NUMBER 50

WIN WITH STOCK AND PRODUCE AT FT. WORTH SHOW

TWELVE PLACES WON WITH THE CATTLE SHOWN FROM HERE

Twelve Ribbons Out of Sixteen Entries On the Agricultural Exhibits Taken to Ft. Worth by Walker.

C. F. Walker returned Saturday from Ft. Worth where he won twelve premiums with the cattle he showed for Randall county breeders in the Ft. Worth Fat Stock Show, and won a dozen ribbons with the 16 entries he made in the agricultural show.

Mr. Walker states that the show this year was the greatest ever held at Ft. Worth and was only excelled in the United States by the International and Royal.

The Dowlen Bros., Chas., William and Lewis, were big winners in the Club Boy show, getting the following on their Hereford calves: 1st, 3rd and 4th, Senior Calves; 2nd, 3rd, on the Junior Calves; Champion Club steer; 1st on group of five steers from over the state; silver medal for the best Hereford type steer showing, this medal given by the Institute of American Meat Packers of Chicago.

T. A. Dowlen won the following with his Herefords: 4th Senior Bull Calf, with 38 calves showing; 11th Junior Bull Calf—in this class the competition was so keen that money was extended to 25 places.

J. B. Gamble won 3rd on Junior Calf with his Angus. This class was exceptionally strong.

Dr. C. E. Donnell won 4th Senior Calf with his Shorthorn steer.

C. F. Walker won 4th on herd of three steers with his Herefords.

Fred Ward did not get into the money with his steer, but proved that it pays to feed cattle in this country. Fred fed his steer in a separate lot and charged all feed and all time against the steer. He charged four hours per day feeding time at 20c per hour. Of course had there been a number of steers in the lot this time per head would have been greatly reduced. The steer cost him \$61.00 to produce. He sold for \$71.22, which is a good percent of profit.

In the sale, T. A. Dowlen's steers brought \$11.20 per hundred; C. F. Walker's steers \$11.15 per hundred; Fred Ward's steer, \$9.25 per hundred.

The following ribbons were won on the agricultural exhibits:

1st millet; 1st barley; 1st oats; 1st rye; 1st sorghum seed; 1st peas; 1st sudan seed; 3rd peanuts; 3rd speltz; 3rd wheat; 3rd alfalfa seed; 3rd alfalfa hay.

D. STEEN DIED SATURDAY.

D. Steen died Saturday at Trent at the home of his oldest son, Will. He had not been suffering ill health, and was taken with heart failure.

Mrs. G. G. Foster is his oldest daughter. There are two daughters in California, one son in Wyoming and one in San Antonio.

Mr. and Mrs. Steen lived in Canyon for fifteen years, leaving here about five years ago. He is well known to many of our citizens.

The funeral was held at Merkel Monday, conducted by Rev. Johnson of Vernon Methodist church. Mr. Steen had been a member of this congregation for many years.

Mr. and Mrs. G. G. Foster attended the funeral services of her father.

GIRLS RESERVE ENTERTAINED

Miss Grace Williams entertained the members of the Girls Reserve of the Canyon High School at her home on Friday evening of last week with a candy making. The guests departed at a late hour declaring to the hostess they had spent a most enjoyable evening. Those present were: Frances Hicks, Olive Schramm, Alice King, Velma Birch, Alice Smith, Birda Ann Hastings, Leona Pinnel, Edna Taylor, Nell Hood, Ila Mae Hastings, Modina Stewart, Miss Vivian Coffman.

SING RAINED OUT SUNDAY.

The Randall County Singing Convention was not held Sunday on account of the continued rain. A number of out of town visitors arrived Saturday for the sing.

The program has been postponed until May when another sing is scheduled.

MISSIONARY TO SPEAK FRIDAY

A returned missionary from Paragana will speak at the Christian church Friday night at 8 o'clock. Everybody is invited.

Help Keep Canyon Clean!

Engineer Reports Favorable Upon Paving Being Done in Canyon

Engineer G. G. Edwards of this district, and representing the State Highway Department was in the city Monday to inspect the paving that was being done on highway No. 33, which leads through the city. His visit here was on account of the delay in the payment of any of the \$12,000.00 that was appropriated for this job several weeks ago. C. N. Harrison, J. W. Reid and John Dalrymple went to Austin Thursday in order to hurry up the matter of getting payments on this money.

Mr. Harrison wired Monday afternoon from Austin, after the wire of the engineer had been received there approving the paving, that the amount had been raised to \$12,500.00.

Mayor J. D. Gamble announced that the assurance of this money will guarantee paving on Evelyn street from the square to the public school building.

School Census Being Taken in County During Month of March

The scholastic census of Texas is being taken during March. Each district takes its own census and reports to the State Education Department.

Judge R. L. Lester has sent out the census supplies to all common school districts in Randall county and urges that the census be completed as soon as possible and returns be brought to him.

G. G. Foster has been appointed census trustee for the Canyon City Independent School District. The women of the Methodist Auxiliary will take the census during the coming week.

Walks to Court House and Gravel Outside the Paving Curbing

At the meeting of the Commissioners' Court Monday it was voted to extend the side walks to the paving and fill the space between the old curb line and the new paving curbing.

The court is asking for bids on gravel to be hauled to the square for this filling, and will award a contract on Monday, March 26.

Commissioner W. C. Baird states that the curbing at each corner will be lowered and a drive way put in so that cars may drive into the newly gravelled place for parking. This arrangement will more than double the parking facilities around the square, and be of great advantage in handling big crowds.

"THE KING'S ENGLISH"

A few years ago J. G. Haltom, of Plainview, had in his employ a number of Mexicans. He recently showed a representative of the Herald the following note from one of these Mexicans who worked for him:

"Mr. Haltom:—Elet you know that now is impossible for me to work because my brother is danger to die to day or tomorrow he is very sick and I wish to see him die because Doc said he die today, that is all. Your truly, "FELIX BARRERA."

CRUM-HARBERT MARRIAGE

John Crum of Castro county and Miss Mildred Harbert of Moore county, were quietly married at Dumas on Sunday, March 14th. Mr. and Mrs. Crum will make their home near Dimmitt.

NOT THE SAME

"They tell me," said the fair widow, "that you are a student of human nature?"

"Yes," admitted the old bachelor, "and I have learned a few things about women, also."—Chicago News.

LEGION CLUB FRIDAY NIGHT.

The American Legion Club members have been called to meet Friday night at the Legion Club for important business.

STORK SPECIAL.

A son was born to Mr. and Mrs. N. S. Matteson March 9th.

Now a new Nicaragua canal is suggested. Since the nations have acquired the trench habit, this is a good form for it to take.—Tacoma Ledger.

Another excellent sanitary test is the offer of stock in something that promises dividends of 40 per cent.—Port Arthur News.

WEAVER SENT TO PEN A YEAR FOR SELLING BOOZE

SHORT TRIAL TUESDAY BRINGS SECOND CONVICTION OF TERM

Burns Case in Court From Friday Until Tuesday—Term Ends on Saturday This Week.

J. B. Weaver was tried in District Court Tuesday afternoon and the jury found him guilty of selling booze and assessed the penalty of one year in the penitentiary. The case consumed less than three hours, and the jury was out about an hour.

A motion for new trial was overruled by Judge Bishop, and notice of appeal made. Weaver is out on bond pending appeal.

The case of D. R. Burns et al vs. Hallie Kilgore et vir was in court from Friday until Tuesday, the jury finding for the defendant.

The grand jury will reconvene this morning to complete the work of the term.

Jim Foster, H. C. Roffey and J. M. Craig were called yesterday by the Judge to select the jurors for the coming term of court.

The term will close Saturday.

A. F. Bohne asked for a new trial in court yesterday, which was refused. Bohne has been in jail at Amarillo since Friday. Notice of appeal was made yesterday, and Bohne was released on bond.

30 CANDIDATES FOR CALVES

Coach C. W. Middleton states that more than thirty calves were out the first afternoon for baseball practice, and indications are that it will be an easy task for him to build up a real team. Practically all the members of the football and basketball squads were out for the first workout. Every position will be hotly contested.

The aspirants engaged in only light practice the first afternoon which will be the daily program for about a week but then the team will start heavy practice as the coach is eager for them to be in first class shape for the coming season. A hard schedule is being planned according to Coach Middleton.

WILL TEACH THIS SUMMER

W. T. Loftland, B. A., Baylor University, M. A. University of Texas, who is now superintendent of schools at Hillsborough, has been selected to teach in the Education Department of the West Texas State Normal College during this summer session, according to announcements made by President J. A. Hill.

Larger Attendance Expected for Summer at Normal College

The enrollment for the Summer Session of the West Texas State Normal College was 1526 for last year, and indications are that the attendance this summer will be much larger, according to President J. A. Hill, who bases his opinion on the number of inquiries that are being received from students who expect to attend. Cousins Hall has been filled for months and many other dormitories are rapidly being filled for the summer school. However, some added boarding facilities have been provided by the College. Since the college has taken over Huntleigh Hall and is making of it a first class place for women a much larger number can be accommodated than ever before. Huntleigh Hall will accommodate 120 girls and has all the modern conveniences.

THE COMMISSION FORM OF GOVERNMENT SUBJECT AT LUNCHEON NEXT TUESDAY

In view of the fact that the city election on the Commission Form of Government will be held on April 3rd—two weeks from next Tuesday—and it is the voter's duty to thoroughly understand this form of government and why it should be adopted, the Commercial League will have a luncheon next Tuesday noon and all interested in hearing a discussion of this subject are asked to come to the luncheon at Casey's Cafe.

Mayor J. D. Gamble will lead the program, and will have a speaker from one of our neighboring towns which has tried this form of government.

WILD RUMOR THAT SCHOOL WOULD CLOSE NEXT MONTH

A rumor started in Canyon this week that the Canyon public schools would close next month, running only eight months this year. Nothing could be so absurd.

The school's finances are in good shape since the additional \$3.00 per capita was given by the legislature. Even if finances were short the schools would have been continued for nine months on borrowed money in order to keep the credits of affiliation.

New District Court Bill Passed the Governor's Veto by the Legislature

The bill in the legislature creating a new judicial district with Donley and adjoining counties, and leaving in the 47th district Randall, Potter and Armstrong, was vetoed Friday by Governor Neff, giving his reason that the district was unnecessary.

The legislature passed the bill over the Governor's veto Saturday.

Under the provisions of the law, court will be held in Randall county in January and August of each year.

The act take effect at once, and the next term of court will be held in Canyon in August.

Panhandle Press to be Given Banquet at Normal on Friday April 20

The Panhandle Press Association is to be the guests of the Normal on the night of April 20. The annual meeting of the Association will be held in Amarillo on April 20 and 21. The members will be brought to the Normal on the night of the 20th for a banquet at Cousins Hall.

The Press Association program was made Friday afternoon at a meeting of several members in Amarillo. C. W. Warwick extended the invitation to the association to come to Canyon.

Several officers of the State Press Association will be in attendance at the Panhandle Press meeting.

Interesting Train Is Coming Over Santa Fe Mar. 29, 2:30 p. m.

The Santa Fe is bringing an interesting demonstration train to Canyon on Thursday, March 29.

The train has been designated the Cow, Sow and Hen special, and will have practical demonstrations on all three of these farm products.

Every farmer in Randall county is urged to come to the demonstration train and see what will be offered.

There will be four speakers from the Texas A. & M. College and two from the agricultural department of the Santa Fe. The meeting will last for an hour and a half, starting at 2:35 on March 29th.

The train will be in Happy at 12:31 on that afternoon, at Hereford at 8:30 Friday morning and Amarillo at 4:50 Friday afternoon, March 30.

TWO ACCIDENTS YESTERDAY

T. F. Burk's mother suffered a broken leg yesterday when she fell at her home.

D. B. Holcomb's son fell from a wagon yesterday and had his arm broken as the vehicle passed over the arm.

CIVIC IMPROVEMENT LEAGUE ELECTS OFFICERS AND GIVES PROGRAM OF WORK FOR COMING YEAR IN CANYON

The newly elected officers of the Civic League have requested the joint meeting of the organization with the Commercial League again next Tuesday at which time the program of the year will be announced. Let all members of the Civic Improvement League be at the luncheon next Tuesday.

The Civic Improvement League had charge of the Commercial League luncheon Tuesday, Mrs. C. R. Burrow presiding. After an interesting program the following officers were elected for the coming year:

President—Mrs. J. B. Gamble. Vice President—J. M. Vetesk. Sec'y-Treas.—Mrs. J. S. Humphreys.

Mrs. Burrow outlined the work of the past year and the ideals which had been set out for the year's work. Some of the program had been carried out, while some it yet remains to be put into effect in Canyon. The meeting of the day was to discuss things that Canyon needed in order that the newly elected officers might have a program for the coming year.

Dr. Landrum of Amarillo discussed dairy inspection and tuberculosis among cows. He described the ways of transmitting tuberculosis, and gave the common way was from cows to human beings. He described the various kinds of tests to detect tuberculosis. A fat cow might be as badly affected as a poor cow and never be suspected until tested.

Dr. Landrum stated that many dairymen could not see why they were forced to test their cows. It was a business proposition. The cow free from disease will produce more milk, and he will have more products to sell. It is a good advertisement to him to meet the inspection requirements. He has a moral obligation to his family and to the public. The public has a right to know that it purchases pure and wholesome milk.

Dr. Duke of Amarillo told of Amarillo's plan of inspection. He stated that few people could realize the condition of milk that came into his office to be tested. The ordinance requires that all cows be tested, not just the public dairy cows, but all cows in town. A certificate is given those passing the test. A milk bootlegger without a certificate is treated rough. The dairy must be clean, cement floors, plenty of light, health certificate for all handling milk, inspection every 30 days, and cows tested regularly, milk cooled as soon as drawn, hauled in covered wagons, persons handling wear clean clothing, no hogs or chickens with in fifty feet of dairy barns, barns screened, barns cleaned every day and manure hauled at least fifty feet away from the barn. Dr. Duke is confident that many, many deaths could be traced directly to the use of bad milk.

Any man who sells milk from a diseased cow is liable to criminal prosecution. No one is allowed to take milk or butter into Amarillo unless it has been tested and the cows known to be free of disease. Dr. Duke urged that Canyon adopt this ordinance. Butter is one of the best carriers of tuberculosis. Much so called country butter is not 80 percent butter. Dr. Spencer of Amarillo made a number of helpful suggestions. Mrs. Burrow called upon a number of those present to make suggestions for work during the coming year. The following suggestions were made:

D. A. Shirley—Swat the fly and keep the alleys clean.

Mrs. S. L. Ingham—Co-operation. Committees appointed by the president to do their work.

C. F. Walker—Pass a dairy ordinance, kill the rats and sparrows.

Mrs. J. B. Gamble—Plant a rose bush and a tree.

Mrs. S. H. Heyser—Get rid of the stock pens in town. They will create more flies in a day than the town can kill off in a year.

Dr. S. L. Ingham—A good clean up day right away.

Mrs. Burrow stated that the League attempted to keep the town clean last year without a special clean up day, but this plan did not work. She wanted to see special days set aside when the business houses closed and all got out to work.

An invitation of the Auxiliary of the American Legion for the Commercial League to take dinner with this organization at the American Legion Hall in one month was accepted. The proceeds of the dinner will go toward a memorial for the dead soldier of Randall county.

The regular monthly meeting of the Woman's Auxiliary, American Legion, will be held Friday afternoon, March 16, at three o'clock at the Legion Hall.

Help Keep Canyon Clean!

BIGGEST RAIN IN YEARS WITH MORE THAN FOUR INCHES

RANDALL COUNTY GETS BIG END OF RAIN SATURDAY.

Starts to Fall Saturday Evening at 5:30 and Continues Until 11:30 Sunday Morning.

Randall county received an eighteen hour rain Saturday night and Sunday, which amounted to nearly four and one-half inches.

A fine rain of two inches and more fell in all parts of Northwest Texas, East New Mexico and West Oklahoma. This is the first general rain that has hit the Plains country since the middle of last year.

Randall county seemed to get about an inch more rain than any other part of this big section. Hereford reported about two and one-half inches, and the same was given to Amarillo. While Canyon has no official gauge, yet there were half a dozen different men who had out pans to catch water that it is an assured fact that the moisture is more than four inches.

Several weeks ago the News took up the matter of a government rain gauge with Congressman Marvin Jones. Owing to the fact that Canyon is only 18 miles from Amarillo this was at first not allowed, but Tuesday morning a letter came from Mr. Jones stating that the gauge had been granted and Canyon will have official measurement of rain after the gauge is installed.

The lakes over the county were replenished after the long drought, and the soil is soaked to the bottom.

Many farmers had just finished planting oats and barley and the rains will soon have Randall county green with grass and grain.

The weather has been warm since the rain. Sunday was as warm as a summer day. The cattle men state that grass is starting and there promises to be plenty of early pasture.

Winter in Come-back

Yesterday was almost like a summer day until late in the evening when the wind turned to the north and blew hard all night, with a little rain followed by snow.

Snow has continued for several hours with good indication for an old fashioned blizzard.

MRS. PIPKIN DIED FRIDAY.

Mrs. Sallie Pipkin, wife of A. G. Pipkin, died Friday morning at the family home after an illness of two weeks.

Mrs. Pipkin was born on May 31, 1843 in Georgia, being 79 years, 9 months and 8 days of age at her death. The family has lived in Canyon for about fifteen years.

The deceased leaves her husband and one son, Ed, now of Amarillo.

The funeral services were held Saturday afternoon at 3:00 o'clock at the Methodist church, of which Mrs. Pipkin has been a member for many years.

The family friends of the sorrowing husband and son extend their sympathy in their hour of sadness.

VISITS LOCAL AUXILIARY

Mrs. Will M. Benton, President of the Amarillo unit of the Woman's Auxiliary, was the guest of the local unit in a call meeting Monday afternoon.

Mrs. Benton was a great help to the local unit in completing its organization and also gave an interesting talk on the work that the Amarillo unit is doing. Through this work they have learned that a Canyon boy, Noel Brown, has recently gone to the hospital at Houston. This matter had been placed in the hands of the local Welfare and Relief Committee and steps have been taken to get into communication with him, in order that the unit may give help that units are giving soldiers in the hospitals.

This is perhaps the most important activity of all Auxiliary work and if the local unit can lend a hand, cheer and make life happier it will have done well.

AUXILIARY TO MEET

The regular monthly meeting of the Woman's Auxiliary, American Legion, will be held Friday afternoon, March 16, at three o'clock at the Legion Hall.

THE AMERICAN PRESS ASSOCIATION

There seems to be but very little opposition to the Commission Form of Government, and most of the opposition that has developed is under misinformation of the idea. Some people believe that it will not work. There are nearly one hundred and fifty towns and cities in the United States under the Commission Form of Government. Not a single town that has voted this Form of Government has ever gone back to the old form of aldermen and mayor. If it is as costly as some of our people try to make believe, certainly it would have been thrown into the discard long ago by score of towns. Instead of being accepted by score of towns each year. We never were much taken with the idea that what has proven good in the past may be the best way to do things. Canyon has always had a good city council, and has a good one now. That does not argue that the city government could not be greatly improved upon, and become more efficient than it now is. If it is more expensive under the new form of government, it may be that it will save its own cost of operation under better methods of operation that can be put into operation by a man who is devoting this entire time, and thought to city management. We have heard it say that one man could not look after the affairs of Canyon—no of course he couldn't, and sit around half of his time. Cities of several thousand population have found the city manager the only efficient manner of handling their business, and it ought to be possible that Canyon would be able to get a man who is capable of looking our affairs. This idea of city government should be given a trial in Canyon. We are certain it will be as beneficial as it has proven in Hereford, Plainview, Lubbock, Clarendon, Quanah, Vernon, Clovis and other of our neighboring towns.

The Amarillo Tribune ceases to be this week. The Amarillo News has bought the Tribune plant at a bargain and will consolidate the two papers. It is the same old story—two newspapers trying to exist where there is room for only one. Amarillo is a good field for one good newspaper—just one. Amarillo can no more support two good daily newspapers than Canyon could support two weekly newspapers. The Tribune started out under the most favorable circumstances. It had the best plant in Texas, according to the size of the town, and the support of more than sixty of the leading business houses. It got the business of these houses for the time being. But it is the same old story—the established newspaper has the prestige, and as there is not room for two papers, the business eventually drifts back to the old newspaper. It has happened a thousand times and will continue to happen. The Amarillo News can hold its splendid business and get most of the business that has gone to the Tribune if it continues to publish the good newspaper that it has since the Tribune came into existence. The Amarillo business firms should strongly back the News and see that no competition is allowed in the daily field until Amarillo becomes a town of at least 80,000—it takes that population to support two good newspapers.

The rains have come, just as we all knew they would. There was never brighter prospects for a country than the Panhandle this year. The wheat will not be of much importance, but as a matter of fact no one has ever made much money out of wheat, and the ideal winter weather has more than repaid the farmers in the saving of feed that they would have gained in a good wheat crop.

The people on East Evelyn street are anxious for paving. The city will not have the money to pay its part of the paving on this street at this time. The city must consider an adequate water and sewerage system for the east part of the city before much more public improvement is undertaken.

It is reported that ninety-nine counties of the state are tax Dodgers, drawing more money out of the state treasury than they pay into the treasury. This has been going on for years, and no special objection has been made by the counties who are taxing themselves to support the tax dodging counties. There is only one recourse: a law or constitutional amendment calling for a state tax equalization board to make the delinquent counties come across with their just and equitable part of taxes for the state government. If all of the counties would use the same tactics as these 99 counties are doing, Texas would soon be bankrupt, and something would have to be done. It is likely that those counties who have been supporting the state government will have to cut their valuations so low that the state cannot run without all of the counties being forced to come across with their just part of the taxes. This may not sound like a good plan, and we do not recommend it, but it will certainly put things in such a condition that the state will have to pass just tax laws.

Governor Neff threw a bomb into the legislative camp Saturday by calling the special session of the legislature to convene this morning. According to the resolution of both houses of last week, the regular session ended yesterday. The members expected to get home for a short while before the special session would be called. But alas. As a matter of fact, it would be more logical to require that the regular appropriations of the state be passed by the legislature before any new business was undertaken. The legislature would then be in position to see if the state's financial conditions could stand special appropriations. As the rule now exists, the regular appropriations are the last thing taken upon, and the existing institutions get what is left after the members of the legislature get through all the appropriations they can for their several districts.

If the Creator of this world had intended that man crawl around on the side of a building like a fly. He would have provided man with hair in the palms of his hands and the adhesive qualities given the fly. If climbing the wall of a building had any particular advantages for man to promote his welfare on earth, or make him more useful to the human race, there might be some excuse for attempting such stunts. But man will persist in making a monkey of himself, whether he really came from this distinguished animal or not. The fellow who leads this life ends it in one mighty fall. But really, the human fly is no more of a fool than the fellows who think he can beat the train to the crossing, and there have proven to be thousands of this latter kind to one who tries to develop himself into a fly.

The proposition to call a constitutional convention has been killed by the legislature. It may be that this was the wise thing to do, considering the fact that the prohibition question and the Klan question would be injected into every proposal for the new constitution. While prohibition is now seemingly settled, the anti crowd dies hard, and is seeking by every means to get a foothold. The Klan has been whipped in every political scrimmage when there is anything near a fair fight as to quality of the opposing candidates, yet this question would come up on every hand in the convention. Of course, there will never be an ideal time for a constitutional convention. There will always be questions of paramount importance before the people of the state which will seek to divide their attention.

Amarillo has as many candidates for city office as there were candidates for U. S. senator from Texas. Canyon politics have not begun to warm up to any considerable extent. There will be the city election and school election the first week in April.

A lot of chickens will buy the pork and beans when everything else fails.

Chew your food well, then use WRIGLEY'S to aid digestion.

It also keeps the teeth clean, breath sweet, appetite keen.

The Great American Sweetmeat

An enforced milk ordinance: swat the fly; keep the alleys clean; better cooperation and active committees; kill the rats and sparrows; plant a rose and a tree; rid the city of stock pens; a real genuine clean up day—those are the things planned for the Civic Improvement League. It is a noble undertaking and one that every citizen should get behind with his best efforts. Making Canyon a better place in which to live is the real job of every citizen. We don't need the citizen who does not have this in mind.

R. M. Fielder of Tulsa has been elected secretary of the Panhandle Plains Chamber of Commerce to succeed W. N. Blanton. Fielder has been secretary of the Tulsa Chamber of Commerce for the past three years and is one of the best known commercial secretaries in this section. He is a good fellow and knows Panhandle conditions well.

Some of our citizens thought there was nothing to this ful epidemic until it struck them. They know differently now.

The cow men are expecting early grass this spring owing to the good rains and warm weather.

THE PEOPLE'S STORE

TWO VIEWS AS TO CIVIC IMPROVEMENT

A WHOLESOME CIVIC PRIDE

It matters not how nice a home you have, without pride its attractiveness, in a measure is lost. When we citizens of Canyon leave our back yard and alleys looking like a trash dump—and some of us use them for that purpose—it shows a lack of wholesome pride. Among this trash and filth we find a haven for germs of various kinds, as well as rats, fleas, flies, and mosquitoes. Not until some disease has attacked some member of the family will we get together energy enough to destroy its breeding place. It only takes a few minutes of spare time, when regularly attended to, so let us all co-operate in this matter and give a pledge for a wholesome civic pride.

CITY PRIDE

It wouldn't do at all for the cleanliness of our homes to be neglected, would it? But still it seems that we hold back on keeping our town clean. You know if we would all get together some day and have a general clean-up day, we would, I believe, change things in our town in more ways than one. It would tend to give us a more wholesome civic pride, beautify our town, and make it more fit to live in. All these, would, cause more people to choose Canyon as their homes, making a growth in our population; and we surely want our town to grow.

Wilson Dots

Mr. and Mrs. W. H. Hicks spent Sunday afternoon with Mr. and Mrs. L. D. Covington.

Elizabeth and Dorothy Morris spent Sunday afternoon with Irene Turner. Leland Graves took dinner at the A. P. Thornton home Sunday.

Mrs. A. N. Burgan spent Monday afternoon at the Joe Tuck home.

Mrs. M. M. Bagley and daughter are visiting with L. E. Simms and family. W. J. Moore returned from New Mexico last week.

Mr. and Mrs. Art Schneider of Nebraska are here to spend the summer. Ayois and Tony Erdman have returned from their visit in Nebraska Friday evening.

As W. F. Mayfield was returning from Amarillo Saturday night his car went into the ditch. He got home about four o'clock Sunday afternoon.

Mr. and Mrs. R. A. Thomas and family spent Friday evening with Mr. and Mrs. W. J. Hancock.

Nick Hollenstein and Tony spent Sunday evening with W. F. Mayfield. O. S. Brown visited with J. W. Hancock Thursday evening.

Miss Mable Tuck spent Saturday afternoon with Miss Catherine Frank. Miss Opal Covington went home with Miss Grace Foster to spend the week end.

Mr. and Mrs. Joe Thurman spent the week end with Mr. and Mrs. L. C. McCaskey.

Quantity production tends to cheapen almost everything, including laws.—Waco News-Tribune.

Texas Woman Finds Health

Mrs. W. H. Strawn, of Dallas, Who Tells How to Have Perfect Health.

"There were times when I felt so bad and skinny, I was ashamed to go out and meet my friends," says Mrs. Strawn, popular resident of Dallas. "I weighed only 109 pounds. But now I am taking on weight and new life. Ironized Yeast did it. It is amazing what it has done for me. I now weigh 126 pounds. It means so much to me, because 127 pounds was my weight before I married. My husband says I am now more like the girl he married eight years ago, and my lost strength of six years standing is coming back."

No discovery in the field of medicine has aroused more comment than that of the principle embodied in Ironized Yeast for building firm flesh on thin, anemic people and restoring the strength and vigor of health. Ironized Yeast will calm your tired nerves and nurture your shrunken tissues; you will soon know the joy of a hearty appetite, good digest, rosy cheeks, plump limbs and buoyant spirits. These are the things Ironized Yeast has given to thousands of others, and a guaranteed give to you. Get it today from your druggist. A ten-day treatment costs only a dollar. Ironized Yeast Company, Atlanta, Ga.

WE LIKE THIS TOWN

CHARLES SCHMIDT

FACT AND COMMENT

The true road to happiness is to exact much of yourself and little of others.

Use your pleasures sparingly: if you use them too much, they will bore you.

An English chaplain at Athens, writing in the London Times, says that of the refugees from Asia Minor the Armenians show the greatest aptitude for self-help. "Just outside Athens is a village of Armenian refugees, who turned to and made mud bricks in the autumn sun while others sat and said, 'Our hope is in Heaven and in you.' As a result those people now have house, a school of their own building, a well of their own sinking, even a mayor of their own electing."

WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Canyon resident's example.

Mrs. T. P. Mayrant, says: "My kidneys and back were giving me a lot of misery. My back ached most all the time and was lame and sore. Often I felt dizzy and weak and was troubled with spells of headache. I felt worn out and my kidneys caused annoyance by their irregular action. I saw Doan's Kidney Pills advertised and bought a box. Doan's gave me relief. I use this medicine now, whenever I think I need it, with good results."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mayrant had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Happy Happenings

The baseball team of Happy went to Union Hill last Friday. The Union Hill team won the game.

Frances, Helen and Harold Stephenson entertained a few friends at their home Sunday. Those present were Ruth and Adamae Anderson, Ruth Harrison, Muriel and Johanna Miller, Arnel, Dorothy and Carrie Marie Townsend, Alton Hall, Herman and Wren Miller. A good time was spent by all present.

Paul I. Odor of Amarillo was here Tuesday in the interest of the Happy Call.

Miss Dewey Gibson spent the week end in Canyon.

Mrs. Gray of Canyon is visiting her daughter, Mrs. Clark Neff this week. Misses Gladys Miller and Gladys Bandy and Wm. F. Miller were Tulsa callers Friday.

Oscar Fonken entertained with a party Saturday evening. In spite of the rainy weather quite a number were present. The evening was spent in playing amusing games. At a late hour refreshments of Jello, cake and hot chocolate were served.

Mr. and Mrs. Scott and Mrs. Lonnie Townsend of Tulsa visited at the F. C. Scott home here Saturday and Sunday.

Willie Faye Zachery, who is teaching at the Rusk school, spent the week end with her uncle, E. N. Zachery and family of Happy.

J. W. Wren was in Tulsa Monday. Miss Maggie Grounds of the Plains Center community spent the week end with Ruth and Dora Walters.

Mr. and Mrs. D. H. Culton of Tulsa were here Tuesday.

Margaret Arnold entertained a number of her friends at her home Friday evening with a party. At a late hour the guests departed having spent an evening of amusement and fun.

G. L. Townsend of Tulsa spent Tuesday with his son, W. T. Townsend at this place.

N. F. S. Vitreys of Amarillo was here Thursday.

R. J. Stone of Canyon was here Monday. He was representing the Maxwell Investment Co.

Johanna Miller entertained a number of her little friends with a birthday party Saturday afternoon. Those present were Helen Rablfs, Paul and Adaline McDonald, Lola Fay Brown, Billie and Beth Fowler, Glenn and Gill Whitman, Margaret and Melba Bandy, Roberta and Wilma Arnold, Lorene Robeson, Pleas Harrison, Helen Stephenson, Joe Bridges, Cleo Evans and Joyce Dail McManigal.

Roy Aikman of Hereford spent the week end with friends here.

Mrs. O. R. Bridges and her mother, Mrs. S. S. Ball, were Tulsa callers Saturday.

Van Foster, who is attending Wayland College at Plainview, spent the week end here with home folks.

Wash Bangle of Tulsa was here Friday on business.

Mrs. Wilkins returned to her home in Hale Center Wednesday after spending several days with her son, Rev. B. W. Wilkins.

J. O. Gillham spent the week end in Plainview.

S. F. Montgomery returned home Monday night from New Mexico where he has been for the past two weeks.

Leta Gillham, who is attending school here spent the week end with home folks at Wayside.

Estelle Pugh entertained a number of her friends at the home of her parents, Mr. and Mrs. R. G. Pugh Saturday night. The evening was spent in playing games of various kinds. On account of the bad weather there were not many there, but all report an enjoyable evening.

Cecil Hagood of Tulsa spent the week end in Happy.

Flake Montgomery of Canyon Normal spent the week end here.

J. O. Gillham was an Amarillo caller Monday.

Jewell Lockridge of Hale Center is visiting this week with Mr. and Mrs. S. C. Moon.

O. R. Bridges was in Canyon on business Saturday.

Jewell Hall of Amarillo spent the week end with her parents, Rev. and Mrs. J. M. Hall.

Miss Ethel Sanford entertained a number of her friends Monday evening at the home of her parents, Mr. and Mrs. C. S. Sanford, six miles west of town. The evening was spent in various games. At a late hour refreshments of cake and Jello were served to a large number of guests.

A. W. Montgomery was in Amarillo Monday.

Miss Elsie Jones returned last week from Amarillo where she has been visiting the past two months with her sister, Mrs. Rubion. Her two little nieces returned with her.

N. W. Uselding was in Tulsa Wednesday.

M. D. Montgomery, who is traveling for the Amarillo Daily News spent the week end here.

W. J. Fletcher of Canyon was here Wednesday on his way to Tulsa. Mr. P. J. Neff, Mrs. Emmie Mitchell and Zepia McDonald accompanied him.

Mr. and Mrs. A. L. Harrison and Rev. B. W. Wilkins were in Plainview

Thursday to attend the Centenary meeting of the M. E. Church.

Claire Miller, who is attending the Canyon Normal, spent the week end with home folks here.

Mrs. Wm. F. Miller, Mrs. J. M. Miller, Mrs. O. O. Baker and Mrs. P. J. Neff surprised Mrs. Gus Miller Monday afternoon by going to her home and taking a lunch with them. They all report an enjoyable afternoon.

Mrs. Wm. F. Miller spent Wednesday with Mrs. Gus Miller.

Umbarger Notes

The Erdman boys, Tony and Alois, have returned. They have been trapping this winter.

About two and a half inches of rain fell here Saturday evening. It rained all night. The rain put the ground in good condition for oats and spring wheat.

Clem Friemel and family were in Amarillo Tuesday.

Nick Hollenstein was a business caller in Canyon Saturday.

Frank Erdman was a business caller in Canyon Saturday.

The people that were sick with the flu are all well now. Nearly all the pupils are attending school again.

Leo Stocker has finished his new house. They moved in Friday.

Wayside Items

Our community was visited Saturday night by a fine rain of two and a half or three inches. A good season in the ground. Wheat that has been lying in the ground for some time is coming up. There is lots of oats, barley, and speltz being sowed this week. This will be fine for early gardening.

Charles Rogers and family are moving to the Nunn place in the Fairview community for this year. We regret very much for these good people to leave our community, but hope them much success in their new home. The children will be greatly missed in the school.

W. G. Franklin and family have moved and taken charge of the Nor Shelton place.

Nor Shelton, whose health has lately failed, left for Lockney last Friday to spend a few days with his sister, Mrs. Brotherton. He expects to go on to San Angelo in the near future. The donation to him by his friends and neighbors amounted to \$197. He asks that his sincere thanks be given the public.

Marvin Hamblen is just back from California.

W. J. M. C. and J. S. Sinder were Amarillo callers Tuesday.

Mr. and Mrs. W. J. Sinder and son, J. S. made a business trip to Happy last Friday, also visited their daughter and sister, Mrs. D. J. Graham.

The literary last Friday night was well rendered to a good crowd. Several from Fairview were present.

W. G. Franklin visited with his daughter, Mrs. Ruth Childress and family near Lockney last Friday night.

Mr. Bond and sons, Charlie and John accompanied by Will Holland made a trip to Amarillo Wednesday.

Fairview Breezes

On account of the bad weather we did not have Sunday School and B. Y. P. U. Sunday.

H. B. Wesley bought Frank Walters' cows this week. We have not learned the price.

Fairview community was visited by a two inch rain Saturday night and Sunday which will make wheat grow real fast with pretty weather. All re-

What Every Expectant Mother Should Know--

Mrs. Laura Hendrix, Gracemont, Okla., says: "I want to express my appreciation of 'Mother's Friend.' I am the mother of six children, expecting another one soon. I have used 'Mother's Friend' with every one of my babies. I think it is the greatest help that has ever been discovered for the expectant mother. I can't do without it. I recommend it to all expectant mothers. I can't say too much for it."

"Mother's Friend" was originated by an eminent physician. It has saved thousands of expectant mothers from useless suffering. It is externally applied; aids the muscles and tissues to relax easily and readjust themselves to the changes during expectancy and up to the moment baby arrives.

"Mother's Friend" is safe and beneficial, and contains no narcotics or harmful drugs. Avoid mere greases and useless substitutes.

Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Bradfield Regulator Co., B-44, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores everywhere.

TOWN PESTS

The Curious Guy is Every Ready to Intrude a Large Furry Ear into Any Conversation and to outdo Mr. Edison at Asking Questions. He has the Inquisitive Itch and Counts that Day Lost when he Cannot Horn into Another's Private Affairs and Broadcast what he Finds out.

port wheat coming up now. Quite a number of farmers have already sown spring crops while others will sow after this.

Frank Walters and family, H. B. Wesley and Harney Rogers, visited with Bill James and family Sunday.

Bill James was in Happy Thursday.

Earl Wesley was in Happy Friday.

Claude James of Happy has moved to Bill James'. Claude is going to put in a cotton crop.

Mr. and Mrs. J. N. Duff of Happy moved to their new home in the south part of Fairview last week.

Alvin Wesley was in Happy last Tuesday.

E. J. Helms was in Happy Saturday.

The funny part of it is that after world problems adjust themselves, some statesman will get credit for it.

RESOLUTIONS OF RESPECT

Whereas an all wise God has seen fit to call from this earth the soul of our esteemed friend and Leaguer, Eugene Devereux, and,

Whereas, we being but human cannot see why one so gifted should be called in early manhood, yet we humbly submit to the will of God.

Be it therefore resolved by the Epworth League of Canyon, Texas:

(1) That in his untimely death the League has suffered a blow long to be remembered.

(2) That our church has lost a faithful and loyal member, one who thought it not work, but a pleasure to serve his Lord.

(3) That our town has lost a splendid citizen and society a true man.

(4) That our League offers to the bereaved wife, sister and relatives, its sincere sympathy and condolence in this trying hour, and point them to look up for strength.

(5) That a copy of these resolutions be spread on the minutes, a copy handed the Randall County News, and a copy be sent the sorrowing wife.

Respectfully submitted,

MRS. R. I. GRAVES
MISS M. MOSS RICHARDSON
MISS WINNIE MAE CRAWFORD.
Committee.

There is a town in Wyoming so far out of fashion that women don't begin wearing spring hats until the middle of January. —New York Tribune.

There seems to be no use for new parties. The American people aren't sure of just what the two have are really for. —Tacoma Ledger.

Blub: That so? What did he tell him?

Blam: He said: "This is my last drink."

Help Keep Canyon Clean!

Texas Will Observe Health Week Opening Monday, April 2nd.

The State Board of Health has designated April 2nd as the beginning for an intensive State-wide Health Promotion Campaign. The program designates April 2nd as Health Appraisal Day; April 3rd, Pure Food Day; April 4th, Sanitary Improvements Day; April 5th, Child Welfare Day; April 6th, Disease Prevention Day; April 7th, Health Pageant Day; April 8th, Health Sunday.

It is most timely for Texas citizens to hesitate a moment to inventory their physical resources, to devise ways and means for increasing the efficiency of the producers, to plug the holes of carelessness and indifference in our system, which produces that vast army of wards in our municipal, county and state eleemosynary institutions, (for the maintenance of which the citizens of the State are taxed millions of dollars annually), and to save twenty thousand Texas lives annually," declared Dr. W. H. Beasley, State Health Officer.

Texas ranks near the bottom of the list in health conservation facilities in comparison with other states in the Union. There are only four full time city health officers and five full time county health officers in the entire state. Violations of sanitary regulations and quarantine laws are of daily wholesale occurrence in many sections of the State. Anthrax is now found in East Texas. Diphtheria is distributed all over the State to a limited degree. Influenza and Pneumonia are prevalent in many parts of Texas. While only partial reports are received, there were reported to this office in the past week 3,175 cases of influenza and 38 cases of pneumonia. Smallpox, for which there is an absolute preventative, is found in North Texas, while measles are now in West Texas. Scarlet fever, whooping cough and tuberculosis are prevalent in various districts of Texas. The mortality and morbidity rates of this state are a disgrace to modern civilization. Mosquito bites are costing Texas in excess of fifteen million dollars annually. Yellow fever is within one day's journey of our border, while typhus carrying lice have made their appearance on Texas soil on several occasions during the past year. No fortifications have been erected to prevent plague infected rats from entering our interior towns and spreading this dreaded disease among our population. The State Board of Health therefore urges the citizens of Texas to combine their efforts in a general protest against the continued sacrificing of lives on the altar of Preventable Disease, and join in the work of driving the enemy from Texas soil," further stated Dr. Beasley.

Breeders Seek More Funds For Normal College

At the Hereford Breeder's banquet held at the Amarillo Hotel on Monday night, February 26, the Association went on record as favoring a resolution asking the legislature for sufficient appropriation for the maintenance of a fully equipped agricultural and animal husbandry department at the West Texas State Normal College at Canyon.

This resolution has been worked out by the authorities designated by the Association and sent to the state legislature with the following copy released for publication:

Resolution

Be it resolved by the Panhandle Hereford Breeders' Association in Amarillo February 26, 1923, that we believe the \$120 appropriated by the last Legislature is not sufficient to teach our future school teachers adequately to train our boys in agriculture and live stock work and to feed ten dairy cows, furnish the labor on a farm of forty acres, and to care for the stock for classroom demonstration, and other duties of the department in connection with fairs, stock judging contests, etc.; and we humbly request that an appropriation for this purpose be very greatly increased for the next two years. This especially desirable in view of the fact that members of this association have offered registered animals for class purposes at the college, but the department of agriculture has been unable to use same because it did not have the necessary funds to feed and care for such animals; fourth, we urge that the whole appropriation for the West Texas State Normal College is entirely inadequate for the proper education of the college students and the Panhandle-Plains country, and in view of the large sum of money paid by this section of the state in the form of taxes, we feel justified in asking for more liberal education appropriations.

(Signed).

Help Keep Canyon Clean!

ACCOMPLISHMENT

Pretty nearly all the joys of living are to be summed up in the word achievement. Both in sport and in work the achievement of a purpose is thing that gives a man the greatest satisfaction. To feel that we are working steadily toward our aim, to see that the design is taking form under our hands, is to experience a satisfaction greater than any that comes to us through contemplation and leisure.

Often when the task is hard and long you feel that, if only you had it finished, you could be happy. Yet when it is finished you soon learn that in the freedom from it there is not so much pleasure as you found in the performance of it. You have indeed freed yourself from a companion of your thoughts, and you have perhaps nothing that at once can take its place. The joy of accomplishment that it had seemed you could never know until the accomplishment was complete survives the labor only a short time; and, looking back, you see that it was in the effort rather than in the triumph that the deepest satisfaction lay. But you would never have realized that if the effort had not been crowned with the triumph of accomplishment. One of the virtues of accomplishment is that it makes us more keenly aware than we could otherwise be of the joys of struggle. There is no joy of struggle for one who always fails to finish.

APPEALING SURNAME

An enterprising Yokohama tradesman recently thrust into the hands of an American visitor his trade card.

Jewelry Maker. A Finest in Town. Whiskey-boy. No. 17 Alocho Ichomo. Our shop is best and obliging worker that has everybody known, and having articles genuine Japanese crystals and all kinds of curios. Carving in Laid, work own name or monograms or any design according to orders we can work how much difficult Job with lowest prices insure, please try, once. Don't forget name Whiskey.

The surname is appealing, whatever may be said for the accompanying matter.

For rapid healing there is nothing like Liquid Borozone. It mends torn flesh, heals cuts, burns or sores so quickly no time is lost from work. Price, 30c, 60c and \$1.20. Sold by City Pharmacy.

THE LEADER

West Side the Square

It Speaks!

On March 10, 1876, in a noisy machine shop at Boston, the telephone was born. Alexander Graham Bell, the young teacher of deaf mutes, had dedicated his life to restoring the precious gift of voice to his pupils.

During his experiments he discovered a new principle of sound transmission which brought the hope that some day men might hear each other's voices though separated by hundreds of miles.

That dream has come true. Today you may send your voice—your—anywhere in the United States by Long Distance telephone. It will carry you to your family and friends; it will bring them to you.

Ask the Long Distance operator about Station to Station calls, particularly the low rates prevailing after 8:30 p. m.

Marvin Jones Winning Reputation as an 'Amender' in Congress

Washington. A Texas member of the House, Marvin Jones of Amarillo, gives promise of becoming the "Jim" Mann of the House, many members believe.

For years the late James R. Mann, republican, Illinois, was famed for the putting through of perfecting amendments to legislation. Representative Jones, just completing his third term in the House, is also getting a reputation as an "amender."

It is unusual for a democrat to have any considerable voice in the shaping of legislation during a republican administration. However, Representative Jones has the distinction of having secured more amendments during the last three years, to pending legislation, than any other democratic member.

Some of the amendments proposed by Mr. Jones and adopted by the House are the following:

Amendment abolishing the council of National defense, which effected a saving of \$300,000 a year, on the ground that practically the same work was being done by the war department.

Amendment requiring that when the government institutes suit against any citizen it be in the district of his residence.

Amendment permitting completion of service of process in the Federal Court in cases removed to such court.

Amendment transferring the Panhandle of Texas and Oklahoma from mountain to central time, thus placing all of Texas in the same zone.

Amendment extending the time of holding court in the Amarillo division from one week twice a year to three weeks twice a year.

Amendment to the pending radio bill authorizing cancellation of license of any person or corporation seeking to obtain a monopoly.

Amendment to the warehouse act authorizing issuance of negotiable receipts on graded and ungraded products stored within.

HER FAULT

A certain Scotch professor was left a widower in his old age. Not very long after he suddenly announced his intention of marrying again, half apologetically adding, "I never would have thought of it, if Lizzie hadn't died." Harper's Magazine.

The United States destroyer Hull, equipped with a modern depth finder, has recently completed a voyage of fifty-eight hundred miles in the Pacific, during which the officers were able with the new apparatus to chart thirty-four thousand square miles of sea bottom. The machine marks the time it takes for a sound to go from the surface to the bottom of the sea and return and so gives a basis for calculating the depth of the water. The apparatus also proved a valuable aid to navigation at night and during foggy weather among uncharted islands.

Skin Ablaze with Eczema Constant Itching Almost Unbearable!

We know there is one thing that stops eczema, and that is more red-blood-cells! S. S. S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as

Blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging, torturing and its soul-tearing, unbearable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the million! It has been doing it since 1891! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body-builders known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. S. and in well now. I thank you very much. I tell my friends what a good medicine it is. I cannot tell too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. It builds S. S. S. does build red-blood-cells, it routes rheumatism, builds firm flesh, fills-out hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

Will Sing in Amarillo Durnig Music Festival

MME. SCHUMANN-HEINK.

Mme. Schumann-Heink will open the Panhandle Music Festival on April 9. Schumann-Heink is the world's most famous singer. The Music Festival continues from April 9 to 14, and is given by Prof. Emil F. Myers of the Amarillo School of Music.

New Courses to be Added to Mathematics Department in Sept.

Two very practical courses will be added to the Department of Mathematics in the West Texas State Normal College next year, according to T. B. McCarter, head of the department. The courses are: Introduction of Mathematical Statistics, and Popular Astronomy.

The course in Introduction to Mathematical Statistics will underlie the "Mental Tests and Measurement" course offered in the Education Department, and will help one to understand the advanced courses in Biology and Sociology. Many of the formulas used in the Education course will be explained by the course in Introduction to Mathematical Statistics.

Popular Astronomy will be offered next year for the first time and the purpose of this course is to give a person a broad understanding of the field of Astronomy, with enough actual problems to give one a knowledge of how astronomical distances and etc. are computed.

Mr. McCarter hopes to be able to

purchase in the near future a telescope of sufficient size to enable the students of this class to observe such interesting things as the Canals on Mars, Four of Jupiter's Moons, Sun Spots, Double Stars, etc. One of the stars in the Big Dipper when seen through a telescope becomes two big stars and this sort of thing will be of great interest to students in the College.

The sugar content of maple sap varies a good deal according to seasons; it is higher following a year of luxuriant foliage. It is usually about three per cent; that is, it takes thirty-two gallons of sap to make one gallon of syrup.

If the great rail-splitter were alive today, he'd be a bloc splitter.—Washington Post.

Gold Medals Given Two Men for Good Work With Buffaloes

A gold football and a basketball were presented to the two men whom their respective team-mates thought to be the most valuable men to the team by D. A. Shirley, head of the Athletic Council. Grady Burson of Silverton, Captain and fullback on the 1922 football team received the gold football. Odus Mitchell, the jumping center from Floydada, was awarded the gold basketball.

In addition to being a valuable football player, Burson is a regular on Coach Burton's pitching staff. Mitchell is a star in football, basketball, baseball and track. Both men are very popular with the student body.

The immense riches found in the tomb of King Tutankhamen in the Valley of the Kings at ancient Thebes has greatly stimulated the tourist business in Egypt. Before the war Egypt was a popular winter resort for wealthy Russian and English people and for not a few Americans, but during the last few years the hotels there have had scant patronage. The discoveries have brought in a flood of European visitors, who have changed their bookings, and the Egyptians hope that the new generation of travelers will find how delightful Egypt is in the winter.

ONE OF LIFE'S TRAGEDIES

He drew her up to him and struck her, but she did not cry out. Again and again he struck her, but she did not wince. He struck her for the last time and her head fell off. She was only a match.

Since London has been "listening in" to American radio concerts other instances of receiving from distant points are becoming known. Three stations in the Hawaiian Islands can hear music and speech broadcast from Troy, New York, a distance of fifty-five hundred miles. The station at Troy carried on a conversation with Calgary, Alberta, for more than sixty minutes. Those two stations are a little less than two thousand miles apart, but the difficulties of conversation over land are such that the feat is not at all common and probably will not be usual for some time to come.

Patriotism may be fine for the maintenance of an American merchant marine, but, as has been well said, it is a poor substitute for freight.—Cincinnati Enquirer.

LEAGUE MEET EXPECTED TO BE BIGGEST EVER

H. S. STUDENTS FROM TWENTY-
THREE COUNTIES TO BE HERE

The annual meet of District 1 of the Texas Interscholastic League to be held at the West Texas State Normal College on Friday and Saturday, April 20 and 21, is expected to be the largest ever held in this district.

Largest Meet in Texas

In the past this meet has been generally conceded to be the largest in Texas both from the standpoint of number of participants and the number of counties represented. District 1 is composed of the following twenty-three Panhandle counties: Armstrong, Briscoe, Carson, Castro, Dallam, Deaf Smith, Donley, Gray, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler.

Prof. J. L. Duffol, of the College, is Director General, D. A. Shirley, Director of Athletics, F. E. Savage, Director of Declamation, and Miss Jennie C. Ritchie, Director of Essays. Miss Muriel Phillips has been recently appointed to act as Director of Debate to succeed Miss Mary Morgan Brown.

New Feature Added

A new feature to be added this year is the Music Memory Contest of which Mrs. Harmon, teacher in the Amarillo High School, is Director. The purpose of this contest is "to cultivate among school children an appreciation of good music, to turn children away from a fondness for the coarser and more meaningless forms of musical composition to a genuine love for the classical productions of the great masters." This attraction is expected to draw a large number of contestants to the meet who have not been in attendance heretofore.

Debate Question Selected

The question for debate which was selected by the University committee for the 1923 contest is "Resolved, that an amendment to the Texas State Constitution should be adopted providing for a three-mill tax for the support of the State's higher educational institutions; and that supplementary appropriations by the Legislature should be prohibited."

There will be two contests in debate to which all schools are eligible, a debate for boys and one for girls; so that boys debate with boys, and girls debate with girls.

Athletic Contests

Other literary contests will be: Junior and Senior declamation for boys and girls both high school and rural school classes; essays from rural schools, ward schools, and Class A and Class B high schools.

Athletic contests in track and field events for boys from Class A and Class B high schools, and tennis doubles and singles for boys and girls will be held on the College athletic field. Prof. D. A. Shirley has charge of all athletic events.

Help Keep Canyon Clean!

Home Economics Club Gives Number of Good Programs

The Home Economics Club met in room 315 at the regular meeting time Wednesday, February 21. A very interesting program was rendered, consisting of:

What the Home Economics Club means to us—Nancy Dumas.

How can we influence the Home Economics Club—Elizabeth Dumas.

Value of serving to Home Economics students—Mary Lee Davis.

Cautions on serving girls should take—Joe De Oliveira.

On Wednesday, March 8, the following program was given in room 315a:

Current events—All.

History of the dashen—Mrs. Kelly.

Demonstration cooking of the dashen—Annie Wood.

Business meeting.

We met in the Home Ec. laboratory where the new kind of potato—the dashen—was being demonstrated.

It was introduced from the South several years ago and is now being raised in the North in hot houses. The shoots are used like asparagus when they are young and tender and have been bleached. The dashen can be prepared in salads, baked, mashed, made as saratoga chips or any other way the potato is used. The rich nutty flavor is very pleasing. It has more protein, more carbohydrates, less water, and is more easily digested than the potato. It grows like the sweet potato with some of the tubers growing to be five pounds. A distinct advantage over the white potato is that the dashen is ready for use as our fresh supply of potatoes is exhausted.

Our business meeting was taken up mostly in electing new officers for next quarter.

President—Mrs. Walden.

Vice-president—Vernie Newman.

Secretary—Vera Stoghill.

Parliamentarian—Miss Burkhalter.

Prairie Rep.—L. Fulkerson.

Watch your children for symptoms of worms. They undermine the health and breed sickness. Use White's Cream Vermifuge. It expels worms and restores health and vigor. Price, 35c. Sold by City Pharmacy. 4875

Booklet of Yells and Songs May Be Issued Soon

Students of Miss Ritchie's English class have written several typewritten pages of lively yells and songs. Some of the songs are adapted to standard tunes, and two have been set to music by members of the Music Department.

The songs and yells are in the hands of a committee, and if a few more can be procured a handbook will be issued in time for the baseball season. The committee has a good start; if you have a favorite yell or song, leave it in The Prairie office at once.

Miss Ritchie's pupils have the right idea. If you expect better work than they have done, you will have to get busy and excel them—and that will not be easy. College students, what are you going to contribute?

West Texas College to Present Mikado

The work chosen by Wallace R. Clark, director of music at the West Texas State Normal College, for the spring concert which will be given by the college chorus April 1 is Gilbert and Sullivan's old but ever new "Mikado." This is the first time that the chorus has attempted an opera.

The cast for the "Mikado" has been carefully chosen from among the singers of the faculty and student body, and the work is now well advanced. Stage rehearsals beginning this week. The opera will be done with full orchestra accompaniment, as are all the choral concerts given at the college.

LITTLE WANT ADS IN THE NEWS BRING BIG RESULTS.

OLD INFORMATION IS MISINFORMATION

The World changes. Old governments are passing; new governments, territories and parties are in the forming. The old-fashioned, bound, stitched and glued encyclopaedia served its purpose in a past generation. A new age demands a new Encyclopaedia—a reference work that can keep pace, step by step, with the New World.

Nelson's Loose-Leaf Encyclopaedia, with its patented loose-leaf binding device, is the only Encyclopaedia that can discard the old and out-of-date and substitute the new and living in its place. IT IS THE ONLY PRACTICAL PLAN FOR RELIABLE INFORMATION.

NELSON'S PERPETUAL LOOSE-LEAF ENCYCLOPAEDIA AND RESEARCH BUREAU FOR SPECIAL INFORMATION

A few of the many reasons why you should own Nelson's

It covers the whole field of knowledge—over a million topics—from the dawn of civilization to September, 1922.

It is accurate, concise, authoritative—with over 1,000 contributors, each a specialist in the subject assigned to him.

It is fully and beautifully illustrated—over 7,000 illustrations, colored plates and maps, photographs, reproductions of famous paintings and line drawings.

Its Editorial and Advisory Boards include the finest minds of the world—men at the very head of the various fields which they represent.

It is always new—kept constantly down-to-date by the issue, every six months, of 250 or more new pages, old out-of-date facts and figures being eliminated and new ones supplied to take their place.

It is supplemented by a Research Service Bureau which will supply, free of cost, any additional material which you may desire.

It is an authority, used by government departments, libraries, schools, and educational institutions, throughout the country.

It is, like history itself, by means of the patented loose-leaf binding device, continually in the making—always complete, but never completed.

It saves you the expense of buying a new Encyclopaedia every five or six years. It is a complete Reference Library and equal to a College Education.

It is American, made in America, for Americans. Librarians everywhere, when asked where to find the latest and most accurate information, answer

It's always new LOOK IT UP IN NELSON'S—Cannot grow old

FREE EDUCATIONAL READING COURSES

Nelson's Reading and Study Courses in UNITED STATES HISTORY, BUSINESS ECONOMICS, NATURE STUDY, AGRICULTURE AND HOME ECONOMICS are declared by educational authorities to be equal to a college course and training in each of these departments.

NELSON'S FREE RESEARCH BUREAU

FOR SCIENTIFIC REPORTS AND SPECIAL INFORMATION AND CORRESPONDENCE. Every purchaser of Nelson's is entitled to free membership in this Bureau. If at any time you are in doubt on any subject, old or new, write to this Bureau with the positive assurance that you will promptly receive the latest obtainable and most dependable information.

L. F. VAN ZEIM

REVIVAL AT THE BAPTIST CHURCH

H. F. AULICK.

In a real revival of religion there is preaching, praying, singing, testimony, people, worship, praise, personal work and etc. The superhuman side which is God's side is the power of the Word over the heart and saving of the soul. The several things just named are the things that people do in a meeting. Men and women are mighty poor pieces, and most imperfect but God has used them through the ages to reach other people and to turn them to Christ. No Christian man or woman is perfect. All have their faults. None of them are angels. A really good man or woman is far from claiming perfection and claiming to have no faults. All Christian people are just poor sinners saved by grace and have nothing to boast of and have no advantage over any other man or woman.

The question should be with every lost man, "how can I get right with God?" not "how does some other man live." It makes no difference to a man how another lives, if he repents of his own sins and surrenders to Jesus he will be saved though all others are hypocrites and go to hell when they leave here. Every man stands on his own feet before God and is saved if he personally yielded to Jesus. God is not going to judge one according to the works of another but according to his own works. Every man must give an account of himself at the bar of God on that greatest of all court days.

If one speaks to another about being a Christian, it is because they wish them well and any man should wish another man well. No Christian ever holds himself up to another as a perfect man or even for an example, he only tells his lost friend about Jesus who is able to help and make him a Christian. It is a most friendly act for one to speak to another about Jesus. The one who may speak to you, my lost friend, is your friend and wants to do you a kindness though they know well they are far from being themselves what they ought to be. It would be sad indeed if no one cared enough for me to help or speak to me about a good thing. I would not stay in a town or country where there was no one who cared anything for me and no one who would think enough of me to speak to me about the best thing in all the world.

Remember that in a world of many hard times and trials the poor Christian people just do the best they can and if one refuses their help because they are not angels, then they will never get any help from any one. Our revival begins next Sunday morning at 11 o'clock and let every man, woman and child be in their places if they are for a revival and let no one fail to let God use them as he may wish to. God has another good meeting is store for us, if we will accept it.

J. JONES AND TUTANKHAMEN

They opened the grave of James Jones recently, didn't find the Russian crown jewels, and the world turned the page, rather glad. This hadn't been a nice business, disturbing the grave of Jimmy Jones—Jimmy Jones of the navy—who had earned his rest. There is romance at the tomb of Tutankhamen, sudden realism and the tragedy of tears not dry at the grave of Jimmy Jones. Tutankhamen, strange of race and epoch, long forgotten, means little to us. We are sure he will not care if we disturb his sleep. Jimmy Jones, next to kin to each of us, symbolizes to all a nation, a something that grips the heart and makes us swallow hard. Not for the crown jewels of all the czars would we trouble the dreams of Jimmy Jones. They bring forth from the tomb of Tutankhamen the ransom of a Croesus, a wealth of hammered gold, the exquisite product of patient hours, intelligent brains, sensitive fingers of artists and artisans' ages ago along the Nile. Where this wealth goes the world asks not, nor cares, though it senses in a vague, uncaring way that it will be held in public trust. What is sought, what is found in those desert-guarded sands of Egypt is not gold, but knowledge. That is why the world endures, approves, eagerly awaits the daily bulletins that come from the diggers yonder.

What is this knowledge they seek in the tomb of the ancient king? The knowledge of how men lived 3,000 years ago.

We sought for jewels in the grave of Jimmy Jones and we turned away, with face awry, because they were not worth it. But we seek for knowledge in the tomb of Tutankhamen, and the world lends eager ears.—Pittsburg Sun.

Sunday, March 18

DO YOU WANT TO BE A LEADER?

Lay your plans with a little more intelligence today—don't wait until tomorrow, because, if you do, old habits will grasp you like octopi and choke your intentions into insensibility.

ACTION is the thing. DO IT NOW is the password. KEEPING AT IT is the weapon of defense. A GRIM DETERMINATION TO WIN is the impenetrable armor, and THE KNOWLEDGE THAT YOU ARE RIGHT is the military music that will cheer you through the conflict.

The real leader has no moments of doubt, no periods of depression. "I Can" is his first lieutenant, always waiting, always ready. "I Can't," never gets by his fortification. Leadership is not an intangible thing. It is a state of mind made manifest by constant productive activity.

Do you really want to be a leader? Do you have the nerve to be a leader? Do you have the WILL POWER to be a leader? Do you have the WILLINGNESS TO DO THE WORK OF A LEADER? Do you have the earnestness of thought that a leader must have? Do you have the vision of the leader?

Then you ARE a leader. Tomorrow you WILL BE A GREAT LEADER. Some day the whole world will point to you and say, "There is a great man—a real leader in his line." Isn't it worth striving for? TALK TO YOURSELF ABOUT IT.—The Optimist.

SCOTCH CAUTION

Two old Scots were discussing the domestic happiness of a mutual friend. "Aye," said one, "a sair time has Donald wi' that wife of his; they say they're aye fetechin'."

"What else can ye expect?" chimed in the other scornfully. "The pair feeckless creature marrit after coortin' for only seven years. Man, he had nae chance to ken the woman in such a short time. Why, when I was coortin' I coorted for twenty years."

An amused listener ventured to ask whether his long courtship had ensured connubial bliss.

"I tell ye I coorted for twenty years," the old Scotchman retorted, "and in that time I kent what woman was, and so I dinna marry."—London Dailies.

RANDALL COUNTY NEWS

DID YOU EVER STOP TO THINK

That the city that gets the publicity gets the business.

That the city that gets the advertising grows.

That advertising a city is a business, not a child's play.

That people will go miles to get to a good live city to trade.

That your property will increase in value when the outside world knows that your city is wide-awake.

That people from neighboring cities will come where there is something doing.

That the city which does not seek something better than it now has is going to lose out.

That now is the time your city and business need advertising more than ever before.—Quanah Tribune-Chief.

India, including Burma, has an area half as large as that of the United States. Its population is three times as great.

Bazaar given by the Methodist Auxiliary Saturday, March 24. 41

THE MEN BEHIND YOUR BANK

A bank's strength is shown just as truly in the character of the men who direct its affairs as in the resources which appear in its statements of condition.

The officers and directors of the First National Bank are men you know—home people who are familiar with the needs of Canyon and Randall County. They are men of wide business experience, and men whose own financial standing is unquestioned.

These men are ready to serve you. Why not drop in this week?
