### Both Saturday Night

# One Injured In 2 Shootings

Two separate shooting incidents last Saturday night left one man in good condition in Deaf Smith County Hospital with a gunshot wound in his chest, and sent six persons to the county jail on charges ranging from drunk to assault with intent to murder.

Juan Herrea was listed in good condition late Wednesday at Deaf Smith County Hospital after suffering a gunshot wound in his chest. The shot just missed his heart as it struck a bone and traveled around his rib cage.

Tote V. Martinez, 27, of Palo Duro Apartments, Hereford, was charged on two counts of assault with intent to murder stemming from the shooting of Herrea and attempting to shoot a Hereford police officer.

City police officer Paul Ramirez, who went to the scene of the reported shooting Saturday night, reportedly entered a cafe on the 100 block of Main St. and attempted to talk to the woman. The woman then turned the gun on Ramirez and shot, but missed. Another officer outside the cafe fired a shot into the cafe through the cafe window and the woman then ran out the back door of the cafe. She was apprehended in the 700 block of U. S. 385 about 30 minutes later.

Bond was set at $10,000 on each of the two charges and she was arraigned before Justice of the Peace Bill Rowland Monday. She remained in the county jail in lieu of bond late Wednesday.

A short time later after the shooting incident on Main St., the county sheriff's department received a call indicating another shooting north of town on Progressive Road. The department officials went to a farm located on Progressive Road where they arrested a Jose Sanchez.

The officers brought Sanchez to the county jail where he was charged with drunk and while there received another call.

On their way back out to the farm, one of the sheriff's department officials, who was with members of the Department of Public Safety, stopped a car headed toward town. When the officers stopped the vehicle and began questioning the occupants, one of the persons who was believed to be in the car, crawled out of the bar ditch with a board, apparently with the intent of striking one of the officers, officials reported.

Jesse Guerrero, 17, who came out of the bar ditch, was then apprehended and charged with drunk. Officers then took him back to the county jail where he was booked, and while there received still another call.

The officers returned to a field east of the farm residence and while looking around, a pickup drove up. There were four persons in the pickup and they asked officers where the driver's son, Jesse Guerrero, had been taken. Occupants of the vehicle were Jesus Guerrero, 50, his wife Anita, 46, Gregory Zepeda and Ramon Turrubiates.

After discussing the whereabouts of his son with the officers, the four got back into the pickup and were preparing to leave when the deputies received a call indicating that the four were armed.

The officers then asked them to get out of the pickup and when the three men got out on the driver's side of the vehicle, two rifles fell to the ground. A search of the vehicle disclosed three knives and when the officers told Mrs. Guerrero to get out of the pickup, she did so on the passenger side. Kervin Roper, Chief Deputy, then went around the pickup and saw that the woman held a gun in her hand. He told her to drop it, but instead, she turned around and stuck it into his stomach. He then told her to drop the weapon again, and when she failed to do so, he grabbed it. Another gun was also found under her arm, hidden from sight.

The four were taken to the county jail where the three men were charged with drunk and the woman was charged with carrying a prohibitive weapon and aggravated assault.

Sanchez and the younger Guerrero pled not guilty to their charges and were fined and released. Turrubiates and the older Guerrero also pled not guilty and posted $100 bond each. Mrs. Guerrero pled guilty to the charge of carrying a prohibitive weapon and was sentenced to 30 days in the county jail plus court costs, and pled not guilty to the charge of aggravated assault and bond was set at $3,000.

A later search of the pickup in which the four persons were in disclosed a total of two rifles, two pistols and three knives. It was also discovered that one of the rifles was reported stolen from Detroit, Michigan, but local officers have not been able to determine how the people obtained it.

## Drug Charges Filed Here

Charges of possession of dangerous drugs were filed against Earnest Ray Barton, 29, of Cortez, Colorado last Saturday afternoon following the discovery of some 70 dexedrine-type tablets in his car.

Sheriff's office officials reported that a search warrant was served around 5 p. m. Saturday at a trailer court on Gough St. and 65 pills, which preliminary examination indicated they were homemade dexedrine tablets, were discovered hidden under the dash of the car owned by Barton. Five additional dexadrine tablets were also discovered in the trunk of the car.

Barton, who was not at home at the time of the search, was arrested the following morning when he went by the sheriff's office to get his car. Officers then informed him of his arrest.

Search of the car was permitted by Barton's parents, where the vehicle was parked.

Barton, who gives his present address as 222 North Edith Cortez, was charged with possession of dangerous drugs and arraigned before County Judge H. C. Williams Tuesday where he entered a plea of not guilty. Bond was set at $2,500 and Barton was released Wednesday morning.

The tablets were sent off for further chemical tests, but the results were not available at press time Wednesday.

Dexedrine is an Amphetamine which is a synthetic drug that produces a loss of appetite, delusions, hallucinations or toxic psychosis when used over a long-term period.

## Commission Has Light Meeting

Action was light in the regularly scheduled meeting of the county commissioners Monday as only two items were considered, both being the letting of bids.

Bids will be opened February 9 for gasoline (regular-ethyl), diesel fuel, motor oils and greases to be used by the county. Bidders should quote tankwagon prices delivered to storage facilities owned by Deaf Smith County, according to county officials.

Also, bids will be opened on the new addition to the hospital on the same day.

Bids on the half-million dollar addition to the hospital, which were opened at the county meeting in early November of last year, revealed that the lowest bid, which was $508,587.00 was $108,000 more than was expected.

Low bidder at the meeting the first time around, was Floyd L. Richards, for $508,587.00. Representatives from six firms were on hand for the opening of the bids.

Wiley Hicks' bid was $553,069, a bid by John F. Moss was for $524,437, a bid by Ramey Construction was for $529,575, Reid Strickland's bid was for $534,606 and a bid by E. P. Taylor Company was for $539,800.

The court and board discussed the high cost with Richards, who was present, and it was decided that a check into the matter would be done so it could be determined as to what, if anything, could be cut from the cost.

It is hoped that at the February 9 meeting a bid can be accepted.

## Forensics To Host Contest

Hereford Forensics will host the second annual Speech Contest to take place in the high school, Stanton, and Shirley School buildings beginning at 9 a. m. and lasting until about 6 p. m. Saturday.

Approximately 400 students representing 19 schools will compete in the contest, twice as large a participating crowd as the first annual contest held last year. Students from as far away as Wichita Falls and Big Springs are expected to attend, primarily the AAAA districts in the Amarillo and Lubbock area.

Divisions in which points may be scored are debate, informative and persuasive speaking, and prose and poetry interpretation. The groups will be subdivided into boys and girls divisions.

The awards assembly, highlight of the activities, will take place in the high school auditorium at which time a sweepstakes award will be given to the top school scoring the most points in the ten various areas of competition, with thirteen trophies, plaques and certificates being awarded to second and third place winners.

The majority of judges are local residents and volunteer judges are still being sought. The interested public is invited to observe.

Mal Manchee, director of UIL events is to be accredited for efforts in the annual event with John Claypool assisting.

Other contests to be held as well will be those of Math and Science supervised by Joe Ed Cupell and Mrs. Gene Huntsinger.

Providing trophies and awards for the contest are the Printing Trades and Vocational Department of Hereford High School.

## Local Woman's Services Today

A 38-year-old Hereford woman, mother of two sons, was found shot to death at her home about 11:30 p. m. Tuesday.

Mrs. Audra Jeanne Elliott, 201 Baltimore, was found by her sister and brother-in-law, Mr. and Mrs. Hugh Clearman.

Police said a .25-caliber automatic pistol was found near the body. Justice of the Peace Bill Rowland, acting coroner, pronounced her dead at the scene and ruled death from a self-inflicted gunshot wound in the chest.

Funeral services for Mrs. Elliott are scheduled at 2 p. m. today in the First United Methodist Church with the Rev. Clifford Trotter, pastor, officiating.

Burial will be in a Vega Cemetery by Gilliland Funeral Home.

She was born Dec. 23, 1931 in Vega and came to Deaf Smith County in 1965 from Amarillo.

She married Gordon (Mike) Elliott Dec. 3, 1966 in El Paso.

She was a Baptist.

Survivors include her husband; two sons, Bart and Scott, of the home; two sisters, Dorothy Clearman of Hereford and Mrs. Houston Deford of Amarillo.

GETTING READY — Members of the Hereford FFA and 4-H organizations and other young farmers throughout the area were on hand at the Little Bull Barn Wednesday, getting ready for the annual Hereford Young Farmers Junior Livestock Show which gets underway today at the Bull Barn. —Staff Photos

# Junior Livestock Show Gets Underway Today

During the next three days, top show animals from a four county area will be competing in Hereford for high honors in the annual Hereford Young Farmers Junior Livestock Show which gets underway today at the Bull Barn and terminates Saturday with the sale.

Entrants from Deaf Smith, Oldham, Parmer and Castro Counties will compete for top honors in judging of calves, lambs and barrows, for the four-county show while Deaf Smith County entrants will compete for county honors.

The show will begin with the judging of the barrows at 2 p. m. today. The lambs will be judged at 10 a. m. Friday and the steers judged at 2 p. m. Friday.

The livestock judging contest for the FFA and 4-H clubs will be Saturday at 9 a. m.

The annual show sale will begin at 1 p. m. Saturday and will include the sale of the champion lamb of each class, Grand and Reserve Champion barrow, 30 top steers in the Four County Show, 40 top lambs in Four County show and 60 top barrows in the same show.

**CALVES**

Calves will be divided into classes including (1) light, medium and heavy class of Herefords (2) light, medium and heavy Angus and other breeds, and (3) crosses will show in the class represented by the sire.

The first and second place winner in each class of calves will compete for the Breed Champion and Reserve Breed Champion.

**LAMB DIVISION**

There will be four classes of lambs, including (1) finewool, (2) finewool-crossbreed, (3) medium wool, and (4) Southdown, Shropshire, Montadale or Cheviot grade or crossbreed. The decision as to how the sheep will be classified will be left to the department superintendent.

There will be no Grand Champion of the lamb show as only Class Champions will be named. All lambs were required to have been in place by 10 p. m. Wednesday.

**BARROW DIVISION**

Barrows will be divided into six classes, with each class having a light and heavy division. The classes include Berkshires, Chesters, Durocs, Hampshires, Poland Chinas and all other breeds and crosses. Gilts will not be shown.

The first and second place barrows in each of the classes will compete for Champion and Reserve Champion of the breed and Champion and Reserve Champion of each breed will compete for the Champion and Reserve Champion of the entire show.

Several changes were made in rules and regulations governing this year's stock show and include that steers must weigh 750 pounds and over to be eligible. In past shows, the minimum weight was 650 pounds and over to be eligible. Also in the past in the steer division, no steer was allowed to be shown that did not carry all his milk teeth. This year, no steer will be allowed to show that shows wear on permanent incisors.

Change in the barrow division is that an animal must weigh 190 pounds and not over 240 pounds to be eligible to show while the minimum weight for lambs was also upped to 80 pounds and the maximum to 120 pounds. In the past, the minimum weight for barrows was 180 pounds and not over 240 while for lambs it was 70 pounds minimum and 120 pounds maximum.

All livestock entered in the show must have been owned by the exhibitor who under the supervised feeding of the County Agent or Vocational Agriculture teacher as follows: calves, at least six months; lambs, at least two months and pigs, at least two months.

Only two calves, two lambs and two pigs may be shown by one exhibitor in the Four County Show with the same rule applying for the county show. The Hereford Young Farmers shall reserve the right to disqualify any exhibitor or animal for any reason that is deemed necessary.

General superintendents for the show are Larry Dobbs and Lewis Block. Division superintendents are Jerry Glover, Tommy Sparkman and Layton Sawyer, steers; Dee Taylor, Joe Reinauer and Lewis Block, bar-

See SHOW, Page 2

## Saturday Is Final Day In Which To Register

Only two and one-half days remain in which local residents may qualify to vote in any elections this year with Saturday the deadline for "over-the-counter" registration.

According to Nell Miller, tax assessor-collector, registration forms may be obtained at the county tax office on the second floor of the courthouse, and added that the tax office, because of the date which the final day falls on, will remain open Saturday from 8 a. m. to 1 p. m.

Registration forms sent in through the mail and postmarked no later than midnight Saturday will also be accepted according to Mrs. Miller.

In order to qualify to vote, a person "shall have attained the age of 21 years and shall be a citizen of the United States and shall have resided in this state one year next preceding an election and the last six months within the district or county in which such person offers to vote, and shall have registered as a voter."

Persons not qualified to vote are those who are under 21, are idiots and lunatics, all paupers supported by the county and all persons convicted of any felony except those restored to full citizenship and right of suffrage or pardoned.

Mrs. Miller also pointed out that all major grocery stores, Gibson's, and stores in the Mall will have voter registration forms available for persons to fill out. She reminded that those picked up at the stores must, if mailed in, be postmarked no later than midnight Saturday.

## Open House Set At New Center

Open house will be held at the renovated Civic Club Center, formerly the Jim Hill Hotel ballroom Sunday from 3 to 5 p. m.

Hosts for the occassion will be past president of the Hereford Noon Lions Club and their wives.

All persons are cordially invited to drop by during the two hour period for a visit and inspection of the premises.

**YOUR VOTE COUNTS!**
**But You Can Not Vote Unless You REGISTER**
**By Saturday, Jan. 31**

# Problems Discussed At Sugar Beet Banquet

Approximately 680 members of the Texas and New Mexico Sugar Beet Growers Association attended the organization's annual banquet here Saturday night in the Bull Barn.

Glenn Yeager, vice president of Holly Sugar Corp., told the crowd that 1970 will "be the most critical year in the history of the sugar beet industry."

Yeager also pointed out the value of good public relations between the sugar industry and the growers. He urged a "united effort." of the two to "help create an atmosphere" to promote extension of the existing government sugar program.

He said the present program is "an agricultural program that works." The present program has been in effect for 35 years and has been revised and extended 14 times since its inception, he said.

Robert F. Ginn, agricultural manager for Holly, reported on the 1969 sugar beet crop, saying that it was the "worst crop" he had seen since he had been in the business.

Ginn blamed the poor quality on damaging rains at critical times of the year which had lowered the sugar content and quality of the beets.

He congratulated the growers for their handling of the crop, saying that in many cases the crop would not pay expenses.

Much of the sugar beet crop in Deaf Smith County and the area is now being grazed out, through the plant here is still processing.

Humorous Bob Murphey, featured speaker for the banquet, is also known as an attorney from Nacogdoches.

Master of ceremonies was Jay Boston, president of the beet growers association.

The association also held a business meeting Saturday at the Community Center at which time they reelected A. L. Black of Friona and Don Kimball of Wildorado to the board of directors.

A meeting of the board was scheduled for Feb. 2 at which officers will be elected.

## Show . . .

(Continued from Page 1)

rows and James Dobbs, Don Howard, Eugene Baldwin and ward, Eugene Baldwin and Bob Hicks, lambs.

Floor price will be set on all animals before the sale Saturday. Animals to be sold at the floor price which are not eligible to be auctioned will be moved from the barn to pens provided on the outside before the auction sale begins.

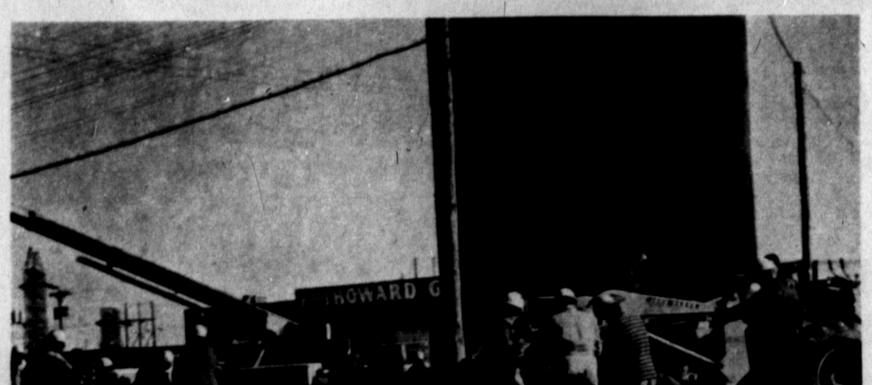

Before an entry can be pulled from the sale or floor, the superintendent of that division must be notified within one hour following judging of that animal. All entrants must notify the superintendent of deposition of their animal one hour after judging has been completed for each division, or will be barred from future shows. Any infraction of rules will be subject to a $25 fine per animal.

### REFUGEES ESCAPE WITH VALUABLE HERD

GANGTOK, Sikkim — Five Tibetan refugees crossed into northern Sikkim with a herd of 79 yaks. Authorities said it was unusual for the refugees to get away with so many of the animals which are so highly valued by the occupying Chinese.

SANTA FE CREWMEN were renewing the Main Street Crossing Wednesday, as a part of an all-out renewal of the rails between Hereford and Texico with the new one-fourth mile of welded rails. —Staff Photo

# Police Report Figures Released For 1969

A summarized report of the activities of the Hereford Police Department have been released this week for the year of 1969. Several changes have been made from previous reports in order to achieve a more complete and accurate summary.

In 1969 there were 149 larceny thefts amounting to over fifty dollars — a substantial rise from the 102 reported in 1968. Thefts under fifty dollars last year rose to 175 from the 161 in 1968.

The national average for thefts cleared in cities of 10,000 to 25,000 is 17.6 percent. Hereford was slightly under this figure in thefts over fifty dollars as fourteen percent were cleared. They were above it in the minor thefts as twenty three percent were cleared.

Fifty nine residential burglaries and eighty seven business burglaries were reported last year. Twenty four percent of the residential were cleared while twenty percent of the business were cleared.

Property loss for both amounted to $43,851.91 — $9,994.56 of this was recovered. The total loss was estimated at $33,857.43.

Moving traffic violations for the months of the year were listed as the following: January — 76, February — 125, March — 127, April — 144, May — 91, June — 120, July — 198, August-219, September — 173, October — 200, November — 217, and December — 189. The total number was 1,879.

The Hereford Police Department patroled 165,610 miles in 1969 and dispatched 29,644 entries.

In the department's traffic enforcement report 708 persons were charged with speeding — 477 found guilty. Thirty two were charged with contesting for speed — thirteen of which were found guilty.

Eighty four persons were found guilty out of ninety nine for failing to yield the right of way. Sixty five were guilty of running stop signs, 117 for running red lights, five for unsafe changing of marked lanes, and twenty nine for improper turning.

Seven persons were found guilty for driving on the wrong side of the roadway, fifty one for following another vehicle too closely, eight for improper passing, one for no signaling, and twelve for improper starting from a parked position.

Two hundred and eighteen were guilty of driving without a license, one for driving while the license is suspended, three for permitting an unlicensed driver to drive, and five for vehicle registration violations.

For vehicle equipment violations three were found guilty, two were guilty for motor vehicle inspection sticker violations, six for failing to leave information at the scene of an accident, and there were 129 persons found guilty for all other traffic violations. The total number of persons found guilty of traffic violations for 1969 was reported at 1,236.

There were 528 auto accicents in 1969 which resulted in an estimated $223,524.50 in damage. There were 96 injuries and two fatalities.

The majority of the accidents last year on a percentage basis occured in the months of August and October. The biggest percent also occured on the days of Sunday and Friday.

The age group in which the biggest percent of accidents involved was those ranging from seventeen to twenty years of age.

The police department made 674 criminal arrests in '69 — the most being for drunkeness and D. W. I. charges.

In the final section of the report 518 persons were fined for overparking. This figure rose from the 335 charged in 1968.

# Spring Sports Nearing At HHS

As the second semester of the school year rolls around at Hereford High more athletic activities are due to erupt. They include track, baseball, volleyball, tennis, and golf — otherwise known as the spring sports.

Preparation for the track season has already begun but as athletic director Larry Wartes puts it, "We can't get a good start till basketball season is over. A lot of our good prospects are playing basketball right now.

A number of lettermen will return to the team this year but in many areas the younger boys will be relied upon. Major jor threats to Hereford, as is always in other sports, are the existence of strong Perryton and Dumas — who also have returning athletes.

Nevertheless the verdict will be decided without question on April 18 when the teams of district 1-AAA collide in Canyon for the conference meet.

The Whiteface baseball picture appears a bit dimmer than the one of 1969. Though a number of boys are showing interest the fact remains the team will have few well experienced starters to return.

Then there is again the presence of the Dumas diamond nine crew who took the district crown in '69 are favored to reap the shiniest performance this year.

The third and last district baseball contender, the Canyon Eagles, can't be forgotten either. They've been known the last couple of years for their young inexperienced players but this could be the year for the entire team to "jell."

Practice for the baseball squad will open Monday, Feb. 1, with the first seasonal game scheduled for March 1.

In the way of golf things look extremely well with several top rated players and returning lettermen to appear. The golf campaign is set up in a different way from the track and baseball escapades.

The district is divided into two zones—the north and south with Hereford golfing in the south. Along with them are Tulia and Muleshoe. To decide the winner a match will be held in each town. The overall victor will play the winner of the north zone.

The volleyball team will likewise retain a few contenders from last year and lose a few. A number of these will graduate from the volleyball B team to pit their talents in varsity competition.

The smallest of the HHS teams, the tennis bunch, now knows "what it's all about." Last season, the first time for tennis activities in the school, was more or less a trial period for the team.

This season will be the time to apply what was learned in '69 toward the development of a top performing tennis team.

# Adrian News

By ANN BEAVERS

Jan Cavin, Girl of the Month, for FHA, has achieved a first in Adrian. She has been girl of the month for October, November and December. The selection of Girl of the Month is made by the girl that has the most points according to the activites of FHA. Jan has sold more purses than any other girl this year. This has been great as this is our money making project. Our congratulations are in order to Jan.

Jan is the daughter of Mr. an Mrs. Jim Cavin and is in the 10th grade at Adrian High.

January 30 is the deadline for the FHA campaign. They have chosen to send soap to a special services force in Viet Nam. Anyone that has soap to contribute may put it in the box at the post office in Adrian or at Gene's Super Market in Vega. Your cooperation will be appreciated. Of course the soap may be left at the Adrian High School.

* * *

Mr. and Mrs. Joe Speed were Monday night supper guests of Mr. and Mrs. Tony Trevino and family in Vega.

* * *

Mr. and Mrs. Sam Betts attended the rodeo in Amarillo, Saturday night.

* *

Those going were: Teddi Hale, Bobby Harwood, Paul Harwood, Patty Zaring, Jan Cavin, Kirk Garrison, Janis Wood, Arthur Grey, Clayton Travis and Cris Burns.

GENERATION SPAN — Recently together for a 50th anniversary celebration were these five generations: young Jeffery Cassels, his mother, Mrs. Dwayne Cassels, her father, J. E. McCathern, Jr., his father, J. E. McCathern, Sr., and his mother, Mrs. Maggie McCathern of Pampa.

## Men's Tops Club To Begin Here

Eugene Davis and Carroll Hayes of Plainview are scheduled to arrive here Thursday night for the purpose of establishing a TOPS Club for men.

The club is a nation wide organization for men and women who are interested in losing weight. Hereford possesses two of these clubs for women at the present time but the need has been recognized to begin one for men.

Interested males of all ages are invited to attend the meeting Thursday night which will be held in the Community Center beginning at 7:30.

Davis and Hayes are International winners in TOPS Club competition and are experts on the proper ways of losing weight.

Also to be on hand is Mrs. Frank Short, one of the leaders of Hereford's Tops Clubs.

She said the purpose of organizing a Tops Club is for people to learn to eat sensibly for weight control.

The organization will meet once a week at night for one hour and will learn the "proper eating habits."

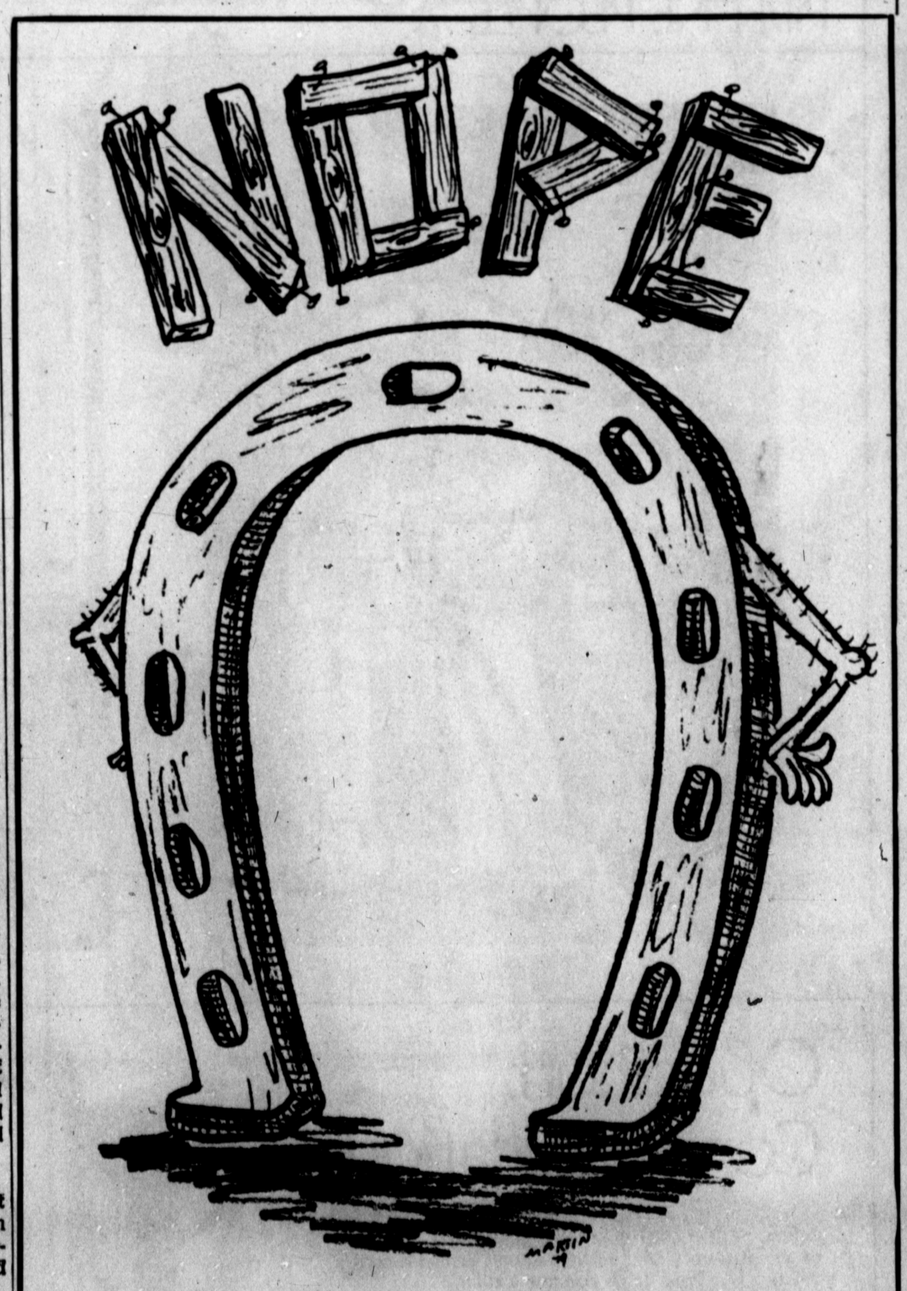

## Lone Star Club Plans Party

Plans for a Valentine Party scheduled at 2:30 p. m. Feb. 10 in the home of Mrs. C. D. Kelton, were made by members of Lone Star Study Club at a meeting held Tuesday in the home of Mrs. J. J. Durham. Miss Mildred Elliot was co-hostess.

A poem entited "A Recipe For A Good Year" was the thought for the day given by Mrs. S. S. Williams and roll call was answered with "My Recurring Dreams."

A program on Dream Analysis was presented to the group by Mrs. Jim Higgins followed by a business session with Mrs. Kelton presiding.

Others attending were Mmes. Opal Bookout, Thelma Chisum, H. E. Hensley, Guy Newsom, C. O. Phillips, Ed Warren, V.D. Dodson and R. G. Blue.

RECENT SCENES at the Community Center as the Student Council Committee prepare for the 10th Anniversary celebration of the Center, Sunday, February 1. Top photo, Chairman Connie Hoover assists Mike Higgins with ceiling decorations. Lower, Kima Marsh, Sally Bayne and Eddie Gage prepare large wall mural denoting the anniversary. —Staff Photo

# Community Center Will Celebrate Anniversary

An extended invitation is offered to all teenagers to attend Open House, at the Community Center, Park Avenue and Avenue C, Sunday, February 1, 2 to 5 p. m., in observance of the tenth anniversary of its opening.

In an informal atmosphere, the get-together will include record playing and other teenage entertainment. The high school drill team will operate the snack bar. This will be one of the rare occasions when students will be allowed to wear slim jims, bell bottoms, etc.

According to Mrs. Robert (Mary Frances) Lemons, manager, a renewed effort is being made by the Student Council Committee at the Community Center to incite more interest among the local youth in attending the Center, which was built primarily for the teenagers. However, full use as such an accomodation has not been up to expectations; more cooperation on the part of the teenagers is needed to make it so.

The Student Council Committee at the Community Center, selected by Mrs. Lemons, Paul Hendon, president, and Harold Schmucker, vice-president, of the High School Student Council, includes: Connie Hoover, chairman, Jane Zinser, Donnie McDermitt, Mike Higgins, Eddie Gage, Kima Marsh, Sara Bell, Janet Lookingbill, Jeff Loerwald, Sally Bayne, Diana Zinser, Angela Grubbs, and John Richard Sparks.

This committee, selected anew each year, approves the Center rules, and plans activities. If enough interest is stimulated, the committee hopes to have high school dances every two weeks, with junior high dances once a month. Other inexpensive projects, on a regular basis, are also included in the plans for the future.

A Valentine Dance for the high schoolers will be held February 13, music by Company's Coming, formerly Riot Tiers, Amarillo. Also, a Twirp Week Dance is planned for February 27, with the Joint Efforts, formerly the Undertakers of Amarillo, providing the music.

Mrs. Lemons, has been called "Ma" by many a teenager these past five years that she has been managing the Community Center, as had Mrs. Clyde (Eula Lee) Cave the five years previous. With a geniune interest in young people, these women have contributed much to the betterment of the community.

Rules and regulations governing the Community Center have changed little since it opened. The following are those rules wich have gone into the making of the community center

**HEREFORD COMMUNITY CENTER RULES**

1. NO ONE WILL BE ALLOWED IN WHO HAS BEEN DRINKING INTOXICATING BEVERAGES
2. NO SMOKING IN THE BALL ROOM
3. Keep our Community Center clean and attractive.
4. No running or rough playing in the building. (NO FIGHTING)
5. Respect the rights of others who use the building.
6. Please keep the kitchen and all other rooms clean after use. This also goes for the room which you use.
7. Just students attending High School or College are allowed at the High School Dances. Freshmen may attend a High School Dance if they have a date with a High School Student.
8. Married students will be admitted to the dances, both students must be in school.
9. Teenagers are asked not to loiter on the parking lot during dances.
10. Please do not throw trash or rubbish on the parking lot during dances.
11. HIGH SCHOOL STUDENTS ARE ALLOWED TO LEAVE THE DANCES, ONLY ONE TIME DURING THE DANCES. After that, one will not be admitted. No one is allowed to leave a Junior High Dance before it is over unless that person's parent comes for them.
12. Dances for the week will be posted in the display case next to the entrance doors.
13. Persons wearing blue jeans will not be allowed in the dances.
14. Vandalism in the Community Center will result in suspension for three months from the Center.

Anyone violating the first rule will be refused admittance, if asked to leave, and will be subject to loss of all privileges of attendance and participation at the Community Center. This is a most embarrassing situation for all of us, and to continue our teenage dances we need the cooperation of each of you.

WRITTEN AND ADOPTED BY THE STUDENT COUNCIL COMMITTEE AT THE COMMUNITY CENTER

Connie Hoover-Chairman
Mary Frances Lemons — Director

**NOICE TO JUNIOR HIGH STUDENTS:**

Rowdiness, such as pushing, fighting or rough playing will not be allowed in the Center. Violation of this rule will result in suspension for the next dances. Further violations of this rule will result in three months suspension. Deposit paper cups in trash.

**INTOXICATING BEVERAGES**

There are several reasons why alcohol and our Community Center just can't be mixed. First, Consumption by anyone under twenty-one years of age in public is illegal. Second, Many people (including many teen-agers) are offended by alcohol. Third, Many who do consume some alcohol are not able to stop before reaching a state where their conduct becomes intolerable, so to keep from having to judge just when the line is crossed it is easier on all of us just to eliminate it altogether.

We must not forget that the tax-payers who furnish us this wonderful place for our parties, dances, and get-togethers have the right to close it up, or restrict its use, and that they are likely to do so if our conduct is not what they have a right to expect from us. We all know that a few of us could cause a situation that would lose this place for all of us. Therefore, we must recognize and follow the rule that there shall be absolutely no drinking of any kind of intoxicating beverage at, or around the Community Center, and that no one who has been drinking will be allowed to attend any function at the Center. Anyone violating this rule will be refused admittance and participation at the Center, for not less than three (3) months for each violation, at the discretion of the director.

But all in all it is not the rules that make the Center. It is the kids.

Mrs. James E. Hill
. . . nee Cathy Hampton

## Miss Hampton Recently Wed

Mr. and Mrs. James E. Hill are now at home at 507 W. 5th, Hereford, after their recent marriage in Avenue Baptist Church with the Rev. Don Larkin, pastor, officiating.

The bride is the former Cathy Lynn Hampton, daughter of Mrs Patsy Hampton, 808 Union. Hill is the son of Mr. and Mrs. J.R. Hill of Hale Center.

Serving as their attendants were Miss Terri Townsend and Wayne Johnson.

The bride attended Hereford High School and West Texas State University and is employed by Southwestern Bell Telephone Co.

Hill attended Hale Center High School and WTSU and is employed by Hereford Feed Yards.

## Daniel Larson's Granddaughter Killed In Dallas

Miss April Tuft, granddaughter of Mr. and Mrs. Daniel Larsen, Hereford, manager of a 7-11 Grocery Store in the Dallas area, was fatally wounded by a robber's gunshot, Wednesday evening.

Miss Tuft was conversing with a friend by phone, when she told this friend to notify police of robbers coming into the store. When police arrived within minutes, Miss Tuft had been shot.

Burial will be Saturday afternoon in Monroe, Utah, under the direction of the Neil Maglaby Funeral Home.

Miss Tuft is also survived by her mother, Mrs. Donna Leftwich, of Lubbock.

No one knows how long the El Molo have lived near Lake Rudolf in Kenya. European explorers discovered the tiny settlement only 80 years ago, when County Samuel Telecki and Ludwig von Hohnel first sighted the lake.

The first theft set up a Cadet touchdown, the second killed a CSU scoring threat and Maattala ran 32 yards for a touchdown with the third in the Falcons' 31-0 victory.

# Initial Plans Underway For Annual Science Fair

Initial plans are now underway for the annual Hereford Science Fair, according to Pat Hughes, assistant principal at La Plata Junior High School, as every school in the district has already indicated they will have entrants in the show which is planned for Feb. 25-27 at the Bull Barn.

Hughes reminded that entry blanks are to be turned in by Feb. 6 at the offices of the schools in which the entrants attend.

All the city elementary, junior high and high schools will be entered in the show as well as St. Anthony's and Walcott schools.

In commenting on the upcoming show, Hughes said, "Last year he had over 400 entries and are hoping that the show this year will be equally as good.

"Here to fore, we have always stressed quantity in the various displays, but the accent has been changed this year to that of quality instead," he added.

The show will be divided into three classifications for entry, those being the intermediate class for 4, 5 and 6 grade students who will compete openly against one another for top honors; the junior class, for 7, 8 and 9 grade students where boys will be competing only against boys and girls will be competing only against girls; and the senior division for 10, 11 and 12 grades students where the same rule applys for these entries as for the junior division.

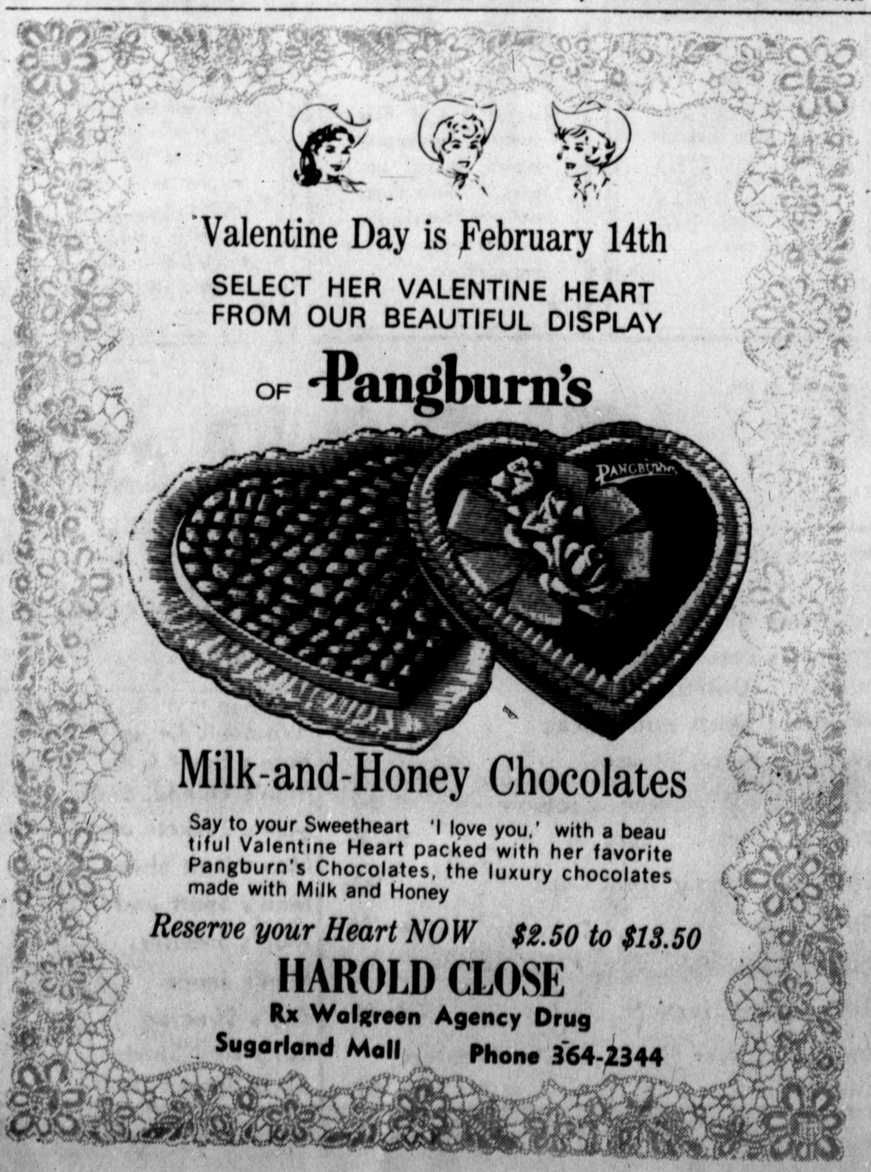

Divisions to be entered in will be botany, medicine and health, zoology, chemistry and biochemistry, earth and space science, physics and mathematics.

A grand champion will be named as well as the next four highest placing winners.

Judging of the winners will take place the evening of Feb. 26. Judges for the fair will be Eugene Schanghaus, head of the science department at Panhandle; Mrs. Elaine Ledbetter, head of the science department at Pampa; and Mrs. Paulene Green, head of the science department in Dumas.

On the final day of the fair, the public is invited to attend the show to view all of the projects. This can be done between the hours of 9 a. m. and 6 p.m. Feb. 27.

Students who plan to enter the show are again reminded that entries must be turned in before Feb. 6. Those attending Hereford High School can turn their forms in to Tommy Rossin or Daisy Huntsinger; for Stanton, to Rosemary Shook; for La Plata, Hughes or Roger Huber; for Aikman, Howard Birdwell; for Bluebonnt, Rodney Laubhan; Central, Paul Abalos; Shirley, Larry Brown; St. Anthony's Sister Catherine Abeyta; Walcott, Scatt Russell and Northwest, Gary Billingsly.

## PIPELINE PEOPLE

# Operation: Communication

Operating a 10,000-mile-long natural gas pipeline system as a smoothly-functioning unit demands coordination. And that takes communication.

An order to increase gas flow, a message to a service truck, transmission of accounting data—all depend on our communications network which ranges over 50,000 channel miles. And we depend on our Communications Technicians to make sure NGPL communications facilities are at peak efficiency at all times.

NGPL Communications Technicians are thoroughly skilled in working with very high frequency radios, microwave installations, and computerized control systems.

They are pipeline people—vital links in a giant private industry serving the public interest.

# Gladys' Garden

By Gladys Howton Manjeot

This is the time of year when we begin to learn of the new selections in the field of horticulture. Some of the new introductions for 1970 are just wonderful, and am sure will add much to our gardening. It is always a real pleasure to meet new friends, so let me introduce you to some of the new garden friends. These have been tried and found true and beautiful.

For admirers of roses, let us imagine a loud, fantastic fanfare is being sounded with the admission of the new comer. Yes this year, we have only one ALL-AMERICAN WINNER, in the rose introductions. It is called FIRST PRIZE.

Is a new hybrid tea. To win such an honor, the entire plant must be outstanding. Those who selected the rose as the winner, thought probably that its most outstanding characteristic was its bud. In describing it, they stated that the bud was very distinctive, and classically urn-shaped. The color is a deep rose pink, sometimes the bud (in the testing gardens) reached a growth of four inches in length. The high centered, slowly opening rose, opens in a spiral motion until when it is fully in bloom the blossom measures six inches or more across. It is blended in color being tinted a delightful shade of rose pink to light red, accented by a silvery reverse. It is a good keeper, and is thought it will not only be popular for the home gardener, but that it will become a good commercial rose. The bush shows vigorous growth habits, the bush having lovely leathery foliage, and is a beautiful green. In the testing gardens it was known as Number 2774, and now since it has been named FIRST PRIZE, it is going to prove a very popular rose, and am sure will produce gorgeous blossoms, and add great beauty to our gardens.

IRISH GOLD, is a lemon-colored rose, and has been named the rose of the year. Some of those who aided in growing and perfecting it, exclaimed WOW! when they noted its growth, and the beautiful unique bloom form. Round, clear yellow buds open into perfect "star-burst" blooms, and the delightful petals as they unfurl, are tipped with pink. This is more noticeable when it is cool. It was proven to be an excellent cut flower, having long stems, straight and full with luscious foliage, and another good feature or characteristic is that it is weather resistant, hot, cold, wet or dry — therefore it should prove very popular for our home growers and others. Is a continous bloomer all season. Another descriptive word used in its description was that the color reminded one of the men, who assisted in the testing garden, of fresh churned butter. Remember?

The rose has flourished on earth since before man, so states some of the writers of a noted rose company. It was further stated that its cultivation started with the beginning of time. It is called the KING of flowers and only the hard hearted person who does not appreciate beauty, or respond to opening blossoms of a rose could possibly fail to be thrilled over the beauty of even one single rose bud or open blossom.

For the new-comers, if you haven't planted roses, and are planning your garden be sure and include roses. Most every variety does well in Hereford. Even tree roses have been grown here. The only draw-back to having them is that they take extra care, when it comes time to put them to bed for the winter. Hybrid teas, floribundas, grandifloras, climbers, miniatures, old-fashioned, and most any other type grows well here.

Some of those which are tried and true, in the hybrid-teas are: Peace, Chicago Peace, Mr. Lincoln, Pink Peace, Lucky Lady, Matterhorn, WhiteKnight, San Antonio, Miss All America Beauty Garden Party, Tropicana, Duet, Sterling silver, First love, Helen Traubel, Sutter's Gold, and Mirandy. These are just a few, and there are many others. Some of these have been grown in the Memorial Rose Garden at The First Baptist Church, and if you wish to wait, you can find them in a profusion of bloom in June.

Grandifloras (which are a cross between Hybrid teas and floribundas) do exceedingly well in Hereford, one of the greatest amount of blossoms and probably the most continous bloom, they do extremely well here. Some of the best are: Ma Perkins, Goldilocks, Fashion (this one I personally recommend as one of the best) Ivory Fashion, Europeana, Red Pinocchio, and Else Poulsen (this is a wonderful grower, but is bad, to have mildew.)

If you are most interested in roses for fragrance, then I give you the following named varieties: Mister Lincoln, Crimson Glory, Chrysler Imperial, Fragrance, Bewitched, Pink Peace, Sugar Plum, Tiffany, Golden Masterpiece, Stering Silver, and Sutter's Gold.

For lasting cut flowers, the following have been tested and proven to be good: Tropicano, Camelot, Montezuma, Christian Dior, Miss All-American Beauty (this is one of the loveliest roses I have grown) Peace, and White Knight (this is a most beautiful white rose).

Climbers, the following are good: Blaze (the new variety), Peace, Tom Thumb, Don Juan, Crimson Glory, High Noon, Circus, White Dawn, Gladiator and Chrysler.

For a beautiful single rose for and continious bloom, I am pleased to name Dainty Bess, as the very loveliest single rose that one can grow. It is a dainty pink, and is a profusion of blossoms from early spring to frost. It is excellent for flower arranging, and also works up well for corsages. This is a MUST for the rose garden. It is one of my first choices for this year.

Roses are very versatile, in that they are adaptable to most any garden design, and they can be used for accent planting, for mass effect, or for that certain something that you want your garden to have. Grow Roses.

DO: As you plan for your own plantings, remember we owe some beauty for our hometown, to accent this I give you the following definition of CIVIC DEVELOPMENT." Anything which lifts conditions in ones own community, and aids in creating beauty for the enjoyment of others.".

Gardening does much for the gardener, it is one of the best therapeudic measures I know of. GLAD.

P. S. My potted miniature rose is in bloom!

## Waiting Wives Meet Tonight

A joint meeting of Waiting Wives' and Mothers' Organization is scheduled at 7:30 p. m. today at the home of Mrs. Corinne Neely, 315 Ave. B.

All women whose husbands or sons are currently serving in any branch of the military service are invited to attend. Films of a recent trip to Hawaii will be shown by Mrs. Jerry Curtsinger.

At a recent meeting the wives set the regular date of their single meeting for the second Tuesday of each month at 7:30 p. m. in the home of Mrs. Neely.

A new members, Mrs. Bryan Baum, was introduced to the group and dates were set for touring Deaf Smith County Museum and to attend a movie together.

The members also made plans for making and sending Valentine cookies to their husbands.

In future meetings, the members are hoping to learn to crochet current clothing patterns.

# Amarillo Attorney Seeks Senatorial Seat

Jack Hazlewood

Amarillo attorney Jack Hazlewood said today that he will become a candidate for the Texas Senate representing the 31st Senatorial District.

Hazlewood said: "The people of the Panhandle will be faced in the Seventies with an opportunity to participate in the greatest period of growth, change and diversification yet seen in Texas. Active and dynamic leadership in the political arena is necessary if we are to have an effective and substantial involvement in these great events to come. We stand at the crossroads, and the direction we take can determine the outcome of critical events, many of which we cannot even now foresee.

"Our course will be directly affected by the quality of leadership exercised by our next Senator for the 31st Senatorial District of Texas. Whether to offer myself for nomination to this important post has been for several months a question with which I have been deeply concerned. I have been encouraged to do so by a large number of persons from all walks of life. My decision has been made after long and hard study and deliberation.

"Your future and mine and the future of our children and loved ones in the Panhandle is of paramount concern to me. Therefore, I have decided to seek the nomination of the Democratic Party for the office of Senator for the 31st Senatorial District in the May Primary.

"Some of the great issues which will come before the Legislature in the Seventies deserve special comment:

"First and foremost, ways and means must be found to make punishment for crime more effective and certain. United States Supreme Court decisions now confront our policemen and lawmen with an increasingly complex set of rules and regulations which in many instances prevents the punishment of criminals and permits them to roam at large undeterred by fear of quick and speedy prosecution and conviction. I pledge untiring efforts in the cause of criminal law reform.

"Second, the Panhandle needs diversification of its economy. It needs more industry and an increasingly more solid base of economic support for its people. The State government can serve in an active and positive way in this area. We should be eager to utilize the machinery and the influence of State government to provide a better climate for business, agri-business industry, and for the many thousands of people who prosper or suffer in direct proportion to the health of the business community.

"Third, Texas should have the finest school system in the nation. We must continue and accelerate all programs which are concerned with the improvement of the Texas public schools, junior colleges, and institutions of higher learning. We have only one four-year University in the 31st Senatorial District, and its Senator should do everything within his power to promote it so that it will not only grown in size but so that it will steadily enlarge its influence and its role in the nation's educational system. The junior colleges of the district should always be promoted by its Senator, and I pledge unyielding support for all of these institutions.

"Fourth, there will always be the battle over taxes. Competing special interest groups will always seek this or that advantage in the Legislature when it is time to pass a tax bill. Taxes should be fairly and evenly borne by the people and no one segment of the economy or the population should be singled out to bear a disproportionate share of the tax load.

"Finally, I suggest that the most effective representation for people in this area will come from a man who makes it his business to be concerned and interested in the problems of Texans everywhere, so that when the time comes for the Senator from this district to seek the cooperation and assistance of Senators from the other areas of Texas he will be met with a friendly reception.

"I submit my candidacy to the citizens of the Panhandle believing that I am well qualified for this important responsibility. The professional experiences I have been privileged to participate in during the past eighteen years of active and independent law practice and the involvement in legislative matters as a lawyer have equipped me to serve ably and competently as your State Senator."

Hazlewood, candidate for the Texas Senate from the 31st Senatorial District, has been engaged in a general law practice in Amarillo, Texas, for the past eighteen years.

He is 43 years of age, was born in Amarillo in 1927, and has lived there all of his life. His parents were Lucille and A. J. Hazlewood, who was for many years Secretary-Treasurer of Blackburn Brothers, Inc. He and Grady Hazlewood are cousins. His grandfather, George Cook, lives in Canyon, Texas. His wife is the former Mary Elizabeth Archer and they have three children, Richard, 16, David, 14, and Anne-Marie, 5. They live at 2601 Henning Street, Amarillo.

He graduated from Amarillo High School in 1945, the University of Texas in 1949, BBA with honors, and the University of Texas School of Law in 1952, LLB, with honors.

He established a record of scholastic achievement as follows: 1952 Hildebrand Moot Court Winner before the Texas Supreme Court; Comments Editor, Texas Law Review; Order of the Coif; Chancellors; Research Assistant to Professor Robert W. Stayton, Quizmaster to Dean Page Keeton; Board of Directors of Peregrinus; Phi Delta Phi Legal Fraternity.

He is immediate past-President of the Amarillo Bar Association, having previously served as an Executive Committee member, Vice President, and President-Elect. He has appeared beore members of the Texas Legislature as a spokesman for the Amarillo Bar Association in opposition to proposed legislation which would have eliminated jury trials in workmen's compensation cases. He has alo spoken before various interested groups in opposition to the Keeton-O'Connell Basic Protection Plan which would place our present system of accident reparations under administrative agency supervision. He has served as Secretary-Treasurer and Director of Amarillo Legal Aid, Inc., a non-profit corporation wholly financed by Amarillo Bar Association members, which provides legal aid for needy persons.

He is a Fellow of the Texas Bar Foundation, a Director of the Texas Trial Lawyers Association, a Member of the Continuing Legal Education Committee of the Texas Bar Association, Chairman of the Bar Candidates Committee of the Amarillo Bar Association, and a member of the Amarillo, Texas, and American Bar Associations.

**VOE STUDENT OF THE WEEK** — Chosen as this week's VOE student is Miss Beki Edelmon, daughter of Mr. and Mrs. Bill Edelmon of 409 Avenue K. Beki, a 17-year-old senior at Hereford High School is employed at Hereford Brick Company under the Voactional Office Education program. She is supervised and employed by M. H. Richie, shown above. After graduation Miss Edelmon plans to further her education in the field of Data-Processing. —Staff Photo

## *Is Honored*

Miss Terri Jan Townsend, whose marriage to Terry R. Johnson will take place Feb. 12, was honored with a bridal shower Monday evening in the Community Room of the First National Bank.

Hostesses for the occasion were Misses Kathie Haworth and Donna Woodward.

Personal gifts were presented to the bride-to-be and refreshments of punch and cookies were served informally by the hostesses.

Miss Cathy Hill registered the guests who were close friends of the honoree.

# American Music Is Study Club Topic

Atonality and Serialism, was the program presented by Mrs. Bill Penn to members of Music Study Club at a Monday meeting held in the home of Mrs. R. C. Godwin. Mrs. Clifford Trotter was co-hostess.

In her lecture, Mrs. Penn said Americans have always been conscious of a certain style of American music including plantation or negro melodies composed by Chadwick, and Edward Mac Dowell was attracted by primative Indian music. Later, composers made use patriotic, popular and folk tunes, hymns, vaudville songs and jazz which are all distinctly American.

Atonality and Serialism are out-growths of years of experimentation in trying to rid music completely of tonal feeling. Stravinsky was an example of composers who used this method.

Mrs. Ellis Coombes accompanied the group at the piano as they sang the hymn of the "Love Devine, All Love Exceeding."

Selections played by members included Characteristic Suite, Number 1 (Julia Smith), played by Mrs. Paul Lyons; and Twelve Tone Pieces for Children, Number 4, Number 6 (Otto Joachim), played by Mrs. Coombes.

Others attending were Mmes. J. R. Allison, Tom Burdett, Mack Cansler, W. T. Carmichael S. F. Clements, W. E. Dameron, Bill Devers, Wes Fisher, J. C. McCracken, T. W. Roberson, A. J. Schroeter, A. O. Thompson, Ed Line, D.W.Palmer, Glenn Snyder, Miss Frances Dameron, a new member, Mrs. Jud Nowotny and two guests, Mrs. Gid Brown and Mrs. Gloria Brownd.

Mrs. Allison and Mrs. Cansler will host the next meeting Feb. 9 in the Allison home. Program topics will be Parade of American Music.

# Hymn Origin Is Messenger Club Program

The origin and history of hymns entitled "A Hymn Is Born" was the program presented by Mrs. S. N. Thweatt to members of Messenger Home Demonstration Club at a Friday luncheon in the Thweatt home.

She also read the history and sang the song, "What A Friend We Have In Jesus."

Following the musical program Mrs. Thweatt gave a demonstration on making hats from net and bleach bottles with each member participating.

During the business session, Mrs. Gene Bradley was elected as club nominee for district meeting and plans were made to sponsor a political rally.

Senior citizens selected by the club were Mrs. W. A. Campbell of West Gate and Spain Thweatt of Levelland.

It was voted by members to collect Betty Crocker coupons for the purchase of a kidney machine for Larry Parks of Circleville, Ohio.

It will take 600,000 coupons to purchase the machine.

Mrs. N. A. Brown was honored on her birthday with gifts from the club members. Mrs. John Hill won the floating prize and Mrs. J. E. Sorrells won the game prize.

The next meeting is scheduled Feb. 13 in the home of Mrs. Elmer Northcutt.

**DE STUDENT OF THE WEEK** — Selected as this week's DE student of the week is Miss Kay Lynne Alexander, 17-year-old daughter of Mr. and Mrs. Irving Alexander, 131 Kingwood. Kay Lynne, a junior at Hereford High School and a Distributive Education student, is employed at Gaston's downtown. Upon graduation Miss Alexander plans to attend a business college and major in retailing and buying. She is pictured above with her supervisor, Mrs. Bill McCarver. —Staff Photo

# DPS Seeking Applicants

The Texas Department of Public Safety is seeking applicants to fill the ranks of its uniform services. The training schools for cadet patrolmen will begin February 10, March 17 and May 5. This announcement was made by Major C. W. Bell, Regional Commander of the Texas Department of Public Safety for this area.

Applicants must be males between the ages of 20 and 35; a height of not less than 68 inches nor more than 76 inches; a weight of not less than two pounds nor more than three and one-half pounds per inch of height; visual acuity no less than 20-40 correctable to 20-20; a high school graduate or equivalent; in excellent physical condition; good moral character; and a citizen of the United States.

Applicants are urged to contact any Texas Department of Public Safety office or patrolman for an application. After completing the application take it to the nearest regional, district or sub-district Texas Department of Public Safety office for verification and certification. If all is in order then the written test will be administered which will qualify or disqualify the applicant for further consideration. Successful applicants will be given an agility test, a character investigation and a physical examination. Those accepted for employment will be notified prior to the beginning date of the next training school.

Cadet patrolmen will be assigned to the Texas Department of Public Safety Law Enforcement Academy in Austin, Texas for a 17-week training period. The cadet will receive some 800 hours of intensive classroom work and supervised study. The training is designed to equip the cadet to handle any of the various situations he may encounter as a patrolman. The training of a patrolman is a test of an individual's intellectual, emotional and physical stamina. It is also an educational process which prepares him for a rewarding career in law enforcement.

In addition to classroom work the cadet is taught self-protection by means of judo, boxing, wrestling, and other police-protection methods.

The salary during training is $525 a month. Room and board while at the academy will cost the cadet approximately $50 per month.

Upon being commissioned a patrolman, the salary is automatically raised to $630 per month. Effective September 1, 1970 the salary will increase to $651 per month. Patrolmen receive additional longevity pay for each five years of service to a maximum of 25 years. Uniforms, vehicles, weapons, ammunition and necessary equipment are furnished. They are also granted a monthly uniform cleaning allowance, and receive travel expenses when away from their assigned station. Group life and hospitalization insurance are available at reasonable cost. The patrolmen become members of the Texas Employees Retirement System and the Social Security System. Vacation, holidays, and sick leave are also provided for the patrolmen.

Assignments will be made to one of the four uniform services — Texas Highway Patrol, License and Weight Service, Motor Vehicle Inspection Service, or the Driver License Service. These assignments are made according to the individual's preference, his aptitude, available vacancies, and the Department's needs. Requests for a specific home station will be given every consideration.

After two years of experience each patrolman is eligible for promotion to Sergeant in the uniform services and also eligible for transfer into the Narcotic and Intelligence Sections.

All interested young men who feel like they meet these requirements are urged to contact the nearest Texas Department of Public Safety Office or patrolman for an application and details.

# Lutherans To Observe Evangelism Day

The Immanuel Lutheran Church of Hereford will observe Evangelism Festival Day Sunday, with the worship service emphasizing evangelism.

Mr. Dan Williams, from Irving, a member of the Board of Evangelism of the Texas District of the Lutheran Church, Missouri Synod, will be present to conduct the Adult Bible Class at 9:45 a. m., and also to conduct an evangelism workshop at 1 p. m., following a light noon luncheon.

Per-capita corrugated fibreboard box consumption in the U. S. amounts to almost 100 average size boxes for every man, woman and child in the country.

# Tour Is Taken By School Men

In a special meeting of the Board of Trustees of the Hereford Independent School District last week, a tour was taken of the Area Vocational School, followed by a brief business session where new contracts were extended to three school officials.

The Board, along with the school administration, ate lunch in the Junior-Senior High School cafeteria and adjourned to the high school for a tour of the vocational facilities. The tour included an extended demonstration in the Graphic Arts Department with Marvin Hunter and his students demonstrating the use of all equipment in the classroom.

The group made an inspection of the building trades department and the portable classroom being built by this class. Stops were made in other vocational classes including VOE, ICT, DE Auto Mechanics, Cosmetology and Electrical Trades.

Following the tour of the vocational building, the officials returned to the administration building where they conducted a brief business meeting.

At the business meeting, Bill Phillips was placed on an 11-month contract for the school year and given a 2-year contract for 1970-71 and 1971-72 while Bob Holman was given an extended contract of three years with an increase for in-district travel of $62.50 per month.

Tom Harkey had his contract also extended for two years with an additional $33 per month for in-district travel.

Also discussed at the meeting was a letter from the American Association of School Administrators to Roy Hartman, superintendent, inviting him to be one of 30 school administrators to represent the United States in an International Field Study Mission to Scandinavia. This mission is sponsored by the American Association of School Administrators and the superintendents are nominated by state officials.

Hartman expressed the importance attached to this kind of venture and a sincere interest in pursuing this type of study, but related to the board this seems not to be the appropriate time for accepting the invitation. Hopefully, Hartman said, it may be extended again in a few years.

**TOUGH TIME AT CENTER**

DENVER — Larry Kaminski of the Denver Broncos may be 245 pounds but he knows the toughest time for a center is when it comes time to center the football for placement kicks.

"It's murder," says the former Purdue athlete. "You've got your head down and all of your weight forward on the ball. When you make the snap there is no way to protect yourself. The defenders try to come right over you to block the kick. They give you a real going over every time."

# Elks Lodge Attempting To Redeem Membership

In an effort to "get back on their feet" and start the new decade off right, the Hereford Elks Lodge, facing the cancellation of their charter, held a meeting Tuesday night in which new officers were elected and plans were put into motion to get the club going again.

Elected as new officers were, C.D. "Doc" Kelton, Exalted Ruler, Joe Hefley, Leading Knight, C. L. Clark, Loyal Knight, Nick Hobbs, Lecturing Knight; Rayburn Strange, secretary; Charlie Noland, treasurer; Jake Moseley, three-year trustee; Dick Barrett, two-year trustee; and Jim Cramer, one-year trustee.

A large number of dignitaries from state and local levels were in Hereford last week to discuss the problem of lack of participation in the Hereford Lodge. Among those attending were Darwin Campbell, Galveston, chairman of the state Image; Alex A. McKnight, Dallas, chairman of Grand Lodge, New Lodge Committee; Bob Biffle, Galveston, president-elect, Texas Elk Association; Harry N. Phelps, Arlington, president, Elks Association and Gene Morton, Grand Prarie, chairman, State Activities.

Also present among those interested in getting the local club back on its feet were S. R. York Amarillo; L. C. Williams, Borger; T. C. McLain, Lubbock; B. D. Scott, Borger; Bryant Flowers, Pampa; Dale Irwin, Plainview; Sam Hall, Plainview; Sam Cross, Amarillo; T. O. Wilkins, Lubbock; Sid McDonald, Lubbock; Don Elmore, Perryton and C. D. Riggins, Perryton.

Those from Hereford attending the meeting were Nick Hobbs, C. L. Clark, Ralph McCullough, Dick Barrett; Jim Pavlicek, Charlie Noland, Durward Hamby, Guy Lawrence, Dave Beavers and Rayburn Strange.

The club has planned another meeting for Tuesday to get the ball rolling and has invited all interested members and non-members to attend. The meeting is set to begin at 8 p. m. at the Elk's Lodge, located on the 100 block of East Second.

# Large Rise Is Expected In Local Pension Checks

NEW YORK — What will the new social security legislation, liberalizing pension rates, do for residents of Deaf Smith County?

How much more will they be receiving from Washington per year? What will the average payment be, compared with what it was last year?

It is estimated that the change in retirement benefits, approved last month by Congress, will add approximately $200,0000 a year to the amount that local residents have been collecting.

The estimate is based upon the latest statistics for the county, released by the Social Security Administration. They show the number of retired and disabled workers, as well as dependent relatives, on the pension rolls, and the amounts paid them.

All of them will be aided by the legislation. Those who have been getting no more than $660 a year, the minimum, will now get $759. The ones who were receiving $1,320 a year will go to $1,518. Those who have been at the $2,100 level will now collect $2,415.

What is the most that is paid? Under the new schedule, a worker who has just retired at age 65 and has had maximum taxable earnings will now receive $2,278 a year if single. If married and his wife is 65 or older, their total will be $3,416.

It is expected that there will be further revision in the social security laws sometime this year. In temporarily dropping the Senate's call for a major increase in minimum payments there was a tacit understanding in Congress that this and other issues, left hanging, would be taken up in 1970.

As of the beginning of last year, pension payments in Deaf Smith County averaged $862 per year per recipient, the Social Security Administration reports.

Under the new setup, they will collect approximately $991 on average.

As for the total payments throughout the local area, based upon the number who were on the pension rolls at last count, they will amount to some $1,532,000 this year, a considerable rise over the prior total of $1,332,000.

Although the increase was effective as of January 1st, the checks covering the increments will not arrive until April.

Simms Study Craft Club, 2 p. m., Mrs. Willis Duggan hostess.

United Presbyterian Women's Association lunch at church, noon.

Hereford Lions Club at Jim Hill Hotel, noon.

# Small Farms To Receive Benefits

The 1970 feed grain program of the U. S. Department of Agriculture includes special provision for farms with 25 acres or less in their feed grain bases, according to Frank J. Bezner, Chairman of the Deaf Smith County Agricultural Stabilization and Conservation (ASC) Committee.

Also, producers with feed grain bases up to 125 acres will have the option of temporarily reducing their bases down to 25 acres to become eligible for the small farm provisions. No corn, grain sorghum or barley is to be planted for harvest on farms with temporarily reduced feed grain bases, and the 25-acre temporary base must be diverted to conserving uses.

The small-farm provision is the same as in previous years. A farm with a feed grain base of 25 acres or less can qualify for payment on the first 20 percent of its diverted acreage. (For farms with larger bases, no payment is made for the required 20 percent diversion.)

The payment rate for the first 20 percent diversion on small farms will be based on 20 percent of the estimated total county price support times the farm's projected yield on the 20 percent reduction. The remaining diverted acres will earn payment based on 40 percent of the estimated total county price support times the farm's projected yield. The entire base may be diverted from feed grain production on farms with bases of 25 acres or less.

Other provisions of the 1970 feed grain program are the same for all participating farms This includes price-support payments, availability of price-support loans, wheat-feed grain substitution, and sign-up and compliance requirements.

Sign-up period for the 1970 feed grain program will be February 2 through March 20 at the County ASCS office. Sign-up for wheat and cotton programs will be held during the same period.

# Riders Club Practices For Area Competition

Hereford Riders Club members recently met for their first play-day practice of the new year with activities being practice games to be entered in later competition with other clubs in district 2. Participants included those as young as four years of age.

According to Mrs. R. W. Shelton, anyone interested in Pony Express and Polo is invited to attend the practices at the Hereford Riding Arena.

The Riders Valentine party has been changed to 8 p. m. in the Hospitality Room of the First National Bank on Feb. 13.

?

IS COMING!

NOW LOOK HERE, POP! — Things have changed in Aggieland. Or so it might seem that Gerald Witkowski is telling his father, Leo Witkowski, prior to going to work on a juicy steak. Witkowski, five other Texas A&M students and one prospective Aggie, were feted by their fathers Tuesday evening at the Chapparral Restaurant. Students in attendance were Witkowski, Robert Grady, Steven Olson, Russell Phillips, Rodney Herr, Charles Stone and Charles Atchley.

# Third Candidate Files For Post

The race for the post of county treasurer picked up this week with the announcement by Mrs. Vesta Mae Nunley of her candidacy for the post in the May 2 Democratic primary.

Mrs. Nunley joins in the race for the office with Mrs. Wanda Newman and Mrs. Nell Williams.

The post is being vacated by Mrs. Velma Hodges who has been county treasurer for the past 30 years.

Mrs. Nunley was reared in Westway community where her parents still reside. She graduated from Hereford High School and attended West Texas State University.

She started her working career teaching school and more recently has done substitute teaching in the local school system. Her bookkeeping background has been acquired over a period of years working for Simmons Fertilizer and Grain Company, Associated Growers, M&N Humble Service Station and Packard Milling Company.

For the past two and one-half years, Mrs. Nunley has assisted her husband, W. T. in the operation of the Westway Store.

The Nunley's have a daughter, Mrs. Jackie McNeese of 513 Ave. K, and two sons, Ronnie of the U. S. Marine Corp., who is enroute to a base in Hawaii, and Ricky, who is with the U. S. Army now stationed in Vietnam.

Mrs. Nunley stated, "I feel that I am qualified to fill the post of County Treasurer and if the voters support and elect me, I will serve them with honesty and integrity in performing the duties of office to the best of my ability."

# Rites Pending For Pioneer

Funeral services for H. C. (Mike) Baird, of 111 Douglas, who died at 4 a. m. Wednesday in a Corpus Christi hospital, following a long illness, are pending with Gililland Funeral Home.

The Rev. Russell A. Wingert, pastor of the First Presbyterian Church, will officiate.

The son of the late Mr. and Mrs. R. W. Baird, he came to this area with his family by covered wagon in 1892 and moved to Hereford in 1902.

He attended school in a wooden building located where Shirley School now stands and later attended Christian College in Hereford. He was a member of the first football team organized here in 1910.

He married Miss Mary Hill in June, 1916 and carried on a successful partnership with his father in the cattle business for some 30 years.

They moved from the ranch to their present residence in 1960.

He was a member of the First Presbyterian Church.

The Bairds have been in Corpus Christi with their daughter and son-in-law Dr. and Mrs. John King, since October.

Survivors include his wife, Mary; one daughter, Mary Ann King of Corpus Christi; one son, J. R. (Bob) of Seattle, Wash., and eight grandchildren.

# '70 Census Manager Is Announced

Appointment of Robert L. Butler of Amarillo, as District Manager of the 1970 Census of Population and Housing in this area was announced last week by Director Percy R. Millard of the Census Bureau's Regional Office in Dallas.

Butler was with Pinkney Packaging Company for 32 years. He was separated from the Army as a Major.

From the District Office located in Building Number 9316 in Amarillo Air Force Base, supervision of all phases of the census in the following counties will be done: Dallam, Hartley, Parmer, Bailey, Sherman, Hansford, Ochiltree, Roberts, Lipscomb, Hamphill, Wheeler, Collingsworth, Oldham, Castro, Childress, Cottle, Lamb, Moore, Swisher, Donley, Briscoe, Armstrong, Gray, Carson, Hall, Motley, Hutchinson, Potter, Randall and Deaf Smith.

Butler, following several days of intensive training in the Regional Office, began setting up the District Office. He will direct a force of 19 crew leaders and 438 census takers throughout the area.

Taking the 1970 Census nationally will require the services of 12,000 crew leaders, 160,000 census takers, and 393 district managers in addition to 13,000 office personnel.

**INDIA'S COFFEE INCREASES**

NEW DELHI — India's coffee crop for 1968-69 totaled 72,500 tons of which 34,500 tons have been set aside for export. The crop was 15,500 tons larger than last years, but 5,500 tons short of the record 1966-67 crop.

By MELVIN YOUNG

**We're coming down to the wire on voter registration. Just three more days to qualify as a voter and out of a potential of 7,000 only slightly over 5,000 have signed up. That's not a very good percentage in an election year.**

The county tax office, by the way, will be open from 8 a. m. to 1 p. m. Saturday for your convenience, and there will be people in all the major grocery stores all day Saturday, as well as at Gibson's and at the Mall to handle your registration.

And if you still have your card at home, better get it in the mail. It must be postmarked before midnight, Saturday, January 31st.

Get it done today.

—HB—

This is the weekend for the big annual Junior Livestock Show and it appears that this will be another of many successful events.

By the way, our Deaf Smith County youngsters have been making their mark in area competition also, taking a number of prizes in the Amarillo show. Our congratulations to them and best wishes to those entering the local show this weekend.

We also want to express our appreciation to the sponsoring Young Farmers organization. These fellows really have to work to put on a successful show. And if you don't believe it, just volunteer to help. You'll find out the hard way.

—HB—

It may be cold this morning while you're reading this column, but where else in the world would you experience the beautiful weather in the middle of January, that we have had the past week? It's great to live in a place where the winters are mild, and the summers are pleasant, with cool nights for pleasant sleeping.

You just can't beat it.

—HB—

Nothing puts a family in debt as much as a small raise.

—HB—

**The big difference between a little rascal and a juvenile delinquent is whether he is your kid or somebody else's.**

—HB—

Ever wonder why the young male under 25 pays a bigger insurance premium than does the older male or the female?

**We have just been going over the 1969 annual report of the local Police Department, City of Hereford. According to this report, 37.7 per cent of all auto accidents within the City of Hereford in 1969 involved youth in the age bracket of 17 to 25. And out of that 37 per cent, 66 per cent were male.**

We also notice that the local police patroled 165,610 miles last year and answered 29,644 dispatches. Their percentage of residential burglaries cleared last year was 24 per cent, while 20 per cent of the business burglaries were cleared. The national percentage is 19.

The police also held their average up on solving of 23 per cent of the "theft under fifty dollar" charges, but fell below the national average on the cases involving "theft over fifty dollars." The national average is 17.6 per cent, and the locals solved 14 per cent of the cases in this category.

The percentages in almost every case are above the 1968 figures. Only one, the solving of business burglaries, was down and it only by 1 per cent.

**Which indicates to us that our police department is doing a better than average job. We should be proud of them.**

—HB—

By the way, it is becoming harder and harder for city officials everywhere to interest young men in going into police work, primarily due we believe to the interference of the Supreme Court in the handling of criminals. Low pay has been another problem, and if the situations are not corrected soon, we may be without policemen. Private business is offering more and better opportunities and many men, who might otherwise be interested in law enforcement work, are turning to those business and industrial jobs.

—HB—

**A man may "love" his work, but love alone won't feed the family.**

# Auto Inspection Stations Named

"With approximately three months left until the April 15 deadline for obtaining inspection stickers, only 16 per cent of the registered vehicles in Deaf Smith County have been inspected," stated Major C. W. Bell, Regional Commander for the Texas Department of Public Safety.

"This will be the last year for an April 15 deadline as the Texas Motor Vehicle Inspection Program has gone to a year-round inspection program. The new stickers will display the number of the month in which the vehicle was inspected and will be valid through that month of the following year," added Major Bell.

Two items have been added to the inspection list — the exhaust system and the exhaust emission system. A car must now have a muffler and it must be free from leaks. All cars manufactured in 1968 or later coming from the factory equipped with the emission system (commonly known as the smog device), still must have the device connected and in working order.

Deaf Smith County now has 11 official inspection stations that are ready and capable of handling the inspection of vehicles in this area if owners will not wait until a few days before the deadline.

Local inspection stations include Beaver's Motor Company, Enco Service Center, Hereford Radiator, J. C. Penney Company, Inc., Jones Motor, Kemp Auto Repair, Kinsey-Osborn Motors, McRight Garage & Supply, Orval Watson Ford Sales, Powell's Mobil Service and Dick Norwood Chevrolet-Olds.

## 1969 Loans Are Down Over Year

The latest U. S. Department of Agriculture report shows that smaller quantities of new-crop grain sorghum, soybeans, barley, corn and wheat were put under Commodity Credit Corporation price-support loan through 1969 than through 1968.

Frank J. Bezner, Chairman of the County Agricultural Stabilization and Conservation (ASC) Committee, provided these comisons:

Barley (Bushels) 1969 had 36,506,022 and in 1968, 89,407,524; Soybeans (bushels) in in 1969 256,119,346; Corn (bushels) in 1969 were 186,838,000 and in 1968, 180,337,050; wheat (bushels) in 1969 were 353 in 1969 were 353,207,072 207,072 and in 1968, 357,067,818; and Grain sorghum (hundredweight) in 1969 were 12, 485,191 and in 1968, 28,650,852.

He added that repayment of wheat loans from the 1969 crop covered 62.2 million bushels, compared with 29.8 million bushels in 1968. As a result, the net under loan from the 1969-crop wheat totals about 291 million bushels. This is 36.3 million bushels below loans on the 1968 crop at the end of that year.

The ASC Committee Chairman said that although there was substantially less grain sorghum, soybeans, barley, corn and wheat placed under loan in 1969 than in 1968, that loan quantities for some other crops were higher.

Price-support loans on 1969 oats were made on about 111 million bushels, compared with loans in 1968 on about 72 million bushels of 1968-crop oats.

Other than wheat, farmers repaid loans on other 1969-crop loans through December in these quantities: oats, nearly 2 million bushels; barley, 1.5 million bushels; rye, about 143,000 bushels; and grain sorghum, nearly 616,000 hundredweight.

## TFMC To Offer Scholarships

Two partial scholarships of $450.00 each plus $100.00 will be offered in 1970 to the National Music Camp, Interlochen, Mich. for the summer session, by the Texas Federation of Music Clubs. Applications must be completed by Feb. 1.

This is learned from members of Music Study Club of Hereford.

One scholarship is offered for or voice or stringed instrument (excluding piano.) The second scholarship is offered to a player of an orchestral instrument other than strings (wood winds or brass.)

The applicant must be a resident of Texas, interested in a musical career and must be a member of some division of the Texas Federation of Music Clubs. The applicant must be at least a sophomore in high school and a performer of above average talent and ability. A record of past achievements of awards in musical activities will be considered.

TFMC will offer again a full scholarship to Inspiration Point Opera—Workshop in Eureka Springs, Ark. The six-weeks session in June and July is for high school or college voice students of serious and purposeful intent. Students can participate in vocal study, orchestra, dance and dramatic art. Applications must be completed and returned by March 1.

All applications must be made through the chairman of the scholarship board of TFMC, Mrs. Roger Tyler, 2201 Mountainview Road, Austin, Tex. 78703.

## Smith Serving In Newport

Newport, R. I. (FHTNC) Jan. 21 — Navy Chief Petty Officer Lenard D. Smith, son of Mr. and Mrs. D. G. Smith of Hereford, is serving at the U. S. Naval Station in Newport, R. I.

Hale of 505 S. 25 Mile Ave.; and Judy Hollingsworth, daughter of Mr. and Mrs. A. L. Hollingsworth of Route 2 Hereford, have all enrolled for the spring semester at Lubbock Christian College.

Lubbock Christian College is a private liberal arts college now entering its thirteenth year. It is a four year college offering bachelors degrees in fourteen major fields of study.

## French Students Hold Bake Sale

The Hereford High School French classes will conduct a bake sale, Saturday, beginning at 10 a. m., at Sugarland Mall and Piggly Wiggly Grocery Store. According to Karen Gilbert, chairman of the bake sale, the students are striving to obtain enough money to attend a performance in the Canyon High School Auditorium February 8. This Greek play, "Antigon," is portrayed by a French cast, "Eretra de Paris," touring the United States.

Rene Bartard, a former Hereford foreign exchange student, teaches the French classes at Hereford High.

# Tierra Scouts To Hold Dinner

The Tierra Blanca Boy Scout's Annual Recognition Dinner will be held this evening, starting at 7 p. m. in the Hereford High School Cafeteria. Tickets for the event are priced at $2.00 per person.

The presence of all parents of boys, committeemen, den mothers, unit leaders, special unit guests such as those sponsoring institution heads, and district scouters is encouraged. This is an adult function.

This is known as the time of year when special district-wide "Thanks" is given to some of the many deserving men and women who serve boyhood so unselfishly through Scouting. Many outstanding units will be honored.

Installment of Tierra Blanca's District officers for 1970 will also occur at the meeting.

A special recognition for attendance is planned for the unit with the best adult representation.

The Leadership Training Recognition will be presented for those who have earned the Scouter's Key, Scouter's Award, and Den Mother's Award.

Boys who have attained the rank of Eagle Scout in 1969 and also the 50 percent rank advancement award will be presented in the advancement recognition.

Those units who have qualified for the National Camping Award in 1969 will be presented for camping recognition.

"Fall Roundup" banners and certificates will be awarded to all units and leaders reaching their goal prior to Jan. 1, 1970, in the Membership Recognitions.

A Traveling-Recognition will be presented to the unit who has traveled the most man-

# Local Entries Shine At Show

Hereford entries in the annual Amarillo Livestock Show represented a large majority of the winners which competed this week in the lamb, steer and barrow divisions of the show.

In Sunday afternoon's barrow show, the largest in the history of the Amarillo Stock Show, four Hereford residents displayed a number of the top animals.

Frank Bezner, Jr. exhibited the number two animal in the Duroc class while also getting the number two spot in the Class II division.

Jummy Christie displayed the reserve champion of the Cross Breed class and also the grand champion of the Class I Cross Breeds. Rodney Coleman, also of Hereford, displayed the reserve class champion of the Class I Cross Breeds and Lewis Fetsch of Hereford had the number three Class III animal.

In Monday afternoon's steer show Julie McNey, Deaf Smith County 4-H, displayed the number three placing Lightweight Anugs; Kay Atchley, Deaf Smith County 4-H, displayed the number five Heavyweight Angus; Valerie Christie, Hereford FFA, displayed the number six Heavyweight Angus and Miss Atchley also displayed the number four Mediumweight Angus.

In the Hereford's class, Jimmy Christie had the second place Mediumweight Hereford and Rodney Brooks had the number four animal in the same class.

Martha Ann McBride was the number seven place winner in the Mediumweight Hereford class while Christie was the number one animal shower in the Group of Two class. Miss Atchley was the number five placer in the Group of Two class.

miles.

District Chairman for the Tierra Blanca District Committee of 1970 is Nolan Grady. Other officers include Robert Holman — District Vice Chairman, Roy Faubian — District Commissoner, James Hull —Organization and Extension Chairman, Jack McNeese — Camping and Activities Chairman, Charles Bell — Finance Chairman, Tommie Bowling —Leadership Training Chairman, Dr. Milton Adams — Health and Safety Chairman and Bill Phillps —Advancement Chairman.

In Tuesday's Hereford show Conkwright & Sons of Hereford took third place honors with the Bar Real PrDom 21 in the Bull January-Febrauary 1969 class In the Bulls, November-December, 1968, Conkwright and Sons displayed the number three animal and in the Panhandle Special class they also displayed the number three animal.

"Happy Birthday to me—Happy Birthday to me-e!"

# Holly Sugar Sales For Year Reported Down

COLORADO SPRINGS —Holly Sugar Corporation today reported sales for the nine months ended December 31, 1969, were $69.2 million and net income was $583,346 or 38 cents per common share after taxes of $189,000.

This compares with revenues of $80.6 million and net income of $2,629,866 or $1.65 a share after taxes of $1,896,308 in the same period last year.

The company's decline in sales, John B. Bunker, Holly president said, is principally caused by the discontinuance of its cattle feeding operations.

The decline in earnings is attributable to the impairment of the current campaigns due to abnormally severe weather conditions which are materially affecting the quality of this year's sugarbeet crops.

Early freezes and subsequent warm weather have caused continued deterioration of stored and unharvested beets.

Never in the company's history has it experienced such adverse weather over such a broad area, and never has preharvest freezing damaged so much of a single crop as in 1969.

Bunker said although the impact of these conditions on company operations cannot be fully assessed until the latter part of March, 1970, when campaigns are completed or nearing completion, a continuation of these conditions could further adversly effect earnings resulting in a loss for the full year.

However, Holly and its growers, at all affected locations, early negotiated supplemental beet contracts to minimize the impact of storing and processing beets affected by this year's adverse weather conditions.

# 1040 U.S. Individual... Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

**Q) I kept a record of my earnings and withholdings for the year and am all set to file my return. Do I have to wait until I get my W-2?**

A) Yes, one copy of all W-2's must be attached to your tax return when you send it in. Processing of the returns and refunds are delayed if this is not done. You should receive your W-2 no later than February 2.

Note that this year, the W-2 should be stapled to the *back* of Form 1040 rather than the front.

**Q) Is there any change in who has to file a return for 1969?**

A) Filing requirements for 1969 Federal income tax returns are unchanged from last year.

To summarize them, a return must be filed by every person under 65 who had gross income of $600 or more for the year. For those 65 or older on the last day of tax year, a return does not have to be filed until gross income reaches $1,200.

Also, anyone who has net earnings of $400 or more from self-employment, is required to file a return and pay self-employment tax.

Filing requirements also apply to minors. A parent or guardian should file a return on behalf of a child who has gross income of $600 or more during the tax year. In every case, you must file a return to get any refund due.

**Q) I'm a senior at college and I'm due a tax refund on some part-time work I did. Can I claim my own exemption without causing my father to lose the exemption he claims for me?**

A) Yes, if you were a full-time student during some part of five months of the year, you can claim your own exemption and your father will not lose you as an exemption, so long as the necessary dependency tests are met. In this situation, the same exemption can be claimed on two returns, yours and your parent's.

**Q) What taxes can I deduct?**

A) If you itemize deductions, state and local income, sales, gasoline, personal property and real estate taxes may be deducted. These should be listed on Schedule A Itemized Deductions, and attached to your Form 1040.

Those who itemize will find that using the new Schedule A provides more room to list things such as medical expenses and charitable contributions than was available on the back of the old Form 1040.

**Q) Where can I get a copy of your tax guide?**

A) A copy of Your Federal Income Tax 1970 edition may be purchased from most IRS offices for 60 cents. You may also obtain this publication by using the order form on the inside cover of the 1040 tax form package. Send a check or money order with the order blank to the Superintendent of Documents, Washington, D.C. 20402.

**Q) Other than the fact that color makes the form look nicer is there any advantage in having red, white and blue tax forms?**

A) It is expected that color will draw the taxpayer's attention to those areas on the tax form where errors are made which lead to delays in processing returns and issuing refunds. The instructions for using the pre-addressed name label and signing the return, for example, are highlighted in red.

Common reasons for delays in processing returns and issuing refunds are a missing or inaccurate Social Security number or an illegible name or address. When a return is filed using the label showing the taxpayer's correct name, address and Social Security number, this cause for delay is removed.

## Let's Go Fishin'

BY BOB BREWSTER
*Outdoor Editor, Mercury Outboards*

**DON'T BE A FISHING SNOB**

Fishermen should be versatile rather than stuck with only one angling technique.

By being only a fly fisherman, or only a plug caster, or just a light-weight spinning gear enthusiast, many an angler loses sight of the fact that his real goal is to enjoy his sport.

**One of the best ways to unsophisticate your fishing attitude, say the angling authorities at Mercury outboards, is to go trotline fishing. This nighttime sport combines special bait fishing techniques against the feeding habits of such species as flathead catfish and channel catfish. Of course, other fish are attracted to trotlines, but catfish are the most sought species.**

For those who don't know, a trotline is a length of heavy cord stretched across a river or small lake cove, to which are attached hooks on long drop lines (12-18 inches) called staging. This line of hooks is baited and then sunk underwater using rocks for weights.

The first baiting is usually at sundown. From then on, throughout the night, the trotline is "run" (checked for fish and re-baited) about every two hours. This is the most important part of trotlining; constant checking and re-baiting.

In a stream, a good place to set a trotline is the head or foot of a pool of deep water. Here is where catfish feed most actively at night.

Hooks should be staged at least two feet apart. The average trotline usually has no more than 30 hooks. Weights should carry some part of the line to the bottom.

**Baits are the usual catfish getters such as stink bait, cut bait - fish, chicken entrails, blood bait, etc. For carp, the lads at Mercury advise that you use one piece of cotton seed cake with a hook tied to each side.**

CONGRATULATIONS

FFA and 4-H MEMBERS

They spend a lot of time, work and money to enter the Junior Livestock Show; and we personally encourage everyone to visit the Bull Barn this

# BACKGROUND ON BUSINESS

## RELEVANT VALUES IN A CHANGING SOCIETY

*This article was adapted from a speech delivered by J. Wilson Newman, Chairman, Finance Committee and former Chairman and Chief Executive Officer of Dun & Bradstreet.*

There is an old saying that problems are never solved, only shifted and relabeled for the benefit of newspaper headlines. Progress is always identified with problems – political, educational, social, financial – but actually one term covers them all. Problems are "people," people in motion, going somewhere, and sometimes getting nowhere, but always challenging status quo as they seek the relevant

J. Wilson Newman

values in our changing society. The manner in which a man is motivated by the stresses of opinions, ideas and responses identifies his character, and reveals the influences upon judgments and decisions.

Let me enumerate some of the areas where values are under attack. In educational fields there has been noisy evidence that some students feel that their inventory of wisdom surpasses that of their teachers. In *political* affairs there is evidence too, that coercion by the few is more acceptable than the protection of the many. In *credit* matters there has been some evidence that the *creation of debt* may become more valuable than the *accumulation of worth*. In *corporate stockholder relations* there has been evidence that the promise of the bird-in-the-bush years ahead is more valuable than the real thing in the hand now. In other areas of our society, *resistance* is rewarded faster than *cooperation*. In divisive segments of our society, more emphasis is placed on our *differences* than upon areas of *mutual interests* and attainable goals. In the financial world the return on *fixed obligations* has for several years been higher than the *return on equities*, reversing a traditional relationship, and signaling something debatable in a change in financial values.

It might be advisable to pause right here and step back from the scene and get a long range perspective on time and place in the world around us and appraise where we stand in the most amazing decade in history's most amazing century.

Progress in the Twentieth Century is a funeral procession for the ancient legends. The making of miracles is a daily trade in chemistry and metallurgy. What thrill can a youngster get from Aladdin's Lamp when a finger pressing on a button or pulling on a lever can poke a hole in earth's ceiling and cancel the law of gravity? What can the Flying Carpet mean to a lad in a jet that moves faster than the earth around the sun? What can Jules Verne mean to the steel-clad diver nearly seven miles deep in the Marianna Trench? Even the Man on the Moon epic now begets the larger objective of a space hop to Mars. The appetite for achievement sharpens as we devour old objectives, and seek new ones.

The United States is reputed to have the highest standard of living of any nation on this planet, but does this mean that we are the most agreeable, or the most neighborly, or the happiest? Definitions of abstract terms are a bit troublesome. Progress in our day is accelerating at a rate faster than we assimilate, control, or apply the benefits at hand. The *new* is breathing on the neck of tomorrow as technology combines invention, new materials and new methods to attract new markets and disturb the old ways of doing things. Events are accelerating so closely upon us that it is difficult to take inventory of our progress, or even our lack of it.

Substantial changes are taking place in educational institutions across the country – changes which are certain to influence the social order in which business is a necessary servant. Let's face the fact. Education is big business – colossal in terms of dollars and people employed. Much of the hostility between the business community and other segments of society has been a deep-rooted misconception of the values as well as necessity of profits. It is apparent that some campus philosophers are rejecting the values of the "affluent society" which prosper with profits. No businessman ever won a medal for errors that led to insolvency. The reasoning back of the rejections of the profit motive in business cannot be laughed off. But in applying fair play to alienated students and their teachers, with their bumptious approach toward the free enterprise system, we cannot be submissive in measuring their estimate of values to those we regard with respect and support with evidence. Business is competitive and where competition exists ethics are subject to strain and both internal and external control, but there is no need for business leaders to capitulate where principles are defined or to offer words of timid compromise. It is essential – very essential – that we identify corporate profits as an aid to human betterment in our society.

One of the greatest problems of our day is that we confuse the *means* and the *end* of our objectives. In the complexity and sophistication of our lives we become so involved in the "how" that we forget or overlook the "why" of what we are doing. This applies to education, business, and the social sciences, and you can add politics and recreation too.

The analogy of the *means* and the *end* carries over to business with an especial emphasis to the businessman who tries to shrug off his participation in the social drama of our day. When a man says "I am going into business," what is he thinking about, and whom is he thinking about? Well, he had better be thinking about service to the community *as an end*, a goal. The function of business is to serve society with products and facilities as provided by a special trade, industry or profession.

But there are two sides to the coin. The maintenance of standards is a sacred obligation, but the spirit of fair play is equally applicable to the buyer and seller. The opposite of the "warranty" of quality and good faith is expressed in the Latin "caveat emptor," "let the buyer beware." Now the pendulum swings the other way, and the politician swings with it, as nation, state and city engage in "consumerism," with salaried vigilantes searching for violations of the codes of the market place. This year and every year there are hundreds of bills introduced in Congress to protect the consumer. Business cannot ignore this growing trend toward legislative control of the market place and must take the lead in meeting this challenge constructively before the threat grows into punitive and hampering reality.

None of us is untouched by the urban crisis and the shock waves that reach to the suburbs and rural areas. We have to think ahead of the problems of expanding America and prepare our cities for the new and necessary technology of management in shelter, food distribution, communication, traffic, airports, airspace and the quality of the air we breathe. Men of finance and industry can contribute that realism which is so necessary for success. Here is where profit with a purpose can pay dividends to all elements affected.

What contribution can businessmen make to meeting the challenges of tomorrow? I submit three rather general categories for participation.

1. *To supply realism needed for balance.*
2. *To supply incentive techniques for motivation.*
3. *To supply decisiveness for action.*

All these objectives will be the targets of young men who are in research projects in the Amazon Valley, or in Yerkes Observatory, and it may include some of the rambuctious despoilers of the campus flower beds and reference libraries. Sooner or later they must settle down to the larger tasks at hand which have some bearing on man's ultimate purpose.

Values in life, whether material, cultural, or spiritual, have three elements:

1. *The investment of something tangible, be it time, knowledge, or technique.*
2. *Personal participation with the will to achieve a goal.*
3. *A profit represented in benefits to others and a satisfaction to ourselves.*

The person who plants a seed, nourishes growth, takes his reward in a flower, bush or tree. Life demands activity, growth and fruitfulness.

"No man is an island" is the most quoted line of the poet, John Donne. There is no place where the hermit can hide from the pointing finger of responsibility as the earth shrinks physically to a walnut, and the world of people expands to three and a half billions of surging humanity. It is time for each of us to take a look to our own sense of values, and consider how they may be in this changing set of circumstances.

# Wildcats Nipped; To Play Tonight

It was another one of "those days" for the Walcott cagers as they were dropped by the Vega teams in action last Monday night.

With the score tied at 8-8 at the half, the Walcott girls could not mount a rally and were dropped by a final score of 13-8.

The boys from Walcott also felt the sting of defeat as they were down 15-10 at the midway mark and wound up falling, 25-18.

The next game for the Walcott Wildcats will be tonight when they host the Sudan teams in games which begin at 5:30. The game today is a re-match which was postponed due to bad weather earlier in the season.

## CONSUMER TALK about NURSERY SLEEPING ITEMS

by J. C. Penney's Home Economists

Baby's first few weeks are a time of glamour, when family and friends gather to view and admire him. The bassinette or cradle used during this time is a showcase for the infant, as well as his first bed. It can be as frilly or tailored as Mother desires.

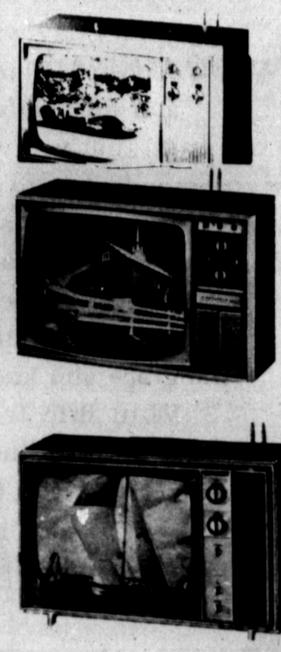

Usually by the third month, however, it is time to move the fast-growing baby to a crib. And since he may sleep in this bed for several years, and then pass it on to a new brother or sister, it is important to purchase the best quality possible. Select a crib made of sturdy wood and be sure it is solidly constructed. Check that side rails are spaced closely so there will be no danger of Baby wedging his head between the spindles.

A good mattress is as important as a good crib and, again, it is a good investment. There are many types available, such as coil spring, hair block and polyester foam. A well-made coil spring mattress is usually considered best. Because it will be impossible for you to examine inner construction, be sure to deal with a reputable firm and look for a quality label.

Before buying, press the mattress's sleeping surface (rather than squeezing the corner) to gauge firmness. It is beneficial for the infant's health that his mattress provide firm support. If a plastic protector does not come with the mattress you select, invest in one. It will lengthen the life of the mattress. And don't forget crib bumpers. These "pillows" are important safeguards against bumps and bangs against the wooden bed.

## "LET ME PRAY"

... 'Oh, Lord!' — in simple words that are full of meaning. Let me say The Lord's Prayer every day with a fearless and grateful heart.

With a sense of Divine concern for daddy, and mummy, and sister, and all our friends — let me ask that thine ear be open and that you will hear me, Father. *Thou hast commanded me to come as a little child; to be humble as a little child; to have faith as a little child.* Here I am, so please bless me and make me one of thine own. Bless our pastor, and our church and help us to grow in the grace and knowledge of God.

With firm faith that sees beyond the failures of men — Father, you have *let me pray.*"

# Fly-In Program To Start Feb. 1

Over fifty Texas farmers, leaders have made reservations with the Texas Farmers Union 1. ranchers, and rural community to participate in the National Farmers Union sponsored legislative Fly-In to Washington on the days of Feb. 1-4.

Included among these agriculturists are Robert Strain of Route 1, Hereford, and Anthony Paschel also of Hereford. These two local farmers are members of Congressional District 18 headed by Bob Price.

According to Farmers Union officials, the response to the Fly-In program has been unusually good because of serious concern among farmers about the future of farm programs.

The three-day schedule in Washington includes a meeting with USDA officials at the Department of Agriculture to discuss commodity programs and agricultural trade. The Group will be greeted by Secretary of Agriculture Clifford Hardin.

A State Department visit will give the Fly-In participants an insight into agriculture's foreign trade problems. Officials of the State Department will discuss the Food for Freedom Program and the Foreign Trade and Development Act.

Breakfast meetings have been planned with members of the Texas Congressional Delegation and the Texans will make courtesy calls on the other members of congress. They will provide congress with information concerning the needs of Texas agriculture and rural community.

The main thrust of the Washington Fly-In program is in support of passage of the Farm coalition endorsed Purcell Bill which will make permanent present commodity programs. Unless action is taken on commodity programs this year, the present program will expire. The Purcell Bill is co-sponsored by forty members of congress, including five Texas congressman.

Other problems facing Texas farmers which will be discussed with USDA officials include the policy decision to eliminate the advance payment on feed grain, reduction in cotton projected yield, cut in rice acreage, reduction of ACP funds, cut in crease in price support, restrictions on loan programs for farm storage and drying facilities for grain, and refusal by USDA to increase dairy support prices to 90 percent of parity.

In describing the Washington Fly-In program, Texas Farmers Union President Jay Naman of Waco said, "The Washingt on Fly-IN Program, which will include several hundred farmers from six states, comes to a very critical time because farm programs expire this year. Texas participants in the Fly-In effort will go to Washington armed with statistical information showing what impact weakening of the farm programs will have not only on agriculture but the entire rural community. Farmers Union is taking the lead in this program, but we are inviting all organizations, all farmers and the entire rural community to join in our effort."

## Sugar Meeting Is Wednesday

The Deaf Smith County Sugar Beet Growers Association and the Texas Agricultural Extension Service is sponsoring a sugar beet producers meeting scheduled for 1:30 p. m. on Feb. 4, at the Bull Barn in Hereford. The latest information concerning fertilization, insects and disease control and irrigation will be covered.

Also, Extension specialists will be present to explain result of a survey conducted in an effort to determine the cause of low sugar content in the 1969 crop.

Activities scheduled for the meeting include the following: From 1:30 to 2:10 Jim Valentine, Soil Chemist, of the Texas Agricultural Extension Service in Lubbock will conduct a study of the sugar beets and the results of nitrated tests run in Deaf Smith County.

From 2:10 to 3:00 Dr. Robert Berry, Plant Pathologist, of the Texas Agricultural Extension Service in Lubbock will conduct a study of the disease control in sugar beets.

From 3:00 to 3:10 will be a break.

From 3:10 to 3:25 will be an insect control and leaf hopper survey conducted by Dr. Bill Clymer, an Entomologist also of Lubbock.

Dr. Frank Petr, an area agronomist from Amarillo, will conduct research on irrigation from 3:25 to 3:45.

Ed Garnett, Farm Management specialist from Amarillo will conduct a survey on the costs of sugar beet production from 3:45 to 4:10.

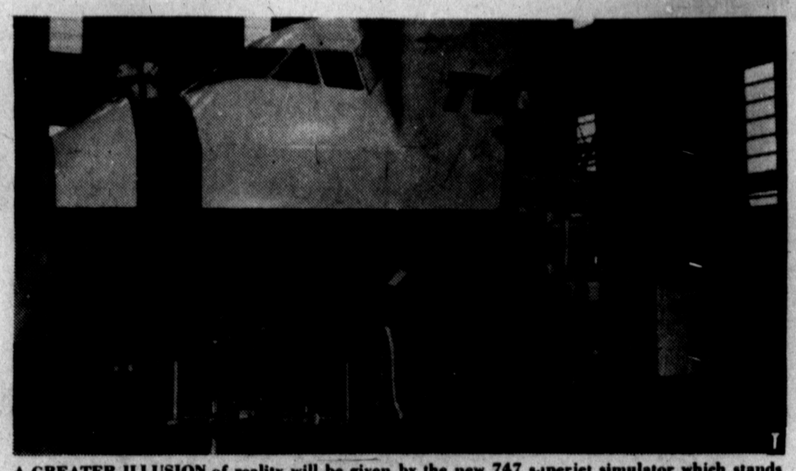

Finally Dr. Petr will also conduct a summary of irrigation and weed control which is scheduled from 4:10 to 4:30.

## Chamber Names Committee Heads

Nine persons have thus far accepted chairmanship to the Deaf Smith County Chamber of Commerce committees. They are: Lynton Allred, banquet committee chairman; Larry Fuller, tourist council and U.S. Highway Commission chairman; Roy Faubion, brochure committee; Don Baugous, budget committee chairman; Milton Durham, membership and finance committee; Joe Easley, aviation committee chairman; James Connelly, general chairman of Christmas decorations; Mrs. Larry Summers, Hereford Hustlers; and Raymond White, public health clinic.

**AN AGE-OLD WOE -**

DENVER — A 19-year-old Denver youth told police that the reason he was found lying on the sidewalk in front of a downtown department store was that he fell asleep while waiting for his wife to finish shopping. He was fined $15 for blocking the sidewalk.

A GREATER ILLUSION of reality will be given by the new 747 superjet simulator which stands nearly 31 feet high, mounted on six hydraulic legs. Shown at TWA's new Kennedy Training Facility, the 747 simulator incorporates the new six-axis motion system: heave, longitudinal, lateral, yaw, roll and pitch.

Pilots, co-pilots and flight engineers need not put their heads in the clouds to become highly trained in travel and safety procedures. For a new flight simulator permits a pilot to take off, land, cruise and even perform emergency feats without leaving the ground.

These facts about flying are uplifting for crews manning the new Boeing 747 — which can transport more than 350 passengers and their baggage on non-stop distances of 5,000 miles. Many flight crews have already been taught to carry out the most difficult procedures ever tackled by flying men, and they have accomplished this in a down-to-earth atmosphere.

Once a secondary tool for flight training, the new, highly sophisticated modern flight simulator has brought about wholesale changes in over-all training procedures. Optimism that flight simulation training will expand enormously is based on three important considerations:

1. Federal Aviation Administration regulations have been written permitting substitution of many hours of simulator training for expensive aircraft training time.

2. For the first time, airlines have joined together to describe and publish the nature and content of ground school training for the new 747 superjet. Under a joint Boeing-Air Transport Association Training Committee, a four-volume, 1800-page report has been produced as a guide for ground school training.

3. Six axes of motion, instead of only three in previous simulators, have been built into the 747 simulator. Now pilots will be presented all six possible movements: heave, longitudinal, lateral, yaw, roll and pitch.

Seven airlines have already ordered these superjet flight simulators, at more than $2 million each, from the Link Division of The Singer Company, once known for sewing machines only, but now highly diversified. Singer makes it possible for a pilot and crew to spend 30 hours in the 747 simulator before taking over the controls of an actual flight.

The next time a 747 superjet lifts you aloft for distant horizons, you probably won't be presented the details of the services rendered. But the pilot's experience is part of the picture when you're airborne. And, although much of his training has been on the ground, the users of such simulators will be flying high in the future.

## Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

### *Is The "Pill" Safe?*

A MOST terrifying article on birth control pills appeared in a ladies' magazine. It was filled with terrible tales of disabling injuries to the brain and the uterus. I am certain my doctor would never suggest that I take these drugs if they are as harmful as this article says they are. Are we really risking death or permanent injury by taking these pills?

Dr. Coleman

Mrs. C. W. T., South Carolina

Dear Mrs. T.: I happened to see the article you referred to and am distressed by the unnecessary fears it highlighted. Unfortunately, some eager writers, with little or no scientific knowledge, find that the greatest impact can be made by emphasizing fear rather than hope in their writing. I disagree completely with this destructive attitude.

Before contraceptive pills were distributed to the general public, untold control studies were done to be sure of their safety. This is one of the great responsibilities of governmental health agencies which constantly protect the American people from the "overenthusiasm" for new drugs by their manufacturers.

All drugs may have some potential danger. Even the most innocuous drugs can call forth an unusual reaction in a highly sensitive or allergic person. It is with this understanding that your doctor prescribed the birth control pills. The advantages and disadvantages are carefully weighed in the choice of these pills. You can be certain that all these considerations were appreciated by him for you. There are some risks in everything we do. We must not permit ourselves to be terrified into believing that our health and lives are in jeopardy every time we read scare statistics that have no solid basis in scientific truth.

* * *

My boyfriend told me that it was safe to shoot alcohol into my veins with a hypodermic needle. Another friend told me it was very dangerous. Who was right?

Unsigned, Arkansas

I appreciate that you would want to maintain your anonymity. It is almost unbelievable that I am reading and rereading this letter. I accept it as truth that adolescents like you are actually tampering with their lives by such a thrill-seeking method.

Dangerous? The only thing I can compare it with is for you to light a cigarette with a stick of dynamite.

Do your parents know that such temptations are put in your way? Can't you discuss this with your teacher, your doctor or your religious adviser rather than with your friends who are obviously as ignorant of these hazards as you are? Your question is chilling in its death-dealing possibilities. I am just as shocked by the reports of youngsters all over this country who are playing Russian roulette on the brink of destruction with LSD and all the other "soft and hard" drugs.

* * *

**SPEAKING OF YOUR HEALTH: All nasal injuries deserve X-rays for possible fractures.**

## FLYING GOLFER

BY TOM EASTERN

Fore!

Also aft.

At both ends of the plane, and in the middle these days—if the flight is destined for Florida—You'll find golfers leaving the bad weather behind them to visit Florida and its more than 300 magnificent courses. Is it any wonder the Sunshine State is known as the "Golf Capital of the World?"

Those addicted to the royal and ancient game find a multitude of dramatically designed courses which even offer exciting challenges to the pros, say veteran golfers who fly to Florida on Eastern's Wings of Man.

From the rolling hills of Pensacola to the coral-rimmed fairways in Key West there is a course to suit every game, whether you are a weekend whiz or a scratch golfer.

All courses offer the newcomer a crisp lesson in wind and sand play. The courses are generally flat and the breezes usually constant. And the fine-textured sand in the bunkers enable you to develop your shots.

The Doral, Florida's largest and most famous golf resort, features the famed "Blue Monster" course, site of the annual $150,000 Doral-Eastern Open on the PGA tour. It is an unpredictable, punishing and long (7,028 yard, par 72) challenge where soft breezes suddenly turn into strong gusts making long holes almost impossible to reach. There are seven lakes, a multitude of sand traps and roughs making it tough for any golfer who tries to master the course.

The Doral has three 18-hole courses, plus a 9-hole, par 3, which the ladies will enjoy. There are two putting greens, and a driving range as well as other sports and recreational activities.

At the Diplomat in Hollandale, an assortment of water hazards and fairway traps make this 6,072 par 72 layout difficult for most golfers. Add the constant trade winds that sweep across virtually every hole and you are really testing your golfing ability.

The Diplomat's course is one of the most picturesque in Florida. Tropical palms, pine trees and multi-colored plants frame the closely clipped fairways and greens. Many of the holes are doglegs and require an accurate tee shot placement to reach the well-guarded greens in regulation strokes.

Other fine courses in Florida are found at the Crystal Lake Lodge, Pompano Beach; the Causeway Inn, Tampa; the Hollywood Beach Hotel & Golf Lodge, the Miami Lakes Inn & Country Club and the Hollywood Inns of Hollywood.

All the above famous courses are available in Eastern Airlines' exclusive "Golfer's Holiday" packages. Special features include greens fee, balls, use of golf carts, guaranteed starting times, room meals, transportation to and from airports and membership in Eastern's Flying Golfer's Club.

## Miss Ann Mims To Wed

The engagement and plans for the Valentine's Day wedding of Miss Ann Mims to Michael Duane Hope, son of Mr. and Mrs. Dalton Hardison of Dawn, is announced by her parents, Dr. and Mrs. A. T. Mims, 609 E. 5th.

Vows will be exchanged at 3 p.m. in the First United Methodist Church with the Rev. Clifford Trotter, pastor, officiating.

Miss Mims and Hope are both senior students at Hereford High School.

## Thinking Aloud

By BARBARA DRYDEN

Members of the Hereford Noon Lion's Club are busy working on their upcoming pancake supper which is slated for Friday, Feb. 6 at the high school cafeteria. Tickets are being sold like crazy by all members so it shouldn't be difficult to obtain them effen you want some. . .For sales incentive, the top pancake salesman will win a beautiful AM-FM desk radio and the number two salesman will receive a multi-speed blender.

Tickets for the event are $1 with pre-school children free, so everyone put that date on your calendar and plan to attend.

Lloyd Pool and Neil Cooper are chairmen for the supper.

* * *

Speaking of Lion's Club, a recent luncheon speaker, Roy Hartman, told a cute joke which went like this. . .

He said in his business, he is always getting Ann Landers type letters asking for advice. A recent one said — I am 22 years old and I stayed out until 2 a. m. Saturday morning. My mother objected. . Did I do wrong?

He replied with "Try to remember."

* * *

I would like to make one more plea to my club reporters to get their stories in early. When they come in late it makes a hardship on our writers and the stories will be shortened. So if you want nice long club reports, ladies, call the news in to me as soon as your meeting is over. For reports that are late, the list of persons attending will not be printed. . . and your name might be the one left out. .

* * *

An interesting article which appeared long ago in the Williamsburg Times was given to me by a successful water well driller who read it each day. Here tis. . .

**A BLESSING IN DISGUISE**

"My competitors do more for me than my friends do; my friends are too polite to point out my weaknesses, but my competitors go to great expense to advertise them.

My competitors are efficient, diligent, and attentive; they make me search for ways to improve my products and service. My competitors would take my business away from me, if they could; this keeps me alert to hold what I have.

If I had not competitors, I would be lazy, incompetent, inattentive; I need the discipline they enforce upon me. I salute my competitors; they have been good to me. God Bless Them All."

# Valentine Gift Idea Appropriate For Love Theme

By Genevieve Miller

Kahlil Gibran (pronounced Jubran or Joobran), author of "The Prophet" has written a tender love story, "The Broken Wings," which has been translated from the Arabic by Anthony R. Ferris. It is written in prose so beautiful that it approximates poetry.

"Broken Wings" is a tale of sacrificial love, the ultimate reality, and is based on the desperation of a love that struggles hopelessly against social convention.

The heroine's poignant prayer, "Oh, Lord God, have mercy on me and mend my broken wings" (i.e. . . "heal Thou mine infirmities") is the key to the title of the book and is her plea for strength in recognition of her vulnerability.

With St. Valentine's Day only a short time away, we think a most appropriate Valentine might be "FOR YOU WITH LOVE" a poem by Louis Untermeyer. It is only a little book, illustrated by Joan Walsh Anglund, but the message fits every occasion when "I love you" is the theme.

Three times we opened the "PROSE POEMS" by Kahlil Gibran, and each time we were confronted with the poem entitled, "MY SOUL COUNSELED ME." Unable it appeared, to evade the message, we give these lines:

"My soul spok unto me and counselled me
to love all that others hate,
"And to brefriend those whom others defame.
"My soul councelled me and revealed unto
me that love dignifies not alone the one who loves, but also the beloved."

"SOUL SISTER" by Grace Halsell is a woman's experience under conditions paralleling those of John Howard Griffin who, ten years ago, assumed a black skin to experience for himself the life of the black man.

Grace Halsell, not willing to accept the white man's brand of black skin to experience for himself the life of the black man.

APARTHEID, . . took the medication that would make her quite dark, changed the color of her eye by earing black contact lens, and. . with only twenty dollars and a ticket to Harlem, she began her adventure. . with a purpose. The only people who could help her were the continued her experiment in Mississippi to learn for herself the condition of the black man and woman. In the agony of degradation and poverty common in her adopted environment Grace Halsell felt terror unlike any she had known before and out of her experience has written a remarkable and powerful book.

## At The Library

# Henry VIII The Magnetic Tyrant

Ever wondered about Henry VIII and the reason he had so many wives? Now at the Deaf Smith County Library is the book which can answer this question and many others concerning the tyrant king. You can also find one of the most discussed novels of the year telling the nature of men who make the world's best doctors, and the worst.

**THE SIXTH WIFE**
**by Jean Plaidy**

It is spring of 1543, and Henry VIII is fifty-two years old and, having had his fifth wife, Catharine Howard, put to death, wants to take a sixth. His eyes come to rest on Lady Latimer, Katharine Parr, fiancee of his brother-in-law, Sir Thomas Seymour. Aided and abetted by those of his court who are not averse to seeing a Catholic queen on England's throne, Henry brings Katharine to his court and proposes to her. Haunted by memories of her tragic predecessors, surrounded by enemies, dangerously in love with Thomas Seymour, and knowing her life depends on Henry's whim's, Katharine enters into one of history's most tempestuous marriages.

Elizabeth, flirtatious and gay, the ruthless Seymours, and the tragic Lady Jane Grey are among the host of interesting characters with whom Jean Plaidy people her exciting, imaginative novel of the Tudor Court as it lived under the fist of the most magnetic tyrant ever to sit upon the throne of England.

**THE ANTIBODIES**
**by Peter Baker**

An exciting, topical novel of the world of research medicine that brilliantly illuminates the men and women who venture into the medical unknown to make possible the miracles of transplant surgery.

Set in an internationally famous European clinic — the Valetudo Clinic — situated high in the Pyrenees, where the world's wealthy bring their ills, real and imagined —The Antibodies centers on two doctors. One is the American Dr. Philip Hollander, a doctor of great surgical talents who has given a lucrative practice in New York up for the post of head surgeon of the clinic. But if the financial rewards are less, Valetudo offers Dr. Hollander the time to pursue research into the rejection mechanism in human organ transplant surgery.

The other is the British Dr. Paul Gray, brilliant, young, vivacious, dedicated to curing the world's ills — and a practicing homosexual.

Inevitably the two men come in conflict when Paul Grey realizes that his superior is using patients for unauthorized research in rejection, research to which they have not given their permission. . .

Told with great insight into the nature of the men who make the world's best doctors, and with considerable knowledge of the workings of medicine — the public suspicions and the private fears that face today's surgeons and research scientists — The Antibodies is certain to be one of the year's most discussed novels.

## Mary Bradly Nominated For Woman Of The Year

Miss Mary Bradly was named as Woman Of The Year candidate by members of West Hereford Home Demonstration Club at a meeting held Tuesday in the home of Mrs. Blanch Hardin.

The winner of the Woman of the Year honor will be named at the annual Home Demonstration Appreciation Luncheon scheduled here Feb. 23.

In a brief business session with Mary Bradly presiding, Mrs. E. G. Houston was elected as assistant council delegate.

Miss Bradly presented the history of ten favorite hymns and Mrs. Ulys Pierce led the group in singing Spanish songs.

Others attending were Mmes. W. H. Awtrey, Robert Boyd, John Jacobsen Sr., D. R. Grimes, Carl Schroeder, and Miss Evelyn Bell.

Miss Bradly will host the next meeting Feb. 10 when the program will be cooking meat in small quantities.

## Sears Visit Long-Time City Resident

Mr. and Mrs. Ralph Sears of Hereford have just returned from an extended trip to Tallahassee, Florida.

On their way home they stopped off in Wichita Falls to visit Mrs. Mary Leona Gaetz, a long time resident of Hereford. She is recuperating from a broken leg in the Regency Community Center, 2400 S. W. Parkway, Wichita, Falls.

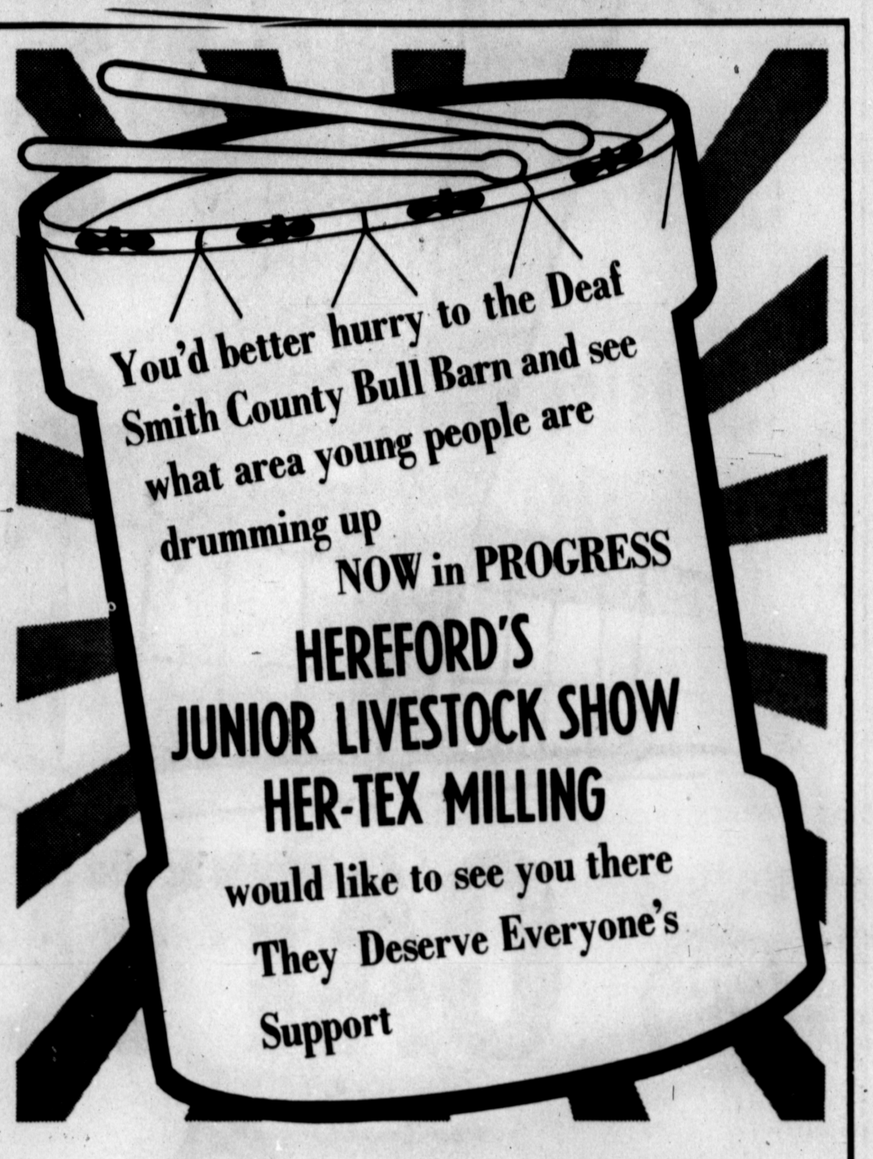

The location also happens to be her mailing address, should any of her friends care to drop her a card or letter.

The Sears reported a different note to their trip to the east coast state, they said they used the heater the entire time in "Sunny Florida."

**IN APPRECIATION**

May we express our appreciation and sincere thanks to each of you who were so good and helped us so much at our time of need when our home burned on January 5th at 340 Avenue A. Our special thanks to Mr. & Mrs. Lankford Warren for shelter until we could get settled in a home. These kindnesses will be forever remembered.

ARTICHOKES WITH CUCUMBERS VINAIGRETTE — May be served as a first course offering or as a regular salad.

LET'S COOK SOMETHING

# Diet Watchers Salad

By CECILY BROWNSTONE
Associated Press Food Editor

Here's an artichoke dish, for first-course or regular salad service, that fills the bill for diet watchers.

The artichokes are cooked and the inner leaves and thistle portion (choke) removed. After chilling, they're stuffed with cucumbers vinaigrette.

In buying artichokes don't worry if the outer leaves are marked with brown. That's the nature of the artichoke that is available in fall and winter.

If you have not already become an artichoke aficionado, one note about eating these. Both fingers and fork are in order here. Use your fingers to pull off the outer leaves one at a time and draw the end of the leaf through your teeth to scrape off the fleshy edible part. Discard the leaves neatly at the side of your plate! As you enjoy a leaf, use your fork to help yourself to some of the cucumbers vinaigrette. Then when you get down to the solid heart or bottom of the artichoke, that is easily cut with a fork, finish it with the rest of the cucumbers.

This is a prepare-ahead salad. The cucumbers vinaigrette develop flavor after an all-day or overnight stay in the refrigerator. And the artichokes may also be cooked and prepared a day ahead of using and be ready in the refrigerator.

**ARTICHOKES WITH CUCUMBERS VINAIGRETTE**

2 tablespoons olive oil
2 tablespoons wine vinegar
½ teaspoon salt
1 clove garlic, minced
¾ teaspoon Worcestershire sauce
3 cups diced pared cucumber
¼ cup minced sweet onion
2 tablespoons minced parsley
6 cooked and prepared artichokes, see below

In a 1-quart bowl, with a fork, thoroughly beat together the oil, vinegar, salt, garlic and Worcestershire. Mix in cucumber, onion and parsley. Cover and chill 6 hours or overnight to allow flavors to blend. Fill each cooked and prepared artichoke with about ½ cup of the cucumber mixture. Serve at once. Makes 6 servings.

Note: You'll need 1½ cucumbers (each 7 inches long) to make the amount called for

**COOKED AND PREPARED ARTICHOKES**

6 medium artichokes
Boiling water
1½ tablespoons salt
2 tablespoons olive oil

Trim the artichokes just before cooking so cut surfaces will not darken on exposure to air. Wash under cold running water. Cut off the stems at the base and pull off the small bottom leaves so the artichokes will stand flat. On a cutting board with a sharp heavy knife cut off, straight across, 1 inch from top of artichokes. With a kitchen scissors clip off the tips of the leaves.

Stand artichokes upright in a saucepot into which they will fit snugly. Pour in enough boiling water to come up about 3 inches. Boil gently, covered, until the base can be easily pierced with a fork — 35 to 45 minutes. Replenish water if necessary.

Drain off water. Turn artichokes upside down to finish draining.

Pull out center leaves including the small purplish ones; use a teaspoon to scoop out thistle portion (choke) being careful to remove as little as possible of the heart to which this portion clings. Cover artichokes and chill — overnight if you like. Use as directed in Stuffed Artichokes recipe.

Note: The olive oil added to the cooking water makes the leaves glisten and flavors them.

## Ranch Club Hosts Lunch

Members of Farm and Ranch Club were entertained with a luncheon Thursday at the Hereford Country Club hosted by Mrs. W. W. Gilbreath.

Mrs. Webb Blankinship presented a program on her trip to Europe last August when she and her husband attended their son's graduation from Oxford University.

Others attending were Mmes. Phillip Miller, Paul Rudd, Eldon Sorrells, Jack Weaver, J.V. Perrin, G.V. Hall, John Hill and W. Thomas.

Mrs. Hall will host the next meeting Feb. 19.

## Open House Set At New Center

Open house will be held at the renovared Civic Club Center, formerly the Jim Hill Hotel ballroom Sunday from 3 to 5 p. m.

Hosts for the occassion will be past presidents ot the Hereford Noon Lions Club and their wives.

All persons are cordially invited to drop by during the two hour period for a visit and inspection of the premises.

**YOUNG RUNAWAYS**

NEW DELHI—Fifty-one missing children were recovered by New Delhi police one night in 37 raids throughout the city. Most of the children were runaways from other Indian cities.

## County H. D. Council Endorses Nominee For State President

Members of Deaf Smith County Home Demonstration Council endorsed Mrs. A. E. Hodges of North Hereford H. D. Club as a nominee for state president at a council meet held Thursday at the Courthouse.

The district meeting is scheduled April 16 in the First Baptist Church here and lunch will be served in the First United Methodist Church.

Mrs. Julian Perrin of Bippus Club led the group in singing for the opening exercises and Mrs. Argen Draper displayed a gift given to her by council members at Christmastime.

In a business session, with Mrs. J. G. Gandy presiding, all committee recommendations were voted on by members and will be presented to each club for a vote.

Plans were formulated for the annual appreciation luncheon scheduled Feb. 23 when Woman of the Year will be named.

Deadline for entries in the competition is Feb. 12.

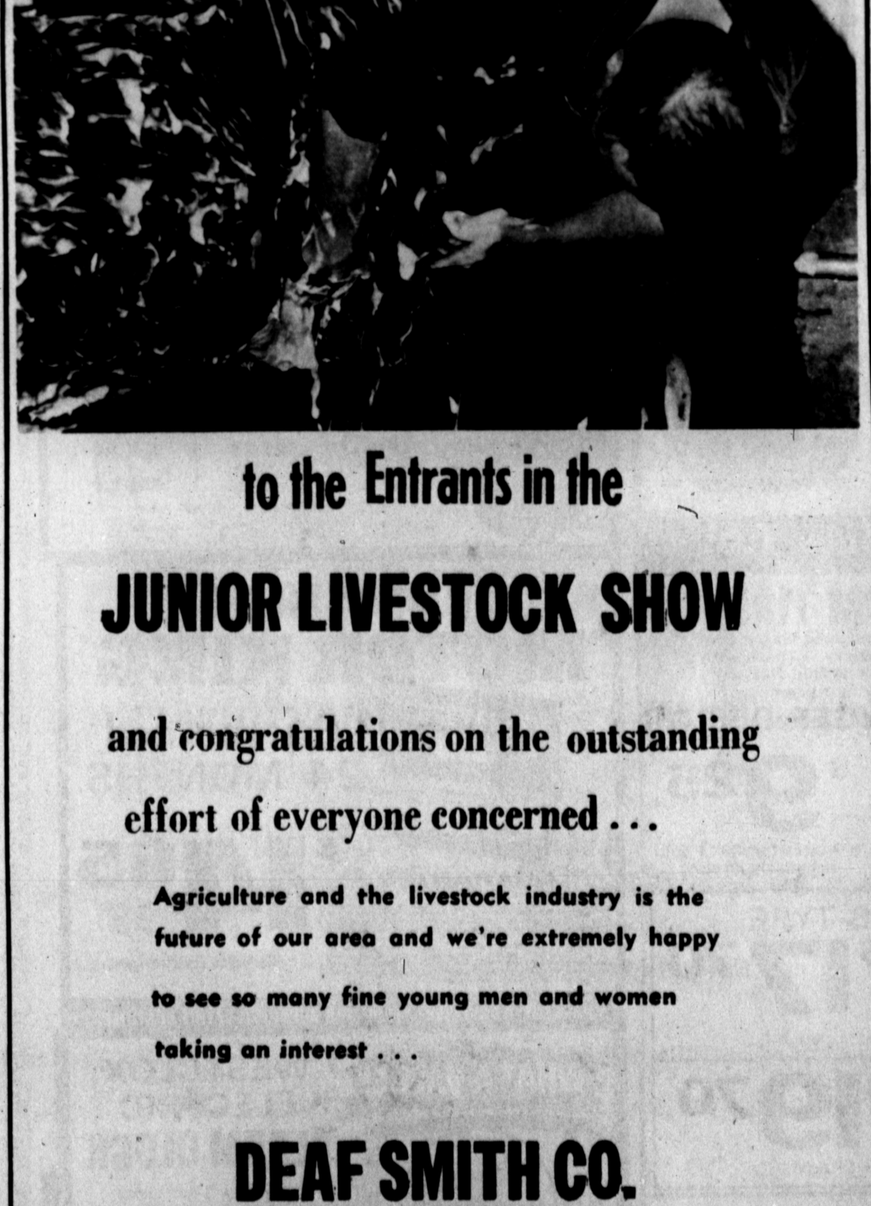

Mrs. Paul Corbett of Cultural Club gave the THDA reports and Mrs. Draper urged each of the clubs to choose their club projects for the year.

Mrs. Louie Olson distributed Red Cross Certificates to the club members in appreciation for making ditty bags sent to servicemen overseas.

Others attending were Mmes. Leroy Johnson, Dean Bryant, E. C. Hewitt Jr., Wayne Jones, J. D. Gibert Jr, Tom Morgan, Bill Page, S. N. Thweatt, Elmer Northcutt, Raymond Smth, Tex McKnight, Roger Williams, T. B. Thomas, J. E. Sorrells, Andrew Kershen, H. D. Fowler, Jimmie D. Bradley, H. L. Hershey, Wayne Sifford and Miss Mary Bradly.

ON PROGRESSIVE ROAD

# Rotarians Hear Local Public Health Needs

The Rev. Fred Howard, a member of a Deaf Smith County Chamber of Commerce committee studying public health, told Rotarians Monday, "the main problem facing us today is the fact that the population exceeds our medical capabilities."

As defined by Webster, Rev. rd said public is "community at large as opposed to private," and health is defined as "state of well being in mind, body and soul."

The need for a public health clinic in this county is a dire one and with an estimated population of 20,000, everyone's health is not being cared for, he said.

Hereford has nine medical doctors, he said, which makes 2,500 patients for each doctor which adds up to about 45 minutes for each patient per year. He stressed the fact that we need doctors now and will need more in the future.

But for the large amount of the population of the Mexican American people, they will not see a doctor for reasons such as fear, having too much pride, not knowing where to go and for the simple fact that they live different types of lives than most of us.

According to a survey taken in 1967, 50 per cent of the families in Deaf Smith County had an income of $4,500 or less per year and 30 per cent of these lived on $3,000 or less.

The same year, there were 21 infant deaths under the age of one year for a total of 16 per cent of the births in the county.

This ratio is three times higher in comparison to other counties of the same population.

The main cause of the high rate of infant deaths is primarily the ignorance of the parents not seeking prenatal care.

A public health clinic would serve to meet these health needs as well as those for immunization purposes, he said, because of the great danger of epidemic in communicable diseases.

Trained workers will be needed to help with environmental problems and family planning, which include nurses, nurses aids and volunteer clinic workers. Local doctors have agreed to donate their spare time to work in the clinic.

The problem of tuberculosis control is another health problem we face, Rev. Howard said. Deaf Smith County had the highest TB rate in the state of Texas in 1968.

"This is not just a Chamber of Commerce problem," he added, "and cannot be solved without the support of the community." He urges all local citizens to join the cause and give their support.

"We are faced with one of two problems, — public health or public illness, and the help has got to come."

# Letter To The Editor

Dear Editor:

I am writing this letter to thank you, and your staff, for the wonderful way you displayed the 50th anniversary write-up and picture of my parents with the lovely spring bride in your Sunday Brand.

It was such a clever idea that everyone at the anniversary celebration commented, it was the nicest arrangement they had ever seen.

Would you please put this in your editorial write-up for all the people of the Hereford Capital to read and see.

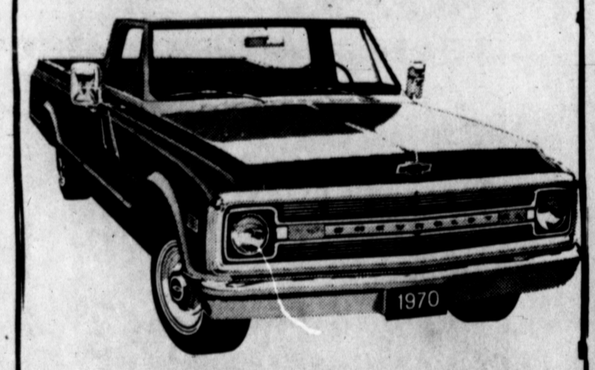

Again, I would like to express our thanks for giving my parents, Mr. and Mrs. W. R. Moore this gracious attention.

Sincerely,
Mrs. K. E. Dygert
Midland, Tex.

# Senator Tower Discusses Education And Inflation

As Congress convened this past week for this year's session, the Senate turned immediately to a matter of grave importance for Americans and Texans — that of fiscal 1970 appropriations for the departments of Health, Education, and Welfare and Labor and the Office of Economic Opportunity.

The Senate approved a bill providing some 19.7 billion dollars. President Nixon had recommended 1.3 billion dollars less than Congress provided. Even before the Senate acted, he indicated that he would be inclined to veto a bill containing the full amount approved by Congress because of the inflationary impact the additional government spending would foster.

I agree that the additional overall government expenditures would tend to be inflationary. At the same time I have strongly supported that portion of the funds contained in the bill for what is known as impacted school aid.

In areas where there is a heavy concentration of government activity, such as areas near military bases, the local tax base is narrowed by expansive federal ownership of lands and facilities which cannot be taxed. At the same time, there is a large population of persons drawn to the area to work at the federal installations. Many of these persons actually live on federal property. Others do not. But the children of all these families usually attend local public schools.

This means that the local school district must pay for the education of children without the benefit of collecting taxes on the federal lands. In turn, this means a heavier burden on the non-federal lands from which the school district can collect taxes; unless the federal government pays its share of the educational costs of those children belonging to families in which the wage earner is federally employed.

This is the reason for government school aid paid directly to local school districts which are impacted with federal-owned lands and facilities. The government must continue to meet this responsibility.

In Texas, we have 26 separate school districts with 278 schools within those districts which are qualified to receive impacted aid.

I mentioned that some of the families of eligible children actually live on federal property and others do not. Since residential property is subject to local taxation even though it is occupied by a federally-employed family, the law provides a reduced formula for impacted aid payments to school districts for children of these families. Many families in Texas qualify under this formula and the aid to Texas school districts for the education of children of these families is significant.

The administration requested 5.8 million dollars for impacted aid payments for those children who actually live on federal property; but it requested no funds for those who do not. The bill approved by both houses of Congress provides the requested funds for Texas school districts and adds 23.3 million dollars in payments for children who live on private taxable property and whose parents are employed on non-taxable federal property. Those funds are vitally important to the affected school districts, and I have supported that appropriation.

I have done so because I recognize that if it were not for the federal presence, the parents of those children would be employed at non-governmental enterprises on corporate or business property which would be subject to local taxation. Thus the loss of local tax base is still real for the school district, even though they are educating children of families living on private taxable residential property.

I believe the administration has taken a position of sound fiscal responsibility in opposing the other increases in the HEW appropriations bill with the single exception of impacted school aid which I believe vital for Texas school districts.

I have spoken often before of the need to hold down government spending as one of our most effective tools in the current battle against inflation. We must succeed in our efforts to offset the spiraling cost of living. We are paying too many of our hard-earned dollars to buy the goods and services we need and desire to provide for ourselves and our children an acceptable standard of living.

Overspending on the part of the federal government will fuel the fires of inflation. And we must remember that inflation affects all our economy. It affects the money our government spends on education as much as that we spend at home for food and clothing. If the government attempts to aid education by providing funds for lower priority items now, those dollars will buy less than they would if spent after we have curtailed inflation.

Some economic indicators are now beginning to show some positive signs that the cost of living is indeed beginning to ease. But we cannot afford to rush to the conclusion that the battle is already won. If we do, we may find ourselves tempted to spend funds which our federal government still does not have. If we fail to this temptation, we could easily discover that we will have lost even the minimal gains that our belt-tightening efforts to date appear to be bringing.

# 6 Local FFA Members Enter Houston Show

Six Hereford FFA members have entered commercial steers in the Junior Division of the 1970 Houston Livestock Show and Rodeo, to be held February 25th through March 8th. They are Mike Brumley, Jimmy Christie, Leroy Johnson, Steven Olson, Ronnie Vasek, and Jim McNey.

The Junior Commercial Steer Show has proven of great interest and benefit to participants and spectators alike at the Houston Livestock Shows in past years. Exhibitors are limited to members of 4-H Clubs and Future Farmers from throughout the state, and only beef breeds which they have fed and cared for are on exhibit.

Junior Commercial steers will arrive at the Exposition Building on March 2 and will be classified, or graded, at 1 p. m. March 3. The Commercial Steer Sale will be held at 9 a. m. Thursday, March 5.

All steers entered, whether purebred, grade or crossbred, must weigh a minimum of 700 pounds at the official weigh-in at the show. Entry is limited to 1 pen per exhibitor, which may either be a pen of 8 or a pen of 3.

With the purpose of the Junior Commercial Show being to encourage young cattlemen to participate in a practical beef production program, emphasis on economy in the feeding operation is not only recommended, but is a prerequisite for entry. A narrative report on the feeding program followed in the care of the animal is required by each participant, along with completion of the Feeding Records form furnished by the Houston Livestock Show upon entry.

Armour & Company will host the Commercial Steer Exhibitors Banquet again this year to be held on March 4, where the following cash awards will be Feeding Records Contest: 1st Prize — $1000 awarded by Burton Bros. Packing Company; 2nd Prize — $500 awarded by Port City Packing Industry; 3rd Prize — $250 awarded by Port City Stockyards Company. A $50 General Louis Pulaski Memorial Award will be given for the best set of records in this contest, along with a special trophy presented by The Texas Trophy Company.

BLOOMINGTON, Ill. — Mrs. Pearl Bunnell, 92, who was born in Springfield, Ill., in 1877, said she remembers her father revealing to her that he "had the honor" of sealing Lincoln's casket.

He was part of the Abraham Lincoln guard or a memorial guard.

He was sworn to secrecy, and he never talked about it," she said.

# Data Processing Will Give Payment Reports

Again this year electronic data processing equipment will make it possible to give farmers a report on farm program payments they earned last year, according to Frank J. Bezner, Chairman of the County Agricultural Stabilization and Conservation (ASC) Committee.

This continues a service begun two years ago when electronic equipment first made it possible to provide this information to more than 3 million American farmers. The report includes all direct payments earned by farmers and ranchers during 1969 under programs administered by ASCS. These include: Agricultural Conservation Program, wheat certificates, feed grain, cotton, wool and mohair, sugar and Cropland Adjustment payments.

Payments reports will aid farmers in preparing their income tax returns. ASCS is required by law to provide information to the Internal Revenue Service on payments made each farmer.

Bezner said that the payments report will not include money received under loan or purchase programs for price support, or loans made to assist farmers in acquiring on-farm grain storage facilities or drying equipment. Nor will it include payments made for storing commodities under reseal loan, or conservation materials and service (CMS) payments made directly to vendors.

Bezner said some payments made late in December may not be on the payments report because of lack of time to get them processed. In such cases, the county ASCS office will send a supplemental form to the farmer so that he will have a complete statement for accounting and tax purposes.

The ASC Committee Chairman suggested that farmers read the explanation of the report carefully and verify the amounts by comparison with their farm records. If an error is found, it should be reported to the county ASCS office as soon as possible for correction.

## Legal Notice

INVITATION FOR BIDS
Proposals for the construction of additions and alterations to Deaf Smith County Hospital, Hereford, Texas, in accordance with plans, specifications and invitation of Bids prepared by Oscar A. Schilling, Architect, Amarillo, Texas, will be received on the 9th day of February, 1970, in the Commissioners Court Room, Deaf Smith County Court House, Hereford, Texas.
One base bid will be required by General Contractor for all General, Mechanical and Electrical construction.
All proposals shall be submitted in sealed envelope, addressed to Commissioners Court, Deaf Smith County, Texas.
Proposals shall be received until 2:00 P. M. on the date due. The Bids will then be publicly opened and read. Any proposal received after 2:00 P. M. will be returned unopened to the Contractor submitting bid. A cashier's check, certified check, or acceptable bidder's bond, payable to the Owner above, in an amount no less than five percent (5 percent) of the bid must accompany each bid. In case of ambiguity, or lack of clearness in stating prices in the proposal, the Owner reserves the right to adopt the prices written in words, or to reject any or all bids and to waive any formalities or irregularities. No bid may be withdrawn after the scheduled closing for receipt of bids for at least thirty (30) days.
DEAF SMITH COUNTY HOSPITAL
BY: H. C. Williams, County Judge

**ECUMENICAL PARTICIPANTS** in Friday's service at St. Anthony's Church, in observance of National Week of Prayer for Christian Unity, left to right, Rev. Simeon Heine, host pastor, Rev. C. W. Allen, St. John's Baptist Church, Rev. Sam Ogan, Frio Baptist Church, Rev. Gerald Mann, First Baptist Church, Rev. Fred Howard, St. Thomas Episcopal Church, and Rev. Clifford Trotter, First United Methodist Church.

## St. Anthony's Host Service

An ecumenical worship service, featuring several of the local ministers, was held in St. Anthony's Church Friday evening, in observance of National Week of Prayer for Christian Unity, January 18-25.

Over two hundred persons attended the service where Rev. Gerald Mann, pastor of the First Baptist Church, delivered the message, "What is a Christian?"

Others on the program for the evening included: Invocation, Rev. Clifford Trotter, First United Methodist Church; Scripture readings, Rev. Sam Ogan, Frio Baptist Church and Rev. C. W. Allen, St. John's Baptist Church; Blessing, Rev. Fred Howard, St. Thomas Episcopal Church; and Responsive reading, Rev. Simeon Heine, St. Anthony's.

Special musical selections were presented by the Double Quartet, First United Methodist Church and the Spiritual Swingers, First Baptist Church.

This worship service, sponsor the enumenical committee of St. Anthony's, under the direction of Mrs. Carl Last, was followed by a fellowship hour in the school auditorium.

**MANY BLIND**

HYDERABAD, India — There are more than 4.8 million blind people in this nation of 530 million, according to Andhra Pradesh health minister Mohammed Ibrahim Ali Ansari. He said the main causes of blindness are malnutrition, smallpox, gancoma infection and injuries.

**TELEVISION HELPS**

JOHANNESBURG, South Africa —Television, long regarded as a threat to public morals by South Africa's conservative government, is ironically proving one of the country's "most powerful promotion media overseas." The South African Tourist Corporation (SATOUR) reported the "exceptionally hostile campaign" against South Africa's racial policies by foreign newspapers was waning. SATOUR's most impressive results in improving the country's image "without doubt have been attained on television."

**OFFICE SIGN**

LOUISVILLE, Ky. — A physician in suburban St. Matthews has, for years, created an unusual amount of comment with an office sign that reads: "Disregard This Sign."

**COLONIAL LORE**

FRANKFORT, Ky. —Kentucky is one of four commonwealths in the United States. The other three — Virgina, Massachusetts and Pennsylvania — all were former British colonies.

**LUCKY BREAK**

PRINCETON, Ky. — Eldon Young looked under his house and decided it was a job for the Army.

Young saw something that looked like a bomb. A crew sent from Fort Campbell said it was a 105-millimeter howitzer flare shell, the kind used in World War I. The shell had been fired apparently but did not go off.
