Volume XL.

Junction, Kimble County, Texas, Friday, November 16, 1923.

Number 30.

17 MARINES REPORTED KILL IN SANTO DOMINGO.

The sudden departure from Panama of the U. S. Cruiser Rochester, flagship of the Special Service Squadron, with Rear Admiral John H. Dayton on board, gave rise to the report of an uprising in Santo Domingo, during which 17 U. S. Marines are reported to have been killed.

TEXANS INCLUDED IN ANTI-KLAN BODY.

Washington, Nov. 11.—The National Vigilance Association, recently organized for the purpose of inaugurating a country-wide campaign to fight the Ku Klux Klan and kindred organizations, has opened headquarters in Washington, the organization having, according to the announcement, members which include men prominent in the educational, business and professional life of the Nation.

Among those listed from every section of the country, as composing the national committee, are Rufin G. Pleasant of Shreveport, former Governor of Louisiana; Aldrich Blake, Oklahoma City, former confidential adviser to Gov. Walton of Oklahoma; Robert E. L. Saner of Dallas, president of the American Bar Association, and former Gov. James E. Ferguson of Texas.

A campaign will be directed from Washington headquarters, Sunday's announcement says, for purposes as follows:

1. The passage of an anti-masking bill by the Legislatures of every State in the Union, making it unlawful to appear upon the highways wearing masks or hoods.

2. The bringing of sufficient influence to bear upon the individual members of State Legislatures looking toward the enactment of laws compelling such secret organizations to make public their membership rosters.

3. The establishment of a Federal statute so drawn as to cover mob violence and to provide Federal prosecution of offenders in the U. S. Courts.

4. The propagation of the faith in respect for and obedience to the institutions of government with the weapons of education, agitation and organization.

"The association is prepared to fight against all influences and agencies which seek to breed class or religious discrimination," says the announcement. "It will work actively for the renewal of respect for the law and the United States Constitution, according to its certificate of incorporation."

Reports from Sonora Wednesday morning state that an inch rain fell there Tuesday. Scattering showers fell all the way between here and there. Monday's Sonora mail was delayed.

ROOSEVELT BOY KILLED IN CONCHO COUNTY.

Word reached here about noon last Friday that Jesse Lee Surber had been killed at the Eden Oil Well in Concho County that morning. He had been a tool dresser at this well for some time.

Members of the family living at Roosevelt, went to Eden that day and accompanied the body home. Interment was made at the Copperas Cemetery that afternoon.

Rev. S. F. Marsh of Junction conducted the funeral services. Deceased was born in Mason County, was a son of W. A. Surber, and was 26 years of age. He is survived by his parents, four brothers and three sisters.

He was shot with a 30-30 rifle according to information available here, sometime in the early part of Thursday night and died about 4:15 the following morning.

GOVERNOR KILLS HIS QUOTA WILD TURKEY.

Austin, Nov. 12.—Governor Neff, Attorney General Keeling and all but two other members of the Governor's hunting party, who returned Monday from their hunting expedition, killed their limit of wild turkey. It was announced.

Dr. Joe Wooten returned, but A. J. Eilers and A. S. Birdwell remained at the hunting camp. Governor Neff drove, for the first time in his life, a car 190 miles from the hunting grounds, 30 miles west of Kerrville to Austin. The trip was made without mishap.

HALF MILLION FORDS IN LESS THAN 3 MONTHS.

Detroit, Nov. 14.—Ford Motor No. 8,500,000 went off the assembly line at the Ford Motor Company's plant in Highland Park on October 4, it is announced. The last half million Ford cars were produced in seven days less than three months, for motor No. 8,000,000 went off July 11, this year.

Schreiner-Hodges Company made the largest single cotton sale of the season last week, when they delivered 85 bales at prices ranging from 29 to 33½ cents. To Wednesday of this week they had bought 513 bales. The prices paid by the two local buyers here this year will encourage more cotton next year.

CELEBRATION LAST WEEK DRAWS LARGE CROWD.

The celebration under the auspices of the Burt Fleming Post and the Parent-Teachers' Association, was a complete success. A good crowd was in town last Saturday to see the parade in the morning, the ball game in the afternoon and the picture show that night.

The parade started from the Methodist Church at 11 o'clock, passed up main street to the northeast corner of the square, then around the east and west sides of the square, back to the Boker blacksmith shop, then to the State Bank, then back to the Court House lawn where a short program was carried out.

The principle entries in the parade were: The American Legion, Junction School, Eastern Star, I. O. O. F. Lodge, Parent-Teachers', Methodist and Baptist Sunday Schools, Boy Scouts, Red Creek School, James River School, Bear Creek School, and the Segovia School.

The program at the Court House was opened by an invocation by Rev. Parker, followed by the presentation of the large United States Flag to the winner in the parade, the Bear Creek School, by Superintendent Miller. Judge Baker presented a flag to the Boy Scouts, which was accepted by Scout Master R. E. Parker.

In presenting the United States flag to the Boy Scouts, Judge Baker took occasion to speak of the respect due the flag and the seeming ignorance of a good many men, who failed to remove their hats, out of respect to the flag of the American Legion, as it passed up the street by them, while being carried at the head of the parade.

J. C. Beddingfield, Commander of the Legion, was master of ceremonies.

At 2:30 a ball game began, between Junction High School and Kerrville High School. A large crowd saw this very exciting game which resulted in a score of 6 to 0 in favor of the Kerrville team. A game had been matched with Marble Falls for this date, but that school forfeited the game. Then a game was matched with Rocksprings, but they, too, were unable to get here, so a game was arranged with Kerrville Thursday or Friday.

The members of the Parent-Teachers' Association served sandwiches, cakes, candy, coffee, etc., on the Court House Lawn, and sold everything by two or three o'clock. The proceeds from this sale went to the P.-T. Association, and will be used for the benefit of the school.

At night the Hankins-Riley Hall was filled to the limit. The P.-T. Association also received a part of the receipts of the show.

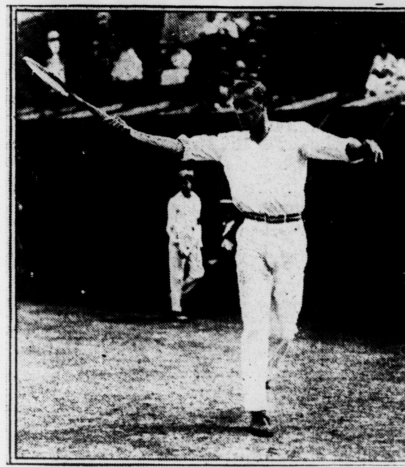

Financially and otherwise, the celebration was a success. Although the crowd was not as large as has been seen here on former occasions, it was very orderly and everyone enjoyed the day. No accidents occurred.

Much credit is due the members of the Parent-Teachers' Association and especially Mrs. Beddingfield, the president.

FORMER RESIDENT OF KIMBLE COUNTY DIES.

From the last issue of the Floyd County Hesperian, handed The Eagle by J. A. Browning the account of the death of Mrs. Will I. Allen is noted. She died at Floydade on November 6th.

Mrs. Allen was a daughter of H. C. Keaton, one of the early residents of the Roosevelt community. She married Mr. Allen while living in this county, and while he was manager of the old L. C. Ranch.

"BIG BILL" TILDEN.

"Big Bill" Tilden of Philadelphia, first ranking player in the United States, who has again been selected as the first member of the United States Cup Team to defend the Cup against the Australian contenders.

LAST OF NOTED BANDIT GANG IS CAUGHT.

Kansas City, Nov. 10.—L. A. Johnson, chief postal inspector for the Kansas City District, received word today that Frank Nash, believed to be the last of the seven bandits belonging to the Al Spencer gang, who held up a Katy passenger train near Okesa, Oklahoma, in August, was captured.

A Mexican caught Nash without a fight as the altered bandit was crossing the Rio Grande coming into the United States at the Neely ranch, 125 miles southeast of El Paso, according to information wired to Johnson by postal inspectors working in that district.

Nash is the last of the famous bandit outfit which terrorized Oklahoma for the last few years. Al Spencer, the leader, was killed in a gun battle near Pawhuska on September 15, last after postal inspectors and Federal marshals had trailed him several days.

Nash is being taken to Oklahoma City by Alva McDonald, United States marshal for the Western District of Oklahoma. Nearly all of the \$10,000 taken in the Okesa robbery has been recovered.

NEW TEXAS MILL BUYS FROM ASSOCIATION.

Farm Bureau News: Orders for the first year's cotton requirements for the new Merchants and Planters Mill at New Braufels has been placed with the Texas Farm Bureau Cotton Association, according to an announcement made by T. M. Edwards, sales manager for the Association.

"This is the first year of operation of the mill," Mr. Edwards said, "and Texas cotton direct from the farmer to the mill has been realized in this new industrial establishment. The cotton purchased averaged strict middling with 1 1-16 inch staple," he said.

The Texas Farm Bureau Cotton Association handles the cotton of its members on the cooperative plan, one basic fundamental of which is the elimination of the middlemen in securing a fair price to the cotton grower for his cotton.

No announcement was made as to the possible requirements or purchase of Texas cotton by the new Dallas Textile Mill or other Textile Mills under course of construction.

Marry Young and Live Century

One who desires to live 100 years should marry early, refrain from indoor dancing, should not be a college athlete and be neither rich nor poor, according to an address made recently by Albert M. Johnson, president of the National Life Insurance Company, before several hundred Boy Scouts. Mr. Johnson said these maxims were reached by his company following statistical computation of results from a survey on longevity under modern conditions.

The long list of "don'ts" which Mr. Johnson said the survey suggested in order to attain this age contained a few "do's," chief among which was "religion in a true way." Mild exercise daily and a "straight neck" in walking were others.

"Our statistics show, when compiled and averaged, that to reach fivescore years one should marry early, be neither rich nor poor, should not be a professional or college athlete or an actor, should refrain from indoor dancing and never drink intoxicating liquors," Mr. Johnson said. "Husbands, we find, live longer than bachelors because of their more regular habits. Stage people are handicapped by long and hard hours. Heart strain is too common in the athlete."

"Persons earning between \$2,000 and \$6,000 a year live longer. This probably is due to the fact that moderate incomes do not give a person enough for dissipation, but are adequate for comfort and sensible living."

"Be religious in a true way. Religious people are happier as a rule and going to church tends to make them regular in their habits. Do not drink liquor and do not smoke, if you must until you are beyond 21 years of age. One of the most emphatic results of our survey was the evidence that practices cannot be indulged in temperately by enough people to give you much of a chance to win."

"Stretch your neck up. Short-necked people are better subjects of apoplexy. Stretching your neck gives the blood vessels less chance to clog. Take mild exercise daily, regularly, and not intermittently or savagely."

E. T. Varnon writes from San Antonio this week to have his paper forwarded to his new address, 221 Vance Street.

HOTEL BRADY FORMAL OPENING LAST WEEK.

Last Friday night marked the opening of one of the finest hotels in West Texas—The Hotel Brady—built by the enterprising and farsighted business men of our neighboring city. The whole building was thrown open to the public and hundreds of people were shown through this spacious and upto date hostelry. Mr. and Mrs. Joe P. Fritz, local hotel people, and L. L. Skaggs and wife attended.

For several months Mr. and Mrs. Fritz have had under consideration a proposition similar to the Brady Hotel, although, probably not quite so large, and it is hoped that their plans will materialize and that Junction may soon have a modern hotel that will be adequate to take care of the increasing patronage that is turning this way.

With a large and modern hotel in Junction, hundreds more will come here, that are not satisfied with anything but the best in hotel accommodations.

The history of the building of this new enterprise, and a detailed description of the building, was given in last Friday's Bray Standard, in part as follows:

The history of the beginning of Hotel Brady would make interesting reading were Mr. Wulff not so modest and reticent. Suffice to say, since May, 1918, Mr. Wulff has been dreaming and planning of a hotel which should at once be a credit and the pride of Brady. He first set about acquiring a suitable site, and after several years of work succeeding in purchasing or securing options on one-half block cornering on the northwest corner of the Brady square and as well, several lots on the remaining half block. Mr. Wulff bore the burden of this investment until the time appeared right to start organization of the hotel company, and, due to his farsight, the time chosen was most propitious, and organization was rapidly effected.

The building has a front of 75 by a depth of 90 feet, and along the west side has a lattice outdoor addition to the dining room of 15x90 feet. The construction consists of a reinforced steel and concrete frame, with the same type of floors and roof. The outside walls are of fine face brick on all four sides, with hollow tile backing. The interior walls and partitions are

of gyp block, which assures fire-proof construction. All foundations and frame work have been planned to take care of two extra stories, so that when the complete plans are worked out, Brady will have a very modern five-story hotel.

Hotel Brady was local capital. The building, grounds and furnishings, represent an investment of \$126,000. Hotel Brady has been leased for a period of twenty years by C. C. McBurnett, proprietor of the St. Angelus and Landon Hotels at San Angelo.

Too much cannot be said in praise of the lavish manner in which Mr. McBurnett has furnished and equipped the new hotel. All rooms are equipped with steel furniture, the very latest innovation in hotel equipment and which was displayed at the Chicago Furniture show for the first time last June.

There are 27 guest rooms on each the second and third floors of the hotel, making a total of 54 rooms, each with private or connecting bath. In each room is a table, writing desk, rocking and straight chair, all of steel in walnut finish. Axminster carpets of the highest class and of various hues, harmonize beautifully with the room decorations. Each of the bath rooms is equipped large built-in tubs, with concealed plumbing. Every room has large individual clothes closets. The hallways are well lighted from both south and north exposures.

On the second floor is the ladies' parlor, opening out on the court which, with its slate roof, makes a beautiful promenade, and is to be converted into a regular beauty spot. Incidentally, it is this court that gives all rooms outside exposures.

On the main floor, the lobby is accessible from the main entrance on the south, and also the side entrance on the east. The lobby is most spacious and is attractive to the last detail. Massive pillars, together with the walls, have a stipple finish of lead and oil, which gives a marbled appearance.

BELIEF IN GOD A PREREQUISITE TO TEACHING IN UNIVERSITY.

We are advised that the Board of Regents of the University of Texas recently passed a resolution requiring the belief in God as a supreme being as a prerequisite to employment in

the University, and denying employment to atheists, agnostics, and infidels. In our opinion this resolution is not only justified, but is highly proper. It may be that atheists, agnostics, and infidels have a right to be taught by their own kind, but the fact remains that the citizenship of Texas is fully ninety per cent Christian in belief, whether it is in practice or not. This is a country of God-fearing people. The majority of the boys and girls who attend the University of Texas come from homes where the name of God is held in reverence, and there is no reason why, as far as possible, they should not be taught by men and women who do not deny the existence of God. There are many reasons why the Board of Regents was right in passing the resolution, but the one pointed out by us is sufficient.—The Alcalde.

TEACHING PATRIOTISM.

Part of the business of The Youth's Companion is cultivating a love of country; not wrong, but right. The Youth's Companion started the movement for putting the flag on the schoolhouse. It formulated the Pledge of Allegiance to the Flag that is repeated today in practically every schoolhouse in the United States. It has for a long time now, been running a series of patriotic covers picturing striking events in the nation's history, painted by the best historical illustrators in the country. They are reproduced in full color at frequent intervals on the Companion's cover. It is worth a year's subscription to The Companion to have these scenes in our building of the nation pictured so graphically. They help greatly in fixing the memory of the events related in the school histories. The 52 issues of 1921 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The Youth's Companion, 52 issues 1921.
2. All the remaining issues of 1921.
3. The Companion Home Calendar for 1922.
4. All for \$2.50.
5. Or include McCall's Magazine, the month by authority on fashions. Both publications, only \$3.00.

Ford

Four-Door Sedan

Fully equipped, \$685, f. o. b. Detroit

Inside and out, the new Ford Four-door Sedan shows improvements of far more than usual importance.

It is lower and sturdier in appearance. New cowl, hood, radiator and apron add size and finish to the front. Sun visor, and wide, well-finished aluminum doors with bar

handles perfect the design of the body.

Silk window curtains, deep broad-cloth upholstery; dome light, door lock, window regulators and handles, all finished in nickel, complete a refinement you would expect only at a far higher price.

This car can be obtained through the Ford Weekly Purchase Plan

management.

The management will greatly appreciate
the co-operation of the public in helping to
fill this paper with live local news. If you
know a news item, phone 57, or drop your
communication in the mail.

When one takes notice of the varied products of this country and of the many marketing seasons of the year, it must be seen that we have in Kimble County a really wonderful country. Scarcely more than two months pass by, at any time during the year when some substantial revenue is not paid out by local buyers to the farmers and ranchmen of this country for things they produce. In the early spring mohair sells; a little later, wool come in; then melons, fruits, and garden truck; and we have only seen the beginning of what can be done in this line; then mohair comes on the market again, closely followed by another clip of wool; then comes cotton and the pecans. The Junction gin has ginned almost 600 bales, and the London gin about the same number. This is, of course, a small crop of cotton when cotton growing countries are considered, but the few hundred acres that were planted to cotton this year, fully demonstrates the possibilities of what can be, and what in all probability, will be done in the future, in the production of cotton.

Here and there a farmer has tried sweet potatoes and found that they are profitable, and a very few, this year, will have sweet potatoes to sell. These sales will encourage the planting of more in the future.

Why should we buy potatoes, that we can raise here at home, from the outside and pay a high price then have to pay added freight to bring them in by truck?

The experience of Messrs. Riley and Cochran have demonstrated the possibilities of cane syrup. Their entire output for this year has already been sold. In former years, sugar cane has been successfully grown here, and on irrigated farms can be made to pay a good profit.

These are only a few of the things that make Kimble County the best all round county in Texas. Hundreds of opportunities, unheard of in the one-crop countries, are awaiting the farmer in this country.

We need more good farmers!
The larger ranches, having lands suitable for cultivation, must be cut up into small farms. Varied as our resources are, and large as some of them are, the productiveness of Kimble County is in its infancy.

BRADY SENTINEL SOLD

Last week's Brady Sentinel was issued under the new managers and owners, Messrs. J. H. Cavanaugh and Matt B. Moore, these gentlemen having purchased this live West Texas weekly from M. S. Sellers.

Mr. Cavanaugh has been editing a newspaper at Melvin, while Mr. Moore has been with Mr. Sellers in the Sentinel office for several years, as foreman of the mechanical department of the paper.

For about twelve years Editor Sellers has been at the helm of The Sentinel, and during these years has kept pace with the rapid development of McCulloch County and the town of Brady, and has built up one of the liveliest weeklies in this section of the State.

So far as information is available, Mr. Sellers has not decided his future course. We might say he has not decided where he will again enter the newspaper game, for no matter what other line of endeavor he may attempt and how successful he may be in a new field, he will soon be longing to get back where he watch the type lice in their maneuvers, and again chronicle the living history of some live community.

Government and Business

This country was founded 147 years ago in order that a government might be established free from unnecessary political domination and the force of the "divine right" of kings.

The Tribune of Sanford, Me., in commenting on our national program, says:

"This country has grown to its present superb position primarily because the American people developed a new conception of government and society, and that conception was superiorly expressed in the immortal Declaration of Independence. Our forefathers clearly saw and pronounced the doctrine of democracy. These men set up a new ideal of human rights and of open doors of opportunity."

Our government was established to help and encourage, rather than to hamper and discourage, individual initiative and ambition. Let us all remember a few of the cornerstones which formed the basis of our independence. Let us rekindle the desire to maintain open and unhampered the field for individual initiative and activity which of recent years and during the war period, has been somewhat lost to sight.

Agitations and campaigns to launch the government into business undertakings are entirely contrary to our Declaration of Independence, our Constitution and the ideas of freedom which the founders of our nation contemplated.—Ex.

The rains and muddy roads have seriously interfered with the progress in starting the fish hatchery out, but unless further bad weather prevents, the committee will be able to get started the first of the week and will make every effort to complete the construction work.

With very limited funds, the committee has felt that it is better to carefully consider the proposition from every angle and save future expense and delays by knowing exactly what they are doing and what the final cost will be, rather than rush through and end with the work only half done.

MICKIE SAYS—

Byron Newby was visiting home folks here this week.

For Sale—Three pairs of geese. See Mrs. V. L. Millsap

John A. Allen from near Hunt was meeting old friends here last Saturday.

J. J. (Uncle Joe) Ramsey returned Tuesday from a week's visit with his son, Sidney, at Menard.

The football boys have about \$50 in the treasury, and hope to be able to get sweaters this season.

Miss Henrietta Gephart moved from Yates to London this week and will live at the latter place during the winter.

Those who thought the rains were over, were disappointed this week. A very good rain fell over the county Tuesday and Wednesday.

Mrs. G. T. May of London is still with her daughter, Miss Selma, at Abilene. They expect to return home as soon as Miss Selma is able to make the trip.

A letter this week from Dr. Roger S. Parry asks that The Eagle be changed from Kingsbury, Texas, to Homer City, Pa. He was at the latter place when writing.

L. M. Stewart and wife left Saturday for Fort Worth, Cleburne and Ranger, where they will visit with their children at the different places for some two or three weeks.

Bill Burt was a visitor here last week, returning to Cuero last Sunday. He accompanied John M. Hankins to San Antonio where Mr. Hankins spent the first of the week on business.

Mrs. J. W. Ragland happened to a very painful accident last week. She had stepped into a chair to turn on an electric light, when she fell, breaking one of the bones in her forearm.

The Junction Eagle can save you money on your magazine orders and eliminate any trouble about sending in your subscriptions or in not getting them after you subscribe. We take orders for any magazine, book or newspaper published in the United States.

You can't appreciate the beautiful line of Holiday cards we have until you have seen them. Others are giving us delay that might happen. We shall be glad to show you the more than one hundred kinds we handle. Plain, printed or engraved.

The Junction Eagle.

Ansel Baldwin and Mrs. Wiseman were quietly married last Sunday by Rev. Parker of the Methodist Church. Ansel has been in the employ of Schreiner-Hodges Co., for a number of years and is a very steady and reliable worker. Mrs. Wiseman has been living with her father, Mr. Cook, on his farm just south of town.

John W. Coffey and son, Walter, were in town Saturday from their ranch in the east end of the county. While here Uncle John was a visitor at The Eagle office. It is always a pleasure to talk to him. He is typical of that hardy and interesting class of pioneers, having come to the Concho County shortly after the War and many years ago moved to Kimble County.

We regret that it was necessary that the excerpt from a recent sermon of Rev. Marsh, be run in two issues. This is our first attempt at reproducing anything of this kind, and our available space would not allow using the entire sermon in one issue. If the reader will preserve the two papers, they will have an article containing much valuable information for future reference.

Although it has been on the statute books for a number of years, some people are still ignorant of that provision of the game laws that prohibit the killing of game at night, between sundown and sun rise. The reason for this provision is very obvious. The law prohibits the killing of does and turkey hens. A person hunting at night, and shooting deer with a light, or shooting turkeys in their roosting places, could never know whether he is shooting at a doe or hen.

TURKEYS WANTED:—We will be in the market for your turkeys. Phone us for prices and the dates on which we want them delivered.

Ben F. Simon, Roosevelt, Texas.

The road to the Kerr County line is said to be in a rather bad condition. Kerr County placed a drag on their end of the road as soon as the ground would permit, and as a result, their end of the road has been preserved and is in good condition. The deep ruts that were cut in this end of the road were left open to other rains and as a consequence, have cut even deeper and the road has been damaged considerably.

Bourbon Red toms for sale, \$5.50 each. If you want one, let me know at once.

Irah Fleming, Junction, Texas.

W. B. Foley was in The Eagle office last week. He is visiting his son, I. S. Foley, and expects to go to Uvalde in a few days to visit another son, Will, who lives at that place. He makes his home with Editor and Mrs. A. T. Wright, of El Dorado, Mrs. Wright being his daughter.

STRAYED—One Walker dog about six years old, spotted with bobbed tail; answers to name of Casey. Please notify Robert Real or E. A. Bode and get reward. 30-2tp

WANTED—Teams to haul gravel on Roosevelt road; also oats in lots of 1,000 bushels or less. See H. F. Kelly, Hodges Hotel.

Neal Coleman and wife were guests of friends in Junction this week.

FOR SALE—100 Ewes. W. F. Dutton, Brady, Texas. 29-2

SOD DID IT.

"Sod" left here a few days ago to take up work as a deputy game warden in Bandera County, during the open season. The following is taken from the Bandera New Era of last week:

"Game Warden S. O. Durst located a party of seven Bosque County men in camp near Red Bluff yesterday, and found three does, just killed, in their possession. He promptly arrested all of them, and confiscated the venison. The men all gave cash bonds for their appearance in Justice Court here, and the game warden came back to town rejoicing over the first catch he has made in Bandera County."

CARD OF THANKS

We deeply appreciate the kind attention and helpfulness of many friends during our recent bereavement.

Wm. Surber and Family.

Better Than Pills For Liver Ills.

RTonight

It is to tone and strengthen the organs of digestion and elimination. Improve appetite, stop sick headaches, relieve biliousness, correct constipation. They act promptly, pleasantly, mildly, yet thoroughly.

TELEGRAPH LOCALS.

The recent rains and high water have caused much trouble in the river crossings, and made bad roads. A number of the men in the community put in several days last week in road work to make it possible for the mail and general traffic. Our mail failed to come for eight days.

Miss Brown spent the weekend in Junction visiting her aunt, Mrs. Ollie Fleming.

F. M. and Lane Hodges and families have moved to the Edwards ranch, now known as the Fry and White Ranch.

Mr. and Mrs. Frank Gambol and baby of Streeter were guests of Mrs. Gambol's parents Mr. and Mrs. J. J. Richardson, last week.

On account of the inclement weather Sunday, Rev. Marsh failed to fill his regular appointment at Evergreen.

Quite a number on the river attended the celebration in Junction last Saturday.

Mrs. Gus Henderson and babies visited her mother, Mrs. Ed Fleming last week and spent the week end with relatives in Junction.

Mrs. Ed. Hunger and sisters, Misses Jewel and Leeda Savage, were guests at the F. M. Hodges home Saturday.

NOTES FROM HARPER.

Fredericksburg Standard: If each hunter that has past through here since the first, gets his three deer, there will not be any use in any hunters coming this way next season. Thirty-nine hunters stopped at the City Hotel last Wednesday night, the majority of them coming from Austin and going to the respective pastures of Messrs. Chas. Schmidt, Parker and Stappe.

Strange as it may seem, but there is a section of the county yet where it looks like dry summer time, not because there has not been any rain, but an insect is eating the grass, causing it to have this dead appearance. The first place where these insects have been at work is on the Live Oak Ranch. They resemble a gnat.

TEACHERS' EXAMINATION.

Those who expect to take examinations for certificates on December 7th and 8th, must register at the office of County Judge Baker before November 20th. Those interested, take notice.

Board of Examiners.

THE TEN RICHEST MEN IN THE WORLD.

Who are the ten richest men in the world? asks the London Sunday Express. It answers the query itself by giving a list, at the head of which is Henry Ford, whose fortune is estimated at \$500,000,000. John D. Rockefeller comes next with \$450,000,000; Andrew W. Mellon, secretary of the Treasury, is third with \$150,000,000, and then follow the Duke of Westminster, Sir Basil Zaharoff, Hugo Stinnes, Percy Rockefeller, Baron H. Mitsui, Baron H. Iwasaki and the Gaekwar of Baroda each with \$100,000,000.

James B. Dukes, the tobacco king, George F. Baker of the First National Bank of New York and T. B. Walker, the Minneapolis timber land owner, the Express says, might be added to the list since they all have fortunes estimated at \$100,000,000, while there are at least three other Indian ruler whose fortunes probably exceed this amount.

The Rothchilds, Guggenheims, the Vanderbilts, Weyerhousers and the Astors, says the writer, do not appear because theirs are family fortunes. The Rothchild wealth has been estimated at from \$250,000,000 to \$500,000,000, and that of the Astors at from \$100,000,000 to \$500,000,000.

Henry Ford is possibly the richest man in all history, the paper declares. He has a net business income of more than \$100,000,000 a year. He earns \$250 every minute. Croesus may have been richer, since his famous gift to Delphi cost \$10,000,000, and that, reduced to today's terms, might mean \$200,000,000.

John D. Rockefeller gave away \$500,000,000 to charity and to foundations before 1921. He is the head, however, of the biggest group of wealthy men ever produced by a single industry, and his private fortune must still rank him second.

Sir Basil Zaharoff is Europe's mysterious man, but it is no mystery that he is one of Europe's wealthiest men. He owns more than half of Monte Carlo and his holdings in armament firms are even larger. He is in oil, finance, shipping; in fact, it is difficult to say what he is not interested in.

The Mitsuis and the Iwasakis are financiers, traders and shippers. The Gaekwar of Baroda's wealth is almost impossible to estimate, but his diamonds alone are valued at \$1,250,000, and he has a jeweled tapestry worth \$1,500,000. Guns of gold weighing 400 pounds stand at his palace gate.

LEGION ELECTION.

On Monday night, November 19th, the Local Post of the American Legion will meet at my office north of the Court House for the purpose of electing officers for the coming year. All members are urged to come, and ex-service men who are not members, are invited.

J. C. Beddingfield,
Post Commander.

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved. Dangerous and Sickening Qualities Removed. Perfected Tablet Now Called "Calofabs."

The latest triumph of modern science is a "discontinued" calomel tablet known to the drug trade as "Calofabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of positively purified and refined from those objectionable qualities which have hitherto limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most useful remedy, but its use was often restricted on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calofab at bedtime with a swallow of water, that's all. No taste, no cringing nausea, no salts. A night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calofabs are sold only in original, sealed packages, price 25 cents for the large family package; ten cents for the small trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calofabs.—Adv. 16-17c

America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

THE WORLD'S LARGEST SHIP

If you can step-up your imagination so that it can easily visualize a mammoth ocean liner 356 feet long, 100 feet wide and 102 feet deep, without including the smoke stacks and weighing 64,000 tons, you can form an impression of the new Queen of the Atlantic—The Majestic.

This the world's largest ship—makes regular trips between America's largest city, New York, Southampton, England, and Cherbourg, France, in five days flat, land to land.

The hold of the Majestic contains a battery of forty-eight boilers which supply steam to four giant turbine engines, which drive a like number of screw propellers. This power plant develops the amazing capacity of 100,000 horse power. This tremendous force drives this huge craft through the water at the surprising speed of twenty-eight knots an hour, which is the equivalent of twenty-six land miles—per hour, making the Majestic one of the fastest large passenger-carrying ships on the high seas. Oil is the fuel used.

This ship has nine decks, or to put it another way round, is nine stories high. You can gain some conception of the monstrousness of the interior by reading the following statement issued by the owners: "The space in the great ship occupied chiefly by her housing facilities, so to speak, and her engines and other machinery, is equal to that in an average detached suburban residence of eight-rooms each, or of about 800 average four-room city apartments."

This vessel can accommodate 4,000 first, second and third-class passengers, along with a crew of 1,000 and has 125 state rooms. There is no end of spacious public apartments including a lounge, palm court, dining saloons, library, reading and writing rooms, smoking room, card room, gymnasium, swimming pool, children's play room and sun porches, barber shop, hair dressing parlor, tailor shop, a conservatory and quarters for pet dogs. The promenade deck is fifty feet above the water and four times around it is one mile.

Wonderful as all that is, however, one does not sense the full significance of it all until he contemplates the staggering quantities of supplies and consumable materials that are required to complete the equipment of such a gigantic floating palace. To illustrate, figures supplied by the owners show 17 tons of blankets, 3,000 mattresses, 75 tons of dishes, 77,000 towels, 11,000 sheets, 10,000 table cloths, 45,000 napkins, 25,000 pieces of silver and cutlery, 30,000 plates, 16,000 cups, 2,700 pitchers, 2,400 tea and coffee pots, 29,000 pieces of glassware and so on until your head swims.

(© 1922, Western Newspaper Union)

GINNING NOTICE

Beginning Monday, the 29th, we will run the gin only on Tuesdays and Fridays of each week, until further notice. 27-1f Llano River Irrigation & M. Co.

Frequent Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Va. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Thedford's BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Thedford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when it is torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught.

Sold everywhere.

EXCERPTS FROM SERMON BY REV. MARSH.

(Continued from Last Week.)

The Possibility and Assurance of a Marvelous Future:

To return to our Scripture lesson for a moment: the Lord reminded the people of the natural advantages of the promised land, but he indicated that her greatness was still in the future. It is the glory of the Bible that it continually points us forward. May we not be pardoned if we think that the real greatness of Texas is still in the future. Her history in the past has sufficient thrills and sorrows to fill pages of our school books, but could those who started this State on her career but speak, doubtless we would hear them say that Texas might have her proudest moment of history five hundred years after the Alamo fell, rather than fifty years. So should God Almighty give us more years, we see that the future of Texas holds out wonderful possibilities. Notice that are just beginning to touch and develop our resources. We think we have a lot of people in Texas now, but the day is coming when our present population will look like a mere handful of pens scattered on a barn floor. Think of the room we have. An enthusiastic brother the other day was trying to figure out how many people we could readily take care of, and he said that New Jersey now has 380 people to the acre. If you follow that you will find that Texas could hold a great many more people than there are in the world. But he made a mistake; New Jersey has 380 people

to the square mile, and not that many to the acre; but even at that rate, Texas could hold a hundred and one million, thirty-eight thousand, two hundred people, which is nearly as many as there are in all the United States today. That is astounding, but this is the reassuring part, Texas could take care of that many people. An old gentleman in Bandera County used to worry about what would become of the children he saw on the streets because there would be no place to raise food for them. Right there in the little village was enough good land to raise food for fifty or a hundred people, when we come to cultivate every foot of ground as they do in Europe.

Mr. Franklin K. Lane, who was Mr. Wilson's secretary of the Interior, knew the geography of America and her possibilities as few other men did, and he said that between Washington, D. C., and the tip of Florida, was enough undeveloped land, that is, land that has never been used at all, to feed all the people in America. Think of it, and then think what a host Texas could take care of.

We can support a vast population and the will be here. What has made the territory around New York populous? Her great harbor, offering a convenient inlet and outlet for business and goods to a vast territory. Even much of the shipping of Canada is through New York. The National High way up the Hudson and through Mohawk valley, via Erie canal, made her the gateway for all territory west of the Appalachians. What has made Chicago? Her position on the Great Lakes where the traffic from east to west and west to east, would pass through her doors. Now look at the Texas coast here at Galveston or some other point on the Gulf, are the inlet and outlet for the travel and business of a vast territory, Texas, Oklahoma, New Mexico, parts of Kansas and Colorado, and even some business from faraway Nebraska comes this way. On the great highways of the world spring up the great cities. Then we are going to produce so much by and by that our stores of corn and wheat of today will look like the output of a ducky's one horse farm, and even our vast yards of baled cotton may look like a marble game. Improved methods of farming are making the land more productive where it is old, and modern adaptations of nature are throwing open territories that would make good sized states, to agriculture. Up in Washington they built a great dam in one of the semi-arid valleys; now from the waters they store up from such rainy spells as this, they have wonderful apple orchards, alfalfa fields by the thousands; grain and ruin and gardens of the wonder of the state. But that is not all. At the great dam the water passing by is made to do a mighty task; it flows through mighty modern machinery and that machinery catching up the elusive electricity generates a mighty power that is sent out through that valley for hundreds of purposes; it lights the cities and towns, it turns the mills that grind the grain, it runs the cars on the city streets and it pulls great trains over the mountains, it cooks the meals in thousands of homes, heats the houses, churns the butter, washes and irons the clothes; in fact, the variety of its uses is so great that one old man plans to touch an electric

switch which will give him a bath and put on his clothes in the morning, and the women are putting spanking machines in their homes where all they will have to do will be to back the children into place, touch a button and the work will be thoroughly and satisfactorily done by the great waters that yonder have been stored up for the use and the blessing of mankind.

Now if all that can be done in Washington, just a little corner of the United States, what could not be done in vast Texas? Why we have enough such places and streams and fertile valleys to do more than is now being done and produce as much as is being produced in the State. Think! Think what is ahead!

Last fall Henry Ford and a reporter were walking away from the old Michigan farm which was his birthplace, and which today he owns and keeps just as it was when he was a boy. He said, "When I was sixteen years old I left this farm and went to the city. I did my part on the farm, but I never liked it. The long hours, so much heavy work thrown upon human shoulders; I have long been planning to make it possible for machinery to do that hard work that men have been doing." And he said, "The day will soon be here when we can produce all that we need in this country with three hours work every day."

Think of that, some of you who have often got up and started work before daylight, and have continued until the sun went down. Soon it will be so that all we need in America can be produced in three hours per day. Who said it? Henry Ford, who has more practical sense than perhaps any other man in America. I wonder what Texas will be like when we can turn off work that way.

Friends, it is amazing when we let our imagination run on and out as the facts guarantee us in doing. Texas, with her cities, her factories, her mines, her oil, her shipping, her fisheries, and above all, with her gardens and fruits and her farms; what a vast and wonderful land our children and our children's children will see!

As Moses paused for a while and said to the people, in your imagination, look upon the land that is to be yours. So may we not call to one another and to our children, behold this Texas as she will be, the promised land that the Lord our God has given us!

May we not well turn for a moment to the words of our Scripture: "When thou hast eaten and art full, then thou shalt bless the Lord thy God for the good land which He has given thee." "Lest when thou hast eaten and art full, and hast built goodly houses, and dwelt therein, and when thy herds and thy flocks multiply, and thy silver and thy gold be multiplied, and all that thou hast be multiplied; then thine heart be lifted up and thou forget the Lord thy God—And thou sayest in thy heart, My power and the might of mine hand hath gotten me this wealth."

Posted—The ranch north of Junction, known as the Baker, Cowsett and Moore pasture is posted against hunting or trespassing of any kind and those disregarding this notice will be prosecuted.

DURST-TOMBERLIN.

On last Sunday afternoon, about 2:30 o'clock, Kittrell G. Durst and Miss Ludie Tomberlin were united in marriage by the groom's father, Elder John S. Durst, at the Durst residence in the south part of town.

The groom is the youngest son of Elder and Mrs. Durst and grew to manhood in Junction. For several years he has been identified with the business interests of the town, having been one of the owners of the Junction Tailor Shop and later was one of the owners of the Safety First Filling Station. About two weeks ago he sold his interest in the filling station to his partner.

The bride is a graduate of the Junction High School, and for the past two or three years has held a position with the Hankins Drug Co., and is very popular and industrious young woman. Since the death of her parents, she has made her home with Mr. and Mrs. J. W. Ragland, most of the time.

The young couple left immediately after the ceremony for a few days visit in San Antonio, after which they will return to Junction.

The Eagle extends congratulations and joins a host of their friends in wishing them the best that life can give.

CHAS. WREN CUTS THROAT

When Wm. Kuhfuss went to the jail Monday morning with breakfast for Charlie Wren, who was convicted at the last term of court here for killing his wife and given a term of 50 years in the pen, he found Wren in a serious condition, he having cut his throat with a piece of broken glass from a milk bottle. Dr. Polyn attended Wren and for a time it was thought he would die, but reports are now that he will recover. Wren stated he

HONOLULU EFFECT IN MILADY'S LATEST GARB.
