

BOY AND HIS DOG His Grandmother Wonders Why When Poisoner Strikes Again

(Contributed)

Never again will we see a little, chubby low-headed boy, accompanied by a big, dignified dog come down the sidewalk on their way to "Granny's".

Every trip "W. E. B." made on foot or tricycle "Corkey" came along, walking by his side on the outside to protect him from harm. They made the trip two or three times each day, "W. E. B." to get his chewing gum and "Corkey" to get her can of dogfood. She had learned Edward brought the food, by the case for his cat and she liked it better than the food fed to her at home.

They were down here one day and his granddaddy asked "W. E. B." whose dog "Corkey" was. "W. E. B." looked up with his big brown eyes and answered, "Why, Pa, she's part yours and part ours", and truly she was, for she spent about half the time at each place.

When she stayed at home at night she slept by the side of Carey O'Keefe's bed to protect the baby from harm. When she decided to spend the night with us she would come to my bedroom door, give her little whine, then rush back to

the kitchen door to be let in, always sure of her welcome. Never again will we hear her sweet, kind voice.

Never again will she settle at Edward's feet, her head on his foot, to watch T. V.

Never again will we feel her big old cold nose nuzzle into our hands or feel her black muzzle resting on our knees for a few minutes, just to show she loved us.

Never again will I see her stretched out by my bed when I'm left alone, always ready to protect me from harm.

After she was poisoned "W. E. B." was down here the next day. He looked up in the sky and saw a cloud up there. He said "Granny, see that up there, that's where my Corkey is." And who knows maybe she is up there for surely God, in His infinite wisdom, has made a place that they can be together again reunited, for to a little boy heaven would not be heaven without his doggie there.

No, never again will we see Corkey for she is gone, but never will be forgotten, for she will live in all our hearts and memories.

Yes, she is gone and there are two very empty homes and a mighty lonesome little boy on South Main St.

County Agent News Letter

The Texas Forest Service has available four Species of trees and is taking orders for them. All of the species, Austrian Pine, Ponderosa pine, Red Cedar, and Chinese elm are adapted to this area. Red Cedar is more adapted to the poor, shallow soils and the other to the fertile, deeper soils.

The orders must be for at least 100 trees of one of the species. The cost is \$3.00 per hundred. All orders must be received before March 1, 1958. Application forms are available at the County Agent's Office along with information about the different species.

Persons who are interested in attending an egg grading school in the county are requested to contact the county agents office. If enough people are interested arrangements can be made to hold one in the county during January or February.

Wheat Fertilizer test conducted by the Amarillo experiment station in three locations show the following results:

This test was conducted by the use of Ammonium Nitrate and Ammonium Sulfate and was top dressed in late February and then irrigated into the soil. The application rates were from 0, 20, 40, 60, 80, 100 pounds of actual nitrogen per acre.

60 pounds of Ammonium Nitrate gave the biggest increase of 28 bushels per acre. The 30 pound rate of both sources of nitrogen gave no significant increase. 90 pounds of ammonium sulfate gave significant increases in yield. The use of high rates above 60 pounds of ammonium nitrate and 90 pounds of ammonium sulfate gave no increase in yield.

All of the wheat was irrigated at least five times.

These results will vary from year to year but do show that top dressing of wheat in February can be a profitable operation.

Pat O'Brien, 4-H club member from the Aiken Community, won the County Hybrid Grain Sorghum Contest with a yield of 6970 pounds per acre.

On June 12, Pat planted 15 pounds of Texas 650 in 20 inch rows. During July 100 pounds of Anhydrous Ammonia (82 pounds of actual nitrogen) was applied as a sidedress. The nilo was watered four times during the summer.

Harvest was completed on November 26 and an accurate yield was determined. Pat is now eligible to compete against other county winners for district and state honors.

Capt John C. Colville son of Mrs. J. D. Colville, was discharged from the Army on October 29, and he and his family are now making their home in Fremont, Nebraska, where he is attending Midland College and will finish work on his Bachelors degree.

Lose To Big Seymour and Ralls Take Foes

They were finally met in the hands of the Ralls in the region Friday night.

They were badly out of the game until after the game.

The fans joined in the game on the cold day around town.

The Lockney and Ralls from the side almost as much as the game in weight.

they were giving away. John Hanst and Dickie Barton were named as two of the outstanding performers on the field.

Seymour plays host to McCamey Saturday at 2:00 p. m. in the quarterfinal round of the playoffs.

Ralls Rolls On

The Ralls Jackrabbits is the only area team still going in football. Last Friday afternoon in Canyon they upset the favored White Deer Bucks 27 - 26 in a story book ball game.

This week they meet Sunday at Lubbock on Friday afternoon at 2:30. This is a quarterfinal game in the class A playoffs.

Ralls simply refused to accept defeat in the White Deer game. Though the Bucks were expecting

to go to state and take the crown they couldn't keep the Rabbits down. White Deer led most all the way, sometimes as much as 13 points. Ralls fought back to snarl the lead shortly before the end of the contest. Then leading by a single point they held the favorites, recovering a fumble at their own 11-yard line to stifle White Deer's final hope.

Then to show it was no fluke they rammed the ball back to the Buck's 27 yard line as the whistle stopped them short on another goalward march.

Matador Takes Another Title

Matador's mighty Matadors walked to another regional title on Turkey day as they devoured the Whiteface Antelopes 33 - 6. The Motley County boys seemed to spend most of the first half grieving because class B football only goes to a regional championship.

As the second half got underway they decided to make the best of the situation and all but swept Whiteface from the field.

Winning has become a habit with Matador which in years gone by played in the same classification as Floydada. Some of those years they were just as tough in this division also.

retailers have a license. Producers selling eggs from their own flocks on an ungraded basis are exempt from licensing provisions.

The deadline for obtaining a license expired on October 20th. The board revealed that "quite a number of handlers — especially retailers" had not applied for the permit.

A part of the penalty set by law calls for fines of not less than \$50 nor more than \$1,000. Those tradersmen who did not obtain their licenses are now in violation of this provision.

The administration and enforcement of the law will be conducted by the Texas Department of Agriculture and its inspectors. Meanwhile, even though the deadline has passed, the Department is still issuing licenses when requested.

Bonnie Upton And Karl Craig Marry In Chapel At WTS

The Joseph A. Hill Memorial Chapel on the campus of West Texas State College at Canyon was the scene Thursday, November 28, at 3 p. m., of the wedding of Miss Bonnie Latreese Upton and Karl King Craig.

Rev. Carlos McLeod, pastor of the Halfway Baptist Church at Halfway, performed the ceremony as the couple stood before baskets of white glads and a satin covered kneeling bench.

Parents of the bride are Mr. and Mrs. Raymond Upton of South Plains, and Mrs. R. V. Craig of Plainview is mother of the groom.

Mrs. Ronnie Upton, sister-in-law of the bride, sang "I Will Walk Beside You," and "Savior, Like A Shepherd Lead Us," was sung as the couple knelt in prayer. Mrs. Upton was accompanied by Larry Horrell of Wayland College.

The bride, given in marriage by her father, wore a wedding gown of an original model of white imported champaign-type lace over net and satin, designed with Sabrina neckline outlined with escalloped lace. The fitted bodice was accented with long sleeves ending in petal points at her hands and terminated with point at the center front waistline. From this stemmed a voluminous waist length skirt made of lace, fully skirted with escalloped edges outlining the bottom. The immense fullness of lace, tulle and satin was emphasized by crinolin worn underneath. Her veil

of silk illusion was joined to a coronet of seed pearls.

The bride carried an orchid over a white Bible with small flowers encircled with streamers.

For something old the bride wore a pair of earrings belonging to the bridegroom's mother, something new was her wedding attire, something borrowed was her bridal veil, which belonged to Mrs. A. C. Pratt, and something blue was her blue garter.

Mrs. Joe Taylor of Lockney was matron of honor. Bridesmaids were Mrs. J. E. Waller and Mrs. A. C. Pratt of Floydada. They wore dresses made of aqua crystalite taffeta styled with a round neckline and three quarter length sleeves. The dresses were accented with cumbertments of aqua crystalite taffeta. They carried bouquets of white nosegays.

Miss Diana Calahan of South Plains, cousin of the bride, was flower girl. She wore a rose colored crystalite taffeta dress with full skirt. Candelighters were Jimmy Ray Upton, brother of the bride, and Katherine Mulder of South Plains. Katherine wore a dress identical to that of the flower girl and each wore wristlets of white carnations.

Ronnie Upton, brother of the bride served as best man and ushers were Neilan Smith and Randy Moore, both of Plainview.

The bride's mother wore a gray suit with pink accessories and the bridegroom's mother wore a brown suit with rose accessories.

Following the wedding ceremony a reception was given in the Baptist Student Center on the campus by the bride's parents. A three-tiered white cake was served from a table covered with lace centered with the bride's and the attendants' bouquets. Appointments were of crystal.

Mrs. Ronnie Upton registered the guests and Miss Sandra Homley and Wynne Lee Young, both of Olton, assisted in hospitalities.

When leaving on the honeymoon trip to New Mexico, the bride wore a brown tweed suit with brown accessories.

Returning from their trip the couple will reside at 906 1/2 Sixth Ave. in Canyon where both are students at WTS.

MRS. KARL KING CRAIG (Bonnie Upton of South Plains)

Stored in the boxes with Christmas trimmings are a host of moods, memories and meanings. Visible only to a few special persons -- or maybe to just one -- these "spirits" emerge in many different ways.

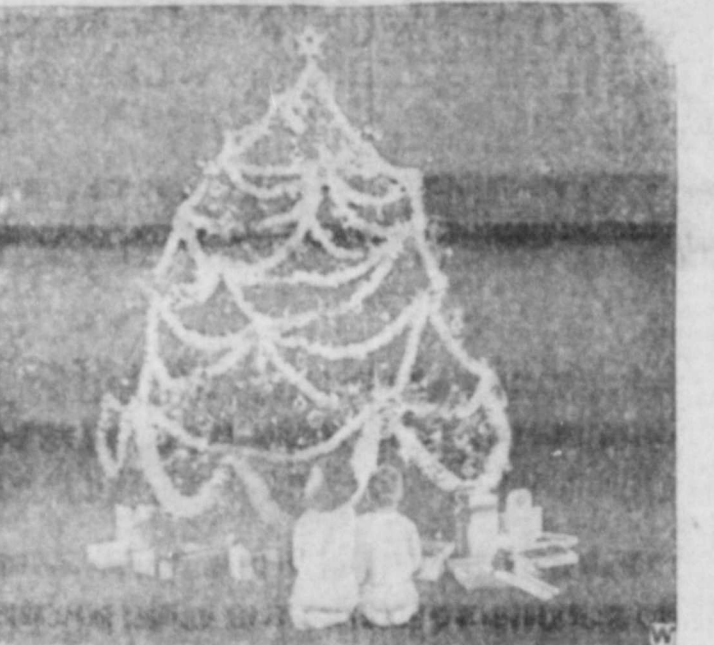

That glittering spike that decks the top of the tree, for instance; there's a tick out of the edge; not enough to make it unusable, or even to show, if it's placed just right. Youngsters now grown weren't quite tall enough to fasten it without standing on tiptoe in a chair, and caused the edge to give way.

The small Santa candles have never been lighted because once upon a time, a 10-year-old couldn't

bear to burn the image of the jolly little man. The gay little "clock-spell" from Holland, given us years ago, that turns and tinkles from the heat of six small red candles, still reflects the shining eyes of three young cousins.

Not all these little Christmas sprites are attached to things. Some of them just nest in the Christmas storage box and come out to hover round the warm house for several weeks. They escape into the kitchen, where a small boy seems to stand on a chair to "help" make gravy; where chattering girls talk "beaus" while they nibble at the fruit cake and clean up dishes after second-table Christmas dinner.

Unhappy meanings and memories? Not at all. Many of them are quite pleasant, many tender; all are sweet. Memories stir the heart, enrich the soul. They place our feet on solid ground. So hurry with those Christmas things! Dust off the bells and bows and bright baubles! ... Holidays are made for living and loving, and maybe for thinking back as well as forward into today.

a wide variety to suit the individual taste, while end tables lend themselves to small artificial Christmas trees with lights that bubble or twinkle merrily. Mantles provide an ideal setting for angel figures, candles, and lights with reflectors set into a background of evergreen branches. (See Fig. 4.) Foyer tables are just right for a "specialty" display, such as illuminated paper poinsettias in a centerpiece basket. Your stair rail, aglow with lights tucked between pine and laurel branches will add still more cheer to your holiday.

Outdoor Decoration Says Merry Christmas To All

The exterior of your home and your grounds offer tremendous decorating opportunities. But practice safety outside as well as inside. Make sure all outside wire is #12 or #14, rubber insulated and heavy duty.

The best source of current for outdoor lighting is a permanent, protected outdoor-type receptacle, or a garage or porch lamp. Even without such an outlet, you can safely reach an indoor receptacle. Merely drill a hole in a board which will fit a convenient window snugly. Close the window on the board and run the outdoor wire in through the hole in the board. The window can be "brace-locked" with a stick. (See Fig. 5.)

Your Doorway and Eaves Lights in outline form around a doorway, outdoor candles and lighted sprays are highly successful main entrance decorations, proved over years of use. Many standing "specialty" units, such as Santas, Snowmen Carols and the like have more recently come into greater use near front doorways.

The eaves of your roof represent an ideal display point for Christmas lighting. The most common difficulty in eave light-

White tapers completed the decoration.

Hot apple cider, nuts, and white cake topped with gold wedding bells were served from crystal appointments, and white napkins, bearing the names "Louise and Shorty," in gold, were used.

HIGH WINDS and waves herald the approach of Hurricane Audrey last June 27 along the Louisiana coastline near Cameron. Before the storm subsided, it had left at least 518 dead, 1,000 injured, and millions of dollars in property damage in one of the severest tests of State and local disaster organizations in the recent history of the nation. BACK FROM DESPAIR

Cameron Rebuilding Better Community on Ruins of Old

Cameron is coming back. The town which felt the brunt of Hurricane Audrey's assault on the southwestern Louisiana coastline last June is rebuilding rapidly after being nearly leveled.

... CAMERON IS COMING back

back through its own efforts. What is one of the nation's first disaster planning commissions has been set up there. It will oversee the rebuilding of most of Cameron within nine months, allocating gifts and other resources as it sees fit.

In time, it should be a better town than it was. In the past, Cameron and its neighboring communities, Crude and Grand Chenier, each had a tiny clinic. Now they will have a new Cameron Memorial Hospital, built with the help of Federal funds, the American Legion, and others.

The Junior Chamber of Commerce will build a public library, which the town has never had. Even 34 college students, whose resources were wiped out by the hurricane, will be able to continue in school through help received from the Louisiana Department of Education.

Mr. Stanley was found dead from natural causes at his home Friday morning. The last person believed to have talked to him before his death was C. H. (Pappy) Wise on Tuesday of last week. Mr. Wise is an attendant at Hatley's Service Station.

Mr. Stanley visited often at night at the station with Mr. Wise and had told him he would be back at the station Tuesday night if he felt like it.

However when he didn't show up nothing was thought of it until a brother in Lubbock became concerned when he failed to show there Thursday for a Thanksgiving family gathering.

Buddy Hatley, proprietor of the station, said that Mr. Stanley's car was gassed, oiled and checked for the prepared trip Tuesday. The car was checked also after his body was found and none of the gas had been used, indicating that he had driven to his home and had not used the car since.

Time of his death was thus placed at Tuesday night at the earliest or possibly Wednesday. Death is believed to have been due to a heart attack. Friends said he had been suffering from slight attacks.

H. C. Stanley of Lubbock, a brother, came to Floydada Friday, after finding out from neighbors that Mr. Stanley had not taken his mail from the box. Accompanied by D. G. Hatley, Sheriff Walter Hollums and Deputy Earl Huckabee, the brother went to the Stanley home, forced the door and found Mr. Stanley in

bed. There was no indication of foul play.

He was a veteran of World War I. At one time recently he worked as night watchman for the REA. At the time of his death, he was unemployed.

Mr. Stanley was born April 5, 1894 at Weatherford and came to Floyd County from Clay County in 1916. He had never married.

Survivors include the brother, H. C. Stanley of Lubbock, two sisters, Mrs. Winnie Mae Dickey and Mrs. Frank Boerner, both of Phoenix, Ariz., and a number of nieces and nephews.

School Tragedy

(Continued from Page One)

The high school building. The same mixture had been mixed in a bowl previously and had burned slowly, members of the class said. The rocket experiment had not been made before.

Some of the injured were taken to the hospitals in private cars and a Harmon ambulance also hauled some of the injured to the hospitals.

The science teacher lighted the fuse and was bending over it when the explosion occurred.

His leg was broken and a post-mortem examination indicated rather serious wounds in the lower part of his body and a wound in the chest. Part of his clothing was tattered by the blast.

Weldon Kirk, one of the members of the class, said he went to Mr. Foster's side and asked him if he was all right. His teacher shook his head negatively but did not speak.

The surviving family include his wife, the former Effie Griffin, three daughters, Helen, 14, Linda, 11, Sue, 9, and one son, Ray, five months.

Other survivors are his mother, Mrs. Carl Smith of Floydada, and Clarence Foster, also of Floydada. Garland was a native son of Floyd County.

A brother is Bruce Foster of Houston and a sister is Mrs. H. S. Calahan Jr. of South Plains. After completing his college training Mr. Foster taught at Crowell and later spent a part of the war and postwar years at White Sands Proving Grounds as a civilian employee of the Air Force.

He returned to Floydada nine years ago to teach in the school system. He had classes in chemistry, biology and physics and was one of the sponsors of the freshman class.

During all of his residence here he has been a member of the First Baptist Church and has been a leading lay worker in the church.

As late as 7 o'clock last night doctors at Peoples Hospital were still probing for shrapnel of steel in the legs and bodies of youngsters who were not so seriously hurt. The wounds resembled shrapnel wounds.

One or two of the injured were found to have splinters of steel imbedded against bones.

Their hospital work was being carried on under the flashing lights of TV reporters who swarmed the halls of the hospital from late in the afternoon. Radio reporters from a wide area also converged on the hospital as the word spread of the bizarre accident.

Traffic congestion on the streets adjacent to Peoples Hospital was so bad that traffic snarls developed.

said he feels sure the people of Floyd County realize the value of these organizations to the county, and most everyone knows of their fine work both here and at other places. A big part of this money is spent right here at home while some goes to research and to national emergencies.

Drive workers are set to move swiftly starting Monday, December 16. They plan to do the job in just six short days winding up by the 21st. All are asked to keep this date in mind and be ready when called on.

Those planning to be gone or who fear they will be out of pocket are asked to leave their contribution at the bank here or at Lockney, earmarked for the United Fund.

Scarey Fire Does No Great Damage

Firemen were called to the V. D. Turner place Monday morning when a heater in the warehouse exploded and caused considerable damage.

The place was being cleaned up and a driver, S. D. Medley, was pulling the gasoline stove across the floor, when it exploded, Pastboard caught fire and also boxes that were holding cases of oil. The ceiling was damaged from the blast before it was brought under control.

Medley and another driver, Andy McDowell, emptied three fire extinguishers and had the fire out as the firemen arrived.

Two of Turner's trucks were in the warehouse at the time but were driven out when the fire started. No one was hurt in the explosion.

TEMPERATURE READINGS

Weather temperatures since last Wednesday's reading have averaged about normal for this time of the year. No hard freezes have occurred since the 2-6-degree reading Saturday two years ago.

Day time readings have been in the lower 60's and night time readings have averaged from 27 to 35 degrees.

Weathermen are predicting a drop in the readings for the weekend but no moisture is indicated.

Lakeview News

(By Mrs. Verlon Wright)

(Greatly abbreviated in office for lack of space)

Mr. and Mrs. A. M. Battey and Mr. and Mrs. Charlie Battey visited A. T. Pratt in the Crosbyton Hospital Monday.

There was an air of excitement about the 48th Wedding Anniversary of Mr. and Mrs. A. M. Battey and Mr. and Mrs. W. C. Wright which they celebrated Thursday, along with Thanksgiving. Mr. and Mrs. Battey were dinner guests of their daughter, Mrs. Orville Newberry and family in Floydada, while Mr. and Mrs. Wright had dinner with their son, Verlon Wright and family. Congratulations, and may the Good Lord give you many more.

Mr. and Mrs. B. L. Breed and Mrs. D. H. Widener attended the Golden Anniversary Celebration of Mrs. Wadener's brother and sister-in-law, Mr. and Mrs. B. D. Brown in Clarendon Sunday.

Mrs. J. T. Dotson, Debbie and Donnie arrived early Sunday morning for a ten day visit with her sister, Mrs. Earl Edwards Jr. and family. Captain Dotson and son Jay are visiting in Liano with Mr. and Mrs. W. J. Williams and are going deer hunting.

Mr. and Mrs. Earl Edwards Jr. and children and Mr. and Mrs. Frank Fite and Dan of Abilene were dinner guests of their parents, Mr. and Mrs. W. Earl Edwards on Thanksgiving day.

Mrs. Howard G. Bishop and Mike were dinner guests of Mr. and Mrs. Sid Brown of the Cedar Hill community on Thanksgiving day.

Earl Bishop enjoyed lunch with his son and daughter-in-law on Thursday and Friday of last week while he was working on the play room of the Lakeview school. I heard that the room was painted a very pretty color, but when we went in to inspect it on Thanks-

giving night, we were disappointed because there were no lights in the room. I hope this will be taken care of too. Personally I think the play room is a wonderful idea, and has been needed for a long time.

Was I the only one who noticed how much quieter than usual the children were at the supper Thursday night? There were games of table tennis, and a building set that really fascinated the small fry. I'm afraid that Mr. and Mrs. Richardson's class rooms were topsy turvy afterwards, but that will be finished along with the play room.

Mr. and Mrs. George Sparks of Floydada visited Sunday with Mr. and Mrs. W. Earl Edwards.

Mr. and Mrs. Joe Max Harrison, Mr. and Mrs. Don Harrison, Mrs. Milton Harrison and children, Mr. and Mrs. Travis Dunn and Jean of Plainview, Mrs. Weldon Jones of Lockney, Roy Smith of Morton, Mrs. T. W. Fleniken and Sue were Sunday dinner guests of Mrs. R. C. Smith.

Mrs. W. H. Bunch spent last week with her daughter, Mrs. James Finley and family in Big Spring. Joy hasn't been feeling well.

A. 3-C Darrell Bunch visited his parents Mr. and Mrs. W. H. Bunch during the Thanksgiving holidays.

Everyone on Lakeview is working, and if the weather permits one to work, its news. We have all our maize harvested. Several people in the community are running their strippers. If I didn't call you this week for your news its because I had to haul maize. Verlon told me to have the truck in the field in an hour so...

Joe Bunch of Tatum visited Wednesday night with Mr. and Mrs. Verlon Wright and family.

Thursday, Joe Bunch, Betty, Leon and Charlotte Wright had dinner with Mr. and Mrs. Earl Bunch in Pampa. They returned Friday, J. M. Bunch of Floydada and Joe Verlon Wrights Friday.

Joe Bunch returned to Tatum Saturday.

Problem of No Demonstration Agent To Be Discussed

Members of the Home Demonstration Council and any others interested will meet with Commissioner's Court Monday morning, December 9 in an effort to obtain a Home Demonstration agent for Floyd County.

The Clubs have been without an agent since the resignation of Mrs. Harriette J. Brummett.

IEWS AND COMMENT

Problem that has had people of the plains in a tizzy for two weeks has been to find ways to pick up maize that has fallen in the fields. More than one ingenious device has been developed and remarkable success obtained. "Finger" attachments set in front of the cutting sickle have been in such demand that machine shop operators have had a clamor of customers offering bonuses for immediate delivery. If it isn't one thing it is another on the farm. Every new mechanical process devised adds more expense to the operation, of course.

Home accidents, this year will kill over 27,000 Americans and injure more than four million more. How can you protect your family? Since fire is the top cause of home accident deaths in most age groups, begin by getting rid of fire hazards. Matches and smoking cause over 25 per cent of all fires, so always remember these safety rules. Keep plenty of ash trays on hand, and use them! Never toss a lighted match away. Blow it out, hold it a minute, then put it in an ash-tray. Before emptying ashtrays, be sure their contents are cool. Use a flashlight instead of a match to light your way into a dark closet. Before going to bed, check to see that no cigarettes or cigars are smoldering on rugs or furniture. And of course, never smoke in bed! A minute for safety today may add years to your family's future.

Belaboring the Supreme Court for its numerous departure from normal functions to become, in effect, lawmakers, may not be expected to die down any time soon. The fact is that the "south" is going to be joined by north, east and west, more and more as time goes on. When more people realize that the high court is law-making — and that at the justice of the peace level — there'll be more wide-spread clamor for sense and reason in high places. Antics of boards and commissions, representing the executive department, as a result of at least four of the flats of the high court, as well as those of the chief executive himself, are having a sobering effect on the citizenship. Many are fighting mad.

Did Spudnick I drop in the southwest ocean or is it still revolving around the world? Some scientists say yes, others no. Regardless of the answer to this one, we have begun a new era in world affairs, comparable probably to the invention of the wheel, the discovery of America, and the splitting of the atom.

One need that all farm organizations are agreed upon is more farm-to-market roads. And most of them think that priorities should not be given altogether on farm population. School bus routes and mail routes as well as the number of farm homes to be served, should have consideration. All the farm people are aroused over the suggestion that has been made to change allocations for road building so as to concentrate on highly traveled roads.

An impossible accomplishment of another era—giving electric service to widely-separated homes—has been made a reality, which leads farm people to think that all-weather roads also can be had. The month of November was a cruel reminder of what dirt roads can do to people.

TAX MAN SAM SEZ:

There are more people who are getting banged up in car wrecks than you read about in the newspapers. The orthopedic (bone) doctors and physical therapy clinics have hands full with people who have snapped their necks and banged their backs as well as those who have to be wired and plastered together. The sick pay exclusion provisions in the income tax law are especially kind to salaried people who are excused to go for treatment because of an injury. If you had any extended sick spell and/or injury lost time and your company paid you your regular wages during the year, you ought to read the instructions carefully.

Department of Labor investigators have been trying to trap Hall County farmers, probably others as well, in violations of the Child Labor Act. Mexican families, hard pressed because of the idleness incident to bad weather, are claimed to have put youngsters into the fields in violation of the law. Farmers who employ such laborers are being held responsible. The department is adamant. The investigators say close the schools if you want to permit children under 16 to work in the cotton fields. The matter of urgent need for food and clothing for the farmer and the Mexican parents is beside the question. There will be no exceptions, says the department dogmatically and there will be prosecutions. In a few days, however, this phase will pass. The machine stripper is going to put both the Mexican parent and his little boy out of a job, so far as gathering a cotton crop is concerned.

The grand total of the bill for traffic mayhem in America for the year of 1957 with the first nine months figures totaled and the percentages projected through December, comes to a staggering seven and a quarter billion dollars. Property damage, automobile repair, legal and medical fees, insurance expense and loss of income through absence from work, are included in the figures made. Can you imagine 11,700,000 accidents in one year on the highways? The deaths number 38,000. Your part of the bill for each member of your family is more than \$42, which does not include all the money you paid out for insurance required by law or demanded by common sense.

Reuther For President? He wants to be and he can be, if the cards fall right. He has talent, energy, brains, organization. Politics he sees as the nation's most important business. He has developed unionism into a mighty political instrument. Texas has been a hard nut for unionism to crack. Mr. Reuther and his cohorts only wait the chance to elect their governor and their legislature in this state when they will have a big part of the national battle behind them.

Keeping In Step. Have you heard about the "new style" for ending news stories adopted by newspapers? The new mark is "40" taking the place of the old-fashioned "30." This keeps the newspaper in step with other figures which have been increasing steadily.

Success is the ability to make more money to meet obligations you wouldn't have if you didn't have so much money.

As A Farm Woman Thinks

(Nellie Witt Spikes)

Woodrow Wilson so aptly said that "memory is the diary that we carry about with us." And as I sit around the house, going around in a wheel chair and with a walker, it has been a fine time to remember.

As I see the heavy clouds with their rain and drizzle and snow, I can feel just how the farmers feel with their crops still in the field for I have been there myself. I have felt the same fears and frustrations as we went about the necessary duties of caring for the stock on the farm, as the rain and drizzle and some years, snow fell and made gathering the year's harvest an impossibility.

One year we did not have very much rain to make a crop, but the fifteenth of August we got a good spaker. The maize and sorghum suckered out and made fairly good grain. The autumn rains began slowly falling, the cane was ready, but it was too wet for the binders to run. Mr. Spikes decided we would get it with knives and hoes, so in the warm gently falling rain we went to the fields.

Keeping the children out of school that Friday almost for the first time, we started down the long rows, some of us with hoes, but Mr. Spikes attached a sharp butcher knife on the end of a long stick for him. We held the dripping stalk, cut it off, another and another until our arms were full, then we placed it in a neat pile. On and on we slipped and bogged, but we thought of the cows and horses that needed the feed to get through the winter. Our heavy coats made us too warm but we had to have protection from the drizzling rain.

On Saturday we went back, hiring Hudson Lincoln to help. Then on

Sunday morning we thought just had to get back and save what we could. At noon I went to the house and prepared a good warm dinner and after we had eaten I up and told my husband we were just simply not going back to take any more, so he did not go either.

After that the sun came and the winds dried the fields and the binder cut more feed in an hour than we had all done for days.

So we have hardships, but overcoming them helps make us strong, we are told. Well the farmers should be a strong hardy bunch after this year. Sometimes we would all like to go where the poet writes about: Knowest thou the land where the lemon trees bloom, Where the gold orange glows in the deep thicket's gloom, Where a wind, ever soft from the blue heavens blows, And the groves are laurel and myrtle and rose?

Mrs. W. P. Lamar and her daughter, Marie, have done such a wonderful thing for our beloved Crosby County and for that matter the entire country. A museum will be built in Crosbyton and the front will be an exact replica of the Old Rock House, as first built, the home of Uncle and Aunt Hank Smith as they were lovingly called. There will be a room to seat five hundred people and many other conveniences for holding large crowds as well as small. It will be good to see the old relics of Crosby County come home to find a place in which to stay.

Many years Zina Lamar has made her home in Crosby County, and the love she has for it and her friends is evidenced by this gift to us now and to our posterity.

Thanks seem so inadequate, we must show our appreciation in helping make the museum a place of interest and a lasting memorial to the pioneers.

The poem sent me by Mrs. Lillie Rippey who was a Ragle, would be a fine one to frame and hang on the walls of the museum.

Pioneer Woman
Without her gentle touch this land would still be wilderness, Without her courage and her faith, The vision that could bless The darkest night with rays of hope, The will to carry on, The men who came to homestead here Could not have faced each dawn. She worked beside her man and gave

Her strength and love To build a home when toil And loneliness and pain Had bowed her head, Winds blew A pitiless refrain. She must have dreamed To take her place with the men who came to homestead here. Thank you, Lillie, And the beautiful message.

Claimants Must Furnish Proofs For SS Claims

Many persons who are filing claims for social security benefits are overlooking the requirement that certain proofs must be submitted before their claims can be certified for payment, according to John G. Hutton, manager of the Lubbock social security office.

Hutton said that failure to present the necessary proofs at the time the claim is filed causes the claimant to have to make one or more additional trips to the social security office. As a result of these extra trips, people have to wait longer to be interviewed. The processing of claims is slowed up and claimants have to wait longer before they receive their first monthly check.

Hutton explained that in most cases the claimant must submit proof of his date of birth. He said that the best proof is a birth certificate established at the time of birth but if one is not available, other proofs, such as a baptismal certificate or a family Bible or an old life insurance policy are generally acceptable.

He added that farmers should not overlook bringing along copies of their 1955 and 1956 Federal Income Tax returns and evidence to show the returns were actually filed with the District Director of Internal Revenue. Such evidence may be a cancelled check, money order stub, or a cashier's check receipt.

A representative of the Lubbock Social Security Office will be in Floydada on Dec. 9, at 9:30 a. m. at the Courthouse, room 106 and will be glad to assist in all matters pertaining to Social Security.
