IN FARWELL- -

Housing Project Set

Curtis Williams of Curt's Construction company in Clovis recently bought seven lots in south Farwell in the Lenau Addition and will begin a housing project within the next two weeks, with construction to begin on a model home (for display purposes) in the next week. At the same time construction on a home for Mr. and Mrs. Merril Turner will begin in the same vicinity. Houses will be constructed on Manana, second street and Ave I.

Jerry Bradshaw of Bradshaw Real Estate handled the transaction between Williams and Charles Lenau of Muleshoe, from whom the lots were purchased. Williams also has an option to purchase an additional 20 lots in the same vicinity (to extend the project when the need arises).

The model home will be located on second street. It will be complete with furniture, drapes, a built in kitchen (all electric) and carpets throughout. It will not be for sale at this time. However, the other five homes are for sale and will be built to suit the purchaser.

Floor space will range from 1100 square feet to 1450 square feet, and will be built with single or double garage (as the buyer wishes). The home will include three bedrooms, a bath and a three quarter bath, built in kitchen (if desired) and many other special features. Floor plans are still to be completed by the architect, Gerald McGeehee of Clovis, says Williams.

Price of the homes will range from $11,500 to $16,000 (depending on the finish). The higher priced homes will be of all brick construction and the lower priced ones will have brick fronts.

The homes are F. H. A. and V. A. approved or will carry any other conventional loan and the contractor and real estate agent say "We would sell for cash." All minor repairs or changes in the first year will be handled by a fix-it van, owned by the contractor. Jerry Bradshaw will have exclusive sale rights for the housing project, says Williams.

Reason given for Williams for locating a building project in Farwell is that he believes there is a need for a medium priced home here and with the housing project he is trying to fill that need. One of the first homes bult by Williams after he had become a general contractor was the home of the late Mr. and Mrs. E. E. Booth on Ave H.

He has been in the construction business for a number of years, beginning work with a construction company in 1947 shortly after receiving his discharge from the armed services. He has been a general contractor since 1950 and holds one of the highest ratings of any building contractor in the state of New Mexico.

He is currently president of the Clovis Home Builders Association, a member of the National Home Builders Association and is serving as secretary of New Mexico Home Builders Association. Williams says he has built some 450 homes in and around Clovis, although this will be his first major project in Farwell.

Present plans call for at least five homes to be available for sale at all times, says Jerry Bradshaw, adding that as soon as a home is sold construction will begin immediately on another.

Bond Election Called For Texico School

The Texico School Board voted at its last meeting to call a bond election for the Texico Municipal Schools in order that three, and maybe five, additional classrooms for the elementary grades, and two classrooms and a library for the high school might be built, according to A. D. McDonald, superintendent.

The board in making the decision to call the election explained that the building program is necessary in order that students might be moved out of the old high school building, which has been condemned for a number of years.

It is the opinion of the board that it is important to keep our facilities in as good repair as possible, stated the superintendent.

More information will be forth-coming relative to the exact date of the election, and also other pertinent information in which the tax payer will be interested.

Three Elected To Texico School Board

A little better than average interest was shown in the Texico School Board election held on Tuesday. 115 persons cast their votes.

A two year, a four year and a six year term were filled. Wesley Engram - incumbent running unopposed for the two year term had 94 votes.

David Turner, who was running unopposed for the six year term had a total of 102 votes. Running for the four year term were Buddy (L. A.) Pearce - incumbent, Dee Jay Brown and Roy Lee Richardson. Pearce was elected with 51 votes. Brown had 31 and Richardson 33.

Other board members are F. S. Thigpen and Paul Skaggs. Paul Harrison has just completed a six year term on the board.

Jaycees Hear Reports From District Meet

Jaycees made plans to enter a team in the forthcoming volleyball tournament at their Tuesday night meeting and reports were heard from members who attend the district workshop and convention in Amarillo recently.

Don Preston reported on Youth and Sports, and suggested that the Farwell Jaycees might sponsor a contestant in the Sports Spectacular, to be held at College Station this spring.

Don Geries reported on Rules and Regulations, pointing out that an area Jaycee, A. J. Ruby Jr. from Pampa was elected candidate for state president. Announcement of the Texas Jaycee Legislative Seminar to be held in Austin was made. The seminar will be held Feb. 13-14. Representatives are expected from each club in the state.

Farwell Jaycees are planning many activities for the town and the community in the near future.

Chili Supper For March Of Dimes At Okla. Lane

The Oklahoma Lane HD Club is sponsoring a chili and pie supper at the community center, Thursday evening Feb. 11. Serving will start at 7 p.m. and continue until all the food is gone, announces Mrs. Gilbert Kaltwasser, president of the club.

Price of the meal which will include chili, pie and tea or coffee is 75¢ for adults and 50¢ for children.

Money derived from the supper will be contributed to the March of Dimes Drive. All Farwell and Oklahoma Lane area persons are urged to attend.

Mrs. Nell Autrey who has been hospitalized for the past several weeks following surgery is showing some improvement.

Uncle Tom (T. J.) Randol who has been hospitalized for the past week, since a fall in which he broke his hip is reported to be in satisfactory condition.

Wolverines Edge By Grady

The Texico Wolverines edged past Grady Bronchos 48-46 for their eighth win of the season Friday night. The game was played at Grady.

The Wolves held a two point lead at end of the first quarter and maintained the same lead at the end of the first half of play. However, in the third quarter scoring was evenly divided with each team hitting 12 points. Grady forged ahead in the last quarter, only to have the lead back in Texico's hands when Joe Patterson hit five of six tries for free throws in the final two minutes of play.

"The game might have had a different ending had it not been for Patterson," commented Coach Johnny Green.

Scoring honors for the game went to Tom Rickstrew of Texico who had 18 points. Other Wolverines getting into the scoring act were Mike Spearman-10; Neil Lambert-9 and Joe Patterson-8. Scoring honors for the Bronchos went to Tom Northcutt with 14. Gale Carter had 12 for the opposition.

Texico will collide with Melrose Buffalos tonight (Friday) in what may be one of the better games of the season. Game time is 7:30. Melrose, a slow starter, has been coming along fast during recent weeks says Green, who added that the Melrose quintet defeated Ft. Sumner, rated as the district leader last week. They also came within a point or two of knocking off Floyd, another district contender.

On Saturday night Texico will collide with Tatum and the following weekend will meet Floyd and Elida to end district play. The following week the Wolves will meet two of the district contenders in district 7.

In the opening game of the evening Texico "B" team defeated Grady "B" 36-28. Bobby Joe Stewart with 11 points took scoring honors for the game. Donnie Morris had eight. Scoring honors for Grady went to Sumarall with 10.

Rep. Bill Clayton Named To Five Committees

Representative Bill Clayton of Springlake has been named to five standing committees in the Texas House of Representatives this week, according to information released from the office of Speaker of the House, Ben Barnes.

The Springlake legislator, who is representative of this district will serve on the following committees: aeronautics, conservation and reclamation, municipal and private corporations, public health and state affairs.

In naming the committee members the speaker commented that many hours of study went into making the choices for the committees-with members placed on the committees who can render the greatest service, not only to the people of their district but to the state as well.

"I enjoyed working with Rep. Clayton during the past session and am looking forward to working with him again in the days ahead," commented Speaker Barnes.

W. H. Pierce Buried Saturday

Funeral services were conducted from First Baptist Church in Clovis Saturday for W. H. Pierce, who passed away at Retirement Ranch Friday following an illness of six weeks. Dr. Herbert Bergstrom officiated at the services and interment was in Mission Garden of Memories beside the body of his wife. Steed Funeral Home was in charge of arrangements.

Mr. Pierce who would have been 91 on March 26 had lived in this area since 1923. He came to the area from Tennessee and settled on a farm north of Texico where he made his home until retiring when he moved into Clovis where he had made his home since.

Surviving Mr. Pierce are four sons Grady, Clovis; Wilburn, Lubbock; Victor, Ft. Worth; Eric, Texico; two daughers, Mrs. Cavie Lovett, Texico and Mrs. Ima Kimbrough, Texico; also 22 grandchildren, 48 great-grandchildren and many friends.

Listed as pallbearers were Clarence Smith, Gordon Wicks, Val Baumgart, Barney Bocock Sr., Homer Kelley and Roy Melugin. Serving as honorary pallbearers were Ted Ruckman, N. L. Tharp, Fred Tharp, Lutie Willis, Howard Martin and the Men's Bible Class of Clovis First Baptist Church.

Services Held Tuesday For Mrs. A. D. Smith

Funeral services were conducted Tuesday morning for Mrs. A.D. (Genieve) Smith, who passed away Saturday in Clovis Memorial Hospital where she had been a patient for several days. Well-known for her work in the community and the Methodist Church, she had been inactive in civic activity for some time because of ill health.

Rev. W.C. Strickland officiated at the services, and burial was in Mission Garden of Memories under direction of Steed Funeral Home. Paul Wilkerson, Church of Christ minister, assisited with services.

Pallbearers were Charlie Lovelace, Claude Rose, W.H. Graham, Paul Wurster, Jesse Landrum and Sam Aldridge. Listed as honorary pallbearers were Jack Williams, H.Y. Overstreet, J. Roy Thornton, W.N. Foster, D.O. Rolland, J.H. McDonald, John Aldridge, Hurshel Harding, Dr. T.J. Glenn, Guy Cox, G.D. Anderson Sr. and Ebb Randol.

Mrs. Smith was born in Hoyt, Kansas and was married to Taylor Knight, a World War I veteran, in 1919. They moved to Clovis at that time. Mr. Knight preceded her in death in February, 1928.

She was married to A.D. Smith Dec. 18, 1941 and the couple made their home in Farwell, where he served as county judge for many years.

Mrs. Smith was a member of Hamlin Memorial Methodist Church, and was active in all phases of work there. She was a member of Daughters of American Revolution and DAC, and of the Bovina chapter of Order of Eastern Star. A music and expression teacher, she composed poetry for the enjoyment of her family and friends.

Survivors include her husband, A.D. Smith of Farwell; two sisters, Mrs. W.C. Porterfield of Topeka, Kansas and Mrs. Merle B. Mann of Young Harris, Georgia; 10 nieces and nephews and numerous friends.

Here for services were Mrs. Porterfield and Mrs. Mann; and four nieces, Mrs. Lloyd Morris of Oskaloosa, Kans., Mrs. Milton C. Tainter of Kansas City, Mo.; Mrs. William Carey of Topeka, Kans., and Mrs. W.H. Cleland of Lake Quivera, Kans. Also here for the funeral were Mrs. Arthur Nigh, Mrs. Sam Jones and Mary Jones and Mrs. Easley of Lockney.

PTA Will Discuss Juvenile Delinquency

Texico PTA will meet in regular session on Tuesday evening, Feb. 9, 8 p.m. and a good attendance is urged by president Mrs. Jack Eshleman.

Program will be directed by Sgt. Carl Harrelison, Clovis policeman who will discuss juvenile delinquency in Curry County. A. D. McDonald, superintendent will discuss the proposed bond issue, explaining cost to tax payers and other pertinent facts.

Glendon Moss and Dennis Hester, ENMU students, visited in Texico-Farwell on Wednesday.

Steers Down Owls 66-57

The Farwell Steers downed the Silverton Owls Tuesday night with a score of 66-57.

Greg Lowe, from Silverton, was high point man of the game with 29 scores. Second highest for the opponents was Freddie Stafford with 41. Ike Bruton was third with six. Max Garrison had two. Rocky Curby and John Montaque had one each.

Johnny Actkinson was high for the locals with 19. Jerry Childs was a close second with 16. Charlie Dannheim also hit in the double figures with 11. Others scoring were Larry Gregory, eight; Warren Gossett, six; and Bobby Field, four.

The Steerettes were defeated by the Silverton girls, 38-32. Jo Ann Rhodes was high scorer for the Steerettes with 19. Nelda Winegart was second with six. Diane Lovelace had four and Becky Strain and Donna Dale had three each.

Mert Mills was high for the Silverton team with 19. Tina Williams also hit in the double figures with 15 for second. Donna Stephens had four.

The Steers topped the Kress team last Friday by a slightly lop-sided score of 79-46.

Jerry Childs, Larry Gregory, and Johnny Actkinson all hit for double figures as they netted 16, 14, and 10 respectively.

Others scoring were Dale Gober, eight; Johnny Schell, six; Warren Gossett, five; Charlie Dannheim, five Bobby Field, four; Doyle Johnson, three; Jerry Field, three, and Bruce Billingsley, three.

Burk was high for Kress with 15. Fields was second with 13. Lockridge had eight for third. Others scoring were Carter, five; Watson, three; and McClure, two.

The Steerettes also played the Kress team and were promptly dumped, 35-30.

Harris and Laurie tied for scoring honors for the game with 16 points each. Scott had two, and Milner netted one.

Nelda Winegart led the scoring for Farwell with 11. Jackie Gast and Sharon Busbice tied for second with six. Jo Ann Rhodes had five for third. Diane Lovelace scored two.

In the "B" game, the Farwell team came out on top, 35-33.

Charles Harris, from Kress, was high pointer in the game with 10. Phil Bobney and Doug Lane had nine each for the opponents. Carl Hudson netted five.

Warlick Dollar led the scoring attack for the locals with nine. Larry Lee and Calvin Wilkinson had seven each for second. Randy Robertson was third with six. Jim Gray Perry had four. Lewey Bradshaw just barely got in on the scoring as he netted the rest of Farwell's scores with two.

Rites Held For Homer D. Foster

Funeral services were conducted from the Trinity Baptist Church in Muleshoe last Monday for Homer D. Foster, 58, father of Wayne Foster of Oklahoma Lane, who passed away in Baylor Hospital on the preceding Friday.

Mr. Foster, a Muleshoe carpenter for the past 30 years was a victim of leukemia. He had been hospitalized for a month prior to his death.

The Rev. Troy Walker pastor of the Muleshoe Church officiated at last rites assisted by Rev. Douglas Gossett of the Oklahoma Lane Methodist Church. Interment was in Muleshoe cemetery under direction of Singleton Funeral Home.

Survivors include his wife, Mrs. Homer D. Foster, three sons, Wayne Foster, Frank D. Foster, Ray A. Foster, three daughters Mrs. Pete Freeman, Mrs. R. F. McDougall, Mrs. Billy Bob Williams and a foster son, R. G. (Pete) Wilkinson. Also his mother Mrs. Mary K. Foster, Midland, one brother, Duard Foster, Midland, one sister, Mrs. Ross Block, Abilene, 13 grandchildren and a host of friends and relatives.

Mr. and Mrs. Jason Langford of Hereford visited in the home of Mr. and Mrs. Elmer Langford on Monday.

Allen Breitenbach smiles proudly upon being told of his winning first in the district FFA Greenhand quiz contest, in which FFA Greenhands from all schools in the district were entered. Tieing with Breitenbach was Mike Chandler of the Elida chapter.

Wins First In FFA Quiz Contest

Allen Breitenbach, son of Mr. and Mrs. William Axe brought home a first place trophy in the district FFA Greenhand Quiz Contest Tuesday, by tieing with Mike Chandler of the Elida chapter.

Both of the boys will represent this district in the state contest, to be held in conjunction with the state FFA Convention in Albuquerque in June.

Only 12 boys (two from each district) will participate in the state quiz contest says Eddie West FFA instructor at Texico. "We are quite proud of Allen's record in the district and are pleased to have a representative in the state contest," commented West.

Allen, a freshman is vice-president of the FFA Greenhand chapter and also secretary of his class. Projects include three swine, which he plans to enter in the county fair in the fall. He also plans to increase his swine project before the beginning of school, says West.

Visitors in the home of Mr. and Mrs. L. R. Vincent over the weekend were Mr. and Mrs. Paul Havens of Childress. Mrs. Havens is a sister of Mrs. Vincent.

ON TO VICTORY -- With a resounding cheer and a clang of the school bell this quintet of cute colleens announce each victory of their favorite team (Farwell Steers). The quintet leads the pep club in cheering the football and basketball squads on to victory. Standing behind the bell is Carolyn Lindop head cheerleader; other cheerleaders shown are Mikala Austin, Edith Ann Walling, Julie Routon and Joyce Kay Watts.

LET'S PLAY -- Area residents are invited to COME PLAY, Saturday, Feb. 6, 7:30 - 10:30 p. m. when Farwell Study Club sponsors a game night at the school cafeteria. Homemade pie and coffee will be served throughout the evening and games of forty - two, canasta and others will be featured. Price of each ticket is $1.00, and they may be obtained from any member of the club. Funds derived from the play fest will be used to help defray indebtedness on the Little League Ball Park. "For an evening of fun don't fail to be at Game Night," said Mrs. Mabel Reynolds and Mrs. A. C. Clarke.

Tax Rate Set For Farwell

Tax rate for the city of Farwell was set by city dads at the Friday meeting of the group. The rate for "65" is the same as for the previous year (84¢ per $100.), with the tax values to be set at 50% of the market value of the property.

In other business approval was given for the installation of water and sewer line extensions between 8th and 9th streets, running north and south from Ave. B to Ave. G. Work will begin on the installation as soon as possible.

A report was heard from the dog catcher that 13 stray dogs had been caught and disposed of in the preceding month.

All other business was of a routine nature.

Letter To The Editor

Dear Editor,

I think of so many of you good people there at Farwell and Texico and would love to see each of you again.

I love to read what our friends are doing so please renew our subscription to the Tribune. We usually get our paper on Sunday and I read it while the girls fix lunch.

Reba is still attending college at Flagstaff, but will come home this weekend to attend homecoming at the high school. Peggy is to be crowned sophomore basketball sweetheart.

Lyne Lesly

The above letter arrived along with a subscription renewal to the Tribune this week from Mrs. U. L. Lesly, a former Farwell resident now living in Lordsburg.

---Ed. note.

Scouts Meets On Tuesdays

Boy Scouts now meet at 6:30 on Tuesday, says Ray Campbell, Scoutmaster, to avoid conflict for those boys who play basketball. Boys interested in Scouts are asked to attend at this time. Work will begin on pack frames soon.

Campbell says that Lee Hutchins, assistant Scoutmaster, has resigned, and a new person for this position is needed.

A Milligan stew dinner is planned in observance of annual Scout week Feb. 13 at 5 p. m. at Oasis State Park, Campbell adds.

Joins Air Force

Darrell Crook, son of Mr. and Mrs. H. R. (Mutt) Crook enlisted in the US Air Force on Friday, Jan. 29 and will spend the next six weeks at Lackland Air Force base, where he will take training in Electronic Engineering.

For friends wishing to write Darrell's address is A. B. Darrell L. Crook, A F 1871 5584, FLT 170 Box 37041 C M R #1, Lackland A. F. B. Tex. 78236.

This is the expert's opinion on how to dry clothes:

See this model and other automatic Norge gas dryers at the Southern Union showroom.

If you want the job done right . . . do it with gas.

The laundry man has made his choice between gas and electric dryers.

He prefers gas, nine to one.

Gas is his favorite because gas is the winner, every time and every way he compares it.

Gas costs less to use. You can operate a gas dryer for ¼ the operating cost of an electric.

Gas dries safer. A gas dryer doesn't lose accuracy or efficiency with age. Whatever you dial, it does.

Gas dries faster. Gas heat is direct. No long warm-ups to waste your time.

Gas dries softer, sunnier. Gas dries as naturally as sunshine. Clothes come out feathery soft and fragrant.

You don't have to be in the laundry business to enjoy advantages like these. See the smart new home dryers at your gas appliance dealer's today!

Pink And Blue Shower Honors Mrs. G. D. Phipps

Honoree for a pink and blue shower on Tuesday afternoon was Mrs. Glenn Dell Phipps. The shower was held in the fellowship hall at Farwell First Baptist Church with members of Faith Sunday School Class serving as hostesses.

Mrs. Truitt Hardage presided at the registration table which was covered with a white linen cloth and centered with a miniature stork. Serving table, presided over by Mrs. Markham Chadwick and Mrs. Fred Magness, was centered by a large stork standing guard over a bassinet holding a baby doll.

The honoree, her mother, Mrs. Partin Austin and her mother-in-law, Mrs. Glenn Phipps were presented with corsages made from minute baby needs tied with pink and blue ribbon bows. The honoree was assisted in opening gifts by the two mothers and a sister, Mrs. Dean Jones.

Approximately 25 persons were in attendance and many unable to attend sent gifts.

Friends Reminded

Friends of Mr. and Mrs. James Roach of Oklahoma Lane are reminded of the silver wedding anniversary, open house reception honoring the couple to be held in their home Feb. 6, 7:30 - 10 p.m. Children of the couple, Judy and Jerry Roach, are hosting the come and go social.

Hugh Moseley Honoree For Birthday Dinner

Hugh Miseley, county tax assessor-collector was honored with a surprise birthday dinner recently at a local restaurant. Employees in the tax office and their husbands were hosts and hostesses.

Ed Hardage presented organ music throughout the evening and gifts and a birthday cake were presented to the honoree.

Attending were the honoree and his wife, Mr. and Mrs. Hugh Moseley, and Mr. and Mrs. Jim Curtis and James E. Curtis, Mr. and Mrs. Turner Paine and Mr. and Mrs. Charles Felts.

ANNOUNCE ENGAGEMENT -- Mr. and Mrs. Charles F. Bieler of Farwell announce the engagement and approaching marriage of their daughter, Barbara Sue to Ted Horner, son of Mr. and Mrs. Fred Horner also of Farwell. Friends and relatives are invited to the April 10 wedding at Hamlin Memorial Methodist Church in Farwell.

Valentine Motif Highlights Social

A Valentine motif was used by Mrs. Joel Tankersley when she entertained members of Faith Sunday School Class in her home Monday evening. Serving table was centered with a large heart on which cupids were seated, flanked by red candles. Refreshments were angel food cake covered with strawberries served with hot tea.

Class members voted to sponsor girls (confined to Buckner Home for Girls in Dallas) after hearing a report from Dorm Parents, Rev. and Mrs. Jerry Henson. Each class member will be responsible for corresponding with, and sending gifts to one girl (in the home) for the next year.

Birthday girls for the months of January and February honored were Katherine Traxson, Joy Chadwick, Sally Tankersley and Linda Geries. In addition a mother's gift was presented to Mrs. Dean Jones.

Attending the social were Mesdames Don Geries, Eddie Traxson, Markham Chadwick, Glenn Dell Phipps, Dean Jones, Roy Woodard, Fred Magness, Mike McManigal, Vernon Scott, Duane Herington and the hostess, Mrs. Joel Tankersley.

Okla. Lane Club Topic Is Family Relationships

Program for the recent meeting of Oklahoma Lane HD Club on "Family Relationship" was presented by Cricket B. Taylor HD Agent.

During the business session plans were completed for the March of Dimes benefit (chili and pie supper). Date for the affair was set for Feb. 11, 7 p.m. in the community center.

Mrs. Calvin Johnson served refreshments of cookies and coffee at the close of the meeting and a short social period was enjoyed.

Projects Discussed By Pleasant Hill 4-H Club

At the regular meeting of Pleasant Hill 4-H Club Friday projects for the coming year were discussed with Miss Alice Mavis, assistant HD Agent leading the discussion.

The meeting was called to order by Carolyn Langford who presided over the short business session. Artificial respiration was demonstrated, with members practicing the art on a dummy (provided by the HD office).

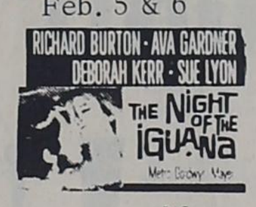

Refreshments were served by Mrs. Kelley and Diane Kelley to: members, Debbie Bocox, Bettye Clark, Janine Clark, Sherry Clark, Arlan Davis, Diane Kelley, Carolyn Langford, and Bruce McCuan; visitors, Cindy Eshleman, Elaine Kelley, Kenneth Bocox, Mrs. J. D. Kelley, Mrs. Barney Bocox, and Mrs. Willard Davis and leaders, Mrs. Elmer Langford, Mrs. Donald Clark and Miss Alice Mavis.

Illinois Visitor Returns Home

Mrs. E.G. Blair who has been visiting in Roselle, Ill, in the home of her daughter, Mrs. Verne Wellman for the past two months returned home last week.

She was accompanied to Farwell by her grandson, Forrest Wellman, who will enroll at ENMU for the spring semester.

DRESS RIGHT- - -
You Can't Afford Not To

JACK HOLT
"The Clothier"
304 MAIN CLOVIS

State Representative Hoyt Pattison held his audience at the FBLA (Future Business Leaders of America) banquet spellbound Saturday evening as he discussed "Current Legislative Issues." He interspersed jokes throughout the talk to add spice to the discourse. Seated at the speakers table left to right: Mrs. A. D. McDonald, Supt. McDonald, Mrs. Pattison, Pattison, Mike Spearman and Mrs. N. W. Peyton.

Pre-Nuptial Shower Honors Bride Elect

Wanda Eshleman, bride elect of Richard Kelley of Clovis was honoree for a pre-nuptial shower at the Pleasant Hill Community center recently.

Interior of the building was decorated in pink and white, chosen colors of the honoree. Floral arrangements in the chosen colors carried out the Valentine theme.

The guest register was presided over by Mrs. Jack Donahey and Mrs. Alvis Clark played piano selections during the afternoon and also read a poem, composed especially for the occasion (honoring Wanda).

Approximately 50 persons signed the guest register and many others sent gifts.

Miss Eshleman, her mother, Mrs. Orris Eshleman and mother of the prospective bridegroom, Mrs. R.P. Kelley were presented with corsages.

Gift table was covered with white net over pink, and caught up at intervals with clusters of pink rosebuds and ribbon. Centering the table was an arrangement of pink rosebuds centered by a bride and groom figurine standing under a large heart, trimmed with tulle and lace. The honoree was assisted in opening gifts by Mesdames Eshleman and Kelley and the gifts were recorded by Mrs. Sherman Horton.

Serving table was covered with a white cut - work cloth and centered by an arrangement of everlasting pink roses, flanked by candles in rose shaped holders.

Refreshments of cake, nuts and heart shaped mints were served with punch.

Hostesses for the social were Mesdames Sherman Horton, Jack Donahey, H.M. Hopper, Elmer Langford, C.H. Whitener, Joe Heinz, V.O. Sharp, John Hightower, Alvis Clark and Maurice Clark.

Gary John Haseloff Arrives Jan. 31

Gary John is the name given to the new son of Mr. and Mrs. Adolph (A. H.) Haseloff who made his arrival on Sunday, Jan. 31 at Clovis Memorial Hospital.

The little boy, who weighed 8 lb. 6 3/4 oz. on arrival has three brothers and two sisters.

Grandparents of the new arrival are Rev. and Mrs. Herbert F. Peiman of Lariat.

State Representative Speaks To FBLA

Hoyt Pattison, state representative was speaker when Texico FBLA held its annual banquet on Saturday evening. The speaker was introduced by superintendent A.D. McDonald. Topic discussed by Pattison was "Current Legislative Issues."

Master of ceremonies was Mike Spearman club president. He introduced other special guests including Mr. and Mrs. Darrell Bulls, State Chairman of FBLA, Portales; Mr. and Mrs. Jimmy Self, Farwell, Mr. and Mrs. Jim Pierce, Texico; Mr. and Mrs. Hoyt Pattison, Clovis; N.W. Peyton, Mr. and Mrs. W.O. Walls and Mayor and Mrs. Ed Farmer, all of Texico. Tom Rickstrew gave the invocation and Joe Holland presented the benediction.

Gary Farmer "1964 National Mr. FBLA" gave highlights of being selected for the office. He is a student at New Mexico State this year, and a 1964 Texico graduate. Marquitta Wall, State vice-president, presented a report on the National Convention, attended in Washington, D.C. last summer. Kay Bush presented musical selections, accompanied by Diane Lovelace.

Mrs. N.W. Peyton, instructor presented club pins to members of the organization and also presented gold FBLA Keys to Marquitta Wall, Clarence Ethridge and Lloyd Harrison for special services to the club. She also presented honorary membership cards to Mrs. Jim Pierce and Mrs. W.O. Wall for accompanying the FBLA members to Washington as sponsors.

Attending the banquet in addition to those previously mentioned were Joy Chumley, Tom Rickstrew, Diane Lovelace, Kay Bush, Linda Franz, Bruce Billington, Bobby Spearman, Susan White, Sharon Peyton, Emmitt Autrey, Linda Armstrong, Lynelle Engram, Neil Lambert, Frankie Lambert, Don Baldridge, Jackie Billingsley, Garry Burris, Zadine Burris, Brenda Sims and Joe Patterson.

Also Peggy Hughes, Floyd Morris, Pam Roberts, Pam Fitz, Sandy Tipton, Veda Wilson, David Farmer, Keith Crooks, Gary Meier, Joe Holland, Mickey Lofton, Larry Burns and Mrs. N.W. Peyton.

Farmerettes Welcome New Member

Twelve members of the Farmerette Club were guests of Mrs. R.E. Blankenship for a Mexican dinner at a Clovis restaurant last week. One new member, Mrs. Carolyn Charles was welcomed to the club.

Roll call was answered with a resolution for the New Year and officers for 1965 were elected and installed. President will be Mrs. Leon Billingsley, vice-president- Mrs. Troy Christian and secretary-treasurer- Mrs. L.L. Cooper. Club members voted to donate $10. to the March of Dimes fund and plans were made for a Valentine party, with husbands as guests. The party will be held in the home of Mr. and Mrs. Donald Christian, Feb. 13, 8 p.m.

Following the meal, club members adjourned and went to the Blankenship home for an afternoon of visiting.

Attending the social were Mesdames Joe Jones, Troy Christian, Donald Christian, Wendol Christian, Harold Carpenter, Leon Billingsley, Herman Geries, Donald Watkins, Delbert Garner, James Roach, Carolyn Charles and the hostess, Mrs. R.E. Blankenship.

Red Sez

"My wife's a wonder," said Mr. Higginbotham. "Last winter she knitted me socks out of an old bathing costume, and this summer she's knitted a bathing costome for herself out of my old socks."

Class Play Selected By Farwell Juniors

"It's Great to be Crazy," a farce-comedy in three acts, written by Donald Payton has been selected by the Farwell junior class for its annual play. The play will be presented on Feb. 19, 7:30 p.m. with Mrs. Mary Ellison and Jerry Dee Owen as directors. Price of admission will be $1.00 for adults and 50¢ for children.

The story revolves around the Maxwell family-and what a family. Probably no family in history has had anything to contend with like the Maxwells -- even the pioneers who had the Indians; or the Martins who had the 'CCys.

The Maxwells have Wilbur and his friend Hercules-to say nothing of the daughters, (Betty Lou-who aspires to be a great writer and her friend Bernadine and Connie-a college freshman).

Betty Lou begins the whole thing-when after writing a poem which the teacher commented on favorably decides to trace the family tree to find if she is related to Elizabeth Barrett; she mails the letter in her fathers name and imagine his consternation when upon receiving the answer-(of which he knows nothing)-he finds that relatives include Jack the Ripper, Bluebeard, Lady Macbeth and a gal-called Sarah the Sparrow (who did away with 13 husbands).

The letter relates that most of the family members are perfectly normal until they reach the age of 40 when the suffer a MENTAL CHANGE. Maxwell immediately imagines that he is having a mental change when chairs begin moving and pictures jump off the wall (apparently alone).

The audience will be limp with laughter, long before the letter arrives explaining that a mistake has been made and family ancestors include Anthony Maxwell a famous European dramatist - whereupon Betty Lou exclaims, "I will indeed be a famous writer after all."

Cast of characters includes: Betty Lou Maxwell-cute and peppy 15 year old who aspires to become a great writer- Susan Blair; Bernadine-also 15, Betty Lou's best friend who is content to be the workhorse for the two- Donna Dale; Connie Maxwell- the 17 year old daughter and a freshman in college-Diane Lovelace; Wilbur Maxwell-about 13, ambitious and in and out of one thing then the other-Larry Gregory; Janet Maxwell - the mother- Jeannie Blair; John Maxwell- the harrassed father-Delton Wilhite.

Hercules Nelson- also 13, Wilbur's bosom pal- alway ready to assist in any of Wilbur's projects-- Charles Kitten; Aunt Mary-Mrs. Maxwell's aunt always talkative- Becky Strain; Mrs. Jennings: a friend of Mrs. Maxwell and mother of Grover-Connie's boyfriend-Edith Walling; J.C. Mallory: Mrs. Maxwell's boss-Mike Camp; Grover Jennings; Connie's boyfriend: Louie: A little chap with high aspirations and a low IQ-Julie Routon; Gertrude: Louie's wife and partner in crime Pat Childres: Gladys-a slender woman with stringy hair and a blank expression-Teresa Quickel; Clara Smith-a loud talking policewoman, middle aged and buxom-Martha Coffer.

Student director is Maude Stancell. Bill Roberts is stage manager and Melynda Ritchie is stage director.

21 Indicted By Grand Jury

Twenty one indictments were handed down by the Parmer County grand jury when it met on Friday. The indictments were for murder with a motor vehicle, burglary, theft, worthless checks, desertion, and forgery.

Several of the persons who were indicted have not been apprehended and several of the others are at liberty on bond.

In custody or out on bond and awaiting trial are Tony Ray White, murder with a motor vehicle and drunk; Allen Wayne Oliver, car theft; Stephen Nordburg, John C. Andres, Dawson J. Lyon and Edward Podlaszowski- theft of tools; James Nesmith-forgery (in jail in Amarillo on a similar charge, will be returned to face the Parmer County charge later); Hurley W. Jones - burglary; Jackie Joe Hooper-worthless check; Bill Garibay and Willie Hatton-burglary.

Also Garry Dosher-car theft; David Chapman-theft of motorcycle and Felix Castillo-burglary.

Reported by sheriff's officers on Monday were four break ins in the county on Sunday night. The break ins were at Tharp service station in Farwell, Fertilizer company at Hub and Parmer Co. Imp. Co. and a Fertilizer Co. in Friona.

Only a small amount of money, a gun, and a typewriter were reported takine in the break ins.

Whirlwinds Win One

Texico Whirlwinds finally came through with a win by defeating Causey 44-26 on Thursday evening. The Texico aggregation, who have been slow starters have been defeated by Melrose, Grady, House and Ft. Sumner this season.

Joy Chumley starred in the game by netting 23 of the total Texico points. Susan White hit the bucket for 10 additional points while Marquitta Wall and Pam Roberts contributed six and five, respectively.

"The guards did a fine job," commented Coach C.B. Stockton in summing up the game. Playing in the guard positions were Frankie Lambert, Lynelle Engram, Kathy Stone, Sharon Peyton and Sandy Tipton.

Whirlwinds were defeated by House in a second game on Tuesday evening 32-23. Stockton again commented "The guards did a fine job, but our forwards were not hitting." Joy Chumley with 12 points took scoring honors followed by Pam Roberts with 7.

In the first game of the evening the junior high girls defeated the House junior high team 21-10. Alma Stewart with 10 points took scoring honors in the junior game. Zadine Burris contributed 8.

Next game for the girls teams will be Tuesday (Feb. 9) when the locals meet Dora. Final game of the season will be March 2, with Melrose with the district tournament the following week.

Religious Census Planned Feb. 14

The churches in Farwell (Methodist, Baptist, Church of Christ and any others who may wish to participate) will be conducting a religious census on Sunday afternoon, Feb. 14.

Workers will begin the census at approximately 2 p.m. and members of the Ministerial Fellowship, who are sponsoring the survey ask that citizens cooperate by giving the desired information. The information will be of much help to the local pastors, say members of the fellowship.

The rural churches are also making a survey, however, it is expected to be completed by Feb. 14.

Chemical Weed Control Meeting Next Monday

The latest herbicide recommendations for crops grown in Parmer County will be discussed Monday afternoon, February 8 at 1:30 in the Hub Community Center.

The County-wide meeting is sponsored by the Commodity and Weed Committees of the Program Building Committee. "Every farmer should attend this important meeting," reports Joe VanZandt, Parmer county agent.

Dr. Allen Wiese, Agronomist in Weed Control, at the Southwestern Great Plains Research Center at Bushland, will be the main speaker on the afternoon program. Wiese is well known for his work in weed control research and has presented several programs in Parmer County previously.

Holly Sugar Corporation will have a representative at the meeting to discuss weed control in Sugar Beets for this year.

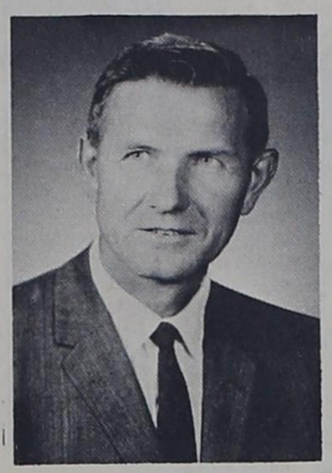

"If you have questions about weed control chemicals such as soil residues, results you can expect, rates, methods of application or others, make plans to attend this meeting," stresses VanZandt. Dr. Wiese should be able to give everyone a good reliable report on the various herbicides that are on the market.

Herbicide dealers are invited to set up displays on the weed chemicals they are handling. This will enable the farmers in attendance to read leaflets on the chemicals available and discuss their weed control situation with the herbicide dealers.

We were fortunate in getting Dr. Wiese scheduled for this meeting in early February as he has been busy getting his recommendations together. We believe this meeting on February 8 is the first county meeting Wiese will hold for 1965, according to VanZandt.

Herbicides can be help to our farmers this year, especially since our labor situation looks doubtful.

However, everyone must use caution in applying herbicides and know what results to expect and if any residues will be left in the soil after this year's crop is removed. With the use of some chemicals you sure have to plan for next year's crop now.

DR. ALLEN WIESE

Buy Registered Milking Shorthorns

The sale of three registered milking shorthorns have been announced by the American Milking Shorthorn Society of Springfield, Mo. The cattle were all purchased from F. E. Kepley of Farwell.

Animals sold by Kepley were a polled senior yearling bull, Red Improver P312477 to Andrew H. Wilson, Friona; two heifer calves, a bull calf and a two year old bull to John Hadley, Texico and a bull calf, Victor's Bud P316253 to Eddie B. Smith of Farwell.

Transfer of ownership was made recently by the American Milking Shorthorn Society.

THE HIGH PLAINS FARM AND HOME

Cotton Outlook Due In Lubbock

The outlook for U. S. cotton will be presented at Lubbock during the first session of the annual Western Cotton Production Conference, March 2-3.

Dr. M. K. Horne, Jr., chief economist for the National Cotton Council, will discuss current domestic and export programs and analyze cotton's competitive situation.

The two-day conference, oriented specifically for the Western growers, will convene at the KoKo Palace. General chairman is Roy Forkner, president of Plains Cotton Growers, Inc., Lubbock.

Dr. G. A. Niles, associate professor at Texas A & M University, will discuss cotton quality with particular emphasis on the High Plains. Dr. Niles also will deal with staple length and its relationship to varieties planted, the quality in terms of fiber properties and spinning performance of leading High Plains varieties.

Farm Management Specialist John J. Seibert, Texas Tech, Lubbock, will discuss the use of electronic systems for production cost analysis, going into its potential in assisting cotton producers to define their production costs in more accurate detail. This program, he will point out, has definite advantages in pinpointing areas where costs can be reduced.

James S. Parker of Plains Cotton Growers, Inc., will outline mill quality requirements in years ahead, discussing changing mill technology, chemical finishing, blends, and synthetic competition.

The conference is sponsored jointly by the Southwest Five-State Cotton Growers Association and the National Cotton Council. Local host will be Plains Cotton Growers, Inc.

Cooperating in the meeting will be the agricultural chemicals industry, U. S. Department of Agriculture, Arizona Cotton Growers Association, El Paso Valley Cotton Association, Western Cotton Growers Association, land-grant colleges, vocational agriculture and farm organizations.

The conference is open to anyone interested in cotton. There are no registration fees.

AMMO NOTES

By W. F. "Bill" Bennett
Agronomist
Western Ammonia Corporation

Wheat topdressing time is just around the corner. This week I am listing some guidelines on need, rates, sources and time of application.

Whether nitrogen topdressing is needed will depend on the amount of ammonia applied last fall and whether the wheat has been grazed. A general rule of thumb on rate is a total of around 80# N per acre on ungrazed wheat for moderate yields. Where grazing is done, a total of about 120# N is needed for moderate yields. This means that if 100# ammonia were applied prior to seeding, additonal nitrogen would not be needed if the wheat was not grazed. If wheat were grazed, an additional 40# N should be topdressed. If growth of wheat was exceptionally good and if grazed heavily, a higher rate could be profitably used. Or if you are shooting for higher yields, say 50 to 60 bushels, more topdressed nitrogen should be profitable.

There are several sources of nitrogen available. Commonly used sources are ammonium nitrate, ammonium sulphate, urea, nitrogen solutions and ammonium nitrate-phosphate (30-10-0). Applicators are now available for applying ammonia without hurting the wheat. Any one of these sources are satisfactory. Ammonium nitrate will give the quickest response because of the nitrate form. Most nitrogen solutions contain some nitrate nitrogen and some urea nitrogen. Slight losses of nitrogen can occur from urea under certain condtions. I'll discuss this and other nitrogen losses next week. The 30-10-0 is a good source where phosphorus might be needed.

Time of application will depend on our season. One guideline is that nitrogen topdressing should be done by the time plants start to joint in the spring. It can be applied any time if wheat is not grazed or after cattle are removed. A general deadline for nitrogen topdressing is March 1. It is still possible to topdress after March 1 but only under special conditions.

The low price of wheat will cause many to have a question about profits from topdressing wheat. The answer is profits obviously depends on need for nitrogen and increases in yield. If needed, 40 to 50# N can give an extra 6 to 12 bushels. This is a good return. If you can afford to grow wheat, you can afford to topdress nitrogen if sufficient ammonia was not applied last fall.

She: "I cook and bake for you day after day and what do I get? --nothing!"

He: "You're lucky. I get indigestion."

On The Farm In Parmer County

By JOE VAN ZANDT
County Agent

BUG ANTI-FREEZE

Some bugs make their own anti-freeze! That's why cold weather doesn't kill many bothersome pests. When temperatures rise, they're ready to start giving you trouble again.

Although sub-freezing temperatures slow down insect activity, nature provides many pests with ways of beating cold. Some manufacture their own glycerol, an effective anti-freeze similar to the product made by man for the same purpose.

When temperatues drop below the freezing point, these insects -- by some process not yet fully understood -- gradually adjust to it. The glycerol they manufacture gives them the hardiness to withstand all but the most extreme cold weather. Among the insects that can make their own anti-freeze are certain species of ants, beetles, aphids, cankerworms, and flies.

Nature gives another protection from the cold, too. Most go through a metamorphosis which includes a dormant period when they are completely inactive. If insects stay dormant -- in the pupal or larval stage -- during the winter, they often survive the cold weather. Some insects have been found frozen in solid ice and thawed to full activity.

Animal pests can withstand extreme cold, too. Mice simply grow thicker fur. Many species of squirrels and other warm-blooded animals hibernate when the mercury drops.

Insect and animal pests, like man, have learned to live with their surroundings. Very cold weather rarely controls these pests effectively.

WEED CHEMICAL MEETING

Everyone should plan to attend the herbicide meeting, Monday, February 8 in the Hub Community Center starting at 1:30 p. m.

Dr. Allen Wiese will bring us all up-to-date on the latest recommendations for chemical weed control on our major Parmer County crops.

Holly Sugar Corporation will also have a representative to discuss weed control in sugar beets as a part on the afternoon's program.

If you have any questions about weed control, Monday afternoon, at Hub, is the time and place to get them answered.

TERMITE DANGER

Metal shields, as installed, are ineffective in protecting homes and other structures from termite attacks. Recent studies have shown that metal shields are ineffective usually due to installation faults.

Inspection of crawl spaces of 310 homes in Georgia revealed nearly 1,500 installation defects, all sufficient to allow an avenue of entry for termites. Most important, not a single home had properly installed metal shields. Several of the homes contained evidence of termite activity. In some instances, these insects will actually bypass the shields to attack the wood structure.

A better method than metal shields for termite protection is chemical treatment of the soil. Several good chemicals such as chlordane and dieldrin are available for this purpose. They should be applied to the soil prior to construction, or if need be, in trenches adjacent to foundations after the building is completed.

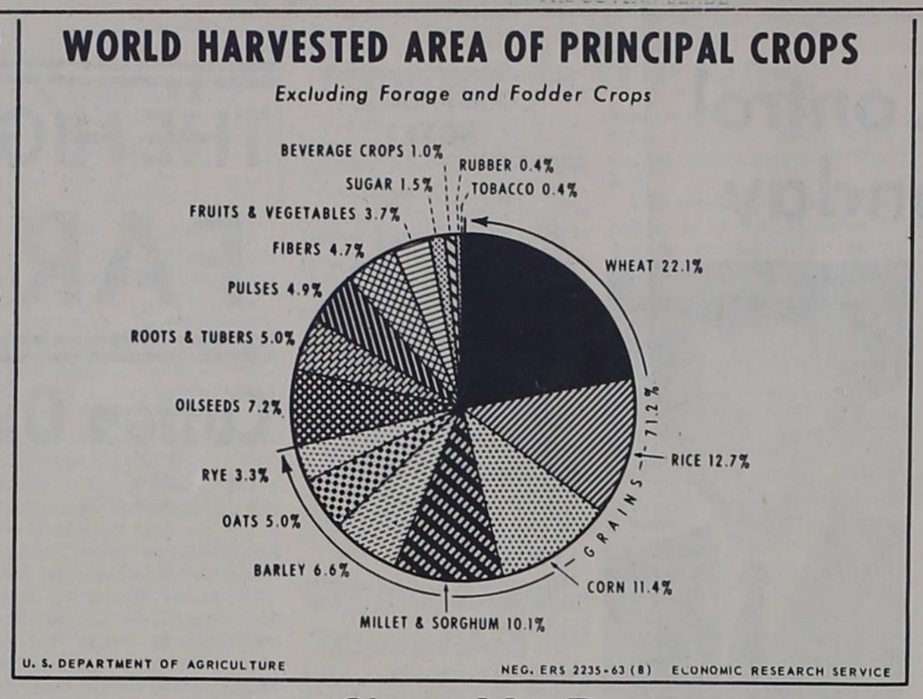

Also, wooden sills and joists in contact with concrete should be treated with chemical preservatives for added protection.

Further information on protecting homes and other structures from termite attacks may be found in Home and Garden Bulletin No. 64, "Subterranean Termites, Their Prevention and Control in Buildings." A copy of this publication may be obtained at the County Agent's office, in the Courthouse.

AGRICULTURAL CHEMICALS CONFERENCE

In the Union Building on the Tech Campus in Lubbock on February 11 and 12, an Agricultural Chemicals Conference will be held.

This two day conference will cover herbicide research, fertilizer research and usage, business management, pesticide residues, entomology developments. It has been planned primarily for Agricultural Chemical dealers, distributors, processors and manufacturers, but is open to anyone interested in chemicals.

Sign-Up Programs Begin Next Week

The sign-up for the 1965 feed crain and cotton programs will begin February 8 and will last until March 26, 1965. At this time, also, a farmer may change his intentions under the wheat stabilization program.

Small cotton farms (those with original allotments of 15.0 acres or less) will not need to sign up for domestic cotton payments. Farmers with 15.0 acres or more of cotton will need to sign up to plant their domestic allotments and receive their payments, say Prentice Mills, officer manager.

4-H Horse Program

A 4-H Horse program for Parmer County was started on January 26. Eight 4-H leaders from over the county met in Bovina and made plans for 4-H Horse project groups in each community area of the County.

Those in attendance at the meeting where plans for a County 4-H Horse Program were made included: from Bovina, C.E. Trimble, Robert Read and Jess Walling; from Farwell, Pike Jordan and Mitz Walling; from Friona, Homer Linderman and from Lazbuddie, Jack Templar and Jack Smith.

The 4-H Horse Program is open to any boy and girl, age 9 to 19, who wants to join a 4-H Club and have a horse project. 4-H members with horse projects can expect to learn; safety, breeding, feeding, care, training and showing of horses and other interesting Horse activities. A County-wide 4-H Horse Show is planned for around June. Winners in the County Show will be eligible to compete in a District Show.

If you want to learn more about Horses and the 4-H program, write your name, address and phone number on a card and send it to the Parmer County Agent, Box 285, Farwell, Texas. You should do this immediately as the horse groups want to get started with their educational and training meetings real soon. If the County Agent has your name, you can be assured of getting in on the first of the horse project meeting.

Texas farmers and ranchers received $254.7 million during last November from the sale of all crops, livestock and poultry products, according to the Texas Crop and Livestock Reporting Service. Cash receipts for all marketings were down 18 per cent from Nov. 1963. The total cash receipts came from crop sales of $166.1 million and livestock and livestock products sales of $88.6 million.

Five men lived for a month in 1963 in a shelter 36 feet below the surface of the Red Sea.

Wheat Carryover Declines Again

The third decline in as many years was registered in the wheat carryover on July 1, 1964. This decline, explains John G. McHaney, Extension economist of Texas A&M University, is the result of the special acreage diversion programs and the high levels of exports during recent years.

However, the expected carryover on July 1, 1965, should amount to about 901 million bushels. This would about equal the 1964 carryover on the same date.

McHaney said the domestic use of wheat during the current 1964-65 marketing year should be around 615 million bushels, somewhat above the five year average. The use of wheat for feed in 1964-65 will account for most of the expected increase, he said.

Exports of wheat and flour in the 1964-65 season is ex-

What Goes Down The Drain With Irrigation Tailwater

What losses does a farmer experience when he allows irrigation tailwater to escape from his farm?

One definite loss, discovered from tests conducted by the High Plains Water District, was the loss of fertilizer.

A number of irrigation tailwater samples was collected and analyzed to determine if any beneficial chemical compounds were being lost.

The analysis indicated that beneficial quantities of nitrate nitrogen were being lost in samples examined.

The average, of the samples tested, revealed that approximately 30 pounds of nitrate nitrogen were being lost per acre foot of water. Other primary elements discovered to be lost in an acre foot of tailwater were calcium, 145 pounds and magnesium, 188 pounds.

The value of fertilizer lost in irrigation tailwater is estimated at 5-1/2¢ per pound plus 1¢ for application cost. It would cost approximately $1.95 to replace to the soil nitrogen lost in an acre foot of tailwater. (Anhydrous ammonia is normally 82% pure, so it would take 122 pounds for each 100 pounds of pure nitrogen.)

By re-circulating the tailwater, much of this nitrogen is left in the soil.

(Continued from page 2)

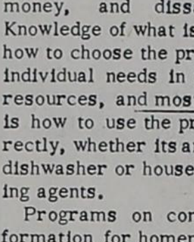

pected to total about 675 million bushels, considerably below the record 860 million bushels in 1963-64, but still above the average. Crop prospects in Europe and the Soviet Union are up from last year and the world wheat crop is expected to set a record. This will give U. S. wheat increased competition in 1964-65.

Based upon the present supply and demand outlook for the cereal grain often referred to as the 'staff-of-life,' McHaney believes prices to farmers during the current crop year 1964-65, will be near the national average price support loan rate of $1.30 per bushel. The national average price support loan rate for the 1965 crop will be $1.25 per bushel.

The Texas Safety Association warns hunters that "gunpowder and alcohol don't mix." Hunting while under the influence of alcoholic beverages is extremely dangerous. Two drinks can reduce visual acuity as much as wearing dark glasses at night. Drinking also affects your judgement, balance and reflexes.

CHANGING WORLD BRINGS NEW PROBLEMS

We are living in a world of wonderful time-saving, convenient and beautiful household equipment. Every homemaker has or dreams of having some of these "push-button" conveniences. The highly competitive advertising, the many companies, and many models by each company make the selection of appliances and equipment difficult and can be a problem to the average homemaker.

Consumer information about products and appliances can save the homemaker time, money, and dissatisfaction. Knowledge of what is available, how to choose the product to fit individual needs in relation to resources, and most important is how to use the product correctly, whether its an automatic dishwasher or household cleaning agents.

Programs on consumer information for homemakers are made available through the County Extension programs available to all homemaker groups and Home Demonstration Clubs. Home Economics is no longer just "Cooking and Sewing" but with new products, new materials, and a change in family living pattern the emphasis is placed upon broader programs to meet todays need. For instance, clothing today's family does not mean just learning to construct clothing, in fact a much greater part of our clothing is bought ready made than made at home. Broader programs are included in County Extension Programs. They may include, selection of clothing for good appearance (includes line and design for various figures), spending the clothing dollar to meet needs of all family members, and alteration of ready made dresses and many other programs which Mrs. Homemaker can benefit.

QUESTION OF THE WEEK:

Why do my clothes look yellow? I use bleach and it does not seem to help.

ANSWER:

There can be several reasons for this. First, when do you add bleach? If bleach is added at same time that detergent is added - neither the detergent nor the bleach have any effect on the cleanability of the clothes. The detergent should be given time to do its work, (at least 5 or 6 minutes) before adding the bleach. Second, do you use one detergent one time and another brand another time? There is sometimes a build-up of detergent in clothes, and mixing detergents cuts down on the effectiveness. If this is your condition now, try this: "Strip" your clothes of the build up of residue by using 1/2 to 3/4 cup of water softener in the machine (the amount depends on size of machine) using hot water, let clothes go thru cycle. Most usually they are clean when cycle is completed and no soap or detergent was used. After this, select a brand of detergent and stay with it, using it in the right amount (measure, please do) and your clothes should take on a brighter look. Never mix detergents, they will not work together.

What is your question? Send to the County Extension Office, Home Dem. Agent, in Farwell Courthouse. It will be answered in the next column.

Number of farms operated in 1964 in the U. S. decreased 3% from the previous year to 3,349,000. Average farm operator in 1965 will run a unit averaging about 341 acres -- nearly a fifth larger than 6 years ago.

The area of the continental shelf adjoining the earth's land masses equals the area of Africa.

Per capita food consumption in 1964 was about one per cent above a year earlier, says Mrs. Gwen Clyatt, Extension consumer marketing specialist. The increase was due largely to sizable increases in consumption of beef, turkey and fresh fruits -- particularly apples and citrus.

1964 WATER WELL DRILLING STATISTICS

1964 proved to be the most active year for drilling irrigation wells in the High Plains Water District since 1957. An unusually dry year has contributed greatly to the increased activity during the past year.

1,985 new wells were drilled within the district as compared to 2,137 in 1957. The record number of new wells recorded by the district since its existence was in 1955 when 3,998 wells were registered with the district.

During 1964 there were 109 replacement wells drilled, 93 wells were drilled that were dry holes or non-productive for other reasons.

Listed below by counties are the 1964 drilling statistics for the High Plains Underground Water District.

County	New Permits	New Wells Drilled	Replacement Wells	Dry Holes
Armstrong	18	20	0	0
Bailey	98	112	10	13
Castro	252	221	11	11
Cochran	86	71	1	4
Deaf Smith	372	290	10	3
Floyd	262	262	8	5
Hockley	291	211	1	6
Lamb	227	173	23	4
Lubbock	414	248	16	25
Lynn	122	82	0	4
Parmer	262	209	28	2
Potter	1	2	0	0
Randall	121	84	1	16

What does the future hold? Permits rolling into the county offices during January indicate 1965 may be the largest year for well development in the District. The district has 22,669 wells recorded in the offices of the High Plains Water District.

THIS PIPELINE WAS BUILT BY THE ROMANS AND SERVED FOR 2,000 YEARS

This photo, from the Smithsonian Institute in Washington D. C., shows a section of the original aqueduct that served the water needs of the conquered city of Cologne, Germany. It was constructed in 80 A.D. by the engineers of Fabius Sabinus Titus, Emperor of Rome. The aqueduct extended 56 miles underground between Cologne, and Eiffel and served as the main artery for the Cologne water supply until the late 1920's.

THIS PIPELINE IS EVEN MORE DEPENDABLE!!

IRRIGATION G(W) SYSTEMS **LOCK-SEAL**

Because of modern materials and manufacturing techniques, Gifford-Hill-Western's LOCK-SEAL provides an even more dependable underground pipeline. The close tolerance design makes the pipe more suitable, and joint flexibility eliminates the effects of expansion and contraction due to soil conditions and temperatures. By combining a superior product with modern day design and installation know-how, you have an underground irrigation system that serves dependably year after year . . . generation after generation. LOCK-SEAL is the product, Gifford-Hill-Western is the Company . . . depend on them!

Sterile Fly Drops Discontinued In Texas

Sterile screwworm flies, which have been released by the billions during the three years the campaign against the costly livestock pest has been in existence, are no longer being dispersed in the United States, but instead are virtually all being airdropped in northern Mexico.

No sterile flies will be released in Texas or neighboring states except for those required to treat isolated screwworm outbreaks that may occur this year, eradication officials have announced.

This action is expected to greatly decrease the possibility of the Southwest becoming reinfested as result of fertile flies migrating northward out of Mexico where the insect has not yet been eradicated. Fertile flies, when mated with the sexually-sterile, plant-reared flies, do not produce offspring.

The move is part of the second step in the eradication program, that of establishing a fool-proof barrier zone along the international boundary to prevent reinfestation of "screwworm-free" areas. Attainment of the first goal -- eradication of the insect from the Southwest -- was declared a year ago by the U. S. Department of Agriculture and its partners in the project, the Texas Animal Health Commission and Southwest Animal Health Research Foundation.

Although the barrier zone stretches from the Gulf of Mexico to the Gulf of California, eradicators are presently concentrating their resources on the eastern and western coasts of Mexico where colonies of fertile screwworms pose the principal threat to the Southwest.

With fly drops discontinued in Texas, eradication workers will be relying heavily on farmers and ranchers for information on infestations that result from flies that do manage to slip through the barrier. Further outbreaks can be headed off if cases are treated during early stages of development, officials said.

A man took his dog to a movie house and sat it in the seat beside him. The usherette was going to throw the dog out until she noticed that it was paying close attention to the film.

After the movie she went up to the man and said, "It really amazed me to see your dog enjoying the picture."

"Amazed me, too," replied the man.

"He didn't like the book at all."

"Iv'e pondered long about it,
Won't someone tell me this,
Why aren't more people happy
If ignorance is bliss?"
—**Eugene P. Bertin**, Pennsylvania School Journal.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

PCG Mill Tour Sign-up

Over 40 people on the High Plains have already indicated to Plains Cotton Growers their intention of participating in the textile mill tour to be sponsored by the organization February 16, 17 and 18. There is still room on the tour for about 25 or 30 more people, and reservations should be made as soon as possible.

The group will tour textile plants in the Spartanburg, South Carolina area, leaving Lubbock at about 9:00 a. m. on February 16 and returning to Lubbock on February 18. Spartanburg County is one of the most progressive textile areas in the U. S. and offers an excellent opportunity for High Plains residents to get a first hand look at latest industry developments.

Travel will be by chartered plane at a cost to each tour member of around $125, and with the exception of two breakfasts, all meals on the tour are furnished. J. D. Aldridge of Lamesa said on returning from the last such tour: "Every High Plains farmer should have made this trip or should make a similar one." Interested parties can make reservations and get additional details by contacting Plains Cotton Growers, 1720 Avenue M, Lubbock, Phone PO-2-0553.

Cotton Legislation

Groups of cotton producers, grinners, merchants, spinners and the National Cotton Council which encompasses all of these groups plus others, have been in session over the past few weeks to consider their position with regard to cotton legislation. The agricultural Act of 1964 under which the cotton industry is now operating is due to expire July 31, 1966, and where to go from there is sure to be a leading subject for discussion during this session of Congress.

To date, only one thread of continuity runs through the resolutions passed by these various groups. Virtually all are in favor of a "one-price" system for cotton, but there is wide diversity of opinion as to how this should be achieved. Some have resolved to support the present program "with minor changes," but what one group considers "minor" is often considered by another as monstrous, so there is a long way to go before the cotton industry can present a united front to Congress.

As a start toward at least getting cotton producers seeing more closely eye to eye, the American Cotton Producers Associates, made up of some 17 cotton producer organizations across the cotton belt, is meeting during the first week of Feburary and Plains Cotton Growers, Inc. will be represented at that meeting.

At the moment most are withholding opinions as to what Congress might or might not do with respect to cotton legislation pending delivery of the President's farm message to Congress expected early in February. Some sources within the industry have predicted that the President's message will call for a simple extension of the present law. Others predict a request for sweeping changes. Right now it's anyone's guess.

"My wife and I have been happily married for twelve years," said a man to his friend. "We go out twice a week and have steak, imported wine, soft music and candle-light."

"Gee," said his friend admiringly, "that's wonderful."

"It sure is," answered the married man. "She goes out on Tuesdays and I go out on Fridays."

An insurance man was teaching his wife to drive, when the brakes failed going down a hill. "I can't stop it," she cried, "What'll I do?"

Don't panic," her husband replied. Just hit something cheap."

Cleaning Agents Can Be Hazardous-Leaders Told

Home Demonstration Club leaders, in a meeting recently held at Hub, were told about the dangers of improper use of Household Cleaning Agents by Home Demonstration Agent, Cricket B. Taylor.

"Numerous new cleaning agents have appeared on the market, as well as many new metals and surfaces to be cleaned in the home. Improper methods and poorly chosen cleaning products can cause expensive losses to families in both money and satisfaction", Mrs. Taylor said.

Mixing of Household Cleaners can be dangerous, as well as dissatisfaction in the results from such practice. Some very common substances in the home, as vinegar when mixed with bleach, or adding bleach to other cleaning preparation cause vapor that is poison and can even cause death, the demonstrator said.

Other points discussed and demonstrated in the meeting were: How to select cleaning products for the various metals and surfaces in the home

TIDE Has The Ideal Fertilizer To Top-Dress Your Wheat - - - -
NITRATE - SULFATE
This Fertilizer Is A Combination Of Ammonium Nitrate And Ammonium Sulfate Fertilizers Into One Single Sulpher Coated Granule With An Analysis Of
30 - 0 - 0 - 5
N - P - K - SULPHER
FACTS ABOUT NITRATE - SULFATE
1. At Present Only TIDE Can Offer You This SPECIAL FERTILIZER.
2. It Supplies Nitrogen For Quick Plant Response.
3. It Supplies Nitrogen In Two Forms.
4. There Is Very Little Loss Of Nitrogen In The Form Of NH3.
5. It Is Reasonable Priced.
6. This Fertilizer Can Make You $ $ $ $ $.

How The March of Dimes Fights Birth Defects

BY VIRGINIA APGAR, M.D.
Director, Division of Congenital Malformations, The National Foundation-March of Dimes

The phase of the March of Dimes attack on birth defects which promises the most exciting results in eventual prevention of these conditions is the research program supported by 35 grants at 29 universities, colleges or hospitals located in 17 states and Canada.

You have a stake in this program, for the dimes and dollars you contributed over the years have helped support this quest.

Perhaps the briefest and most accurate description of the scope of these various projects is that dedicated men and women in laboratories and hospitals all over the country are attempting, each in his own way, to find some clue which will, in time, help provide the answers to these questions:

- **Why are 250,000 children** born with a birth defect each year in this country?
- **Why does something go** wrong when these tiny embryos are being formed?
- **Can more of these children** be helped with present medical knowledge?
- **What more must we know** to prevent this from happening to babies not yet born?

I'd like to describe six of these important projects, which differ vastly from each other, but they have this in common: All are part of a nationwide search which has as its ultimate aim the prevention of birth defects in human beings. At present, these scientists might be working with test tubes or with animals, but each bit of knowledge sheds light on the problem of birth defects in humans.

At the University of California in San Francisco, Dr. C. Willet Asling and his colleagues are studying birth defects caused by temporary deficiencies of vitamins and minerals at crucial stages during pregnancy. They are experimenting with rats, trying to learn why certain embryonic tissues are affected by dietary lack. This work may throw light on the mechanism of some birth defects in man.

At the University of Colorado in Denver, Dr. Theodore T. Puck and his group are studying the ways human cells operate and what those cells need as food. This work is vitally important because every human being is the result of the union of two cells — the egg cell from his mother and the sperm cell from his father. This union forms one cell which in turn divides to become different cells with many different functions. There are special kinds of cells for bone, for example, and for the retina of the eye, and for the lungs and skin. Usually, this process of differentiation works well and a healthy baby results, but sometimes, something goes wrong and the infant has one or more birth defects. If scientists knew more about the normal growth from single cell to baby, they would be closer to understanding how this process can break down, and perhaps be closer to preventing birth defects.

Dr. Apgar

At Yale University in New Haven, Conn., Dr. Dorothy M. Horstmann is studying the spread of the rubella virus, seeking means of detecting its presence in the body, and, in general, laying the groundwork for the development of a vaccine against this virus. Rubella —German measles—is usually only a minor annoyance to children, but it is a potential tragedy to women during the first three months of pregnancy. Research shows that if a woman gets this disease early in pregnancy, her baby has a one-in-four chance of being born with one or more serious birth defects.

At the University of Miami in Coral Gables, Fla., Dr. Casimer T. Grabowski is conducting tests on the effects of oxygen deficiency and other metabolic disturbances in producing birth defects in chick embryos. These studies are important because it is known that lack of oxygen can lead to some types of deformities in birth as readily as can certain chemicals or radiation. Dr. Grabowski's studies with chick embryos will add to the knowledge of how certain agents produce specific birth defects.

DR. CASIMER T. GRABOWSKI, University of Miami, Fla., is conducting tests on the effects of oxygen deficiency and other metabolic disturbances in producing birth defects in chick embryos.

At Columbia University in New York City, the work of Dr. Melvin T. Grumbach and his associates revolves around these questions: Do people born with abnormal sexual characteristics have an abnormal chromosome pattern? Could these physical abnormalities be related to the specific chromosome defects?

At Vanderbilt University in Nashville, Tenn., a team headed by Dr. Robert W. Noyes is studying the way a sperm cell penetrates an egg cell at the moment of conception in rabbits. They especially want to know whether abnormalities in that first penetration could be the cause of birth defects which show up at birth or even in later years.

February 1, 1893—Construction of the world's first motion-picture studio at West Orange, N. J. was completed. The project was financed by Thomas Edison to the tune of $637. The next day a sneeze became the first film close-up, featuring comedian Fred Ott.

February 7, 1827—The first American ballet troupe appearing at New York's Bowery Theatre was interrupted by a mass walkout of women in the audience. (The ballerina, Madame Francisquy Hutin, was thought to have dressed in such flimsy attire that the women felt obliged to leave.)

February 10, 1933—The first singing telegram was introduced to New Yorkers.

February 16, 1607—John Sprat, archdeacon of a London church, became the subject of the now famous nursery jingle, "Jack Sprat could eat no fat . . ." Neighborhood children set his eating habits to rhyme and serenaded him for the first time. (The archdeacon had a reputation for eating daintily, while his wife had an enormous appetite.)
