TEXAS BANDITS CAUGHT AT LAREDO
RECORD ENROLLMENT FORECAST AS SCHOOLS OPENFIRST DAY ATTENDANCE IS
BEARING OUT PREDICTIONS
THAT 4000 WILL BE LISTEDENROLLMENT LAST YEAR FOR OPENING WEEK
WAS 3200; NEW EQUIPMENT AND BEAUTIFIED
GROUNDS BOOST HOPE FOR BIG YEAR

Vacation playthings were laid aside this morning as some 3500 or 4000 school children took on the responsibilities of pupils in the public schools of Lubbock.

Total attending for the first time, together with the high school students with their wealth of school experience, made the trek to school this morning to offer allegiance to the proverbial three R's during the next nine months.

Early enrollment this morning appeared heavy, indicating a considerable increase over the enrollment of last year. M. H. Duncan, superintendent of the city schools, said shortly after noon today that although a definite check-up of the enrollment was impossible at that time he expected that his previous estimate would not be far wrong. Mr. Duncan has estimated that about 4000 pupils will be enrolled.

At the beginning of the school term last year the enrollment was about 3200. Total enrollment for the entire year was 4600, although there were never more than 3200 enrolled at any one time. Mr. Duncan estimates that the total enrollment for the coming year will be above the 5000 mark.

This estimate includes all of the thirteen schools of the district. Other than the four schools outside of the city limits, the schools included are: High School, Junior High School, K. Carver, George M. Hunt, Central Ward, Sanders, Du-

GOOD WEATHER
BENEFICIAL TO
COTTON CROPSERIOUS DAMAGE ALSO
HAS RESULTED TO
FIELDS HERE

With serious damage already resulting from the work of boll and web worms throughout the county, condition of the cotton crop appeared improved during the past few days, according to the reports of farmers of the county yesterday and this morning to County Agent D. F. Eaton.

The harmful work of the cotton pests has slackened to a considerable extent this week, the reports stated. Mr. Eaton declared this morning, "to tell when they will stop, we do know that they have caused lots of serious damage in the county already."

"It is impossible to tell the extent of damage from the harmful pests," Mr. Eaton declared this morning, "to tell when they will stop, we do know that they have caused lots of serious damage in the county already."

Mr. Eaton feels that the rapid growth of the cotton and the delay of maturity because of the heavy rains have been more harmful than the worms and bugs.

Should the present kind of weather prevail Mr. Eaton feels that little further damage will result from the harmful bugs. He says that the first cotton in Lubbock county usually comes in about the middle of September, but that it probably would be October this year before the first came in.

Liquor Catch Made
By Howard Sheriff

BIG SPRING, Sept. 5.—Today Big Spring has more whiskey than any time since the Volstead law. Sheriff House, after a sensational chase, captured Evan Tins and N. T. Shaw of Juarez, Mexico, who were driving at the rate of 70 miles per hour in an effort to get away. Sheriff House made 80 miles in order to make the arrest, however, the car was not stopped until after several bullets had pierced the back. The car contained 1500 pounds of bonded whiskey and 25 gallons of alcohol. The arrest was made 14 miles west of Big Spring on the Kanhad highway.

French Aviators
End In Morocco

CASABLANCA, Morocco, Sept. 5. (AP)—After an air jaunt southward from here, the French trans-Atlantic flight aspirants, Jean Asolant and Rene LeFevre returned today to Casablanca and telegraphed Paris for orders. They indicated they had abandoned for the time being their project of flying to either South or North America with Armand Lott as passenger. The machine came here yesterday after it had taken off from Le Bourget Field with New York as its announced destination. An oil leak caused the halt in the project. This was repaired over night but some further mechanical difficulties are understood to have developed on the attempt today to reach St. Louis, Senegal.

WEST TEXANS
HEAR ROBINSON
DEFEND SMITHMAKES CAUSTIC ATTACK
ON OPPONENTS OF
DEMO NOMINEEBy WALTER CHAMBLIN
(Associated Press Staff Writer)
CISCO, Sept. 5.—Completing his swing into Texas with another speech attacking those opposing Governor Smith because of his membership in the Catholic church, Senator Robinson left here early today enroute for Nashville, Tenn., the next stop on his itinerary.

Stomping his foot on the platform here last night, the democratic vice presidential nominee declared that religion was an "issue which must be met in this campaign." "I am a protestant," he almost shouted. "But I would deem myself unworthy if I repudiated the principle upon which Thomas Jefferson stood and asked you to vote against him because he is a Catholic."

"Times come and men pass but upon the principle of the equality of the individual, the freedom of conscience, I stand today."

Valuable Gems Are
Stolen At Houston

HOUSTON, Sept. 5. (AP)—Two diamond bracelets and a diamond ring worth \$2,150, stolen from the hotel room of Mrs. W. S. Ligon, New York, were sought by Houston police today.

The jewelry was taken while she was out of the room.

Cross-Country Airplane
Race Starts Wednesday(By Associated Press)
COLUMBUS, O., Sept. 5.—Earl Rowland, Wichita, Kan., piloting his Cessna A monoplane in the class A cross-country air race, was the first to reach Columbus from McKeesport, where he led the entrants in landing from Roosevelt field. Rowland landed here at 11:10 o'clock. He left McKeesport at 9:55 o'clock.

ROOSEVELT FIELD, N. Y. Sept. 5. (AP)—Thirty seven airplanes took off today in a 3,000 mile race to Los Angeles. Thirty seven minutes after the first craft left the ground the last plane took the air and followed the procession toward Harrisburg, Pa., first of 16 stops on a five day journey across the country. Another plane was today was McKeesport, Pa., and an overnight halt will be made at Columbus, Ohio.

Albert R. Jacobs of Philadelphia, accompanied by Sam Lowden, also of Philadelphia, as a passenger, took off first at 5:42-43 a. m., eastward standard time, and the remaining planes departed at one minute intervals.

Started by Telephone
The first plane was started by Miss Viola Gentry of New York who waved a handkerchief from the window of a building near the field when a pistol fired by Mayor George E. Cryer at Los Angeles was heard.

HIGH GASOLINE
PRICE PROBEDSTATE SEEKS TO KNOW
WHY TAX CUT NOT
PASSED ON(By Associated Press)
AUSTIN, Sept. 5. (AP)—First Assistant Attorney General Galloway Calhoun is out on an extensive tour of the state, investigating the reason for the recent increase in the retail price of gasoline. Attorney General Pollard said today.

Mr. Calhoun will be gone about a week.

Gasoline went up one cent a gallon and two cents in some places, several days before the state tax of two cents, September 1, as provided by the levying act.

On September 1 a general reduction of one cent, representing the decrease in tax, was made over the state on retail gasoline.

The result is that the price now is the same as it was a few weeks before the tax was cut, and in some places, a cent higher.

through a transcontinental telephone connection. The race is the first of four sponsored by the California Air Race committee, and staged in conjunction with the National Air Races at Los Angeles. The contest starting today was for planes with motor displacement of less than 510 cubic inches. Two other classes will start tomorrow and a non-stop flight contest will take place Wednesday, September 12. Cash prizes of \$52,500 will be distributed among the four divisions.

Daniel R. Robertson, piloting a Curtiss Robin, started second in today's race and was followed by Leslie C. Miller in a Curtiss. Page. Other contestants are:

J. W. Hunt, lone eagle biplane; A. H. Kreider, Challenger biplane; Eugene J. Deimer, Travelair biplane; Joseph Schaefer, Eagle Rock biplane; George W. Brill, Travelair biplane; S. H. Turner, Berliner monoplane; Theodore Toney, American Moth; H. A. Speer, International; Don S. Phillips, Challenger; Earl Rowland, Cessna A; Douglas H. Davis, Travelair; Theodore W. Knott, Challenger; Sebastian L. Pond, Challenger; Stuart Chadwick, Waco 10; A. K. Owen, pilot; Stancel P. Gilley, Curtiss Robin; Warren B. Smith, Swallow; Harry Smedley, Eagle Rock; S. J. Wittman, Pheasant; Wilford A. Gerbracht, Travelair.

55,000,000 BRANCH OF
BAPTISTS WILL BE
REORGANIZED(By Associated Press)
ATLANTA, Ga., Sept. 5. (AP)—Complete financial rehabilitation of the home mission board of the Southern Baptist convention, a \$5,000,000 arm of the church today was in the hands of a joint committee charged with investigating a "possibly large shortage" in the accounts of Clinton S. Carnes, missing board treasurer. What was termed by church authorities "an apparent shortage" was not revealed because a team of auditors was still in the midst of a laborious check.

The executive committee of the church in a special session here, however, last night passed a resolution sympathizing with the home board, "in the calamity that has overtaken it." The executive committee pledged the full resources and honor of the convention in meeting obligations.

Anti-Smith Talk
Gets Egg Barrage

FLORENCE, Ala., Sept. 5. (AP)—Rev. George W. Wilbourne, of Little Rock, Ark., finished an anti-Smith speech at the county courthouse here last night amid a bombardment of eggs thrown in through open windows and doors.

The interruption, the speaker said today, came at the middle of his speech, but no direct hits were made, and he was able to finish his address.

"I could see the eggs coming," said Rev. Wilbourne, "and saw that they were going to miss me so I didn't move. The party throwing them must have been a ball player, though, for he was shooting curves at me and some of them came in pretty close."

WORK STARTED
TODAY ON NEW
FAIR BUILDINGSTOCK DEPARTMENT TO
HAVE MUCH BETTER
HEADQUARTERS

Construction of the livestock building at the fair grounds of the Pathhandle South Plains Exposition began this morning, fair officials announced.

The building will be 90 by 130 feet and will meet one of the most pressing needs of the fair. The livestock department last year was one of the biggest shows of the fair and it demonstrated the need of larger quarters.

J. J. Clements will be in charge of the construction of the foundation of the building. The fabricated steel structure will be erected by the Braden Steel company, of Tulsa.

The building will be completed in plenty of time for the opening of the fair October 1.

The livestock exhibit last year was held in the wooden sheds at the fair grounds. The jammed condition due to the lack of room created a serious problem.

PAIR IDENTIFIED AS THOSE
THAT KIDNAPED SAN ANTONIO
BANK MESSENGER YESTERDAYLAREDO POLICE ARREST TWO AS THEY WERE
PREPARING TO CROSS OVER BORDER, AFTER
ABANDONING CAR IN SOUTH TEXAS(By Associated Press)
SAN ANTONIO, Sept. 5.—Two men, identified as the bandits who kidnaped Leo Toepperwein, messenger for the Texas Bank and Trust Company, robbed him of \$5,000 and left him bound five miles from San Antonio Tuesday afternoon, were arrested in Laredo today, according to reports to the police here.

Patrolman Quinalla, who made the arrest when the men attempted to recover the car from where it had been abandoned, reported by long distance phone that \$1,400 of the loot had been recovered.

One of the bandits has been identified as J. O. Bradley, and formally charged with the robbery here.

A money bag marked with the name of the Texas State Bank and Trust company and believed to have been thrown from the bandit car during the race for the border, was found on a street in Hondo, southwest of San Antonio.

The bandits are believed to have driven first to Hondo after escaping from San Antonio and remounted the route of their flight and turned toward the Mexican border.

Mexico To Connect
Air Mail October 1

MEXICO CITY, Sept. 5. (AP)—The postoffice department yesterday announced its hopes to inaugurate by October 1 airmail service to Laredo, where it would connect with the United States airmail. Army aviators would be used.

Larry O. Cox assumed his duties as resident highway engineer succeeding J. W. Puckett, resigned, Monday. The Womack Construction company of Fort Worth, the successful bidders on the grading and drainage structure contract, has unloaded its machinery and is ready for work. The first work to be done, according to Cox, will be the building of the grades through the various lakes on the highway. Actual work will begin near Hale Center on some of the larger lakes, and north of Plainview at Finney switch. Cox says that every effort will be made to get the road ready for the hard surface slab by the first of the year.

Business Man Gets
Votes In Wisconsin

MILWAUKEE, Wis., Sept. 5. (AP)—A business man was chosen as the republican nominee for governor of Wisconsin when Walter J. Kohler, a conservative, seeking office for the first time, defeated three other candidates, including Governor Fred R. Zimmerman, and Representative Joseph D. Beck, progressive backed by Senator Robert M. La Follette.

The vote in 2285 precincts out of 2760 was:
Beck 164,482; Ferris 2,237; Kohler 188,897; Zimmerman 69,809.

CATHOLICS OF
WORLD GATHER
IN AUSTRALIASCENES OF UNRIVALLED
SPLENDOR ACCOMPANY
EUCCHARISTIC MEET(By Associated Press)
SYDNEY, New South Wales, Sept. 5.—Scenes of splendor and fervor unparalleled here marked the opening of the Eucharistic congress today.

A dense crowd surged around the cathedral all day. One hundred and twenty archbishops, bishops and every grade of the Catholic priesthood with laymen holding papal knighthoods or decorations from the pope walked in a stately procession from St. Mary's grounds to the main entrance of the cathedral.

An impressive wave of devotion swept the vast assemblage as the scarlet robed figure of Cardinal Bonaventura Cerretti, papal delegate, passed. Thousands dropped to their knees or bowed their heads to receive his blessing.

After the formal opening meetings of various nationalities began, addresses were given in a variety of languages.

Cables from practically all parts of the world were received. These included one from the Catholic Workmen's Central Argentine assemblage.

Cardinal Ceretti was enthroned (Turn to Page 2, Column 5, Please)

Today's Markets

CHICAGO, WHEAT: Easy, heavy. European crop situation.

CORN: Steady, decreased contract stocks.

CATTLE: Strong to higher.

HOGS: Lower.

THIS AFTERNOON'S JOURNAL WAS PRINTED ON THIS NEW PRESS—NOTICE THE DIFFERENCE?

Growth of the city of Lubbock from the western cotton town of two decades ago to the teeming business city of today has been no more remarkable than has been the transformation of the city's newspaper from the crude, hand-recognition 'circular' of that day to the present

project of the Avalanche-Journal comparable in typographic and content to newspapers in any city in Texas.

Reflecting period of consistent growth and paving the way for continued expansion in the future, the Avalanche-Journal has purchased a new high speed Dunder

Rotary printing press finest of its kind known to the industry and this issue of The Journal is the first to be printed on the new machine.

While the new press is the outstanding mechanical improvement

made at the Avalanche-Journal it is not the only one. Hand in hand, and in commensurate measure, other departments have been enlarged and equipped to fit them for whatever demands future needs may exact. The entire populace of Lubbock and the Plains is to be in-

vited, in a few days, to inspect the Avalanche-Journal plant at a "housewarming", with the paper as host.

With the pressing of the automatic starter button on the new press this morning, two months of intensive construction work around

the Avalanche-Journal plant was climaxed and at the same time the old press—once thought fully adequate for future needs of the paper—was condemned to obsolescence.

The new press is considered the

Party Is Attended By Members Of CE

Payton Waddill, who is leaving for Waxahatchie to attend Trinity University, was honor guest at a party given last evening at 2224 Main Street and members of the First Presbyterian Christian Endeavor were guests.

An Eskimo pie course was served to Mr. and Mrs. R. F. Cook, Misses Virginia McLean, Mary Louise McNeill, Mary Beth Sheely, Emma Sue Buchanan, Norma and Ethel Wells, Inez Hensley, Corinne Overstreet, Lenora Waddill, Helen Robertson, Rosie Mae McCaslin, Martina and Olive Blue, Dolores Lynn and Elbert Hester, Elmer Hester, Hubert Roper, Payton and Townsen Waddill.

One-Minute Interviews

Women Help The Cause of World Peace

"We should have no more wars," said Kathleen Norris, famed author. "If a few—a very few!—American women made up their minds that the world was should not be forgotten—that our dead, in Lincoln's matchless phrase, should not have died in vain, that 'the time has come

KATHLEEN NORRIS

for action and not passive acquiescence."

Securing universal and lasting peace, Mrs. Norris affirms, is in the hands of women.

"We could do this, we women of America," she declared, "through the federated clubs, the parent-teacher organization, the Red Cross and the Y, the Girl Scouts and the Campfire Girls and all the magnificent groups that exist in the churches."

"The only question is, will we do it?"

"First, let us women appreciate that we can understand the causes of war if we study them."

Second, no war ever has existed without the emotional excitement caused by lies and misunderstanding."

Third, there never has been an international dispute that could not have been settled without bloodshed."

"Fourth, every woman can play a most important part, a perfectly practical, simple part in ending all wars, if she will."

Miss Ethel Cadenhead of the Meier Music company, has returned from a trip to Dallas, and neighboring cities.

Eight Years' Toil—Then Stardom!

Marian Nixon—her dream of eight years realized.

BY DAN THOMAS

HOLLYWOOD, Cal., Sept. 4.—For the last eight and a half years petite Marian Nixon has been dreaming of cinema stardom.

The little Superior, Wis., school girl once had grand ideas about becoming a famous stage dancer. She spent many afternoons after school hours taking dancing lessons.

Just after the close of her third year in high school, Marian became sick and was unable to return to school. When she had fully recovered, it was too late to go back to school for that term, so she went to Minneapolis, where she got a job dancing in prologues at motion picture theatres. From Minneapolis she went to St. Paul to appear in other prologues.

Then Marian decided that she would much prefer a screen career to one on the stage. Her vaudeville troupe went to Los Angeles. In Los Angeles the show failed and the girls found themselves out of a job. Marian became one of that great army of girls who daily went from studio to studio looking for work—dreaming the day when she would be a star and ride to the studio in her luxurious automobile.

Marian didn't mean a thing to the casting directors then. She was just one of the scores of girls who haunted their offices in search of work. But today her name is blazoned in electric lights everywhere, her salary is that of a bank president and she is just one short of her goal—cinema stardom.

Bits Of News And Personal Mention

Mr. and Mrs. Ted Morgan of Dallas are visiting in Lubbock.

Mrs. B. J. Miller and daughter, Mary Louise, and son, Burton, of Duluth, Minn., have an apartment at 1210 14th street and expect to spend the winter here.

Miss Edwina Barnes of Austin has been visiting in the G. R. Scott home, 1901 Main street. She is to teach in the Ropesville schools this winter.

Miss Ruby Peck, who has been at a summer camp in Estes Park, Colo., is spending several days in her home here before leaving for Columbia university in New York to do graduate work this winter.

S. W. Shelton of Fort Worth is visiting Mr. and Mrs. A. J. Hicks.

Polly Peters, daughter of Mr. and Mrs. N. L. Peters, is to attend school in Rule this winter, staying with an aunt there. Mrs. Peters and children, Jack and Polly, have just returned from Colorado Springs where they spent two months.

Harry Pryor, who has been in El Paso for the past week, is expected to return home today.

Miss Alma Hodge, of Stephenville, is visiting in the home of Senator and Mrs. W. H. Bledsoe at 1808 Broadway. Miss Hodge was a classmate at the College of Industrial Art of Miss Mildred Boone, of Hillsboro, who has been visiting with the Bledsoes. Miss Grace Boyd, also of Hillsboro, is a guest in the

Large Party Given By Miss M. Bradley

Miss Maxine Bradley, 1006 Avenue M, was gracious hostess Tuesday afternoon with a ten table bridge party at her home, entertaining a number of the younger girls in the city. She was assisted by her mother, Mrs. Hal P. Bradley, and her sister-in-law, Mrs. M. C. Bradley.

Miss Juanita Meredith scored high in the games and was presented with a dainty hand-painted slipper spoon. Congratulations, a set of bridge table numbers, was presented Miss Thelma Jackson.

A palatable salad course was served following the games to Misses Fatti Hopping, Evelyn Woodson, Sarah Michie, Inez Hensley, Frances Gunn, Thelma Jackson, Laverne Garrison, Elizabeth Camp, Mary Crosby, Mary Stewart, Edna Parks, Ruby Parrish, Sue Michie, Evelyn Wilson, Louise Garrison, Lillian Watson, Louise Bates, Faye Hunt, Cecil Horne, Virginia Smallwood, May Tom Simmons, Martha Alice Penny, Virginia Murray, Lillie Pranner, Fannie Sue Dunn, Mary Lois Gamel, Eulalia Henderson, Daisymay Humphries, Zada May Scott, Nancy Collier, Charlene McCobb, Margaret Conner, Marjorie Almsworth, Mary Beth Sheely, Alice Barr, Lola Thompson, Mrs. Haskell Beard, Mrs. T. T. Garrard, Mrs. Jack McLarty of Midland.

Societies Prepare For Fair Displays

Presidents of home demonstration clubs in the county are being asked to appoint committees to look after exhibits at the Panhandle South Plains fair in October and Miss Louise Baird, home demonstration agent, has sent letters of instruction to the club heads. She has also included her itinerary for next week.

Each club will need a committee of two to be responsible for the club exhibit—to see that it is being completed and to take it to the women's building by the night of September 28, according to the letter as the exhibit committee. A booth committee, which will assist Miss Baird in placing the displays and caring for the booth during the fair is to be composed of several members of each club.

Next week's schedule for the agent will be as follows: Monday morning, New Hope; Monday afternoon, Carlsbad; Tuesday morning, South West; Tuesday afternoon, City Line; Wednesday, Hardy; Thursday, Acuff; Friday, Wolfarth; Saturday morning, Union; Saturday afternoon, Posey.

Club Begins Study Of Novels Tuesday

The French novel, "Renée Maupérin" by Coquerot, was discussed yesterday afternoon when members of the Junior Twentieth Century club met in an initial session for the fall. Miss Mayme Alexander led the discussion.

This club is studying novels of France, Russia and England during the coming nine months and Dr. Allan L. Carter has been chosen as a lecturer. The meetings will be at the Technological college.

Misses McCoy, Hawes Party Hostesses

Misses Opal Hawes and Winnell McCoy entertained Monday evening at the home of Mr. and Mrs. J. E. Hawes, 1622 1-2 17th Street. Their guests were Misses Glimma Lusk, Sue Alva Pointer, Roberta Hamlin, Lera Isow and Frances Gunn, Mr. and Mrs. J. G. Stanton, Mr. and Mrs. Walker Jackson, C. T. Jackson, Bowman Dorsey, Jack Nelson, Donald Shepherd, Ronnie Shepherd, Ronnie Shepherd, Horace Garrett and Alton Sneed. Delicious refreshments were served.

Mrs. Mitchell Gives Forty-Two Party

Mrs. F. K. Mitchell, 2029 9th street, was hostess yesterday afternoon to members of the Jolly Dons, a forty-two club at her home. Before the games started, a business meeting was conducted and meetings of the society were changed from second and fourth Tuesdays of the month to first and third Tuesdays.

An ice course was served to Messrs. A. L. Hawkins, John Denman, J. L. Loe, R. L. Goad, M. K. Foster, Wesley Branch, W. R. Fier, W. H. Trice, J. G. Biffie, A. H. Travis, Harry Hall and A. E. Harting.

Class Will Meet For Annual Banquet

An annual banquet for members of the First Christian Brethren class is to be on the evening of September 18 at Hotel Lubbock. It was announced following a meeting of the executive committee Tuesday evening with the teacher, Mrs. Walter P. Jennings. The committee discussed a number of activities which will be recommended to class members.

Mrs. Hicks Improving After Illness

Mrs. A. J. Hicks, 1602 Avenue I, who has been seriously ill for several weeks is slightly improved, according to members of her family. Mrs. Hicks' sister, Mrs. L. W. Cline and son, Aubrey, of Pampa are visiting here at this time.

Bridge Club Party Is Postponed

A meeting of the Tuesday Bridge club, scheduled for yesterday afternoon was not held as there were not enough members in the city. Mrs. W. O. Stevens was to have given the party.

Dance Will Be Given At Boles Ranch

A chicken barbecue and old fashioned square dance will be given at the George Boles ranch tomorrow evening for members of the Dancing club. Hostesses are Mesdames Frank Winn, Hub Jones, Joe Hilton and Houston Spikes. The affair is to start at 6 p. m.

Eastern Star Women To Have Fair Booth

The local Eastern Star chapter is to have a booth at the fair this fall, according to a decision reached last meeting at a business meeting of the organization. Other chapter activities were discussed.

FAIR BUILDING

(Continued from page 1)

ated a great inconvenience. Fair officials decided that the livestock building was needed more than any other.

Locate Space For Scout Exhibit

Location of the Boy Scout space for the Scout's exhibit and show place at the Panhandle South Plains fair begins October 1 was selected this morning. Scouts will occupy all of the space, approximately 100 feet square, between the Women's building and the Industrial building.

The Boy Scouts' Tents will be pitched here and the exhibits placed on display.

Work is expected to begin early next week on the Scout totem pole which is to be one of the Scout exhibits at the fair.

MAKES \$200 BOND
Jose Gonzalez this morning made bond of \$200 on a charge of carrying a pistol. He was arrested early this week by county officers and was still in the county jail this morning, pending the approval of his bond.

TEACHER MEET IS CONCLUDED

THOSE WHO ATTENDED DEPART TO START COUNTY SCHOOLS

The three-day session of the South Plains Teachers Institute was concluded at about 3:30 o'clock this afternoon following one of the most successful institutes ever to be held here.

Approximately 800 public school teachers from ten South Plains counties, including twenty independent school districts, attended the institute at the Tech college.

Following the adjournment of the institute this afternoon, most of the visiting teachers left for their respective schools in preparation for the opening of school tomorrow morning.

The resolutions committee of the institute met this morning in the offices of President Paul W. Horn, of Tech college, who was conductor of the institute. The action had not been announced by the committee this afternoon.

The organ recital by Prof. W. R. Waggoner, of Tech college, and Dr. J. B. Edmondson, professor of education, University of Michigan, held at the Methodist church last night was well attended. Dr. Edmondson was the main speaker of the institute, speaking to the assembly twice daily.

Officials of the institute reported today that a greater interest was shown by the teachers in the work of the institute this year than any previous year.

A. W. Evans, of Tech, and G. L. Sone, superintendent of the State schools, were assistant directors of the session.

THE LIMIT

Preacher On Jury And Bootlegging Case Dismissed

Returning a verdict of "not guilty" in a bootlegging case by a jury one member of which is a preacher is the height of something of other.

This is the condition of a case tried in 102nd district court at Brownfield yesterday.

G. E. Lockhart, local attorney, who represented the defendant explained this morning that he accepted the preacher as a juror because the minister had never served as a juror. He said he thought the preacher should have a try so he accepted him.

A sure sign of autumn is evident when parents count the days until college opens and they can ride in the family car again.

are being placed in the middle of the street. They have already been placed around three of the schools and will be placed around the others in the near future.

Chief of Police John Lemond said this morning that it was absolutely necessary that cars be driven slowly through the designated school zones.

Slow signs are to be placed also at the intersection of Broadway and College Avenue and at Main and College. This is being done in an effort to stop the numerous accidents that have occurred at these two intersections.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old-fashioned remedy, which you can get at 35c per bottle from Lubbock Drug Company.

in every city—in every town there is one store that undersells—in Lubbock it's

MINNESOTA TO GO REPUBLICAN SENATOR SAYS

SCHALL DECLARES FOR GOP NOMINEE AND PREDICTS WIN

(By Associated Press)
SUPERIOR, Wis., Sept. 5.—Herbert Hoover won another supporter in his campaign for the presidency when Senator Thomas Schall, Minnesota, announced today in President Coolidge's office he would support the republican ticket and predicted its ultimate victory.

In a call upon the chief executive, the blind Minnesota senator said that despite his previous announcement that he would withhold endorsement of Mr. Hoover's candidacy on account of his unconvincing stand on the agricultural problem, he now regarded him as the farmer's greatest hope for sympathetic treatment by the government.

Disappointed Over Fee
Schall said he still was disappointed that the equalization fee principle for the disposal of agricultural surpluses had not been adopted in the republican platform.

He added also that Mr. Hoover might have been more definite in his speech of acceptance regarding the agrarian question.

In any case, he continued, the democratic party offered nothing better.

As far as Minnesota is concerned, Schall said the electoral contest in November would be very close. He predicted the state would go republican, however.

Another Gives Support
Simultaneously with Schall's announcement, it was revealed that Eugene Meyer, chairman of the Federal farm loan board in his stay at Cedar Island lodge over the week end had given President Coolidge reassuring reports regarding condition of farm banks and by implication regarding the agricultural situation in the country generally.

Agrarian banks the nation over, Mr. Coolidge was told, have made commendable progress in both stability and assets.

President Coolidge has as yet received no word from his son, John, who yesterday left his father's home to seek work. He feels the boy is handicapped by the publicity following him.

The president has decided not to address the Illinois state convention of the American Legion.

The French resort of Deauville, announcing a reform, assumes that "only adventures of good character" will be allowed to linger there. Girls, if you must be adventures, be good ones.

Iron Is Created In Atmosphere, Belief

NEW YORK, Sept. 5. (P)—The assertion that evidence of the daily creation of iron in interstellar space is almost within reach of scientific demonstration was made tonight by Dr. Robert A. Millikan, physicist, of the California Institute of Technology. This and other evidences of elemental creation in progress in interstellar space were linked by Dr. Millikan with the claim nature made the world "fool proof" so that the earth is not likely, as some scientists have suggested, to disintegrate in future time, through atomic splitting up on a gigantic scale.

The address was delivered before the annual meeting of the society of Chemical Research, which presented to Dr. Millikan its Mendenhall medal in honor of his work on the

Mrs. Knapp Begins Serving Sentence

ALBANY, N. Y., Sept. 5. (P)—Mrs. Florence E. S. Knapp, former secretary of state for New York, now "completely ruined," in the words of her attorney, today began serving a thirty day sentence for grand larceny, first degree, in this city where she reached the height of her prominence as New York's first elected woman official.

Meanwhile, urged on by her determination to go the limit in fighting a prison sentence, defense attorneys were making efforts to obtain from a supreme court justice a certificate of reasonable doubt which automatically would act as a

structure and relations of atoms. The physicist responded with an address on "available energy."

stay of execution. The charge on which Mrs. Knapp was convicted was one of 12 indictments brought by a special grand jury and was based on her administration of state funds in conducting the state census of 1925.

A British newspaper is conducting a debate on the question of whether or not a man has a right to open his wife's letters. Seems to us more a question of courage.

People should eat the same things every day, says Thomas Edison. In this opinion he is backed by a couple of million boarding house landladies.

Curtis Launches Drive For Tariff

WASHINGTON, Sept. 5. (P)—Prepared to renew his campaign for a higher tariff, Senator Curtis, Republican vice-presidential nominee, turned toward New England tonight for another speaking tour.

Tomorrow at Boston the Senator will address a rally in a park, and later will speak informally at a meeting to be presided over by Mayor Nichols in Boston Common. Thursday he plans to attend a reception at Salem, Mass., and then will go into Maine to join the host of Republican speakers "stumping" that state on the eve of the state election next week.

Numerous Families Flock To Lubbock

Apparently for the opportunity of gaining advantage of Lubbock's educational opportunities, numerous families have moved here during the first two days of this week, records of the city light and water departments reveal.

It is estimated that almost 200 new families have moved here during the past few days. One hundred connections were ordered for lights and water Monday and about 150 yesterday.

A few of the orders are for local families changing addresses but the majority is for new families.

CY WILLIAMS KEEPS GIANTS FROM GAINING ON CARDINALS

COUNTRY CLUB GOLF COURSE TO BE MADE EIGHTEEN HOLES

VETERAN PUTS HOMER OUT OF PARK IN NINTH

PIRATES DROP DOWN TO FIFTH PLACE BY LOSS TO CUBS

BY HERBERT W. BARKER
(Associated Press Sports Writer)
It would seem to an unbiased observer that Jack Scott has been around baseball long enough to know that old "Cy" Williams is a proven slugger. In his own back yard, a Jack Scott apparently forgot all about Williams' reputation at Philadelphia yesterday, and the New York Giants lost a golden opportunity to take a full game off the National League lead of the St. Louis Cardinals.

It was like this: The Giants had rudely bumped Johnny Ring and the Phils into second place, and the Cardinals into first place, in the first game of a double header, 9 to 4, and were leading 7 to 6 in the second when Scott, reclaimed from Toledo, entered the box to pitch the ninth inning against the Cardinals. He got rid of Thompson but Klein singled. Leach was retired on a pop fly and it appeared the game was over.

Parks Grooved Ball
Enter Mr. Williams, waving a bat menacingly. Jack served one down Cy's alley, and the old-timer floated it over his favorite right field wall, scoring behind Klein and pulling the game out of the fire, 8 to 7.

Pittsburgh was defeated by Chicago, 9 to 8, when Hargreaves threw wild in an attempted double play in the ninth inning. The Pirates dropped back into fifth place, a point behind the Cincinnati Reds who, with the Cardinals, had a day of idleness.

Brooklyn took both ends of a double header with the Boston Braves, 3 to 2 in 10 innings, and 9 to 2. Flowers' homer gave Vance his 19th victory in the opener.

Athletics Trounce Senators
In the American League, the Athletics trounced the Senators, 9 to 2. Walberg was touched for 10 hits but was supreme in the pitcher's box.

The Chicago White Sox, taking their second double header in as many days from Detroit, stepped into a fourth place with the Senators. The score in each game was 3 to 2. Hance's single in the eleventh gave the Sox the first game and a ninth inning rally accounted for the tieup.

The St. Louis Braves bunched hits in three innings to throw Cleveland, 9 to 6, for the third straight time.

Hooks and Slides

Why Did He Go In?
Returning home to Cleveland after his "radio" Johnny Rizzo had lost a foul to Roberto Roberti in New York. Danny Dunn said they had been given the works and that they knew it was in the bag before they went into the ring.

"My folks bent him over with a knee right in the belly and then knocked him out with a cross to the jaw. He wasn't fazed and he knows it. He jumped around and sang when he got to the dressing room," Dunn said.

The advice was offered to Dunn and his "folks" in this column a few days ago to be careful of the company they choose. There is always the possibility that a job will be pulled on them by a certain crowd in New York and it is better to consider those possibilities before the match than to grieve over them after the match.

Could Have Been Worse
Dunn thought he would be able to get a return match for Rizzo with Roberto. The chances are that Roberto's bunch will not have anything more to do with Rizzo. And Dunn might be wise in taking his medicine. If the works were applied in the first match Rizzo had a fortunate escape because the foul decision did not reduce his prestige but the works might be applied the best time with Rizzo on the receiving end of a foul that would not be allowed.

Consider Mr. Sharkey
Sharkey can grow to his dying day that he was fouled by Dempsey, but the referee, evidently allow it and Sharkey who was closer to the fight than Rizzo is now, had an entry put on his record that put him immensurably.

Farrell Drops Out Of Qualifying Play

NEW YORK, Sept. 5 (AP)—The Professional Golfers' association championship gets under way at Baltimore next month but Johnny Farrell, open champion of these United States, will not be in it. Johnny putted himself out of the tournament in the Metropolitan district's qualifying round at Fresh Meadow yesterday.

Big Spring Steers Training At Post

BIG SPRING, Sept. 5.—The Big Spring Steers are in training at Post, where they will have two weeks' intensive training under Coach Stevens, before the opening of the Big Spring public schools on September 17th. The boys have on schedule some real games for the football season, and are being backed by the business men who made this training camp possible.

Add this to your stock of smiles:
"As appealing as a golf course to a farmer after a day in the harvest field."

But he isn't going to turn pro. He was knocked stiff in the first round by the big "fella" from Pittsburgh and the "fella" isn't even a pro.

BY HENRY L. FARRELL
NEA Service Sports Writer

Down south last winter Bill McKelchie was visiting scribes and of the reasons which encouraged him to believe that the St. Louis Cardinals would not only be up there but would be the club that would have to be beaten by the pennant winner.

"Our pitching," he said, "looks as good to me as any in the league and pitching is going to be the big factor this coming season. Haines won 24 games last year. He's comparatively young and he is a strong fellow. He ought to do as well or better this year."

"Alexander won 21 games last season. We all know that he's old but we know too that he is a great pitcher. He throws with his head and he'll be in there this season with just as many games."

"Rhem won only 10 games last year and pitched only nine complete games. He had private troubles which handicapped him, but they have been adjusted and he's satisfied now. He ought to be a big winner this year."

"And then there's Bill," he added, "after a pause, pointing to Sherdel. 'He'll be a handy fellow to have around.'"

McKelchie probably didn't know how right he was going to be when he handed Wee Willie the left-handed compliment of being a handy man.

On his 1927 record, however, there was nothing to warrant ecstasies from many managers, nothing to rate him up with the mainstays of the pitching staff.

The review in the annual baseball guide said that Sherdel in 1927 had an average season, won 17 and lost 12. He lost three out of seven to the Giants, lost two games and won none from the Pirates, lost three out of five to the Cubs and won his three games from the Reds.

He murdered the Braves and the Phils but those games don't count so much.

FIGHTS LAST NIGHT

NEW YORK—Joe Glick, Brooklyn, won over Frankie Fink, Texas (10).
BOSTON—Ernie Schaff, Boston, defeated Big Boy Peterson, New Orleans (10).
KID Glover, Alabama, knocked out Art Ryan, Boston (2).
Shadow Bowden, Boston, knocked out Texas Quinine (3).
Joe Cabana, Palmouth, outpointed Walter Sells, Kansas City (4).

CURTAIN WILL BE DROPPED IN CIRCUIT SOON

CUBS LOSE PAIR WHILE DALLAS CRASHES SPUD STREAK

(By Associated Press)
It was Alid Lang Syne in three Texas League losses yesterday. Waco made a dismal last home appearance by losing a double header, Dallas won its farwell local from the top Wichita Falls Spudsters—and Fort Worth did a similar trick.

The San Antonio Bears laid a double beating on the Cubs, 14 to 10, and 6 to 5. In the first game, Waco II Revere 17 times, just one slam less than the Bears got.

A crowd made up mainly of women and children, who got in free, sat around to watch the Steers stop one of those perennial Wichita Falls winning streaks—6 to 2. The Spuds made four errors, but were outshined and outplayed otherwise.

The final Fort Worth bow at Panther Park had a movie element in it, for in the ninth inning the fans saw a Cat rally get under way, with Red Rollins as hero, to defeat the Shreveport Sports 5 to 4.

Penner, Houston pitcher, won his 19th game for the season in leading the Beaumont Exporters with the two ends of a 7-3 score.

GIRL SWIMMER TO RACE

TORONTO, Sept. 5 (AP)—Olivia Gatterdam, 16 year old Seattle girl who finished second in the 10-mile women's Wrigley marathon race Wednesday, will be one of the swimmers in the 15 mile men's race tomorrow.

ENLARGING OF LINKS STARTS IMMEDIATELY

WILL GIVE CITY ONE OF BEST COURSES IN WEST TEXAS

Announcement was made public today that Lubbock is to have an 18-hole standard golf course in the near future. At a meeting of the directors of the Lubbock Country Club, it was decided to rearrange the layout of the present course and make one of the classiest and most up-to-date 18-hole courses in West Texas.

Work on the enlargement of the course will start immediately, according to George E. Benson, president of the Country Club. No money will be spared to make of the Country Club course one of which the city and surrounding country will be proud. News of this step forward will undoubtedly enliven golf interest in Lubbock. Golf enthusiasts have looked forward to such a move for many years.

While details of the plan for the course were lacking yesterday it is understood that the new nine holes will be thickly trapped and be provided with the best of greens.

Need of an eighteen-hole course in Lubbock has long been felt, both the present Country Club course and the municipal course being now but nine holes.

Flashes Of Life

(By The Associated Press)

Pilot At Fifty

WASHINGTON—In his fiftieth year, Captain Emory S. Land, U. S. N., a cousin of Lindbergh, has become an accredited aviation pilot. He made his first solo flight two weeks ago. Naval rules prohibit a staff officer from becoming an aviator, so the captain went the department of commerce. He has a leave of absence to become vice president of the Guggenheim Fund for the Promotion of Aeronautics.

Communal Church

NEW YORK—The new church being erected on Riverside Drive by the Park Avenue Baptist congregation, of which John D. Rockefeller, Jr., is a member, is described by the pastor, the Rev. Dr. Harry Emerson Fosdick, as communal. All disciples of Jesus will be welcome on equal terms. There will be nothing sectarian in the name. "Deceit" movies on Saturday for children are contemplated. There will be open doors for the community's interest in music, amateur theatricals, recreation for boys and girls.

Poker Loss Sticks

WAGONER—One of the problems offered for the supreme court to decide is whether a club should compensate a wife for her husband's losses at poker. Mrs. Gladys Anderson of McGill, Nev., lost in the state courts and appealed.

Diamond Rush

JOHANNESBURG, South Africa.—Thirty persons slept two nights in freezing weather outside a government office at Lichtenburg in order to obtain licenses to peg diamond claims. When the offices opened at 1:00 p.m. today, there came a rush to the fields by automobile.

Wives Positive

WASHINGTON—Watch those Texas divorce statistics. Mrs. J. C. Griswold, republican national committee woman, has given republican headquarters the news that mundry Texas women have threatened divorce if their husbands vote for Smith.

Canning Exhibits Form Four-H Work

Both the girls' and women's 4-H clubs of Acuff will meet this afternoon to do work on their canning exhibits. Miss Louise Baird, county home demonstration agent said this morning.

The meetings are to be held at the home of Mrs. W. C. Grimes.

Tariff Made Main Issue By Curtis

BOSTON, Sept. 5 (AP)—The country was called upon today by Senator Curtis, republican vice presidential nominee, to decide between the republican and democratic parties at this election on the issue of higher or lower tariff duties.

Democrats, he declared, were "certain" to seek downward revision of the tariff. He reiterated his pledge to lead a republican legislative move for a higher tariff wall.

The vice presidential nominee spoke at a rally at Norumbega Park here and his prepared address was devoted entirely to another discussion of the tariff situation.

among GRID LEADERS

BY NEA Service
URBANA, Ill., Sept. 5.—Prospects for a smooth eleven are much greater for Bob Zupke at Illinois this year than they were last fall, but no matter how his eleven goes this season it won't be able to do better than win the Big Ten championship. And his 1927 team did that.

This will be Zupke's sixteenth season as head football coach at Illinois and his teams during this period have figured prominently in every title race.

He has coached four championship teams and two teams that tied for the title. His teams have won 59 games, lost 29 and tied 7.

This year he starts the season with 15 veterans of last year's championship squad and a number of very promising candidates from the reserves and freshmen of last year. Everything looks quite rosy at this time for another powerful outfit.

Albert Joseph "Butch" Nowack from Pana, Ill., will captain the Zupke eleven this year. This will be his last year on the squad.

Nowack is a powerful fellow of more than 200 pounds and is a natural football player. He is a great fighter and has contributed largely to many Illinois victories, not only by his play as a tackle but by his ability to produce extra points after touchdowns.

It was his kick that defeated Northwestern 7-6 last year.

Nowack is a powerful fellow of more than 200 pounds and is a natural football player. He is a great fighter and has contributed largely to many Illinois victories, not only by his play as a tackle but by his ability to produce extra points after touchdowns.

MODERN HIGH SPEED TUBULAR PRESS NOW PRINTS AVALANCHE AND JOURNAL

(Continued from page 1)

most efficient type of press yet devised. It has a capacity of printing 20,000 complete, folded and counted sixteen-page newspapers an hour. Its internal construction and mode of operation are such that it gives a neater product and a more attractive display of both news and advertising material than any of the many other types of newspaper presses in use today.

Installation here of the new equipment follows the announced policy of the Avalanche-Journal of rendering the best service of which it is capable in Lubbock and the South Plains area. At a newspaper office, efficiency hinges on adequate mechanical equipment. So, in striving to render its best service to readers and advertisers alike, the newspaper first sought the most up-to-date press obtainable.

Along with the new press came mechanical matrix-making equipment, new form tables, a new tubular casting box and a host of other devices, each one of which is designed to turn out a neater, more perfect and neater is a factor of tremendous importance to the advertiser.

The Duplex tubular press, on which this issue as well as succeeding issues of the Avalanche, Journal and South Plains Farmer will be printed, is the first of its kind ever installed in West Texas.

It is built in the unit style—with four complete units each having a capacity of four pages. Construction is such that the Avalanche-Journal is still looking confidently to the future—that additional units may be easily added to raise the capacity of the press.

Duplex presses—with scores of units, of course—are found in the metropolitan newspaper plants all over the land.

E. C. Lark, factory representative who supervised installation of the press here recently, officiated over a crew of workmen who put in complete new Duplex press-room equipment for the New York World one of the largest newspapers in the country.

The time element is a vital one in the production of a newspaper. Delays are troublesome, it is known to subscribers and costly to the newspaper. The Duplex tubular press is as nearly as possible fool proof. It is arranged so as to afford the maximum of convenience and ease of handling to the press room crew.

Motivated by a forty-horse power electric plant the press is started, stopped, slowed down and stopped not by the medium of a cumbersome lever as was the case with the old machine but by the simple pressure of a push button—a switch that a child could operate. These push buttons are placed at convenient points along the press, which measures thirty feet long by eight feet wide. The controls are arranged so that the press may be quickly stopped by the man in charge, no matter at what place around the press he may be.

There are no dangerous and untidily gears protruding from the long and graceful contour of the new mechanism. Whereas in the older styles of presses open gears constituted a serious menace to the men who worked over them, in the new tubular every gear is on the same side of the press and every gear is covered.

There are no rattly gear connections, no tapes and belts, and the only noise made by the new machine in operation is a steady hum broken by the stroke of the roller which breaks the newspapers at the rate of about 30,000 an hour. The motor connection is by means of a noiseless chain.

A special electric switchboard—in itself a completed bit of electrical engineering—controls the press by connection with the system of push button controls.

Ink is piped directly into eight fountains, which may be filled without stopping the press, if this is desired. Curved cylindrical plates are used instead of printing drums from the type forms as was formerly the custom here.

For the benefit of those who have never had an opportunity to inspect the mechanical processes of a modern newspaper office a summary is here given of the processes which this morning's Avalanche underwent before it was delivered to your door.

Steel forms bearing the dimensions of the pages in the newspaper are used to contain type. By the thousands of lines, reading matter, advertisements, and pictures are slotted in this form, arranged exactly as they will appear in the paper. Once filled, these forms are locked and sent to the stereotyping department.

In stereotyping, a matrix roller which exerts a pressure of thirty tons to the square inch, is employed. This machine has also been purchased new by the Avalanche-Journal. The locked form is slid from the "turret" on which it is carried to the matrix roller and the pressure exerted. A replica in a soft matrix paper is thus formed. The replica, which represents the entire page of type deeply pressed into its surface is then "arched" in a miniature oven and placed in a tubular setting box. No ladle, with its meniscus to the operator is used, but a single turn of a large crank sends a stream of molten metal into the setting box.

A cylindrical plate about one-half inch thick, bearing every impression of the matrix is the result. This plate, is trimmed on a special plate finishing machine and reground so that it will print the appearance of the paper as the original. Then the form is locked tight in the cylindrical rollers of the press and the run is ready.

Tables of paper unwind around rollers, pass about the plate and finally are assembled, folded, cut and counted—all at a speed which the five hundred complete copies of the paper each minute.

The Rotary press is distinguished from the cumbersome flat-bed press, in which the forms were stationary. Installation of the new press

brought to a climax a series of improvements which have been in progress during the past three months in both the business and mechanical departments of the newspaper.

Building Remodeled.
Starting in early June, the building on Texas Avenue which houses the plant, was completely remodeled. Partitions were torn down, new paint was applied and a complete set of new office furniture was ordered. The Avalanche-Journal now believes it is justified in claiming an office as well-arranged and equipped as that of any West Texas newspaper.

New Monotype, Linotype.
Early in the summer a casting machine known as a monotype, which casts leads, slugs, rules, and borders—inconsequential names to the layman, perhaps, but of vital importance to the newspaper—was installed. This machine has been in operation for several months. It not only increases efficiency of the shop but makes for neater ads.

Following this, several new sets of type were purchased and then a new Linotype installed. The Linotype, as most every layman knows, is probably the most efficient typesetting device in use today. Its employment has made possible the modern newspaper. Type is set in lines and a fast compositor can set type as fast as the ordinary stenographer can copy on a typewriter.

At present the Avalanche-Journal has a battery of five Linotypes.

Snyder Building Totals \$218,965
SNYDER, Sept. 5 (AP)—City council was advised last night that building permits during August amounted to \$21,725, which added to the permits granted during 1927 brings the total to \$218,965, the largest total yet to be reached in any one year's growth of this city. A new light and power franchise was also presented to council by Glenn Sample and action was deferred to a recent meeting.

Citizens here favor owning their own municipal light plant as a proposition under consideration that will provide Snyder the opportunity to own and operate their own electric lighting and power system, which may be operated very economically in connection with the city owned waterworks system which has proved substantially profitable. The proposition will be offered by a reliable concern and the contract, if entered into, will specifically state that all payments must be derived from profits of the system. The new proposition, if accepted, would mean 10 cents per K. W. hour for residence lighting as against a price of 12-1-2 cents now being charged.

League in Salute To Kellogg Pact
GENEVA, Switzerland, Sept. 5 (AP)—Solemn saluting of the Kellogg-Briand pact as a triumphal step towards the consolidation of the will for peace marked today's session of the assembly of the League of Nations.

Delegates from China, the Netherlands and Sweden vied with each other in paying tribute to the immense significance of the pact to the people of the world.

High Wind Damages Buildings In Pampa
PAMPA, Tex., Sept. 5 (AP)—Several buildings under construction here were damaged by a high wind last night. One one-story building was of rain fell within an hour, leaving the roads almost impassable.

Bulgarian Cabinet Reported Resigned
VIENNA, Sept. 5 (AP)—A dispatch to the newspaper Standa from Sofia states the Bulgarian cabinet resigned today because of the dispute in its membership over the alleged participation of Ivan Vukovik in activities of the Macedonian revolutionists.

ROTARY MIXES MUSIC, TALKS

DR. W. T. READ TRACES
SCIENCE RELATION
WITH BUSINESS

As the first of a series of president's programs, Walter Myrick, Jr., first president of the Lubbock Rotary club offered the entertainment and education for members at their regular weekly luncheon meeting at Hotel Lubbock today noon.

Dorance Roderick sang two songs, accompanied by Mrs. J. A. Rix at the piano. "Applied Business Chemistry" was the subject of Dr. W. T. Read, head of the Tech college department of chemistry, who discussed the science with relation to various business and occupational pursuits found in Lubbock.

Dr. J. B. Edmondson, chairman of the school of education at the University of Michigan was introduced by Dean J. Marcus Gordon, and scored Lubbock 100 per cent on civic pride.

He described a score card which he had used in scoring the cities of Michigan, from a civic standpoint. Dr. Edmondson made an eloquent plea for more attention and consideration for the children of the community, particularly the underprivileged child.

Before the program President Bob Murray called on Corporal Robert to explain his lack of success in attempting to remove a part of the Carlsbad Cavern recently.

Former Justice Is Dead At Washington
WASHINGTON, Sept. 5 (AP)—Judge Stanton J. Pelee, former chief justice of the United States court of claims is dead at his home here. He was in his 88th year. He was appointed to the bench of the court of claims in 1892 and was made chief justice by President Roosevelt in 1906. He retired in 1913.

Slight Earthquake Rocks Los Angeles
LOS ANGELES, Sept. 5 (AP)—A slight earthquake of about 15 seconds duration shook the downtown district of Los Angeles at 6:40 a. m. today.

Little Tom
Book President Hamilton Waldemar kept
Tuned from the news to the stock market page—
And said, as he studied the stocks rise and fall,
"Little Tom for a nickel's the best buy of all."

Special Trains To Run To Legion Meet
BOISE, Idaho, Sept. 5 (AP)—Arrangements have been made for a special train to carry delegates from Washington, Oregon, Montana, Idaho, Wyoming, Colorado and Utah to the national convention of the American Legion at San Antonio, Texas, October 8 to 15, Lester F. Albert, Idaho department adjutant announced today.

Convicts Removed From The Hospital
HOUSTON, Sept. 5 (AP)—Last two of eight convicts who were burned in a fire at Blue Ridge prison farm number 2 last July, today were removed from a Houston hospital to the state prison at Huntsville.

Two of the convicts brought here died of burns suffered when a box of movie film exploded in a closely packed dining hall where the prisoners were watching a movie.

Chief Reiterates Warning On Weeds
Drastic action is promised to property owners of the city by Chief of Police John Lemond who fail to meet the request of city health officials to clear their premises of weeds.

Chief Lemond said this morning that few people were cutting their weeds. "We are giving them a chance to cut them before we take another step," he said.

Two Non-Jury Cases Are Set
Two cases, both non-jury, were set for trial in 99th District Court today before Judge Clark M. Mulligan. The cases are: Green against Smith and South Plains Coaches against Holland.

One non jury case was disposed of yesterday afternoon, and two others are scheduled for the remainder of this week.

Civil suits requiring a jury will receive the consideration of the court next week. The following two weeks have been set aside for the trial of criminal cases.

District Attorney Durwood Bradley will meet with the grand jury of the 99th District court at 9 o'clock tomorrow morning. Mr. Bradley has been in Levelland this week in connection with grand jury work in 72nd District court in session there.

Robinson
(Continued From Page 1)
tion of the press, and of religion the nation is based."

"Lip to Ear" Campaign
Gesturing with his left hand, Mr. Robinson said that there was a "lip to ear" campaign being carried on in whispers against the democratic presidential nominee and that "republicans and democrats alike resent the unfairness and injustice" of this.

The senator, like at Dallas a day ago, began with reading a prepared address. In this he compared the two candidates for the presidency, arguing that since the days of Andrew Jackson there had been no greater leader than Smith in the political arena, while in his opinion Mr. Hoover failed to show leadership as secretary of commerce in the Harding and Coolidge cabinets.

He contended that Governor Smith through four terms as chief executive of New York state was qualified in every respect for the presidency and that his work had equipped him far better for the position than "one could obtain as an engineer or in relief work."

"Prior to his speech accepting the nomination of the republican party for president," the senator said, "few were acquainted with Mr. Hoover's views on any of the questions discussed in the republican platform. The reason for this is that secretiveness of disposition which has been developed through a long private business career."

Mr. Robinson argued that Smith's duties as governor were analogous to those which he would be called upon to perform as president. "Four

CHIEF REITERATES WARNING ON WEEDS

Chief Lemond said this morning that few people were cutting their weeds. "We are giving them a chance to cut them before we take another step," he said.

Southern Pacific Seeks To Purchase
WASHINGTON, Sept. 5 (AP)—The interstate commerce commission today received an application from the Southern Pacific company to acquire control of the Northwestern Pacific railroad, operating over 478 miles, by stock purchase. Already owning half of the stock in the Northwestern railroad, the Southern Pacific company proposed to purchase the remaining half from the Atchison, Topeka and Santa Fe railroad. The price offered is \$4,463,349.

Residence Permit Of \$4,000 Issued
One residential building permit of \$4,000 was issued from the city of Lubbock this morning to increase the month's total to \$21,000. His permits have been granted, during September.

The year's total is \$2,474,884 for 529 permits.

This morning's permit was to A. B. Cloninger for the construction of a six room brick veneer residence at 2502 22nd street for O. R. Gable.

Two Die When Fire Destroys Residence
BRYAN, Sept. 5 (AP)—Robert Teeling, 45, carpenter, of Bryan and a patent medicine peddler named Cunningham were burned to death in a fire which destroyed the E. D. Phillips residence here last night. Their charred bodies were found in the ashes today.

Mr. and Mrs. Phillips, a daughter and a son, and a boy named Hubert Burkhalter who was spending the night at the house, barely escaped.

TRADITION IS ENDED IN VOTE FOR WISCONSIN

GOVERNOR IS REFUSED NOMINATION FOR A SECOND TERM

MILWAUKEE, Sept. 5. (AP)—A tradition of 3 years was broken in the primary election Tuesday when Gov. Fred R. Zimmerman, was denied nomination by the Republicans in his quest for a second term. Suffering a crushing defeat that placed him a poor third, Zimmerman was put out of the running, and the choice of the Republicans lay between Walter J. Kohler, conservative Republican, and Representative Joseph D. Beck, progressive.

Possibility that Kohler, prominent manufacturer seeking political office for the first time, might be the first conservative nominated in ten years loomed on the basis of returns which continued to give him a margin over Beck who had the support of the state's two United States senators, John J. Blaine and Robert M. LaFollette.

Outcome In Doubt
The outcome was still in doubt with a race so close that only the complete returns may settle it. Both Kohler and Beck were polling twice as many votes as the governor who defeated the Progressive and conservative candidates two years ago. Nomination of Senator Robert M. LaFollette who has been in the senate since his father's death three years ago was conceded. He easily defeated Mayor George W. Mead of Wisconsin Rapids, conservative Republican.

The Democratic candidates who will seek election in the fall for Governor and United States Senator were nominated without opposition.

For United States Senator, the Democrats named former Representative Michael K. Reilly, of Fond Du Lac; Maynard A. G. Schmedeman, of Madison; former minister to Norway, was named for the gubernatorial race.

Returns showed that the complete progressive ticket with the possible exception of Representative Beck was nominated in the Republican primary. These included: Lieut. Governor Henry A. Huber, Attorney General John W. Reynolds, Secretary of State Theodore Dammann, and State Treasurer Solomon Levitan.

They were the running mates of Senator LaFollette and Beck on the "progressive ticket," and opposed

Radio Brings First Picture Of Kellogg Signing Treaty

Photo Copyright, 1928, by NEA Service, Transmitted by Radiophoto

An hour, after Secretary of State Frank B. Kellogg, in the historic Clock Room of the Quai d'Orsay, Paris, signed the multilateral treaty outlawing war, the picture of the signing was speeding on the wings of radio across the thousands of miles of ocean between France and America. The above radiophoto, transmitted for The Journal and NEA Service, shows Secretary Kellogg signing the pact in which most of the great nations of the world agree to ban warfare.

those placed in the field by a conservative Republican conference which endorsed Kohler. The conservative candidates for other state offices ran far behind Kohler and there was no doubt of the outcome of the contest for the minor state offices from the start.

Hereford Cattle Suitable In South

BEAUMONT, Sept. 5.—That Hereford white-faced cattle will thrive in the Gulf coast section has been demonstrated by Perry M. DuBois, who has a herd of 300 on the Tyrrell ranch of which he is manager near Fannett in Jefferson county. The strain is mixed with native stock, and has the advantage of growing to much larger size, as well as being more easily fattened for the market, DuBois says.

The herd is fed in the main on range grass. Prejudice against the Hereford has existed in this section for years and DuBois experiment is

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of incalculable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borosone, the modern antiseptic. You can get Liquid Borosone, in a size to fit your needs and purse, from

CROSBYTON TO STARTSCHOOLS SEPTEMBER 10

RECORD SEASON LOOMS FOR TOWN; MANY IMPROVEMENTS

CROSBYTON, Sept. 5.—The Crosbyton schools will begin next Monday morning September 10 with prospects for one of the best years in the history of the schools. Superintendent Owens has returned from the University of Texas where he received his Masters Degree at the close of the summer school. A number of the teachers of last year will be back.

J. I. Weatherby will return as principal of the high school and will have the following teachers to work with him: Coach, Fred Vaughn; band, John C. Allen; economics, Miss Doris Petty; English, Miss Maurine O'Banion; mathematics, W. Robbins, music, Miss Lorraine Parker.

Grammar Schools: Principal Miss Vivian Campbell; Miss Clara Bell Holmes, Miss Josephine McBride, Mrs. Jno Heard, Mrs. Jno C. Allen, Mrs. Russell McCurdy, Miss Fannie Stockton, Miss Mary Trwin, Miss Evelyn Tallifero and Mrs. Morris Watson.

Bonds have recently been voted for the erection of a new \$10,000 brick school building, for Smith ward. Work is expected to begin on it about October first.

Miss Dorothy Lettice of Grand Prairie has arrived here to teach in the ward schools and will be with her uncle and aunt, Mr. and Mrs. O. R. Scott, 1901 Main street, this winter.

Prince's Bride-to-Be Says Farewell

NEA Tokio Bureau

When Setzu Matsudaira becomes the bride of Prince Chichibu, heir apparent to the throne of Japan, in September, she must bid farewell to her girl friends, court etiquette forbidding further company with them. Miss Matsudaira, daughter of the former ambassador to the United States, is pictured above, in American costume, saying goodbye to some of her former school friends in Tokio.

THREE OF MEN ESCAPING PEN ARE CAPTURED

FIRST CAUGHT IS HILL SENTENCED IN CISCO BANK HOLD-UP

(By Associated Press)
BRAZORIA, Tex., Sept. 5.—Three of six convicts who escaped from the Clemens state farm near here late Monday had been recaptured tonight by posers of guards with blood hounds and the other three are believed to have made good their escape.

Robert Hill, serving 99 years for robbery of a Cisco bank, was the first recaptured after the six men slipped away from a gang cutting wood at camp No. 3. Hill was trailed to a negro church several miles from the farm about 10 p. m. Monday and slightly bitten by the dogs before guards arrived. Wayne Clay, serving two years for burglary, was treed by hounds a short time later and recaptured but guards gave up the search later Monday night when a hard rain blotted out the trail. Tonight Carl Ahner, serving four years for forgery, was recaptured near Brazoria.

The new Buick
is the new Style

More than handsome... more than luxurious... a wonderful new type of motor car beauty... a thrilling turning point in body design

It will be imitated, of course! The new, the fine and the beautiful always inspire emulation. But so great is the cost of building the magnificent new Fisher bodies for the Silver Anniversary Buick that imitation will be possible only to much costlier cars, and even these will find difficulty in following where Buick leads!

\$1,500,000 has been expended in manufacturing the dies alone for the new Buick bodies; and the gracefully curving side panels which form one of their distinguishing characteristics represent the most expensive steel paneling work employed on any automobile in the world!

But it is not in the matchless grace and beauty of exterior design alone that the Silver Anniversary Buick eclipses other cars. The velvet mohair upholstery in the closed models—the hardware and fittings—the many appointments of luxury and convenience—are all of the richest quality; and the bracing of the bodies, which imparts strength and durability and

freedom from squeaks and rattles, is the most efficient and effective known to motor car practice.

In dashing beauty—as in fleet, powerful performance—the world holds no equal for the Silver Anniversary Buick with Masterpiece Bodies by Fisher.

It is more than handsome, more than luxurious—it marks a thrilling turning point in body design. And the motoring public, buying in such tremendous volume as to force the great Buick factories to work day and night to supply the demand, is elevating it to the prominence of a vogue!

American strict good middling 10.57; good middling 10.72; strict middling 10.82; middling 10.82; strict low middling 10.37; low middling 10.22; strict good ordinary 10.02; good ordinary 8.72. Sales 8,000 bales, 4,000 American; receipts 9,000. American 1,000. Futures closed steady. Sept. 10.90; Oct. 9.97; Jan. 9.87; March 9.88; May 9.90; July 9.97.

Buying became more active after the publication of the weekly weather report, with prices selling up to 18.90 for October and 18.84 for March, of 24 to 27 points above yesterday's closing quotations. Offerings increased at these figures, however, and the market showed reactions of 8 or 10 points from the best at mid-day.

NEW ORLEANS TRADING
NEW ORLEANS, Sept. 5 (AP)—The cotton market opened steady in sympathy with better Liverpool cables than due, and first trades showed gains of 5 to 10 points. Unfavorable crop reports continued the advance and October went up to 18.92 and December to 18.82, 18 to 18 points above yesterday's close.

Near the end of the first hour the market was steady and only a few points under the high.

In the second hour the market rallied moderately on the unfavorable weather and crop re-

port which caused covering and trade buying. October advanced to 18.92 and December 18.82, 21 to 23 points above yesterday's close. Realizing later caused prices to decline about 8 points.

Three additional crop estimates were issued ranging from 14,100,000 bales to 15,616,000.

NEW ORLEANS CLOSE
NEW ORLEANS, La., Sept. 5 (AP)—Spot cotton closed steady 15 points up.

Sales 9,382; low middling 17.70; middling 18.70; good middling receipts 13,597; stock 86,422.

Livestock Prices

Sheep fat weathers, \$8.00.

Stocks And Money

WALL STREET STOCKS

NEW YORK, Sept. 5 (AP)—Selling, inspired by the increase of \$214,000,000 in stock exchange member loans last month, imparting an irregular trend to opening prices in today's stock market. U. S. Steel common fell back a point, Westinghouse Electric 1 1/2- and General Motors, Chrysler and Wright Aeronautical yielded fractionally.

On the other hand, Lehn & Fink and Magna Copper advanced to new high levels, buying of the latter being influenced by the reported discovery of a rich ore body. Loose-Wiles Biscuit advanced 2 points and American Power and Light 1.

Firmness of railroad shares featured early dealings. Delaware and Hudson ran up 2 points and Northern Pacific and Great Northern sold about a point higher.

Warner Bros. issues, the sensational advance in which featured yesterday's market, broke out of 31-32 points each on the first wave of selling then rallied to new high records.

Pools provided strong support for their favorites. Fox Film quickly extended its gain to 4 points by touching a new high record at 104. Calumet & Hecla, American Radiator and American and Foreign Power also moved into new high ground.

Foreign exchange trading was quiet with little change in rates. Shipping cables were again quoted around \$485 1/4.

Grain Market

CHICAGO TRADING

CHICAGO, Sept. 5 (AP)—Grain trading was extremely dull on the Chicago board of trade today, with scattered selling largely by local interests ending prices down at the start. Wheat was 1-3c higher to 1-3c lower than yesterday's closing

figures, and corn opened 1-4c higher to 1-4c lower for the future months, while September was 1-2 to 11-8c down. Early quotations remained within the initial narrow range and trading was without any apparent incentive to develop new activity. Oats were steady to 1-8c lower, with provisions quiet, 2 to 5c higher.

Trade comment generally had favored a tendency toward lower wheat prices if export sales continue light and with Canadian wheat moving to market. Hedging sales, too, were expected to be a constantly increasing bear factor, and a little selling by the northwest was in evidence today. Wheat lost a little ground at the outset and slipped a shade lower in the later trading. From Europe came news of harvests progressing under good weather conditions in the United Kingdom, Germany and Scandinavia, while further beneficial rains were falling in Australia.

September corn again headed the market in its downward movement under pressure from local professionals, narrowing the margin over December to 17 cents. Deferred deliveries held fairly steady with the previous close and the slow trade seemed to have a confident undertone. Light frosts were forecast for Minnesota and North Dakota tonight but crops there were regarded as beyond danger except from a hard freeze.

Produce Prices

CHICAGO PRODUCE

CHICAGO, Sept. 5 (AP)—Butter: higher; creamery extras 47 1-2; extra firsts 46 1/2 1-2; firsts 43 1-2 @ 45; seconds 41 @ 42 1-2. Eggs unchanged.

CHICAGO, Sept. 5 (AP)—Poultry

alive steady; 1 1/2-2 1/2-2 1/2-2 1/2; spring ducks 17 @ 23; spring geese 19.

Caprock Bankers

Hold Meet At Spur

SPUR, Sept. 5.—The second quarterly meeting of the Caprock Bankers association met in Spur yesterday.

This association comprises the counties of Crosby, Dickens, Floyd and Motley.

The business session was held at the Spur theater with T. S. Stephenson, president of the association, as chairman, and those taking part on the program were Geo. S. Link, Spur; E. C. Edmonds, Spur; Mrs. May Garrett, Floydada; Elmer Stearns, Matador; A. L. Winfrey, Ralls; Gibbons Poter, Roston; H. C. Burke, J. P. Fort Worth, and Clifford B. Jones, Spur.

Following the business session luncheon was served at the Spur Inn, and after this a round table discussion was led by Wade Cooper of Crosbyton.

MIDLAND WILL GREET FLIERS

CROWDS FROM OVER WEST TEXAS DUE TO SEE AIR RACES

MIDLAND, Sept. 5.—Many people from Lubbock, Tahoka, Lamesa and other South Plains towns are expected to be in Midland next Sunday Sept. 8, to see the National Air races. The fliers will land at Midland Saturday morning at various intervals from 10 o'clock till noon or later.

Midland is a control stop and lap prices will be awarded the winners. A total of 63 planes will land at Midland, and visitors will have a chance to see several world-famous fliers as well as the 63 planes lined up in record time. It is expected that several thousand people will be at the Midland airport to see the racers as they land here en route from New York to Los Angeles.

One tank containing 10,000 gallons of gasoline has already been placed on the field, and more than fifty drums of special gas have been shipped to Midland for the races. The field is being specially prepared by Sam Sloan who founded it, and the aeronautics committee of the Chamber of Commerce has named judges, field clerks, a referee and other officials for the great races.

Drilling On Doheny Well At 2100 Feet

SNYDER, Sept. 5.—Drilling on the E. L. Doheny, Jr., Koonsman No. 1 well in Borden county has been resumed at 2100 feet, since a ten inch casing has been completed to that depth. The Landreth No. 1 Hilmer well, 17 miles southwest of here was spudded in Friday.

CAL GOOD SHOT

Will Go Hunting In Kentucky This Winter

(By Associated Press)

SUPERIOR, Wis., Sept. 5.—Eugene clay pigeons and a blooded English setter puppy have put the fever of the hunt in the veins of President Coolidge, and he is going down to old "Kaintuck" this winter to follow the dogs.

Breaking as many as 24 out of the whirling objects shot from the specially installed traps at Cedar Island lodge has made Mr. Coolidge think he is better than an average shot and he wants to try his skill on live game.

When Palo Alto, five-months old pup, was presented him yesterday, the chief executive turned to Col. E. W. Starling of his staff and said:

"Have this dog ready by winter, for I am going down to Kentucky this winter for some hunting." The dog is to be trained by Colonel Starling's brother at Hopkinsville.

The president today arranged to show newspapermen and photographers that he has mastered the art of trapshooting. He invited them to the summer White House to witness an exhibition of skill, some of which he displayed recently in hitting a crane in full flight while on the river at Lewis, Wis.

Following the special show at the lodge, Mr. Coolidge planned to come to Superior to attend the tri-state fair.

BIG SPRING POSTAL RECEIPTS

BIG SPRING, Sept. 5.—According to Postmaster Fahrenkamp, during the month of August the postal receipts amount to \$3,645.93.

TRI-STATE FAIR HAS FREE GATE

RECORD CROWDS DUE TO ATTEND FAIR THIS SEASON

AMARILLO, Sept. 5.—Two of the outstanding entertainment features of the Tri-State Fair, September 22 to 29, will be the Schooley and Collins Winter Garden revue with 80 people participating, including a chorus of more than 30 girls, and Leonard Stroud's rodeo.

The rodeo performance offered by Stroud is an annual attraction at many of the biggest cities and fairs in the nation. Included in rodeo acts are some of the leading cowboys and cowgirls in daring breath-taking exhibitions.

The Winter Garden revue of 80 people, one of the highest type of revues for big state fairs, will furnish beautiful and rollicking entertainment every evening in front of the big grandstand.

Indian dances, football games and a number of other entertainment features are scheduled. The gate will be free for the first time in the history of the fair.

Navarro Organizes Anti-Smith Group

CORPUS, Sept. 5 (AP)—Navarro county voters perfected an anti-Smith organization at a meeting here last night when L. E. McCormick of Corsicana was elected chairman and Mrs. C. W. Criss was named vice chairman in charge of women's activities.

W. T. Hipps was chosen secretary. This compares with \$2,395.81 for August, 1927. Stamp sales for the first eight months of the year total \$27,000.

and M. R. Harrison, treasurer, Jerry Scott of Frost was named head of the finance committee. Headquarters have been opened for an active fight against the Democratic nominee.

Miss Nell Farnley, principal of the Hunt school, has been called to Strawn by the serious illness of her sister.

SMITH FINDS PLENTY TO DO

CAMPAIGN APPARENTLY
WILL BE DELAYED
STILL LONGER

By D. HAROLD OLIVER,
Associated Press Staff Writer.
ALBANY, N. Y., Sept. 5.—In his
double capacity as chief executive
of the state of New York and Demo-
cratic presidential candidate, Gov-
ernor Smith is finding plenty of
work to keep him busy while await-
ing the long and trying days of the
national ring for the supreme
test of his political career.

State tasks continue to occupy
the nominee both day and night and
it now looks as if he will not tem-
porarily divert himself of his gub-
ernatorial regalia for the bigger job
ahead until after the middle of Sep-
tember. The governor himself was
responsible for this deduction when
he said yesterday that "they," evi-
dently meaning his political adver-
saries, had mapped out to program
for him for all of next week.

Devotes Time to Work
Today and for the remainder of
the present week he will continue to
devote his attention to duties at the
state capital and at the executive
mansion, working in a game of golf
here and there as time permits.
Mrs. Smith is putting in most of her
time at the residence on Eagle street
getting her husband's things ready
for the long and trying days of the
campaign.

The special train that will take
the Democratic standard bearer on
his first extensive speaking tour is
rapidly being made up, but details
as to its composition are being with-
held pending publication of its
route and stopping points. Applica-
tions from Metropolitan newspapers
for reservations on the Democratic
special are being received in Albany
daily and it appears that the high
peak of sixteen correspondents, who
accompanied John W. Davis on his
swing around the country in 1924
will be far exceeded when the Smith
train pulls out.

Companion Of Bill Cody In West Dies

NASHVILLE, Tenn., Sept. 5 (AP).—
John Silverman, 67, native of Al-
bany, who shipped to the
United States in 1869 and became
an adventurer in the west with Kit
Carran and Buffalo Bill Cody, died
here last night.

Known as "French John" he left
the southwest for North Dakota,
where he scouted in the Black Hills
with Buffalo Bill. Later he scouted
to keep the Oveland trail clear
with Kit Carran.

After years of this life he came
to Nashville, married and settled
down to live until 1908, when he
had the chance for further adven-
ture. He joined the second Tennes-
see regiment as cook and served in
the Philippines.

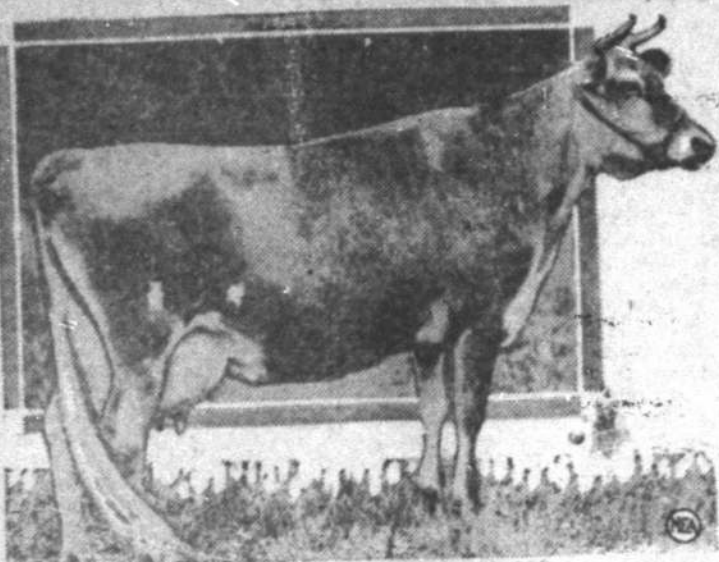

As scout in the west, Silverman
credited himself with having killed
thirty Indians.

Do you suppose Tom Mix's noble
steed, Tony, enjoyed a quiet horse
laugh over the recent Mix-Morrissy
mixup?

She's For More And Better Butter

Meet "Sophie's Emily," admirer of fine cow flesh! Emily, a Jersey and
her home is Randolph Farm, Lockport, N. Y., owned by William R.
Keanan, Jr. In eight years she has produced a total of 127,487 pounds
of milk from which was taken 6293 pounds of butter fat. "And that,"
says Emily, "is a new record."

Application Of Ban On Drilling Held Up

OKLAHOMA CITY, Okla., Sept.
5 (AP).—A temporary restraining
order restraining the Oklahoma cor-
poration commission from enforcing
its oil proration and drilling re-
striction order in the Little River
field was dissolved late today by
Federal Judge Edgar S. Vaughn, who
issued it last week to the Reiter-
Foster Oil corporation.

The temporary order was dissolved
on motion of J. Berry King, as-
sistant attorney general, who rep-
resented the corporation commission
and his office both of which were
named.

Judge Vaughn commented he felt
the court had acted hastily in
granting the order.

ORDER ROUND-UP

**Police Ride On Beer
Trucks, Charge In
Philadelphia**

PHILADELPHIA, Sept. 5.—
District Attorney Monaghan to-
day directed his force of 20
county detectives to "go out and
bring them in."

He gave the order after in a
three-hour talk with police in-
spectors and captains. He had
obtained "nothing of specific
value."

The prosecutor said that by his
order, "bring them in," he
meant men engaged in the
bootleg racket, men who have
been running saloons, men who
drive alcohol and beer trucks
and men who are believed to

know the inside workings of
gangster slayings, illicit traffic
in liquor and other alleged bri-
bery of police officials.
He intimated his detectives
would produce important per-
sons. In the meantime, county
detectives working under the
district attorney, rounded up a
number of suspects who will be
questioned as to the truth of
rumors that police actually rode
on liquor trucks to prevent in-
terference with bootleggers.

Fish Fossil Found In Limestone Slab

McKINNEY, Sept. 5.—A fish fos-
sil in a slab of limestone is attract-
ing attention here. It apparently is
a perch seven inches long and was
discovered in limestone excavated
under the foundation of an old
monument in Rowlett Creek ceme-
tery. The head, backbone, ribs, fins
and tail of the fish are very dis-
tinct.

9960 OLYMPIC GAMES could be run off in DUNLOP CITY

THE Olympic Games this summer are being
held at Amsterdam, Holland, in a stadium
10 1/2 acres in area. "Dunlop City," which the
100,000 acres of Dunlop productive prop-
erties would form, would be vast enough to
run off 9,960 Olympic Games at one time.

What is the secret of Dunlop's great growth?
Basically there is only one reason—*Dunlop
Tires are better tires*—and have been for 40
years.

This is easy to believe when you realize that
Dunlop possesses tire-building advantages en-
joyed by no other manufacturer. Dunlop
owns and operates its own wide-spread rub-
ber plantations. Dunlop resources total more
than \$195,000,000. Over 40 years of contin-
uous production have given Dunlop the great-
est of all tire-building expe-
rience. These resources and ex-
perience are converted into tires
by 45,000 craftsmen and engi-
neers.

There are other incidental
causes, less impressive but
equally important. They answer
such questions as:

"Why does Dunlop pay such high premiums
in order to get the choicest Egyptian cotton
for Dunlop cord fabric?"

"Why is every bit of this cotton spun in Dun-
lop's own spinning mills?"

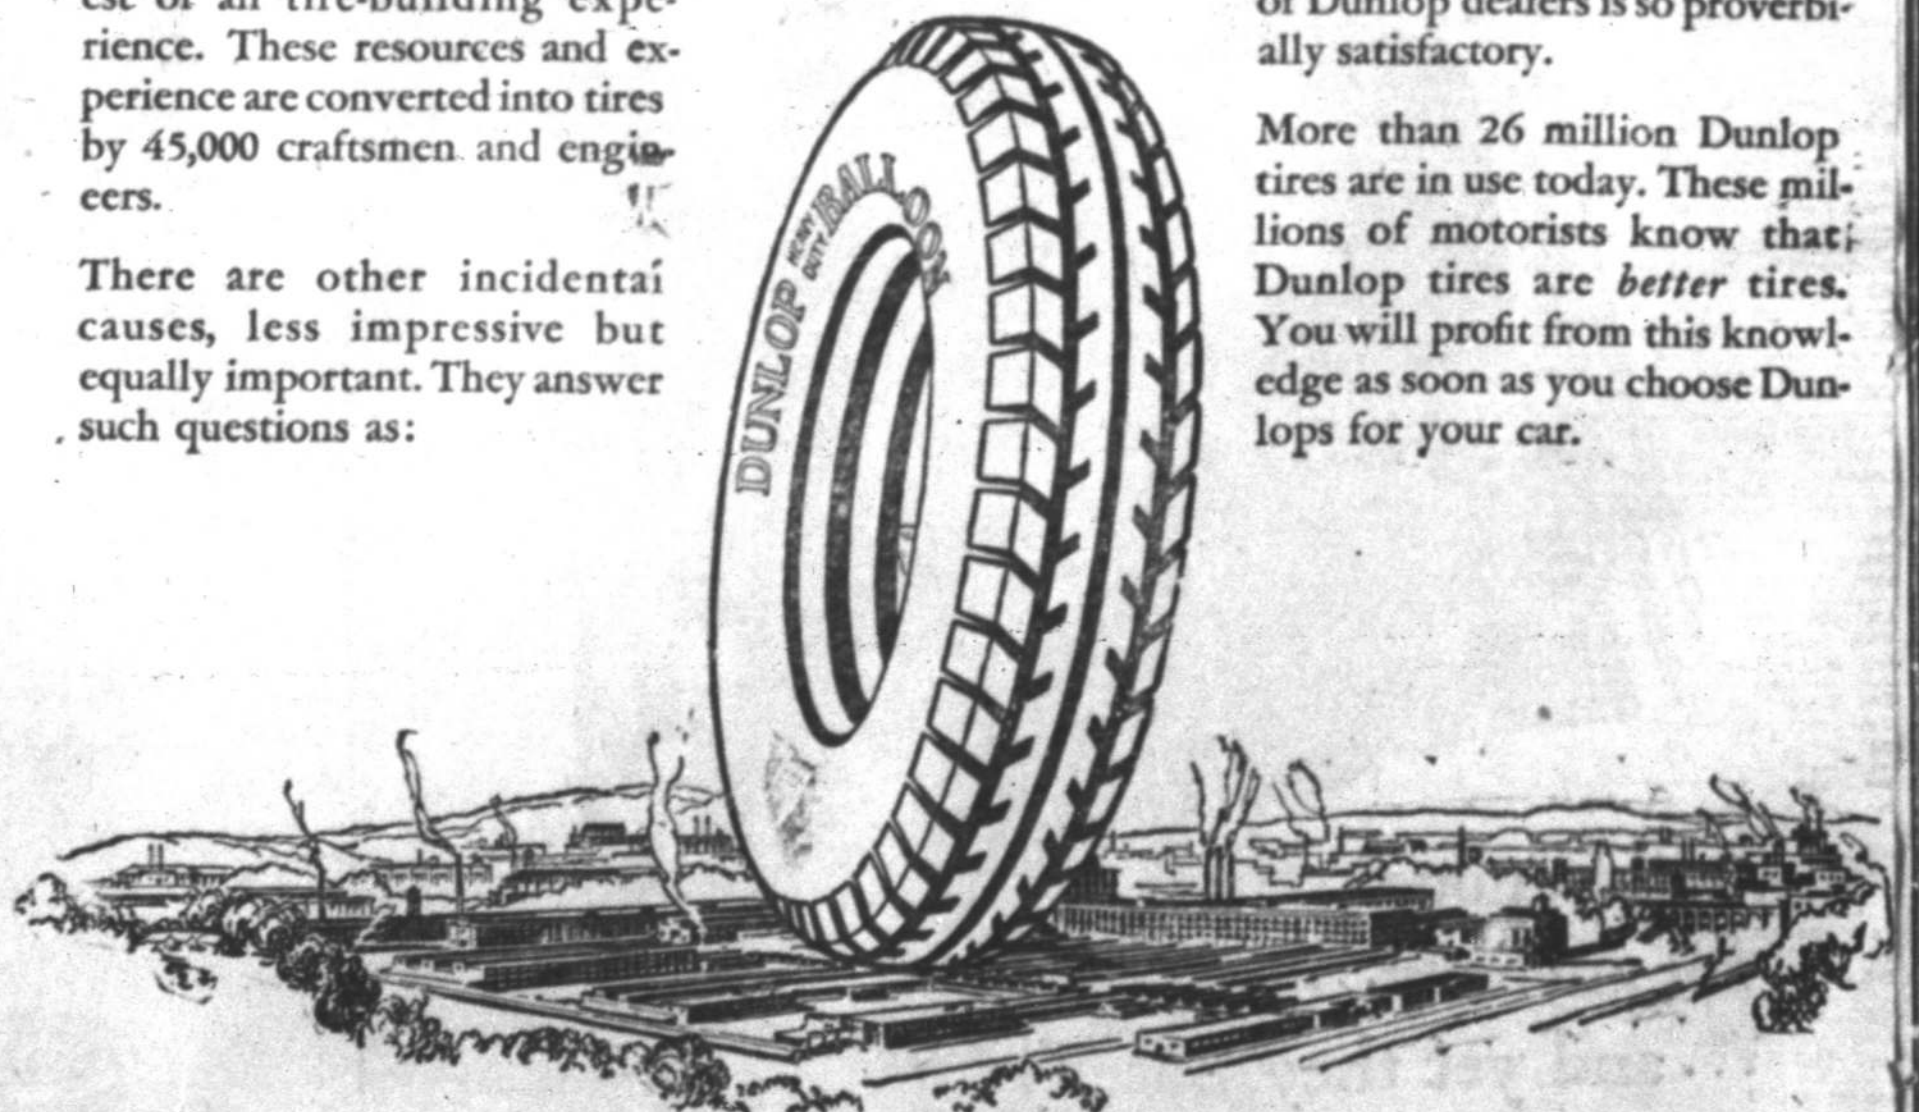

"Why is such care taken in analyzing, blend-
ing and compounding Dunlop rubber into
the toughest compound ever achieved?"

Taken together, these details mean two things:

1. It is Dunlop's policy to make consistently better tires.
2. This policy can be uniformly lived up to because Dun-
lop has absolute control of product from raw materials
to finished tire.

Naturally, Dunlop seeks to select its dealers
with the same thoroughness it selects its raw
materials. And that explains why the service
of Dunlop dealers is so proverb-
ially satisfactory.

More than 26 million Dunlop
tires are in use today. These mil-
lions of motorists know that
Dunlop tires are better tires.
You will profit from this knowl-
edge as soon as you choose Dun-
lops for your car.

NEW ENGLAND IS WORRYING ABOUT NATIONAL PRESIDENTIAL CAMPAIGN WITH PROHIBITION AS MAIN ISSUE

BY BYRON PRICE
(Associated Press Staff Writer)
BOSTON, Sept. 5.—Going about its political chores with a native deliberation, most of New England is just now beginning to give serious attention to the National issues which awakened many other sections of the country to activity weeks ago.

Except for Maine, where the state election takes place next Monday, none of the states of this northeasternmost group has fully emerged from that preliminary stage of the campaign in which state tickets are selected, and local alignments perfected for the test in November. But already certain visible signs point to Massachusetts as the focal point of the impending struggle, and to prohibition and economic stability as the issues to be kept insistently before the voters.

All of the six New England states have been voting for republican nominees for the presidency with almost unbroken regularity. Two of them, Maine and Vermont, have long since come to be regarded as strongholds of confirmed republicanism. New Hampshire is looked upon with hope by some democrats, who take historical comfort from the fact that Wilson carried it against Hughes in 1912, but no doubtable leader; others it is even doubtful in 1928. Of the six, it

leaves, Connecticut, Rhode Island and Massachusetts, all of which, at this early period of the campaign, present some puzzling factors.

Prohibition Main Issue
Briefly, the democratic hope of breaking the republican solidarity of New England in this year's presidential campaign may be said to rest primarily on those considerations: Connecticut and Rhode Island have been hotbeds of anti-prohibition sentiment, and are the only states in the union that never ratified the prohibition amendment. Rhode Island has a wet democratic senator who has been once re-elected. Massachusetts has a divided record on prohibition, and has elected and re-elected a wet democratic senator who also is a Catholic. The democrats feel sure, furthermore, that they have little to fear from the religious issue in any of these three states, for in each one Catholics make up a very large percentage of the population.

On the other hand, to win any of the three the democrats must bring about wholesale changes from the presidential record of recent years. In Massachusetts in 1924 Coolidge polled a vote of 703,000, and the combined vote for Davis and La Follette was only 432,000. In Connecticut the figure were 216,000 for Coolidge, with 152,000 divided between Davis and La Follette.

HOOVER PLANS SPEAKING TOUR IN THE SOUTH

REPUBLICANS HOPE TO BREAK SOLID FRONT OF THIS SECTION

BY JAMES L. WEST
(Associated Press Staff Writer)
WASHINGTON, Sept. 5.—Now that Herbert Hoover has definitely decided to carry the political warfare to the home ground of his opponent, Alfred E. Smith, he is seriously considering a march upon the very rampart of democracy, the Solid South.

The pressure for him to make a trip into that section is almost as great as that for him to visit Newark and New York City, where he will speak on September 17 and October 17, respectively. He probably will yield to it by going either to North Carolina or Tennessee for one speech near the dividing line between the two states. Some recent callers at the Hoover headquarters have told the republican presidential nominee there is more than a possibility that he can break the Solid South for the first time since reconstruction days and have urged that he make a special campaign tour into that territory.

Discounts Reports Of South
Hoover has been inclined to discount some of the reports that have come to him regarding the situation in Virginia, North Carolina and Georgia and he probably will wait for a greater crystallization of sentiment before he reaches his final decision. He has limited himself to a few speaking trips and naturally his desire is that these should take him where his personal appearance might be expected to do his cause the most good.

Having started the preparation of his Newark speech, the republican candidate is expected to devote the major portion of the remainder of the week to its completion. Should he follow this course, his fishing trip to Chesapeake Bay necessarily would have to be put over until next week. Beyond a general statement that he will devote much of his Newark speech to a discussion of labor questions, Hoover declines to forecast what subjects he will discuss there or in New York City.

Hoover had engagements today with Henry Breckinridge of New York, counsel for the Cullen Foundation (for the Promotion of Aviation), and with Secretary of War Davis.

CATHOLICS

(Continued From Page 1)

In the historic St. Patrick's cathedral where pontifical high mass was celebrated as the prelude to the opening of the congress.

There was a vast crowd of worshippers, and the procession of the papal delegate and his suite moving through a lane of children waving the papal and Australian flags in the cold weather.

The worshippers knelt in the courtyard, on the lawn and in adjacent streets and listened to the prayers and responses which were broadcast. They bowed in unison during the service.

Reads Papal Bull

After the opening ceremony Father Sheehy read the papal bull for the congress. It was addressed to Cardinal Cerrutti and commented on the value of the congress as helping to perfect the Christian life and to lead the people to more frequent reception of the sacrament.

His Holiness said he was sure the Sydney congress, not only in its solemn sessions but also in its sectional meetings would consider its theme of worship through the eucharist with the reverence due to the Virgin Mother of God. He insisted strongly on the relationship between the Mother of God and the sacrament.

Archbishop Kelly in his address of welcome emphasized the strictly religious character of the proceedings. He greeted the papal legate and the other church dignitaries whom he especially welcomed to Sydney and to the congress. After Monsignor Tommaso Neylen, bishop of Namur, had officially opened the congress, Cardinal Cerrutti delivered an address wherein he eulogized Australia and her people for the remarkable progress made in recent years. The ceremonies concluded with a benediction.

HOUSTON, Sept. 5 (AP).—Search along more than a mile of river bottom today has failed to reveal the body of Francis Menze, 11, who drowned while in swimming Sunday.

Do you suppose Tom Mix's noble steed, Tony, enjoyed a quiet horse laugh over the recent Mix-Morrissey misapprehension?

Let's Rhode Island gave Coolidge 123,000 and Davis and La Follette together 84,000. The republican leaders, taking assurance from this record, figure that the votes are there, if they can be got out, and are preparing to meet the democratic onslaught by organizing every precinct.

A cordial welcome awaits you at the newest and finest Hotel in the Southwest.

MANY PRIZES ARE OFFERED

(By Associated Press)
First of four cross country airplane races in a week was under way today sponsored by California Air Race association. Planes are divided into three classes and a non-classified or non-stop group.

Class A today is for planes of non-stop displacement of less than 510 cubic inches, with more than 300 entries. Class B for planes with displacement of from 510 to 800 cubic inches starts tomorrow morning.

Class C for planes of any type starts Wednesday, September 12. Course is from Roosevelt Field, N. Y., to Mines Field, Los Angeles, with 16 stops en route. Distance approximately 2,000 miles. Stops today are Harrisburg, Pa.; McKeesport, Pa.; and Columbus, O. (overnight).

Valuable Prizes Offered
Winners will be chosen on flying time, trophies and cash prizes totaling \$52,500 will be awarded. Non-stop—First, \$12,500; second, \$6,000; third, \$3,000; fourth, \$1,000. Class A—First, \$5,000; second, \$2,500; third, \$1,000; fourth, \$700; fifth, \$500; sixth, \$200; seventh, \$100. Class B—First, \$3,000; second, \$1,500; third, \$750; fourth, \$500; fifth, \$300; sixth, \$150; seventh, \$75. Class C—First, \$5,000; second, \$2,500; third, \$1,500; fourth, \$700; fifth, \$300.

Additional prizes offered by cities among those listed as stops for pilots who reach those places first are: McKeesport, Pa., \$500; Terre Haute, Ind., \$250; Kansas City, Mo., \$1,000; Wichita, Kan., \$900; Fort Worth, Tex., \$500; Abilene, Tex., \$300; Midland, Tex., \$200; Pecos, Tex., wrist watches; El Paso, Tex., Mexican feathers; Tucson, Ariz., \$400, and Yuma, Ariz., \$1,000.

Twelve Planes Off For Air Contests

SELFRIDGE FIELD, Mich., Sept. 5 (AP).—Twelve planes piloted by officers of the first pursuit group of the army air service took off from Selfridge Field at 8:10 a. m. today for Los Angeles where they will compete for the Mitchell trophy. The squadron was led by Major Ralph Royce, flight commander. The pursuit group will make the journey by easy stages, stopping at Rantoul, Ill., Fort Riley, Kansas, Amarillo, Texas, El Paso, Texas, Tucson, Arizona, and San Diego, Calif.

DON'T NEGLECT YOUR TEETH
It takes very little of your time and but a small amount of money to keep your teeth in good condition.

A visit to our dental parlor every six months will serve the purpose. Jot down the memo now to call on us a certain day and let us go over your teeth and set them right. Better still phone us for an appointment.

FIGHT VICTIM BURIED TODAY

WAS SLAIN IN FRAY AT VILLA ACUNA; MAN FACES TRIAL

SAN ANTONIO, Sept. 5 (AP).—Funeral services were held here today for John Kastner of New Braunfels, victim of a tragedy in Mexico, while the man who offered himself as "living bond" for Kastner's alleged slayer is held incommunicado in the Piedras Negras jail.

Charged with murder that he did not commit, John Crosby, Jr., who surrendered himself Tuesday when the man accused of the crime failed to appear, will be tried before a federal judge of the Rio Grande district. The trial is to begin Thursday.

Meanwhile Forrest Whitehead, Crosby's friend, who engaged in the fatal physical duel with Kastner at Villa Acuna, was missing. When Whitehead was arrested following a fight in the little Mexican town opposite Del Rio, where Kastner received blows that are alleged to have caused his death, Crosby offered himself as "living bond" for his friend. Then the latter failed to appear for trial, Crosby surrendered.

Under Mexican law, Crosby must stand trial for murder.

Seven Convicts Flee Pen Farms

HOUSTON, Sept. 5 (AP).—Seven convicts fled from the State prison farms yesterday, police were notified today.

G. C. Clary, 40, serving three years from Taylor county for forgery, escaped from the Ramsey farm Robert McDaniels, 32, negro, seven years for burglary from Harris county, escaped from the Imperial Farm; Sam Hightower, 50, serving six years from Grayson and Collin counties for liquor law violations, ran off from a gin crew near Sugarland; Carl Abner, 18, four years for forgery from Carson county; Johnny Brock, 19, five years for robbery from Young county; Tom Corbett, 28, six years from Montague county for burglary and Mack Elvins, 28, twelve years from Rockwall, Grayson and Van Zandt counties for forgery, escaped from the Clemens state farm.

Oklahoma Well Is Out From Control

OKLAHOMA CITY, Sept. 5 (AP).—Blowing in with pressure strong enough to cleanse the hole of 4,500 feet of mud, the well of an Indian Territory Illuminating Oil company, a few miles southwest of Oklahoma City was out of control this afternoon. Although there was a showing of oil with the gas, its production was not immediately determined.

Favorite Drops Out Of Wrigley Contest

TORONTO, Ont., Sept. 5 (AP).—George Young of Toronto, one of the leading favorites to win the 15 miles marathon swim in the icy waters of Lake Ontario today, dropped out on the third two 1-2 mile lap. Young gave up the grind near the end of the lap. He had led the pack for more than two miles. Shortly before Young called it a day, Ernst Vierkoetter of Germany slipped past him into the lead.

Kellogg On Way To The United States

CHERBOURG, France, Sept. 5 (AP).—With various governments still announcing adherence to the treaty renouncing war of which he was one of the chief negotiators, Secretary Kellogg was returning to America today aboard the Leviathan. The cruiser Detroit which brought the secretary and his party from Ireland sped him on his way home with a salute of 18 guns while the band played the Star Spangled Banner.

The pursuit group will make the journey by easy stages, stopping at Rantoul, Ill., Fort Riley, Kansas, Amarillo, Texas, El Paso, Texas, Tucson, Arizona, and San Diego, Calif.

RUMOR HOOVER MAY SPEAK IN TEXAS CITIES

REPUBLICANS PLAN FOR INTENSIVE CAMPAIGN WITHIN STATE

(By Associated Press)
DALLAS, Sept. 5 (AP).—Herbert Hoover and Senator Charles Curtis, republican standard bearers, may make campaign addresses in Texas this fall, Leonard Withington, executive secretary of Associated Hoover clubs in Texas, stated today. Negotiations for the appearance of the republican candidates are now going on between the state organization and the national party committee.

Hoover expressed keen interest in the Texas situation in a recent telegram to R. B. Creager, Brownsville, national committeeman.

Other prominent party members are to make their appearances in the state, Withington said. Senator William E. Borah of Idaho probably will deliver several prohibition addresses. Mrs. Mabel Walker Willebrandt, assistant United States attorney general in charge of prohibition enforcement, has been scheduled to tell of the progress made in enforcing the Volstead law. One of her speeches will be near her birthplace at Amarillo.

Lieutenant Governor Buron Fitts of California, another native Texan, has been offered to Hoover clubs as a speaker by the national committee. He probably will speak under the auspices of the republican service league, an organization of veterans of various wars which has no connection with the American Legion. Fitts formerly was commander of the California department of the legion.

Miss Earhart Is Fort Worth Guest

FORT WORTH, Sept. 5 (AP).—Amelia Earhart, first woman to fly across the Atlantic, landed at the Municipal Airport today at noon. She was flying alone and was piloting an English airplane.

Miss Earhart arrived here from Muskogee, Okla., where she spent Tuesday night. She flew over Dallas, circling that city several times.

A few minutes after she landed, Miss Earhart came to the city with two young men, with whom she said she was "going to have lunch."

Serial Boy: Two of them have just been washed so they haven't any, but the dog we got this morning, is just covered with them.

Mrs. C. A. Todd of Butler, Tenn., visited her brother, C. J. Hennessy and family at 1624 19th street Monday and Tuesday.

Seven Killed As Air Plane Smashed

POCATELLO, Idaho, Sept. 5 (AP).—Seven persons, five passengers, were killed today as the result of the crash here yesterday of the air mail plane of National Parks Airway, Inc.

The dead were Mrs. Mona Shaffer and her two children, Carl, 6, and Ramona, 18 months; Jesse S. Richards, secretary of the Ogden, Utah, Chamber of Commerce.

Summer Weather Hard On Nerves

Long hot days and nights are a strain on the nerves, often causing headaches, sleepless nights and general fatigue.

The safest and quickest way to overcome pain and restlessness is to take two teaspoonfuls of Capudine in a little water. It gives delightful relief by soothing the strained nerves. Being liquid, it acts almost instantly. At all drug stores; 25c and 50c sizes. (adv)

DEPENDABLE MERCHANDISE

Chamber of Commerce; Floyd A. Timmer, an Ogden newspaper reporter; W. A. MacLean, Portland, Ore., traveling representative for a magazine publishing company and Paul V. Wheatley, pilot.

The plane, a Universal-Pitts monoplane, flying low for a landing, went into a nose dive when the pilot headed into the wind.

Violent Swing In New York Markets

NEW YORK, Sept. 5 (AP).—Violent swings in price movement took place on the New York stock exchange today as opposing speculative forces battled for control. Radio was brought forward as a leader in the early afternoon and whirled upward \$150 a share to a new high record at \$228.50 after speculative confidence had been shaken by a break in the Warner Bros. issue which, however, recovered most of its losses.

Just Like An Ostrich

A medical authority says that person who tries to cover up a skin disease and plumes with cosmetics and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that circulation is throwing poisons into the blood stream and weakening your constitution. Remove the congestion and you will strengthen your system against disease and clear your disfigured skin. The best way to do this is with a course of Isterline, a vegetable medicine that acts naturally and easily, which you can get at Lubbock Drug Company.
