Examination For Teachers' Certificates

Time of Holding is Changed

February 17, 1914.
To the County or Ex-Office
County Superintendent:
Your attention is called to the
fact that a special examination
for teachers certificates will be
held in all county seats on the
first Friday and Saturday, and
Thursday preceding, in April, in
stead of May, as heretofore.
There will be no May examina-
tion this year. The change is
made to accommodate a large
number of teachers who desire
to hear from their papers before
the regular June examination.
April examination will be lim-
ited to State certificates only,
and the same rules and regula-
tions which govern the regular
examination will also govern in
this instance.

You are requested to give no-
tice of this examination to the
public through the local papers
of your county and by other
available means.

The following schedule will be
adhered to in all examinations
for 1914, except the two series
of summer normal examinations.

THURSDAY FORENOON
History of Education, Physics,
Solid Geometry, English Litera-
ture.

THURSDAY AFTERNOON
Psychology, Chemistry, Book
keeping, Plane Trigonometry.

FRIDAY FORENOON
Physical Geography, Physiolo-
gy, Composition, Arithmetic.

FRIDAY AFTERNOON
Texas History, Grammar, Des-
criptive Geography, Plane Geom-
etry.

SATURDAY FORENOON
Spelling, Writing, Methods
and Management, Civics, Read-
ing.

SATURDAY AFTERNOON
United States History, General
History, Agriculture, Algebra.

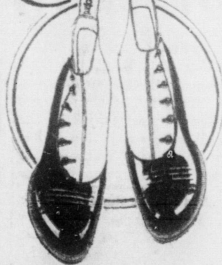

Sincerely yours,
W. F. Doughty,
State Superintendent.

From Train-Robbing To Politics

Word comes from Oklahoma
that Al Jennings, former bandit
and train robber has reformed
and announced himself as a can-
didate for Governor of that state.
He has decided that being gov-
ernor of Oklahoma is a more pro-
fitable and less dangerous job
than cracking safes and holding
up trains.

We will have to take off our
hat to our sister state in this
instance and admit that she has
"put one over" on Texas, for
while almost every occupation
is represented in the list of can-
didates for governor of Texas,
so far we have had no profession-
al outlaw aspire to the office.

Judge McCarty Pays Junction a Visit

Judge J. E. McCarty, of Steph-
enville, a very capable man of no
small notoriety in wool circles
paid our town a visit this week
on his return from trip to other
points in the Southwest. He
came from Sonora to Junction,
was guest Monday night at the
ranch of home Mr. and Mrs. N. H.
Skaggs, arriving in the city
Tuesday morning. In conversa-
tion with the writer Judge Mc-
Carty spoke in very optimistic
terms of the wool situation in
general giving special credit to
good work of the National Asso-
ciation. He expressed his re-
gret that pressing business mat-
ters would not permit his remain-
ing in our town long enough to
gather in the goat and sheep
men of this section that he
might talk with them on matters
of interest to all. He said, how-
ever, it is his intention to make
a longer visit in Kimble some
time next summer and see more
of the people, and also enjoy
some of the fine fishing which
the Llano affords. He left Wed-
nesday morning. It will be re-
membered that Mr. McCarty was
chosen by the goatmen of Tex-
as to go to Washington and take
an important part in their be-
half during the great tariff crisis.
He filled that part faithfully and
well, and it was partially through
his efforts that the "gained 15
per cent" was obtained.

Ford Car Makes Fine Record

Owners of Ford cars have rea-
son to rejoice over the new re-
cord made by that car for the as-
cent of Pike's Peak. Here it is.

On Sept. 2 the car driven by
Oliver W. Hall of Denver started
from the Cascade postoffice at
the foot of the famous mountain.
The start was made at 8:15 a. m.
and the summit house was reach-
ed at 12:53, or rather the tele-
graph office, for it was the offi-
cial checking point.

The elevation is 14,147 feet
above the sea, but many miles
were covered in reaching the top.
The road was in very bad shape
as it has never been repaired
since the old stage coach days.

In places the grade exceeds 25
per cent and in some spots it
was necessary to "jump" the car
six to ten feet at a time. The
descent was made in a pouring
rain, which increased the diffi-
culties of the down trip. In es-
tablishing the new record the
Ford beat the best previous re-
cord for the feat by forty six min-
utes. The former record was
made by a far more powerful car
than the Ford.

Federal Hospitals For Consumptives

At the instance of the south-
western Conference on tubercu-
losis and the Texas public health
Association a bill has been intro-
duced in the United States Sen-
ate by Senator John F. Shanroth
of Colorado and in the House of
Representatives by Hon. Oscar
Callaway of Comanche, Texas,
providing for the establishment
of Federal hospitals for the care
of indigent consumptives.

These hospitals are designed
to care for the people from
Northern and Eastern states
who come to the west and south
west seeking health or a longer
lease of life. Many of these peo-
ple become public charges in a
short time after their arrival
and go from city to city seeking
work or a free hospital.

It is believed that they spread
their disease as they move from
place to place, and are responsi-
ble for an increase of tubercu-
losis in the native born population.

The Shanroth-callaway bill con-
templates the establishment and
maintenance of hospitals under
the control of the United States
public health Service under rules
and regulations designed to pre-
vent an increase of the number
of patients coming into the south-
western states.

The need for such hospitals
has been apparent for years.
The states and cities of the south
west have been unable to care
for these people, and the commu-
nities from which they come
have done nothing for them.
There is no agency other than
the Federal government to pro-
vide for them.

The bill contemplates the ex-
penditure of \$250,000 for the re-
pair and reconstruction of exist-
ing buildings and the construc-
tion of new buildings on military
or other reservations in the
southwest and \$50,000 for main-
tenance of patients during the
first year.

We Need Cheap Money

New York state has just mar-
ketted \$51,000,000 worth of 4 1/2
per cent improvement bonds.
One of the largest banking con-
cerns in the United States was
the purchaser. The fact that
467 bids were tendered which
aggregated \$289,000,000 or six
times the amount of the issue,
indicates the desirability of this
investment.

The farmers of Texas are pay-
ing 8 to 12 per cent on an indebt-
edness of \$225,000,000 and their
collateral is the best in the land.
Money invested in Texas farm
mortgages is as safe as govern-
ment securities. Give Texas
farmers the cheap rate of inter-
est that is afforded New York
state, and our rural development
is assured. The interest saving
alone would amount to \$30,000,-
000 annually. Within three years
this accumulation would be suf-
ficient to build a silo on every
Texas farm; would build 25,000
miles of macadam highways or
construct sufficient warehouses
to store the annual farm pro-
duction of Texas.

Spring Blood and

System Cleanser
During the winter months im-
purities accumulate, your blood
becomes impure and thick, your
kidneys, liver and bowels fail to
work, causing so-called "Spring
Fever". You feel tired, weak
and lazy. Electric Bitters—the
spring tonic and system cleans-
er—is what you need; they stim-
ulate the kidneys, liver and bow-
els to healthy action, expel blood
impurities and restore your
health, strength and ambition.
Electric Bitters makes you feel
like new. Start a four weeks'
treatment—it will put you in fine
shape for your spring work.
Guaranteed. All Drugists, 50c

We heard of more than one in-
stance of votes being cast for
just opposite what the voter in-
tended in Saturday's Pool Hall
election—all of which mistakes
might have been avoided had
those not understanding the bal-
lot have merely taken the Citizen
and perused its columns care-
fully. The matter was clearly ex-
plained in this paper for two
weeks before the election. The
readers were told in plain words
just what to do in voting if they
desired to keep the Pool Hall in
Junction, and they were told
just what to do if they desired
to vote against the Pool Hall re-
maining in Junction. It pays to
take a good local paper, Jasper,
and read it closely.

A. H. Belo and Co. are prepar-
ing to launch a new evening pa-
per to be published at Dallas.
First issue is due to appear Wed-
nesday, April 1, 1914. The title
of the new paper is to be "The
Evening Journal," and it is ex-
pected to make the publication,
in a broad sense, to the evening
field what the Dallas News is to
the morning field, though the ex-
pense "it will be neither a dupli-
cate nor an echo of the Dallas
News." The Evening Journal is
to be published every day in the
year except Sunday. The very
fact that this company is the or-
iginator of this new publica-
tion predicts its success; in the
field of journalism they are pub-
lishers who have for many years
demonstrated their right of sov-
ereignty in the publication of the
Dallas News and the Galveston
News, two of Texas' leading fac-
tors in information and progress.

If upon investigation it should

fort News.

Be not too jubilant, Alfonso.
There are various kinds of "high
balls", you know this might be
the kind that none of the "boos-
tis team" can catch. When the
signal of "play ball" was given
the Ft. Worth convention "picked
up the timber" with a care and
determination that makes a
"home run." The "ball" is
whizzing along at a rate that will
make "sparks" fly all along the
way. There is a "line" out you
der, but there's no danger now
of the "ball" crossing it. The
"muzz" has settled to earth
clearing the atmosphere consid-
erably. "Thomas" is among the
"rooters" working hard as ever
for the "home team." And
when umpire Texas says "time's
up" and we hear the "hoodis
team" "outquit" we're going to
let a bunch of enthusiastic fans
such as Chester Terrell and Wil-
liam (the old "ball" came to the
"home plate" in plenty of
time to "put out" the "sparks,"
saving them from doing dam-
age, while several other hopeful
runners of Terrell and Nelson
Phillips' type will "die on bases."
Our religious tendencies will not

R. W. Allison

One by one the old western pi-
oneers lay aside the time worn
implements of this life's march
and journey forth across the bor-
derland of mortality's realm.

The hand of the Great Reaper
reached into the R. W. Allison
home Saturday night and bade
the spirit of that true and old
frontiersman to come. Mr. Alli-
son was born in Georgia in 1851.
For a number of years he made
his home in Kimble as one of our
foremost citizens. Stricken
with pneumonia he was sick but
a short time when death came to
relieve his suffering. With his
characteristic strength and de-
termination he held up bravely
under the onslaught of illness,
and those near and dear to him
did all that could be done for his
comfort and for his recovery,
but when the summons comes to
"join that innumerable caravan
which moves to that majestic
realm," mortal wishes must
give way to immortality's domi-
nion and the summons be obeyed.

Although Mr. Allison was a
member of no church he exam-
plified by his life the teaching
of the golden rule. He was a
man who united sound sense with
strong convictions and a candid
outspoken temper, a man of
practical living and true worth
to those about him.

Wichita Falls Times: A Den-
ton professor has demonstrated
that the offspring of rabbits is
very seriously affected by alco-
hol where the intoxicant is given
to the parents. But if the rab-
bits had their way about it, they
wouldn't drink the stuff, they've
got too much sense.

Not only is the offspring of
rabbits seriously affected by the
alcoholized parents—the off-
spring of human parents is often
lamed in body or mind, or both,
by the same means. Alcohol is
a poison. It poisons not only
the parent, but the child. Alco-
hol is an enemy. It not only
brutalizes, but destroys. Alco-
hol is a criminal. It kills not
only those who love it, but those
who hate it. Alcohol is a thief.
It steals bread from the mouths
of mothers and shoes from the
feet of children. No rabbit will
ingly drink alcohol. Nature
implanted in the brains of all
beasts an instinct for avoidance,
and to imagine a rabbit, demor-
alizing itself with whiskey is as
impossible as conceiving a but-
terfly chewing tobacco.—State
Press.

Stagnation is a dangerous dis-
ease. If a city is afflicted, a
diagnosis should be made at
once and the cause removed.

"THE PEOPLE WITH THE GOODS."

What Do You Mean When You Mean Service?

A Valuable, But Much Abused Word,
—And Some Things it Means to Us.

Some enterprising merchant way back in Roman times, copyrighted the trade-mark "Servo"—meaning "I Serve." And ever since that day business men have been vying with one another in extolling their "service," which, forsooth, is so much better than of the firm next door.

What does it all mean anyhow? Speaking of the lighting business alone, "service," means more than promptness and accuracy in filling orders and careful attention to complaints, though all of that is vital. Perhaps "service" can best be summarized in the phrase "Anticipation of the Customer's Needs." Service is the golden rule of business—and it pays as a golden rule should, in good hard cash. That is our rule. We believe in it. Service and Reliability are what the people want. We give it. We have Brownwell Steam Engine, General Electric Co.'s Dynamo, 25 K. W.

We are now wiring the houses to install Electric Lights. How about your house? You know you need them. Think about it. Our Ice Plant starts operation March 1, better prepared than ever to meet all demands.

Wait Paint

There are painters and waiters. Which am I going to do? Paint or wait?

Which is better?

How much am I worth with my property waiting? How much if I paint? Will my boots be worth more or less if I paint?

Say it cost \$2 a gallon Devos I wouldn't paint any other—and \$3 or \$4 more for putting it on. That's \$50 or \$60 a 10-gallon job. The money is gone. Is it in the house? Is it in the house?

Suppose I were selling, what should I get for that house fresh-painted and what should I get for it needing paint?

I wonder why men paint before selling?

POOL HALL MUST GO

In the pool hall election in Junction Saturday for Pre. No. 1 the results were as follows: Total number of votes cast 227; For Prohibition of Pool Halls, 122; Against Prohibition Pool Hall 105; Majority for prohibition pool hall 17.

Not a great deal of interest was apparent until Saturday morning, but it develops that advocates on both sides were quietly at work and on the day of election that work became more visible, the interest more manifest, and a very good vote was polled. The poll tax receipts issued for this precinct for this year number 228. Overs and unders will run this precinct's total vote to about 250.

BIG ATHLETIC MEET AT JUNCTION SATURDAY

Junction and Menard to Match Skill

There's going to be something doing in athletic and sporting circles here Saturday. Yes sir, Ja-per, and you'd better be here to get your slice of the enjoyment. The lovers of sport from Menard school are expected here en masse and it is whispered that they really expect to make our Junction gamblers "look to their laurels."

A general athletic meet between Menard and Junction schools is planned to take place at the Junction school grounds, and the fun is to open up at 1:30 p. m. Saturday. There will be baseball game, basket ball games, and other amusing and interesting contests. Admission prices for the entire afternoon's amusements will be 35c for adults, 15c for children under 12 years. Everybody come, have a good time, be true sports, "root for the home team" and encourage the Junction school boys and girls to keep Junction on the front seat in the sporting band wagon. From all reports there is simply going to be fun going to waste all over the school grounds here Saturday.

Benton Confessed and did not Seek Mercy, Says Villa

No Marines Nor Troops to Be Sent Into Mexico

Rebel Leader at Chihuahua Declares that British Subject Gained Access to His Office by Subterfuge. Then Tried to Draw Gun—Denies Doing the Killing Personally or the Execution of Other Foreigners.

CHIHUAHUA, Mexico, Mar. 1.—Gen. Villa told to reporters here his story of the killing of William S. Benton.

Benton gained entrance to my office in Juarez on the pretext that he wanted to see me on some personal business connected with the ranch, Los Remedios, near the city of Chihuahua.

As soon as he entered he began to address me in abusive language. I had had some experience with him before and knew of his violent temper. I knew also that he had mixed too freely in Mexican politics, but I did not suspect that he was coming into my office to murder me.

He had not talked long when he reached for his hip pocket. It flashed over me that he intended to kill me. I grabbed his hand and at the same time thrust my revolver into the pit of his stomach to stop him. I did not wish to appear bloodthirsty, and therefore did not shoot him myself.

My guards seized him, took his pistol from him and placed him under arrest. It was decided to try him by court-martial, and this was done in the regular manner prescribed by law, and the prisoner was executed eighteen hours after he made the attempt on my life.

This is all there is to it. We would have treated any other offender in the same way, whether he was an American, Spanish, German or Japanese.

Guilt of Other Offenses. Benton was not only guilty of attempting to murder, but of other offenses, for we have proof of his animosity to our cause and of the aid he rendered our enemies. However, he was executed for attempting to take my life.

I have nothing to conceal about it. I know the incident has aroused comment in the United States and Europe, and that is why I am making this statement.

A man who acted as Benton did would have received the same treatment in any country. I want to emphasize the fact that I did not kill Benton myself. I would not have soiled my hands with the detail of the execution after the court had found him guilty.

Says Benton Confessed. After the verdict Benton confessed. He did not appeal for mercy, but asked that his property be secured to his wife. We promised that this would be done. Statements have been made that we have executed other foreigners, but these are untrue. Benton is the only one.

Villa contradicted the official report to the American Consul at Juarez that Gustav Raugh, a German-American accused of being a spy, had been brought to Chihuahua. Villa said he knew nothing of this.

The rebel general today received the homage of his officers and prominent citizens at the gubernatorial palace.

He sat in a high backed gilded chair, in the big chamber of delegates, beneath a canopy of deep velvet embroidered in gold, looking on the scene from wide-set, glowing black eyes, saying but little.

A medal was presented to him by those of his men who had followed him since the Mexican revolution three years ago, when he forsook his outworn and blossomed into a militant patriot.

NEW VERSION OF BENTON KILLING. Now It Is Said Villa Had Englishman Shot Without Court-Martial.

EL PASO, Tex., Mar. 2.—A new version of how William S. Benton met his death at Juarez, essentially differing from the one official account given by General Villa and believed by Benton's friends and countrymen to be authentic, has reached here.

Americans and others interested in the incident have not ceased their efforts to learn the precise circumstances under which Benton died, and they now have obtained an account of the affair in a large measure based on the statements made by Villa himself, which they believe correct except for the latter's claim that Benton had admitted he meant to do him harm. They believe Villa heard the door, Benton, they say, did not reach for his hip pocket or make any menacing move and neither did he use abusive language or give utterance to threats, but be-

DEBATE OPENED ON ARMY BILL

Representative Hay Calls \$190,000,000 Measure Essentially One For Peace.

WASHINGTON, D. C., Mar. 2.—Opening debate in the House today on this year's \$190,000,000 army appropriation bill, Representative Hay of Virginia, chairman of the Military Affairs Committee, declared the measure was essentially one for peace and not for war and that the War Department did not contemplate any preparations for a war basis.

Representative Kahn of California followed with an attack on the administration policy. Coming the expression "A policy of deadly drifting," he said, that expressed the President's attitude, instead of the policy of "watchful waiting."

Army officers who spread war scares and tales of unpreparedness for war who army appropriation bills are under consideration were sharply criticized by Representative McKellar of Tennessee, who declared that documents were circulated showing the frang of the chief of staff of the army, which were calculated to frighten Congressmen into increasing appropriations.

"There has been some," he said, "when a law should be passed, if a law is necessary, to prohibit army officers from making these statements of our unpreparedness for war. I believe in fact our army is the best paid, best equipped and most efficient in the world. Sixty-five per cent of all our revenues now go to pay for wars, past, present and future. We should not be asked to do more than that."

Representative Isdon of Mississippi made a plea for international disarmament. The total amount expended last year for the maintenance of the 596 large educational institutions of the country was \$82,000,000, he said, less than half the amount asked for the army's upkeep this year.

after an unusually fast run. Cabrera's representatives will be placed before Gen. Villa today if plans do not miscarry.

General Edwards at Juarez and George C. Carothers, special agent of the State Department, were without definite information as to Benton's body today. A newspaper special quoted Villa as saying that he took Benton's body to Chihuahua with him.

Up to noon today, Charles Perera, British Consul at Juarez, had not arrived. It was reported at Juarez that Gen. Carranza was due at Nogales today. Cabrera expects to meet him there.

HANDS OFF IN MEXICO.

Both Sir Edward Grey, the British Secretary of State for Foreign Affairs, and Francis Dyke Akland, the Parliamentary Under-Secretary, declared today that the British Government would not interfere in the Mexican situation.

As Mr. Akland expressed it, an attempt at intervention on the part of Great Britain would be "both futile and impolitic." He said he had added that it would be ridiculous as well, unless Great Britain were prepared to send an army into Mexico over 1,800 miles of wilderness in the hope of catching the elusive Villa, who alone can be held responsible for Benton's death.

Unfortunately as the present situation is, all hinges on a question of fact. If Villa has told the truth, his action may have been hasty and ruthless, but it is practically unassailable in military law except on the ground of expediency. If he has not told the truth, the execution of Benton was no better than murder, and it becomes the duty of the British Government to deal with it as such. But the first thing to do is to ascertain the facts. Until that can be done, Washington must mark time.

In the meantime it would be well for Englishmen and Americans alike to give a little sober consideration to the causes which have produced the deplorable conditions in Mexico and to learn their lessons. We permitted an American oil company to support a revolution against Diaz, and no sooner was Madero in office by reason of the abdication of Diaz than a British concern began to finance a counter revolution. It was British money that enabled Huerta to overthrow Madero. It was British money that practically exterminated the Madero family and floated Huerta into power over a sea of blood. If Mexicans have murderously shed British blood, let London contemplate the amount of Mexican blood that has been shed through the interference of British capital in the domestic affairs of Mexico.

Civilization is paying the penalty for supporting a system of government for the profit of concessionaires, and opposition to this system is the basis of President Wilson's refusal to recognize Huerta.

In the circumstances, Great Britain can well afford to sustain President Wilson, whatever temporary injury may result to British subjects and interests. If Mexico is ever to become a "white man's country" in the sense that life and property are reasonably safe and crimes of violence are punished by organized society, it must be through the policy that the President has adopted. Any other policy means revolution after revolution and despotism after despotism, except during the occasional intervals when a strong man is able to create a solitude and call it peace.

TEXAS RANKS SECOND IN BANKS ACCEPTING

ONLY PENNSYLVANIA HAS MORE INSTITUTIONS TO ENTER FEDERAL RESERVE SYSTEM.

WASHINGTON, Mar. 2.—Pennsylvania led all States in the number of National banks applying for membership in the new Federal reserve banking system, according to figures given out tonight by the Treasury Department. Of the 7,465 applications received 835 came from Pennsylvania banks, while the next nearest was Texas with 518 applicants. Arizona and Nevada divided honors for last place with ten applications each. The District of Columbia had twelve.

Applications by States follow: New England—Maine 69, New Hampshire 56, Vermont 48, Massachusetts 176, Rhode Island 19, Connecticut 57, total 449.

Eastern States—New York 479, New Jersey 202, Pennsylvania 835, Delaware 25, Maryland 102, District of Columbia 12, total 1,657.

Western States—North Dakota 144, South Dakota 141, Nebraska 141, Kansas 141, Minnesota 279, Iowa 234, Missouri 150, total 2,059.

Western States—North Dakota 144, South Dakota 141, Nebraska 141, Kansas 141, Minnesota 279, Iowa 234, Missouri 150, total 2,059.

Pacific Coast—Washington 67, Oregon 86, California 260, Idaho 53, Utah 25, Nevada 19, Arizona 10, total 518.

Texas Banks Accept.

WASHINGTON, Mar. 2.—Practically every National bank in Texas is expected to be in the new banking and currency system when the full currency act is passed, which will probably be tomorrow. Thus far a total of 518 National banks of the State have accepted the provisions of the Federal reserve act. In Oklahoma and banks have reported formal acceptance of the act.

RE-HEARING IS REFUSED IN FRANK M'CUE CASE

COURT OF CRIMINAL APPEALS OVERRULES MOTION.

Case of Frank Lord, from Dallas County, Given Twelve-Year Sentence, Is Affirmed.

AUSTIN, Tex., Mar. 2.—The Court of Criminal Appeals overruled a motion for rehearing in the case of Frank M'Cue, alias Mud M'Cue, from Collin County, who had been given life imprisonment on a charge of killing Earl Mabry. Judge Davidson dissented. The crime was committed in Dallas County, but M'Cue was given a change of venue to Collin. It will be recalled that M'Cue was turned State's evidence against Burrill Oates, who was hanged eight years after the murder of Sol Aronson, a Jewish trader in oil.

Because the trial court failed to charge the self-defense and give other special instructions, the court today reversed and remanded the case of Golden Weatherford, from Midland, given twenty-five years on a charge of murder.

Affirmance was entered in the case of Jim McQueen, from San Jacinto, given seven years on a charge of murder upon implied malice. The same action was taken in the case of Frank Lord, from Dallas, assessed ten years on a charge of arson. This was the case in which testimony was to the effect that Lord tied a woman to a bed after duping her and then he set fire to the house.

Because of fundamental error the court reversed the case of M. L. Mooney from Wheeler County, who had been given four years on a charge of receiving and concealing stolen property. The indictment charged that the cattle were received and concealed in Wheeler County, while the testimony was to the effect that it occurred in Collingsworth County.

CHINESE EGGS CHEAP.

ST. LOUIS, Mar. 2.—One hundred cases containing 36,000 eggs arrived in St. Louis from China today. They were imported by a local commission dealer, who said he could sell the eggs to retailers at 20 cents a dozen.

Eggs for the last week have been quoted here at about 26 cents. A member of the firm said he bought the eggs at 19 cents a dozen and that they were part of a shipment of 50,000 dozen consigned to American dealers.

ATTRACTIONS AT GRAND OPERA HOUSE

PLAYS THAT HAVE HAD LONG AND SUCCESSFUL
RUNS IN NEW YORK, TO BE SEEN HERE
DURING THE COMING WEEK.

EVELYN NESBIT THAW.

That she may be judged for her aristocratic merits alone, the same as her fellow professionals, is the desire of Evelyn Nesbit Thaw, the most talked of woman in the world, who is to appear at the Grand on Monday and Tuesday, March 9-10, at the head of a company of seventy-five in the clever French musical divertissement, "Marianne," from the Alhambra Theater, London. Evelyn Thaw has waited six years for the notoriety connected with her name to die out before returning to the stage. In both London, where she made her debut, and in New York she received unstinted praise from all of the theatrical reviewers for her artistic performance.

STRATFORD-UPON-AVON.

More volunteer players of rank and title have stepped forward to boost the first American tour of the Stratford-Upon-Avon Players that came to the Grand Opera House March 13 and 14, than any such organization has enjoyed since the new theater began operation six years ago. His Royal Highness, the Duke of Connaught, has voyaged the company to Canada with his official blessing. The theatrical knights, of whom there are now quite a number in England, assembled at the round table to give Mr. F. R. Benson, the head of the company, a farewell dinner, and half a dozen dukes and earls were present to make the occasion more auspicious.

Among the speakers at this dinner were Sir Sidney Lee, who presented and toasted Mr. Benson as the "Ambassador of the Shakespearean lovers of the old world to those of Canada and the United States," Sir Herbert Tree, Mr. Henry Ainley, the Archdeacon of London, Sir John Clay Hill and Sir Johnstone Forbes Robertson.

Sir J. Forbes Robertson and Mr. Benson have been lifelong friends

"WITHIN THE LAW."

One of the gripping scenes in "Within the Law," Bayard Veiller's successful new play of metropolitan life, which The American Play Company is to offer here at the Grand on March 15, 16 and 17, provides the spectacle of a professional criminal confessing the guilt for a murder voluntarily and going to his execution because of his devotion to a woman who befriended him in an hour of peril. This play has for its central character a pretty young woman convicted of a crime which she is innocent, who, upon her release from prison is forced into warfare with the authorities, matching her wit and courage against police brutality and adroitly avoiding the clutches of the law, although she preys upon society at will. The excellent cast engaged for "Within the Law" is in keeping with the standard of excellence of the production of The American Play Company, the producers.

"ADELE" THIS WEEK.

The coming of "Adele" to the Grand for an engagement of four nights, starting Thursday, March 5, matinee Saturday, will mark the premier in this city of the most successful musical offering produced in the last ten years, according to the unanimous verdict of New York's thirty-one critics.

"Adele" is a French operetta in three acts, the book and lyrics being by Paul Hervey and the music by Jean Briquet, and adapted for the American stage by Adolf Phillips and Edward Paulson, who made the English adaptation of that big success of three years ago "Alma" by these same authors.

The New Era Producing Company, of which Jos. P. Bickerton, Jr., is managing director, presents the piece in the same sumptuous manner which characterized its long run in

Secretary of Commerce Shows How
Exports of Manufactures Have
Grown Greater Under
New Tariff.

WHEELING, W. Va., Mar. 2.—W. C. Redfield, Secretary of Commerce and the Wilson Administration's spokesman on commercial and industrial problems, praised business conditions throughout the country in a speech before the Wheeling Board of Trade.

Mr. Redfield defended the Tariff act, lauded the Currency law and assured his audience that the Government intends to help and not hinder legitimate business. He continued:

"But there is no ground here now for worry. The surplus of freight cars has ceased to grow. It commenced about a half of January to decline and has decreased by about 5000 cars.

"Foreign Trade Balance Grows.

"The trade balance in our favor on merchandise transactions between ourselves and foreign nations grew from \$335,000,000 for the last half of 1912 to \$465,000,000 for the last half of 1913, and grew still further for the six months ending Dec. 31 last to the great sum of \$404,500,000. This is an increase in the last six months of 1913 over the like period of 1912 in excess of \$38,000,000, or over 10 per cent. If business continues at this ratio throughout the balance of the fiscal year, the result in our favor will far exceed anything hitherto known.

Bowery Assemblyman Introduces
Bill to Stop "Persecution."

ALBANY, Mar. 2.—John B. Golden of the Bowery Assembly District that the late "Big Tim" Sullivan presented announced that it was high time the State quit "persecuting" Harry Thaw and introduced two resolutions designed to stop what he called as "this outrage."

One resolution instructs Attorney General Carmody to drop all proceedings to bring Thaw back to Matteawan. Another commands Carmody to submit a report showing in detail money paid to attorneys, investigators, detectives, automobiles, chauffeurs and hotels by the State in its capture of Thaw and fight for his extradition.

Golden's second resolution orders that if any more money is to be spent it should be by "influential individuals interested in keeping Thaw in prison."

NO CHANGE IN INCOME TAX.

WASHINGTON, Mar. 2.—No tampering with the tax will be permitted by the Democratic majority until the Underwood-Simmons act has been in effect long enough to demonstrate whether it needs perfecting amendments.

This was made plain by majority leader Underwood when Representative Moore of Pennsylvania asked about the prospect for action on the pending bill to repeal the "collection at the source" feature of the income tax law.

SPINSTER HAS 27 CATS.

Guardian Recommended, But Court
Dismisses Lunacy Proceedings.

ITHACA, Mar. 2.—A penchant for cats is not insanity, but a woman who keeps twenty-seven of them, shows abnormal pity for animals, and when "cats dominate her home," a guardian or manager should be appointed, is the gist of the report of a commission in lunacy, composed of Dr. Wm. Tamm and County physicians, in the case of Miss Jennie Butts, aged sixty years.

Miss Butts also owns three horses and thirteen dogs, and it is charged that she neglects them, and that some of which live in every room of the house, take up too much of her time. She explained she only had two or three cats at one time, but in addition to the natural increase neighbors who want to get rid of their cats "drop" them in front of her house, and she feels sorry for them. She simply cannot kill the cats. The lunacy proceedings were dismissed.

F. M. Bralley Says Publication
Should Be Put in Every School
Library in Texas.

AUSTIN, Tex., Mar. 2.—I have just bought and carefully read a copy of the 1914 Texas Almanac and Industrial Guide, published by The Galveston-Dallas News. In my opinion it is easily worth ten times what it cost, because it contains such a large, useful and comprehensive volume of information with respect to almost every important phase of Texas. This mine of information which it contains makes it an indispensable asset to the professional man's library, to the business man's desk and to the home of every intelligent farmer in Texas. It should be put into every public school library in the State and all of the members of every Texas history class in the public schools of Texas should be supplied with copies of this unique and valuable sourcebook on their own State. I keep a copy of it on my desk and refer to it more often than I do to any other publication in my office. Very truly yours,

Former President William H. Taft in an address before the National Seed and Plant Industry Association, held in Washington, D. C., last week, had said: "I am not a horticulturist, but I am a lover of the soil. I am not a painter, but I am a lover of the brush. I may have said things that would not look well in a public address, and in this respect I feel profoundly for him."

"Perhaps you would understand better what I mean if you had been President. You would know surely if you had tried to convince a Senator. Washington talked over a treaty with those twenty-two Senators and they suggested this and that amendment and pointed out that and the other defect, and finally Washington said, 'I will be damned if I ever go to the Senate again.'"

and kindred spirits. The fact that they were both making attempts to simultaneously for a tour of this country did not temper the older actor's praise. He said: "I look forward to Mr. Benson's visit to America as a really epoch-making venture that will lead to a very considerable success. I, myself, as a plain actor, well know what he has done for our noble calling. Some of us speak with bated breath of the ancient glories of the schools for acting that we had in the old days of the repertory companies, but those stock companies were far too rough and ready. There is far more attention given to the production of the play nowadays by the repertory companies. Mr. Benson stands at the head of an institution, and he has done far more for our calling than any other single man has ever done."

At the Grand the Stratford-Upon-Avon Players will present the following repertory: Friday, "The Merry Wives of Windsor"; Saturday, matinee, "The Merchant of Venice"; Saturday night, "King Richard III."

SAN CARLO OPERA COMPANY.

Music lovers of San Antonio are to have a double opportunity to become acquainted with grand opera during the coming season, and if the artistic traditions of the city are to be supported, they will welcome the visit of the San Carlo Grand Opera Company which on Wednesday night, Thursday, and Friday will present the season's organization with no less a repertoire than "The Barber of Seville," "The Marriage of Figaro," and "Don Giovanni."

The importance and magnitude of the San Carlo Grand Opera Company, which is under the personal direction of the famous impresario, Signor Fortune Gallo is better realized when it is understood to be, both in artistic as well as in numerical strength, second to none as the largest traveling operatic organization in America and numbers among its leading singers some of the greatest song birds in the realm of grand opera.

Northern states and it is normal that they should concentrate as for years they have been doing in the large cities and industrial centers. Statements have been made and denied that there are more unemployed in New York this year than usual.

"It is well known that New York provides liberally for the unemployed through its vast private and public charities, and this is a attractive factor in the out of work. As these factors would naturally draw the unemployed to that city in numbers even in excess of possible employment."

Mr. Redfield said the new tariff had made it necessary to import potatoes, the receipts of Argentine beef had lowered prices in New York City and that preserved milk has been offered in this country at lower prices than those which have heretofore prevailed. It is a well-known fact that the price of woolen cloth from the largest makers has been reduced this winter from 15 to 25 per cent."

NORTHAMPTON, Mass., Mar. 2.—Former President William H. Taft in an address before the National Seed and Plant Industry Association, held in Washington, D. C., last week, had said: "I am not a horticulturist, but I am a lover of the soil. I am not a painter, but I am a lover of the brush. I may have said things that would not look well in a public address, and in this respect I feel profoundly for him."

"Perhaps you would understand better what I mean if you had been President. You would know surely if you had tried to convince a Senator. Washington talked over a treaty with those twenty-two Senators and they suggested this and that amendment and pointed out that and the other defect, and finally Washington said, 'I will be damned if I ever go to the Senate again.'"

"Do you blame him?"

Avery Tobey and Lee Wilson have had Orville Cowser to thrash cane seed for them. Messrs John Wilson and Buck Gardner of Roosevelt had business in Junction the past week. We are glad to report Miss Ruth Simon greatly improved and it was a mistake about her having pneumonia. Mr. T. N. Curtis and Son William, Claude Roe and Hilry Henderson are building a fence for Oscar Weldon down the divide. Arch Surber is still very low with pneumonia and whooping cough. Frank Surber his brother was brought in from the ranch with pneumonia. We hope they will soon be well. Miss Agnes Tobey who has been visiting in Bandera is at home again. She was accompanied home by Mr. T. H. Keese her grandfather, and her cousin Miss Hall Keese of Medina. The party at Mr. Lea Corders was very much enjoyed. Those to attend from a distance were Misses Carrie Leffeste and Paul Leffeste. Marion Goodall of Roosevelt, Miss Nettie and Wes Freeman from below Junction.

TO THE WORTHY MATRON, Officers and Members, of Junction Chapter No 497,

We, your committee on resolutions on the death of brother J. F. Collier beg leave to submit the following

Whereas it has pleased Almighty God in his infinite goodness, to remove from labor to reward, our brother J. F. Collier, who departed this life on January the Fourth, Nineteen hundred and Fourteen. Therefore, be it resolved,

First: "That we bow in humble submission to the will of him, the Great Master of the universe who doeth all things well."

Second: "That our chapter will miss his presence in its meetings and will look forward to their union with him, in the Chapter on high."

Third: "That we extend our heartfelt sympathy to his daughter and other dear ones and commend them to him, who is able to heal all sorrow."

Fourth: "That a copy of these resolutions be sent to the daughter of the deceased, be spread upon our minutes and be furnished our local papers for publication."

"Sleep on, dear friend, such lives as thine have not been lived in vain, but shed an influence rare, divine, On lives that here remain."

Fraternally submitted,
Katie R. Hodges

WANTED

To fill that vacancy you have open or may have open for a bookkeeper or stenographer or operator or bookkeeper and stenographer combined. Efficiency is what you want in your office. We can supply you with experienced or inexperienced help. We mean those who have just finished our thorough practical courses went through our finishing department where they received thorough drill in office routine. These young men and women are, in most cases, better fitted to render satisfactory service than those who have not been so fortunate as to receive such thorough training in our school, that have had two years experience in a business office. We also have experienced help listed with us, those who have been holding good positions but for some cause desire a change. We have an excellent student body from which to select just the help you want. We had 2000 enrollments in 1913!

Please phone at our expense, tell us just the kind of help you need and if we have it, we will recommend it to you giving full references and past records. If we haven't just the kind of help you want, we will tell you frankly.

STOMACH TROUBLE

FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.
