THE KANSAS CITY STOCK YARDS,

KANSAS CITY, MO.

Are by far the most commodious and best appointed yards in the Missouri Valley, with unlimited capacity for feeding, weighing and shipping cattle, hogs, sheep, horses and mules. No yards are better watered, and in none is there a better system of drainage.

CONVENIENTLY LOCATED

As regards other markets and the grass grazing grounds of the West and Southwest. The trains on the

Union Pacific,
Kansas City, Fort Scott & Gulf,
Missouri Pacific,
Missouri, Kansas & Texas,
Wabash, St. Louis & Pacific,
Atchison, Topeka & Santa Fe,
Kansas City, Lawrence & Southern,
Hannibal & St. Joseph,
Kansas City, St. Joe & Council Bluffs,
The Chicago & Alton
And Chicago, Rock Island & Pacific

run into these yards, giving easy access by short and quick all rail routes to the great markets of the North and East, and to the great feeding grounds of Nebraska, Kansas, Missouri, Iowa and Illinois. Buyers from those markets are always in attendance during the season, and it is acknowledged by all that comparatively higher prices are realized here than in the markets East. All the roads from the West and the South run directly through the yards, thus affording the best accommodations possible for those coming from the great grazing grounds of Texas, Colorado, New Mexico and Kansas. The company have erected a large, modern, brick exchange building, including 24 offices for commission men, a barber shop, saloon and restaurant, and two banking offices, one of which is occupied by the Bank of Kansas City, the other by the Merchants National. Parties wishing to improve their stock will find blooded stock here at all times. There are two sales a year of the finest blooded stock in Kentucky, from the choicest and best herds in the state. The business of the yards is done systematically, and with the utmost promptness, so that there is no delay, and no clashing. In short, these yards are

DRY, ROOMY AND CONVENIENT

in every sense of the word, and here cattlemen have found and will continue to find, that they get all their cattle and hogs are worth, with the least possible delay.

HORSE AND MULE MARKET.

There is established in connection with the yards an extensive Horse and Mule market, S. S. Grant, Manager, and J. W. Gorham, Secretary, where this class of stock can always be found in large numbers.

C. F. MORSE, General Manager. [March-16-1y] E. E. RICHARDSON, Ass't. Treas. and Ass't Sec.

THE McCORMICK Harvesting Machine Comp'y

—MANUFACTURES—
Reapers, Mowers, Harvesters, Twine and Wire Binders.

The McCormick Binder

Is an attachment to the **McCormick Harvester**, and can be put on either our five and a quarter or six and a quarter feet cut machine. One man and two horses are required to operate it, yet we furnish a three-horse evener with each Harvester, so that three horses abreast may be used, if desirable. The Harvester and Binder cuts and binds the grain, and has both wire and twine Binding Attachments.

The McCormick Iron Mower

Is a four feet, front-cut, jointed-bar machine, and weighs complete, ready for the field, 580 pounds. Its gearing is simple in construction, and at the same time powerful and very durable; it is encased in a cast-iron box, and is thus kept clean and free from all mud and dust. The doubletree is coupled by rods direct to the cutter-bar, thus bringing the team close to the draft, and obviating all side draft—thus the wheels of our Iron Mower cannot be raised from the ground in heavy, bad cutting. It is, in fine, the most complete, durable, light-running and effective Mower that has ever been put into a field of grass; and while is has all the advantages of a rear-cut machine, yet it secures the perfect safety of the driver.

The McCormick Dropper

Is a front cut machine, **Reaper and Mower Combined**, light draft and easily handled, and the only front cut machine that does not have any weight on the horses' necks.

The McCormick Self-Rake

Is an Iron Frame Machine, cuts five feet and six inches as a reaper, and four feet and three inches as a mower. Has a controllable rake and is a light draft machine.

☞Examine our goods before buying. All Machinery sold UNDER A GUARANTEE.☜

Send for price-list and terms. Agents in all principal towns in the state, where our goods can be seen. THE McCORMICK HARVESTING MACHINE COMPANY keep constantly on hand with their authorized agents, throughout all parts of the United States, WELL ASSORTED STOCKS OF REPAIR PARTS, for their various machines.

McMULLEN COUNTY.

Grass Cattle. Improvements of Long-Horns.

TILDEN, Tex., March 8, 1882.

On the 6th instant, this section was visited by a very heavy rain, which began at dark and continued through the greater part of the night—nor have we had a peep at the face of "Old Sol" since; but a cold northeast wind, accompanied by a disagreeable drizzling rain has prevailed up to this date. With an excellent season in the ground and the grass already far advanced, we are assured of a good spring range and fat stock. Cattle are in good shape and the round-up progressing favorably, and unless unfavorable weather should prevent, the beef cattle of this vicinity will be on the trail by the 20th prox. and the boys will be able to handle the ducats. Taking a retrospective view of the stock interest of this section for the last twelve months, we find it has been very prosperous. Losses in either cattle, sheep or horses have been merely nominal. May the next twelve months be as propitious, and the future presages nothing to discourage our hope.

The improvement of our native cattle seems to be attracting considerable attention throughout the country, and the pioneers in this laudable enterprise appear sanguine of success. Yet we occasionally find parties far behind the spirit of the age, who still advocate the scrub as the only class of cattle suitable to our climate, though experience has fully demonstrated the fact that any of the improved breeds, Shorthorns, Herefords or Devons, not only produce an excellent crop upon our native long-horns, but thrive remarkably well upon our nutritious grasses. The coast counties are not, perhaps, suitable to the breeding of the higher strains of either horses or cattle, from the fact that thin skinned animals can not endure mesquitoes and flies, nor the heat of summer, nor storms of winter upon those shadeless and unprotected prairies. But wherever an immunity from these conditions are found, there is surely no reason why we should not be able to rear successfully any of the better class of stock. It will not suffice to say the long-horn is good enough; this progressive age demands the best of everything. The butcher is fully abreast in the march of progress, and pays his cash for the bullock that promises the best steaks and most savory roasts. In a financial point of view we are urged to grade up our long-horns. It requires no more grass to produce a bullock that will weigh twelve or fourteen hundred pounds, than one that will only weigh eight or nine hundred. Under the old regime, when stockmen grazed their herds upon the lands of others without renumeration to the owners, the matter of range was of but little moment, but that day is gone or rapidly passing away, and henceforth the question of range will prove an important factor in the breeding of live stock. The day is upon us when it becomes necessary to economize in the matter of range. This we must do by grading up our herds—giving more attention to quality than to quantity—thus making the same number of acres support double or treble the value in stock. At the present market prices the difference in the value of a car load—allowing twenty to the car—of improved twelve hundred pound bullocks and the same number of long-horn nine hundred pound steers, amounts to the handsome sum of about $400. This sum invested in good bulls would be the means of crossing several hundred head of long-horns. Good Short-horn calves can be had for $75 or $100 per head. A three year old Short-horn bull, under favorable circumstances, will get from fifty to seventy-five calves in a season. Estimating the half-breed calf to be worth five dollars per head more than the scrub, which is placing the difference of valuation very low, we find the actual profit arising from one year's increase, after deducting the purchase money for the bull, to be $275. Now, supposing the bull to do service until his eighth year, we have a net profit on our investment of $1,775. This estimate is made without allowing any increase in valuation over the first cross, which, will be inferred, would make the profit much greater. When the time arrives—and it is perhaps not far distant, when our cattle are sold to the drover or shipper by weight instead of the present mode of selling by age or head, few will be found who will fail to see the advantage of grading-up. We cannot say which of the popular grades of cattle may prove best adapted to cross upon our natives. Each particular breed has its admirers. Any that have been tried, however, have produced valuable crosses upon our Texans, and we find the offspring as thrifty as their long-horn descendant and much more precocious, the heifers usually dropping calves at two years old. The cross produced by breeding a Short-horn bull to our Texas cow is very satisfactory, the sire transmitting in a remarkable degree his own superiority in point of size and shape.

I observe some parties advocate the improvement of our scrub stock within themselves, *i. e.* by selecting the males intended for breeding purposes from neighboring herds, selecting only the most promising calves. We will not assert that some improvement might not be effected in this way, still it would unquestionably prove a very slow process of grading-up and of very doubtful result. Years of patient breeding, perhaps, might fail to produce anything much superior to our present long-horn in point of excellence.

RUSTLER.

Gainesville Cattle Exchange.

This is a place, a palace, as it were, commonly denominated "Saloon," and the Cattle Exchange quite meets the demands of those seeking comfort for the "inner man." The Cattle Exchange is located on North Dixon street, Gainesville, and is the popular resort for those wishing to imbibe pureliquors, and wines of the finest brands and quality; and cigars of the first choice, imported, are passed over the bar. Turner & Davenport, proprietors, are ever ready to serve their customers, and are artists in their line. mar-11-2t

SHEEP AND WOOL.

WOOL GROWERS' MEETINGS.

The Kinney County Association will meet at Brackett Saturday, April 1, 1882.

The Atascosa County Association will meet at Campbellton, Monday, March 27, 1882.

The Williamson County Association will meet at Taylor Saturday, April 8, 1882.

Concho County Wool Growers.

The next regular meeting of the Concho County Wool Growers Association will be held at Paint Rock on Thursday, the 6th day of April, 1882, at two o'clock, p. m. Business of great importance will be brought before the meeting, and every member is earnestly requested to be present.

By order of the president.

G. A. CONANT, Sec'y.

Feb. 28, 1882. tf

A Change of Wool Growing Centers.

For a number of years Corpus Christi was the principal, if not the only, wool market in the state. The sheep interest was centered in the extreme Southwest and confined principally to the country west of the San Antonio river. The coast counties were filled with fleece-growing animals, and their owners were satisfied that theirs was the favored spot, the Mecca of the sheepman. The warehouses at Corpus Christi were built larger as the flocks increased, until the wool trade of that city was the largest in the whole West.

As the wool growing interest increased flocks were driven north and eastward, and the city of San Antonio became a rival in the wool trade, and until within a few years was really the center of the wool growing interest of the state. Her wool trade was immense, and probably the best paying trade she had; her commission men were all merchant princes and used every effort to control this large trade. She had more buyers than other points combined, and paid the highest prices possible for the fleecy staple.

The time has now come when San Antonio must have a rival, the sheep center has moved, the coast counties have found that they can no longer raise sheep profitably, and their stock has been driven northward. Large numbers of sheep have been driven from New Mexico into the state, California is pouring her surplus into the lap of Texas, and Middle-West Texas is thus made the centre of the wool growing interest. Another market must be opened somewhere in the Northwest. Some of the new cities on the line of the Texas Pacific railroad must reach out and grasp this large trade. Tom Green and Concho counties may now claim to be the centre of the wool growing interest of the state, and whatever place suits them best as a trading point, must ere long become a market for a large part of the wool product of Texas.

The Scab.

The question of "scab" involves a great many points worthy of consideration. One great point to be considered is the length of time it will require after sheep are dipped the last time, to tell whether they are cured or not. I claim this: That to dip in May or June it would be four months before there could be a positive decision, as in some instances a great many thought their flocks were cured, and expressed themselves so in July and August, and were compelled to acknowledge later on, that their flocks were scabby.

I think four months in the summer and two or three in the winter, because in the winter, with the sheep failing in flesh, they will sooner show the disease. The sheep huddle closer together and their wool is longer which gives the acari a better shelter. Dry feed also seems to be in favor of a healthy growth of the acari. It is easy to dip sheep and claim they are cured, if there is no standard of time set after dipping before they are known to be rid of the scab. A flock of sheep may be dipped and called clean, (and may be), but how can you tell until the proper time comes for its development. In this way speculators get rid of their stock, and if there was a law to reimburse the victims, it would have to be proven that the sheep did not catch the scab after they were sold.

It will not be many years before we will have to look out of the limits of the state to sell our mutton. I think at no distant day wethers will be sent North to be wintered as they do cattle, if we have no scab. Here the speculators will object to scabby sheep, because they can't be held through the winter in a Northern climate (give them all the grain and shelter you please) without grass.

Now, as to finding the scab on sheep, soon after one sheep has caught the disease, Dr. Randall says, on page 388, that Mr. Walz says "on the tenth or twelfth day a little swelling may be detected with the finger, and the skin changes its color, and has a greenish blue tint." Now, it must be quite plain that it would be a month before you could with safety say you could tell it on a sheep, if you knew the individual sheep; but suppose you have to pick out of a thousand head the task is no small one. Suppose you just tie a string on the sheep's neck that you want to catch every morning for five or six days, then you will see how difficult it is to pick one sheep out of a flock of 1,000 or 1,500. This should all be considered to fairly understand the actual situation.

As to the different modes of dipping the greatest trouble in the spring is, the herds are too large to handle well in a day, and ewes and lambs can't be separated, to make make the bands small enough to handle successfully. And but few will take the precaution to separate as they are lambing and keep separate until after they are dipped. There is a great necessity for a system that should be strictly adhered to if a flock-master wishes to be successful. A small slip may cost the owner from 50 cents to a dollar a head, as one scabby scheep in October may give the whole flock the scab before the next spring.

Now, Mr. Editor, as D. B. Morrow-M.D., has kindly offered to make an examination of scab, relt, pus and blood of scabby sheep, I hope some one having scabby sheep will comply with the doctor's wish and try and settle the question. I have the promise of a man that has a flock of scabby sheep to send the doctor a lot of acari with the request that he put them on a sound sheep and watch the whole course of development and thus ascertain how long it would be after the acari came in contact with the sheep before each change takes.*

YAPARAPI.

Sheep Raising in Texas.

COL. COLMAN: Not having seen anything in your columns from this part of Texas lately we beg leave to submit the following as our experience in sheep raising in this part of Texas. Five years ago there was not a sheep in this (Shackleford) county, and it was said by the older settlers that they would not thrive here but notwithstanding these discouraging reports, we went to San Antonio in the summer of 1878 and bought 1000 head of genuine Mexican ewes that would shear at least 1½ lbs. of hair per head, which we sold the first year for ten cents per lb. We bought good Merino bucks and put with them, and, without experience, feed or shelter we made fifty cents per annum on our investment.

The time is fast approaching when flock masters must own their own grazing land, and, realizing this fact, we sold our sheep a year ago, and have secured six thousand acres of land two miles north of Albany the present terminus of the Texas Central R. R., and are fitting up with sheds, etc. Last fall we went to Sedalia, Mo., and bought 235 head of young Merino ewes, with a view of testing their ability to stand this climate, and we are more than satisfied with the results. We never saw sheep in finer fix, at this season of the year, and we have been offered 100 per cent. on our investment.

Simon Gutman invested $250 four years ago in Mexican ewes, and he sold his entire herd of 1600 head a few days ago for $3.75 per head. There will be about forty thousand head of ewes brought over from New Mexico this spring, and they must all be supplied with Merino bucks, besides about twenty thousand ewes already here.

JACOBS, BROS.

MISCELLANEOUS NOTES.

Breeders of Merino sheep in Vermont are receiving more orders for good stock than they can possibly fill.

Brown county has made its first shipment of mutton. Messrs. Howard, Wooten Coggin & Co., lately shipped four car loads of fat mutton to St. Louis.

Mr. J. S. Curtis writes us from Fort Griffin, March 8th: "We have had a very heavy sleet the last two days; not clear yet. But there can't be much loss in sheep, unless the world comes to an end. They improved all through last month."

The charter of the Southwestern Texas Agricultural and Sheep-growers Association was filed at Austin recently, with the principal office at Waco. The capital stock is fixed at $50,000. The directors are F. J. Fogel, Geo. B. and C. C. Conger.

Mrs. Eels this week purchased upwards of 300 ewes and 10 bucks, recently imported from Pennsylvania, from Mr. Hays for $2,600, and has placed them in the hands of her son George and William Guthrie, who have entered into copartnership.—*Bandera Bugle.*

The sheepmen of Bandera county have been called to meet at Bandera to-day for the purpose of organizing a wool growers' association. This is a step in the right direction and, as the *Bugle* truly says, its importance cannot be over-estimated. Concert of action and unity of purpose is a duty every stockman owes to his own interest. Self-protection demands organization among stockmen.

English butchers are partial to the Down breeds, because "black-faced" mutton retails to consumers for more than white-faced and long-wooled sheep. In this country the majority of our butchers seem to prefer handling choice medium-weight wethers, and but little difference is made in breeds. Indeed well-bred sheep are so scarce and the demand for breeding stock is so strong that comparatively few thoroughbreds, or even high grades, are to be seen in our markets.

A correspondent writing from the Colorado sheep grazing regions, says: "Alfalfa has proven to the Colorado ranchman that more sheep can be kept on a given area of land than was ever dreamed of by the most enthusiastic ranchmen of the plains. This plan may be considered by some as visionary and impracticable. It is the only way to meet the continual emergencies now arising in Texas, Colorado, and many other sections now suffering from lack of sufficient feed and shelter: these two are the only lacking essentials of the Texas-Missouri country, and they have to be met somehow. Thousands of sheep will be driven next fall to cheap corn in Kansas and Missouri for wintering, and back again for summer pasturage in other states.—*Prairie Farmer.*

In 1870 Texas was the twelfth state in regard to sheep; Ohio standing first with 4,928,635; Texas only 714,351; California, New York, Michigan, Pennsylvania, Indiana, Illinois, Missouri, Wisconsin, Kentucky and Tennessee, being intermediate and in the order named. Texas moved from 1870 to 1878 from the twelfth to the to the third position. January, 1878, Texas had 3,674,700 sheep; January 1880, she had 4,500,000—an increase in one year of nearly 23 per cent. California, now the banner sheep state in the Union, during the same period, from 1878 with 6,561,000, to 1879, increased to 6,886,000 only, a gain of not quite 5 per cent.

Texas, again advanced from the third (1879) to the second place (1881), and within so short a time, it is but just to say that by January, 1883, she will be first in this national industry.—*Alex. Hogg.*

Mr. W. B. Brown, who left Los Angelos a few days ago with over 2,000 head of sheep from Santa Ana, bound for Texas, reached the depot yesterday. The sheep were at once turned out and fed, but being miserably poor they suffered severely from the prevailing rain storm, and a number of them died. They had commenced to eat the wool off one another, and one was almost naked and had the appearance of being skinned. Mr. Brown said that the country about Santa Ana was almost destitute of vegetation and that sheep was dying in great numbers. A Mr. Irvin lost about one-third of a band of 15,000, but sheep owners disliked the idea of sacrificing them for a fraction of their value and were holding on in hopes of getting rain, a little of which had fallen, but not enough to be of any decided benefit to the country, as much of the moisture was absorbed by the dry north winds which of late had been blowing.—*Tucson Citizen.*

The Abilene Favorite.

Mr. Frank Collins, the well-known caterer, has bought out his partner Mr. Claib Merchant in the Cattle Exchange at Abilene. The Cattle Exchange is a great favorite at Abilene and will be none the less so under the exclusive control of Frank Collins. None but first-class goods will be kept in the Cattle Exchange, and those who want good wines, liquors and cigars should go to Frank Collins' in order to be sure they are getting what they want. Not only first-class goods but first-class treatment is the motto of the Abilene Cattle Exchange. tf

AN ADDRESS.

Delivered by H. L. Bentley Before the Colorado and Concho Stockmen's Association.

Mr. President, Officers and Members of the Colorado and Concho Stockmen's Association:

In the outset of the few remarks that I shall make to you today, permit me to thank you for the invitation which calls me before you. The honor conveyed by the invitation, I take it, however, was not intended for me as an individual, but rather for me as a participant in the deliberations of the State Stockmen's Convention which was recently held in the city of Austin, and one of your representatives. As a member of that convention, therefore I shall speak, and my object will be to impress upon you to-day the importance not only of supporting the Texas Live Stock Association, (the name by which the stockmen's state association will be known hereafter), but also of keeping up this association and doing all in your power to organize thoroughly the stock interests of Texas. To claim for the state convention that it was a brilliant success, would be extravagant, but I do claim for it that it was a move in the right direction, and, all things considered, it was certainly not a failure. The only trouble was that while the stockmen all felt that something was necessary to protect their interests, very few of them had sufficiently considered the matter to determine what was necessary to be done and how to do it. There was plenty of brain in the body, and when ideas were suggested to the convention they were taken up discussed and passed on in such a way that it soon became evident that the convention was not merely an assemblage of men who represented large wealth, but a body of men possessed of great intellectual force. In fact, in all that goes to make up strong men, there has not assembled in Texas in many years a body of men the equal of that body. Long since it became the accepted idea, outside of the stock sections of Texas, that the cowboy or cowman, was necessarily a rough chap, a sort of cross between a prize-fighter and a grizzly. He was known to be atheletic, brave and full of energy, but it was also understood that he was always "on his muscle," and about as unpolished as a block of granite fresh from the quarry. It seems never to have occured to the world that he could have social polish, and the idea of him being possessed of moral qualities worth mentioning was regarded as preposterous. He was never considered or called a fool, though. Gentlemen, I say these ideas obtained outside of the stock regions of Texas, but perhaps I do not state it too strongly when I say that they obtained pretty generally everywhere. Those who enjoyed the privilege of attending the stockmen's convention, however, have now discovered their mistake, and I believe that I speak the almost unanimous sentiment of those who were present when I say that that body was marked for the intellectual force of its members, their social accomplishments and their freedom from everything that smacks of rowdyism. If they were fair representatives of the stockmen of Texas, (and I don't doubt it at all), then the stockmen of Texas are a splendid body of men, who having rights in Texas have a right to have them practically recognized. Even the bootblacks of Austin manifested their appreciation of the body. One of them was heard to say to another, "they's jist too bully, ain't they Jim? they beats the legislature all to hell." A proposition, by the way, which met with Jim's hearty endorsement. There were many propositions considered by the convention, but I will detain you to-day to notice but few of them. Early in the session a resolution was introduced by me, after consultation with many of the most practical men in the body, looking to the establishment of a permanent policy by the state with reference to the university, asylum and school lands. The constitution of Texas provides for but two ways in which the proceeds from these lands can be invested, to-wit: In U. S. bonds, and in Texas state bonds. It occurred to me that if these lands were sold and the money placed in the treasury it would be next to impossible for the state to invest it profitably in these bonds. In the first place they bear a low rate of interest, from 3 to 5 per cent. In the second place they are now commanding and are likely to command in the future a large premium. I understand that the Texas 5 per cent. bond cannot now be bought for less than $145 for every $100 bond, and that a 3½ per cent. U. S. bond commands a premium from 13½ to 15 per cent. It further occurred to me that the state could make a better investment of these trust funds, and at the same time consult the interests of the stockmen of Texas without disparagement to the interests of any other parties. Suppose, for instance, the state shall sell these lands, and instead of collecting the principal so provide that the interest only shall be collected annually, at a rate not exceeding 5 per cent. per annum, upon the value of the lands. It is entirely practicable, and I here venture the assertion that every year will but add to the security. Every year a large area of country will be utilized, a larger stock interest will be subject to taxation, and as the value of the lands increase, so will the state's interest be better secured. It may be said and probably will be said that 5 per cent. is not enough, but I fail to see any good reason why the state of Texas should charge its own citizens who are developing its own interests, a larger rate of interest than she herself is compelled to pay. It is a fact well known that Texas can get millions, if she wants them, at 5 per cent., and I believe that I may say with certainty that if she desired to do so she could go into the money market with 4 per cent. bonds and cash them at par. It was never intended by the founders of the state that she should speculate at the expense of her own citizens, and it cannot be the part of wisdom for her legislature to require of them 8 per cent. as it now requires on school lands, or 10 per cent. as now required on university land. The resolution referred to was intended by me to reach and correct this evil, and at the same time to secure a permanent, safe and profitable investment for the trust funds of the state. It was asserted by some members of the convention that the resolution was inopportune in that it invited legislatson by the legislature in regard to these lands, when the interests of the stockmen of Texas would be better advanced by permitting the whole matter to rest where it is. Before the resolutions was introduced, though, I had been in correspondence with the officials of the general land office and also with Governor Roberts, and had become perfectly satisfied that this quiescent policy was not to be considered for a moment. It was evident to me that the called session of the legislature would be forced, by public opinion, to legislate in regard to this matter, and I felt the importance of some expression on the subject by the convention. The resolution was referred to a committee of which Ex-Lieut. Gov. Stockdale was chairman, and I venture to assert that the report of the committee will meet with the same hearty endorsement of the stockmen of Texas, generally that it met with in the convention. This report recommended that these said lands should be sold or leased at the option of the parties wishing to secure them, and when sold that the parties purchasing them should have the privilege of paying the interest only from year to year, and when leased that the leases should be for long terms of years. It further recommended that a line should be established somewhere by natural or county boundary between the grazing and farming sections of state, and that east of this line the farming interests should be primarily considered and west of it the stock interests should be primarily considered. It further recommended that the parties occupying these lands, who made them valuable and salable at the risk of their lives, should have the first chance to select, and that the necessary legislation should be enacted to prevent brokers, speculators and that class generally from taking unfair advantage of the stockmen. I do not in this sketch of this report attempt to give more than an outline of its objects since the report has been extensively circulated throughout the state. The convention had, also, under consideration the propiety of recommending legislation in regard to the establishing of a general cattle trail; the change of the law as to marks and brands; the abolishment or radical amendment of, the present inspection law; the amendment of the estray laws; the amendment of the laws intended to protect cattle from theft, and sheep from diseases, etc., but I apprehend that you are already sufficiently advised on these points. The matter which I regard as being of primary importance, so far as you are concerned, is this matter of public lands, and I beg leave to say to you now, that you must either look closely to your interests in this direction or expect to see them slaughtered. For many years there has been a feeling among the grangers or farmers of Texas, that was not favorable to the interests of stockmen, and I have no reason to believe that this feeling is less strong to-day than it was years ago. As one of the results of this feeling I invite your attention particularly to the law as it stands today which refuses to the stockmen the privilege of purchasing exceeding one hundred and sixty acres of university land; three sections river school land, or three sections of grazing school land I recognize the fact that this legislation was founded upon the idea that monopolies should not be encouraged in Texas. I also recognize the correctness of the legislation itself, if one rule shall govern this great state. But it seems never to have occurred to our granger friends that there are large sections in Texas which can never be utilized for farming purposes. Take Tom Green county for instance, how many acres of the millions in the county can be made practically available for farming purposes? Only those few that can be irrigated, and they scarcely run up into the hundreds. It has been the habit of many newspapers of western Texas in the interest of land speculators, to declare, with great apparent seriousness, that most of that vast area of country west of 100th longitudal line is a farming country, and thousands of poor ignorant immigrants have been thereby induced to invest in these lands. Such deception cannot be too severely condemned. In fact, I bear as much respect for the horse jockey who represents his spavined horse as sound and then sells him as a good, sound animal to his unsophisticated and unsuspecting victim as I have for those men who, for the sake of gain, persist in misrepresenting the facts in regard to this country. This is not a farming country, and in the plans of its Creator it was never intended for other than grazing purposes. If these views are correct and this country can only be utilized for grazing purposes, where is the wisdom or justice in refusing to the stockmen of Texas the right to purchase or lease these lands in quantities necessary to make their business profitable? It is absurd to talk about growing wool or mutton to advantage on 160 acres of university lands, in Western Texas or even on three sections of school land. And it is equally as absurd to assert that cattlemen can raise cattle successfully on seven sections of school land. True, it is possible for both sheep and cattlemen to secure more by avoiding the law and buying in the name of their sisters, their cousins and their aunts; but is it good policy to offer a premium for this avoidance of the law? We, the stockmen of Texas, are not disposed to insist on any change of the law so far as it will effect those sections of the state that are really farming sections; but upon the principle that "what is sauce for the goose ought to be sauce for the gander," we do gravely insist that in the territory peculiarly adapted to grazing purposes our farmer friends should not selfishly insist on legislation adverse to our interests. We are more than willing that they shall pass such legislation as they wish to control as to the farming section of the state; but at the same time we feel that it is our right to be considered first when it comes to the matter of legislation to affect the grazing sections. But it will be worse than folly for you to expect any such favorable legislation, gentlemen, unless you take steps necessary to secure it. Now and then some man in this world is "struck by lightning" in the way of some great good luck happening to him; but ninety-nine out of every hundred of the so-called lucky men of this world are men who turn up things instead of waiting for something to turn up to their advantage. The so-called lucky man is not often named Micawber. You have heard the old saying, "Blessed is the man who blows his own horn for unto him who blows not his own horn his own horn shall not be blown." To pharaphrase this language slightly, I say "blessed is the man who industriously and intelligently looks out for his own interests, for unto him who looks not after his own interests, his own interests will not be looked after—except to be ruined." Free range in Texas, is "played," so to speak, and soon will be numbered with the things that were. The called session of the legislature is going to legislate on this land question and if you are not there to look after your interests you will "be left" so to speak, and have no one but yourselves to blame. The farmers of Texas are organized and they can vote ten men to your one. More than that, they will vote those ten men against your interests if you are not alert in looking after those interests, not that they mean to injure you, but they don't understand your necessities, and their influence will be directed in accordance with their own notions and those notions will be controlled by the view from their standpoint taken by them in regard to these matters. The state convention appointed a memorial committee of seven (of which I am one) to attend the called session and to work for the interests of the stockmen, but I apprehend that there are more than one of that committee who will not, can not, be present Nothing could delight me more than to devote thirty days of my time, just now, to this needed work, but my professional engagements will prevent me from doing so, and doubtless I am not the only one, of the seven committeemen appointed, in the same position. My advice to you, if you do not deem advice from me impertinent, is, that you will select of your own number one or two of your best men and that you will send them to Austin charged by you with the important duty of properly presenting your claims to the called session in April. If the representatives to be there from the farming sections of Texas can be made to understand that they can legislate for your interests and at the same time not sacrifice the interests of their constituents, I believe you will be able to secure favorable legislation. On the other hand, if the will is to be that the stockmens' claims are to be ignored, then, by organizing, adverse legislation can be prevented even if favorable legislation cannot be secured. I love Texas and I love to think of the future of Texas as a united state. The idea of dividing up this great state has always been peculiarly repugnant to me; but if the grazing sections of Texas are to have no rights that are worthy of recognition so long as Texas remains undivided, the time will come, and it will not be long delayed, when the idea of division will not only obtain here, but will sweep like a prairie fire over the west. I pray God that this may never be! The one hope of my heart on this subject is that the unity of Texas may never be impaired, and the foundation of this hope is based on the great fundamental idea that it will never be desirable. Let the members of this association stand by it! Let the stockmen of Texas hold up the hands of those who are now seeking to make the Texas Live Stock Association a success! Let the watchword everywhere among stockmen be "organize" to the end that the rights of all classes may be secured and perpetuated!

I thank you, gentlemen, for your attention.

THE BEST OF ALL LINIMENTS FOR MAN AND BEAST.

For more than a third of a century the **Mexican Mustang Liniment** has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—**the best of its kind.** For every form of external pain the

MEXICAN MUSTANG LINIMENT

is without an equal. **It penetrates flesh and muscle to the very bone**—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

MUSTANG LINIMENT

is needed by somebody in every house. Every day brings news of the agony of **an awful scald or burn** subdued, of **rheumatic martyrs** restored, or a **valuable horse or ox saved** by the healing power of this

LINIMENT

which speedily cures such ailments of the HUMAN FLESH as

Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.

For the BRUTE CREATION it cures **Sprains, Swinney, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.**

The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

THE BEST OF ALL LINIMENTS FOR MAN OR BEAST.

J. E. SEAGO,

dec17-6m Weatherford, Texas.

AT SAN ANGELA.

Proceedings of the Colorado and Concho Stockmen's Association.

SAN ANGELA, March 6, '82.

The meeting was called to order by the president at 9 a. m.

The president appointed the following committee to recommend officers to serve during the ensuing year: G. G. Odom, George Williams and S. E. Sterrett.

The committee reported and recommended the following officers, who were elected, viz: John Davidson, president; John R. Jefferson, vice-president; Henry H. Luckett, secretary and treasury; Wm. Childress, assistant secretary and treasurer.

The following committee was appointed to notify the president of his election and conduct him to the chair: W. F. Lewis, Chas. Mullins and R. K. Wylie.

A resolution was passed thanking Mr. Robinson for the efficient services he rendered the association during the past year.

The following committee was appointed to invite Mr. Bentley to address this association, viz: S. E. Sterrett, George Williams and W. F. Lewis.

The following committee on round-ups was appointed, viz: R. P. Robinson, S. E. Sterrett, Abe Miller, J. N. Upton, George Williams and D. W. Barnett.

On motion the meeting adjourned till 2 p. m.

AFTERNOON SESSION.

A resolution was passed to the effect that the committee on round-ups adopt a uniform system in managing round-ups.

Messrs. G. G. Odom, R. P. Robinson, R. K. Wylie, Jas. Paramore and Geo. Williams were appointed as delegates to attend the meeting of the Clear Fork Stock Association at Abilene.

Mr. J. R. Jefferson was appointed to represent the interests of this association at Austin during the special session of the legislature.

On motion the meeting adjourned till 9 a. m.

SECOND DAY.

The committee on round-ups reported as follows:

DISTRICT NO. 1

shall begin work on the 15th day of April at the mouth of Bluff creek, thence up the Colorado river and tributaries (including all of the Davidson range on the Colorado river) to the mouth of the Concho river and up the Concho river till they meet district No. 4. A. M. Miller, superintendent. and John Davidson as assistant superintendent.

DISTRICT NO. 2

shall begin work on the Colorado river at the upper edge of Davidson's and lower edge of Paramoure & Vaughan's range where district No. 1 reaches this place, thence up the Colorado river and tributaries to Kickapoo creek including said creek and the upper edge of the Odom range. G. G. Odom, superintendent, and S. J. Blocker, assistant superintendent.

DISTRICT NO. 3

shall begin at the upper edge of district No. 2, when work is completed in No. 2, thence up the Colorado river and tributaries, to include the Scott & Robinson range. ——Hewit, superintendent; W. L. McAulay, assistant superintendent.

DISTRICT NO. 4

begins work on the 15th day of April at the head of North Concho river, thence down said river and tributaries till they meet district No. 1. F. C. Bates, superintendent, J. Hiler; assistant superintendent.

DISTRICT NO. 5

begins work on the 15th day of April, at the head of South Concho river, thence down said river, including Dove and Spring creeks and Middle Concho to Concho post. Rube Sherwood, superintendent; T. J. Ellis, assistant superintendent.

A resolution was passed instructing delegates to the Clear Fork Association to solicit said association to send delegates to Austin to co-operate with Mr. Jefferson.

The following committee was appointed to communicate with the Gainesville Stock Association, asking that they send delegates to Austin to co-operate with Mr. Jefferson, viz: J. N. Upton, W. F. Lewis and G. G. Odom.

A resolution was passed asking that the cattle inspection laws of this state be repealed.

Messrs. L. B. Harris, S. E. Sterrett and J. N. Upton were appointed a committee to provide ways and means of defraying the expenses of the delegates to Austin, and to instruct said delegates in matters that may come before the legislature, and that said committee shall be known as the executive committee.

A resolution was passed to the effect that the secretary is to notify each member of his arrearages to this association and make a report at its next meeting of the standing of each of its members.

The following resolution was passed:

Resolved, That the secretary report to the executive committee the number of cattle owned or controlled by each of its members, to be used as a basis for assessment during the ensuing year.

A resolution of thanks to the citizens of San Angela for hospitalities tendered this association during its session, was passed.

A resolution was passed authorizing the executive committee to appoint another delegate to Austin, should they think it necessary.

A resolution was passed thanking Messrs. Bentley, Jefferson and Upton for services rendered the stock interest at the live stock convention at Austin, and requesting Mr. Bentley to furnish for publication a copy of the speech made by him before this association.

A committee composed of Messrs. Paramoure, Harrold, Robinson, Lewis, Williams, Bronaugh, Odom, Barnett, Wylie and Peacock, was appointed, with full power to appoint inspectors in the state of Texas, to prevent the unlawful handling of any member's stock.

A resolution was passed adding the president to said committee.

The following resolution was passed:

Resolved, That San Angela and the first Monday in March, 1883, be the place and time of holding the next annual meeting.

A resolution was passed to the effect that the secretary by requested to furnish the TEXAS LIVE STOCK JOURNAL and *Tom Green Tymse* the proceedings of this association.

The association then adjourned *sine die*.

JOHN DAVIDSON, President.

HENRY H. LUCKETT, Secretary.

Stockmen's Orders for Printing

—GIVEN—

SPECIAL ATTENTION

—AT THE—

STOCK JOURNAL JOB OFFICE.

TEXAS LIVE STOCK JOURNAL

COWBOYS who can't do without six-shooters all the time need not apply to members of the Colorado and Clear Fork Stock Raisers Association.

HIGHEST prices in history is our telegram from St. Louis. It does look as if that *early* market was going to be as the JOURNAL predicted.

THE Houston & Texas Central railway will sell tickets to parties desiring to attend the Gainesville convention at one fare for the round trip.

No matter how aged the cow, or how much fasted, she will bring $4, says our St. Louis correspondent. They want grass Texas meat on the Mississippi.

ORGANIZATION, harmony, co-operation have now gone into the mutual protection business and will inspect for themselves. The Abilene convention got down to its work in fine style.

THE recent "spell of weather" was hard on sheep raisers in some of the southwestern counties. Some of the young lambs were frozen and many more were only kept from freezing by hard work and close attention.

THE Sweetwater *Advance* is a new journalistic candidate for favor. It is a neat, sprightly sheet, and has the JOURNAL's best wishes for its success. "Absalom" Wilson, a former attache of the Abilene *Reporter*, is the editor.

THE proceedings of the recent convention of the Colorado and Clear Fork Stockmen's Association will be found elsewhere. This meeting was a success and did much important work. The proceedings will be found of much interest.

MR. W. H. MONTGOMERY writes us under date of March 12th that the trail through Comanche county, (over which some drovers passed last year) that passes across the head of Cow House and thence to Logan's Gap, is now fenced up and cattle cannot get through.

OF the Austin convention, the Mobeetie *Pan Handle* says: "The convention was a success, and has not been held in vain. Its good results will be felt as a power for the advancement of the great stock interests of the state. The meeting was immense, and worked throughout with perfect harmony."

THE Texas veteran board will hold a meeting at Austin on April 13th and pass upon pension claims. This will be the last meeting the Texas veteran board will hold, and claimants must govern themselves accordingly. Gen. Tom Harrison of Waco will deliver the annual address on April 21st—San Jacinto day.

MR. J. C. LOVING publishes a call in the Graham *Leader* to the cattlemen of Young county and the adjacent range, to meet at Graham on the 27th inst., for the purpose of organizing a county stock raisers association. The spirit of organization is abroad in the land, and the work of co-operation goes bravely on.

THE Medicine Lodge (Kas.) *Index* has been enlarged to 48 columns and is now one of the largest papers in Southwestern Kansas. The *Index* is not yet two years old, but by the perseverance and energy of Mr. M. L. Merpy, its editor, the paper has rapidly advanced on the road to success. The *Index* will soon, also, be in an office of its own. Mr. Merpy has the JOURNAL's sincere and sympathetic wishes for its continued success.

INDICATIONS, says the Pittsburgh *Stockman*, "point to the best market this spring ever known in western live stock centers for good Texas steers for stocker purposes. Good stockers are not likely to be abundant from other sources, and the improvement and breeding up of the steers of the Southwest has given them decided favor in the eyes of buyers. To buy Texas stockers now is to get a style of cattle wholly different from those of a similar name five years ago."

TEXAS two-year-olds are reported to be selling on the range at $25 a head, a price before unheard of in that region, and an advance of fully twenty-five per cent. over the values of a year ago. One of the interesting live stock problems of the near future is, What is to be the limit of cattle advances in the Southwest?—*Pittsburgh Stockman.*

Two-year-olds are not selling on the range *yet* for $25, Bro. *Stockman*; but you are quite right about future prices being an interesting problem. Now that "big money" has got into the business, we may reasonably expect profits in stock raising on the range to drop down to 10@15 per cent. And that means—but we are afraid to say what stock cattle *may* sell at.

THE Fort Worth STOCK JOURNAL still hammers away at the idea that North Texas is too dry a climate for agriculture. *Siftings* says ducks need umbrellas. Which is right? The JOURNAL is fighting windmills. Mrs. Partington's effort to sweep out the sea was quite as successful as will be the JOURNAL'S effort to keep away immigration.—*Stephenville Empire.*

We do not wish to keep out immigration. We only wish that when immigrants come they should engage in that pursuit to which the country is best adapted and not be seduced into trying to farm in a country where farming will not pay, and where such efforts, besides being fruitless, destroy the sole capacity of the country. But we can hardly hope that this statement, so often reiterated and always exemplified in our writings, will prevent newspapers from charging us with hostility to immigration.

Stock Raising in Texas.

The recent sale of the Stevens & Worsham herds to the Alamo Cattle Company, the particulars of which may be found elsewhere, is a striking proof of the enormous profits made by raising stock in Texas, and accounts for the rapid advance in stock cattle values as well as offers a reason for the faith that is in Texas stockmen respecting the permanency of such appreciated values. Messrs. Stevens & Worsham formed a co-partnership and began business about six years ago on a capital of $35-000. Since then they have worked honestly, energetically and persevcringly to build up their herds. The success attending their efforts, which we record with pleasure, is attested in the sale consummated on the 10th inst. and in a former sale to Mr. Z. P. Addington—the two sales aggregating $716,-000. After discharging all liabilities these stocks will have netted Stevens & Worsham $500,000—a half million in six years, from an investment of $35-000! Notwithstanding the enormous profit made by these gentlemen, we consider their stocks a bargian at the figures paid, and are certain that the purchasers will realize a profit on their investment that could not be equaled in any other legitimate business. And while we heartily congratulate our friends on the fortune they have so meritoriously won, we can also congratulate the Alamo Company on having put their money where it will do them the most good.

Granger Stevens.

In all it says and does the JOURNAL is actuated by a sincere desire to benefit those in whose interest it labors and upon whom it pours out its wealth of philosophy and advice. And when, despite our warnings and arguments and entreaties, any one of our readers rushes off on his own path, according to the dictates of his own conscience, and contrary to the correct principles we hebdomally inculcate and the sound teachings we print on every page, we grieve. We say these things because Uncle Bob Stevens, unmindful of the JOURNAL'S constant teachings, and regardless of his own many unsatisfactory years of experience, has sold his cattle and embarked in agriculture. We are not selfish in our regret at this new departure. We are aware that a venal press will take it as proof positive that rain falls just when the farmer west of the Upper Cross Timbers needs it and that Egypt was a sterile plain compared to West Texas; but we care not—our grief outweighs our resentment. If Uncle Bob should try to farm as extensively as he has raised cattle we should fear for him a corner in some cheap poor-house. But we are glad to know that his native caution was too much for his natural propensity to plow and hoe and delve and dig; and notwithstanding his whole mind is absorbed in this new departure yet knowing the fickle "seasons" and having seen the many failures in the business—he will content himself with a moderate beginning. The actual measurement of Mr. Stevens' plantation at present is 8x16 feet, but it is understood that if the crops this year are favorable, he will take in six more feet of fine agricultural lands adjoining. We greatly fear that the unusually rainy season this year may induce Uncle Bob to take in twelve feet more and make his experiment draw heavily on the profits realized in his cattle business.

The Iron Foundry.

Elsewhere will be found the advertisement of the Vulcan Foundry and Machine Works, which has now been in operation in this city for several months under the proprietorship of that energetic and public-spirited citizen, Peter Smith, and that skillful founder and machinist, Mr. Henry Garripy—the latter gentleman being the manager of this valuable addition to the industries of Fort Worth. The Vulcan Foundry has just completed an iron front for the new building being erected by Mr. Thos. Roche. It is the heaviest iron front ever made south or west of St. Louis. It is mammoth in its proportions, and solid in its construction. The owners of these works deserve great credit for their enterprise, and the patronage and support of our people.

The Convention.

The Gainesville convention will be an occasion of much interest and enjoyment, and will probably be the largest meeting of stockmen ever held in Northwest Texas. We have a suggestion to make to the members: when they are through with their duties they should call on Cleaves & Fletcher, who keep headquarters for hardware and stoves. It will be a good time for fitting out and Cleaves & Fletcher will supply stockmen with anything—from barbed wire down to buckshot. Give them a call while in Gainesville.

IMPORTANT NOTICE.

To Members of the Pan Handle Stock Association.

Stockmen who are members of the Pan Handle Association will please send their brands at once to the secretary of the association at Mobeetie, that such brands may appear in an important advertisement.

tf J. F. EVANS, Pres't.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron,—all powerful, blood-making, blood-cleansing and life-sustaining—and is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick.

For sale by all druggists.

TO TEXAS CATTLE DROVERS.

An Address to Texas Cattle Drovers from the Southwestern Kansas and Indian Territory Stock Association.

At a meeting of the above named association held in the city of Caldwell on the 1st and 2nd days of March, 1882, the following resolutions adopted at its meeting in March 1881, was re-affirmed, and the undersigned appointed a committee to publish a suitable address in accordance therewith:

Resolved, That in order to prevent the spread of disease among the wintered cattle held on the Cherokee Strip, there ought to be established, and rigidly maintained, a proper line of separation and quarantine between through cattle and said wintered cattle; and that this convention recommend the establishment and maintenance of the following quarantine line, and request the active co-operation of the Cherokee Council and all stockmen driving through cattle onto the Cherokee Strip in maintaining said line: Osage creek shall be the western boundary for through cattle; a line running east from Osage creek parallel with the northern boundary of the Nez Perces reservation shall be the southern boundary for through cattle; the Arkansas river will be the western boundary for through cattle, and the state of Kansas shall be the western boundary.

The undersigned, after careful consideration of the subject, do not deem any formal address necessary at this time, believing that every cattleman who will drive from Texas this year fully understands the situation of the cattle interests in the Territory and on the boundaries of Kansas, and will, so far as he can, use all due care to comply with the request of this association and respect the rights of those holding wintered and domestic cattle in the Territory.

The association feel satisfied that the country selected as a holding ground for through cattle is of sufficient scope to furnish ample grazing for all the cattle that may be driven to the Caldwell and Hunnewell markets. We would also state that the grounds selected are well adapted for grazing purposes, having a reasonable amount of timber, abundance of water, and are within easy reach of the stock yards at both Caldwell and Hunnewell.

Farther than stating the above facts, we do not believe it necessary to dwell at length on this subject, feeling assured that our through cattle friends will fully appreciate the spirit in which the above resolutions was adopted and this address put forth.

In conclusion, we assure all driving to the above named markets that the members of our association will do all in their power to make their sojourn among us both pleasant and profitable.

Respectfully,
W. E. CAMPBELL,
T. F. PRYOR,
W. S. SNOW,
Committee.

PAN HANDLE HAPPENINGS.

MOBEETIE, March 5, 1882.

Weather pleasant.

Grass is coming fast.

E. E. Carhart and wife of Clarendon are in town visiting relatives. B.

L. G. Coleman was in town this week. He reports everything lovely on the Washita.

D. C Cantwell and family were in from Red Deer this week and spent several days in our burg.

O. J. Baker, John Crudgington and J. R. Haynie were among the cattle owners on our streets this week.

A few days ago Fred Rathjan sold 1,100 head of sheep to Levi Schick for $2,50 per head. Mr. Schick started them to Fort Griffin at once where he expects to sell them.

A large prairie fire has destroyed all the grass north and east of Mobeetie near town. It is still burning. Some stringent law should be enacted at the next legislature to prevent these prairie fires. Most of the time it is caused by carelessness of campers.

It is reported that numerous horse-in the Pan Handle have recently eats en of the plant commonly known among the citizens as "loco." As soon as they eat of this herb they at once become more like they were drunk than anything else you can call it.

EAST ST. LOUIS.

They Cry Beef, Beef, Beef, When there is no Texas Beef.

NATIONAL STOCK YARDS, March 14, 1882.

[Special Correspondence Texas Live Stock Journal.]

All grades of cattle from common old cows to good prime steers of 1,500 lbs are over in active demand, and the moderate supply was not half enough to go around. Local butchers were entirely out of meat, and from day to day could not get half enough, consequently when offerings come in each morning it was a regular scramble for butcher stock. Country shippers and farmers who sent in their stock the past week obtained far better prices than they imagined they would get. Butchers are complaining that they are losing more by the operation even if they sell surloin stakes at 17½ cents per lb and lesser cuts 12½@15 cts. I tell you that when people go to market for meat they must take along a plethoric pocket book if they have any kind of a family.

No matter how aged the cow and how much fasted she will bring $4 per 100 lbs. To-day steers of 1,000 lbs brought $5.31½ per 100 lbs; steers of 1,200 lbs $5.85; scalawags $4@4.50; stockers and feeders $4.50@5.50, all on account of butchers. A few car loads of grass Texans of medium quality come in; the seller took in a buyer. The latter said "how much?" the seller said $4.50, the buyer said: "Jones put on 25 cts and I'll take 'em." So you can see how grass Texians are selling here. Perhaps when "Cowcatcher," alias Lancedas, alias A. C. H., alias A. C. Halliwell, in Chicago, who is a good romancer, gets this cue he will get up a story that will discount it. I am sure of it.

Texas sheep in fair supply the past week and brought from $3.50@4.50 per 100 lbs in extremes.

Texas hogs but few offered and dull.

Texan ponies are now coming in quite lively and find ready sale at $15@60 per head according to quality.

Native hogs have "riz" in prices a little on account of the scarcity of offerings.

Col. Hill, the eminent sheep buyer and a resident purchasing agent for prominent Eastern houses, has been transferred to Chicago. However, we can spare him, as Solje Mannion and Maj. Reiley are still with us, not counting a score of lesser lights.

Dan Underwood of Kansas City is at the yards. RATTLER.

Interesting to Stockmen.

J. C. Petmecky, gunsmith and dealer in hunter's supplies, fishing tackle, etc., etc. Agent for the celebrated Baker gun, Colt's, Smith & Wesson, and all other first-class makes of pistols and guns constantly on hand. All goods guaranteed as represented, Congress Avenue, Austin, Texas.

Nov.26-1y.

CALDWELL CORRESPONDENCE.

CALDWELL, Kan., March 10, '82.

A "Manitoba wave" seems to have struck this country. Yesterday it snowed most of the day, and last night it continued, so that to-day we have about ten inches on the level. But it is melting fast and by to-morrow it will probably be gone. Reports from the range say that stock drifted badly, but the losses are trifling—however, it may weaken cattle so that future losses may be large should the season be unfavorable.

Asa B. Overall, a well known and popular stockman, seems to have grown tired of "single blessedness" and Tuesday morning he took unto himself a better half—Miss Clara E. Nyce, an estimable lady. They took the early train for his old home in Cameron, Missouri, where they will visit a short time and then return to Caldwell. Asa, we wish you and yours much joy and a long and prosperous life.

Mr. and Mrs. R. J. Hardesty of Dodge City, Kansas, spent a few days here last week. The colonel came to look after his large mercantile interest here. He reports cattle doing well at his ranch in the Pan Handle.

W. E. Campbell starts for a trip to New Mexico in a few days.

W. E. Malalley outfitted at Hardesty's and started for his Pan Handle ranch just before the snow storm.

Caldwell is steadily improving and many buildings of a substantial character are being erected—prominent among which are a $15,000 school house and a stone bank building. The different branches of business are all represented and seem to be doing a thriving trade. It is confidently believed that this will be the main shipping point this season.

H. W. Timberlake is looking over the stock business at Kansas City this week.

Abe Manee is up from camp taking in Caldwell for a few days. The snow storm drifted him in but he is in good hands.

Mr. Bergin, of Garretson & Bergin, is looking over the Cherokee strip and their ranch on the head of Sand creek.

H. S. L.

Occidental Saloon.

This popular resort, located on corner of Main and Second streets, is the most elegantly fitted up establishment of the kind it Fort Worth; and, under the management of Messrs. Day and Maas, is recognized as one of the most pleasant places in the city. None but the purest wines and liquors and the finest brands of cigars are sold over their bar. Our friends when visiting the Fort will be well entertained if they give this house a call.

AN INTERESTING MEETING.

Proceedings of the Colorado and Clear Fork Stock Association.—The Six-Shooter Must Go.

The second annual meeting of the Colorado and Clear Fork Association met at Collin's Hall, in town of Abilene, Texas, on Monday, March 13, 1882, at 10 a. m. The president and vice-president being absent, the association was called to order by S. P. Cunningham, secretary, and on motion of W. A. Grounds, seconded by C. W. Merchant, Maj. Jno. N. Simpson was made chairman.

The minutes of the last annual meeting were then read, corrected and adopted. The secretary made a statement of the financial condition of the association and opened the books for the enrollment of new members, and the payment of annual dues—whereupon fifteen new members were enrolled.

The election of officers for the ensuing year was then held, resulting as follows:

J. N. Simpson, president; O. J. Wiren, vice-president; S. P. Cunningham, secretary and treasurer.

The president then appointed the following committee on round-ups for the present year:

1st. District—J. R. Adair, T. A. Deats and H. M. Catlett.

Second District—James Newman, A. J. Long and W. W. Tuttle.

Third District—O. J. Wiren, E. Meneille and J. Millsap.

Fourth District—O. Durant, T. H. King and A. J. Calhoun.

Fifth District—W. L. Gilliland, W. L. Townsend and H. Windham.

Sixth District—if formed—Frank Long.

A committee of Messrs. Calhoun and Grounds was then appointed to examine secretary and treasurer's books and report at this meeting.

A committee was also appointed to confer with representatives of visiting associations in regard to any needed change in stock laws or legislation in the stock interest. Said committee consisted of J. N. Simpson, McEntyre, Merchant, Tuttle, Wiren and Meneille.

On motion, a committee of five was appointed to whom all resolutions coming before the association should be submitted. Messrs. McEntyre, Wiren, Tuttle, Merchant and Meneille were appointed on said committee.

The convention then adjourned until 2:30 p. m., to receive reports of committee on round-ups.

AFTERNOON SESSION.

Association met pursuant to adjournment, Presiding Simpson in the chair. The committee on round-ups reported as follows:

District No. 1 comprises all cattle on Colorado above Brown & Lerr's ranch. Round-ups to commence on the 20th of April, commencing at Big Springs. The superintendent will be appointed and other round-ups and assignments will be made at the stock meeting at Colorado on the 20th of March.

District No. 2 comprises all cattle on Clear Fork, Sweetwater and the territory down to and including Crudgington's ranch; also to the head of Oak creek from Long's ranch on Oak Creek on the 20th of April, Riley Trent, superintendent; also at the head of Clear Fork on the 20th of April, Bill Isaacs, superintendent; to meet on the 19th of April at said places.

District No. 3 comprises all cattle on Double Mountain Fork of the Brazos, below Nunn's and California creeks, down to and including Mathews and Reynold's ranch. Round-up to commence on the 20th of April at Munn's ranch down to Mathews & Reynold's ranch. E. Menellie, superintendent, and John Millsap, assistant.

District No. 4 comprises all cattle on the Clear Fork of the Brazos below the month of Sweetwater, including Easton's old ranch on California creek, to the mouth of Flag creek, including Deadman, Elm and Mulberry creeks. Commence on the 20th of April at W. A. Grounds' ranch. O. Durant as superintendent, and T. J. Humphrey as assistant superintendent.

District No. 5 comprises all cattle on Jim Ned Hords creek, and Pecan Bayou. Round-up to commence on the 20th of April at Dunn's ranch, on Jim Ned. Sam Cutbirth as superintendent, and H. Windham as assistant superintendent.

On motion, the report was adopted and the committee discharged.

The committee appointed to examine the financial report of the secretary and treasurer, made the following report:

We, the committee, have examined the books of the association and find the statement as made by the secretary and treasurer correct.

Report received and committee discharged.

The president now announced that resolutions were now in order, when quite a number were received, read and passed to committees on resolutions.

The first resolution reported from the committee was one presented by G. W. Williams, as follows:

Resolved That we deem the present inspection law wholly deficient and inadequate, that it does not give us the protection it was intended to give and that we would ask of the coming special session of the legislature to abolish that part of it which pertains to the office of inspector.

The resolution was adopted after which the convention adjourned to meet at 8:30 on the 14th.

SECOND DAY.

The convention met pursuant to adjournment, officers all present. The resolutions reported from the committee were acted on as follows:

Resolution 2 in number, referring to sale and lease of public school lands, was placed in the hands of a committee of three, who were appointed to confer with a committee from Gainesville and Concho associations, and to act in unison with said associations as far as they could under said resolutions. J. N. Simpson, W. R. McEntyre and C. W. Merchant, were appointed on said committee.

A resolution was then offered and adopted binding this association to pay its pro rata of expenses incurred upon the action of the conference committee of the three associations.

The following resolution was then adopted:

Resolved, That we recognize the fact that Western Texas is no longer a frontier country and that all species of property is as safe on the western frontier as any other portion of the state, and that the old habit of carrying the six-shooter is no longer a necessity, and that we heartily condemn the practice, and that we will use our influence against it, and that in no case will we give employment to, or in any manner encourage any violation of the laws of the country knowingly, and that we will in all cases assist the proper officers in enforcing the laws.

Resolved, That it is the sense of this convention in regard to claiming cattle on the owner's range when such cattle bear the brands of both parties and when such claims appear equally good, that the cattle remain on the said range until settled between the owners themselves or their legal representatives and if not on the range of either claimant to be decided by the superintendent of the round-up which claimant shall take such cattle and hold for final settlement.

Resolved, That we earnestly ask that the managers and controllers of the railroads passing through our boundaries, use all caution to prevent the firing of the range by their trains and that they in connection with all other parties permitting fires to get out upon the range are notified that this association will use all legal means to protect their range from careless and willfull incendiarism, and will pay a suitable reward for the arrest and conviction of any party or parties willfully destroying the range by fire.

Resolved, That our thanks are due and are hereby tendered the TEXAS LIVE STOCK JOURNAL for the able and efficient manner in which it has represented the live stock interest of Texas, and that we heartily endorse its course and recommend it to every stockman as a live and progressive journal.

Resolved, That this association return to the citizens of Abilene their warmest thanks for the generous treatment so handsomely bestowed upon us individually and our association collectively, during the present session; that many of us came as strangers and were received as friends and entertained in a style commensurate with the magnificence and grandeur of this growing young city, and for her citizens, one and all, may prosperity ever attend them; may their city grow until its dimensions in wealth and size may be wide and far-reaching as her citizens are in kindness of heart and lavish hospitality; that our thanks are also due to Mr. Frank Collins for the use of his hall, and the kind and cordial manner in which he treated the members of this association.

Resolved, That the TEXAS LIVE STOCK JOURNAL, Abilene *Reporter* and Colorado *Courant* be requested to publish these proceedings.

The meeting then adjourned to meet at Colorado City, Mitchell county, Texas, on 2d Monday in March, 1883.

J. N. SIMPSON, President.
S. P. CUNNINGHAM, Secretary.

Private Inspection.

To the Members of the Colorado and Clear Fork Stockmen's Association:

Your committee to whom the resolution in regard to private inspection was referred beg leave to report:

That an executive committee of ten be appointed by the president of this association whose duty it shall be to employ a sufficient number of men, to see and inspect all cattle and horses sold, driven or shipped out of the territory embraced in this association, and to watch all shipping points and butcher pens, and, in fact, act for this association in preventing the illegal holding of cattle and horses belonging to its members.

All members who wish to avail themselves of this protection, shall present to this committee their names, and postoffice address, also the number of cattle and horses owned by them, and it shall be the duty of this committee to take possession of all cattle and horses belonging to said members so recording their brands with the committee, found in possession of any party or parties illegally holding the same and prosecute in courts holding jurisdiction, all parties found illegally holding said stock.

And we, who so record our names, marks and brands with said committee, bind ourselves to pay all assessments made pro rata on number of animals so recorded, to pay actual expenses of said detective or inspector, and that this committee be authorized to offer a reward of $250 for the conviction of any persons illegally using any of said stock, provided, however, no employee of said committee shall be entitled to said reward.

J. N. SIMPSON, Chairman.
W. R. MCENTIRE,
C. W. MERCHANT,
W. W. TUTTLE,
O. J. WIREN,
E. MENIELLE,
Committee.

In accordance with the foregoing resolutions the following committee from the different districts in this convention were appointed:

Dist. No. 1.—Adair and Deats.
Dist. No. 2.—J. F. Newman and Tom Trammell.
Dist. No. 3.—O. J. Wiren and W. W. Tuttle.
Dist. No. 4.—A. Calhoun and O. Durant.
Dist. No. 5.—Tod Windham and I. McCoy.

The said committee are hereby notified to meet at Colorado City on the 28th day of March for the transaction of such business as may come before it.

J. N. SIMPSON, President.
A. CALHOUN, Secretary.

The Black Leg.

FORT WORTH, March 12, 1882.

Editor Live Stock Journal.

I saw in your last issue a note from some one of black leg in calves, speculation as to the cause and the remedy, and if there was any known remedy. I had some little experience with that disease in the North some two years since and I found it worked exactly as your correspondent stated. I lost some ten head of high grade calves, and in skinning them found that on some it was difficult to determine at what point on the muscle the hide began to stick. I opened several of them and found the coating of the stomach very dry and rotten, would rub to pieces between the thumb and finger. The cause, at that time, I laid to over-feed; the stomach took in more food, and richer, than it could assimilate, having turned my cows on to fresh clover and timothy feed. This was the cause in my experience, I think; but I would not say that might be the cause of all cases of black leg. I published these facts in many of the local papers at the time in my neighborhood, and made a request that if any one knew of any remedies, to either inform me personally or through the press. There were some few squibs written through papers at the time, but I got more information, really, that was more to the point than through the press. I saw one who had lost twelve head the previous spring and he said he tried the following remedy: Draw blood as soon as you perceive anything of the like the matter; cut the ears, split the tail, put a rowel of a leather string in the brisket, also on the shoulders. Shouldn't try the latter unless the case was desperate. But the best medicine is a preventive. This I've tried and found it would make my cows and calves healthy, pulverize a pound of copperas and put it in salt and give it to cows when the calves are sucking. And the following will keep your calves healthy: but don't give too much: Mix sulphur in your salt when you salt your calves. After I tried this I lost no more calves with the black leg. This disease hardly ever affects any thing older than calves or yearlings in our Northern climate, and I presume it is the same here.

G. S. WHITCHER.

At Junction City.

Stockmen and others visiting Junction City will find the best of goods at the O O Saloon. Call and see Mike and Rufe and you will call again without being asked. sept26-6ms

Pueblo Hotel.

Attention, Stockmen and Farmers!

WILLIAM KOOCK

At Mason, Texas, has and keeps constantly on hand a full assortment of Dry Goods, Groceries and Clothing.

RANCH SUPPLIES A SPECIALTY.

I want the people to know where they will at all times feel at home. I sell at living prices, and am ready at all times to attend my friends and customers generally. WM. KOOCK,
Mason, Texas.

The Place to Go.

The JOURNAL takes pleasure in recommending Howord Tully, Jeweler, to the stockmen and to its readers generally. Mr. Tully's stock of jewelry, watches, clocks, etc., is complete and he is a liberal business man who believes in giving patrons their money's worth. He has employed an accomplished engraver, and is prepared to do all work in this line. Repairing of any kind done on short notice. In his new and ample quarters on Houston street, below the Cattle Exchange, Mr. Tully will be glad to see his friends and show them the "boss" stock of jewelry.
Aug 4-1tf

ORGANIZATION.

Proceedings of the Nolan and Fisher Counties Stock Association.

The stockmen of Nolan and Fisher counties met at the court-house in Sweetwater on Saturday evening, at 2 p. m., March 4, 1882, for the purpose of organizing an association, and to make arrangements for the spring work. H. C. Hord was chosen temporary chairman, and Joe M. Bunton secretary.

Thos. E. Douthit, Joe Nunn and N. H. Scott were appointed committee on resolutions.

J. F. Newman, J. C. Criner, J. M. Bunton, H. C. Hord, Thos. E. Douthit, R. M. Clayton and N. H. Scott were appointed committee on constitution and by-laws.

The committee on resolutions, through the chairman, Thos. E. Douthit, made the following report:

WHEREAS, It appearing to the interest of stockmen of Nolan and Fisher counties in convention assembled at Sweetwater, Texas, March 4, 1883, that permanent organization is necessary for their mutual good, be it therefore

Resolved, That we at once proceed to a permanent organization.

Resolved, That we appoint delegates to attend the convention at Abilene, March 13th, to report our action and ask their co-operation.

The association then proceeded to permanent organization.

Election of officers being in order, J. C. Criner was elected president; R. M. Clayton, vice-president; H. C. Hord, secretary; N. H. Scott, treasurer; and Joe Rice, J. C. Mabee, J. R. Trent, N. H. Scott and J. M. Bunton, were elected an executive committee.

The president then declared the election of the bosses in order and W. C. Isaacs was placed in nomination for boss of the Clear Fork district, and J. R. Trent for the Sweetwater district. Both were elected by acclamation.

On motion, the 19th day of April was selected as the day to meet at Sand Rock Springs and Long's old Ranch on Oak Creek, to commence work the 20th.

J. F. Newman, J. R. Trent, J. C. Criner, J. M. Bunton, H. C. Hord and Thos. E. Douthit were appointed delegates to the Abilene convention. A resolution was offered that the proceedings be published in the *Sweetwater Advance*, with a request that the STOCK JOURNAL copy. Adopted. Adjourned. J. C. CRINER,
H. C. HORD, Sec'y. President.

FROM EAGLE PASS.

EAGLE PASS, March 10, '82.

On Tuesday morning we left San Antonio over the Sunset route for the "Junction" and from there we staged it to this place.

The country through which this road passes between San Antonio and the Junction which is about 180 miles, west, is one of the most beautiful countries that I have seen in Texas. After leaving San Antonio about thirty miles you enter into one vast stock domain, almost entirely devoted to the stock business. The whole face of the earth, as it were, is covered with a rich heavy coat of grass, and the stock are as fat and sleek as they generally are in June. The country from San Antonio to the Junction is a high rolling prairie abounding in attractive prairie scenery and beautiful landscapes and is covered with herds of cattle and flocks of sheep.

The Sunset is being pushed forward rapidly to connect with the Huntington lines coming from El Paso. A large number of contractors, employing a large number of laborers, are pushing this road through to El Paso.

We arrived at the Junction about 9 o'clock p. m., hungry as a whole caravan of wolves. We had eaten nothing since morning, and made a raid on a boarding tent and made it interesting until the last thing was eaten up.

Then came the most interesting part, we had to stage it 35 miles to this point and one of the coldest northers of the season was blowing; there we sat shivering all night, arriving here about daylight.

Eagle Pass has about 2,000 population. Some fine wealthy business men here, the remainder and greater portion of the population consist of half-breed Mexicans (Greesers) and dogs.

The Mexicans live in miserable dirty hovels and on the outside of Chili-con-carni. It is the normal condition of the young "greaser" to be lousy and when he passes out of this stage, which he never does, it is his nature to take the small pox; indeed, he is not a full blooded Mexican until he has a genuine case of the small pox. The genuine greaser would rather die than impart any information in English to an American stranger; however, there are but few Mexicans that ever die.

Maverick county, of which Eagle Pass is the county seat, is almost entirely devoted to the sheep business. There are but one or two herds of cattle in this county, and they do not exceed 1,000 head. There are about 150,000 head of sheep. Sheep do well here. In conversation with B. C. Flowers of this county, he informs me that they have never suffered to any extent with scab or lombriz. He and others of this county inform me that the per cent. of lambs was never greater than this season. The unusual mild winter and the fine condition of the grass, have materially favored this particular branch of business. The lands of Maverick county are rapidly being bought up by Northern sheepmen and a great many Californians are purchasing ranches in this and adjoining counties. No county in the state is better adapted to sheep raising than this county. A branch of the Sunset road is already graded here. With these important railroad connections with San Antonio, the second best if not the best market in the U. S. for wool in the fleece, makes this a very desirable section of the country to engage in this branch of stock raising. You can now get on the cars at the Junction and in a few hours be in San Antonio. When only a few months back it took nearly, if not quite, a week. These inducements should and are settling up this vast domain of country peculiarly adapted to stock raising.

While here I met Mr. E. B. Rutledge of Frio county. Mr. R. has just returned from Mexico where he has been to purchase cattle. I have also met with Mr. McCormack of Hughes & McCormack of Las Vegas, Mexico, and he informs me that cattle are very high in Mexico. She cattle are worth $12.50 per head and the duty added to this amount which is $3 per head; besides there is some other red tape and expenses to be added making she cattle cost from $16.00 to $18.00 per head and this is too high for that class of cattle. They are not improved as the Mexicans never castrate their male calves, consequently there is no room for improvement.

It was my pleasure on my return to stop a few minutes at the ranch of Lytle & Thompson. This is at present the stage stand. Mr. Thompson, who is the manager of the ranch, was not at home, but I learned from some gentlemen stopping there that their sheep were doing remarkably well and that their losses in lambs were not as heavy as feared during "the wet norther." However, from them and other parties I learn that nearly all the lambs that came on that night died.

Lytle & Thompson (John Lytle), own one of the finest ranches in this section of the country. They have, I understand, about 30,000 sheep on this ranch and all in a healthy, prosperous condition. After resting here a few minutes we started for the Junction at which place we arrived about 9 o'clock p. m. There is no sleeping accomodations here whatever, and we began to fear that we would have to take the soft side of a railroad tie but Captain Wallace the passenger conductor kindly offered us a berth in the passenger coach which we accepted with prayerful hearts and next morning we were pulled for San Antonio, and here we are comfortably quarted at the Vance house.

PARSON.

FROM REFUGIO.

The Cattle King of Texas. Cattle. Prices. Etc.

This is an old village. Is fifty miles from the coast. Was settled at an early day by the Mexicans. Had an old mission erected for worship and protection against the Indian. Was afterwards settled by the Catholic Irish, a great many of whom still live here and have grown rich by raising long-horn cattle. Among the number is his honor the Mayor, Dan Fox, Jno O'Bryant and the cattle king of Texas, Thos. O'Conner who landed here a poor bare-footed boy, learned to make saddle trees and ox yokes and invested his little means in catttle. And to-day he owns sixty thousand head of cattle, has two hundred and seventy-five thousand acres of land under fence and paid for, has half a million dollars out on interest, doesn't owe any man a dollar, never sells young cattle. Thinks it don't pay. Does not bank much on the Short-horn stock, says they can't stand the storm and require too much nursing. Still clings to the old long-horns, believes they are *the* stock for the coast counties.

District court is in session here which has brought in a good many cowmen. The criminal docket is light.

This county is a cow county; is settled entirely by cowmen. Occasionally you see a man who has settled on some small creek who owns a small farm but raising cattle and horses is the chief business.

The entire country is under fence. Lands are worth from two to five dollars an acre owing to location.

Cattle are worth about twelve dollars a head. Horse stock about ten. No old steers in the country for sale except in O'Conner's pasture and they are contracted at twenty dollars around.

George West & Bros. received of Jack West & Levi, yesterday, eighteen hundred two-year old steers. They leave to-day for Kansas via Victoria where the herd will be fitted up. Several more herds leave this county next week. There is about one herd yet unsold here of young cattle but I see R. L. Dunman is here and I suppose, of course, he will get in with what is left.

Stock are in pretty good shape out here, but to-day we are having a raw spell, and doubtless you are having snow but it has come too late to do do much damage to stock. Nearly all the cowmen here take the JOURNAL and seem well pleased with it.

SCROGGINS.

FROM WEATHERFORD.

March 16, 1882.

J. C. Lynch, an old and well known cattleman, is in town.

I understand a representative of the LIVE STOCK JOURNAL has been in town this week. I regret that he failed to call.

Messrs. Hughes & Simpson have just received at this place, from Lexington, Ky., two fine stallions and one mare, of splendid pedigree, which they will take to their ranch for the improvement of their horses, of which they have a herd of about 1,000. An example well worthy of imitation. The advice, ever uppermost in an editor's mind to a prolix correspondent, is applicable to horse as well as cattle raisers, viz: "Bile it down." Stockmen must put valuation into smaller compass. A $100-horse can be raised about as cheaply as a $40-pony. The stockman who fails to appreciate this fact is certainly "penny wise and pound foolish." I might point a good long moral here, but for fear I would fail to adorn a tale, I will desist.

Messrs. Anderson & Rogers, (R. R. Anderson of this place), have sold their cattle in Greer county, to L. Z. Eddleman, for $25,000, range delivery. Their horses go in at $1,000. Less than two years ago this firm invested $15,000 in cattle with the above results.

Wm. Baker of this county was in to see your correspondent the other day. In discussing the merits of the STOCK JOURNAL, he illustrated its importance to stockmen by stating that his neighbors had recovered four head of horses, worth in the aggregate, perhaps, $250, from seeing them advertised, in the JOURNAL, of which Mr. Baker is an admirer and a subscriber.

TEN E. SEA.

Fine Sheep for Texas.

Mr. V. W. Dodd arrived about ten days ago in our city, with as choice a selection of Merino sheep as has ever been brought into the state.

This flock was begun by the late Mark R. Corkrill, of Tennessee, in the year 1814, from the importation of Gen. Mason of Washington City who, while in Spain, made the purchase from the far-famed Paulor Merinoes of that kingdom.

In 1835, Mr. Corkrill took the first premium at the Kentucky State Fair, over several distinguished competitors, Henry Clay being among the number. From specimens of wool sent to the World's Fair in London, 1870, he took the first premium. We feel confident that Mr. Dodd will keep up the reputation of this famous flock of sheep, and are glad to have him come among us. Mr. Dodd has about twenty fine Merino bucks for sale. They can be seen at his ranch near Handley station in this county.

TEXAS LIVE STOCK JOURNAL

The only Paper Published Devoted Exclusively to Live Stock on the Range.

Office of Publication and Business, southwest corner Houston and Second streets, up stairs, Fort Worth, Texas.
Entered at the postoffice as second-class matter.

The JOURNAL *is the official organ of the Texas Live Stock Association and of all other principal stock associations in the state.*
Full proceedings of each meeting of these associations, together with the time and place of such meetings, will be published in due time.

Publishes alternately, the estrayed stock of every county in Texas.

Gives latest market reports and stock news generally frem all points of the country.

GEO. B. LOVING,
Editor and Manager.

ISSUED EVERY SATURDAY.

SUBSCRIPTION $3.00 PER ANNUM IN ADVANCE

Weekly Circulation - 7,500

OVER ten miles of rail has been laid on the Fort Worth and Denver road.

READ the speech of Mr. H. L. Bentley before the Colorado and Clear Fork Association. It will be found on the second page of this issue of the JOURNAL.

THE offer of $5,000 to the inventor of a "humane car," brought out 700 models, not one of which came up to the idea of the man who offered the reward, which fact moved the Detroit *Free Press* to suggest that what seems to be wanted is a car carpeted with Wilton, furnished with mirriors, and roomy enough so that all the old cows can have lower berths.

THE Pittsburgh *Stockman* still finds food for remark in the boom. It says "it is a poor week in which a new cattle company or two, with a capital of a hundred thousand or two, does not go into business in some part of the Southwest. The new investments being made in that region are really of astonishing magnitude. And Texans talk as though this thing were going on forever."

SPEAKING of the "Northern drovers" who, it seems, have not been "driven out of Texas" by the JOURNAL'S free advertising of high prices, the Dodge City (Kan.) *Globe* says:

These men have searched every nook and corner of the state for cattle for the spring drive, and while it was supposed that the drive would be less than last year, their eagerness for cattle for the Northern market have given them 40,000 head more than they have driven from the state for the past two years and in our judgment in many instances paying Kansas prices for them. But how they will come out or what they expect to make on their drive of 1882 is a question that nothing but time can answer.

THE flood is now doing its greatest injury on the lower Mississippi. Delta, La., has been abandoned. Monroe, La., is threatened with submersion. Nearly all of Trenton, just above Monroe, is under water. From a point 20 miles below Memphis, where the first break in the levee occurred, the entire country is one vast sea of water. The levee along the river front is broken in forty different places between Memphis and Arkansas City and at some points the river is fifty miles wide. Stock in the river counties of Arkansas, Louisiana and Mississippi has been drowned, people have been made homeless, and it is now said that all published reports have fallen far short of giving an idea of the damage that has been done or the destitution prevailing.

HAVING associated ourselves together, under the firm name of Loving, Garner & Harris, for the purpose of buying and selling, on commission, land and all kinds of live stock, we respectfully tender our services to parties having for sale ranches, stock of any kind, or large bodies of land suitable for grazing purposes. We will enter a description of such property on our books for the inspection of purchasers and advertise the same through the columns of the JOURNAL and otherwise, making no charge unless a sale is effected. We have calls almost daily for stocks and stock ranches, and find no trouble in disposing of all desirable lots offered, where prices are reasonable. And we have no hesitancy in saying that we can be of valuable aid to parties wishing to sell property in our line. Respectfully,

GEO. B. LOVING,
W. A. GARNER,
tf JEROME HARRIS.

The Beef Crop of 1882.

Without some unforeseen disaster, West Texas will reap a larger money harvest from the sale of beef cattle this year, than ever before. We need not mean that prices will be higher than they were last year, but we will have more ripe cattle for market. The drought of 1881 cut the beef crop short, fully one-third, cattle did not get fat and those that were shipped were not first-class and consequently brought low prices. This year we will have the one-third left over from last year, in addition to the legitimate crop of the present year, which will give us a larger crop of beeves than ever before.

The mild, wet, winter just passed, assures an early crop of grass, and with cattle already in good fix, we may safely predict an early beef market; the prospects are very flattering and our stockmen can congratulate themselves on their good fortune. We are satisfied that good cattle will rule as high in the Eastern markets as they did last year and if there is no tightening in the money market they will sell for more money. The past year should have taught every beef man that only good cattle should be shipped. If the grass is good it pays to hold beeves until they are in big tallow, even if they miss the early spring market.

With good cattle at the same price of last year, West Texas will have more money than it ever had and our already rich cattle men can afford to go on improving the quality as well as the quantity of their stocks.

OUR CHICAGO LETTER.

High Prices Prevailing for Texas Cattle and Sheep. Double Deckers and other Matters.

[Regular Correspondence Texas Live Stock Journal.]

UNION STOCK YARDS,
Chicago, Ill., March 13, 1882.

The regular Texas cattle season can scarcely be considered open; as we have only received about one heavy train of through grassers altogether. For the bulk of these $4.50@5.15 were the prices obtained, though a two car lot of poor mixed cattle sold at $4.10 and one lot of 1,051 lb steers, smooth and fat, brought the neat price of $5.25. A train load of choice cattle from J. B. Wilson, recently sold in St. Louis at $4.12½@4.60 with the tops at $4.80. A cut-off of 6 cars of 878 lb cattle of the same drove was brought here from St. Louis and sold for $4.90.

At the least calculation we may count on the regular shipping season being fully two months earlier than usual, and whatever the season may develop in the way of prices, the current rates are certainly "not to be sneezed at." Fat 950@1,000 lb steers are readily salable at $5.00@5.25. Canners have paid $5.15 for several lots of grass Texans, and seemed to do it more cheerfully than they paid $3.50 for native cows.

Sheep are in good demand and prices are strong. Texans quotable at about $4.50@5.00 if good to choice, and $3.50 if common to fair.

The great drawback to Southwestern sheepmen is the fact that they are compelled to pay for a car load when they can only get in half a load of sheep. The railroads do not put on double deck cars, because, as they allege, no return freight can be loaded, and they cannot afford to haul empty cars so far. To say that double deck cars would double present shipments sheep from the Southwest is putting the matter mildly.

A. C. HALLIWELL.

SALES AND TRANSFERS.

THE BOSS SALE OF NORTHWEST TEXAS.

On the 10th inst., at Gainesville, this state, Messrs Stephens & Worsham sold their entire stock of cattle, horses, ranches, etc., to Wm. Young & Co., one of the heaviest live stock and grain firms of Chicago. The sale includes about 37,000 head of cattle, 400 horses and both the ranches owned by Stevens & Worsham, for which Wm. Young & Co. pay $650,000. This is without exception the largest transaction ever made in Northwest Texas; and while it crowns with large success the efforts of our friends, Messrs. Stevens & Worsham, it also promises immense profits to the purchasers. We learn from Col. Young, who is now in the city, that his firm have assigned the purchase to a company styled the Alamo Cattle Company—an association regularly chartered under the laws of Texas with a capital stock of $500,000. The principal office of the Alamo Cattle Company will be in this city, with a branch office located in the city of Milwaukee. The organization of the company was recently perfected by the election of Washington Becker, a prominent capitalist of Milwaukee, as president; Col. A. M. Britton of this city vice-president and general manager, and Wm. Young of Milwaukee secretary and treasurer. The directors are the three gentlemen above named, A. D. Pickering of Chicago and W. A. Garner of Fort Worth. We take pleasure in commending this company to the stockmen of Texas as composed of gentlemen of high financial and social standing, and bespeak for the Alamo Cattle Company the good will and kindly feelings of their fellow stockmen in Texas.

Mr. Jno Davidson of Concho county, transacted a little private business while in San Angela attending and presiding over the stockmen's meeting. He intends driving cattle to Kansas this spring, and while here contracted with Capt. Jno. R. Jefferson for 800 head, and with Mr. J. N. Upton 800 head of one, two and three year old steers. Prices paid are $11 for ones, $15 for twos and $21.50 for three year olds. Capt. Jefferson will furnish about 300 head of full grown beeves, and the balance in ones and twos. This transaction will add about $30,000 to the grand total in the list of stock sales made in our county lately. —*Tom Green Times.*

Judge H. M. Beverly has sold his interest in the cattle and ranch, south of this point to his sons William Beverly H. M. Beverly, Jr., and James R. Beverly. The judge says he will engage in the cattle business next season. The Beverly Bros. have a fine lot of cattle, which have wintered well.—*Dodge City (Kas.) Times.*

Mr. Newcomb of Cambridge has sold his interest in the stocks formerly owned by Newcomb, Waddington & Johnson to E. G. Leonard.

Messrs. Morris & Waddington have recently sold their stock, land and outfit in the Pan Handle to J. W. (Bud) Wilson for $200,000.

Texas Press Association.

By virtue of the authority given me by the Executive Committee, the time for holding the next annual meeting of the Texas Press association is extended to April 25th, 10 o'clock A. M.

It is proper to state in this connection that the change is made at the earnest solicitation of a good many members of the association, and at the request of the local committee in Houston having in charge the matter of the entertainment of the association. As a further reason, I have received a final answer from the Southern Pacific Railroad Company, granting to the association a drip to San Francisco, with the suggestion that "about the 1st of May" would be most convenient.

HAL. L. GOSLING,
President Tex. P. A.

Going to Dodge City.

M. S. Culver, of the firm of Foster Clark & Culver, live stock dealers and commission merchants, San Antonio, will establish himself in the live stock commission business in Dodge City, the 1st of April. He will also represent the outside interest of the well-known and popular firm of Wright, Beverly & Co. bankers and dealers in general merchandise, Dodge City, Kansas. Mr. Culver's long experience in the live stock commission business, his long connection with the stock interests of Texas, Kansas, Colorado and the Territories, gives him an acquaintance that is valuable in the commission business; his honesty, integrity, energy and capacity peculiarly fit him for this particular branch of business. We bespeak for him the patronage of the drovers and stockmen in general, both in the commission business and as a representative of the well-known firm of Wright Beverly & Co. mch-11-4t

—Don't forget Zack's barber shop when you are in Fort Worth. 43 Main street.

Two Years Ago.

The TEXAS LIVE STOCK JOURNAL was started April 17, 1880, as a four column paper. It was unique in character, a very venture in journalism and was possessed of nothing but energy and a firm reliance on the stock raisers on the range, to whose interests the paper was devoted. The initial issues of the JOURNAL were sorry specimens of a newspaper that aspired to represent so grand an industry; but, it was the best the publisher could do without material or the money to buy an office. Without a subscriber, without a dollar, the JOURNAL was started. We need not dwell here on the hard work, the privation, the expedients that marked the first year's existence of the paper. Our purpose is to chronicle its growth—not to recount the incidents of the weary road travelled in building it up to its present dimensions and standing.

When started, the JOURNAL was printed "by contract," at so much per week by another printing house. In May, 1880, the paper was removed from Weatherford to this city. About a month after this removal—June 16, 1880, the JOURNAL was enlarged to a 6-column folio, 24 columns in all. August 25, 1880, the paper was again enlarged to 7 columns to the page—28 columns in all. March 23, 1881, a two-page supplement, 14 columns, was added making the JOURNAL a six-page, 42 column paper. April 13, 1881, the third enlargement was made—to a 9-column folio, 36 columns in all. The next month a supplement of 9 columns was added. In July, 1881, another page was added to the supplement, making the JOURNAL a six-page paper of 54 columns.

During all this time the JOURNAL was printed by other parties, the publisher preferring to increase the size to buying an office of his own and publishing a small paper inadequate to the demands on its space. But the time had now arrived when the contract system was no longer desirable or adequate. The purchase of an office had become an absolute necessity. After "due deliberation," a purchase was made of the well-known printers supply house of S. P. Rounds, Chicago, who furnished the office throughout. The purchase included one of the largest of those splendid printing presses, the "Chicago Taylor," whose magnificent work is shown in each issue of the JOURNAL and will favorably compare with the work done by any press in the country. There isn't a better printed paper in the South than the STOCK JOURNAL—and this is due to the "Taylor," an engraving of which we publish herewith. This fine press now prints for us more papers in an hour than we had subscribers one year ago. The newspaper material furnished by Mr. Rounds receives the praise of every printer and newspaper man who has examined it, and we take this occasion to say to our Texas contemporaries that, if they wish to buy anything in the line of printing material, it will be money in their pockets to correspond with Mr. Rounds. He is liberal and obliging, and his goods are inferior to none made in this country.

This material purchased was for an eight page, 7 column paper—a 7 column quarto, in which size the JOURNAL appeared on the 29th of October last. The next month, November 5, 1881, a supplement of 14 columns was added. January 7th last, two more pages were added, and the JOURNAL regularly assumed the form of a 7-column 6-mo. 12 pages of 7 columns each, 84 columns in all, and became the largest newspaper in Texas, if not in the South. Less than two years ago the smallest—to-day, the largest!

Some idea of the newspaper material purchased can be gathered from the facts that although we have added *twenty-eight columns* to the JOURNAL since we bought the office and made the paper a quarto and that we are now publishing for other parties a 32-column weekly, and a 24 column monthly, we have not been compelled to add a pound of reading matter or advertising type. Indeed, we are prepared to contract to do the printing for still more papers.

In buying a newspaper outfit we also purchased a job office—two "Universal" jobbers, a quarto and an eighth medium, nearly 500 fonts of type and other material in proportion. We do not believe there is a better job office in the state outside of the largest cities.

Soon discovering that the 2-horse power steam engine, included in the original purchase of an office was not able, however willing, to meet the constantly increasing demands upon it, the question of motive power became a serious one. We finally decided in favor of a 4-horse power gas engine. Through Mr. R. V. Tompkins, state agent, this addition was made, and this week the presses of the JOURNAL are run by Otto's Silent Gas Engine. It is one of the most wonderful motors in existence, and promises to supply all the power we are likely to require for some time to come.

Two years ago—less than two years ago, the TEXAS LIVE STOCK JOURNAL was a little 4-column paper printed "by contract." Now, it is a 12-page, 7 column paper; has an office of its own not surpassed for *completeness* anywhere, a press that will print 2,000 papers an hour, an engine costing $1,000 that will run five such presses, material enough to print two other papers, a job office that can not be beat outside of the largest cities, a circulation numbered by the thousands that extends from beyond the Rio Grande to beyond the St. Lawrence, across the Atlantic and over the Gulf, and 18 men on its pay roll besides the correspondents.

We feel proud of the progress of the JOURNAL and we shall be pardoned for reciting the successive stages made on the upward road to a yet grander success in the future. Unless hard work and devotion to a cause espoused have lost their potency, the JOURNAL has but begun to grow.

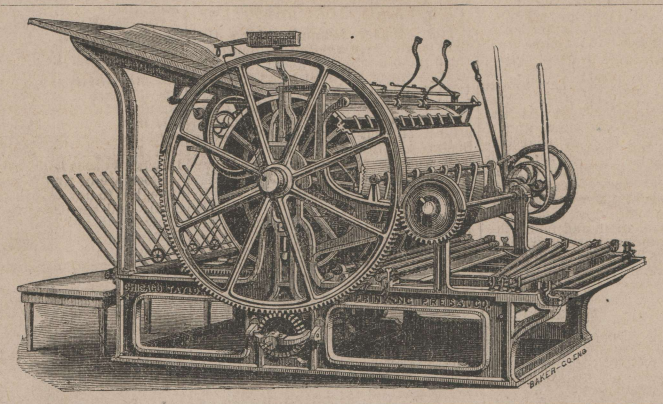

Will not our friends to whom we owe so much, join with us in a pleasurable, proud feeling, in contrasting the JOURNAL of March, 1882, with the JOURNAL of April, 1880?

CATTLE RAISERS' MEETINGS.

The Northwest Texas Stock Raisers Association meets at Gainesville Monday, March 20, 1882.

The stock raisers of Hill county will meet at Hillsboro Monday, March 20, 1882, to arrange for the spring hunt.

The cattlemen of Young county and adjoining range will meet in Graham on the 27th inst. to organize a county stockraisers association; also to organize the different outfits in the range for the spring work.

SPRING WORK.

Palo Pinto County Stockmen's Meeting.

Pursuant to call the stockmen of Palo Pinto county met at Palo Pinto on Thursday last at 2 o'clock p. m.

On motion J. H. Caruthers was called to the chair, and James E. Beaman was appointed secretary.

The chairman explained the object of the meeting, and appointed J. K. P. Shirley, W. H. Cowden, Sr., M. O. Lynn, G. R. Jowell, B. S. Snelling, E. Yarbrough, T. C. Hindman and S. R. Edmondson a committee to draft preamble and resolutions.

The committee retired and after mature deliberation, returned the following

REPORT.

To the Chairman and Members of Palo Pinto County Stockmen's meeting:

We, the committee, herewith return the following preamble and resolutions.

Realizing the power, influence and necessity of organization, we, the stockmen of Palo Pinto county, in convention assembled, believe that the time is at hand that we should unite for mutual aid, benefit and protection.

Therefore be it resolved,

1st. That the county of Palo Pinto be divided into five cow-hunting districts, and said districts be each bounded, and placed in charge of a superintendent as follows to-wit:

District No. 1.—L. R. Daniel, superintendent; meet at Milsap, postoffice, and to embrace all the territory east of the Brazos river and the valleys and bends on both sides of the river, south of the Palo Pinto and Weatherford road, and as far down the river as the Littlefield Bend and Poe Prairie; and as far east as the superintendent may deem expedient.

District No. 2.—E. Yarbrough, superintendent; to meet and commence at the west and south line of district No. 1, in the vicinity of Lipan P. O., in Hood county, and to include all the territory north of a line running from Lipan to the head of Buck Creek, thence on a direct line to the east end of Clayton mountain, and around the foot of the mountain to Palo Pinto creek to the mouth of Lake creek, thence north to the town of Palo Pinto, thence including the town prairie to the west boundary line of district No. 1, thence with the west line of said district No. 1 to the place of beginning.

District No. 3.—T. C. Hindman, superintendent; meet and commence at Wiley's store in Erath county, to include all the territory west of district No. 2, and east of a line running north and south through the town of Gordon and along said north and south line to the Dodson prairie, thence east to the line of district No. 2.

District No. 4.—W. H. Cowden, Jr., superintendent; to meet and commence at Will Allison's ranch in Eastland county, and to include all the territory west from district No. 3, and east of the range of mountains west of Strawn, known in this county as the Ioni mountains, and extend as far north as the Metcalf Gap.

District No. 5.—Jere Hart, superintendent; to meet and commence at Hog town in Eastland county, and include all the territory west of district No. 4, and east of Big Caddo to Jere Hart's ranch.

Resolved, 2d, That all hands shall meet at the respective places in their districts on the first day of April next, equipped with ten days rations.

Resolved, 3d, That the residue of the round-up, after the cattle that are owned along the drive shall have been cut from the several herds, shall be thrown together into a general round-up on the 12th day of April, on the Dodson prairie.

Resolved, 4th, That we recommend J. S. Ewen and M. O. Lynn, as proper members to represent this county in the Northwest Texas Live Stock Association, to meet in Gainesville on the 20th inst. Respectfully,

W. H. Cowden, Sr.
G. R. Jowell,
M. O. Lynn,
B. S. Snelling,
S. R. Edmondson,
E. Yarbrough,
T. C. Hindman,
J. K. P. Shirley,
} Committee.

On motion the report of the committee was unanimously adopted.

It was moved and seconded that the stockmen be invited to co-operate with us, and that they be respectfully requested not to violate our range during the time between the 1st and 12th of April, while we are absent on the spring round-up; carried.

Moved and seconded that Saturday, 18th inst., be set as a day for stockmen of Palo Pinto county to meet at the town of Palo Pinto for the purpose of the permanent organization of a county organization, and that all stockmen be requested to attend said organization; carried.

Moved and seconded that the TEXAS LIVE STOCK JOURNAL and Palo Pinto County *News* be each furnished with a copy of these proceedings, with a request to publish the same.

J. H. CARUTHERS,
JAS. E. BEAMAN, Chairman.
Secretary.

Strayed and Stolen Cattle.

BLUFF DALE, Erath Co.
March 11, '82.

Editor Texas Live Stock Journal.

Some time ago certain steers were stolen from this and Hood county and recently found in a pasture in Navarro county. Besides those recovered by resident owners, in this herd are steers driven out of this country and believed to be strays here. If we can find the owners, we or they can take action in the matter, and I have enclosed the marks and brands hoping that you will publish them, both for the interest of the lawful owners and the sake of common honesty.

As there is difficulty in making out brands now, persons having *very similar* brands will favor by notifying of same. Correspondence may be directed to

M. S. GORDON,
Lipan, Hood county,
or Bluff Dale, Erath county.

THE BRANDS.

F T, marked crop and split each ear.

U over J, perpendicular bar in top of U, marked crop right and underslope left.

M and O, perpendicular bar through the O, marked underhalf crop each ear.

I P marked crop left and crop and underbit right.

O L D, marked underslope each ear.

W ⊃, marked crop each ear.

Black Leg, or Murrain.

CISCO, March 12, 1882.

Editor Texas Live Stock Journal:

I send you a receipt for black leg or murrain in cattle: For a yearling take one tablespoonful of spirits turpentine, stir in flour sufficient to make a ball of it. Should the turpentine make it too hard add a little water to keep it from crumbling. Pull the tongue out, drop or poke the ball down on the root of the tongue so that it cannot help swallowing it, then drench with a teacupful of coffee as strong as you can make it, give three doses per day for two or three days. I have had several calves and yearlings for the last six years to be sick with murrain or black leg, and when taken in time the remedy has generally cured. When the disease has gone too far I do not think it will cure. Dose more or less according to age of brute. If you think the receipt worthy, publish. Yours respectfully.

WILLIAM MUNN.

Attention, Stockmen!

When in Austin or San Antonio, go and see the best stockmen's boots in Texas; also, the largest stock of boots and shoes in the state.

Nov.26-1y. JAS. MARTIN & SON.

One Instance.

Messrs. Harris & Stinson Bros., received a letter to-day from a stockman in Edwards county, saying one of their cows was running in his range. He offered to buy her of them, having noticed their brand in the STOCK JOURNAL. Messrs. H. & S. Bros.' ranch is on Dillingham prairie in Jack county, and it will be seen that the JOURNAL is the means of their finding this cow, 300 miles away from home.

STRAYED AND STOLEN.

Stolen.

From my place eight miles north of Marlin on March 14, 1882, one sorrel horse about sixteen hands high, eight years old, branded L U on left shoulder in large letters; also one gray horse, with red spot on right hip, about 14 years old, branded J?R (connected). $10 reward will be given for recovery of the same.

THEO RICE.
3-18 1t. Peyton, Falls county, Tex.

$25 Reward.

F. E. Piner, Denton, Texas, had stolen from him a horse about 15 hands high—a sorrel with both fore feet and one hind foot white, blaze face, large wart on right side of neck, branded F on left shoulder and hip. Horse about 8 years old. I will give $25 for information that will secure the horse, and $50 for the conviction of the thief and return of the horse. dec-31-8mo F. E. PINER.

Strayed or Stolen.

A liberal reward will be paid for the delivery to me, or for information leading to the delivery of the following described animals—strayed or stolen from me about the middle of August: One gray horse, about 14½ hands high, branded H O on left shoulder. One dark gray horse about 7 years old. Address,

TOBE ODEM,
Nov.26tf. Henrietta, Texas.

$20 Reward.

Lost one brown horse, 7 or 8 years old about 14 hands high A&F on the left ear on left thigh. shoulder and L Also one sorrel horse, unbranded, unless a Spanish brand on left thigh, about same age and hight of the brown. The above reward will be paid to anyone delivering the same to me at Albany, or a liberal reward for information that will lead to recovery of same.

BRIEF MENTION.

J. T. Lytle started 10,000 head of his cattle north from the Medina last week.

J. S. McCann, Belknap, says, "Cattle are doing well and none have died."

When you feel a cough or bronchial affection creeping on the lungs, take Ayers Cherry Pectoral and cure it before it becomes incurable.

Five cars of cattle from Johnson county, belonging to W. J. Burks, passed through here en route to Chicago, consigned to Wm. Young & Co.

T. A. Cochran, of Kerr, Cochran & Bibb, writes from "among the cattle" that they are doing well, and that but few have drifted south of the railroad.

McNeal & Blachett, of California, have purchased 20,000 acres of land in one body of fourteen miles long by five wide, in Crockett county, for the purpose of stock-raising.

Mr. E. T. Gadd writes us from Dallas: "I read with great interest in the LIVE STOCK JOURNAL the discussions going on in reference to stock growing and agriculture. I think your views of the subject correct. I have seen much of Western and Southern Texas."

The Santa Fe company have completed their shipping yards at Kopperl and stockmen think that will be one of the best points on the road to ship stock from, on account of the water, which is convenient and never failing and the good pasturage adjacent. Messrs. Hudson and others will ship largely from there.

Mr. W. H. H. Larimer writes us from Denison March 11th: "I leave the state to-night for Kansas, having bought all the cattle we need at present. We will drive 3000 head. Bought 1200 head in Denton county from Chapman & Wetzel, one and two year old steers. Send us (Crane & Larimer) your paper I want to keep posted."

Cattle are still leaving our county. A drove of over 200 passed Tuesday, chiefly yearlings, going west. Numerous stock, both horses and cattle, have been drowned by the overflows of the Nueces river. The overflows have produced an immense number of buffalo gnats and mosquitoes, which are very troublesome to both man and beast.—*Crockett Patron.*

Mr. H. D. Sullivan, one of San Patricio's prominent stock owners, was in Cuero on yesterday. Mr. Sullivan has just returned from Gonzales county, where he received a bunch of 719 cows, purchased sometime last fall from Mr. Bob Huston, for which $15 per head was paid. Mr. Sullivan will drive several thousand head of ones and twos up the trail this spring. —*Cuero Bulletin.*

Mr. Tobe Odem writes us from Henrietta March 7th: "The ground is about covered with sleet and it is still sleeting. The heel flies have been very bad, but they will hunt their holes now. E. F. Ikard has returned from the East. W. S. Ikard and W. R. Curtis are getting up on their heels again. They have been very ill since their trip to Austin. It does not agree with stockmen to legislate. Skating is becoming the fashion in Clay county."

S. L. North & Co., Leavenworth, Kas., consult JOURNAL readers this week with reference to the sale of carriages, buggies, sulkies, etc. These gentlemen manufacture and keep on hand a large and complete stock of finished work, all of which is strictly first-class and warranted. Those of our readers who wish anything in this line should consult Messrs. North & Co., whom we can most cordially recommend as gentlemen of fair dealing and liberality.

Drs. Knight & Clayton, who have been advertising in the JOURNAL some five jacks for sale, write us as follows: "Since our last report we have sold our fine young jack, Gen. Cheatam, to B. F. Ashburn near Grapevine, Tarrant county. We regard him as one of the purest and most fashionable bred jacks in the U. S., having descended from the best imported stock of Spain on both dam and sire side. We are receiving letters of enquiry daily from various parts of the state."

Lytle & Schreiner and Lytle & McDaniel will send about nine or ten herds of cattle up the trail this year, making a drive of about 30,000 head. They send some herds from as far down as Duval, while some of the Schreiner & Lytle herds are made up in Llano, Mason, San Saba and McCullough. Cattle are much higher than ever this season, and, if the figures happen to drop on them, good bye thousands! However, we hope their usual good luck will await them at the other end of the drive.—*Castroville Quill.*

For three days this week, Monday, Tuesday and Wednesday, a cold, sleeting norther made us shiver and shake, and "all nature" was slick and cold as ice could make her, and the unsmiling faces of our sheepmen were as long as your arm, if not longer. Thursday dawned bright and glorious, however, and in a few short hours spring was again with us. The sheepmen luckily were not hurt by this cold spell, but it is to be hoped that we will not have any more of this winter foolishness this spring.—*Tom Green Times, March 11th.*

Another big steal is announced in the same section of country reported last week as having been depredated upon. This time 100 head of horses have been stolen and shipped out of the country. It is about time to put a stop to this wholesale thievery. Legal remedies should be applied if possible, and for this purpose there should be an organization of the people for the purpose of aiding the authorities in bringing to trial every person engaged in stealing stock. The thieves are said to be known, and their enmity is feared by many quiet, order loving citizens. By organizing for mutual protection and the assistance of officers the organized band of stock thieves can be checked easily.—*Cuero Star.*

Our Gas Engine.

Since putting up the gas engine the JOURNAL office has been crowded with visitors desiring to see the wonderful little motor. Our friends are cordially invited to call and see it.

Ranch for Sale.

3,500 acres in one body in Tarrant county, 330 acres in cultivation; 4 pastures of 1,000, 800, 500 and 900 acres, each. Everlasting water running through pastures, farm and lots. Good improvements, including dwelling, corrals, barns, etc., cheap for cash. Address,

LOVING, GARNER & HARRIS,
3 18 tf Ft. Worth, Tex.

—Dashwood's drug store is a daisy Everything new, neat and tasty. Nothing lacking to make up a complete stock. Prescriptions carefully compounded. Go there for your drugs, prescriptions and fancy articles. Main street, opposite Knights of Pythias hall. tf

SAN ANTONIO.

Mark Withers, Esq., was in the city a few days ago.

The cattlemen are busy delivering and receiving cattle for the drive.

L. McKenzy, a large sheepman from Maverick, is attending Federal court.

B. L. Crouch of Frio paid a flying visit to our city. He is receiving cattle for the drive.

J. H. Scott of Jessamine county, Kentucky, left a few days ago for his ranch in Concho.

W. A. Mangum of Flatonia is in town and will leave in a few days for his ranch in Runnels county.

C. H. Boyce of Sweet Home is here awaiting the arrival of a large herd of horses he is taking to Kansas.

Smith and Elliott left for Llano county Saturday, where they go to receive a large number of cattle.

D. T. Knight of Georgetown is in the city. He will drive 1,500 or 2,500 head of ones and twos to Kansas.

Mr. Leon Millett came in from his ranch in La Salle. Millett has about 100 acres of corn planted which is up and growing nicely.

B. I. Gillman, Esq., ranching with B. L. Crouch of Frio, reports the water scarce in his section and causing great inconvenience among large ranchmen.

Sheepmen are very busy at present. The lambing season is in full bloom and requires all their attention, a great many lambs died during the wet norther.

We are reliably informed that the International road in thirty days will have special stock trains running from here, via Taylor, to Denison without change.

The average invalid from the North seeking health here, passes off the dull hours cursing San Antonio hotels and boarding houses and Texas generally. After one of these performances he seems to expectorate more freely, and gathers a stronger grip on life, and his prospects for a longer lease of existence brightens.

Parties are here investigating the propriety of erecting stock yards here on a grand scale. This seems to us an enterprise in the right direction. We hope the parties will report favorably on their investigation and the building of stock yards here on a general scale will begin at once. We await further developments.

J. W. Taylor of Austin is on a flying visit to the Alamo. Mr. Taylor has recently returned from an extended trip to Mexico. He informs me that cattle are very high there. They are so high that by the time you pay three dollars duty they cost as much as our native cattle. They have no steer cattle, everything is bulls and cows.

There are a great many Californians here for the purpose of buying ranches and sheep. They have organized themselves into a club which meets weekly, the object of which is to impart information to each as to the counties best adapted to sheep raising, etc. Through such an organization new comers can get much valuable information. California sheepmen, as a rule, are experienced business men and the sheep grazing districts of Texas are fortunate to have this class of men to settle among them.

The market for young cattle to drive north is not as active as it was a few weeks ago. The drovers are about all supplied and cattle at former prices are not sought after. While there is no decline, yet it almost amounts to the same thing, when an article is on the market and no demand for it. We hear of very few sales in this class of live stock. Drovers are busy receiving and starting those they have already bought. Most all the drovers I have conversed with say they do not want any more stock at present prices. The outlook is not bright enough for further risks. Ten dollars and $10.50 for yearlings, and $12.50 and $13.50 for twos are extraordinary prices, yet some wanted more. I fear they have let the best opportunity pass. The excitement is calmed down; the boom is over. One thing, however, is consoling to the seller, he has his cattle left, a forward spring and plenty of grass, and the best range in the world and good credit.

CATTLE MARKET.

The week just closed has been an unusually favorable one for the seller, all going off at good prices on arrival.

W. B. Foster sold 37 small beeves at $22.75 per head; 25 fair beeves at $30 per head. We quote:

Fat cows	$18.00@20.00.
Beeves, medium	22.25@25.00.
Beeves, fair	25.00@30.00.

HORSE MARKET.

The horse market has not been quite as active this week. While there may not be considered a decline, buyers are not as willing to take hold at former prices as they were.

Smith & Redmond sold 64 saddle ponies, 6 mares and 6 mules making 76 head at $19 per head. Also same parties sold 200 mares (driving mares) at $13 per head. We quote:

Good Texas cow ponies	$25.00@35.00.
" Mexican " "	20.00@25.00.
" Mares, shippers	15.00@18.00.
Mules.	
" 13 to 13½ hands high	30.00@35.00
" 14 " "	40.00@45.00

SHEEP MARKET.

The sheep market for the past week has been dull owing to the bad state of the roads, and no sales worthy of notice have been made. The flocks on hand are now lambing, but will be ready for sale by the time this report reaches our readers. The percentage of lambs is good and they are all in fine condition for moving or driving. The mutton market remains firm, about 2,000 head having been shipped this week. Good fat heavy muttons command $2.50@3.25. There are for sale at this date by one firm (Chabot, Moss & Co.) nine different flocks of sheep, prices on them running from $2 to $3.50 per head, according to quality.

—Dashwood's drug store is the place to go for carefully compounded prescriptions. Everything in the drug line can be had there. George keeps the goods and is building up a fine trade. Main street, opposite Knights of Pythias hall. tf.

The Finest Photographs.

Absolutely the finest and most beautifully finished photographs in the state are made at F. Kuhn & Co's, new art gallery, San Antonio. Call and see our new and elegant styles before sitting elsewhere.

F. KUHN & Co., San Antonio.

The Best in the Market.

The boss butchers, Kemper Bros., of Fort Worth, sell none but THE BEST MEAT, and will not hang a second-class article on their hooks. Selling none but the best, they desire to inform the holders of (only) first-class cattle and sheep that they are in the market to buy, and are willing to pay good prices for the right kind of an article. jan19-tf

PERSONAL.

E. Davis passed through the city this week on his way east.

The "boss" is at home—the paper is improved. These two things are one and indivisible.

J. J. Hittson from Palo Pinto was in town this week, having just returned from an extensive trip to Kansas City.

Col. Godwin has just returned from Mineral Wells—says the waters are good for nearly all ills that flesh heir to.

W. W. Tuttle, Abilene, is spending a few days in the city. Mr. T. has just returned from an extended trip North.

W. R. Moore from Albany called to-day. Mr. Moore will make a big drive up the trail during the coming season.

J. D. Payne, New York, is in the city. Mr. Payne has a ranch in the Indian Territory, and is here to buy some young cattle.

Louis Dumas of Colorado City, ranch in Tom Green county, called on the JOURNAL. He reports cattle looking well in that section.

Winfield Scott is again in the city. He has been spending the last two weeks in Chicago and St. Louis talking up the beef business.

S. McWhirt, Denton county, is in the city. He expects to handle several hundred head of beeves this spring. He ships from Hunnewell.

R. P. Robinson of Tom Green county has been taking in the convention at Abilene, and also paid the Fort a visit. He says stock never was doing better.

Mr. Lotz, the editor and publisher of that excellent paper, the Baird *Clarendon*, was in to see us move this week. Mr. Lotz is an honor to Texas journalism.

Messrs. Stinson Bros. of the firm of Harris & Stinson Bros., who are ranching in Jack county, paid the Fort a flying visit this week. They report stock of all kinds looking well.

A. W. Leach from Bloomington, Ill., who has been spending some time with us left to-day for Terrell. He is a rustler, and is bound to buy those 2 FAT cattle in the course of ten days.

Washington Becker, one of the most wealthy and influential citizens of Milwaukee and president of the Alamo Cattle Company, was in the Fort Wednesday and Thursday of this week.

R. L. Dunman stopped at the Fort on his way from San Antonio to his home in Coleman county. Like nearly every cattleman who has sold out, he is looking around for another ranch and will soon be a busy cowman.

A. D. Pickering, of Wm. Young & Co., live stock commission merchants, Union Stock Yards Chicago, spent a few days of the last week in our city. This firm now enjoys a large and growing business from this state. They are live men and well deserve the success they are meeting.

J. T. Hill, Colorado City, is here shaking hands with his many friends. Mr. H. has just returned from a trip to the foot of the plains, where he has invested in a ranch. Reports a hard sleet and snow storm in that country on the 5th and 6th, drifting the cattle very badly, but says stock is looking extra well.

Mr. J. G. Williams, formerly with the T. & P., and well known to the stockmen of this section, is now with R. Boaz & Co., grocers. Mr. Williams would be pleased to see his numerous cattle friends in his new quarters, and they will be pretty apt to find J. G. out, and having done so, make a practice of hunting him up when they are in the city.

Mr. J. F. Evans, president of the Pan Handle Stock Association and one of the JOURNAL'S best friends, was in the city last Saturday. He it is who tells us the JOURNAL'S life is all before it, and that there must be no satisfaction with what has been done, but a constant endeavor to do. Mr. E. loves the JOURNAL from principle and the JOURNAL'S editor because he can't help it.

A. D. Wilson, a prominent cattleman of Denver, Colorado, spent a few days in the city. He visits the state for the purpose of investing in Texas lands. Has traveled over Mexico and other western states and says he likes Texas better any country he has visited; says Fort Worth is the livest city he has seen and possesses more elements of success than any place he has visit.

Judge Lynch, Shackleford county, made a flying visit to the Fort this week. He says he is a retired farmer; his wheat crop of last year made him money enough to last the balance of his life. He sold a few beeves just before he left home and invested the money while here in flour; says the country where he lives was made for farming but the rain was forgotten in the manufacture.

We were pleased to form the acquaintance during the past week of Col. Wm. Young of Chicago, one of the wealthiest and heaviest dealers in grain operating in the Chicago and Milwaukee markets. Mr. Young is also the senior member of the staunch and well-known commission house of Wm. Young & Co., Chicago. Mr. Young is much pleased with the cattle business of Texas, as is evinced by his recent heavy investment in this state.

We received a fraternal call this morning from Mr. W. A. Garner, of the Fort Worth (Texas) LIVE STOCK JOURNAL, one of the most prosperous and deserving papers of its kind that reaches our exchange table. At Mr. Garner's instance we publish elsewhere a notice of the grand banquet that is to be given by the citizens of Gainesville during the session there of the live stockmen of Northwestern Texas, March 20. The different railroads leading out of Chicago in the direction of Gainesville will, we hear, sell round trip tickets at one and one-fifth rates, and it is safe to say that Chicago will be well represented, if not in the convention certainly at the banquet, which promises to eclipse anything of the kind ever given in Texas.—*Chicago Drover's Journal.*

Removal of the Stock Journal.

The great TEXAS LIVE STOCK JOURNAL, the largest and best paper of the kind in the world, has removed from over R. Boaz to a commodious building on Second street, one door west of Houston street. The office is superb in all of its appointments; the most complete in Northern Texas. Hereafter the presses will be driven by a four horse power silent gas engine, of the Otto make, sold by R. V. Tompkins of Dalias. This powerful motor is noiseless as the budding of summer, and capable as Samson. Every printing press in the city can find power enough in this engine to run on their full capacity and the surplus would drive a thousand sewing machines besides.—*Evening Club.*

The Mammoth Establishment of

EVANS & MARTIN

HAVE

REMOVED!

To their NEW THREE STORY BRICK fronting 50 feet on Houston, 25 feet on Main, and 100 feet on First St., where they will be glad to see all their old customers. Their stock is very complete, in fact, they have the **Largest and Best Assorted Stock of**

Dry Goods, Notions,

Boots, Shoes and Hats,

Ever before brought to Northwest Texas, which they offer **Cheaper than Ever.** Having a resident buyer in New York and Boston, and buying only from agents and manufacturers, we are able to compete with any establishment in the state, both in quality and price. We would respectfully invite merchants to call and examine our stock and prices, as we are determined not to be undersold. We also have a very **Large Line of Carpets,** and will guarantee our prices as low as any house in the state.

TO ONE AND ALL: Thanking you for your patronage in the past, we respectfully invite a share of it in the future.

ANNOUNCEMENT!
The Mammoth Establishment
Exclusively Wholesale.
—TO THE—
Merchants of Northwest Texas.

NOTICE!

Our stock is the most complete, in fact we have the largest and most replete assortment of Dry Goods, Notions, Boots, Shoes, Hats, Caps and Clothing ever before offered to the Merchants of Northwest Texas, which we offer at Rock Bottom Prices.

Having a resident buyer in New York and Boston, and buying exclusively from the Manufacturers, we are able to compete with any establishment in the South, both in point of quality, quantity, etc.

We return thanks to our many customers and respectfully ask a continuation of your favors. Respectfully,

Blankenship & Blake.
