Wellington State Bank To Be Sold

Wellington State Bank board and O.L. Cooper of Memphis and Mike Stinson of Ft. Worth announced this week that the two men had agreed in principle to purchase majority interest in the Wellington State Bank.

All parties expect the stock transfer to take place within 90 days---as soon as regulatory review of the sale is completed by the State Banking Department, the Federal Reserve Board and the FDIC.

Cooper will be bank president after the sale. He is already working at the bank, although his role will be advisory until the sale.

The current bank board, composed of James Sullivan, Fred Cox, Jr., John Holton, John McDowell, Billy Moseley, Jack Neeley and J.M. Orr, will continue in charge of the bank until the sale is complete.

Current bank president Billy Moseley said that he would be leaving by the first of the year, but otherwise no personnel changes are contemplated at this time, Cooper said.

A new board will be organized after the sale, Cooper said.

Cooper, 32, was president of First State Bank in Memphis from January, 1981 through August, 1982.

From 1975 through '78 he was vice president of Hale County State Bank in Plainview, and from '78 to '81 he was vice president of Texas Bank and Trust Co., Lubbock.

Cooper, a native of Snyder, holds BBA from Texas Tech University, is married to the former Teresa Lindley and they have 2 children, Tiffany, 5, and Tara 9 ½ months.

In Memphis he was a director of the Chamber of Commerce, on the Board of City Development and the Memphis Industrial Corp, a

FIRST BABY

Collingsworth Volunteer Ambulance Service members delivered their first baby in 11 years of operation at 2:52 a.m. Thursday, October 21. Mrs. Lonnie Clevenger, center, gave birth to a 6 lb. 4 oz. girl, April Dawn, in the ambulance just outside of Memphis. RN Sharon Bowen and ambulance volunteer Kenneth Patterson, left, delivered the baby as volunteer Johnny Barnett, right drove.

General Election Slated November 2

Collingsworth County voters will go to the polls in the general election, Tuesday, Nov. 2, with their interest centered on two state races, the Governor's race between William P. Clements, Jr., and Mark White, and the senatorial race between Lloyd Bentsen and Jim Collins.

Although both the Libertarian Party and Citizens Party have candidates in these two races, none has been an issue here.

Forty absentee votes had been cast late Tuesday, and besides these, 14 applications for a ballot have been mailed, Mrs. Gollihugh said.

Supporters of Congressman Jack Hightower, forsee no problem in his re-election from the 13th District, and none in Collingsworth County.

Candidates from four parties appear on the ballot, Republican, Democratic, Libertarian and Citizens.

In so far as is known, neither of State Senator Bill Sarpalius opponents for the 31st District place has brought his candidacy to Collingsworth County.

Votes cast for county and precinct Democratic candidates will be a matter of affirmation, as none has a candidate.

Texas citizens will vote on 6 constitutional amendments.

Candidates are given in

Mrs. Strake Campaigns Here

Annette Strake, the wife of former Texas Secretary of State George Strake, Republican nominee for Lt. Governor of Texas, brought his campaign to Wellington Tuesday afternoon, to discuss issues of vital concern to her husband.

A coffee was held in her honor, at 3:30, hosted by Mrs. Wayne Cudd, whose husband is managing Strake's campaign here.

Mrs. Strake spoke not only as the wife of a candidate but as a mother of 6 children.

"I know," she said, "that a good education is critical for a child to prosper as an adult. Did you know that in 1980 more than half of all 9th graders failed either a reading, writing, or arithmetic test? That is not good. In view of the fact that we spend 52% of our state budget for education, I think we need to ask if we are getting our money's worth."

Mrs. Strake pointed out that young people are more conservative and more concerned today. They want to know about the issues

Hopes Brighten For Championship

The Skyrockets travel to Clarendon this week for a game that will give Wellington a chance at one of the two top places in District 2-AA. Clarendon is the defending champion.

At this point, Wellington and Panhandle are tied for district leadership with 3-0 records. Clarendon has a 1-2 record, but they are not to be discounted.

If Wellington wins the Friday night game they will have only the Panhandle Panthers between them and the 2-AA crown.

Pre-season polls placed the Bronchos as No. 5 among 2A teams of Texas. They did well in pre-conference play, then in district competition lost to Panhandle 49-6, defeated Shamrock 33-0 and lost again to Quanah 17-6.

Until district play started, the Bronchos were conceded to end the year either first or second in district.

Clarendon has retained three defensive and 5 offensive players from last year's 2-A championship team.

Clarendon still has a large team. Brad McGuire, 6-4, 250, is a standout defensive tackle and offensive guard, and Arlis Thomas, 6-3, 230, and Ken Dorris, nose guard, are strong on defense.

Offensively, the two Weathertons stand out in the backfield: David, 6', 168, and Glenn, 5-11, 155.

"This is another big rivalry game for us, said

Ambulance Service Delivers First Baby

Collingsworth Volunter Ambulance service members delivered their first baby in eleven years of operation Thursday, Oct. 21.

Mrs. Lonnie (Sue) Clevenger, gave birth to a 6 lb. 4 oz. girl, April Dawn, two minutes away from the Memphis hospital at 2:52 a.m.

The Elevengers said they had gone to their doctor in Memphis Wednesday afternoon for a checkup, but then had come back to Wellington.

When Mrs. Clevenger began feeling birth pains, the couple went to the Collingsworth General Hospital emergency room. Staff members told them that no doctors delivered babies in Wellington and that they should go on to the Memphis hospital.

The Clevengers stopped to get gas at the 15th Street Allsup's and then started for Memphis. But not far down the road they decided they couldn't make it to Memphis and returned to Allsup's where they called an ambulance.

RN Sharon Bowen and LVN Dianna Manuel, who were on duty at the hospital, heard the call on the hospital receiver, grabbed a delivery kit and rushed to Allsup's. Ambulance service volunteers Johnny Barnett and Kenneth Patterson answered the call.

Mrs. Clevenger was loaded aboard the ambulance with Bowen and Patterson with her and Barnett driving.

Barnett asked if they wanted him to stop when it was apparent that the baby would be born before they reached the the Memphis Hospital, but Patterson and Bowen said they could handle it, and they drove on.

The baby was born just outside the Memphis city limits.

It was the firt time Bowen, as well as Patterson and Barnett, had delivered a baby without a doctor present.

Ambulance service secretary Margaret Vines said that the service had had several close calls with pregnancies before, but that this was the first time one had been delivered in the ambulance service's history.

Mrs. Vines said that Jimmie Kelso, who operated an ambulance service here for many years, said that in all of his years of ambulance driving, he had never had a baby born before he got to the hospital.

Collingsworth 4-H Steers Win 1st at State Fair

Two Collingsworth County 4-H Club calves placed first in their divisions at the State Fair of Texas held in Dallas through last week.

Barry Long's 940-pound Angus-Chianina cross won in the light weight European Cross class.

Stan Tate's calf placed first in the heavy weight Polled Hereford Class.

Two other 4-H club members had calves in the placings. Patricia Fourmentin had the 14th place middle weight Hereford and Brad Long, Barry's younger brother, showed the 16th place heavy Hereford.

Stacy Fires entered her steer in the light weight Hereford class, but the calf toothed out during the show and therefore was ineligible to be judged.

"It was a real good steer and she had him just where she wanted him, at the top of the light Hereford class," said Extension Agent Don Reeves. "The was a good show. We know we had some good steers before we went down, but we didn't know how good."

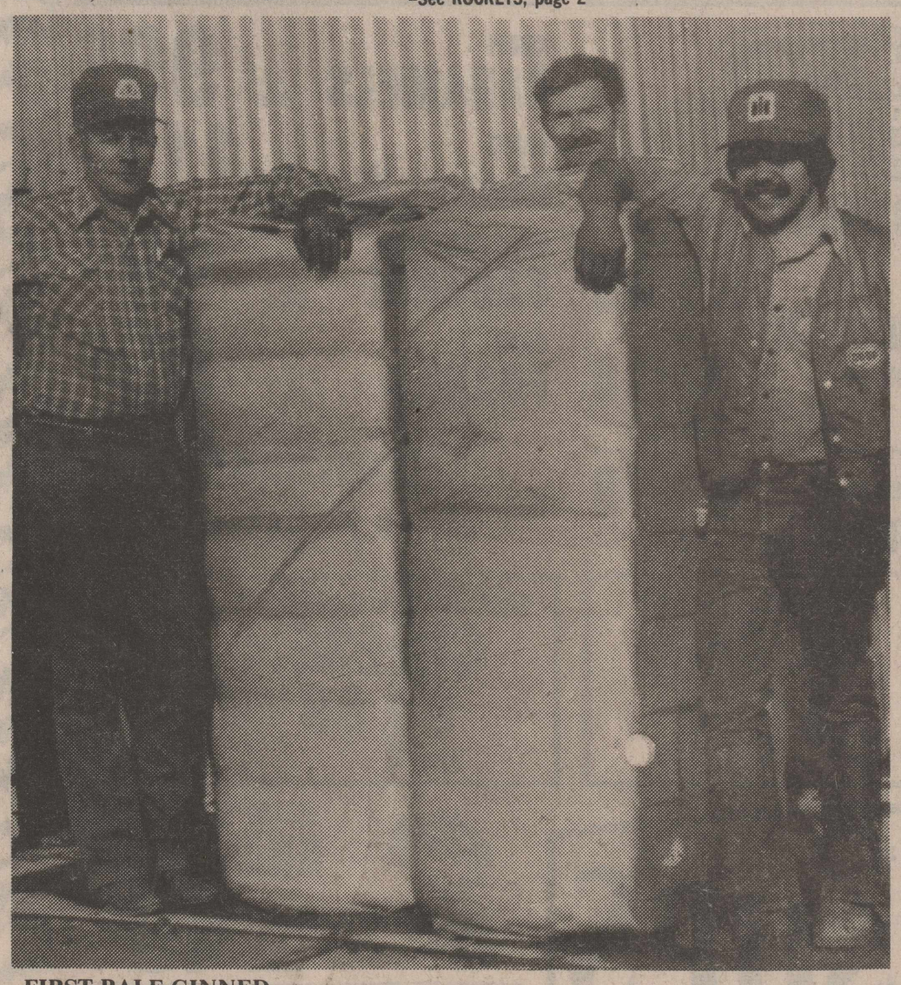
Both first place calves sold Friday for $1.25 per pound.

Barry bought his Angus-Chianina at a club calf sale in Lubbock. He was consigned by an Illinois breeder.

At Dallas he competed in a class of 30 steers.

STATE FAIR WINNERS

Two Collingsworth 4-H Club steers won first places at the State Fair of Texas in judging Wednesday, Oct. 21. Barry Long, of Wellington, top, won in the light weight European Cross class with his Angus-Chianina. Stan Tate of Abra won in the light weight Polled Hereford class. All classes were large and competition was stiff.



FIRST BALE GINNED

PTO Carnival Slated Saturday

Trick or treaters will join the ghosts and goblins and other fun lovers for the Wellington PTO Halloween Carnival Saturday, Oct. 30 in the Elementary School Cafeteria from 6:30 to 9:30 p.m.

This year's carnival is aimed at getting the trick or treaters off the street and into the games and contests at the school, said Mrs. Eddie Hankins.

"Parents are urged to co-operate," she said, pointing to the dangers that have grown up at Halloween when tiny youngsters take to the street.

"Many Halloween masks make it difficult for little children to see out, and dark clothing of many costumes make them hard for a motorist to see," she said.

Each room will sponsor a game in which all youngsters can compete

Winners of the pumpkin carving contest and the costume contest will be announced about 8:30.

confronting their state.

She spoke out for the urgent need for water for West Texas and of her husband's concern that viable water plan be formulated.

She said she believes her husband's opponent, Bill Hobby, has lost touch with the people of Texas, and in many parts of the state she has covered, she was told that in his 10 years in office, he has never visited these areas.

Her husband believes he can help Texas in the lieutenant governor's office because he thinks states should take more responsibility for state government and leave less to the federal government.

"The lieutenant governor of Texas has possibly the most powerful job of any job in any state's government," she said, pointing out that the lieutenant governor is president of the Senate and appoints chairmen of committees. He can control much of the legislation that is passed during a session."

Mrs. Strake voiced her husband's concern for the growing crime rate and his belief that steps should be taken to make the state safer for people of all ages.

Coach James Williams.

"We had one last week and we will have one next week. Clarendon beat us 14-0 for the play offs last year, and then went on and beat Panhandle (then in another district) in bi-district 48-47. They advanced to regional, where they lost to Hale Center.

"We are faced with another 'must win' if we are to be in the playoffs, and if we can beat Clarendon, we are assured 2nd place in the finish. Every week has been a big ball game for us.

We are trying to get ready for this one because we have had some injuries that handicapped us last week.

Mark Hunnicutt was out for two games after a bout with pneumonia, and it is questionable whether he will be able to start this week.

Quarterback Wade Williams played last week with a bruised calf, and has worked out this week but is not at full strength.

James Benton, another of the injured, was out last week and did not play against Memphis. It is questionable if he will play this week.

Mike Green, a backup guard, had a knee injury in the Memphis game and is on crutches. He will not be able to play against Clarendon.

"All in all, we still have some injuries, but maybe we can pull everything together by Friday night and be ready to play," said Williams.

Mike Stinson, a native of Paducah, owns controlling interest in First National Bank, Stamford and controlling interest in First National Bank, Deport. He previously had an interest in First State Bank, Memphis and in Farmers State Bank, Hart.

Stinson began his banking career with Continental National Bank in Ft. Worth. He later chartered and was first president of First City Bank of Forrest Hill, and then served as president of Ft. Worth Bank and Trust.

"We're looking forward to the association with the people of Wellington and Collingsworth County," Cooper said, "and we will continue to offer the quality banking services that have been associated with the Wellington State."

Nunnelley Has Heart Surgery

Don L. Nunnelley, an Amarillo deputy sheriff who formerly lived here, underwent open heart by-pass surgery in early October.

He was critically ill for several days following the operation, but his recovery was rapid and he was due to return to work for half-days on Monday, October 25.

His mother, Mrs. Ernest Nunnelley, was with him.

She said her son had a congenital heart condition from which neither he, the family nor his doctors were aware until the surgery was performed.

ROCKET WINNERS

Overall winners in the Cub Scout Rocket race, with their rockets, are Larrie Black, first, Brent Martin, second and Dennis Cudd II, third. At back are the two judges, Charles Britten and Jerry Duncan, and Cubmaster Tommy Thomas.

Cub Scouts Hold Rocket Race

It was a whole new game for Cub Scouts Thursday, Oct. 21, when they raced, not pinewood cars, but fast-moving rockets powered by twisted rubber bands and racing on thin strands of wire.

Tommy Thomas, Cubmaster, explained that the race was held to give the boys variety in their activities. The tiny vehicles were still put together, sanded and painted by the boys.

Variety was added when the tiny vehicles sometimes stopped midway on the course, or didn't start at all.

Three Cub dens and a Webelos group participated.

Overall winners were 1st Larry Black, 2nd Brent Martin, 3rd Dennis Cudd.

Den winners included: Den 2: 1st Russell McCann, 2nd Scottie Morgan, 3rd Cody Phillips. Other boys participating were Brad Bawcom, Lukas Wilbur, Doug Daniel, Dusty McKinney, Brad Southerland and Heath Blackshear. Vicki Wilbur is Den 2 leader.

Den 6: 1st Larry Black, 2nd Johnny Shaver, 3rd David Rudy. Others competing were Scott Hankins, Michael Orr, Jason Clark, Jeff Fires, Brett Winn, Douglas Cudd and Ricky Gass. Den leaders are Lameda Black, Debbie Shaver and Gayle Hankins.

Den 5: 1st Brent Martin, 2nd Frederic Schmidt, 3rd Shane Popwell. Other participants were Joe Lynn Bartlett, Joe Kent Clark, Rodney Weatherly and Shannon Settle. Den leaders are Judy Clark and Frances Schmidt.

Webelos: 1st Dennis Cudd, 2nd, Wiley Fires, 3rd Paul Bell. Others were Mike Thomas, Greg Cozad, Mike Maxwell, Daren Kumar, Brandon Porter, Scott Covey, Robert Watts and Chad Feemster. Tommy Thomas is the Webelos leader.

Kiwanis Club is the Cub pack 431 sponsor, and judges were Charles Britten and Jerry Duncan, both Kiwanians.

Spaghetti Supper Before Game

An All-You-Can-Eat Spaghetti supper will be held Friday, Oct. 29, at First United Methodist Church, Clarendon, preceeding the Wellington Skyrocket-Clarendon Broncho football game.

Included with the supper will be a salad, garlic breadsticks, a choice of deserts and coffee.

Tickets are $3 for adults, $1.50 for students 12 and under, pre-schoolers free.

The supper is sponsored by the Senior High Co-operative Youth from the Methodist, Presbyterian and Episcopal Churches.

1st United Methodist Church is located one block south of the Donley County Courthouse.

"Fall Back" to Standard Time

It's time to "Fall Back!"

If you return to standard time by the saying: "Spring Forward, Fall Back," then it's time to turn your clock back one hour on Sunday, October 31.

Most people find it more convenient to do this at bedtime Saturday, then get up Sunday morning to the new time.

Standard time will remain in effect through the 6 months, and return to daylight saving time on the last Sunday of April.

Patricia Fourmentin and Barry Long are Collingsworth's 4-H Club Gold Star girl and boy for 1982-83.

Announcement of their selection was made near the close at the annual awards dinner Monday evening, October 25. Neither was aware of being selected until their names were announced.

The Gold Star, given by the Extension Service, is the highest award a boy or girl can win on the county level.

Hrnciar to Discuss Behind Iron Curtain

John Hrnciar, Shamrock rancher and retired business man, will be in Wellington Monday, Nov. 1 to discuss conditions behind the Communist Iron Curtain where he spent almost a month recently.

His talk will be in the Heritage Room of Wellington State Bank, starting at 8 p.m.

This is a public meeting, and those interested in conditions behind the Iron Curtain are urged to attend.

Mr. Hrnciar's talk is sponsored by a LaPaisana Chapter of the National Society, Daughters of the American Revolution.

His program will be entitled, "Twenty-five Days Behind the Iron Curtain," and will contain slides taken in Czechoslovakia, the country from which his father emigrated.

Having many relatives still living there, Mr. Hrnciar has made numerous visits to Czechoslovakia the last few years.

This has given him a special insight concerning many problems existing in that country.

"It is like living in a jail with walls far apart," he says.

Difficult times demand wise decisions... and strong decision-makers like Lt. Gov. Bill Hobby.

Texans are facing some difficult times. Now, more than ever, we need experienced, compassionate leaders in our state government.

We need a leader like Lt. Gov. Bill Hobby who has our interests at heart. Here's how Hobby stands on the issues concerning Texans:

JOBS.

HOBBY is working to create more and better jobs for Texans. He is making sure jobless Texans receive their full unemployment benefits. He is working to increase the efficiency to the Texas Employment Commission. He is stimulating economic growth and new jobs through responsible state spending and one of the lowest tax rates in the nation.

EDUCATION.

HOBBY will not be satisfied until our education system is the best in the nation. His efforts to improve the quality of public education for your children and grandchildren begin in the classroom. He is for improving teacher salaries and benefits. He is for giving more control to local school districts.

CRIME.

HOBBY is for strong laws and certainty of punishment of criminals, backed by better training and pay for our police officers. He is helping upgrade our courts to speed up trials of accused criminals. He is for improving our prison system and parole system.

Re-elect Bill Hobby

. . . A STRONG LT. GOVERNOR, HONESTLY.

Diet and Nutrition Discussed At RTA Meeting Oct. 12

A discussion of diet and nutrition was presented for the Retired Teachers Association Tuesday, Oct. 12. Emphasis was given to the importance of reduced sodium content in diet--a boon to RTA members who have been placed on low-salt diets by their doctors.

The meeting was held in the Fellowship Hall of First Baptist Church with Jean West, Bonnie Willis, Nan Henard and Florence DeArmond as hostesses.

Miss Bigby discussed products that aid in a low sodium diet, such as salt substitutes, low sodium cheese, with tabasco sauce, and lemon juice for seasonings.

Miss Bigby closed her discussion with a demonstration of making a loaf of low sodium bread. A loaf already baked was brought and slices were served along with refreshments.

Mrs. West presented the legislative report, which called attention to a federal proposal which would eliminate annual inspections of nursing homes and turn the process over to the private sector. Members were urged to oppose this.

Attention was also called to the move afoot in Texas by a number of groups to repeal the homestead law. Members were urged to work against this.

Mrs. Dollie Mae Wilson, president, was in charge of the meeting and Mrs. Lois Ratliff, District 16, president, reported on the district convention to be held in Amarillo Nov. 15 at the Quality Inn, beginning at 1 p.m.

Those present were Miss Maudie Coffee, Mrs. Paralee Coleman, Mrs. Verne Harper, Mrs. Willie B. Lone Star Specialist Pam Hacker uses a hot-air balloon to get her message across. The message is that new high-efficiency gas water heaters can help you stretch your energy dollars.*

We used a hot-air balloon to make a point about hot-water efficiency.

77,000 cubic feet.

That's how much gas this balloon holds.

That's enough gas for 7,700 five-minute showers. That is, if your water heater was built ten years ago.

With a new high-efficiency* water heater, 77,000 cubic feet of gas goes a lot further... more than 20% further.

You can still take 7,700 five-minute showers. With the gas left over, you can wash 1,022 loads of dishes and dry 785 loads of clothes.

Gas has always been your most efficient fuel. High-efficiency appliances make it go even further.

If you'd like to stretch your energy dollar, talk to your local appliance dealer. Find out how much a high-efficiency water heater could save you.

$10.00 a year inside of trade territory
$13.00 a year outside of trade territory

Jack Hightower

Earlier this fall Congressman Jack Hightower was one of the key members of Congress that a Japanese trade delegation visited when it came to call on Washington.

American farmers have suffered through Republican and Democratic administrations with an onerous farm program and export policy that on the one hand encourages farmers to produce fence-row-to-fence-row and on the other embargoes commodities whenever it seems politically expedient and does little to remove the significant trade barriers that our trading partners have erected against American agricultural products.

Put more simply, farmers have been getting a raw deal.

On a trip to Japan, Congressman Jack Hightower told the Japanese that farmers in his district were angry over Japan's trade restrictions on American farm products.

And this fall, when a Japanese trade delegation was in Washington to talk about the problems, one of the key Congressman they visited was Jack Hightower.

It was just a small example of the fact that Jack Hightower is doing a good job of representing farmers problems in Washington.

And he is doing a good job of representing the varied interests and ideas of all of the people of his district.

His eight years of experience and seniority and the respect of his fellow Congressmen are considerable assets that we should not throw away.

Jack Hightower deserves re-election next Tuesday.

Political Notebook

State Representative Foster Whaley, when asked how he's going to vote on the six proposed Constitutional Amendments, gave a thumbs up on all six.

Here are some of his comments:

No. 1: "This amendment is very simplex. It asks people if they want to be taxed at a much higher rate or not at all. It should carry overwhelmingly ."

No. 2: "I co-authored this one with Craig Washington. It lifts the cap the state can spend on assistance to needy children and medical care. Our population is growing and the limit was unrealistic and will cause some severe hardship if its not raised. It passed overwhelmingly on the floor of the House and White, Clements and church groups are for it."

No. 3: "This amendment increases the exemption for farming implements from $30,000 to total exemption. I'm working on a bill to try to get some reimbursement from the states for rural school districts that have been hit hard by exemptions."

No. 4: "No problems with this one."

No. 5: "Just the two counties mentioned are affected."

No. 6: "This amendment won't raise the price at which Texas sells bonds. They are sold at the market. But recently the ceiling was below the market and Texas couldn't sell its bonds. This allows the ceiling to go from 10 to 12%."

I SHOULD'VE VOTED.

Pro, Con Arguments on Constitutional Amendments

AMENDMENT NO. 1

The proposed amendment repeals Article VII, Section 17, of the Texas Constitution, under which the only remaining state property tax is levied. This tax is pledged for funding construction at 17 named state universities. The amendment also amends Article VIII, Section 1-e, to prohibit state property taxes, to allow counties to retain any delinquent taxes collected after the repeal, to allow the legislature to distribute the balance of taxes collected before the repeal, and to authorize distributions of the tax receipts to be expended for either construction or repair of structures at the 17 universities. Finally, the amendment would add Section 1-h to Article VIII validating the assessment ratio established by statute for the state property tax in 1980.

ARGUMENTS

FOR:

1. Property taxes are the primary means of support for local governments, which are generally hard-pressed for revenue. The state, which has other means of support, should not compete with local governments for tax dollars by continuing to tax already overburdened property owners. If this amendment is not adopted, the burden may be even greater than it otherwise would be because of a possbile court order resulting in collection of millions of dollars of back taxes not collected under the reduced assessment ratio.

2. The need for dedicated construction funding for universities is past. Article VII, Section 17, was adopted by the voters to handle the enormous enrollment increases following World War II. Those increases were the result of returning veterans taking advantage of GI Bill benefits. Enrollment for the decade of the 1980's is predicated to be stable or declining. In addition, the present constitutional allocation formula--based primarily on enrollment projections--has not fairly distributed the available money because some universities grow faster than projected and some grow slower than projected. The allocation of funds should be based on need.

3. Constitutionally dedicated funds unnecessarily limit legislative discretion to appropriate funds where the most need is shown; the dedication restricts the use of funds even though the need may not exist in the future. Like other state agencies (including the 12 four-year universities and two-year upper level senior colleges created since 1956), the universities that benefit from the state property tax should receive funds through the appropriations process, during which the legislature can judge their needs in comparison to the other needs of the state.

AGAINST:

1. Article VII, Section 17, provides the most rational and cost-effective method of providing construction money for state universities. Construction requires an orderly, planned process and is most efficiently achieved through the issuance of bonds to provide money to fully carry out the plans. Constitutionally dedicated funds, allocated according to an equitable formula, provide for orderly, planned growth bassed on anticipated and actual need. The universities are not typical state agencies and are ill-suited to lobby for appropriations in competition with other state agencies. The few universities that have political "muscle" will receive a disproportionate share of the funds allocated through the appropriations process.

2.Although a 10-cent state property tax levied against 100 percent of market value might generate more money than actually needed, repeal of the tax is not the proper answer to that problem. The tax rate was established when property assessment practices were not uniform and when property was usually assessed at less than market value. Proposals such as reducing the tax to three cents could generate the amount needed without imposing a burden on property owners or threatening local government revenues. A three-cent tax on a $50,000 home would result in a tax liability of only $15 a year, disregarding any applicable exemptions. The state itself faces potential revenue problems, and repealing the tax will increase the drain on general revenue. The constitional prohibition on other state property taxes forces the state to look to other sources of revenue and may result in an increase in the sales tax or other taxes, the enactment of new taxes such as a personal income tax, or an increase in the number of univerisities eligible to benefit from permanent university fund bonds.

3. Article VII, Section 17, is part of a tradition in this state. Beginning in1845, each Texas constitution has provided some form of dedicated funding for elementary or secondary education. If education is to retain its status as a top priority, all forms of dedicated funding for that purpose should be preserved. The repeal of Article VII, Section 17, would result in an inequitable situation in which only a few preferred universities in The University of Texas System or the Texas A&M University System have dedicated construction funding.

AMENDMENT NO. 2

The proposed amendment revises Article III, Section 51-a, of the Texas Constitution, which authorizes the legislature to provide for assistance, grants and medical care for certain needy persons. Section 51-a now restricts the amount of state aid provided each year to the needy to the amount that is matchable out of federal funds with a ceiling of $80 million.

The proposed amendment removes the present ceilings on the amount of state aid and places a new ceiling on aid to dependent children and their caretakers. That ceiling will be $160 million for the 1982-83 biennium, and one percent of the state budget for each subsequent biennium. The proposed amendment also clarifies language in the present version of Section 51-a allowing the state to provide medical care, rehabilitation, and other similar services for needy persons. In addition, the amendment removes a provision allowing the legislature to enact laws enabling the state to cooperate with and accept and expend funds from the federal government in establishing assistance programs, and removes an obsolete paragraph appropriating money for previous bienniums. H.J.R. 62 was revised by S.J.R. 10 during the Second Called Session of the 67th Legislature to correct technical problems in H.J. R. 62.

ARGUMENTS

FOR:

1. If the federal government reduces or stops AFDC funding, the level of allowable state aid to the needy would be cut or completely stopped because of the current constitutional restriction. The proposed amendment should be adopted to ensure that the AFDC program can operate at levels sufficient to meet the needs of the poor.

2. In spite of meager payments to welfare recipients, inflation, changes in the federal welfare system, and increases in assistance grants to become inadequate. The proposed consitutional amendment provides flexibility in determining that ceiling and thus eliminates the need to frequently amend the constitution to increase the spending limit.

AGAINST:

1. Welfare spending should be reduced. Instead of reductions, this amendment would contribute to spending increases by raising the ceiling on assistance grants. Emphasis should be placed on assuring that welfare money is spent only on those in need rather than increasing the amount spent.

2. The ceiling on assistance grants set in the proposed amendment for the years after the 1982-83 biennium is too uncertain. The term "state budget" is not defined by the proposed amendment and this results in some ambiguity. The working grants the legislature the authority to determine what constitutes one percent of the state budget without providing necessary guidance. All funds appropriated by the legislature can be considered in determining the state budget, and this could include millions of dollars received in federal funds. If a variable ceiling is to be adopted, the wording of the amendment should set out that ceiling clearly and definietly.

AMENDMENT NO. 3

The proposed amendment adds Section 19a to Article VIII of the Texas Constitution to exempt from ad valorem taxation implements of husbandry used in the production of farm or ranch products.

ARGUMENTS

FOR:

1. The proposed amendment promises partial relief for econimically hard-pressed farmers and ranchers without serious adverse effect on local governments' tax bases.

2. Taxing agricultural equipment and machinery often is barely cost-effective because of the disproportionately high expense of locating the property and assessing and collecting the tax.

AGAINST:

1. The voters have amended the constitution twice since 1979 to give tax relief to farmers and ranchers--expanding eligibility for favorable methods of valuing agricultural land and totally exemption from taxation livestock and poultry in the hands of the producers. Additional tax relief for farmers and ranchers is not needed.

2. It is trite but true: a tax exemption merely shifts part of the tax burden from the beneficiaries--farmers and ranchers in this case--to all other taxpayers. Owners of homes and businesses, among others, will have to pay for the proposed exemption through higher property taxes.

AMENDMENT NO. 4

The proposed amendment of Article XVI, Section 30, of the Texas Constitution would authorize the legislature to provide by law for members of governing boards of water districts and other conservation and reclamation districts to serve for terms not to exceed four years.

ARGUMENTS

FOR:

1. Under current constitutional provisions requiring two-year terms for directors, districts are required to hold directors' elections every year or every two years. The frequency of these elections places a severe financial burden on some districts, particularly those in rural areas. The adoption of the four-year terms would allow districts to reduce substantially the cost of directors' elections by holding the elections less frequently.

2. Voter interest in many water districts and other conservation and reclamation district directors' elections is very low. It is alleged that part of this voter apathy results from the frequency of elections. The adoption of the proposed amendment would provide less frequent elections, which should generate more voter participation.

3. A two-year term is a very short period in which to develop expertise and efficiency on the part of members of a governing board. Adoption of up to four-year terms would allow members to serve long enough to become familiar with the operation of the district and to contribute to more knowledgeable and efficient administration and decision making.

AGAINST:

1. Even through directors' elections may be of considerable expense to a district, the financial cost to the district cannot be as great as the value to the voters and taxpayers of assuring that members of the governing board will be responsive to their needs and desires through frequent elections.

2. There are times when a member of a governing board does not adequately serve his district because of illness, lack of interest, or incompetence. Frequent elections to brief two-year terms provide the voters with a means to assure that those persons unable or unfit to serve on the board can be expeditiously replaced. Adoption of four-year terms will seriously reduce this power of the voters.

3. Water districts and other conservation and reclamation districts have operated since the turn of the century under the two-year limitation for directors and do not appear to have suffered any major negative effects as a result of the limitation. Therefore, the adoption of four-year terms would not seem to be vital to continued efficient operation of these districts.

AMENDMENT NO. 5

The proposed amendment of Article XVI, Section 44, of the Texas Constitution, approved by the 67th Legislature, Regular Session, 1982, abolishes the office of county treasurer in Tarrant and Bee counties and transfers the powers, duties, and functions of the office to the office of county auditor or its successor. Abolition of the office of treasurer must be approved by the voters of each affected county in a local election separate from the election on adoption of the proposed constitutional amendment.

ARGUMENTS

FOR:

1. Allowing the voters of Tarrant and Bee counties to decide for themselves whether the separate elective office of county treasurer serves their needs is in in the best tradition of local self-government.

2. Merging the offices of treasurer and auditor will eliminate wasteful overlapping of functions and save scarce county revenue--a particularly worthy objective in difficult financial times such as these.

3. The idea of an appointive officer serving as treasurer of a political subdivision is neither novel nor radical: most Texas cities, many of which have much larger budgets than either of the affected counties, have appointed treasurers.

AGAINST:

1. The duties of treasurer and auditor are incompatible and should not be vested in a single officer. Merger of the positions will eliminate a needed safeguard against misapplication of county funds.

2. Elimination of a local elective office will diminsh the voters' control over county government and make county government less attentive to the will of the people.

3. Although county government may need streamlining and reorganization, the piecemeal approach taken by the proposed amendment is not the answer. A thorough, statewide study should precede any attempt to alter the constitutional framework of local government.

AMENDMENT NO. 6

The proposed amendment of Article III, Section 65, of the Texas Constitution raises the maximum rate of interest on certain general obligation bonds from a weighted average annual interest rate of six percent to a weighted average annual interest rate of 12 percent. This ceiling applies only to bonds, other than Veterans' Land Program bonds, authorized by the constitution to be issued by an agency, instrumentality, or subdivision of the state for which the constitution sets a maximum interest rate. The proposed change would affect water quality enhancement and water conservation bonds, park development bonds, and student loan bonds.

Computation of a "Weghted average annual interest rate" takes into account the interest rates at which various parts of an issues of bonds are sold, the total amount of bonds sold at each rate, and the period for which each class of bonds is issued. Bonds authorized by a constitutional amendment usually are sold piecemeal, not all at one time. Because the Section 65 ceiling is in terms of a weighted average annual interest rate, there is some flexibility in setting the rate at which bonds will be sold; it is possible that a portion of the bonds may be sold at a rate greater than 12 percent a year if such a rate is required by the market. For example, if bonds totalling 120 million have been authroized and $10 million of the bonds are 30-year bonds issued at an annual interest rate of 10 percent, the remaining $10 million of bonds may be issued to mature in 30 years at an annual interest rate of up to 14 percent.

ARGUMENTS

FOR:

1. The 12 percent rate ceiling is necessary to sell bonds that have already been authorized by voters of the state. The current six percent interest ceiling is too low for the state to sell bonds in the current bond market, and it does not appear that, in the near future, the interest rates will fall low enough to permit the authorized bonds to be sold.

2. Bond interest rates are set by the bond market and not by the state. This proposed amendment does not increase interest rates; it only permits the state to sell previously authorized bonds in today's market.

AGAINST:

1. The expenditures for which the proceeds of bonds affected by the proposed amendment will be used can be postponed until interest rates come down to a reasonable level. Payment of interest at rates above six percent a year is too costly.

2. Payment of interest at increased rates contributes to the inflationary process. If inflation is to be controlled, the state must bite the bullet and not increase its debt by selling more bonds.

Rocket JV Loses To Memphis 12-0

Coach Allen Sanders called it "Not one of our better games," as the Skyrocket Junior Varsity lost to Memphis 12-0 before a home crowd Thursday, Oct. 21.

It didn't help when, late in the game, a Rocket JV touchdown pass from Jamie McKay to Joe Bill Munn was called back on a holding penalty.

Neither team could do anything offensively and the score was 0-0 at halftime.

Wellington came out in the third quarter showing some improvement. The Rockets came into possession of the ball on a block punt with good field position. They held the ball for three plays, then tried a field goal that went wide to the right.

On the following play, Memphis completed a deep pass and on a lucky catch, the Memphis player ran 75 yards for the Cyclone JV first score.

Memphis sent the kickoff deep into Wellington territory then Rockets threw an interception, and Memphis took the ball in from the 20 yard line.

On Wellington's next possession, the McKay-Munn pass was good for a touchdown but was called back on the holding penalty.

Neither team could generate much action after that.

The Junior Varsity will hold the spotlight at Powell Field Thursday, Oct. 28, when they host Clarendon.

The Varisty goes to Clarendon on Friday night.

Wellington defeated the Clarendon JV 38-8 in their first game, just after the Bronchos had lost their starting quarterback.

The Rocket JV is expecting an improved Clarendon team, and a good game when they meet Thursday.

Hall Wins in Tri-State HS Rodeo

Brent Hall recently won 1st place in ribbon roping at the Tri-State High School Rodeo held at Canadian.

He also competed in calf roping.

**THE NEED IS WATER!
THE TIME IS NOW!**

Texas doesn't deserve a permanent drought. And, we don't have to have one.

The water is here. We have the capacity for conservation. We have the technology. We have alternatives for industry. We have the economic resources.

What we are running out of is time.

What we don't have is a governor who can lead, who can bring Texans together on a statewide plan for water for today, for tomorrow.

We need a governor who can prime the pump. **Mark White** can.

Here are 4 important reasons why you should support Senator Lloyd Bentsen.

1. Social Security
What would happen if the checks stopped?
Senator Lloyd Bentsen is one of the senators who fought to save Social Security and to protect the minimum benefit. Next year there will be another fight in Congress to cut or even stop Social Security. James Collins introduced three bills that would have destroyed the Social Security system. He lost. To protect Social Security from people like James Collins we must keep Senator Bentsen fighting for us in Washington next year . . . and the next.

2. Jobs
More than 600,000 Texans are out of work. That's a sad record. Senator Bentsen has fought to increase the sale of our goods overseas and has encouraged the training of the unemployed for new jobs. He helped save the Texas Employment Service and supported tax incentives for small business. His opponent, James Collins, opposed funding for the Texas Employment Service and voted against re-training programs.

3. Small Business
Small Business is the cornerstone of the American economy. Yet, the rate of bankrupcies is higher than any time during the past forty years. As one of the Senate's leading authorities on economic issues, Senator Bentsen helped write the Economic Recovery Tax Act of 1981. Under this legislation tax relief for the next five years will exceed $150 billion, the largest tax cut in history. This will increase competitiveness in foreign trade and stimulate growth.

4. Agriculture
Raised on a farm and ranch, Senator Lloyd Bentsen knows first-hand the economic problems confronting American agriculture. He has fought to increase agriculture exports and to remove foreign trade barriers. He successfully prevented the elimination of the Rural Electrification Administration, and won the fight to increase agricultural research, which has helped make the American farmer the most productive in the world.

Remember when the most important reason to vote for candidates was because they did a good job?
It still is.
Lloyd Bentsen, U.S. Senator.
He *does* a good job . . . for all Texans.

First Cotton Delivered

Louis Allred delivered the first bale of cotton to the Wellington market Monday afternoon, Oct. 25, then on Tuesday, delivered 7 more bales.

All of the cotton was raised on his farm three miles east of town, and was ginned by the Farmers Co-op Gin.

Allred had 2400 pounds of seed cotton in the first load, and got a 505 pound bale for a 21% turnout, said James Shepard, Co-op Gin manager.

Allred had 860 pounds of seed.

The cotton is of the Cam-D variety, developed by Texas A&M University.

It is distinguished by its quick maturing characteristics. This gives it great appeal to farmers in this part of the cotton belt in years such as this, when a few extra days to mature means money to the grower.

Allred planted the cotton June 21 on land where he had just harvested wheat.

The cotton has had no rain since July 20.

Allred said the field was planted solid and would make about a quarter of a bale per acre. He defoliated the cotton about 10 days ago.

"I think it's pretty remarkable," Shepard declared. "If he'd had one more rain, there's no telling what he'd be making."

Shepard said the hot dry weather had burned the cotton somewhat, and the locks were rather small, but it ginned well.

The other 7 bales were ginned Tuesday, and Shepard said he'd probably take the 8 bales to the compress at Altus the latter part of this week.

The Altus cotton classing office has installed High Volume Instrument classing (HVI) and farmers will have a choice between having their cotton classed by instruments or the old way, by hand.

Shepard said Allred's cotton will probably be classed by hand.

The cost of the HVI classing will be about 47 cents more per bale than by hand.

There are three HVI units in the Altus government classing office and Shepard believes it will be a good year to test classing by both methods.

Cotton growers will also be watching the outcome, after the unhappiness of so many with what they believed to be poor or inaccurate classing of the 1981 crop, not only at Altus, but at other classing offices throughout the cotton belt.

There has been a little frost south of town, which seems to be helping the cotton by letting sunlight in and maturing the rest of the bolls.

"The crop looks better than what we first anticipated," Shepard said.

The county's first bale was delivered to Farmers Co-op at Dodson by W.D. Wilfong on Oct. 9, before the ginning season had opened.

The bale has been ginned, and another bale delivered, to the Co-op at Dodson.

Wellington will host the 15-county 5th Sunday Singing Convention Saturday and Sunday, October 30 and 31, the first time in a number of years it has been held here.

All sessions will be in Bura Handley Community Center.

The first notes of gospel music will be sounded at 7 p.m. Saturday, and this will continue until 10.

The Sunday morning session will start at 10 a.m. and the singing will end at 4 p.m. according to Clifford Trolinder of Quanah, president.

A basket lunch will be served at noon Sunday.

Mrs. Vela Tisdale, the immediate past president of the singers, is in charge of local arrangements.

Between 150 and 200 visiting singers are expected to attend, coming from the easter Panhandle of Texa and Southwestern Oklahoma.

Some of the finest gospel singers between Ft. Worth-Oklahoma City to Lubbock on the west are expected to be in Wellington. The Highland Trio of Oklahoma City, Jake Brown Quartet, Ft. Worth; Wellington's Lighthouse Quartet and the Childress Quartet will be here.

Others expected to attend are the Campbell Brothers of Lubbock, Tony Crone and his singers of Quanah, Arch Gibson , a singing teacher and his wife of Mangum, Leon Loveless, who also has a singing school, as well as other quartets, trios, and specialty numbers.

There will be lots of groups singing, Trolinder said.

As this is the last 5th Sunday of 1982, an election of officers will be held during the business meeting.

Serving this year, in addition to Trolinder, are Buck Lancaster of Turkey, vice-president, and Mrs. Trolinder, secretary.

Everyone who likes gospel music is invited to attend.

Skyrockets Deflate Cyclone, 27-17

The Wellington Skyrockets, clearly an underdog in their third district battle, crushed Memphis with convincing 27-17 win in a game that had something for everyone on both sides of the field.

The Rockets came from behind to score 13 unanswered points in the fourth quarter for the win.

It didn't take long to see that this would be a game to remember.

On the opening kickoff Rocket Matthew Hanna pounced on Memphis kickoff returner Clarence Sims; the ball popped up and Darvin Nix recovered it in the air, setting up the Rockets on the Memphis 20.

The Rockets worked down to the Memphis 7 before the ball went over on downs. Memphis fumbled on their third down and Darren Hall recovered for the Rockets at the Memphis 15, but the Rockets again failed to take advantage of field position and turned the ball over at the 13.

Rocket Shane Cobb and Cyclone Kenneth Jones exchanged 50 yard punts and the score was 0-0 at the end of the opening quarter.

The Rockets got their offense in gear in the opening moments of the second quarter with a 24-yard pass from Wade Williams to Rodney Nash. Nash grabbed the pass and spun around 2 defenders for an extra 6 on the play.

Then Calvin Culpepper heaved a 34-yard halfback pass to Otis Lewis.

From the 7 yard line the Rockets tried Dewayne Curry for 4. Then Wellington backs and linemen executed their classiest fake of the season, pretending another handoff to Curry. The Memphis defense sucked in on Curry and quarterback Williams stepped back and tossed the ball to Darren Hall for a 3-yard TD with 10:42 to play in the second quarter. Shane Cobb's kick made it 7-0. Williams played throughout the game on an injured foot that caused him to hobble from huddle to center, but when the ball was snapped he went at full speed, picking up several good gains on keepers.

The Rockets fumbled on the return of Memphis next punt and the Cyclone recovered at the Rocket 14.

An outstanding defensive effort left Memphis still at the 14 come fourth down.

From the 14 Cyclone Paul Richardson hit a field goal to make it 7-3 with 8:03 to play in the half.

In the closing minutes of the half, the Rockets put together an 87-yard drive keyed by a 32-yard extra-effort scramble by Dewayne Curry and a fake punt perfectly played by backs and linemen for a 20-yard gain.

At the 2 yard line Wade Williams took the ball, ran right, then fired to Otis Lewis, shooting left against the grain for a TD with 38 seconds to play. Shane Cobb's kick made it 14-3.

But the half wasn't over. Memphis Clarence Sims came back with a 25-yard kickoff return and the Rockets suffered a 15-yard face mask penalty.

Then from the Rocket 35 with 3rd and 7 and 17 seconds to play Cyclone quarterback Kenneth Jones passed to Jimmy Richardson for the touchdown. An extra point pass made it 14-11 Rockets at halftime.

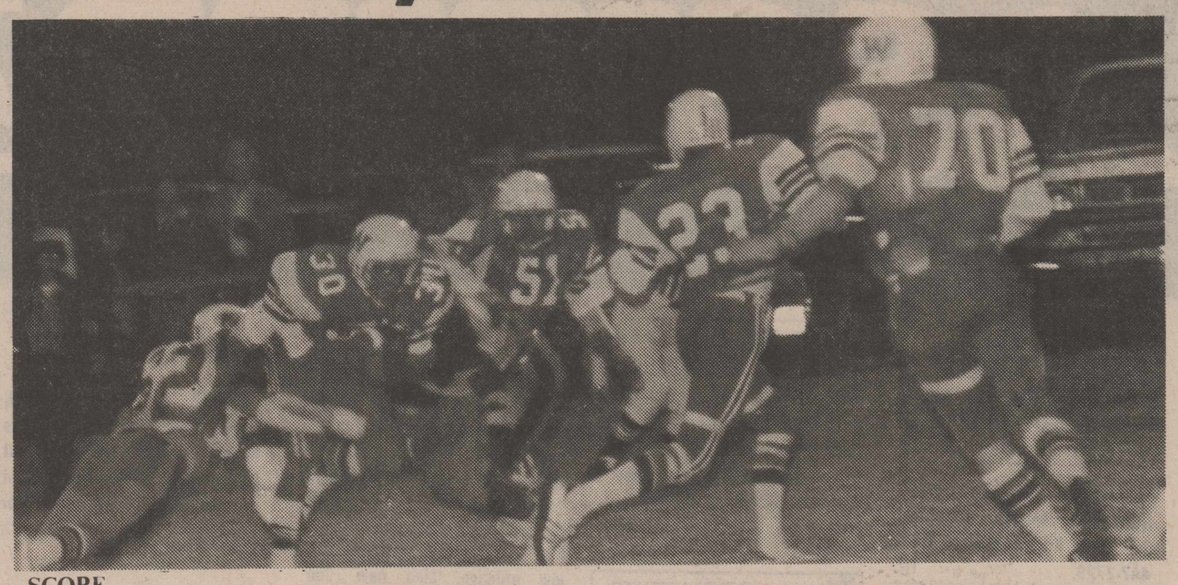
Memphis surged ahead 14-17 with 2:23 to play in the third quarter on a 29-yard pass from Jones to Paul Richardson. Sheldon Duncan blocked the extra-point kick and the score held at 14-17.

The Rockets came back to score on their next possession with a 60-yard drive. The Rockets ground the ball down to the Memphis 15, and then Calvin Culpepper followed some beautiful blocks for a trip to the end zone with 37 seconds gone out of the fourth quarter. Shane Cobb's EP kick made it 21-17.

Wellington took its next possession for an 80-yard drive that chewed up four minutes, concluding in a 2-yard TD dash by Dwayne Curry around the right side line's blocking. Shane Cobb's kick made it 27-17 with 4:37 to play.

It wasn't over yet, though. Calvin Culpepper intercepted a Memphis pass. The Rockets had to punt, but the ball from Shane Cobb soared and then plunged straight down through the Memphis returners' arms and Darren Hall recovered to give Wellington possession. The Rockets had moved to the Memphis 24 before time ran out.

Skywriting remains legible for 5 to 7 minutes.



SCORE

Dwayne Culpepper, 30, left, slips behind Rocket blockers to score and give Wellington a 20-17 lead in the fourth quarter against Memphis. Running the interference, from left, are Ricky Martinez, 51; Otis Lewis, 23; Chad Holland, 70; and Darren Hall, 83.

7th Grade Wins Over Memphis 16-14

Junior High 7th grade defeated Memphis 7th 16-14 here Thursday.

The 7th Grade Firecrackers scored on their first series of plays, driving the ball all the way downfield. Alex Johnson had some good runs, and Daryon Brown scored on a dive play. Johnson then made the two-point conversion on a sweep around end, to give Wellington an 8-0 lead.

Memphis scored about mid-way through the second quarter, but failed to add the extra points and Wellington led 8-6 at halftime. On the opening kickoff, Memphis took the ball and ran all the way back for a touchdown, then added the two points for a 14-8 score.

On the kickoff, Wellington drove downfield again, with James McIntosh making a long run, Curtis Nash taking a long pass from Alex Johnson on a 4th and 10 situation.

Alex added more long yardage and Daryon scored again on a dive play. Brad Long made the two-point conversion on a quarterback sweep and the game was 16-14.

Wellington was able to hold the Memphis boys, with Brad turning in some good defensive plays. Johnson said: "The whole team had a good game--good blocking and good defense."

"The boys were wanting to win pretty bad. The first time we played Clarendon, we tied them 0-0. Both teams have improved.

"Since they beat Memphis, our boys plan to win again this week against Clarendon.

John Tyler fathered more children than any other U.S. president--8 by his first wife and 7 by the second. He was the first vice president to succeed to the presidency.

8th Grade Loses Game To Memphis

Wellington 8th Grade Firecrackers dropped their game to Memphis 46-0 Thursday, Oct. 21.

"We didn't get a single break and we didn't play well at all," said Coach Gano Wilson.

Nevertheless the Firecrackers did get deep into Memphis territory several times. They just couldn't punch the ball in.

Memphis scored three times on pass plays and the other four times on running plays.

"We have Clarendon here this week and it should be a good ball game," said Coach Gano Wilson.
