SNYDER'S GOLDEN ANNIVERSARY YEAR

THE SNYDER DAILY NEWS

VOL. 8, NO. 180 — SNYDER, TEXAS, TUESDAY, NOVEMBER 26, 1957 — EIGHT PAGES—PRICE 5c

Doctors Still 'Evaluating' Ike's Chill

WASHINGTON (AP) — The White House said today President Eisenhower is "progressing satisfactorily" but that doctors are making "a further evaluation of his illness."

Associate White House press secretary Anne Wheaton said at 10:22 a.m. a report of the doctor's findings would be made "as soon as possible"—meaning later today.

Eisenhower suffered what the White House described as a "chill" yesterday shortly after he returned from the airport where he welcomed King Mohammed V of Morocco.

The latest White House announcement raised the question whether the illness might be more serious than originally thought.

Asked if indications were that the President's condition might be more serious than originally indicated, Mrs. Wheaton declined any comment. She refused, despite repeated questions from reporters, to go beyond her brief announcement.

That announcement said: "The President is progressing satisfactorily. However, his doctors are making a further evaluation of the case at this time. A report of this evaluation will be made as soon as possible."

This statement followed an earlier announcement, at 8:55 a.m., that the President "is progressing very well."

Concern over Eisenhower's condition was heightened by his 1955 heart attack and last year's operation for ileitis.

Asked why it is necessary to make a further evaluation of a chill, Mrs. Wheaton said "I can't discuss that."

She also said she did not know if there was any indication the President's illness amounted to more than a chill.

She would not say who drew up the statement beyond saying it was the work of "two or three people."

Likewise Mrs. Wheaton declined to say whether any doctors besides the two who ordinarily attend the President have been called in. Eisenhower's doctors are Maj. Gen. Howard M. Snyder and Lt. Col. Walter Tkach.

Mrs. Wheaton said no thought was being given to the President's delivering from the White House tonight the speech on international cooperation which he originally planned to deliver at Cleveland tonight.

"There is nothing along that line at all," she said.

The Cleveland speech was canceled last night after the President became ill. So were all of today's appointments.

The illness forced Eisenhower to cancel his plans to attend last night's dinner for King Mohammed V, and a conference with the King today. Secretary of State Dulles sat in for him today.

BIG CHECK PAID—Geral Greene, county tax assessor-collector, is shown above handing a check for $1,214,335.91 to Mrs. Mollie Pinkerton, county treasurer, which represents almost all of the county's taxes for this year. Previously the tax collector had given the treasurer $50,000, making this years total collections $1,264,335.91—representing 93.67 per cent of the total assessment here. (Lee Watson photograph)

PRESIDENT GREETS KING—President Eisenhower greets King Mohammed V of Morocco at the Washington National Airport as the North African ruler arrived for a state visit. Gen. Nathan Twining, chairman of the joint chiefs of staff, is in the background. (AP Wirephoto)

Mohammed V, Dulles Confer

WASHINGTON (AP) — King Mohammed V of Morocco conferred at the White House today with Secretary of State Dulles, who was sitting in for the ailing President Eisenhower.

The Moroccan ruler and his party arrived shortly after 9 a.m., the scheduled time of his original appointment with the President.

A number of U.S. and Moroccan officials took part.

Dulles moved in as a last-minute replacement after an illness the White House described as "a chill" caused Eisenhower's doctors to order him to bed late yesterday.

In a dinner toast last night, Vice President Nixon lauded the 48-year-old Moroccan ruler as "a great statesman" for his efforts to turn his nation into a bridge between the Arab countries and Europe.

On behalf of Eisenhower, Nixon presented the Legion of Merit to the Moroccan King and read Eisenhower's citation, which said of Mohammed: "No friend of the United States has shown himself more dedicated to the perpetuation of peace, and more perceptive of the necessity of safeguarding the ideals of all peaceful nations."

The King responded that his state visit and conferences "will further strengthen confidence and respect between our two peoples and open the way to a close and fruitful cooperation."

The Mohammed - Dulles talks seemed likely to focus mainly on three issues—the future of five American military bases in Morocco, the amount of American aid and the King's hopes of ending the battle between French forces and Algerian rebels.

Top American authorities were reported confident that during his three-day stay the King would give solid assurances of continuing long-term leases on the U. S. bases originally negotiated with France in 1950.

In return, Mohammed was expected to press for stepped-up American economic aid, and possibly military assistance, to back up the help the French government has pledged for his newly independent land.

He was understood to be eager to win American assurances that technical as well as development assistance would be substantially increased over the 20-million-dollar level maintained last year.

SPOT MUSE

A TEXAS HOUSE of Representatives simple resolution was passed unanimously last week after being introduced by Robert R. Patterson, representative for this district, commending Kent County.

The resolution, No. 29 passed Nov. 20, commended Kent County citizens, the county judge and commissioners court on construction and dedication of a new, modern court house at Jayton, county seat.

The resolution also commended the county on successful commissioners precinct redistricting so as to more truely represent the population of the county.

Copies of the commendation were sent to John H. Montgomery, county judge, and each member of the commissioners court.

SPECIAL SHERIFF'S deputy this week during the criminal case underway in district court is Mrs. J. C. Massingill, wife of the chief deputy. She was named to take care of three women who are among the jurors. Another special deputy, caring for the men jurors, is Edgar Wilson, former regular deputy here.

Discharges For Holidays

WASHINGTON (AP) — The armed forces today announced the early release of enlisted men whose service tours are scheduled to expire during the Christmas-New Year holiday season.

The Army said men whose enlistments would otherwise end between Dec. 21 and Jan. 5 will be separated prior to Dec. 21. The Navy set the same early release date for men whose tours would otherwise terminate between Dec. 20 and Jan. 12.

The Marine Corps will release during the period Dec. 18-21 men whose enlistments would expire between Dec. 22 and Jan. 19. The Air Force said early releases will be given men whose duty tours expire between Dec. 1 and Jan. 10, but set no specific date for the early separations.

The Defense Department said the early release schedules will not apply to reservists who are taking six months active duty training.

Israeli Says Syria Fires On Six Men

JERUSALEM, Israeli Sector (AP) —An Israeli army spokesman said Syrians today fired on six Israelis at Shaar Yushuv, south of Dan settlement in northeastern Israel.

He said an Israeli police patrol returned the fire and silenced the Syrians.

No casualties were reported on the Israeli side.

House Speeds Up Segregation Bills

AUSTIN, Nov. 26 (AP)—The House voted overwhelmingly today to suspend all rules necessary to speed final action on two Senate-approved segregation bills.

"I want to go home," said Rep. Jerry Sadler of Percilla in making his motion to expedite debate on the troop-school closing measure and on another giving the attorney general money and authority to defend federal court cases involving validity of state laws.

The House accepted the motion, 102-21. Sadler is one of the leaders of the House segregation bloc.

These two segregation measures and another moved closer to final passage as the Legislature showed signs of wanting to finish the second special session before Thanksgiving.

Another bill, openly aimed at requiring registration of members of the National Association for the Advancement of Colored People, also neared enactment. The House approved it yesterday 76-52 over protests that it could make "little Hitlers" of Texas county judges. Earlier yesterday a similar measure was recommended by the Senate State Affairs Committee.

A speech by Rep. Byron Tunnell of Tyler, urging a swift end to the session to "really give the taxpayers something to be thankful for," at Thanksgiving, preceded the House committee and floor action yesterday afternoon.

The State Affairs Committee of the House recommended passage of the Senate-passed bill to close schools threatened by federal troop control, and another to authorize the attorney general to represent local districts in federal court suits challenging state laws.

Rep. Bob Mullen of Alice led the House fight against the anti-NAACP bill by Rep. Joe Pool of Dallas.

Earlier in debate, Pool told a questioner who wanted to know why he had not specifically mentioned the NAACP in the bill that such mention would make the bill unconstitutional.

Rep. B. H. Dewey Jr. of Bryan told the House he knew it was going to pass the bill but warned it was unconstitutional and said it would be knocked down on its first appellate court test.

"It will give the county judges dictatorial power. Any county judge could make political mockery of this bill," Dewey said.

Mullen said the bill could make "little Hitlers" of county judges.

Mullen said the bill was designed to persecute Negroes and "set them up as targets for mob violence."

The bill would force organizations that hinder, harass or interfere with control and operation of the schools by the state to register their rolls and officers with the county clerk on the request of the county judge. Violators would be liable for fines up to $200.

THANKSGIVING IS GENERAL HOLIDAY

Area residents were reminded today that Thursday is a general business holiday in Snyder.

Thanksgiving is one of the general holidays approved earlier in the year by the Chamber of Commerce merchants committee. Most business firms, along with local, state and federal offices will be closed, and all schools in the county will observe the holiday period for the entire weekend.

College Panel To Meet Wednesday

A steering committee formed here last summer will meet Wednesday to map plans for presenting a county junior college proposal here.

Wayne Boren, committee chairman, said the panel will meet at 5 p.m. tomorrow in the Chamber of Commerce office.

Indications were that steps would be taken to bring the junior college proposal to a county-wide vote at the earliest possible date. Boren said the Wednesday meeting would be a planning session so that machinery could be set in motion as soon as word reaches here that Gov. Price Daniel has signed a bill passed by the special legislative session.

The bill, submitted by Rep. Robert Patterson of Snyder, makes it possible for counties with less than 5,000 scholastics on the previous school census to vote on junior college proposals, provided such counties have a taxable valuation of $100-million or more.

Previously, the requirement of 5,000 scholastics in the junior college law has stalled work here toward establishing a junior college. Although Scurry County now has over 5,000 scholastics, the state board could not consider any figures except those of the last regular school census, which were slightly below the 5,000 mark.

Members of the steering committee, in addition to Boren, are Art Blanchard, Ted McAlister, Mrs. Harold Brown, Roy McClosky, Bob Dupree, Ray Houpt and Wacil McNair.

A considerable amount of study already has been devoted to the junior college proposal here. Several meetings were held, which led to appointment of the steering committee.

Testimony Starts In Minica Trial

Testimony began this morning in the trial in 132nd District Court here of Albert Louis Minica, 35, of Odessa, indicted for rape.

First state's witness in the trial was the alleged victim, a young Snyder housewife. Minica is indicted for rape of the woman at her home in east Snyder last July 28.

Shortly before noon, the court was replaying a recording of the testimony of the same witness from the time Minica was previously tried two weeks ago. That trial resulted in a hung jury and mistrial.

Attorneys completed choosing the jury just before 5 p.m. yesterday, and the court heard the pleadings before recessing for the day.

The jury was being qualified for the death penalty, and attorneys questioned a total of 36 from the special venire before getting the 12 needed. The last juryman came from the last prospect present to be questioned.

Those on the jury are Mrs. N. L. Beaver, A. P. Brooks, A. J. Greenway, Ollie Richardson, Idolph Crooks, R. L. Brice, John H. Boren, Mrs. R. H. Melton, Roswell Rigsby, C. A. Ramsey Mrs. W. P. Herring, and Sim Groves.

Judge Sterling Williams is presiding in court. Prosecutor is Wayland Holt, district attorney. Defense attorneys are Frank Sentell, of Snyder, Marvin Sentell of Snyder, and Bill Abbott of Midland.

WEATHER

SNYDER TEMPERATURES: High Monday, 70 degrees; low, 32 degrees; reading at 7:30 a.m. today, 34 degrees.

East, South Central and North Central Texas — Generally fair through Wednesday. Warmer this afternoon and tonight.

West Texas — Clear to partly cloudy through Wednesday. Warmer this afternoon and tonight. Cooler in Panhandle late Wednesday.

Doolittle Contradicts HST On Missiles Race

WASHINGTON (AP)— Lt. Gen. James Doolittle (Ret.) testified today that Russia "certainly is ahead of us" in all land-fired missiles. He said the United States is ahead in air-to-air types.

Doolittle, who heads the National Advisory Committee for Aeronautics, told the Senate Preparedness subcommittee that this country fell behind Soviet Russia because it had no coordinated program until 1953.

He said the Russians started missile developments in 1946 and "they have been working harder at it than we have."

Doolittle's testimony was in direct contradiction of contentions by former President Truman. Truman has said that he organized a unified missile program while in the White House but that it was allowed to deteriorate under the Eisenhower administration.

Doolittle, a famed flier who led the first World War II air raid on Japan, was the first witness of the Senate subcommittee's second day of hearings on the U.S. missile situation.

Based on the first day of hearings, when a group of scientists were heard, Chairman Johnson (D-Tex.) said he regards the Russian lead in missiles as "only a symbol of an even greater danger" that the United States may fall behind in the weapons of the future.

Johnson expressed this view in an interview.

Similarly, Doolittle said that unless the United States steps up its rate of progress the Soviet Union will surpass this country in all phases of military effort.

The one bright spot now, Doolittle said, is in American development of air-to-air missiles. He said he does not believe the Russians have a missile equal to the Falcon, which can be fired from a plane at another plane.

Nor, he said, does he believe the Russians can match the U.S. nuclear warhead air-to-air missile.

Doolittle said one reason the Russians are ahead is that they have a "double incentive."

"Under their system — and I recommend it—you either are rewarded for excellence or you are destroyed if you don't do a good job."

He said Russia is sacrificing more than the United States, putting about one-fourth of its production into military hardware, while the United States is spending only about 8½ per cent of its production for defense.

In addition, he said Russia has "a definite, clear-cut objective—communization and domination of the world."

"They have long range flexibility," he said. "They have a consistent plan to achieve, militarily, industrially and educationally."

Doolittle said this country must "develop a sense of urgency — to sacrifice more."

Tight Traffic Control Due Over Holiday

"Increased traffic control will be put into effect over the Thanksgiving weekend" said Capt. G. L. Morahan of the Department of Public Safety today.

Additional patrolmen will be placed on traffic detail as men from the License and Weight, and Motor Vehicle Inspection functions will join the Highway Patrol function in patrolling the rural highways in an effort to reduce motor vehicle traffic accidents. More radar units will be pressed into use both night and day in an effort to control speed violations which continue to be the leading causative factor in rural fatal and injury accidents.

Patrolmen will be on the alert for speed violations, drinking drivers, and other moving hazardous violations that contribute to the ever mounting traffic toll that is increasing daily on our streets and highways, and especially on our long holiday weekends.

Nov. 24, last year was the most deadly day of 1956 as 29 people died in 16 fatal accidents. Therefore every effort is being put forth to prevent a re-occurrance of this tragic loss this year.

"Your cooperation while driving is solicited by the Department of Public Safety in order that our annual Turkey day celebration will not be turned into a day of sorrow and regret," said Capt. Moraham.

Six Persons Hurt In Blast

RAYMONDVILLE, Tex. (AP)—An expectant mother was seriously injured and five other persons were burned in an explosion and flash fire here today.

Mrs. Mary Sherrill, 30, sustained shock and extensive third degree burns. She is expecting a baby next month and the effect of the shock and burns has not been definitely determined.

Mrs. Marie Vela, 40, and four children suffered lesser burns in the explosion and fire. Suffering burns of the hands and face were Linda Sherrill, 4, Lydia Diaz, 10, Rosa Diaz, 13, and Sylvia Flores, 5.

Fire Chief Jack Scott said the explosion was caused by an accumulation of gas in an apartment that had been vacant for about 10 days.

Macmillan's Visit Has Little Success

PARIS (AP) — British Prime Minister Macmillan and French Premier Felix Gaillard ended their two days of talks today but apparently did not succeed in smoothing over completely the basic differences that brought them together.

The two leaders were anxious to remove a thorn in the NATO Alliance — the British-American supply of small arms to Tunisia which the French fear will wind up in the hands of Algerian rebels.

A communique said the two premiers agreed "that responsibility for a solution of the Algerian question lies with France."

But a spokesman said this did not mean Britain would not deliver any more arms to Tunisia.

The communique by recording the premiers' conviction that "France should continue to discharge her special responsibilities in North Africa where she has traditionally a leading position was placating to this country.

A spokesman added that no special new machinery had been set up for consultation.

The communique announced that the two ministers also agreed there should be a more precise definition of interdependence and solidarity among the NATO allies "in accordance with the spirit of equality" at the NATO summit meeting here in mid-December.

This was a reference to French fears that plans for pooling resources and knowledge to meet the threat of Soviet missiles and satellites and give to Britain and the United States predominance in nuclear power and assign inferior roles to the other members.

Standing with Gaillard in the Hotel Matignon, where the talks ended, he told newsmen: "I think we have made great progress. But of course there are a number of problems for the future."

Allowable Hike Is Sought For Kansas

WICHITA, Kan. (AP)—A December allowable of 343,000 barrels daily for Kansas crude oil production was recommended to the Kansas Corporation Commission today.

Taken under advisement, it could increase the allowance 3,000 barrels daily over November.

Vanguard Goes Up Dec. 4

WASHINGTON (AP)—Navy scientists hope to launch the first U.S. test satellite a week from tomorrow—just two months after Russia's pioneer Sputnik was fired into distant space.

A source high in the Vanguard satellite project said Dec. 4 has been picked for the attempt to send aloft a six-pound sphere six inches in diameter.

The attempt, he said, will be made about dawn at the U.S. Missile Test Center, Cape Canaveral, Fla. If conditions are not right at that time, the source said, another effort will be made perhaps two days later.

Plans call for one or more launchings of small test spheres in December, with a fully instrumented 21-pound satellite to be fired in March. There has been some talk of a January launching of the fully developed satellite if the test succeeds.

Moscow radio said Russia's Sputnik I, launched Oct. 4, still was going strong. But it said the rocket that carried the satellite aloft, and went into orbit at the same time, is expected to drop to destruction in the dense layers of the earth's atmosphere during the first 10 days of December.

The London, the British Supply Ministry predicted the rocket will fall this weekend, probably Friday. It said also it expects Sputnik I to come down in mid-January and Sputnik II early in February, but it said these forecasts were less definite.

The rocket is expected to make three passes over the United States both today and tomorrow. The passes are due during the evening twilight, favorable hours for observation.

The Project Vanguard source who told of plans to fire the test satellite next week said it will be aimed southeastward and adjusted for a generally equatorial orbit.

If all goes as planned, he said, it should enter an orbit that would carry it to altitudes varying from 300 to 1,200 miles above the earth.

A 72-foot launching assembly weighing more than 22,000 pounds will be used.

The informant said the test sphere will have four tiny solar batteries fastened to the outside, plus four or six antennas. Radio signals will be transmitted continuously on 108 megacycles.

The batteries, drawing their power from the sun, are planned to last as long as the satellite itself. No estimate was given on the expected life span on this test vehicle.

The baby satellite will not be equipped with special telemetering instruments expected to go into the fully developed artificial moon. Thus, the test sphere will send back no information about conditions in space.

The Russians have claimed to have received considerable space information from their satellites, but so far they have not shared such data with the rest of the world's scientists cooperating in the International Geophysical Year.

The Vanguard informant said the U.S. test satellite will be sped skyward by the same kind of three-stage rocket built for use later in launching the regular 21-inch satellite.

Air Force Sends Up Vapor Cloud

ALAMOGORDO, N.M. (AP) — The Air Force early today released a cloud of sodium vapor more than 80 miles above the earth and the resulting orange cloud was spotted over wide portions of the Southwest.

Spokesmen at the Air Force missile development center near here said the experiment, to determine certain factors of radio communication, was called "Operation Smokepuff."

The sodium was shot up in an Air Force Aerobee rocket, Lt. Virgil Domenic of the Holloman Air Force Base Public Information Office said.

He said hundreds of ham radio operators had been advised of the experiment and were tuned into the Air Force blockhouse where the firing was controlled for an hour before the rocket left the earth.

The Aerobee sped 3,600 m.p.h. to a point 80 to 100 miles above the earth before releasing the sodium, Domenic said.

The sodium, when released from the rocket, formed "an ionized cloud" which was visible hundreds of miles.

The purpose of the test, Domenic said, was to determine what effect such a cloud might have on radio transmissions.

He said the ham operators across the Western United States attempted to beam their radio waves at the cloud. He said reports from the ham operators will be filed with authorities at the missile development center.

Ham operators participating were spread from California to the Mississippi River and from the Canadian to the Mexican borders, Domenic said.

The Stanford Research Institute was a participant in the experiment along with the Air Force.

The spectacular orange cloud, accented by the rays of the sun striking it, was seen over a wide area of the Southwest by early risers. Reports of sightings poured into radio stations and newspapers in several states.

Many persons were asking if the formation was caused by the rocket of Sputnik 1 re-entering the atmosphere. The formation was described by viewers as resembling a jet trail at a very high altitude.

The base said the firing was one of a series of "Operation Smokepuff" tests being carried out at the base.

Another Line Can Be Blank, IRS Reports

WASHINGTON (AP) — Switching signals again, the Internal Revenue Service now says taxpayers may ignore the line on their 1957 income tax returns which calls for their business expense accounts.

But the announcement yesterday by Commissioner Russell C. Harrington emphasized that the decision "does not change the long-standing rules which the revenue service has been following with respect to substantiation of deductions when a taxpayer's return is audited."

The law has required since 1921 that the money an employe draws on his expense account be listed as income. He then is allowed to deduct his actual expenses. But the law has been regularly ignored, especially by small taxpayers whose reimbursement only equaled their expenses.

These expenses and deductions were supposed to have been listed on a separate sheet. Then last month the service disclosed that the 1957 forms—which taxpayers will get early next year—call for the totals on the returns themselves. This was done to make it easier to check on big expense accounts in which there may be some tax fraud, but the law made it applicable to expenses of any amount.

Harrington said the decision to ignore the change in the tax form for 1957 was made because the addition of the new line was not made public until after 10 months of the tax year had already gone by. Thus, he said, it had a retroactive effect.

Youth Won't Need His Will

DENVER (AP)—"I won't be needing this anymore," 13-year-old Jerry Mourer said yesterday as he tore up his will.

The son of a Grand Junction, Colo., widow successfully underwent a critical deep-freeze operation for aerotic stenosis, a narrowing of the valve leading from the heart to the aorta.

Although Jerry was chipper during the operation, this message was discovered scrawled in ink on his tyo car back home:

"Dear mom:

"I want to give my guns and toys to Jimmy Hixon, and don't give them to anybody else. Mom, give my bebe gun to Rory and Ray Kipp, and give my leather jacket to Jimmy Hixon. Love, Jerry Theo Mourer."

When he walked from National Jewish Hospital, Jerry said he guessed now he'd keep his belongings himself.

Strike May Idle 16,000 Employes

DETROIT (AP) — Chrysler Corp. said today 16,000 Plymouth workers will be laid off Monday unless there is immediate settlement of an 8-day strike at its Plymouth engine plant here.

Other layoffs which may eventually bring the total to 38,000 would follow within a matter of days, Chrysler said.

Some 2,000 employes walked off a week ago Monday. The United Auto Workers Union blamed the strike on a speedup.

Daniel Urges Import Cuts

AUSTIN (AP)—Gov. Price Daniel asked President Eisenhower today to extend the voluntary oil import cut to the West Coast and reduce imports to a million barrels daily.

"If the plan could succeed, and if imports to this country could be held at one million barrels per day figure, I believe that domestic producers of crude oil would still be injured but not critically," he said.

He wrote to the President's administrator of the voluntary oil imports program, urging construction of a pipeline from Texas to the West Coast.

Daniel made the request as hearings were concluded in Washington on the voluntary program.

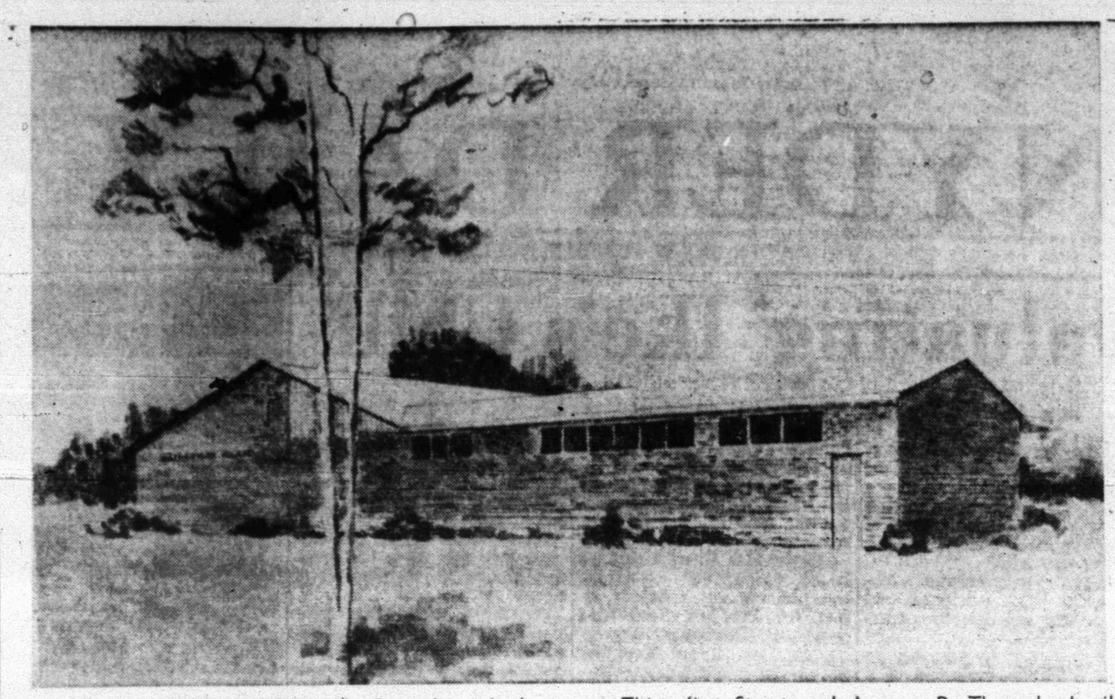

World Court Will Judge Gao Dispute

THE HAGUE (AP)—The World Court decided today it would judge the merits of the dispute between India and Portugal over the Portuguese territory of Gao on the Indian mainland.

The court thus rejected an Indian claim that the issue was out of the court's hands. The court said it will decide after hearings an Indian claim that the matter of free passage to the Portuguese possessions over Indian territory was a matter only for India to decide.

Aly Khan Visits

HOLLYWOOD (AP) — Prince Aly Khan is in town to visit his 7-year-old daughter, Yasmin. The Prince said he has no plans to see Yasmin's mother, actress Rita Hayworth. He and the actress were divorced in 1953. After a few days' visit with his daughter, Aly said, he plans to return to France.

CATHOLIC SCHOOL UNDERWAY—Ground was broken and construction is to begin this week on the Katherine A. Ryan School, pictured above in an architect's sketch, at Thirty-first Street and Avenue B. The school will accommodate approximately 200 pupils through the eighth grade when completed.

Construction Launched On New Catholic School Here

Construction is to begin this week on the Katherine A. Ryan School, a Catholic elementary school, at Thirty-first Street and Avenue B.

The Rev. Edward Chrisman priest of St. Elizabeth's Catholic Church, said the new school will be ready for kindergarden classes by the fall of 1958, and ready for regular sessions of classes through the eighth grade by 1959.

To be built of masonry construction utilizing a steel framework and roof structure, the building at first will be 108 feet long by 80 feet wide. Provisions for additions later will greatly increase the size of the building, making it 108 feet by 144 feet in the near future to house several classrooms.

At first the building will include an auditorium, kitchen and one classroom. The addition of four more classrooms will occupy the space which will be added later, Father Chrisman said.

A building permit for $35,000 has been issued by the city for the initial construction.

Stanford Engineering Co. is contractor for the building, using a Butler steel building as the framework and roof of the building with masonry walls including tile as the inner wall and brick from Southwestern Brick & Tile Co. of Snyder as the outer wall.

The school is to be named after Mrs. Katherine A. Ryan, a donor to the Catholic Church here, who is also providing much of the money for the new school.

Approximately 200 pupils will be accommodated by the school, and a bus service to outlying areas of the county is anticipated.

Groundbreaking ceremonies were held Sunday by committeemen working on the project. They are John Mengwasser, Jack Contella, Bill Mapes, E. L. Kubala, John Black, E. H. Miller, J. E. DuPont, Herbert Price, Martin Lutkin and James Wadleigh. Wadleigh, who is also employed by Stanford Engineering Co., is construction superintendent on the project.

Land for the building was donated by Dr. Bill Willians, a former resident of Snyder and practicing physician here.

TODAY'S MARKETS

FORT WORTH (AP) — Hogs 500; steady; choice 17.50-17.75.

Cattle 1,400; calves 700; strong to higher; good and choice steers 20.00-24.00; commoner 12.00-19.00; fat cows 14.00-18.00; good and choice calves 21.00-23.50; commoner 14.00-20.00; good and choice stock steer calves 20.00-25.00; stock heifers 22.50 down; yearling stock steers 16.00-22.00.

Sheep 1,200; steady; good and choice lambs 21.00-22.00; feeder wooled lambs 20.00-21.50.

AUSTIN (AP)—Poultry steady. East Texas 21½-3¼ lb 16-17, South Texas, 17-18. Waco 16½.

NEW YORK (AP)—Cotton was 40 to 95 cents a bale lower at noon today. December 36.47, March 36.10, May 36.05.

NEW YORK (AP)—The stock market opened lower in active trading today. Stocks declined fractions to a point with most changes narrow.

Bethlehem Steel was off ⅛ at 38½, Chrysler off ⅜ at 68¼, Lukens Steel off 1⅜ at 70, Getty Oil off ⅛ at 25⅝, Westinghouse off ½ at 62⅝ and General Dynamics off ¼ at 57.

U.S. Steel was off ⅜ at 53⅜, Boeing off ⅝ at 38¼, Gulf Oil off ½ at 117, Anaconda up ¼ at 43⅜, Republic Steel off ⅞ at 43 and Standard Oil (New Jersey) off ⅛ at 50¼.

Du Pont rose ½ at 178½. Fractional losses were taken by American Can, New York Central and Texas Co. Socony-Mobil was unchanged at 49½.

Two DWI Cases Are Filed Here Today

Two cases of driving while intoxicated were filed in county court this morning, and one of those charged pleaded guilty.

Both men were arrested by city police. They were Carl Emmette Craddock, about 45, and Kenneth Arnold Whitlow, 20, of Midland.

Whitlow entered a plea of guilty and was fined $73.50, including court costs, and given three days in jail.

Craddock pleaded not guilty, and he made bond of $250. Bondsman was Pat Beene.

Taken To Abilene

Bill J. Tucker, Colorado City highway, was taken by Bolger ambulance this morning from Root Memorial Hospital in Colorado City to Hendrick Memorial Hospital in Abilene.

Three Boats Are Assisted

PORT ISABEL, Tex. (AP) — A Coast Guard cutter headed into the Gulf yesterday to aid the last of three boats troubled by recent rough weather.

Chief Warrant Officer J. T. Hevey, commander of the Coast Guard station here, said the Dione was dispatched to tow the shrimp boat Lochiel. The Lochiel reported motor trouble about 70 miles south of here but was in no danger, Hevey said.

The Juanita was washed ashore about 160 miles south of here Saturday and the owners decided to abandon the shrimp boat. The three-man crew is headed back through Mexico, Hevey said.

The cutter Boutwell towed the shrimper Bob Ramsey in Sunday after nets fouled the boat's propeller in rough seas about 140 miles south of here.

Bats In Balcony

AUSTIN, Tex. (AP)—A bat in the balcony upset legislative decorum in the Texas House of Representatives. "The sergeant-at-arms is authorized to remove the bat," Speaker Waggoner Carr solemnly intoned. It dipped and dived for 20 minutes until an alert youth in the balcony caught it with a net.

Confederate Vet To Keep Pension

AUSTIN, Tex. (AP) — The Texas Legislature is taking action to make sure Confederate veteran Walter Williams, 115, keeps his $300 a month state pension.

The House unanimously passed a bill keeping his pension at that rate yesterday. Under existing law Williams' pension would be cut to $200 because of the recent death of his wife. Rep. J. E. Winfree of Houston, where Williams now lives with a daughter, said the state Confederate pension fund totals more than $900,000.

Williams is one of two surviving rans of the Civil War.

WOMEN

Brighten The Holidays With Christmas Sweets

IT WOULDN'T be Christmas without holiday cookies. A traditional Christmas confection of Vienna may provide a new note in the cookie jar this year. Lillian Langseth Christensen of New Milford, Conn., author of the recently published "Look and Cook" book and recipe service, suggests the following continental recipe:

SUGAR PRETZELS

6½ cups flour
1¼ cups butter
1¾ cups confectioners' sugar
1-3 cup milk
2 eggs, beaten
1 pinch salt
½ teaspoon vanilla for half of dough
2 tablespoons cocoa for other half of dough
Vegetable shortening for pans
White Icing:
¾ cup confectioners' sugar
a little very hot water
1 teaspoon lemon juice

Cream butter, add sugar and stir well, add eggs and milk alternately with flour. Make a smooth dough, flavoring half with vanilla, the other half with cocoa. Roll dough into a sausage and cut into even pieces. Roll these pieces, one at a time, into long "sausages", about ¼ inch in diameter, keeping the other pieces cool until used. Cut into seven inch lengths. Lay the two ends of a 7-inch strip across each other and twist once to make a pretzel. Place the pretzels on a cookie sheet greased with vegetable shortening. Bake in a medium hot oven (375 degrees) till done, about fifteen minutes. Makes about 10 dozen pretzels.

Dip the pretzels in thin white icing. To prepare it, mix sugar with lemon juice and just enough very hot water to make a thick, cream-like paste. Whip the paste well, and keep it liquid enough for dipping and coating the pretzels. Dip the pretzels while they are still very hot, as this is the secret of making the icing adhere.

CHRISTMAS MORNING—Gay holiday nightie made of Christmas-ball printed fabric, and felt Christmas trees hung up instead of Christmas stocking. Both easy to make.

Make It A Personal Gift Sew It For Christmas

By DOROTHY ROE
Associated Press Women's Editor

NOBODY IS BUSIER at Christmas time than the woman who sews, for department stores everywhere are crammed with special Christmas fabrics that fairly cry out to be stitched into holiday finery.

This year you'll find fabrics that reflect the Christmas spirit in gay prints featuring jingle bells, holly wreaths, ribbons and reindeer, mostly in festive traditional red, green and white. Women are buying these fabrics to make into all sorts of gifts and household accessories. And since the new fabrics are colorfast and sanforized against shrinkage, they know the articles they make can be tossed in the washing machine time after time, and come up smiling.

One bright idea for a young girl is a frivolous Christmas nightie made from a fabric printed with colorful Christmas-tree balls. Local sewing center experts suggest one of the new shorty gowns with frilly bloomers to match. Since this is a border print, it is most effective to follow the scalloped line of the design at the hemline, using a stitched facing instead of a hem. Red cording accents the little-girl yoke, and the border is used again on the matching panties. By using a pattern printed with inch-rulers for easy alterations, you can achieve just the right length without interfering with the placement of the border.

Another gay Christmas idea is to make upside-down Christmas tree from green felt, to hang up instead of the usual Christmas stocking. These may be decorated gaily with sequins and hung on the mantel, or placed over a bottle for a Christmas table centerpiece.

With gay Christmas fabrics and a little time at the sewing machine, you can make permanent Christmas accessories, to be brought out year after year, as the start of a family tradition.

TEMPTING HORS D'OEUVRES: Sandwiches dipped in French-toast mixture and fried make a tempting snack when filled with deviled ham and cheese or pickle relish.

Try Hors D'Oeuvres As Subs For Dips During Holidays

ONCE IN A WHILE WHEN YOU'RE ENTERTAINING, you might enjoy straying from the ubiquitous spreads and dips that nowadays are usually served with crackers, raw vegetables and crisp vegetable chips.

For an occasion when you are ready and willing to do some preparation ahead, small sandwiches dipped in a French-toast mixture and fried until golden brown will be something different to offer your guests. The filling for this hors d'oeuvre combines deviled ham with cheese and pickle relish, and the attractive garnishes are pickle "fans," pimiento stars and stripes and sliced stuffed olives.

If you can't resist adding a dip to your snack bar, you can hollow out a small red cabbage, fill it with a mustard or spicy fruit sauce and surround it with small hot frankfurters. The franks are dipped into the sauce, so you'll need to have a small container of wooden cocktail picks at hand. The filling for the French-toast hors d'oeuvre also makes an excellent spread served with some of the new potato crackers or with small squares of pumpernickel bread.

HORS D'OEUVRE

Ingredients: 1 can (4½ ounces) deviled ham, 1 cup (¼ pound) grated sharp cheddar cheese, sweet pickle relish, 16 slices thin bread, 2-3 cups evaporated milk, 2 eggs, 2 teaspoons prepared mustard, ½ teaspoon caraway seed, butter or margarine, pickle fans, tiny stars and stripes cut from drained canned pimiento, sliced stuffed olives.

Method: Mix the deviled ham and grated cheese with pickle relish to taste. Trim crusts from bread. Spread about 2 tablespoons of the filling on 8 of the slices; top with remaining slices. Cut into triangles, squares or oblongs. Beat evaporated milk (undiluted), eggs, mustard and caraway seed together in a shallow pan. Dip sandwiches into mixture, turning to coat both sides. Preparation may be done several hours ahead and at this point sandwiches may be refrigerated in a covered container. At serving time, brown both sides of sandwiches in a small amount of butter in skillet; cook slowly so as to have a slightly crisp golden-brown exterior. Garnish with pickle fans, pimiento shapes or sliced olives. Serve at once. Makes about 24.

RECIPE NOTES

To make the pickle fans for the garnish, make parallel slits in gherkins from one end almost to the other end of each pickle and spread out in fan shape.

Miniature cutters may be bought in sets in the housewares department of many shops; there's usually a star-shaped cutter among these that can be used to shape pimiento.

An electric tray or an uncovered chafing dish will keep the French-Ttoasted hors D'Oeuvre hot at serving time.

STEPS TO LEARNING—This game is one of a new series for pre-school children.

New Games Spark Family Fun For Cold Winter Evenings

THIS IS THE IDEA of family fun, when Mom, Pop and the children once more are enjoying games and television as a family group.

Designed to foster gay fireside competition is the new crop of Christmas games available in shops, many of which can be enjoyed on an equal basis by all members of the family.

There are indoor counterparts to many outdoor sports, such as baseball, football, hockey and even Giant Steps, the game children used to enjoy outdoors before the days of traffic problems.

The trend to ease the course of homework via instructive games is accelerating. Fractions are easy as pie in a new game which bases play on sections of lemon and cherry pie representing various fractional divisions.

Sound is added to the fun in a new game slanted to include younger children. It bases play on ringing small bells as players make moves.

Another game with wide age appeal is a three-dimensional game in which players emulate test-car drivers, maneuvering cars by magnetic action.

There also are many card games, old and new, which can mean hours of companionship and fun for all the family.

Football Mothers To Meet Tonight At High School

All mothers of High school football players are urged to attend a special meeting tonight at 7 p.m. at the high school in room 210. Plans will be made for the football banquet. This includes mothers of freshman, B and varsity squad players, according to Mrs. Robert M. Phillips.

Acacia Club Hears Talk On Drivers Education

The Acacia Study Club met Wednesday, Nov. 20, at the Martha Ann Woman's Club for their regular semi-monthly meeting, with Mrs. Thomas Hartley as hostess.

Mrs. Elmer Etgen gave the current event on "What's Happening To Our Sun?"

Mrs. Harold Rogers was in charge of the program on 'Drivers Education'. She presented Sgt. Fisher, highway patrolman from El Paso. Mr. Alfred Kohl and Captain T. L. Steele of Snyder. They showed a film on the drivers license bureau, with a discussion period following. They explained a 70 percent score is required on the drivers license examination, after a license is issued a complete record is kept. If a person receives three tickets for traffic violations, a letter is returned with the re-newed license, after a fourth ticket is received the driver is asked to have a re-examination before renewal of his license. If a fifth ticket is received the license may not be renewed until a meeting with a patrolman.

The State Highway Department has one patrolman to approximately every 300 miles of highway. This includes farm to market roads as well as state and federal highways.

In 1956 there were 800,000 examinations given to fill 120 jobs.

Refreshments were served to 22 members and one guest, Mrs. Jerry Eubanks.

FOR GOOD EATING

FAMILY DINNER

Boiled Beef Dinner
Crusty Bread
Gingerbread with Applesauce

BOILED BEEF DINNER

Ingredients: 2 to 4 pounds fresh beef brisket, water, ½ cup chopped celery, a few celery tops, 1 to 3 teaspoons salt, ¼ to ½ teaspoon pepper, 1 bay leaf, 3 to 6 whole cloves, 6 medium-sized potatoes (pared), 6 medium-sized carrots (pared), 1 small head cabbage (cut into serving-size wedge-shaped pieces).

Method: Cover beef brisket, in a kettle, with water. Add chipped celery, celery tops, salt, pepper, bay leaf and cloves. Cover and bring rapidly to simmering; lower heat and simmer until tender when a fork is inserted in center — 2½ to 3 hours. About 30 minutes before beef is done, add whole potatoes and carrots; about 15 minutes later add cabbage wedges. Strain broth; slice meat. Serve broth in bowls or cups or use as stock for another dish.

SATURDAY LUNCH

This main dish was patterned after one served in a well-known chain of restaurants.

Phyl's Ham Dish
Buttered Toasted English Muffins
Beverage

PHYL'S HAM DISH

Ingredients: 1 can (9 ounces) sliced pineapple, 1 to 2 tablespoons butter or margarine, 4 round slices (about ¼-inch thick) cooked ham (from a roll), 1 to 2 cups cheese sauce.

Method: Drain the pineapple; refrigerate syrup for use another time. Melt butter in a 10- or 12-inch skillet and lightly brown pineapple slices and ham. Have cheese sauce hot. Arrange ham slices on 4 individual luncheon plates, pour over cheese sauce and top with pineapple. Serve with buttered toasted English muffins.

Note: To make the Cheese Sauce, add grated cheddar cheese and a little paprika to a well-seasoned thin or medium white sauce.

Junior Editors Quiz on STARS

QUESTION: *How many stars are there in the sky?*

* * *

ANSWER: Bill, who has put adhesive tape on the window pane to divide it into sections and so count the stars, hasn't gotten very far — but then star-counting is a big job.

On a clear night we can see about 2,000 with the naked eye. But astronomers, using powerful instruments, can photograph some 10 billion stars. Even that is just a beginning. There are about 100 billion stars in our galaxy, the system of stars which includes the sun and the earth — and there are many more galaxies in the universe.

But even the number of heavenly bodies that we can see is now and then increased by a new discovery. Even an amateur astronomer might be lucky enough to spot a new star.

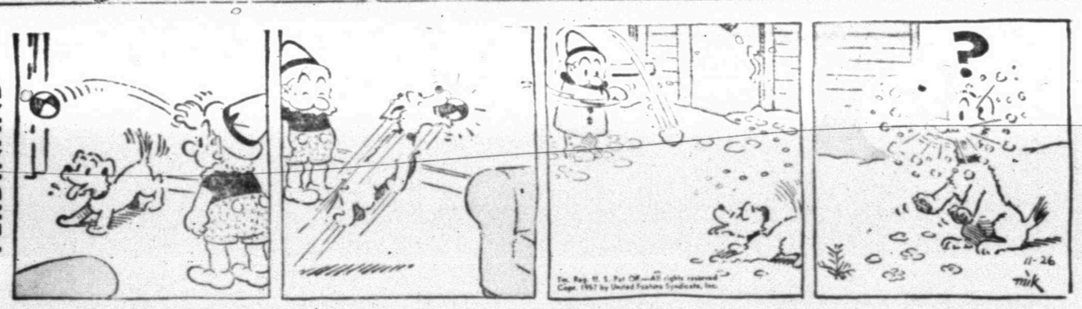

* * *

FOR YOU TO DO: On a clear night, take a look at the sky and see if you can find the Big Dipper, which contains six stars. Two of them — the ones that form the end of the dipper cup — point to the North Star. If you can't find it yourself, have your friends or parents show it to you.

* * *

(Cornelius Wallace of Rawlings, Va., won $10 for this question. Send yours on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: Why is ice slippery?) 11-26

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THE TIGER FOOTBALLERS can lay claim of beating two 3A district champions and that of beating two teams that beat district champions of other districts.

Outright, of course, the Tigers defeated Levelland, the 1-AAA champion, 27-21 and Breckenridge, 4-AAA champion, 20-14.

Then the Tigers bopped Colorado City, 35-0, who defeated Kermit, the 2-AAA champion, 7-0, and Breckenridge, mentioned above as a Tiger victim, downed Gainesville, champion of 6-AAA, by 26-0.

The Tigers, you might say, could have very well won the district titles in 1-AAA, 2-AAA, 4-AAA and 6-AAA.

In other words, it looks like this year the Tigers were in the wrong district.

Good Overall Season

Snyder's five football teams this season enjoyed pretty good seasons. In 46 games, the locals won 30, lost 12 and tied four for a .714 percentage.

Only one team fell below the .500 mark but this team came on strong at the finish. The Tiger "B" team dropped its first three decisions but came back to record four victories and a tie in their last seven games which gave the B teamers a 4-5-1 season mark.

Two of the B team losses were by a one-touchdown margin and none was over three TD's.

Season records of the other local teams showed 7-2-0 for the Tigers, 7-1-1 for the Freshmen, and both junior high teams, the 7th and 8th grade outfits, each posted 6-2-1 marks.

The local teams did all right in the scoring department, too. The five teams combined their efforts to score 1,098 points to 401 for the opposition. This gives Snyder teams a 23.8 points per game to 8.7 for the opposition.

All five Snyder teams scored better than 100 points. Only one team, the B team, yielded more than 100, the B teamers giving up 124 in 10 games for a 12.4 average which isn't bad.

The Tigers scored the most points of any of the local teams at 228 with the 8th graders having the best defensive mark with only 27 points scored against them.

In case you're interested, here are the scores of each game played by the five Snyder teams this season:

Season Records

TIGERS (7-2-0)

7	Borger	12
33	Dumas	0
19	Big Spring	7
27	Levelland	21
20	Breckenridge	14

Negro Stars For N-Texas

DENTON (AP) — Abner Haynes makes North Texas State's football prospects for 1958 quite bright.

Haynes, first Negro to play on a senior college team in Texas, wound up the season last week as the Eagles beat McMurry 14-7 and he took the ball-carrying championship of the Missouri Valley Conference with it.

The 160-pound sophomore from Dallas rolled up 639 yards on 112 carries—an average of 5.7.

But he's not just a runner. Coach Odus Mitchell found him great on defense—so good the opposing team quit trying to complete passes in his territory. And they also tried to kick away from Haynes because he averaged 39.3 yards taking back punts.

The secret of Haynes' success is that he's quick, Mitchell says. Not a speed demon, but quick with his feet, with his hands, with his whole body.

Sports Scribe Dies

AUSTIN (AP) — Funeral services will be held tomorrow for Morris Williams, 55, vice president of the Texas Sports Writers Assn. and sports columnist for the Austin American-Statesman. He died yesterday.

Miteff Wins

NEW YORK (AP) — Alex Miteff banged out a third-round TKO last night over heavyweight Tony Gagliardo.

FISHING WEATHER—Most persons, even avid fishermen, would doubt that we have had fishing weather this week, but that didn't daunt the pair above. They caught the 38-pound yellow catfish above, in the Llano River below Buchanan Dam Thursday night. They also caught about 100 krappie and other blue catfish. At left is L. D. Adams, Oceanside, Calif., and his brother, S. W. Adams, 1311 Twentieth Street, Snyder. (Lee Watson photograph)

Auburn Replaces Spartans As No. 1 Team In Nation

By HUGH FULLERTON Jr.
The Associated Press

Auburn, unbeaten and untied Southeastern Conference leader, advanced to the top of the national football rankings today in the season's semifinal Associated Press poll as Michigan State fumbled away its hold on first place.

The defensively stubborn Plainsmen from Alabama, a close second a week ago, polled 1,850 points on the ballots of 227 sports writers and broadcasters. Michigan State, leader by only nine points a week ago, dropped to third after a fumbling performance against Kansas State last Saturday while Ohio State's Rose Bowl-bound Big Ten champions moved into second.

The national college football championship will be decided next week in the final Associated Press Poll. Since the Rev. Hugh O'Donnell Trophy was retired by Oklahoma last year, The Associated Press will present a new championship trophy, to be held by the team designated as champion in the final poll.

Only one of the three top contenders for the championship is scheduled to play this week.

Auburn, an easy 29-7 winner over Florida State Saturday, takes on its old rival Alabama, in the season-ending game. All three ranking teams from the Big Ten —Ohio State, Michigan State and Iowa — completed their regular seasons last week.

Auburn has won nine straight games and allowed its opponents only four touchdowns—no more than one in any game.

In this week's balloting, Auburn drew 85 of the 227 first-place votes and 1,850 points on the basis of 10 for each first place vote, 9 for second, etc., down to 1 for tenth.

Ohio State, loser to Texas Christian in its opening game but undefeated in Big Ten competition, finished with a rousing 31-14 victory over Michigan. This performance siphoned away some of the support that formerly had gone to Michigan State. The Spartans lost five fumbles and had to stage a last-period rally to beat Kansas State 27-9 in their last game.

Ohio State drew 65 first-place votes and 1,769 points to 41 and 1,713 for Michigan State.

Completing the first 10 were Texas A&M, Oklahoma, Iowa, Mississippi, Navy, Rice and Army. Oklahoma and Iowa moved up from sixth and eighth rankings after last Saturday's victories. Mississippi and Navy, both idle, dropped back a notch or two.

Rice, tieing Texas A&M for the Southwest Conference lead, replaced Notre Dame, loser to Iowa, in the top 10 rankings.

The top 10 with first-place votes in parentheses:

1.	Auburn (85)	1,850
2.	Ohio State (65)	1,769
3.	Michigan State (41)	1,713
4.	Texas A&M	1,370
5.	Oklahoma (8)	1,212
6.	Iowa (7)	1,130
7	Mississippi (6)	967
8.	Navy	709
9.	Rice	334
10.	Army	349

The second 10:

11.	Arizona State (11)	193
12.	Notre Dame	141
13.	Mississippi State	138
14.	Wisconsin	94
15.	N. C. State	85
16.	Duke	60
17.	VMI	45
18.	Tennessee	38
19.	Oregon State	37
20.	Florida	27

Seymour, Lockney Tilt State Feature

By The Associated Press

Three former state champions are in the field and one of them, Terrell, is a strong favorite for the title as the Class AA schoolboy football playoff enters its second round.

Terrell won the AA championship in 1952.

Terrell started the season with a 19-14 loss to Athens but hit its strike in October and hasn't come close to losing one since. The Tigers whipped Richardson 66-13 last week in the opening round of the state playoff.

The other former state champions in the field are Ranger and Giddings. They took their titles in Class A, Giddings in 1951 and Ranger in 1953.

Ranger lost to Mineral Wells 38-14 in early season and lost to Eastland 14-13 and to Winters 14-6, but last week they took out one of the favorites, undefeated, untied Hamilton, 12-6.

Giddings lost a game, a district contest to Elgin 28-0, but last week it beat Gonzales 7-0 in the playoff's first round.

Seymour, McCamey, Terrell, New London, Brady, Giddings, San Antonio Sam Houston and Mercedes will be favored to win second-round games this week.

The Seymour-Lockney game will be the feature. Seymour, undefeated and untied and conqueror of Stamford, the 1956 state champion, and Lockney, unbeaten but once tied, clash at Snyder Friday.

Dupas Triumphs

NEW ORLEANS (AP)—Lightweight Ralph Dupas posted an easy 10-round decision last night over promising but outclassed welterweight Mickey Crawford.

HIT LOW—Arthur Beall (40) Baylor University back, was tackled low by Lee Yokum (71) Southern Methodist University tackle, as he tried to go through left tackle in the second period of their Southwest Conference game in Waco, Tex. Coming in on the play is Don Meredith (17) SMU back. Watching is Doyle Traylor (11) Baylor back. (AP Wirephoto)

Tradition At Stake In NC-Va. Game

ROANOKE, Va. (AP)—They'll be playing for more than tradition here Thursday when Virginia Tech meets Virginia Military Institute in football's "Military Classic of the South."

This 53rd meeting between Virginia's two old rivals was supposed to be the clincher for Tech's fourth consecutive state title and perhaps the game that would give the Techman a chance to replace West Virginia as Southern Conference champ.

Instead, it's the big game for VMI—with the Keydets' first unbeaten season since 1920, the conference championship and a bowl bid riding on the outcome.

VMI, the state title already in the bag, has suffered nothing worse than a 21-21 tie with Holy Cross through nine games this season. An impressive victory over Tech could push the Keydets into the Tangerine Bowl opposite Mississippi Southern at Orlando, Fla., New Year's Day.

The bowl committee announced last night that it had narrowed its list of candidates down to VMI, ranked 17th in today's Associated Press poll, and East Texas State.

A victory would give VMI its first Southern Conference title. The Keydets are 5-0 in league play while West Virginia, the kingpin for four consecutive years, is 3-0.

Wogs, Arkansas Tie For Freshman Title

By The Associated Press

TCU stumbled in the very last game and wound up in a virtual tie with Arkansas for the Southwest Conference freshman football championship.

The Wogs took a 20-19 trimming from SMU's Colts Monday in the last game of the season in freshman football.

Rice, Ags, Ponies Favored This Week

By The Associated Press

The confusing Southwest Conference football picture gets cleared up this weekend and the odds-makers have it Rice will go to the Cotton Bowl, Texas A&M will tie Rice for the championship, and SMU will have a good chance at a bowl bid.

A&M is a 7½-point choice over Texas at College Station Thursday. A victory will clinch a tie for the championship for the Aggies. But Rice is a 9-point pick over Baylor at Houston Saturday and if the Owls win, they get the Cotton Bowl bid by virtue of their victory over the Aggies. If they lose and the Aggies win, A&M gets the championship and the Cotton Bowl game.

SMU is a 2½-point selection over TCU at Fort Worth Saturday. The Ponies reportedly are being considered in some bowl plans.

Rice rested Monday and got the good word that No. 2 quarterback Frank Ryan will be ready for the Baylor game.

Baylor took a short workout but got in some good timing drills and stressed the passing game. There was no contact.

Aggie Coach Bear Bryant said he was pleased with the A&M workout as the Cadets tapered off. They went through all phases of the game.

Texas worked on pass protection and coverage with a minimum of contact work. Coach Darrell Royal said his team was in good physical condition.

SMU worked in sweat shirts. All players except guard Sam Caville — who is out with an injured shoulder — are expected to be ready for the TCU game.

TCU Coach Abe Martin said the workout Monday was "very encouraging." Center Jim Ozee, end Bobby Murray, guard Cecil Carter and quarterback Hunter Enis, who missed the Saturday game with Rice, returned to practice.

Gregory Leads Colts Past Wogs, 20-19

DALLAS (AP) — Glynn Gregory scored twice, kicked two extra points and kept TCU in the hole with long punts yesterday in leading the SMU freshmen to a 20-19 victory over the TCU Polliwogs.

QB CLUB MEETS TONIGHT AT 7:30

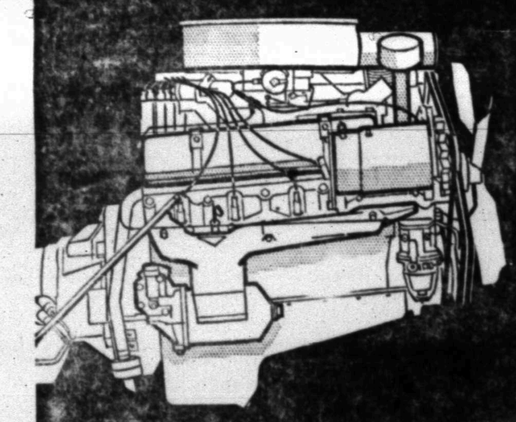

The Snyder Quarterback Club will meet tonight at 7:30 at the high school cafeteria.

Arrangements for handling the Seymour-Lockney playoff game here Friday will be made at the meeting.

Talks will be given by Tiger football coach John Conley and basketball coach J.P. Ward afterwhich a college football film will be shown.

Why use two when one will do?

You'll do better to protect your motor with this one all-weather oil than to change from heavy oil to light oil according to the season.

Users of TROP-ARTIC* All-Weather Motor Oil never have to worry about using different grades of oil at different seasons of the year. TROP-ARTIC is a light oil and heavy oil in one (grades 10W through 30). Furthermore, it lubricates and protects your motor far better than any of the old-fashioned "single grade" oils.

The reason is that TROP-ARTIC never gets too thick or too thin. In a cold engine it flows quickly for easy starting. In a hot engine it retains the "body" necessary to prevent wear. It reduces friction to save you gasoline. It keeps your engine clean. Compared to old-fashioned oils it can even *double* engine life. Get TROP-ARTIC All-Weather Motor Oil today from your Phillips 66 Dealer. *A trademark

Marine Sergeant Is Found Innocent

YOKOSHUKA, Japan (AP)—A U. S. Navy court-martial today found Alabama Marine Sgt. Tommy G. Flint innocent of charges of cruelty to U.S. prisoners in a Navy brig.

A five-man officers board cleared Flint, 23, of Silas, Ala., of four counts of maltreatment after the accused Leatherneck admitted yesterday he roughed up two sailors and a fellow Marine "to try to run a better brig."

Flint, former warden at the Sasebo naval jail in south Japan, was one of 16 Marine ex-guards charged with maltreatment and facing court-martial. He told the court roughing up inmates was standard brig policy.

The court gave no explanation of its verdict or how Flint's acknowledgement of rough treatment was considered in the decision. The court-martial officer, Marine Lt. Col. John P. Newlands, Los Angeles, declined to comment.

Flint had testified the brig officer, Capt. Milton C. Kramer, Harvey, Ill., was aware of the situation. He said Kramer told him, "I know what's going on here. If it is going on, don't let me know about it." Kramer denied the testimony from the witness stand.

Two sailors and a fellow Marine testified they were beaten by Flint. They were Jon J. Taylor, 19, Phoenix, Ariz., rookie Marine; Seaman Carlos E. Vota, 18, Amarillo, Tex.; and Seaman John Reed, 19, Cleveland, Ohio.

Flint's civilian defense lawyer, Frank H. Scolinos of Tokyo, contended in final arguments that the prisoners in the brig were "juvenile delinquents. They have to be straightened away in order to understand regulations. Law and order means nothing to them.

"That's all Flint was trying to do—to instill discipline into these prisoners."

Six men have already been tried by summary court-martial on the charges, and four convicted. Seven others besides Flint are to be tried by stiffer special court-martial and two face trial by general courts, the strongest the Navy can call.

New Try For Missile Test

MISSILE TEST CENTER, CAPE CANAVERAL, Fla. (AP) — Technicians were believed poised today for a third try at sending the Atlas intercontinental ballastic missile soaring through a successful test southeast over the Atlantic.

Newsmen alerted to the possible test today were advised by an unidentified informant that the giant 5,000-mile rocket might not go until later in the week.

When asked if the Atlas would be fired today, the source said, "I would keep my eyes open."

Unofficial reports stated that technicians put the 90-foot rocket through a static test yesterday, keying the mechanism for its flight.

The Atlas has been fired twice from this secret base on the northeast Florida coast and both tests apparently ended in failure.

MAN CHANGING SEX—Frank Little, right, 40-year-old scientist and father of three children, poses with his wife at his Rosythe, Scotland, home after telling a news conference that he is changing sex. He said he would continue his work as chief of an electronics research team and will live with his wife "as a sister" to keep their family together. He will dress as a man to meet official requirements, he said, but the rest of his life will be lived as a woman. (AP Wirephoto-radio-London)

Officers Needling Crime Big Shots

MINEOLA, N.Y. (AP) — In early morning hours today squads of Nassau County police flushed racketeers from their homes in plush surroundings among Long Island commuters.

Dist. Atty. Frank Gulotta carried on his campaign of harassment against crime big shots, past and present, living in his area.

Fifteen residences were raided today and the seven men found at home were taken to headquarters here and released after questioning.

Among those picked up, authorities said, were Lrenzo Brescia, of Atlantic Beach, a former bodyguard for Charles (Lucky) Luciano, deported vice czar; and Benjamin Levine, also of Atlantic Beach.

Levine was identified by the district attorney's office as having been indicted with the late Louis (Lepke) Buchalter and Irving (Gurrah) Shapiro in 1937 on extortion in the New York City garment industry.

Also questioned was Anthony (Little Augie Pisano) Carfano, of Atlantic Beach. He has been a close friend of racketeer Frank Costello for some 20 years and reportedly was a top lieutenant for Al Capone in the prohibition era.

The others were identified as John Ormento of Lido Beach; Frank Livorsi of Atlantic Beach; Anadio Papadio of Lido Beach; and Domenick Ciaffone of Westbury.

4,700 In Chorus

STILLWATER, Okla. (AP) — Two guest conductors directed 4,700 high school singers in the 15th annual Thanksgiving Choral Festival at Oklahoma State University. The main number was "The Messiah" from the Hallelujah Chorus. Directing were Robert Wagner, Los Angeles, Calif., and John Raymond, Easton, Pa.

Lightweight Bricks Made Of Cane Pulp

FORT MYERS, Fla. (AP)—A construction man says he has a patent pending on a process for making lightweight, low cost bricks from sugar cane pulp.

Steven Chambers said he worked five years to develop the brick from bagasse, the pulp left after juice is extracted from the cane.

He said it will reduce construction costs 20 per cent and is only one-third the weight of ordinary brick. It is waterproof, fireproof and contains its own insulation against heat and cold, he added.

Stevens, a Negro who came to this country 31 years ago from the British West Indies, is now a U.S. citizen.

Opening Of Graves Backs Gein Story

WAUTOMA, Wis. (AP)—Dist. Atty. Earl Kileen says excavation of two graves convinces him that Edward Gein actually did raid cemeteries for parts of nine bodies found in his farm home.

Waushara County authorities reopened two graves in the Plainfield Cemetery to check the story of the 51-year-old bachelor.

Gein, who is undergoing 30 days of mental observation, admitted killing two women and robbing the graves of nine other women.

He is charged with first-degree murder in the death Nov. 16 of Mrs. Bernice Worden, 58, a hardware store operator. He also admitted killing Mrs. Mary Hogan, a tavernkeeper, Dec. 9, 1954.

Authorities opened the graves of Mrs. Eleanore Adams and Mrs. Mabel Everson, both buried in 1951. Their names were on the list of women whose graves Gein said he looted.

Mrs. Adams' casket was empty. The other coffin also was empty, but Kileen said a few bones and a small prying bar were found in the dirt above the empty casket.

"As far as I am concerned, the opening of these two graves verifies Gein's story," Kileen said. "I won't open any more if I can help it."

He said any further excavations will be "a state matter," adding that if Wisconsin Atty. Gen. Stewart Honeck "believes that opening the others is necessary, we will open them all. This deal is too big for Waushara County."

Honeck entered the case upon orders from Gov. Vernon Thomson. The attorney general directed Charles Wilson, head of the state crime laboratory, to coninue with all steps necessary to assure a complete investigation of the Gein case.

The governor asked Honeck to determine whether any crimes, other than the murder with which Gein is charged, had been committed by the quiet little handyman.

Hoffa Trial Jury Picked

NEW YORK (AP)—A jury of eight men and four women has been sworn in for the wiretap conspiracy trial of James R. Hoffa.

Selection of four alternate jurors starts today. They will be on tap to serve in event of the death, incapacity or other disqualification of one or more of the regular jurors.

Hoffa, president-elect of the Teamsters Union, is on trial with two other men in federal court.

There was difficulty in finding jurors who could declare their ability to give Hoffa a fair and impartial trial. Of the original panel of 125, only 44 remain. Many of the rejections were for prejudice.

Hoffa, of Detroit, is on trial with Owen Bernard Brennan, Plymouth, Mich., president of Teamsters Local 337, and Bernard Spindel, Holmes, N. Y., a professional wiretapper.

The three are charged with conspiring here between 1953 and 1957 to tap telephone wires of subordinates in the Teamsters' Detroit headquarters who might be witnesses in rackets investigations.

Peter B. Kyne Dies Monday

SAN FRANCISCO (AP)—Peter B. Kyne, who wrote rollicking best sellers of big business dealings in ships and timber, died yesterday at the Ft. Miley Veterans Administration Hospital here. He was 77.

Kyne's best known fictional character was Cappy Ricks, whose prototype was reputed to be the last Capt. Robert Dollar. Dollar founded the steamship line now operating as American President Lines.

After producing 12 straight best selling novels, Kyne said he had financed more bums and had more fun than any contemporary writer. He turned to writing in 1909 after a morning newspaper he and two friends started lasted just four months.

Weekend Drinking Problem Is Solved

MEADVILLE, Pa. (AP)—Sam A. McMillan, 57, of Meadville, won't have to worry about drinking on weekends for at least the next 10 weeks.

When he pleaded guilty to a drunken driving charge in Crawford County Court yesterday, he told Judge Herbert A. Mook that he drinks only on weekends. He added that it would work a financial hardship on his family if he were sent to jail.

Judge Mook solved McMillan's drinking and financial problems. The judge told McMillan he may remain free on weekdays but must serve the next 10 weekends in jail from 6:30 p.m. Fridays to 6:30 a.m. Mondays.

Solons Still Face Secret Problem

WASHINGTON (AP) — Thomas E. Murray wraps up the problem the Eisenhower administration and Congress must face next year and later: What to do about atomic secrets?

Murray used to be up to his neck in those secrets. He was a member of the Atomic Energy Commission. Now he's consultant to the Joint Congressional Committee on Atomic Energy. Expressing his own views in a report to the committee last night he took this position:

The huge blanket of secrecy thrown over nuclear development was all right so long as this country monpolized the field. It doesn't now. Russia is abreast of us for all practical purposes. Now it's time to share secrets with allies.

But not all secrets, Murray said. Not, for instance, those on the huge atomic weapons of annihilation. Murray thinks this country could hold on to them at least four or five years and retain exclusive right to decide when or whether to use them.

But he believes it's time to exchange information with allies on smaller nuclear weapons that could be used in a limited war and even set up a common stockpile of such weapons.

And he proposes — in dealing with the free world — "complete freedom for the exchange of all scientific and technological information bearing on the use of nuclear energy for human welfare."

Why? For one thing, to increase Allied unity at a time when that's exactly that this country wants to do. For another, it would enable the free world to get the best use of all the brains it has. He puts it this way:

It means a "common body of scientific knowledge and technical skills . . . partnership of technical effort toward the common defense and the common progress that will eliminate useless duplication of effort, meaningless rivalries, and wastage of talent, money and energy. . . . It means a fresh impetus toward scientific progress of all inds. . . ."

'Tom Sawyer' Set Tonight

"Tom Sawyer" a drama sponsored by the Snyder High School junior class, will be staged tonight in the high school auditorium.

Curtain time is 8 p.m. Adult admission to the play is 75 cents, and that for high school students is 50 cents.

The play, because of its historic and literary values, is being offered to students in the school system in special performances, one of which was yesterday afternoon. There will be another performance for students tomorrow afternoon at 1:30.

Although the junior class is sponsor, talent for the play is taken from the entire high school student body. Mrs. Jane Casebier, high school speech-drama instructor, is director.

Modern homes have plenty of phones

An additional telephone in your bedroom will put an end to those "blind" trips to answer late-at-night calls. A bedside telephone means you can reach instead of run. Additional telephones solve "one-phone" problems in any room in your home.

Arrange today to make yours a *well-telephoned* home. Take your choice of additional telephones in black, red, beige, yellow, ivory, blue, green, white, pink, or gray. There is a one-time-only charge for colors other than black.

AN ADDITIONAL RESIDENCE TELEPHONE
ONLY $1.00 A MONTH

Reduction In Oil Imports Urged Again

WASHINGTON (AP)—Texas independent oil producers joined Californians and others yesterday in urging that the government's program for voluntary reduction of oil imports be extended to the West Coast.

A hearing to gather information for the President's cabinet committee on crude oil imports was called by Capt. Matthew Carson Jr., administrator of the program.

The West Coast was excluded from the voluntary oil import curtailment program established by the President July 29. The cabinet committee decided then that production, imports and demand in the West Coast district were in substantial balance.

Spokesmen for the California independents told the hearing the committee assumed an import level of about 275,000 barrels a day. Actually, they said, imports averaged 309,000 barrels daily during the third quarter of 1957.

A recommendation that imports be restricted to 173,000 barrels daily during the first half of 1958 was made by Stark Fox, executive vice president of the Oil Producers Agency of California, a trade association of independent producers.

A statement by a spokesman for independent petroleum associations in Texas, Louisiana, Oklahoma and New Mexico said the Southwest has more than a million barrels daily of unused productive capacity which could be used to make up the West Coast deficit if transportation facilities were available.

The joint statement was read by John Davenport, general counsel of the Texas Independent Producers & Royalty Owners Assn. It said a West Texas-West Coast oil pipeline has been proposed for several years but has been thwarted by the availability of increased foreign oil imports.

Davenport was accompanied by W. E. Turner, executive vice president of the Texas Independent Producers and Royalty Owners Assn.; James Lauderdale, president of the West Central Texas Oil and Gas Assn.; and Jack Campbell, general counsel of the Independent Producers and Royalty Owners Assn. of New Mexico.

Lauderdale, an Abilene, Tex., drilling contractor, said West Texas has 8,000 wells which are not connected with pipeline facilities. He said trucking the oil to market has at times been quite expensive.

Lauderdale also testified that the independent producers in West Texas are in dire economic straits, with many drilling rigs idle. He said his own operation is functioning at only half of last year's capacity.

Official Of USCC Visits Chamber Here

Ledge Craig of Denver, Colo., regional head of the U. S. Chamber of Commerce, outlined some of that organizations objectives for the coming session of congress during a visit here Monday.

Craig, who met with several members of the Snyder Chamber of Commerce board of directors, said the national chamber organization will soon be busy keeping local and area chambers abreast of developments in Washington.

"This is an 'even' year session coming up, and congressman may be expected to keep one eye on the ballot box and the other on the issues at hand," Craig reminded. He said the USCC as usual will try to keep local organizations informed on legislation and will seek opinions from local organizations in its activities in Washington.

While here, Craig also called attention to materials available to local organizations and businessmen for conducting economic discussion groups. Such groups, he said, have already proved effective in explaining America's economic system to the general public. He suggested that the time has come for a redefinition of the American system so that many apparent misconceptions can be corrected.

Chamber directors here expressed interest in the program, and tentative arrangements were made for Craig to come here again after the first of the year, possibly in January, to discuss the program further.

Assignment Changes Announced By Shell

NEW YORK (AP)—Shell Oil said yesterday three assignment changes were made among executive personnel.

Production Manager R. W. Bond was appointed vice president in charge of the Tulsa exploration and production area effective Jan. 1. He succeeds C. P. Bristol, who will become vice president of the Midland, Tex., area.

J. E. Clark, now vice president in Midland, will move to New York as vice president in charge of production, replacing Bond.

Police Frown On Turkey Promotion

CARLSBAD, N.M. (AP)—City police here today were in a foul mood because Sam Jenkins was in a fowl mood.

Jenkins released 33 turkeys from the roof of his furniture store and the public was invited to catch them. Attached to the turkeys' legs were coupons entitling the turkey nabber to discounts in Jenkin's store.

Police took a dim view of the resulting confusion and traffic jams and charged Jenkins with causing a public disturbance.

AL NOTICE

THE STATE OF TEXAS

TO: Unknown heirs of H. O. Wooten, deceased, and the unknown heirs of the unknown heirs of H. O. Wooten, deceased.

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 23rd day of December, A.D., 1957, at or before 10 o'clock A.M. before the Honorable District Court of Scurry County, at the Court House in Snyder, Texas.

Said plaintiff's petition was filed on the 4th day of November, 1957.

The file number of said suit being No. 7319

The names of the parties in said suit are: J. W. Crumley as Plaintiff, and the unknown heirs of H. O. Wooten, deceased, and the unknown heirs of the unknown heirs of H. O. Wooten, deceased.

The nature of said suit being substantially as follows, to wit: Trespass to try title to Lot No. 3, Block 16, Hermleigh, Texas. If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 4th day of November A.D., 1957.

Given under my hand and seal of said Court, at office in Snyder, Texas, this the 4th day of November A.D., 1957.

Eunice Weathersbee, Clerk
District Court, Scurry County, Texas
By Deputy

Panel Gets Suggestions

AUSTIN (AP) — Hundreds of suggestions aimed at improving Texas' schools were received yesterday by the Public Schools Study Committee.

Members cited improvement in language and science teaching as one of its main targets.

Charles Simons of Dallas told the 24-member study group "a crash-type program in science" is Texas' major need.

The group will complete at its Jan. 18 meeting various questions and reports for study by local committees. It set Oct. 1, 1958, as a deadline for its final report which will be presented to the Legislature with suggestions on how to improve schools.

Simons, vice president of Texas Midcontinent Oil and Gas Assn., made his statement after Ed Ray of San Antonio called attention to President Eisenhower's appeal for more science students and teachers.

The President made the plea in answer to Russia's scientific claims and its launching of satellites.

Others questioned the need of education courses for persons who would otherwise by qualified as teachers, but cannot do so without a teachers' certificate.

Created earlier this year by the Legislature, the committee said it aimed for reports in these four fields:

Program — Whether the school year should be expanded from nine to 10 months; should schools go on a quarter system, keeping the nine-month schedule but allowing use of school buildings through the year; should districts be reorganized to meet higher standards; what should be taught and at what level.

Teacher supply—Should there be merit pay for teachers; how to make the field more attractive; are education courses necessary for a person seeking to become a teacher.

Finance—Should the state allow more liberal investing of the permanent school fund; should the distribution of state funds be changed; should direct state grants be made for school building construction.

School construction — Are new school buildings "too frilly with excessive accessories" putting an excess tax burden on the public.

Tito Plans To Revamp Party Lineup

BELGRADE, Yugoslavia (AP) — President Tito, 66 and ailing with lumbago, was reported today preparing to revamp Yugoslavia's government and party lineups in a move to lighten his own work load.

Informed Belgrade sources said he plans to make Edvard Kardelj the leader of the Yugoslav government and Aleksandar Rankovic the leader of the Yugoslav Communist party.

Kardelj and Rankovic, two of Tito's closest collaborators, are now vice presidents.

The sources indicated Kardelj would become sort of a prime minister, with Tito retaining the post of president.

Rankovic, according to the sources, would take over the job of Communist party secretary-general, now held by Tito.

Main purpose would be to take day-to-day routine work off the ailing Tito's shoulders. But he would still have a decisive say on top-level matters, the sources said.

They emphasized that Tito himself planned the changes and proposed them to the Communist party Central Committee, which reportedly has been examining them at closed meetings over the past several months.

Yugoslavia's Communist party is due to hold its next congress in the spring of 1958. It is considered possible the changes will be announced then.

Daily Crude Flow Rises

TULSA (AP)—Daily average production of crude rose 15,475 barrels to 6,838,325 during the week ended Nov. 23, the Oil and Gas Journal said today.

The Journal estimated 1957 production at 2,250,710,825 barrels compared to 2,338,720,935 barrels a year ago.

Other advances were in Arkansas, up 2,650 barrels to 82,750; Colorado, up 2,250 to 147,000; Oklahoma, 1,700 to 571,200, and New Mexico, 50 to 254,350.

Louisiana fell 700 barrels to 816,800.

Production was unchanged in Texas, 2,721,400 barrels.

Influence Damage Is Over-Emphasized

MONTGOMERY, Ala. (AP)—Sen. Sparkman (D-Ala), who recently returned from the Far East, said yesterday that talk that the Little Rock school integration controversy hurt U.S. influence abroad had been greatly over-emphasized.

"The feeling where I visited was that those nations had their racial problems just as we do," he said.

Sputnik, he added, had a far different effect.

"You talk about something that hit us hard, well Sputnik did," Sparkman said. "That was all they were talking about."

Most of the countries in the Far East are uncommitted to the free world or Communism, he said; they want to be on the winning side; but "with Sputnik up there they are no longer sure that America is on the winning side."

Raymond Griffith Dies In Hollywood

HOLLYWOOD (AP) — Raymond Griffith, whose movie career as a comedian and producer dated back to the Mack Sennett era, died last night of a heart attack. He was 70.

Griffith was dining with friends at the Masquers Club when he was stricken. A physician pronounced him dead after administering artificial respiration.

A silk top hat was Griffith's trademark as a comedian. He also wrote many of the comedies produced by Sennett.

MILLIONAIRE OILMAN WEDS—H. L. Hunt, Dallas, Tex., oilman, reputed to be the world's richest man, poses with his bride, the former Mrs. Ruth Ray Wright, after their wedding in Dallas. It was the second marriage for both. Hunt is 68 and his bride 40. (AP Wirephoto)

Full Probe Of Liquidator's Office Asked

AUSTIN (AP)—An Atlanta representative has offered a resolution requesting the House Interim General Investigating Committee to make a full probe of the operations of the Insurance Liquidator's office.

Rep. Abe Mays introduced the resolution and it was sent to the committee on rules.

The resolution said the administrative cost of the office has been "extremely high" and "it has been almost impossible for the stockholders and creditors of these companies in receivership to collect any of their assets or to receive a report of the status of the same."

Mays' resolution also said that "too much time and money have been expended in the liquidation of these companies and undue delay has been caused by the state insurance liquidator."

The liquidator's office is responsible for refunding money to policy holders of companies which have gone into receivership from the companies' valid assets. Liquidator J. D. Wheeler has dozens of such companies under his direction, including U.S. Trust and Guarant and ICT Insurance Co.

Krush Warns Officers To Stay In Line

MOSCOW (AP)—A month after Russia's top military officer was sacked for resisting Communist party controls, Nikita S. Krushchev warned the nation's lowliest new officers not to buck the party.

The Communist party boss spoke at a reception last night for the graduating class of Moscow's military academies, reviving a custom that lapsed with Stalin's death in 1953.

Like Stalin, Khrushchev used the ceremony to remind the young officers that the party is supreme in Russia. He also called upon them to increase vigilance against "the threat of war whipped up by imperialists."

Khrushchev said Marshal Georgi Zhukov was ousted as defense minister Oct. 26 for opposing political control of the army. "The decision of the Central Committee (to expel Zhukov) aimed at a fundamental improvement of party political work in the armed forces," Khrushchev said.

The party boss declared the party is "leader, organizer, educator and main source of power" of the Soviet armed forces.

Khrushchev repeated recent public statements that Soviet armed forces are equipped "with all types of modern arms, including atomic and rocket techniques" and said Russia has launched an international ballistic missile.

"The international situation demands that we maintain the defense of our country on the highest levels of modern military techniques and science," the party secretary said.

"The policy of the U. S. ruling circles," he charged, "is aimed at undermining peace. So long as imperialism exists, a situation of war may arise."

The Nobel prizes are worth 208,000 Swedish kroner (about $40,000).

WAC Colonel Sees No Need Of Pads

TOKYO (AP)—The director of the U. S. Women's Army Corps said today she sees no need for introducing elsewhere a suggestion advanced here that WACs fill out their uniforms with falsies and girdles.

"We like for them to be independent in these matters," said Col. Mary Louise Milligan. "Our commanders are always interested in their women looking well. . . . They take pride in setting the pattern themselves."

Col. Milligan, nearing the end of a Far Eastern inspection tour, also told a news conference WACs could be trained for actual combat if necessary; WACs catch few foreign husbands; and pretty ones do not disrupt work in male offices.

WAC Lt. Jeane Wolcott of Kent, Ohio, told her Yokohama WAC detachment in October to shape up with a little padding here and there and they did.

Col. Milligan, apprised of this, noted crisply, "The women are given an allowance for buying them to present a neat form of dress."

Under questioning she acknowledged:

1. Tough WAC sergeants don't exist. "I'm very, very pleased with their ability, efficiency and ladylike manners," she said.

2. There is no need at this time to train American women as actual combat forces, "but if it comes to that I'm sure they would be ready to serve. . . . They are psychologically ready."

3. Romantic stories of WACs marrying foreign husbands are just that. "The number of foreign grooms is relatively small . . ." About 20 per cent do win American husbands in their first year in the corps.

18 Miners Feared Dead In Japan

YAWATA, Japan (AP) — Eighteen miners were feared dead today after an accident at the Higashi Nakazuru coal mine near here.

Police said the wall of the mine gave way when dynamite was was touched off and water flooded the level.

Police said 25 miners were working when the accident happened and seven escaped uninjured. Rescuers rushed to the scene.

THE BIG M FOR '58_FIRST WITH SPORTS-CAR CONTROL AND THE SOLID, LUXURIOUS RIDE OF A LIMOUSINE

M

AND FEATURING EVERYTHING NEW FROM SELF-ADJUSTING BRAKES TO A NEW HILL CONTROL

Awaiting you at your Mercury dealer's is a car that, in many ways, makes driving a new experience. Here are four examples:

Big new brakes that adjust themselves automatically!

Mercury's new brakes are self-adjusting for the life of the brake lining. They automatically adjust for lining wear during the course of your daily driving—save time and cost of frequent brake adjustments.

A chime that warns you when you exceed the speed limit.

Mercury offers a Speed-limit Safety Monitor which can be set at any desired speed. A warning chime sounds when this speed is reached — saves having to watch the speedometer.

A power feature that automatically lubricates your car every time you start it.

Mercury offers you power lubrication. It works *automatically* whenever you start the engine, or push a button on the dash. And each lubrication costs less than *one-half cent* —cuts down on trips to the service station.

A separate push-button that gives you engine braking on down-hill grades.

All Mercurys equipped with Merc-O-Matic Keyboard Control have a new Hill Control. Just push a button for the extra safety of *engine* braking. (Your brakes last longer, too.)

Equally important are Mercury's new road-hugging size and weight—and revolutionary *Cool-Power* Marauder engines. Teamed with Mercury's wonderful new driving aids, they result in a car that can't be matched anywhere for control, handling ease, performance and comfort.

We invite you to try Mercury's new *sports-car spirit with limousine ride.* Just stop in at our showroom. See how much more your money buys in a Mercury.
