Graduation Exercises Held

Sue's Views

By Sue Cannon

James W. Phelps, columnist for about 100 newspapers, brought out some thoughts in his writing this wek that I definitely agree with.

Phelps, an attorney, businessman, investor and writer, believes in free enterprise and favors strong law enforcement and punishment of criminals.

He also believes that the US should always be as strong or stronger than any other nation. We agree!

Who are TAPGUPS?

They are people who believe in Taking Away from the Productive and Giving to the UnProductive.

They are people who believe that those who don't earn the money have more right to it than those who do earn it.

Let us assume that I know of some people who I think are truly in need.

If I knock on your door and tell you about these people you may want to help them.

But let's suppose you don't want to help them or don't fell that you can afford to do so. Would it be right for me to return with a gun and demand that you contribute? Or would it be right for me to return with ten or twenty or a hundred people and demand that you contribute?

If the demand is wrong, the use of a gun does not make it right. An increase in the number of people making the demand doesn't make it right either.

We all give to voluntary appeals and many of us have worked for charitable organizations. If the government didn't take so much in taxes we would give more than we do now.

Voluntary giving is great. It is the best way to help those who are truly needy.

TAPGUPS, however, are unwilling to depend on voluntary giving. They force people to contribute to all sorts of pet projects, whether it be helpling the needy or studying the sex life of some African moth.

TAPGUPS get what they want by getting elected to public office. As legislators they pass laws that Take Away from the Productive and Give to the UnProductive.

The laws have the same effect on you as a man with a gun. They force you to give up part of what you earn so it can be given to someone who didn't earn it. And if you don't pay, your property is seized and/or you go to jail.

If the people the TAPGUPS give to become more numerous than the ones they take away from, they could get re-elected year after year until they destroy our society.

Many people have voted for TAPGUPS because they saw what they thought was the good the TAPGUPS were accomplishing.

But for every dollar spent on those who don't produce, more than dollar has to be taken away from someone who earned it.

Bi-Centennial Plans Begins

Planning for the city's Bi-Centennial will begin with a meeting called for Wednesday, June 4, at 8:30 p.m. according to Larry Garvin, Chamber of Commerce and Agricultural president.

Garvin urges all members thus far appointed to the committee to be present to hear and to present suggestions. He also invites anyone interested in some phase of the celebration to attend the meeting. He hopes especially that each civic organization of the community will send a representative in order that the planning may be community wide in scope.

LARRY GARVIN

President Of Olton CCA Speaks At West Texas Meet

Larry Garvin, president of Olton Chamber of Commerce-Agriculture, appeared recently on a program at the 57th annual convention of West Texas Chamber of Commerce in El Paso.

Theme for the meeting was stated "West Texas - Profits Create Jobs."

Garvin was one of twenty chamber presidents invited to speak in behalf of their hometown in the matter.

In his remarks, Garvin stated "Profits and job leadership must stem from an active and progressive thinking Chamber of Commerce...something must be done to increase the prestige and capabilities of the organization." In citing recent increases in size of the local Chamber he added "We are getting some people involved who want to see their community prosper."

Garvin mentioned the increased interest in the bi-monthly breakfasts currently being held in the city; the active planning of the Retail Merchants Association, and an effort underway to build medium priced housing rental units.

The young president also aluded to the fact that some towns, like Lubbock and Amarillo, have their catchy new slogans, and he pointed with pride to the slogan recently adopted locally, "GOAL...Give Olton A Lift."

Mrs. Garvin accompanied her husband to the Convention.

Ode To An Aisle

By Rex Boyles

In the last few weeks we've paid tribute to mothers and seniors, and they have deserved every well-intended word. In keeping with these tributes we will spend at least one paragraph of this article to humbly offer our praise to "aisles".

The aisle is an often-trodden and seldom-honored pathway to glory for eighth graders, award students. seniors and newlyweds.

To be an aisle is to be oh so lonely, for even with the significant part it plays in graduations and weddings it never receives a commendation from principal or preacher. In fact, when was the last time you offered friendly foot-tap to an aisle?

Though is aisle is a well-beaten path it lies unused (except for occasional assemblies or plays) for some 50 weeks out of the year. Most of the aisle's use and abuse plods in during the last week of May and the first week of June. During these two weeks aisles all over our nation will be trodden slowly and deliberately by excited eighth graders, delirious seniors and lovely brides (not all of them are big, fat and wide).

So aisles, we pay our tribute and offer our thanks to you for your willingness to be used and abused by our glory-seeking feet. Our hats (or should it be shoes) are off to you.

Folks, why not give an aisle a friendly toe-tap this week? Maybe even the mayor could proclaim this week as "Be Kind to Aisle Week"....

Now wasn't that totally absurd?

Of course it was, but I hope it kept you reading to this point because I want to share some thoughts with you on one of the above mentioned aisle activities.

Saturday, May 31, I will enjoy the precious delight of sharing in an almost-June wedding. Most young ladies dream of being "June brides", and rightfully so for June 1 (or May 31 as the case may be) is a lovely time to begin this wonderously joyful relationship called marriage. I feel really happy and honored to share in the beginning of a home. Saturday night, Lord willing, I will guide two young and lovely people in exchanging promises to each other as they make a covenant with each other before God.

As I prepare for that experience, I enjoy thinking back to the atmosphere of Eden when God created that first home. Remember how God examined all his creations and after each one he pronounced its "goodness"?

In all of that peace and beauty and good there was yet one thing that was not "good". Out of all of God's perfect creation there stood one horrible imperfection...it was not good that man should be alone.

Out of all the lovely things and creatures to which God had issued life there was not a suitable helper, companion found for man. But an all-wise Father understood, and with a rib he worked the miracle of life and called her "woman". That was good.

The blessing that God gave both men and women when he formed the marriage relationship places upon both certain obligations. In one word those obligations are fulfilled. That word is "Love". It's not the love of enchanted movies or posters. It's the love that gives to each other the little things, the right things, and the best things....Rex

MRS. JAMES LIVELY

Cook Of The Week

Baking is the most enjoyable phase of cooking for our Cook of the Week, Mrs. James Lively. She likes to cook but prefers oven cookery.

Sherry was born in Oregon but came with her parents to Texas when she was just six months old. Her family moved to Olton from Whitharral so most of her schooling was at Olton.

"I should have been a boy," she says in describing her love of football. "It's my sport." She also likes to try her luck at the football guessing game featured each fall in the Enterprise.

Baseball, she says, is a game she cares nothing for but is beginning to follow since her brother, Johnny, is coaching a pee wee league team.

Sherry also likes to sew and has throughly enjoyed the sewing machine she received for Christmas.

Each fall, Sherry helps her parents at Circle Gin where her father is the manager. She also fills in at other times her folks are away. She helps part time, too, at the Mustang Drive in theater.

Sherry and James are members of Hopewell Baptist Church.

To me, nothing tastes better than fine tobacco.

But I don't smoke.

To millions of Americans, the good taste of tobacco doesn't always come from smoking.

It also comes from tasting. From placing a pinch of tobacco between cheek and gum, and savoring it.

And yet, to millions of others, this age-old tobacco pleasure is still a mystery. Possibly because they've never tried it.

Or because, as is true, the use of "smokeless" tobacco is an art, and takes practice.

A pinch in a pouch.

So, to make it easier, we've made it different. We've made Good Luck. A whole new way to enjoy tobacco.

Good Luck is a pinch of choice "tasting" tobaccos, in a neat little pouch. And the pouch is what makes it different.

You place Good Luck, pouch and all, between your cheek and gum. Then, as it rests there, the pouch works like a tea bag. To let tobacco flavor out, while the tobacco stays in.

Nobody knows.

Naturally, any form of "tasting" tobacco takes a little getting used to.

But with Good Luck, it's easier because the pouch holds the tobacco all in one place. It sits comfortably and no one knows it's there, but you.

Also, each pouch comes properly pre-measured, so you always get the right amount.

Sealed in foil.

To keep the tobacco fresh and moist, each Good Luck pouch is sealed in foil. That also keeps it from spilling into your pocket.

And because you don't smoke Good Luck, it's perfectly welcome in places where smoking isn't. Such as a courtroom, on a bus, or near inflammables.

And unlike a cigarette or a pipe, Good Luck won't tie up your hands. You enjoy its tobacco flavor no matter what you're doing.

Good Luck. Rich, choice "tasting" tobaccos, in a neat, little pouch. Slip it between your cheek and gum, and the pouch works like a tea bag. The flavor gets out, the tobacco stays in.

Rich tobacco tradition.

Now you're acquainted with Good Luck's little pouch. But what about the tobacco that comes inside?

Everything But The Kitchen Sink

By Mozelle Trotter

Marches have been played, robed boys and girls have stepped proudly to their strains and then stepped joyously to the refrains of others. Commencements for the Classes of '75 are now history.

Graduation is a big event. As a student, it seems That Day will never arrive. Days drag along in a monotony of homework and tests. And then, the final class is over, the final exam taken and the final step of high school concluded in a ceremony that brings happiness and the unexpected awareness, "Am I ready for it to be finished?"

It's a mighty big step, graduation. It's growing up and realizing that maybe it wasn't really so bad being a high school student and knowing that when school bells rang again, you'd be back at OHS.

There's a whole new world awaiting. There'll be the awesome experience of being an uncertain and little-bit-frightened (and perhaps a green-capped) freshman on a BIG college campus.

Or, maybe, you'll be getting that full time job and begin "making your own way."

Whatever the step may be, its a big step and a time you'll remember the rest of your life. So congratulations, seniors, there's a great new world awaiting. May you find meaning in your life and happiness along your chosen paths. That's what sucess is all about.

TEXAS TALK

By Billy Davis

Crop Camels have heads but no humps. The term "Crop Camel" is used as a reference to any crop that gets along on little water but in this area is generally reserved for sorghum. Primary reason for the development of sorghum as a feed grain was because it provided essentially the same nutritive value as corn but had unique growing properties. Properties such as becoming practically dormant during a drought and then resuming growth as soon as water is available. Most common of the grain sorghum types are the kafirs and milos or a hybrid developed from the two varieties. According to authorities such as J. H. Martin, sorghum originated in east Africa with the kafir variety coming to the United States from South Africa in 1876. Milo followed in the early 1880's. Hybrid developments and farm improvements have moved average yield from under 20 bushels per acre in 1950 to a current average of close to 65 bushels.

Off The Top Of My Hat

By Murdell Shipley

Things are going right along. Everything has its own good time and for us, that are so anxious, it sure seems like a long time. Like the turtle and the rabbit - but you remember who won!

We have been assured by both the O.R.C. board and the city council that we may have all the land we need out at the O.R.C. Both groups of people were very nice to us. (It was my first time at the council meeting - almost painless.)

We are also checking out another piece of land. It would require less time spent in preparation, if it can be obtained.

We have sent in for our articles of Incorporation and things have been coming in for our "Big Garage Sale." We are still needing more items. That number is 285-2180 for pick up. The Silver Belles are going to select a member to represent our town in a Rodeo Queen contest. They will be meeting at 7 p.m. on the same day as Olton Y.R.A. Inc. Our meetings will be on the 2nd and 4th Tuesdays of each month at 8 p.m. Please mark these dates on your calendar and come on down. YOU are always welcome.

We are also making plans for our membership drive. This is a very important step. I feel sure that you will have the fore sight to see how much a project like this can mean to "our town." Some "Doubting Thomases" are concerned about this. They say that people like this idea but putting out money is well -- something else, the general economy, etc. You know tho I can't remember a time when Olton was asked for help and didn't give it.

I really believe that our kids are most deserving of our help - Don't you?

It's time your family stopped being just "Smith Harold" in the telephone directory.

The new edition of your telephone directory is going to press soon.

If you have only a single listing, a lot of people are going to have trouble looking up other members of your family.

Certainly, your wife deserves her own listing.

And giving a teen-ager a place in the directory is a nice way of saying "You're growing up."

To add or change a listing just call our business office. They can tell you how little extra an additional listing will cost.

It's as easy as picking up the phone.
