PROPOSAL IS TAKEN UP BY SOLONS

RESOLUTION BROUGHT BY SEN. WOODUL, BILL SPONSOR

(By The Associated Press)

AUSTIN, March 26—The $200,000,000 statewide highway bond issue was placed before the senate today at 10:55 for consideration. Presentation of the resolution by its author, Senator Woodul of Houston marked the third attempt in as many days to carry the resolution to the firing line.

The senate went about consideration of the resolution quietly.

Senator Woodul sought to amend the resolution by adding the date "July 1, 1927" and restricting the state from going back beyond that date in retiring bonded indebtedness of counties supplying funds for state highway building. Senator DeBerry sought to substitute for the Woodul amendment by fixing the date at January 1, 1916.

Mansfield Arrives

Neither had been voted on by the senate when United States Congressman J. J. Mansfield arrived to address the senate.

Senator DeBerry said if the date was not carried back as he requested, Red river would be "out" $108,000 that bond issues were voted there for state highway work before the date set in Woodul's amendment.

Woodul said he sought to amend the resolution by fixing the date at July 1, 1917 because it was at that time the state highway department was created.

JOHNSON GETS SUSPENSION

PORT ARTHUR FATHER IS CONVICTED BY BEAUMONT JURY

(By The Associated Press)

BEAUMONT, Mar. 26—A jury convicted A. B. Johnson, who killed Ottis Lee Adams, of murder last night, but suspended the five year sentence.

The trial brought from the Port Arthur refinery teamster foreman for the first time his theory concerning the death of his 17-year-old daughter, Elizabeth. He testified he was convinced she committed suicide to escape humiliation because Adams already had a wife and could not marry her. The youth, who drove an ambulance for the refinery where Johnson worked, had boasted, Johnson swore he was informed, of intimacy with the girl.

It was a swift hearing. The trial began Monday, the jury was completed Tuesday and the submission of evidence started yesterday morning. The state offered only one witness in its direct case, J. P. Collier, in whose tailor shop Johnson shot Adams January 17.

Robert L. Williams and Johnson himself were the main defense witnesses. Williams, son of an Austin Methodist pastor and student in Texas university, loved and planned to marry Elizabeth, he testified, but Adams supplanted him in the pretty Sunday school worker's affections. The student himself originally was charged with murdering the girl, but was subsequently exonerated by a grand jury.

Bootlegger Paged In Sooner Capitol

OKLAHOMA CITY, March 26. (AP)—Horseplay ruled the Oklahoma capitol today as pages of both legislative houses trooped through corridors, calling for "Uncle John."

A legislative committee, trying to follow a purported trickle of liquor through the building at the direction of Governor William Henry Murray, had heard "Uncle John" described as the state house bootlegger by W. H. Johnson, capitol policeman.

"I chased him once," said Johnson, "I can point him out to you all."

NEGROES ARE UNDER GUARD

QUIET PRESERVED AFTER BLACKS ADMIT ATTACKING TWO GIRLS

(By The Associated Press)

SCOTTSBORO, Ala., March 26—About 70 national guardsmen and the sheriff, his nine deputies and several citizens today preserved quiet around the jail here where nine negroes are held for an alleged attack on two white girls who were "bumming" their way home on a freight car.

A mob that varied from 100 to 300—including local citizens and mountaineers who came to town astride mules and in automobiles—menaced the jail last night and the guardsmen were called. The crowd lingered for some time but as the cold of a mountain night increased all but a score dispersed to more comfortable places.

Negroes Confess

Sheriff M. L. Wann said the negroes confessed and Judge J. A. Hawkins announced early call of a grand jury to investigate the case. Physicians said the girls were not badly hurt.

The girls, one 17 and one 21, garbed in overalls, were riding in the freight car with seven white youths en route from Chattanooga, Tenn., to Huntsville, Ala. Officers said 12 negroes boarded the car near Stevenson, Ala., and ordered the white boys off. A free-for-all fight ensued and five of the white youths were thrown from the train and the two others knocked unconscious.

A posse intercepted the train at Paint Rock and took off nine negroes, the two girls, and the two injured youths. What became of the other three negroes was not learned.

The girls said they had left Chattanooga because they could not find work.

Dark Cloud Enshrouding American Business Now Turning Bright Side Out

SURVEY AND ANALYSIS SHOW STABILITY IS BEING ACHIEVED

BY J. R. BRACKETT
Associated Press Business Writer

NEW YORK, March 26. (AP)—The great, dark cloud which has enshrouded American business these past months, has begun to turn itself bright side out.

A survey and analysis of conditions from a majority of the states give evidence that stability, the most important present desire of business, is slowly but steadily being achieved.

There are no spectacular indications of recovery in the financial communities but where a year ago industry reported lay-offs and curtailed production programs, today in every area of the country, sporadically but none the less consistently, industry reports improvement.

In Memphis, Tenn., the mayor's unemployment relief committee, snowed under for months, is discontinuing its apple selling concessions, wood-cutting and other emergency measures. Red Cross workers all over the south, drastically hit by

DIETING FOR STOUT PERSONS UPHELD BY AMERICAN COLLEGE OF PHYSICIANS

BY F. B. COLTON
Associated Press Science Editor

BALTIMORE, Mar. 26. (AP)—Most stout people can reduce by dieting more easily and with less physical strain than by use of thyroid medicine, it was declared today before the American College of Physicians.

Excess weight can be removed effectively in most cases on a diet consisting of proteins, carbohydrates and fats proportioned according to the weight the patient wishes to reach, said Dr. Frank A. Evans of Pittsburgh.

Thyroid medicine made from the thyroid glands of sheep causes reduction in weight, but at the same time increases the patient's heat reduction, or basal metabolism. This exerts an undesirable strain on the patient.

Dieting causes less heat production. As a result the patient feels better, tires less easily, and is satisfied with his smaller diet which encourages him to persist in his effort to reduce, Dr. Evans explained.

Housecleaning Seen By Tammany Heads

NEW YORK, March 26 (AP)—Housecleaning in preparation for the visit of legislative investigators into New York's official life loomed today as Tammany's next order of business.

Newspapers generally interpreted the resignations of the two highest officials of the Manhattan bureau of buildings as the first indicaton the Democratic organization was engaged along these lines.

Any changes in the city's administration are expected to be based upon inquiries made into 11 departments by the commissioner of accounts. Reports of the inquiries are to be turned over to the mayor, who requested them, when he returns from California next week.

LIQUOR LAWS REPEALED

ENFORCEMENT OF PRO LAWS IN ILLINOIS UP TO GOVERNOR

(By The Associated Press)

SPRINGFIELD, Ill., March 26.—The question whether Illinois is to abandon its prohibition enforcement laws today was put up to Governor Louis Emmerson.

Members of the state senate left the problem in his hands yesterday by passing by a vote of 26 to 24 a bill, already approved by the house, calling for repeal of the state prohibition law and the search and seizure act. If signed by him the effect, opponents of the measure contend, would be to leave the matter of enforcing the anti-liquor laws entirely in the hands of the federal government.

The governor will receive the bill late this week and has ten days in which to consider his decision. He has given no indication of what it will be. If he approves it, Illinois will become the sixth state to take similar action. Montana, Nevada, Wisconsin, New York and Massachusetts once had prohibition laws, but repealed them.

PANHANDLE IS SLATED FOR FREEZE

SLOW SPRING RAINS SEASON GROUND OVER TEXAS

(By The Associated Press)

Winter threatened another southerly foray into Texas Thursday as government forecasts predicted that the backwash of a rocky mountain blizzard would strike the Panhandle Thursday night, chilling temperatures to as low as 16 degrees above zero in the Plains region and bringing freezing weather to North Texas. Forestry experts said fruit trees and shrubbery faced considerable danger.

As an "advance guard" for the expected norther, slow spring rains seasoned the ground over most of Texas Thursday, from the Panhandle to the gulf and from West Texas almost to the Louisiana line.

Wheat farmers of the Panhandle were optimistic although they declared colder weather would be beneficial. Pampa reported drizzling rain, mist and fog and roads thereabout were made difficult to travel because of mud.

Temperature Drops

The temperature dropped to 35 at Amarillo, after a rain lasting all night which left .35 of an inch precipitation, cloudy weather continuing Thursday, with mist falling.

Rainfall amounted to .23 of an inch at Abilene and the minimum temperature Thursday morning was 48 degrees.

Lubbock had eight kinds of weather Wednesday, including sleet, snow and a sandstorm. The moisture amounted to only .02 of an inch and was followed Thursday by cool, clear weather.

Rainfall was general over the area about Sweetwater, amounting to one inch precipitation. Farm and pasture lands were believed greatly benefitted. Plainview reported .18 of an inch rain and overcast skies during the last 24 hours indicated additional rain.

DR. MYERS

Doctor Myers' Dailu Column On Child Welfare

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

PERTINENT QUESTIONS

A little while ago I conducted a two-day parent-education institute at Wheeling, W. Va., under the auspices of the local Child Study club, P. T. A. of the city, and county public schools and the extension department of the University of West Virginia. It was a remarkable example of community cooperation. I had the opportunity to meet and confer on parent problems face to face with many of my readers.

It was my good fortune to be entertained at Oglebay Park by the West Virginia university extension staff. This park, of about 800 acres, just outside Wheeling, with all its buildings and equipment valued at about $2,000,000, was given by Colonel Oglebay to that city.

* * *

Betty Eckhart, state recreation specialist also stationed at the park, has devised a discussion program which was used in 1930 at the University of Maryland. It is so good for all of us that I am giving it below: (Clubs and P. T. A. might want to use it.)

What are the hours of leisure for your family? Are your meals happy family affairs? What do you do with the evenings, Sunday afternoons, and holidays?

What are the happiest memories of your own childhood? Does the whole family share in some of the leisure time activities in your home?

Is there a "children's hour?"

Is there need of a "family night" on your community calendar?

Do you try to observe birthdays and holidays in some simple way?

Do members of the family sing together, read together or play games together?

Is the radio a help or a hindrance in strengthening home ties?

How often does the entire family go on "excursions" such as picnics, attend public programs, automobile trips, etc.?

How much free time have your children and what do they do with it?

Is there a place for games in summer and winter with some play equipment where neighbors' children are welcome?

* * *

Are there enough comfortable and well lighted places in your home where children can read and study their lessons?

Are you encouraging your children to provide their own entertainment by the development of such hobbies as nature study, photography, pets, flower raising, collecting stamps, relics and other articles?

Have they encouragement in developing their talents in music, art, dramatics and literature?

Is there a workshop where children can make their own toys and carry out their own ideas?

How many organizations do your children belong to?

How much free time have the parents and what do they do with it?

Do they have some good times together—without the children?

Have they hobbies and interests quite aside from their work that makes them real personalities in the eyes of their children?

What organizations do the parents belong to?

How wide is their horizon?

How can we develop an appreciation of the advantages of farm life in parents and children?

Condition of Mrs. W. A. Jackson, who is in the West Texas hospital following an operation last week, is said to be continually improving.

Mrs. J. T. Hale, 1817 14th street, who has been ill for several days, is improving.

LUBBOCK MAN IS HURT IN CRASH

Cuts on the neck, a sprained right arm and a twisted right leg were suffered by T. V. McKinney, 52, when he was hit by an automobile on the pavement in front of 1515 Avenue Q.

The accident occurred at about noon Wednesday. Bob Sampson was reported as driver of the car which knocked McKinney to the pavement. McKinney, whose injuries were not considered serious, was struck while partly blinded by wind and dust.

McKinney, on his way home for lunch, had stopped his car across the street from a grocery store, and while walking toward the store was struck by the sedan. The radiator cap is believed to have cut McKinney's neck.

Although offered assistance by Sampson, McKinney was able to drive his car to his home located at 2813 20th street.

Job Relief

An Omaha judge during the past winter has found an ingenious and sensible way of dealing with unemployed workers. He has arranged for several hundred of them to go to various Nebraska farms, working throughout the winter at farm chores in return for their room and board; and most of the employers have promised to pay the men regular wages when the spring season opens.

In this way approximately 100 men a month have been kept from hunger and cold throughout the winter; and the judge, naturally enough, has drawn a good deal of praise for his practical solution of a tough problem.

However, it is quite possible to pour out too much praise for this scheme. The judge is to be commended for arranging things in the way he did, of course; but admiration for his ingenuity ought not to blin us to the fact that the whole thing, at best, is only a pitiable makeshift.

That is the trouble with all of these plans for unemployment relief. When they work out well, we are apt to get too satisfied with them—apt to feel that because they are working so well we need not worry very much about the general question of unemployment.

The problem of the unemployed worker, in fact, is probably the biggest problem the nation faces today; and it is not a problem that will be ended when prosperity returns and the men go back to work. For our present economic system seems to call for recurring waves of unemployment. It seems to be fated, under the present dispensation, that poverty and hunger shall descend on millions of Americans every eight or 10 years. But because we have a few years of prosperity between these depressions, and because, when the depressions come, clever stunts are devised to ward off actual starvation, we manage to pretend that the problem is not, after all, so very pressing.

What have these jobless Nebraska men been given, anyway? A chance to work all winter long for no pay; a chance to give the best efforts they have in order to keep from starving or freezing to death. They get, in other words, the absolute minimum; and it is not taking anything away from the intelligence and kindness of this judge to say that they are not getting nearly enough.

The danger that confronts us now is that we may be too easily satisfied. It is not enough to know that hungry men have been kept from dying. The defects in our civilization which put them in danger of dying in the first place still remain; and until we have made a determined and wholehearted effort to remove those defects we can have no excuse for feeling that things are being managed properly

Dreams

Mr. and Mrs. George Redington, of Vinton, Ia., celebrated their 74th wedding anniversary the other day. They are not tired of each other. They have no complaints of cruelty, incompatibility, or unfaithfulness to make.

It is rather comforting to know that not everyone has a desire to change partners in the matrimonial game, quite as though luck was up to a roulette wheel with a croupier holding the stakes. There is something splendid in the knowledge that marriage can be permanent and lasting, is two people want it to be so.

Marriage is a partnership, but unless it is built on a rock where illness and bills and colds and burned toast and flyers in the market can't knock a single brick from the chimney, it has a poor chance of lasting. If it would grow lovelier, after the first glamor of the new silver has worn off and the mint-green linen has been set has faded, it must sacrifice and laugh and be courageous. It must make supports which will hold two people closer together.

The Plainsman Says:

That Girl on Broadway says be it ever so grumble, there's no husband like your own.

* * *

POSSIBLY it has never occurred to you, but this town is lousy with sneak thieves. If you don't believe it, leave your car parked with the doors unlocked, almost anywhere in the southwest part of town.

* * *

The Plainsman specifies the southwest part of town for two reasons. In the first place he has had no actual experience with auto sneak-thieves in any other section of the city—probably because he's never parked in any other section. In the second place, other people who have had similar experiences and who have told The Plainsman about them, have always been parked in the southwest part of the city.

* * *

These sneak thieves rarely get anything of value from the inside of motor cars but they steal little old things—the loss of which gives the owner a decided pain in the neck. And very often, if they can't get inside a car they'll drain gasoline from the tank.

* * *

People who go to parties report frequently that their gas tanks are drained while they are seated at bridge tables. The other night, when civic clubbers were playing volley ball at Tech gym, J. A. Ratley, Charlie Whitacre and a couple of friends drove up just in time to halt a pair of youths stealing gasoline from the automobile owned by Asa May. They couldn't catch the youths but they did scare them off.

* * *

SINCE this kind of thing is so frequent—it even happens adjacent to churches on Sunday nights—it might be a good thing if police, car owners or both would set a trap for some of the thieves. A good, old-fashioned charge of salt and bacon rind—or even light bird shot—should go a long way to putting a stop to these disconcerting practices.

* * *

It's all right for a woman to be careful of her skin, but most of them are trying to take that school-girl complexion into the old ladies home.

* * *

MRS. W. T. MILAM, who does a world of good in this city, reports to The Plainsman that Lubbock is sadly in need of a day nursery and a home in which kiddies can be kept until they are adopted by some kind couple. Mrs. Milam, who takes care of needy youngsters whenever she can and who has placed many of them in good homes, has made a study of local needs in this regard and knows where of she speaks.

* * *

According to this good lady, there are many homes in Lubbock where mothers have to go out and work to support themselves and their children. In many cases they leave early in the morning, before the children are awake, have to leave the youngsters to shift for themselves throughout all or part of the day. Mrs. Milam says a day nursery would not only improve this condition but would also offer a temporary home for the little boys and girls offered for adoption.

* * *

FROM actual experience, Mrs. Milam can tell stories that would make your hair curl and her information doesn't come second-hand. She actually works with these kiddies whenever she can, knows the home conditions and the standpoint of the mothers and firmly believes that here is an untouched avenue for public service.

* * *

The Plainsman is 'up a stump' on the proposition. He doesn't know which way to turn to benefit matters. But it does appear that some agency in Lubbock—some group or organization—might well turn its time and talents to a survey of the condition as reported by Mrs. Milam.

* * *

We all know that the United Charities and the Salvation army are taxed to their capacities with unemployment work and with taking care of needy people. The Plainsman firmly believes that work with the kiddies, such as Mrs. Milam advises, must be done in other quarters.

* * *

PERHAPS a joint committee from the four civic clubs here might be able to work out some sort of a plan. Then there is the local federation of church women's organizations that might be able to sponsor such a project. Maybe neither of these suggestions are worth anything and some other agency might better take up the work. But the fact remains that the problem is before us, crying for a solution.

* * *

Incidentally, The Plainsman happens to know that Mrs. Milam's interest in this question is purely one of humanitarianism. She isn't looking for a job running the nursery or the temporary home for orphan children. But after her own experience, working among the kiddies because she wants to help them, she knows, probably better than anyone else in Lubbock, just what the situation is.

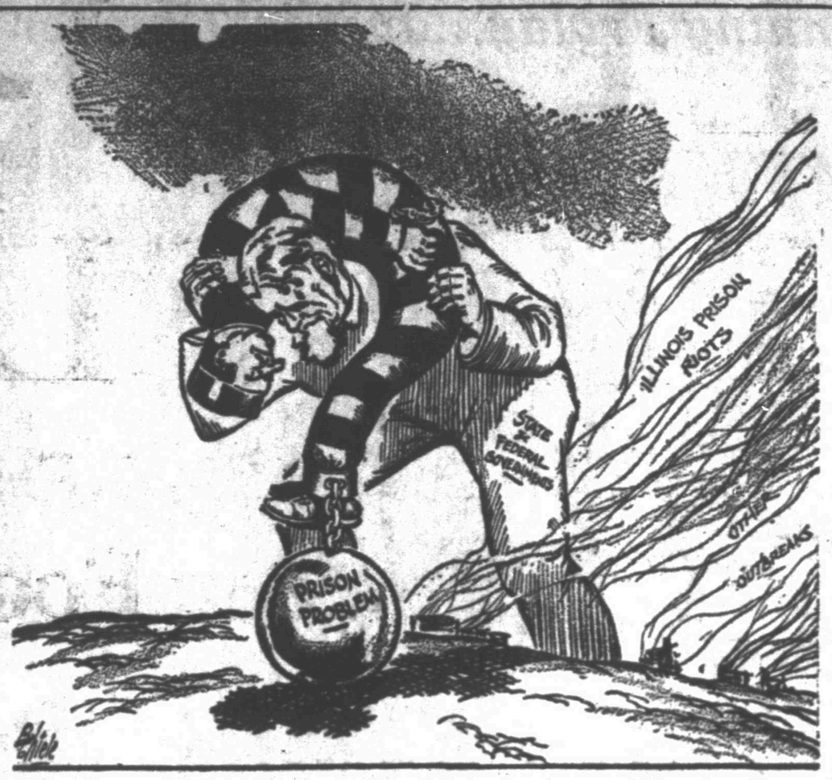

* * *

The Plainsman hopes interested persons will get in touch with him or Mrs. Milam with suggestions on how to better conditions. Surely there should be some people in Lubbock ready to answer such a call. These under-privileged youngsters offer a fertile field for social work—are entitled to their chance.

"Superman" Hoover Has Failed, Declares Nebraskan In Voicing Opposition To His Renomination In Next Race

EDITOR'S NOTE: Here is an interview with Senator Norris, chairman of the recent Progressive conference, who tells why he opposes renomination of President Hoover. It is the first of two series of articles for and against Hoover's renomination.

By RODNEY DUTCHER
NEA Service Writer

WASHINGTON, March 26. — The welfare of both the country and the Republican party demand that President Hoover should be neither renominated nor re-elected, according to Senator George W. Norris of Nebraska, chairman of the recent Progressive conference.

Norris and Hoover are two of the most thoroughgoing political enemies in public life. Norris was the independent Republican senator who bolted the Hoover ticket in 1928 and called for the election of Al Smith, the Democrat. He has led many anti-administration fights in the Senate and Hoover has set his face against many of the measures espoused by Norris and the other Progressives. Hoover's man, Robert V. Lucas of the Republican National Committee, tried to defeat Norris by electing a Democrat in the last Nebraska senatorial election.

The Progressive conference, although non-partisan, was in many respects an organized protest against the failure of the Hoover administration to act to meet such problems as unemployment, agricultural distress, public utilities and other matters of concern to Progressives.

"Mr. Hoover came into office because the American people had been made to believe he was a superman," says Norris, in explaining his opposition to a second term for the president. "He promised relief for agriculture and the people were made to believe that he could bring relief. He had his own way and Congress passed the bill he wanted, giving him the authority he had requested. He has made a complete failure and agriculture is in much worse condition than when he took office.

"He has done almost nothing to meet the economic depression and the vast unemployment which it created. Not content with minimizing the situation and failing to act upon it, he vetoed the Wagner bill which would have established a co-ordinated national system of employment exchanges.

"Through equivocation and lack of stability, the Hoover administration is a disappointment to all who believe in an honest and fair enforcement of the prohibition law.

"By partisan influence and control of the House, he has blocked relief for millions of starving or distressed American citizens and his unmerciful and arbitrary attitude has indicated that partisan considerations have more weight with him than the alleviation of human misery. Throughout his administration, he has shown that he is moved by a narrow-minded partisanship never equaled by any other president.

"After assuring agriculture that he would put it on an equality with other lines of business by proper tariff revision, he took no step to redeem that promise, but signed a tariff bill which has further increased the burdens of agriculture and has also earned us the enmity of all the nations of the world because of its unreasonable and discriminatory rates.

"Under Mr. Hoover's direct leadership, this administration has done everything possible to carry out the wishes and demands of the power trust. His appointments of the new power commissioners to office, along with other appointments, show his complete and absolute sympathy with the power people in their efforts to enrich their great monopoly from our natural resources at the expense of millions of consumers of electricity.

"Under his leadership and with his approval, his appointees have arbitrarily and without notice or hearing removed faithful servants of the people who had stood for enforcing the law against the encroachments of the dishonest manipulations of the power monopoly.

Cites Muscle Shoals Veto

"Using his power of veto, he destroyed the Muscle Shoals bill —a measure designed to utilize the great government property at Muscle Shoals for the cheapening of fertilizer for American agriculture and utilization of the surplus power for the benefit of people within transmission distance of the development. The power people want no yardstick which would expose their extortionate rates, so Mr. Hoover killed the bill after it had been passed by both houses of Congress.

"The president stands in the way of a national system of flood control for the great Mississippi valley by the building of storage dams on tributaries of the Mississippi river. He promised immediate development of navigation from the Great Lakes to the sea through the St. Lawrence river, but he has made no effort to redeem that promise.

"Under his leadership and influence, income taxes of the wealthy have been reduced without corresponding reduction for the smaller incomes.

"His leaders and legislative slaves have blocked that badly needed reform known as the 'Lame Duck' amendment to the Constitution and he benefited by 'Lame Duck' votes when they proved sufficient to defeat in the House the Senate amendment to provide $25,000,000 for food relief to our drouth-stricken fellow citizens.

"Instead of being a superman, recent history has demonstrated that Mr. Hoover is only an ordinary individual and that the welfare of the party as well as the welfare of the country demands that he should neither be re-nominated nor re-elected."

TOMORROW: Why Hoover should be re-elected—as seen by James Francis Burke, the President's close friend and adviser and general counsel of the Republican National Committee.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE: Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 15 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1438 East Twelfth street, Cleveland, O. The pamphlets are "Reducing and Reducing," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding," and "Instructions for the Treatment of Diabetes." The articles are "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

DIABETICS AIDED

THE actual advantage of having diabetes and the health-giving qualities of the diabetic diet for the middle-aged were pointed out yesterday. But the diabetic has been greatly favored by medical discovery in the use of insulin. The middle-aged or elderly diabetic can get on very well with little insulin or without it entirely. The young child with diabetes can hardly get along at all without insulin.

Dr. Clendening

We are just beginning to learn how marvelous the benefits from the use of insulin have been. It took time to bring this out. For instance, here is a report on 100 patients carefully studied. They had been on insulin five to eight years.

First, food tolerance. That is a great item. When a severe diabetic starts out on treatment the amount of sugar that can be consumed without insulin is very low. Even on dietary treatment alone, which keeps the body sugar free, this tolerance usually rises. But with the prolonged use of insulin it has been found to go up tremendously. Twenty-eight cases on diet alone before the days of insulin increased their food tolerance 200 to 1,000 calories. After five years of insulin 27 of them had increased it far beyond this. Seven patients were barely maintaining the lowest diet possible to maintain weight (not growth) without any exertion. It is hard to imagine what that means: if they ate just a little more than enough to maintain a low weight, if they at all satisfied their appetites, they showed sugar. After insulin they could have more than enough to maintain weight and growth and keep hunger satisfied without danger.

The amount of insulin required is frequently reduced. So that the patient can look forward to taking less insulin after a certain period. This factor is somewhat complicated by the youthful age of patients for whom insulin is most valuable. Under insulin treatment they are likely to grow, and when their bodies get larger they require more food. The ability to utilize sugar does not keep pace with the body's growth. So in some of these rapidly growing patients more insulin instead of less is required. When insulin has been begun in a fully grown person with severe diabetes, the amount can almost invariably be cut down in time.

Increased weight and growth, when under insulin is remarkable. Before the use of insulin the children studied showed slight or negligible growth. With insulin treatment children grow normally and show standard increases for their ages. Thin people gain weight on insulin, whereas with dietetic treatment alone severe diabetics lose weight.

The economic efficiency of diabetic patients improves on insulin treatment. Before insulin treatment a little less than half the cases were able to do some or all of their work. About a quarter of them could get about, but could do no work. About a third were helpless. With the help of insulin three-quarters of them can do full duty, and one-quarter part duty. None are helpless.

The fear that the repeated hypodermic injections necessary in giving insulin would harm the skin has proved groundless. Eight patients in four years had a total of 22,000 needle punctures with no ill effects to the skin whatever.

Such is the record of insulin in its first nine years of existence.

In New York With Gilbert Swan

NEW YORK, March 26.—Just as in the old home town fire station, or around the cracker barrel of the Sauk Center grocery, it's the checker and chess players who catch the crowd in mid-Forty-second street.

It's down in the basement of Hubert's Museum and Flea Circus that the transient groups of players challenge the experts. If checkers is the game, then the neighborhood sharks pay 10 cents if they lose and get 10 cents if they win. If the game be chess, then the fee is 25 cents.

And while bored-looking experts make moves on two and three boards at a time, or concentrate over moves when a tough customer is on hand, the kibitzers and fans pack closely about the tables. And stand and stand. Well, at least, it's warmer here than outdoors and the admission for the entire show is but a dime . . . 10 cents."

* * *

The atmosphere of this non-stop is not exactly restful.

For here has been gathered a pigmy Coney Island and County Fair.

In one corner a gent with a shooting gallery concession seeks to draw the customers away from the checker game by a series of ballyhoo.

All about the room are penny arcade devices bearing such cards as "Her Saturday Bath" or "The Wedding Night."

Upstairs there are such distracting attractions as "the gorilla girl . . . the strangest of creatures." Or the two-headed mystery.

Or, just over the heads of the gents whose eyes are glued to the checkerboard squares, there is a strumming of ukes, an array of posters and the voice of a barker . . .

"These little ladies dance the strange dances of the world. . . . You'll see them dance the hula-hula . . . you'll see them dance the wiggly dances of the desert . . . the dances of Araby . . . and the dances of Broadway. . . . It's a dollar show, friends . . . but we don't ask a dollar, or a half dollar . . . or a quarter. . . . But 15 cents! . . . For today . . . 15 cents!"

Music sounds from somewhere behind a walled-in space. . . . Stragglers stroll up. . . . A dozen follow the barker . . .

But the crowd does not budge from the contest arena.

The "house players" are themselves a study in mid-Broadway life. One wears a dusty derby and a weather-beaten coat. He plays checkers with one hand and chess with the other.

The others are more youthful. One looks as if he often enjoyed a tough game.

So they play hour upon hour . . . surrounded by a gorilla girl, dancing girls, two-headed phenomena, shooting galleries and such.

Errand boys and messenger boys, in no seeming hurry to get back to their offices, loaf about. Idlers drift in out of the cold and hang around.

And right here, in the center of Broadway, the checker contest goes on, even as in the days of the cracker barrel and tripe crates.

THE TINYMITES

STORY by HAL COCHRAN—PICTURES by KING

(READ THE STORY, THEN COLOR THE PICTURE)

The Travel Man said, "We've seen all there is to see here. I've a shawl that I bought from a native and he made it all by hand." He spread it out and held it high and it was pleasing to the eye. Said Scouty, "My, how colorful. I think that it is grand.

"What do you plan to do with it? It doesn't seem that it would fit for any man to wear it. It's a woman's shawl, I guess." The Travel Man replied, "You're right. In it I'd surely look a fright. I'll send it to someone back home, to wear with some nice dress.

"I'll find a place, if you will come with me, where I can mail it from." And so they sauntered down the street and shortly Clowny cried. "Look! There's a dandy place to eat. I'm tired of standing on my feet. Let's sit right down to lunch." And so the whole bunch went inside.

When they had eaten all they could and quite agreed that it was good, they once more started on a hike. Not very far away they found a place to mail the shawl. It didn't take much time at all. "Well," said the Travel Man "that is one good deed done today.

"And now I'll take you to a sight where you can see some elephants fight." They hopped into a little cart and rode far out of town. A big arena soon was reached. "This will be swell," wee Clowny screeched. "I don't see how one elephant can throw another down."

The Travel Man said, "You'll find out." And then they watched a thrilling bout. Two elephants began to snort and each one waved his trunk. Then one pulled quite a clever trick. He rushed the other one real quick and pushed him off of balance till he flopped right down, kerplunk!

(The Tinymites meet a native snake charmer in the next story).

"There Is No Substitute For Experience. . . . In Lubbock Since 1910"

This Woman In 4 Weeks Lost 17 Pounds of Fat

Here's a letter written October 21, 1929, by Mrs. Fred Barringer of Lewistown, Montana, that ought to be read by every overweight woman in America.

Gentlemen: I started taking Kruschen every morning as directed as I was very much overweight and wanted to reduce.

I had tried going on a diet but would get so hungry that my diet would not last long, so I decided to give "Kruschen Salts" a fair trial. The day I started to take them I weighed 256 lbs. and at present, which has been just four weeks I weigh 239 lbs. And I must say, I feel better in every way, besides looking much better.

May all large people, both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. I am sure it will convince anyone."

A bottle of Kruschen Salts that lasts four weeks costs but 85c at Bowen's Drug, Bowen's Hilton Pharmacy, The City Drug, The Lubbock Drug Co., Mark Halsey Drug or any drug store in America. Take one half teaspoon in a glass of hot water before breakfast every morning. To help reduce swiftly cut out pastry and fatty meats and go light on potatoes, butter, cream and sugar.

The Kruschen way is the safe way to reduce—Try one bottle and if not joyfully satisfied—money back. Adv.

INTEREST INCREASED

LIBERTY, March 26. (AP)—Interest in mineral developments at Moss Bluff was increased this week with announcement by W. A. Carter, A. Z. Gardner, and V. R. McManus that they had refused a cash offer of $57,000 for a three-fourths mineral interest in a 300-acre tract owned jointly. The Texas Gulf Sulphur company has drilled three shallow tests on the land.

BAKERY CREATION INTRODUCED HERE

A pioneer Lubbock baker, R. H. Martin, has introduced his own creation to the public after the product, Hetho-Flake, has been tested for the last 30 days. Hetho-Flake embodies a secret formula of healthful ingredients, according to Martin.

The food is the result of more than a score of years of research work in the baking business, Mr. Martin said yesterday as he made known his new creation.

Following introduction of the product to local consumers, Mr. Martin is to conduct an extensive distribution campaign of the food, selling the ingredients mixture used in the bread to other bakeries over the southwest. Only the ingredients will be sold to the bakeries, he stated, the formula of the product being kept a secret.

Trade mark has been applied for the name of the new commodity, he said.

Distribution of the bread is expected to be on a national scale, Mr. Martin said. Exclusive sales agency has been requested by a bakers' supply house maintaining offices in New Orleans and Dallas.

Mr. Martin has been in the baking business for more than twenty-nine years' opening his first little plant here in January, 1910.

WEATHER

Continued From Page One

showers were accompanied by some hail.

Continuing its sweep across West Texas, rain fell Wednesday night at Big Spring. Intermittent showers fell early Thursday at Brownwood, a slow drizzle left .15 of an inch precipitation at Vernon and skies were overcast. The temperature at Vernon was 44 degrees Thursday morning and was dropping slightly. A similar temperature drop at Wichita Falls was accompanied by rain amounting to .33 of an inch.

Light showers fell at Fort Worth and Dallas, extending into East Texas, where Tyler reported a heavy rain early in the morning dwindled to mist and the temperature cooled quickly.

Showers Forecast

Thunder showers were forecast by the government weather bureau for Thursday night, in East Texas, with the rain turning to snow in the northwest portion. Colder weather for the north and west portions was predicted, with a cold wave in the northwest section where temperatures below freezing were indicated for Thursday night.

West Texas was predicted to have cloudy weather and rain in the southeast, with snow in the north portion and a cold wave Thursday night, temperatures of from 12 to 22 in the north portion being forecast. Strong northerly winds were indicated, with freezing temperatures extending to the south portion of West Texas Thursday night.

A new toll bridge across the Mississippi river at Wabasha, Minn., earned $560,000 during the first 22 days it was opened—five times the amount a ferry it replaced earned all last year.

Take Pepsin This New Way and End

Stubborn Indigestion

If you have a weak, bad acting, nasty, rebellious stomach, it won't take but 2 or 3 doses to prove you can turn it into a strong, healthy one, capable of digesting the heartiest meal without after-distress.

Nature says your stomach needs pepsin—needs it three times a day at every meal and the stomach remedy that you need most of all is Dare's Mexsins Pepsin. It will do you more good in two weeks than all the old time relievers will do in a lifetime.

That's just the reason that its sales in good drug stores all over America are enormous—that's why Bowen's Drug and Bowen's Hilton Pharmacy are selling dozens of bottles every week.

Take it and you'll learn the secret of how to always have and keep a strong, healthy stomach. If after taking one bottle you are not completely satisfied — money back.—Adv.

HOT PENNANT RACE LOOMS IN NATIONAL LEAGUE THIS YEAR

SPYING ON SPORTS

The first West Texas coaching school, to be held at Texas Tech August 3 to 15, will not be limited to coaches in West Texas. Not by any means. It has never so been proposed. All coaches who hear about it are invited. They will come from great distances as witness a couple of letters that came to Coach Pete Cawthon's office yesterday.

* * *

The fact that Jimmy Phelan and Wallace Wade are to conduct the school makes it a great drawing card in itself, and added to that the fact that the school to be held here is the only one scheduled for Texas this year provides another interesting feature. Letters yesterday came from L. W. Mimme, head coach of Walnut High school, Cincinnati, Ohio, and P. B. Lyons, head coach of Garrick High school, Pittsburg, Pennsylvania, asking for more information regarding the proposed school and stating their intentions to be present.

* * *

Captain Brown, head coach at New Mexico Military Institute, and Godfrey, assistant coach at the soldier institution, write that they will be here for the school. Nearly all of the college coaches in Texas, including all of the Southwest Conference mentors, have expressed their desire to attend the school.

* * *

If no news is good news "Evo" Marshall and Ed Hambright, Lubbock's 1931 contributions to the Texas League, must be getting on fairly well with the Houston Buffs and Wichita Falls Spudders respectively. Every day there is a discharge of rookies but so far the lads seem to have escaped the axe. Each club must carry five to seven non-class men and there's a chance for Marshall and Hambright. We received a letter from Hambright shortly after he reached Spudderville and while he did not feel sure of a regular berth he said he thought he could hit and field about as well as any of the other seventeen rookies on hand at that time. The list has been cut down to about seven now and Ed is still with them.

* * *

We note in the list of lettermen at Texas Agricultural And Industrial college, Kingsville, the name of Robert Rich, former Lubbock High school star. Rich was an end on the Westerner squad until last year and his work at that position likely will not be forgotten by Lubbock fans for years to come. Yancy Price, now one of Texas Tech's most potentially powerful stars, played at the other end in those days and it was said that the ends of Lubbock's line were the high spots of the team.

* * *

Things are looking rather dismal this year in the dressing rooms of the Texas Christian University Horned Frog track squad. It was a great blow when Cy Leland, the "Flying Frog," decided to shift his scholastic standing to the Pacific coast. Then came news of the ineligibility of Red Oliver, Leland's running mate and almost as fast as the flying one himself. Oliver failed to pass the required number of hours of class room work, and, whether you believe it or not, there is no line of distinction drawn between athletes and ordinary students when classroom failure is reported.

* * *

To check up on the progress or impediments that is meeting the efforts of proponents of the one-year residence rule for high school football players and for an informal chat about various and sundry things we called upon the original father of the rule yesterday, Prof. M. H. Duncan, at his office in the high school. He was interested in the knowledge that rival schools of this district are at present engaged in the business of importing gridiron material and forthwith presented data which he has collected from nearly 300 high school men over the state showing a great majority to be in favor of the rule. Tomorrow this column will present some evidence in regard to the case.

* * *

The superintendent of Lubbock's public schools gets many interesting letters. About this time of the year many prospective college graduates seek pedagogical positions and some of the applications are interesting if not thought provoking. The school master showed one which reads as follows: "Dear Sir: This is to certify that I am hereby making formal application for a vacancy in your system . . . ."

* * *

Mr. Duncan says it's difficult to understand whether the person in question seeks to occupy a professional desk at one of Lubbock's schools or is soliciting for some breakfast food concern. The seeker is question, by the way, is a hopeful graduate of a down state school for negroes.

University of Utah officials say more than 75 per cent of the students at the institution are working their way through school.

SHIELDS IS SEEN AS SECOND TILDEN

FIVE TEAMS IN LEAGUE HELD CONTENDERS

FOUR LEADERS OFFER RE-INFORCEMENTS FOR SEASON

BY ALAN GOULD

NEW YORK, Mar. 26. (AP)—That dull, booming sound heard this spring all the way from Clearwater, Florida, to Catalina Island, California, may have sounded like the coast artillery at practice but it merely is the blasting operations of baseball's heavy duty boys, tuning up for one of the hottest pennant races the old national league ever has had in prospect.

The task of selecting a probable winner in the forthcoming battle is just as much guess work as it was in trying to detect the eventual winner last August, before the St. Louis Cardinals braced and rushed to the front.

Potential Winners

The first four clubs were separated by only six games at the finish of the 1930 pennant race. These four—St. Louis, Chicago, New York and Brooklyr—all will toss re-inforced lineups into the thick of this year's action. All rank distinctly as potential winners.

The total list of contenders includes at least five teams, with the Pittsburgh Pirates back in good health again, and possibly embraces six, if the much-strengthened Boston Braves are taken into consideration as they insist they must be.

Cincinnati and Philadelphia, unless the beneficiaries of a miracle or two, seem destined to wage a private fight to keep out of last place.

Out After Americans

There isn't a national leaguer anywhere who isn't longing for a chance to see the American league's entry thrown for a loss in the world's series climax For four straight years the national league has waged the bitterest sort of pennant scraps, only to see its flag-bearer take it on the chin, twice from the Yankees and twice from the Athletics.

The St. Louis Cardinals, to a man, yearn for another opportunity They put up a great fight before yielding to the A's last fall. This spring they walloped the Mackmen in three out of four exhibition engagements.

The fighting spirit and the fine organization of the Cardinals under Gabby Street, plus the addition of two sensational young pitchers in Dean and Derringer to an already capable twirling troupe, will make the champions difficult to dislodge. They have speed, punch and brains.

No one appreciates better than Street, however, that he faces the strongest kind of opposition. Gabby's belief that the Chicago Cubs will be his keenest rival is aired by a number of close observers.

Brooklyn, with an array of bludgeoners re-inforced by Lefty O'Doul in the outfield and Fresco Thompson at second base, is formidable in every respect, capable of battering its way to the top by the sheer application of brute force.

FRESHMEN WIN OVER SOPHS

SENIORS DOWN JUNIORS IN INTRAMURAL TECH BASKETBALL GAMES

Playing Coach Ernest Dowell led his freshman cagers of the Liberal Arts league to a 39 to 13 victory in the first game of the big intramural program that got under way last night at the Tech gymnasium. The fish beat the sophs of the same league, having the upper hand all the way and never in doubt of victory. Jesse Holmes and Bryant, forwards on the Fish team, shot for counters time after time, completely subduing the inexperienced sophs

In the second game of the 54-contest program, the seniors of the L. A. league showed surprising form to defeat the juniors, a tough crew, 23 to 18. Harold Crites, center for the juniors was the outstanding player scoring ten points to the losers. Collins and Puckett, forwards, played consistent games. For the seniors, McCulloch was outstanding with a dozen points, scoring ten from scrimmage.

The schedule continues this evening at 7 o'clock with the fish and soph teams of the Engineers league clashing in a first round game, followed at 8 by the junior-senior tilt. Two games will be played each day, with three games per day next week, during the remainder of the schedule.

INDIANS FACE SOX

SAN ANTONIO, March 26. (AP)—The San Antonio Indians today faced the Chicago White Sox in their last tilt with a big league rival. Manager Robertson takes his Tribe to Brenham for Saturday and Sunday games against Montreal of the International league, and then follow trips to small towns in this vicinity to kill time before the season opens.

AROUND THE TRAINING CAMP CIRCUIT

OLD SPANISH CUSTOM

SANFORD, Fla., March 26 (AP)—Losing a lot of spring practice games is just an old Spanish custom so far as the Philadelphia Athletics are concerned, Manager Connie Mack said today.

"Go back over the books," he added, "and you will find our team always looks terrible in the spring. We were so slow getting started last year that at one time we flopped to sixth place. Washington passed us three times before the boys got together and won the pennant on their second western trip. We have a lot to be thankful for this season. The team looks pretty good and the mental attitude of some has changed for the better."

LEAVES FOR HOME

WINTER HAVEN, Fla., March 26 (AP)—The latest and perhaps final message Phil Collins has for the Phillies is that he's leaving pronto for his home in Chicago after failing to agree with the club on salary. The pitcher has had several talks with President Ruch, but there was no result.

LINEUP SETTLED

ST. PETERSBURG, Fla., March 26 (AP)—Joe McCarthy, manager of the New York Yankees, has been embarrassed with a wealth of infield material all though the training season but he seems to have settled on his lineup. According to the experts, the present arrangement is Gehrig at first base, Lazeri at second, Sewell at third and Lary at shortstop.

BABE GETS CONCEITED

HAVANA, March 26 (AP)—Babe Herman, Brooklyn's slugging outfielder, is quite sure his visit to Havana has made him popular with Cuban fans.

"I guess they don't know the Babe here, eh?" Herman commented, pointing to a big headline in a Cuban paper. "I don't even get a hit today and look at this big type."

"That means you struck out twice," explained the learned Gordon Slade. "It says 'Herman ponchado dos veces,' struck out twice.

"Well, I must be pretty good," replied the Babe, "when they put it in big type when I fan."

"IMPORTANT PART"

SAN ANTONIO, March 26 (AP)—Take it from Chief Bender, the Giants' pitching coach, who has been around ball parks long enough to know a lot, pitching is the important part of modern baseball, especially where the Giants are concerned.

"Hitters like Terry, Ott, Jackson and Hogan have their swings grooved," says the chief. "They may slump a little or gain a little but in the end they will produce their basketful of base hits. Pitchers these days are the unknown quantity. A pitcher must be naturally smart. When everybody gets through coaching him and telling him everything, then it is up to him. He must have rhythm and get control himself."

CARDS GET REST

BRADENTON, Fla., March 26 (AP)—No exhibition games are carded until Sunday so the St. Louis Cardinals today settled down to the routine of two practice sessions daily. Manager Gabby Street plans to give considerable thought to left field, where holdout Chick Hafey formerly held out. Ernie Orsatti appears the leading candidate for the place if Hafey fails to come to terms or Branch Rickey fails to arrange a trade for the slugger.

BELIEVES IN HERBERT

WEST PALM BEACH, Fla., Mar. 26 (AP)—Manager Bill Killefer of the St. Louis Browns believes he has found a pitcher capable of fooling American league batters. Wallace Herbert, a southpaw, with Wichita Falls last year, has been doing so well Killefer is considering restraining him throughout the season. "Red" Kress, pitcher Fred Stiely and outfielder Larry Bettencourt, recent casualties, are ready for action again.

YOUNGSTER FAVORED

NEW ORLEANS, March 26. (AP)—Joe Vosmik, the youngster from Cleveland's sand lots, is likely to win the left field job for the Indians but he'll not make his debut before the home town fans, Manager Roger Peckinpaugh believes to send the youth before his friends on the opening day in Cleveland would not be good psychology. Peck probably will rely more on the steadying influence of the veteran Charley Jamieson.

TWO PITCHERS OUT

LOS ANGELES, March 26—(AP)—Sore arm, which has spelled ruin for many promising pitchers, has taken two hurlers out of the Detroit lineup for exhibition games. George Uhle, veteran, and Whitlow Wyatt, promising youngster, are taking treatments here for ailing right arms. Otherwise the Detroit pitching staff is rounding into form.

BOLTON GIVEN LESSON

BILOXI, Miss., March 26. —(AP)—Catcher Cliff Bolton is learning he must watch runners on third before throwing to second.

Manager Walter Johnson of the Senators gave Bolton a lesson along this line. The interest of the pilot was taken to mean he is seriously considering the newcomer for a permanent place on the team.

OLIVER HAS PROBLEM

MOBILE, Ala., March 26. —(AP)—Tom Oliver of the Red Sox, favorite son of Montgomery, Ala., is trying to solve the low ball problem.

Tom is keeping his old widespread batting stance, but he's holding his bat in more level fashion in an attempt to lose the tendency to "swing at the low ones." Once that tendency is conquered, Tom bids fair to swing back into the heavy hitting pace he showed during the early part of last season.

SWAP HATS

ST. PETERSBURGH, Fla., Mar. 26.—The Braves and Cardinals have expected a swap—but it has turned out to be a swap in hats.

Judge Emil Fuchs, Braves owner, got a $15 fedora from the Cardinals' vice president Branch Rickey And Judge Emil gave Rickey a $7 hat. The judge was all excited over the deal and was wont to boast all over the camp until he discovered a hole burnt in his newly acquired $15 lid.

MAKES SHIFT

SAN FRANCISCO, March 26. (AP)—Rogers Hornsby, manager of the Chicago Cubs, early in the training season indicated there might be several important shifts in the Bruin battlefront—but at least one of them has not been made.

He did switch his infield around to make a place at short for recruit Bill Jurges, indicating that Lester Bell may not be used regularly at third where Woody English has been worked. However, Kiki Cuyler still is in right field and Hack Wilson is in center, instead of vice versa as Hornsby earlier indicated.

LOOMS AS THREAT IN DAVIS CUP HOPES OF FRANCE

BY FOSTER HAILEY

NEW YORK, Mar 26. (AP)—Frank X. Shields, a Big Bill Tilden in physique if not yet in stroke, stood today as an ominous shadow across France's Davis cup hopes of a year or two hence.

The strapping New York City youngster, runner up to John Hope Doeg, of Newark, N. J., in the national tennis championships at Forest Hills last summer, won both of his singles matches in the international indoor team competition with France, which France won three matches to two, and won them in such decisive fashion as to send American hopes soaring.

His straight set defeat of Jean Borotra, Davis cup veteran and leader of the French team was the most decisive the bounding basque of Biarritz had ever sustained indoors at the hands of an American. Just to prove it was no flash in the pan, Shields came back last night to defeat Christian Boussus, France's main hope among the younger players in an even more decisive fashion giving the Frenchman but seven points in three sets and five of those in the first.

Standing well over six feet tall, broad shouldered, long armed, the American youngster rifles a serve across the net in the manner of Big Bill and covers more court than the bounding Borotra. At 21 he is a better tennis player, experts say, than Tilden was at 24.

The international team match, modeled along Davis cup lines, was won by France largely because Berkeley Bell was not quite up to the class of Boussus, Borotra and Shields. The fragile appearing Texan lost both his matches and then George Lott, jr., and John Van Ryn, the Philadelphia pair, bowed to the French doubles team to make defeat certain.

GRAND NATIONAL STEEPLECHASE WILL BE RENEWED AT AINTREE TOMORROW

AINTREE, Eng., Mar. 26. (AP)—Started 92 years ago by a saloon keeper who sought to draw more trade to his territory, the Grand National, the classic of all steeplechase races, will be renewed over the gruelling four and one-half mile Aintree course tomorrow.

It has been nearly a century since Captain Becher parted company from his horse and swallowed the water of the brook, which has borne his name from that day, but since then, the Grand National has grown from an obscure local event to a contest which 300,000 race fans from every stratum of British American and continental European life will witness tomorrow.

With 44 horses, among them seven highly regarded American-owned thoroughbreds, ready to face the barrier, every race follower in town today has a favorite, although the bookies restricted their choices to a more select field.

The starting field will be below the record of 66, due to the new rule made to cut down the unwieldy field of previous years. Originally 84 were nominated.

Many a "nag" has led the more highly regarded jumpers home, but those who claim to know say this is the favorites' year. But that is what they have been saying for 92 years.

An American-bred horse has never won the race and only twice has an American owner been successful. In 1923 Sergeant Murphy scored with Stephen (Laddie) Sanford's silks while A. C. Schwartz's Jack Horner won in 1926.

Howard Bruce's Billy Barton, greatest of all American jumpers, was one of the two to finish in 1928 but he was second to Tipperary Tim, a 100 to 1 shot, after springing a plate a half mile from the finish. A year later John Hay Whitney's Easter Hero was showing the way to the last jump but was forced into second place by Cregalach.

If American silks are to win this year, the railbirds are saying, they will be carried by either Easter Hero or Sir Lindsay, both owned by Whitney. The pair have ranked either as favorites or near the top since the opening of the future books and today were held at 100 to 7.

COUNTY MEET TO BE STAGED HERE

Track teams from all points in Lubbock county will meet here tomorrow for the annual county track and field meet. More than 20 teams are expected to compete for county honors and in the eliminations toward the district meet, also to be held here, April 23, 24.

O. G. McWhorter, county athletic director, requests that all coaches meet with him at 9 o'clock Friday morning at the gymnasium to lay plans for the meet. All track and field events, play ground baseball and tennis will compose the program.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, March 26 (AP)—The stock market was a two-sided affair in early trading today.

A few speculative favorites were bid up while the list sagged elsewhere and the most so called pivotal shares, such as U. S. Steel held about steady. Trading was in small volume.

The market did not appear disturbed by yesterday's dividend reductions, but hesitant in the face of further dividend meetings today.

Auburn set out to retrace yesterday's wide movement with a 5 point gain, and Worthington and National Surety rose about 2, the latter to a new top for 1931. International Paper preferred advanced 2 on declaration of the regular dividend, American Can, Consolidated Gas, Case and Studebaker rose a point or so.

Goodyear dropped nearly 3 points in selling based on the sharp break in the London and New York rubber markets. McKeesport lost about 2 in realizing on yesterday's sharp gain. American Smelting and U. S. Industrial Alcohol sagged 1, the latter to a new low.

Sterling cables opened at $4.85 7-8 up 1-32.

Cotton Market

NEW YORK REPORT

NEW YORK, Mar. 26. (AP)—Cotton opened steady today 3 to 3 points lower under a renewal of liquidation and some scattered selling inspired by relatively easy Liverpool cables.

Offerings were light and were absorbed by some covering or trade buying, apparently on scale down orders, but the market sagged off to 10.78 for May and 11.33 for October, or about 1 to 6 points net lower by the end of the first half hour. Business was quiet and traders seemed to be awaiting fresh developments. Liverpool cables reported an inactive market with prices lower under liquidation and also said there was a decrease in the demand for cotton cloth from India and China.

Houses with Liverpool connections were credited with selling here during the early trading. Egyptian cotton futures in Alexandria were 2 to 5 points higher while the spot quotation for Indian cotton in Liverpool showed a decline of 2 points.

The volume of offerings tapered off on the early decline and the market became decidedly steadier later in the morning on continued trade buying combined with covering and local buying for a rally. Early losses were not only recovered, but May contracts sold up to 10.92 and October to 11.47, making net advances of 8 to 10 points and the market was within a point or two of the best at midday.

NEW ORLEANS REPORT

NEW ORLEANS Mar. 26. (AP)—Cotton opened steady although Liverpool was slightly lower than due. First trades here showed no change to one point decline. After ruling steady for a time after the start at opening figures, the market turned somewhat easier on a renewal of long liquidation and May eased off to 10.80, July to 11.04 and October to 11.35, or four to five points under yesterday's close. At the end of the first hour the market was quiet and steady and near the lows.

The market, after having dropped five to six points under the opening figures, had a good rally during the last part of the morning, with active short covering and trade buying causing May to advance to 10.92, July to 11.16 and October to 11.48 or 13 to 16 points up from the lows.

The advance was helped by map indications of much rain and colder weather over the week-end, and also by reports of good business in manufactured goods.

At noon the market was steady and near the highs.

"It takes Premium Canadian MAPLE SUGARS

to give syrup a flavor as fine as this," says Bill Heer, the Master Blender, "I select them with extra care—and blend them at the exact times and temperatures that bring out the woodsy maple tang everybody enjoys so much. It's a knack I learned in the Old South nearly fifty years ago, when we cooked our syrups over open fires. Taste this Maple Flavored blend of ours and you'll see it pays to be extra careful in the making." It's surprisingly inexpensive, too.

Curse Of Bandits' Gold Causes Death

TOLUCA, Mexico Mar. 26. (AP)—The curse of bandits' gold was blamed today for the death of one man and injuries to two others when a tunnel which they had sunk at the site of an alleged buried treasure collapsed and trapped them within it.

The party was endeavoring to gain entrance into a cave where bandits were supposed to have hidden their loot years ago.

Varied Program At Rotary Luncheon

A varied program embodying both humor and serious discussion was heard by Lubbock Rotarians at their weekly luncheon at noon Wednesday at the Lubbock hotel. About 100 local and visiting men were present.

With Chas. A. Guy as chairman for the day, Roy Snyder, head of the meat extension division of Texas A. and M. college; Postmaster John L. Vaughan and R. J. Murray were principle speakers. Between the talks, which covered the approaching Quality Meats show here, air mail for Lubbock and the business outlook for the South Plains, members vied with one another in Rotary acquaintanceship.

President W. A. Jackson added to a burst of oratory, begun by Mr. Murray, by bringing the earlier progress of the ancient Greeks to the South Plains region.

Reservations For Convention Made

Hotel reservations are being made here daily in connection with the annual convention of the West Texas Chamber of Commerce here, May 14, and 16, according to attaches of Lubbock's two principal hotels.

Lubbock citizens probably will be called upon to care for a large number of the convention visitors, officials in charge of the convention plans have stated. Work along this line will be started soon after Maury Hopkins, district manager, moves here April 1 to begin preparations for the gathering which is expected to be the largest in the history of the organization.
