# THE SNYDER DAILY NEWS

VOL. 5, No. 223 — SNYDER, TEXAS, SUNDAY, JANUARY 16, 1955 — FOUR SECTIONS, FORTY-SIX PAGES—PRICE 10c

## SNYDER SPOTLIGHT

By WACIL McNAIR

The lawmaking season is in full swing, and just in case you want to write your congressman or state house delegates, here's the lineup on Scurry County's representation:

U. S. Senate — Lyndon Johnson, the majority leader who has gained stature at a spectacular pace during the past six years and Price Daniel, a legal expert well versed in, and devoted to, Texas affairs.

U. S. House of Representatives—George H. Mahon, a true capitol veteran who is familiar with current problems, not only in his home district and state, but in the nation and entire world. Mahon is No. 2 man on the powerful appropriations committee and chairman of the subcommittee on military appropriations.

Texas Senate — David Ratliff, a seasoned lawmaker who is well acquainted with his district and who already has "hit the ground running" at Austin.

Texas House of Representatives —Robert Patterson, a successful practicing attorney from right here in Snyder who is beginning his first term.

* * *

Don't get the idea, however, that all problems in government are centered in Washington and Austin. Members of the Snyder City Council and School Board are having their own troubles.

Off hand, we would diagnose the city's chief illness as "growing pains." The council has passed on first reading an ordnance annexing an area along the Lubbock highway. Before the second and final reading, however, some protests were lodged.

These came principally from some industrial concerns and stemmed from city taxes, which, of course, would be assessed if the annexation should be completed.

This problem is not peculiar to Snyder, having been prevalent in recent years throughout the land, except in cities and towns that are not growing. Somewhere there is a solution. Hasty action probably won't solve it, yet this is no time to throw in the towel.

* * *

The school board's problem may be somewhat simpler, but no less wearing on the nervous system. You can't expect to put on a two-million-dollar building program without a couple of million dollars worth of headaches.

The board now is wrestling with the problem of selecting a site for a new elementary school building. Recommendations have been plentiful. Such problems usually can be solved by simple democratic process. When a public body, such as a school board, determines what it thinks is best and its action meets approval by a majority of those directly involved, the solution has been reached.

* * *

Snyder's postal receipts, which are charted in detail elsewhere in today's issue of the Daily News, emphasize all over again the acute necessity for a new post office building. Any "good service" claims by the post office department will be taken with a grain of salt around here until something is done about this problem, and the blame can't be placed on local postal employes.

* * *

Now is the time to: pay your poll tax (and property tax, too, if you haven't already), make out your income tax return, and have your automobile inspected. These deadlines will be here before you know it.

Recent snows provided moisture penetration as deep as 12 inches on some land here, while it was very shallow on other land. Here, Wilson Bright, right, checks the depth of moisture penetration in a hole dug by Guy Moore. Both are members of the Soil Conservation Service unit here. This was checked before Friday night and Saturday rains. (Lee Watson photograph)

## Snow, Rain Boost Area Farm Outlook

If there is any comfort in saying so, Scurry County has had more chance to get water stored into the ground during winter months so far this season than at any time during the past four seasons.

Opinions as to how much good this moisture will do vary here, just as the depth of the penetration of recent snows and showers varied in separate parts of the county. There is some encouragement, however, in what experienced agriculturists say. One statement made last week was by Max West, who said his land west of Snyder had its best moisture conditions for this time of year since 1949.

West's land differs from some other land here. In some parts of the county, the moisture did not soak very deep, while in other parts it has soaked 10 inches to one foot deep. This was prior to Friday and Saturday rains. That could be called something big for this part of the country after four years of drought.

Guy Moore, soil conservation technician here, said land checked on ranches near the Scurry-Borden County line west of Snyder last week after snow melted had moisture penetration seven to seven and one-half inches. In the Fluvanna area, the conservationists found some rangeland which was tight and had five inches of penetration, while at other places in that area the moisture had soaked seven inches deep in fields and eight inches in pastures. Penetration following the weekend showers has not yet been checked.

From the first of December through this week, moisture measured here, including that measured from the two snows, was 1.39 for the period. For like periods in past years, the figures were .33 of an inch last year, .9 of an inch the year before, and .16 of an inch in late 1951 and early 1952.

Moore said there was more moisture than this in the ground here at about planting time last spring but probably not after that time.

Oscar Fowler, county agent, said he kicked up dry dirt two inches deep in land east of town about the middle of last week. Some farmers in the county, Fowler said, believe they have enough moisture to start plowing. This statement preceded the Friday night rain, so many who may not have had enough moisture for plowing probably have now.

Moore agreed that some farmers will probably be listing within the next few days. There is plenty of moisture for building terraces, he said.

Winter grain will get a boost from this moisture, Moore said, if the moisture remains in the ground until the plants begin to grow. Fowler said areas which had as much snow and rain as Snyder had will probably get a start of winter rye and other grasses. A few farmers may seed barley in the hope that there will be follow-up moisture, Fowler said.

Snow, instead of rain, was probably of slightly more benefit because some runoff would have resulted from the intensity of the falling rain. Snow, when melting, soaks into all classes of soil when thawing at the rate the last snow thawed, Moore said. Even that land without terracing and stubble mulching got some penetration. Friday and Saturday rain fell slowly, a large portion of it soaking.

# Soviet Proposal Branded New Attempt To Stall German Plan

## Gen. Williams To Speak At C-C Banquet

Brig. Gen Sam Williams, deputy commander of the Fourth Army, will be main speaker Saturday night at the sixth annual Chamber of Commerce banquet here.

Gen Williams, whose headquarters is at Fort Sam Houston, San Antonio, recently returned from Korea and will speak on his observations and experience in the Far East and Korea and some ways in which it may affect the average citizen.

The general will be introduced by John Ben Shepperd, state attorney general.

The banquet will be held at 6:30 o'clock Saturday night in the high school cafeteria, with the program to follow in the auditorium at 8 o'clock. Dinner music will be provided in the cafeteria, and entertainment will begin in the auditorium at about 7 o'clock, when the crowd begins to move there, by the high school stage band, under direction of Melvin Montgomery, and high school choir, directed by Robert Clinton. C. T. McLaughlin will be master of ceremonies for the program. A highlight of the program will be the singing of tenor Phil Regan, appearing here for the third time at the banquet.

New officers and 1955 directors of the chamber will be introduced, as will outgoing officials.

Letters went out Friday afternoon and yesterday to chamber members so they might be able to make ticket reservations early. Tickets will go on sale to the general public tomorrow morning. They will be $3 each. Those desiring tickets have been asked to reserve them early, by calling the chamber office or otherwise, by Friday morning.

Committeemen for the banquet appointed by president H. W. Cargile are Nolan von Roeder, who is 1955 president, McLaughlin, Herbert Feather, Stanley Noah, H. A. Johnson, Jr., Harold Bennett, Olan Griffith, Hicks Allen, Weldon Kincaid, T. D. Wiman, Jr., Max West, Dillard Pope, Frank Wilson, Wacil McNair, and J. T. Hughes.

The banquet has become the highlight of the year for the chamber, marking the beginning of a new work year. Officers and directors for this year were recently elected, and committee appointments are now being prepared for the work program.

Last year's banquet featured Gov. Frank Clement of Tennessee as speaker, and the program had such others as author Boyce House and singer Regan. More than 1,000 persons attended.

In 1953, Capt. Eddie Rickenbacker, who became well-known during World War II when his crew was lost at sea, was the speaker, and Regan sang. The crowd numbered near 1,000.

Sen J. William Fulbright of Arkansas spoke at the 1952 banquet, which was attended by about 650 persons.

In 1951, Mrs. Georgia Neese Clark, U. S. treasurer, spoke to a banquet crowd of about 800 persons.

The 1950 speaker was Gen. Roger Ramey, commander of the Eighth Air Force.

*IN STATE HOUSE*

Robert R. Patterson, left, of Snyder, representative from the 90th Legislative District, is shown discussing proposed legislation with Obie Bristow, Big Spring, representative from the 101st Legislative District. ## Failure Is Forecast By Dulles Aide

By JOHN M. HIGHTOWER

WASHINGTON, Jan. 15 (AP) —A State Department spokesman today dismissed the latest Russian proposal for a Big Four meeting on German unification as "another transparent effort" to block final action on the rearmament of West Germany.

"It will have no more success than the other efforts in this respect by Moscow," said Press Officer Henry Suydam.

He was commenting on Russia's offer today to establish normal diplomatic relations with West Germany and to join in a Big Four conference on reunification of that country if the Western Powers abandoned the Paris agreements for rearming West Germany.

Suydam recalled that on Nov. 29 the United States, Britain and France had told Russia that ratification of treaties making West Germany a partner of the Western Powers in Europe's defense, and some change in Russia's attitude on the German and Austrian problems, would have to precede a new Big Four foreign ministers meeting. Suydam said that is the U.S. position today.

He also recalled that Secretary of State Dulles had expressed the view that once ratification of the German agreements had been completed "a more hopeful prospect" will open up for negotiations with Russia on German unification."

The Eisenhower administraton, the Churchill regime in Britain and the Mendes-France Cabinet in France have said many times that they are willing to engage in new talks with Russia on Germany, Austria or other European issues only when final decisions have been made on West Germany's place in the Western Alliance.

One of the puzzling aspects of Soviet policy to officials here is that Moscow has not produced some dramatic or challenging new ideas which could seriously threaten Western action on Germany.

The Soviets have consistently stuck to their counterproposal for scrapping Western defenses and creating a Europe-wide security system in which they would participate.

## OAS Probers Postpone Trip To Nicaragua

By CARLOS ESCUDERO

SAN JOSE, Costa Rica, Jan. 15 (AP)—The five-nation OAS investigating commission tonight postponed its trip to Nicaragua on its inquiry into aid given to a Costa Rican rebel movement.

The commission, sent here by the Organization of American States, said it delayed taking off until tomorrow morning in order to examine new evidence submitted by Costa Rica which "demanded prompt attention."

The members said they examined data offered by Foreign Minister Mario Esquivel, who earlier had submitted an urgent request to the commission that it provide arms and planes for defense against any further aggression.

The Costa Rican general staff still reported inaction in the stalemated invasion. A communique said the only rebel forces were in the remote northwestern corner of the country near La Cruz and Puerto Soley where they have been stalled for three days. La Cruz is only about three miles south of the Nicaraguan border and Puerto Soley is nearby.

However, an authoritative report said a U. S. observer plane, sent at the request of OAS to make peace patrols over the country, was fired upon yesterday near Santa Rosa in the northwest area by an unidentified group of men. The plane was not hit.

A communique said an invading plane dropped a dud bomb over Santa Rosa but fled when signaled by a peace patrol plane.

The OAS commission made no comment on the Costa Rican request for arms aid.

## Light Rains Continuing

By The Associated Press

Intermittent rain and drizzle continued over most of Texas Saturday night after a headon collision between warm and cold air. More of the same kind of weather but a little cooler was forecast for Sunday.

Some parts of West Texas had snow and sleet that melted as it fell.

A weak norther that slid under moist Gulf air lay from the Corpus Christi area westward across Laredo and the Big Bend Country Saturday night.

Here are some of the heavier rain totals reported Saturday night: Beaumont 1.51 inches, El Paso .34, Galveston 1.07, Houston .96, Wink .28, Junction .32, Waco .20, Wichita Falls .22, Palacios .27, Lubbock .21, Salt Flat .24, Lufkin .16, Midland .14, Dallas .14, and Fort Worth .12.

Temperatures ranged from highs of 72 at Brownsville to near 33 at Lubbock during the day.

Although it was light, the moisture still helped the still-thirsty soil in places where it was needed most.

## Four Children Saved From Possible Death

SAN ANTONIO, Tex., Jan. 15 (AP) —Four children were saved from possible death today when a police officer went to investigate a neighbor's complaint they had been left home alone.

Sgt. Leonard Salas, answering a call from a neighbor woman, Mrs. Aurora Broussard, got into the house when his call roused the oldest of the four children.

The children of Mrs. Anita Delgado, a waitress separated from her husband, were not overcome by gas escaping from two heaters in which the flames had gone out, but Salas said they may have died in a very short time if Mrs. Broussard had not called.

The children, Angie 7, Janie 6, Felix, 4 and Josefina 6 months, were taken from the house to the children's shelter.

## WEATHER

EAST TEXAS: Rain and cool Sunday; Monday partly cloudy to cloudy and cool; moderate to locally fresh northeast to north winds on coast.

SOUTH CENTRAL TEXAS: Mostly cloudy and cool Sunday, occasional rain in southeast portion; Monday partly cloudy to cloudy and cool, moderate to locally fresh northeast to north winds on coast.

NORTH CENTRAL TEXAS: Cloudy to partly cloudy and cool Sunday, rain in the east portion; increasing cloudiness and cool Monday, followed by rain.

WEST TEXAS: Cloudy to partly cloudy Sunday. Monday cloudy with occasional rain by afternoon, no important temperature changes.

## Fuse Lighted In Legislature

By DAVE CHEAVENS

AUSTIN, Jan. 15 (AP)—The fuse that could touch off fireworks in the Legislature over the besieged veteran's land program was lighted today.

Sen. George Moffett of Chillicothe challenged critics of the GI plan in a proposal for another 100-million-dollar state bond issue to finance buying of small farms by war veterans.

The current program is under local grand jury and Senate investigation of alleged irregularities.

Moffett spoke out as the new Legislature was in recess.

Plans were complete for what may be the biggest inaugural blowout since former Gov. Lee O'Daniel's friends jammed Memorial Stadium for his induction in 1939.

Invitations have gone out to 40,000 persons to attend Tuesday's ceremonies at which Allan Shivers will become the first man ever to be inaugurated for a third elective term as Texas governor.

The canvass of votes by which Shivers and Lt. Gov. Ben Ramsey were reelected comes Monday, and the floodgates were to be opened on legislation. Scores of bills are piling up for introduction in the House Monday. Senate bills will start rolling in after committees are named early in the week.

## CRMWD Net Take Over Half-Million

The Colorado River Municipal Water District was able to apply half a million dollars to its obligations during the first year it served all its originally scheduled customers.

Receipts for the year, reported E. V. Spence, general manager, were $739,964, of which $722,869 came from sale of water. Expenses amounted to $203,542, leaving a margin of $536,511.

This enabled the district to transfer $516,660 to its net revenue fund, Spence pointed out. Of this figure, $306,158 went to the interest and sinking fund to satisfy all scheduled debt requirements, $147,351 went to the reserve fund which under terms of the indenture must be built up to one and a half times annual requirements of the interest and sinking fund, $10,500 went into the congingency fund, $2,750 into improvement and extension, and the remaining $49,900 into the retirement fund. Proceeds in this fund are being invested in prepayment of the district's own bonds.

Other highlights of the report showed sale of four and a third billion gallons of water. Odessa received 1,973,097,000 gallons, Big Spring 1,444, 064,000 gallons, Snyder 469,179,000, Scurry Area Canyon Reef Operators Committee 434,342,000 gallons.

By sources 3,164,938,000 came from the well field in Martin County, 644,868,000 from city well fields, 6,927,000 from Big Spring lakes, and 558,161,000 from Lake J. B. Thomas.

Revenues from water included $325,655 from Odessa, $229,907 from Big Spring, $97,474 from Snyder, $60,225 from SACROC, and $9,607 from rural users. Except for the SACROC, all figures were exceptionally close to budget estimates, and in this instance the repressuring unit did not go into operation until past mid-year.

Only other source of revenue was from the recreational division which showed $9,032 from leases, $1,384, from grass rental, $5,269

See CRMWD, Page 2

## Police, Demonstrators Wage Fight In Turkey

DAMASCUS, Syria, Jan. 15 (AP)—Police and demonstrators against Turkey's Premier Adnan Menderes battled for four hours today in Aleppo, Syria's largest city. Twenty students and four policemen were taken to hospitals.

Menderes visited this country yesterday to sound out leaders on joining a Middle East defense organization which Turkey and Iraq are pushing.

Prevented then from making a public protest, the demonstrators paraded today in Aleppo's streets shouting anti-Menderes and anti-Syrian government slogans, among them: "Syria refuses imperialistic pacts."

## Construction, Utility Outlets Point To Steady City Growth

| YEAR END | WATER | TELEPHONE | ELECTRICITY | GAS | BUILDING |
|---|---|---|---|---|---|
| 1949 | 1,806 | 1,468 | 2,408 | 1,735 | $2,571,240.00 |
| 1950 | 2,466 | 3,189 | 3,955 | 2,507 | 3,667,721.00 |
| 1951 | 2,891 | 3,655 | 4,218 | 2,839 | 3,789,806.00 |
| 1952 | 3,148 | 4,041 | 4,303 | 3,021 | 1,660,250.00 |
| 1953 | 3,277 | 4,090 | 4,313 | 3,189 | 1,521,379.50 |
| 1954 | 3,468 | 5,050 | 4,500 | 3,331 | 1,339,390.00 |

Although 1954 was not a boom year here, a steady growth was reflected by the increase in building and in utility connections.

In some respects 1954 was the biggest year for Snyder since the early boom year of 1949 when the town more than doubled in population.

The biggest gain made by any utility company here was by Southwestern Bell Telephone Co., which reported the installation of 940 telephones in Scurry County during the year, more than 400 of which were rural phones.

A last minute building spree here last year pushed the year's total number of building permits to an even 200, with construction costing a total of $1,339,390, which was slightly lower than the total of 1953 of $1,521,279.50. The total for the year of 1952 for 276 permits issued was $1,660,250.

Although building in Snyder last year compared favorably with other post-boom year building, it fell far short of the boom years of 1950 when there were 492 permits totaling $3,677,712 and 1951 when there were 182 permits issued for construction costing a total of $3,789,806.

An increase of 192 water meters here was recorded last year with the total as of Dec. 31, 1954 being 3,468 compared to 3,277 for the same date one year earlier.

The city utility department now has a total of 2,665 sewer accounts, and 2,514 garbage accounts.

Water consumption during 1954 totaled 376,839,600 gallons.

City utility collections totals for 1954 were: water $208,822.33; sewer $53,576.14; and garbage $39,064.05.

During the year of 1954 the city collected $155,254.85 in current taxes, $5,522.10 in delinquent taxes, and $1,218.13 as penalty and interest on delinquent taxes. City receipts from issuance of licenses and permits for 1954 were $1,589.75, parking meter receipts were $15,518.65, and corporation court collections from fines totaled $20,339.65.

A record of the number and cost of building permits issued during 1954 is: January 11 for $58,650, February 18 for $95,925; March eight for $27,040; April 18 for $85,900; May 11 for $57,550; June seven for $33,050; July 22 for $250,400; August 10 for $68,200; September 36 for $260,000; October 13 for $94,500; November 11 for $24,050; and December 35 for $287,750.

The number of gas meters in service by Lone Star Gas Co. here increased from 3,189 at the end of 1953 to 3,331 at the end of 1954.

Texas Electric Service Co. reported an increase of 187 electric meters in service here last year, from 4,313 at the end of 1953 to 4,500 at the end of 1954. The electric company's biggest year of growth was in 1949 when the number of meters in service increased 1,547 to total 3,955 at the end of the year.

The new directory of the Southwestern Bell Telephone Co. which will be issued Feb. 17 will show many new listings. By the end of November last year there had been 350 new listings in the city and 400 in the county on rural lines.

The telephone company now has 5,050 telephones in service in Scurry County, 4,444 of which are inside the Snyder city limits, and 606 of which are located in the county outside the city.

Previously there had been 4,090 telephones in the city and 197 in the county at the end of 1953, 4,039 in the city and 159 in the county at the end of 1952, and in 1945 there were only 673 telephones in the city with no rural phones in service at that time.

Rural telephone installations here during last year fairly well covered the southwest, west, east, northeast, and north parts of the county from Snyder. The rural phones reach out to catch areas adjacent to the Hermleigh Telephone Exchange, which covers the Hermleigh-Dunn area. About the only area of Scurry County not now served by telephones is the northwest part of the county, and Truman Black, district manager here, said that the company hopes to extend service to that area this year.

The Southwestern Bell Telephone Co. has 60 employes here with an annual payroll of $234,365. During the first 11 months of 1954 the company spent $448,373 to expand and improve its services here.

Snyder and Scurry County persons spend approximately 4,250 hours per day talking on telephones, making about 25,000 local and 1,000 long distance calls.

*WHAT IS A BAPTIST?*

## Practices Traced To New Testament Era

EDITORS NOTE — This is another in a series of informative article on the role of religion in today's world, written for the Daily News by leading authorities of the various faiths and denominations. Later articles will discuss Episcopalians and Methodists.

By WILLIAM LIPPHARD
Editor of Missions Magazine, official Baptist publication.

Do Baptists accept the doctrine of the Virgin Birth of Christ?

A large majority undoubtedly do. A substantial minority do not.

Since Baptists have no authoritarian creed to determine church membership or fellowship, each clergyman has full liberty to interpret this doctrine for himself. I know of no Baptist church that requires acceptance of this doctrine as a condition of baptism.

Baptists pay no special homage to Mary but respect her as the noblest of women. They have never accepted the doctrine of her immaculate conception or the doctrine, recently announced by Pope Pius II, of the Assumption of Mary.

Do Baptists accept the doctrine of the Trinity?

Yes. This is a basic doctrine of Christianity. The trinitarian formula, "in the name of the Father, and of the Son, and of the Holy Ghost," is used at every baptism. The sublime mystery of the Trinity, of the eternal and infinite essence of God manifested in three persons, the Baptist leaves to the theologians to interpret. He simply accepts it.

What is the Baptist position on sin and salvation?

A Batptist affirms the competency of the individual, under God, in matters of religion. Every true believer in Christ as personal Saviour is saved — without the intervention of preacher or church.

Each individual must give evidence of his personal redemption by faith, good works and the Christian way of life. The confession of sin is a personal matter between the individual and God. Hence no priestly mediation or resort to the confessional is needed.

With most Protestants, Baptists believe that man sins against the holiness and righteousness of God, that he wilfully disobeys God's commands, allows his selfishness to motivate his life and is therefore in need of salvation. A good Baptist definition of sin defines it as "lack of conformity to the moral law of God, either in act, disposition or state."

Man cannot save himself. He needs and finds in Jesus Christ a divine redeemer who unites in Himself both the human nature and the divine. By His death on the Cross, man was reconciled to God and God to man. Through faith in this reconciling ministry of Christ, man is saved from his sins.

Do Baptists believe in heaven and hell?

A categorial answer, applicable to all Baptists, is impossible.

Baptists believe in life beyond the grave. They cannot conceive of the total annihilation of spiritual values; nor can they imagine the continued existence of spiritual values without the continuing existence of personalities to express them.

As to the precise nature of life hereafter, Baptists cherish a vast range of ideas, from some nebulous, indefinable existence to some definite place, like a city of golden streets or a region of everlasting torment.

Some Baptists find it difficult to reconcile the fact of an all-merciful God with endless punishment for sins committed within the short span of a lifetime on earth. Still others, with sublime confidence and trust, simply accept the assurance of Christ: "Where I am there ye may be also."

Do Baptists have sacraments?

No. What are known as sacra-

See BAPTIST, Page 2

# 'Guarded Optimism' Follows Hammarskjold Conferences

UNITED NATIONS, N.Y., Jan. 15 (AP)—U.N. delegation heads conferred today with Secretary General Dag Hammarskjold and voiced guarded optimism afterward on the return of prisoners held by Red China. Their views matched a new statement of confidence by U.S. Ambassador Henry Cabot Lodge Jr.

Lodge told reporters in Washington he was confident Americans held by the Communists will be freed.

In addition to 11 fliers jailed as "spies" by Red China, four U.S. jet fighter pilots were taken prisoner by the Communists.

The Omaha World-Herald said in a copyright story the father of one of the jet pilots quoted Lodge as telling him he expected release of the "fighting boys" soon. Two U.S. Army civilian employes are also among Red China's prisoners.

Francisco Urrutia, head of the Colombian delegation, said things "looked encouraging, better than they did at Geneva" when he and other representatives of the U.N. Korean Allies talked with Red China's Premier Chou En-lai about prisoners last summer.

"Obviously the secretary general had more chance to talk with Chou than we did," Urrutia remarked, "but definitely things look better now than they did then."

Hammarskjold has insisted the journey that took him to Peiping to ask for the fliers' release was only the first round preparing negotiations. With patience, restraint and a lack of harsh words now, the door for further negotiations can be kept open, he has stressed.

President Eisenhower and Lodge have agreed with him that now is the time to avoid what Hammarskjold called blasting, what the President called talk of "reprisal or retaliation."

With the first stage out of the way, Hammarskjold is in the second stage of reporting in closed talks with delegation heads so they can inform ther governments first hand.

This second stage will end with his formal published report to the 60 U.N. General Assembly members.

The third stage will be more conferences with delegation heads to get their governments' reactions as well as that of Washington. The fourth stage will be to inform Peiping of the reaction of all delegations.

How long these stages will be is anybody's guess — perhaps a month or more.

About that time, however, some sources see here the development of the "unilateral act" that Hammarskjold told reporters would help unfreeze cold relations and lead successively to the final goal. All this could be done, he insisted, without any idea of a "deal" on the release of the prisoners.

This might include the freeing of the four jet pilots Lodge was quoted as telling W. G. Parks of Omaha last night might come soon. Parks is the father of one pilot.

One delegation source said the United States might allow 35 Chinese students, now detained but free to travel around inside the United States, to go back to their mainland China home.

There were reports from New Delhi that the Indian government was eager for an invitation from the U.N., the United States or Peiping to help Hammarskjold keep talks going.

## BAPTIST

Continued from Page 1

ments are regarded by Baptists as simple dignified ordinances with no supernatural significance and no sacramental values.

The Lord's Supper, or Communion Service, is usually observed on the first Sunday of the quarter. It is a reminder of the death of Christ and is observed in obedience to His command the night before He was crucified.

Whatever grace a Baptist derives from participating in the Lord's Supper depends on his own awareness of what the Supper signifies as a memorial service. No supernatural grace is bequeathed to him by an officiating clergyman or by his partaking of the bread and of the cup. Whatever blessing he receives comes through some new rededication to a life of righteousness and service to his followmen.

Do Baptists approve of divorce?

No, except for adultery. But there is no regulation among Baptist churches regarding divorce.

Annual conventions of Baptists have often condemned the rising divorce rate in the United States.

Each Baptist clergyman depends on his conscience in deciding whether or not to officiate at the marriage of divorced persons. No church law prescribes what he must do.

Do Baptists sanction birth control?

No parish Baptist church and no ecclesiastical convention of Baptists has ever by resolution expressed approval or disapproval of birth control or planned parenthood.

Even if it had, such resolution would not be binding on any Baptists. Most Baptists would resent and repudiate any such resolution as an unwarranted intrusion into the private life of husband and wife.

How do Baptists propagate their faith?

The historic Baptist view holds that every church member, and every professing Christian, is an evangelist. By word, deed and character, he is committed to proclaim his Christian faith and to seek to win others to its acceptance.

Throughout their history, Baptists have engaged in very active missionary effort, at home and abroad. Foreign missions have been successful on every continent.

How many Baptists are there in the world? In the United States?

There are approximately 20,000,000 Baptists in the world. An accurate tabulation is impossible because religious statistics cannot be compiled in countries behind the Iron Curtain.

The World Almanac for 1953 records 17,500,734 Baptists in the United States, divided among the four larger national groups and 18 smaller bodies, all of whom identify themselves as Baptists.

Since Baptists do not baptize infants or children until they have reached the age where they understand the meaning of baptism, the figures for church membership do not include children. About one third of the non-Catholics in the United States are Baptists.

How did the Baptist movement begin?

Most Baptists like to trace their ancestry directly back to John the Baptist. But there is no historical evidence of any definite, organized body of Baptists before the year 1640, when groups in England began to maintain that only believers in Christ, not infants, could be baptized and that baptism had to be by immersion.

Baptist principles, however, go back to the teachings and practices of the churches in the New Testament, before they became organized and controlled under the hierarchical system known as Roman Catholicism. Prof. Hans von Schubert of Heidelberg acknowledged that "in the ancient church, it was not the general custom to baptize children; preparation for baptism and the baptismal ceremony were designed for grown persons."

During the early centuries and through the Middle Ages, small groups of Christians sought to maintain the purity and simplicity of the early churches. Later groups emerged who became known as Anabaptists, because they insisted on rebaptism. They regarded their original baptism as infants as not in accord with the New Testament and therefore invalid.

Among them was Balthazar Hubmeier, who died at the stake on March 10, 1528, and his wife, who was drowned in the Danube a few days later, because of their unswerving fidelity to three basic Baptist principles: (1) the supremacy of the Scriptures, rather than the Church, in matters of faith and doctrine; (2) religious liberty and (3) the baptism of believers rather than infants.

Anabaptist groups flourished for nearly four centruies, mostly in Switzerland, Germany and the Netherlands. They were the ecclesiastical ancestors of the Baptists of today.

Since 1640 in England, and since 1639 in the United States, when Roger Williams founded the first Baptist church in Providence, R. I., the deonomination has grown in the number of its local parish churches, its adherents, its prestige and its influence.

NEXT SUNDAY — What is an Episcopalian? Is the Episcopal Church Catholic or Protestant? What is its attitude to Roman Catholicism? What is their view of the Virgin Birth? Do they practice confession? How do they regard the Bible?

## HST Memoirs Nearly Ready

KANSAS CITY, Jan. 15 (AP)—Harry S. Truman said today the memoirs on which he has been working for publication in Life magazine, will be ready in about 60 days.

"They probably will be ready for publication around April 1 to 15, if we continue to make the same progress that we have made in the last 60 days," the former President said.

At the same time he admitted, "It is a much bigger job than I thought" when he undertook the project a year and a half ago.

"It has to be done with deliberation, because it has to be correct," he added.

The contract for the memoirs calls for 300,000 words and will cover the period from the time he entered the U.S. Senate in 1935 until he left the White House in January 1953.

"The main difficulty now is cutting it down to size," he explained. "It is something like preparing a speech for delivery which sometimes takes three or four drafts and then you might change it when you make it."

## Malloy Takes Prison Term

FORT WORTH, Jan. 15 (AP)—George Malloy, 22, whose wife says she's pregnant again, will accept a 99-year term assessed last night by a jury which convicted him of squeezing his infant son to death.

The attorneys for the soldier, Dawson Davis, said today Malloy will not seek a retrial and will not appeal. Nothing could be gained by such action, Davis said. He added that if Malloy were retried he would again face a possible death sentence.

The jury discarded defense efforts to convince them Malloy was insane last Oct. 11 when he squeezed his 7-week-old son to death with his hands.

After the verdict, Malloy's young wife screamed hysterically to newsmen, "well, I'm expecting a baby. . . I don't care who knows it.

Malloy was stationed at Carswell Air Force Base here.

## R. E. Schutz Sr. Dies Friday Night In Dallas

R. E. Schutz, Sr., father of R. E. (Bob) Schutz, Jr., 2706 Thirty-seventh Street, died Friday night in Dallas.

Mr. Schutz was associated with Sun Oil Co. for many years but was retired. The younger Schutz is an employe of Sun here. He was the only child of Mr. Schutz.

Funeral services will be held in Dallas at 2 o'clock tomorrow afternoon under direction of Lyle-Merritt Funeral Home.

## CRMWD

Continued from Page 1

from recreational permits, $1,057 from boat launching fees and $350 from concessions. Practically all of it went back into roads, surveys, improvements, etc.

A total of $44,959 went to pay for water royalties and rentals. Maintenance cost $5,992. Operating expenses aggregated $89,585, which included $63,808 for power, $20,436 for labor and $5,373 for repairs. Administration, covering all other expense, was $30,123. Balance at the end of the year was $19,851.

At the end of the year the project was nearing the end of its construction stage. Construction in progress or completed amounted to $10,329,418. This left $600,000 for completing of existing work, two surface reservoirs near Snyder and Big Spring, and eventually two pump stations between Big Spring and the Martin County station.

A recapitulation showed $2,705,613 expended for the dam and reservoir (Lake J. B. Thomas), $438,605 for Bull Creek diversion, $230,011 for terminal water storage, $705,408 for the supply line from Lake Thomas to Snyder, $4,730,709 for the supply ine from the lake to Big Spring and Odessa, $678,465 for Martin County well field development, $436,282 for engineering, financing and other costs $404,321.

## Young Farmer Shoots Wife, Then Self, After Beating Two Sons

STEVENS POINT, Wis., Jan. 15 (AP)—A young Portage County farmer shot his pregnant wife to death, then killed himself today, Sheriff Florian Kruta said, after beating his two young sons and stuffing them into a roadside culvert.

Krutza identified the man as Peter Mocadlo, 35, and said Mocadlo shot his 31-year-old wife to death in the living room of their home in this central Wisconsin area, then turned his 16-guage shotgun against his own head.

The murder and suicide came, Kruta said, while authorities were on their way to the farmhouse following discovery of the boys.

The children, aged 5 and 3, were found in the culvert by two men who stopped to help Mocadlo free his stalled car, then noticed tracks in the snow leading to the culvert.

They took the boys to a Stevens Point hospital, where they were reported in serious condition.

Krutza said Mocadlo's brother John told him Peter "hadn't been normal since the war." He said Peter complained occasionally that his wife had been "giving him dope."

Iron horse shoes were not introduced until about the second century B.C. and were not widely known until the fifth century A.D.

## HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

Admissions: Mrs. Tommy Farrier, 1807 Fourteenth Street; Mrs. Billy H. Hallmark, Snyder; Charles W. Sumruld, route 3; Ruby Butts, 1713 Twenty-seventh Street; Jo Evelyn Frizzell, Snyder; Mrs. Juan Garcia, 1407 Avenue R, Anderson Davis, 3505 Avenue M.

Dismissals: James William Hazel, 1905 Ninteenth Street; Margaret Barron, 2901 Avenue N; Mrs. W. A. Henley, Hamlin.

## State Jaycees Honor Quintet

MIDLAND, Jan. 15 (AP) — Five young men, selected by the state Junior Chamber of Commerce as the outstanding young men of Texas, were honored tonight at the Jaycee state banquet.

Atty. Gen. John Ben Shepperd spoke.

The five are Howard Butts Jr., 27, Corpus Christi grocery executive; Ben Carpenter, 30, Dallas business man; Dr. Denton Cooley, 34, of the Baylor University College of Medicine; Jack Gray, 31, Denton County judge; and George Pierce Jr., 35, Houstoft architect.

They were chosen several weeks earlier.

Carpenter is executive vice president of the Southland Life Insurance Co. He is president and general manager of the real estate firm, Crockett Co. He is director of the American Brahman Breeders Assn. and the Texas Beef Council and is chairman of the state livestock sanitary commission.

Pierce is the founding partner of his architectural firm in Houston.

Cooley is in his fourth year on the Baylor faculty. He specializes in cardiac surgery.

Gray has been a leader in road developments and county improvements in Denton County. He was active in Denton's efforts to get the Santa Fe Railway to bring its new Dallas line through Denton. He is a former FBI agent.

Butts is widely known as a businessman-evangelist. He has been invited by Billy Graham to accompany the evangelist to the British Isles this year.

## Congress Has Youthful Look

WASHINGTON, Jan. 15 (AP)—The new crop of congressmen is giving the House of Representatives a more youthful look than it had last year.

An unofficial survey of the 57 members on the 435-man House roster this session showed today that the average age of the newcomers is between 42 and 43. That's about 10 years below the average age of a member of Congress last year.

The check also showed that:

Four of the freshmen are women, and their ages—yes, they'll tell—also average 42-43. That brings the total of lady House members to 15.

Thirty-two, or nearly three-fifths of the newcomers, are lawyers or associated with the legal profession—a percentage in keeping with the high ratio of barristers already in Congress.

Youngest of the freshmen, and—still unofficially because all the records aren't compiled yet—youngest of all members of Congress, is Rep. Kenneth J. Gray (D-Ill). He turned 30 last Nov. 14.

"Senior" in the new group is Rep. George H. Christopher (D-Mo), born Dec. 9, 1888. Christopher has served in Congress before. But, at 66, he's still had fewer birthdays than a number of his 84th Congress colleagues. The oldest, according to the House Clerk's office, is Rep. James B. Bowler (D-Ill), born 79 years ago.

## Flying Boxcars Are Grounded For Check

EDMONTON, Alta., Jan. 15 (AP)—The United States Air Force C119 Flying Boxcars flying 3,000 paratroopers from Kentucky to Alaska have been grounded for engine checks, Air Force authorities announced today.

The grounding order came after four Flying Boxcars reported engine trouble, resulting in either forced or crash landings. Two men have been killed and three planeloads of troops have been forced to bail out.

Edmonton was a 12-hour stop on the airlift route from Sewart Air Force Base at Nashville, Tenn., to Anchorage, Alaska. Six C119s were still here and three more were scheduled to arrive.

## Adenauer Is Pleased Over Parley Result

BONN, Germany, Jan. 15 (AP)—Chancellor Konrad Adenauer said today the results of his one-day conference with Premier Pierre Mendes-France were "satisfactory beyond expectation."

Resuming his interrupted vacation in the Black Forest, Adenauer issued a statement which also indicated personal relations between the two statesmen had been improved.

After their long talks in Baden Baden yesterday, the pair emerged side by side to announce that "French and German relations have been favorably developed" by agreements on a number of issues.

The Chancellor, who once publicly criticized Mendes-France for failing to prevent French rejection of the European army, spoke today of the "very good impression" he made as the first French premier to confer on German soil since the Munich negotiations of 1938.

Adenauer described Mendes-France as "an extremely fresh and healthy-appearing personality" who was an extraordinarily clear thinker.

As a conference partner, Adenauer said he found the Frenchman "open minded and sincere."

Mendes-France, on his way back from Rome to Paris, spent 16 hours talking and dining with Adenauer.

Bonn government officials called it the "most cooperative" French-German meeting they had experienced since the war, and claimed both leaders were strengthened for their efforts to win final parliamentary approval of the Paris treaties on West German rearmament. But there were some expressions of a different nature.

## Officers Solve Case Of Double-Hot Stove

PHILADELPHIA, Jan. 15 (AP) — Now here was this man, carrying a coal stove, walking slowly along a North Philadelphia street this chill early morning.

Every few feet he'd stop, put down the stove, rub his hands violently—then start out again.

Patrolmen Alan Watling and Richard Kauffman, in a cruising police car, stopped for a look.

While they questioned Alex Hill, 33, about his stop-and-go behavior one of the officers rested a hand on the stove.

It was hot. Inside, the coals were smouldering.

Hill said a pal told him he could take it out of a house. The owner denied this and Hill was charged with burglary, larceny, receiving stolen goods and conspiracy.

## J. S. Allen, 62, Dies Saturday

Joseph S. Allen, 62, of 1916 Coleman, a resident of Snyder since June, died of a heart attack here yesterday afternoon. He was the father of Mrs. Eugene Harper, whose husband operates Pal-O-Mar Cortel.

Mr. Allen suffered the attack while at work at Wade Pipkin Motors and was taken by Bell ambulance to Cogdell Memorial Hospital at 4 o'clock. Dr. Thomas Hartley, attending physician, pronounced Mr. Allen dead shortly after his arrival at the hospital.

Mrs. Harper said her father had suffered only one previous heart attack, which occurred in June. He and his wife moved here in June from the New England states after he worked 33 years there for a chain of variety stores.

Funeral services under direction of Bell Funeral Home are to be held at 4 o'clock this afternoon at the St. John's Episcopal Church with the Rev. William Boyd of Big Spring officiating. Pallbearers will be C. O. Lunsford, Floyd Clift, Claud Powell, Clement von Roeder, Wade Pipkin, G. W. Ferguson, Howard Gray and Don Wells.

Mr. Allen's body is to be taken to Williamsport, Pa., for burial near the place he was born on Nov. 12, 1882.

Survivors are his mother, Mrs. J. Smith Allen of Philadelphia; his brother, John Allen of South Charleston, W. Va.; his wife, Mrs. Ruth Allen of Snyder; his children, Mrs. Florence Harper of Snyder, Mrs. Barney McBirney of Lusk, Wyo., and Joseph Smith Allen, Jr., of Kingston, Pa.; and a stepson, Harold Knauer of Philadelphia.

## Texas Income Soars; Another Increase Due

DALLAS, Jan. 15 (AP)—Texans pocketed more than 12½ billion dollars last year, the Dallas Times Herald will say Sunday, predicting an even higher income this year.

The review was contained in 68 of the newspaper's 216 page Sunday edition. The review said:

Activity in the last two months pushed 1954 business to a new high.

Income was figured at $12,524,000,000.

Construction, surprisingly, set the pace.

More oil wells were drilled than ever before, but less oil was produced, resulting in less income than in 1953. Crude production dropped about 3 per cent and refinery output about 1 per cent. The outlook for 1955 was considerably brighter.

Nine-tenths of the population of the United States was living in family units in 1950.

*RECEIVES REPORT*

President Eisenhower receives from retired Gen. Lucius D. Clay recommendations for a 101 billion dollar federal-state highway program. The president and Clay hold a map of a "strategic network" of interstate highways. Clay is chairman of a presidential advisory committee which drew up a proposed program.

# Dixon-Yates Pact May Be Recalled

By RUSSELL BRINES

WASHINGTON, Jan. 15 (AP)—Rep. Holifield (D-Calif) said today the Senate-House Atomic Energy Committee may call back the Dixon-Yates power contract, forcing the administration to again delay plans for putting it into effect.

Holifield said he and other Democratic committee members will meet next week to consider a report on the question that may indicate future strategy of the contract's opponents.

The report, now in preparation, will contain the opinions of Democrats, then in the minority, on the committee's decision last November to waive the legal requirement that the contract lay before the committee for 30 days while both houses of Congress are in session.

Holdover Democrats on the committee voted solidly against the Contract, and Democrats will control the committee after its organization in this Congress.

Sen. Anderson (D-NM), the new chairman, has said the group will hold further hearings on this and other power contracts between the Atomic Energy Commission and private utilities. There has been no previous suggestion that the Dixon-Yates contract itself might be recalled.

The Dixon-Yates group—the Middle South Utilities, Inc., and the Southern Co.,—now is awaiting a ruling by the Securities and Exchange Commission on its financing proposals for a new 107-million-dollar plant at West Memphis, Ark. The plant would furnish power to the Tennessee Valley Authority under a 25-year contract with the AEC. The power would help meet what administration spokesmen say will be increased needs in the Memphis, Tenn., area in 1957, partly due to growing AEC demands.

The SEC will hear final legal arguments Wednesday on the Dixon-Yates proposal to invest 5 million dollars of its own in the new plant, raising the balance through long-term loans. The commission is expected to decide by the end of the month whether to accept its attorneys' recommendation to approve the financing plan.

Although Democratic opponents insist they are planning strong efforts to kill the contract, there has been little verbal assault on the Dixon-Yates proposal thus far in the session.

Holifield said this does "not indicate any lack of interest" but is due to a desire to decide on strategy first.

The opening gun, he added, will be the forthcoming minority report. He said it will be a "hot" attack on the contract and the waiver decision, backed by testimony given before the Atomic Committee and a Judiciary Antimonopoly subcommittee which investigated some Middle South activities.

## Scouters Set District Meet

A district meeting and roundtable session for Boy Scout leaders has been set for Thursday night at the Junior High School.

W. W. Park, Lone Buffalo District Chairman, will preside at the meeting, while Roy Lashaway will head the roundtable for Cub leaders and Bill Smallwood will direct the roundtable for Boy Scout leaders.

Preparations will be made for observance of Boy Scout Week and for the Boy Scout circus.

The Scout leaders also will make plans to launch their "Together" program for this year. The district has set a goal of 17 new units for this year. Dan Warren is chairman of the organization and extension committee for the district.

## Young Mother Robs Store

HOUSTON, Jan. 15 (AP)—A young mother, her 16-month-old baby in her arms, stuck up a liquor store late last night but was arrested shortly thereafter as she tried to get her husband out of jail with the stickup money.

Mrs. Elizabeth Benear, 22, huddled in a corner of her cell today and sobbed: "I didn't care what happened to me. I didn't think of myself. Only my husband and baby."

The robbery netted $54.

Her husband, James Benear, 27, an unemployed auto painter and partially disabled veteran, is serving a $50 fine on the city work farm, for speeding and driving without an operator's license.

She said she tucked the gun under the baby's dress before entering the liquor store.

"The baby all the time was in my arms. She didn't cry or whimper."

Detectives recognized her from a description called in when she tried to pay her husband's fine.

Her purse turned up $105, of which $51 belonged to her. Even without the $24 she spent for the gun, she had enough to pay her husband's fine.

"They told me earlier it was $95," she cried, "why did they tell me that?"

## Keaton To Attend Butane Dealers Meet

Paul A. Keaton, owner of Snyder Truck & Tractor Co. and vice-president of the Texas Butane Dealers Association, will be in Austin this week for a meeting of the organization's board of directors and membership meeting.

The board will meet Friday, and the membership meeting will be held the next day. On Sunday, the association's new office building in Austin will be dedicated. This will be the first home building of any state butane association.

## Gerald Heinzelman Is Now First Lieutenant

Gerald M. Heinzelmann, Jr., 23, has recently been promoted to first lieutenant while serving with the 1st Armored Division at Fort Hood.

Lt. Heinzelmann, the son of Mr. and Mrs. G. M. Heinzelmann, 1108 Twenty-sixth Street, was last stationed at Aberdeen Proving Ground, Md. He is adjutant general of the 123rd Armored Maintenance Battalion. A 1952 graduate of the University of Oklahoma, he entered the army in June, 1953.

Ice islands have been observed in the antarctic as much as 70 miles long and 20 miles wide with a height of 2,500 feet.

C. R. ANTHONY CO

A new first sergeant is taking over duties at the Snyder National Guard unit. He is Ches Horsley, right, who receives the first sergeant's whistle from his predecessor, Acalee Kincaid, who is moving to Lamesa. At center is Darrell Black, also a member of the unit, who is replacing Kincaid here as service center mechanic for guard units at Snyder, Colorado City, and Sweetwater. Kincaid will be administrative assistant for the Lamesa guard unit. (Lee Watson photograph)

## Sgt. Kincaid Transfers To Lamesa Guard

Changes in a part of the organization of the Snyder National Guard unit were announced here this week by Capt. Weldon Kincaid, commander of the unit.

Acalee Kincaid, who has served as first sergeant of the unit since 1951 and was an original member when the company organized in 1947, is moving to Lamesa.

Kincaid had been employed in Snyder by the state as service center mechanic for guard units here, at Colorado City, and at Sweetwater. He is going to Lamesa for another state job, that of administrative assistant for the Lamesa guard unit. His work there will involve keeping of unit records and other administrative duties. Such a post is held here by L. B. McCravey.

Replacing Kincaid as first sergeant of the Snyder unit is Ches Horsley, post office employe and former service mechanic. Horseley, also an original member of this unit, was a member of the pre-war Snyder National Guard and entered active duty during World War II with that unit. Horseley has served recently as supply sergeant and before that time as a platoon sergeant.

Kincaid's replacement as service mechanic is Darrell Black, who is also a tank commander in the unit. Black, a sergeant first class, has been with the guard unit since 1948.

J. L. Browning and D. R. Scott to Mr. and Mrs. Edward Tullos, east 50 feet of lot 4, block 26, Lundy's Park addition, Jan. 11.

Mr. and Mrs. J. P. Tate to Mr. and Mrs. O. P. Tate, 160 by 60 feet of northwest quarter of section 181, block 3, H&GN survey, Aug. 13.

Mr. and Mrs. G. W. Armstrong to A. R. Clardy, north 50 feet of lot 3, block 1, Grayum & Clark subdivision of Cody Heights addition, Dec. 28.

## FARM AND RANCH

Here's a little note of interest to farmers who may already be thinking about planting soil builders this year:

Effective this planting year, restrictions on planting the cotton allotment have been changed so that if land is planted two rows of cotton, two rows guar, it will be counted as only half cotton. Last year land planted that way was counted as all cotton as far as allotment acreages were concerned.

Henry Burckett, head of the local Agriculture Stabilization and Conservation office, which administers the cotton allotment program, said there has not yet been a date set yet for the latest planting of guar under this new ruling. He hopes the date will be around July 1, he said. This ruling applies only to dry-land counties.

* * *

Price support levels have been set for this year at 61 cents per bushel for oats and $1.78 per 100 pounds on grain sorghums, which is 70 per cent of parity. Last year the figures were 75 cents on oats and $2.28 on grain, which was 85 per cent. Price support levels for these small grains have varied widely in past years, up to a high of 85 per cent in 1953 and 1954 and down to as low was 65 per cent on oats and 35 per cent on grain sorghum during the 15 years prior to 1953, when price supports were in effect.

* * *

"What would be the most important step for a farmer of the Upper Colorado Soil Conservation District to take toward diversified farming?" supervisors of the district asked.

The supervisors agreed that a good percentage of the land planted to the perennial wonder grass, blue panic, would be a big step in the right direction.

In answer to a question some might ask as to how blue panic would benefit their land, the supervisors might say that successful planting of this grass would bring in added farm income through livestock by decreasing the feed bill for all types of stock.

Cattle, sheep, and hogs will all graze blue panic and far well, although hogs will need supplemental feeding. In a seasonable year, one could expect to run one head of mature stock to an acre, and the grass's carrying capacity is remarkable even in a year of below-normal rainfall. Blue panic takes much more grazing than does any other grass adapted to this area. Once a stand is established, the grass keeps coming back every year without replanting. It comes out early in the spring, making grazing by May 1, which is the normal planting date for sudan grass. Therefore, if a farmer has several acres of blue panic, there would be no need for planting temporary grazing until May, since he could just open the gate to the panic and let the livestock in. Blue panic is planted in regular-width rows and requires only about two cultivations per year.

It is possible for a farmer to increase his income considerably by planting 25 to 50 acres of blue panic if his operation is large enough. In the spring good stocker steer calves could be put on the grass and allowed to graze until fall, when they could be put into a feed lot and fed home-grown grain sorghums with proper protein supplements until they had the right degree of finish to top the market. With such a program farmers could sell their grain on foot. Blue panic is a deep-rooted grass which conditions the soil and makes it take water more rapidly.

Several land operators here have successful plantings of panic. Among them are F. L. Eicke, who pastures his hogs on the grass and Raymond Smith, who planted four acres in 1950 and later planted 20 more acres. Others are Frank Strom, Bufford Stirling, C. V. Thompson, Morris Springer, Jack Martin, C. W. Addison, C. A. Berry, W. S. Gillum, J. N. Eicke, Glenn Tate, Frank Wilson, W. M. White, and Buford Browning.

## New SS Law To Be Talked

New social security laws and how they will affect the farmer will be discussed tomorrow night in a meeting of Fisher County farmers.

Joe Dismore, president of the Fisher County Farmers Union, said the meeting will be held in the Midwest Electric Cooperative building at Roby at 7:30 o'clock tomorrow night.

Meeting with the group will be R. R. Tuley, district manager for the Social Security Administration. Tuley will explain new provisions and answer questions presented at the meeting.

The new law, Dismore said, brings federal old-age and survivors insurance to most farm families. Two main changes: beginning next Jan. 1 nearly all farm operators who make as much as $400 profit per year will come under old-age and survivors insurance. Also, farm employes who make as much as $100 annually from any one farmer gets the same protection.

At the meeting, the group will discuss who makes reports for tenants, sharecroppers, farm laborers, and others. Many farmers will need to know, Dismore said, who pays social security taxes and how they are paid.

The meeting will be open to all farmers, regardless of whether they are members of the union. "A little time spent on this now may save the farmer some red tape later on," he said.

## Parker Area Is Developing Dairy Herds

By SAM. WHITLOW
Texas Editor
Farmer-Stockman Magazine
Written for The Associated Press

WEATHERFORD, Jan. 15 (AP)—Dairying furnishes a big part of the agricultural income for Parker County, where 275 Grade A dairies operate.

James Denton, Parker County agent, said much of this dairy progress has come during the past 10 years.

Providing home-grown feed is an important part of the program. Denton said most of these feeds are afforded by small grains and sudan grass. "In our temporary pasture program, farmers are using mostly oats and barley as the small grains, and sudan grass furnishes summer feed," he said. Mustang and new Nortex are the oat varieties most widely used.

Average herd size for the dairy farms is about 30 to 40 cows, largely Jerseys and Holsteins. The Parker County Artificial Breeding Assn. has 206 members who own 3,166 cows.

Farmers in a dairy breeding program usually have their own herd bulls, Denton said.

Milk from the Parker County area goes largely to Fort Worth and Dallas.

Beef cattle also are important in Parker County, and farmers are developing more improved pastures. Dairymen depend largely on temporary pastures for their home-grown feed.

Dairymen are also showing increased interest in growing crops for silage to furnish a good source of feed for dairy cattle.

"We have had to develop our livestock feed resources on scant amounts of moisture," Denton said. "Most of our problems in producing this feed could be solved by a plentiful supply of moisture."

Parker County has the same problem as many other parts of the Southwest—using moisture that is available to the best advantage. Cattlemen say that much of the success depends on adequate and cheap feed.

The little state of Liechtenstein between Switzerland and Austria has been a sovereign state since 1342, says the National Geographic Society.

## Air Service Here Is In Steady Use

Use of airline service in Snyder is not on the increase, but it is not decreasing.

According to figures released this week by Jim Babcock, Pioneer Air Lines station manager for Snyder, the number of passengers boarding and getting off planes here monthly is holding to about the same average it had early in 1954.

The average number of passengers boarded here each month last year was 62, while an average of 56 persons arrived here monthly by plane.

The highest number of persons boarded here, according to the report, was 85 in May last year. The largest number arriving here by Pioneer in one month was 74 last July. Low figures were 41 boarding last March and 38 deplaning in the same month.

Up to the end of 1954, a total of 1,002 persons had boarded planes and 889 had arrived here. That included all passengers from Sept. 27, 1953, when airline service was inaugurated in Snyder.

Babcock said that Dallas, Midland-Odessa, and Fort Worth continue to be the destinations of most persons flying from Snyder.

By months since service started, those boarding were 48 in September, 1953, 75 that October, 75 in November of that year, and 63 in December, 1953. In 1954, there were 52 in January, 56 in February, 41 in March, 66 in April, 85 in May, 82 in June, 67 in July, 51 in August, 55 in September, 50 in October, 67 in November, and 69 in December. Those getting off planes here numbered 38, 66, 64, and 50 during the last four months of 1953, while figures for 1954 were 51 in January, 49 in February, 38 in March, 69 in April, 58 in May, 66 in June, 74 in July, 46 in August, 49 in September, 50 in October, 65 in November, and 56 in December.

Babcock said that use of air freight here fluctuates according to operation of the oilfield. It dropped some during 1954, he said.

Use of air express, especially inbound, is increasing, the manager said. Air mail is still flowing steadily. The airline is still boarding regular mail under special provision with the Post Office Department. Compared to other stations, Babcock said, this station is holding a high average in poundage of air mail.

Pioneer flights here: No. 42 eastbound at 6:52 a.m., 43 westbound at 4:23 p.m., 48 eastbound at 6:22 p.m., and 45 westbound at 8:39 p.m.

## Industrial, Vocational Displays Viewed By 800

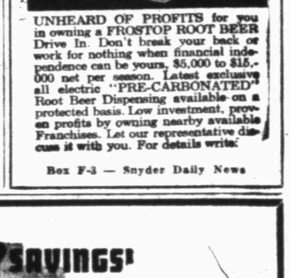

About 800 persons Thursday night attended the mid-semester industrial and vocational project exhibits of Snyder school students, according to W. A. Mayfield, head of the school industrial department.

Mayfield said several of the students' best projects will be taken in May to an industrial arts field day program being held at Abilene Christian College. From there, the projects judged the best will go to Dearborn, Mich., for an industrial arts display sponsored by Ford Motor Corp. The automobile firm will award scholarships and other prizes to those with projects judged best.

Last year projects of Snyder students won 17 out of 26 places in the contest at Abilene, and a project of one junior high student, Sandra White, took a fourth place in the national contest. She received a $40 prize.

Druggists estimate that 90 per cent of the prescriptions written by doctors today could not have been filled 20 years ago because the drugs they called for did not exist.

# Fire Record Here Excellent In 1954

It would be possible for Snyder to have as good a fire loss record again as it did last year, but repetition of such a mark is highly improbable.

During 1954 the insured losses from fires inside the Snyder city limits totaled only $7,990.53 from a total of 80 fires reported.

Last year's less than $8,000 in fire losses was a big improvement over the records of recent previous years.

In 1951 there were 194 fires here with cumulative losses of $160,325. In 1952 there were 175 fires with total losses of $56,815, and in 1953 there were 115 fires with losses totaling $33,234.

Ivan Gatlin, fire marshal, said that "we can attempt to continue bettering our fire loss record, but one big fire will cause losses of more than our total losses last year."

Actually the fire department answered a total of 114 fire calls last year with 43 having been reported as building fires inside the city limits, 13 as building fires outside the city limits, 12 car and truck fires inside, and eight car and truck fires outside the city limits. There were 18 trash and grass fires inside the city limits, five trailer house fires inside and two outside the city limits, and eight false alarms.

Causes of last years fires, so far as is known, hold a clue to future reductions in fire losses here, Gatlin said.

Of the known causes for fires here last year, five were started by careless use of flammable liquids, four by children playing with matches, and three by food burning either on top or inside a cook stove.

Gatlin said that several of the fires last year were caused by storage of flammables in water heater closets with the flash from the pilot light on the heater igniting the things stored in the closets.

"Last year's good record should result in a five per cent credit on our fire insurance key rates here for this year," Gatlin said.

The State Fire Insurance Commission allows lower rates on fire insurance in cities where the fire loss records are low. The key rates are based on a five-year average, and Snyder received a five per cent credit last year.

"Destruction by fire of one average house here could cause more losses than our total losses last year," Gatlin said in urging everyone to make fire prevention practices a habit this year.

# BARROW FURNITURE CO.

## 2200—25th St.

This machine has seen more work than ever before in the Snyder post office. It is the office cancellation machine, which postmarks letters at a fast rate but every year seems to have more letters to cancel. J. P. Nelson, assistant postmaster here, runs mail through the machine. (Lee Watson photograph).

# Growth Reflected In Postal Receipts

Constantly indicating the continued growth of Snyder is its increase in postal receipts.

During 1954, receipts at the Snyder post office reported by postmaster Dawson Moreland set a new high in annual receipts here. The year's total, in fact, was in excess of $10,000 more than that of the previous year and more than $5,000 more than that for the previous record high in 1952.

The $121,137.91 total for last year lacks little trippling that for 1949, the last year before the oil boom, which touched off growth of the city.

Postal receipts here reflect the stability of Snyder, showing that while the oil boom did increase the population and business here, it did not all disappear when the boom ended. The oil boom, for the most part, had subsided by early 1952. That year, in spite of the end of the boom, was a record-breaking year in postal receipts. In 1953, receipts were down from the 1952 level but not below the totals for 1951 and 1950, when the boom was at its height. If there was any doubt before this year that Snyder was still growing, a person using postal receipts as one of his guides in measuring growth should figure the doubt is gone.

Figures of five months in 1954 broke records of those months in past years. Setting new records were March, June, August, September, and December. The last record months in February, April, May, and July were in 1952, while 1951 has the record for January and 1950 has that for October.

POSTAL RECEIPTS BY MONTHS

| | 1954 | 1953 | 1952 | 1951 | 1950 | 1949 |
|---|---|---|---|---|---|---|

* Record Months

# Hospital Averages 18 Patients Daily

Exactly 1,609 patients were admitted to the county's Cogdell Memorial Hospital during 1954 from the time it opened Feb. 1, according to a report made by R. B. Fulcher, administrator.

In addition to having these 1,609 patients, the hospital was the birthplace of 297 babies. During the year, 266 of the patients were in the hospital for surgery.

Averaging 18 patients daily during the 334 days of operation in 1954, the hospital had an average occupancy of 34 per cent. Total expense of hospital operation was $173,150 during the year, while total income was $141,900, making a deficit of $31,250 for the year. This deficit is reduced, however, by an increase in the hospital's inventory during the year, which has not yet been audited, Fulcher said.

There's one thing unusual about this hospital: it has plenty of twins. Nationally, twins occur in one of about every 90 births. In the Cogdell Hospital during 1954, twins occured once in every 59.4 births. Five sets of twins were born in the hospital during the year.

The hospital, which currently has 42 employes, 29 of whom are nurses, averaged about 35 employes during the year. The total hospital payroll for the year was $105,800.

During the year, hospital administration and plant operation cost $37,098.74. By departments, hospital income from special services during the year was $6,718.20 for medical - surgical services, $24,375.47 for drugs, $8,325.75 for anesthesia, $7,143.80 for X-ray, and $14,037.05 for laboratory. Those figures do not include out-patient income for laboratory, X-ray drugs, and medical-surgical, which totaled $5,745.65. Expenses for those departments, not including salaries, were $10,957.60 for medical-surgical, $18,833.84 for drugs, $330.09 for anesthesia, $819.80 for X-ray, and $3,420.37 for laboratory.

In routine services, income was $57,054 for rooms, $3,670 from the nursery, and $2,352.84 from other sources. Expenses, not including salaries, was $17,770.32 for dietary and $5,448.71 for housekeeping.

Accounts receivable at the hospital total $141,918.07. This includes $84,832.43 in accounts over 90 days old, $10,605.70 of those 90 days old, $11,177.65 in 60-day accounts, $15,515.98 in 30-day accounts, $11,518.40 in December accounts, $5,745.65 for outpatient service, and $2,522.29 other income.

# Industrial Arts Club Planned

Preliminary work in the organization of a state industrial arts, club was done here yesterday by high school industrial arts instructors and students.

W. A. Mayfield, head of the school industrial department here, is a member of a five-man state committee working on organization of such a group. This would be organized on the same order as state groups of the Future Farmers of America and the school distributive education program.

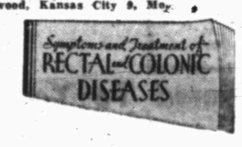

Mayfield and other members of the state committee had previously set up a skeleton constitution and by-laws. Work done here yesterday included any changes needed in the proposed documents. Included in workers were John Echols, president of the local school industrial arts club, and Jimmy Bennett, vice-president. Also working were several school industrial arts instructors, including Frank Miller, W. E. Raborn, Joe Harwell, and Robert Blaylock. Daniel Martin, DE teacher here, and Billy Bob McMullan, agriculture instructor, served as advisors.

Mayfield said work began on the state organization last May, when the state committee was appointed. Reports of the work done will be made late next month when industrial arts instructors from all over the state convene on the campus of Texas A&M College at College Station.

## When Piles Keep Coming Back

No Matter What You Do:

Learn about this proven way of dealing with piles! It is so effective that we can actually guarantee this: "If piles come back after this medically-approved method is used, any further therapy required is free!" Details are told in vitally interesting book written under supervision of the medical staff of famous Thornton & Minor Hospital; completely authoritative. Get your copy NOW! Write Thornton & Minor Hospital, Suite 2360, 911 Br Linwood, Kansas City 9, Mo.

# C-C To Plan Work Program

The Chamber of Commerce program of work committee is now beginning plans for the 1955 program for the chamber.

The committee, appointed last week by Nolan von Roeder, 1955 chamber president, has set up Jan. 24-26 as "coffee days" at the chamber office when members are asked to visit the office and make any suggestions concerning the program. The panel also urges letters and telephone calls to the office on program suggestions.

Following the three-day period of suggestions, the committee will set up open meetings for going over the tentative program. The final program will be adopted at the next meeting of the new chamber board on Feb. 14.

Program committeemen are H. W. Cargile, outgoing president, as chairman, Stanley Noah, Frank Wilson, Harold Bennett, James Rosser, Harry Holbrook, R. A Schooling, Jim Mixon, Jim Wood, Coke Williams, Max West, Bob Wilson, John Blum, Phil Burns, Russell Yorgesen, Joe Holcomb, Weldon Johnson, Ike Dolan, Dr. Wilton N. Jones, Hicks Allen, Claude McCormick, and Von Roeder.

# HOW TO SAVE MONEY ON YOUR INCOME TAX

By SYLVIA PORTER

In households from coast to coast last year, children worked during holidays and summer to earn extra dollars.

In homes all over the nation, parents or children or close friends were being supported by the breadwinner or breadwinners.

The new 1954 tax law made some vitally important changes in the rules governing earnings of children and support of relatives or non-relatives. Here are some guides that will save you tax money.

* * *

QUESTION: My son who is 18 worked during summer and Christmas vacation from school last year and earned $710. Of course it cost us much more than that to support him. What's our tax situation now?

ANSWER: The 1954 tax law removed the $600 ceiling on a dependent child's earnings — at last! — so no matter what your child earned during vacations from school, as long as you supported him, he is a $600 exemption on your income tax return. Your child also gets a $600 exemption on the tax return he files.

If you have dependent children under 19 or over 19 and attending school or receiving on-farm training full time, let them earn all they can during the holidays.

Also, use your child in your own business — if you can manage this — during the school vacation periods. Then you'll get a deduction for the reasonable wage you pay him. You'll get the $600 exemption too as long as you support him. And your child will have his own $600 exemption, which may cut his tax to zero or near it.

QUESTION: I have a daughter who was graduated from college last June. She's now working and is completely self-supporting. But I supported her while she was in school and until she found a job. Can I claim her as a dependent?

ANSWER: Yes — assuming you furnished more than half her support during 1954. Even though she earned more than $600 last year, you are entitled to the deduction because she was a full-time student — meaning she attended school for at least five months. Even if she began work right after she was graduated in June, she meets this requirement and she is a deduction on your 1954 return.

QUESTION: Our 19 - year-old daughter works and pays us for her room and board. Must we report this as income to us?

ANSWER: No. What she pays you for room and board is probably less than what her lodgings and meals cost you.

QUESTION: My son won a scholarship last year and also earned some money during the year. Still it cost me a good deal to keep him in college. Will I be able to get a deduction for him?

ANSWER: Yes, for under the new law, you need not include the value of your child's scholarship when proving your furnished more than half his support. Under the old law, scholarships were counted as support. Since you supported him, you get the $600 exemption. He can earn whatever he can manage and get his own $600 deduction on his return. And he can enjoy his scholarship throughout his college years.

QUESTION: I supported my 24-year-old brother last year while he was takng some special courses. He's entirely capable of supporting himself. Can I still claim the exemption?

ANSWER: Of course. It doesn't matter whether the dependents are physically and mentally capable of supporting themselves. If you contributed more than half the support and your dependent did not have a gross income of $600 or more, you get the exemption. (The $600 limit on earnings applies in this case because your dependent brother was over 19 and was not attending school full-time.)

QUESTION: I claim my father as a dependent. Is it true that if he has a gross income of $600 or over, I cannot claim him? What is included in his gross income?

ANSWER: You cannot claim him as a dependent if his gross income is $600 or more — and gross income means what has to be included in his tax return. It does NOT include such non-taxed items as gifts or social security benefits.

This can be tricky. Let's say your father owns a two-family house, lives in one apartment, rents the other for $55 a month. His gross income in 1954 was $660, but after interest and land taxes his net was only $100. You can't take him as a dependent, even though you contribute more than half his support because his gross topped $600.

* * *

Tomorrow: Your medical deductions.

## Jaycees Here Plan Membership Drive

The Junior Chamber of Commerce made their final preparations at their weekly meeting Friday for a membership drive to be conducted starting tomorrow.

The drive, which coincides with national Jaycee week, will end with the organization's luncheon Friday. An open house and party are planned for that night by Jaycees here.

Dan Warren, chairman of the membership committee, appointed as team captains in the drive Johnny Greenfield, Billy Bob Hardee, Dr. Bob Hargrove, Bob McAlister, Zane Gilbert and Dick Roberts.

At the Friday meeting, the Jaycees presented a cash award to Jan Stacy, high school student and local winner of the Jaycee "Voice of Democracy" contest. Zane Gilbert, committee chairman on the contest, made the presentation. Wayne Pevey, high school speech teacher, was presented a certificate of appreciation for his guidance of the project in the schools.

REV. I. T. HUCKABEE

# Rev. Huckabee Back Again As Union Pastor

Scurry County has undergone some drastic changes in the 10 years the Rev. I. Huckabee was away. Nonetheless, he's not a stranger in his new pastorate at the Union Methodist Church, for he still finds familiar names.

Mr. Huckabee served as pastor of the Union Church when it was just one of the group in the Fluvanna circuit. Other congregations in his circuit then were Fluvanna, Gail, Dermott and Polar. He was kept busy traveling between them, and at the end of a year he chose to move to Hermleigh to become pastor of the church there.

Mr. Huckabee has been a minister 35 years. During that time, he worked six years in the North Texas conference, five years in the Central Texas conference, and 24 years in the Northwest Texas conference. His father, the late J. S. Huckabee, was also a minister. A brother, the Rev. R. N. Huckabee, is now working with a church in Hedley, Tex., after being associated with the First Methodist Church in Lubbock for several years.

Mr. and Mrs. Huckabee moved here from Lefors, where they had lived for the last 19 months. Mrs. Huckabee has a son, M-Sgt. Ray Hornback, who is stationed in Japan. Mr. Huckabee replaced the Rev. E. B. Thompson as pastor of the Union church.

# Nathan Wade Elected To Bank's Board

Nathan Wade, Scurry County rancher-farmer, has been elected to the board of directors of the West Texas State Bank.

Wade replaces Wade Pipkin on the bank's board of directors.

There were no changes made in the official staff or board of directors of the Snyder National Bank when the stockholders held their annual meeting, Ralph Geisenhoner, executive vice president, said.

Officers of the Snyder National Bank re-elected by the board of directors after the stockholders re-elected the board are: Maurice Brownfield, chairman of the board; A. C. Alexander, president; Geisenhoner; Mrs. Mildred Stokes, cashier; and Cecil Boren, assistant cashier.

Directors of the Snyder National Bank are: Brownfield, Alexander, Hugh Boren, Jr., G. B. Clark, Jr., P. W. Cloud, W. M. Fuller, Geisenhoner, and Harrie Winston.

Officers of the West Texas State Bank are: Wayne Boren, chairman of the board of directors; Hugh Taylor, vice chairman; Nolan Watson, president; H. W. Cargile, executive vice president H. H. Eiland, vice president; Martin A. Brooks, cashier; Mrs. Jeanelle Allen, Riley R. Foster, Kenneth Hathaway, Erich R. Arnold, and E. Ray Warren assistant cashiers.

Directors of the West Texas State Bank are: Boren, Taylor, Cargile, D. M. Cogdell, Jr., Herman Doak, B. C. Drinkard, Eiland, George E. Parks, C. V. (Whit) Thompson, Watson, and Wade.

Pipkin is co-owner and operator of Wade Pipkin Motors, the Ford agency here.

## New Mexico Man Pays Fine In County Court

J. C. McGuairt, 34, of Hobbs, N.M., pleaded guilty in county court yesterday morning to a charge of swindling by worthless check.

McGuairt, who had been brought here from Hobbs Friday by Bill Love, sheriff's deputy, paid a fine of $10 plus $23.50 court cost and $21 mileage cost of returning him here.

Insects vary in size from the almost microscopic to as much as 13 inches long.

When You Buy From These FRIENDLY MERCHANTS! You Save

Fore and Aft- and Curbside, too-

It's the style hit of the year!

YOU can take our word for it when we tell you this:

The first time *we* put eyes on the 1955 Buicks, we really raised a cheer.

To top the looks of last year's Buick—the car that moved Buick into the top three of the nation's best sellers—that was something.

That gave us two hits in a row, we figured—and it seems we figured right.

For with these stunning new 1955 Buicks, we're getting even more noses pressed against our showroom windows than last year—and more folks coming in to look and study and drive and *buy*.

But bold new styling, of course, is just one reason for the sensational success of these great cars.

New power is part of the picture—robust new V8 power in record might—236 hp in the CENTURY, SUPER and ROADMASTER—188 hp in the low-priced SPECIAL.

New performance, too—from the dynamic action of Buick's Variable Pitch Dynaflow* that gives you far better gas mileage in normal driving and cruising—and full-power getaway or safety-surge acceleration, *but instantly, and with infinite smoothness.*

So you can see that just looking isn't enough. You have to take that wheel in your hands, try that power, feel that Dynaflow take-hold surge, sample that Million Dollar Ride—and check the hard-to-pass-up prices we're quoting.

We'll gladly help you do all that. Why not come in this week?

**Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.*

## Gas Price Battle To Reach Climax

By BO BYERS

AUSTIN, Jan. 15 (AP)—The long-time, three-way price battle between Texas independent gas producers, distributors and consumers throughout the United States may reach a climax on two legislative fronts this year.

Independent gas producers and royalty owners are urging the Legislature to pass a bill to raise wellhead prices of gas.

In Washington, lawmakers from Texas and other gas producing states are expected to push for clarification of the Natural Gas Act to assure exemption of the production and gathering of natural gas from Federal Power Commission jurisdiction.

The FPC listened to testimony this week on how to set prices at the wellhead. Most of those wellheads are in Texas, which produces more than half the U.S. natural gas.

What Congress does about FPC power over gas producing and what the Texas Legislature does about field prices can strongly influence utility rates on gas sold 2,000 miles from Texas.

Transmission lines now are pumping more than two trillion cubic feet of gas per year from Texas to three-fourths of the 48 states.

Don Wilson, 50, a wheat farmer, cattle rancher and royalty owner in the Texas Panhandle, has been a leader in vain efforts for six years to pass a minimum gas price bill or an economic waste bill.

The bill would force what independent producers and royalty owners call "fair, competitive field prices."

Wilson was hopeful such a law would pass this time.

He said the U.S. Supreme Court decision in the Phillips case may jolt the Legislature into defensive action.

"Four years ago I testified right here what the FPC was going to do to them, and they the Texas lawmakers laughed at me," Wilson recollected.

He wants the state to control gas prices but is willing to take his chances on federal control if the state is unwilling to act.

"We're sunk if we don't get some protection out of somebody," he said. "Twenty per cent of the big Hugoton Field in the Panhandle is under lifetime contract at three cents per thousand cubic feet.

"If the state's not going to help improve the situation, then let the federal government do it."

## Mid-Continent And Sunray Plan Merger

TULSA, Jan. 15 (AP)—Negotiations for a merger of Mid-Continent Petroleum Corp., with Sunray Oil Corp., Tulsa independents, was confirmed today by Sunray Chairman C. H. Wright.

Wright told the Tulsa World from New York:

"Some talk has been made as to a possible merger of our companies, and they are continuing. Negotiations are underway. Beyond that I can tell you nothing."

Mid-Continent directors have approved a plan to split company stock on a 4-1 basis so Sunray could meet at the conference table on a stock level.

The World said that when the capitalization of the enlarged Sunray firm is completed it would total $432,487,327, "based upon the latest published figures of $279,869,744 for Sunray and $152,617,583 for Mid-Continent."

Mid-Continent's refinery here is the state's largest and yearly processes 21½ million barrels of crude. Sunray's refineries at Allen and Duncan, Okla., have a capacity of 45,000 barrels daily.

Mid-Continent marketing facilities reach into Iowa, Illinois, Wisconsin, Michigan, Indiana, Kentucky, Tennessee, Arkansas, Missouri, Kansas and Oklahoma.

The marketing department of Sunray is small, the bulk of its production moving by pipeline to West Memphis, Ark.

A consolidation would mean much of Mid-Continent products could be moved by pipe to the Mississippi where the use of barges would materially reduce transportation costs.

Mid-Continent produces crude mainly in Oklahoma, Texas, New Mexico, Kansas and Arkansas.

Crude output by Sunray is centered in Canada, Arkansas, Alabama, California, Colorado, Illinois, Kansas, Louisana, Mississippi, Nebraska, North and South Dakota, Pennsylvania, Texas, Wyoming and Oklahoma.

### Outpost Is Staked To Field In Coke

Union Oil Co. of California has staked the No. 2 F. C. Wojtek as a three-eighth-mile southeast outpost to the discovery of the Munn-Canyon sand field in Central Coke County. The new project is the fifth to be staked in the Munn area since the discovery well, J. B. Randle No. 1 Wojtek, was completed.

The No. 2 Wotjek is 1,980 feet from north and west lines of section 406-1A-H&TC, about four miles north of Robert Lee. Contract depth is 5,100 feet, with operations to start at once.

## Unitization Expansion Is Asked In Area

The largest unitization project ever attempted in Texas — the Kelley-Snyder operation — will be expanded if the Railroad Commission grants a unitization request for the Diamond M-Canyon field in Scurry and Borden Counties.

The Railroad Commission heard the request Friday in Austin. No opposition was presented to the proposal, which would unitize the operation of 337 wells on more than 13,000 acres.

A decision will probably be announced in February, according to Arthur Barbeck, chief engineer of the commission's oil and gas division. Barbeck conducted the hearing.

Present for the hearings were representatives of Stanolind Oil & Gas, Humble Oil & Refining, Shell Oil, Superior Oil, Lion Oil and Stoube Oil, and R. E. Smith and Raybourne Thompson of Houston, independent operators. If unitization were allowed, Warren Petroleum Corp. would become the operator, a spokesman for the operators said.

Barbeck called the plan a "noteworthy achievement, inasmuch as 100 per cent of the working interests agree to the plan." He stated that the apparent additional recovery outlined would be phenomenal. L. F. Peterson of Fort Worth, speaking for the operators, said that testimony offered the commission showed "recovery would be increased from 95 to 204 million barrels, or more than doubled" by the proposed program of peripheral water injection.

The unitized Kelley-Snyder field, which has operated under three segment managers since last year, includes wells on 47,439 acres. Water injection is a key factor in the secondary recovery program. Unitization means a cooperative undertaking by all operators agreeing to the plan in an attempt to recover more oil than could be recovered by independent production of each lease.

The kettledrum is a very ancient instrument which was well known to the ancient Greeks and Romans but probably reached them from the countries to the east of them.

## Antiaircraft Units Ready For Action

By VERN HAUGLAND

COLORADO SPRINGS, Colo., Jan. 15 (AP)—The commander of the nation's antiaircraft guns, newly returned from a swing around U. S. Nike guided missile installations, says he is "happy with the over-all readiness and effectiveness" of antiaircraft units.

And it's possible that they could be made even more effective through the use of trained dogs, says Army Lt. Gen. Stanley R. Mickelsen.

Mickelsen is the Army's top representative at headquarters here of the Continental Air Defense Command, this country's first domestic undivided Army-Navy-Air command.

Mickelsen told reporters he found the morale of antiaircraft personnel high everywhere on his recent tour.

He said he is "very happy" with the Nike antiaircraft system. He noted there has been a considerable amount of "sniping" at the Nike by persons who question its usefulness against high-flying, high-speed jet aircraft.

"The Nike is doing everything it was designed to and more, and there is no need in any way to apologize for its performance," he said. He added that security restrictions prevent him from disclosing just how good a weapon the Nike is.

The general said he would like to try out dogs in the role of alerting antiaircraft and Ground Observer Corps units.

Mickelsen said ground spotters almost always hear a plane before they see it, and he said the trained dogs, with their superior hearing, could give an even earlier alarm.

Mickelsen said the community relationship of antiaircraft batteries is "wonderful" and is improving further as the public comes to understand the need for the batteries.

He declined to indicate how many Nike installations there are, but said there will be many more.

He said until this guided missile becomes more mobile, other antiaircraft weapons, such as the World War II 120mm and 90mm guns will be more effective for tactical combat. He added that modifications and modernizations will increase the effectiveness of the conventional antiaircraft guns so that the outlook for them continues "very promising."

## Soviets Not Hiking East German Force

HEIDELBERG, Germany, Jan. 15 (AP)—The commander in chief of the U.S. Army in Europe said today the Soviet Union is waging an all out political fight against West German rearmament but apparently is not increasing Russian military forces in East Germany.

Gen. William M. Hoge, in a headquarters interview here, said:

"The Soviet intentions of aggression seem less now than in the past. But they are trying to see how far they can go in throwing obstacles in the way of West German rearmament. As we see it, this is mostly political.

"There are no indications they are backing up their opposition with increased Soviet military forces in East Germany."

Hoge said the Russian army on the Elbe River line "is believed to have atomic weapons but we do not know to what degree."

The general's own forces in West Germany number a quarter million troops, 30 atomic cannons and an array of Honest John rocket missiles designed for atomic warheads.

Hoge said the U.S. Army here is stronger than ever before because of atomic weapons plus improved training.

"They give us a capability of inflicting greater losses on an aggressor," he explained. "And they make it possible for the Army to make a closer stand on the Iron Curtain. It is the intention of all NATO to hold as much of the present ground as possible, including Germany.

## Kent Wildcat Finds Shows

Shows of oil and gas have been recovered on two drillstem tests of the Pennsylvanian at General Crude Oil Co. No. 1 Bilby Wallace, four miles south of Girard.

The most recent test, run from 6,640-648 feet, lasted three hours. Recovery in the tool was 1,060 feet of free gas and 65 feet of oil-cut drilling mud. Open bottomhole flowing pressure was zero, with two-hour shutin pressure 2,600 pounds.

An earlier test from 6,632-640 feet recovered 1,140 feet of gas in the drillpipe and 60 feet of oil and gas-cut mud. A core from 6,640-648 feet recovered eight feet and three inches of gray, fossiliferous lime with pinpoint porosity and bleeding oil and gas.

At last report, operator had deepened to 6,665 feet and another drillstem test was in progress.

The No. 1 Wallace is in section 36-L-H&TC.

### New Wildcat Test Is Scheduled In Runnels

Burk Royalty and James K. Anderson and others of San Angelo have announced plans to drill a 2,800-foot wildcat eight and a half miles northwest of Ballinger in Runnels County.

The prospector will be the No. 1-B John W. Earnshaw, 2,220 feet from east and 2,366 feet from north lines of section 33-62-H&GN. Operations will begin in the near future.

# Middlecoff Heads Field In Bing Crosby Pro-Am Tourney

By BOB MYERS

PEBBLE BEACH, Calif., Jan. 15 (AP)—Former National Open champion Cary Middlecoff stroked through mud and rain today to take the lead with his second straight 69 and a 36-hole score of 138 in the $15,000 Bing Crosby Pro-Amateur golf tournament.

The 1949 U. S. winner moved into a one-stroke lead over three lesser known professionals for the final round of the 14th annual 54-hole event tomorrow.

Tied at 139 were Stan Leonard of Vancouver, B.C., the co-leader in the first round; Bob Rosburg of San Francisco and distance hitter Mike Souchak of Durham, N.C. Leonard had 66-73, Rosburg 72-67, and Souchak 72-67.

Scores mounted as the day-long rain fell and among the casualties was the other co-leader of the first round, little Jerry Barber of Los Angeles. Barber dripped in with a seven-over-par 79 for 145.

Still very much in the battle was Gene Littler of Palm Springs, who shot his second straight 70 for a 140, two off the pace.

The rain is supposed to let up tomorrow morning, according to the forecast, but the host of the affair, singer Bing Crosby, watching from a picture window in his home on the 13th fairway, was not too optimistic. Crosby, troubled by a recurring kidney ailment, has been taking it easy.

E. J. (Dutch) Harrison, winner of the big show in the 1954 tournament—the fight for the $2,500 top money for the top pro—got back on his game today with a 69, but his first-round 76 left him still far afield.

Professional Bob Rosburg and amateur Hank Mann, also of San Francisco, went far ahead in the pro-amateur play with a best ball score of 62-61—123. The nearest threat was six strokes back. Included were the teams of Jimmy Demaret and actor Dick Arlan, Souchak and baseball pitcher Bob Lemon, and yesterday's leaders Fred Wampler and Julie Bescos.

Today's play was over two courses, the split field reversing the course played yesterday. One was the Monterey Peninsula layout, 6,246 yards with par 35-37—72. The other was Cypress Point, 6,317 yards with par 37-35—72.

Middlecoff played Monterey in 36-33—69. He went one over par on the eighth hole. But he shot an eagle 3 on the 13th and a birdie on 14 and 15 and went on to finish three under par. Three strokes back of the leader were Jack Burke with 69-72 and Julius Boros 70-71—141.

Byron Nelson, the former tournament great, who plays little in tournaments now, finished with a 75 for 145. Doug Ford followed a first-round 67 with 74 to tie Burke and Boros.

Hard luck hit some of the first-round low scorers.

Dow Finsterwald, Athens, Ohio, added a 77 to his previous 68 for 145. Gerald Kesselring, Toronto, finished 68-74—142, and Max Evans, Detroit, a 79 after a first-round 70 for 149.

Pro-amateur scores included Middlecoff and Ed Crowley, Los Angeles hotel executive, 66-64—130, and pro Art Doering and Gen. Omar Bradley of Beverly Hills 65-66—131. Doering's individual score was 76-70—146.

England's Tony Harmon and singer Howard Keel ended 67-69—136, and Jim Turnesa and song writer Hoagy Carmichael with the identical scores.

Henry Williams, Kutztown, Pa., and young movie star Bob Wagner shot 69-71—140, and Bill Nary, Reno, Nev., and baseball player Jerry Priddy of Los Angeles 67-70—137.

Two Tacoma, Wash., players, pro Chuck Congdon and Edgar Eisenhower, whose brother Ike also plays golf, had 67-71—138.

# ABOVE THE BLEACHERS

By DALE WALTON

We like this year's version of the basketball free throw rule, but we don't like, and figure plenty of others don't, to change the rule every year.

Here's a suggestion for a new change in the rule brought up by Maurice Podoloff, president of the National Basketball Association: to keep fouls on a scoresheet until the end of each half, with no free throws allowed during regular playing time. The fouls would then be tallied and the difference between fouls taken to determine the number of free shots. In other words, figure Snyder and Sweetwater are playing, and at the half Snyder has 10 fouls and Sweetwater 12. Under this rule, then, Snyder would get two free shots because Sweetwater had two more fouls than did Snyder.

This would, says Podoloff, shorten the game. That it would do, but the games are not very long now. We don't disfavor such a rule, rather we just don't like changing every year. Basketball has been played under different free throw rules each year for the past three.

* * *

New athletic director for the Amarillo schools is Devere (Dee) Walker, 37-year-old assistant grid coach at North Texas State for the past eight years.

Walker's job starts Feb. 1 and has him in charge of athletics at all Amarillo schools, includng Palo Duro High, which was admitted to District 3A-1 for next season. He signed a one-year contract at an annual salary of $7,500, which is, incidentally, the same salary to be paid Bill DuBose, new head coach for Lubbock's new Monterrey High School and former Texas end coach. Walker, a graduate of North Texas, played at tackle for the Eagles when in school.

There are still openings in Amarillo for two head coaching positions, both at Palo Duro and Amarillo High. Bill Defee quit last week as head coach at Amarillo High.

* * *

Leon Autry and James (Nig) Barnett have been named managers of two Little League teams. The two were chosen Friday by the National League of the Snyder boy loops. Under the new setup the Little Leagues have here this year, there will be two leagues of four teams each, the National and American. The leagues are now making preliminary plans for their new year, which will start about the time school is out. Also readying for its season at about the same time is the Pony League here. Little League is for boys 12 and under, while Pony League takes in those up to 15.

# Mitchell Deal Is Confirmed

LITTLE ROCK, Ark., Jan. 15 (AP)—Jack Mitchell, 30-year-old head coach at Wichita University and a former assistant under DeWitt Weaver at Texas Tech, was named officially here today as University of Arkansas football coach at $12,000 a year.

He succeeds Bowden Wyatt, who walked out on a five-year contract after two years to become head coach and assistant athletic director at his alma mater, the University of Tennessee.

Mitchell's former head assistant, Pete Tillman, will succeed him at Wichita.

Mitchell, a former All-Big Seven Conference quarterback who set all sorts of records with the Oklahoma Sooners, was drawn into the spotlight after a strong recommendation by Weaver, Arkansas' original choice for the job.

The deal was closed at a Friday afternoon meeting at Fayetteville when Mitchell and members of the faculty committee on athletics were mutually impressed.

At Oklahoma University they called Mitchell "General Jack" because of his superb leadership on the field.

Mitchell's record as a coach is almost as impressive. Two years ago he took over a Wichita team that had been doormat of the Missouri Valley Conference many years. His first season he won four, lost four and tied one.

Last season his split-T offense caught fire. His Shockers rolled over nine opponents and lost only one game. He won conference "coach of the year" honors along with the championship.

# Tittle Gets West Call At Quarterback

LOS ANGELES, Jan. 15 (AP)—Coach Buck Shaw of the West's grid team that faces the East Sunday in the Pro Bowl game, says he's going to open up with Y. A. Tittle at quarterback flanked by his San Francisco '49er teammates, John Henry Johnson and Joe Perry, plus Doak Walker of the Detroit Lions.

"That will be our starting backfield," said Shaw. "I intend to alternate Tittle with Norman Van Brocklin, Los Angeles Ram quarterback. When Van Brocklin is calling signals he will have Skeet Quinlan and Dan Towler, also of Los Angeles, plus Buddy Young of the Baltimore Colts."

Shaw will have as his starting line Lou Creekmur of Detroit and Bill Bishop of the Chicago Bears at tackles; Duane Putnam of Los Angeles and Bruno Banducci of San Francisco at guards; Leon McLaughlin of Los Angeles at center, and the ends will be San Francisco's Billy Wilson and Harlon Hill of the Chicago Bears. They will be spelled by Los Angeles' all-pro end, Bob Boyd.

Coach Jim Trimble of the East squad told writers he may start his own Philadelphia quarterback, Adrian Burk, because the Eagle has had much more practice here than Otto Graham of the Cleveland Browns.

The East will most likely start Pete Pihos of Philadelphia and Danta Lavelli of Cleveland at ends; Lou Groza of Cleveland and Lum Snyder of Philadelphia at tackles; Abe Gibron of Cleveland, Bill Austin of New York at guards; Frank Gatski of Cleveland at center; Ollie Matson of the Chicago Cards, Kyle Rote of New York, Eddie Price of New York, and either Burk or Graham, in the backfield.

# Hobbs Teams Win On Court

Hobbs boys and girls teams took wins Friday night over McCaulley in district cage games.

The boys team won 49-36. It led off 11-10 at the end of the first quarter and held leads of 21-14 at halftime and 33-26 at the end of the third period.

Bynum Miers paced the team with 13 points, followed by Bobby Pullig and Doyle Hayes with 12 each. McElrea led McCaulley with 14.

The boys team now has a 2-2 district record.

The Hobbs girls were wnners 55-39 over McCaulley. Hobbs led 20-7 at the end of the first quarter, 36-15 at the half, and 40-29 at the end of the third.

Delphene South led the team with 26 points, while Barbara Sellers had 13.

The girls team is undefeated in four district games.

The two teams will meet Divide Tuesday night at home in the last first-round district game.

# Robinson To Face Jones Wednesday

By CHARLES CHAMBERLAIN

CHICAGO, Jan. 15 (AP)—Ralph "Tiger" Jones, a tireless, bodybelting 26-year-old from Yonkers, N. Y. will test the sharpness of sleek Sugar Ray Robinson at Chicago Stadium Wednesday night.

The 10-rounder, starting at 10 p.m. EST, will give television fans their first chance to see Robinson on a comeback attempt to regain the middleweight crown from Bobo Olson. It will be carried over CBS.

The former champion, who held the welterweight title and then took the 160-pound crown by battering Jake LaMotta in Chicago Stadium four years ago, announced his retirement six months after his memorable bout with Joey Maxim, June 25, 1952.

The light-heavyweight title was at stake, but Robinson—well ahead on points but completely exhausted by his fast pace and the intense New York heat that night—was unable to come out for the 14th round.

After that, he became a song and dance man on the night club circuit. Now, at 34, he is aiming for another crack at the middleweight championship held by Olson, whom Robinson kayoed in 12 rounds in 1950 and outpointed in a title fight at San Francisco in 1952.

Robinson scored a six-round knockout over Joe Rindone 10 days ago in a non-televised Detroit match to start his comeback.

"I'll be even better this time," said Robinson. "I was under a lot of tension against Rindone—I felt great, but wasn't real sure. This Tiger Jones is no easy touch—he's all action and you've got to fight every second to beat him. But that's what I want—opponents who will make me work. I need them to get back into top condition."

Robinson has a record of only 3 defeats and 2 draws in 142 fights.

# Cage League To Complete Organization

A city basketball league will complete organization at 7:30 o'clock Tuesday night when it meets at the high school shop building.

At a previous meeting those interested in a league decided to meet again after committees had done some preliminary work. One committee reported this week that the junior high school gymnasium will be available for league use, probably on Tuesday and Thursday nights. Other nights may be available at times.

At least four teams have indicated they will definitely enter the league. They are those sponsored by Sunray, Brooks Oil Well Service, and National Guard and another team presently without a sponsor. Three other groups did not have teams organized yet but were considering doing so. Teams already formed were to pick a representative to serve on the league's board of directors. Other teams which attend Tuesday night's meeting may then select a board member. When the league is organized, the board will take up operation and elect a president.

All persons interested in the league are invited to the Tuesday meeting, which will be headed by Bruce Forbes. Feeling expressed at past meetings were the league would operate best with about six teams.

# BOWLING

CITY LEAGUE

Last week's results — Weber Insurance Agency, 2,735, 4 points, Blakely Service 2,629; Goss Car Lot 2,541, 2 points, Gordon's Grill 2,529, 2 points; Snyder Wholesale 2,611, 4 points, Chuck Wagon 2,473 Bull's Service 2,553, 3 points, Williams Jewelry 2,445, 1 point; Goss Car Lot 2,632, 3 points, Williams Jewelry 2,606, 1 point.

High individual series — L. O. Weber, Weber Insurance, 589; John Vernon, Bull's, 584; R. C. Graves, Weber, 582; Bill Fisher, Snyder Wholesale, 554.

This week's schedule—(last week of first half )Monday night, Chuck Wagon vs. Gordon's, Bull's vs. Blakely's; Wednesday night, Weber vs. Williams, Goss vs. Snyder Wholesale.

League standings — Goss 40, Chuck Wagon 40, Blakely's 37, Weber 36, Bull's 35, Snyder Wholesale 34, Williams 26, Gordon's 25.

# Matthews To Enter Texas

HOUSTON, Jan. 15 (AP)—Vince Matthews, Texas' outstanding schoolboy football star of 1954, today said he plans to enroll at the University of Texas at mid-term.

Matthews said he signed a letter of intent here last night with Texas Coach Ed Price.

The 176-pound quarterback earlier this week was selected by members of the Texas Sports Writers Assn. as the state's most outstanding schoolboy player last season.

Matthews' passing ability was credited with moving his Cinderella Stephen F. Austin team, loser of four of its first five games, into the state finals. Abilene defeated the Mustangs, 14-7, for the Class AAAA title, scoring a tie-breaking touchdown with 56 seconds to play.

Matthews, who was 18 yesterday, graduates at Austin next Friday

In commenting on his Texas selection, Matthews said:

"I like their formation — that tight T — and I think I would be happier up there."

In 13 games last season, Matthews completed 113 of 207 passes for 1,611 yards and 10 touchdowns. He had 10 interceptions.

# Record Is Set By Poona II

ARCADIA, Calif., Jan. 15 (AP)—Irish-bred Poona II surprised a favored field and turned in a new world record today in winning the $28,100 San Fernando Stakes at a mile and one-sixteenth.

Poona II went the distance in 1:40 4-5 seconds in the test for 4-year-olds as the favored Kentucky Derby winner, Determine finished fourth. Calumet Farm's entry of Miz Clementine and Duke's Lead copped the place and show respectively.

Ridden by champion jockey Willie Shoemaker, Poona II took the lead shortly after the start and stood off repeated challenges on the fast track. He finished 5½ lengths ahead of the Calumet filly, Miz Clementine.

Third choice in the betting, Poona II returned $11.90 and $3.90 with no show betting in the feature because of the slim field of seven.

The old world record for the mile and one-sixteenth was set by Count Speed at Golden Gate Fields in 1947 and tied by Imbros at Hollywood Park in 1954 at 1:41.

Now that the flat racing season is over in England, some jockeys from the British tracks are trying their luck in Singapore and Malaya.

## Gifts To Richards Cleared By AAU Unit

LOS ANGELES, Jan. 15 (AP)—The nation's top vaulter, Bob Richards, is still in the good graces of the Amateur Athletic Union.

The AAU conducted an investigation yesterday of gifts turned over to Richards during his appearance on a "This Is Your Life" television program and discovered that they were presented to the Long Beach Church of the Brethren, of which Richards is pastor.

Larry Houston, chairman of the AAU's Southern Pacific Assn. rules committee, said that since the gifts were presented to the church in the interests of furthering its service to the members of the congregation and the community, the committee feels that Richards' amateur status has not been jeopardized.

Richards appears tonight in the Boston AA games, an indoor meet.

## Billy Martin Trying Hand At Basketball

FT. CARSON, Colo., Jan. 15 (AP)—Pfc. Billy Martin, former New York Yankee baseball player and star of the 1953 World Series, is taking a whirl at basketball.

Coach Dick Swan of Ft. Carson's cage team says Martin is one of the best one-handed shots on the squad.

Martin will manage the Ft. Carson baseball team until he gets his discharge this summer, officials have reported. The ex-Yankee second baseman has indicated he'll join the Yankees immediately.

## Aggies Win Season's First Swimming Meet

COLLEGE STATION, Tex., Jan. 15 (AP)—Texas A&M today won 7 out of 10 first places to defeat Northwest Louisiana State, 56 to 28, in the first dual swimming meet of the season for the Aggies.

The visitors won only the 1-meter diving, 440 yard freestyle and 200 yard backstroke events. The Aggies won the 100 and 300 yard individual medely, 50, 100 and 220 yard freestyle, 200 yard back stroke and the 400 yard freestyle relay.

**DISSATISFIED?**

If you are unemployed or you are employed and looking for a better opportunity with earnings of $8,000 to $10,000 a year (bearing security for you and your family, apply room 201 Manhattan Hotel on January 17, 1955 the time 10 am, 2 pm and 7 pm.

One of the largest national organizations of its kind in the world is projecting a great new program which has tremendous public acceptance.

Salesmen now are earning $200 to $500 weekly and up. This is definitely substantiated.

# Tigers Decision Lobos, Bow To Bulldog Team

The Snyder Tigers crashed back into the running for the District 3A-1 title last night when they got by the Levelland Lobos 56-53 in a game played here.

The night before the Tigers had lost to Plainview, leading team in the district, 44-35. Levelland at the same time was downed by Sweetwater 76-67.

Alan Snead, who got "hot" again on his shooting, especially on his shots from the side of the court, paced the Tigers with 21 points. Jack Spikes, who had been out of the Plainview game with a leg ailment, was back last night and played most of the game. He and Jerry Taylor ran second in scoring with 11 points each.

The Tigers, who had built up a 16-point lead in the third quarter, had to work through the game. The 16 point difference didn't stop Levelland, which closed it up in one quarter's time to two points lead held by the Tigers. It was a close one for the last three minutes of the game. Snead and Taylor did all the Tiger scoring in the final period, Snead getting two field goals and a free throw and Taylor three free tosses. Snead, Taylor and Don McNew each stole the ball several times during the game, Snead snatching one with two minutes to go when the Tigers were only two points ahead and when Levelland's Mack Freeman was moving in for a lay-out shot.

The rebounding of Spikes and Milton Ham had much to do with the Tigers success. Levelland led the game several times during the first and second periods. There was no more than three points difference in the score of the game until early in the second quarter, when the Lobos edged out to four points. They had led 13-11 at the end of the first quarter.. The Tigers grabbed the lead soon afterward, and by the time the second period was half gone they had their steamroller working.

Snyder led 35-25 at halftime, and the team quickly increased its lead to 16 points early in the third. Levelland began to close it up again, leaving the Tigers ahead 48-37 by the end of the third.

Larry Corbin, 6-foot-8 Lobo performer, topped that team's scoring with 16 points, followed by Mack Freeman's 12.

The Tigers hit 43.9 per cent of their field goal shots in the game, one of their better averages of the season. Their percentage on free throws was 64.5. Levelland hit 31.3 on field goals and 67.7 on free throws. Ham and Snead had top averages for the night on field goals, both above 60 in percentage. Snead and McNew were hitting more than 80 per cent on free tosses.

Levelland took the B game 66-36. Snyder B coach Jack Dillon, after getting many points behind, gave his less-experienced players some time in the game. He used 12 players in all during the tilt.

Leading the Levelland B was Jesse Sudderth with 18 points, followed by Hillary Ranson with 15. Earl Rhodes, who did not enter the game until late in the last quarter, was Snyder's top scorer with 15. He did all Snyder scoring in the third period. Levelland led the game, by periods, 19-6, 34-18, and 50-24.

The Snyder team will be off as far as district games are concerned until next Friday. They will have a practice game, however, when they go to Odessa Tuesday night.

The Snyder - Plainview varsity game offered plenty of excitement for a full house of fans here.

Playing without the services of two of last year's top team members, Jimmy Bennett and Jack Spikes, the Tigers held the team rated tops in the district to a close game all the way, with Plainview making a spurt during the last two minutes to finish ahead 44-35. Spikes is leading scorer for the Tigers this season.

Five team members — Alan Snead, Don McNew, Joel Tankersley, Milton Ham, and Jerry Taylor — played most of the game. Two others, Steve Blair and Hubert O'Neal, also saw action. All five of those who played most of the night played probably their "hustlingest" game of the year. McNew and Ham both showed much improvement, especially in ball stealing. Snead, McNew, and Tankersley led rebounding.

While the Tigers had a small average on field goals, 20.7 per cent of their shots, they shot at the basket 53 times in the game, more than they ever had before this season. The Tigers did a good job of keeping the Bulldogs away from the basket, but Plainview still got 31.9 per cent of its shots, most of which were from outside. Each of the teams hit some 59 per cent on free throws.

The Tigers took the first lead in the game and held it through the first quarter, with a 13-12 margin at the end of that period. Plainview moved ahead early in the second and led 24-20 by halftime. Plainview could stay only two to four points ahead during the third period. Late in that quarter, the game was tied up 30-30, but Plainview got a field goal as that period ended. In the fourth, Plainview moved out to a seven-point lead and held the game at least to that much margin.

McNew headed up Snyder scoring with 11 points, followed by Ham with nine. Bobby Bryant paced Plainvew with 16, and Hugh Tilson had 12.

Snyder won its B game over Plainview 42-32. The lead in that game moved back and forth during the first and second quarters. Snyder led 10-8 at the end of the first and 19-14 at halftime. The team began to move out, and by the end of the third quarter had a lead of 27-18.

Prince topped scoring for the Snyder team with 11 points, and Powell Berry had nine.

## Moore Quits McMurry Post

ABILENE, Tex., Jan. 15 (AP)—Wilford H. Moore today announced his resignation, effective March 1, as athletic director and head coach of McMurry College.

Moore will enter the dry cleaning business with his father-in-law, Bill Vaughter of Clovis, N. M.

Moore compiled a 47-29-4 won-lost record in his eight years as head football coach, winning Texas Conference championships in 1948 and 1949 and tying for the title in 1947 and 1953.

He was named coach of the year in the Texas Conference in 1948, 1949 and 1953.

His 1954 team had a 6-3-1 record. In his 8-year crosstown rivalry with Abilene Christian College, his Indians have won four and lost four.

McMurry officials expect to name Moore's successor by midweek.

## Neilsen Wins Mile Run In Boston Event

By ED CORRIGAN

BOSTON, Jan. 15 (AP)—Gunnar Neilsen of Denmark, his blond hair bouncing with every stride, came out of nowhere to win the mile in 4:07.9 in the Boston K. of C. games tonight.

With a lap to go, the crowd of 11,658 in Boston Garden was watching no one but slim Fred Dwyer, the Armed Forces team runner who had threatened to lower the world indoor record.

It looked as though he would, too, passing the three-quarter mark in 3:03.2. Neilson who ran 3:44.4 behind Roger Bannister in the European 1,500 meter championship last year, was lost in the pack about 40 yards back.

But suddenly, like a shot out of a cannon, the tall Swede reappeared in the backstretch and with each stride sliced his deficit until Dwyer appeared to be walking.

Some 25 yards from the tape, Neilson passed Dwyer, a former Villanova star, and hit the tape five yards to the good. Dwyer crumpled as he crossed the line and had to be helped off the track.

Harrison Dillard won the 45-yard high hurdles.

A crowd of about 12,000 in Boston Garden watched the old Baldwin Wallace ace whip over the timber in 5.9 seconds to win the test for the seventh time.

Willie Stevens, one of the youngsters in training with the armed forces Pan-American Games squad, was second about a yard behind Dillard. Pete McCreary, an ex-Dartmouth runner who now registers out of Plainfield, N. J., was third and Ens. Jack Davis of the armed forces team fourth.

## Ira, Colorado City Win At Hermleigh

Colorado City boys and Ira girls took laurels last night in final rounds of the Hermleigh Basketball Tournament.

The Colorado City team stomped on Roscoe 78-40 to take championship of the boys division, led by Don Flippin and Bill Simmons with 1 points each. Roscoe's high scorer was Minor with 15.

The Ira girls beat out Robert Lee for the title in that division 51-42. This was a repeat championship for this team. Baleria Eubank, with 27 points, and Peggy Taylor, with 24, paced the Ira team, while Bonita Lawson headed Robert Lee scoring with 19.

The Ira boys took the consolation title in a 44-34 win over Robert Lee. John Mengwasser led Ira scoring with 17 points, while Lynn Davidson was scoring leader for Robert Lee with 13. In the girls consolation finals, Loraine downed Colorado City 48-22. Larue Shepherd led Loraine with 39 points. Val Oliver and Kay Stewart topped C-City scoring with 10 each.

All-tournament teamsters in the boys division were Clarence Stahl of Hermleigh, Jimmy Hall of Loraine, Duncan of Roscoe, and Flippin and Simmon of Colorado City. Girls on that division's all-tourney team were Dedphene South of Hobbs, Baleria Eubank of Ira Dixie Kimmell of Ira, Janelle Light of Hermleigh, Sue Henson of Robert Lee, and Payne of Loralne.

Colorado City got to the finals in the tourney by downing Robert Lee 75-40 and Hermleigh 65-47. The Hermleigh team had beat the Roscoe B 57-30 in the first round.

Roscoe, after downing Ira 53-49 in the first round, had taken Loraine 69-50 in the semi-finals. Loraine had advanced there by edging Hobbs 35-33.

The Ira girls barely got by in the second round, beating Hobbs 48-47. In the first round, the Ira girls had downed Roscoe 43-31 while Hobbs was beating Loraine 51-48. Robert Lee girls had an easier time getting to the finals, downing Colorado City 44-20 and Hermleigh 48-36 after Hermleigh had taken the Roscoe B girls 45-14.

To get to consolation finals, the Ira boys downed Hobbs 28-18 and Robert Lee took the Roscoe B 5-1 38. The Loraine girls advanced to the finals after winning over Roscoe 31-20, while the Colorado City girls ran over the Roscoe B girls 30-16.

Ray Isaacs and Orville Paty were directors of the tourney. Officials were Don Bruner, Clay Feagan, and Bob Taylor, all of the Snyder Officials Association.

## Lubbock, Odessa Set Golden Gloves Bouts

FORT WORTH, Jan. 15 (AP)—Two more regional Golden Gloves tournaments are scheduled for next week in eliminations for the 1955 Texas tournament here Feb. 16-21.

Tournaments at Lubbock and Odessa will open on Thursday night and continue on Friday and Saturday.

The Fort Worth tournament, which was forced to six night when a record-breaking field of 355 boxers passed their physical examinations, will be concluded on Saturday night.

Studebaker announces
an upstanding new dealer for
America's most outstanding new car

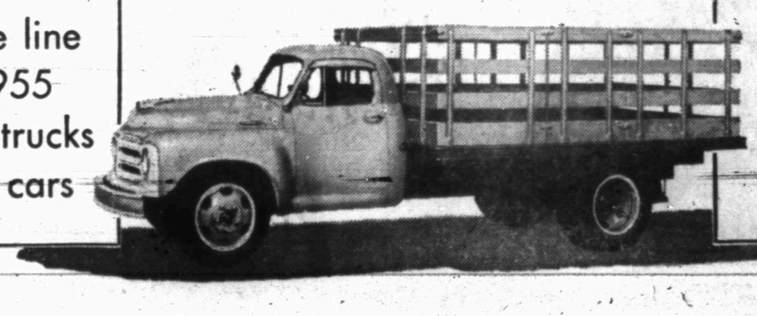

BOYD MOTOR & IMPLEMENT CO.
EAST HIGHWAY 180

Now showing and selling the
Exciting '55 Studebakers

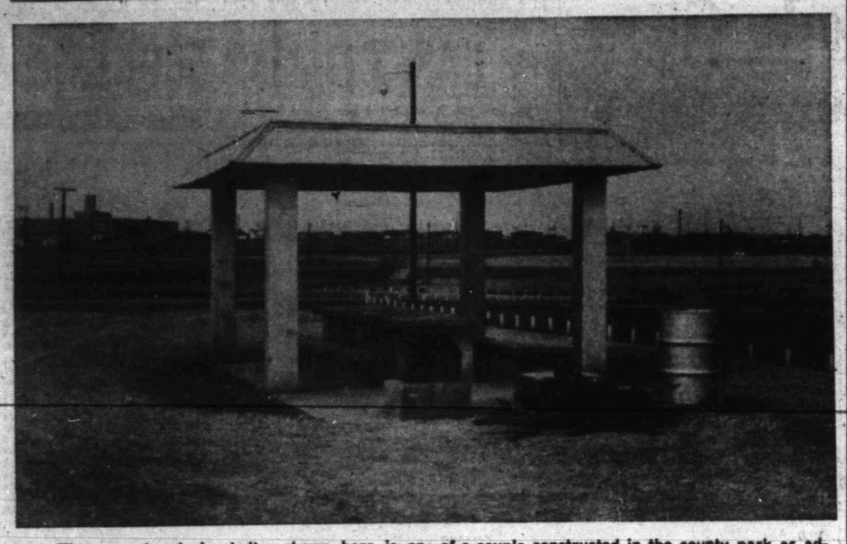

STUDEBAKER is really on the march! Dealers as well as car owners are switching to Studebaker in ever-increasing numbers. Right here in town another upstanding dealer has joined the Studebaker success parade.

Come in and see Studebaker's newest of the new—the far-advanced Ultra Vista models...now here. Sensational Studebaker President V-8s of outstanding luxury and brilliant performance! The finest, most powerful Studebaker Commander V-8s in history—directly competitive with the lowest priced V-8s! And marvelous new Studebaker Champions in the lowest price field—America's No. 1 economy cars!

A complete line of new 1955 Studebaker trucks as well as cars

Finest kind of Studebaker servicing for cars and trucks

The concrete picnic shelter shown here is one of a couple constructed in the county park as additional improvement since the park was opened. Such improvements are made as a program of constant progress at the park, and the shelters represent only a small fraction of the additions there, most of which have been constructed during 1954. The row of steel posts seen in the picture is another phase of permanent improvement, this being done throughout the park last year.

# '54 Permanent Improvements In County Cover Wide Range

A place of constant activity for the last several months was and is the Towle Memorial Park, a county project which is growing. Although the weather has been of the anti-picnic variety, there has been plenty of action.

The park is still buzzing with bulldozers, dump trucks, concrete workers, and other construction men who are building a large picnic pavilion, one of many permanent improvements started in 1954. A project just completed there within the last several days was the enlargement of an earthen tank or small lake that will serve as a storage for water and as a beautification item.

During the last calendar year, the county government has expended as investment in and for its people more than $267,543 for permanent improvements to county property, including roads. Most of this money has been spent on roads, but most of the projects have been in the county park. Besides park work, two other phases of improvements during the year were construction of a nurses home at the county hospital and construction of more than 43 miles of paved roads in various parts of the county.

The roads are additions to the county's vast network of paved roads previously constructed. The recent constructions have been at smaller costs than the former, most work having been done by county employes.

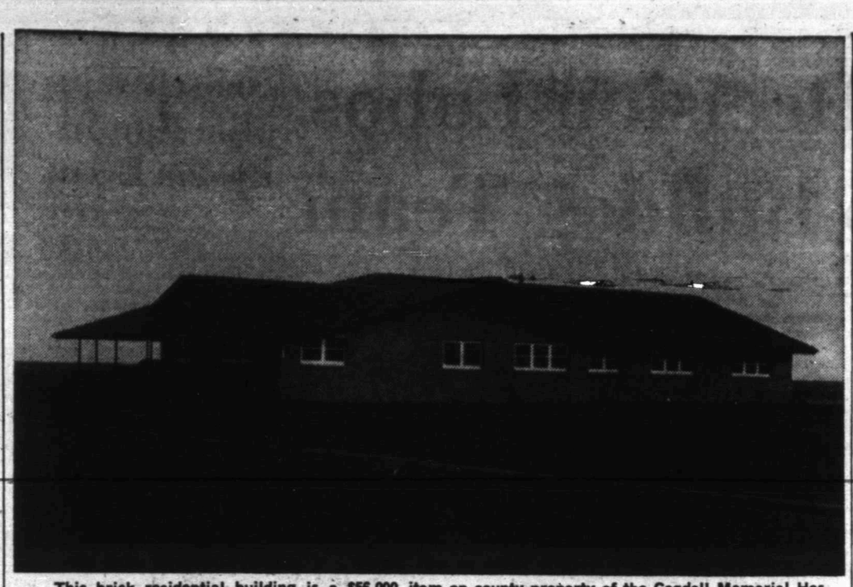

Also, the road improvements mentioned above include none of the many more miles of roads caliched, graveled, and otherwise improved during the year. The amount of expenditure on the road paving last year was very roughly estimated at $200,000, a closer estimate being impossible because of much of the work having been done by county employes using county equipment while some work was done by contract or hire of construction equipment and - or firms.

Also, the amount spent on road improvement was from the county's road, and bridge funds, while other improvements were made from the county's permanent improvement fund.

Accurate figures on the value of the permanent improvements cannot be determined since much of the work was done by county labor, but it is definitely known that the value far exceeds the actual expenditure from the permanent improvement fund, according to Edgar Taylor, county judge, and Pat Moore, commissioner of precinct 3, which is the precinct in which the park and hospital are located.

Another reason for the value exceeding the cost was the donation of the majority of the cost of the nurses home. D. M. Cogdell, donor of the land on which the Cogdell Memorial Hospital was built, wanted to make a gift to the county equivalent to $40,000. This was done by his contracting to build the home on a site of his adjacent to the hospital.

Cogdell said the actual value of the home and its land was more than $56,000 at the time the home was completed. He deeded it to the county in consideration of slightly more than $16,000. The large brick building was recently completed and is immediately south of the hospital.

This brick residential building is a $56,000 item on county property of the Cogdell Memorial Hospital, but it cost the county only $16,000 and is one of several permanent improvements to property of the county during 1954. The nurses home was constructed on property owned by D. M. Cogdell and adjacent to the hospital, the site of which was donated the county by him. Cogdell had the home built, construction costs raising the value of the home property to more than $56,000. He then presented the county a gift equal to more than $40,000 by deeding the property for consideration of slightly more than $16,000.

In March, the county made available up to five acres of the county park land for use by the National Guard as an armory site. This is another item not possible to figure in money.

A well was drilled, completed, cased, and equipped with a pump in March, the total cost being $3,270.

In June, the county built a spillway at the little artificial lake in the park at a cost of $1,000. The lake is a combination pond for beauty and a storage place for water for irrigation. It has been called everything from a tank to a lake, but it more nearly approaches the latter term now that its size has been vastly increased.

The expansion of the earthen tank was completed only a few days ago, and the cost had not been computed, the contract having been on a cubic yard consideration for wet soil and another simlar consideraton for dry dirt. Estimates on the cost were that it would fall between $8,000 and $10,000. This project was started last month.

Also started last month and still in early construction is a huge pavilion for use by large groups. Construction is to cost about $28,000. Picnics by company employes, church groups, etc., can be held under its large canopy. The shelter is being built immediately east of the livestock exhibition barn, which also was improved during the year.

Improvements to the barn included a public address system, steel railing inside, additional bleachers, etc., at a cost of about $800.

The county purchased for joint use of the city and county through the health unit two insect control machines, one a fogging machine, the other a spraying apparatus, both costing about $1,450.

Steel posts were constructed by county labor from junk pipe and set in concrete alongside all roads in the picnic area of the park. Cost of this work could not be computed, but the pipe was purchased at low cost, officials said. This work was done in July.

In August, a lighting system was built for the park's two tennis courts, this project costing $6,272.50.

In October, the county spent about $1,000 for additional playground equipment, adding substantially to the variety already there. In addition to this expenditure, the county has on order at present still more equipment to cost between $700 and $800.

# Jury Verdict Here Appealed

Ivy Smoot, 51-year-old resident of the China Grove community, was out on appeal bond this weekend after being found guilty of a charge of driving while intoxicated as a repeated offense.

Smoot was found guilty by a district court jury Friday, and his sentence was set at $150 fine and 15 days in jail. His attorney, Pat Beene, gave notice of appeal. The sheriff's office reported yesterday that Smoot had been released on $750 appeal bond. Sureties on the bond were Beene and Carl Gray.

Smoot was charged by grand jury indictment on Nov. 30. He had been convicted in county court here July 5, 1950, of driving while intoxicated.

Jurors in the case were James Powell, W. E. DeShazo, Mrs. Perry Echols, Newt Morton, Glenn Cox, Mrs. Pat Moore, J. Frank Smith, R. F. Williams, I. T. Westbrook, J. P. Madding, Orville Taylor, and Tommy Deffebach.

# THE SNYDER DAILY NEWS

VOL. 5, No. 223 — SNYDER, TEXAS, SUNDAY, JANUARY 16, 1955 — SECTION B

Mr. and Mrs. Hollis Fields, their daughter Betty, 8, and one of their sons, Kent, 18, are shown in their new home at 2408 Sunset where they moved at the first of this year from 123 Twentieth Place. Their other sons, Rodger, 12, and Bob, 14, were away from home when the picture was made. Fields owns and operates the Snyder Steam Laundry & Dry Cleaners here.

Mr. and Mrs. Wayland Holt with the aid of their daughters, Anita, 7, and Marguerette, 10, are shown hanging a picture in their new home at 3109 Forty-first Street. They moved into the three-bedroom home at the first of the year from 1901 Avenue O. Their new home features brick trim and columns as front decorations, and modernistic pink, black and green colors inside. (Lee Watson photographs)

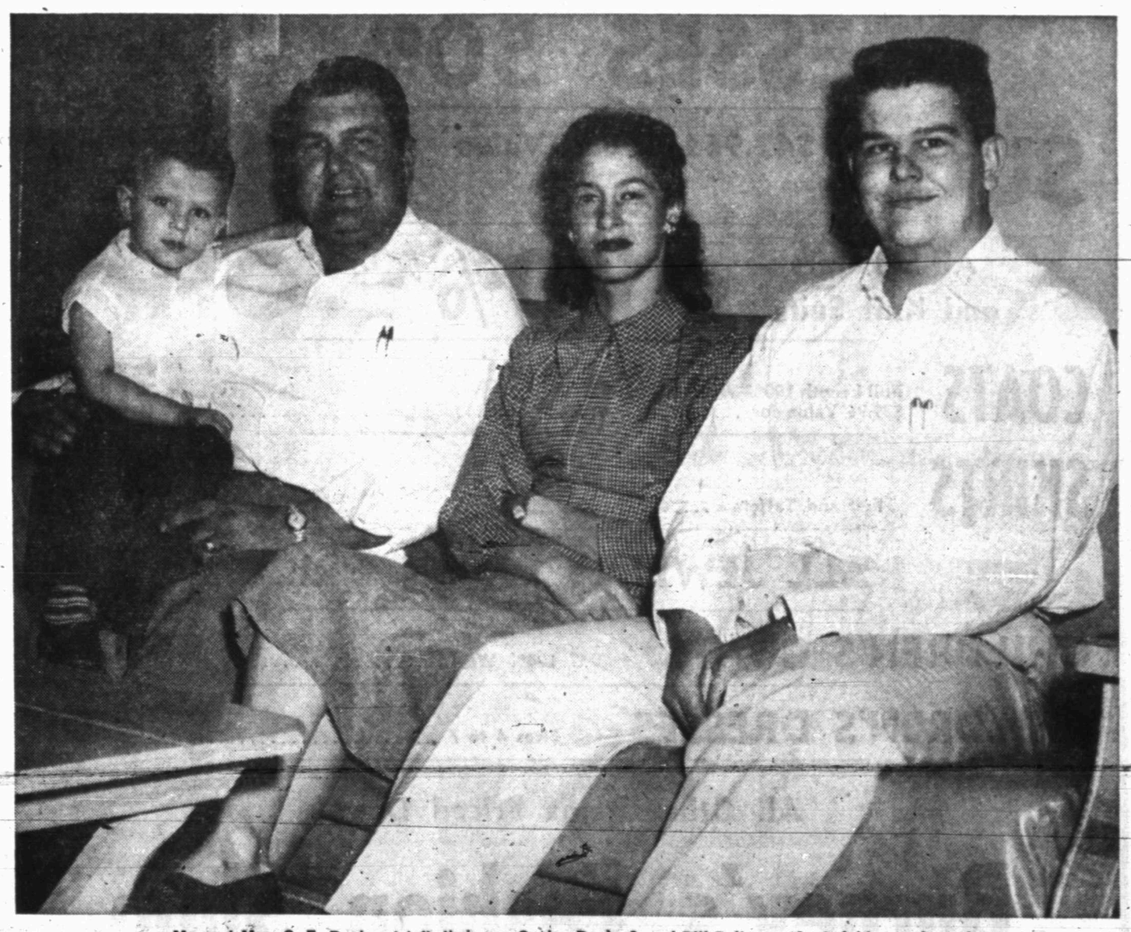

# New Homes For The New Year

Smoothing the yard for a lawn next spring and filling the planter box with dirt is one of the tasks Glen Bowlin had when he and his family moved into their new home at 2200 Fortieth Street. Mrs. Bowlin and their son, Dale, 16 months old, watch the leveling operation. They moved from 2802 Avenue E. Bowlin operates the Glen Bowlin Texaco service station at 1401 Avenue S here.

Getting accustomed to new surroundings was easier for six-week-old Jingles, a Fox Terrier, pet of Ross Seymour Hemphill, than for Mr. and Mrs. Ross Hemphill and their son. The Hemphills moved to their new home at 3742 Avondale from 419 Thirtieth Street Dec. 31. Hemphill is a partner in the law firm of Park, Hemphill & Auforth.

Mr. and Mrs. C. E. Davis, at left, their son Conley Davis, 3, and Bill Bellamy, 18, at right, are shown in their new home at 3009 Forty-first Street here. They moved in their new home Jan. 4, from 1400 Nineteenth Street where they had lived since moving to Snyder last September from Ulysses, Kan. He is employed by the Western Co.

MRS. LEWIS MILTON FORD
. . . to make home here

# Mr. And Mrs. Ford On Trip To Mexico Following Rites

Mr. and Mrs. Lewis Milton Ford, who were married January 9 in Sequin, are to be at home in Snyder following a wedding trip to Monterrey, Mexico.

Mrs. Ford is the former Katharine Andrews, the daughter of Mr. and Mrs. Herbert Andrews of Kingsville, Tex. Mr. Ford, who is district superintendent for Sunray Oil Corporation, is the son of Mr. and Mrs. Lewis Ford of Shawnee, Okla.

The informal wedding ceremony was read at 4:30 p.m. in St. Andrews Episcopal Church with the Rev. Donald Orville Weatherby officiating. The altar of the church was decorated with arrangements of white gladioli and carnations in brass urns. Lighted white tapers in wrought iron candelabra outlined the choir loft.

Mrs. Robert Fleming Wasson of Snyder attended her sister as matron of honor. She wore a full-skirted dress of beige wool jersey with a low V-neckline in front and back and short tucked sleeves. Her wide-brimmed hat was of matching jersey, and the ensemble was completed by matching satin pumps and white gloves. She carried a cascade arrangement of bronze chrysanthemums with brown satin streamers.

Jean Wasson, a niece of the bride, was flower girl. She wore a dress of beige pima cotton with a bib collar of tucked linen and lace and a brown velvet sash. She carried a nosegay of white carnations.

Mr. Andrews gave his daughter in marriage. She wore an afternoon dress of antique beige wool jersey and re-embroidered lace. The sleeveless sheath dress was of lace over tulle and a jeweled collar of the same lace. She wore a cap covered with tiny beige flowers and rhinestones. Her bouquet was a sunburst arrangement of lilies of the valley centered with a brown orchid, and she carried a beige embroidered handkerchief which had been carried by Mrs. Wasson at her own wedding.

Manning Davis of Snyder was best man. Dr. Robert F. Wasson of Snyder and Herbert Andrews, Jr., of San Isidro were ushers.

A reception was held in the home of the bride's aunt and uncle, Mr. and Mrs. Henry S. Mansfield. The tea table was laid with an ecru cutwork cloth. Sweetheart roses decorated the pink-tinted wedding cake. Mrs. Robert Lee Knolle, Jr., and Currie Wilson of San Antonio, cousins of the bride, presided at the table.

For the wedding trip, the bride wore a beige wool sheath dress with a beige straw hat. The costume was complemented by a blonde fox fur muff. Other accessories were of sherry calf.

The bride attended the University of Texas, where she was a member of eta Tau Alpha sorority. She is a graduate of the Feather and Feather School of Design in Houston, and was staff artist with Hemmingway's in New Orleans, La., and the interior decoration consultant with The Modern House in Corpus Christi before moving here.

Mr. Ford is a member of the Snyder Independent School District board of trustees.

## ANNOUNCE ENGAGEMENT

Mr. and Mrs. A. Z. Glover, 317 Thirty-fifth Street, are announcing the engagement of their daughter, Sally Glover, to Don R. Hale, the son of Mrs. J. P. Hale of Abilene. The wedding is planned for April. Miss Glover, a graduate of Snyder High School, attended Hardin-Simmons University. Mr. Hale, who is now stationed in Panama City, Fla., with the Coast Guard, was graduated from Hermleigh High School and McMurry College.

# Top GS Awards Go To Snyder Group

The Girl Scout West Texas Area's annual meeting was held Thursday at the Armory in Sweetwater. The meeting began with a ranch-style luncheon served by the Chuck Wagon Gang of Sweetwater.

Table decorations followed an international theme whose title was "Hands Around the World." Miniature flags of different countries and dolls dressed in Girl Scout uniforms of those countries added to the decorations. The dolls were used as awards for accomplishments achieved by scout workers of the various towns in the district with Snyder receiving the top number of awards.

Harriet Redwine, a Snyder senior scout, gave a report on her trip to the Regional Conference held in Austin in November. Miss Redwine was one of two representatives of the West Texas Area.

Officers of the Area board were installed by Jean Oates of the Girl Scout Headquarters office in Abilene. Those installed from Snyder and their offices were Mrs. Elroy Miller, secretary; Melvin Newton, expansion chairman; Mrs. Gene Best, member-at-large; Mrs. Ned White, chairman of the local executive board.

Attending the meeting from Snyder were Mr. and Mrs. Newton, Mrs. Felix Glisson, Mrs. M. C. Fowler, Mrs. F. L. Cunningham, Mrs. Don Mills, Mrs. Lee Carson, Mrs. Jack Dupree, Mrs. D. H. Christian, Mrs. Miller, Mrs. Best, Mr. and Mrs. White, Mrs. Sterling Williams and Miss Redwine.

# Practical Bib-Top Apron

Trim this smart button - back panel-cut apron with ruffling or ric-rac, for extra femininity to a really useful kitchen standy-by.

No. 2006 is cut in small, medium, large and extra-large sizes. Medium; 2¾ yds. 35-in. 4¼ yds. ric-rac or ruffling.

Send 30c for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra five cents per pattern.

Quick and different cranberry relish: Put an orange (unpeeled but seeded) through the food chopper using cousse blade. Mix with a can of whole cranberry sauce and finely diced preserved ginger. At serving time top with chopped roasted buttered almonds, if desired. (these almonds come in small vacuum-packed cans and are convenient to have on hand.)

JANE WILSON
. . . announcing engagement

# Miss Wilson Engaged To Odessa Man

Mr. and Mrs. Frank W. Wilson, 3003 Thirty-eighth Street, are announcing the engagement and approaching marriage of their daughter, Jane Wilson, to Joe Craft, the son of Mr. and Mrs. J. S. Craft of Odessa.

The couple plan to be married in the First Methodist Church here at 7 o'clock on the night of February 26.

Miss Wilson, a junior student at McMurry College in Abilene, is a member of Gamma Sigma social club. She is president of Wah Wahtaysee, junior class secretary, and a member of Kappa Delta Pi, national education fraternity, and Future Teachers of America.

Mr. Craft, a senior student at McMurry, served two years in the armed forces. He is a member of KIVA social club and president of Alpha Psi Omega, national dramatics fraternity. He was elected head cheerleader for the college his junior year.

## Fund-Raising Project Discussed By Club

Mrs. Paul Munden was introduced as a new member of the Opti-Mrs. Club when members met for luncheon Friday at the Ranch House.

During a business session, the group discussed selling subscriptions to monthly magazines as a fund-raising project for the club.

Mrs. L. Z. Bridgeman, program leader, introduced a guest speaker, Leah Davis, who spoke on "Poliomyelitis." There were 12 members present.

Put up a magnetized panel in your kitchen, if you have a convenient place for it. Such a panel is fine for holding small knives and other small metal utensils.

# WHAT'S GOING ON

Weekend visitors in the home of Mr. and Mrs. R. L. Johnson, 906 Twenty-seventh Street, are Mr. and Mrs. Gerald Dean Parker of Monahans.

Mrs. W. A. Vestal, Lion Oil Camp, spent Thursday in Abilene.

Mr. and Mrs. J. O. McNew and son, Don, 3713 Noble Drive, and S-Sgt. and Mrs. Charles McNew of Big Spring are spending the weekend in Alpine to attend the celebration of the golden wedding anniversary of J. O. McNew's parents, Mr. and Mrs. L. D. McNew.

Hollie Hartley, son of Mr. and Mrs. G. L. Hartley, 2703 Twenty-fifth Street, entered the Plains Hospital Thursday in Lubbock. He was to undergo surgery Friday morning.

Winter desserts such as pumpkin pie, apple scallop and rice pudding take to this topping. Whip cream until it begins to get thick; add three tablespoons of confectioners' sugar, a good dash of salt and a quarter teaspoon of ground nutmeg and finish whipping cream.

# Vera Maxwell Seeks Out New Fabrics

By DOROTHY ROE
AP Woman's Editor

NEW YORK (AP)—Vera Maxwell loves fabrics the way a horseman loves a thoroughbred or an engineer loves a bridge.

This youthfully silver-haired designer with big blue eyes and self-effacing manner has built a successful career in the midst of the cut-throat competition of New York's hard-hitting garment industry on an artist's devotion to an ideal. The ideal: masterpieces in fabric.

Miss Maxwell, who isn't a miss at all but a folksy family woman with a grown son and a country home, started by working out her own fabric designs with domestic manufacturers. In recent years she has traveled the face of the earth in search of new fabric firsts.

Her most recent fabric safari took her to Ireland, where she discovered with delight the artistry of the Irish peasants who weave into their tweeds the colors of the barren hills of Donegal and the misty mountains of Connemara.

Absorbed in her quest, Vera visited the thatched cottages where one room is devoted to the mechanics of living, the other holds the loom, and the one good light burns far into the night as the man of the family weaves exquisite tweeds destined to be worn by women of New York and Paris, San Francisco and Caracas.

Selecting each piece of fabric in the place where it was made, the triumphant Vera returned with a collection of some of the most beautiful tweeds ever made into a suit or a coat, and made them into her own kind of easy, distinguished outfits for her current spring collection.

She liked best the pale, misty blues that the Irish know how to achieve best, and a strawberry pink, gay as a colleen's smile. These she is now showing in a group of coats, suits, dresses and ensembles destined for the Easter Parade.

Miss Maxwell understands the kind of clothes that American women like and need. So she makes simple, casual outfits that can go traveling, to the office or on a country weekend with equal aplomb. She combines a straight tweed coat with a matching wool jersey dress to make a costume endlessly useful and always effective. She does her coats both straight and fitted, varies collars, pockets and sleeve lengths, but retains the classic simplicity that has become a signature.

## P-TA Meeting Slated

The West Elementary Parent-Teacher association has scheduled a meeting for 7:30 Monday night in the school cafeteria. This meeting was postponed from last Monday night because of the snow, and the same program and business will be carried out at tomorrow night's meeting.

Want to save yourself bending and lifting? Get a waist-high laundry basket on a moveable cart.

american designer PATTERN

## MOLLIE PARNIS

Mollie Parnis' success-in-fashion story is built on her sure knowledge of how to build the body beautiful, coupled with an innate awareness of important and current trends. In her dress pattern today, she exhibits her engineering skill by molding a long bodice with darts that extend into the skirt seams and finish off at the peaks of the skirt gores. The skirt is so cut that it will never sag or get uneven at the hem. What ever your fabric choice, make the top of the double collar in either linen or pique, and repeat the trim at the cuffs. On the original model Mrs. Parnis put a ribbon tie and leather buttons both of which are chic notes to copy. A dress that lends itself to almost any material, it will be prettiest for spring in taffeta, shantung, faille, wool crepe, alpaca or silk and worsted mixtures. This pattern is cut to designer measurements not standard pattern measurements.

| BUST | WAIST | HIPS | SIZE |

Third-year homemaking students who modeled coats and suits in the first scene of the fashion parade at the school auditorium Thursday night are standing at the stage door ready to enter and go on stage. They are, left to right, Twila Sturdivant, Nancy Jordan, Janet Weber, Sandra Scott, Marsha Fisher, Ramona Thompson, Janell Randolph, Wanda Wood, Betty Scott and Anita Buchanan. (Lee Watson photograph)

# Homemaking Pupils Present Own Creations In Style Show

Snyder High School homemaking students, under the direction of Mrs. Joel Hodges, homemaking teacher, modeled their own creations in a fashion parade Thursday night in conjunction with the school's vocational and industrial exhibit.

Against a background setting depicting an ocean liner, several third-year sewing students, during a bon voyage scene, modeled coats and suits they have made this year. All the coats and suits were lined, interfaced and the buttonholes bound by the girls.

In the second scene entitled "On Board Ship," first-year students modeled casual cotton dresses that they have made in class. Mrs. Hodges said that she has taught the Bishop method this year which teaches the girls to strive to obtain a professional look to their sewing in the shortest length of time. Different techniques are used in this method such as putting in a zipper without pinning or basting. Another time saver, according to Mrs. Hodges, is to turn material inside out and trace pattern markings on the wrong side with tracer and carbon. She has also taught the girls to put in invisible hems by machines without the use of attachments. At the beginning of the school year, these first-year students selected one pattern that was simple and easy to make. They all used this same pattern to make the dresses modeled in the second scene of Thursday's show. The girl's ingenuity was evidenced by the fact that, with the help of trimming, sleeves, collars, etc., each girl's dress had an individual appearance.

Along with the dresses, skirts and blouses modeled in the second scene, four girls wore fancy and colorful Toreador pants and suits made of velveteen, corduroy and cotton. Several others appeared in this scene in dainty nightgowns, dusters and pajamas made of outing flannel in various printed backgrounds.

A fitting finale for the evening's performance, the last scene depicted the "ship's last-night-out party" with girls wearing party dresses and formals that were outstanding in design and color choice. The high school stage band, under the direction of Melvin Montgomery, provided a background of dance music as each girl was escorted onto the stage. Deborah Smith was vocalist with the orchestra.

Others who assisted Mrs. Hodges with the successful fashion parade were Wayne Pevey, Jimmie Joe Key and Robert Clinton.

Students participating in the show were Margaret Trevey, Lois Droke, Sandra Feather, Mary Jackson, Doris Lewis, Paula Dupree, Barbara Taylor, Margaret Spence, Mary Deffebach, Mary Lou Byrd, Wanda Sue Dorman, Connie Longbotham, Eva Davis, Mary Green, Yvonne Tubb, Kathryn Reese, Shirley Moore, Wilma Palmer, Joy Green, Sandra Jones, Dee LaVerne Franklin, Lucy Blackshear, Joy Richardson, Pat Busby, Carolyn Dudley, Lydia Hutchings, Wynell Sapp, Louise Cate, Janell Moore, Carolyn Murphy, Kay Goswick, Phyllis Watson, Mickey Camp, Vera Clark, Joan Finch, Pat Page, Dolly Gibbons, Bobbie Lee, Jean Little, Mary Miles, Sue Smith, Reva Strickland, Eleanor Browning, Anita Buckanan, Ramona Thompson, Twila Sturdivant, Sandra Scott, Marsha Fisher, Betty Scott, Wanda Wood, Norma Sellars, Janell Randolph, Janet Weber, Janice Springer, Nancy Jordan.

## Snyder Student Is In Tech Operetta Cast

Louise Crook of Snyder will be among the students appearing in the first full-length operetta at Texas Tech on February 15.

Miss Crook, a 1954 graduate of Snyder High School, is a freshman at Tech. She is the daughter of Mrs. J. P. Crook, 2808 Thirty-seventh Street.

Gilbert and Sullivan's "The Yeomen of the Guard" is the operetta selected for presentation, and will be directed by Robert Elson. Original costumes will be used, and music will be furnished by the Texas Tech orchestra under the direction of Paul Ellsworth. Both performances will be given in the Lubbock High School auditorium. Advance tickets may be obtained by writing the Tech music department office.

Dice canned chicken and mix it with a well-seasoned cream sauce. Serve over corn bread that has chopped onion, green pepper and pimiento in it.

## 25 YEARS AGO

(Taken from the files of THE SCURRY COUNTY TIMES for Jan. 16, 1930.)

Scurry County has been under a cover of snow, ice and sleet since Tuesday of last week, and it still continues cold. The coat, however, seems to be very thin and will be of very little benefit, according to farmers and ranchmen.

* * *

The official increase in installation of gas meters for Snyder during 1929 totaled 136. The gas company had 389 meters installed on the first day of last year, while the first day of 1930 showed 525 even. The water and sewer department likewise increased its meters installed to 646, a gain of 117 over the previous year with total collections for 1929 being $24,461.42. It is generally known that Snyder boasts the lowest water rate in the state of Texas, with a rate of $2.50 for the first 10,000 gallons and 10 cents for each additional thousand.

Can anyone say that Snyder is not growing gradually and well, and in face of any present obstacles? Let's join in building — and not tearing down.

* * *

The Snyder Tigers were hitting on all 12 cylinders Friday night when they took the fast Crosbyton High quintet to a cleaning 16 to 14. Saturday night the Tigers were not so hot. They resembled five individuals getting no place and were given a fine beating, 20 to 8, and they deserved it. Curry for Crosbyton was the individual star of the game.

* * *

Word from Fluvanna Tuesday brought the news that perhaps a new industry may start there with the receipt by J. R. Patterson of the First State Bank of a pair of Chihuahua dogs. These little animals are said to multipy fast, and while we were unable to get confirmation from Mr. Patterson of the new idea, it is said to be a sure go. At least, folks in that section can get personal information from "Pat" who is very good-natured about such things.

* * *

The law was looking for "Swede" Cromwell's auto Tuesday night, as it was stolen from in front of the high school auditorium where he had been attending the home talent play. Mr. Cromwell was to have been a surprise soloist on the program, having promised to sing alone "The Sextette from Lucia de Lammermoor," but between acts Swede went outside to smoke and discovered his loss. However, we understand the car was found in an ash heap near the Fuller Cotton Oil Mill yesterday morning, badly used but still able to operate under its own power.

* * *

Postal receipts for the Snyder office during 1929 totaled $17,242.99, as compared to $18,789.19 for 1928, a loss of $1,546.20, but over a period of 10 years receipts at the local office have been very gratifying and showing a gradual increase until the past year. If 1930 is to be the favored crop year, as so many are predicting, Snyder will show a vast increase over any year in its history.

## Altar Society Picks Officers

Mrs. P. W. Holder and Mrs. C. S. Dugas were elected president and vice president respectively of St. Elizabeth's Altar Society when it met Thursday night. Mrs. Don Wolf and Mrs. H. J. Winstead were hostesses.

Mrs. Winstead and Mrs. Jack McCourtney were elected new teachers for the children's Bible class. Mrs. McCourtney and Mrs. Lowell Carson were appointed to serve as new Den Mothers for the Cub Scout pack sponsored by the church. The society adopted as their project for the month assistance in a youth bazaar planned at the church on January 30. Mrs. J. E. Dupont was named chairman of a committee to plan the making of Easter baskets. Mrs. Roy Priola, Mrs. Vincent Quinlan and Mrs. John F. Rogers were named to the Sparkle & Shine committee for the coming month.

Mrs. Dugas presented the program discussion on the history of the stations of the cross. The Rev. Edward Chrisman led the opening prayer.

Sweeten whipped cream with crushed maple sugar and serve over sliced bananas for a quick fruit dessert.

## ENGAGEMENT ANNOUNCED

**Mr. and Mrs. D. T. Colley of Mammoth Spring, Ark., former residents of Snyder, are announcing the engagement of their daughter, Charlotte Colley, to Jerry Wayne Smith, the son of Mr. and Mrs. Wayne Smith, route 3. Both Miss Colley and Mr. Smith are 1954 graduates of Snyder High School. She is now attending Hardin-Simmons University in Abilene and he is employed by Dowell, Inc., here. The wedding is planned for March 5 in Mammoth Spring.**

LINDA SUE WILKINSON
. . . to be married today

## Wilkinson-Gibson Rites Set Today In Church At Mesquite

An altar banked with greenery and white gladioli will form the background for the wedding of Linda Sue Wilkinson and Lt. Kenneth Ernest Gibson at 4 o'clock this afternoon in the First Baptist Church in Mesquite.

The bride is the daughter of Mr. and Mrs. W. L. Wilkinson of Mesquite. Mr. Gibson is the son of Mr. and Mrs. Daniel M. Gibson, Sr., Clairemont route.

The Rev. J. Perry King of Amarillo will read the single-ring wedding ceremony. Candles will be lighted by Jane Ann Cunningham of Louisville, Ky., and Joyce Holmes of Belton, Tex., preceding the ceremony. Martha Mozingo of Jackson, Miss., will be organist, and Mrs. Eunice Futrell of Mesquite will be soloist.

The bride will be given in marriage by her father. She will wear a gown of magnolia satin and chantilly lace. The bodice of lace is designed with a portrait neckline outlined by appliqued petals of lace, and long sleeves of lace taper to petal points over the hands. Princess panels of satin with full, gathered side panels of lace extend from an empire midriff of satin to a cathedral-length train defined by scallops of lace.

Her tiered veil of silk illusion, fingertip length, will be held by a satin pill box edged in seed pearls. She will carry white roses showered with stephanotis and centered with a white orchid.

Mrs. Virgil Dean of Fort Worth, a sister of the bride, will be matron of honor. Bridesmaids will be Mrs. Eunice Futrell, Elizabeth Johnson of Knoxville, Tenn., and Patsy Cunningham of Mesquite. They will wear identical gowns of cherry red nylon lace with tiered skirts. They will carry red net muffs on which will be a single white orchid and white ribbon streamers.

Cindy Jill Dean of Fort Worth, a niece of the bride, will be flower girl. Terry Sam Anderson of Mesquite will be ringbearer.

Robert Gibson, brother of the bridegroom and a student at Texas A&M College, will serve as best man. Ushers will be Virgil Dean of Fort Worth and Walter Wheat and James Futrell of Mesquite.

A reception in the Wilkinson home is to follow the ceremony. Red roses and silver candelabra will be used as decorations through out the receiving rooms. The three-tiered wedding cake wil be topped with a decoration of china bell and lily of the valley. Mrs. Pat Clark of Waco and Mrs. Maurien Robinson of Dallas will preside at the bride's table, and Donna Wantling of Dallas will secure names for the guest register. Other members of the houseparty will be Anita Hood of Austin and Joyce Carter and Janie Dobbs of Mesquite.

The couple plans a wedding trip to Boston, Mass. For traveling, the bride will wear a charcoal suit with a straw hat and gloves of shrimp - colored materials. The couple will establish their residence at Pepperell, Mass., near Fort Devens, where the bridegroom is stationed with the Army.

The bride attended the University of Hawaii and Baylor University, receiving her degree from the latter school. She was a member of Phi Beta Mu, Alpha Kappa Delta and Tau Beta Sigma. The bridegroom was graduated from Texas A&M College, where he was a member of the American Institute of Electrical Engineers.

Out-of-town guests for the wedding will include the bridegroom's parents.

**FRIDAY**

Ladies' Day, master point morning, 9:30 a.m., with Mrs. Bob Bickerstaff, hostess, at the Country Club.

# TEEN TALK

By MARGIE SMITH

One of the most important events of the school year took place last week. Class favorites were elected and the winners were Junior McCormick and Bata McPherson in the senior class, Jack Spikes and Jane Rogers in the junior class, Gerry Tucker and Rita Grimmett in the sophomore class, and Dwaine Merritt and Darla Gilbert in the freshman class. The runners-up were Margaret Trevey and Steve Blair, Alan Snead and Joyce Blakely, Powell Berry and Juanez Teaff, and Bob Pollard, Bud Morgan, and Dottie Dugas.

Also this year the ICT Sweetheart, Carolyn Nobles, FFA Sweetheart, Nancy Jordan, and the Football Sweetheart, Ann Fish, have been elected. They will all be presented in a coronation of Miss SHS, which is tenatively set for February 18.

* * *

Wayne Pevey announced that senior play try-outs will be held January 25. All members of the senior class are eligible to try out. The play will be "My Three Angels" by Sam and Bella Spewack, and will be presented the first week in March.

* * *

Floyd Blackwell, a former student of Snyder High School who is now attending Garland High School near Dallas, was recently elected a campus favorite by the staff of the Garland High School paper, "The Owl's Eye." In selection of the annual favorites, Floyd was also chosen as the sophomore nominee for the most handsome boy in high school. The judges will be from Dallas and the winner will be announced at a Popularity Ball January 28. Floyd, who also played halfback on the Garland varsity, is the son of Mr. and Mrs. W. F. Blackwell and was runner-up for freshman favorite here last year. He also played B squad football and was on the freshman basketball team which lost only one game.

* * *

The style show presented by the homemaking department Thursday night was thoroughly enjoyed by all who attended. Other than the homomaking girls, several boys participated in one scene as escorts. They were Kent Fields, Elwyn Weathers, Randall DeShan, Douglas Smith, Bryan Boss, Don Burns, Morris Hataway, Carl Burns, and Jimmie Bennett.

* * *

A new idea on "How to Tie a Beau" was suggested by the latest edition of The Woman's Page. When you girls make a new dress, get an extra quarter yard of the material and make a "beau" tie to match for your steady. It's easy to do, and then all your friends will know you're going steady. A few other popular ideas are twin shirts, skirt and shirt to match, and matching gloves.

* * *

The Youth Club of St. Elizabeth's Catholic Church will entertain the Youth Club from St. John's Episcopal Church in Hermleigh with a party at 8 o'clock Wednesday night in the recreation hall of the church here. John Carrell, president, and Dottie Dugas, secretary, will act as hosts, and will be assisted by Helen Carrell and Elicha Wolf. Dancing is planned during the evening, and refreshments will be served.

Dip chicken pieces in a cornmeal batter and fry in deep fat for a delicious crusty main course.

*DO IT YOURSELF*

If you add this provincial low boy to your dwelling, you'll probably ask yourself how you ever managed to live without it. A low boy is one of the most useful pieces of furniture a home can have, but many people do without it because it usually costs more than a hundred dollars. However, Bill Baker has made a design available in pattern form which means you can enjoy a low boy with your investment being only a few dollars for wood and a few hours of workshop effort. You'll use Bill Baker's pattern No. 136 to do the job for you. It contains a detailed material list, as well as exact size pattern pieces. To get your provincial low boy pattern, send your name and address clearly printed, together with $1 in check, cash or money order, to Bill Baker, Snyder Daily News, Box 1111, Los Angeles 53, Calif. Be sure to ask for pattern No. 136.

# Collection Of Fines In Decrease Here

Collections of fines and court costs in justice and county courts here during December totaled $2,217, bringing the total collected in these two courts during the entire year of 1954 to $20,206.20, a decrease of $15,325.60 from the total of 1953.

Collections for three months of last year were higher than for the same months of 1953, but the other months had decreases.

County court collections for 1954 were less than half that of 1953. Last year the total for this court was $11,035.95, but the total for 1953 was $22,704.80. Collections in justice court's criminal actions amounted to almost as much as in the previous year, showing a decrease of $1,910.75 between the 1953 figure of $12,827 and last year's total of $10,916.25.

Fines and costs collected in 67 criminal cases in justice court last month amounted to $1,099.50, which was $261.75 more than was collected a year earlier. Of last month's collection total in this court, court costs accounted for $622, and fines amounted to $477.50.

In county court, the collections last month in 14 criminal cases amounted to only $994, but there was $123.50 cash found in an old file jacket in the county clerk's office. This brought the criminal receipts to $1,117.50, which was still $297.50 short of the figure for December, 1953.

The money found was the fine and cost for a man who pleaded guilty July 3, 1950, to a charge of driving while intoxicated. The money had apparently been in the envelope ever since. The man is now charged again with driving while intoxicated and is awaiting trial in criminal district court, his case having been regarded by the grand jury as a felony on allegation of it being a repeated offense of this nature.

Assessments last month in county court were $845 in fines and $329 in court costs, a total of $1,174, but credit for jail time served in lieu of part of this amounted to $180, making collections of these assessments $994.

Collections for county court criminal cases during 1954 were $807 in January, $968.50 in February, $505.10 in March, $2,152 in April, $906.50 in May, $1,595.15 in June, $530.50 in July, $204 in August, $730.50 in September, $942.50 in October, $575.70 in November, and $1,117.50 in December.

Totals of fines and costs collected in justice court last year were: January $866.75, February $681.75, March $1,052, April $885.50, May $702, June $944.50, July $836, August $1,120, September $794.75, October $863, November $1,070.50, and December $2,217.

Combined totals of both courts for last year and the increases or decreases from comparable figures for the preceding year are: January $1,673.75, a decrease of $2,727.25; February $1,651.25, a decrease of $3,515.25; March $1,557.10, a decrease of $1,969.20; April $3,508.50, an increase of $700.25; May $1,608.50, a decrease of $1,862; June $2,539.65, an increase of $437.15; July $1,366.50, a decrease of $1,569.50; August $1,324, a decrease of $1,182.50; September $1,525.25, a decrease of $1,117.75; October $1,805.50, an increase of $468; November $1,646.20, a decrease of 734.80; and December $2,217, a decrease of $35.75.

# Jury Panels To Report In Two Courts

New jury panels have been called for county and district courts, the prospective jurors to report for service tomorrow morning.

Those selected for district court are C. W. Popnoe, Mrs. Jewell W. Barton, Mrs. Edna Mae Bunt, John Bruton, Mrs. Raymond Smith, Mrs. T. T. Swan, Nathan Wade, Mrs. A. J. Young, Mrs. Douglas McGlaun, Marshall Boyd, Mrs. James W. Phillips, Mrs. Dan Gibson, Mrs. F. G. Sears, Mrs. J. F. Burns, Tommy Forrest, Mrs. A. H. Hudnall, Mrs. Jim Beavers, E. D. Irvin, Bill Line, N. A. Billingsley, Jr., Mrs. W. D. Casebolt, J. W. Coffee, Frank A. Wilson, Mrs. M. L. Andress, Mrs. John E. Irwin, Mrs. Ordon Benbenek, Clyde R. Smith, Mrs. Oma Lee Spears, J. B. Turner, Mrs. Mildred Stokes, Marvin Sorrells, L. V. Rasco, S. B. Plumlee, A. H. Kruse, Clarence W. Payne, Mrs. Morris Hardee, Jessie W. Grizzle, F. L. Gullett, Mrs. Lee Holloday, Harold Holliday, and Dewey H. Kyle.

The county court panel is Carmen Hobbs, Houston White, Virgil Walton, J. H. Cotton, A. P. Smith, Jr., Jack Merket, Buell Lewis, Glen E. Foster, Mrs. Grady Williams, J. H. Roberson, Lendy Merket, Mrs. Arlie Taylor, Johnny Lopez, Tinsley Rainwater, Frank D. Burton, Mrs. O. C. Barrett, Abner M. Boyd, Lindy Clark, Mrs. D. V. Merritt, Garth Austin, Mrs. Elmo Crowder, Mrs. Robert Wasson, Mrs. H. F. Billingsley, and I. B. Roberson.

APRICOT-PRUNE COFFEE RING
. . . has a professional look

## Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Nothing you can bake equals the antalizing smell of a yeast-raised coffee ring browning in the oven. Fill the ring with dried fruits, sugar and lemon rind — as in this recipe — and you'll have the most delicious aroma in the world wafting through the house.

Serve this Coffee Ring to the family or make it for guests when they come over in the evening to watch televison or play a game of bridge. Have the ring baking in the oven when your company arrives so they can get a delightful whill of what's to come.

APRICOT-PRUNE COFFEE RING
2 cakes compressed or 2 packages active dry yeast
½ cup water
1½ cups scalded milk
½ cup shortening
½ cup sugar
3 teaspoons salt
6 to 7 cups sifted flour
2 eggs, lightly beaten
1 cup enriched yellow corn meal
Extra melted shortening
Apricot-Prune filling, Confectioner's Sugar Frosting, pecans or walnuts, coarsely cut

Crumble or sprinkle yeast in water; use lukewarm water for compressed yeast and warm water for dry yeast stir until dissolved. Pour scalded milk over shortening, sugar and salt; stir until shortening melts; cool to lukewarm. Stir in 2 cups of the flour and the lightly beaten eggs stir in softened yeast, then the corn meal. Stir in enough more flour to make a soft dough. Turn out on lightly floured board and knead until satiny — about 10 minutes. Round bowl and brush lightly with extra dough into ball; place in greased melted shortening. Cover with tea towel and let rise in a warm place until doubled in size, about one hour. Punch down let rest about 10 minutes. Divide dough in half. Roll half of dough to form oblong about 9 by 15 inches. Spread with Apricot-Prune Filling. Roll up tightly, beginning at wide side. Seal well by pinching edges of roll together. Place sealed edge down in partially closed ring on lightly greased cookie sheet. With scissors, make cuts two-thirds of the way through the ring at 1½-inch intervals. Turn each section on its side. Treat remaining half of dough the same way. Let rings rise until almost double in size — about 25 minutes. Bake in moderate (375 degrees) oven 25 to 30 minutes. When rings are baked, drizzle thin Confectioners' Sugar Frosting over the top and sprinkle with coarsely cut pecans or walnuts.

APRICOT-PRUNE FILLING
1 cup chopped dried apricots
1 cup chopped cooked prunes
2-3 cup water
1 cup sugar
Grated rind of half a lemon

Mix apricots, prunes, water, sugar and lemon rind. Cook stirring often, over low heat until thick. Cool.

## 40 In Area Due To Attend Scout Banquet

A delegation of some 40 persons, including Scouters and their wives, is due to represent the Lone Buffalo District at the Buffalo Trail Boy Scout Council's annual banquet Friday night in Big Spring.

Lyle Deffebach and C. E. McGaw are in charge of banquet ticket sales here.

Speaker at the banquet will be William J. Murray Jr., member of the Texas Railroad Commission.

Murray was an Eagle Scout and received the Harmon Foundation scholarship. He was a Scoutmaster while working for the Railroad Commission in Kilgore and served two years as president of the Capital Area Council, comprising 16 counties surrounding Austin. At present he is a member of the executive board and National Council representative. He was awarded the Silver Beaver in 1954.

The Council's annual business session has been set for 4:30 p.m., while the banquet begins at 6:30 p.m. Friday. All sessions will be in the Settles Hotel in Big Spring.

Murray will be introduced by Roy E. Carter of Kermit, Council president. Dr. G. F. Dillon of Big Spring will give the welcome address, and W. C. Blankenship, superintendent of Big Spring schools, will preside at the Eagle Scout recognition ceremony. Special music will be provided by a girls triple trio from Big Spring High school. H. W. Alford will direct a closing tableau.

Sliver a quarter cup of blanched almonds right after you have removed their skins. When you are ready to serve supper, brown the almonds in a few tablespoons of butter and mix with cooked frenched snap beans.

# Entries Begin To Come In For West Texas Music Festival

Entries have begun to come in from schools in West Texas, New Mexico, and Oklahoma for the first annual West Texas Music Festival, which will be held here March 12 under sponsorship of the Snyder schools and the Chamber of Commerce.

Melvin Montgomery, high school band director, and Bob Clinton, choral director, say they expect from 50 to 60 band and choral organizations with some 3,000 students here for the event, in which the groups will perform under guidance of some of the top music critics in the U.S.

The festival will use three locations in Snyder for its work during the day. Bands and orchestras will perform in both the high school and junior high auditorium, while choral events will be held in the auditorium of the First Baptist Church.

All day on March 11, the day before the festival, Snyder's high school and junior high bands and high school choir will be in clinics and rehearsals under the guidance of three of the critics who will be here for the festival. They will judge concert playing in the festival. That night, they will present a pre-festival concert in the high school auditorium. Tickets for this concert will go on sale about March 1.

The three critics who will be here for pre-festival work: Paul Yoder of Chicago, arranger and composer of about 600 published numbers for school bands. After teaching eight years in public schools, he left that work to devote full time to writing band music, which he has done for the past 20 years. He has served as a judge in several top band festivals, including the Tri-State event at Enid, Okla., as well as many in the South and Middle West. He is now music editor for the Neil A. Knos Music Co. of Chicago.

Nilo Hovey of Indianapolis, Ind., who has had published numerous methods and studies for wind instruments. After 29 years of teaching experience in the music field, he entered college band work. For the past 10 years he has been director of bands at Butler University and member of the music faculty at Arthur Jordan Conservatory at Indianapolis. He has done guest conducting and clinic work throughout the U.S. and in parts of Canada.

Neil Kjos of Chicago, operator of one of the largest music publishing firms in the country. Starting as an instrumental director in Michigan, Kjos took a high school band three years to state championship and participated in national band contests. He has been an instructor at the University of Illinois and National Music Camp. He has been choir clinician in various parts of the country.

Other critics, who will be here for the festival and will all judge sight reading, are D. O. Wiley, director of bands at Texas Tech; Raymond Bynum, director of the McMurry College band; and Euell Porter, director of the a capella choir at Hardin-Simmons University.

Highlights of the festival will include a huge downtown parade of some 30 bands, followed by a massed concert in which the bands will play three numbers together. The choirs, working in a massed clinic, will also sing two combined numbers. About 20 choirs will be working together.

Montgomery and Clinton said the festival activities will all be open to the public.

If your waffles stick it may be because you have allowed your waffle iron to become overheated, because you have cooled the iron with the grids closed, or because you have started to bake the waffles before the iron was at the correct temperature.

## Two Persons Pay Fines In County Court Here

Two persons paid fines in county court Friday on pleas of guilty to charges of swindling by worthless checks.

Billy J. Crabtree, about 27, Snyder, paid a fine of $33.50, including court cost, in connection with a charge filed Thursday alleging he gave a worthless check to Louie Minton.

Max Champion Baugh, 36, Snyder, paid $3.50 as balance of a $33.50 assessment against him on Jan. 5 when he pleaded guilty to a charge filed Dec. 31 alleging he gave a worthless check to Homer D. Cary. Baugh was given credit for 10 days in jail at $3 a day.

## Law Lines Up On Giblet Soup's Side

WEBSTER, N.Y. (AP)—The telephone jangled at the sheriff's office last night. There was a scream for help at the Masline home. Then a crash and the line went dead.

Deputies John Erbland and Albert Underhill raced to th. home, crouched outside to draw guns and went in. Robert Masline, 7 and in tears, explained that he had wanted their help in the case of the turkey giblet soup.

His mother Mrs. Allen Masline thought he should eat the soup. He refused, and ran out on a scolding to summon reinforcements. The crash came when his mother caught him in the middle of the call.

The law—no help—lined up solidly behind Mrs. Masline. Robert ate the soup.

Horses were introduced into Egypt by the Hyksos kings in the 17th century B.C.

*OPENING NEW PACKARD-STUDEBAKER AGENCY*

Official opening of the new Packard-Studebaker agency on the East Highway here will be held tomorrow. Bill Boyd, owner, is shbwn above between salesmen Dewey Hollins and H. H. McDonald.

New models of both lines of cars are shown, with the new Studebaker President in the foreground and the 1955 Packard Clipper at right. (Lee Watson photograph)

# Boyd Sets Opening On New Car Agency

A new Studebaker - Packard agency will be officially opened here tomorrow by Bill Boyd, owner of the Allis-Chalmers farm equipment agency.

The new agency will be located in the farm implement agency building on the East Highway just east of the Phillips "66" Super Station.

Boyd, who operated a Packard agency in conjunction with the farm equipment business here last year, said that the new agency will feature new car sales, used car sales, and complete service and parts for both lines of automobiles.

The Packard car line for 1955 features the competitively priced Clipper with a newly developed 225 horsepower V-type eight cylinder engine, Deluxe has 245 horsepower V-8 engine, and the Packard Custom has a 260 horsepower V-8. All three sizes of Packards are built in the four-door sedan, hardtop coupe, and convertible coupes.

A new suspension system that eliminates the conventional springs on all four wheels and uses torsion bars instead which connect all wheels to make the entire springing system absorb road roughness is being introduced in America for the first time this year on the Packard Deluxe and Custom cars.

A slogan of the company this year is "let the ride decide" to advertise the new torsion bar ride.

The Studebaker cars feature the Champion, Commander, and President sizes with each size car being manufactured in three series of custom, deluxe, and regal models. Body styles of the Studebakers include two and four door sedans, Starlight coupes, hard-top coupes, and a newly introduced all metal station wagon body. Engines in the Studebaker line range from 101 horsepower six cylinder in the Champion, up to a 195 hp V-8 in the President. The Champion is also available with V-8 engine. The Studebaker line also includes a full line of trucks in all sizes.

The Studebaker - Packard Corporation is America's fourth largest producer of automobiles.

## LEGAL NOTICE

**NOTICE OF COUNTY'S INTENTION TO RECEIVE BIDS FOR THE PURCHASE OF LOW BOY TRAILER**

Edgar Taylor, County Judge
Scurry County, Texas

## Couple Plan To Be Married Here Friday

Mr. and Mrs. B. T. Hughs of Roby are announcing the approaching marriage of their daughter, Mrs. Frances Perry, to J. K. Farrar. The couple is to be married at 6:30 Friday night in the First Presbyterian Church.

Mrs. Perry is an employee of radio station KSNY and Mr. Farrar is manager of the local branch of Crawford and Company Insurance Adjusters.

Do you like the very young turkeys widely available now? They come from four to eight pounds, ready-to-cook weight. If you find that the upper breast of the bird has a tendency to burn during roasting, protect this spot with a small cloth paid, wet frequently in cold water.
