## Judge's Office And Legion Hall Designated Collection Points Here For Clothing

At a meeting of the clothing drive committee held Friday, April 6, in County Judge Kilmer Corbin's office, plans were laid for carrying out of the drive in this county.

Collection points for the clothing are to be at County Judge Corbin's office and at the American Legion Hall in this city.

According to present plans each school in the county is to collect all the wearable clothing possible and to bring it to the American Legion Hall where it will be packaged and shipped to persons in war devastated countries needing it so badly. It is stated that if schools find it impossible to bring in their clothing bundles, arrangements will be made to pick them up during the last week in this month.

Lamesa citizens can either leave their collections at the Judge's office or take them to the American Legion Hall.

Clothing collections will be accepted now, but a concentrated effort for collection of these garments will be made during the last week in April, and everyone is asked to collect all they can between now and that time for the campaign.

The Legion Hall will be open several days during the latter part of the drive, for packaging purposes.

Throughout April the United National Clothing Collection for War Relief wants your help in gathering 150 million pounds of practical clothing. Warm, sturdy garments, shoes tied in pairs, knitted head-gear, hoods, stocking caps, any sort of clean bedding, clothes of every size and kind that are practical are needed to alleviate the desperate disorder left in the wake of the Axis scourge.

T-Sgt. Fred M. Porterfield, son of Mr. and Mrs. A. H. Porterfield who reside at 1612 South First Street in this city, is a member of the air corps. His group was recently awarded a cluster to the Presidential Citation. The award was made for 2 action packed days, May 12-14, when the Allies in Italy were starting the push that carried past Rome. Sgt. Porterfield left for overseas duty on November 1, 1942, landing in India and later being transferred to Egypt. He entered the service October 30, 1940 in Lubbock and received his training at Kelly Field, Texas; Long Island, New York; and Baltimore, Maryland. Sgt. Porterfield is a graduate of Lamesa High School and is a former student of Texas Technological College in Lubbock.

## S-Sgt. Keathley's Wife To Be Given Medal Of Honor

Mrs. Geneva Keathley of this city, wife of S-Sgt. Keathley who was killed in action in Italy last September, will be presented the Congressional Medal of Honor, the nation's highest award, at a retreat ceremony Wednesday. The ceremony will be held at Camp Wolters.

The posthumous award to S-Sgt. George D. Keathley, a member of a rifle company of the 85th Infantry Division, will be presented to his wife by Major Gen. Bruce Magruder, commander of Camp Wolters Infantry Replacement Training Center.

The action which won the award occurred on the western ridge of Mount Altuzzo, where the Lamesans led remnants of two rifle platoons in beating off a greatly superior German force in hand-to-hand combat.

Although mortally wounded by a grenade, Keathley continued firing his rifle for fifteen minutes until the enemy assault was beaten off. A few moments after the Germans withdrew, Keathley sank to the ground and died.

The 38-year-old infantryman's two daughters, Helen Joy and Paula Jean; his parents, Mr. and Mrs. W. F. Keathley, and two brothers, John A. Keathley and Wilton Keathley, will be present for the ceremony.

## Pfc. Hugh Rhyne Wounded March Third In France

A communication from the War Department received here March 24, reported that Pfc. Hugh E. Rhyne had been slightly wounded March 3, in France. Later reports received here by his wife, indicated that Pfc. Rhyne suffered from a penetrating wound in the chest and an injury in his left arm. He is now in a hospital receiving treatment and is said to be making normal progress.

Pfc. Rhyne is a member of the Infantry, and has been in service since May 8, 1944.

He is a former student of Woody School.

Pfc. Rhyne is the son of B. T. Rhyne of this city, and his wife and 3 year old daughter, Doris Carolyn, make their home here at 511 North Fifth Street.

Such clothing is available in Dawson County, and an inspection of your storage places will unearth outgrown, outmoded and forgotten suits, dresses, etc., that are still serviceable.

Collect these and have them ready to take to the Legion Hall or to the County Judge's office this month.

Word was received here recently that Pfc. Homer Alexander, a member of the Infantry, was wounded February 24 in Germany, having received injuries in his right shoulder. He is now in a hospital in England. Overseas for 11 months, Pfc. Alexander has been in service more than a year. Prior to entering the Infantry he was caretaker at the Lamesa High School, of which he is a graduate. His wife and son, Howell, make their home in this city at 1009 South Fifth Street. Pfc. Alexander is the son of Mr. and Mrs. H. H. Alexander, former Lamesa residents, who now reside in Hobbs.

## Revival Now In Progress at Bryan Street Church

The Revival now in progress at the Bryan St. Missionary Baptist Church began Sunday morning with the largest crowds thus far this year, it was reported by pastor E. L. Jones.

The pastor is doing the preaching until the visiting preacher, Dr. D. N. Jackson arrives. Word was received from Dr. Jackson that he will arrive in Lamesa sometime Tuesday evening. It is hoped that he will arrive in time to bring his first message Tuesday night.

Dr. Jackson is an able speaker and also a man who has given much study to prophecy concerning this present world conflict. You will enjoy his prophetic and evangelistic messages. The public is invited to attend each service.

Watch for the announcements concerning the subjects he will discuss.

## Lt. J. M. Wood, Jr. Promoted By His Station Commander

The promotion of J. M. Wood, Jr., of Lamesa, Texas, from the rank of second lieutenant to first lieutenant, is announced by his station headquarters organization, on the recommendation of its commander, Lt. Col. F. F. Schweiner of the 80th Tank Destroyer Battalion, Camp Shelby, Miss.

Lieutenant Wood is serving with this battalion as Executive Officer of Company C. He is the son of Mr. and Mrs. J. M. Wood of Lamesa, and was formerly employed with the Piggly Wiggly Grocery before entering the service. He and his wife are visiting his parents here now, and expect to leave on Wednesday for Camp Shelby, Miss.

John Walker, an Englishman, made the first really useful friction match in 1827.

### Six Members Added To Lions Club Roster Here

The Lions Club held their regular noon meeting on Thursday, April 5, at the Plaza Hotel. The program was conducted by Henry Norris, who discussed the duties of the different committees of the club, and the general procedure. At the conclusion of the program six new members were welcomed into the club. They were: R. W. Kelley, J. P. White, Ira Ashley, John Palmore, Tom Conner and Mr. Littlefield. Mr. Littlefield has recently moved to Lamesa.

Visitors at this meeting of the Lions Club were Lt. Harold J. Norris, Glen Cope, who is a member of the club home on leave, Pvt. Kenneth Pruitt, T-5 John Hildreth Jr., Sandy Cole and Harvey Pool of Levelland, Leon Ransom of Floydada, and Jim Bird of Odessa.

### JIMMY M. HORTON, A MEMBER OF THE NAVY, UNDERGOES OPERATION

Mrs. Laura Horton of this city, has received word that her son, Jimmy M. Horton, a member of the United States Navy, has undergone an operation.

Seaman Horton is located at a base in San Diego, California. His address is: Jimmy M. Horton A-S, Ward 54; U. S. Naval Hospital; San Diego 34, California.

S-Sgt. Bruce Porterfield, also the son of Mr. and Mrs. A. H. Porterfield, is now in Burns General Hospital, Santa Fe, New Mexico, where he is receiving medical treatment. Sgt. Porterfield served in the southwest Pacific area for a period of 15 months, being stationed in Australia and New Guinea. He was a tail gunner on a P-40, serving under MacArthur, and completed 43 missions before returning to the States on October 15, 1944. Upon returning to the States he was assigned as instructor at Keesler Field, Mississippi, and in January went to the hospital with pneumonia. His condition is reported to be improving. Sgt. Porterfield entered service from Ontario, California, training at Sheppard Field, Trinidad Field, Florida; and Will Rogers Field, Oklahoma. He left for overseas on July 1, 1943.

All reports concerning the Dawson County Livestock Show indicate that it was a success in every way, with fine animals vying for prizes. Many 4-H and FFA boys as well as Dawson County farmers took a great interest in the show which opened Wednesday, April 4, and extended through Friday, April 6, and presented a good entry list for the judges and spectators.

The event opened with the horse show, and winners in this division were printed in the last issue of the paper.

Activity began on the second day with the judging of 4-H Club beef calves, followed by the scoring of 4-H Club dairy heifers, the judging of swine, dairy cattle and beef cattle.

In the 4-H Club division of the Dawson County Livestock Show, there were various classes, and those boys having animals which placed in the show are named below in the order in which they placed in the designated classes:

Class 1—dry lot fed light weight calves: Vernon Hogg, first place; Miller Shipp Jr., second place; Miller Shipp Jr., third place; Vernon Hogg, fourth place; Ben Mac Dopson, fifth place; Ben Mac Dopson, sixth place; and Miller Shipp Jr., seventh place.

Class 2—dry lot fed heavy weight calves: Donovan Phipps, first place; Miller Shipp Jr., second place; Vernon Hogg, third place; Leon Archer, fourth place; Leon Archer, fifth place; Ben Mac Dopson, sixth place; Donovan Phipps, seventh place; and Charles Fields, eighth place.

Class 3—milk fed light weight calves: Kenneth Presto, first place.

Class 4—milk fed heavy weight calves: Tommy Allen, first place; and Willie Gene Davis, second place.

The animal owned by Tommy Allen was selected as grand champion winner in the baby beef division, and Donovan Phipps' entry won reserve champion honors.

Class 5—dairy heifers: Edd Lauderdale, first place; Earl Hatfield, second place; Darrell Hanks, third place; Kenneth Hanks, fourth place; and Earnest White, fifth place.

Class 6—Poland China gilts: Joe Taylor, first place, second place, and third place.

Class 7—Duroc barrow: Donovan Phipps, first place.

Class 8—Duroc sow and litter: Edd Lauderdale, first place.

Class 12—Hereford gilts: Billy Flanniken, first place;

Class 16—Hampshire gilts: Jerry Belt, first place.

The remainder of the affair was an open show and the classes listed below were for Jersey entries:

Class 18—cows 4 years old and over: J. Fred Dahnke, first place; J. M. Peterson, second place; and G. C. Hardesty third place.

Class 19—cows 3 years old and under 4: Durward Schmidt, first place; J. M. Peterson, second place; and Donovan Phipps, third place.

Class 20—Jerseys 2 years old and under 3: J. M. Peterson, first place; and L. R. Earnest, second place.

Class 21—Jerseys 18 months old and under 24: J. M. Peterson, first

No new stamp will be validated until May 1.

**SHOES**— Airplane stamps 1, 2, 3 in book three continue valid indefinitely.

### CIVILIANS AT WAR

The Government needs and asks its citizens in this 174th week of war to:

1. Plan now to take a summer job on a farm, and be one of the four million workers who are needed to meet this year's wartime food production goals.
2. Drive your car slowly, check tires regularly, lubricate frequently. Your car must last until victory—and then some.
3. Save kitchen fats. Every teaspoonful of waste fat is still needed, and the two red points per pound are more important to you than ever.

### SALE OF UNGRADED FARM EGGS NOW PERMITTED

Because of heavy demand for eggs and a relatively short supply, steps have been taken to permit the sale of "current receipt" (ungraded) eggs, f.o.b. the seller's farm, place of business or other location, OPA has announced. OPA also said that on sales to a government agency, one and one-half cents a dozen may be added to the ceiling price for eggs that have been treated for preservation by immersion in hot water followed by a coating of mineral oil.

### MILK PRODUCTION FOR 1945 EXPECTED TO EQUAL LAST YEAR'S OUTPUT

Milk production on farms during 1945 is expected to be at least as large as the 1944 output of 119 billion pounds, says The Bureau of Agricultural Economics. Milk cows on farms January 1, 1945, totaled 27,785,000 head, or 129,000 more than on January 1, 1944. Returns to dairy farmers, because of higher production payment rates for butterfat, probably will average higher in 1945 than in 1944. Also dairy products-feed price ratios will continue favorable to milk producers with the 1924-1943 average.

### SEVENTH WAR LOAN DRIVE TO OPEN MAY 14, WITH GOAL OF 14 BILLION

The Treasury will open May 14, 1945, with a goal of 14 billion dollars, the Treasury Department announces. One objective of this drive will be the sale of \$7,000,000,000 worth of Government Securities to individuals. This is the largest quota ever set for individuals in a war-loan drive. As a part of the campaign to raise this amount, an intensive program for the sale of Series E Bonds in plants and factories will begin April 9. "It is clear," Secretary Morgenthau said, "That federal expenditures are going to remain at a high level for some time to come. It is also apparent that funds in the hands of non-bank investors will continue to increase sharply under present conditions. It is highly desirable to

● Burlap skirts, instead of real pants, and no shoes, stockings or underwear is the war-imposed style for this homeless Greek boy and thousands like him. channel as much of these funds as possible into Government investments, and to put them to work in the prosecution of the war."

### APRIL SUPPLY OF PASSENGER TIRES FOR CIVILIANS SHARPLY REDUCED

Only 1,000,000 passenger tires for cars and motorcycles will be available to civilians during April, as compared with the 1,600,000 available in March, OPA announced. This sharply reduced civilian tire supply is due to a decline in production caused by a serious shortage of carbon black, an ingredient used to harden synthetic rubber.

### PURCHASERS OF PASSENGER CAR TIRES CLASSIFIED IN FOUR GROUPS

A preferential list of occupations for use in selecting persons to receive passenger car tires has been prepared by OPA in cooperation with the War Manpower Commission. Under the new plan the number of eligibles is not reduced, but they are classified into four preference groups for the aid of Local War Price and Rationing Boards in issuing tire certificates. Group I is limited almost entirely to persons whose occupations are of emergency nature, and to workers at establish-

ments faced with production emergencies. Within this group are eligible physicians, public health nurses, police and employees at critical war industries such as those producing urgently needed aircraft and ammunition that are experiencing a manpower emergency. The exact plants, however, will be determined on the advice of local WMC officials. Group II includes persons employed in other essential plants, and those whose occupations are highly important to the war effort. In this group are farmers, farm workers and representatives of management, labor and government who recruit for essential establishments. Group III includes such occupations as buyers for essential establishments, and persons who travel to essential establishments on request to perform necessary technical services, such as those who advise these establishments on machinery maintenance problems. Group IV takes in all other persons eligible for Grade I passenger tires.

### RISE OF FARM REAL ESTATE VALUES CONTINUE

The average index value per acre of Farm Real Estate (1912-1924, index value 100 for the United States as a whole) was 126 on March 1, 1945, representing a rise of 11 per

cent during the last year, and 5 per cent during the preceding four months, according to the Bureau of Agricultural Economics. Values rose 15 per cent during the year ended in March, 1944, and 21 per cent in 1919-1920, when the peak of the World War I boom was reached. Values have now advanced at an average rate of one per cent a month for four years. The rise for

the 1941-45 period is 85 per cent of the increase for the four-year period 1916-1920. During the year average values increased 15 per cent or more in nine states, and 10 per cent or more in 26 states. The increase during the year equalled or exceeded the record increases of 1919-1920 in five states.

\* Your Good Judgment

# ALL Agree --- The TIRE SITUATION IS SERIOUS

Passenger car tire production scheduled for the second quarter of this year is almost one million less than for the same period in 1944. Only one million passenger tires are allotted for the 24 million passenger cars now in operation. Only the most essential drivers are eligible for certificates and it is very doubtful whether their needs can be met. Tire care and conservation is necessary today more than ever before.

## HERE, BRIEFLY, IS THE LOCAL PICTURE

The Number of Registered Passenger Cars Is .....	3460
The April Passenger Car Tire Quota Is .....	146

Not a very cheering picture. But it does not necessarily mean that driving must stop. It does mean that you must continue to take better care of your tires. Keep within today's speed limits—keep tires properly inflated—watch wheel alignment—make repairs promptly—and ABOVE ALL—when the casing is worn smooth RECAP AT ONCE. Another sound piece of warning is to:—

### FOLLOW THE ADVICE OF YOUR TIRE REPAIRMAN

In order to give adequate service he has kept abreast of the various synthetics used, knows the proper means of vulcanization, the various types of repairs, the curing of synthetics. It is an art which has kept America on wheels—has lowered transportation costs. And remember that the Army needs millions of tires to win the war. Take care of yours—for their sake.

Your Tires Should Be Inspected Regularly

**Million Cattle Treated In Grub Control Program**

More than a million head of cattle in Texas were treated for control of cattle grubs in the season just ended, Paul Gregg, assistant entomologist for the A. and M. College Extension Service, estimates. This figure represents an all-time high in control of the pest, and Gregg says it means potential production of meat and leather probably is a million pounds greater because of the treatment.

Stockmen's acceptance of the grub control program has been rapid. In the 1942-43 season when the Extension Service first began to emphasize this work on a state basis, 400,000 head were treated. The second season, the number was doubled, Gregg says, and now reports from county agricultural agents show more than a million head treated in the closing months of 1944 and the early months of 1945.

Hemphill County, one of Texas' pioneers in grub control, now has 12 vats where cattle can be dipped for lice and treated for grubs. J. Walter Grist, county agricultural agent, says all are used on a cooperative basis and ranchers drive their cattle from one to six miles to make use of the vats. About 28,000 were treated by this method, and an additional 6,000 were hand-dusted or sprayed.

At least 22,000 were treated for the first time in Kaufman County. A. E. Frazier, county agricultural agent has reported. Even small farmers with fewer than a dozen head in Freestone County have found it pays well to control grubs, they have reported to Agent C. V. Hanning. On the ranches in that county the program was handicapped by shortage of labor, since several hands are needed to drive cattle from the bottoms into open pasture. Dairymen in Jasper County have

treated cows and heifers with excellent results.

Celery leaves may be stored by placing them in a tightly covered drying them in a warm oven and jar.

### Sgt. Roberts And Crew Built Plane Out Of Scraps

Recently an article appeared in "Brief," a bulletin published for men of the AAF in the Pacific Ocean Areas, which told of the building of an airplane from pieces salvaged at an airplane junkyard. Helping to build the plane, was Sgt. Thomas H. Roberts, who is pictured above, and who is the son of Mrs. C. C. Roberts of Sparenberg. Sgt. Roberts, a member of the Air Corps, has been stationed overseas for the past year, having served six months in Honolulu, and is now on the Marianas Islands. A graduate of Lamesa High School, he worked at Hatch Grocery in this city and Rohr Aircraft factory, prior to entering the service 2 years ago.

A portion of the article concerning his activities is printed below:

One of the boys looked over the airplane junkyard, and noted the fuselage that had been hauled in a few weeks before, examining the engine and prop of the yard's most recent burial. Then he began mentally adding things to gether.

His boss appeared on the scene and upon questioning the sergeant found that he wanted his crew to set about building a plane, almost entirely from scrapped parts they found around the junkyard.

The plane—christened Scraps even before she was assembled—was built around the undamaged P-47 fuselage. Five weeks from the time they began operations, the crew made their final check-up. Scraps was ready for flight.

The boys asked their Captain to fly the machine, and after going over a few minor defects with the crewchief, he summed up the performance on the test flights: "She's a good ship and a fast one. Nobody need be afraid of her. It was a damn good job."

Scraps showed just how good, and how fast she was when the Japs made a low-level strafing attack on the Saipan B-29s. A second lieutenant was flying Scraps on patrol, when the radio barked out the news of the attack. The lieutenant was after a Zeke and was not wasting any attention on his instrument panel.

After destroying the Zeke, the lieutenant began pulling out of the dive and noticed his air speed indicator. The needle was straining over the zero, past the 700-mile-per-hour mark. The lieutenant remarked, "I must have been doing about 740 indicated."

There isn't a Thunderbolt in this theater—or any other theater that

### O P A Will Check Tire Dealers And Repairing Firms

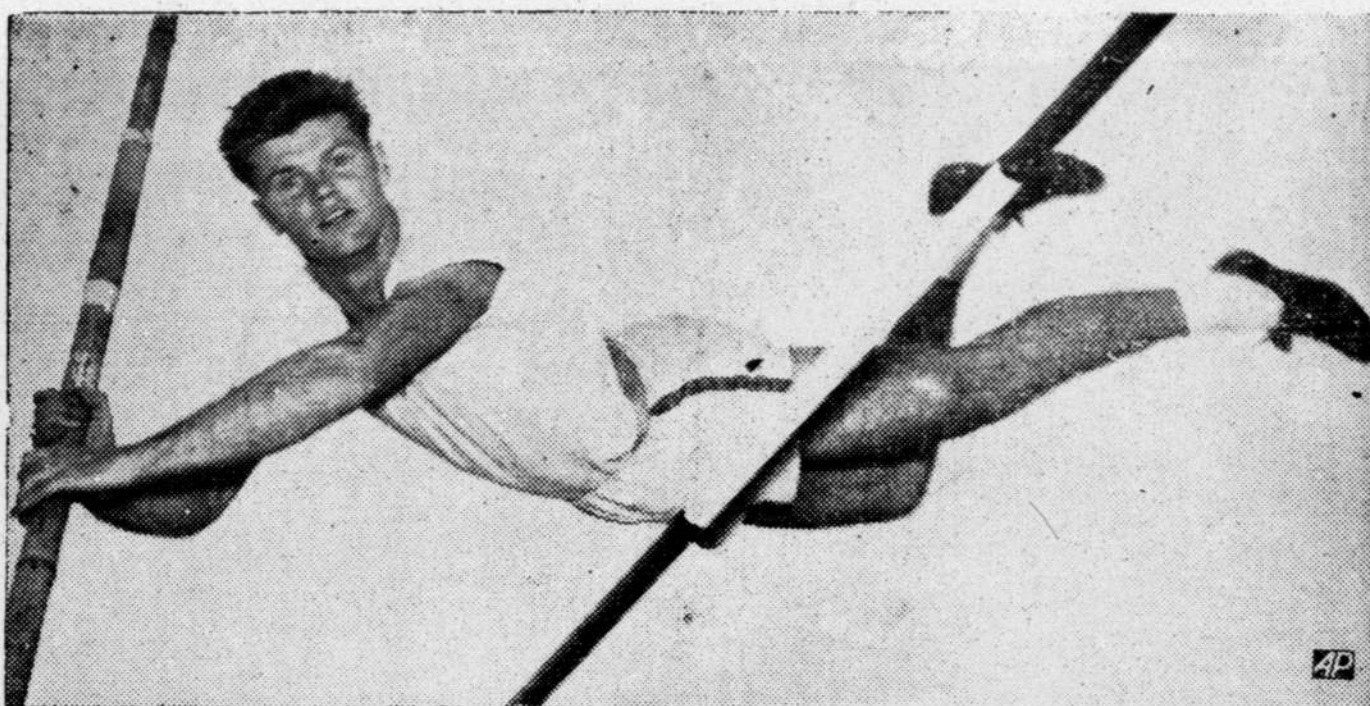

Tire and tire repairing firms will be visited during the period from April 11 to 20 by volunteer workers of local War Price and Rationing Boards who will check dealers' prices for tires and services and inspect their records and posting, the District Office of Price Administration has announced.

This is part of a nationwide compliance survey which has three major objectives: to determine the degree of compliance with regulations, to explain and clarify requirements for dealers, and to correct any instances of non-compliance.

The volunteer assistants will check to see that the seller's ceiling prices are posted in his shop, that he is giving sales slips to each purchaser, and that he is keeping records of each sale. They will also

check the prices he charged on the last few sales of specific items from his records.

Dealers who are found in violation of any requirement will be asked to come in for a compliance conference with the price panel of their local board. Those who are selling above ceiling price will be asked to make refunds to buyers who paid excessive amounts, and may face treble damage actions.

UP AND OVER FOR POLE VAULT RECORD—A. C. I. W. Moore of the Corpus Christi Naval Training Base vaults 13 feet 7 1-2 inches to break an all-time meet record at the 22nd Southwestern Recreation Exposition Track and Field Meet at Fort Worth. ## Rotarians Enjoy Movie At Their Friday Meeting

Members of the Von Roeder Club enjoyed a very fine and interesting motion picture in technicolor of scenes from Central Texas, Colorado and West Texas. Some especially good films were shown of the Von Roeder farms in Borden County. These films depicted West Texas products such as fruit and cotton, and the pictures showed some very fine results of development of fine cottonseed.

Following the showing of the pictures, Ed DuBose, chairman of the Seventh War Loan Drive for Dawson County appealed to the club for support in the campaign beginning April 10. He asked for members of the club to contribute two \$25.00 bonds to serve as prizes to be used in the schools to stimulate the purchase of war bonds. Audrey Cox and M. C. Lindsey each volunteered one of these bonds. DuBose stated that the drive could succeed only by the backing of the business men of Dawson County and that he felt sure that it would succeed.

Visitors to the club were Misses Frances McCollum and Beth Dean Martin from Baylor University; Rotarian B. J. Bolch from O'Donnell, and Dr. D. O. Wylie, head of the music department of Texas Technical College.

T-5 Thomas R. Sills of Model, Tenn., who lost an arm in France, puts Clipper through his paces at a riding academy near McCloskey General Hospital, Temple, Texas. Sills, a medical aid man, was hit by a mortar shell at Brest and his right arm amputated above the elbow. (AP Photo from Signal Corps).

## Capt. W. Moore Receives Fourth Oak Leaf Cluster

AN EIGHTH AIR FORCE BOMBER STATION, England — Captain T. Moore 23, year old pilot of a B-17 Flying Fortress has recently been awarded the fourth Oak Leaf Cluster to the Air Medal for "meritorious achievement" while participating in Eighth Air Force attacks on vital industrial targets and enemy held installations in Germany. The official citation accompanying the award, commented on the "courage, coolness and skill displayed by Capt. Moore on all occasions," as reflecting "great credit upon himself and the Armed Forces of the United States." The presentation was made by his group commander, Col Wrigglesworth of Eau Claire, Wisconsin.

As a member of the 447th Bomb Group, a unit of the Third Air Division, the division which has been cited by the President for the new historic England-Africa shuttle mission bombing of Messerschmitt factories at Regensburg, Germany, Capt. Moore has flown combat missions in what is considered to be the toughest theater of aerial warfare. The son of William H. Moore of Route B, Lamesa, Capt. Moore before entering the Army Air Forces in September, 1942, was employed by the Stanolind Oil & Gas Co., at Hobbs. He received his pilot's wings and commission in January, 1944, at Marfa.

## Two Hundred Ten Farms Covered With Crop Insurance Here

C. E. Tarter, administrative officer at the local AAA office, reports that to date, 210 farms in Dawson County have been covered with crop insurance.

He reminds farmers that they have until Tuesday, April 10, to sign up for the insurance. Applications are being taken by community committeemen, or can be taken by personnel at the local AAA office.

## S-Sgt. John Fowler Back From Overseas

According to a furlough report received from the Public Relations Office in Dallas, John T. Fowler, a staff sergeant in the Army Air Force, has returned from 10 months overseas in the European Theater of Operations.

While overseas, S-Sgt. Fowler served as a gunner on a B-17, with the Eighth Air Force.

He will visit his wife, Mrs. J. T. Fowler, who resides on Star Route 1, in this county.

## Sherman Moulton Jr. Promoted To Pfc.

Sherman Moulton Jr., son of Mr. and Mrs. Sherman Moulton Sr., of this city, has been promoted recently to the rank of private first class at the heavy bombardment combat crew training base at Davis-Monthan Field, Arizona, Tucson, Arizona.

Pfc. Moulton entered the service in October 1942 and is presently assigned to duties as an aircraft and engine mechanic.

## Junior Class Will Give A Play Friday At Klondike Gym

An announcement received this week from school officials from Klondike reports that the junior class of that school will present a play there Friday night, April 13, at 8:30 p. m. The play will be given in the Klondike gym.

The name of the comedy is "The Scarce Crow Creeps," and it is expected to be both entertaining and enjoyable.

A small admission will be charged for the affair.

## Partners IN THE WAR EFFORT

The farmers of America are doing one of the greatest war production jobs in the nation by supplying the vast quantities of food needed by us and our valiant allies. To accomplish this, telephone service has aided them in numerous ways. And, we are proud to say we gave them that service, despite difficulties.

If you need a telephone, and you are on a farm line, the chances are you can qualify for installation of service. There is still some equipment available for those rating a government priority. Why not come in and find out if you can obtain a telephone to help you in your war effort?

### Lt. B. Dozier And Wife Return To Carlsbad Air Field

Lt. and Mrs. E. B. Dozier of Big Spring, Texas, have returned to Carlsbad Army Air Field, Carlsbad, New Mexico, from a visit with his parents, Mr. and Mrs. E. B. Dozier of Big Spring and her parents, Mr. and Mrs. H. E. Hilliard of Lamesa.

Lieutenant Dozier is a former student of Texas Tech at Lubbock. He was commissioned March 3, 1943, upon completion of Officers Candidate School at Miami Beach, Fla.

### HARRY CRAIG SHOWS AND CARNIVAL TO APPEAR HERE FOR ONE WEEK

Harry Craig Shows and Carnival will be in this city for a week's engagement and will open today, Monday, April 9. The show and carnival will be located opposite the fair grounds here.

The entertainment is being brought here under the auspices of Lamesa Fire Department.

Never hang knit clothes. Stretch them while damp.

### PYTHIAN SISTER TO HAVE BENEFIT PARTY FRIDAY EVENING

The Pythian Sisters of this city will entertain with a Benefit 42 party, Friday evening, April 13, at 8 o'clock in the Recreation Hall, at the City Park.

Everyone is invited to attend this Benefit party.

### F. O. Hogg Buys Plane At Lamesa Air Port

F. O. Hogg of the Union Community, was the only Dawson County resident to purchase a plane at the Lamesa Air Port here Friday, April 6th.

Hogg bought a P. T. 19 Fairchild Trainer, with a 175 horsepower motor. He plans to build an airport on his farm with a runway 600 yards long.

Eddie Darrell, a licensed pilot, will teach Hogg to fly the plane.

Eight or nine persons purchased planes Friday with three being sold to Clovis residents and one to a Hobbs resident, and others going to nearby points.

These planes were purchased from the United States Government at

## Private Gonzalez Writes Parents On Corregidor Attack

Interesting news is contained in a letter from Pvt. Jacob R. Gonzalez, now in the Philippines, concerning the invasion of Corregidor and fighting around Manila, which he tells his parents, Rev. and Mrs. E. B. Gonzalez of Lamesa, Texas.

Private Gonzalez is with a crack paratrooper division and writing of the attack he says, "We jumped down over the Japanese behind their shoulders, killing and annihilating them in a manner so easy, after this we raised our flag, stepping over piles of bodies of the Japanese dead."

His father, Rev. E. B. Gonzalez, replying to his son's letter writes, "The 503rd regiment of paratroopers valiant fighting and their sacrifices overseas has been in the news, —the task before you is hard but victory is sure, remember you wrote me, 'I fight for the peace of our country, our churches, our schools, our homes.'"

Private Gonzalez comes from a long line of fighting men, who for four generations have been soldiers, and after completing his training at Fort Sill, Fort Sam Houston and Fort Benning, was sent to the Philippines in November, 1944.

### Pvt. Greathouse Now At An Overseas Base

Pvt. Charley Elton Greathouse, son of Mrs. Roselyn M. Greathouse of 1305 Broadway in Fresno, California, recently arrived at a U. S. Strategic Air Force Station in England and received a brief orientation course designed to help him adjust himself to life in a combat zone.

Pvt. Greathouse will soon transfer to his permanent station from which America's fighting planes cover the advance into Germany.

Prior to entering the Army Air Forces, he was employed as a carpenter in Galveston.

He is a former resident in this county.

### ROOSTERS' HABITS BECOME DOMESTIC UNDER TREATMENT

WASHINGTON (AP) — Science can make chicken-hearted barnyard baby-sitters out of roosters.

Ordinarily a rooster wouldn't be seen in the same coop with a chick, but scientists have found that they can give them the maternal instinct by treating them with a hormone called Prolactin, derived from very motherly hens.

Experiments described in the Journal of Heredity showed that roosters, which normally would ignore or kill any chicks placed in their coops, not only took over the duties of a mother but did so to the accompaniment of "clocking and occasional hen-like singing." Doctors A. V. Nalbandov and L. E. Card, of the University of Illinois, who made the report, failed to elucidate on the practical advantage, if any, of making a baby-sitter out of a fighting cock.

But their report did say that when a mother hen is taking care

of young chicks she doesn't do any egg-laying. It might be inferred, then, that if roosters watch the kids the hens would improve their egg production.

Since the beginning of the war, Canadian shipyards have built about 400 vessels.

**FIVE GENERATIONS FAMILY**—Five generations on each side of one Texas Panhandle family are pictured above. Youngest is 7-months-old Larry Desmond Kelly, who is shown in both pictures with his mother and his grandparents. Left to right (in photo at left): Mrs. Annie Boney, 66; Mrs. Nancy R. Paris, 87; Mrs. Virgie Lee Kelly, 22; Mrs. Lela Dortch, 45, and Larry Desmond Kelley. Left to right (in photo at right): Mrs. Mary Jane Boney, 95 (seated left); Mrs. Lela Dortch (standing left); Larry Desmond Kelly; Leander Owen Boney, 73, (seated right), and Mrs. Virgie Lee Kelly. All members of the family pictured here live at Morse, Texas, with the exception of Mrs. Mary Jane Boney, who resides at Stratford, Texas. Mrs. Paris came to Texas from Tennessee with her uncle and his family when she was 14 years old. Mrs. Mary Jane Boney and her husband moved to Texas from Alabama 69 years ago. Larry is the third great-great grandchild of the Paris family and the first of the Boney family. (AP Photo).

## Scouts To Conduct Paper Drive Here During the Month

Plans are underway now for another waste paper drive to be conducted in this county. The collection will be made here by local Boy Scouts, with Troop 22, under the direction of Joe Spikes, sponsoring the campaign.

Current plans are to ship the car of waste paper from this county on April 30. In order to have a large amount collected, Boy Scouts are asking for the final cooperation of the citizenry of this county. They request that you bundle your paper and leave it tied with cord for the pickup days of the campaign.

Boy Scouts who collect 1,000 pounds of waste paper will receive the Boy Scout-General Eisenhower Waste Paper Campaign Medal. The medal, in bronze, is suspended from a red and white ribbon.

The troop which collects waste paper equivalent to 1,000 pounds per boy members, will receive a troop award.

The waste paper salvage job grows bigger as the war tempo increases on all global fronts. Military demands for waste paper products will not decrease with the collapse of organized resistance in

Germany, but will rather increase because of the enormous supply problems in the Pacific.

Begin saving paper now for the drive, so you can turn in a nice collection when the drive ends.

## Cal Farley To Give A Bond Show At School On Friday

Work began this week in the schools of this county on the Seventh War Loan Drive, of which Ed DuBose is chairman. The general E bond drive is slated to begin on April 16, and all community chairmen are requested to come by Chairman DuBose's office for their supplies for the Seventh War Loan Drive.

A special feature of the campaign this week will be the personal appearance of Cal Farley in this city. Farley, who is from Amarillo, will be here throughout Friday, April 13, and will address school officials at 10:30 a. m., Friday morning, the Rotary Club at the noon hour, and will present a program at the high school assembly that afternoon.

Anyone interested in attending the program at the school Friday is cordially invited to be present.

To stimulate bond sales in the schools during the drive, prizes of four \$25.00 war bonds will be offered to rural schools and Lamesa Schools. Two bonds will be presented to boys and girls of the rural schools selling the greatest amount of bonds, and to the boys and girls receiving the most subscription for bonds. The same plan will be followed in the Lamesa Schools.

Bond prizes will be furnished by the Rotary and Lions Clubs of this city.

Other prizes for school children will be captured German helmets, mess kits, and signed letters by General Eisenhower and General Patton.

Begin this week to buy your E bonds as they will be counted on the Seventh War Loan E quota of \$445,000.

Sgt. and Mrs. Ted Sanders of San Angelo spent the week end here visiting with their parents, Mr. and Mrs. J. M. Ransom and Mr. and Mrs. Fred Sanders.

Lt. and Mrs. Lamar Cole and baby of Fort Sill are visiting here this week with his parents, Rev. and Mrs. E. F. Cole.

Mrs. Loyd Bucklew left Sunday for Brownwood where she will attend a Girl Scout Council this week.

## Cooking Schools To Be Held In Bartlett And In Sparenberg

According to an announcement received here, Bartlett and Sparenberg Home Demonstration Clubs will have cooking schools this week. Mrs. Myrtle Negy, county home demonstration agent, and Mrs. Jack Phinizy, emergency war food assistant, will conduct the schools.

Bartlett club will meet in the home of Mrs. W. C. Drennan on Wednesday, April 11. The session has been announced for 2:30 p. m.

On Thursday, April 12, Sparenberg Home Demonstration Club will meet in the home of Mrs. Bonnie Culp. The meeting will be held at 2:30 p. m.

Mr. and Mrs. Roy Farmer returned this week from San Francisco, California where they visited with their son, Elbert Leon, Seaman 2-C.

## Final Rites Held Here On Sunday For J. A. Greer

Final rites were held Sunday, April 8, for J. A. Greer, a Dawson County resident who passed away here Friday. At the time of his death he was residing on Route B, in this county.

Funeral services were held Sunday at 3:30 p. m., at the Higginbotham Chapel with O. H. Tabor, minister of the Church of Christ in this city, officiating. Burial was made in Lamesa Cemetery.

Born December 17, 1867 in Leon County, Mr. Greer was 77 years of age at the time of his death.

He is survived by his widow, Mrs. Inez Greer, one child, Mrs. R. A. Avant of Big Spring; also one brother, W. E. Greer, and one grandchild.

"Abie's Irish Rose" has been played in Swedish, Portuguese, Spanish, French, and German.

The potato originally came to the United States from Europe, via South America.

## Demand For The Production Of Peanuts Unlimited

Peanuts, which have been among the foremost war crops since Pearl Harbor, are even more important to the nation's food and feed needs in 1945. Growing as many peanuts per acre as possible is a public service since the wartime demand for peanuts and their products is virtually unlimited, says E. A. Miller, agronomist for the A. and M. College Extension Service.

Indicating this demand, Miller

says it is estimated that 75 per cent of the farmers' stock peanuts produced in 1944 will be cleaned and shelled for food uses. To endeavor to meet the expected larger demand in 1945, the nation's suggested production goal was raised one per cent above last year's harvested acreage. Texas' acreage goal was fixed at 820,000 in the nation's 3,212,000 acres which is believed to represent about the largest practicable peanut acreage. Accordingly says Miller, the way to make reasonably sure of meeting probable requirements from the 1945 crop is to obtain greater acreage yields.

As the most direct way to obtain this with little increase in labor or investment, Miller endorses this nine-point program developed by the Federal Extension Service, the Agricultural Adjustment Agency, and others: (1) use good seed of known high germination; (2) shell planting seed; (3) treat planting seed; (4) space close and aim for a perfect stand; (5) use the soil best adapted to peanuts; (6) plant reasonably early and cultivate according to approved standards; (7) dust vines with sulphur if leaf spot or leaf hopper show up; (8) use approved harvesting methods, and (9) follow peanuts with approved winter cover crop.

Treating shelled peanut seed with a fungicide preparation immediately after shelling is one of the most effective ways of getting better germination and stands, and higher yields. If treated immediately, seed can be shelled in advance of planting time without reducing germination or yields. Treatment consists of carefully and thoroughly mixing the seed with about two ounces of arasan, spergon or two per cent cerasan per hundred pounds of shelled seed. But Miller cautions against using the improved or five per cent cerasan. It may cause injury.

In an average of only 144 hours in class, the Army is able to teach illiterates to read, write, and do simple arithmetic.

Boys in New York City's public schools have made more than 7,000 model airplanes for the Army and Navy.

**A New Type Fence Post**

A combination cedar-mesquite fence post designed as an experiment by C. W. Simmons of the A. and M. College Extension Service should, if put into general use, expand the practical utility of these two woods which grow abundantly in Texas.

The idea, says, Simmons who is the Extension farm forester, is to suggest a method of fence building which offers durability and at least some economy of time in replacements. But as yet, he explains, it has not been determined whether this type of construction would be less, or more, expensive than a full length, naturally durable or preservative-treated fence post.

Construction would require a stub of short-stem mesquite about three feet long, six inches or more in diameter, and having a large proportion of durable heartwood for the permanent base of the combination post. The upper end, extending about one foot above ground, would have a tapering hole about eight inches deep, and three inches diameter at the top and two at the bottom with a moisture drain at the base. A slender post of cedar or of another species having good heartwood could be shaped with an axe to fit snugly into the hole. The stub could be toe-nailed to the post to hold it firmly. If the thin sapwood were treated to resist borers Simmons believes the stub might last 50 years. Moreover, it should be more grass fire proof than cedar used alone.

The major difficulty in this set up would be cutting the hole in the mesquite base, Simmons says. He suggests, however, that a power-turned tapered bit—perhaps fastened to the rear wheel stud bolts of an automobile—would do the job.

This type of post probably would require the use of smooth wire running through holes in the post instead of barbed wire and stapling

in order to permit easy adjustment and avoid strain where the two pieces join.

Small cedar and mesquite are available in unlimited quantities for the combination, Simmons says. On the other hand cedars of good post size having a high proportion of heartwood are less abundant, and mesquite ordinarily is too twisted to make good full length fence posts.

**Electricity Lights Eskimo Dwelling**

GOOSE BAY, Labrador (AP) — Flyers returning from Baffin Island, one of the most isolated of the network of stations operated by the North Atlantic Division of the Army Air Forces Air Transport Command, have seen what is probably the world's first electrically lighted igloo.

An ingenious Eskimo built his igloo next to the station, and persuaded the base personnel to let him run an extension cord to his ice-block dwelling.

Pfc. William B. Porter, the son of Mr. and Mrs. W. H. Porter who reside at 807 North Third Street in this city, recently visited here on leave before reporting to assignment with the Air Transport Command W. C. W. He returned to duty at Mather Field, California, where the crew was given orders for overseas flight. Pfc. Porter has just completed training as Aerial Engineer on the Army C-47 transport. Prior to entering the service 2 years and 4 months ago, he was employed as a carpenter and farmed in this area. He is a former student of Lamesa High School.

## Progress Of Oil Test In County Is Given

Magnolia Petroleum Company No. 1, J. P. Cole, section 48, block M, EL&R survey, prospective wildcat producer in the Welch district of Northern Dawson County, Friday was reported to have swabbed at the rate of five barrels of oil per hour on test, and was drilling ahead below 4,845 feet, with 3,300 feet of oil in the hole. Pay was topped at 4,806 feet, with the 7 inch casing cemented at 4,730 feet.

This information was given in the Saturday issue of the Fort Worth Star-Telegram.

C. E. Tarter spent Tuesday in Snyder attending to business.
