Good Rain Boosts Crop Prospects Greatly

A most welcome rain soaked Fisher County and most of the area Sunday morning. Amounts varied from the 1.50 inches gauged by Fred Byerly to more than two inches at many points. The fall was gentle, with little wind and no hail.

Spots of the area received more rain and showers Monday and Monday night.

Some farmers reported cotton damaged by dry, hot weather, but as a whole they seemed to think it came about right. Pastures were also greatly benefitted, but little runoff ran to stock tanks.

Most crops are in excellent condition and indications at this time are for a bumper crop.

REA Annual Meeting Draws Large Crowd

Ted Marchant of Sweetwater, Dwight Nowlin of Rotan and H. H. Cary of Ira were re-elected to the board of Midwest Electric Cooperative Association Thursday night as more than 3,500 gathered for the 27th annual membership meeting.

The meeting was staged at Fisher County Fair and Rodeo Grounds with President Glenn Tate of Hermleigh and Manager Johnnie Ammons in charge of the business session.

Ammons reported that electric rates were lowered in January from 1 1/2 to 1 1/4 cents per kilowatt hour for all over 200 per month on all services except irrigation pumping. The organization was established in 1937 to bring electricity to the farm that had no electricity, he said, but it has many other objectives as a nine county area with responsibilities to the members, the employees and the public.

Secretary Charlie Bley of the board said that the organization's capital refund program has resulted in \$769,273.60 returned to members from December, 1958 through Dec. 1965.

Checks totaling approximately \$203,400 will be mailed to members in December on refunds due from 1948, 1949, 1950 and under the program of keeping refunds in reserve for emergencies and returning them in orderly fashion.

The 1964 income and expense statement showed assets of \$5,204,432.75; liabilities of \$4,040,337.78 and net worth of \$1,164,094.97.

Don Allan Waddell, member services director, and Parker Wetzel introduced two sent by the Midwest to the Washington youth tour as organization winners on their talks on rural electrification.

Peggy Rannefield, daughter of Mr. and Mrs. J. T. Rannefield of Roscoe and Aaron Crawford, son of Mr. and Mrs. Myron Crawford of Ira, were introduced and told of their experiences on the trip with the youth group. Foy Mitchell of Roby opened the meeting with prayer following the meal served to the crowd.

Dr. Charles W. Jarvis, of San Marcos, was guest humorist-speaker for the evening.

Directors of Midwest are Charlie Bley, H. H. Carey, J. A. Murff, Glenn Tate, Dwight Nowlin, J. L. McArthur and Ted Marchant.

'As It Looks From Here'

Omar Burleson, M. C.
17th District, Texas

Washington, D. C. -- "To Be, or No To Be?" was the question Shakespeare had Hamlet asking in his soliloquy while contemplating suicide.

If Hamlet had been talking about the great changes taking place in the relationship of the Federal Government to State and local governments, there would be no need for the question in terms used by Hamlet. Rather, the question would be, "Should we get with it," or should there be continued resistance to these precipitous changes?

While the Federal Government has been on the incline in power, local government have been on the decline.

State Government of tomorrow will necessarily be different. It will more and more to be an administrative unit under the direction of Washington. Differences between the various States will likely fade. As a member of the Senate recently said, State lines in the future will be observed only by Rand-Me-Nally.

Reapportionment of Congress and State Legislature gives more voice to the more heavily populated areas. States do not have the financial ability to meet the costly needs which these changes bring. They will rely more and more on Federally-financed projects.

State Governments will be reluctant to yield more authority to the Federal Government, but more and more pressure will be applied from Washington for them to do so. An example is the denial of a Governor's right of veto in projects in his State under the Anti-Poverty Program, even if the reason is because the school drop-out is making more money than his employer. The Federal Government will rely upon the decision of the Supreme Court of the United States, that it can control that to which it contributes. From all indications, Federal programs under bureaucratic management will operate directly on guidance from Washington.

Texas will play an important part in this change. The old proposal for Federal tax-sharing with the States, shelved about a year ago, has been dusted off again and is supported by quite a few Governors. As was pointed out in this column recently, there is the alternative of

permitting Federal tax deductions for taxes paid locally, but this does not keep control of everything in Washington. The idea is seemingly not in any high favor.

How does this affect us as individuals -- our jobs, our social structure, our politics?

The tax structure change may be a first effect insofar as business is concerned. Federal contracts and Federal employment will be important.

Social changes will come about through the attention given to welfare measures in the many programs now being inaugurated.

On the political front, perhaps the candidate's main platform will be that he can get more from Washington than his opponent. If he supports and votes for every measure presented, he may stand in favor of having those projects sought by the local communities approved.

Candidates for all offices, whether local or State or Federal, may have to show a willingness to work up a greater Federal assistance in whatever activity is available. If an official fails to win approval of Federal grants of one sort and another, he may be considered as ineffectual.

These are the tangible things -- the payoffs, so to speak -- they can be seen and be measured.

The idea of less government interference, less control and regimentation, greater freedom and individual initiative, have no ready handles to grasp. Neither is it easy to be selfless for the benefit of future generations who must pay the bills. Like Hamlet's morbid contemplations: "Whether 'tis nobler in the mind to suffer the slings and arrows of outrageous fortune, or to take arms against a sea of troubles, and by opposing, end them." (Act III).

As Shakespeare would not have said -- Should we "get with it" -- if you can't beat 'em join 'em? Or continue to believe these is still the

"Eighty-five per cent (85%) of such funds shall be allocated by the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determinations:

"(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

"(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

"(3) All of the funds allocated on June 1, 1972, shall be allocated to certain of the eligible state institutions based on determinations used in the June 1, 1966, allocations except that the allocations of fifty per cent (50%) of the funds allocated on June 1, 1972, shall be based on the need for additional square feet of educational and general facilities.

"Not later than June first of the beginning year of each succeeding ten-year period the Comptroller of Public Accounts of the State of Texas shall reallocate eighty-five per cent (85%) of the funds to be derived from said Ten Cent (10¢) ad valorem tax for said ten-year period and not later than June first of the sixth year of each succeeding ten-year period said Comptroller shall reallocate fifteen per cent (15%) of such funds to the eligible state institutions then in existence based on determinations for the said ten-year period that are similar to the determinations used in allocating funds during the twelve-year period beginning January 1, 1966, except that enrollment projections for succeeding ten-year periods will be from the fall semester of the first year to the fall

semester of the tenth year. All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment but such notes or bonds shall be paid, both as to principal and interest, from the fund as allocated to any such institution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, A.D. 1965, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping buildings and other permanent improvements at certain state institutions of higher learning."

"AGAINST the Amendment to Article VII of the Constitution of the State of Texas by amending Section 17 thereof, providing a method of payment for the acquiring, constructing and equipping of buildings and other permanent improvements at certain state institutions of higher learning."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

4-H Youths Keep Fit

When boys and girls club work first started in the early 1900's, the emblem was a 3-H clover symbolizing Head, Heart, Hands. Around 1911 the 4th H was added to represent Health. Ever since, both here and in about 75 other countries, this emblem has represented the equal training of "head, heart, hands and health for better living."

Health projects have grown over the years in knowledge, activities and membership, says the Cooperative Extension Service which supervises 4-H programs. And keeping fit is one important segment of the national 4-H Health program which today enrolls some 677,000 boys and girls.

It is easy to keep in good shape during summer months through sports, games, hikes, camping and outdoor work. But, cautions the 4-H Health bulletin, there is more to maintaining good health than strenuous exercise.

This recent publication points out the need for three nutritious meals a day, plenty of sleep, periodic physical checkups and a sensible balance of work and play. It also urges 4-H Club members to look for ways to improve family and community health.

Individual members and clubs can win awards for doing an outstanding job. Winners are selected by the Extension Service. Award donor and sponsor of the 4-H Health program for the last 10 years is Eli Lilly and Company.

The boy or girl judged best in the state will be a delegate to the National 4-H Club Congress at Chicago next fall, and will compete for one of six \$500 scholarships. In the county, the best four club projects will be recognized with a certificate and medals will be presented to as many as four top individuals.

Former Resident To Receive Sul Ross Degree

Mrs. Jack (Monnie) Frost will graduate from Sul Ross State College, Alpine, Thursday August 19th. Mrs. Frost will graduate with honors. She has attended Weatherford Junior College, Texas A&I College, Pan American College and Sul Ross State College and is one of few women to attend a college on a football scholarship.

In 1947, husband Jack was awarded a football scholarship to Weatherford Junior College; however being on the GI Bill, the scholarship was of little value, so Dean L. P. Plummer of Weatherford Junior College allowed Mrs. Frost the scholarship which included meals at the dorm. Mr. and Mrs. Frost lived in a trailer on campus at Weatherford. While at Junior College, Mrs. Frost was class favorite (selected as homecoming hostess), class officer, and member of the school paper and annual staff.

Her education has been interrupted on numerous times as the Frosts have five children. She has been active in all church activities while going to school and being a housewife. She served as President of the WMU at Falfurrias and Alpine where her husband has been employed with the schools. In Westlaco, she is at present Sunday school teacher. In Alpine and Falfurrias, she has taught Sunday school classes and has served as a sponsor in Young People's Training Union. She has sponsored many school activities and has been a substitute teacher in Falfurrias and Alpine.

READY FOR SALTY STATE FAIR—At last year's State Fair of Texas, this Brahman found something better than a saltlick; a hole with some salt, but the salt was on popcorn. Undaunted and un-cowed, the Brahman won—everybody knows that eating popcorn is part of "going to the fair." The 1965 State Fair of Texas will run October 9 through 24 in Dallas, with the internationally significant Pan-American Livestock Exposition the major attraction of the first nine days. The Pan-American will feature the Premier Angus Show of the Americas, along with excellent shows of Hereford, Brahman, Brangus, Charolais, Santa Gertrudis and Shorthorn cattle. During the exposition, a superior dairy show also will be presented, with the Regional Holstein Show, State Jersey Show, and shows for Ayrshire, Brown Swiss and Guernsey cattle. In addition, there will be shows for purebred swine, sheep and goats.

"Let us hold fast the profession of our faith without wavering; (for he is faithful that promised.)"

Have faith in God. He will lead us in the right paths. He will never fail.

As the highways are clearly marked and numbered so that we might easily find our way from city to city and across the nation, God's word clearly marks life's paths.

Attend church regularly and exercise your faith in God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

CROP To Seek 'Beef For Hope'

The Texas Crop Livestock Advisory Committee met this week in Austin to launch a "Beef For Hope" project as an effort to assist hungry people abroad, through the churches, with canned beef from the United States.

As an advisory group of the Texas Crop-CWS Board the Committee gives guidance to the livestock appeals of the state program. The committee consists of church, ranch and Crop leaders of the central Texas area.

Hugo O. Schulze, of Mason, a dedicated Crop worker since the program's origin in 1947, led the meeting in the absence of the committee's chairman, Dolph Briscoe, Jr. of Uvalde.

Three million pounds of canned meat have been requested by the overseas programs of the churches through Church World Service for 1965, reported Texas CROP-CWS Director Norman A. Sundwall of Austin. The requests have come, the Director said, from the areas of the world where two-thirds of the world's population suffer from hunger and malnutrition. The meat is needed for disaster relief in areas East Pakistan where seven million people recently lost their homes through their most devastating cyclone in history; and for self-help programs in other areas where CROP food is provided as wages for those working in local development projects.

CROP is a community resources program for Church World Service and has been authorized to handle designations for other overseas church relief agencies such as Catholic Relief Services and Lutheran World Relief.

By way of the "Beef For Hope" project ranchers of Texas will be asked to contribute a beef, or its equivalent, to help CROP meet the needs for meat through Church World Service. In addition to receiving tax deductible receipts for their contributions the ranchers will be given "Beef For Hope" stickers for their truck windows.

Youth Conference On Crime August 19-22

Attorney General Waggoner Carr said today that advance registration for this year's Attorney General's Youth Conference on Crime is running far ahead of the expected number of delegates.

"Already more than 10,100 delegates have returned their registration card and fee. This leads us to believe that our estimate of 1,600 total registrants for the Conference may have been a low figure," Carr said.

The Third Annual Conference, to be held August 19-22 in Austin, will attract outstanding youth, from almost every county in Texas, who will study the problem of juvenile crime in the State and recommend remedial efforts to halt its alarming rise.

Speaking of the qualifications necessary to become a delegate, Carr said, "We insist that the delegates be those young people who are already recognized as leaders in their own cities and towns. This is important because we expect them to return to their respective areas to carry out the ideas which they have developed at the State Conference."

The Attorney General said that many programs have already begun on a local level as a result of the 1963 and 1964 Conferences, including youth juries, programs for tutoring potential school "dropouts," city clean-up projects, and youth-supervised recreation activities.

Carr said that this year's seminars will be divided into three groups: "Local Organization", in which past successful projects will be discussed as well as modifications which might be included; "Church and Youth," in which the aid of church congregations in tutorial programs will be discussed; and "Opportunity '65", a seminar on youth employment projects with stress given to the "dropout" problem.

Representatives from the Texas Employment Commission will also be present to discuss greater possibilities for youth employment in Texas.

Each seminar will be conducted by five school-age panelists and will be attended by approximately 40 delegates each time. Before returning home, every convention delegate will have attended by approximately 40 delegates each time. Before returning home, every convention delegate will have attended each of the three seminars at least once.

A weekly public service feature from
the Texas State Department of Health

Accent on Health
J.E. PEAVY, M.D.
Commissioner of Health

Early this fall more than 240,000 young Texans will be entering public schools for the first time.

Even though the opening of school is still some weeks away, parents are busy making preparations to insure that their child makes a smooth adjustment to his new environment.

The child's adjustment will be more rapid and satisfactory if he starts his school life in good, sound health.

Have your family physician or local clinic give your child a complete physical examination including an eye check. His teeth should also be checked by the family dentist. If these examinations show there are ailments or defects that can and should be looked after, then follow the doctor's or dentist's advice and have them corrected, if possible, before you enroll him in school.

It's likely that your child has already been immunized against certain of the childhood diseases such as diphtheria, whooping cough and smallpox. If not, have it done immediately either by your doctor or by the local health clinic. If all immunizations have been done previously, make sure your child gets the necessary booster dose.

Insist on your child's getting regular and sufficient hours of sleep to help him enjoy school. He needs ten to twelve hours of sleep in a quiet, darkened room with an open window to build up his energy and offset his tiredness.

Proper nutrition is very important. When school starts, allow enough time for a wholesome breakfast. A good breakfast include citrus or juice, milk, whole grain cereal or bread, eggs or bacon or both.

Lunch and dinner should be a leisurely meal. The new adventure of school is a pretty fast pace, but mealtime offers an opportunity for the family to pause and relax together.

Also, nearly every school district in Texas requires proof-of-age for first year students in the form of a certificate of birth.

You may obtain a copy by sending a dollar and a half plus the name of the child, the date of birth, the place of birth, and both the father's and mother's names to the Records and Statistics Section, Texas State Department of Health, 410 East 5th St. Austin, Texas.

Christian Science Service Sunday

This Sunday, Christian Science churches throughout the World will hear a Bible Lesson on God as Divine "Mind." The responsive reading will include a familiar verse Proverbs: "Trust in the Lord with all thine heart; and lean not unto thine own understanding."

Quotation from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, will include the following: "In a world of sin and sensuality hastening to a greater development of power, it is wise earnestly to consider whether it is the human mind or the divine Mind which is influencing one . . . When we fully understand our relation to the Divine, we can have no other Mind but His, — no other Love, wisdom, or Truth, no other sense of Life, and no consciousness of the existence of matter or error" (pp. 82, 205).
