

Welcome. And A Top O' Texas 'Top O' the Morning' to Fort Worth!

Pampa says "Top o' the Morning" to Fort Worth—and at the same time extends a Panhandle welcome to members of the Fort Worth Goodwill delegation and a neighborly hand-clasp to each of you from the people of "The Friendly City of the Plains."

one more to greet the business men from Fort Worth who have made so many friendly gestures to the plains cities in years gone by.

ity and to know that it is not just an idle word to be banded about on special occasions such as this one.

Schulkey, of the Junior Chamber of Commerce, and through the heads of the city's various civic clubs—Pampa welcomes you, wholeheartedly.

Country Club Has Formal Dance on Wednesday Eve

An outstanding event of the spring season was the formal dance given last evening by the Pampa Country Club for 29 couples at the club.

Dancing to the music of Curley Neece's orchestra entertained the group from 10 until 1 o'clock.

Modern Menus

By MRS. GAYNOR MADDOX

When the dinner guest is unexpected, why not do the unexpected yourself, and begin the meal with a sudden soup. The following recipes show you how.

Salmon Bisque
(Serves 4)
Two and one-half cup milk, 1 tablespoon quick tapioca, 1 tablespoon minced onion, 1 tablespoon butter, salt, pepper and paprika to taste, 1 cup minced canned salmon, 1 teaspoon parsley, 1-2 teaspoon lemon juice.

Scald milk. Add tapioca, onion, butter and seasoning. Simmer 15 minutes. Then add minced "canned" salmon, parsley and lemon juice. Heat thoroughly and serve. If it gets too thick use hot milk to thin it.

Green Lettuce Soup
One head lettuce, 1 tablespoon flour, 1 tablespoon butter, 1-2 teaspoon sugar, 2 cups clear stock or canned consommé, 1 cup light cream.
Shred lettuce. Heat butter in saucpan, stir in flour, lerkon Jules and sugar. Add lettuce and simmer 10 minutes. Then add stock and seasoning. Simmer a few minutes, add cream, heat thoroughly and serve.

Quick Tomato Consomme
(Serves 4 to 6)
One carrot, 2 stalks celery, 1 small onion, 2 tablespoons left-over peas or beans, 1 potato, 1 cup tomato juice, 2 cups water, 1 teaspoon butter, seasoning.
Chop carrot, celery and onion. Combine with hot water and boil quickly 10 minutes. Add seasoning, tomato juice, and simmer 5 minutes. Add butter, and a bouillon cube can be added when the soup is removed from the stove.

MIND your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Who holds the bride's flowers while the wedding ring is being slipped on her finger?
2. Who straightens the bride's train when she turns to leave the church?
3. Is a toast to the bride drunk at the bachelor dinner?
4. May a girl go with her fiancé when he selects her wedding ring?
5. Are ushers always sent bou-tonnieres?

What would you do if—
You are a groom—about your ushers' gloves and ties?
(a) Tell them what they are to wear?
(b) Leave the matter up to them?
(c) Buy gloves and ties for each of the ushers?

Answers
1. The maid of honor.
2. The maid of honor.
3. Yes.
4. Yes, if he asks her.
5. Yes, by the groom.

Bridge-Luncheon Entertains Club

Glorifying Yourself

By ALICIA HART.

One who has little time to spend doing beauty routines and even less cash for cosmetic preparations can console herself by remembering that—
Health is the foundation of true beauty. And that fresh air, plenty of exercise, adequate rest and a sensible diet make for health.

One good cream, used regularly and correctly, is worth half a dozen preparations, used infrequently and haphazardly.
Ice water is a pretty good substitute for skin tonic. Older skins may require an astringent but young ones can get by nicely with ice water, slapped on twice a day, of course.

A long, brisk walk every day will keep the figure so trim, supple and slender that one won't be tempted ever to envy the gals who can afford the professional massage treatments for removing excess weight.

There are excellent inexpensive hand lotions as well as high-priced ones.
Anyone who wants to, can learn to give herself a very professional-looking manicure. Furthermore, fine manicure implements last for years.

Nightly brushing is the best known treatment for hair which is dull, lifeless, too dry or too oily. The girl who uses her hairbrush every day won't have scalp and hair problems.

Meticulous cleanliness is a luxury not confined to the wealthy. Water is free to all and sundry—and soap is cheap!
Anyone can learn to be truly efficient as far as grooming is concerned. The busiest business woman manages to turn themselves out amazingly epic and smart simply because they have worked out a sure fire system then stuck to it.
Excellent posture and a pleasant

Spring flowers added color to the bridge-luncheon which was given yesterday afternoon at the Schneider hotel by Mrs. H. T. Kelley for members and two guests of the Wednesday Contract club.
High scores in the games were made by Mrs. Bert Howell and second high was made by Mrs. H. C. Berry.

Members attending were Mmes. Nell Donavon, H. C. Berry, Robert L. Freeny, Roy Rousavell, Earl Scheibe, Bert Howell, and E. E. Carlton. Luncheon guests were Mrs. Leo Newman and Miss Ona Bartlett of Amarillo.

Mrs. Henry Will Speak at Meeting of School Group

Mrs. T. H. Henry will speak on "Education for Spiritual Values" at the regular meeting of the Sam Houston Parent-Teacher association Friday evening at 8 o'clock in the school auditorium. This meeting was originally planned for last week but was postponed because of the weather.

Officers for the new year will be installed at the regular P-T-A meeting which is to precede the study group meeting. An open discussion will be conducted at the study club session.

The Rev. Joseph Wonderly will lead the devotional for the group.
Disposition are requisites of beauty, and they cost nothing—in money anyway.

ARE YOU WEAK, NERVOUS?

Dallas, Texas—Mrs. W. A. Cather, 2105 Holmes street, says: "I was nervous, tired, weak, didn't sleep well, and had headaches and backache associated with functional disturbances. Dr. Pierce's Favorite Prescription gave me a fine appetite, relieved me of the backache and headache, and I felt much stronger." Buy it at any drug store. See how much calmer and stronger you feel after taking this tonic.

REMEMBER THE ALAMO! REMEMBER GOLIATH!

An event of more importance to Texans than any except possibly the Declaration of Independence occurred exactly 102 years ago today on the banks of Buffalo bayou near Houston.

The battle of San Jacinto virtually gave Texas, New Mexico, California, Arizona, Colorado to the United States, for the Mexican war which came as a direct result of the annexation of Texas, gave the U. S. its present boundaries.

San Jacinto day should be observed by Texas schools more intensively, because it is in the school rooms that patriotism begins and ends.

The battle of San Jacinto, one of the decisive battles of the world, is thrilling to remember. The courage, the daring, the burning, seething passion for revenge of those some 750 Texans, arrayed against thousands of Mexicans, is a deathless story.

TIME MARCHES ON

Traveling salesmen all over the country are bucking down to their studying about now.

If they aren't, they'd better be. The Great Upset is upon us. Some people call it daylight saving time, but travelers call it well, not The Great Upset, but a number of names of equal force, if less repeatability.

Or maybe there is no handy pocket pamphlet which travelers may study on the subject. In that case, they'll have to keep right on trying to learn by experience.

A traveling man's appointment for 10 a. m. in one city is likely to be an appointment for an entirely different hour if he neglected to adjust his timepiece en route.

The time-juggling situation has at least two consolations, however. Daylight-saving is being adopted by an increasing number of cities, and before you know it that's all the time there might be. Also, it's a consolation to know that it went into effect earlier in Great Britain, France and Belgium.

Behind the Scenes In Washington

By RODNEY DUTCHER

WASHINGTON, April 20—Sometimes official denials actually are true and, if one is to judge by additional vehement protestations made in private by the men who know, reports of a "tiff" between Vice President Garner and President Roosevelt at the White House were grossly exaggerated.

That point is relatively unimportant, however, because there really is a definite feud between Garner and Roosevelt. Friends of both will tell you that the vice president is the strongest political foe the President has in Washington.

Garner, like many other veteran Democratic politicians, doesn't want Roosevelt's influence to overshadow the 1940 Democratic convention. He also is opposed to most labor legislation and to large scale government spending.

The fact that Mexican laborers, once content with \$12 or \$14 a month, are now asking \$1.25 a day or more is attributed by Garner and others of his "Texas crowd" to liberal relief policies.

Tex's Topics

I'd like to be over in Canyon tomorrow night when Uncle Jess Wynne begins picking the winners in the old-time story-telling contest to be conducted in connection with the meeting of the Panhandle Plains Historical Society.

Gene Autry will not be an attraction at Pampa's Top O' Texas Fiesta as was being planned. The cowboy movie star only yesterday was knocked for a loop by the movie company which holds his contract.

So, Fiesta committeemen now are angling for a date with Greta Garbo, Alice Fay, Joan Crawford, Joan Blondell, Olivia DeHayland, Rufe Davis, Charlie McCarthy, or Donald Duck, who last was seen in a blizzard at Carter, Okla., a fortnight ago.

Dick Hughes is a student of Texas history. I heard him make an eloquent address on the eve of San Jacinto Day in which he led up through the life history of San Houston, the eminent Texan, and told of the fact Houston used after the capture of Gen. Santa Ana and how he traded the Mexican back at gain for Texas when others in on the capture, remembering what happened at the Alamo, wanted to string him to the highest tree.

Here's that man again! We got to wondering why we can say "The clock runs" and in Spanish the expression is "The clock walks" when strictly speaking it does neither, yet both expressions are readily understood, and we got told that it had to with idiom.

A picture of George W. Briggs of Eastland, who was to begin his duties as secretary of the Pampa chamber of commerce on May 1, appeared on page 1 of the NEWS.

ular among the Texans. Their state hasn't suffered badly from the depression, so Texans in Congress aren't belabored by relief demands. This has been more or less true all along, since Texas has benefited from farm payments and Jesse Jones long ago poured plenty of RFC funds into his home state.

Post Mortems: New Dealers, still holding post mortems on the disastrous defeat of the administration's reorganization bill, have concluded that even their victory in the Senate on that issue was far from clean-cut.

They have what they think is evidence of a deal between Senator Jimmy Byrnes, who had charge of the bill, and Finance Committee Chairman Pat Harrison, who had charge of the tax bill, whereby the reorganization bill was allowed to slip through in return for assurance that the tax bill could be whirled through without trouble.

Byrnes was anxious to maintain prestige as a Senate leader. He is close to Vice President Garner and supported Harrison for the majority leadership last year against Senator Barkley, the administration candidate.

House leaders found, when the bill was beaten 204 to 196, that they had miscalculated their strength—a significant comment on their effectiveness. Jimmy Roosevelt was supposed to do the heavy lobbying from "down town" and failed where a more experienced wire-puller might have succeeded.

The administration's lobbying wasn't vicious. It was just lousy.

'Let Your Conscience Be Your Guide'

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Mr. J. B. Priestly has some strange things to say about dramatic tastes on this side of the Atlantic in a current issue of a monthly magazine.

Mr. Priestly was represented briefly on Broadway this season with two plays, one of which was called an artistic triumph but failed to survive the public's apathy.

Both of these plays had good ideas but were handled so heavily that, from a box-office angle, they never had a chance to succeed.

The plays he mentions are "The Women," now in its second year, and "You Can't Take It With You," a Pulitzer prize winner also in its second year and one of the big money-makers in Broadway history.

Mr. Priestly, more in sorrow than anger, deplores the plight of the poor Manhattan critics who "drag themselves off to the theater nearly every night in the week, bored and grumbling, and are in no condition to appreciate the subtleties of dramatic art."

Subtleties of what art? That dull stuff he packed into "Time And The Conways," which in most observers, inspired one long, bored yawn, three acts long?

Scorging further after the wretches who observe the New York drama professionally, Mr. Priestly adds: "What they demand from the stage is a series of electric shocks, scenes that are tougher and tougher, comedy that is wilder and wilder, wisecracks that are more and more daring."

Finally he likens his writings to rare old liquor brandy which is unappreciated by New Yorkers because their palates have been impaired by constant usage of cheap bootleg whiskey and firewater.

Perhaps New York could use an occasional dram of honest liquor but in case of Mr. Priestly's brandy, I fear a little of the grape has turned sour. After all, two Broadway floppos do not add up to honey and cream.

SWITZERLAND UNEASY

GENEVA, April 21 (AP)—Switzerland wants the League of Nations to take up the question of guaranteeing respect for her neutrality should war come. League circles said the Swiss government's request for discussion at the council meeting beginning May 9 already had been sent to Joseph Avenol, Secretary-General.

People You Know

By ARCHER FULLINGIM

Here are some fascinating, remarkable dog-stories. They came in a roundabout way from Mrs. E. G. Wright of Tulsa:

Mr. and Mrs. Wright ran a picture show for 10 years, and an elderly couple who ran a hotel used to come to the show with their little dog. They sat on the back seat and in the center aisle; the dog sat in the aisle.

He (the dog) saw all the cowboy pictures, and let the horses tures. It was when things be would run down the aisle and sometimes go around behind the curtain. The dog appeared just as interested in pictures as his masters. He was all business and never walked around or looked anywhere but at the pictures.

W. H. Patrick of Clarendon says the influence of Col. Charles Goodnight is still so much alive in the Panhandle that people seem not to realize the famous high plains rancher has been dead 10 years.

Col. Goodnight is known as the father of the Panhandle. He was born in Macoupin county, Illinois, and rode a horse from Missouri to Texas when a boy. He was a scout for federal troops, Texas Rangers and volunteers, and participated in many Indian fights.

He established the noted JA ranch in Palo Duro canyon in 1875.

How's Your Health?

By IAGO GALDSTON, M. D.

Appendicitis

Only in recent times has the condition of appendicitis been fully recognized. The older generations were not free of this affliction, but they did not recognize it clearly.

During the latter part of the last century, appendicitis became a recognized disease condition and a surgical emergency.

Since 1900 there has been a consistent annual increase in the number of appendix operations performed in this country.

Some blame the surgeons, others constipation. Neither charge appears warranted.

As to the surgeons, if anything be true, it is that too many appendicitis sufferers are not operated upon promptly enough. Were all cases surgically treated within 24 hours of the onset of symptoms, the death rate from this disease would be negligible.

The cause of appendicitis has not yet been clearly defined. From experimental studies, it appears that three factors help produce acute appendicitis: (1) the bacteria normally present in the appendix, (2)

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—One of the great needs of Hollywood, in the humanitarian point of view, is a Department of Quick Extinction of Film Ambitions.

To it would be sent (when we become dictator) all those nice little girls and boys who come to Hollywood, get enough of a chance in pictures to prove they have nothing for pictures, and then persist in hanging on.

Before these pathetic subjects had a chance to think up alibis (such as unsympathetic roles, directors, cameramen) they'd be sent post-haste to the DQEFA. There sympathetic psychiatrists would work with them gently but forcefully, removing every trace of the yen to be in pictures. The final merciful work of the DQEFA would be to place the patients on a home-bound train.

The loss of real actors and actresses to the screen would be none at all. The people who are going to be stars wouldn't let themselves be led to the DQEFA. They'd escape the official clutches, or falling that, they'd prove impervious to treatment. These few would be permitted, with cheers, to stay and fight it out—and they'd win, as Bette Davis did, and Norma Shearer, and Jane Withers, and many another who had tough going at first and had to fight to win.

But Hollywood would be minus a pathetic and bewildered portion of its population: the people who have been in a few pictures and ever afterward think they're actors.

They seldom give it up and go home. Having been caught on the Hollywood merry-go-round, they won't jump off. It's too exciting, too much fun. Besides, if they went home, people might laugh.

Some marry, and keep on trying to make the movie grade. Others marry and gratefully retire from the screen. But most of them just stay around and keep on trying.

It's all much more difficult, of course, if the patient has had an extra strong dose of studio exploitation to begin her career. The "smell of greasepaint" isn't the only thing that gets in the blood.

ORDERS TO JEWS

The Carinthian businessmen's league announced everybody seeking government jobs or selling to governmental groups must prove Aryan ancestry.

obstruction of the outlet of this blind gut, and (3) injury to its lining membrane.

The obstruction of the appendix is commonly caused by a "fecolith," a small hardened mass of fecal material. How the lining membrane of the appendix is injured is not clear, unless the same fecolith causes it.

Not knowing the cause of appendicitis, we must be on guard to discover and treat the condition promptly.

The essential facts to remember are that an acute "stomach ache," especially when pain is felt in the lower right quarter of the abdomen, may mean appendicitis. Consider it as such until it is diagnosed as something else.

The Capital Jigsaw

By HOWARD C. MARSHALL

AUSTIN, April 21 (AP)—Illiteracy in Texas apparently is declining.

In 1930 the federal census listed 309,000 illiterates, but while the number at present is not known, C. W. Huser, state director of adult education, Texas Works Progress Administration, reports a "substantial increase" may be expected by 1940, when another census will be taken.

"Even with a substantial decline," Huser writes in the monthly bulletin of the state department of education, "this problem will still be far from solution."

"When we consider that for every illiterate there are three near-illiterates, it is easy to understand something of the need for adult education among our people of low educational background."

March 1, about 16,000 adult illiterates were attending 1,017 WPA classes in Texas, many for the purpose of learning enough English to obtain naturalization.

Since last March, 9,000 adults have learned to read in such classes.

A political campaign novelty has been sprung by Bascom Giles of Austin, candidate for the office of land commissioner.

Giles startled veteran capitol press correspondents by announcing he had employed Cal Speedy of Chrysalis City as "press agent."

Speedy was the first plain "press agent" to roll up his trousers and wade into the campaign. All the others had been "public relations" representatives.

G. C. Morris of Greenville, 25, one of the youngest members of the Legislature notwithstanding he is nearing the end of his second term, is one of the few representatives seeking more than a second term who went into the latter part of April without an opponent. He points out, however, there is plenty of time for someone to file against him.

He plans to do no more work in his quest for the speakership of the next House until after the first primary and predicts the candidate for this honor making the most headway with new members will win.

He claims he has inherited much of the support of Alf Roark of Saratoga and Charles H. Tennyson of Wichita Falls, who are leaving the House, the former to seek a county office and the latter to run for the Senate. Before deciding to quit the House, Roark and Tennyson had announced for the speakership.

"At this time," he said, "it looks as if the race lies between Bob Alexander and me."

Rep. Alexander's home is Childress.

Gov. James V. Alfred has received a check for \$5 from E. H. Deltner of San Francisco to add to the reward for the capture of the slayer of Mrs. Weston G. Frome and her daughter.

At the time it was received, it was the smallest contribution to the reward fund, but the governor expressed appreciation for it, nevertheless.

In fact, it was the only check that had been sent him. Other contributions from private citizens were in the form of bank guarantees.

Rewards posted by the governor are payable from what is known as "his law enforcement fund, for which the Legislature usually appropriates \$7,500 annually.

Out of the fund, in addition to paying rewards, the governor must meet the expenses of extraditing prisoners from other states.

In case of exhaustion by extraordinary demands, he also may supplement the fund by deficiency warrants, that is, warrants issued by him to be covered by an appropriation at the next session of the Legislature.

The reward offered by the state in the Frome case, \$2,000 for information leading to the arrest and conviction of the slayers and \$5,000 for discovery of luggage carried by the California women, was one of the largest ever posted by a Texas governor.

An unusual proclamation emanated from the governor's offices the other day. It was really three in one, proclaiming May 1 as Child Health Day, May 8 as Mothers Day and the

REAL TEST FOR HONOR AND SINCERITY

We know of no test by which man can be better judged as to honor and sincerity and intelligence than whether or not he will answer the questions on the important things he is advocating. If he refuses to answer questions and explain and still maintains his position, he can be marked at the worst possible enemy of society.

He is in this spite of the fact that he may often be occupying positions of honor and importance and posing as a friend of the people.

So the next time you read an article or listen to a man advocating some short cut of eliminating poverty, by taking from one and giving to the other, and he refuses to answer questions, you can mark it down that this man is a supreme egotist, a selfish individual, an un-Christian individual and undemocratic.

He is the worst enemy of society, dangerous, growth in officeholders, professors, columnists, labor leaders and any individual attempting to influence people on political and economic questions.

Great Cause For Class Distinction: There is not much question that there has been a steady and very dangerous growth in the United States in the last quarter century in class distinction.

Probably one of the primary causes of this growth is the introduction and attempt to put a graduated income tax into practice. If constantly develops class distinction—something that does not belong in a democratic form of government. It belongs only in countries governed by dictators and despots.

week of May 1-8 as better parent-hood week.

The proclamation follows: "Texans have welcomed for years past the opportunity of paying special tribute to the mothers of the state and nation, living and dead, to hold services in their honor and in every manner possible to give the Mothers Day specifically their own and upon which the thought of every citizen is turned with deepest affection.

"It is proper that a triple honoring of mother, babies and parenthood be rendered at the same time, that tribute to the nobility of parenthood be rendered and a study of these developments of science which make easier the life of the child be held."

The state department has enlisted the Austin Little Theater in its educational broadcasts over 24 Texas stations.

A dramatic series concerns a young couple welcoming their first baby.

"Health education is 50 per cent of public health work," explained Dr. George W. Cox, state health officer. "I expect to see dramatic groups over the country follow Austin's example."

Newspaper Censorship Spreading To American Continent, Says Editor

WASHINGTON, April 21 (AP)—Alfred H. Kirchhofer, president of the Society of Newspaper Editors, asserted today that "the black plague" of newspaper censorship was spreading to the American continent.

Kirchhofer, managing editor of the Buffalo (N. Y.) Evening News, opened the society's annual convention by declaring it was the duty of this country's free press "to defend and interpret free institutions."

"Today self-government is on trial," he said, "an independent press can uphold it."

"History shows that even the best of the politicians, job-seekers and office-holding bureaucracy tend to become self-serving. If they aren't thinking of re-election or reappointment, they are thinking of their place in the sun."

"It is the duty of the newspaper press to warn against such self-aggrandizement. To do this requires a high degree of competence, intel-

ligence, and experience in our editors and reporters.

"We should indeed be at the end of our rope if the American press were so subservient to government that it, in its entirety, reflected only the views of the government rather than reported and interpreted its action objectively."

"Our job is not to keep America, in these changing times, in the shackles of the status quo, but to make sure that, through methods of discussion and education which are basic features of the newspaper function, the virtues and defects of proposed alterations in our political, social and economic system are understood before we take steps which may lead to change but not necessarily to progress or reform."

FDR To See Editors.

Kirchhofer said it was an anomaly "that at a time of greater competition in news dissemination than ever before, the circulation of American newspapers is at an all-time high and that increasing criticism is being directed at these self-same newspapers."

"It doesn't make sense," he added "unless you accept the thesis that the masses are looking to these newspapers for competent, honest and courageous leadership. In other lands, dictators who establish propaganda bureaus think it is enough if they know. Here the people must know and understand."

"It is our responsibility not only to be concerned about what we

AIR EXPRESS ASKS ITS LINES BE EXTENDED

SAN ANTONIO, April 21 (AP)—A brief has been filed with the Western Air Express in Chicago by the Texas State Manufacturers Association, in an effort to have its lines from Amarillo extended to San Antonio. E. R. Goodwin, assistant manager of the association, said today.

A three-day check of first class mail going from San Antonio to Amarillo, San Angelo, Big Spring and Lubbock to obtain figures showing the need for air mail service between here and Amarillo will be conducted April 27-29. This information, it was reported, will be forwarded to Rep. Maury Maverick, who is conferring with officials in Washington to press for action on the proposed air mail route.

Western Air Express now operates a line from Chicago, through Amarillo to the Pacific Coast. The Manufacturers Association hopes to get this line routed from Amarillo via Plainview, Lubbock.

2,500 MUSICIANS AT SANTONE FOR TOURNNEY

SAN ANTONIO, April 21 (AP)—Two thousand and five hundred musicians, divided into one of the largest arrays of bands ever to assemble for a Texas tournament, gathered here today for the third annual Battle of Flowers band contests. Many sections of the state were represented by nearly 50 concert bands and drum and bugle corps, gathered as one of the highlights of fiesta week.

Judges for the tournament are S. D. Morehead of Centenary college, Shreveport, La.; William R. Wehrnd of the University of Oklahoma, and Ralph Beck of Dallas.

HENRY FORD TO TALK WITH FDR NEXT WEEK

SUDBURY, Mass., April 21 (AP)—Henry Ford, Detroit automobile multi-millionaire, said today he would confer with President Roosevelt during his visit to Washington next week, adding that he would go to the White House as man who had no favors to ask.

The automobile manufacturer talked briefly with newsmen during the morning at the famous Wayside Inn here, which he has restored as an early American hostelry with modern conveniences.

Ford, smiling as he chatted, that tempted to shake hands with the President "as an old friend" and have a chat with him. He said:

"I want to give the President a chance to look at somebody who doesn't wait anything."

Asked whether he would express any views about the new deal during his "chat" with Mr. Roosevelt, he replied:

"I shall not give any advice."

Ford gave his interview outside an old grist mill which is part of the extensive estate that makes up the rehabilitated Wayside Inn.

WILD ANIMALS SUFFER FROM ARTHRITIS—THIS MAY BE NEW CLUE TO CONQUERING DISEASE

By STEPHEN J. McDONOUGH, Associated Press Science Writer.

PHILADELPHIA, April 21 (AP)—Discovery that many wild animals suffer from chronic arthritis, one of the commonest and most painful diseases of man, was announced today as a probable new clue to methods of conquering it.

Speaking before the American Philosophical Society, one of the oldest scientific organizations in the United States, Dr. Herbert Fox of the University of Pennsylvania declared he had found the disease in a large variety of animals, both in zoos and in their natural habitat.

It is frequently found in gorillas, baboons and other great apes related to man, he declared, but also is found in other animals, such as hyenas. It is even possible that some of the ancient dinosaurs had

DOCUMENTS WILL BE MOVED TO WASHINGTON

The size of the head was reported to the society by Dr. Ales Hrdlicka.

An appeal issued through Science, weekly scientific journal, and the Associated Press "brought several scores of reports" from both men and women, "the modesty and sincerity" of which were evident, indicating that growth of the head is somewhat general among adult mental workers, Dr. Hrdlicka declared.

terrific cases of arthritis in the joints of their huge-bones.

The disease in animals appears to be chiefly an affliction of the spinal column, Dr. Fox declared, and the studies made indicate that the shock of walking or running may be the primary cause. He upset several old theories concerning arthritis by declaring that "there is no apparent relationship" between it and focal infections of the body, diets, or animal lives.

Because of the similarity of the disease in animals and man a new approach to the study of arthritis, which has been a particularly puzzling medical problem for centuries, is opened up, said scientists who heard the report.

MEXICO KEEPS OIL SECRETS

MEXICO CITY, April 21 (AP)—A lid of silence was clapped on Mexico's negotiations to sell oil today.

The department of propaganda and publicity henceforth will handle all statements from the National Petroleum Council and Government Export Company. It was disclosed by a government official who said there had been "too much loose talk."

Henceforth Vicente Cortes Herrera, general manager of the petroleum council, and Gustavo Espinosa Mireles, head of the export company, had enjoyed the privilege, not given any other Mexican official except President Lazaro Cardenas, of speaking for themselves.

Before the new policy went into effect Espinosa Mireles said reports were exaggerated that W. R. Davis, New York oil promoter, was going to buy 20,000,000 barrels of oil.

Davis himself could not be reached, although he conferred for several hours yesterday with Espinosa Mireles.

President Cardenas, meanwhile, postponed until Tuesday a full cabinet meeting which had been set for today.

After the cabinet meeting, it was reported unofficially, he intended to speak to the nation by radio on problems resulting from nationaliza-

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smearing and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness, under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

ADJECTIVES OF 1864 SHAME HOLLYWOOD'S

NEW BERN, N. C., April 21 (AP)—Mrs. Harlow C. Waldrop thinks Hollywood executives should turn to the last century to brush up their descriptive vocabulary.

She found behind her mirror a newspaper dated Feb. 8, 1864. It described a presentation of "The Trovatore" as "wondrous, incredible, inexplicable, indescribable, inexpressible, ineffable, monstrous, prodigious, and stupendous."

Wichita Falls Ready For WTCC Convention

Wichita Falls, Tex., "the city that faith built," is ready to entertain the twentieth annual convention of the West Texas Chamber of Commerce, April 24 to 27. The convales, to attract thousands of visitors, opens Sunday and will continue through Wednesday. On Tuesday afternoon, Mayor Florio H. LaGuardia, left, mayor of New York City, will address a convention assembly. On Wednesday morning, U. S. Senator Tom Connally, of Texas, will speak. Miss Elizabeth Huff, center, as "Miss Wichita Falls," will be the official WTCC convention hostess, and the host city's "Oil Queen."

NEW SUSPECT AND NEW CLEWS BEING PROBED

EL PASO, April 21 (AP)—Arrest of a new suspect and finding of possible new clues revived hopes today of officers digging deeper into the mystery slaying three weeks ago of Mrs. Weston G. Frome and her daughter, Nancy, near Van Horn. Fisher county officers probed further into activities of a Royston, Tex., man arrested yesterday for the reported robbery of another Royston man. A black 1937 Plymouth coach with white markings was used during the robbery. A similar automobile was described by witnesses who saw the suspected Frome killers driving in the Van Horn vicinity March 30, established at the time the torture murders occurred. The suspect was held at Roby. Sheriff Chris Fox of El Paso said a woman's shoe and other clothing found in a ditch near the Royston, Culberson county, would be examined today. The articles were found yesterday by troops on maneuver in this area, near the water's edge of Levinson tank.

MOB DISPERSES AFTER VISITING TWO JAILS

TEXARKANA, April 21 (AP)—A band of men who spent last night seeking a negro indicted for criminal assault apparently dispersed early today after visiting two northeast Texas jails. The men presumably gave up the hunt after they had asked for the negro at the Cass county jail in Linden and the Marion county jail in Jefferson. The negro, Frank Ellis, alias Tommie Wells, 25, is under indictment for assault on a young Texarkana woman. Quincy Telford, Bowie county jailer, said the band of men did not call on the jail at Bossin, although they had earlier been reported heading in that direction. Sheriff Henry Brooks said the negro was still in the hands of the state in an unannounced jail. The men formed a motorcade at

a shooting range here last night and started their search for the negro at Linden. Motion pictures of the rare white rhinoceros have been made in Africa by Capt. C. W. R. Knight. Firearms were first used in European warfare in the 14th century. Lotteries were permitted in some states as late as 1890. There are 600 Austrians in London.

DOG MUST PAY TAX ON BEQUEST OF MISTRESS

COLUMBUS, Ohio, April 21 (AP)—Jack, 12-year-old dog, must pay an inheritance tax on a \$500 bequest from his late mistress. Laura Prior bequeathed the sum to Howard Palmer in trust for care of her dog. A court ruling on file today held the bequest subject to a \$35 tax because it fell in a class including persons not related to the deceased. There are more than 54,500,000 church members in the United States. England's oldest military corps, the Yeomen of the Guard, was founded in 1485.

13 BOUTS LINED UP FOR ABILENE-PAMPA CLASH TOMORROW EVENING

CHAMPIONS OF TWO AREAS IN SIX MATCHES

Ten classy title bouts have already been arranged and at least three more will be lined up for tomorrow night's meeting of Pampa and Abilene Golden Gloves champions at the Pampa Athletic arena. First ring will sound at 8:30 o'clock sharp.

Seven or eight battles will be between champions or top boys replacing champions who cannot appear. A. C. Burleson is in an Amarillo hospital and Martin Cluck of Shamrock cannot make the trip.

Reserve seat tickets are going fast at the Pampa Daily NEWS where they are available for \$1, total cost. Seats are in the first, second and third rows and only 200 have been put on sale. General admission will be 40 cents at the gate, with duets limited to 1,200 before the doors are closed. The arena has been "gone over." All seats have been re-erected, washed and dusted and everything put in tip-top condition for the bouts.

Exhibition Bouts Tops
The meeting of the champions is being sponsored by the Pampa Amateur Athletic association of which Paul D. Hill is president. All proceeds, after expenses of bringing the Abilene team here and local costs, will be placed in the fund for the advancement of amateur sports in Pampa. The association hopes to have a good sized fund ready when a worthy cause is presented. Proceeds from the Golden Gloves tournament netted nearly \$500.

Some of the exhibition bouts are expected to be "homeys." The meeting between Doug Keyser and Ed Cassada should be worth the price of admission. Frankie Bills and LeRoy Regan are a couple of top boys.

Fans are urged to secure their reserve seat duets early because there may not be any left by opening time.

Burleson in Hospital
Trainer Cliff Chambers announced this morning that T. J. Watt had suddenly decided not to meet Lon McMillen, state Golden Gloves champion in the 135-pound class, claiming he was not in shape. Chambers had in reserve Arvil Hix, local boy, who has agreed to meet McMillen, state champion or no state champion. Hix is a class boxer who won for Pampa in the Pampa-Wichita Falls dual meet two weeks ago.

made because of a severe injury suffered by A. C. Burleson when he was gored by a bull. He is in an Amarillo hospital. Replacing Burleson in the welter-weight class will be Cleve "Red" Drake, local boy, who will meet Obid Nelson, Abilene's champion.

The pairings at the present time are:
Benny Moore, Shamrock, vs. Al West, 112 pounds.
Franklin "Rusty" White, White Deer, vs. Noah Valdez, 118 pounds.
Jake Eble, Alameda, vs. Kenneth Terry, 123 pounds.
Arvil Hix, Pampa, vs. Lon McMillen, 135 pounds.
Cleve "Red" Drake, Pampa, vs. Obid Nelson, 147 pounds.
Maurice Hutchinson, Pampa, vs. Jack Menatree, 160 pounds.
Exhibition bouts will include:
Frankie Bills, Shamrock, vs. LeRoy Regan, Pampa, 118 pounds.
Ed Cassada, Pampa, vs. Doug Keyser, Pampa, 112 pounds.

DiMaggio To Be In Uniform for Saturday Game

NEW YORK, April 21 (AP)—So Joe took the \$25,000 and Messrs. Joe McCarthy, Jacob Rumpert, and Ed Barrow breathed a collective sigh of relief the like of which hadn't been heard since the year of the big wind. The Yankees have Joe DiMaggio again.

Perkins Manager McCarthy was the most relieved yesterday afternoon when DiMaggio wired Business Manager Ed Barrow he had accepted the club's sole offer of \$25,000 after holding out for \$40,000 since Jan. 21. He said he would leave at once to join his teammates in New York. It will be up to McCarthy to judge Joe's fitness to play. The outfielder, who was the league's most sensational player last season and who led both majors in home runs, arrives in New York Saturday morning and will be in uniform when the Yankees meet the Washington Senators that afternoon.

Both Joes would like to see number "9" go up on the scoreboard when the lineup is given to the umpire; DiMaggio because it is costing him about \$162 a day to remain job, McCarthy because his bombers have been futile at bat without the services of the cannoner from the coast.

"I'm certainly glad DiMaggio is coming in," said McCarthy last night, "but I'm particularly happy he has seen the light for his own good. He has just avoided making the biggest mistake in his life."

TREMAINE TO MEET GORILLA POGGI MONDAY

Andy Tremaine, local wrestling favorite, will be given an opportunity to show his stuff Monday night at the Pampa Athletic arena when he tackles Gorilla Poggi of the Argentine in the main event. Starting time of the preliminary will be at 8:30 o'clock.

The flash from Arizona has been giving most of the boys lessons in the art of wrestling but last week he got tough against Prince Omar Yocachim which drew him the assignment to meet Poggi, one of the rough-necks of the area.

A semi-final will see Soldier Thomas returning to the local mat with Bob Cummings providing the opposition. Thomas appeared here once before as he made a real hit in battling George Hartay in a semi-final.

George Hartay and Dick Sampson will get together in a preliminary that is scheduled to be a masterpiece in scientific grappling and strength. Sampson gave one of his best performances in losing to Cummings on last Monday night. Hartay battled Poggi to a draw on the last card.

The Tremaine-Poggi match is another of those "naturals" that promoter Chambers has been presenting of late. If Tremaine can handle the Argentine villain he will be able to command any opponent he desires.

Sports Roundup

By SID FEDER
(Pinch-hitting for Eddie Brietz)

NEW YORK, April 21 (AP)—There's a rumor drifting around pro football circles that Whizzer White has signed that 15 grand offer of the Pittsburgh Pirates. . . And that the current yes-and-no business is the good old ballyhoo. . . Say it ain't so, Whiz. . . What's this report about the Cardinals trading Dizzy Dean to the Cubs on the understanding they could buy Van Mungo from the Dodgers? . . . And that Larry MacPhail backed out because he isn't palsy-walsy with Branch Rickey? . . . Larry says the whole thing is a lot of stuff you slice very thin and put in sandwiches. . . Dick Cooney's Duke baseballers have talked better than 70 runs in their first seven games. . . 51 of 'em against Dartmouth and Richmond. . . Which is really powdering that apple.

Ladies and gents, baseball's biggest business man (Al Schacht) got on making clowning pay to the tune of \$30,000 this year. . . He's got himself a manager now and is booked solid through May and June. . . Opens in Jersey City tomorrow, shows in Boston Friday, Philly a week from tomorrow, makes his first Broadway appearance at a semi-pro game May 1. . . And then starts swinging through the West and South. . . Memphis May 4, Indianapolis June 4, Fort Worth June 8, and stops in Virginia, South Carolina and North Carolina.

Steers Defeat Oklahoma City

By The Associated Press
Where they play today:
Tulsa at Fort Worth.
Oklahoma City at Dallas.
San Antonio at Beaumont (day).
Shreveport at Houston.

The Dallas Steers took the first game of their Texas league series with the Oklahoma City Indians, 6-4, last night in Dallas. The visitors got the tying runs on the bases in their half of the ninth, but Collin Lancaster, Steer pitcher, whiffed Mike Christoff for the last out.

The Fort Worth Cats, thanks to pitcher Clyde Small, stopped another Oklahoma invasion when the Tulsa Oilers were defeated 6-4 in the opener of a three-game series. Small was touched for 11 hits, but they were interspersed with eight strikeouts.

At Shreveport, the Sports lost their eighth consecutive game, to the San Antonio Missions, 2-1. The Shreveports paced the Missions 1-0 until the seventh inning when Bernardino's home run tied the count. In the eighth the Texans pushed over another tally.

Beaumont and Houston had open dates yesterday.

Beaumont tops the league standing, San Antonio next, and Dallas slipped into third place by their win over Oklahoma City and Tulsa's loss to Ft. Worth.

LUBBOCK WILL PLAY BORGER MONDAY NIGHT

The undefeated Borger Hubers will meet probably their biggest test of the current baseball season this week-end when they play a cross-country, double-header. The twin bill will start Saturday afternoon in Lubbock and wind up Monday night in Borger.

The Borger team has been setting a terrific pace this season that has swept it through all opposition without being closely pressed. It holds victories over the National League Pittsburgh Pirates, the Western association Ponca City Angels, and the West Texas-New Mexico Clovis Chiefs without having suffered a defeat.

The Lubbock team, also of the West Texas-New Mexico league, is reputed to be stronger than last year and judging from the battles between the two teams last summer the games this week-end promise to be close enough to suit any fan.

Borger's Hubers' main strength lies in its hitting ability and its sparkling defense, while the Lubbock team will rely more on its pitching and its youthfulness. The mound staff of the Lubbock team is built around young Lefty Blanchard whose fast ball has won him the respect of every team he has pitched against. Whether he and his teammates can tame the Carbons' "murderers-row" composed of Summers, Wilson, Ross, Warren, Littrell and Brown is a question that is causing much conjecture and argument among the supporters of the two teams.

The Sunday game, played in Lubbock, will start at 3:00 p. m., and the Monday game, played at Elmer Stadium in Borger, will be under the lights starting at 8:30 p. m.

Dizzy To Pitch Against Cardinals Next Sunday

Unscheduled One-Horse Race

Fans attending the opening day of metropolitan racing at Jamaica, Long Island, received a double thrill in the Pamunok Handicap, feature of the opening card. Grey Gold threw his jockey and ran a one-horse race around the course by himself, as pictured above, before he could be caught. Below: Snark, favorite in the same event, won going away from Hollin' Home, which placed second.

HARVESTER GRIDDERS BATTLE THRU BRUISING SCRIMMAGE

Harvester football prospects thought the 1938 season had slipped up on them yesterday afternoon when Coaches Odus Mitchell and J. C. Prejan put them through a three-hour practice. The boys worked on every phase of football from calisthenics to a bruising scrimmage.

Coaches announced plans for the rest of the spring training period. Next week will be set aside for work on plays and two intra-squad scrimmages. The following week will be devoted to the "first string" which will be selected at the close of next week's practices.

The spring practice session will close with a night game against the ex-Harvesters, probably on May 6.

Practice has been spotted. Rain, snow, cold weather, trips and the track and field meet all caused time outs. At that the boys had several weeks of training and they have been learning rapidly.

Picking a starting eleven will be a job, excepting in the backfield where J. W. Graham, captain of the squad, Bob Kfir, Pete Dunaway and Albert Kemp have been consistent starters. The return of Glen Nichols and John Kidwell may cause a flurry of excitement in ball carrying circles while Carlisle, Adams, Word, Grover Heskell, Auld and other boys have been showing marked improvement in that department.

The line situation has been different. First one boy and then another has dropped up at nearly every position until coaches are dizzy watching play. Bob Andis, Kenneth Kyle, Fleming and the Clemmons cousins have been the end starters in scrimmages.

Tackles have been big Carl Brown, Chester Hunkapillar, Leonard Dull, Carl Ripple. Guard jobs have been filled chiefly by Welby Farish, Truman Rumpie, Bill Stiles, L. C. Bailey, Tommy Solomon and R. C. Chandler have been battling for the center job.

Cardinals Next

"Dizzy" counting the six against the Reds, has worked only 21 innings this year. He was ill for 10 days down south, and he wasn't ready to go more than six innings in his first start. But he'll be ready to go the route in a couple of weeks."

Charley Grimm, Cub skipper, said Dean would start the game Sunday at Chicago against his old team mates, the Cardinals. On that angle Dizzy, modest as usual, said:

"I'll be ready Sunday, and will I show 'em something. I've got one game in the bag, so I have 29 to go. I'm going to win 30 this year, just to show some of those guys who said I was through. And those Cards are next on the list."

Dean had several other pertinent remarks to get off his chest. Among them were:

"Charley Grimm is the greatest manager in the game. (This, despite his nomination of Bill McKechnie, Reilly pilot, as the "greatest manager" at a Monday luncheon.)

Hits at Cards:

"I knew my arm was right when Garback (Chicago catcher) had to get a sponge for his glove while I was warming up. The arm feels better than it has felt since I started pitching.

"The pennant is in the bag for the Cubs.

"I never got rubdowns and treatment like this at St. Louis. They had so many players you couldn't fight your way to a rubbing table. This is the best treatment I've ever had.

"The Cubs pulled a couple of fielding plays behind me that the Cards couldn't have made in a hundred years."

Yesterday's Stars

(By The Associated Press)

Gene Moore, Beez—hit homer with bases loaded to lick Giants in the eighth.

Dizzy Dean and Tony Lazzari, Cubs—Dean allowed eight hits in seven innings against Cincinnati in debut as Cub; Lazzari collected four hits, one a double, and drove in three runs in 10-4 triumph for Chicago.

Boy Feller, Indians—pitched one-hit shutout over St. Louis Browns, 9-0, in season debut as Brownies got six walks and struck out six times.

Dutch Leonard, Senators—blanked Athletics with seven hits in first start in American league, 3-0.

Mike Kreevich, White Sox—hit triple and single and scored two runs as Sox downed Detroit Tigers, 5-4.

JACKSONVILLE DEFEATS PALS

By The Associated Press
Jacksonville, defending its East Texas baseball league championship, aimed today at another victory over Palestine in its second game of the season.

In last night's initial encounter Palestine was edged out 6 to 4 on the champions' own diamond.

The remaining clubs remain at the same stands for their second games tonight.

At Henderson last night, Ed Hall and George Staudt contributed homers to defeat Kilgore 11-9.

At Marshall, Texarkana used two pitchers, Kelley and Kent, but could not stem a 14-1 defeat. Hill-less for the first three innings, the Marshall nine made seven consecutive hits in the fourth.

Kent's season opener at home was spoiled by Tyler, with a 11-3 victory for the visitors. Faphis and Grove, Marshall hurlers, were both wild.

MARTIN SEES VICTORY FOR REPUBLICANS

WASHINGTON, April 21 (AP)—Rep. Joseph W. Martin of Massachusetts, Republican congressional campaign chairman, predicted today his party would win at least 76 Democratic seats in the house in the November elections.

"Several weeks ago I predicted we would win 65 seats," Martin said, "but opposition to the New Deal is growing so fast out in the nation that I feel safe in increasing that figure by 11."

"It is entirely possible that we will win control of the house."

The Republicans now hold 90 seats and the Democrats 332.

Defeat of the government reorganization bill, Martin said, helped the Republican cause. He said "this relief business, if carried to an excess," would cause Democrats to lose more votes than "pump priming" might win.

Martin's statement added to indications that Republican congressmen would conduct a more direct assault on recovery and other administration legislation than they have in the past.

Since the fight over the court bill last year, Republican leaders in the house and senate have let dissenting Democrats head the forces of opposition to administration measures.

On the recovery program, however, they agreed the situation has changed. Despite the opposition of such Democrats as Byrd and Glass of Virginia to Mr. Roosevelt's works proposals, the program at this time appears certain of congressional approval.

Thus the Republicans are considering going out in the front of the opposition. Senator Austin, Republican, Vt., said in an interview:

"I have no doubt that the Republican party is going to run up its flag in this fight. It seems hopeless that enough Democrats will join the opposition to do anything about the program."

DIDN'T GET DEGREE; MAN SUES UNIVERSITY

AUSTIN, April 21 (AP)—Herman Evans, former student of Southern Methodist University, lost in the Supreme Court today in an effort to recover more than \$1,800 tuition and other fees from that institution because it did not award him a degree in music.

Evans claimed the university was under contractual obligation to graduate him, but the court decided otherwise.

"There is no allegation," the court wrote, "stating that the university became more definite in an offer to

confer a degree upon the plaintiff than the allegation of an offer to teach him the essential subjects, coupled with an expression of opinion that in the course of time he could secure from defendant a degree in piano, and after doing so, make an estimated salary."

The McKenzie Construction Co. won a partial victory in its suit

against the City of San Antonio for sums claimed to be due it under a contract for construction of the Olmos creek detention dam. The Supreme Court, reversing the Court of Civil Appeals, held the contract valid. It sent the case back to the Civil Appeals Court, however, for a decision on other issues.

If the Nueces county trial court judgment is upheld, the company will receive \$62,158 plus 8 per cent interest from February 24, 1927, until paid.

Cotton exports are the largest single item in U. S. trade with Czechoslovakia.

WORKERS PAID 'LUMP SUMS'

Dewey Reed, manager of the Amarillo office of the Social Security Board, was a visitor here Wednesday

contacting claimants for lump-sum benefits under old-age insurance provisions of the Social Security Act.

"We find that many people do not yet know that the Social Security Board is already making lump-sum payments to qualified individuals," Reed said. "Lump sums are being paid to workers who have attained age 65 since January 1, 1937, provided they have received wages from covered employment, and to the widows or close relatives of such workers who have died before reaching age 65."

"In each case, the amount of the lump sum is 3 1/2 per cent of the total wages received from covered employment, beginning January 1, 1937, and up to attainment of age 65 or death. Any individual eligible to file a claim for a lump-sum payment should communicate with the Social Security Board, Oliver-Eagle building, Amarillo, Texas."

It was pointed out that a worker in covered employment who becomes

65 years of age does NOT have to stop working in order to apply for a lump-sum benefit. The payment, which represents final settlement of his social security account, will be made to the worker regardless of whether or not he continues to work.

Old-age insurance should not be confused with the old-age assistance program. Persons interested in old-age assistance should contact the district representative of the Texas Old-Age Assistance Commission, Reed said.

3 KILLED IN HEAD-ON CAR-TRUCK COLLISION

SAN ANTONIO, April 21 (P)—Three men were fatally burned in a flaming sedan, a fourth was critically injured.

Gene Gauslin, 22, of Lytle, Raymond Howard, 21, of Lytle, Garrett Henfield, Lytle, driver of the car.

Seriously injured was W. Kay, also of Lytle, who has a fractured thigh and other injuries.

There were 34 in the group examined Tuesday, who were brought to the doctors by Mrs. C. F. Jones, Mrs. George Howe, Mrs. W. M. Parker, and Miss Lorene Hayes.

In the first group, examined Monday, were 24 pupils. Mr. and Mrs. Moore Jones and Mrs. W. B. Abernathy were parents accompanying the group.

Cotton was grown near Charleston, S. C., as early as 1770. The Girl Scouts have a national membership of approximately 442,000.

There are approximately half a million persons in the United States suffering from tuberculosis.

As much as ease in a schooner's rigging as an old tar himself is 2-year-old Arthur Johnson, son of Capt. and Mrs. Irving Johnson.

Arthur was born in the home port of Gloucester, Mass., May 1, after a world trip of 40,000 miles.

For a year and a half of his life, little Arthur's "terra firma" has been the rolling deck of a ship.

Casey Jones' Home-Town Launches Campaign for Monument at Banquet

By JOHN SHEA
NEA Service Staff Correspondent
CAYCE, Ky., April 20 — The world's most famous railroad engineer is to have something more permanent than a song as a monument to his courageous life.

The banquet and celebration that this Kentucky crossroads town threw the other night started the ball rolling for a memorial to Casey Jones, the brave man who died trying to get through on time just 38 years ago come this April 29.

Casey's citizenry plans to set up a monument on the highway near town to remind tourists that this was the place of Casey's birth. The monument fund got a good start at the banquet, with more than \$400 being raised.

Casey is mighty proud of being the brave engineer's hometown, and prouder still that it gave Casey his nickname. The real name was John Luther Jones—but his pals changed it when they found out he hailed from this hamlet.

Present at the banquet the other night was Casey Jones' widow. Also there was Sid Law, now engineer and safety director for the Illinois Central railroad, who was the fireman on Casey's regular run. On hand, too, was a slim old negro who walked with a limp. He is Sim Webb, who fired for Casey the night of the wreck and who heeded Casey's wise advice to jump.

Recall Famous Wreck
Many of the people at the banquet here remembered the famous wreck and Casey the man. They recalled that this Casey was no ordinary engineer. He was handsome. He was big—8 feet 4 and hitting 200 pounds. And when he got in that cab, a train would perform some very extraordinary feats indeed.

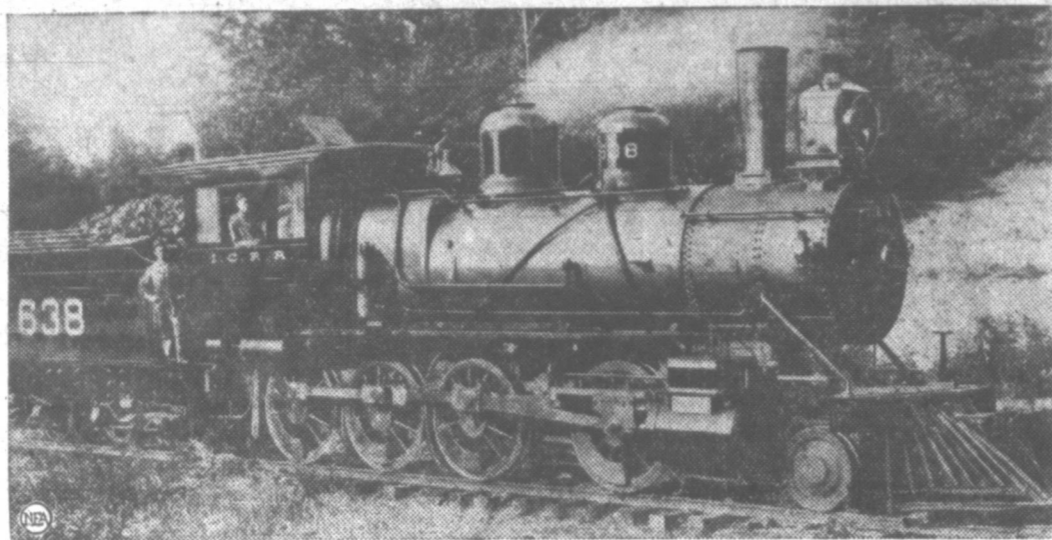

Just about everyone on the Illinois Central run from Jackson, Tenn., to Water Valley, Miss. knew Casey—or at least they knew his whistle.

Mrs. Casey told at the banquet how the first thing Casey did when he got his engineer's job in 1890 was to develop his own very special whistle. A long, low, mournful whistle it was, and when people heard it they'd say, "There goes Casey." Furthermore, all the switchmen knew by the engine's moan that the man at the throttle was Casey Jones.

Casey got a lot out of his engine, and the record runs he didn't make weren't worth going after. But if there was one thing Casey did it was to be late on a run. That was what finished him.

For a Friend
Along in April of 1900, just 10 years that he'd been engineering, Casey made an extra run. An engineer friend of his got sick, and Casey said he'd take the trip, although, as Sid Law recalled, he had had no rest.

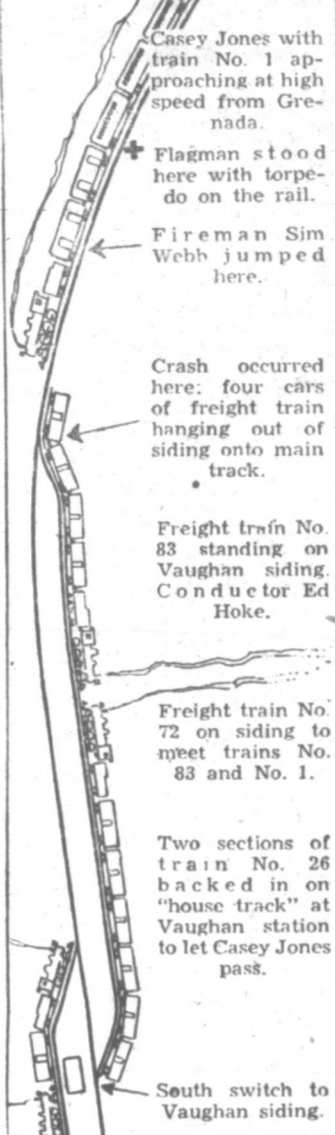

Casey pulled "Old 638" out of Memphis at 11 o'clock that night—fully an hour and a half late. Sim Webb said at the banquet—and headed for Canton, Miss. Fog and rain, but leaning out the window and jamming the throttle Casey gunned her for all she was worth.

count of a think like that, but when he got right on top of the freight, he had to jam on the air brakes. But too late. He "turned to the fireman, said 'Boy, you'd better jump, 'cause there's two locomotives that are going to bump.'"
Sim jumped—all right and it was the smartest thing he ever did. But there was poor brave Casey keeping his hand on that air brake right through three cars and a caboose. When "Old 638" finally stopped not a passenger was dead, but gallant Casey had taken his farewell trip into the promised land.

FEDERAL AID TO UTILITIES SEEN AS BUSINESS STIMULANT

WASHINGTON, April 21 (AP)—A high administration official said today that President Roosevelt's efforts to promote federally-financed expansion in the utilities industry were aimed at eventual stimulation of a huge utilities building program.

The Reconstruction Finance Corporation announced yesterday it was ready to meet the financial needs of all comers in an attempt to end the industry's construction slump.

White House advisers have estimated that possibly a \$1,000,000,000 utilities building program could be undertaken immediately with quick and far-reaching effects in other industries such as steel, cement, brick and lumber.

Utilities executives told the President several months ago they were about \$3,000,000,000 behind, normal building schedules.

Impetus to the campaign to enlist utilities in the recovery movement came from a conference yesterday between the President, Chairman Jesse H. Jones of the RFC, and William O. Douglas and John W. Hanes of the securities commission.

Other phases of the recovery program went forward swiftly. The House Appropriations committee called Audrey Williams, Deputy WPA administrator, to testify on the supervision of work relief.

Administrator Harry Hopkins, appearing before the committee yesterday, forecast an increased relief load beginning July 1. He said the \$1,250,000,000 requested for relief would care for 2,800,000 unemployed, 200,000 more than at present.

Mr. Roosevelt prepared to send congress by tomorrow at the latest a message recommending reciprocal state-federal ratification of future issues of government securities and the salaries of all public officials.

New low-rent housing and slum clearance projects totaling \$40,728,300 received Presidential approval.

800 DEAD, MISSING IN ANATOLIA EARTHQUAKE

ANKARA, Turkey, April 21 (AP)—The Anatolia earthquake toll of dead and missing soared to at least 800 today after a night of continuing shocks which 50,000 homeless spent in mad terror.

Terrific underground rumblings were accompanied by intermittent earthquakes over a wide area of western Asia bordering the Aegean Sea, and especially about Kirshehr, Yozgad and Tchorum.

Panic stricken refugees fled from crevices full of boiling water. Eighteen villages were utterly destroyed, but it is fairly certain that some southern dardes who had sort of started humming and filling in the words as dardes will do, and that later a couple of vaudeville troupers jazzed up the tune and made it a nation-wide hit along about 1908.

stroyed and 22 others were badly damaged. Whole families were buried under mountainous debris. Most of the victims were women and children. Salvage and relief squads were organized throughout the stricken country and the national assembly voted emergency funds.

Dinner Honors Umpire Dinneen

SYRACUSE, N. Y., April 21 (AP)—Sportdom's great and near-great sent into official retirement today Big Bill Dinneen, who "called 'em" in major leagues for 27 years.

Dinneen, honored at a dinner here last night, became a member of the "most decorated profession in sports"—a baseball umpire—after a career that took him to the top of another branch of his chosen field, a major league pitcher.

His pitching reached a peak in the 1903 world series when he helped the Boston Red Sox win from the Pittsburgh Pirates by taking three of the four games he pitched, including the one that clinched the title.

The dinner, attended by 1,200 persons, was described by Alan Gould, sports editor of the Associated Press, as setting "an all-time, all-American record as a tribute to an umpire."

The first federal anti-monopoly statute was the Sherman act in 1890.

Ice cream production in the record year, 1929, totalled 254,618,000 gallons.

Eight signers of the Declaration of Independence were foreign born.
