"GREAT DICTATOR" TO SHOW HERE SOON AT REGULAR PRICES

"The Great Dictator," long awaited Charlie Chaplin epic, is to show Nov. 18-19-20 at the Rita Theatre. At no increase over regular admission prices, it was announced by Jack Hurst following a visit to Dallas last week to negotiate for the picture.

So far as Hurst knows, it will be the first showing of this picture in Texas at popular prices, the few places where it has already shown, or will show in the next few weeks, greatly increased prices have or will be charged.

VOLUME XXI, NUMBER 21.

WPA Project Granted To Widen Highway

Work is to begin immediately on a \$124,926 WPA project, to widen the right-of-way and add hard-surfaced shoulders on U. S. highway 87, north of here to Hale Center, a distance of 16 1/2 miles, it was announced in San Antonio last week. The project will employ 124 men, and the Works Progress administration is to spend \$93,123, and the county is to spend \$31,803. The project was approved as a part of the state's system of military highways. The work to be done on the road will be similar to that completed early this spring on the road north of Hale Center to Plainview.

CHURCH OF CHRIST NEWS

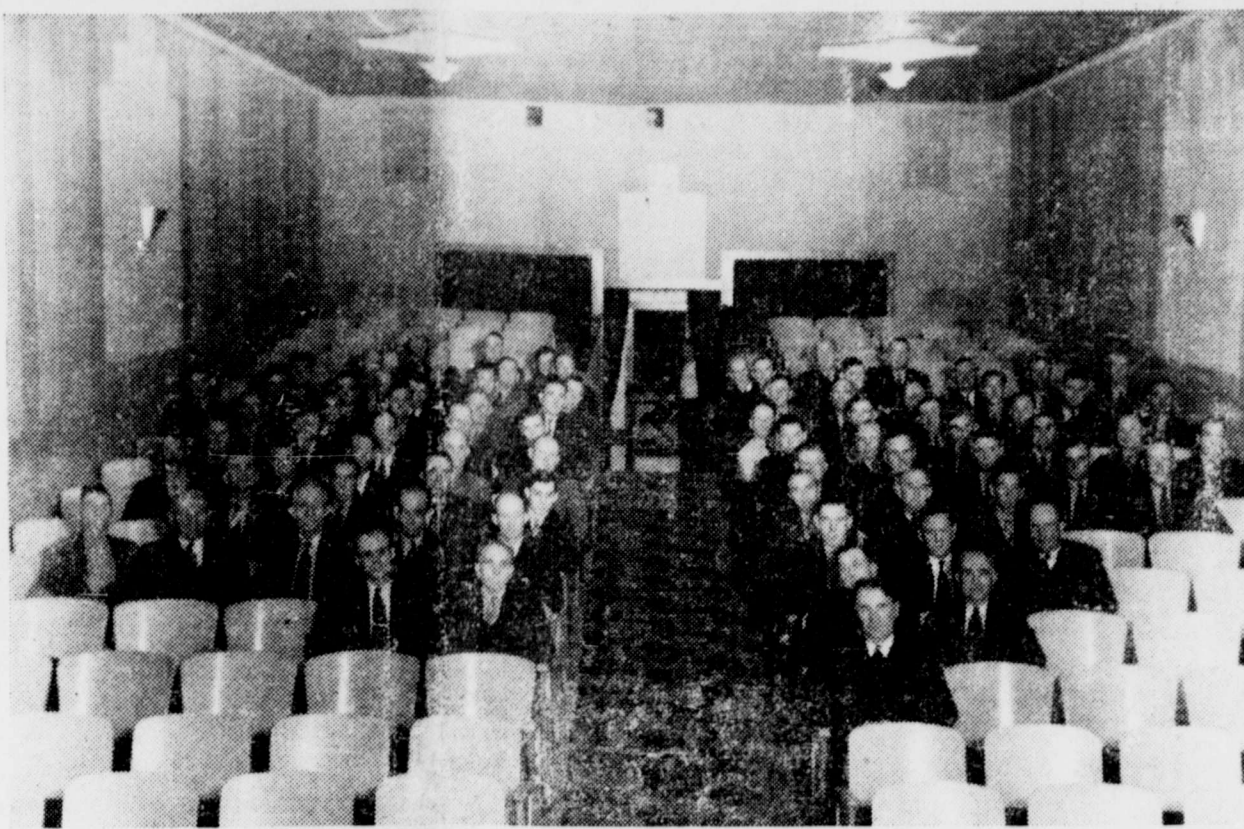

We have real interest in all of the services at the Church of Christ. Each one who has been attending these services is willing to do all he can to carry on the good work, and we are hoping others will come to these services and become interested in the Lord's work. There will be several to go to Hale Center from Abernathy next Sunday afternoon to attend the singing at the Church of Christ there at two thirty o'clock.

(O. O. O. Newton, Minister.)

Bible Class Observes First Anniversary

First anniversary of the Men's Bible Class, which meets each Sunday morning at 10 o'clock at Rita theatre here, was observed recently with a record attendance of 81 men in service. The above photograph shows the record crowd seated in Rita theatre following the lesson Sunday morning, Oct. 19.

Rev. J. Frank Nix, Baptist pastor, is teacher of the class and J. Brad Seale is the new president, following Sam H. Davis who resigned to teach a class of young men at the church.

The class has enjoyed a steady growth in numbers and in interest during the first year, and officials and members are working to make the second year more successful.

Also on this page is the other picture which the class had made Oct. 19. Published in Sunday's Lubbock Avalanche-Journal, it shows the group on the city park lawn.

The class is sponsoring a radio program over KFYO, Lubbock, Sunday at 2:15 p. m. Everyone is urged to tune in KFYO at that time.

HARVEST WORK RESUMED HERE

Following several days of partially clear weather, harvest activities in this area were resumed this week. Weather has been cold reminding that time for a frost or freeze is drawing near. Farmers would welcome a light frost to clear heavy foliage from cotton stalks to allow the sun to reach green bolls. Cotton is slowly opening, and farmers report damage by rain to bolls near the ground.

To Wednesday morning, the three gins here had received 50 bales of cotton. At this time last year, 2,162 bales had been ginned here.

Harvest hands are coming to this area in increasing numbers. Farmers and workers are urged to contact H. O. Williams, a representative of the Texas State Employment Service, who is officing with W. A. (Bill) Richter. He will assist both groups with their labor problems.

Births

Mr. and Mrs. Ray Linton are parents of a 7 pound, 1 ounce daughter born October 26.

FORTENBERRY GIVES SCHEDULE FOR LOAN

W. O. Fortenberry, Monroe gin-ner, in an advertisement in this Review gives a schedule of government loan values on cotton for the season 1941-1942.

Supt. A. L. Faubion said plans were to open a NYA lunch room in the New Deal grade school cafeteria late this week. The project will employ NYA girls and will serve warm lunches to a vast number of students.

New Deal school is to present an Armistice program for the public Tuesday night, Nov. 11.

The school's annual carnival has been postponed to a later date this fall.

Lubbock county school teachers are to attend a meeting Tuesday night in the Senior High school at Lubbock.

Pictures were made this week for New Deal's fourth year book, The Roar.

If weather permits, harvesting of 96 acres of sugar beets will start Monday on W. O. Fortenberry's farm.

Monroe gins had turned out about 17 bales, a report Tuesday noon stated. To this date last year, the plants had ginned 2,059 bales.

Joe Hutchins of Texhoma is visiting in the home of his daughter, Mrs. W. O. Fortenberry.

Fifty men were in attendance Sunday morning at 10 o'clock during the regular meeting at Rita theatre. All men are invited to attend the class.

\$24,000 IS PAID FOR OIL LEASES NEAR PLAINVIEW

Ten-year commercial oil leases on about 12,000 acres of land in Hale county are being placed on record in the name of J. P. Nystel, Abernathy real estate man, who acquired the leases for one of the major companies, whose identity has not been disclosed.

The land is situated a few miles south and west of Plainview in the vicinity of the Snyder school.

The price paid was two dollars per acre with 50 cents annual renewal.

Nystel said that approximately \$24,000 was paid as bonuses for the leases.

The block is almost solid, with 960 acres lying east of the Petersburg road and 1,500 north of the railroad in the vicinity of Ferguson switch.

A half section belonging to Mrs. H. M. Burch and a half section belonging to C. J. Jagelgy were not included in the block, having been leased to Phillips Petroleum Co., according to Nystel.

Nystel said that it might be several months before the assignment of the leases to the oil company involved would be recorded.

MOTHER DIES

Funeral rites were held at Wayland Wednesday of last week for Mrs. C. R. Brown, 74, mother of Mrs. J. H. Nunn of this community. Mrs. Brown died at her home near Breckenridge Tuesday. Mrs. Nunn went to Breckenridge October 12. Other members of the Nunn family joined her there last week to attend funeral services.

Mrs. Frank Roberts' mother, Mrs. M. V. Liles, and sister, Mrs. Elbie Eason, and Mr. Eason of Vernon visited here last week-end.

Antelopes, Lions Meet In Grid Tilt Friday at Monroe

Neighbors are to tangle in a grid battle at Monroe at 2:30 o'clock Friday afternoon when the Abernathy Antelopes meet the Lions of New Deal. It will be the final game of the season for the Antelopes, Coach Sam H. Davis stated. The Lions probably will meet Hale Center November 7 in a game postponed from last Friday when weather made playing of the conference tilt impractical.

Conference standing for the two teams is: Abernathy, 167; New Deal, 500. Full season standing: Abernathy, 581; New Deal, 500. Win Southland Game

Although the score was 6 and 6, the Antelopes defeated Southland in a grid contest at Slaton Monday afternoon on first downs and penetrations. Jack Cox made Abernathy's touchdown, and the local lads chalked up 11 first downs to Southland's five. Other than the touchdown scoring the Antelopes had two penetrations to none for their opponents. The first half ended with Abernathy in possession of the ball on Southland's three yard line.

Mr. and Mrs. Douglas Chapman, Mrs. Buford Davenport, accompanied by Mrs. V. Chapman of Quitaque, left Wednesday for Austin where they will meet Lt. Wilson A. Chapman of the U. S. Army Air Corps in the Dick Chapman home for a brief visit. Lt. Chapman, who is stationed at Morrison Field, West Palm Beach, Fla., indicated in a wire to Douglas Chapman Tuesday that he might be transferred soon to duty in Iceland.

It Takes Two To Make Trade

In the last dozen years the overall efficiency of cotton production has jumped at least 100% judging by increased yields per acre, better insect control, and improved varieties—all achieved despite lower prices and lower farm income.

If the cotton farmer could be given the benefit of a similar 100% improvement in all the things he has to buy—and a comparable decrease in their selling price—there might not be a cotton "problem."

Or think how well off he would be if the rest of us consumers of cotton had improved our efficiency 100%—that is, if we had made as much progress in using cotton as the farmer has made in producing it!

Fortunately, we are beginning to feel our responsibility for matching the cotton farmer's good work with some good work of our own. We still have a long way to go; but we are finding that we can develop new ways of using cotton which are as efficient as cotton production itself.

When we buy cotton we build our future.
