An Editorial

As everyone who has been near the school plant this week knows, the work of excavation for the new swimming pool was begun Monday morning, with the work being done free by Buster Cates, Leo Cates and A. R. Sanders on land donated by Jack Turner. In the drive headed by Leon Speer to raise $8,000.00 in donations, $6,100.00 has been raised to date. The remaining $1,900.00 must still be received before the pool can be completed.

The swimming pool committee has had faith in the people of Foard County and gone ahead and begun the work, even though the necessary money has not been received. This is a very worthy cause, and one in which everyone in the county should help, according to their own means. If you have not yet sent in your donation, please do so soon, so the goal may be reached and the work will not be halted for the lack of the $1,900.00.

The News believes that Crowell and Foard County will have a swimming pool equal or superior to any in this section, and one for which everyone should be proud to have a part in building. Despite the drought which has plagued this area for several years, Foard county residents have dug deep in their pockets, and in many instances when they could not afford it, to help build this pool for the young people of this area.

Mr. Speer and his committees are also to be highly commended for their untiring efforts in raising the necessary funds.

SCHOOL RECORDS IMPORTANT TO FUTURE OF ALL STUDENTS

Wherever we go and whatever we do in our future life, there is a possibility that our employers will be checking our high school record. What we do in school may seem unimportant to us now, but in the future we may wish that we had taken an interest in our high school career.

It is too late for this year's seniors to start worrying about their high school record. However, their college record is still ahead of them. What we do in college will play just as big a part as what we have done in high school.

"In a survey of records kept by prominent stores throughout the United States, the employers listed the following points as the things right with graduates: ambitiousness, ability in leadership, mature judgment, and vision."

"On the other side of the question, employers listed the following as the things wrong with graduates: failure to cooperate with fellow workers, lack of punctuality and absenteeism, lack of good spelling, and lack of knowledge in basic English."

High school students should take inventory of their good and bad points and try to make amends so that the remainder of their high school and college records will be as nearly perfeit as possible.

BAND ATTENDS REGION II CONTEST IN ABILENE

The High School Band, under the direction of E. L. Rickard, participated in the Region II contest at Abilene Saturday. The band in their wool suits battled blistering hot winds that hampered their playing so much that they were satisfied with the Division III ratings in concert and sight reading.

The following members were rated as follows on their solos: James Choate, first; George Morgan, first; Robert Davis, first; Elizabeth Davis, first; Barbara Fairchild, first; and Robert Davis, first; Jerry Fairchild, third; and Gail Knox, second. The brass ensemble rated a division II rating, and the student director number rated a division I. The number of division I ratings on solos is the largest number that the band has had in several years.

MRS. ROBERTS GIVES REVIEW OF PAST

In observance of San Jacinto Day, Mrs. Jack Roberts Jr. gave a very informative and interesting program to the upperclassmen of Crowell High School. It was composed of tales of Texas heroes and events in the past of the mighty Lone Star State such as the Alamo, the Battle of San Jacinto and the Texas Centennial.

The program had a very wide selection of Texas songs written and composed for Texans. Some of these were "Texas, Our Texas," "Pistol Packing Mama," "The Eyes of Texas," "Deep in the Heart of Texas," and many more. Also she told how the songs originated with the inspiration that caused the writers to compose them. Everyone enjoyed the program, and we hope that we may observe the next San Jacinto Day in the same manner.

THE LIFE OF THE PARTY

Recently I have been reading all the magazines very carefully in an effort to discover the secret of becoming the life of the party, thereby ending my problem of being the only "cookie" left sitting at home. Following are several of the more important "tricks of the trade."

I will brush my teeth with chlorophyll, and then I will rinse my mouth with Listerine, so that my best friends won't have to tell me anything. My best friends may well be wafted right out of the room by the combination of this scent, but that's their problem.

I am also learning how to play the piano so that whenever I am invited to somebody's house, I can strap my piano on my back and bring it along to entertain everyone.

I am taking "bop" lessons in order not to be a wallflower, (commonly referred to as a square) and nowadays wherever I go to a party, no matter where it is, I always merrily lead everyone into a dance. Apart from several bills for breakage to furniture and hospitalization for partners, this has worked very well.

I have laid up a six months supply of Lifebuoy, having been convinced by the advertisements that Lifebuoy no longer smells like Lifebuoy. Scientifically, this is a great step forward.

Unwilling to have the total effect spoiled by having hair like an African bushman and unable to decide among Kreml, Vaseline Hair Tonic, Wildroot Creme Oil, and Vitalis, I now use a little of each on important occasions, and it works! I do not have hair like an African bushman. I do not have that much hair!

I am a wonderful organizer of all sorts of games like Murder, Post Office, Spin the Bottle and other gay events of the evening. One thing I do not understand, however, is how all the participants, although I have briefed them time and again on the layout of the grounds, inevitably get lost on their way around the house.

So, hostesses, there may have been a day when you thought this cool cat to have been a square, when you thought me tired and uninspired, but I am really in the groove now. Come one, come all. This is the new me, life of the party from top to toe, even to my new "dog tag"—it's crazy, man!

SPANISH CLASS ENJOYS BREAKFAST

The Spanish II students enjoyed a huge breakfast last Wednesday morning. It all took place in a secluded spot known to many as "Henry's Hide-Away" at 6:30 a. m.

Everyone was head chef, with the menu consisting of western scrambled eggs, bacon, fried potatoes, toast, jelly, doughnuts, coffee, and hot chocolate.

After the meal was prepared, Doris Cates welcomed the guests in Spanish and Bill Halbert gave invocation.

Visitors at this enjoyable feast were Misses Sue Bursey and Lucille Sparks, Mr. and Mrs. Grady Halbert and daughter, Mr. and Mrs. Foster Davis, Merl Kincaid, Mrs. J. E. Ingle, Mrs. C. T. Aly and Mrs. Gerald Knox.

CHS COWPOKES TO ATTEND SANTA ROSA MONDAY

Wal, pardner, roundup is pert' nigh here. Cowhands are dustin' their boots and brushin' up ten-gallon hats. Checkered shirts and levis are getting the once over. Yes, siree, the rootin', tootin' Old West is about to invade CHS.

Just to make sure there's no killin's, all cowpokes are requested to leave their shootin irons at home. The reason for that is cause blood flowin in the streets slows down traffic. We've got a tradition to live up to next week, and, in order to be a "true Texan" it is a "must" that we don our boots and spurs. Leave your hot rods at home, and bring your "hay burners" along. Oh yeah, before I go, maybe I'd better tell you where to go . . . that is . . . oh . . . well, any way, the Santa Rosa Roundup is just around the corner. Ya hoo, San Antone!

MAGICIANS VISIT CHS

Mr. and Mrs. Herman Colley presented the last Southern Assembly program of the year last Thursday, April 28. They were substituting for Mr. and Mrs. Jimmy Wear.

One of the outstanding effects to be presented in Wear's assembly program was the famous "Flight of Life" box escape. Recognized as the fastest escape artist since the days of Houdini, he exchanges places with his wife, Jean, in a locked box which is encased in canvas laced by students from the audience.

The program was packed with humor and was designed to bring to the modern day students, mysteries and fun that they will never forget.

CATS CHALK UP SECOND VICTORY

The Crowell High School Wildcats' baseball team beat Chillicothe's Eagles here last Thursday by a score of 10-5. The Cats showed good form in this game behind good hitting. Larry Sledge hit a home run on the second pitch of the game to send the Wildcats into an early lead. The Eagles never threatened the Crowell boys because good hitting by "Daniel" Graves, Billy John Rader and "Shorty" Orr kept the Cats "spurred." Good pitching by Mike Wishon kept the Eagles from hitting consistently. The losing pitcher was Quinby. The Wildcats have a 1-2 won-lost record so far this season in the district race. They have three more games. Quanah visits Wildcat Park Friday, and then Crowell plays Childress at Childress and Chillicothe at Chillicothe.

Reynolds opened the meeting with a prayer and during the business session Mrs. Grady Halbert reported on the recent meeting at Childress of the Golden Cross chairmen, explaining the work of the organization and the part played by the foundation in the Methodist Memorial Hospital at Lubbock. A devotional based upon the book of Ephesians and emphasizing the necessity of putting on the whole armor of God was given by Mrs. Laura Johnson. Since this promises to be a most interesting lesson, all who are interested in the Far East are cordially invited to be present.

FOR THAT RAINY DAY

The wise man doesn't wait 'til the rain falls before he gets himself an umbrella. Same sound sense applies to financial "rainy days." The money you meant to save—but didn't—won't do you a bit of good. Only money that will count is what you DID save . . . regularly, systematically, every pay day. Let your ever-growing account be your "umbrella" . . . and you can take life's "rainy days" in your stride.

Punch-line to the year's hottest power story—

Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chevrolets. And in acceleration runs from a standing start against all comers, Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry (that means less piston travel...longer engine life)! And it delivers the highest power per pound of any V8 in the low-priced field. It's so efficient that it requires only four quarts of oil instead of the usual five... needs less radiator coolant, too. It's the most modern V8 under *anybody's* hood!

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super *Turbo-Fire V8" (optional at extra cost) puts 180 h.p. under your toe!*

'SS PACEMAKER CHEVROLET

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

No other low-priced car has any—no high-priced car has all—of these great Chevrolet features!

Body by Fisher—Nine engine-drive choices in any model—12-volt electrical system—Anti-Dive braking—Outrigger rear springs — Ball-Race steering — High-Level ventilation — Double-Arch cowl construction.

*National Association for Stock Car Auto Racing.

Combine your new Chevrolet purchase with your vacation plans!
Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolets built, if you like, and drive yours home. Chances are you'll save a substantial share of your vacation travel costs!

Afternoon's Program

A program was prepared for the afternoon and Mrs. Virgil Johnson, representing the Adelphian Club, gave an interesting story of J. H. Minnick, who pioneered in the "Dude Ranch" idea. Probably his entertaining a group from New York City on his ranch south of Crowell in 1906 was the first dude ranch in the Southwest, or perhaps, all the West.

Mrs. John Ray, who represented the Rayland Club, very fittingly told the story of the Ray family, who were among the first settlers in that area, and for whom Rayland was named. Just recently, the house that they built and occupied on their first arrival from Kentucky, has been torn down and Mrs. Ray is having a modern farm residence built in its place. As all houses built in that period, the nails used were square.

Mrs. Jack Roberts concluded the program by reviewing the history of the Parker family from the time the Elder John Parker left Illinois and brought his family and a few others to Texas to establish a colony on the Navasota River near Mexia, to the time that his granddaughter, Cynthia Ann Parker, was re-captured from the Comanche Indians in 1860 on the very grounds where this gathering was being held.
