Spain Is Placed Under Martial Law

COTTON PICKING CONFERENCE TODAY

PLAINS FARMERS WILL MEET GOVERNMENT AGENT AT C-C ROOMS

This afternoon at 2 o'clock in the offices of the chamber of commerce the farmers of the south plains will meet and make a settlement of the cotton picking situation of this section.

A. M. Robertson, special agent of the farm labor division of the United States department of labor will present the question to the farmers and their co-operation will be pledged for the cotton season.

The chamber of commerce has sent out letters, circulars and phone calls to nearby towns asking for representatives for the meeting.

Lightning Plays Havoc in France

MARSEILLES, Sept. 5.—Severe electrical storms have swept southern France, causing property damage estimated at millions of francs.

Police Protect Woman Evangelist

SAN ANGELO, Texas, Sept. 5.—Mrs. Alma Rodgers, evangelist is being accorded the courtesy of police protection here since the recent attack on her when she received slashes on the forehead.

War Hero Fails In Channel Swim

DOVER, England, Sept. 5.—Colonel Bernard Freyberg, the British war hero, again failed in an attempt to swim the English channel today.

He abandoned his latest attempt at 4 o'clock this afternoon, about seven miles off Dover and near the East Goodwin light ship, after nine hours of battling the heavy seas.

TERRY TO MAKE THIRTY THOUSAND BALE COTTON CROP, LARGEST EVER GROWN IN THAT COUNTY, IS ESTIMATE

BROWNFIELD, Sept. 5.—Present indications point to the largest cotton crop ever produced by Terry county. The most conservative estimate is thirty thousand bales, twelve thousand above any previous production.

Catalina Channel Whips Gob Swimmer

LOS ANGELES, Sept. 5.—Swirling rip tides, that twisted and tossed him about like a chip on a stormy sea, forced John Rowdowich the United States Battle Fleet long distance swimmer, to abandon his attempt to swim the Catalina channel, early Sunday morning.

The sailor's energy was used up by a succession of tides and he was taken from the water after three hours of swimming, six miles from the island, where he started at 4:40 a. m.

OFFICER'S DEATH REMAINS MYSTERY

RAYMONDVILLE SHOOTING IS UNSOLVED BY RANGERS

RAYMONDVILLE, Texas, Sept. 5.—No clue to the mystery shooting of two officers and the wounding of a third had been unearthed Sunday night after rangers and other officers, who had been summoned to make an investigation, worked strenuously throughout the day in an attempt to run down the killers.

The six started an investigation, three going beyond the suspected locality to make a rear attack if any was needed, and three approaching the scene directly.

Police Protect Aged Man Kills Brother and Self

EFFINGHAM, Ill., Sept. 5.—Fred Bruemstead, 60, because violently insane here today, killing his brother in law, Max M. Kanter, 51, of Chicago and then committing suicide. Bruemstead's 98 year old mother ill and unable to move from her bed, was a witness to the double shooting. Several women relatives who were in the house when Bruemstead began firing fled to safety.

400,000 RAINED ON AT ATLANTIC CITY

ATLANTIC CITY, Sept. 5.—The Sabbath section of Labor day merry-making took place indoors for the most part. Four hundred thousand persons were here, including Gertrude Edels and the beauty contest entrants, and it rained on nearly all of them.

Senator McKinley Reported Dying

MARTINSVILLE, Ind., Sept. 5.—United States Senator William B. McKinley, Illinois Republican, is slowly sinking into a coma, from which he may never recover, according to Dr. Robert Egbert, who is attending the aged senator at Homelawn Sanitarium here.

WEATHER

WEST TEXAS: Monday, probably rain. Maximum temperature in Lubbock Sunday, 82; minimum 67. (A. and M. experiment station.)

OFFICERS SUSPENDED BY ORDER OF KING AND De RIVERA 2 ARE ARRESTED

MAILED FIST OF SPANISH BOSS EFFECTIVE IN CRISIS

By RAFAEL MORAYTA United News Staff Correspondent. MADRID, Sept. 5.—Spain awoke today under martial law.

Acting rapidly during the night to snuff out a threatened revolt by the artillery corps, King Alfonso signed the decree declaring this drastic national military jurisdiction and Primo De Rivera, premier and dictator of his kingdom, promulgated it forthwith.

All artillery officers have been suspended by the government and two of the highest rank have been arrested.

Late tonight the government issued a communique claiming that the crisis had been solved through the submission of the officers arrested.

The government decrees designed to remove the situation are being integrally enforced.

Madrid Quiet Signing the martial law decree at San Sebastian, the king left there at 2 o'clock this morning and arrived at Madrid at 9.

An official statement explaining the sudden development in the long-simmering situation cites the recent defection of the artillery corps, which it says culminated in waste of real discipline.

The commander of the artillery corps, without the knowledge of the minister of war, is alleged yesterday to have ordered all officers immediately to join their regiments.

The commander of the artillery regiment at Segovia ordered his troops concentrated at headquarters "in the event that other troops from Madrid might attack them."

Consequently the government announced both these artillery chiefs had been placed under arrest.

The government will prosecute "those responsible for the rebellion," according to an official statement tonight.

The minister of war has learned through telephonic reports from the commanders of the various corps areas in Spain that order reigns throughout the country with the exception, possibly, of Segovia, where is located the artillery garrison which revolted.

General Haro and other high officials have been arrested simultaneously with declaration of martial law in Spain, according to reports from across the nearby Spanish border.

Haro came to Madrid last week to present to Premier De Rivera and King Alfonso the protest of artillery officers against a decree abolishing the seniority system in the Spanish army. Haro was turned down by De Rivera. Artillery officers have contended that the seniority system was abolished to allow De Rivera to promote his favorite at will.

Step Telephone Service GIBRALTAR, Sept. 5.—The Spanish home secretary has issued strict orders suspending all public telephone communication throughout Spain.

Parachute Fails; Demonstrator Dies

LAVANA, Sept. 5.—In a daring leap from an airplane 3,000 feet above Havana harbor, Angel Arango Sunday jumped to his death in the sea while demonstrating a life saving apparatus of his invention as thousands of spectators watched.

The apparatus, a combination life belt and small parachute arrangement hardly larger than an umbrella failed to function and the aviator hit the sea with lightning force, breaking one foot by the impact.

Yachts in the harbor rushed to his assistance, but he had smothered in the folds of the apparatus in the several minutes necessary to get to him.

Yachts in the harbor rushed to his assistance, but he had smothered in the folds of the apparatus in the several minutes necessary to get to him.

TEXAN HELD IN MEXICAN JAIL

\$100 DEMANDED TO PAY FOR KEEP BEFORE HE IS RELEASED

CUERO, Texas, Sept. 5.—E. W. Jaeggli, former president of the First State Bank and Trust company here, is in jail at Salina Cruz, Mexico, according to officers here.

Local police say Salina Cruz police have notified them that Jaeggli will not be released until they receive \$100 to pay for the former bank president's keep. The Mexican police have intimated that they want the \$100 before an officer is sent from here to remove the prisoner.

Sheriff Lenz here said that the matter has been taken up with Washington in the hope that the matter will be straightened out. Lenz said that the county is willing to pay the money but they want the custody of Jaeggli first.

Delegates Off to Demo Convention

K. L. Riggs leaves today for San Antonio to attend the democratic convention opening Tuesday, whither Mayor Pink Parrish, Lee O. Allen, and other Lubbock county delegates have already gone.

Mr. Riggs, Mrs. Riggs, their daughter, Marilyn, and Misses Whipp and Turnbull, have just returned from Denver, by way of Santa, New Mexico.

TEXAS PIONEER DIES

CORSICANA, Texas, 5.—William M. Tatum, 76, prominent hardware dealer here, died at his home Sunday following a short illness. Tatum had been identified with business interests here for many years. He came to Corsicana seventy four years ago from Tennessee.

WILL FLY N. Y. TO PARIS

PARIS, Sept. 5.—Two French airmen, Poli and Tarascon, have decided to attempt a Paris to New York flight October 21.

LABOR DAY IS HERE; BUT LUBBOCK WILL NOT PARADE, NOR WILL MERCHANTS CLOSE STORES FOR ANNUAL OCCASION

"Come unto me all ye that labor and are heavy laden and I will give you rest." So say the scriptures and today is the day set aside that those who labor and are heavy laden may rest.

COLLINS TRIAL AT BROWNFIELD TODAY

WOODWARD AND HIGGINS WILL DEFEND ALLEGED SLAYER OF FRANK HOWARD

BROWNFIELD, Sept. 5.—The trial of B. H. Collins of Ropesville on a charge of having murdered Frank Howard on the Howard ranch near Brownfield last spring, is set for the 10th district court in Brownfield Monday.

Judge Gordon B. McQuire will be on the bench. Woodward and Higgins of Lubbock will defend Collins, and A. W. Gibson will conduct the prosecution.

The death of Howard followed a battle with knives in the course of a horse trade on the Howard ranch, according to witnesses. Howard, badly cut, died a few hours after the fight. Collins, sought by officers after Howard's death, went to East Texas undetected, hitch-hiking along the highway, and last surrendered of his own accord after a search of several states. He has been at liberty under heavy bond.

Howard was of an old Terry county family, and much excitement followed his death.

Iowa K. C. 'Talk Mean' About Calles

DES MOINES, Ia., Sept. 5.—In a scathing statement issued here today, Iowa Knights of Columbus denounced the Calles government in Mexico as "a little handful of people trying to ram their program down the throats of the people" and pledged themselves to raise \$30,000 with which to tear down the present religious laws of Mexico.

CONEY ISLAND MAY NEED RAIN INSURANCE

CONEY ISLAND, N. Y., Sept. 5.—Coney Island expects its Labor day receipts to shrink by about \$2,500,000 if showers come as expected. Other amusement resorts on Long Island and nearby territory probably will lose as much more.

Legion Auxiliary To Meet Tonight

The Woman's Auxiliary of the American Legion will meet tonight at 8 o'clock in the Red Cross rooms, for the last session before the Legion convention in Amarillo.

135 Casualties in Hindu-Moslem Riot

LONDON, Sept. 5.—Dispatches to the Daily News from Calcutta state that 135 persons have been killed or wounded in a Hindu-Moslem riot on the docks at Kidderbury.

Police clashed with rioters, waging a battle which lasted more than an hour and finally arresting 150, the dispatch said.

A few minutes after the speeding train left the rails and before hundreds of passengers could crawl, dazedly from the coaches, a doctor arrived on the scene. He was Dr. W. Larimer, of the Red Cross hospital in Salida, who was driving an automobile to Leadville.

Dr. Larimer at once took charge of the situation, organized the uninjured into crews to do the rescue work, and attended the dying and injured. Ten or fifteen minutes after Dr. Larimer reached the scene he was joined by two crews of laborers who had been working on a nearby road.

Under the physicians direction they began the ghastly work of removing the dead from mangled pullman and the two day coaches. Some of them dived into the water and searched beneath the coaches for any bodies that might have been pinned to the bottom of the river.

When the laborers came rushing up the railroad track they encountered a hysterical man carrying a baby in his arms. The man collapsed when he reached the men, but it was reported that he had not been

PASSENGER TRAIN LEAVES RAILS WHILE EN ROUTE TO DENVER

RESCUE TRAINS RUSH TO AID OF VICTIMS

50 ARE INJURED

TEXANS LISTED AMONG VICTIMS OF FATAL CRASH

DENVER, Colo., Sept. 5.—Eighteen persons were killed and about 50 injured today when the crack "Scenic Limited" of the Denver and Rio Grande railroad, traveling at 50 miles an hour, jumped the rails forty three miles west of Salida, Colo., hurling the engine and four cars into the Arkansas river.

Although the wreck occurred shortly before noon, it was hours before rescue trains could be sent from Leadville, Buena Vista, Salida and other towns.

When they arrived they found the dying and injured lying on the banks of the river which the uninjured attended the best they could. Some of the injured suffered severed legs.

At the point where the speeding train dived from its tracks the river is about 80 feet wide. The engine was almost submerged by water, and the two engines were either killed or drowned.

Two day coaches were thrown into the waters as was one of the baggage cars. One of the day coaches was standing end-up when rescuers reached the scene of the disaster.

The dead, according to an announcement by officials, have been taken to Leadville, Salida and Buena Vista. They are Mrs. Martin Lurie, Leadville, Colo.; Mrs. Woodworth (address not learned); Tillman Daniels, Jonesboro, Ark.; Albert Everette, Leadville, Colo.; G. M. Lillis, Salida, (engineer); George Gerhart, Salida (engineer); C. E. Dosler, Kearney, Neb.; Mrs. C. Lockman, Clarksburg, W. Va.

Mrs. Matoyick, Leadville, Colo.; Mrs. John Holt, Elmont, Kansas; Mrs. Harold Rathburn, Buena Vista, Colo.; Mrs. G. D. Isabelle, Mintorn, Colo.

A daughter, aged 7 years and a son, 15, of Mrs. Isabelle of Buena Vista.

Albert Everett (address not learned). Two unidentified boys. The "Scenic Limited" which left Salt Lake City at 4:20 p. m. Saturday carried 217 passengers, and the train consisted of one baggage car, two day coaches, nine sleepers, two dining cars and an observation car.

One of the sleepers was thrown into the river when the engine leaped from its tracks. Mrs. G. D. Isabelle, on Mintorn, Colo., was reported in the sleeper when the accident happened. She was holding her 7 year old daughter in her arms when she was removed from the coach through a window.

The engineer, G. M. Lillis, was a veteran employee of the Denver and Rio Grande.

A few minutes after the speeding train left the rails and before hundreds of passengers could crawl, dazedly from the coaches, a doctor arrived on the scene. He was Dr. W. Larimer, of the Red Cross hospital in Salida, who was driving an automobile to Leadville.

Dr. Larimer at once took charge of the situation, organized the uninjured into crews to do the rescue work, and attended the dying and injured. Ten or fifteen minutes after Dr. Larimer reached the scene he was joined by two crews of laborers who had been working on a nearby road.

# A Motor Picnic

of pickles, olives and radishes. The dessert may consist of ice cream with simple little cakes or of fancy fruits beautifully arranged in their own foliage.

For a salad that is different, a suggestion is given below, also some recipes for sandwich breads and cakes for dessert.

**Almond Cakes (Yellow)**

1/2 cup Crisco  
1/2 cup sugar  
1/2 egg yolks  
1/2 cup milk  
1/2 teaspoon salt  
1/2 cup flour  
1 1/2 teaspoon baking powder

Shredded almonds  
Powdered sugar

Cream Crisco, add sugar gradually, egg yolks, well beaten, milk and flour mixed with baking powder. Put in paper cases or tiny muffin pans, sprinkle with shredded almonds and powdered sugar. Bake at 275° F. 20 minutes.

**Almond Cakes (White)**

1/2 cup Crisco  
1/2 cup sugar  
1/2 cup milk  
1/2 cups flour  
1 1/2 teaspoon baking powder  
1/2 teaspoon salt  
1/2 egg whites  
1 teaspoon almond flavoring  
1/2 cup blanched almonds

Cream Crisco with sugar, egg whites and add alternately with the milk. Fold in almonds. Put in muffin pans and sprinkle with powdered sugar. Bake in moderate oven (350° F.) 20 minutes or longer.

If more orange peel is used decrease the salt accordingly.

A new page book will be sent free to readers of a two-cent stamp to cover postage. Address: National Household Service, 265 Fifth Ave., New York City.

**Date and Nut Loaf**

1 egg cut dates  
1 teaspoon soda sprinkled over dates; then pour over 1 cup boiling water  
1 tablespoon Crisco  
1 egg, unbeaten  
1/2 cup brown sugar  
1/2 cup chopped walnuts  
1 1/2 cups bread flour  
1/2 teaspoon salt

Cream Crisco, sugar, salt and egg together. Add nuts, then dates, last sifted flour. Turn into Criscoed bread pan, medium size and bake in slow oven 200° F. about one hour.

**Orange Bread (Sweet)**

3 cups flour  
1 cup sugar  
4 teaspoons baking powder  
1 teaspoon salt  
2 eggs  
1/2 cup milk  
2 tablespoons Crisco  
1/2 cup nut meats  
1/2 cup chopped orange peel (fresh)

Beat egg with sugar. Stir in milk alternately with flour, salt and baking powder sifted together. Add melted Crisco and chopped nut meats and orange peel dredged with flour. Pour into greased pan. Allow to stand fifteen minutes before putting in oven. Bake in moderate oven (350° F.) 40 minutes or longer.

If more orange peel is used decrease the salt accordingly.

A new page book will be sent free to readers of a two-cent stamp to cover postage. Address: National Household Service, 265 Fifth Ave., New York City.

**A FELLER'S GOT TO FIGHT**  
There ain't no use 'r talking, folks, A fellow's got to fight;  
The rent man and the grocer  
Keep the bank book out'er sight.  
It's awful hard to make things meet  
Unless you play the game time right;  
It's mighty like a pardon board,  
A fellow's got to fight,  
Sure as the sun's a-shining,  
Old man interest seems to be the King;  
It takes a lot of pep and ginger  
To make a fellow sing.  
There's only one plan in the game  
To keep a fellow right—  
He's got to dig like thunder—  
A fellow's got to fight.  
A. J. T.

Texas was recognized by the United States as an independent republic in 1837.

**Mrs. R. L. McKnight**  
Formerly  
MISS VIOLET GRAYUM  
Will open her class in voice September 13, at her home,  
2122 Main Street.  
Phone 528 M.

**ELECTRIC SHOE REPAIR SHOP**  
We have just installed \$1,500 worth of new and modern machinery. We can make your old shoes look new.  
Nothing but the Best materials used—all Work Guaranteed.  
407 BROADWAY—Rear of Broadway Shoe Store.

**WHO GETS THE BENEFIT OF PRICE CUTTING**  
---Nobody  
The price cutter makes no profit. His patrons soon find that they are getting inferior quality because he is compelled to use cheaper material and supplies. He is also forced to cut wages which makes dissatisfied help.  
He admits that he cannot win by fighting fairly. He is a hitter below the belt.

ber 6, 1914, checked the German advance in the World War, and drove back the Kaiser's armies in six days of terrific fighting after they had seriously threatened to capture Paris. Thus we may celebrate the dignity of labor, the valor of Lafayette and the victory of Joffre all on the same day, Monday, September 6.

### HARPING ON THE OLD CHORD

Professor Fisher, of Yale, again comes forward harping on his favorite theme, the acrobatic dollar. This time he attempts to prove that the Allied debts to the United States were contracted when the dollar was cheap and must be paid when the dollar is dear. He draws the corollary that Americans are unpopular in England, France Italy and Belgium, because of this alleged fact, and deplores the action of congress in placing restrictions upon the United States War Debt Funding Commission. Prof. Fisher overlooks one very important consideration in his array of figures, namely, that despite assertions to the contrary, by various unofficial European spokesmen, the pound sterling, the French franc, the Belgian franc and the Italian lira were virtually kept stable during the war by the United States Treasury. Members of the A. E. F. will recall that they received the greater part of their pay while in France, at the rate of exchange of 5.35. That this rate was entirely artificial is indicated by the fact that immediately after the Armistice, when the United States Treasury ceased to "peg" the franc, the exchange rate moved up by leaps and bounds, so contently, in fact, that even the rate in the A. E. F., which was very much more favorable to France than the current rate, was as high as 13 to the dollar. And the same was true in varying degrees with other Allied exchanges. It cost the American people money to give this artificial support to Allied currency and that artificial value was of benefit to the Allies in every contract for supplies bought in the United States or elsewhere. Prof. Fisher says we are unpopular in Europe because Europeans feel we took advantage of them. There is an old adage that if you want to lose a friend, lend him money. Nations are like human beings only more so. One might venture the opinion that those in Europe who are loudest in their cries of Shylock, would have found something to cry about even if the debts had been entirely cancelled. The prosperous nation, like the prosperous individual, always excites envy.

### FOCH'S VIEWS ON WAR AND PEACE

Marshal Foch is quoted as saying in a recent interview that there can be no thought of disarmament as present because of Germany. In view of the fact that Germany's military forces are now reduced to some fifty thousand police, and the manufacture of munitions is forbidden, with an allied commission keeping careful watch throughout Germany, for any sign of arming, while France since the Armistice has fought one war in Morocco and another against the Druse in the Near East, it would seem more logical to charge the Quai d'Orsay with an active war-like spirit. It is pertinent perhaps, to recall that France has thrown the monkey wrench, so to speak, into virtually every disarmament proposal that has been put forward in recent years. At the Washington Conference, the French delegation did everything in its power to wreck the Hughes plan for limiting capital ships and relinquished its command of ten capital ships only after Lord Riddell, press agent for the British, had revealed the French attitude on the subject of the full force of world opinion to bear against the attitude. French representatives at the League of Nations, too, have seldom failed to put obstacles in the way of any plan for general disarmament, and the council of Marshall Foch doubtless have played a part in the formulation of this policy. Nevertheless, Foch's views on the possibility of another world war breaking out at almost any time, and in almost any place, must always be interesting, and no careful student of the World War could disagree with his opinion that future wars will involve peoples against peoples, rather than armies against armies, and will be won as much in the munition plants and laboratories as in the field.

### A ROYAL CYCLIST

Two policemen halting a lone motorcyclist racing toward Brussels the other day, when they asked to look at the driver's license, found to their chagrin that the cyclist was King Albert. "You did right to stop me," said the good-natured king. "It is your duty. But I am a little late for work." So he sped on toward his palace. Albert is economizing, to set a good example for his people. Given dictatorial powers he is doing his best to restore his country to prosperity thru thrift and hard work. So he lets his three royal automobiles stand in the garage unused, while he rides a plebeian motorcycle. The moral effect is probably good. Yet, is it sound business policy? The big expense of an automobile, as every intelligent owner knows, is the overhead expense. And the overhead is going right on with those three cars, whether the king uses them or not. Also, while snorting around on a motorcycle, he may break his royal neck, which is worth as much to the country as it is to him.

### MEXICO'S BUSINESS

Mexico and the Catholic Church have locked horns. It is no new situation for the measures now being put into effect were largely promulgated by the Constitution of 1857, enforced for a time then allowed to lapse largely. Before 1858 the church had been accused of stirring up four revolutions and after the 1857 laws encouraged Maximilian to set up his empire. The Mexican government has resolved on a complete separation of church and state, a principle of government applied with high satisfaction in the United States. Americans will be submitted to much propaganda, possibly, during the conflict, in an effort to bring about intervention, but it is none of our business. Let Mexico arrange its own affairs.

### So Think We

We think now that all of the officers of the state can go ahead and do their duty without being afraid they will lose a vote.

We think it is quite a relief to get the pictures of many of the candidates out of the windows in the city.

We think Texas needs equal taxation as well as equal valuations.

We think that after all mind-ing one's business is a great job.

We think it may be true that an educated man earns four times as much money as the uneducated man, but on the other side of the ledger we find he has forty times more ways of spending it. Strike your own balance.

We think Lubbock will have the greatest school this year ever known in the history of the city, and the Tech will no doubt exceed its first year's record by several hundred students.

We think that at the rate Lubbock is building, she will have twenty thousand people within a very short time, and there is no oil boom either.

We think every business man and every citizen of Lubbock should be interested in making Lubbock the best market for all kinds of farm produce that there is on the South Plains.

We think Lubbock should have a thorough cleaning up before the fall season opens. When the busy time arrives, we will all be too busy to bother about it, and the town will be in a ragged condition.

We think if Texas politicians had been eligible for the Illinois hog calling contest, Texas would have scored on Illinois, but Texas was barred.

We think life is a funny thing anyway. Take the case of Valentino. He was a hero one day and within a week was only freight going back to Hollywood.

We think that most women learn to drive her car from the back seat by the time the installment is due.

We think that some folks are pretty anxious to bet something when they are willing to put up their money that Tunney will whip Dempsey.

We think the South Plains has the greatest prospects and the most wonderful crops ever known in the history of this part of the state.

We think when a fellow says Lubbock is not growing he is just too awful blockheaded to know anything.

We think that the only way a man can say that his lips have never uttered a lie is to talk through his nose.

We think for one time in our life we are not going to agree with Jim Ferguson. If we got his statement correctly, he said in philofying at the celebration of his fifty-fifth birthday, that

the worst never happens. This is where we agree with him wholeheartedly. Just think about him being governor by proxy for another two years.

We think in order for a home to be an ideal one, is for the husband not to hang around it much, with his pipe and cigar stubs and old muddy shoes.

### It Is Reported

That Wichita made one run Sunday, and went home.

That the Lubbock county girls are all up in good condition and will be ready for the biggest cotton crop that has ever been seen in this country.

That most Lubbock people are back from their summer vacations now, and are ready to do the biggest fall business they have ever enjoyed, and we hope they will not be disappointed.

That the road work is progressing nicely between here and Slaton and within a reasonable time there will be the best road between Lubbock and Slaton of any part of the county.

That laborers will be hard to secure in West Texas for gathering the cotton and feed crops. This may be true and it may not be the case. Anyway it might be well for the farmers to be looking out for the shortage.

That a number of Lubbock people are planning to go to the sandhills for a prairie chicken hunt today.

That a new bride in Lubbock was heard to say that the door in her house seemed to be a one way street to the flies, and they insisted that coming in was the one way.

That for the first time for several years Lynn county does not have a murder case on the docket.

That rain greatly interfered with the ball games in Denver yesterday.

That, according to statistics, the South Plains is going to raise more chickens and pigs from now on, and frost bitten cotton will not affect the bank account so materially.

That the recent hot dry weather is spoiling a great chance of making a short cotton crop.

That the circus that came to Lubbock this week made grocery bills very hard to collect. Grocery bills come every month and circuses do not come quite so often.

That since there is liable to be some jobs offered men, they are sticking around home closer than ever. Some men are afraid they will be offered work.

That Texas will raise a \$25,000,000 feed crop this year.

To get anywhere you must start from where you are. —why not you?  
 You'll come through life all right if its trials do not convict you.  
 Making character is what a boy works at during his leisure. —As autos increase in number, bachelors decrease.  
 What is the use in saving time if you can't use it? —When we look at some people we can't help feeling that if evolution is a fact, it is just starting.  
 Today it seems odd that the ancients should have regarded it as a miracle for an ass to speak. —A union is not a union if it does nothing but separate the members from their dues.  
 Somehow the diligent man constantly runs into streaks of good luck. —Don't give an indifferent man a good job; poor seed won't grow even in the best soil.  
 Somebody must fill the big places

## Scissored Editorial

**WHAT ABOUT OUR GIRLS**  
 Less than half a century ago it was customary to squelch a good deal of feminine aspiration with that sententious phrase, "Woman's place is in the home." Unfortunately this dictum failed of application, because there were many who had no homes. Neither did it offer any consolation to the girl whose ambitions did not change to be purely domestic ones. Time brought the franchise for women and also the invasion of the business field by women. It would be a reckless man who would assert nowadays that these changes have brought no benefit to the women themselves, and to business and professional world. At the same time there may be some honest doubts as to whether the innovation has entirely justified itself. It is true that all women are not fitted for industrial or commercial pursuits—neither are all men. The question is whether enough women have a natural aptitude for such pursuits, or can be prepared for them by proper training—and how much of such training is available. —Miss Elizabeth Marbury has been engaged in literary and dramatic activities for more than thirty years. She has seen the gradual change in woman's status, and has helped to develop many of the girls who are succeeding today in the businesses and professions. We believe her views on the subject of "women in business" will be of considerable interest to employers, and to those families having feminine breadwinners—a fairly large section of the population. It seems getting a fair chance. Miss Marbury says that generally she is—provided she is able to recognize an opportunity when she sees it.—Rotarian.  
**LOOKING FOR TROUBLE**  
 A social worker relates the story of a couple on the verge of divorce from a fight of nine months over a college for their boy. The man wanted Oxford and said much about idle and vicious college men.  
**Jokes**  
 Second Sight and Second Thought  
 A new weather-expert undertakes to forecast for fifty days ahead. Most people prefer to have it broken to them gradually.—Punch.  
 Modern child (seeing horse-drawn vehicle): Mummy, why is the horse tied in front of the automobile? —Le Pele-Mele (Paris).  
 Similar of 1926: As futile as a dime in a Pennsylvania primary.—Detroit News.  
 Unclehood's Responsibilities  
 Little Frank aged six, heard of his sister's baby son and commented: "Oh! Now I'll have to get a job and go to work."  
 "Why?" asked his mother.  
 "Well, you know my nephew'll want pennies and it'll embarrass him not to have any money to give him."  
 —Charleston News and Courier.  
 Just Like That  
 Giff: Congratulate me! I've just thought of something clever.  
 Wiff: Beginner's luck.—Nebraska Awgwan.  
 hereabouts. The woman was loyal to America.  
 "How old is he?" asked the worker. "Need you settle this immediately?" The young man was nineteen months old.  
 Absurd enough. But many a family goes as far afield in looking for trouble. And trouble is one of those things that can always be found.  
 The man who made a jealous fuss because the husband of his wife's friend took her home in his car instead of letting her come on the trolley, was just as foolish. This trifling, magnified by dispute, was referred to an outsider. "Had the gentleman not brought your wife home you might have had cause for reproach," said the outsider. "Why shouldn't he be courteous and she enjoy a half hour's ride?" It became nothing.  
 "I left my job at the hospital," said the nurse, "because my assistant was going on a month's vacation and they would not promise me any relief." Undoubtedly she had been overworked, and the prospect of a month still harder was none too easy to contemplate. Yet had she stuck it out, doubtless in a few days relief would have been forthcoming.  
 Hunting trouble is always foolish and it is never wise to make serious decisions in hot weather. When September's breezes blow away the megrims, the proud parents may remember that Cecil Rhodes provided for such a case as theirs. Their boy may go to Yale and Oxford both if they work toward it unitedly. When it's cool, the jealous husband may realize that sewing with a friend, remaining to dinner the night her husband had to work, being brought home by friend's husband, who was doubtless bored to death to have to take the car out again, is not exactly a capital crime. He may even have a change of heart. When it's cool, he'll be glad to do another job, she will probably keep it and work like a mule, and he'll never get a grouch. Most of us have some sort of real trouble to wrestle with. Why hunt imaginary ones?

## JUST FOLKS

By EDGAR A. GUEST

### PERILS OF A PUBLIC SPEAKER

A public speaker's lot is not an easy one to bear. Direct and straight; I caught that plat, beneath its velvet chin, The nickels flew as nickles do, the dimes went rolling in The furnace pipe. Oh, cruel swipe, which started such a din!  
 That goodly coin went down to join perdition's, blazing coals, While much concerned, I stood and learned how far a quarter rolls. I lost the speech, designed to reach those panting, thirsting souls.  
 With one fell crash, I knocked that cash right back from whence it came; The parson sighed, the warden cried, my cheeks grew red with shame. The children fought for dimes, They thought it was a scrambling game.  
 At times I've had some moments sad, some cruel pranks of fate, But never quite, so grim a plight, I venture now to state. As when in church, from off its perch I knocked that money plate.

# VICK, PITCHING WONDERFUL BALL, DEFEATS W. O. W. 3 TO 2

## B. WHITE'S TRIPLE IN FOURTH BROUGHT VICTORY OVER WOODMEN; VICK PITCHED OUT OF HOLES; PLAYMATES GOT HIM IN

Special in the Avalanche

DENVER, Colo., Sept. 5.—It was only Vicks and B. White who brought the W. O. W. down from the loop hole as the other members of the Lobo club from down on the South Plains of Texas booted, muffed, kicked and dropped the agate—but Vicks went on with his wonderful pitching and brought forth the victory, and any other moundman working for the Lamesa nine probably would have weakened with eight blunders behind him—but not the old school baseball pitcher. Not once, but all through the nine innings, Vicks came out of holes that were made by his playmates.

It was in the fourth session that Bill White brought in the winning runs for his team and for Vicks. L. White singled to right field and was sent to second base with Radford's bunt; then on a fielder's choice, that failed L. White went to third base and Gore was safe at second. Jimmie Battle, fighting third sacker of the Lobos sent L. White home with his single to center and Bill White tripled to right field scoring both Gore and Battle.

The W. O. W. team were held in after inning and scored unearned runs off of Vicks both times they tallied.

In the first of the ninth the fans of the tournament took to the field only to be cleared by the Denver police.

Over 600 witnessed the clash of the two undefeated clubs this afternoon.

W. O. W. will eat the Oshkosh, Nebraska, club tomorrow; while at the present filing of this story the schedule of the other games could not be announced.

The Wichita club was eliminated in the first game of this afternoon with a shower of runs counted by the Tonkawa Indians of Oklahoma. The Indians scored 30 runs and chalked up 30 hits. Seven pitchers were used by the Advertisers to attempt to stop the mighty scoring machine, but none found it available.

The game play by play:

**First Inning**  
W. O. W.—Harwood grounded out to Battle to Pipkin; Richards grounded out to Francis to Pipkin; Elsh struck out; no runs, no hits, no errors.

Lamesa—L. White flew out to Elsh; Radford flew out to MacDermott; Gore grounded out to Richards to Murphy; no runs, no hits, no errors.

**Second Inning**  
W. O. W.—Murphy grounded out to Radford to Pipkin; Bunte struck out; MacDermott grounded out to Francis to Pipkin; no runs, no hits, no errors.

Lamesa—Adams popped out to Richards; Battle flew out to MacDermott; B. White, grounded out to Elsh to Pipkin; no runs, no hits, no errors.

**Third Inning**  
W. O. W.—Phillips was safe on 1st when Radford bunted his easy grounder; Keys safe on first and Phillips on 2nd when Radford let throw from Francis go by; Gilder hit into double play Francis to Radford to Pipkin and Phillips to Pipkin; no runs, no hits, two errors.

Lamesa—Pipkin grounded out to Richards to Murphy; Francis flew out to MacDermott; Vicks popped out to Harwood; no runs, no hits, no errors.

**Fourth Inning**  
W. O. W.—Richards struck out; Elsh singled thru 3rd; Elsh took 2nd when Pipkin dropped Vicks' throw getting Elsh off of 1st; Murphy flew out to Gore and Elsh retained 2nd; Bunte grounded out to Radford to Pipkin; no runs, 1 hit, 1 error.

Lamesa—L. White singled to right; Radford out sacrificing L. White to 2nd base Keys to Murphy; Gore safe on 1st and L. White on 3rd when a fielder's choice failed; Adams struck out; Battle singled to right scoring L. White and Gore took 3rd; B. White tripped to right scoring Gore and Battle; Pipkin popped out to Murphy; 3 runs, 3 hits, no errors.

**Fifth Inning**  
W. O. W.—MacDermott flew to Adams who dropped high fly and he took 3rd base; Phillips grounded out to Francis to Pipkin, scoring Phillips; Keys safe on 1st when Radford dropped pop fly; Gilder struck out; Harwood popped out to Radford; 1 run no hits, 2 errors.

Lamesa—Francis grounded out to Phillips to Murphy; Vicks grounded out to Gilder to Pipkin; L. White popped out to Gilder; no runs, no hits, no errors.

**Sixth Inning**  
W. O. W.—Richards singled to right; Elsh lined out to Gore; Murphy singled over short and when Adams fumbled the catch Richards took third and Murphy went to second; Bunte popped out to Pipkin; MacDermott struck out; no runs, 2 hits, 1 error.

Lamesa—Radford grounded out to Gilder to Murphy; Gore flew out to Bunte; Adams grounded out to Murphy to Gilder, who covered first; no runs, no hits, no errors.

**Seventh Inning**  
W. O. W.—Phillips singled to center; Keys grounded to Francis who forced Phillips to Radford at 2nd; Gilder grounded out to Vicks to Pipkin; Keys scored and Harwood went to 2nd when Francis threw wild to Pipkin; Richards flew out to 2nd; Pipkin, 1 hit, 1 error.

Lamesa—Dunn playing 3rd base for W. O. W. Battle flew out to Elsh; B. White flew out to Elsh; Pipkin tripped to right; Francis popped out to Murphy; no runs, 1 hit; no errors.

**Eighth Inning**  
W. O. W.—Elsh popped out to Radford; Murphy grounded out to Radford to Pipkin; Bunte flew out to Francis; no runs, no hits, no errors.

Lamesa—Vick popped out to Richards; L. White singled over 2d; Radford hit into double play Harwood to Richards to Murphy; no runs, 1 hit, no errors.

**Ninth Inning**  
W. O. W.—The crowd went on the field and the police were called out to clear the field; MacDermott grounded out to Radford to Pipkin; Jacques batted for Dunn and grounded out to Francis to Pipkin; Keys doubled to left center; Gilder flew out to L. White; no runs, 1 hit, no errors.

The box score:

W. O. W.	AB	R	H	PO	A	E
Harwood 2b	4	0	0	0	1	0
Richards ss	4	0	1	4	3	0
Elsh cf	4	0	1	3	0	0
Murphy 1b	4	0	1	1	0	0
Bunte rf	4	0	0	0	0	0
MacDermott lf	4	0	0	0	0	0
Dunn 3b	0	0	0	0	0	0
Phillips 3b	3	0	1	1	0	0
Keys c	4	1	1	1	0	0
Gilder p	4	0	0	2	3	0
Jacques x	1	0	0	0	0	0

## Doing The Sporting Thing

By JOE ARCHIBALD

THE HARE AND THE TORTOISE?

## CARDS GO BACK INTO FIRST PLACE

CINCINNATI, Sept. 5.—The inspired St. Louis Cardinals who were ousted from the top of the percentage column by the Cincinnati Reds got it back again today largely through the pitching of that ageing veteran, Grover Cleveland Alexander.

The score was 7 to 3. For six innings the ball game looked like a whitewash for the Cincinnati Reds, for the Chicago Cubs cast-off was working in fine form. In those innings he permitted three sizzling little hits and it looked like a shutout for the Reds.

A spirited series of rallies in the sixth, seventh and eighth innings, however, enabled the Cincinnati team to squeeze in three runs out of nine hits, but it wasn't enough to win. The Cardinals tonight left Cincinnati, still holding the position they held when they came here.

The standing:

Team	W.	L.	Pct.
St. Louis	79	56	.585
Cincinnati	76	55	.580

by local dealers and distributed to farmers.

The poison has been applied in powdered form in most cases. The work is done at night while the dew is on the cotton to make the powder stick to the plants. Farmers who have used the poison report that they have killed practically all the worms in their fields. The outlook for a good cotton yield is much better here now than it was ten days ago. Farmers are predicting a 75 per cent normal crop.

Public telephone cabinets will be installed in Melbourne, Australia, by the government postal department.

More than \$50,000,000 of American-made automobile, parts and accessories were sent to other countries in the past six months.

## Worm Ravages are Checked in Lynn County

TAHOCA, Aug. 5.—The destructive work of cotton worms is being rapidly checked here by using poison and other means of destroying the pests. A number of shipments of poison have been received here

## ILLNESS HALTS RUSH FOR FAME

### OSBORNE WOOD GOES TO HOSPITAL AS LATEST HARD LUCK

EVANSVILLE, Ind., Sept. 5.—Illness has interrupted Osborne C. Wood's latest attempt to scale the ladder of business success.

The son of Major General Leonard Wood, governor of the Philippines, is confined in a private hospital room here with a disease which his physician has diagnosed but the nature of which he declined to make public.

The heavy expense of his illness is rapidly wiping out young Wood's savings from his meager salary of \$125 a month as a factory worker. He came here several months ago hoping to learn the business of a local refrigerator manufacturer so that he could take over a sales territory which he had known through his success on the New York stock market where he is said to have profited more than \$800,000. Later he lost his fortune in the market and at the Riviera and came to Evansville to get a new start.

Dr. J. E. Wynn, who is attending Wood, said there is nothing alarming about his patient's condition and that he may be released from the hospital within a week.

Underground cables will carry the electric power from the plant being constructed at Dagsatch, Turkey, to Bahri Baba.

Texas is seventh among the states in the number of registered motor vehicles.

The city of Crockett is on the site of the Mission San Francisco de los Tejos, which was founded in 1690.

Only games today.	

The defeated Hubbers on their return home met with defeat again this afternoon with the Amarillo Mets when they counted five runs on the seventh to count five runs on Stockton, husky youngsters of Amarillo that made the Denver tournament, with the Hubbers, and won the game by a count of six to three. Up until the seventh inning he had held the Mets scoreless.

The count of the game by innings was:

Team	1	2	3	4	5	6	7	8	9
Lubbock	0	0	0	0	1	0	0	0	0
Amarillo	0	0	0	0	0	0	0	0	5

Batteries: Lubbock, Stockton and Allen; Amarillo, Kingsley and Turner.

But all this trouble and annoyance may have the opposite effect on Dempsey. So far it has done nothing but make him mad and Tunney may turn out to be the goat of Kearns, McKetrick & Company.

Dempsey, as has been pointed out time after time in this column, has been treated unfairly and if there had been any spite in him he could have given the public his side of the story but he preferred to take the blame rather than take any steps that might hurt the game.

It sounds silly to near some fighters talk about saving the game of boxing because they love it as a sport. Dempsey does not talk about his love of the sport—perhaps he has a distaste for it now—but he does talk about boxing as his business and no man wants to hurt his own business.

If Kearns had been as careful to protect the business of boxing—not the fair name of the game—he and Dempsey might never have reached the end of their ways and since the parting was reached it is not good taste for him to be acting the part of a child.

## SPORT FLASHES

### DEMPEY vs. KEARNS

By Henry L. arroll  
(United Press Sports Editor)

NEW YORK, Sept. 5.—Jack Kearns, former manager of Jack Dempsey, had some sympathizers when he charged the heavyweight champion with an act of ingratitude in cutting away from him after he had spent eight years in directing him into a title and a fortune of a million dollars.

There were two sides, of course, and it never can be proved whether Kearns made Dempsey or Dempsey made Kearns and the final analysis would be that each did well financially by the other.

Kearns probably had more friends than Dempsey in their own set and when Dempsey decided to cut away from him he was panned by the boys in the street who figured that the first rule is to stick by a fellow who stuck with you.

Those with no opinion one way or the other and not interested enough to have an opinion have turned against Kearns, however, for his actions since Dempsey signed a contract with Tex Rickard to fight Gene Tunney, a contract which Dempsey insists will have no end for Kearns.

Kearns' slappd a suit on Dempsey for \$33,333 just after he started training and when he was being pestered with a dozen other legal actions and a controversy with the New York boxing commission, Kearns apparently was advised by counsel that he had a case against Dempsey which he signed by Kearns with Rickard before their contract expired.

But the means Kearns took in furthering pestered Dempsey can get him no sympathy. Process serves for his action stopped Mrs. Dempsey in her car on the road near White Sulphur Springs, took the car away from her on an attachment and left her to get back to her cottage as best she could.

Then all the equipment of the training camp was attached, a deposit of \$9000 in a New York bank was attached and one of Kearns' agents said: "We'll take everything away from him that he's got—even his clothes."

All through this trouble and his other legal difficulties Dempsey has been conducting himself like a good scout. He has had some faults (who hasn't) but he certainly can not be accused of vindictiveness, malice or meanness.

He is of a nervous temperament and it is not well for a fighter to have anything on his mind but fight in the weeks immediately preceding the defense of a heavyweight champ.

### CHICAGO

By Clark B. Kelsey  
CHICAGO, Sept. 4.—Alonzo A. Stagg of the University of Chicago will start his 35th year as coach of the Maroons with a stadium seating 50,000 spectators, and the poorest prospect he has had during his career, he admitted to the United Press.

He will have but five "C" men back; the captain, a regular back, two linemen, and two substitute backs backs. The regulars are Capt. Wallie Marks, who weighs 178 pounds; Kenneth Rouse, center, 180 pounds; and R. L. Wolf, a 182-pound guard. The reserves are Bert McEwen, tackle; Spencer, end; Leyers and Libby, fullbacks, and Small, center. All save Spence, who played at St. John's Military Academy, and Small, who hails from Sioux City, Ia., got their prep training in and about Chicago.

With the final work on the stadium nearly completed, the Maroons will have a first class football plant in which to show. "An unusually stiff schedule, with inter-sectional games including Florida and Maryland at Stagg Field, and Pennsylvania at Philadelphia, has been booked. Purdue, Ohio State, Illinois and Wisconsin are the conference teams to come to Chicago, while Northwestern will be met in the new stadium in Evansville.

Coach Stagg has had poor prospects before and has whipped great lines out of what seemed to be mediocre material. Although "the old man of the midway" admits that he hasn't much to show this year, he is not downhearted. While it would seem that the Maroons are out of the running for the Conference title chances are that they will not have a horridly disastrous season as long as Stagg is at the helm.

High price of rice in China is causing labor troubles there.

# Galli-Curci Swayed by the Seer of Sweden

## Prima Donna Gives Wonderful Interpretation of the Writings of Emanuel Swedenborg—

HENRY FORD'S Dearborn Independent publishes a remarkable article on Galli-Curci and Emanuel Swedenborg, by Clarence W. Barron of the Wall Street Journal, the world famous financial authority.

Mr. Barron declares that Galli-Curci has the most wonderful brain he has ever met or heard of in a woman, although she is much more "a true woman with a life and soul of affection for all that is ennobling and uplifting in the family, and in color, form, and music."

Mr. Barron is chairman of the Retch Trustee, who acting under the will of Lydia S. Retch of New Bedford, Mass., began in 1872 a modern translation of the Theological Works which Emanuel Swedenborg wrote and published in the Latin tongue, and deposited in the libraries of the world 150 years ago.

This work was completed and published by the Houghton Mifflin Co. in 32 volumes in 1907.

About three years ago there appeared in a Cleveland paper a paragraph that among her other accomplishments Galli-Curci had read all the Theological Writings of Emanuel Swedenborg. The claim seemed absurd to Mr. Barron that he thought it might be easily punctured by a simple inquiry as to the edition.

The Bible a Greater Work Than Ever To Mr. Barron's direct inquiry Madame Galli-Curci promptly replied: "Yes, I have read in the past year the complete Swedenborg Works, in fact it is the Retch Edition of the Houghton Mifflin Co. that I have."

"I can say certainly that the Bible to me is a greater work than it was before."

Mr. Barron says: "My astonishment was intensified. Familiar over many years with Swedenborg's general theological writings, I had set out to read the entire thirty-two volumes preparatory to an advertising campaign for the sale of this edition. Reading a few pages each day I finished my self-imposed task in fourteen years. I shall probably finish a second reading, at my present rate of progress, in perhaps ten years. Was it possible that a woman with no previous knowledge or relation to these books had really intelligently read them within a year?"

Swedenborg's Writings Mr. Barron continues: "As an economist writing state papers on weights, measures, coinages and currencies, Swedenborg is easily comprehended. As an engineer transporting ships overseas he is easily visualized. As a government official in the great mining industry of Sweden, writing practical books on mining and smelting, declared to be the foundation of modern metallurgy, he is of interest in the encyclopedia of scientific history. As the writer of volumes—original studies in search for the human soul—he is not without human interest."

"But when one comes to the realm of the unseen, where there is neither time nor space upon which to rest mental conceptions, few may enter into the fullness of the revelation which has come into the libraries of the world through Emanuel Swedenborg."

"Think of twenty modern-sized volumes, originally written in the Latin tongue and unfolding from the Hebrew of 'Genesis' and 'Exodus' the internal or spiritual sense that lies beneath the letter. Annex a dozen more similar volumes that not only expound every picture set forth in the book of 'Revelation' as conveyor of a tremendous truth of universal application throughout invisible degrees of creation and life, but also illumine all the problems of sex as presented throughout the universe from the union of the love and wisdom in the divine down to sex crystallization in the mineral kingdom; include the deepest of all works ever written entitled, in the original Latin, 'Angelic Wisdom Concerning the Divine Love and the Divine Wisdom.'"

All Fear Vanishes "The more you do—the more you give forth—the more life and energy is poured into you, and you are stronger and not weaker for the doing, the working and the singing. I always feel stronger. I am not exhausted at all by my singing. Swedenborg shows the reason and how life comes in as you pour it forth usefully to others. You don't have to try worry or fret. You know it is not you but that it is just being done through you."

Speaking further of the help Swedenborg had been to her in her work she said: "One gets so much more confidence. The other world and the one life, that comprehends all life, becomes reality and all fear and worry vanish."

## FOOTBALL SCHEDULE FOR PANHANDLE SOUTH PLAINS IS ANNOUNCED BEST GRID CARD EVER OFFERED HERE

Floydada vs. Tahoka, Wednesday; Plainview vs. Slaton, Thursday morning, October 7th, and Saturday morning, October 9th, on both days; Littlefield vs. Ralls, Saturday morning; and Texas Tech vs. Schreiner's Institute Saturday afternoon, is the line up on the biggest football card which has ever been offered Plains fans which will be witnessed at the Panhandle-South Plains Fair, September 29, 30, October 1 and 2, according to Jas. H. Goodman, director of athletics at the fair.

The schedule includes eight of the best high school teams on the Plains and the Tech game will have the best athletes in West Texas in conflict, Goodman said.

Floydada and Tahoka will lock horns on the opening day of the fair, Wednesday, September 29. Information coming from Floydada states that seven of the old men are back, Swain, White, Edwards, Boram, Bosley, Marshall and Stiffles and that the prospects look good for a winning season for the whirlwind squad. This squad has been in fall training for the past week at Silver Falls Lake, under Coach Ike Jay. Tahoka writes that prospects look good and a number of the old boys will be back and some new ones, and a representative team will take the field against Floydada.

Slaton and Plainview will play the second day, Thursday, September 30, and the game is expected to be a real battle. Slaton took Plainview into camp three years ago, 25 to 6 and beat them two years ago 50 to 0. The teams did not play each other last year but had about the same strength. This year they will meet when Plainview will be seeking revenge and Slaton will try to prove that the other two defeats were not luck.

The Slaton aggregation will be a new team practically, according to Coach Gus Miller. Buck Hucksby, one of the best centers in the entire Panhandle Plains section will captain the squad which will be fast on their feet.

A. T. Dorewell, captain of the Plainview Bulldogs, was the outstanding back field flash on the Plains last year and will lead John Craig, Cannon Vebst and Jack McGowan, veteran backs, and Wiley Pearce, Don Klein, J. R. Carter, Clarence Daffera, Grady Stevens, Richard Cross, line men back into battle for the green and white, according to Coach Guy Allen. Ed Blair, the new principal of the Plainview high school, who was athletic director at Daniel Baker last year, will assist in the coaching.

Word from both Plainview and Slaton reveals that the coaches are working hard for the game and are expecting a stiff contest. Miller, of Slaton, writes that the odds favor Plainview, but that it will be a good game, while Allen, of Plainview writes that Slaton has the biggest team on the South Plains and should win the game by several touchdowns.

The major high school game of the fair will be played between Lubbock and Post, Friday, October 1. Coach Tangleton has had the Westerners in training at Silver Falls Lake during the past week and they are showing excellent prospects. Word coming from Coach Dawson, new coach at Post, is that Post aggregation will be standard.

Littlefield and Ralls will both have good teams and will play Saturday morning, October 7th, and Sunday morning, October 9th. Word from both teams indicate that a good contest can be expected. T. O. Boles, coach and principal at Littlefield, expects his team to show some real football while the Ralls coach reports the team will be better than they have been in the past several years.

The major game of the football card will be played Saturday afternoon, when the Tech plays Schreiner's Institute.

## MUSIC MAKERS CALL OFF STRIKE

UNION JAZZ SQUAWKS ONCE MORE IN CHICAGO MOVIES

CHICAGO, Sept. 5.—Union jazz shrieked, clattered and moaned from the orchestra pits of motion picture and vaudeville houses throughout the West today, replacing with blue harmony the discord between owners and employees which had threatened a strike of several thousand theater musicians.

The temperamental fiddle and saxophone artists have agreed to go back to work in Chicago for a wage increase of \$4.50 per week instead of the \$5 which they had demanded and have decided to drop the controversy over hours and working conditions.

Simultaneously the impending strike of musicians, stage hands and motion picture operators in the big Grapewick circuit with theaters in sixty Western cities was called off on the basis of a similar agreement involving the settlement of the disputes which had caused a walkout in San Francisco.

The situation on the West coast will not be back to normal before Monday because the strike there already had become effective. But the dispute has been settled definitely, according to union and Orphan circuit headquarters here.

Committees representing opposing factions wrangled through most of the night and reached their agreement in the early hours of Sunday. Word was telegraphed to all local chapters of the union that the strike had been called off and that groups planning to walk out in sympathy with the musicians should be notified.

The peace in Chicago was brought about through the endeavor of B. M. Marshall, a conciliator for the United States department of labor.

## COOPERATION IS SUGGESTED IN OIL

WANT DESTRUCTIVE COMPETITION STOPPED TO PRESERVE SUPPLY

WASHINGTON, Sept. 5.—Extension of the cooperative principle, the government's remedy for farm life, the oil industry, as a means of saving the dwindling sources of gasoline and other oil products is recommended by the special board of cabinet members appointed by President Coolidge in its report to the chief executive.

The picture drawn in the lengthy report of the present status of oil supplies is not bright, but the board is optimistic that conservation can be effected through a number of remedies it suggests, if the oil companies will work together and stop destructive competition.

In this suggestion is seen the influence of Secretary of Commerce Hoover, a member of the board, who was originator of the water compact among southwestern states, and has been a disciple of this type of combined action by interested states instead of regulation by the federal government. The other members of the board are Secretary of the Interior Work, Secretary of War Davis and Secretary of the Navy Wilbur.

They have investigated the subject since last December. The board is opposed to federal regulation such as was advocated by Henry L. Dohoney, the oil magnate, who set himself against the former secretary of state, Hughes, on this point. Hughes, appearing for the American Oil Institute, contended that federal regulation was unconstitutional. The board says that "the power of the federal government to regulate oil production is that the program should extend itself."

1. Continued exploration for extension of known sands and deeper sands in known fields.
2. Continued exploration for new fields.
3. Systematic research and experiment upon methods of securing larger proportion of the oil from the sands.
4. Systematic research and experiment in new methods and cheapening costs in refining and cracking oils and waste elimination.
5. Co-operative methods of sand development of new fields to prevent wasteful flush flow and over-production.
6. Research and application by engine builders of more economical

use of petroleum products.

7. Expansion of American holdings in foreign fields.

The government can aid, it adds, through research by its agencies and by more intelligent handling of its own oil sources on Indian lands.

Of its remedy it says "voluntary co-operation proposed would need to include the land owners and operators in a single field or pool, which is a relatively small unit of production, so that the possibility of monopolistic control need not be feared." It cites examples of such co-operation at the present time.

"The question of the country wide influence of such co-operative action on either supply or price would, moreover, under legalized procedure, be always subject to appropriate and adequate governmental scrutiny."

"State governments," it says further, "should promptly study the economic advantage of co-operative action by land owners and oil operators, looking toward sand development of new fields and consider legislation authorizing co-operative agreement and safeguards. There should be active co-operation between the oil producing states in the study of proposed legislation to the end that uniform laws may be enacted, or even agreements or contracts entered into between the states, subject to ratification by congress."

The board urges that the government take steps necessary to provide sufficient fuel for war time emergency, stating that "the war time oil requirements of the navy in a New York overseas campaign probably include the major portion of the whole deep water tonnage under the United States flag."

Internal revenue receipts of the United States from Texas sources during the year ending June 30, 1925, amounted to \$34,673,543.93

## WARRIORS OF GRIDIRON PLANNING FOR ACTIVITIES OF COMING SEASON

By EARL J. JOHNSON CHICAGO, Sept. 4.—It won't be long now.

There's a haze in the sky, a nip in the air, and the warriors of the gridiron are hustling back from the various cities and routes of the Middle West for another fling at the big ten football season.

Trainers in the Western conference start off daily September 15th, and it is estimated that at least 500 hundred youngsters will enter the early competition.

In at least half a dozen big ten college towns, carpenters and concrete mixers are adding to the last layer of the new stadiums additions which are to hold the fringed crowds of 1926.

A survey of the conference coaches finds them all in a high state of optimism over their material as ever about their prospects for championship.

A Wisconsin, Coach Little will start the season with a letter man for every position, including Dan Conner, "Jeff" Burrows, Austin Stralbe and Captain Doyle Harrison. That is why the Badger coach is smiling.

Northwestern starts the season with a new stadium of 80,000 capacity and a star in veterans headed by "Moon" Baker. Coach Thibault has arranged for Tim Lowry, whose graduation put a hole in the team, to return in the capacity of line coach.

Utah's strength will remain an unknown quantity until it is determined whether Cowboy Nick Kutsch, who carried the ball to the glory of the corn belt last year, is to be retained. Nick's scholastic standing fell so low last year that he was suspended and has been taking summer work in an attempt to catch up. If Kutsch fails him, Coach Bert Ingwerson will face a difficult situation.

### Welcome, Teachers to the South Plains Teachers' Institute and to our Store

When in town come in and inspect our complete line of School supplies. Everything for school at low prices.

Want Valentino Funeral Quiet  
LOS ANGELES, Sept. 5.—Efforts to evade all public demonstrations mark the plans for the arrival here of the body of Rudolph Valentino.

The body of the screen player will probably be taken from the train at some suburb, yet to be named, and brought into the city secretly. The casket will be taken to a local funeral parlor, where the doors will be locked and the public excluded.

Funeral services will be held in the church of the Good Shepherd in Beverly Hills Tuesday morning. Admittance will be by card only and the public will also be barred from the Hollywood cemetery where the body will be placed temporarily.

### New York Finance

BY E. WALTER MOCKLER  
Written for United News

NEW YORK, Sept. 5.—With September well under way, the government financing looming large upon the horizon and the last of the summer holidays out of the way, it is expected that the coming week will usher in a more interesting and more substantial investment interest than has been evident since the early months.

In the stock market there has been little public interest. Bonds report much the same condition with institutional operators constituting the only turnover of importance. This has been partly due to the fact that small investors, virtually all business men in their own right, have good use for their funds in their own separate businesses. Later in the season when crops have been converted into money, when the profits from the fall improvement in business are banked, then will come time for the investment of these funds. This time is rapidly approaching.

It would not be surprising if money broke away from the 4-1/2 per cent basis again this week though the Friday stiffness may have been only the usual demand for money on the eve of a holiday. It requires much more cash to finance a holiday now than it did formerly. A large proportion makes the trip via motor car and it has become customary to carry a reserve supply of cash for emergencies. It is no longer possible to plan a holiday on a set schedule of expenditure. Individually this does not make a great deal of difference but the millions of motorists, each caring for his individual needs over a holiday, can make a vacuum in the money market which is worthy of consideration. These funds will flow back into the market along about Tuesday or Wednesday. At this time it is likely that the influence of the coming government financing will begin to be felt. Barring the temporary firmness incident to this financing and the usual stiffness at the end of the month when month end requirements are being covered, there seems no reason to look for any material jump in money over the above the five percent rate which has been established as the maximum of recent movements.

It is impossible to say that money will not go to six, but it is logical to believe that such an experience can hardly be expected on the basis of the present advances, and that lacking any unexpected emergency such a move would only be temporary. In the past few weeks the five percent call money rate has been enough to bring funds in from the outside with a rush in sufficient volume to depress the rate shortly after.

Dr. James F. Norris, president of the American Chemical Society and professor of chemistry in Massachusetts Institute of Technology, believes it is up to the motorist to save gasoline waste. Carburators are "throwing gas away," according to Dr. Norris.

### Fall Clean-Up To Control Insects

COLLEGE STATION, Sept. 5.—Attention of the farmers of Texas should at this time be directed to an important means of reducing insect injury to the crop of 1927. The damage done by insect pests of various kinds, and to several crops during the season just passed will make the following suggestions especially timely.

Not all of our insect pests are easily destroyed by seasonal control measures. Boll worms, for instance, at the time their presence is usually observed have passed the stage at which poison is greatly effective against them. Poisoning the boll weevil is expensive and not always effective. Harlequin cabbage bugs and squash bugs are resistant to contact sprays. In the case of many insects easily controlled by insecticides, often a cheaper and more practical means of control lies in the application of cultural measures.

The effect of cultural measures in this respect depends upon some habit of the insect to be controlled. The cabbage bug and the squash bug must pass the cold season under trash and during the warmer season must feed continuously upon the particular plants adapted to them. The boll weevil feeds only upon cotton, and must feed continuously upon this until the plant is killed by frost. The boll worm, as cold weather approaches, makes a protective cell from two to five inches beneath the soil surface where it spends the winter. So far as investigations have progressed, it appears that the cotton flea dies, but leaves its eggs inserted in the

More than 32,000 wheel tractors from America were sent abroad in the past six months.

Most of the toys now being produced in Japan are made in homes by the housewives and children.

### Curious Facts About Your Car and Its "Gas"

By ALAN P. INGALLS

"If you can't beat 'em, join 'em." The ancient motto of practical politics is being adopted by the railroads in meeting the competition of the motor bus. Railroads are putting on bus lines for local traffic in all parts of the country; more of them this spring than ever before. It is calculated that 70,000 motor buses are now in use in the country. In addition to those operated by railroads and interurban companies, independent services are being inaugurated in all directions. The average motor bus, because of low route and steady service, is estimated to use twenty times as much gasoline as the average passenger car.

When Texas was admitted to the Union it reserved its public lands as property of the state, whereas in other cases the public lands within a state have been the property of the Federal government. Among others, the State University of Texas was given a large area of these lands. It would have been hard to find a less promising environment than some of these acres—arid, unproductive. This in February of this year the University collected \$27,000 royalties for petroleum from its lands in the single county of Reagan, West Texas. In March the figures rose to \$268,951.

American motorists get their power from a strictly American product. Virtually all the gasoline consumed last year was refined in this country. Imports of gasoline amounted to only 4,000,000 barrels in 1925. If to this be added the estimated 5,000,000 barrels derived from imported crude oil, there is left 214,000,000 barrels of gasoline, supplied from crude oil produced in this country. The country used 233,000,000 barrels of "gas" last year.

Many thousands of farmers in this country derive a large part of their annual income from a crop that never is lost or quoted in the agricultural bulletins or crop reports. It is their income from royalties on petroleum taken from under their land. The greater part of oil comes from farm and ranch lands, but the United States government as owner of the public domain is the largest single landlord over the royalty-producing lands.

As the effectiveness of a fall clean up increases with the earliness with which it is completed, a statewide campaign is being urged to accomplish its results at once.

### RESOLUTIONS PASSED BY TEACHERS IN SESSION AT CANYON ASKING FOR ADDITIONAL SUPPORT FOR SCHOOLS

CANYON, September 5.—Whereas, the state apportionment of \$11.50 per capita is entirely inadequate to the proper support of the public schools of this state and is not sufficient to enable the schools to comply with the constitutional mandate for a six months term, Therefore, be it resolved by the West Texas State Teachers association, composed of more than one thousand teachers representing 23 counties, that we respectfully request our governor and the legislature at the special session which convenes September 13, 1926, to make supplementary appropriation from the general revenue in sufficient sum to provide a \$15 per capita apportionment for each child in the scholastic age in this state for the scholastic year 1926-1927. The needs of more than a million children of Texas make this action imperative; and we, therefore, urge that nothing be allowed to obstruct or hinder such action at the forthcoming special session.

Be it further resolved that a copy of this resolution be sent immediately to our state senator from this district, to the members of the legislature from the districts covered by this institute, to the speaker of the house, to the chairman of the appropriation committee in the house, to the chairman of the finance committee in the senate and to her excellency, the governor of Texas, Respectfully submitted,

E. L. HUNTER, Chairman of Resolutions Committee. The above resolution was unanimously adopted in full convention, September 3, 1926.

W. E. LOCKHART, Secretary West Texas Teachers Association.

To West Texas Chamber of Commerce. In view of the continuous inadequacy of financial support for our schools, resulting in an impoverished system of education, incapable of coping successfully with the problems of modern society; in view of the antiquated and unjust system of taxation that manifestly violates the spirit of republican government and plainly contravenes the mandates of our state constitution; in view of the fact that there is ample wealth in this state to support without burden all of the institutions of government including the entire system of public education; and in view of the fact that the West Texas Chamber of Commerce, through its president, Hon. Arthur P. Duggan, and its

manager, Hon. Homer D. Wade, is leading a fight for tax reform in this state as well as for adequate support of our schools; therefore, be it resolved by the West Texas Teachers association in annual convention assembled at Canyon, Texas, that we heartily endorse the tax proposals of said chamber of commerce, and commend its officers for their able and patriotic interest in the public welfare in general and in the cause of education in particular, and that we pledge them our undivided support in their campaign for a modernization of our tax system. Respectfully submitted,

E. L. HUNTER, Chairman of Resolutions Committee. The above resolution was unanimously adopted in full convention, September 3, 1926.

W. E. LOCKHART, Secretary West Texas Teachers Association.

### Texas Republicans Gather in Dallas

DALLAS, Sept. 5.—The republican state convention which convenes here Tuesday will adopt a platform demand for bipartisan boards for the administration of state affairs with representation divided between the major parties, it was forecast here by early arrivals to the convention.

An endorsement of President Coolidge, a call to Texas voters to support the two party systems; reform of the primary election laws; reorganization of schools from politics; validation of the road bonds and a tariff plank declaring for protection and aid to farmers, will be other things in line for endorsement by the convention.

### MORE SENATORS GET AXE TUESDAY

PROHIBITION IS ISSUE WHEN NEVADA VOTES ON TOGA WEARING G

BY EARL J. JOHNSON  
United News Staff Correspondent  
CHICAGO, Sept. 5.—Senatorial primaries in three more Western states will occupy the attention of voters Tuesday while similar contests are being settled in Massachusetts and New Hampshire.

The elections in Nevada and Arizona will be mild preliminary to the real battle in November but in Wisconsin important national issues are to be threshed out by the progressives, conservatives and radicals.

Prohibition is an issue in Nevada where former representative E. E. Robert, a wet, is attempting to wrest the republican senatorial nomination from Senator Tasker L. Odde. The incumbent has a primary battle on his hands but republican scouts predict that he will win. Ray Baker, former director of the mint under President Wilson, is slated for nomination by the democrats. He has the active support of Senator Key Pittman who predicts that he can win from either Robert or Odde in November.

The Arizona primary is largely a formality. Senator Ralph H. Cameron will be nominated by the republicans and congressman Carl Hayden by the democrats. Wisconsin is the spectacular number on the primary program in the West with such issues as the world court, prohibition and the "Madison ring" mixed up as fantastic an array of candidates and cleavages as the adger voters have ever attempted to untangle.

Young "Bob" LaFollette, who succeeded his illustrious father in the senate, is backing Governor John J. Blaine against Senator Irvine L. Jenroot, a former LaFollette protégé, for the republican senatorial nomination. Blaine and young "Bob" are supporting Attorney General Herman Ekern, for the gubernatorial nomination.

These three constitute the so-called "Madison ring" which is wet and opposed to the world court. Fred Zimmerman, now secretary of state, claims to be an "original LaFollette man" and is using that slogan in his fight against Ekern for the governorship. Hence the breach in the LaFollette ranks. Zimmerman says the old timers who supported the late senator Robert M. LaFollette in his heyday are being scooped out by the Madison triumvirate of LaFollette, Blaine and Ekern, described as "pink progressives."

So the air is filled with recrimination as insurgents within the LaFollette camp whap, each other in a scramble for the state offices, each claiming to have the special blessing of the late "Fighting Bob."

Earlier in the campaign it looked like a walk away for Blaine in the senatorial race. But now that the fighting among the progressives has become so bitter Senator Jenroot is winning much more, favor and the contest probably will be a close one. The campaign has been marked by spectacular word battles between Jenroot, who like LaFollette is an enemy of American adherence to the republican senatorial candidates

### SCHOOL MEN ARE BROWNFIELD GUESTS

TWENTY TWO DISTRICTS SEND TRUSTEES TO TERRY CAPITAL

BROWNFIELD, Sept. 5.—School trustees from over Terry county and representing 22 districts were in all day session at the district court room yesterday. At the noon hour they were entertained with luncheon by the chamber of commerce at the Brownfield hotel. The afternoon was taken up with the discussion of the various problems that confront the average school board and of devising ways and means of bettering present conditions.

At the conclusion of the afternoon meeting a watermelon feast was served by Mr. Hogue, a member of one of the school boards.

### Rapid Development Of West Texas Oil and Gas

STAMFORD, Sept. 3.—West Texas oil and gas fields will soon be supplying every city in west Texas territory with natural gas for industrial uses as well as for conveniences, according to reports which come in to the West Texas Chamber of Commerce offices from all sections in this part of the state. West Texas cities and towns will not have to be dependent on distant fields for their gas resources, but gas lines will be laid from the wells in the central, west and northwest districts of their own territory.

Numerous cities in west Texas have recently granted franchises for gas to be piped into the city for general use. In several instances of special celebrations have been held at the opening of the gas mains. Particularly interesting were the celebrations held at Vernon and Comanche. Torches were burned along the highways leading into Vernon, and all citizens viewed the spectacle of gas burning in their own city for the first time.

According to West Texas Chamber of Commerce officials, it will be only a matter of time until every city and town in west Texas will be equipped with gas lines which will be connected with fields in the near vicinity. Among the towns which have recently granted franchises or have already been equipped with natural gas mains are: Quanah, Chillicothe, Memphis, Claude, Lubbock, Plainview, Tulia, Happy, Kress, Mercury, Hals, Center, Abernathy, Woodson Vernon and Comanche. Slaton is in line for an extension from the Lubbock gas mains, and Throckmorton plans for a supply from the new fields within Throckmorton county.

In 1924 Texas produced 4,851,000 bales of cotton out of a total world production of 19,360,000 bales.

### 1986 Turtles in Labor Day Race

PONCA CITY, Okla., Sept. 5.—

Out to shatter the record of their illustrious ancestor, the gregarious tortoise who beat the hare, 1,986 turtles, mud, mead and soup, will attempt to do sixty feet in five minutes flat here Monday thereby qualifying for the annual Labor day turtle derby, to be held a few hours later.

The derby which has become a classic in this old territorial town, will be held on the fast terrain speed way on the yellow plains of the Miller Bros.' 101 ranch.

### Ten Now Dead of Interurban Crash

By United News

MONROE, Mich., Sept. 5.—The death toll from the interurban crash near here Thursday afternoon, was brought to ten Sunday with the death of Earl Thornton, 48, of Mishawaka, Ind.

Mr. and Mrs. Thornton were en route east on their wedding trip having been married the day before the crash.

### German Entry to League Seems Sure

GENEVA, Sept. 5.—A path of roses has been prepared for Germany's entrance into the league of nations when the seventh annual assembly of the league opens Monday.

With adoption by the league council of the report of its special committee giving a permanent seat to Germany, it is regarded as certain that the reich will take its place among the important world powers now in the league, a place she has not held for seven years.

MIDDLE WEST DRENCHED  
CHICAGO, Sept. 5.—Rain continues to drench the flood menaced areas of Iowa, Illinois and Nebraska. Some districts have had nearly ten inches of rain in the last week and the weather bureau predicts the precipitation will continue over labor day. Scores of small creeks are out of their banks, flooding highways and basements.

In 1924 Texas produced 4,851,000 bales of cotton out of a total world production of 19,360,000 bales.

### WANT BROKERS TO HEAL THEMSELVES

CORRECTION IN FUTURES TRADING FROM WITHIN, REPORT SUGGESTS

By United News

WASHINGTON, Sept. 5.—Correction of the evils of futures trading in grains within the trade rather than by federal or state legislation is the policy urged in the final volume of the federal trade commission's report to congress, made public today.

"Future trading has not a good reputation with the general public, especially with producers, and this situation is not without reason," the report says.

"At present, however, it seems best sometimes to remind the grain exchanges of certain short comings of the futures market, rather than to recommend legislative measures which may not be sufficiently thought out."

"The producers of grain who are entitled to special consideration in this connection would be injuriously affected, it is believed, by the sudden abolition of grain trading, although the general superceding of this and other parts of the present machinery of the grain trade by a more efficient organization is conceivable.

"The academic argument in behalf of speculation is that it conduces to stability of prices. Under existing conditions of speculation in grain futures no such stabilizing influence has been found. On the other hand, no convincing evidence has been found indicating that future trading makes grain prices clearly and appreciably less stable—or higher on the average—than they would be without future trading."

"Some brokers," the report said, "are proud of the assimilation of their business to that of banking. From this point of view, it would seem desirable to put speculative brokers generally under such supervision as has been found to be effective in protecting depositors in national banks."

"The principal cost of future trading is the general social cost of the vice of gambling as it relates to futures."

"The advisability of attempting to

prevent gambling in this case is especially doubtful because it is very difficult to fix by law a satisfactory and workable definition of gambling trades."

Commissioner Hunt, acting chairman, announced that Commissioners Thompson and Nugent do "not believe that the recommendations of the chief economist for remedying the evils of future trading as at present practiced are adequate, and will eliminate them to any practical extent."

### Golden Wedding of Rails Observed

LOS ANGELES (Sept. 5.—The sleepy little hamlet of Lang, 40 miles north of this city, on the edge of the Mojave desert, buzzed again today with the activity that marked it half a century ago.

The first railroad connecting Los Angeles with the outside world was completed at Lang 50 year ago today and in commemoration of that event the "wedding of the rails" ceremony was re-enacted there.

### Finds South Plains Cotton Crop Best

Bayless Harris, president of the Harris-Erby Cotton Co., of Galveston, and former mayor of that city, who spent Sunday in the home of A. V. Weaver, of Lubbock, who was an old school mate of Mr. Harris, declared that the cotton crop in the United States this year would be about 15,000,000 bales, or less than the government estimate, on account of leaf worm and other pests. He found the South Plains cotton the best that he had seen.

His sons, Bayless Jr., and Robert, were with him.

### PRAYERS ANSWERED

LOUISVILLE, Ky., Sept. 5.—Farmer and clergymen prayed for rain for three weeks in this region. When their prayers finally were answered the rain fell in such torrents that it was almost as damaging to the crops as the drought had been.
