## ONE THIRD OF SENATE FAVORS TAX REVISION

WASHINGTON, Nov. 20.—A poll disclosed today that more than one-third of the senate favors revision of the undistributed profits tax. It stipulated leaders of the aid-to-business bloc to broaden their demand for legislation intended to stem the current business recession.

Leaders of the bloc added two objectives, legislation to lessen labor strife and to relax federal regulation of utilities to their goal of tax revision.

Sen. Joshua Bailey, Dem., N. C., and Frederick Stelwer, Rep., Ore., sponsored the new proposals.

Bailey, declaring that factors in addition to the profits tax had caused the business slump, called for congressional action to end the strike among the rival unions of the A. F. of L. and the C. I. O., and to prevent illegal strikes.

Stelwer said the labor situation in the west had been one of the important factors in hindering business and that action should be taken to force unions to accept arbitration of their quarrels. He said that a modified form of the proposed little T. V. A bill might be feasible but there should be an end of governmental tinkering with the currency and a relaxation of regulation of utilities.

Meanwhile, following President Roosevelt's order for an investigation of monopolies by the Federal Trade Commission, Sen. Joseph C. O'Mahoney, Dem., Wyo., said that it was "absurd" that our economic system should "go into a spin" when a few men in the social circles of New York City get the jitters.

## Tied Up Senate in Lynch Knot

Senator Tom Connally (Dem., Tex.) right, so violently opposed the anti-lynching bill that he continued "filibustering" in his own office following an hours-long Senate speech. He relinquished his floor leadership of the filibuster to some of his southern colleagues, and is shown above as he continued his speech with gestures, to Senator Claude Pepper (Dem., Fla.)—who also opposed the measure.

## U. S. EMBASSY IS MOVED TO SAFE QUARTERS

SHANGHAI, Nov. 20.—American embassy archives were loaded on the gunboat Luzon at Nanking today and the embassy personnel prepared to leave, as the Chinese government announced formally its abandonment of the republic's capital.

In making the announcement the government said its removal was made only in order to seek a more advantageous place from which to prosecute the war against Japan.

"The rally of the nation to resist Japan has laid the basis for a new Chinese people," the government statement said.

At Shanghai the Japanese announced the capture of Soochow 45 miles west of Shanghai by a strategy like that with which the Greeks took Troy.

Fifteen men gained admittance to the city gates from sleepy Chinese sentinels. In making their way they hoisted the Japanese flag as a signal to troops outside, who stormed the gates, cut down all Chinese and took the city.

At Shanghai, also coincident with the government announcement of the abandonment of Nanking, a statement was made public from Mao Tse-tung, political chief of the Chinese communist army, now the eighth route army. Issued at his headquarters in the far northwest, the statement urged a complete change in Chinese strategy from passive resistance to active attack and the massing of every able-bodied man and woman to fight.

Location is 660 feet west of the east line, 668 feet south of the north line, S. P. R. E. company survey, southeast quarter section 478. The Thomas 160 acres adjoins to the west the Van Parme land.

The Lone Star's well marks the second initiated following the completion of the Van Parme. Hickok has already started work on a well a mile and a half south-east of its producer.

Chastain et al No. 1 Eob Weddington, three and one-half miles north of Cisco and about four and a half miles south-east of the Hickok, which was understood to be drilling ahead after topping Caddo line at 3,307 feet to a total depth of 3,350 feet. Drilling to the Ellenburger line as found in the Hickok is viewed as probable.

Spudded during the week was J. D. Beckelman No. 1 C. Murphy, H. & T. C. R. E. company survey, section 114, block 3, about one and one-half miles south of Nimrod and about 10 miles west of Rising Star, Eastland County. It is a 500-foot test.

After having a slight show of oil at 2,040 feet, States Oil Corporation at 2,065 feet was drilling in shale in the deepening of No. 9 G. T. Parrack, about seven miles north of Eastland, section 7, block 4, H. & T. C. R. E. survey. The show was in a sand.

In Callahan county, it was reported, showing of oil in limy formation at 1,641-91 feet in the Phillips Petroleum company No. 1 Cotart, 4,000-foot test, has been tested for five barrels daily. The well will be drilled ahead as to original plans, it was also reported.

In Erath county, about three miles southeast of the Hickey et al Desdemona extension well, the Southwest Production company was to shoot with 160 quarts a line formation at 2,902-3,065 feet. Inner string was set at 2-870 feet.

About two and one-half miles east of Desdemona, Eastland county, but also in Erath county, the Arnold Oil company was drilling on No. 1 McMillen, 1,700 feet west of the Hickey completion, at 3,000 feet.

Gallagher-Lawson et al No. 1 Terry in the area of the old Desdemona activity and projected as a 5,500-foot test, continued to underream 6 5/8 inch casing at 4,445 feet. It is in Comanche county.

Also in Comanche county, near Sipe Springs, Dobbs No. 1 Hodges was drilling below 2,000 feet toward the Marble Falls lime. If this formation fails, it was stated, operators may deepen to the Ellenburger found productive by the Hickok company Eastland county well northwest of Cisco.

James D. Kittrell No. 1 Mrs. L. B. Reynolds heirs, 8 1/2 miles southeast of Eastland, was fishing below 963 feet.

At least 18 persons were killed and 54 wounded in air raids on Castellon, Almazora, Saireno, Castellon, Monsegros, Lerida and Bujaraloz. Fifteen were killed and 37 injured at Bujaraloz, dispatches said. In one town a hospital was set afire, it was asserted.

Lerida is the headquarters of Gen. Pozas, supreme loyalist commander on the Aragon front. Although well provided with anti-aircraft batteries, a nationalist squadron of heavy bombers succeeded in penetrating to the center of the city. They dropped a score of bombs and caused considerable damage.

The bombing provided the only highlight of the Spanish war as little fighting was reported from any front.

## NEUTRALITY OF U. S. BLAMED IN NEGOTIATIONS

BRUSSELS, Nov. 20.—The United States' strict policy of neutrality in all foreign wars has killed efforts to mediate the Japanese war, delegates to the far east conference said today.

The 19-power conference will reconvene Monday, probably only to give formal approval to denunciation of Japan and then adjourn sine die.

It was gathered that Britain and France have definite information that the United States will not join in applying pressure against Japan.

Without the full cooperation of the United States, it was agreed, Britain, France and the other powers are unwilling to go further with proposals to openly supply China with arms and apply economic sanctions against Japan.

Some delegates said the European powers might blame the United States for the ineffectual results of the conference.

## PEANUT CO-OP SUCCESS SAYS ITS PRESIDENT

Objective of the Southwestern Peanut Growers association, pegging of prices, has been obtained and work this season is viewed as highly satisfactory, W. B. Starr of Cisco, president, declared Saturday at Eastland.

The Southwestern Peanut Growers association is one of three organizations of its kind in the United States formed this year. The associations in addition to the Southwestern group are the Virginia-Carolina and the GFA southeastern states of Georgia, Florida and Alabama. Territory of the Southwestern Peanut Growers association is Texas, Oklahoma and Arkansas.

The GFA and Southwestern associations are credited, with the cooperation of the marketing division of the Department of Agriculture, to have increased income by \$18,000,000 to 250,000 growers. Cost of increasing the income was \$1,500,000 which will be secured from a \$130,000,000 fund representing 30 per cent of import duties. The sum was approved by Congress after the U. S. Supreme Court invalidated the processing taxes.

Starr stated growers in the Southwestern association territory were faced with a 50 to 55 cents a bushel price prior to organization. Price paid by the association was 93 cents a bushel and 87 cents a bushel. The association price was followed by commercial buyers, he stated.

Pointing to a communication from Roy E. Parrish, manager of the GFA, Camilla, Ga., Starr explained that although operation of the Southwestern was not on a large scale as the GFA the objective attained by both was the same—maintenance of higher prices for peanuts.

The Southwestern buying season is believed practically over. Approximately 50 tons have been purchased at warehouses in Ranger, Brownwood and Rising Star. Number of members is 130.

The GFA association bought approximately 30,000 tons from approximately 5,000 members at last reports. It maintained 69 warehouses in 48 towns.

The organizations will function again next year, it is stated. Prices the associations pay was set at a conference in Washington, D. C., of organization officials, officials of the marketing division of the agriculture department, shellers and others interested.

## Runaway Hill Cracks Paving

This six-inch crack, shown being measured by amazed young women, opened up in a paved road through Los Angeles' Elysian Park when a 2,000,000-ton hillside under it began "running away." Old settlers insist it is caused by cutting-in of ancient Spanish treasure tunnels.

## POLICE FIND NEW MYSTERY NEAR DALLAS

DALLAS, Nov. 20.—Police today discovered the body of the second man murdered in Dallas during the last week.

Willard Lloyd Pressley, 30, who was found in a roadside ditch, a bullet hole in his head and another in his stomach, was the latest murder victim.

Officers were without clues as to who shot the young ice cream store employe, and left him face up in a ditch in the outskirts of Dallas.

He had come here recently from Seattle, Wash., and was living with his mother and aunt. Pressley had not been seen since he left home at 1 a. m. Saturday to go to a nearby sandwich shop for a hamburger.

His family was unable to furnish a clue to the slaying.

Police were searching for his car, which was loaded with the personal belongings of him and his wife, who were preparing to return to Seattle.

Robbery was discarded as the motive for the slaying after police found \$2 in his pockets.

Police were still investigating the death of Harry Leon Helfman, Brooklyn business man, whose bullet-pierced body was dragged from a sewage disposal pit Wednesday. Robert Lacy, held in county jail on a charge of murdering Helfman, admitted he shot the New Yorker to obtain Helfman's new car.

Funeral services for Mrs. Wheat were arranged to be held at 3 p. m. today at the McGregor Methodist church. McSpadden's body was brought to Waxahachie for burial.

World Lawlessness Taken for Granted

The Mediterranean world has got over the bad attack of jitters which afflicted it a few months ago.

Not long since, the air around that historic sea was charged with tension and nervous expectancy.

Now, says Anne O'Hare McCormick in a dispatch to the New York Times, the tension is eased.

But this is not good news. On the contrary, as Mrs. McCormick points out, it is just about the worst news possible.

It is worth while to ponder over this fact for a moment, for it is perhaps the most dismaying fact on the horizon today.

Consider the state of affairs on the Mediterranean. Warships are patrolling the sea lanes on a war-time basis.

On shore things are little better. At least three great nations, technically at peace with the world, are up to their necks in war that is tearing Spain to bits.

Yet it is this situation, as violent and unsettled as something out of the middle ages, which people are getting used to.

Now the point is this: in an orderly, civilized world, such a state of affairs does not exist.

Yet, as Mr. McCormick remarks, people have grown used to this anarchy. It seems to be the normal condition for the world of 1937.

After all, China's plight might be worse. They haven't yet formed an international non-intervention committee.

THERE'S LESS PEACE AND GOOD WILL AS SANTA CLAUS TOWN GAINS FAME

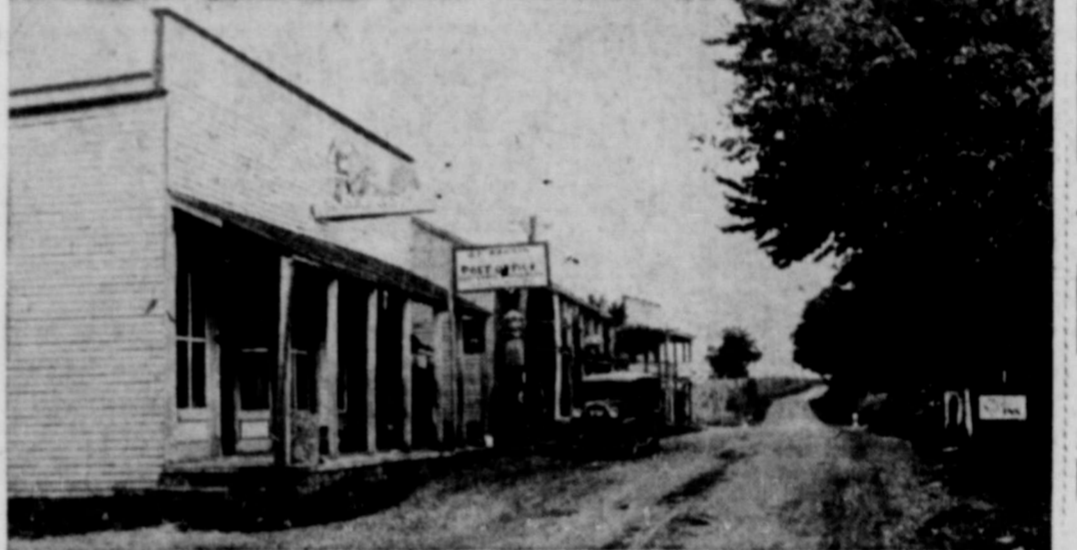

Legal Battles and Commercial Wars Beset Village

By NEA Service SANTA CLAUS, Ind. — Christmas is already within hailing distance, but peace on earth, good-will toward men are not doing so well in Santa Claus.

This tiny village of 67 inhabitants, which became famous some seven years ago when its unique name was dug out of the postal guide, has lured the price of fame.

Controversies and at least one bitter legal battle involve the whole village. One man obtained leases on every inch of land in and about the village.

A permanent injunction has halted work at Santa Claus Park, partially-completed as a sort of

Santa Claus, Ind., for years a sleepy little village near Evansville, never foresaw today's complications when it adopted its unique name. Here's the main street and the postoffice that handles all that mail for the Christmas saint.

Milton E. Harris

Postmaster Oscar Phillips

Postoffice Department informed them that there was already a Santa Fe in Indiana. So they had to think up something else, quick. Santa Claus was the next thought.

Part of this he accomplished, with the result that the town now has a patchwork look with jigsaw toy towns under the guard of wooden soldiers, a Candy Castle, a Northland Park with totem poles, wishing wells, and elves' workshops.

That may be at stake are indicated by reports that a big auto company tried to acquire exclusive use of the Santa Claus postmark for \$100,000 a year, and that a maker of soft drinks offered \$750,000 for a concession that would put Santa Claus back of his product.

Another attempt to make use of the magic name of Santa Claus was made by Jack Cannon, a motor worker in Dearborn, Mich. Cannon had his name legally changed to Santa Claus and set out for his Indiana namesake town.

## Epidemic Closes Chicago Schools - But Radio Brings Home Lessons

During the recent severe epidemic of the dreaded infantile paralysis in Chicago, schools were closed but the teachers instructed their little pupils just the same. Radio broadcasting stations gave them the chance to tutor the children in their homes by sending lesson through the radio. Here is shown a typical group of youngsters learning their geography with their Philo and a globe. The novelty appeared so much that it was felt the gap in their studies was well bridged.

Rev. Brown is married, and has one son, past three years of age, and names for the club were suggested.

## Junior College News Notes

BY DOROTHY BYAS  
Advisories On Monday morning all of the students met in the auditorium and were re-seated. Students from now on must sit in the assigned seats during chapel or they will be counted absent.

Chapel Miss Spinks was sponsor of the chapel program Tuesday. Women's fashions from 1833 to 1937 were modeled.

In 1833 hoop skirts and ruffled parasols were the prevailing style. During the years between 1833 and 1893 hoop skirts and mannish dresses were the vogue.

In 1893 wide shoulders and broad skirts were all the go. In 1910 hobble skirts and tunics were worn, but in 1913 the skirts were much wider, and by 1920 the dresses were very much like those of 1928. They had very long waists and very, very short skirts. All of these styles were shown in contrast with our modern day fashions.

Thursday we had a short pep rally.

Library Club The high school library club met last Wednesday, and one new member was admitted to the club. New ideas for the coming programs were discussed. We should like to have a lot more new members. The meeting was adjourned—Reporter, Nova Young.

Tennis During the club period plans for subscribing for a tennis magazine were discussed. Mr. Wilson, the club sponsor, talked on the rights and wrongs of tennis.

Home Ec The president, Minnie Lee Shirley, presided over the club during the meeting. A report on the meeting at Breckenridge was given by Alpha Lee Robinson. After the new constitution had been adopted a wiener roast and skating party was planned for Friday night. All members are to meet at the high school building Friday at 5 o'clock and go to Cisco.

Dramatic Mrs. Hunter demonstrated the ways and means of putting on makeup. The president of this club is Pauline Bryan, and the sponsor is Miss Black.

in verse, and read by Rozelle Nicholson.

First verse that was read found the 1833 girls of covered wagon days to be Bobby Lee Coffman. She wore a blouse and a gathered skirt. Her sleeves were large and lined with lace. She wore a lace shawl caught in the front with a brooch. A polk bonnet lined with lace and tulle in violets and a ruffled sunshade completed her costume.

In the year of 1868 came the hoop skirt modeled by Dorothy Joan Lindsey. She wore a pink hoop skirt with drop shoulders. Then came the bustle prominent in the year of 1893, worn by Clarence Wells. She wore a white waist, and her skirt was straight in front and draped over a bustle in back. She carried a long handle black bag.

The hour glass costume was modeled by Mona Vee Brewer, who wore a blue skirt. Her sleeves were leg-mutton sleeves. They were enormous. Her waist tiny, and her skirt gored and very flared at bottom.

The hobble skirt was modeled by Dorothy Christian. She wore a large velvet hat with an ostrich plume and high lace shoes. Mettamae Woods modeled a wedding dress from 1913. It was a white satin dress with a large collar of lace. Swatchable tunic and wide satin cash. Her hat was wide brimmed and trimmed with satin.

Flapper girl time came in 1927. The model was Minnie Lee Shirley. She wore a long waisted dress of rose crepe with a sharp accordion pleated skirt. She had her face fainted in a manner typical of the period.

Last page of verse found the present day model, Annetta Faye Huffman. She wore a black velvet dress, trimmed with fringe and gold. She wore a black hat with black and gold veil. She carried a black purse with a gold chain handle.

Five of the costumes used in the show was made in the Home Economic Department. A few measures of a song popular during each model's period was selected and rendered by the High School orchestra under the direction of Mr. Tulloch.

## Air Mail Survey Is Being Planned

Word has been received in Ranger that an air mail feeder survey week is to be observed by the postoffice department, with planes stopping at practically every town in the nation to pick up air mail letters during the week, to determine whether or not it is practicable to extend air mail service to the smaller communities.

Each town to be visited by the survey crew and one of the air mail planes, of which Ranger is one, has been urged to cooperate in the survey by appointing committees on arrangements and to welcome the airplane at the airport. All citizens have been urged to mail at least one airmail letter on Dec. 10, the date the plane will arrive in Ranger. A special cachet has been suggested by the postoffice department for the city for that day.

The arrangements committee, appointed Saturday, is composed of J. E. Meroney, C. J. Moore, A. E. Crawley and Ken Ambrose. The reception committee, appointed in conformity with post office de-
