WOOL DEALERS MEET TO FORM TRADE GROUP

Association Is Result Of
Suggestion of NRA
Officials

BOSTON, Dec. 13. (AP)—Wool
dealers, representatives of wool pro-
ducing centers of the country, met
here today and took initial steps in
formation of the National Wool
Trade Association.

The association adopted a motion
of C. J. Webb of Philadelphia Wool
and Textile Association that it in-
corporate under Massachusetts laws.

A board of 35 directors was named
and approved by the meeting which
adjourned until tomorrow when or-
ganization may be completed.

A code for the wool trade was
presented to the authorities at
Washington several weeks ago by
representatives of the Boston Wool
Association. They were informed,
however, by NRA officials that
either the by-laws of the Boston
association would have to be amend-
ed so as to permit membership by
wool dealers in all parts of the
country or that a national organi-
zation would have to be estab-
lished.

The latter course was taken and
by the constitution adopted today,
eligible for membership in the new
organization would be dealers in
shorn and pulled wools, buyers and
sellers of foreign wools, as well as
dealers in wool wastes, noils and
other products of wool processing
covering ginning, dusting and
scouring.

The new organization will not
displace any of the established
local wool organizations but will be
supplemental to them.

In preamble it was declared the
association's object would be to
foster the interests of the wool
trade of the United States; to secure
freedom from unjust and unlawful
exaction; and establish an maintain
uniformity and equity in the customs
and usages of the trade.

The deadline for submitting plans
and purposes of the new associa-
tion to the NRA is December 31 and
until that is done the wool code
hitherto approved by the NRA can-
not receive the signature of the
President.

Baptist Church To Have A Christmas Pageant Dec. 24

The Baptist Church will have a
Christmas Pageant Sunday, Decem-
ber 24, at 7:15.

"Three Links of Prophecy", is the
name of the pageant. Cast of char-
acters will be composed of the fol-
lowing: Prophets, Pilgrims, Wise
Men, Chief Priests, Scribes, Apost-
les, Shepherds, Angels, Joseph,
Mary and King Herod. The Page-
ant will also feature special music.

The following is a synopsis sketch
of the pageant:
Link One: "He will Come"; set-
ting: the platform is arranged as an
Intermediate Sunday school class
room. A large improvised book
representing the Bible will be used.
As each question is asked about
Christ's coming, one of the Bible
characters steps out and gives his
prophecy and then another gives his
until many prophecies are given.

Link Two: "He Has Come," set-
ting: on the plains of Bethlehem.

A large group of Pilgrims repre-
senting all classes of people are on
their way to Bethlehem to be en-
rolled. Joseph and Mary spend the
night in the stable; next the shep-
herds enter with their song. Then
the wise men bring their gifts, as
they search for the place where the
Christ child was to be born. Later,
John the Baptist comes with his
message of Repentance; then some
of the Apostles enter each giving
his testimony.

Following this is the cross and
Resurrection scene.

Link Three: "He will Come A-
gain"; setting: The Mount of Ascen-
sion; the eleven Apostles looking
up into heaven. The Angels appear
and give their message of Christ's
return to the earth.

A chorus will bring to an end the
Pageant.

Plane When It
Lands

PROPHETS OF DOOM

Luckily for humanity, it still maintains a saving sense of humor. Were this not so, the wailings of the pessimists would drive us all crazy. For surely there is no lack of prophets of doom to harry us with their doleful warnings that the world is going to pot.

Each long-faced brother solemnly assures us that unless his particular panacea for saving the race shall be speedily adopted there is no hope. Modernism, flapperism, automobiles, hooch, movies, dancing, bridge and cigarettes, singly or in combination, constituting the outstanding menace, according to the viewpoint of the particular alarmist who happens to have the floor.

Thus, after listening to these apostles of doom, with a more or less pronounced feeling of boredom, unregenerate humanity turns to the funny page and smiles at the varying fortunes of Jiggs and Andy Gump.

This does not mean that the average person is indifferent to the evil in the world. It means that sensible people recognize the inherent weakness and folly of humanity, and refuse to become unduly excited about it. They realize the futility of trying to carry the world's burden on their shoulders, though they seek to be helpful in practical ways. They courageously face the things that are, while sanely striving for the things that ought to be.—Herald, Florence, Ala.

Quality and Service

If one had to name any single thing as the typical American characteristic, it would probably be just that habit of looking ahead, or forever going on with the quest. We have often been a proud and boastful people, but we have seldom been satisfied with a present moment. One era has succeeded another in our history, but never have the people as a whole been content to relax.

Sometimes people speak lightly of the country newspaper, but it is one of the most potent and uplifting factors in our national existence. The great dailies have their mission, but their scope is too big to touch very closely the inner things of life.

Restlessness—this social discontent—is not necessarily a disease. It may find its rise in a marvelous vitality and hope.—Ex.

America is the only country in the world that tries to provide every person with as much education as he can take.—Dr. Henry Suzzallo.

NEW FORD V-8 for 1934

THE UNIVERSAL CAR

The New Ford V-8 for 1934 is now on display at the showrooms of Ford dealers. Surpassing even the great Ford of 1933 in economy, beauty and comfort, it is truly the car of this modern age—the culmination of thirty years Ford progress. It combines the proved performance of the V-8 cylinder engine with two important new features—Dual Carburetion and perfected Clear-vision Ventilation. See this car today and drive it at the first opportunity.

OUTSTANDING IMPROVEMENTS IN THE NEW FORD V-8

BETTER PERFORMANCE. Greater power, new speed, quicker acceleration, smoother performance, more miles per gallon especially at higher speeds, and quicker starting in cold weather—all these result from the new dual carburetor and dual intake manifold. New water-line thermostats enable the engine to warm up more quickly and to maintain an efficient operating temperature. Added engine refinements reduce oil consumption, further improve operating economy and reduce maintenance costs.

NEW VENTILATION SYSTEM permits clear vision, prevents drafts and provides desired amount of fresh air in any weather. Individual control for front and rear side windows. When ventilation is desired the window glass is raised to the top. Then the handle is given an additional half-turn. This slides the glass back horizontally to form a narrow slot. Through

this slot air is drawn out by the forward motion of the car. This simple ventilation system maintains draft-free circulation, insures passenger comfort, prevents fogging windshield in cold or stormy weather. Both windshield and cowl ventilator can be opened to supply additional air needed for comfortable warm-weather driving.

DISTINCTIVE NEW APPEARANCE enhanced by the newly designed chromium-plated radiator shell and grille, new hood louvers, new hub caps. Interiors are attractive, with new tufted upholstery, new mouldings, new cove-type handlining, new instrument panel, new arm rests, new hardware. Swivel-type sun visors in De Luxe bodies prevent glare from front or side.

FENDERS IN COLOR. On De Luxe cars fenders are in color to harmonize with body colors—wheel colors optional. New enamel finish on

all bodies and fenders has greater wearing quality and more enduring luster.

GREATER RIDING COMFORT results from increased spring flexibility. The spring leaves are newly designed for quieter and easier action. Shock absorbers are improved. Seat cushions are deeper, with new, softer springs. New type individual bucket seats provide increased comfort for front-seat passengers in the Tudor Sedan. Adding to comfort is the new driving ease of the 15-to-1 steering gear ratio.

PRICES REMAIN LOW—Tudor Sedan, \$515. Coupe, \$515. Fordor Sedan, \$585. De Luxe Tudor, \$575. De Luxe Fordor, \$625. De Luxe Coupe (5 windows), \$555. De Luxe Coupe (3 windows), \$555. De Luxe Roadster, \$525. De Luxe Phaeton, \$550. Cabriolet, \$590. Victoria, \$610. (All prices f. o. b. Detroit.)

RECIPES AND MENUS

By Department of Home Economics
Texas State College for Women
(GLA)

DENTON, Dec. 14.—The cranberry grows upon low, moist soil, utilizing to great profit hundreds of acres of marshy land in the Cape Cod region, which would otherwise be almost worthless. Massachusetts, New Jersey, and Wisconsin are the chief cranberry states. The berries ripen in the autumn and picking continues until frosty weather.

On account of the abundance of pectin which it contains the cranberry is much prized for sauce and jelly. Also its beautiful red color enhances its value for the decoration of the table. On account of the acid and agreeable flavor it is particularly well suited to serve as a sauce with meats and poultry. Cranberries are seldom canned or preserved, as they keep well, bear transportation, and are not prohibitive in price. The use of cranberries has been recommended for patients suffering with chronic rheumatism probably because the alkaline carbonates formed in the system from the organic acids stimulate the action of the kidneys.

Some of the ways in which cranberries may be used to add variety in the menu are: cranberry jelly, cranberry ice, frappe, parfait, preserved cranberries, cranberry pie; as decoration on salads, cocktails, puddings, and as sauces to serve with meats, vanilla ice cream or puddings.

Breakfast: Baked apple, bacon omelet, muffins, coffee, cocoa.

Luncheon: Cheese soufflé, buttered spinach, whole wheat bread, tomato salad, cocoa, cookies.

Dinner: Baked chicken, rice, buttered beets, cranberry jelly or sauce, rolls, butter, boiled custards.

Breakfast: Oatmeal with Raisins, Sausage, Hot biscuits, coffee, milk.

Luncheon: Salmon croquettes, buttered carrots, Boston brown bread, fruit salad, milk and sponge cake.

Dinner: Broiled steak, baked potatoes, egg plant soufflé, bread, butter, cranberry pie.

Cranberry Jelly: Pick over and wash one quart of cranberries. Add one cup boiling water, cover, and boil twenty minutes. Rub through a sieve, add two cups of sugar, stir until sugar is dissolved and cook five minutes. Turn into a mould or glasses.

Cranberry Sauce: Cook one pint

of cranberries with one pint of boiling water five minutes. After boiling begins (closely covered) strain, add a cup of sugar, and let boil once. Skim and set aside to cool.

Cranberry Pie: 1½ c cranberries, ½ c water, 3-4 c sugar. Put ingredients in sauce pan and cook ten minutes; cool and bake in one crust with a rim and strips across the top.

Cranberry Frappe: 1 qt. cranberries, 2 c water, 2 c sugar, juice of two lemons. Cook cranberries and water eight minutes; then force through a sieve. Add sugar and lemon juice and freeze to a mush using equal parts of ice and salt.

Here's Quickest, Simplest Way to Stop a Cold

1. Take 2 Bayer Aspirin Tablets.
2. Drink full glass of water. Repeat treatment in 2 hours.
3. If throat is sore, crush and dissolve 3 Bayer Aspirin Tablets in a half glass of water and gargle according to directions on box.

Almost Instant Relief

in this Way

The simple method pictured above is the way doctors throughout the world now treat colds.

It is recognized as the QUICK-EST, safest, surest way to treat a cold. For it will check an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, see that you get the real BAYER Aspirin Tablets. They dissolve almost instantly. And thus work almost instantly when you take them. And for a gargle. Genuine BAYER Aspirin Tablets dissolve so completely they leave no irritating particles. Get a box or 12 tablets or a bottle of 24 or 100 at any drug store.

WARNING to EXPECTANT MOTHERS

If you have ever been a patient in any hospital, you are probably familiar with the advantages of a liquid laxative.

All doctors know the value of the laxative whose dose can be measured, and whose action can be controlled.

The public, too, is fast returning to the use of liquid laxatives. People have now learned that a properly prepared liquid laxative brings a perfect movement without discomfort at the time, or after. Dr. Caldwell's long experience with mothers and babies, and his remarkable record of nearly three thousand births without the loss of one mother or child, should give anybody complete confidence in

any prescription which he wrote! But most important of all, a gentle liquid laxative does not cause bowel strain to the most delicate system, and this is of the utmost importance to expectant mothers and to every child.

Expectant mothers are urged to try gentle regulation of bowels with Dr. Caldwell's Syrup Pepsin. It is a delightful tasting laxative of delightful action, made of fresh berries, pure pepsin and active senna. Not a single mineral drug to be absorbed by the system, or irritate the kidneys.

Dr. Caldwell's Syrup Pepsin is an approved preparation and kept ready for use by all druggists.

New Battery Has Design as Modern As Young Beauty Who Adorns Its Top

There is no danger of any short circuit with this combination. This charming young miss is showing how the new "Electro-Pak" automobile storage battery just announced by The B. F. Goodrich Company, Akron, Ohio, can be used as a comfortable seat, should the occasion require one. This is made possible by the hard rubber cover which completely encases the battery. This is the first time any battery has incorporated this feature, which transforms this formerly homely and unimpressive product into a thing of beauty as well as utility, with lines as modern as the young woman here.
