that the U.S. State Department has validated his passport for travel to Communist China under new guidelines announced Monday.

The next hurdle is to get approval from the Communist government, a step he will undertake immediately, "probably through Hong Kong."

Miller, 41, who rose to the presidency of Textron in just four years, says his desire to visit China is not business oriented.

"My interest is as a citizen more than anything else," he said. "I think it would be useful to see first hand what we have been hearing about in third-hand reports."

Miller, who spent a year in China while in the armed forces at the close of World War II, said, "I would like to see what the Chinese have accomplished."

"Eventually we are going to have to improve relations with Red China or have the entire thing blow up in a war," he said.

Miller is a graduate of the Coast Guard Academy who earned a law degree at the University of California in Berkeley in 1962. Until 1956, he was a member of the Wall Street law firm of Cravath, Swaine and Moore and then joined Textron as assistant secretary.

Four years later, at the age of 35, he was elected president of the diversified manufacturing company with annual sales of more than $1 billion.

He said he read several months ago of an easing of restrictions on travel to Red China by the State Department and decided "maybe I should take the first step to get the program rolling."

"I am very pleased the State Department saw fit to give its approval to me," he said. "And it only took 60 days. That was encouraging."

Texans On Oil Panel

WASHINGTON (AP) — Eight Texans are new members of the National Petroleum Council, for the fiscal year that began July 1.

Secretary of the Interior Stewart L. Udall announced the names of 26 new council members Monday. The 104-member council advises him on petroleum industry matters.

New Texas council members are:

Carroll Bennet, president of the Texas Pacific Oil Co.; Van Thompson, president of Aztec Oil & Gas; and Robert L. Foree, all of Dallas; Richard J. Gonzalez; Wilton E. Scott, president of Tenneco, and M. A. Wright, chairman of the board of Humble Oil, all of Houston; Walter R. Koch, president of Texas Independent Producers & Royalty Owners Association, Austin, and A. Earl White, president of American Association of Oilwell Drilling Contractors, Tyler.

The council will meet here July 19.

SPORTS

May Bar Russians From '68 Olympics

By TED MEIER
Associated Press Sports Writer

U.S. officials warned today that the Soviet Union might be barred from the 1968 Olympic Games in Mexico City because of its "shocking and incredible" action in pulling out of its dual track meet with the United States.

The Soviet cancellation of its participation in the meet, scheduled for July 23-24 in Los Angeles, came without warning Monday from Moscow. Tass, the official Soviet news agency, reported the cancellation was in protest of American participation in the Viet Nam war.

Col. Don Hull, executive director of the Amateur Athletic Union, said in Frankfurt, Germany, that he planned to fly to Moscow to see if he could still work things out.

Hull talked by telephone with Glenn Davis, director of the Los Angeles meet. "Col. Hull told me," Davis said, "that he could not believe the Soviet sports people would jeopardize their standing with the International Amateur Athletic Federation by failing to complete their contract to compete in Los Angeles."

Avery Brundage, president of the International Olympic Committee, was not immediately available for comment in Chicago. The IOC and the IAAF have worked together in the past.

"This news is shocking and incredible," Clifford H. Buck, president of the AAU, said in Denver, Colo. "We are particularly distressed because this puts the entire amateur sports exchange with the Soviet Union in jeopardy."

Tass said the U.S.-Russian basketball series of games, scheduled to start in Moscow July 25, also had been canceled, but that the swimming competition between the United States and the Soviets, scheduled for Moscow Saturday and Sunday, was not affected because three other nations were entered.

Polish officials Tuesday canceled their track and field team's trip to Berkeley, Calif., this Saturday and Sunday. A Polish Sports Ministry official said the Polish Track and Field Association decided to pull out of the meet because of the Viet Nam war.

Sam Bell, the University of California track coach who was to have directed the Polish meet, said, "Whether the Poles show up or not, we will have a meet. We've already sat down and picked teams."

Bell coached the U.S. team against the Russians two years ago.

Poland's cancellation was made on the eve of the squad's departure Wednesday, and it seemed an obvious reaction to the Soviet announcement.

Polish officials Monday night were pressing the U.S. Embassy in Warsaw for the team's visas. There was no hint in Warsaw sports circles that the trip was about to be called off.

The Americans were beaten by the Russians for the first time in their dual track meet in a shocking upset at Kiev last year. The Americans had been looking forward to the Los Angeles meet and had been expected to win as they did in six of the seven previous meets since their start in 1958.

Buck and Capt. Steve Archer, secretary of the AAU, as well as the State Department in Washington and the U.S. Embassy in Moscow, said they had received no official word from the Soviet government.

"Since this is a Tass release, I can only assume that it is official," Buck said. Robert J. McCloskey, the State Department's press officer, declared in Washington that the cancellation was "unfortunate" but "not a violation of the cultural agreement between the two countries."

Wrestling To Make Rough Snyder Debut

Professional wrestling makes its Snyder debut tonight at 8:30 p.m. in the Snyder High School Gym with three main events scheduled including a girls match.

Snyder police captain, "Mac" McWhirter will be the special referee in tonight's bouts. He has promised to keep law and order in the ring.

The first bout will pit big Art Nelson against popular Dory Funk Jr. Kay Noble will take on Gidget in the girls event, and the Lawman will tangle with Gory Guerrero.

These events are sponsored by the Snyder Jaycees, and tickets can be purchased at the door.

100 Oilers Go Through Early Drills

HOUSTON (AP) — Wally Lemm, the American Football League's 1961 Coach-of-the-Year, put 100 men — mostly rookies — through two workouts today in hopes of trimming the Houston Oilers early camp down to a mere manageable number within a week or so.

"If a rookie's good enough, he can make this team," said Lemm Monday as the players took physicals and suited out.

The rookies, and a few regulars already on hand, started their first workout of the summer today. An afternoon scrimmage session focusing on offensive pass blocking and pass rush was set for the rookies only during the afternoon.

"This team had a lot of injuries last season," Lemm said. "If we can avoid that, the team will be better if for no other reason."

"We have three fine quarterbacks, so there's no problem there." He was referring to George Blanda, Jack Lee and Don Trull.

"Our running game should be sound, with Ode Burrell and Sid Blanks giving us a good outside threat and Charley Tolar ready to go again at fullback," Lemm added.

Lemm, who coached the Oilers to the AFL title in 1961, said the linemen face the biggest adjustment. He doesn't plan a "major overhaul" of the team.

"Unless a player comes from a school like Tulsa, which throws the ball a lot, he isn't going to know how to pass block or pass rush . . . and those are the two things we're looking for most from this group."

Al Hirt is a 3-year-old bay gelding bred in Kentucky. The horse is the son of Mrs. Music —Hasty Girl, by Princequillo.

Casey Hayes says the best horses he ever trained were Hill Prince, First Landing and Sir Gaylord.

LAST MINUTE WINS

Cardinals, Yanks In LL Victories

The Cardinals slipped by the Giants 7-6 and the Yankees out lasted the White Sox 9-7 in Little League games played Monday night.

Randy Rodgers hit a sixth inning homer for the Cardinals and the Giants fell one run short in their ambitious sixth to drop the close affair. Rodgers' homer came with one out in the sixth inning. The Giants scored four runs in the sixth on a lone hit by Jackie Gorman. The Cardinals took the lead from the Giants in the second inning when they scored two runs. A two run homer in the third inning by Jim Waters moved the Cards further ahead. Rodgers' blast capped the scoring attack.

The Yankees scored four runs in the eighth inning with the aid of a three run homer by William Patterson to beat the White Sox. The game went into extra innings after the teams were tied 5-5. The White Sox appeared to have the game won when they scored two runs in their half of the eighth inning, but Patterson's blow put the icing on the cake for the Yankees. The White Sox tied the score in the fourth inning when they scored five times.

Dallas Rookies Are Working Hard

THOUSAND OAKS, Calif. (AP)—The catching of end Art Robinson and the slashing runs of halfback Walt Garrison highlighted the first contact sessions at the Dallas Cowboys rookie training camp.

Robinson, a 208-pound flanker from Florida A&M, made several acrobatic catches while Garrison, the 206-pounder from Oklahoma State, impressed coaches with his runs up the middle.

It was the first hard contact work of the camp for the 48 rookies and they were put through a fast paced series of work in both morning and afternoon sessions.

Kentucky's scoring twins, Pat Riley and Lou Dampier, finished third and fourth respectively in Southeastern Conference scoring last season.

Sonics Back On TL Top

By The Associated Press

Amarillo's Sonics more than a week ago slipped out of first place, a position they had held all season, but they held a 2½-game lead again today in the Texas League.

They hammered 21 hits off six El Paso pitchers Monday night for a 12-5 victory while second-place Arkansas lost to Albuquerque 3-2.

Dallas-Fort Worth won only its second game in 11 played at Austin this season by defeating the Braves 6-2.

The Sonics collected five straight singles for three runs in the first inning and scored four more in the third as Elijah Johnson and John Hoffman hit back-to-back home runs.

El Paso got half its eight hits off Dan Rivas in the eighth inning when it scored three runs.

Albuquerque's Willie Crawford lashed his 12th triple of the year and then scored on Tom Hutton's fly ball in the sixth inning for the Dodgers' margin of victory. In the second inning after two were out, Jim Fairey, Mike Stubbins and Jim Barfield singled to produce Albuquerque's other runs.

Snyder, San Angelo Vie In Winston Park

Snyder's softball team will take on San Angelo tonight in Winston Park at 8 p.m.

Jean Anderson will do the pitching chores for Snyder and Jo Ann Goosby will be her battery mate. Snyder posts an impressive 12-2 record going into tonight's contest. San Angelo is expected to field a fine team tonight also.

How can we sell a 10¢ cigar for 6¢?
It's no secret. We make more cigars of one brand than anyone and spend only a fraction for advertising. Still, sometimes we wish we could spend more advertising this fine cigar value. But, we'd have to raise our price or cut our quality. Then, we might not sell as many. What do you think?

Feel The Heat? Just Think Of Those Pro Footballers

By HAL BOCK
Associated Press Sports Writer

Are you feeling the heat today?

It could be a lot worse. Suppose you were jogging around in football clothes?

In July?

Most of the teams in the National and American football leagues open training this week with some veterans joining rookies for the early workouts.

With the regular season still six weeks away, the word around the camps was take it easy, especially on those valuable commodities, the quarterbacks.

John Rauch, coach of the Oakland Raiders, dressed signal callers Cotton Davidson, Tom Flores and Charlie Green in red jerseys and made them off-limits to ambitious linemen.

Davidson suffered a shoulder injury in an early workout last year and missed virtually the entire AFL season.

At St. Petersburg, Fla., Coach George Wilson sent the Miami Dolphins' quarterbacks through a drill on passing tactics. The top student was Rick Norton, the No. 1 draft choice from the University of Kentucky.

Norton has been held out of contact work so far and probably will miss it for another two weeks. He is recuperating from a knee operation.

Another highly touted rookie quarterback, Randy Johnson of the Atlanta Falcons, impressed his coaches with a brisk workout. Johnson had suffered a back injury in last Saturday's Coaches All-America game at Atlanta.

"Johnson looked good throwing the ball today, but we still don't know his exact condition," said Coach Norb Hecker. "We won't know until the X-rays are analyzed."

Johnson, a graduate of Texas A&I, was named Most Valuable Player in the All-America game.

Otto Graham, starting his first season as a pro coach, greeted 42 rookies and 15 veterans at Washington's training camp in Carlisle, Pa. Graham sent the Redskins through their first workout today.

Most of the pro clubs welcomed back rookies who had played in the Atlanta game but they'll be on hand only for a day or so before departing again, this time to work out for the College All-Star Game in Chicago against the Green Bay Packers Aug. 5.

The New York Giants had three rookies in the revolving door, all of them tackles. Francis Peay of Missouri, Don Davis of Los Angeles State, and Charley Harper of Oklahoma State, all played at Atlanta, reported to the Giants' camp at Fairfield, Conn., and will check out for All-Star Game workouts Thursday.

Davis shook Giant coaches by weighing in at 319 pounds, about 39 pounds over his normal playing weight. "I'm a little heavy," he admitted, "But I'll get down."

Coach Allie Sherman said his training camp "is not a reducing salon," and put Davis on an all-meat, no-bread diet.

Dan Grimm Reduces For '66 Season

BLACK MOUNTAIN, N.C. (AP) — Guard Dan Grimm feels he's getting older. Therefore, he's beginning to watch his weight.

Last year, he threw 255 pounds at opponents of the Green Bay Packers. This year, the three-year National Football League veteran reported to the Atlanta Falcons' camp eight pounds lighter.

"When you get older, you can't carry as much weight," he said. "All winter and spring I worked out with weights, played handball and did a lot of running. I think I have reached my level for the 1966 season."

His age? "I'm 25 and some days I feel it," he said, grinning.

The Falcons, the newest team in the NFL, are in their second week of drills.

In Monday's practice, quarterback Randy Johnson, recently arrived star of the West's 24-7 victory over the East in the Coaches All-America Game, brought cautious smiles from his coaches with his passing.

The smiles were hesitant because the coaches were waiting for an analysis of X-rays of a back injury the bonus rookie from Texas A&I suffered in the All-Star Game.

"Johnson looked good throwing the ball today, but we still don't know his exact condition," coach Norb Hecker said. "We won't know until the X-rays are analyzed."

Yanks, Cards Take FL Wins

The Yankees downed the White Sox 8-7 and the Cardinals defeated the Giants 15-4 in Farm League games played Monday night.

The Yankees scored four runs in the fifth inning to insure their win over the White Sox. Joey Hardin delivered a key double in the fifth driving in two runs for the Yanks. Hardin's double proved to be the winning margin of the game in the 8-7 Yankee victory.

The Cardinals scored 13 runs in the first inning to easily take the win over the Giants. The first nine men scored for the Cardinals before a man was retired in the inning. The Giants scored all four of their runs in the fourth inning, but never mounted a real threat.

THAT EMBARRASSING FEELING!

Figures Show Big Business Grows Bigger By The Year

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Just how big the nation's big business has really grown can be seen in this: The 500 largest industrial corporations represent only a fourth of one per cent of all industrial companies, but account for 60 per cent of total industrial sales and 70 per cent of the profits.

And how fast big business has grown can be seen in this: The 500s' combined sales last year of $298 billion and profits of $20 billion were larger than the totals for all U.S. industry only 10 years ago.

These figures, compiled by Fortune magazine, also show that profits of the biggest have grown faster than their sales in recent years. The number of their employes has grown faster than total U.S. industrial employment. But assets and also sales have grown faster than the number of the top 500s' employes.

Also, the 50 largest companies tend to dwarf the other 450 of this select list by claiming a giant share of the sales and profits and assets.

In business, the United States is truly a land of the big. And the big have been getting bigger year by year in the Soaring Sixties.

Small business has been prospering, too. And once-small companies continue to climb toward the top 500, and each year some of them displace former occupants of the circle of the leaders.

The $20 billion in profits by the top 500 last year was a 16.1 per cent increase over 1964. A third of this $20 billion was accounted for by the top 10 companies.

Sixty companies had sales of more than $1 billion each, five more than in 1964. The $298 billion total for the 500 was up 11.8 per cent.

Thus profits were growing faster than sales in 1965, widening the profit margins. The return on sales went to 5.5 per cent, from 5 per cent in 1964 and 4.3 per cent in 1963.

Profits per dollar of invested capital also grew. The median gain for the 500 was 11.8 per cent in 1965, compared with 10.5 per cent in 1964.

Assets combined to $251.7 billion, a jump of 12 per cent, compared with a 7.7 per cent rise in 1964. But half of this total was held by just 41 of the 500 companies.

Total invested capital for the 500 rose 8.2 per cent to $154 billion, with more than half of the total owned by the top 37 companies and more than a fourth of the total by just 8.

The biggest 500 industrials employed 11,279,085 persons in 1965, a gain of 7.8 per cent in the year, compared with a 4 per cent rise for all U.S. industrial companies, which employed 18,612,000.

The median assets per employe of the 500 rose to $17,608 from the $16,957 of 1964. So assets were growing faster than total employment. Median sales per employe went to $24,141, compared with $23,162 in 1964.

But while big business did well in 1965, that doesn't mean that all companies prospered, nor that all grew at even comparable rates.

Of the 500 listed as 1964's top industrials, 26 names don't appear in the 1965 list. Nine were merged into other companies on the list, and the other 17 either had decreasing sales or sales that didn't gain enough to keep up with the competitors.

And still other companies not on the list are currently crying: Wait until next year.

Junior Editors Quiz on EDUCATION

QUESTION: Why is it important to get an education?

• • •

ANSWER: Education has always been very important, beeause it teaches a young person the skills he will need when he takes his part in the adult world. In primitive days, a boy had to learn how to handle weapons (top) so he would be able to take care of his family later on by hunting. Girls had to learn to prepare food, cook and sew skins for clothing. In our modern machine age, boys and girls need to learn a great deal more. Judd (lower left) is shown in his school chemistry class. Look at him, right, some years later. He is a happy young man with a fine job in the profession he is best fitted for. Judd credits this success to his education. There are, of course, a very large number of young people with other abilities and inclinations. They would not want to become chemists like Judd. But a good school education will prove of the greatest value in just about any other occupation. No matter what we do, we all need basic skills such as reading, writing, arithmetic, social studies, etc.

• • •

FOR YOU TO DO: Think of several occupations you might enjoy when grown up. Then consider the skills needed for them, and you will realize how many are being given to you in your own school. 7-12

(Ruby Bullock of Pinetops, N. C., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Jumping To Conclusions With Boyle

By HAL BOYLE

NEW YORK (AP)—Jumping to conclusions — and how many do you agree with?

Girls are safer with men who wear bow ties. They rarely commit crimes of passion because they are still small boys at heart.

Guys who sport summer shoes with holes in them generally come from smaller towns.

Restaurant owners who charge 10 cents more for iced tea than hot tea should be tarred and feathered. Ice isn't all that expensive.

It is hard for his congregation to warm up to a minister who insists on preaching a Sunday sermon against Hades during a summer heat wave. No one wants to be warned about the perils of a hell when the temperature is over 90 degrees in the shade.

One of the first things a smart bachelor learns is never to take a woman out to dinner when she has just bought a new dress. For then she is inclined to feel that nothing is too good for her, and she'll invariably order from the expensive side of the menu.

It is also hard on the pocketbook to wine and dine a girl when she is wearing a pearl necklace. Pearls give her a "princess feeling," too. And what do princesses like? Filet mignon and champagne.

The greatest unsung hero of the beer industry was the guy who thought up the idea of putting salt on pretzels.

A misfit is a girl who applies for a secretarial job with a fruit company — and can't spell sour apples.

One of the greatest hardships of America's pioneer mothers must have been finding a place to hang their stockings to dry. Most houses in those days didn't have bathrooms.

Never lend money to a fellow in the office who is always borrowing paper clips. He'll never get his life organized and will want to lean on you forever.

A confirmed atheist is a fellow who still doubts heaven even after winning a new automobile in a church-sponsored lottery.

Any man who proposes marriage to a widow who wears her dress above her knees deserves his fate.

The real reason many a wife objects to having her husband smoke cigars is that they give him a satisfaction that has absolutely nothing to do with her. She hates to see him so happy in a pleasure in which she has no part.

Mail Censorship Tightens In Cuba

MIAMI, Fla. (AP) — A newly arrived refugee said today that Cuba has increased its censorship of mail.

Felix Monzon, 28, a former messenger for the Cuban Telegraph Co., said government agents opened mail to and from the United States. If outgoing mail contained criticism of the Cuban government, the sender would be investigated, Monzon said.

He said many persons have been arrested for mailing out letters criticizing the Castro regime.

ANNOUNCEMENTS A

CARD OF THANKS A-3

WE WISH to take this means to thank each of you for the kindness shown us during the loss of our loved one. Also to thank everyone at the Snyder Hospital for the tender love and care given him during his stay there. May God bless each of you.
The Lee Bunch Family.

Public Notice

AN ORDINANCE No. 805
AN ORDINANCE OF THE CITY OF SNYDER, TEXAS, CHANGING AND REGULATING THE SPEED OF MOTOR VEHICLES ON U.S. HIGHWAY 180 THROUGH THE CITY OF SNYDER; PROVIDING FOR PENALTIES FOR THE VIOLATION THEREOF AND DECLARING AN EMERGENCY.
BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SNYDER, TEXAS:
That the speed limit for all motor vehicles on U. S. Highway 180 through the City of Snyder, Texas, shall be as follows: From the West City Limit to Sta. 742 plus 30—55 MPH; from Sta. 742 plus 30 to FM 607 (Sta. 755 plus 50)—50 MPH; from FM 607 (Sta. 755 plus 50) to Avenue Z (Sta. 771 plus 31)—45 MPH; from Avenue Z (Sta. 771 plus 31) to U. S. 84 (Avenue S)—35 MPH.
It shall be unlawful for any person to drive a motor vehicle through the City of Snyder at a speed greater than the limits set forth above.
Any person who shall violate any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor and liable to a fine, and upon conviction shall be fined a sum of not less than Fifteen (15.00) Dollars nor more than Two Hundred (200.00) Dollars, and each and every violation shall constitute a separate offense.
The rule requiring the reading of an Ordinance on three separate days is hereby suspended, and this Ordinance shall take effect upon its passage and publication.
Read and passed by the City Council of the City of Snyder, Texas, this the 5th day of July, A.D., 1966.
(s) M. L. Broman
MAYOR
(s) K. O. Pitner
City Secretary

Trinity Interests Declare Water Proposal Inadequate

By MIKE COCKRAN

ARLINGTON, Tex. (AP) — Numerous witnesses told the Texas Water Development Board Monday they felt its estimates of water use in the Trinity River Basin for the next half century are too low.

These and other views were expressed at the ninth of 28 hearings scheduled throughout the state on the board's $3.7 billion plan aimed at meeting future water needs.

"A decrease of available water supplies in the Trinity watershed in the amount of a minimum of approximately 500,000 acre-feet per year will occur if the plan is carried out," predicted O. P. Leonard, president of the Trinity River Authority.

In similar vein, Ben H. Carpenter, president of the Trinity Improvement Association, asserted that the projected program "completely ignores the need in this area for future industrial water supplies which will result with the advent of barge navigation."

Leonard and Carpenter were among various spokesmen voicing sharp opposition to the board's proposals in a daylong hearing at Arlington State College. About 200 persons attended.

Included in the broad scale plan in addition to 23 reservoirs in existence or being built in the Trinity River Basin and three previously scheduled for construction would be six new reservoirs. By board estimate these would cost $337 million.

Speaking for Dallas, City Water Supt. Henry Graeser likewise said that "we feel the water board's estimates of usage are too low and yield too high."

He noted that surplus water from the Sulphur River in East Texas would be diverted to (1) the Trinity between Dallas and Fort Worth, with that not used being allowed to down the Trinity, and (2) to the Brazos River farther west.

This would force "tremendous expenditures" by Dallas and Fort Worth for water treatment plants while still would be a question "as to who is contributing the bulk of the export water for the Texas Water Plan—East Texas or the upper Trinity area."

A statement distributed by Houston representatives urged that the board reconsider two projects in which that city already is involved:

"The Lake Livingston Dam and reservoir and Wallisville salt water barrier projects, in combination, constitute the finest and most economical water supply in the state. . . If the proposed plan is followed, then the ultimate result would be incalculable damage to the Houston metropolitan area water supply for municipal, industrial and irrigation uses. . ."

In the minority backing the water plan were the suburbs of Euless and North Richland Hills, who informed the four board members at the hearing: "We not only endorse the plan as a whole but pledge our support on its behalf."

Joe G. Moore Jr., executive director of the water board, acknowledged as the hearing drew to a close:

"As you can well imagine, we've received testimony from throughout the state that we have underestimated projected needs. . . This is a matter that must remain flexible."

TAX ANSWERS

This column of questions and answers on federal tax matters is provided by the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

• • •

Q—Are you getting refunds out any faster with your computers?

A—Yes, we are processing refunds faster and computers are partly responsible. Over 27 million refund checks had been mailed by April 15, 10 percent more than for a comparable period a year ago. In other words, computers helped get refund checks to nearly 3 million more taxpayers by April 15 than received them last year.

Q—What about expenses connected with attending military reserve meetings in the evening. Is anything deductible?

A—The cost of your uniform, less any nontaxable allowance, will be deductible but not the travel costs to and from your reserve meetings unless you also worked at your regular job on the same day you attended a reserve meeting. Then the cost of a one-way trip from your regular job to the meeting can be deducted from your gross income.

Q—I need someone to help me appeal my tax case but your people won't recommend anybody. Why is that?

A—There are many qualified tax practitioners and the government cannot be put in a position of favoring one over another. Officers of your local chapters of legal, accounting or tax practitioner associations will give you the names of those who can represent you.

Q—Do you have any publication that tells taxpayers what to do if called in for an audit?

A—Yes, IRS Document No. 5202, "If Your Return Is Examined." It can be obtained without charge by writing to your District Director of Internal Revenue.

Q—My return was audited and I actually got a larger refund than I claimed. Does that happen very often?

A—Yes, it happens fairly often. One object of our audits is to make sure that the correct tax is collected from each taxpayer. We find many taxpayers who have overpaid as well as those who have underpaid.

Last year $145 million was returned to taxpayers as a result of audits where claims for refund had not been filed. On the other hand, our examination of returns resulted in the assessment of $2.7 billion in additional taxes and penalties.

Q—Is it true you have to get permission from the Internal Revenue Service to leave the country?

A—The law requires that most aliens must show their tax affairs are in good order before they are granted a sailing permit.

To establish this, copies of 1963, 1964 and 1965 tax returns, as well as a statement of income and expenses for 1966, should be brought to your local Internal Revenue office. You should also bring your passport and re-entry permit as well as certain other papers and documents. For a detailed discussion of these requirements you may obtain Internal Revenue Service Document No. 5589, "U. S. Tax Guide for Aliens," free by writing to your District Director of Internal Revenue.

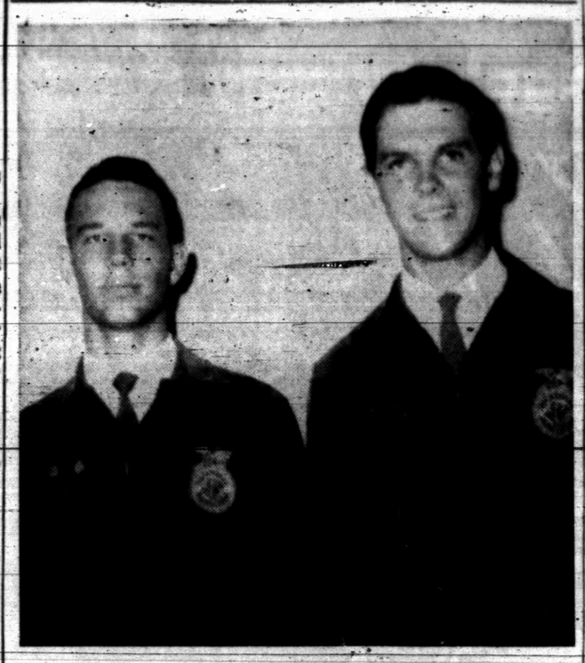

These requirements do not apply to U. S. citizens, although U. S. citizens who are delinquent in payment of Federal taxes should arrange with the Internal Revenue Service for payment before going abroad.

Q—Hospital insurance is a deductible expense, isn't it? One of your agents has disallowed this deduction which I had taken.

A — Cost of hospitalization insurance is deductible as a medical expense only when these expenses are itemized. Some taxpayers erroneously list hospitalization under "other" expenses where it is not subject to the 3 percent floor on medical expenses. Perhaps this is what happened in your case.

Q—I am retiring and will be moving into an apartment. If we give our furniture away can we claim this as a charitable deduction?

A—You can if you give it to a charitable organizaton such as Goodwill or the Salvation Army. The fair market value of the furniture at the time of the donation should be used to determine how much may be deducted.

WAYNE BECK AND RONNIE LASTER . . . .
Receive Lone Star Farmer Degrees

FFA Degrees Due Two From Scurry

Two members of the Snyder FFA Chapter, Wayne Beck and Ronnie Laster, will be awarded Lone Star Farmer Degrees at the state FFA Convention this week in Austin.

This is the highest degree a member may receive in the state association.

To receive this degree a member must have had an outstanding supervised farming program and must have been an active participant in the local chapter and in community activities.

Wayne Beck, son of Mr. and Mrs. Elton Beck, Clairemont Rd., has been a chapter member for three years and has had projects of sheep, swine, cattle and cotton.

Ronnie Laster, son of Mr. and Mrs. C. E. Laster, Dunn, has been a chapter member for three years and has had swine and cotton projects for his supervised farming program.

Connallys Plan Tour

AUSTIN (AP)—Gov. and Mrs. John Connally plan to visit Panama, Venezuela, Brazil, Uruguay, Peru and Colombia on a three-week goodwill visit to Latin America beginning July 24.

The announcement was made Monday by San Antonio's 1968 HemisFair, which said Connally would personnally extend invitations to each of the six countries to participate in the international exposition.

Peru agreed to take part during the visit there last month of Texas House Speaker Ben Barnes.

The governor's office said the Connallys would travel by commercial airliner.

Connally will go to Washington Wednesday for State Department briefings on the tour.

Campaign Expenses Told

LOS ANGELES (AP) — Ronald Reagan spent $544,199.66 in winning the California Republican gubernatorial nomination, while Los Angeles Mayor Samuel W. Yorty spent $311,283.78 in losing the Democratic nomination.

Reports released by Ben Hite, registrar of voters, Monday show that Reagan received $544,873.90 to pay for campaign expenses — $112,019 alone was raised April 20 at a $100-a-plate dinner.

Yorty's campaign treasurer said $305,354.88 was contributed toward the mayor's expenses.

Yorty was defeated by Gov. Edmund G. Brown, and Reagan won over George Christopher, former mayor of San Francisco. Neither man's expenditure report was available but state law requires that campaign receipts and expenditures be reported by today.

HOSPITAL NOTES

Chaplain: Rev. Miller Robinson

ADMISSIONS: Alma Carlan, 507 Twenty - eighth; Linda Leech, Hermleigh.

DISMISSALS: John Thompson, Mary Parks, Robert Jones, Natalie Salee.

If you want those tortillas to be soft, when they are to be rolled with a filling in them, give them only the briefest heating in oil in a skillet.

New, Short Mini-Skirts Stir Rebellion Among Beauties

By THEODORE A. EDIGER

MIAMI BEACH, Fla. (AP) — There are buzzings of a mini-skirt rebellion among owners of the world's loveliest legs.

Most of the 57 girls vying for the Miss Universe crown put their foot down on the short, short skirt. Some stand up for it. Still others skirt the issue.

The skirts came in for discussion during rehearsal breaks for Wednesday night's semifinals of the beauty contest. The finals are Saturday night.

Carol Whiteman of England, a country where the well- above-the-knee skirt is riding high, said she has one but can't decide whether to wear it.

"I am tiny and it would make me look tinier," grinned the 5-foot-3 supermarket clerk from Southampton.

Latin-American beauties are in the vanguard of the mini-revolt.

"You have to be careful how to sit down," commented Miss Chile, Stella Dunnage, 20, daughter of British parents.

The blue-eyed honey blonde added: "It (the mini-skirt) is antiesthetic. You look too short on top, and below that you look short, and then there are long legs."

Miss Panama, Dionisia Broce, was emphatic: "I wouldn't wear it if every other girl in the world wore it. You should hide your knees, which on most women are ugly."

Miss Korea, Yoon Quee-Young opined: "It is not so good." She wouldn't say why, just giggled.

Miss Guyana, Umbela Van Sluytman, commented: "It looks lovely on girls who have long legs, but not short girls."

One of the longest-legged, 5-foot-9 Lynn Carol de Jagerof South Africa, voted yes: "If it's new, I'll like it. Anything comfortable."

The shortest of this year's Miss Universe set, Lesbia Murrieta, who represents free Cuba, said: "It isn't elegant. If you want to show your legs, wear shorts."

Miss Japan, Atsumi Ikeno, said, "It's nice for those who look good in it. I wear one once in a while because I'm a fashion model."

But Miss Ireland, Gladys Waller, said "I like it on young girls but not on me."

She's 21.

What will the others be worth a year from now?
The Cadillac car holds its value far beyond any other automobile at or near its price. Let your Cadillac dealer explain today why now, more than ever, it's great . . . going Cadillac!
There is one simple way to measure the worth of any other luxury car: compare it to the way a Cadillac keeps its value. For Cadillac is the grand champion in this most telling of all motor car tests—and at resale returns a higher percentage of its original cost than any other car built in the land. There are many reasons. The first is Cadillac quality—recognized wherever automobiles are known. Then there is Cadillac beauty and luxury—so advanced that the car retains its desirability long after others have lost their appeal. And there is Cadillac safety, performance, dependability and operating economy. What will your car be worth a year—or even three years—from now? If it's a Cadillac, the answer is predictably pleasant. Get the facts today from your authorized dealer. He's an expert in serving the world's most demanding motorists—and his interest in your complete satisfaction will continue throughout your ownership. Isn't it time you put a Cadillac in your life?
