

All Cotton Growers Urged To Vote Thursday

The basic question being decided by Texas cotton farmers in the December 15 referendum is: Will farmers who plant more land to cotton than their acreage allotments provide be required to pay a penalty on the cotton produced from the extra acreage, Millard Brown, PMA secretary, declares.

That was the issue as laid down by B. F. Vance, state director of the Production and Marketing Administration. Both state and local PMA urged all Texas cotton farmers to vote on Thursday, December 15, in deciding the issue, pointing out that every cotton farmer in the state will be affected by the outcome.

If cotton marketing quotas are approved by two-thirds of the cotton farmers in the U. S. voting in the referendum, this will be the situation, according to Mr. Brown. Farmers who plant within their acreage allotments will be able to market all the cotton they produce without paying any penalty. They will be eligible for government loans at 90 percent of parity. They can receive conservation payments from the PMA (\$23,000,000 in Texas this year).

Farmers who plant more cotton than their acreage allotments will pay a penalty amounting to one-half the parity price on all cotton (Continued on Page Seven)

Murder Charge Filed Against Dave Ransom

Charges of murder were filed Tuesday, December 13, against Dave Ransom, colored, in connection with the death of Charlie Jones, 32, also colored, Saturday morning, December 10, about 4 o'clock.

Jones was shot with a .32 automatic as he got out of a car in front of the home of his father, Parson Jones, in the Flats, Sheriff Claude McKinney said.

He died a short time later, just after being admitted to St. Joseph's Hospital.

In a signed statement to County Attorney Jack Deahl, Ransom said that Jones had made threats against him.

Ransom's examining trial was held Tuesday and his bond set at \$2,500. He was still in jail Wednesday at noon, the county reported.

Ransom, 54, is one of Wellington's best known colored men, and for many years he was porter at the Wellington Hotel.

Jones is a veteran of World War II, serving in the Army three years, Mr. Deahl said. He was attending the GI school in mornings and picking cotton in the afternoon.

Funeral services for Jones were held Tuesday. He is survived by his wife and six children.

Mr. Holley's appointment came after the recent co-ordinated program of law enforcement on traffic violations was put in effect by the city and county.

Mr. Holley is working out of Sheriff McKinney's office.

A resident here since 1923, Mr. Holley is widely known through the area. This is his first time to serve as a law enforcement officer, although he has engaged in work dealing with the public during his entire residence here.

ROAD BOND WORK BRINGS CONGRATULATIONS

Congratulations were in order for Cortez Barnett Thursday, December 8, when he delivered a check for \$75,000 to the state highway department at Austin, to cover the cost of 10 miles of hard surfaced roads in Collingsworth County Road District No. 1. Congratulating Mr. Barnett is D. C. Greer, State Highway Engineer. Accompanying Mr. Barnett to Austin were County Judge R. L. Templeton, second from left and Commissioner Alfred Knoll, right. Bonds for construction of the roads were voted October 8.

Car Accident on Rolla Road Fatal to 15-Year Old Girl

Delano Grissom, 15-year-old daughter of Mr. and Mrs. W. O. Grissom of Wellington, died Thursday morning, December 8, of injuries received approximately 12 hours earlier when the car in which she was riding went off the embankment approaching a small bridge and rammed into the bank on the opposite side of a draw. The accident occurred approximately two miles west of Wellington on the F-M highway to Rolla.

Injured in the same accident were Wilma Jean Higginbottom, also 15, and Billy Grissom, 20, brother of the accident victim. The three were brought to St. Joseph's Hospital.

Miss Higginbottom received a broken left leg and broken left wrist. She was taken to her home following treatment. Grissom had abrasions about the head and was released after emergency treatment. Dr. Tom Hunter said.

Miss Grissom had both arms broken and a brain concussion, the doctor reported.

Sheriff Claude McKinney and Deputy A. B. Stuart, who handled the case, said that the car in which the Grissom girl was riding was driven by Joe Bush, went off the road when another car, driven by 16-year-old V. H. Gay, whipped around it.

Bush was arrested and charged with operating a motor vehicle without license. He was fined \$25 and costs by Judge W. G. Hite in justice court Friday morning, and upon being unable to pay the fine, was returned to jail.

Since Gay is a minor, Sheriff McKinney said that his father, R. M. Gay, was charged with allowing a minor to operate a motor vehicle without a drivers license and was fined \$25 and costs in justice court.

Both Sheriff McKinney and Deputy Stuart said that all indications are that this was a game of "ditch 'em."

Deputy Sheriff Stuart said that a third car filled with youngsters was with the other two cars, but was not involved in the accident.

Delano Grissom was born in Wellington and spent her entire life here.

Funeral services were held Saturday afternoon at the Church of the Nazarene, with the Rev. Austin Moore officiating.

Pall bearers were Doug Gibbons, R. H. Gibbons, Erick Fletcher, Esdel Havron, Riley Hooper and Dan Webster. Flower bearers were Mary McKinney, Sylvia Payne and Ellen Boykin. Burial was in the Wellington cemetery under the direction of the Ellis Funeral Home.

Surviving the girl are her parents, Mr. and Mrs. W. O. Grissom, and these brothers and sisters: Clifford Grissom of Elizabethtown, Ky., Odis Grissom and Dub Grissom of Ardmore, Okla.; Mrs. Ruth Hall, Billy Grissom, Don Grissom, Bobby Grissom, Eilene Grissom, Betty Grissom of Wellington.

Honor Fruit of Many Years Work College of Surgeons Approves St. Joseph's

Word has just been received that St. Joseph's Hospital has satisfactorily fulfilled the requirements of Hospital Standardization and has been given the rating "Approval of the American College of Surgeons." This attainment represents many years of effort on the part of the Sisters and the Medical Staff of the Hospital, who, working together, have been able to give the patients the greatest benefits that medical science has to offer.

The Hospital Standardization program requires that each hospital which qualifies for approval shall have an organized, competent, and ethical medical staff; that the staff shall hold regular conferences for the review of clinical work; that accurate and complete medical records shall be written for all patients treated; that adequate diagnostic and therapeutic facilities, including a clinical laboratory and X-ray department shall be provided, Sisters of the hospital said.

It involves facilities, personnel and procedures predicated upon efficient organization. When an institution adopts and successfully applies the above named principles which express the high standards of modern medical and hospital practice, it is known as a Standardized or Approved Hospital. As a result of a survey made on Sept. 7 by Dr. Jose Gonzalez, field representative of the American College of Surgeons, St. Joseph's Hospital has granted this approval.

Highway Head Praises County for Quick Work on Road Program

Bonds voted by landowners of Road District No. 1, in the northwest part of the county, amounting to \$75,000 have been sold and a cashier's check for that amount was delivered by Commissioner Cortez Barnett to Harvey E. Deen, engineer in charge of Farm-to-Market aid projects for the State Highway Department at Austin Thursday, December 8.

Going to Austin with Mr. Barnett were County Judge R. L. Templeton and Commissioner Alfred Knoll.

The bonds were sold to C. N. Burt and Company of Dallas and drew a \$400 premium, Judge Templeton said. This premium covered expenses of creating the road district, holding the election, and drawing up the bonds.

D. C. Greer, state highway engineer, called the county men to his office and congratulated Mr. Barnett on the quickness with which the bonds were sold and the money turned over. He added that he considered the fact that the bonds were voted October 8 and the check issued 60 days later, December 8, very, very quick on a bond issue.

He also congratulated Mr. Barnett on having such a complete program for that area, well worked out to take care of all the present

farm road needs of the area. Altogether, 25 miles of surfaced farm roads are due in two precincts, 2, of which Mr. Knoll is commissioner, and 4, of which Mr. Barnett is commissioner, during the next year. These include the 10 miles to be constructed with the \$75,000 bond issue, 8 miles of Farm-to-Market roads from Highway 83 west through Samnorwood, then north to Dozier; and 7 miles of another F-M road project, three miles of which is north of Dozier and the remaining four miles are east of Lutie.

Judge Templeton said that it is unlikely that any work will be done on the 10 miles of road voted by the road district until next summer, but that he expected it to be built at the same time the farm-to-market roads are constructed, since there is no other road program in this part of the county.

The \$75,000 bond issue voted levied a tax of 50 cents per \$100 valuation on all property in the district for a period of 25 years.

Judge Templeton and Commissioners Barnett and Knoll believe that the road can be constructed for less than the \$75,000 voted, and the judge pointed out that all less than that amount will be reimbursed to the road district by the state.

Judge Templeton also said that A. F. Wischkaemper of Dozier is to furnish all rock to be used as a base on these roads at 3 cents per yard, uncrushed. This rock is centrally located for all the surfacing work in Precinct 4, and is only a few hundred yards off the road to be paved west of Samnorwood.

The usual price of rock is 5 cents per yard, and around 3,000 yards per mile are used.

Mr. Wischkaemper had offered to provide rock free of charge for the construction of the 8 miles of Farm-to-Market Road from highway west of Norwood, and north to Dozier.

When the new road was provided for by the road bond election, the State Highway Department made arrangements with Mr. Wischkaemper to secure rock for this road, and requested that to keep their records straight, Mr. Wischkaemper be paid three cents per yard on all rock used on both roads.

Appellate Court Upholds Domestic Court Decision of Judge Gribble

A decision given by Judge Luther Gribble in Potter County District Court holding the creation of the domestic relations court of that county was unconstitutional, was upheld by the Second Court of Civil Appeals in Fort Worth Friday, December 9.

Judge Gribble tried this case when the presiding judge was disqualified, and upon the request by attorneys for both parties to the suit that he can be selected as the trial judge.

The following account of the appellate court's decision was reported by Associated Press:

The Second Court of Civil Appeals today affirmed a trial court decision holding that creation of a domestic relations court in Potter County by the 51st Legislature was unconstitutional.

Plans Complete for C-C Banquet Mon.

Wes Izzard, editor in chief of the Amarillo Globe News, and one of the southwest's leading authorities on current events, will be in Wellington Monday night, December 19, as guest speaker at the Chamber of Commerce annual banquet and installation of officers.

Duward Scott will be installed as president of the Chamber of Commerce for 1950, succeeding Wardland Brummett. Matt Johnson is the new vice-president and Jack Gibson is treasurer.

Approximately 200 guests are expected.

Henry Sullivan will serve as toastmaster and Bennett Goodloe's Aggie Band will furnish music for the occasion.

In view of Mr. Izzard's knowledge of current affairs, and since a large portion of the radio-listening public of this area follow his news commentaries daily, the banquet is being opened to the public, and any person interested may buy a ticket. These are available from Miss Virginia Evans, acting secretary of the C-C, at her office in the court house.

"We believe there are many people over the county who will want to hear Mr. Izzard who could not do so if the banquet were limited to members," Mr. Brummett commented.

Story of "The First Christmas" Told at Vesper Service

"The First Christmas," a cantata, will be presented at the First Methodist Church Sunday afternoon, December 18, at 5:00 o'clock, with singers from a number of the Wellington Churches taking part.

This is the cantata which has been given here each year at Christmas time for several years.

Mrs. Pat Swift is directing the cantata and Mrs. Luther Gribble is the organist.

"This is the story of our first Christmas, set to music, and a number of the hymns are taken directly from the words of the Bible," the Rev. Lester L. Hill, pastor of the church, said this week in inviting the public to attend this Christmas event.

R. E. Thompson Of Navasota Dies

Relatives were called to Navasota last week by the sudden death of R. E. Thompson, who lived here for a time about 25 years ago.

Going were Mr. and Mrs. Floyd Thompson, Mrs. C. D. Burger, Mrs. Jack Redding, and Fred Thompson of this county, and Mrs. Ada Thompson and Mrs. C. D. Reeves of Shamrock. Mr. Thompson was a brother of Floyd Thompson, Mrs. Burger and Mrs. Redding.

He died Tuesday, December 6, about 5:00 a.m., just after breakfast at his hunting lodge, about 50 miles from Navasota.

Funeral services were held Wednesday at Navasota.

Mr. Thompson owned a farm near Lutie, and he and Mrs. Thompson visited here regularly.

At the time of his death he was a member of the board of directors of the First National Bank, Navasota; the Navasota Federal Savings and Loan Association, a member of the Odd Fellows Lodge, Knights of Pythias, and Woodmen of the World and an officer of the First Presbyterian Church. He was a former mayor of Navasota, and served 17 years as a member of the City Commission. He was also a former school board member.

Mr. Thompson was associated with the H. Schumacher Oil Works for 41 years before retiring, holding the office as manager at that time.

A brother, Howard Thompson of Sioux City, Iowa, stopped here to visit with relatives during the week end en route home from the funeral.

The trial court in Amarillo

Heavy Fines Assessed On Liquor Violations

Seventy-five dollars each and ten days in jail is what it cost two out of county motorists convicted in county court last week of driving while intoxicated, County Judge R. L. Templeton said Monday.

Another out of county man was fined \$275, including court costs, on two counts of drunkenness, and half a dozen bootleggers paid approximately \$1,800 in fines during the same period, Judge Templeton said.

The men convicted of drunk driving, one from Pampa and the other from New Mexico, automatically lost their drivers licenses, the county judge said.

The largest of the fines for bootlegging was \$500 fine with \$22.50 costs and 30 days in jail.

Money which comes in from fines goes into the general fund of Collingsworth County, to pay salaries and miscellaneous expenses of the county.

Judge Templeton added a reminder to the public at large that all convictions of drunk driving in his court automatically carry with them a jail sentence as well as a fine.

Amarillo Case Holds Amendment Unconstitutional

found the domestic court "for all intents and purposes" was a district court, the act creating it was null and void.

The appellate court, on appeal from Jordan, affirmed the decision. Associate Justice Hall, who wrote the opinion, pointed out that the act creating the domestic rela-

tions court did not set out the qualifications of the judge presiding and did not specify that the court must be held in the county seat of the county. Further, the opinion said, the judge of the domestic court was appointed, not elected, by a "small minority."

"It used to be that if the grand jury didn't indict as many as a dozen people you felt like it hadn't done anything, but now if it indicts more than three or four, we feel like it's had a lot of work. Then anyone arrested on a traffic violation would contest it and take the matter to court. Now it seems to be the idea to plead guilty and get it over with."

### More Efficient Crop Plants Due In Future

AUSTIN — In the not very distant future, better and more efficient plants will have to be substituted for many of our present crop plants, says a University of Texas scientist. University of Texas Professor W. Gordon Whaley, director of the University's Plant Research Institute and Cellulose Research Laboratory, claims that developing new types of plants will help solve the land resources problem.

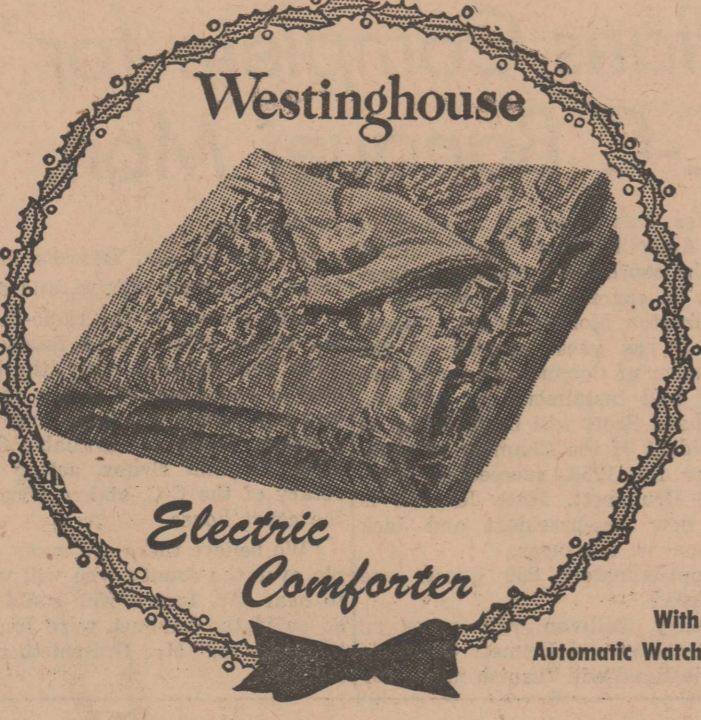

"Breeding plants to convert more energy per unit of fertility taken from the soil is a vital research problem. The present situation also calls for strenuous efforts to arrest soil erosion and loss of soil fertility and to develop a fertile top soil on the many badly-damaged land areas," Dr. Whaley says. A former U. S. Agriculture Department senior geneticist in the Plant Industry Bureau, the University of Texas botany professor says soil conservation groups often paint too dark a picture of U. S. land resources.

### HOME MOST IMPORTANT PLACE IN CHILD DEVELOPMENT, PTA TOLD

"A development in the community that is due to failure of parents as teammates is the use of automobiles by boys and girls as a malicious weapon on our streets and highways playing "ditch 'em," speeding and racing. The parents of these children are sitting at home or ignoring the most important job invested in them and letting their children impose upon society just for the fun of it," Mrs. John Lee told a group of mothers at the Elementary School Parent-Teachers Association last week.

Speaking on parents as teammates in development of children, Mrs. Lee told of those problems which come up in Wellington and other towns this size, but the most important thing, she reminded the mothers, is the part the home plays in the growth of their children.

Other highlights of Mrs. Lee's talks are given here:

Parents as teammates develop the citizens of our country of tomorrow. Teamwork begins with every parent bringing home a newborn baby from the hospital. The objective is to see that each child has maximum growth, physically, mentally and spiritually.

The first demands of a child are the physical needs of proper diet, rest and practical insurance of a healthy body. It is the duty of each parent to see that his child-

ren are safeguarded against infectious diseases through inoculation, and isolation when ill. Thus the parents work together to protect the health of all children to a degree. With the young baby, the educational development and spiritual development is started also. Beside the physical needs, the child must feel secure in his parents' affections.

After the baby has grown to the age that he can play with other children, he should be introduced to them through supervised play. With the golden rule applied, a child should be taught to respect his fellow man. The importance of the principals distilled into a child concerning his outlook upon society from his earliest contact with others of his generation cannot be stressed enough.

Some people grow up and live a whole life with the selfish nature of a small child. Parents can work together to provide the proper training for their children by seeing that they develop proper attitudes at play with other children.

The "slackers" introduce into society the unstable children who grow into the adults who can only carp and criticize, bear grudges, nurse intolerance and fail to understand or co-operate with others. Frigid wives, important hus-

bands, harsh parents, cronically sick patients, alcoholics, neurotics and the Lunatic fringe are products of improper handling by par-

ents. By the time a child starts to school, he should have the main principals of life and a healthy respect for the rights of others.

One overbearing child associated with the children on the playground at school can cause a great amount of frustration and unhappiness for the other children. This overbearing child is unhealthy association for children, just as a horror picture at the movie is improper for happy children.

It is parents' duty to see that their children choose leaders who have the proper respect for others and the principals that will safeguard them from wrong ideas and outlooks.

It becomes very important to boys and girls to do what "everybody else" is doing, whether it is good for them or not. If there were not other boys and girls in town each night, your child and mine wouldn't want to spend their evenings there instead of staying at home. When town becomes the place of recreation instead of home, the parents are slackers as teammates. Home is in competition with some fast entertainment, but with proper cooperation they can hold the interest of the young people to healthy interests.

Wellington has a recreation cen-

#### DOZIER

Most of the boll pulling would be over now if we had not had so much rainy weather last week.

Rev. Long of Shamrock filled his regular fourth Sunday appointment at the Methodist Church Sunday. With him were his wife and their two children. The family had dinner in the home of Mr. and Mrs. W. M. Davis.

A recent wedding of interest to the people here was that of Bill Bradstreet and Mrs. Susie Harvey. The couple was married in Wheeler, and they will make their home on a farm in this community.

Guests in the E. J. Schaub home were Mr. Schaub's brother, Clyde Schaub and family of Pampa.

Frank Fulcher who made his home on the E. L. Ezzell farm this year, moved to the Kirklip place east of Dozier.

Mr. and Mrs. James Paul Jones have moved to Shamrock where Mr. Jones has employment for the winter months.

Mrs. Sallie Neece of Mobeetie was a recent guest in the home of Mr. and Mrs. James Throckmorton.

The Ernest Schaub family are the proud owners of a new car.

Mr. Dan Drewry who makes his home with a niece, Mrs. Dave Kincannon, left this week to spend

ter to be proud of and was one of the first to realize that need in the community, but the center cannot supplement the home as a place to give our boys and girls the foundation for well balanced, happy people.

Psychiatrists believe that problem children mostly are not born that way. There are exceptions to the rule, but the youngster who grows up in the right atmosphere is a better bet to become a well balanced adult. Parents are the most influential control over the environment of a child, and if they follow a sound middle road — if they are firm without being harsh, patient without being over-indulgent, loving without being over-protective, they lay the best foundation for a sound emotional growth for their child.

Parents of a community are urged to investigate the activities of their children and see that they are insured a maximum growth, physically, mentally and spiritually, by a healthy environment there, and work together to provide facilities to insure our country of good democratic citizens.

### DISABLED VETERANS FILM TO APPEAR AT RITZ THEATRE

Wellington residents will soon see at the Ritz theater a 10 minute educational movie short dramatizing the story of the Disabled American Veterans.

The film, titled "How Much Do You Owe?" stars James Stewart, famous motion picture actor, and General Jonathan M. Wainwright, hero of Bataan and Corregidor.

With Jimmy Stewart contributing his services and the entire motion picture industry cooperating to make the film and its distribution possible, movie goers will see a dramatic, alive and realistic presentation of the rehabilitation of the disabled veterans.

The recent 28th national convention of the Disabled American Veterans in Cleveland unanimously adopted a resolution commending the motion picture industry for its contribution and a special citation was awarded Stewart.

The story was written by Col. Owen Crump, well known Hollywood writer and producer and was directed by Ralph Staub, able Columbia Pictures director.

Step by step, through the thread of the plot of the short, is the courageous story of the problem facing the disabled veteran. A realistic presentation is made of the problems that every community faces and the manner in which the DAV serves.

### Mrs. Sugg on Radio Program

CHICAGO, Dec. 2 — Mrs. Ethel Sugg, 73 years young, visited Tommy Bartlett's NBC "Welcome Travelers" Show in the College Inn of the Hotel Sherman today. With her were two of her daughters, Miss Jewel Sugg of Wellington, and Mrs. Jessie Crawford of Sulphur, Oklahoma. The three drove from Sulphur, Okla., to Chicago to visit "Welcome Travelers" and to see the International Livestock Exposition, and charming, vivacious Mrs. Sugg was a "natural" to appear as Tommy's guest on "Welcome Travelers." She told of marrying a cowboy when she was sixteen years old, of her ranch of 600 acres in Wellington, and what Texas was like when she went there to live at the age of eleven.

Mrs. Sugg and her daughters were Tommy's guests for luncheon at Henrici's, and were taken for a Grayline Sightseeing Tour of Chicago. Mrs. Sugg was awarded two Kay Whitney Dresses and a set of Bogoff Jewelry, and Jewel was taken over to Feurer's Fur Salon to choose a Platina Fox Fur for herself.

South America extends farther south than Africa.

Mrs. Maggie Roady of Clearwater, Calif., a former Wellington resident, is visiting here this week with her sister and brother-in-law, Mr. and Mrs. J. A. Gordon.

Mrs. Roady was brought here by her daughter and son-in-law, Mr. and Mrs. Joe Rotan, also of Clearwater, who went on to Oklahoma City to visit. The family lived here until about 15 years ago,

when they moved to Russell, Oklahoma, going from there to California seven years ago. Mrs. Rotan will be remembered here as Miss Charlene Roady.

Other visitors in the Gordon home Monday night were Mrs. Roady's brother-in-law, Johnny Morris, and Emmett Kidwell and Alvon Jackson of Shamrock.

### Mother of Mrs. Ratliff Dies

Mrs. B. E. Ratliff and little daughter, Mai Nell, returned to their home in the Cottonwood community Saturday, December 10, after several weeks in Weatherford, where they had been during the illness and death of Mrs. Ratliff's mother, Mrs. J. M. Kayser. Mr. Ratliff and sons, Ben Ray and Dale, had returned earlier in the week.

Funeral services for Mrs. Kayser were held from the First Baptist Church in Weatherford December 3. She had lived in Weatherford since 1912, but was known to many people in Collingsworth County. Although her condition had been considered critical for some five months, she had continued in relatively active church and civic work until the past few weeks. She was 77 years of age.

She was preceded in death by her husband, who was well known in Wellington and surrounding counties when he organized for Farm Bureau in the late 1920's.

Mrs. Kayser is survived by six children: Doris Kayser of Corpus Christi; Beth Kayser of Weatherford; J. Merrill Kayser of Snyder; Mrs. Ratliff of this county; Mrs. W. E. Moore of Mineral Wells; and Ray C. Kayser of Wickett. The first four of these children have been teachers in the Collingsworth County schools.

Three Former Managers Here Officials

Ritz and Texan Sold To Vido Theatres Co.

Griffith Theaters in 47 towns in Oklahoma and Texas have been acquired by Video Independent Theaters, Inc., an Oklahoma company headed by eight former employees, it was announced today by W. T. Spears, Altus, Griffith vice-president.

The transaction, which became effective December 1, includes the Ritz and Texan theaters in Wellington, and a drive-in theater to be constructed by spring.

Spears said the transaction was necessary due to the retirement of L. C. Griffith, president, in September, 1946, because of a serious illness, and the death of Vice-President Harry M. Lowenstein, Ardmore, on August 18 of this year.

Spears declined to reveal the amount of the financial consideration involved.

Claude O. Fulgham, Oklahoma City, vice-president of Video Independent Theaters, Inc., announced simultaneously that all employees of the theaters will be retained and have been placed on Video payrolls.

Fulgham said that no immediate changes in resident management or operation policies are to be made here, which means that Manager Emmett Passmore will continue to be in full and independent control of the local operation.

Every employee, regardless of his position in the new company, who has or attains five years of uninterrupted service will be eligible to participate in the profits of Video theaters, the spokesman said.

A broad new employees' welfare program has been adopted, at no cost to the employees, and includes retirement pensions, disability and health benefits, and life insurance, in addition to the profit sharing plan, he explained.

Former employees, all but two of them with more than 20 years service, effected their resignations with Griffith Theaters to form Video Independent Theaters, Inc., and acquire the properties.

Stockholders for Video include Henry S. Griffing, president; Fulgham and Claude F. Motley, vice-presidents; Charles R. Guthrie, secretary-treasurer; Kenneth C. Blackledge, William B. Turk, Paul E. Cornwell, and Louise Wesson, directors, all of Oklahoma City. Blackledge, Turk and Cornwell formerly were managers of the Ritz and Texan.

This transaction with Video Independent Theaters has nothing to do with the litigation of the Griffith organization pending in a government anti-trust suit, Spears pointed out.

The defense of this suit will continue until final determination by the courts, he stated. "It is a transaction brought about by a natural development in the interest of the employees," Spears said.

"The transaction is a great satisfaction to the Griffith company and its founders because it is a reward to employees.

"The acquisition of Griffith properties on the part of Video employees is in fulfillment of plans made some years ago by L. C. Griffith," Spears concluded.

Founded with one theater in San Marcos, Tex., in 1915 by three brothers, L. C., R. E. and H. J. Griffith, the organization grew to be one of the largest combined circuits in the country, containing approximately 400 theaters.

Upon the withdrawal in 1938 of H. J. Griffith to form his own theater circuit in Kansas, Missouri, Nebraska and California, with headquarters in Kansas City, and with the death of R. E. Griffith

EDITORIAL COMMENT — THE WELLINGTON LEADER  
Thursday, December 15, 1949

So The People May Know

Do the educational and experience qualifications of the faculty of a school have anything to do with the actual amount of locally raised money for a school program? Can a school district like Wellington Independent School District afford to select teachers with high qualifications under the Minimum Foundation School Program plan of financing? It is true that a teacher with a Master's Degree and twenty six years of experience qualifies for a salary of \$4032.00 per year, and it is true that a beginning teacher with a Bachelor's Degree qualifies for \$2403.00 per annum. The question is, does the selection of the teacher with high qualifications to teach in the Wellington system of public schools cost the Wellington District more in locally raised money than the selection of the teacher of low qualifications. An understanding of Senate Bill 116, 51st Legislature proves conclusively that the amount of locally raised money will be the same regardless of the qualifications of the faculty members in the school.

How is the Minimum Foundation School Program for schools financed? A description of the financial provisions for our school program under the new state program can be found in Article VI of Senate Bill 116, as enacted by the Fifty-First Legislature. According to this reference, total monies for operation of the school comes from these three sources:

1. An equalized local school district effort.

(The total amount which shall be furnished by all counties in the state was set at \$45,000,000.00. An "economic index" of the financial ability of each county within the state will determine the proportionate amount of this \$45,000,000.00 that must be raised within each county for the support of the schools within that county. The economic index for Collingsworth County is .123 per cent. This means that all school districts in Collingsworth County together will raise approximately \$55,000.00 for the schools within the county for the school year of 1949-50. Does this have anything to do with the qualifications of the teachers in the Wellington schools? The answer is plainly, "No." The amount to be raised will be \$55,000.00 regardless of the qualifications of the teachers.)

2. Distribution of the State and Coun-

ty Available School Funds on the basis of the number of scholastics.

(Does this have anything to do with the qualifications of the teachers in Wellington schools? The answer, again is "No." The number of scholastics is the same regardless of the qualifications of teachers.)

3. Allocation to each local district a sum of state money appropriated to finance the remaining costs of the Foundation School Program.

(Wellington will compute the total cost of the school program in accordance with the provisions of the Minimum Foundation School Program Act—Senate Bill 116. On the basis of the Average Daily Attendance of the children in the Wellington Schools, the Wellington Schools will qualify for a certain number of "professional units". Each professional unit may be filled with a teacher, principal, supervisor, etc., regardless of the qualifications of each person so long as his qualifications meet with the minimum standards set by the state. On the basis of Average Daily Attendance, units for operational costs, maintenance costs, etc., will also be computed. Transportation costs will be added. All of these costs added into one figure will make up the total amount necessary to provide Minimum Foundation School Program for the children in the Wellington District. Summarizing, here is the formula showing the sources for the total receipts of the school district:

1. Local Funds (the amount decided by the economic index.)

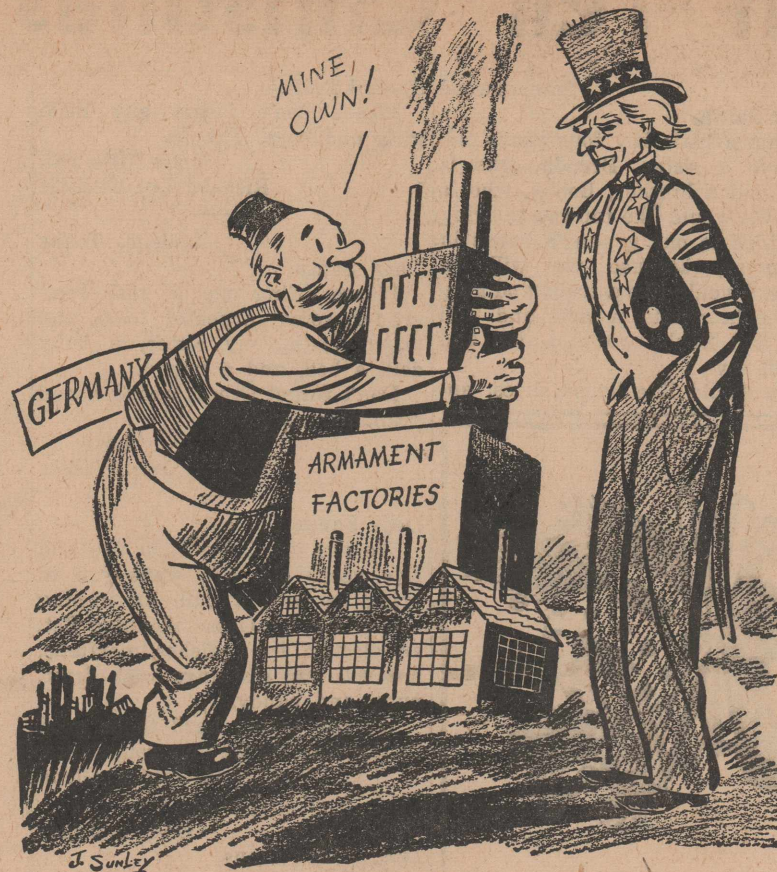

2. State and County Available Funds (the amount determined by the number of scholastics in the district.)

3. Minimum Foundation School Program Fund (Determined by need.)

The first two amounts—Local Funds and Available Funds—are added together and compared to the total cost of running the school as figured by the provisions of the Minimum Foundation School Program is the sum which will be received from the Minimum Foundation School Program Fund.)

In conclusion, we repeat that the locally-raised money for the operation of Wellington Schools will be the same regardless of whether or not teachers of high qualifications or low qualifications are selected on the faculty. The purpose of the Minimum Foundation School Program Fund is to equalize opportunity for a high grade of education for all children in the state.

Editor's note: The Buck Creek Philosopher on his Johnson grass farm has been reading the papers again, his letter this week indicates. We doubt if it does him any good.

Dear editor:

I noticed in a newspaper which was wrapped around a pair of shoes I had half-soled year before last and finally got around to pickin' em up in town Saturday where another Congressman has gotten into trouble and while I don't reckon the percentage of Congressmen running afoul of the law is half as great as the percentage of ordinary folks, I was interested in what this Congressman had to say.

When he was confronted with the evidence of gettin' the government's money mixed up with his, he pleaded "nolo contendere" and threw himself on the mercy of the court.

As I understand this, it means "I ain't sayin' whether I'm guilty or not, but go ahead and sentence me." In other words, the Congressman is too busy a man to argue about it, which is gettin' pretty busy. I understand also this Congressman didn't mind bein' convicted but he hated like all get-out to be sent to jail because a jail term would ruin his reputation as a lawyer. Will take this up with my lawyer friends the next time I'm in town.

I hadn't realized it, but I've had that Congressional trait myself for years. Many's the time my wife, confronted with what a lawyer probably would call misappropriation of egg money, would unwind her tongue and if I had been of less than Congressional stature this part of the country would have had a big argument, but I've found long ago the best way is not to argue.

"Nolo contendere" is a great phrase, inside of Congress or out. Just the other day one of my neighbors was in a belligerent mood, tryin' to say I borrowed his copy of The Wellington Leader out of his mail box, and I told him right off the thing ain't worth arguin' about. Admit nothin' and keep

walkin', is my policy. When my cow gets over in a neighbor's pasture and he says I've got to fix my fence, I don't argue about it. I don't fix the fence neither, but it saves a lot of unpleasantness at the time.

I even tried this on a banker once, when he was contendin' my note was due, but he was the most un-Congressional man I've ever seen and didn't take to my method at all.

Yours faithfully,  
J. A.

Israel Learned That God Is Everywhere

Somewhere there's the story of an atheist, who, in that mistaken zeal which makes a sort of religion out of atheism, had set up a sign in his home. "God Is Nowhere," in letters of equal size; but when he asked his little daughter to read it, she read it, "God Is Now Here."

God was there, and He is everywhere. Jesus said to the Woman of Samaria that the hour was coming when men should worship the Father, neither in the temple at Jerusalem, nor in the mountain of Samaria; that God is a spirit, and that they that worship Him must worship Him in spirit and in truth.

That Spirit is as ever present and universal as are light and radio waves in the physical world.

But men of religion, even in Israel, did not always so know God, and apprehend Him. To those of lesser faith and vision He seemed the God of Israel, but not the God of the whole world, and with such limited and localized conceptions of God and worship it was easy for the people to fall into that idolatry which was an ever-present peril and curse.

But what hope and faith were there for a people in exile, cast away from their homeland and their holy city and temple? The prophet Jeremiah saw his people in that disastrous situation, the great mass of them carried off into exile by the Babylonian conquerors, though he himself was in the remnant that found refuge in Egypt.

As a matter of fact that period of the exile in Babylon became a glorious epoch in the religion of Israel. Out of it came great prophecies, like that of Ezekiel, and the later chapters of the book of Isaiah, with their vision, not only of a restored Israel, but of a transformed and glorified Israel.

It was out of this Israel, recreated through suffering and sacrifice, that the Messiah came. And that leads us to the Christmas story.

"First-Footing," a Scottish custom, means that the first person to visit you on New Year's day must bring a bottle and give you a drink for good luck.

Filming History

Down at Austin the State Library has inaugurated a program which should meet the approval of every Texan. It is going to put the priceless documents of early Texas history on micro-film, and eventually the film will be available to schools and others for showing. The project as begun so far, extends only back to the documents, letters, and other writings pertaining to the Constitutional Convention of 1875.

Most of the documents in the early days of Texas, as in the United States, are in the hand-writing of the great men of the time. Eventually, all Texans will have an opportunity to see, in their own handwriting, the notable expressions of such men as Sam Houston, first President of the Republic and first Governor of the State, President Mirabeau B. Lamar, the father of the Texas educational system, and others.

Also some day history students will read the originals of Colonel William

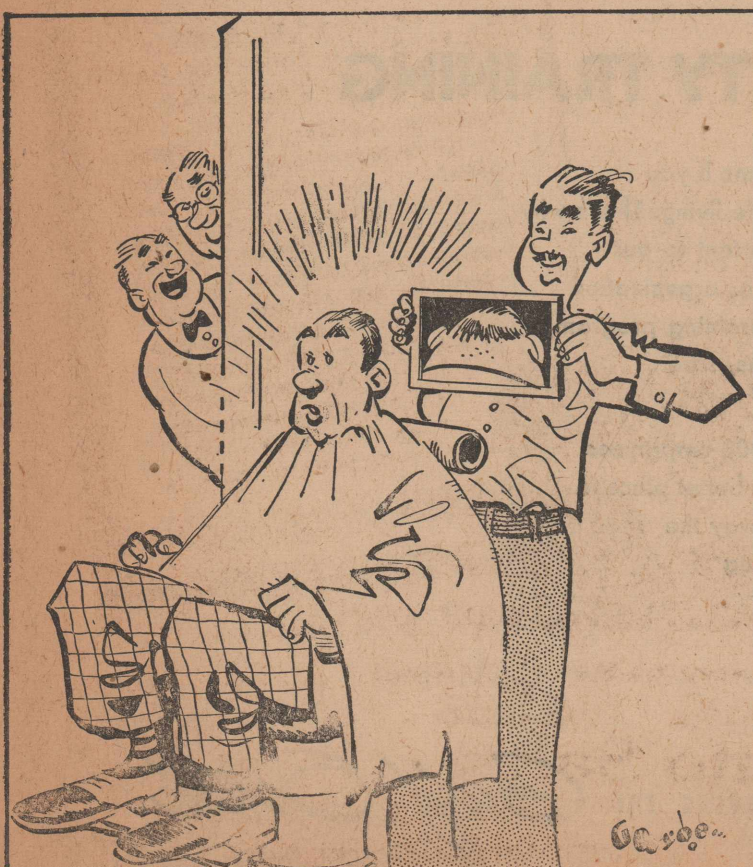

Barret Travis' famous and inspiring letters smuggled out of the Alamo while it was besieged; the orders of Sam Houston as he drew the lines for the battle of San Jacinto; the letters of Stephen F. Austin, imploring aid from the United States as Mexico renewed the war and again threatened Texas.

The State Capitol is filled with priceless documents pertaining to the establishment of the Republic and later Statehood, and the Legislature should provide funds for putting all these on micro-film, that the future generations may have free access to them. At present, these papers are piled helter-skelter in the basement of the capitol, the sport of rats and other vermin and in constant danger from fire — Amarillo News.

### Correct Treatment Can Restore Many Mental Patients

AUSTIN — Texas taxpayers are paying "room and board" for mental patients who could have been returned to society decades ago.

The overworked staffs of Texas mental institutions, handicapped by lack of time, space, and equipment, are unable to take full advantage of scientific means of "re-socializing" their patients.

Because of this, hundreds of mild mental cases turn into lifetime "state boarders."

This lesson in economy was emphasized to members of the recent press tour of State institutions.

According to Dr. A. T. Harretta, superintendent of the Austin State Hospital, the current cost of a year's care for one of his 3,200 mental patients is \$515.88. This is double the per capita cost four years ago.

Correct treatment can restore half the State's costly mental wards to normal life, Dr. C. L. Jackson, Rusk hospital head, believes. But lack of funds bars the way to this achievement, and Texas mental hospital is increasing daily.

Average daily population of the Austin hospital has climbed 700 in 12 years. San Antonio's institutions accepted 856 patients last year while discharging only 649.

While inspecting the institutions the newspapermen repeatedly saw conditions which not only were doing the patients no good, but obviously were speeding up their mental decay.

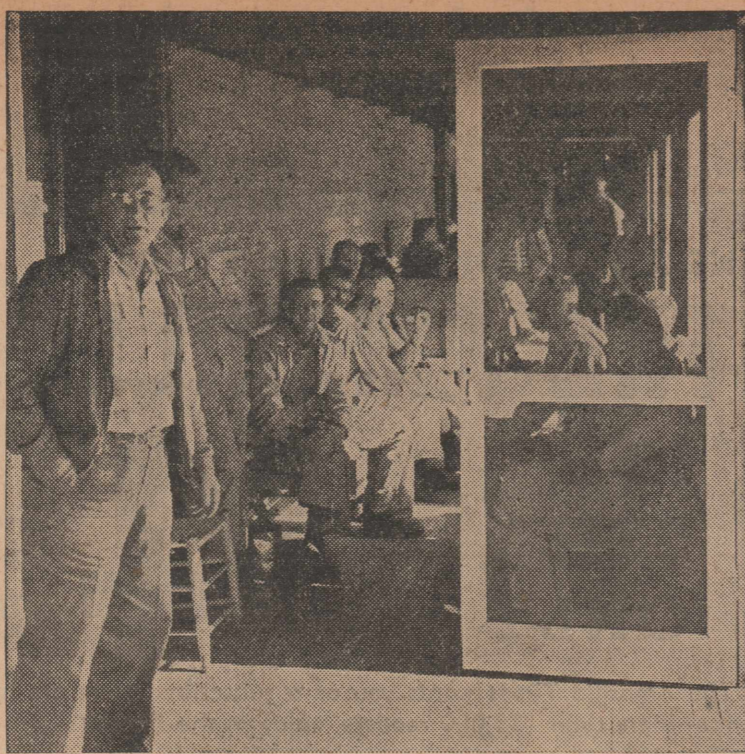

New admittance, capable of recovery in a matter of months, were seen thrown into close association with hopeless, violent cases of insanity. In this sort of situation, insanity can be called "contagious."

Dimly-lit "day rooms" were filled with further evidence of "rooms" were jammed with brooding patients, backs bent and heads drooped to knee-level.

"They're thinking about themselves," an attendant volunteered. "They sit like this because there's nothing else here for them to do."

Staff physicians explained methods used in restoring non-acute patients to society.

Electric and insulin shock treatments can clear the minds of a majority of mental cases. More often than not, however, doctors don't have time to give the treat-

ments. Psycho-therapy, called "personal work" by attendants, consists of interviewing patients, diagnosing their disorders, and clearing their minds through persuasion. Psycho-therapy is work for psychiatrists, but psychiatrists are scarce at State salaries. San Antonio, with 2,927 patients, has only 4 psychiatrists.

Occupational therapy (job training) takes brooding patients out of the "day rooms" and puts them to work. This gives them self-confidence and a "will to get well." "Occupational therapy is far more important than giving a pill," Rusk's Dr. Jackson declared.

But at Abilene, only 90 of 1,351 patients get occupational therapy, and in Austin, 25 per cent more patients are capable of benefiting from it if they had the chance.

Church services and recreation also are big steps toward the "outside." But Rusk State Hospital is the only institution having a suitable building for worship and play, and it is overcrowded.

Representatives of the hospitals will be explaining the economics of "room and board" for mental patients to the Legislature when it meets in special session in January.

The hospitalmen will try to convince the lawmakers that it is economical to spend money for re-socializing "State boarders."

### No Prospect for Drop in Living Expense in 1950

COLLEGE STATION — Over-all family living expenditures are not expected to drop as fast or as much as the over-all farm income. That is what the experts see in the crystal ball for 1950. Food supplies in general are a little larger than a year ago and food consumption per capita is expected to remain near the 1949 level or may go even higher according to Mrs. Florence Low, extension home management specialist of Texas A. and M. College.

Consumer purchases of food should be encouraged by the plentiful and varied supply and by the lower retail prices that now appear likely for the year. The prices received by the farmer for the food products are expected to decline more than the prices the consumer will have to pay.

Mrs. Low reports that prices paid by farmers for clothing declined 7 percent from the postwar high of September 1948 to June 1949. Further drops in clothing prices seem to hinge on what may happen to the general economic situation she says. The retail supplies of clothing should be generally good during 1950, however, should the downward trend in prices continue, retailers, wholesalers and manufacturers may continue their cautious buying and this in turn may cause temporary shortages to develop from time to time.

The demand for clothing remained at a high level during most of 1949 and indications are good for this to continue, especially, if incomes continue to be high. Declines will probably be noticed first in the so-called "style" articles of clothing, says Mrs. Low.

Supplies of household equipment and furnishings should be adequate. There is a slow but certain movement from a seller's to a buyer's market for many of the durable goods and families are now able to purchase many items at prices somewhat lower than for last year. Standard models are being bought in many lines of household equipment in preference to the deluxe models because primarily of the difference in prices, says Mrs. Low. The consumer demand she

nomical to spend money for re-socializing "State boarders."

### Accidents Leading Cause of Death in America

CHICAGO — Are accidents now the leading cause of death in America?

In a sense — yes. That is the statement made in the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council.

Accidents take a greater toll of productive years than any one natural cause of death, according to a study of the American Medical Association.

More actual deaths still are caused by heart disease, cancer and cerebral hemorrhage. But the report points out that such deaths usually befall older persons after their working lifetimes are ended. In the usual working age span of 20 to 65, accidents claimed 1-

thinks will determine the available supply of most household equipment.

750,000 work years; heart disease, 1,680,000; pneumonia, 1,110,000, and cancer, 1,040,000.

## KIWANIANS INSTALL OFFICERS AT ANNUAL BANQUET THURSDAY

Officers of the Kiwanis Club for 1950 were installed Thursday night, December 8, at the annual banquet and ladies night. John Coleman took over the presidency from Jack Gibson, while other new officers included Fleet Pruden, first vice president; Howard Oliphint, second vice-president; Warland Brummett, treasurer; Lester Smith, secretary; and Millard Brown, L. B. Bratten, Cicero Guley, Joe Terry, Blayne Branum, W. D. Crawford, Dr. Tom Hunter, J. M. Moore and William W. McClaskey, directors.

The installing officer and guest speaker was T. W. Gilstrap of Amarillo, lieutenant governor elect of Division Six, Kiwanis International.

After speaking humorously for a short time, Mr. Gilstrap turned to the more serious part of his talk, and stressed again and again the worth of the individual.

"Leadership is not chosen for us. Brains are not placed as they are in many other countries," he told the group. It is not committees or groups that get things done, although co-operation is important, whether it is in Kiwanis or on a national basis, he pointed out. "Our standard of living is raised by the individual," he commented.

One of the highlights of the evening was the presentation of attendance awards. To Joe Terry went the award for having nine years perfect attendance, while Morris Reed had completed eight years; Fleet Pruden, J. W. Holder and Judge Howard Riggs seven years; and Cameron Beam, Jimmie Kelso, and Mayor Ernest Law-

son, six years. Receiving pens for four years attendance was Dr. J. M. Orr; two years perfect attendance, Blayne Branum, L. B. Bratten, Millard Brown, Bob Leggett and J. M. Moore. Receiving one year pens were Warland Brummett, John Coleman, Jack Gibson, Hubert Mauldin, William W. McClaskey, Mack Saied, Duard Scott and D. W. Crawford.

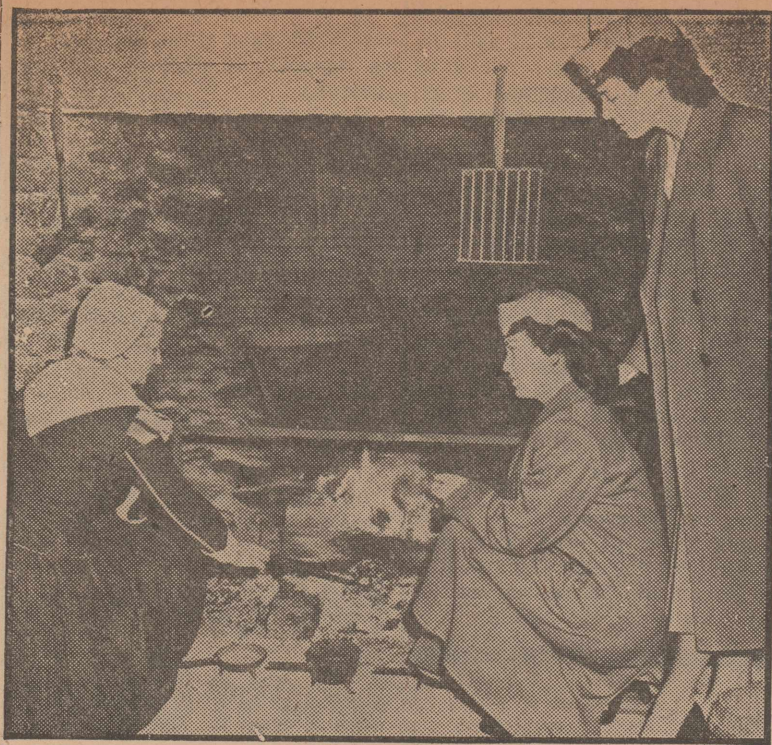

Musical entertainment was given by Amarillo Kiwanis Club Quartet and Bennett Goodloe and his Aggie Band. Howard Riggs served as master of ceremonies.

Outgoing officers and directors, in addition to Mr. Gibson, were Bob Leggett, first vice president; Emmett Passmore, second vice president; L. B. Bratten, secretary; Warland Brummett, treasurer; and Duard Scott, J. W. Thomas, Howard Riggs, Guy Clay and Truman Lindsey, directors.

Badges were presented members of the Schoolboy Patrol, who with members of the Key Club and their dates were guests of the Kiwanians.

Receiving the Patrol badges were Captains Calvin Hiett and Jimmy Strickland; Lieutenants Donald Green and Truman Judd; and Patrolmen Billy Ray Branch, Billie Pat Swift, Rondel Havron, Don Scott, LeRoy Belew, D. W. Caison, Richard McSpadden, Tommy Tollegg, Ronald Judd and Tommy Bryant.

Mr. and Mrs. Jess Lawson and children, Dick and Mollie of Dalt-hart spent the week end with her parents, Mr. and Mrs. A. T. Smith. Mrs. Lawson and children remained for a weeks visit.

## Ritz Film Brings Back Memories of The Twenties

"You're My Everything," a song and dance delight in Technicolor, comes to the Ritz Theatre Wednesday and Thursday, December 21 and 22. For those who remember the flamboyant twenties — the days of the bunny hug coats, bangs and spit curls, and flappers with painted knees — the picture was a memorable occasion and for the youngsters, the peek behind the scenes at Hollywood between the years 1924 and 1938 was a thrilling experience.

Through the medium of the love affair between the Dan Dailey, as a singing hooper, and Anne Baxter in the role of a Boston Blue-Blood, who becomes the great "Hotcha Girl" of the silent screen, the span of years from the last days of vaudeville and the golden era of the silent screen until it gave way to the "talkies" has been recounted.

The story, a delightful one because of its light heartedness, of that fabulous period continues

with the child-star craze of the mid-thirties. As the daughter of Anne Baxter and Dan Dailey, Shari Robinson, a 10-year-old moppet from Indianapolis in her first screen role, recreates the illusion of Shirley Temple with such old songs as "On The Good Ship Lollipop" and the "Staircase Dance," as well as some new ones including "I Want to Be Teacher's Pet." Anne Revere, with a side-long wink at old Boston, brings an extra touch of warmth to the picture already brimming with happiness and gaiety.

One of the most amusing and realistic sequences in "You're My Everything" is the silent, black and white film that the producers wisely inserted. In it Anne Baxter does an impersonation of Clara Bow doing the Charleston and Buster Keaton, Jack Mulhall, Charles Morton and Stuart Holmes, luminaries of the silent films, add to the realism by their presence. This silent reel is a vivid contrast to the color and music which dominates the picture and provides a real saga of Hollywood in its subtitle days.

There are sixteen songs and seven dances in the picture to tickle your risibilities, from the title tune to "Chicago," "California Here I Come," "I May Be Wrong," and "I Can't Begin to Tell You." Twentieth Century-Fox always has been a leader in the production of hit musicals and Director Walter Lang and Producer Lamar Trotti certainly upheld their studio's tradition with this one.

## Capps on Chicago Radio Program

CHICAGO, Nov. 30 — It was a happy day for the Capps family of Pantex, Texas, formerly of Wellington, today on the Tommy Bartlett "Welcome Travelers" Radio Show. Mr. and Mrs. Capps had just gotten their two months old daughter, Nancy, from the Children's Memorial Hospital here in Chicago where she had successfully undergone a delicate stomach operation and they were en route back to their farm in Pantex when they stopped off to see the "Welcome Travelers" Show.

When Emcee Tommy Bartlett interviewed them on the air, Mr. Capp told the interesting story of his capture by the Japanese on Wake Island at the start of World War II and his subsequent 44 months imprisonment in a Japanese Prisoner of War Camp. Following his release from Camp, Mr. Capp returned to this country where he married his school sweetheart in 1946. The Capps have a two year old son, Dickie, in addition to their daughter, Nancy.

As remembrance gifts from the program, Mr. Capps received a storm coat, Mrs. Capps was presented with two stylish dresses, and the children received a set of toy chimes and a baby carriage.

## I. W. Tinneys Build Home on Childress

Mr. and Mrs. I. W. Tinney have begun construction of a five room frame house at 1410 Childress St.

The house will be white with blue trim, and knotty pine will be used on the gable end facing the street, Mr. Tinney said. They plan to use a textone finish for the interior.

Mr. Tinney has been employed by Harry Parsons in construction work, and is doing most of the building of his own home himself. The foundation is laid, and the walls will be put up within a short time.

The family hopes to have the house finished by March.

Mr. Tinney came here in 1918, and except for seven years, has made it his home since. Mr. and Mrs. Tinney have three children, Bobby, Don and Sue.

## Baumgardner on List of Who's Who Students

Marion F. Baumgardner, son of Mr. and Mrs. Joe B. Baumgardner, who live south of Wellington, is one of 21 Texas Tech students chosen by a selection committee to represent Tech in the 1949-50 Who's Who in American Colleges and Universities.

James G. Allen chairman of the committee, said the choices were

made on the basis of "the student's excellence and sincerity in scholarship; his leadership and participation in extra-curricular and academic activities; his citizenship and service to school; his promise of future usefulness to business and society."

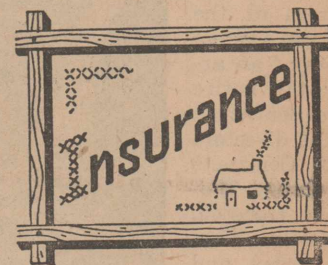

The students will be honored in LaVentana, student yearbook, and will receive certificates from the Who's Who publication.

Baumgardner was the only student from this section of the Pan-handle to be honored.

Baseball's American League was founded in 1900.

D. M. Shanks was taken to an eye clinic in Amarillo last week, where doctors told him he will have to undergo an operation for the removal of cataracts from his eyes. Taking him to Amarillo were his children, Miss Lavonia Shanks and Mr. and Mrs. Cecil Shanks.

### A&M College Lets Contract for Nine Million Program

COLLEGE STATION — Contracts with four Texas agricultural firms to handle parts of the \$9,000,000 building program of the Texas A. and M. College System and to serve as members of an architectural council for the entire building program were confirmed by the System's board of directors meeting here Nov. 23. Contracts were approved with Herbert Voelker and Associates of Houston, Tatum and Quade of Dallas, Norton and Mayfield of Bryan and Wyatt C. Hedrick of Fort Worth.

Voelker will plan the college administration building for A. and M. College at College Station. The building is to have 6,000 square feet of floor space and is to be located near the center of the A. and M. College campus. It is expected to cost in the neighborhood of \$375,000, equipped.

Tatum and Quade will be architects for the Engineering building at Arlington State College, Arlington. With approximately 40,000 square feet of floor space, it is expected to cost some \$470,000.

Norton and Mayfield are to plan the Animal industries building at Prairie View A. and M. College, Prairie View, a building with 30,000 square feet of floor space, costing \$262,000.

Hedrick was named architect for the 34,000 square foot Agricultural building at Tarleton State College, Stephenville, which is expected to cost around \$375,000.

A member from each firm will serve on an architects' council with the A. and M. System Architect, A. and M. College Architect and head of the department of Architecture of A. and M. College. The Council will serve in an advisory capacity throughout the entire \$9,000,000 building program. The board appropriated \$144,800 for plans and preliminary expense on buildings and improvements authorized for the early stages of the construction program. Included in this group were farm layouts, roads and sewers, an Administration building, Electrical Engineering building wing, Veterinary Hospital unit and an addition to Francis Hall for the department of Business and Accounting at A. and M. College; boiler and steam line extensions and an Engineering building at Arlington State College; Plant and Animal Industries building and Engineering building at Prairie View A. and M. College and utilities, sidewalks and miscellaneous installations at Tarleton State College.

The board authorized expenditures of \$6,000 for new projects and completion of old ones on the A. and M. College campus. \$110,000 was for remodeling of Francis Hall to accommodate the growing department of Business and Accounting. Francis Hall, now used by Veterinary Medicine and Agronomy classes, will be remodeled and enlarged by the addition of a wing.

Contract with R. D. Harrell, Inc., of Los Angeles for supervising the interior decorating and furnishing of the Memorial Student Center was confirmed. The fee is \$20,000. An appropriation of \$371,627 for furnishing and equipment of the building was made. The sum of \$94,233 was appropriated for initial equipment of the Biological Science building, also under construction on the A. and M. campus. Completion of water and sewer lines on the main campus drew an appropriation of \$4,997.99.

Award of contract for construction of a new Science building wing at Tarleton State College, Stephenville to A. W. Brunson of Dallas on a low bid of \$112,387 was confirmed. The original allocation of \$150,000 for this project was reduced to \$119,000. The board appropriated \$20,000 for construction of a cinder track at Tarleton State College, and authorized the Chancellor to receive bids and award contracts.

### Don't Let Your Autumn Leaves Go Up in Smoke

COLLEGE STATION — Every fall tons of leaves go up in smoke instead of being saved for use later in the vegetable garden, flower beds or for mulches on the trees and shrubs. Burning is an easy but wasteful way to tidy up the home premises of fallen leaves but it is not the best, says Sadie Hatfield, extension specialist in landscape gardening of Texas A. & M. College. She says it takes little trouble or space to make a compost pile and when the leaves decay into humus or leaf mold, you not only have organic matter that has fertilizing value but, more important, it adds to the water holding capacity of the soil and makes it easier to work.

Making a compost pile may seem complicated to the amateur but it can be simple. A stack of leaves held down by boards or a layer of soil will decay in two or three years but this can be hastened by turning the pile over occasionally with the spading fork and keeping it moist. She says leaves and similar grass and garden trash will decay even faster if the pile is made of alternate layers of leaves and rich soil. It is a good idea to mix in some nitrogen fertilizer or manure if it is available, she adds. Wood ashes from the fireplace may be mixed with the leaves. Use about a pound of ashes for every 20 to 25 pounds of leaves.

She says that leaves make a good fall mulch for the bulb beds and for trees or shrubs. Apply the leaves before the ground is frozen as a protection against heavy freezing and against starting of growth during warm spells in winter.

### VA Waivers Health Requirements For GI Insurance

World War II veterans with service-connected disabilities were reminded by Veterans Administration today of an important deadline in connection with their entitlement to National Service Life Insurance.

Prior to January 1, 1950, such disabilities actually incurred in Service between October 8, 1940, and September 2, 1945, if less than total in degree, are disregarded in determining eligibility under the health requirements for National Service Life Insurance purposes.

This means that veterans who might not otherwise qualify for life insurance for health reasons may reinstate lapsed National Service Life Insurance or buy new or additional insurance up to the \$10,000 maximum if they apply before the end of the year.

A physical examination is required, however, for all insurance applied for under this special provision. Such examinations are made by Veterans Administration without cost to the veteran.

### Pop Corn Boom May Be Landfall To South Plains

LUBBOCK — There's an outside chance that South Plains farmers may be able to cash in on the current pop corn "boom" which has theatergoers plunking down dimes whenever they enter a movie.

The landfall to West Texas farmers may come through the development and use of "pop sorghum" — it's just like pop corn only smaller, more tender and has no husk. In other words, all the joy of popcorn-eating — without the husks between the teeth — is in store for kernel-munchers.

The plant industry department at Texas Technological college reports that the pop sorghum has been developed by the Texas Agriculture Experiment station and might catch on with the public. Observers say the texture of pop sorghum is better than pop corn's. Furthermore, it has a good "Expansion coefficient." Simply told, it expands the kernel about as well as pop corn.

South Plains farmers could grow the cross-bred sorghum without using irrigated lands. Pop corn is
