THE SNYDER DAILY NEWS

VOL. 8, NO. 312 — SNYDER, TEXAS, WEDNESDAY, APRIL 30, 1958 — EIGHT PAGES—PRICE 5c

Rains, Hail Continue In State Today

Another siege of cool, damp weather hit the Snyder area today, following a cool yesterday.

Showers hit throughout the Snyder area this morning in off-and-on style. There were reports of showers at Snyder and in all four corners of the county — at Fluvanna, Lloyd Mountain, Hermleigh and Ira.

There was some hail at Ira with this morning's rain.

The rain and cold weather hit at a time to halt early cotton planting operations started by some farmers.

By The Associated Press

At least one tornado and possibly two struck in Texas during the night and another round of vicious thunderstorms threatened the eastern part of the state Wednesday.

Six straight days of battering weather kept many Texas residents watching the boiling clouds and swollen rivers.

A severe thunderstorm which may have been a small tornado, one witness said, pounded a half mile area north of New Summerfield, about 10 miles east of Jacksonville during the night.

State Highway 110 between New Summerfield and Troup was blocked by heavy trees blown across the highway. Two tenant houses were heavily damaged.

A poultry house in the Griffin community near Jacksonville was demolished by winds. No trace could be found of 3,000 laying hens in the house.

What was described as a small tornado heavily damaged the Allen Negro High School in the D'Arky community in Laneville in East Texas during the night.

The superintendent, John Lock, said a small funnel lifted the science building off its foundation and moved it 8 feet. The school's lunchroom was slammed into the side of the main building, crushing a wall. He said the roofs of the science, gym and main building were "beyond repair." He estimated damage at $20,000.

Laneville, 10 miles south of Henderson, was without power from 7:30 p.m. Tuesday until 5:15 a.m. today because of wind damage.

By mid-morning, turbulent conditions began building up again.

Abilene reported hail a half inch in diameter 6 miles northwest of the city. Thunderstorms occurred in the vicinity of Waco and Brownwood.

Hail the size of baseballs pounded Cranfill Gap, 40 miles west of Waco Wednesday morning. Automobiles and windows suffered heavy damage. The hail storm pushed northeastward towards Hill County at about 30 miles an hour.

Jacksboro, 60 miles northwest of Fort Worth, had .92 inch of rain within 7 minutes.

A hard hail storm crashed across Texarkana early Wednesday. High winds hurled hailstones as large as marbles into autos and windows, causing considerable damage.

Skies were cloudy over Texas Wednesday with only El Paso clear.

Lufkin, Laredo, Cotulla, San Angelo, Junction, Austin, College Station, Waco, Dallas, Fort Worth, Midland, Wink, Houston, Tyler and Longview reported drizzle and fog.

A cold front was stalled out roughly along the coast. Warm moist air from the Gulf rode up over the cool air, causing the rain and turbulence. No change was in sight, the Weather Bureau said.

Predawn temperatures ranged from 37 degrees at Amarillo to 74 at Galveston and Brownsville.

Winds described as of tornadic force demolished a garage and ripped up trees on the Joe Schmid Jr. farm near Perry in Central Texas Tuesday night. Hail several inches in diameter pounded the Waxahachie area.

One-inch hail beat down oat and wheat crops near Leuders and Avoca, northwest of Abilene.

Tornadoes struck Tuesday near Comanche southwest of the Dallas-Fort Worth area, in Hunt County northeast of Dallas and near Wills Point, southeast of Dallas.

Although seven homes were swept away and other funnels appeared aloft, no injuries were reported.

The rains added more flood threats to the Trinity River and to northeast Texas streams.

The Trinity went over its banks at Trinidad, below Dallas, and spilled into fields and woods.

The Shreveport Weather Bureau said a flood stage of 38 and possibly 40 feet is expected on the Sabine at Gladewater this weekend. Flood stage is 27 feet.

The Sulphur River was expected to crest at Naples Wednesday night at 31 feet, 9 over flood stage.

The Cypress was expected to go to 22 or 24 feet at Jefferson Friday or Saturday. Flood stage is 18.

The Black Cypress and Little Cypress Creek also were expected to flood.

Hard winds and rains, often accompanied by hail, slashed out of dark, boiling clouds over much of northern and northeastern Texas Tuesday, causing widespread minor damage and flooding.

FINAL ADJUSTMENT—An aide, Capt. Stillman Hazletime, right, makes an adjustment on the parachute harness of 101st Airborne Div., commander Maj. Gen. W. E. Westmoreland high over Ft. Campbell, Ky., moments before both went hurtling down in a test jump to see if wind conditions were safe for 5,000 troopers to follow as part of Exercise Eagle Wing. Both officers made safe but difficult landings and the exercise was called off. Five paratroopers were killed and 155 injured in an Eagle Wing mass drop last week. (AP Wirephoto)

House Working On Jobless Pay Bill

By B. L. LIVINGSTONE

WASHINGTON (AP) — The House starts work today on a bill to extend jobless benefits, with a wide-open choice of how to go about it.

One of the hottest legislative battles of the present Congress was in prospect before the final vote is cast sometime late this week.

"We have a real fight on our hands," conceded Rep. Forand (D-RI), a leader of the Democratic forces backing a measure to pay federal jobless grants to the vast majority of the nation's five million unemployed.

Ranged against it were most House Republicans and a substantial number of Democrats who think either that the bill does not go far enough, or that it goes too far.

The issue, however, was expected to narrow down to the program of temporary unemployment relief loans to the states as proposed by President Eisenhower, and the sweeping program of federal grants proposed by the Democrats. Both proposals would be temporary, expiring next year.

The Democratic proposal carries a 1½-billion-dollar price tag. The Administration's program is figured to cost around 750 to 800 million dollars, which the Treasury would get back from the states.

The House Rules Committee, in clearing the measure for floor debate, gave the House an opportunity, to start voting tomorrow on a variety of alternatives including the administration plan.

Under present law, jobless benefits are financed out of employer payroll taxes which go into a trust fund until needed. Terms and conditions governing payments vary from state to state, as do amounts and the period of coverage.

The Democratic bill covers both presently insured and uninsured workers, providing 16 weeks of jobless pay to be financed entirely out of the U.S. Treasury.

The administration program would limit additional jobless pay to those injured workers who have exhausted their benefits. The added coverage would be 50 per cent of the state compensation period —a maximum of 13 weeks additional in most states.

Instead of outright federal grants, the administration plan calls for a paycheck by the states after four years — through either increased employer taxes, or appropriations out of state treasuries or trust funds.

Servicemen Due Early Pay Boost

By EDWIN B. HAAKINSON

WASHINGTON (AP) — Unanimous Senate action practically guaranteed an early pay increase for the nation's fighting men today —possibly by June.

The Senate, with little debate, passed a broad military pay incentive bill 87-0 yesterday and returned it to the House for probable compromise talks.

Rep. Kilday (D-Tex), generally credited with drafting the bill previously passed by the House, indicated the Senate measure was not acceptable. He said he probably would seek a Senate-House conference committee to work out a compromise.

All indications, however, pointed to an early agreement. At the rate the bill is now moving, this could mean pay increases becoming effective possibly in June.

Both House and Senate versions carry out President Eisenhower's key recommendations for making military careers more attractive financially to skilled officers and enlisted personnel.

Sen. Stennis (D-Miss), floor manager for the complex measure in the upper house, said the Senate version would add some 576 million dollars the first year to the present armed services payroll of just above 10 billions.

The House bill, because of generally higher proposed increases, would cost an estimated 683 millions the first year. The Pentagon had suggested increases of only 512 millions.

Almost every person in a military uniform with two years or more service would get a base pay increase of at least 6 per cent. Generals, admirals and other top officers, both noncommissioned and commissioned, would get even more—boosts ranging up to as high as 60 percent.

Larger boosts also are provided for top enlisted personnel.

Blundell To Head Blakley Campaign

DALLAS (AP)—Former Sen. William A. Blakley today announced appointment of James H. Blundell, a long-time associate and Democratic party leader, as manager for his campaign for the Senate.

He also opened a campaign office in Dallas.

Blundell was administrative assistant to Blakley during his four-month interim term in the Senate last year and has been a business associate for 10 years. He also has been active in state and national Democratic Party affairs and has been chairman of the state Democratic Executive Committee.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 65 degrees; low, 43 degrees; reading at 7:30 a.m. today, 43 degrees; precipitation, trace.

LOCAL SOIL TEMPERATURE: Today's reading reported by high school agriculture department, 57 degrees; 10-day average, 61.5 degrees.

East and South Central Texas: Mostly cloudy through Thursday with scattered showers and thunderstorms mainly in interior. No important temperature changes.

North Central Texas: Cloudy through Thursday with scattered showers and thunderstorms. No important temperature changes.

West Texas: Mostly cloudy through Thursday with scattered thunderstorms mainly South Plains and Pecos Valley eastward. No important temperature changes.

Ike Remains Confident Slump 'Flattening Out'

By MARVIN L. ARROWSMITH

WASHINGTON (AP) — President Eisenhower said today the April decline in unemployment cannot be interpreted as meaning for sure that the nation is on the high road to recovery from the recession.

But he said he believes there is continuing evidence the business slump is flattening out.

Asked at a news conference about the possibility of an anti-recession tax cut, Eisenhower stuck to his previous position—that the situation must have more study and analysis before a decision on that.

The first question put to Eisenhower was whether he believes the 78,000 decline in unemployment for the month ended in mid-April means that an economic upturn is under way.

The President replied he does not think there is justification for such a categorical statement. He noted that when the employment and joblessness figures are adjusted for seasonal factors, there still is a good bit of unemployment.

Eisenhower then went on to say that in his view we can't assert that we are now on the high road to advance, or recovery from the recession.

The conference was Eisenhower's sixth weekly session in a row with newsmen. His record set in 1954, is eight conferences in a row.

In contrast to last week when his temper flared a couple of times, Eisenhower was in a mostly jovial mood today. But he spoke out emphatically and forcefully several times, particularly regarding his controversial defense reorganization plan.

The discussion ranged over these topics:

PENTAGON REORGANIZATION—Eisenhower said he will continue to insist on all the essential provisions of his plan because any retreat would mean that the United States could not be properly defended.

He is not necessarily wedded to all the language of the administration bill, he said, but added that a compromise or retreat on essentials to a degree which would jeopardize U.S. defense would be inexcusable.

ARCTIC INSPECTION — Eisenhower called it just silly for the Soviet Union to take the position that the United States is trying to make propaganda in proposing an arctic aerial inspection system to guard against massive surprise attack.

Eisenhower said his reaction to this Soviet contention is one of sadness.

He said the United States advanced the proposal in all seriousness and good faith, and noted that it stemmed from Soviet charges that nuclear armed American bombers flying over the polar area toward Russia's frontier are endangering the peace.

POLITICS—Eisenhower said the Republican presidential nominee for 1960 will be picked by the party, and that there are a lot of good men available.

Eisenhower had been asked whether in his view the President has a responsibility to encourage those not in political life to seek the presidency.

Eisenhower at first interpreted that as a question whether he was grooming a successor. He denied that he is doing that. The nominee, he went on, should be a choice among men thought by the public and the party to be successful prospects.

At that point, Eisenhower himself brought up the name of Vice President Nixon, regarded by many as a front runner for the 1960 GOP presidential nomination. Nixon and he, Eisenhower said, are warm friends, and he admires and respects the vice president.

But beyond that, Eisenhower added, he has a duty to keep Nixon well informed regarding what is going on in government inner circles. As a result, he said, Nixon today is right up on everything.

NUCLEAR BOMBS — Commenting on a contention by Sen. Anderson (D - NM), Eisenhower said no military officer ever has suggested that this country ought to produce dirtier atomic and hydrogen bombs—that is bombs with a high radioactive fallout.

Anderson, vice chairman of the House - Senate Atomic Energy Committee, said last weekend that some of this country's nuclear bombs have been pulled out of the stockpile and revamped to make them dirtier.

Eisenhower said the entire emphasis has been toward production of ever cleaner bombs, rather than dirtier ones. He added that Lewis L. Strauss, chairman of the Atomic Energy Commission, has informed him that about 40 per cent of the forthcoming Pacific test series will be devoted to efforts to produce cleaner bombs.

The newest U.S. H-bombs, Eisenhower said, are only about 4 per cent dirty as compared with 100 per cent a few years ago.

★ ★ ★

Clean Bomb Is U. S. Goal, Ike Declares

WASHINGTON (AP) — President Eisenhower said today the policy of his administration is to have cleaner nuclear bombs.

Eisenhower told his news conference that 40 per cent of the efforts in forthcoming Pacific tests will be devoted toward eliminating as much as possible of the fallout from smaller nuclear weapons.

The President made his observation about American policy in response to a request for comment on a recent statement by Sen. Anderson (D-NM) that the United States is making some of its bombs dirtier while it talks publicly of producing clean weapons.

Eisenhower said that so far as he knows no military officer ever suggested making bombs dirtier.

The whole policy, he said, is to have cleaner bombs — ones that do not deal out such horrible mass destruction.

Eisenhower said the proportion of fallout from nuclear weapons depends at this time largely on the size of those weapons. He pointed out that it is inverse to the size.

Eisenhower said the big hydrogen bomb can be produced so that it has only about 4 per cent fallout.

On the other hand, the President said, the fallout from very small bombs is about 100 per cent.

Some of the forthcoming tests, Eisenhower indicated are being directed toward cleaning up these smaller weapons so they can be used for tactical purposes.

ASSAILS LABOR UNIONS—Theodore R. Iserman, New York attorney, addresses the annual meeting of the U. S. Chamber of Commerce in Washington in a speech assailing labor unions. Iserman, a specialist in labor-management relations, termed growing labor union power "a more immediate threat to our way of life than the military might of Soviet Russia." (AP Wirephoto)

Bail Bond License Law Held Invalid

AUSTIN (AP)—The state Supreme Court held today that the bail bond license law passed by the recent 55th Legislature was unconstitutional.

The ruling came in a direct appeal from a Dallas District Court of a suit filed against Dallas County Sheriff Bill Decker.

Tom Smith, a Dallas bail bondsman, and a group of other bondsmen asked for an injunction against Decker because he refused to release Howard Blodgett, indicted on a narcotics charge, on a $1,500 appearance bond. Decker said Smith and the other bondsmen could not legally be accepted because they had not been licensed according to the new state law. Smith and the bondsmen admitted they were not licensed but contended that the new law was unconstitutional.

The Supreme Court said today that provisions of the law making it applicable only to cities of 73,000 to 100,000 and of more than 350,000 made it apply only to special groups and individuals and as such was unconstitutional.

Nation's Traffic Toll Shows Decline

CHICAGO (AP) — The nation's traffic death toll for the first quarter of this year was 7,730, a decrease of 6 per cent compared to 8,250 in the first three months in 1957.

The National Safety Council said the 2,630 traffic deaths in March was nine per cent lower than in March last year and the lowest for March since 1955.

Twenty-nine states reported a decrease in deaths in the first three months this year compared to the first quarter of 1957, 17 had increases and one reported no change.

Nehru Urged To Take A Holiday

NEW DELHI (AP)—Leaders of India's ruling Congress party drafted a resolution today urging Prime Minister Nehru to take a holiday but remain as head of the government.

The party postponed an emergency session to consider Nehru's request that he be allowed to retire from office at least temporarily to take a rest.

Nehru repeated the statement at today's Cabinet meeting.

The 68-year-old Prime Minister has led India continuously in its first 10 years of independence.

Pappy's Bus Ready For New Campaign

DALLAS (AP)—Only a little polishing will be needed to get W. Lee O'Daniel's campaign bus back on the political trails.

The bus has been standing for a year and a half on a parking lot in Dallas. It still has "Austin" written on the front in the place which shows a bus' destination.

On the sides are painted the veteran campaigner's creed and motto. He announced as a candidate for governor yesterday.

Boy, 16, Has Both Legs Amputated

BOSTON, Mass. (AP) — Surgeons today amputated both legs of a 16-year-old Taunton boy who was burned when he contacted a 13,000-volt wire as he climbed a tower near his Taunton home on a dare.

The condition of the boy, Edward Masterson, was reported as fair after the operation.

Chemist Kills Wife, Self As Son Watches

DOYLESTOWN, Pa. (AP)—An internationally known research chemist killed his wife with a shotgun at their Bucks County home Tuesday night before the eyes of their terror stricken 12-year-old son.

Then, as the youngster ran screaming from the house, Dr. Earl W. Flosdorf sat down before a fireplace in his den and committed suicide with the same weapon.

Dr. Flosdorf, 54, was the inventor of a method for the freeze-drying of human blood for plasma, and of a method for making powdered bone for treating bone fractures.

Police said the shooting apparently was the climax of a quarrel between Dr. Flosdorf and his wife, Esther, 50. Police said the couple apparently had been drinking.

Mrs. Flosdorf was shot as she stood in a hallway near the front door, preparing to leave the century-old farmhouse.

Clarence Irwin, chief of Bucks County detectives, said Mrs. Flosdorf died instantly.

Her son, William, ran through pouring rain to the home of a neighbor who summoned police.

Nixon Is In Buenos Aires

BUENOS AIRES, Argentina (AP) —Vice president Nixon arrived by air today to attend the inauguration of Arturo Frondizi as president.

The vice president and his wife, Pat, came to Buenos Aires after a two-day visit in Montevideo, Uruguay, on the first leg of an 18-day goodwill tour of eight Latin American countries.

They were met at the airport by Rear Adm. Isaac Rojas, Argentina's provisional vice president since dictator Juan Peron was overthrown in 1955. U.S. Ambassador Willard Beaulac also greeted them.

Nixon said he looked forward to Frondizi's inauguration Thursday. He extended greetings to Argentines from President Eisenhower.

4 Applicants Interviewed

The Snyder school board, in a special meeting last night, interviewed four applicants for the post of superintendent of schools.

Four more will be interviewed by the board Thursday night.

The eight men were chosen for interview from the first 86 applications, which were screened by a committee of the board. Other applications are still being made.

The board has expressed a desire to name a superintendent in time for him to spend some time in the school system before the end of this school year.

Applications for the position are coming in from all over Texas, as well as a number of other states.

Parr Wins Another Victory

AUSTIN (AP)—The State Supreme Court returned a decision today which gave George Parr, South Texas politico, another victory in his legal battle to become sheriff of Duval County.

Chief Justice J. E. Hickman wrote the opinion which upheld an appellate court's decision ordering a new trial of Parr's suit seeking to be declared winner of the November 1956 election.

Parr was elected sheriff but county officers refused to issue his certificate of election on grounds Parr owes the county money. J. P. Stockwell, who ran second to Parr in the election, was installed in January 1957.

The original suit was brought against County Judge Daniel Tobin and other Duval County officials who has refused to certify Parr and two others as winners. They were Amando Garcia Jr., who claimed election as county clerk, and Felipe Valerio Jr., as county commissioner.

The Constitution provides that no one may become a public officer who had collected taxes or was otherwise entrusted with public money until he obtains a discharge from this responsibility.

"The Court of Civil Appeals reversed the trial court's judgment on the ground that the constitutional provision presupposes that there has been a prior judicial determination of the entrustment of public money and a failure to obtain a discharge," Hickman wrote. "We do not agree with the ground upon which the Court of Civil Appeals based its decision."

Hickman said in order to render judgment against Parr and Garcia it has to be determined that public money was entrusted with them and they had not been discharged.

The motion for summary judgment for Parr was based on several grounds, one that the Texas State Bank of Alice was the depository of the funds of Duval County and the Benavides School District and that Parr was a stockholder, director and officer of the bank. The court said the charge was that Parr took money from the bank, charged it to the county and the school district and applied it in a manner not permitted by law.

Hickman wrote that the checks were not properly identified and even if they were this "would not establish that Parr was in default with money entrusted to him by the county and the school district."

The summary judgment cannot be sustained on the ground of Parr's dealings with the bank, however wrongful they may have been," declared the Supreme Court's opinion.

Hickman said the case had only been tried on the motions for summary judgment and not on the merits.

Ford Executive Regards GM Move As 'Sound Approach'

By DWIGHT PITKIN

DETROIT (AP)—Ford Motor Co. Vice President John S. Bugas said today he considered General Motors Corp.'s contract cancellation notice to the United Auto Workers Union a very sound approach toward reaching a prompt settlement of labor contracts in the auto industry.

Bugas, Ford's top negotiator, made the comment to newsmen before resuming negotiations with the UAW today.

The heat was off Ford as a result of GM's action yesterday in virtually challenging the union to strike when the contract expires at midnight May 29.

Obviously pleased with the challenge, Bugas said "it is very sound negotiating procedure in the circumstances in which we find ourselves."

"It would be folly," he said, "for the parties to anticipate or contemplate another three to three and a half months instability in this period."

Bugas said it was difficult to understand why UAW President Walter P. Reuther earlier this week proposed an extension of auto contracts during the summer months except for a technical reason.

Bugas said: "The parties should strive to arrive at an agreement by the expiration date. Given a reasonable approach there is no reason why we can not do so unless there is some ulterior objective."

Bargaining talks in the industry moved toward May 29-June 1 deadlines as the union charged it saw signs of collaboration between the Big Three in dealing with the union.

Before General Motors Corp. served a showdown notice on the union yesterday, speculation had centered on Ford as the union's likely target in the auto industry in 1958 negotiations. Ford was the target in 1955.

GM took the initiative in giving the union 30-day notice that the current three-year contract will end at midnight May 29. GM virtually invited the union to make the world's biggest manufacturing firm its target rather than Ford or Chrysler, whose contracts expire three days later.

GM took an unprecedented step. In previous negotiations it has waited for the union to serve termination notice.

UAW Vice President Leonard Woodcock, in charge of the union's GM Department, told newsmen the union "will not be maneuvered into a strike, particularly at a time hand-picked by the company."

Neither the company nor the union would speculate on what happens at midnight May 29.

In the absence of a contract, the union could call a strike or the company could close its plants in a legal lockout. Neither is likely to happen. Operations could continue by mutual agreement on a day-to-day basis.

PACKING FOR TRIP—The biggest problem faced so far by the Snyder High School band and choir members who are preparing for their trip to Corpus Christi's Buccaneer music festival is space. The limited space is in their luggage, because two students must share one piece of luggage. Adaleen Soles, left, and Linda Ramsey, band majorettes, find that eight cancans leave no room for any other clothing in their suit case. The festival starts Friday and will end Saturday. The 160 Snyder students will leave early tomorrow for the trip. (Lee Watson photograph)

Band, Choir Leave Thursday For Corpus Christi Festival

Members of the Snyder High School concert band and a capella choir will leave early tomorrow for Corpus Christi, where they will participate Friday and Saturday in the Annual Bucanner Music Festival.

Making the trip will be 110 members of the band, directed by Melvin Montgomery, and 50 members of the choir, directed by Bob Clinton. Accompanying the students will be those two plus Phil Cherry, assistant high school band director Tim Dennis, junior high band director; Betty Stewart, West Elementary public school music teacher who will serve as piano accompanist for choral groups; Mrs Henry Burchett, Mrs. Hardy Scarborough, Mr. and Mrs. Myron Roe, Mr. ad Mrs. D. R Scott, Mr. ad Mrs. Bob Crowell, and Mr. and Mrs. Lyle Deffebach.

The 160 students and the adults will all go to Corpus Christi on four chartered buses. Since they must all load on the four buses, along with equipment, uniforms, and baggage, the students must travel light. Only one suitcase for each two students is to be used.

The group will spend most of the day tomorrow traveling. They will compete in the festival on Friday and Saturday, and they will return here Sunday, arriving in Snyder Sunday night.

At Corpus Christi, they will almost fill four motels, which are on the beach of the Gulf of Mexico.

The bulk of the money to be used to finance the trip was raised by the students themselves through magazine subscription sales and the spring music review.

The trip was scheduled for its educational value, so students could compete with outstanding groups and be judged by outstanding musicians, and it is also designed as a reward to the students for their accomplishments of the year.

The students' competition will be finished by noon Saturday, and they will spend Saturday afternoon at Padre Island.

The festival is a part of the Buccaneer Days celebration at Corpus Christi, which is already underway and is sponsored jointly by Del Mar College, where it will be held; the Chamber of Commerce, and the Buccaneer Days committee.

The largest in Texas, the festival draws outstanding instrumental and choral groups from Texas, Louisiana, and Oklahoma. Like the Tri-State Band Festival in Oklahoma, which the Snyder band attended a few years ago, the Corpus Christi festival has very high standards, and only the better bands and choirs enter. The festival is rated on a basis similar to that of the Texas Interscholastic League, with superior groups receiving Division I ratings for various areas of competition.

The festival has 61 bands and 30 choirs entered.

There are more bands in Snyder class Class 3-A than any other in the festival, with 17. In choral competition, there are nine Class 3-A choirs. In each class, an outstanding band and an outstanding choir will receive a trophy. These trophies are kept for a year. Any group winning one of the trophies three years in a row can keep it permanently.

A grand sweepstakes trophy will be awarded the school compiling the most points in both band and choral competition in the festival.

In addition to the band and choir as groups, Snyder High School will enter a number of students in solo and ensemble contests in the festival. Those to be entered include only students who received Division I ratings in Interscholastic League competition. The band will enter some 35 students in solo and ensemble contests, the choir about two soloists and two ensembles.

Judges of instrumental solo and ensemble contests wil be members of the Chicago Symphony Orchestra woodwind quintet. Judge for band competition will be Mark Hindsley of the University of Illinois. Clarence Sawhill of the University of California, Fred Ebbs of the University of Iowa, and Emmett Sarig of the University of Wisconsin, all directors of bands at those universities.

Vocal judges will be George Howerton of Northwestern University Charles Hirt of the University of Southern California, Alvin C. Voran of Centenary College, and Lloyd Herren of Fort Hays State College, all choral directors.

BIRTHS

Mr. and Mrs. Douglas Vineyard, Route 2, Hermleigh, are parents of an eight-pound, two-ounce daughter, born at 7:30 a.m. yesterday in Snyder Clinic-Hospital.

A six-pound, six ounce daughter was born at 2:19 a.m. yesterday in Cogdell Memorial Hospital to Mr. and Mrs. Charles Midgley, 2302 Fortieth Street.

Born to Mr. and Mrs. Eugene Chisom, 906 Twenty-ninth Street, was a daughter weighing five pounds, 14 ounces at 9:50 p.m. yesterday in Cogdell Hospital.

Surge In Outdoor Work Hikes Jobs

By JOHN H. AVERILL

WASHINGTON (AP) — A spring increase in outdoor work has brought a surge in employment and a slight drop in joblessness — but no letup in demands for government anti-recession action.

Releasing its figures 10 days earlier than usual, the Commerce Department said unemployment dropped 78,000 during April — the first decline since last October but far short of the normal 300,000 to 350,000 decline from March to April.

The report was issued as the House prepared to debate a bill for extension of jobless benefits.

Along with the April jobless total of 5,120,000, the department reported an increase of 596,000 in employment to a new total of 62,907,000 persons working. Secretary of Commerce Weeks said nearly all the gain in employment resulted from the usual spring pickup in agriculture and other outdoor activities.

Paradoxically, although unemployment declined, the report said the percentage of jobless persons increased from 7 per cent in March to 7½ per cent in April on a seasonally adjusted basis, which takes into account a number of statistical factors.

AFL-CIO President George Meany, referring especially to the less than normal drop in unemployment, said the report proves the recession continues to worsen.

Meany, calling anew for prompt anti-recession legislation, said: "Immediate action to improve and extend unemployment compensation and to cut taxes on low and middle income individuals is essential if America is to be put back to work."

In a similar vein, the Democratic Advisory Council urged a tax cut of more than three billion dollars in lower income brackets, plus new billions in public spending and a further drop in interest rates.

The 24-member council accused the Eisenhower administration of inaction and said, "The well-being of the American people is now at stake."

Sen. Humphrey (D-Minn) likewise said the administration has not put sufficient government weight behind efforts to fight the recession.

"The latest figures on unemployment confirm that the economic situation has not improved and may very well become more serious," Humphrey said.

Sen. Mansfield of Montana, assistant Democratic leader, said in a separate interview that while the April jobless decline was somewhat encouraging "I don't think it means we are out of the woods."

Actress To End 10-Year Marriage

HOLLYWOOD (AP) — The 10-year marriage of actress Faith Domergue and director Hugo Fregonese is over, her attorney says.

The attorney said 32-year-old Miss Domergue plans to sue for separate maintenance. Fregonese, 50, verified the separation.

Miss Domergue's attorney said the couple had agreed on a property settlement and custody of their children, Dianna, 8, and Jack, 6, who will stay with their mother.

TODAY'S MARKETS

STOCK AVERAGES

Compiled by The Associated Press

	Indust.	Rails	Utils.	60 Stks.
Prev. day	243.7	89.8	79.5	165.8
Week ago	242.5	90.0	79.1	165.2
Month ago	237.5	82.7	77.6	160.1
Year ago	265.5	123.6	75.5	180.9

NEW YORK (AP)—Oil and steel shares paced a higher stock market today after two straight declines.

In the early afternoon, gains of leading issues ranged from fractions to more than a point. Losses were mostly fractional.

Trading was fairly active.

The news picture was a little brighter than in previous sessions. President Eisenhower told his news conference he believes there is evidence the recession is flattening out.

Some brokers said the earnings of General Motors and U.S. Steel, both issued late Tuesday, were better than many in Wall Street expected.

Gulf Oil and Standard Oil New Jersey rose a point or so.

Youngstown Sheet & Tube was up over a point.

Up ½ point or more were U.S. Steel, Bethlehem, Republic Steel, Goodyear, Goodrich, Boeing, Texax Co. and American Airlines.

U.S. government bonds were irregularly higher.

Oil Well Supply Executive Dies

DALLAS (AP)—James Finley, 42, assistant comptroller of the oil well supply division of the U.S. Steel Corp., died yesterday after a brief illness.

He was a native of San Angelo and a graduate of Texas A&M. His widow; two daughters; and mother, Mrs. J. J. Justiss of Claude, Tex.; and a brother, Horace Finley of Knox City, survive. Services will be held here Thursday at 2:30 p.m.

HOSPITAL NOTES

SNYDER HOSPITAL

ADMISSIONS — Mrs. W. H. Hamilton, Fluvanna; Mrs. L. D. Sellars, Post Road; Mrs. Douglas Vineyard, Hermleigh.

DISMISSALS — Elia Rodriguez, Gen. Del.; Mrs. Robert Alvey, Route 2, Box 152; Dianne Foster, Route 3, Box 342; Mrs. E. H. Henderson, Cortez, Colo.; I. J. Richardson, 214½ Thirty-second Street; Charles Anderson, 513 Thirty-fifth Street.

COGDELL MEMORIAL

ADMISSIONS — Edna Mae Bunt Route 2; Bunnel Sanford, 1302 Thirty-fourth Street; Patsy Rayvon, 2020 Eleventh, Street; J. W. W. Patterson, 3111 Avenue V; Nelda Faye Hunt, 2810 Forty-second Street; Bruce Kerley, Route 1; Elizabeth Midgley, 2302 Fortieth Street; Pearl Walker, 125 Milburn; Lorenzo Ramos, Snyder; Jeffrey Greenfield, 3101 Avenue U; Ora Whitehurst, 1812 Avenue E; G. A. Lochabay, 402 Thirty-third Street; Fannie Chisom, 906 Twenty-ninth Street.

DISMISSALS — Hugh Bratton, Big Spring highway; Betty Jenness, Route 1; Ernest Collins, Route 1; Billy Voss, Route 3; Mrs. Tim Dennis and baby, 507 Thirty-second Street; Charles Deere, Box 1333; Rhonda Roemisch, 215 Thirty-fourth Street.

Couple's 15th Child Is First Daughter

JOHNSON CITY, Tenn. (AP) — A newborn girl has caused a sensation in the Emory Harrison household.

She is the first daughter born to the family that gained nationwide publicity when their 14th son was born three years ago this month.

"I'm pleased as punch," Harrison chuckled after the birth Monday night. "And all the boys are pleased too."

He and some of the 13 living sons, who range in age from 3 to 24, operate a nearby farm.

Mother and daughter are reported well at a hospital here.

Soap, Water Best To Nip Bacteria

ATLANTIC CITY, N.J. (AP)—Old fashioned soap and water, a doctor says, are the only "wonder drugs" that can arrest a strain of bacteria becoming increasingly virulent in the face of antibiotics.

Dr. Thomas Shaffer of the Ohio State University College of Medicine suggested this prescription yesterday to combat staphylococcal infections in hospitals.

Physicians have recently shown increasing concern over these infections which often produce dire complications in otherwise routine treatments.

Another physician on the panel which discussed the problem at the American College of Physicians annual meeting here said the hospital infection rate has more than doubled—from two per cent to five per cent—since the introduction of antibiotics.

Dr. Robert Wise, associate professor of medicine at Philadelphia's Jefferson Medical College, said about half the people in any community are carriers of staphylococci.

But he noted that hospital varieties of the bacteria are the most resistant to wonder drugs such as penicillin streptomycin and the tetracyclines.

Suit Against Dana Wynter Is Settled

HERE'S HOW TO PACK A SACK—Just to prove that there's two sides to every story, take a gander at this well-packed sack. Marilyn Monroe proves that a curve's a curve in any style as she shows off one of her new wardrobe additions in a cosy at-home display in New York City. The black crepe dress, set off with a white organdy bow and happily ending at the knee-caps, proves Marilyn's contention that the style "allows you to move, and it moves with you." (AP Wirephoto)

Candidates Spring Forth

By WHITEY SAWYER
The Associated Press

Whether the dogwood blooms, traditional sign of Texas' political season, survived the rain appeared unimportant Wednesday as candidates popped up all over the place.

W. Lee (Pappy) O'Daniel jumped back into politics Tuesday, saying he'd have another try at getting back into the governor's mansion.

Earlier in the day Roy Whittenburg, a member of a prominent Texas Panhandle family, said he was running for the Republican nomination for the U.S. Senate.

Less than 24 hours earlier Sen. Ralph Yarborough halted the guessing game by announcing he wanted to go back to the Washington post he won in a special election last year.

Yarborough's main opponent in the Democratic primary is William Blakley of Dallas, who served as interim senator last year. Blakley was appointed to fill the seat vacated by Price Daniel when he resigned to become governor.

Daniel, who defeated Yarborough in the governorship runoff in 1956, also has announced for reelection. Yarborough earlier was considered a likely opponent.

O'Daniel, colorful orator who stumped his way into the governor's mansion in the '30s with a hillbilly band, was beaten in the first Democratic primary and as a writein candidate in the general election in 1956.

The Dallas insurance and real estate man said he would campaign on three issues, government financing, unemployment and segregation.

Other candidates for governor on the Democratic slate are Alvis Vandygriff of Austin; Joe Irwin of Dallas and Don Booker of Orange.

Whittenburg, an Amarillo rancher and businessman, is the only announced Republican candidate in the race. If successful, he will oppose the Democratic nominee in the Nov. 4 general election.

He criticized the Supreme Court for recent decisions he said usurped powers from the states.

Sen. Lyndon Johnson (D-Tex) said in Washington Tuesday he will keep his hands off the Texas senatorial campaign.

Former Gov. Allan Shivers also declined comment on the race. He defeated Yarborough twice for the governorship and appointed Blakley as interim senator last year.

Antibiotics Side Effects Are Cited

By JOHN A. BARBOUR
AP Science Reporter

ATLANTIC CITY, N.J. (AP) — About 17 million Americans may suffer side effects — sometimes dangerous—from life-saving penicillin and other antibiotics, a drug expert said today.

Perhaps 10 per cent of the nation's population could become sensitive to these drugs, Dr. Henry Welch of the U.S. Food and Drug Administration told a scientific meeting of the American College of Physicians.

In a few cases, he said, use of antiobiotics has brought death to some oversensitive persons.

But generally this sensitive group suffers rashes, blood troubles like anemia, shock, swollen lips or eyes or respiratory tract difficulties.

Doctors, he said, should be aware of a patient's past response to antibiotics wherever possible. Patients who have had some reaction to the drugs should carry cards which specify such troubles.

Antibiotics should not be used indiscriminately to treat minor infections, he said.

His report said 2½ million pounds were produced in the United States in 1956 and 17 different antiobiotics are clinically available.

Penicillin accounts for 960,000 pounds of the total antibiotic production or about 38 per cent.

More people have shown they were sensitive to penicillin than other antibiotics.

Dr. Welch cited a three-year nationwide report involving thousands of antibiotic shots or doses. Some persons—a few more than 1,000—showed severe reactions. Penicillin accounted for 901 of these cases and 83 deaths.

Haskell Jail Escape Hatch Being Patched

HASKELL, Tex. (AP)—Sheriff Bill Pennington welded new steel plates yesterday in a county jail cell which three prisoners had used as a come-and-go escape hatch.

Pennington said the trio left on two occasions to burglarize three Haskell business firms. He said they returned to jail both times but one of the group failed to come back after a third outing.

The sheriff said $82 in cash and some cigarettes were taken in burglaries of two motor car companies and a sandwich shop.

Pennington said he discovered the escape route after James Golden of Bravard, N.C., held on forgery charges, was found missing Monday morning. Golden was rearrested at Stamford, Tex., yesterday.

The sheriff identified the others as Dan Griffin of Stamford and Raymond Stevens of Anson.

Pennington said they got out by removing 54 bolts from a steel plate in the rear of Golden's cell, squeezing down a service passageway containing plumbing and out a door.

Army Offers A New Plan To Seniors

In an effort to offer High School Senior's the best possible advantage of military service, the United States Army is now accepting advance applications for technical schools from Senior's before graduation. Requests for specific technical schooling may be placed with the local Army Recruiting Station withi 90 days of graduation. Graduates who make application for the "Reserved For You" program will receive an official letter from the Adjutant General stating that the graduate has been accepted for the school of his choice.

Graduates have the opportunity of choosing their specific schooling from a list of over 100 technical courses which range from 16 weeks to 42 weeks in duration. Many of these courses have college credit evaluation, and may be transferred to a college upon completion of military service.

M-Sgt Young of the US Army Recruiting Station in Snyder said that "never before has any service guaranteed a graduate that he would receive technical training in the specific course of his choice", and stressed that "the mechanization and rapid advancements of today's technology demand, more than ever before, the use of the Armed Forces of men who have proven their initiative and ability to learn. These are our high school graduates."

He also urged high school grauates and seniors to investigate these schools as soon as possible in order to take advantage of the wide selection now offered, since only a limited number of openings are available for each school and certain schools may, in time, become filled.

Industrial Panel Maps Year's Work

Discussions on possible methods of promoting industrial growth here were included in the first meeting of the 1958 work year for the Chamber of Commerce industrial committee yesterday.

The committee, headed by Fred Auforth, discussed ways to make those who are prospects for locating industries here more aware of the advantages here, including natural resources available, help given by the industrial foundation, and other information.

A new industrial brochure which is being prepared by the Scurry County Industrial Foundation is almost complete, and a labor survey was recently finished by the Texas Employment Commission. That information, along with information on the community at large, will be available for distribution to prospective industries.

The committee also discussed services available on natural resource studies from the Bureau of Economic Geology of the University of Texas, and the panel will investigate what service is available through that bureau.

Also, the committee discussed various methods of publicizing Snyder and the county and their industrial opportunities, stressing the need for a more aggressive campaign.

The committee will follow up on these discussions and hear reports on some investigations made by various committee members at its next meeting, which will be held on May 13.

Well Depth At 21,687

FORT STOCKTON, Tex. (AP)—The Texas deep well drilling championship was claimed yesterday in a wildcat test which reached a depth of 21,687 feet 13 miles east of here.

Phillips' No. 1-EE University reached a little more than four miles in a side-tracked hole to break the old state record. There were no indications of commercial oil or gas production at the 4-mile depth level. But the test logged shows of gas production between 8,118-11,715-feet.

Tentatively scheduled to go 23,000 feet, the Phillips well could set a new world's depth record, now held by Richardson Bass and others as a Louisiana Marshlands 22,570-foot test.

The Phillips well also represents the deepest whip-stock operation ever attempted in Texas.

The wildcat is one of three deep Phillips tests in central Pecos County of West Texas.

A good "footing" is a must for any costume. Your whole ensemble fails apart if shoes are dirty or down-at-heel.

Motorists Dodging Frisco Utility Poles

SAN FRANCISCO (AP)—Motorists aren't running into utility poles here at the usual rate.

"Last year at this time our light poles had about $27,000 in damage from autos," says City Light Bureau Manager B. A. Devine.

"This year the figure is only $13,000."

A utility company spokesman jested:

OUR VIEW

Bringing Up Children

The art of bringing up children is much in debate these days, and the Houston Police Dept. has chipped in with some advice.

The Houston police are not trying to tell parents how to rear their children in this piece, but they do present a sure-fire formula for success, if you want to raise juvenile delinquents.

Here's the recipe:

Begin in infancy to give your child everything he wants. He will grow up to believe the world owes him a living. Laugh at him when he picks up "dirty" words. These will make him think he's cute. Don't give him spiritual training before he's 21, so that he can make up his own mind.

Praise him in his presence to the neighbors and show how much smarter he is than the neighbor's children. Never use the word "wrong." It may develop in him a guilt complex. He will be prepared later on to believe when he is punished that society is against him and that he is being persecuted.

Pick up after him and do everything for him, so that he will be experienced in letting someone else carry all of his responsibilities. Have no concern for what goes into his mind. Let him read everything.

Quarrel frequently in the presence of your child. Give him all the spending money he wants. Never let him earn his own.

Take his part against policemen, teachers and neighbors. They are prejudiced against your child. Let him eat and drink anything he wants, whenever he wants it. When he gets into real trouble, defend yourself and say, "I never could do anything with him."

Of course this doesn't apply to you and me, but now you take that kid next door—that's exactly what his folks need to read.

Foot Trouble Is A Major Problem

By HAL BOYLE

NEW YORK (AP)—You may think there's something wrong with your neighbor's head but the chances are much greater there's something wrong with his feet.

"Nine out of 10 American adults have foot trouble, but most don't do anything about it," said Dr. Joseph Lelyveld of Rockland, Mass.

"And American children have more foot defects now than a generation ago.

"Today 85 per cent of our girls and 65 per cent of our boys have foot defects by the time they leave high schools."

This disturbs Lelyveld, a podiatrist renowned as the founder of the National Foot Health Council and inventor of the phrase athlete's foot.

"All but about 15 per cent of adult foot defects are unnecessary," he observed. "They could have been prevented in childhood."

Lelyveld, who helped design shoes for the Dionne quintuplets and has advised European royalty on pedal problems, has a mind full of odd historical footnotes.

"Napoleon had bad feet," he said. "Hitler had such terrible feet some psychiatrists think they may have been a factor behind some of his atrocities.

"Abraham Lincoln had trouble with his feet—they were flat and distorted. He had his own foot doctor and custom-made shoes. Woodrow Wilson wore custom-made shoes, too."

Contrary to popular opinion, policement and postmen don't suffer most from foot troubles.

"They know how important their feet are to them, so they take better care of them," said Lelyveld. "Occupationally speaking, barbers and housewives have the worst feet.

"Housewives have a bad habit of running about the house barefoot, or doing their chores in run-over old dress shoes.

"For housework she should wear a stout laced oxford with a heel not above 1½ inches high. School children should wear fewer sneaker or moccasin type footwear. The indians did wear moccasins—but they didn't walk on concrete.

"Loafers are all right for a man—if he's really sitting down loafing. But they aren't suitable if he's doing heavy work around the house."

Lelyveld believes most of man's foot trouble stems from improper care of the feet, lack of exercise, and man's erect posture.

"He has never really got used to standing upright," he said. "The older we get the smaller our blood vessels get and the poorer our circulation.

"The tired businessman would feel better if he walked three to five miles a day.

"But he should wear sturdy leather shoes, and he should wear socks at least half an inch longer than his longest toe—not stretch socks, which cramp his feet. I wear mercerized socks with white soles myself because they absorb perspiration better."

What if your feet get tired, doc?

"No matter what your boss thinks," Lelyveld said firmly, "the best way to rest your feet is to put them on a desk for 4 or 10 minutes."

Chemical Industry Pushing Research

By SAM DAWSON

NEW YORK (AP) — New products are the life blood of the chemical industry, and so it is maintaining its spending on research at around 500 million dollars this year.

The 23 billion dollar a year industry has been taking its lumps from the recession along with the rest. Of 30 companies (excluding drugs) reporting so far, all but two show declines in first-quarter profits from the early 1957 figures. The combined statements are off 30 per cent.

But the industry boasts there have been no layoffs so far in research and fewer in production than the average for all industry.

The drug makers have been able to show gains in sales and profits this year over last.

Confidence in finding new wonders and exploiting present ones is a reason that the chemical industry will spend about 2½ billion dollars on new production facilities in 1958 and 1959.

A joint Commerce Department and Securities and Exchange Commission survey foreshadows a 13 per cent drop this year in plant and equipment outlays in all industries. But in contrast to nonferrous metals expansion plans, which are off 40 per cent from last year, chemical industry projects are down only 6 per cent.

A number of individual chemical firms plan no reduction at all. Chemical expansion spending last year was 18 per cent higher than in 1956.

Chemical construction will be heaviest in the south central and south Atlantic states, but is well spread across the nation.

The trade publication Chemical Week says 84 per cent of the firms it polled plan to increase research spending this year and next and 72 per cent will increase the size of their research staff.

Among projects in which they expect new strides are semiconductor metals including silicon; special metals such as niobium and tantulum; high energy fuels; new synthetic fibers and films; new plastics, pharmaceuticals, petro-chemicals and synthetic rubber, including the synthetic natural rubber.

Much of the chemical industry's confidence is based on its growth record in the last 20 years. Since 1938 production of chemicals has increased 400 per cent and dollar output 600 per cent. New products have climbed into the thousands.

Plastic production is up 3,000 per cent in 20 years. Ethical drug sales, now at 1¾ billion dollars a year, are up 1,000 per cent.

The more than 1,000 companies in the fiercely competitive pharmaceutical field expect to spend about 125 million dollars this years on research — almost as much as their total sales 20 years ago. Last year they introduced 400 new products. The 1957 increase in drug production was 15 per cent over 1956, and profits were up 18 per cent.

There has been some slowing down in the first months of this year. All but three of the first 18 to report show gains in profits over the first quarter of 1957, but the combined increase is only 1 per cent.

Caller Gives News, But It's Old Stuff

DALLAS (AP)—T. J. Sloggett was standing in his auto company office yesterday when the telephone rang during a violent thunderstorm.

"Your roof is blowing off," exclaimed an excited voice.

"Yes, thanks, I know," Sloggett replied. He was dripping from head to foot and standing in about three feet of water.

Leader In Noted Rescue Try Dies

PASADENA, Calif. (AP) — Just nine years ago one of the world's most heartbreaking rescue attempts failed to save the life of Kathy Fiscus, 3.

When the child's body at last was being hoisted from the 94-foot well into which she had fallen, rescue worker Bill Yancey spoke the final words of the grueling, 49-hour underground fight: "Easy, men; keep it coming up gently."

Moments later Yancey emerged from the hole, the body of little Kathy in his arms.

Yancey died yesterday, much in the same manner — underground, and barely a mile from the Fiscus tragedy. Three others associated with Kathy's accident have died violently.

Yancey, 47-year-old contractor, went into an eight-foot sewer ditch with the same disregard for danger that he displayed when he toiled two days below ground trying to save Kathy. A man had been sent for timbers to shore the ditch, but Yancey didn't wait.

"He said he'd be all right and jumped down," related coworker Ted Slade. "I started to move some equipment . . . and when I looked around the earth had caved in and Bill was buried."

Others dug desperately to uncover Yancey's head. Firemen administered oxygen. But Yancey was dead, his chest crushed.

On April 8, 1949, Kathy Fiscus tumbled into the 14-inch casing of an abandoned well.

Hour after hour people all over the world waited tensely for every detail of the struggle to sink a parallel casing and tunnel across to the trapped child.

When the shaft was completed Yancey was the first man down. He dug by hand in the tunnel across to the old well pipe. He and a doctor found Kathy dead. And Yancey was the last man out. He got a hero's medal.

Tragedy has followed other Fiscus rescue workers. One was hurt in an auto explosion the same year. Another died in a 1949 construction accident. The wife of a third was murdered, in 1953.

And, in 1952, the wife of the rescue's director, Mrs. Raymond Hill, was killed in a traffic accident — just one block from the spot where Yancey died.

Oklahoma Allowable Virtually Unchanged

OKLAHOMA CITY (AP) — Oklahoma's crude production allowable for May was kept at about the same level as April after a market demand hearing in which no demands were issued for change.

The Corporation Commission maintained the same formula with production expected to be about 515,000 barrels daily. This month's allowable is 511,000 per day.

New wells accounted for most of the increase.

Purchasers nominated 513,750 barrels per day compared with 567,000 a month ago. The U.S. Bureau of Mines forecast a demand of 540,000 barrels.

Brunch Will Honor Judges Of Twilight Garden Club Show

Mrs. W. D. Sims has announced a brunch to be served for the flower show judges from Midland and Big Spring, who will judge the "Twilight Garden Club Show Thursday.

The brunch will be at the Martha Ann Woman's Club at 10:30 a.m. May 1, and will be attended by the hostesses, the judges and awards committee, and members of the judge's clerks committee and members who have made reservations.

There will be two panels of three judges, each to judge the two division show. Two of these judges are accredited National Judges, and the others are student judges.

The duties of the judges begin at 12 o'clock, at which time the classifications and entries committee will have closed the doors to exhibitors. Judging is to be completed by 3 p.m. and the show will be open to the public until 8 p.m.

In conjunction with the flower show the club will have a county fair booth, headed by a committee composed of Mrs Bill Byers, Mrs. G. R. Taylor, Miss Ethel Roberts and Mrs. Dillard Pope. Such items as home canned goods, home baked goods, aprons, pot plants, aprons, crocheted items and etc., will be available to the public.

Hermleigh Pep-Squad Leaders For 58-59 Named

The Hermleigh school has elected their leaders of the pepsquad for 1958-59.

The majorettes are Judy Spykes, Nelda Smith, Jayne Gannaway and Darlene Wemken. Miss Spykes is head majorette.

Cheerleaders include Jean Etheredge, Kay Glass, Linda Darden and Nita Corley, with Miss Etheredge as head cheerleader.

Flagbearers are Connie Craft and Patricia Lofton. Drummers are Della Davis, Carolyn Clift, and Ramona May.

The class representatives are: Judy Etheredge, freshman; Mariann Reeves, sophomore; Sadie Hillis, junior and Carolyn Stuckey, senior. The mascot is Debbie Vicary, daughter of Mr. and Mrs. George T. Vicary.

NEWS FROM CUTHBERT

By JULIA GUNN

Mrs. Victor Moitoret (nee Rowena Autry) and son, arrived by plane from Washington D. C. Tuesday for a visit with her father, B. L. Autry and sister, Mrs. Travis Payne and other relatives here.

Mrs. Dutvh Doss was hostess for a pink and blue shower honoring Mrs. Weldon McCollum (nee Joan Hays) of Kermit, Saturday evening.

Mr. Ace Hodges of Seminole is visiting his daughter, Mrs. M. C. Dunn and Mr. Dunn this week.

Mr. and Mrs. J. H. Fuller of Big Spring visited his mother, Mrs. Lonie Fuller and Dalton, Sunday.

Mr. R. N. Flowers was admitted to Root Memorial Hospital Tuesday, as a medical patient.

Julia Gunn spent the weekend with her daughter, Mrs Perry Mathis and family in Big Spring.

Mr. and Mrs. Weldon McCollum of Kermit spent the weekend in the home of Mrs. McCollum's parents, Mr. and Mrs. Earl Hays.

Mrs. Bennie Black and Mrs. R. E. MacMillan made a business trip to Big Spring Monday.

"PIONEER DAYS" was the title of the program presented by Mrs. R. L. Terry to the Women's Culture Club Tuesday at the Martha Ann Women's Club. Pictured above are ladies on the program who related very interesting stories of Scurry County. From left to right are: Mrs. Lee Stone, Mrs. R. L. Terry and Mrs. E. W. McLeod. (Lee Watson photograph)

Eggs A Good Buy

According to the home economists egg prices usually hit a low in the spring. Eggs are graded by size and weight and at this time of year many large eggs come to the market. Medium sized eggs run cheaper by the dozen, but the larger eggs will be the best buy this month. You will get more food value for your money.

COOPERATIVE HOUSEKEEPING

Polishing silverware, mending, painting, refinishing furniture, sewing — these are jobs your neighbor have too. Maybe they put them off, just like you do. "Why not do them together?" Be the first in your neighborhood to revive the old time custom of the quilting bee. You'll keep informed about your community too, without feeling that you've wasted time.

Remote Control

Arousing great interest among the nervous cooks this year is the new push button remote control gas range. Three of the top burners have push button settings for seven different temperatures of heat. The fourth burner features an automatic top burner heat control with a timer. The remote control unit is small enough to be carried in a pocket. The burners can be turned off from the patio, or other rooms in the house.

Sorority Holds Founders Day Meet, Tuesday

The Iota Psi Chapter of Epsilon Sigma Alpha Sorority held their formal Founder's Day Dinner Tuesday evening at the Village. Mrs. Faydean Hart was hostess.

The tables were arranged in a square around a large May pole, highlighted with pastel streamers attached to the place cards with miniature jonquils.

Preceeding the dinner the President, Mrs. LaVerta Lovell, conducted the jewel pin ceremony, with Mrs. Marlene Stokes and Mrs. Shirley Drum, receiving their jewel pins.

The Founder's Day program was presented by Mrs. Margaret Wood, educational director, and Mrs. Mary Pitner, program chairman.

The Sorority organized May 1, 1929 in Jacksonville, Tex., now has 35,000 members with chapters throughout the United States and in Holland, England, Japan, Denmark and other countries.

Near Loveland, Colo., where the Sorority has its International offices, is the organization's dude ranch for its members and their families and guests.

In completeing the evenings activities, new officers were installed, they were: Mrs. Anita Payne, president; Mrs. Margaret Wood, vice president; Mrs. Shirley Drum, secretary; Mrs. Avanelle Corbell, treasurer; Mrs. Jean Everett historian and Mrs. Anna Stephens, parliamentarian.

Those present for the meeting were: Mrs. Jenelle Beasley, Mrs. Shirley Bowers, Mrs. Margaret Drum, Mrs. Maxine Lipscomb, Mrs. Mary Pitner, Mrs. Sally Attnip, Mrs. Doris Rollins, Mrs. Stokes, Mrs. Wood, Mrs. Shirley Drum, Mrs. Payne, Mrs. Lovell, Mrs. Corbell and the hostess.

WHAT'S GOING ON

MR. AND MRS. ROY HARRISON, 2404 Avenue N, were to leave today for a one-month vacation to Tennessee, Virginia, and Washington, D. C.

WOMEN'S CALENDAR

WEDNESDAY

Snyder Book Review Club meets at 3 p.m. at the Martha Ann Clubhouse Mrs. Herbert Emery of Dallas, guest reviewer.

THURSDAY

Murphy Home Demonstration Club meets at 2 p.m. with Mrs. Olen Horn, Knapp.

Abilene Presbyterian Society meets at the Abilene Central Presbyterian Church at 9 a.m.

Snyder Twilight Garden Club presents first annual Flower Show at the Martha Ann Woman's Club. Public invited from 3 to 8 p.m.

Twentieth Century Club will hold their May Breakfast at the home of Mrs. Charles Tyer, Texas-New Mexico Camp 8:30 a.m.

Suburban Study Club meets with Mrs. Hazel Riley as hostess.

St. Elizabeth's Altar Society meets at the church at 7:30 p.m.

The Gamma Upsilon Chapter of Upsilon Sigma Alpha will meet in the home of Mrs. Gene Thompson, 3115 Avenue T, at 7:30 p.m.

The ladies Auxiliary to the Fire Department will host a 42 party at 7:30 p.m. at the main fire station. All firemen and their wives are urged to attend.

FIRDAY

The Altrurian Club will met at 3 p. m. at the Martha Ann Clubhouse with a program on 'Patterns in current literature'. Mrs. John R. Williams is hostess.

Snyder United Council of Church Women will observe May Fellowship Day at the Trinity Methodist Church, 10 a.m. Mrs. Walter Lentz, program chairman. Each member is to bring a covered dish for the luncheon.

Ladies Duplicate Bridge, 9:30 a.m. Country Club.

Snyder Women Attend Meet In Fort Worth

Four Snyder women attended the 30th Annual Meeting of Texas Garden Clubs held in Fort Worth last week. They were Mrs. W. R. Bell, Sr., Mrs. Bill Davidson, Mrs. Gene Best and Mrs. Richard Brice, all members of the local Snyder Garden Club.

Highlights of the three day affair was a demonstration and lecture, stressing color, by Mrs. Inez Hamilton. Landscaping architecture was by Mr. Gene Schricked of Arlington. Horticulture, "Our Heritage" was presented by Mr. Robert Rucker of Lubbock.

Tours were made of homes and gardens of Mrs. Kay Kimbell and Mrs. Robert Windfohr.

The ladies also attended a tea held at the Ridglea Country Club for members and guests.

A post-convention tour of the Douglas Chandler Garden in Weatherford was also made.

City Council P-TA To Meet Thursday

The City Council Parent-Teachers Association will meet in the Administration building Thursday at 1:30 p.m.

Annual and Spring Conference reports will be given. Final plans will be studied for the installation of the new officers.

Griddle Cakes

Beat three egg whites until they hold peaks but are not dry. Beat the three egg yolks until they are the color of lemons. Then stir in ¼ teaspoon salt, ¼ cup flour and ¾ cup cottage cheese. Fold in the beaten whites. Place a lightly greased griddle over the automatic top burner heat control on your range and set the dial at 375 degrees. Place a tablespoon full of batter on the griddle for each griddle cake. Cook about one minute on each side. Serve with maple or fruit syrup. This recipe makes 16 small pancakes or 4-5 servings.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THE HOME FIELD in virtually every sport is an advantage but it hasn't worked that way for the Tiger baseballers this spring.

The Tiger road record this season is far and away better than their home showing.

Of the 10 games the Tigers have won this season, eight of them were won away from home.

To date, the Tigers sport an 8-4 record on the road and only a 2-7 mark at home.

The two Tiger home victories have been over Plainview (6-4 and Rotan (6-3). And only one of those was won on the Towle Park diamond, the usual home field for the Tigers.

The Rotan game had to be played on the Tiger practice diamond because the Towle Park field was too wet that day.

It's difficult to explain why the Tigers have enjoyed such success on the road when they can't even hardly buy a victory at home.

Speaking along this line, the Tigers won three out-of-four from San Angelo at San Angelo but lost their only start against the Bobcats here. Three other games with the Bobcats were scheduled here but were rained out.

Third Trip For Rex

Although Rex Wilson is making his second trip to the state meet this weekend as a Tiger, this will actually be Rexs third trip to the big show.

Rex transferred to Snyder after completing his sophomore season at Marfa.

At Marfa, Bud went to the state meet in 1956.

Wilson is putting on a strong finish this spring and we have high hopes that he'll win a blue ribbon in the state meet for the first time. Rex turned in a 14.3 at the Red Raider Relays last week which is just .1 of a second off the state's best time of 14.2 run by Graham's Bobby Bernard.

Wilson, Bernard and Bob Swafford of Abilene, we feel sure, will run 1-2-3 in the state meet not necessarily in that order although we hope it's Rex in the No. 1 spot, of course.

O'Malley Strikes 'Gold Mine'

It may take a while for the Walter O'Malley, owner of the Los Angeles Dodgers, to get out of the "red" but they way the turnstiles have been clicking in the LA home games to date, it won't take long.

The Dodgers, in their first nine games, drew one-third of the total the Bums drew all last year in Brooklyn.

Los Angeles, in fact, is averaging more per game this season so far than Ebbetts Field, home of the Dodgers while in Brooklyn holds.

The Dodgers, in their first nine games, averaged 41,000 fans plus while Ebbetts Field will only handle 35,000.

Yep, it looks like O'Malley has struck a gold mine in moving his team to Los Angeles.

GET ON YOUR MARK, GET SET . . . —The two Tigers who will compete in the state track and field meet this weekend at Austin are shown brushing up on their "starts" in a workout yesterday afternoon. Coach Jim Stehley is serving as the starter. The two Tigers are Bud Morgan, left, and Rex Wilson. Both will compete in the hurdle events at Austin. (Lee Watson photograph)

Tiger 9 Nip Bobcats, 9-8

Norman Gladson's air-tight relief performance led the Tiger baseballers to a 9-8 victory over the San Angelo Bobcats in a non-district tilt at San Angelo yesterday.

The victory gave the Tigers the "rubber" game of their five-game series with the Bobcats this season each having won two of the first four games played.

Yesterday's victory was the 10th of the season for the Tigers against 11 defeats. The defeat left San Angelo with a 7-8 showing for the season.

Gladson came on in relief yesterday during a four-run Bobcat uprising in the third inning and he proceeded to blank the Bobcats the remaining distance.

San Angelo's big third put the Cats ahead, 8-5, but the Tigers bounced right back to knot the score at 8-8 with a three-run flurry in the fourth.

Then the Tigers pushed across the winning run in the sixth inning and the Bengals, with Gladson in top form, held the Bobcats off for the victory.

Gladson allowed only three hits in his 4 1-3 innings of relief work, struck out six and didn't walk a batsman.

Junior Terry Lee started on the mound for the Tigers and he was relieved by freshman John Weaver in the third.

The Tigers banged out 10 hits with Gary Vice, Kenny Drake, Jimmy Allen and Johnny Drake leading the way with two hits apiece.

San Angelo got 12 hits with Joey Marsala leading the way with three hits.

The Tigers will return to action Friday with a non-district game against Midland at Towle Park. Midland curently is tied for the District 2-AAAA lead with Abilene, each with 4-1 records.

Midland will visit Abilene Thursday before coming here Friday.

BEATS CARDINALS, 5-2

Purkey Perks Up Red Mound Staff

By ED WILKS
The Associated Press

Cincinnati hoped to perk up its pitching when it got Bob Purkey from Pittsburgh last winter, but at the moment Purkey's the only one perkin' on the Redleg staff.

The Redleg corps has accomplished only two complete games and one shutout in 10 decisions so far and Purkey has authored them all, while gaining three of Cincinnati's five victories.

The 28-year-old right-hander, who won more than three in one major league season for the first time last year when he was 11-14 for the last-place Pirates, stayed unbeaten last night as Gus Bell's three-run eighth-inning homer beat St. Louis 5-2.

Purkey gave up 10 hits, but walked none and struck out three while reducing his earned run average to 1.04 for 26 innings.

Pittsburgh's Bob Friend also gained a 3-0 record last night, throwing a four-hitter that beat Los Angeles 7-1 as the Pirates won their fourth in a row.

The champion Milwaukee Braves took a full share of the National League lead for the first time this season as Warren Spahn also 3-0, rode a nine-hitter for an 8-4 victory over the Chicago Cubs. San Francisco slipped to second, half a game behind, with a 7-4 defeat by Philadelphia.

Bell's first 1958 home run broke up a tie game against winless Wilmer (Vinegar Bend) Mizell.

Johnny Temple swapped solo homers with Cardinal rookie Gene Green. Stan Musial was 3-for-4 for the Cards and now leads the league at .353.

Gino Cimoli's third homer was the only Dodger run off Friend, who holds both Piraet complete games this season. Carl Erskine lost his first.

Spahn helped himself with three hits, two of 'em doubles, and drove in three runs for the Braves while Ed Mathews made his No. 6 homer good for two runs.

San Antonio Hikes Lead In Texas League

By The Associated Press

San Antonio's Missions, riding an 8-game winning streak, lengthened their Texas League lead Tuesday with a 1-0 victory over Houston. Austin couldn't play and fell back into a tie for second with Tulsa.

The Missions won their eighth straight in dramatic fashion. Joe Duhem clouted a line-drive home-run in the sixth for the only score of the game. It was Duhem's fifth homer in the last five games.

Meanwhile Dick Luebke was pitching a strong 6-hitter. All Houston could get was singles and not a Buff runner reached third.

Tulsa pulled into a tie for second, a game back of San Antonio, with a 3-0 victory over hapless Dallas. Pitching was the key to the Oiler triumph with Bob Greenwood scattering seven hits and fanning 11.

Houston stayed in fourth place but Victoria replaced Corpus Christi in the fifth slot by whipping the Giants 4-2.

Larry Novak socked a 2-run homer in the seventh and that was the payoff. Jim Peterson notched the pitching victory but with two away in the ninth he needed help from Bill Tremel.

Austin and Fort Worth couldn't play.

FINAL HOME DRILL TODAY

Morgan, Wilson Leave For State

Bud Morgan and Rex Wilson, the Tiger hurdle stars, were to have taken their last home workout of the season this afternoon before departing tomorrow morning for the state track and field meet at Austin this weekend.

It will be the second straight year for the two to represent the Tigers in the state meet. Morgan, in fact, is the defending state champion in the 180-yard low hurdles.

Wilson placed fifth in both hurdle events in last year's state meet. The Tigers had one other to qualify for the state last year, sprinter Bobby Pollard.

Pollard gained the finals in both of the 100 and 220-yard dashes last year despite a badly swollen knee. Pollard pulled out of the 220 in the finals because of the bad knee but did compete in the century finals.

Pollard failed to place in the finals, however.

Morgan and Wilson will compete in both hurdle events at the state meet. In addition Morgan will compete in the broad jump and Wilson in the high jump. Wilson may also compete in the broad jump.

Morgan has won all of his low hurdle races this season with exception of one. He placed second to Iran King of Abilene in the Region 1-AA meet. Bud, however, gained revenge last weekend when he won the lows at the Red Raider Relays with King finishing fourth.

Wilson has won most of his high hurdle races this season and has never finished worse than second place. Only two fellows have beaten Wilson this season, Bob Swafford of Abilene and Bobby Bernard of Graham.

Wilson bested Swafford at the Red Raider Relays last week but he finished second to Graham's Bernard.

Morgan holds the best low hurdle time in the state this season with an 18.8 clocking in the Canyon Reef Relays.

Wilson's best time in the highs is 14.3, the second best in the state this year. Bernard holds the best high hurdle time of 14.2.

The Tigers, who will be accompanied by coach Jim Stehley, will be quartered at the Stephen F. Austin Hotel during their stay in Austin.

Preliminaries in the track meet will begin Friday with the finals Saturday.

Tim Tam, Silky Derby Co-Favorites

By ORLO ROBERTSON

LOUISVILLE, Ky. (AP) — The steadily improving Tim Tam and the sensational stretch running Silky Sullivan were quoted as co-favorites at 5-2 today as the second richest Kentucky Derby in history loomed with 19 finely tuned 3-year-olds listed as probable starters.

As of now, the largest field since Count Turf turned back 19 rivals in 1951 is in prospect.

Based on a field of 19, the 84th running of America's most glamorous turf classic will gross $167,500, a figure exceeded only by the $167,550 of 1956, when Needles took home the major share of the purse.

The track condition will have a large say on how many parade to the post for the 4:30 p.m. start at Churchill Downs.

After days of rain, the weatherman today forecast somewhat cooler temperatures and a drying wind. With no more rain the track for the 1¼ mile race could be fast by Saturday.

A crowd of 100,000 is expected.

Three horses commanded major attention today as the vanguard of the festive-minded crowd moved into this Ohio River city.

They are Tim Tam, a royally bred son of Tom Fool from the fabulous Calumet Farm of Mrs. Gene Markey; Silky Sullivan, the flaming California chestnut who has caught the fancy of the public as few horses have since Man O'War, and Jewel's Reward, champion money winning 2-year-old of 1957 who heads the three-horse entry from Mrs. Elizabeth N. Graham's Maine-Chance Farm.

Silky Sullivan is owned by Tom Ross and Phil Klippstein, newcomers to America's premier [illegible]

Tim Tam, winner of only $275 last year but victorious in the $100,000 Flamingo and Florida Derby this year, won the trial stakes yesterday under 23-year-old Ismael Valenzuela.

The Texas-born Mexican was called on to ride the Calumet ace after Bill Hartack broke a leg last Saturday.

Shantz Continues 'Hex' Over Tigers

By ED WILKS
The ASSOCIATED PRESS

The way little bobby Shantz figures it, he'd really have it made if they played only eight-inning games in the American League and all the clubs were like the Detroit Tigers.

The stubby southpaw extended his hex over the Tigers with a six-hit, 5-1 New York Yankee victory yesterday—his 11th straight was his second success in two 1958 starts and again he had a shutout until the ninth.

While padding Shantz' lifetime record against detroit to 13-4, the decision also pushed the Yankees into a 1½-game lead. The other three AL games were rained out.

In the National, Milwaukee regained first place with an 8-4 victory at Chicago while Philadelphia knocked San Francisco to second 7-4. Pittsburgh whipped Los Angeles 7-1 and Cincinnati defeated St. Louis 5-2 in night games.

Shantz, 32, came to the Yankees from Kansas City in February, 1957. He was 11-5 last season, led the league with a 2.45 earned run average and was voted the AL's comeback player of the year in the AP poll after long-time trouble from a back ailment.

Shantz walked only one and struck out seven yesterday, three times fanning catcher Jim Hegan, late of Cleveland. Only Gus Zernial and Milt Bolling gave Shantz any trouble yesterday, each getting two hits.

Shantz, who needed ninth-inning relief help for a 4-3 victory over Baltimore in his other decision, held the Tigers to four hits, two of 'em infield singles, for eight innings with his change up and sinker, which breaks away from right-handed hitters. The Tigers had nine right-handers in the batting order.

The Yankees counted nine of their 13 hits against right-hander Paul Foytack, two of them home runs by Bill Skowron, his first of the year. The two belts, the first Skowron has pulled into the left field seats at Yankee Stadium in two years, drove in the first three Yank runs.

Foytack, who had complete games in his two victories this season, gave way in the fourth when Shantz doubled with two out and scored on Hank Bauer's single. Rookie right-hander Bob Shaw then kept the Yankees hitless 'til the eighth — when Yogi Berra rapped a change up into the right field stands for his second homer of the year.

East Rallies To Clip West, 127-120

DENVER (AP) — The East All-Stars stormed from 23 points behind Tuesday night and turned back the West All-Stars 127-120 in a National Basketball Assn. exhibition game.

The victory gave the East a 9-7 edge in the current cross-country tour. A crowd of 9,500 watched the fancy exhibition of floor play and sharpshooting.

Both teams had six players in double figures. The game's high scorer was Clyde Lovellette, the 6-9, 235-pound former Kansas University ace, who collected 27 points for the losing West team. Richie Guerin poured in 24 points for the East.

Colonial Field To Be Completed Today

FORT WORTH (AP)—The field will be completed today for the $25,000 Colonial National Invitation golf tournament that will go on unless the weather gets worse.

Forty-two of the 48 entries had checked in yesterday and most of them practiced over the 7,020-yard Colonial Country Club course.

Final practice rounds, a clinic, driving contest and hole-in-one contest are scheduled today. Anybody shooting a hole-in-one gets $1,000.

The first round is tomorrow.

The long-range forecast is for continued bad weather throughout the tournament but Chairman S. M. Bingham said he thought it could be played.

Billy Casper had a good practice round yesterday, bagging an eagle on the seventeenth hole. He used a 9-iron from a bunker.

Morrow Out Of All-College Meet

ABILENE (AP)—Sprint Star Bobby Morrow won't be competing in track for another two weeks, Coach Oliver Jackson of Abilene Christian College said, today.

Morrow suffered a groin injury in practice last week, couldn't run in the Penn Relays and will be out of a 5-college meet at Denton tomorrow night.

His next competition will be in the Coliseum Relays at Los Angeles May 16.

George Yardley, in netting 2,001 points for the Detroit Pistons, set a new National Basketball Assn. record during the 1957-58 season.

Dartmouth's Fred Pitzner won the New England 177-pound intercollegiate wrestling title in 1957 and the 167-pound crown in 1958 season.

STARTS TOMORROW

Boys Club Track Meet This Week

The annual Scurry County Boys Club track and field meet will be held this weekend, starting tomorrow, Mickie Brous, director, has announced.

Only two events will be held tomorrow, the standing broad jump and midget football throw. These events will be held at the Boys Club, starting at 4:30 p.m.

The remainder of the track meet will be held Saturday at Tiger Stadium. All contestants will assemble at 8:45 a.m. Saturday at the West stands at Tiger Stadium.

There will be four divisions, made up of the following age groups:

MIDGETS — Ages 6-7-8-9 (may be 10 after Jan. 1, 1958).

JUNIORS — Ages 10-11-12 (may be 13 after Jan. 1, 1958.)

INTERMEDIATES — Ages 13-14 (may be 15 after Jan. 1, 1958).

SENIORS — Ages 15-16 (may be 17 after Jan. 1, 1958.)

Awards will be presented to the first three places in each event.

Those qualifying in the Junior, Intermediates and Senior Divisions will be able to participate in the Fort Worth Invitational track meet to be conducted in June.

All contestants must be members of the club. Entries are ineligible if they have placed in any high school track meet.

Equipment will be furnished by the boy participating. Spiked shoes may be worn.

Rice Netters Out For Title Clincher

By The Associated Press

Rice can clinch the Southwest Conference tennis championship if it sweeps a meet with SMU at Dallas Friday. Failure to take every match, however, would prolong things.

Texas Tech beat TCU 6-0 and Texas downed Texas A&M 5-1 Tuesday to remain in the race.

Rice has 18-4 with 14 matches to go, Tech is 25-11 with the schedule finished and Texas is 23-11 with two matches to make up with Rice.

Rice will have a meet with TCU at Houston Saturday to wind things up.

ALL NEW 22!

$50 DOWN MONTHLY TERMS

*Horsepower certified by OBC at 4800 rpm.

22 hp* Sports Scott by SCOTT-ATWATER

It's the spanking new queen-sized motor that covers the whole range of outboard fun! New intake valves give it silky-smooth "get-up-and-go". New offset lower unit brings you easier steering. QUESTION: When did tennis originate?

• • •

ANSWER: Tennis is one of the oldest games played with a ball. The ancient Greeks played a game similar to it in which they used their hands to volley a round object back and forth over a mound of earth. A racket, similar to that shown in this picture, was introduced to the game by the French about 700 years ago. Soon after, tennis became a favorite with French and British royalty, and expensive courts were built at the royal palaces.

The game was first played in the United States in 1874. It caught on quickly, and today public tennis courts can be found in practically every city and town in the country.

The name comes from the French word, tenez, which is a command to play.

FOR YOU TO DO: If you don't already play tennis, give it a try. It is good exercise and great fun.

• • •

(A prize of $10 goes to Margaret Sublett of Richmond, Va., for this question. You, too, can win if you send a good question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: Was there a real Pied Piper?) 4-28

GENERAL ELECTRIC

FILTER-FLO® WASHER

Two wash speeds, two spin speeds for "just right" washing of all types of fabrics

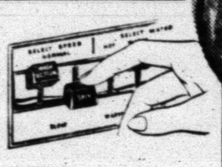

NO LINT FUZZ ON CLOTHES

Wash water is circulated and filtered to give you cleaner clothes. Lint is caught in the filter—not on your clothes. Sand and soap scum are automatically removed.

TWO WASH SPEEDS, TWO SPIN SPEEDS

Your choice of Normal or Slow wash action, Normal or Slow spin speed . . . or any combination you choose for all types of washable fabrics. You simply pre-set your selection.

WATER SAVER FOR SMALL LOADS

Save over 20 gallons of water when washing a small load. All you do is touch the finger-tip selector when the desired water level is reached. Also, your choice of warm or cold water rinse.

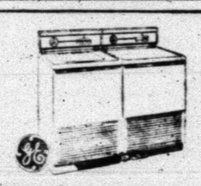

BIG CAPACITY

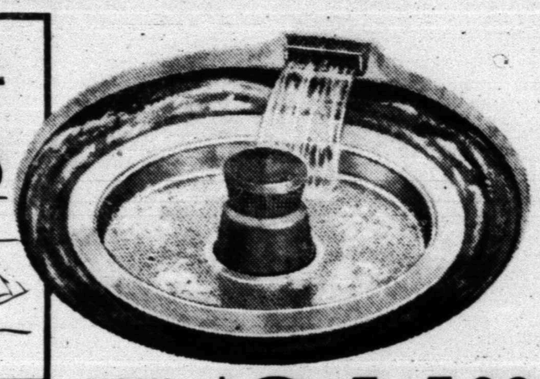

Washes 10 pounds of regular family wash and up to 12 pounds of special heavy fabrics. Over 50% more clothes capacity than many other automatics.

MATCHING DRYER with AUTOMATIC CONTROL

Control automatically adjusts drying time and temperature to the individual load. New air system for fast drying at safe, low temperatures. Operates on 115 or 230 volts.

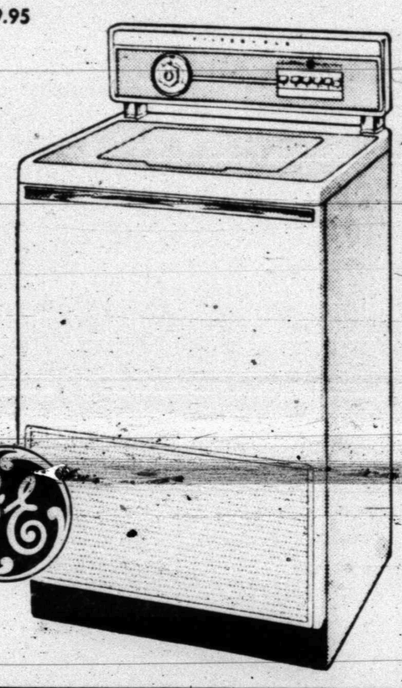

NOW $244.00

Regular $359.95

AND YOUR OLD WASHER

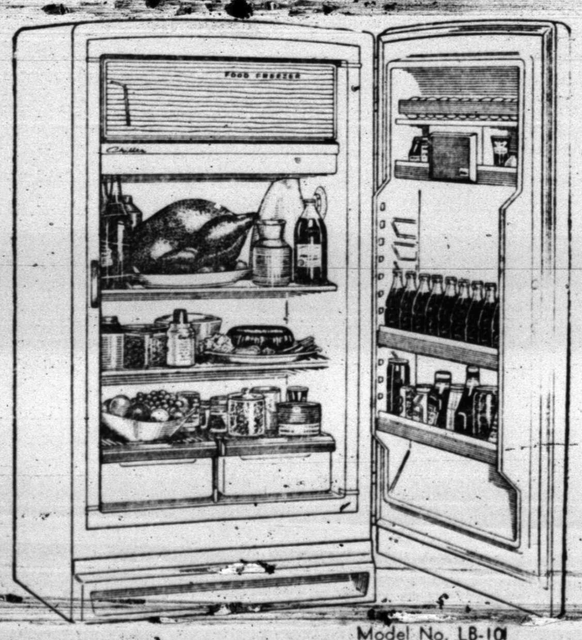

New G-E Filter-Flo Washer Cleans and Recleans the Wash Water to Give You Cleaner Clothes

Removes lint, sand and soap scum. And, with the new convenience of two wash speeds and two spin speeds, you can pre-set the controls when you start the washer and let the washer do the work—whether you wash a regular family load or your delicate lingerie. The modern control panel, mounted on pedestals, has one simple dial that lets you choose washing times from 1 to 15 minutes and special short rinse and spin times. The fingertip selectors, so easy to use, let you choose washing speeds, water temperature and the amount of wash water. Truly a remarkable washer—you should see it today!
