North Viet Missile Pad Smashed By US Jets

Storm Dumps Big Rain On East Scurry

A booming thunderstorm Sunday evening deluged the eastern part of Scurry County and big areas of Fisher County with tremendous rains.

The rainfall, which was considerably lighter in western parts of Scurry County, apparently was hardest around Camp Springs near the Scurry - Fisher line where up to seven inches was reported.

The heavy rains extended to Rotan where Police Chief M. F. Hughes said one woman was rescued when flood water entered her residence.

Water surged over curbs and along store fronts in Rotan. Power and telephone service were knocked out for more than two hours. Light hail accompanied the downpour.

The heaviest rains apparently surged to the south, east and northeast of Snyder. An official measurement of 1.90 inches was logged in the official gauge here at the city water plant. However, heavier rains were reported at Dunn and in the Hermleigh area, with up to four inches estimated.

Only .80 of an inch fell at the dam at Lake J. B. Thomas, and there was no appreciable runoff into the lake. The lake level was up only .03 of a foot this morning.

The cold front which kicked off the rains, stirred turbulance from the Panhandle deep into the state.

One twister inflicted minor damage at Anton, while another tornado was sighted in the Abernathy area. No injuries were reported.

Quanah reported an official 5.05 inches of rain by dawn and several gauges around the town, 75 miles northwest of Wichita Falls, measured more than 5 inches.

A section of railroad track washed out 13 miles west of Quanah.

J. C. Harris, a store owner at Quanah, said the creeks in the area ran higher than he had seen in many years.

At El Dorado, school Superintendent Berma Durham said the downpour made rural roads impassable and he closed classes.

The Weather Bureau said the rains were heavy and widespread over West Texas, caused by a line of thunderstorms moving slowly toward the southeast.

By dawn, the rain line had reached the eastern South Plains and western North Central Texas and extended southward to the Lower Pecos River and Middle Gulf Coast.

Minor temperature drops occurred along the rain line, but the main cold front remained roughly on a line between Texas and New Mexico.

Brownwood reported heavy rains beginning at 3 a.m. which brought well over 2 inches and continued during the day.

Some other heavy rainfall totals to 6 a.m. included Midland 1.41 inches, Abilene 1.68, San Angelo 1.40, Wichita Falls 1.38, Childress 2.46, Truscott 5.40, Antelope 1.53, Rocksprings 1.43, Utopia 1.50, Carbon 2.55, Downing 1.45, Gorman 1.45, Strawn 1.27 and Rising Star 2.03.

More Killing Feared In Dominican

SANTO DOMINGO, Dominican Republic (AP) — More violence is feared in Santo Domingo as the result of the killing of a conservative political leader.

The provisional government canceled all civilian arms permits in an effort to prevent shootings by vengeful friends of the slain man, Angel Severo Cabral, 56.

A heavily armed guard was thrown around the cemetery where Cabral was buried Sunday. The angry crowd burned a jeep of the government radio station and beat up its driver.

Another radio station which had supported the rebels went off the air after an unidentified armed group attacked its transmitters just outside the capital.

Cabral, leader of a right-wing political organization, was shot Saturday night at his home in the former rebel zone as a mob with Communist placards milled about.

His wife and daughter were slightly wounded.

Raul Castro Meets With Red Premier

MOSCOW (AP) — Deputy Cuban Premier Raul Castro had a meeting today in the Kremlin with Deputy Soviet Premier Vladimir Novikov, the Soviet news agency Tass reported.

It gave no details.

Castro, Fidel's younger brother, came to the Soviet Union Oct. 7 at the invitation of Defense Minister Rodion Malinovsky.

Hearing Delayed For Jack Ruby

DALLAS (AP) — State Dist. Judge Louis T. Holland granted today a defense motion for a postponement of a sanity hearing for Jack Ruby, killer of President Kennedy's assassin.

The decision means that the next legal step in the complicated case will be taken by the Texas Court of Criminal Appeals in Austin.

Defense lawyer Phil Burleson argued that to hold the sanity hearing now could be detrimental to Ruby's position.

At issue now is whether the appeals court upholds an appeal from the defense that a writ of habeas corpus motion should have been granted in a proceeding last summer.

Ruby's attorneys argued then that his death sentence was void because Dist. Judge Joe B. Brown Sr., who presided over the murder trial, should have been disqualified.

Defense lawyers said that since Judge Brown was writing a book about the case some of his judgments may have been prejudicial to Ruby.

Burleson told Holland that he thought the Court of Criminal Appeals would be able to act on the habeas corpus appeal in three to four weeks.

Judge Holland said after the 15-minute hearing that two possibilities are now open depending on the appeals court decision.

1. If the Austin court rules for the defense, the death conviction will be voided and Ruby will be tried again.

2. If the appeal is denied, then the sanity hearing will proceed.

Dist. Atty. Henry Wade said the state was ready to proceed with the sanity hearing now but had no objection to a delay.

Ruby was in court, neatly dressed as always. He seemed in a cheerful frame of mind and had more color than he has in previous court appearances.

Ruby, a former Dallas night club manager, was sentenced to death March 14 last year for slaying Lee Harvey Oswald Nov. 24, 1963, two days after Oswald assassinated President Kennedy in Dallas.

The sanity hearing was ordered by the Texas Court of Criminal Appeals before it would hear an appeal of the murder conviction. Subsequent defense motions further complicated the case and caused further appeals to the appellate court, the highest in Texas in criminal matters.

Jakarta Says Red Party Is Banned

SINGAPORE (AP)—Radio Jakarta announced Monday night a military ban on the Indonesian communist party and affiliated organizations.

The ban on the Communist party, announced in the name of Maj. Gen. Umar Hadikasumo, commanding officer in the Jakarta area, appeared to be limited to the capital region, where he is in control.

The broadcast said the big, powerful Communist-dominated Sobsi, also was banned on orders of the government of the Central Bank, which has jurisdiction over all unions. This presumably meant the Sobsi ban was nationwide.

The announcement by Hadikasumo directed Communist party leaders and officials of the other pro-Communist organizations to report to military or police authorities within five days.

Hadikasumo said they were believed to be involved in the Sept. 30-Oct. 1 coup attempt against President Sukarno.

There is no immediate indication in the broadcast as to the fate of the strong Communist organizations elsewhere in Indonesia.

Also placed under Jakarta's military ban were Permuda Rakjat, the party's youth movement, and Gerwani, the party's women's wing.

These and the Communist party have been targets of the army's anti-Communist campaign and Moslem and other demonstrators have clamored for the outlawing of all three.

Glenn Service Here Today

Funeral for Mrs. Lyla Hamilton Glen, 78, 2805 Avenue V, was to be held at 2 p.m. Monday in Bell-Seale Chapel with Dr A.B. Lightfoot, pastor of the First Baptist Church, officiating. Burial was to follow in Snyder Cemetery under the direction of Bell-Seale Funeral Home.

Mrs. Glen died at 8:15 p.m. Saturday at her home following a lengthy illness. She had resided in the County 59 years.

Born Dec. 15, 1886, in Comanche County, Mrs. Glen married C. T. Glen May 16, 1906, in Plainview and she made her first home in Scurry County. Her husband and one son preceded her in death.

Surviving are three daughters, Mrs. Fannie Rice, Kennewick, Wash., Mrs. Leota Hamlin, Snyder, and Mrs. Willie Leeson, Abilene; one sister, Emma Hamilton, Big Lake; and one grandchild.

Pallbearers were Joe Ellington, Ross Riley, Raymond Keller, and Jack Phillips, all of Snyder; C. N. Rogers, Abilene, Cloyce Drinkard, Roby, Don Moore, Amarillo, and Sikes Curry, Hobbs, N.M.

UNITED
FUND
WE DID OUR PART
100%
HOW ABOUT YOU?

FIRST TO HIT THE TOP—K. O. Pitner, city secretary, right, reports to Chester Simons, head of the United Fund Public Employe Division, that City of Snyder employes already have contributed 100 per cent. The United Fund campaign got underway officially this morning. A breakfast session at 7 a.m. Tuesday at the First Methodist Church will kickoff the business and employe division of campaign.

More Bodies Found In Coal Mine

SARDIS, W.Va. (AP) — Rescue workers today found the bodies of the last four men trapped inside a smoldering coal mine near this central West Virginia town. They were found together deep in the mine, where a fire already had claimed three lives.

Shortly before the bodies were found, rescue workers discovered a message scrawled in chalk on a mine regulator. It said, "Couldn't get across," and was signed with the names of the four men trapped since Saturday night.

E. E. Spottee, vice president of the Clinchfield Coal Co., said the men apparently had started toward the fire and were forced to go deeper into the mine which runs six or seven miles back into a mountain.

The last victims to be found were Clell Leedy, 53, of Bluefield; Robert Savage, 57, of Rosemont; Isaac Moats, 39, of Moatsville, and Andy Kurusez, 44, of Galloway.

Cutter Rescues Cuban Refugees

By THEODORE A. EDIGER

KEY WEST, Fla. (AP) — Thirty-five seasick Cuban refugees, including two blind boys, were rescued from a leaking 35-foot fishing boat and brought to Key West today.

Also aboard the rescue Coast Guard cutter were four refugees picked up from a small motorboat and eight crewmen of the two refugee craft.

They brought to 59 the number of refugees arriving at Key West today and to more than 500 the number who have fled Fidel Castro's Cuba under a new open - door policy announced three weeks ago.

"I am glad to be in the United States," said blind, 20-year-old Vicente Sierra. "I don't like communism." Castro has banned departures of military-age youth, but Sierra was permitted to leave because of his handicap.

Accompanying him were his brother, 12 and also blind, and their father, Juean, who said he was a member of the Cuban army for 36 years.

"There is much discontent with Castro's armed forces," said the father. "I believe something will happen."

Arriving earlier aboard the 24-foot cabin cruiser Nimo were 20 refugees, including two sweethearts who said they wanted to get married in a religious ceremony — "Something we couldn't do in Cuba."

The shuttle from Camarioca, Cuba, to Key West has increased the U.S. Cuban colony but an expected stream of boats appeared delayed. One refuge boat was feared sunk.

South Texas Officers Continue Search

CRYSTAL CITY, Tex. (AP)— A search is continuing in South Texas for one of two men who struck a border patrolman and fled after being stopped and searched for marijuana.

One man, a 31-year-old Californian, was captured Saturday night near here.

CNCS & SS—Downtown Snyder was a busy place Saturday evening when local merchants and automobiles staged their big CNCS & SS (Composite new car showing and sidewalk sale) on the square. The sidewalk sale was launched at 5 p.m. simultaneously with the showing of 1966 cars around the courthouse. A style show at 7:30 p.m. was a major feature.

5 American Planes Lost

By EDWIN Q. WHITE

SAIGON, South Viet Nam (AP) — U.S. jets smashed a Soviet-supplied missile launcher in North Viet Nam over the weekend, but five American planes were lost in other raids on the Communist North, a U.S. military spokesman reported today.

Four of the American airmen were presumed captured and two others were killed when three Navy planes were lost Sunday 40 mils north of Hanoi, the spokesman said. Two U.S. fliers were listed as missing after two Air Force jets were lost Saturday on a raid southwest of Hanoi.

Peking broadcasts claimed seven U.S. planes were downed and several pilots captured in North Viet Nam, which has threatened to try captured American pilots as war criminals.

Four A4 Sky Hawks and an A6 Intruder from the U.S. 7th Fleet carrier Independence hit the mobile antiaircraft missile unit with eight tons of bombs. Pilots said they left a missile smoking on the ground and launchers and 10 vehicles in flames. The missiles, supplied by the Soviet Union, are believed accompanied by Soviet technicians. There was no mention of personnel casualties at the site, 52 miles northeast of Hanoi.

U.S. aircraft are known to be hunting at least five of the mobile missile units, which can be assembled or dismantled within 24 hours.

The Defnese Department says five U.S. planes have been knocked down by Soviet - supplied missiles. Launchers are permanently installed around Hanoi and the port of Haiphong.

Pilots on the missile raid reported heavy ground fire but all five planes returned safely, a spokesman said.

However, heavy Communist ground fire knocked down two F4 Phantoms from the Independence and a third crashed into a mountain side during a 16-plane strike against a highway bridge north of Hanoi, the spokesman said.

Returning pilots said four of the Americans parachuted and were seen on the ground. Enemy troops were spotted in the area.

U.S. briefing officers said Communist ground fire downed one F105 Thunderchief and another disappeared during a four-plane raid Saturday 70 miles southwest of Hanoi. The pilots were listed as missing.

The U.S. planes downed over the weekend brought to 114 the number lost in Communist territory since American planes began attacking targets in North Viet Nam last February.

Near Da Nang, 380 miles north of Saigon, two U.S. Marines were killed in a helicopter crash. Eight others escaped injury.

In ground action, the Viet Cong hit a government force 20 miles north of Saigon and inflicted heavy casualties on a Vietnamese unit of 75 to 100 men.

U.S. Marines near Da Nang killed three Viet Cong guerrillas and captured three, others in several clashes. Marine casualties were termed light.

WEATHER

SNYDER TEMPERATURES: High Saturday, 83 degrees; low, 68 degrees; reading at 7 a.m. Sunday, 70 degrees. High Sunday, 83 degrees; low, 53 degrees; reading at 7 a.m. today, 53 degrees; precipitation, 1.90.

North Central Texas: Cloudy, occasional showers and thunderstorms tonight. Showers ending early Tuesday becoming partly cloudy Tuesday afternoon. Low tonight 57-68. High Tuesday in 70s.

Northeast Texas: Mostly cloudy tonight and Tuesday. Occasional showers and thunderstorms tonight ending Tuesday. Low tonight in 60s. High Tuesday in 70s.

Northwest Texas: Partly cloudy through Tuesday. Low tonight 38 northwest to 56 south. High Tuesday in 70s.

Coast: Southeast to east winds 12 to 22 knots tonight becoming mostly east to northeast Tuesday. Widely scattered showers and thundershowers. Gusty winds vicinity of thundershowers.

South Central Texas: Cloudy with scattered showers and thundershowers tonight and Tuesday. Turning cooler northern portion tonight and a little cooler most sections Tuesday. Low tonight 55-72. High Tuesday 68-80 south.

Southeast Texas: Cloudy with scattered showers and thundershowers tonight and Tuesday. Low tonight 68-76, except 58-68 extreme northwest. High Tuesday 70-80.

Southwest Texas: Clear northwest and cloudy with scattered showers and thundershowers southeast tonight and Tuesday. Decreasing shower activity southeast Tuesday. Low tonight 42-60. High Tuesday 60-74.

Extreme Southwest Texas: Clear to partly cloudy tonight. Tuesday fair. Low tonight 38-48. High Tuesday 66-76.

Johnson Expects To Leave Hospital Soon

WASHINGTON (AP) — President Johnson, reaching the 10-day mark in his hospital stay, got up early today and swung right into a round of staff conferences.

Johnson, who probably will return to the White House in a day or two, was up before 7 a.m. after a good sleep. Assistant press secretary Joseph Laitin, who reported this, said the President breakfasted on melon balls and tea, then began conferring with staff aides.

Protest Leaders Question Some Marchers' Motives

By The Associated Press

Promotors of organized Viet Nam protests say they are pleased with the results of the weekend demonstrations, but leaders — in official and civic life — are questioning the motives of some of the marchers.

A survey shows the latter ask, in effect: Are some just trying to get out of the draft? And if they are sincere, are they being led on by Communists and Communist sympathizers?

Frank Emspak, chairman of the National Coordinating Committee to End the War in Viet Nam, said Sunday in Madison, Wis., that more than 70,000 persons took part in Saturday's demonstrations in scores of cities.

Emspak said he has started planning for another series of nationwide demonstrations on Nov. 6 or Nov. 13.

In Saigon, Spec. 4 Russell D. Miller of Manassas, Va., told newsmen: "I think the demonstrators are crazy.

"I don't think they know what they are talking about. I don't like it over here, but it's my duty as a soldier to be here."

U.S. Atty. Gen Nicholas Katzenbach, in Chicago Sunday night, said the Justice Department has begun an investigation into the movement and has uncovered "some Communists and some persons very closely associated with Communists" working for the Students for a Democratic Society.

"Whenever you have a situation in which people are saying things similar to what is being said by Peking, you are likely to find some Communists involved in it," Katzenbach said, then added: "There are some Communists involved in it."

The SDS claims a membership of 30,000, mostly college students.

The demonstrations in various cities from New Haven, Conn., to Hawaii, were noisy but for the most part orderly. Heckling by antidemonstrators from the sidelines contributed to the uproar.

In New York City, where more than 10,000 antiwar adherents marched down Fifth Avenue Saturday, there were several fist fights and the hurling of eggs and red paint, but police kept things from getting out of hand.

In Rochester, N.Y., the state commander of the Veterans of Foreign Wars threatened to make a citizen arrest of David Miller, 22, of Syracuse, N.Y., who publicly burned his draft card during a demonstration in New York.

Destruction of draft cards has been made a federal violation.

The VFW commander, Vincent [illegible] of Brooklyn said if Miller was allowed to go free "we are allowing the seeds of dissension to be sown in the midst of Americans."

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: The letter from "LOVES CATS" is so ridiculous that anyone who is THAT ignorant should not be allowed to raise cats, let alone children.

Fifty years ago I heard that story about cats sucking the breath out of babies, but I didn't think it was still being circulated. Honestly, some people will believe anything! It is true, a cat will seek a warm place, so if a cat jumps up into a baby's carriage, or crib, and snuggles up close to the baby, it is only to keep warm.

Cats love children, and would never intentionally harm them, unless provoked.

I have been active in animal welfare work for many years and although I have heard this old wives' tale many times, I have never known anyone who was actually a witness to such a thing. They always heard it from their grandmother's cousin's neighbor lady's housekeeper.

Sincerely,
"SKEPTICAL" IN BOSTON

* * *

DEAR ABBY: I wish you would have given that young woman signed "LOVES CATS" the peace of mind she sought, and told her to keep her lovely cats and not to worry about their harming her new baby.

I am the mother of six, ranging in ages from 6 months to 15 years old, and we have never been without cats. Not only one cat but many. I have had cats before any of my children were born, and I intend to have them long after the children are grown and gone.

Our cats have slept with the babies and have been marvelous pets to them. Not once did any of our cats ever as much as scratch a child. Our youngsters have learned cleanliness, kindness and responsibility from our cats. I do think you were wise to mention that all animals (like people) are unpredictable, so one should be careful not to expose a tiny infant to an animal larger than he is. But our experiences with cats have all been good.

ANOTHER CAT LOVER,
SAN DIEGO, CAL.

* * *

DEAR ABBY: Your warning to the expectant mother not to leave her newborn baby unprotected from her cats was good, as far as it went. But it didn't go far enough.

Abby, you should have told her that the expression, "jealous as a cat," is more than just an expression. It's the truth. Cats are the most jealous, possessive creatures on earth. We know.

We had no children for the first five years of our married lives, but we did raise a Siamese cat from a kitten. For five years, "Mozik" was our "baby." Then we had a real baby, and I'll never forget the day we brought our baby home from the hospital. You should have seen Mozik. He was positively wild! He arched his back, hissed, spat, bared his teeth and shot out his claws. This went on for days every time one of us went near the baby. Finally, we did get Mozik to make friends with the baby, but that first performance was enough for us. We kept our eye on the baby until he was well able to protect himself in case Mozik pulled any funny stuff.

ABBY FAN, CHICAGO

* * *

DEAR ABBY: No one will ever tell me that the story of a cat's taking a baby's breath is an old wives' tale, because this is what happened to me.

We lived in a second story apartment and a neighbor downstairs had a big 16-pound black cat. Our baby was about three months old at the time. My husband and I were in the kitchen, and the baby was in her buggy in the living room. I thought I heard some rather strange noises coming from the living room, so my husband and I went in to take a look. Well, it seems that cat got into our place somehow, and there he was with his mouth on the baby's, and his big black paws pawing away on her chest and throat. The baby was struggling to get her breath and her little face was beet red. My husband grabbed the cat and I grabbed the baby. I am sure if we hadn't gotten there in time, our baby would have been dead. This is a true story and you may use my name.

MRS. NELLIE M. BROWN,
LANCASTER, OHIO

* * *

DEAR ABBY: I can tell you a personal incident that may help your readers decide whether cats really do harm babies or not. When I was a boy of about ten I can still remember seeing my baby sister, who was about three months old at the time, lying on the center of my mother's big bed. It was a hot summer day and my mother and I were out on the front porch.

My mother suddenly decided to go in and check on the baby, and I tagged along after her. There was our big old cat standing on my baby sister's chest with his mouth inside the baby's as far as he could get it in. My mother grabbed the cat by the back of its neck and threw it on the floor. Then she picked up the baby and breathed her own breath into the baby's mouth until she returned to normal. I shall never forget this. I saw it with my own eyes. Needless to say, my mother got rid of the cat and no one in our family has ever kept a cat around since.

Truck Is Damaged In Blaze At Ira

Fire of undetermined origin burned the inside of a cab on a big tank transport truck of the Willard Gladson Oil Field Contracting Co. about 7:30 p.m. Sunday in Ira.

Firemen from Snyder answered the call with two trucks. The truck was parked on a truck lot in the Ira city limits when the blaze occurred. There were no injuries.

Nuclear Science Symposium Slated

More than 600 science students and their teachers from 44 high schools over a wide area of West Texas are expected to attend a nuclear science symposium on the campus of Odessa College Saturday, Oct. 30. Dr. Jack Rodgers, president of the college, has announced. The all-day conference is the third held at Odessa and is being sponsored by Odessa College and the Texas Electric Service Company. Hermleigh, Ira, Gail and Snyder High Schools have been invited to send representatives to the symposium.

The program, which will feature outstanding scientists, was arranged by the Texas Atomic Energy Research Foundation of which Texas Electric is a member. The foundation, composed of 10 investor-owned electric utility companies in Texas, is engaged in a program of nuclear fusion research with the General Atomic Division of General Dynamics seeking to harness the energy process of the hydrogen bomb for peaceful purposes, including the generation of electric power. The foundation also is sponsoring major research programs in atomic energy at the University of Texas and Texas A&M University, complementing the nuclear fusion research program the foundation is jointly sponsoring with General Atomic.

Key speaker will be Dr. Nicholas A. Krall from General Atomic's John Jay Hopkins laboratory at San Diego. Dr. Krall is a theoretical physicist in the controlled fusion research program sponsored jointly by TAERF and General Atomic. He is one of the nation's outstanding authorities on nuclear fusion research and an expert on plasma stability theory and plasma oscillations.

Another speaker will be Dr. E. Leigh Secrest, president of the Texas Christian University Research Foundation and dean of the TCU Graduate School. He received his doctorate from Massachusetts Institute of Technology and formerly was chief scientist at General Dynamics-Fort Worth. He was associate dean for graduate studies and research at the University of Oklahoma before joining TCU last summer.

Other scientists on the program will be H. R. Drew, executive vice president of the Texas Atomic Energy Research Foundation; Dr. R. E. Wainerdi, associate dean of engineering at Texas A&M University; and Dr. W. T. Guy, Jr., professor of mathematics and chairman of the department of mathematics at the University of Texas.

A film, "Reaching for the Stars", depicting the potentialities of fusion research, will be shown to the group.

DR. LEIGH SECREST

DR. NICHOLAS A. KRALL

VIC DISTRICT SWEETHEART—Sandy McCombs of Big Spring, center is surrounded by other candidates at election of District I sweetheart at the district meeting of VIC groups Saturday at Lamesa. Fourteen members of the Snyder VIC Chapter 115 attended the meeting.

VIC Delegation Attends District Meet At Lamesa

Fourteen members of the Snyder Chapter 115 of the Vocational Industrial Club attended the District I leadership training meeting at Lamesa on Saturday.

The district sweetheart, secretary, treasurer, reporter and sergeant-at-arms were elected at the session. The president and vice president of the district will be elected at the spring meeting in Odessa next March 18-19.

Sandy McCombs of Big Spring was elected district sweetheart. She will represent the district in the state sweethart competition at Austin in April. Pat Howell of Abilene was elected secretary, Betty Shipley of Abilene was elected treasurer, Teresa Coleman of Abilene was elected reporter and Terry Forest of Big Spring was elected sergeant-at-arms.

Candiates from Snyder included Don Johnson for treasurer, Larry Jones for sergeant-at-arms, and Pam Cole, local VIC Sweetheart who was in competition for the district title.

Nancy Depew of Odessa was first runner-up in the sweetheart competition, while Sue Frazier of Big Spring was second runner-up and Vickie McGlothlin of Abilene was third runner-up.

Sentences Handed Down By Court

County Court Judge Sterling Taylor today handed Wesley Jewel Floyd a 60-day jail term and a $100 fine plus court costs.

Floyd appeared in court today for sentencing. He had pleaded guilty Sept. 28 to a charge of theft.

Fernando Luna received a 3-day jail term and a $50 fine plus court costs after he pleaded guilty in County Court Friday to a charge of driving while intoxicated.

Begin Royal Tour

BRUSSELS (AP)—King Baudouin and Queen Fabiola of Belgium left by plane today for their first official visit to Latin America.

Officials Are Invited To Session

Scurry County Commissioners Court, along with other interested persons here, have been invited to attend a meeting Oct. 25 at Big Spring to discuss a proposal to establish a mental health clinic there.

The Rev. Truman Bennett, vicar of St. John's Episcopal Church, discussed the proposal with commissioners this morning in connection with efforts to form a mental health committee here that could be instrumental in establishing part-time service here.

It was noted that the Big Spring State Hospital is overcrowded and that in most cases when patients are discharged from the hospital they are advised to continue with out-patient treatment. Continuation of treatment usually is inconvenient and consequently, many of them forego additional treatment after they are discharged.

The Oct. 25 session will include an afternoon tour of the Big Spring State Hospital and a dinner meeting to discuss the proposal for the clinic. Members of the commissioners four indicated that they hoped to attend the session.

Dies In Shooting

HELENA, Ark. (AP)—Antonio Davillo, 27, of Santa Rosa, Tex., was killed and a peace officer was seriously wounded in a Saturday night shoot-out near here.

Visits Donors In Prison

MICHIGAN CITY, Ind. (AP) — A pretty teen-ager went to Indiana's state prison to thank a group of prisoners for sustaining her life and found herself the object of appreciation.

Marie Mauser, 17, of Indianapolis, has an incurable disease in which the bone marrow fails to produce blood. Warden Ward Lane read a newspaper account about the girl more than a year ago and 50 inmates volunteered to donate blood.

Since then prisoners have provided 78 pints of blood for Marie. The transfusions are "her only means of living," doctors said.

Meet MY COUNTRY COUSIN

This young rural housewife is really no different from her city cousin. Rural electrification with its marvelous conveniences liberates her from drudgery, brightens her day, lightens her chores, and heightens her interest in the world around her.

The member-owned MIDWEST Electric cooperative has helped erase the lines betwen city and "country". They are doing it with a first rate electric utility they built themselves to serve themselves. In the procss, the MIDWEST Electric Cooperative has strengthened the rural economy, attracted rural industry and provided a better, brighter world for its member-owners.

MIDWEST Electric Cooperative is helping Texas grow.

NEW PHOTO TOOLS—A tiny electronic sensor cell (arrow) in this new Auto-Strobonar flash unit reads its own light and turns itself off when proper exposure level is reached. At right is the new vertical format of the Rendelle 100 magnetic slide projector. It focuses itself automatically with an infrared tracking system.

Camera Angles

HAVING just returned from a three-week photographic bus tour of Europe, this was to have started a vacation series based on my experiences but a couple of important new photo developments take precedence. They are revolutionary innovations in an electronic flash unit and a 2" x 2" slide projector.

The new photographic tools, unveiled by Honeywell Inc. at a New York press conference, reveal that space-age electronics have been incorporated in these machines so that they accomplish little miracles automatically.

Item 1: the Auto-Strobonar 660 is a flash unit that electronically measures its own light as reflected by the subject matter and turns itself off when proper exposure has been achieved. It can do so in as little as 1-50,000 of a second when the subject is 2 feet away and requires a minimum of light Its range extends to 23 feet when its maximum light output is used at an exposure of 1-1,000.

In other words, its light varies according to the distance of the subject whereas all other flash units deliver a precise, equal amount of light each time. With present flash outfits, the photographer works with a guide number and changes his lens diaphram opening for different distances. With the new Auto-Strobonar 660, he consults a dial for the film being used then sets one lens stop which remains unchanged for all flash pictures with the subject from 2 to 23 feet away.

Item 2: The Rondelle 100 is a 2" x 2" slide projector in a unique vertical design format which, automatically and electronically, focuses its slides after the first one sets the pace by manual operation. The precise focus throughout the 100-slide trays is maintained by an infrared "tracking system" which is said to be twice as accurate as by human operation. No matter how the slides pop or buckle, a sensitive photo cell automatically corrects for any deviation in slide position.

The vertical design of the projector puts the lens up high for better screen viewing. Its 100-slide trays are far smaller than all other circular units and each is mounted inside, rather than on the machine. A Rondelle, therefore can store and carry a tray and is ready for instant use.

A metal clip must be attached to each slide in the rotary tray because the projector uses magnetic attraction to lift each slide into position for viewing after which they fall back into the tray by gravity. This method eliminates any possibility of ever damaging any slide by force according to a Honeywell spokesman. The tray, however, will not accept any glass mounted slides, only those in cardboard or plastic mounts.

The projector has an editing gate above the tray to adjust or replace individual slides or to view new ones for loading into an empty tray. It's a convenient feature for camera clubs for competitions.

To get back to item 1, the Auto-Strobonar 660 resembles the 65C model in looks and performance when its battery-operated automatic feature is turned off, as it can be. Then it has a Kodachrome II guide number of 80. It's in a plastic housing, weighs about two pounds and is 9 inches high. It holds four Permacad sub-C batteries in a sliding tray behind the reflector. Recycling time is 8 to 12 seconds, and the ready light comes on only when a 100 per cent full charge is available. For conventional electronic flash, the unit can be plugged into an electric outlet for AC or used on the battery for shooting.

For use as an automatic unit, the 660 must be set on "battery" and the small knob to "on."

Since the maximum energy of light is not used at closer distances, the excess amount is diverted electronically into a second, low-resistance tube within the flash head. This is done by the tiny sensor which "reads" the light bounced back by the subject and determines when enough has been received for proper exposure. The ability to determine and cut off the light when it reaches the correct level in a fraction of an instant is a scientific breakthrough in lighting technology. It gives amateur photographers a tool by which they can record high — speed photographic effects which have been limited heretofore to professionals using expensive equipment.

Composer's Wife Is Epicurean Cook

By CECILY BROWNSTONE
Associated Press Food Editor

DOROTHY RODGERS says, "My husband and my family are the center of my life."

We say that her husband (composer Richard Rodgers), her two daughters, her grandchildren and her friends, are lucky indeed, because Dorothy Rodgers' homemaking skills include serving some of the most delectable of dishes. The recipes in her book, "My Favorite Things — A Personal Guide to Decorating and Entertaining" (Atheneum) are an epicure's delight.

When Dorothy Rodgers was first married, her "education in homemaking was anything but organized," but in the years following she rectified that lack. In "My Favorite Things" she gives other women the benefit of her long experience and her talents.

Here, then, is a recipe from her book. When we tried these cookie - cornucopias, they took lots of time to bake — but our tasters pronounced them divine. One hint: we found we needed a helper in the kitchen in order to shape them with dispatch.

BRANDY SNAPS — Cookie-cornucopias filled with whipped cream. This recipe comes from the book, "My Favorite Things" by Dorothy Rodgers, wife of composer Richard Rodgers.

OROTHY RODGERS' BRANDY SNAPS

¼ pound butter
1 cup light brown sugar (lightly packed)
1-3 cup corn syrup
⅛ teaspoon powdered ginger
1 cup unsifted cake flour
1 teaspoon brandy

Preheat oven to 375 degrees. Place together in saucepan ¼ pound butter, 1 cup light brown sugar and 1-3 cup corn syrup. Bring to boiling point over low heat. Remove from fire. Add ⅛ teaspoon powdered ginger to 1 cup unsifted cake flour and sift into syrup mixture. Stir with wooden spoon until smooth and free from lumps. Stir in 1 teaspoon brandy.

Lightly grease 2 cookie sheets, with a teaspoon drop teaspoonfuls of batter on tins, making only 4 mounds on each tin. Remove first tin after 5 minutes more and allow cookies (which will have spread out paper thin) to cool enough to handle. Working quickly and carefully with spatula, loosen cookies and roll on the handle of a wooden spoon, making cornucopias. Place them on waxed paper and remove second pan from oven and repeat process. Repeat with the rest of batter greasing tins each time. When all are baked, you will have 2 to 3 dozen cornucopias. Place these carefully in airtight tins until ready to fill with whipped cream flavored with brandy and sugar. Do not fill with cream more than half an hour before serving, or they may get soggy. (Without cream filling snaps may be served as cookies.) Serves 8.

BRANDY SNAP FILLING

2 cups heavy cream
2 teaspoons confectioners' sugar
2 teaspoons, brandy

Beat 2 cups heavy cream until partially stiff, add 2 teaspoons confectioners' sugar and 2 teaspoons brandy and continue beating until stiff. Fill cornucopias about hour before serving.

Musical Coterie Meeting

Twenty-five members of the Musical Coterie study club assembled at the Martha Ann Woman's Club, Thursday, October 14 for their monthly meeting. The hymn of the month, "Dear Lord and Father of Mankind," was led by Mrs Lloyd Arnold and accompanied, by Mrs. E. L. Kubala.

Mrs. Wayne Bethel, club president, announced that Mrs. Sonne Umberson, a past president of the Snyder chapter, was elected President of District II Musical Coterie at the recent club convention. Mrs. Bethel also announced the names of the new members who have recently enrolled: Mrs. Tommy F. Williams, Mrs. John Gordon, and Mrs. M. M. O'Rear.

At the conclusion of the short business session, Mrs. Patsy Elliott gave a survey of the year's study, under the title of 'The Happy Medium.' Ronald Clinton favored the group with a piano solo, "Suzanna Kyle," composed by Bernstein.

Hostesses for the evening were Mrs. J. M. Kayser, Mrs. Helen Rodgers, and Mrs. Bob O'Day.

Iota Psi Chapter Entertains Rushees With Salad Supper

Iota Psi Chapter of ESA entertained rushees with a salad supper Monday evening at the home of Opal Coffee, with Faydean Hart as the hostess. Each member brought a salad of her favorite recipe.

Rushees attending were, Judy Land, Dora Ann Mapes, Mary Kathryn Breeden, Wanda Rhodes, and Jonnie Harber.

Members attending were Beverly Ainsworth, Helen Breeden, Opal Coffee, Faydean Hart, Virginia Johnston, Anita Payne, Anna Stephens, Betty Hunter, Ann Mathews, Etta Wilson, and Virginia McMillan.

Union 4-H Club Meeting Held

The Union 4-H Club met in the community center recently for a regular session. The meeting was called to order by Judy Tate. Discussion was on the candlelight installation service and the county - wide meeting.

Old business was a report on the educational exhibit at the fair in which the Union 4-H took first place. A motion was made that the ribbons be framed and hung in the community center.

The program was on how to can tomatoes. Judy Tate led a game of "Rotten Eggs" and "I'm Going On A Camping Trip".

Those present were Rebecca Huddleston, Freda Pitts, Rozanna Ainsworth, Teresa Chaney, Karen Shifflett, Barbra Tate, Martha Stephens, and leader, Mrs. O. P. Tate, Jr.

Little League Squad Coach Has Problems All His Own

EDITOR'S NOTE — Did you ever have a desire to coach a football team and try out your favorite plays? AP writer Rob Wood got the chance this fall when he became coach of a Little League football team. Wood tells of the problems and the pleasures of handling a squad compose of youngsters between the ages of 9 and 13.

By ROB WOOD

RALEIGH, N.C. (AP) — The college football coach may moan about his troubles with the alumni, the unsympathetic professors, the indigestible banquet circuit and the endless recruitment of talent.

But did he ever have a quarterback miss a practice session for talking in the lunch line and spending an hour after school in detention hall?

Did he ever have two linemen gone because it was the weekend of the big Boy Scout campout?

Did his leading ground gainer ever dash onto the field seconds before the kickoff, explaining he had to mow the lawn before getting parental permission to play?

The college coach doesn't know what trouble is unless he has been the mentor of a Little League football team.

This 115-pound, 9-to-13-year-old edition of football comes along each fall with the same madness as in the collegiate and professional circles.

The stands generally are filled for each game with proud papas, worried mamas, unconcerned sisters and envious little brothers.

Volunteer coaches are hunted and enough are trapped each season to provide the leadership for the city and county leagues throughout the nation.

The Little League football coach generally is a man who spends 8 to 10 hours a day behind his desk, or on his sales route, or at the construction site.

He rushes to the practice field every afternoon for the two-hour workout, trading his hot dinner for a set of sore muscles.

He spends most of the season teaching the fundamentals of blocking and tackling, more interested in preparing the youngsters for future football than in winning games.

The situations faced in the heat of competition would force a college coach to call a dive play off of a bridge.

The quarterback rolls out, shakes off a tackler, and appears on the way to a touchdown.

But, alas, down he goes, tripped by the oversized pants which have fallen around his angles.

During the days and weeks of practice, the boys begin to change.

The one with two left feet suddenly can run with the best of them.

That chubby one the kids called "Blubber" has lost 15 pounds.

The bashful one gained the self-confidence he had never known the day after he scored a pair of important touchdowns.

And some day on a crowded downtown street when the day's work has been boring, you'll hear a squeeky voice yell, "hi ya, Coach."

Then he tells his friend, "That's the fellow who taught me my football."

The college coach doesn't know what feeling proud is unless he's been the mentor of the Little League football team.

Thirty-six African nations now shape their own destinies. There were only four countries ruling themselves in all of Africa at the end of World War II.

NOTHING LIKE A BRISK FALL DAY, GOOD COMPANY AND GAILY COLORED LEAVES
Coulton Waugh

QUESTION: Why do the leaves get bright colors in the fall?

• • •

ANSWER: In (1) we see three maple leaves with their slender stems, or petioles. Water and material from the soil, needed by the leaves in their vital job of making food for the trees, come up through the twigs and petioles. In summer, this passageway is clear. But as the nip of fall comes, the broad-leaved trees seem to realize that weather is coming which will be too cold for their leaves to go on working; that it is time for these little green factories to close up shop. Accordingly, (2) a row of cork-like cells grows across the base of the petiole, completely shutting off the leaf's water supply. Now the leaf loses its green, because the green chlorophyll cells, deprived of water, have died. But the leaf shows other colors: brilliant yellow or red or rich-brown. Where did these colors come from? Botanists tell us that these colors, caused by various chemicals in the leaves, were there all the time, but were hidden by the green. With the passing of the green chlorophyll, these other colors were revealed. But soon even these bright colors begin to fade. A day comes when the now withered leaf snaps cleanly off its twig at the point where the cork cells formed and flutters down (4). Summer is over.

• • •

FOR YOU TO DO: Take a walk on a fine fall day and pick up the gayest colored leaves, arranging them in your hand like a deck of cards. Then study the amazing variety and beauty of the color combinations you will see. No tapestry or carpet, no matter how expensive, could be as rich as this. 10-18

(Virginia Coleman of Midland Park, N.J. wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Market Woes No Longer Shake Public

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — How the public reacts to the turndown in the industrial production index in September and to some slackening in the rate of retail sales will be watched carefully — more on Wall Street than on Main Street.

The public in general appears to have become much more shockproof than the professional traders in the stock market. And often New York trembles when the rest of the nation just yawns.

Just why this is so and how it has come about causes considerable debate. Once the stumbling in industrial production after months of steady rise would have turned many people cautious lest it foretell spreading trouble. Now it is likely to be assayed as a one-time thing, of interest mainly to the steel industry, and overlooked elsewhere.

Whether this rising above the jittery state that in former years often plagued the economy is wholly commendable also is debated.

On one hand, insofar as a greater sophistication of the public is shielding the economy from the onslaughts of alarm at the least sign of faltering, it is reassuring. On the other hand, the public's growing indifference to any and all signs of weakness might be leading to a state of overconfidence that breeds first excesses and then overcorrection.

The Federal Reserve index of industrial production dropped to 142.8 in September from 144.3 in August (100 equals the 1957-59 average). A cutback in steel production while consumers lived off stocks built up before labor peace was assured caused the September stumbling.

But the public remembers that just a year ago the index also stumbled, that time because of labor stoppages in auto plants. The setback was only temporary.

Any public indifference to this year's setback can be chalked up to greater sophistication about what makes the economy tick.

But there is some indication that the public is becoming inclined to shrug off any signs of weakness — or any signs that once would have been quickly tabbed as weakness in the general economy.

Many people are apparently convinced that everything is going to turn out all right. They class any pointing to trouble spots as just another cry of wolf.

Pakistani President Hopes To Visit US

WASHINGTON (AP) — Pakistani President Mohammed Ayub Khan hopes to visit the United States this year.

Foreign Minister Z. A. Bhutto told a news conference Sunday his president wants to meet with President Johnson in late November or early December.

He said the timing would hinge on developments in the Indian - Pakistani dispute over Kashmir where he termed the present cease fire "very fragile."

Young Rebels Defeat 'B' Kittens, 27-7

Midland Lee's junior varsity football team earned a 27-7 verdict over the Snyder "B" team here Friday night in a game that featured just about everything, including hard-hitting, fumbles, penalties, interceptions and high winds.

Snyder scored first, marching 47 yards in the first frame after Midland Lee punted out short. It took 10 plays for the Kittens to cover the distance with quarterback Mickey Almond passing to end Frankie Grimmett for the final four steps. Big plays in the march were a 14-yard ramble around left end by Leon Riggins and a 14-yard burst by Jerry Hardwick, who reversed his field behind the line. Frank Jackson booted the extra point as the Kittens led, 7-0, throughout the remainder of the period.

Midland cranked up its offense in the next stanza scoring three touchdowns, to go ahead 21-7 at halftime. The first drive covered 65 yards with quarterback Frazier tossing 14 yards to halfback Ronnie Clemmer for the payoff. Ramsey took a handoff on a conversion fake, sped around right end, and Midland led, 8-7.

The visitors held and Snyder punted out short to the 25, and young Rebs drove in from there on eight ground tries. Clemmer claimed the tally with a two yard line plunge and Frazier's kick was good, widening the gap to 15-7.

Midland held again following the kickoff and blocked a punt at the Snyder 22. The foes covered the loose ball at the 16 and crossed the goal on first down Diffenbach romping around left end. A pass for extra points was batted down. Thus the visitors took a 21-7 margin into the second half.

Snyder could not get beyond its 44 in the second quarter, and neither team could sustain a drive in the third quarter as fumbles, interceptions or penalties wiped out every thrust. The Kittens put together the best march of the quarter, going from their 14 to the enemy 41 before a penalty and an interception stopped them. Midland fumbled on first down, but Snyder fumbled after two tries.

The Rebs put the icing on the cake early in the final stanza, after covering a fumble at the Kitten 29. They marched in eight power runs with Clemmer, a former Junior High star in Snyder, going the final two yards. Lonnie Gilstrap broke up a pass for extra points as the visitors posted their final cushion, 27-7.

Snyder threatened in the last quarter as Almond connected with Lloyd Pinkerton on a 56-yard pass play which carried to the Reb 13. But Midland stiffened and the Kittens were unable to get beyond that point.

The Snyder pass defense appeared leaky in spots, but overall the Kittens played a good game, making the larger school scrap for everything it got. It was a hotly-contested game.

Cleveland Clips Cowboys, 23-17

By MURRAY CHASS
Associated Press Sports Writer

Gale Sayers, who was greeted by skeptics at his coming out party, now has believers wishing he had stayed in.

The Chicago rookie created possibly the biggest explosion of the season Sunday, scoring the last four touchdowns—one on a 96-yard dash with a kickoff—as the Bears outlasted Minnesota 45-37 in the National Football League.

It was a performance that couldn't have left many, if any, doubts about Sayers' ability. There were some doubts when Coach George Halas introduced the University of Kansas halfback to the NFL at a party at a big Chicago hotel last winter.

The Bears showed films of Sayers in action, but viewers were skeptical, figuring that no one could be that good. The Bears just picked out his best plays, they said. The NFL would be different.

Five games later, Sayers looks as if they're still picking out his best plays. They came frequently against the Vikings.

Sayers twice put the Bear ahead in the second half, catching touchdown passes of 18 and 25 yards from Rudy Bukich.

He then put them ahead to stay with about two minutes left in the game, snaring Fred Cox' kickoff on the run at the four-yard line, shooting through the onrushing Minnesota tacklers and scampering the rest of the way untouched.

Shortly afterward he wrapped up the victory with a 10-yard touchdown run.

Talking about his kickoff return—the longest run in the league this season—Sayers said:

"I caught the ball and saw this wide hole in front of me. The blockers opened it wide. I just had to run."

All told, Sayers carried 13 times for 64 yards, caught four passes for 63 yards, completed the one pass he threw for 7 yards, setting up a field goal, returned four kickoffs for 170 yards.

His 24 points, best game performance this year, rocketed him from a 10th-place tie in league scoring to a tie for first with Minnesota's Cox. Each has 48 points.

In other NFL games, Green Bay came from behind for a 31-21 victory over Detroit, Cleveland beat Dallas 23-17, St. Louis knocked off Pittsburgh 20-7, Baltimore walloped Washington 38-7, New York outlasted Philadelphia 35-27 and San Francisco crushed Los Angeles 45-21.

Green Bay fell behind 21-3 at halftime before rallying for the victory that kept them the only unbeaten team in the league. Bart Starr fired three touchdown passes in the third quarter, the third a 77-yarder to Carroll Dale, and ran for another TD in the fourth.

Three field goals by Lou Groza, one a 48-yard boot, kept Cleveland in front of Dallas and on top of the Eastern Conference with St. Louis. Jim Brown raced 10 yards for the Browns' first touchdown, and Frank Ryan tossed 29 yards to Walt Roberts for the second.

A 71-yard scoring pass play from Charley Johnson to Bobby Joe Conrad early in the fourth quarter broke up St. Louis' close game with winless Pittsburgh. Johnson earlier hit Sonny Randle on an eight-yard scoring play.

Baltimore remained close to Green Bay in the Western Conference as Johnny Unitas passed for two touchdowns. The Colts' defense also helped send winless Washington to its fifth defeat, Al Haymond scoring on a pass interception and Billy Ray Smith setting up another TD with an interception.

Earl Morrall tossed for four touchdowns, giving New York a 35-7 lead before Philadelphia rallied for three touchdowns, all on passes by King Hill, in the second half. One of Morrall's scoring tosses was an 89-yarder to Homer Jones.

John David Crow and Ken Willard each scored twice as San Francisco built a 28-7 lead in the first half. Los Angeles never was in the game after that.

Lamar Tech Paces Race

By The Associated Press

Arkansas State and Abilene Christian clash Saturday at Jonesboro to see which stays in the race for the Southland Conference football championship.

Each has lost a conference game and the loser will fade out of contention.

Lamar Tech, the unbeaten, untied leader with a 2-0 record, plays outside the league, meeting Texas A&I at Kingsville.

Arlington State also plays an outsider, meeting McMurry at Abilene.

Trinity, which won its first conference game Saturday, a 9-0 licking of Arlington State, rests this week.

Trinity and Lamar Tech are the only teams unbeaten in conference competition.

Lamar Tech downed Abilene Christian 28-18 last week and became the big favorite for the championship.

Arkansas State beat The Citadel 14-0.

Donny Has His Moments

LUBBOCK, Tex. (AP) — Donny Anderson is living up to his press notices as an All-America and producing great moments in Texas Tech's football campaign.

But the fans wish dauntless Donny would pull his heroics earlier. It's affecting the hearts of the people in the South Plains.

Anderson made his longest run yet Saturday night when he sped 103 yards with the opening kickoff and led Texas Tech to a 17-14 victory over Oklahoma State. He triggered affield with a 31-yard run, and that was the eventual difference.

But it was that winning touchdown that again had the crowd in a stew—just like it had been in the previous two games. Anderson ripped off a 37-yard punt return to set it up with only a couple of minutes remaining.

In the 28-24 victory over Texas Christian the week before, Anderson ran 54 yards for a touchdown, 67 yards to set up another and took a 30-yard pass to lead the charge to the winning touchdown in the last minutes.

And the week before that Texas Tech beat Texas A&M 20-16 and it was Anderson who made the heart of the South Plains beat like a trip-hammer. He took a lateral and raced 37 yards to the touchdown with 1:38 left.

Anderson is probably the greatest all-around back in Southwest Conference history. He does so many things they are thinking about having him take up the tickets at odd moments.

He leads the conference in pass-receiving with 31 catches for 390 yards and four touchdowns. He tops in scoring with 36 points, he leads in kickoff returns with 13 for [illegible] yards, he's sixth in rushing with 264 yards on 67 runs and he has punted for an average of 37.4.

Not only that but he has been playing defense lately what with some key defense men out with injuries. And the guy is as good at that as anybody on the team.

KEY PLAY IN FINAL SERIES GAME—This is how Los Angeles Dodgers third baseman Jim Gilliam stopped Zoilo Versalles' smash down third base line to snuff out Minnesota Twins rally in final Series game at Minneapolis-St. Paul, Minn. After making the stop, he raced to third to force Twins' Frank Quilici, thus cutting off one and possibly two Minnesota runs. Dodgers won, 2-0, took Series. (AP Wirephoto)

SPORTS

Crockett Led Porker Drive

By ED SHEARER
Associated Press Writer

FAYETTEVILLE, Ark. (AP) — A borrowed play, some helpful mid-week advice, the passing of Jon Brittenum and catching of Bobby Crockett helped third-ranked Arkansas topple the nation's No. 1 team here Saturday.

Arkansas Coach Frank Broyles, smiling broadly over his Razorbacks' 27-24 come-from-behind victory over Texas, said his team copied a Tulsa pattern in the 80-yard drive to the winning touchdown.

"We couldn't stop it and figured we just as well copy it," Broyles said.

"It was just Twilley's pattern, going down about eight yards and either hooking or cutting to the sideline."

Howard Twilley, Tulsa's great end, caught 12 passes against the Razorbacks here in the second game of the year won by Arkansas 20-12.

Brittenum and Crockett were the heroes of the touchdown drive that spoiled a gallant Texas comeback which saw the Longhorns erase a 20-0 Arkansas lead and take a 24-20 advantage with 4:06 left in the game.

Crockett, who caught eight passes in the game for 102 yards and the third Razorback touchdown, pulled in Brittenum passes of 22, 13, 8, 11 and 14 yards in the last drive.

Brittenum also had a six-yard pass to Bobby Burnett, hitting on six of eight for 74 of the 80 yards. He got the winning touchdown on a one-yard sneak over center with 1:32 left in the game.

Broyles said Saturday night that his mid-week help came from Razorback Athletic Director John Barnhill, who compiled a 22-17-3 record as football coach at Arkansas from 1946-49.

"We had our poorest drill on Tuesday," Broyles said, "and I just didn't know what to do.

"I called Barney and he told me 'all we are doing is getting ready too early. You just have to relax'."

Broyles said, "We took a relaxed attitude the rest of the week and it paid off. It was flat fantastic. That's all you can say."

Arkansas had taken a 20-0 lead before Texas finally rallied around its marvelous quarterback, Marv Kristynik. He scored both Steer touchdowns and engineered three drives which ended in field goals of 34, 34 and 35 yards by David Conway.

Krystynik connected on 14 of 21 passes for 193 yards and added 81 yards on 15 carries.

Lamar Rally Stops Sweetwater, 22-20

The Lamar 8th grade Texans scored a touchdown and made good on a conversion run with 3 minutes, 16 seconds remaining in the fourth quarter to edge Sweetwater, 22-20, in a football game held in Tiger Stadium Saturday night.

Sweetwater had gone ahead on the first play of the fourth quarter with Rivera charging over left guard from the four to cap a 48 yard march. A run for points was short, leaving the visitors with a 20-14 margin.

Then came the winning drive of the night. The Texans took over on the Pony 19 following a high snapback from center, which was covered by left guard Coy Rhodes. Slotback Neil Rinehart covered the distance in two downs, going over from the eight on the last one. He also skirted right end for the extra points and the 22-20 margin held in the final minutes.

Lamar was impressive in the first stanza, marching 70 yards on the ground to take a 6-0 lead with Rinehart, Billy Bowden and Randy Levens alternating carries with quarterback Lee McNair. Rinehart picked up most of the yardage, going from the Pony 27 to the nine in one effort.

Tucker, Sweetwater's left-handed passer, tossed a 19-yard shot to Rivera early in the second period to knot the count at 6-6. The play capped a 48 yard drive.

Each team crossed the goal once in the third quarter. Rinehart took the kickoff opening the third quarter and ran it back for a touchdown. He fielded the ball at his own 15, ran diagonally to midfield, cut to the west sidelines, and burst into the clear about the Pony 40. Levens slanted over left tackle to make it 14-6.

A couple of minutes later Tucker hit Rivera again going at full speed and the talented Pony galloped for a touchdown, then bulled over the tying points, 14-14. The TD pass play covered 73 yards.

Then came the final quarter with each team tallying twice, including the final TD by Lamar with the extra points providing the difference.

Scoring by quarters:

Lamar 8th	6	0	8	8—22
Sweetwater	0	6	8	6—20

Denver Broncos Bombard Houston

By MIKE RATHET
Associated Press Sports Writer

When George Saimes of the Buffalo Bills said "I do" at the wedding he got a job instead of a wife.

And Sunday, playing against the Kansas City team that jilted him, the all-star defensive back turned in the key play by speeding 18 yards with a fumble for the clinching touchdown in Buffalo's 23-7 American Football League victory over the Chiefs.

Saimes, primarily noted for his offensive talents when he was an All-America at Michigan State in 1962, originally was drafted by the Chiefs. But Buffalo owner Ralph Wilson got to chatting with Saimes when he attended the wedding of Dave Behrman, a Spartan teammate and the Bills' No. 1 draft choice.

One thing led to another, Wilson was asking Saimes if he'd like to play in Buffalo and Saimes was saying, "I do."

A trade promptly was arranged and Saimes moved over to Buffalo. When the Bills became pressed for defensive help, Saimes moved over to safety.

A master of the safety blitz, he tried the maneuver against the Chiefs midway in the fourth quarter with Buffalo holding a precarious 10-7 lead, jarred quarterback Pete Beathard loose from the ball and raced for the touchdown that put it out of reach.

Defenders also played key roles in the other two games. Western Division-leading San Diego threw back repeated Boston threats in the second half while holding on for a 13-13 tie and defensive back John Griffin scored Denver's final two touchdowns in a 28-17 victory over Houston.

In a Saturday night game, the New York Jets and Oakland Raiders played to a 24-24 tie.

The Patriots, now 0-5-1, took a 7-3 lead against the Chargers on Babe Parilli's 73-yard touchdown pass to Ron Burton but San Diego pulled ahead at the half 13-7 on John Hadl's 84-yard strike to Lance Alworth and a 10-yard field goal by Herb Travenio.

The Chargers, the league's lone remaining unbeaten team with four victories and two ties, then spent the rest of the day turning back Boston threats with a pair of field goals by Gino Cappelletti finally pulling the Patriots even.

Hall Unhurt In Mishap

MONTEREY, Calif. (AP) — Millionaire racing driver-designer Jim Hall of Midland, Tex. will try again next week at Riverside, Calif., after demolishing one of his older Chaparrals at the Monterey Grand Prix.

Hall was unhurt in a wreck on the fourth lap of the first heat Sunday and watched Hap Sharp, also of Midland, in another Chaparral lose to Walt Hansgen in the second, 100-mile heat.

SWC GAMES ARE CLOSE

By HAROLD V. RATLIFF
Associated Press Sports Writer

Take Arkansas and Texas out and it would be a thriller-diller of a Southwest Conference football race.

Except where Arkansas, which is the only undefeated, untied team left in the league, and Texas are concerned, the widest margin between the teams has been eight points. Two have been decided by four points and one by three.

But Arkansas and Texas so dominate the conference that no one questions whether Arkansas will win the title and Texas will be another hot bowl choice.

Arkansas beat Texas 27-24 Saturday in the year's big one. It left Arkansas unbeaten and untied through 17 games—the nation's best—and topping the conference wth a 3-0 record.

Arkansas beat Texas Christian 28-0 and Baylor 38-7 in its other games. Texas whipped Texas Tech 33-7 in its other conference test. Just goes to show how Arkansas and Texas are in a class to themselves.

Southern Methodist became the only other team unbeaten in conference play when the Methodists edged Rice 17-14 Saturday.

Texas Christian downed Texas A&M 17-9 in the other conference meeting on the schedule and the result was that both TCU and A&M now can be considered out of the championship race, since each has two defeats.

Texas Tech beat Oklahoma State 17-14 in a typical finish for the Red Raiders, who have won three this season in the final minutes. It brought the conference's intersectional record to 13 victories, 6 losses and 1 tie—one of the best marks yet.

Texas Christian plays Clemson at Clemson, S. C., Saturday in the next to last intersectional game of the season. Texas Tech meets New Mexico State in the last one on Nov. 6.

Arkansas takes on four-time loser North Texas State at Little Rock Saturday night and the Razorbacks will have small worry that their winning streak might be marred.

There are three conference games, with Texas Tech meeting Southern Methodist at Dallas in the top one. Tech will be trying to stay in the championship race, SMU to maintain an unbeaten conference record.

Baylor and Texas A&M play at College Station and Baylor will have to win or fade from the race. Rice and Texas clash at Austin in another game where the loser will be knocked out of contention.

Takes Top Tourney

MIDLAND (AP) — Marty Riessen of Evansville, Ill., won his second big tennis tournament in two weeks Sunday when he beat Antonio Palafox, Mexican Davis Cupper, 6-3, 6-2 in the singles finals of the Midland Racquet Club invitational.

Riessen, a memer of the United States Davis Cup team, previously had taken the Pacific Coast International tournament.

Riessen made it a clean sweep here when he teamed with Clark Graebner of Los Angeles, his teammate at Northwestern University, to beat Dennis Ralston and Chuck McKinley, the defending champions, in the doubles, [illegible].

French Envoy Sees Merit In Meeting

By JOHN M. HIGHTOWER
and
ENDRE MARTON

WASHINGTON (AP) — Departing French Ambassador Herve Alphand says a meeting between Presidents Johnson and Charles de Gaulle "would be certainly very useful to have — one day."

But the diplomat said such a session should not be arranged "before we have clearer views about some very important problems we have to discuss in the next months."

Alphand commented on a possible Johnson-De Gaulle meeting in an interview with The Associated Press.

He is returning to France later this week after nine years as its ambassador to the United States. Alphand will become secretary general of the French Foreign Ministry, the highest post reserved for a career diplomat.

On other questions the ambassador said France:

— Will be ready next year to discuss its concept on the reorganization of the North Atlantic Treaty Organization.

— Will be prepared in 1966 to negotiate with the United States on the coordination of the two countries' nuclear forces.

— Sees no present hope for a negotiated settlement of the Viet Nam war.

— Hopes that the European Common Market and the Geneva conference on tariff cutting will overcome current trade difficulties.

There has been talk of a possible Johnson-De Gaulle conference since Johnson became president. They met briefly after President John F. Kennedy was assassinated, but have not met again since.

The problems which should be clarified before the two heads of state meet center around European integration and the Atlantic Alliance, Alphand said, adding:

"The differences we have are really differences of opinion and, as Jefferson said, differences of opinion are not differences in principles.

"It is normal and sound between free people and allies to disagree; it is the privilege of our free community of nations."

Reminding that France today is a strong country, he said that "it is better for you to have a friend who is more solid than he was before, than to have an uncertain protege."

The Atlantic Alliance, Alphand said, should be maintained, but France insists on the "complete reorganization" of NATO.

He said: "We consider the alliance necessary as long as a threat exists, and it will exist for a long period of time. But the form of the alliance, the organization called NATO, which was established 15 years ago is no longer adapted to the circumstances of today." When it was established the United States, alone in the world, was the atomic power capable of destroying the planet. This is no longer true today.

MORE

Sammy Davis Jr. Returns To Stage

NEW YORK (AP) — Sammy Davis Jr. expects to return tonight to his starring role in the musical "Golden Boy," his producer says. The actor was hit accidentally Saturday night during a first-act dance depicting a prize fight.

He was hospitalized for some "pretty bad bruises" on the back of his head and neck and for tests, producer Hillard Elkins said Sunday.

Davis, 40, is scheduled to be released from Mt. Sinai Hospital today, Elkins said.

Lamont Washington, Davis' understudy, completed the show Saturday.

Navy Considers Building Big New Cargo Carriers

By FRED S. HOFFMAN

WASHINGTON (AP) — The Navy is considering building about 20 big, fast military cargo ships that would be loaded with tanks, other heavy equipment and supplies and stationed near potential trouble spots.

Such a fleet of "fast deployment logistic" ships would cost about $640 million, by current Navy estimates.

Coupled with house-size C5A transport planes recently ordered into production, these cargo vessels would give the United States the capability to speed large ground forces to distant areas, and to have the gear close at hand to enable them to fight in limited war situations.

The Navy study has the blessing of top Pentagon officials, who consider the fast deployment ships an integral part of modernized U.S. airlift-sealift for the 1970s and beyond.

However, Pentagon officials have not settled on any final figure as to the numbers of such ships that would be needed, nor have they adopted the Navy's cost figures.

The Navy study estimates each of the new vessels would cost about $32 million. Defense specialists are skeptical of that figure, believing it may be too low.

Congress has voted $67.6 million for two of the ships. This comes to $33.8 million apiece, with the additional $3.6 million attributed to higher costs of first-of-their-kind models.

The cargo ships would have about twice the capacity, greater speed and, hopefully, lower operating and other costs than current Navy sealift vessels.

They would be equipped with ramps to permit rapid loading and unloading of wheeled and tracked vehicles. This is called a "roll-on, roll-off" capability.

Under the plan, the craft would be powered by a new propulsion system similar to an aircraft-type gas turbine engine. The speed would be about 20 knots.

Socialists Hold Confab

STRASBOURG, France (AP) — Representatives of Socialist parties from the six Common Market nations said today that if France continues her boycott of the Common Market, her five partners should push ahead without her.

The call came in a communique following a weekend meeting of about 30 Socialist party officials from France, West Germany, Italy, Belgium, the Netherlands and Luxembourg. About 30 officials took part in the meeting.

France has been boycotting most Common Market meetings since the end of June following a breakdown in negotiations for a common agricultural policy, which France wants, and a degree of political integration, which France doesn't want.

Earthquake Shakes Southern California

LOS ANGELES (AP) — An earthquake which rattled Southern California and touched off a series of aftershocks Sunday was rated at 4.2 on the Richter scale—severe enough to crack walls.

The original quake, at 2:15 a.m., caused no extensive damage, police reported. It was most severe in Palm Springs, where police received reports of cracked china and window glass.

BUSINESS and INDUSTRIAL NEWS

RECEIVE SERVICE EMBLEMS — Ira W. Hudson of Lubbock, left, and Quincy K. Earle of Snyder, second from right, receive Mobil Oil Co. service emblems from C. H. Samples and A. J. Alcott, respectively.

Mobil Employes Receive Emblems

Quincy K. Earle, 3507 Fortieth Street, Snyder, and Ira W. Hudson, 4608 Forty - third, Lubbock, were presented service emblems at a luncheon at the Top of the Plains Restaurant recently.

Earle was presented an emblem in recognition of his 30 years of service with Mobil Oil Co by A. J. Alcott, Lubbock District Production Supervisor. Earle is Production Foreman of the Snyder area, recently being transferred here from Andrews. He and his wife, the former Thelma M. Harmon of Alpine, have made their home in Snyder for the past few months.

Earle was born in Poyen, Ark. where he attended public schools. His entire company career, except for four years from 1942 to 1946 when he was a member of the U.S. Naval Reserve (Sea Bees Branch), has been in the general West Texas-New Mexico area. For a numbr. of years, Earle was employed as a carpenter, gang pusher and construction foreman before going to his production foreman job in 1960.

Hudson was presented an emblem in recognition of his 25 years service with Mobil by C. H. Samples, Lubbock District Producing Superintendent. Hudson is currently employed as lease operator in the Sundown area where he has been employed in this classification since 1953.

Hudson was born at Mt. Lebanon, La., where he attended public schools. His entire company career has been in drilling and producing operations working in numerous classifications before going to his current assgnment as lease operator. He and his wife, the former Vivian Gray from Hugo, Okla., have made their home in Lubbock for a number of years.

Stephenson Maintains Big Variety Of Radiators Here

Frank D. Stephenson, operator of the Snyder Radiator Service at 1105 Avenue T, has a wide variety of radiators on hand—especially for Ford, Chevrolet and Chrysler automobiles.

Known as "the radiator man," Frank also has plenty of radiators and equipment to repair cooling systems on car, truck, tractor and commercial radiators. With 16 years experience in Snyder, Stephenson knows what to look for on any cooling system that isn't working properly.

"What many people don't realize," said Frank, "is that there isn't any reason to purchase a new radiator if your old one can be repaired."

The former Kiwanis Club president said a proper repair job often will result in a substantial saving in money. Why put out money for a new radiator if the old one can be repaired, he asks?

In commection with radiator repairs, the former Navy veteran said that a new core or recoring job usually puts most radiators in proper working condition. Moreover, Frank has the equipment and knowledge to make whatever repair is necessary.

"We can re-core just about any radiator you have," said Frank, "whether it be car, truck, tractor or commercial."

The cooling system of a car must operate properly before the engine can run at maximum efficiency and safety. A motorist usually can get by with a small leak in the summer by keeping the car filled with water, but loss of anti-freeze in winter time can be costly.

Why wait for cold weather to get here before checking your radiator? A core job now may save motorists time and money later on, according to "the radiator man." Frank also checks over-flow lines, hoses, water pump and pressure cap when he looks at a radiator.

It is attention to detail and pride in his work that has gained Frank recognition as "the radiator man" in Snyder. Stephenson also has been active in American Legion work on the state level as well as being active in local civic work.

He and his wife are parents of grown daughters. One daughter, Mrs. Robert Overgaard, is the wife of a Lutheran pastor in Brooklyn. The other one Mrs. Howard F. Hjelm of Falls Church, Va., is married to a doctor of education who is involved in basic research in educational methods.

Frank was raised in Sweetwater. He has spent all of his life in Snyder and West Texas except for wartime service with the Navy and 10 years when he worked in automobile service on the West Coast.

Wrecking Crews Begin On Fantasy Land

NEW YORK (AP)—Wrecking crews start today tearing down most of the buildings on the 646-acre fantasy land of the New York World's Fair which ended its two-year run with a record one-day attendance of 446,953.

Widespread pilferage and vandalism marred the final day Sunday.

Fair officials announced a 1965 attendance of 24,459,168 and the two-year attendance as 51,607,448. Before the fair opened last year, they had predicted a two-year attendance of 70 million.

Held For Burning Draft Card

WASHINGTON (AP) — FBI agents today seized David J. Miller, 22, who publicly burned what he claimed to be his draft card during a public rally protesting U.S. involvement in Viet Nam.

Two agents arrested Miller on a street in Hooksett, N.H., as he left a hotel and walked to a nearby garage. FBI Director J. Edgar Hoover said Miller was arrested when he failed to produce required draft documents.

Miller, a former student at Lemoyne College, Syracuse, N.Y., burned what he said was his draft card Friday at the beginning of a long weekend of nationwide demonstrations protesting the U.S. role in Viet Nam.

Miller became the first person charged with destroying a Selective Service System draft card in violation of a new law signed by President Johnson Aug. 30. It carries a maximum penalty of five years in prison and a $10,000 fine.

Miller, who formerly had a student draft deferment but was reclassified 1A last month, set fire to his draft card before hundreds of spectators and demonstrators near the armed forces induction station on White Hall Street in New York City, Hoover said. His action which took place while he stood atop a sound truck, was filmed and later shown on television across the country.

THE RADIATOR MAN—Frank D Stephenson, known locally as "the radiator man," has a wide variety of new radiator cores on hand at the Snyder Radiator Shop, 1105 Avenue T. He also keeps new radiators in stock for all of the popular brand cars and tractors. (Staff Photo).
