38 Attend Basic Adult Class Here

Thirty - eight persons are enrolled in the Basic Adult Education program here and indications were that the full quota of 60 would be filled soon.

So far, there have been two meetings of the classes, one to organize on Sept. 14, and the first instruction meeting on Tuesday of this week.

Of the present enrollment about one third are in the advanced group (7th and 8th grade level). There are 12 in the intermediate group of grades 4 to 6 and 10 in the basic group of grades 1 through 3.

Classes meet from 7 p.m. to 9 p.m. on Tuesdays and Thursdays. All materials are furnished by the Texas Education Agency.

At present there are no classes here for those who have finished the 8th grade.

However, main purpose of the current program is to accommodate those who have not advanced to the high school level.

J. M. Kayser, coordinating teacher, said that person who might wish to enroll should report to Travis Junior High School at 7 p.m. on Tuesday and Thursday.

LAW PANEL — These law enforcement officers and attorneys comprise a panel that appeared on a program for the Kiwanis Club. They are, from left to right, front row, George Killam, county attorney; Keith Collier, county sheriff; and Wayland Holt, district attorney; and, top row, Stephen Clark, Chief of Police; and, M. L. Broman, Mayor of Snyder.

Divers Find Treasure Of Gold, Silver

LONDON (AP) — Divers have found a sunken blanket of gold and silver coins believed to be part of a $2.8-million treasure that disappeared into the Atlantic's grayness with three ships of Admiral Sir Clowdisley Shovell's Mediterranean fleet in 1707.

Fortune-hunters had been searching for it ever since.

A private expedition, supported by a Royal Navy unit, hauled up 1,500 gold and silver guineas, crowns and pieces of eight Wednesday from about 100 feet of water off the Scilly Islands, some 25 miles from England's extreme southwestern tip.

"This is only a fraction of what is down there," a diver said.

The first coins discovered were English, French and Portuguese, none carrying a date later than 1707.

Diver Geoffrey Upton, 34, told of finding the treasure: "It was a very dark and uninviting hole. The only way to get through it was to take off my breathing set, push it through first and swim after it. It led to a deeper gully and suddenly I saw a carpet of silver coins stretching in front of me."

The hunt centered on the area where Shovell's flagship, The Association, and her sister ships, The Eagle and The Romney, dashed against rocks and sank.

Some naval historians have estimated the fleet carried bullion chests and plate worth a million pounds—$2.8 million—or more.

Shovell's fleet was lost on its voyage home from a successful naval engagement with France off the coast of Spain.

Support Of Law, Order Is Boosted

Expert opinion from members of a panel that included local law enforcement officials and attorneys concerning riots and legal methods of control was given at a meeting of the Snyder Kiwanis Club, held Wednesday noon in Sallie's Cafeteria.

Members of the panel included Mayor M. L. Broman, County Attorney George Killam, Sheriff Keith Collier, Chief of Police Stephen Clark and District Attorney Wayland Holt.

The meeting was called by the local club in response to a suggestion from Kiwanis International that the various Clubs in the civic organization become involved in a major program called "Operation Law and Order."

The purpose of the meeting was to acquaint Kiwanians and members of the public with the need for support of the law and for the encouragement of respect for law enforcement officials.

All members of the panel expressed confidence that there will not be any riots here similar to ones that have caused destruction and that have resulted in looting in other parts of the country, principally in the north.

Despite this confidence, various panel members pointed out that plans have been made for prompt action should a riot occur here. In this connection, Chief of Police Stephen Clark told Kiwanians that a volunteer force of 42 citizens would aid local law enforcement officers in quelling a riot should one occur locally. This citizen force later may be increased to 75. Utimately, it could include citizens representative of all ethnic groups. The motivating force would be a common desire to see peace preserved in the community.

Chief Clark decried what he called "a growing disrespect for law," and Holt, the district attorney, stated that officers should use whatever force is necessary to prevent looting, robbery and other felony offenses in the event of a riot.

Panel members spoke of the close cooperation now existing between local law enforcement agencies and pledged continued cooperation in the future.

Discussing specific causes for present troubles across the country, Mayor Broman stated the opinion that "a lot of the trouble is the fault of parents' who do not realize that children need and want proper discipline.

Killam observed that some people are not restrained from wrongful actions through fear of punishment. He called these persons "sociopaths," and declared that law must be enforced as well as the civil rights of the public. The termination of "incessant appeals" from convicted criminals would provide a smoother operating court system in this country, he said.

The suggestion for the meeting stemmed from a meeting of the International Board of Trustees of Kiwanis International, held recently in Chicago to discuss "recent outbreaks of serious civil disorders." Following that meeting, the International Board passed a "Resolution on Civil Disorders" and sent copies of it to President Johnson, all members of Congress and other government officials in Washington.

The resolution calls for " . . . those in positions of leadership in government (to) take whatever steps (are) necessary to bring riots to an immediate end. Further, it urges all Kiwanis Clubs in the country to "increase their efforts in support of law and order in their local communities and in their activities that will help alleviate the causes of unrest."

Moreover, the resolution called attention to what it termed "a lack of decisive action, in most instances, in preventing and stopping civil disorders."

Special guests included City Manager L. A. Patterson, H. F. Clark, Rex Robinson, Jack Gorman, Larry Smith, and D'Waine Jernigan, all of Snyder, Don Maddox of Bryan, and C. K. Tate of Vega.

Don Adams, club president, recognized Hubert Cargile of the West Texas State Bank, Rex Robinson of the Snyder National Bank, and Henry Clark of the Texas Electric Co. for their contributions to the Kiwanis project to provide trash receptacles in the downtown area as part of the City improvement project. A check for $200 was presented to the city manager.

Adams also recognized other contributors to the project — Forrest Lumber Co., Rebekah Lodge Post 29, and the Snyder Savings and Loan Association.

He announced that a Court of Honor for the Boy Scout troop sponsored by Kiwanians will be held at 7:30 p.m. Monday at East Elementary School.

RECEIVES CHECK — L. A. McClanahan (left) presents a $200 check to City Manager George Patterson on behalf of the Snyder Kiwanis Club. Several local firms contributed to the Kiwanis project to raise money for trash receptacles to be placed in the downtown area as part of the Improvement Project.

Troops Occupy New Capital City

By ARNOLD ZEITLIN

LAGOS, Nigeria (AP) — Nigerian federal troops occupied today the capital of the Republic of Benin, a day-old, self-proclaimed nation that rebelled Wednesday to fight the Lagos government alongside breakaway Biafra.

Lagos forces, greeted by crowds waving palm fronds, entered Benin City and seized a main square, a British government report from the scene said. Firing was heard east of the capital area.

The federal government's advance came only 12 hours after Benin's declaration of independence and was regarded as a major victory in its 10-week old civil war with Biafra, the rebellious Eastern state, and the Midwest.

Biafrans took the Midwest region in August and installed Maj. Albert O. Okonkwo, a U.S.-trained physician married to an American, as administrator. Okonkwo issued Benin's independence statement, then disappeared from sight Wednesday.

Okonkwo had earlier accused the military government of Maj. Gen. Yakubu Gowon in Lagos of trying to "impose an unacceptable type of government on our people."

But George Bell, British high commissioner in Benin, reported that crowds cheered the federal contingent as it reached King's Squar in the heart of the city. No British or foreign nationals were hurt, he said.

Friction among the nation's major tribal groups lay at the bottom of the Biafra and Benin rebellions. Thousands of Ibo tribesmen living in the Hausa-controlled North were slain in months of upheavals last year and Ibo leaders in the East—the Biafran region—charged unfair treatment by Lagos. The Midwest has 500,000 Ibos.

Israeli, Egyptian Dueling Continues

TEL AVIV (AP) — Israeli and Egyptian tank and artillery units battled across the Suez Canal for the second straight day today and four Israelis were killed and six wounded in the fighting, an army spokesman said.

The skirmish at El Qantara in the canal's northern sector brought the heaviest Israeli casualties since a fierce cross-canal exchange July 14 that left 7 Israelis dead and 22 wounded.

The Egyptians scored a direct hit on an Israeli bunker, injuring several soldiers, the spokesman said. Israeli gunners claimed strikes on two Egyptian tanks, but it was not known if they were destroyed.

The battle began at 7:55 a.m. local time when the Egyptians opened up with small arms and machine guns, gradually intensifying their barrage to recoilless rifles, tanks and heavy artillery, the spokesman said.

Israelis returned the fire. U.N. observers requested a cease-fire and the Israelis agreed to it about an hour after the firing began. But a few minutes later, the army spokesman said, Egyptians began firing again with light arms and the Israelis shot back.

Israeli forces claimed Wednesday they sank three Egyptian motor boats in two separate incidents at Port Taufig at the southern end of the canal.

They charged that Egyptians sent boats with armed troops into canal water thereby breaking the U.N.-sponsored agreement whereby both Israel and Egypt promised to refrain from boats in the canal.

Goldberg Asks For Hanoi Commitment

UNITED NATIONS, N.Y. (AP) — Ambassador Arthur J. Goldberg today asked North Vietnam for a definite and specific statement as to whether a halt of U.S. bombing would lead to meaningful negotiations without advantage to either side.

In a major policy speech before the 122-nation U.N. General Assembly, the chief U.S. delegate reaffirmed that the United States favors peace talks and is willing to negotiate at Geneva or elsewhere.

He appealed to all U.N. members collectively and individually to aid in the search for peace. He also reaffirmed the U.S. belife that the United Nations has responsibilities under its charter to take a hand in the Vietnam problem.

Goldberg noted that Hanoi has indicated a cessation of the bombing "could" lead to negotiations but he said that Hanoi has not made a definite commitment nor has any of its allies "conveyed to us any authoritative message from Hanoi that there would in fact be negotiations if the bombing were stopped."

"We have sought such a message directly from Hanoi without success," he said. "On its part, the United States would be glad to consider and discuss any proposal that would lead promptly to productive discussions that might bring peace to the area."

He then asked:

"Does North Vietnam conceive that the cessation of bombing would or should lead to any other results than meaningful negotiations or discussions under circumstances which would not disadvantage either side?"

Goldberg dealt with a wide range of world problems, including the Middle East, but his main stress was on Vietnam.

He asked North Vietnam's allies, presumably including the Soviet Union, "what would they do or refrain from doing, and how would then then use their influence and power" to bring peace if the United States halted the bombing of North Vietnam.

"Constructive answers to these questions would aid in the search for peace," he said.

HUGE DAMAGES

Beulah May Outdo Carla

AUSTIN (AP) — State Civil Defense Director C. O. Layne said today that based on fragmentary reports, Hurricane Beulah "may have caused more damage in Texas than Hurricane Carla."

Layne emphasized, however, that this was only early speculation.

A Civil Defense publication estimated that Hurricane Carla in 1961, one of the worst storms ever to strike the Gulf Coast, caused damage "possibly as high as half a billion dollars."

Layne's remarks were in an interview at the subterranean state emergency operating center.

Dangerous flooding and the menace of spin-off tornadoes continued to plague a vast area of southern Texas as faltering Hurricane Beulah crowled farther inland today.

The storm's winds, once estimated at 160 miles an hour, dropped below minimum hurricane force—75 m.p.h.—early today.

Beulah's main track measured some 160 miles inland from Brownsville, where she raged ashore early Wednesday. She veered ever more westward.

The half-billion-dollar damage estimate was advanced by officials from the regional Denton Federal Center. George Hastings, regional director of the Office of Emergency Planning, said he would begin a detailed damage assessment today.

Hurricane-triggered rains of more than a foot brought many streams above flood stage.

Reports of damage from surging floodwaters and tornadoes indicated no let-up of havoc and destruction in the wake of the massive storm.

The Red Cross said 84,877 persons slept in 295 shelters Wednesday night. Civil defense and Red Cross workers said they fed 90,322 persons this morning.

Evacuation of low areas at inland points such as Cuero and Victoria began as heavy rains continued.

Observers said many places which sustained wind and tide damage Wednesday were suffering even worse today from flooding. The Guadalupe River was 6 feet above flood stage at Victoria.

A morning twister destroyed 15 houses and damaged 35 others in the Fulton Beach area near Rockport, the Aransas County Sheriff's office said.

The eye of the hurricane passed over some of the world's richest cattle country, including the King and Armstrong ranches between Raymondville and Kingsville, south of Corpus Christi.

Tobie Armstrong of the Armstrong Ranch said today that hurricane winds lashed the spread for 17 hours Wednesday but that damage to buildings and cattle was expected to be light. Large mesquite trees by the score were toppled he added.

Eld. Norris Rites Pend

Funeral arrangements were pending this morning at Bolger Funeral Home here for Eld. H. Norris, 79, veteran Negro minister who was well-known over this area.

Eld. Norris died at 6 a.m. Wednesday in the McKnight Sanatorium at Carlsbad, Tex.

A native of Wharton County, he was married on Easter Sunday, 1906, at Belton to Lillie Griffith, who has been known here for many years as Mother Norris. They moved to Scurry County 38 years ago and in 1934 they organized the Church of God In Christ which they have served continuously as ministers. Their home is at 3409 Avenue H.

Other survivors include a daughter, Mrs. Jessie Lee Westbrook of Los Angeles, Calif.; a brother, George Washington Norris of Eagle Lake; five grandchildren and eight great-grandchildren.

UNITED FUND AGENCY

Red Cross Aids Many In County

The American Red Cross often has been called "The Friend at Home and Away," and the expressions still is appropriate.

The organization gives aid and assistance to servicemen and their families. The servicemen are instructed when they enter the service to tell their families to call Red Cross at any time they need assistance of any kind.

The local Red Cross Chapter makes emergency calls when there is an illness or death, or any other type of serious problem in a serviceman's family. The calls are made to "Amcross" in Washington and the National Red Cross takes care of the calls necessary to get a message to the serviceman involved and back to the local chapter. The Scurry County Red Cross Chapter usually spends about $250 per year for this service alone.

Moreover, the local chapter assists a serviceman or woman in getting back to their bases when assistance is needed and the chapter may stand the total expense.

The local chapter also gives assistance to families of servicemen and women whenever the need arises. The Red Cross gets health and welfare reports for families that have servicemen in Vietnam as well as anywhere else in the world.

In all, the Scurry County Red Cross Chapter averages assisting in some way approximately 400 servicemen and their families per year.

Another type of service was demonstrated here last June when floods caused damage in Snyder and Scurry County. Food, clothing and other assistance were made available for families who were unable to help themselves.

The American Red Cross is a participating agency in the Scurry County United Fund. It's budget this year is $4,908 for the Scurry County Chapter.

UNITED FUND WORKERS — Workers busy with plans to launch the annual United Fund drive are, from left to right, Gene Merrifield, Doug McGlaun (seated), Alfred Kohl, Roy Meador, Kay Hollis and Sherry Haile. The annual campaign to raise funds to support six agencies will begin next Tuesday.

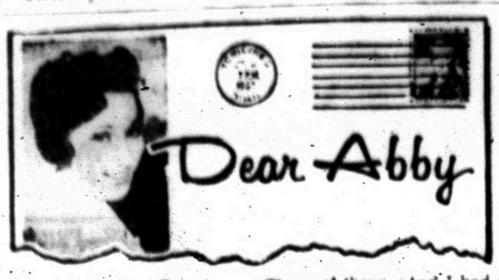

WEATHER

SNYDER TEMPERATURES: High Wednesday, 83 degrees; low, 63 degrees; reading at 7 a.m. today, 65 degrees; precipitation, trace.

North Central Texas: Mostly cloudy occasional showers and thunderstorms this afternoon and tonight. Considerable cloudiness and mild scattered showers and thundershowers Friday. Low tonight 68 to 75. Highs Friday 78 to 88.

Northwest Texas: Partly cloudy in Panhandle considerable cloudiness scattered showers and thunderstorms central and south portions this afternoon tonight and Friday. No important temperature changes. Lows tonight 55 north to 72 south. Highs Friday 77 to 88.

Southwest Texas: East of the Pecos See latest advisory Beulah. Mostly cloudy this afternoon tonight and Friday with occasional rain scattered showers and a few thundershowers except partly cloudy with widely scattered thundershowers extreme northwest portion. Locally heavy showers south portion through Friday. No important temperature changes. Lowest tonight 68 to 74. Highest Friday 78 to 88.

By Abigail Van Buren

DEAR ABBY: I am engaged to a guy who can't seem to make up his mind whether he wants to get married.

We have had FOUR blood tests (you can't get married in this state without one) and every time we go to get married he changes his mind and we put it off. I am 22 and he is 21, but I don't think he's ready to settle down yet.

We both work, so money isn't the problem.

We have gone together off and on since high school, so we know each other pretty well. He says he loves me and I know I love him. Have you any advice for me?

NEEDING ADVICE

DEAR NEEDING: Yes. Give your blood to the Red Cross and find another guy. He's not ready.

• • •

DEAR ABBY: Not long ago I wrote you a letter, telling about my miserable homelife. I said my mother was a tramp and my father would get drunk and beat me for no reason at all. Then I told you that I turned to my boy friend for the love I needed and he got me pregnant, and I was considering suicide. I gave you my name and address begging you to hurry your answer.

Well, I just received the most wonderful letter from you, Abby. You gave me some good advice, with hope and encouragement for the future. And you sent me the name of a home for unwed mothers nearby where I could go for help. Then you closed with "Good luck, Dear, and God bless you."

Well, Abby, my letter was a bunch of made up lies. I have a good homelife and I don't even have a steady boy friend and I surely am not pregnant.

I feel so sorry for what I did. Please forgive me. I promise never to do a thing like that again.

ASHAMED

DEAR ASHAMED: I can usually spot a phony letter, but when a girl is "in trouble" I take no chances and answer accordingly. (Some of the wildest situations are "real."). You're forgiven, but if you have the urge to do any more "creative writing," please spare me.

• • •

DEAR ABBY: Everywhere you turn you hear about sex, which is the most overrated thing in the world, if you ask me.

I have been married for 24 years with practically no sex. He doesn't bother me and I don't bother him.

I was considered quite a doll in my day, and I haven't changed much. Blonde, 5 ft. 5, weight 115. Yes, we have children. Three of them. (And I had a job talking my husband into it.) I have a full length mink coat, a leopard jacket and a mink stole.

My husband is a professional man, well liked and handsome. Looks sexy, but looks can fool you.

I play a good game of bridge and consistently break 90 in golf. I keep busy, and enjoy life and if I'm neurotic, frustrated or heading for a nervous breakfown I haven't seen any signs of it yet. Nobody knows what I'm missing but me.

SATISFIED

DISMISSALS: Caterino Vasquez, Jesse Vaughan, Wilma Smith, Robert Barbee, James Taylor.

Pan American Operating Normally

WASHINGTON (AP) — Pan American World Airways was operating normally today following a brief walkout by several thousand workers.

After a strike Wednesday of about 12 hours, the 7,000 Pan Am workers were recalled to work by the AFL-CIO Brotherhood of Railway and Airlines Clerks at the request of the National Mediation Board.

The strike ostensibly involved a wage dispute but an underlying issue was a representation dispute, still to be settled, between the clerks union and the Teamsters Union.

Ambush Is Staged In Truck Strike

PITTSBURGH AP)—Men lying in ambush shot at eight trucks in Ohio and pitched rocks at two in Pennsylvania today, stepping up a campaign to block steel hauling in eight states.

Charles Bails, 31, of Washington, Pa., said he saw flashes in the early morning darkness along U.S. 30 north of East Liverpool, Ohio. Bullets flattened the tires on the truck in front of him and skipped by his truck.

Five other trucks were hit in Ohio, but no dirvers were hurt.

A trucker on the Pennsylvania Turnpike said he fired a few shotgun blasts at men who dropped rocks on his trucks.

And as the month-old strike by 10,000 independent steel truckers heated up, the steel furnaces grew cold.

Republic Steel Corp of Cleveland shut down one furnace on Wednesday and prepared to shut down four more and a slab mill.

By the end of the week, the nation's third largest steelmaker will have idled 2,500 of its 7,000 employes. U.S. Steel Corp. has furloughed 700 men at its massive Irvin works. Other steel makers in Ohio and West Virginia have cut back production and laid off workers.

Millions in Michigan, Illinois, New York, Kentucky and Indiana are having trouble shipping steel.

Teamsters Union officials met with the dissident truckers in Chicago to hear their demands for six per cent more of shipping cost and pay for waiting to get loaded at mills.

Two Vehicles Are In Mishap Here

Minor damage resulted from a two-vehicle accident at Avenue E and the East Highway at 10:17 a.m. Wednesday.

Involved was a 1967 Model Elgin street sweeper operated by E. V. Wiley and a 1963 Model Plymouth driven by George Vestal Rogers, 104 Milburn. Damage to Rogers' car was placed at $75, and damage to the sweeper, owned by the City of Snyder, was negligible.

Police Patrolman Kirt Reed investigated the mishap.

B52s, Marines Hunt Red Guns

By GEORGE ESPER

SAIGON (AP) — Continued North Vietnamese shellings across South Vietnam's northern border killed six more Marines and wounded 41, and U.S. forces went after the Red gunners with B52s, Marine fighters and big Navy guns today.

While the battle of artillery, mortars and bombs raged around the U.S. Marine outpost at Con Thien, just below the Demilitarized Zone, men of the Queen's Cobra Regiment of Thailand began arriving to fight around the Saigon area.

The U.S. Command also announced last week's casualties—236 Americans killed, mostly in the war of attrition along the DMZ. Communist losses were put at 1,774 killed. The South Vietnamese said they lost 215 dead.

The number of U.S. combat deaths last week dropped slightly, but the wounded toll rose sharply.

Last week's figures compared to 242 dead, 1,490 wounded and 7 missing for the previous week ending Sept. 9.

Eight-engine B52 bombers went back for two predawn raids near Con Thien today after they and jungle-skimming fighter-bombers tried to pinpoint the Communist firing positions and destroy them Wednesday.

Foul weather hid the enemy, who opened up with another barrage, hitting the Marine positions with more than 300 rounds of artillery, mortar and rocket fire in the last 24 hours.

Some of it came from Soviet-built 152mm guns as far as 15 miles away.

The B52 attacks today were aimed at suspected Communist troop concentrations, rocket positions, bunkers and trench networks with 2.5 miles of Con Thien, both to the west and to the north in the DMZ. The B52s have hit the DMZ 67 times since mid-August.

They were joined today by Marine fighter-bombers, which flew 20 missions, and the U.S. destroyer Morton, firing from the coast.

In Saigon, the first 1,200 of 2,500 troops sent by Thailand arrived and moved to a base 20 miles east of Saigon to fight guerrillas while shielding SSouth Vietnamese pacification teams.

GOPs Alter Stand On Rat Bill

By CARL P. LEUBSDORF

WASHINGTON (AP) — A substantial swing among urban and suburban Republicans caused the House's about-face vote of $40 million for expanded federal rat control aid.

An analysis of the 227 to 173 vote Wednesday showed 42 Republicans who voted in July against an administration $40-million rat control proposal this time supported the amendment to add the extra money to funds authorized for state health programs.

Twenty-eight of these represent districts with substantial urban and suburban areas. Sixteen are GOP freshmen who have opposed most administration legislation in the present congressional session.

Democrats overwhelmingly supported both rat programs. Of 49 members absent for the first vote, 27 supported the second proposal, including 21 Democarts and Republicans.

The House tentatively adopted the amendment by one vote Tuesday. It made that action final Wednesday as 159 Democrats and 68 Republicans supported the proposal and 63 Democrats and 110 Republicans opposed it.

Republicans succeeded 135 to 81 in eliminating from the bill a $58 million unbudgeted emergency hospital aid program. The House passed the over-all measure 395 to 7 and sent it to the Senate.

The bill contains $932 million in new authorizations over four years, including $48.5 million this year on top of the $157 million previously approved.

Opponents of federal rat control programs charged the reversal was due to pressure applied since the July 20 vote in which the House refused 207 to 176 to even consider the administration plan for a rat program run by the Department of Housing and Urban Development.

WOMEN

YOUTH AND SOPHISTICATION are teamed for Texas Fall 1967 in a young junior ensemble from Jo Jr. of Dallas. Skinny plaid coat is punctuated by four pocket flaps piped and buttoned to match sleeveless, turtleneck shift.

Hermleigh 4-H Elects

The Hermleigh 4-H Club elected officers for the coming year at a meeting held Tuesday evening at the Hermleigh Community Center.

The officers are Jean Peterson, president; Debbie Kruger, vice president; Denise Sandefur, secretary; Belinda Bridges and Cathy Hess, recreation leaders; Jan Glass, reporter.

Plans were made to enter the dresses the girls made during the summer at the Scurry County Fair.

Miss Ruby Butts, County Home Demonstration Agent, and Mrs. Pat Sandefur Jr., adult leader, met with the club.

Py-Lo 4-H Club Elects Officers

New officers have been elected by the Py-Lo 4-H Club.

Shirley Stirl is the president, while Rita Melton was elected vice president, Wilma Stirl was elected secretary-treasuer and Cynthia Melton was elected reporter.

Shirley and Wilma Stirl were hostesses for the meeting and they did a demonstration on meat. Shirley Stirl prepared a meat dish which was served, along with brownies, to Judy and Amy Bollinger, Rita, Susan, Caroline and Cynthia Melton, and the leader, Mrs. Walter C. Stirl. Caroline Melton led in the receation.

Snyder Student On Baylor Dean's List

WACO — Sharon Jean Rutledge, sophomore from Snyder, is one of more than 350 Baylor University students who made the Dean's List for the 1967 spring semester.

A student must make a grade average of at least 3.60 on a 4 point scale to make the Dean's List.

Miss Rutledge is the daughter of Mr. and Mrs. L. D. Rutledge, 4107 Avondale, and is a graduate of Snyder High School.

Bride Cooks Lunch

Omit eggs from the breakfast menu the day you serve this dish for lunch.

Shirred Eggs with Beans
English Muffins Green Salad
Fruit Compote Vanilla Wafers

• • •

Shirred Eggs with Beans

1 can (15½ ounces) beans in barbecue sauce
6 eggs
3 tablespoons grated cheddar cheese

In a small saucepan, stirring occasionally, heat the beans in barbecue sauce until very hot. Turn into 3 round individual ovenglass pie dishes (6 inches across and 1 inch deep). Carefully break 2 eggs over the hot beans in each dish. Sprinkle with grated cheese; cover tightly with foil, but do not let foil touch top. Bake in a slow (325 degrees) oven until eggs are set as much as you like — about 25 minutes for well set whites with slightly soft yolks. Serve at once in baking dishes. Pass salt and pepper. Makes 3 large servings.

WOMEN'S CALENDAR

THURSDAY

American Association of University Women meets; salad supper and guest night; with Bernice Parker, 7 p.m.

Order of Eastern Star meets at Masonic Hall; hostesses, Pauline Boyd, Cleone Fulford, May Brush, Betty Spraggins and Etna Terry; 8 p.m.

Ira P-TA meets 4 p.m. in study hall. Executive committee meets at 3 p.m.

FRIDAY

Duplicate bridge at Country Club, open, 9:30 a.m.

Stanfield Eelementary School PTA, annual chicken-spaghetti supper; Stanfield cafeteria; 5 p.m. to 7 p.m.

Altrurian Club to meet at 3 p.m. at Martha Ann Woman's Club. Mrs. Joe Caton, hostess.

Atheneum Club Makes Field Trip

Members of the Atheneum Study Club made a field trip for their "Texas Day" program at their first meeting of the new year.

Hostess for the meeting were Virblene Talbot and Dorothy Kayser.

They toured the West Texas Museum at Lubbock and later had lunch in Lubbock. Ten members and a guest, Mrs. Bobby McMillan, attended.

Officers of the club are Mrs. J. M. Kayser, president; Mrs. Cloyce Talbott, first vice president; Mrs. B. J. Dryden, second vice president; Mrs. Max von Roeder, recording secretary; Mrs. Billy Don Huddleston, corresponding secretary; Mrs. Keith Allen, treasurer; Mrs. Jimmie Joe Key, parliamentarian.

Snyderite 'Capped' In Loyola Ceremony

NEW ORLEANS — Miss Sheila Duke of Snyder was among the 26 second-year students in dental hygiene at Loyola University to be capped in ceremonies at the university.

She is the daughter of Mr. and Mrs. M. L. Duke of 2200 Forieth Street, Snyder. She is a graduate of Lafayette High School, Lafayette, La.

Elementary Music Teachers In Meet

Snyder Elementary School music teachers attended the Region II Elementary Music Sectional meeting Monday night at Big Spring.

Officers elected include Mrs. Jackie Gray of Abilene, chairman; Mrs. Bernice Cochran of Denver City, vice chairman; Mrs. Clara Weir of Abilene, secretary.

Plans were made for the Elementary TMEA workshop to be held in Abilene in late October or early November.

The Texas Highway Department, now in its 50th year, spends $1.5 million a year clearing litter off roadsides.

Travis FHA Is Organized

The Travis Junior High School Homemaking students have organized their Future Homemakers Association for the new school year.

Officers are Lennis Cox, president; Michelle Black, vice president; Sharon Moore, secretary; Nita Hardy, treasurer; Kathy Higgins, reporter; Debra Murphy, historian; Sahala Eicke, program chairman.

The girls elected Jackie Clements as the FHA Romeo. Chapter mothers are Mrs. J. N. Eicke, Mrs. Fred Murphy, Mrs. P. T. Stewart.

Mrs. Viola Gracey is the FHA sponsor. The program objective is "To help each family member recognize his abilities and strive for their full development."

Projects will be "Good Family Relations Through Communications," and "Jobs, Careers and You."

To blanch a food usually means to pour boiling water over it, then drain and rinse with cold water.

Honors Are Won By Snyder A&M Student

Eldon G. Tipping of Snyder has been named a Distinguished Military Student for the 1967-68 school year at Texas A&M University.

The honor is based on academic and military science standing, leadership traits and summer camp perfomance, and is prerequisite to Distinguished Military Graduate status and receiving a Regular Army Commission.

Tipping is the son of Mrs. E. G. Tipping, 2105 Forty-second Street. He is a graduate of Snyder High School.

STRIKE FOR PEACE AT WHITE HOUSE

Emotions Taught As Women Protest

By FRANK CORMIER

WASHINGTON (AP) — For a few minutes beside the White House, the conflicting psychology of protesting humans and law-enforcing police seemed near the set of flashpoint that can precipitate a hot-weather riot.

Some 600 partisans of the Women's Strike for Peace, angry because new regulations forbid picketing in front of the executive mansion, threw their weight high on both sides of the White House fence against a thin, blue mish line in the 86-degree weather.

The officers were stretched across the White House sidewalk, arm linked in arm, to make sure the allowed maximum of 100 pickets already on the scene would not be joined by their colleagues in front of the executive mansion.

The women shoved and pushed, blood showed on the shirtsleeve of one police officer and feelings apparently ran high on both sides of the fence over a cruiser-mounted loudspeaker that the antiwar demonstrators had violated the condition of their permit to picket peaceably and that the permit was thereby revoked.

The irate women—once thwarted by a reinforced human wall of police—sat in the middle of East Executive Avenue, a public thoroughfare bordering the White House.

A man who identified himself as an inspector of the Park Police—which has jurisdiction over the public lands in the environs of the District of Columbia took over the same microphone and eased the terms.

"The women want no part of the Vietnam war.

If the ladies, he said, would simply cross Pennsylvania Avenue to the side away from the White House, they would be given an escort and, furthermore, be permitted to continue their demonstration there as long as it pleased them.

"We shall not be moved," the women began singing.

Meanwhile, a lady attorney in the protesting group of 600 was in deep conversation with gold-braided police officials a few yards away.

She returned to the knot of sit-downers after a while and, explaining the legalities of the situation, said:

"Why don't we pick ourselves up and go across the street."

This suggestion was greeted by sufficient derisive cries to inspire Dagmar Wilson, leader of the strike, to shout out, "Please let her finish."

Mrs. Wilson finally took the center of the stage and, announcing that "I think we have shown up the authorities for what they are," suggested in mild tones that everyone adjourn to the other side of Pennsylvania Avenue.

And they did, as President Johnson continued his activities inside the White House, uninterrupted by the clash.

GENERATE ENTHUSIASM — Snyder cheerleaders Cheril Stevenson and Deborah Raines (left to right, Front Row) hold a petition calling for a Tiger victory over Big Spring in the home football opener at 8 p.m. Friday. Looking over the 300 names on the petition are (from left to right, Top Row) Cheer Leaders Pam Cumbie, Becky Jones, Mrs. Kay Echols (sponsor), Chere Reneau and Pam Black. The public is invited to attend a gigantic pep rally to be held at 10:30 a.m. Friday in the school gym. Several other petitions are being circulated around town by Tiger boosters who seek support from local fans. Indications are there will be over 5,000 signatures.

TOP 4 WIN IN AMERICAN

By RON RAPOPORT
Associated Press Sports Writer

Al Kaline, who struck early and often, got an early good night. Carl Yastrzemski, who saved his best shots for the late innings, had to stay around to the bitter end.

Kaline hit his 25th homer in the first inning of Detroit's 10-1 rout of the New York Yankees Wednesday night. After he doubled in the Tigers' run-scoring third and fifth innings, Al was sent home to put his feet up.

But the Red Sox, who have made comeback victories a way of life lately needed Yastrzemski every inch of the way against Cleveland.

He hit his 41st homer in the sixth inning then got his fourth hit in the ninth, a single, and rode home on Reggie Smith's single with the run that won the game 5-4.

The Red Sox stayed tied for the American League lead with Minnesota, which beat Kansas City 6-2 earlier in the day, while the Tigers remained in fourth place, one game out and a half game behind third-place Chicago, which beat California 6-4.

Baltimore took a doubleheader from Washington 4-3 and 6-3 in 10 innings.

In the National League, Philadelphia beat St. Louis 3-1, San Francisco took Chicago 5-1, Cincinnati crushed Atlanta 9-4, Houston edged Pittsburgh 5-4 and Los Angeles defeated New York 4-3.

"These one-run games are more of a strain on you," said Yastzemski. "It'd be less of a strain if we'd win 9-1 and lose by the same score."

Tiger Manager Mayo Smith said Kaline's first-inning shot unglued Yankee starter Al Downing, who usually gives the Tigers a tough time. Don Wert, who seems completely recovered from his hamstring pull, added a homer in the eighth.

Joe Sparma, who gave up only seven hits, lost his shutout when Charlie Smith homered in the ninth. Sparma's record now is 15-9.

The Twins got all the hitting they needed from Tony Oliva and Bob Allison, who each lit two-run homers, but Harmon Killebrew drove in a couple of runs with singles just to make sure. Dean Chance won his 19th game, giving up just four hits and striking out 13.

The White Sox got a homer and three runs batted in from Tommie Agee and clutch relief pitching from Bob Locker, who pitched three innings of hitless ball before giving up a final run in the ninth. Rick Reichardt homered fo the Angels.

Oilers Nip Cat Skinners

On two touchdowns and two safeties the Universal Oilers defeated the Price Construction Cat Skinners to the tune of 16 - 6.

The oiler defense kept the Skinners away from the goal until the last play of the game, when George Watts intercepted a pass and raced 45 yards for the only Skinner score of the game. Oiler defensive lineman Sidney Perry caused the Skinners trouble all afternoon, catching Watts in the end zone for a safety in the second period and blocking a punt in the third period for another safety.

A 14 yard run by Oiler Halfback Greg Gafford to the one set up the Oilers' first touchdown, with a quarterback sneak by Win Bunch accounting for the tally. Halfback Gafford scored with less than a minute left in the final stanza on another sneak. The Oilers kicked off, recovered the ball and on the first play had a pass intercepted by Watts who returned it for the score.

Cooperation At Games Is Asked

School administrators are seeking the cooperation of parents to lessen unnecessary movement of students at football games here.

Letters have gone out from the administration to parents, particularly urging that adults of each family maintain responsibility of the actions of their children at the games.

"While the concession stands are in business for the primary purpose of being a service to school patrons and football fans, a constant back and forth movement of children up and down the stands is distracting to spectators and is a potential safety hazard to the children," the letter states.

"Climbing the girders beneath the stands and participating in impromptu and unofficial football games behind the goal posts are not conducive to safety.

"It is the firm belief of the school that football games are a wholesome, family-type spectator sport, but it is also the school's position that the adults of the family should assume the responsibility for the actions of the children in that family."

At the same time, attention was called to new seating arrangements in Tiger Stadium. The Snyder High School Band will play from Sec. 7 of the west stands in an area which has been railed off for that purpose. High school students will be seated in Sec. 8 and that part of Sec. 7 which is not utilized by the band. Secs. 9-10-11 are reserved seat sections and Sec. 12 has been set aside for junior high students. The bleachers south of the main stadium will be used by elementary students.

Also, it was announced that the District 3-AAA executive committee has voted that all student tickets will sell for 50 cents each, regardless of whether they are purchased in advance or at the gate, and that all adult tickets will be $1.50 each. There will no longer be any general admission tickets. Previously, general admission tickets had sold for $1.25, but all will be $1.50 each henceforth.

Grid Game Canceled

SAN JOSE, Calif. (AP) — President Robert D. Clark Wednesday night canceled San Jose State College's football game Saturday night here with the University of Texas, El Paso.

After a meeting with other school administrators, President Clark announced that "in view of disturbing threats from outside our college community to the peaceful conduct of Saturday night's game, I have after consultation with the director of athletics ordered cancellation of the game.

"I consider the action necessary to protect our students, their parents and friends from the possibility of violence in Spartan Stadium."

Charges of racial discrimination in virtually all aspects of campus life have been made by Harry Edwards, a Negro faculty member and fome Spartan basketball and track star.

Clark did not name any off-campus person or group who might be planning to invade the stadium Saturday night.

During Wednesday's public hearing on the discrimination charges, Athletic Director Robert Bronzan said his department had not discriminated against Negoes.

Football Coach Harry Anderson said the 11 Negro members of the Spartan squad had told him voluntarily they were "completely satisfied" with conditions.

THREE AT HOME

Four Local 11's In Action Tonight

Travis 8th grade hosts Goliad at 6 p.m. on the Junior High Turf followed by a clash between Travis 9th and the Big Spring Toros.

At 7:30 p.m., the Snyder Junior Varsity entertains San Angelo in Tiger Stadium.

The 8th grade tilt will be a tossup while the other two local teams will appear in the role of underdogs.

Coach Roy Carter and Coach Jerry McLeod of the Junior Varsity listed probable starters, as follows: Offense: Ends — Charlie Johnson and Phil Ator; tackles — Ray Ellis and Dennis Carlton; guards — Delbert Hirst and Steve Ray; center — Danny Brinner; quarterback — Lee McNair; halfbacks — Willis Harrison and Randy Levens; and, fullback — Otis Archie. Defense: ends — Brent Beall and Cliff Voss; tackles — Carlton and Ted Floyd; guards — Bill Billberry and Phil Hill; linebacker — Hirst and Rocky Land; halfbacks — Mark Gilstrap and Archie; and, safety — Harrison.

The Tiger varsity opens its home slate at 8 p.m. Friday with Big Spring providing the opposition, and the Lamar 9th is at home on Junior High turf Saturday with Sweetwater as the opponent. Kickoff will be at 7:30 p.m.

Elsewhere tonight, Coach Ken McAllister's Lamar 8th grade team will be at Sweetwater for a 7:30 p.m. tilt. He listed probable starters, as follows:

Ends — Jack Gorman and Joe Bullard; tackles — Mike Line and Mike Dennis; guards — Randy Wright and Mark Brock; center —David Sutton; quarterback — David Thompson and Brett Bell; halfbacks— Travis Bunch and Terry Arnold; and, fullback — Steve Norred. Thompson will be captain on offense, and Line will be captain on defense. Co-captains are Terry Arnold and W. T. Brice.

Coach Bill Herrington and Coach Larry McNair listed starters for the Travis 9th grade, as follows:

Ends — David McMahon and Danny Farmer; tackles — Stephen Northcott and Barry Welsh; guards — Stephen Camp and Travis Angel; center — Max Rainwater; quarterback — Stewart Sims; halfbacks — Johnny Mata and Jesse Speer; and, fullback — Harvey Pinkerton. In addition, Larry York, Greg Ramirez and Frank Rodriguez will start on defense.

Coach Bill Boles listed starters for the Travis 8th grade, as follows: Offense: Ends — Gary Patterson and James Hood; tackles — Nihimas Guzman and Albert Hernandez; guards — Jackson Brewster and Jerry Hardin; center — Jimmy Ballard; quarterback — Butch Buchanan; halfbacks — Sammy Harrison and Billy Clayton; and, fullback — Michael Glasscock. Defense: Ends — Butch Buchanan and Jackie Murray; tackles — Kent Horsley and Mike Glasseock; guards — Jerry Hardin and Don Durst; linebackers — Albert Hernandez and Billy Clayton; safety — James Hood; halfbacks — Sammie Harrison and Gary Durst.

Happy Fans Greet Cards

ST. LOUIS (AP) — About 1,000 fans jammed Lambert Municipal Airport early today to greet the homecoming St. Louis Cardinals despite a driving rainstorm and a three-day wait since the Cardinals clinched the National League pennant.

The crowd overflowed the west concourse of the terminal chanting, "We want Cha Cha," until slugging first baseman Orlando Cepeda appeared. A group of six policemen had to convoy Cepeda through the crowd while fans grabbed at him, hugged him and slapped him on the ba...

Cardinal Manager Red Schoendienst was the first man off the plane end he held an impromptu news conference with reporters in the rain.

The "Red Head" shrugged off all questions about the American Eague Race. He said he didn't care who won as long as somebody wins without a playoff.

Cepeda was unconcerned about a playoff. As he pushed his way through the crowd he said, "I don't think any team can beat us. The rest wouldn't hurt us."

Engineers Concerned Over Federal Funds In Research

By JOHN CUNIFF

NEW YORK (AP) — A showing of 100 new technical products here this week revealed that 26 of them were developd with the aid of federal funds, a figure that surprises few engineers but does, however, cause them concern.

In many areas of industry — aerospace especially, the overwhelming percentage of research and development funds comes from the fedreal government. It is the biggest buyer and user of research and development.

Of the $17 billion spent by industry on research and development this year, federal financing is expected to account for close to $8.5 billion. Nearly 90 per cent of all aerospace research and development will be done with federal funds.

The concern, variously expressed but stated almost constantly, is that the nation's brain power might be steered into militaristic rather than peaceful pursuits, or that in accepting grants researchers may accept control as well.

Dr. Robert L. Hershey, a vice president of the Du Pont Co., which has had a share of government contracts, commented in a speech during the past year that the federal government is in an almost monopolistic position in sponsoring research and development.

Government projects appear, apparently have more glamor, he said, and since these programs are concentrated in certain narrow areas, some of the very best young scientists also may be concentrating narrowly.

Money has a lot to do with it, as the recent showing of technical products revealed. The average cost of the products shown was $250,000 each. And it took an average of 27 months to perfect them.

Among the products: "the world's most powerful superconductive magnet," which stores enough energy to turn on 20,000 one hundred watt bulbs at once; a microfilm that contains 3,200 pages on a 4 by 6 inch film; a dummy that simulates the physiological responses of a human being.

A small company, operating without subsidy or contract, is unlikely to risk its funds and time, especially when practical commercial results are not assured by such products. It takes big money to make precise products.

This seems to have been borne out by results of the competition, sponsored by a publishing house. Not only were 26 per cent of the winners aided by government funds, but the biggest winners also were the richest.

General Electric had the most winners, with nine. It was followed by Varian Associates 5, Radio Corp. of America and Union Carbide 4, Lockheed Aircraft, Norton Co., Westinghouse and the National Aeronautics and Space Administration 3 each.

To say that the risk is great and the return sometimes small doesn't rule out the possibility of big winnings from such research. Many profitable commercial products had their origins in federally sponsored research.

Yonkers Kids Advertise For Free

By PATRICK E. O'KEEFE

YONKERS, N.Y. (AP) — For "like new" Spider Man comic books and a free baby sitter (if you'll take her to the beach) turn to the boys and girls want ad page in the Yonkers Herald-Statesman.

It's free and it's fun for the young advertisers but the Statesman limits ads to 25 words and a special rules clause keeps parents from using their kids' names to peddle boats, cars, pianos or baby cribs.

The wheeler, dealer teens of the New York City suburb filled six or seven columns a day for two weeks in a mad scramble for part-time jobs, reading swaps and second-hand merchandising.

Billy Wolfe's Sealpoint Siamese had eight "beautiful kittens," which he said he'd let go for just $25 apiece. The kittens are pretty desirable because they were "home raised with a dog."

"If you like," advertized Gail Freddolino, 9, "I would like to sell my two stuffed animals for only $1. They are good stuffed animals."

Also for sale were "a low mileage record player" by Lynne Galant, 14, and a sleeping bag by Ken Johnsson, who insisted: "I never used it. No lie."

Harlene Grossman, 11, was "selling books to suit every cause and every person. The books are in good shape. They just aren't read."

And two samples from that booming comic book trade:

"I am selling 5 Spider Man, 5 Avenger, 1 Little Archie, 1 Green Lantern, 1 Batman, 1 Fantastic Four and 2 Illustrated Classics for $1." Clifford Firstenberg, 11.

"I will trade 12 good giant Dennis the Menace comics for 15 good small Marvel Super Hero comics," Matthew Alderman, 10.

The want ad columns were bursting with "eager" and "enthusiastic" baby sitters. And the need to compete produced some unusual offers.

"Going to the beach! Take me along and I will sit the kids. No charge." Ellen Cohen, 15.

From Mary Buhler, 12, a would-be "mother's helper," came this suasion: "Have general idea help at home with 4 brothers & sisters. Won't cost you much."

For 25 cents an hour 9-year-old Kathleen O'Keefe "will read to or play with children 1½-5 while mother does housework."

Can The World Continue To Become More Snafu?

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — If you think the world is all fouled up, wait till you see what it looks like 10 years from now. At the rate it's going, it's unpredictable. So is the rate at which it is going.

When the United States dropped the atomic bomb on Hiroshima in 1945, a bomber did it. Most people, never havimg thought or heard of such a weapon, didn't think much beyond the bomb when they did hear of it.

The delivery system, by means of a bomber, didn't seem old-fashioned then. But it soon proved to be as the world leaped into the atomic age, not knowing where it was going, as events showed.

The Soviets caught up with the United States an had their first atomic explosion in 1949. That worried the United States. So in 1950 President Harry S. Truman ordered a worse bomb, the hydrogen one, developed.

The Soviets were working on the same idea. Although the United States had its hydrogen explosion in 1952. The Soviets had theirs in 1953. The next thing was to find a better system for delivering bombs than in bombers.

Both sides built missiles, short-range and the intercontinental kind which could deliver bombs across an ocean. Meanwhile, the Chinese were stirring.

In October 1949, just a month after Moscow's first atomic test, the Red Chinese took control of all mainland China. The fact that they didn't have bomb plants at work right away may explain in part why they were so willing a year later to get into the Korean War against the United States.

They didn't have priceless plants to lose. And the United States, loaded with bombs, would be reluctant to use them against the bombless Chinese if only because of world opinion. And it didn't. The Chinese got out lightly.

They finally got around to bomb-making and then moved fast. They had their first atomic test about three years ago and then last June tried their first hydrogen explosion.

But now they have nuclear plants and fear of losing them at this stage may be one good reason why so far they have refrained from getting into the Vietnamese war against this country. The United States would probably go all-out this time.

Right now, still in their hydrogen bomb development stage and with no missiles to carry them across the Pacific, the Chinese are no menace to the United States. But they will be when they get the missiles, which some experts think may be in the mid-1970s at the latest.

Because of this realization Congress and the Joint Chiefs of Staff put pressure on President Johnson and Secretary of Defense Robert S. McNamara to start working on a defense against a Chinese missile attack by building an antimissile missile (ABM) system which, if completely done, McNamara says, might cost $40 billion.

Johnson and McNamara were reluctant to get in that deep in a hurry. The pressure became too much after the Chinese explosion in June. Monday McNamara said the United States would get to work on an ABM system and it should be in good shape in five years.

This ABM system will be mainly a defense against China, the hope being that Moscow can be persuaded not to get into an antimissile- missile contest with this country, since both have enough nuclear weapons now to scare each other into not starting a war.

But what happens if, perhaps within 10 years, China and the Soviet Union patch up their quarrel and turn their missiles toward this country from Asia and Europe? Then the United States might be in sad shape if it didn't have both an anti-Chinese and anti-Soviet antimissile-missile defense.

But by the mid-1970s, when China is fully equipped with its nuclear missile supply, both short and long-range, it may be able to terrorize its Asian neighbors into such submission that all American efforts, including the one in Vietnam, to keep China from dominating Asia may have been in vain.

Worse still, at the rate they're going, by the mid-1970s the United States, Soviet Union and China may be at work on an anti-missile- missile system to frustrate the antimissile-missile system which is supposed to frustrate the simple missile system.

Junior Editors Quiz on TEMPERATURES

QUESTION: *Where was the highest temperature recorded, and what was it?*

* * *

ANSWER: Since the rays of the sun pour more directly down in the equatorial or tropical regions, it is in these regions that we find the locations of greatest heat. In the tropics the weather is always warm or hot. There is no winter. In parts of the tropical area, such as the jungles of Brazil, there is much rain; these are the wet tropics. Vegetation flourishes, but there is so much moisture, or humidity, in the air that this climate can be very uncomfortable. Other tropical areas, such as the great Sahara desert in Africa, have so little rainfall that plants can only live by occasional waterholes. The rest is barren desert. Without shade, the sun pours fiercely down and the temperature can rise to unbelieveable heights. It was on the northern edge of the Sahara, at a place called Aziza in the country of Libya, near the city of Tripoli, that on September 13, 1922, the thermometer shot up to 136 degrees. This is the hottest weather ever recorded by man.

INSTRUMENT PANELS with energy-absorbing padding continue to be designed for maximum driver convenience and comfort. All 1968 Lincoln-Mercury Division cars put controls and instruments directly in front of the driver. Instrument panel padding, windshield wiper arms and blades and other surfaces in the driver's field of vision have non-reflective surfaces. Warning lights are used to signal electrical system discharge, hot or cold engine temperature and parking brake release. An energy-absorbing steering column and steering wheel designed to collapse upon severe impact is among the new list of safety features. Shown here is the luxury interior Cougar XR-7 which features a burled walnut finish instrument panel incorporating full European touring car instrumentation, glove-soft leather and vinyl trim upholstery and an overhead console containing warning and map lights.

Lincoln-Mercury Courts The Ladies

Although it may strike some men as appalling, there are more than 40,000,000 women drivers in the United States — 41 per cent of the driving population.

Female drivers are expected to exceed men by 1970. Their numbers have grown by one-third since 1960 alone.

The chief reasons: increasing numbers of working women — more than 25,000,000 of them — and the growth of multi-car families, particularly in the suburbs.

Women's tastes and needs exert a major influence in the design and content of today's cars. Automobile companies are spending more time and money in their courtship of this important market segment. Women now represent at least 1,000,000 industry sales a year and cast an influential vote in three out of four family car purchases.

A woman wants a car that is attractive, reliable, comfortable and safe. Tilt-swing steering wheels, two-way station wagon tailgates, suspended brake and accelerator pedals are only a few of the items designed for feminine appeal.

Lincoln - Mercury Division lists no less than 80 standard and optional features for its 1968 models that will have special appeal for the female driver.

You can see them at Wilson Motors in Snyder.

Jailed Bird-Feeder Leaving Her Nest

LONG BEACH, Calif. (AP) — Cooped up five days in jail for feeding pigeons, 70-year-old Mabel Steed is leaving her nest.

"We're going to move out. I'll sell or give the house away and we'll go to Palm Springs," she chirped Tuesday when she was freed.

Mrs. Steed was convicted of contempt of court for ignoring a court order not to feed the birds around her house. Neighbors squawked that their numbers created a public nuisance.

Mrs. Steed crowed: "I have fed pigeons all my life and I don't intend to quit now."

Thirteen golfers who shot 149 for the first two rounds of the U.S. Open missed qualifying by one stroke for the last 36 holes.

Campaigns To Dispose Of Job

SAN FRANCISCO (AP) — A candidate for sheriff bases his campaign on an unusual platform—do away with the job.

"I would hope that I would be the last sheriff of San Francisco," says David Johnson, 41, field representative for the Bay Area Urban League.

Johnson would turn over county jails to the state Department of Corrections. Since running the jails is one of the sheriff's main jobs, Johnson figures there wouldn't be much else to do.

When Buckpasser came from behind to win the Suburban Handicap at Aqueduct on July 4 he ran his earnings to $1,419,144. Ahead of him are Kelso and Round Table, both retired.

THE 1968 LTD HARDTOP — This is the new Ford LTD, four door hardtop, featuring a die-cast grille and a rich interior with wall-to-wall nylon carpeting. The new Fords will go on display tomorrow at Wilson Motors in Snyder.

'68 Ford Aims At Every Buyer

The 1968 Ford, substantially altered in appearance, offers something for every car buyer. The lineup includes three more models than in 1967, a host of new mechanical and safety features and two new engine options. They will go on display in Snyder tomorrow at Wilson Motors.

With the 1968 Ford, "we feel we are better equipped than ever to go after a substantial share of both low and medium price markets," said M. S. (Matt) McLaughlin, Ford Motor Company vice president and Ford Division general manager.

"Our LTD and XL series match the medium - price cars in luxury and comfort, while our Galaxie 500 and Custom 500 models continue to offer the low-price car buyer the type of transportation he seeks."

The addition of a Galaxie 500 two-door hardtop with a formal roof line and two Custom 500 Ranch Wagons brings the total of 1968 Ford models to 21. One of the wagons is a six-passenger model; the other, a 10-passenger with dual facing rear seats.

New sheet metal below the window line gives the new Ford a longer, lower profile. Three separate roof treatments distinguish the hardtop models, which include a new fastback version of the XL and Galaxie 500. The new die-cast grille in the LTD, XL and Country Squire models has horizontal headlights with retractable doors.

Ford Motor Company's Improved Combustion System is standard on all models equipped with the Cruist-O-Matic transmission. Ford's Thermactor Emission Controls System is standard on all models equipped with a manual transmission. Both systems are designed to reduce the emission of hydrocarbons and carbon monoxide in the engine exhaust.

A 302-cubuc-inch V-8 engine replaces the 289 as the basic V-8 engine in the Ford line. The high performance powerplant is a hydraulic valve version of Ford's famous 427-cubic-inch engine, rated at 390 horsepower, which is available only with a Cruist-O-Matic transmission.

Safety features on all 1968 Fords include a new energy - absorbing steering column that compresses under heavy impacts; a redesigned instrument panel offering improved injury protection; a dual, hydraulic brake system; and squeeze-type inside door handles.

A number of new options are available for Ford buyers in 1968, including an AM-FM Stereo Radio that produces true stereophonic sound through two front - door - mounted speakers. An automatic load leveler and a rear - window defogger have appeal for the driver who seeks maximum comfort and convenience.

Available on all Ford models are Ford's new front disc-rear drum, power - assisted brakes which provide improved cooling characteristics and better braking action.

A new grille, new sheet metal below the window line and redesigned roof areas on all hardtop models give the 1968 Ford an impressive new look for 1968.

The forward - thrusting front fenders have sculptured wind splits along the side, one for low the curved contour at the body profile. A slight dip in the door area provides overall styling continuity.

Each series has ornamentation and distinctive identification features. Custom 500 models have a thin spear molding running the full length of the body side. The Galaxie 500 has a bright rocker panel molding joining the bright frames around the wheel openings.

XL and LTD models have wide rocker panel moldings with fender and quarter panel extensions joined by wheel lip moldings. Vinyl tape stripes above the rocker panel distinguish the XL models. LTD models have contrasting paint pinstripes extending the full - length of the body.

Imparting a new look to the hardtops are the rooflines. The fastback has more sweep to its rear window and new ridges at the window's sides for a sporty look. Both the formal two-door and the four-door hardtop models have wider rear roof pillars and less slant to the rear window. Both versions offer a vinyl roof option.

Shot Kills Canadian Film Maker

WHITESBURG, Ky. (AP) — A prominent Canadian film producer was shot to death Wednesday as he and a four-man production crew filmed scenes of poverty in this mountainous eastern Kentucky area.

Hugh O'Connor died soon after being hit with a .38-caliber slug in his chest. Hobart Ison, 69, of the Jeremiah community, was charged with murder. A hearing was set for this afternoon.

The 46-year-old Montreal native was on leave from the Canadian National Film Board to produce a film on "All Walks of Life in the United States" for Francis Thompson, Inc., a New York City firm that specializes in educational documentaries.

Ison owns a cluster of houses at a coal mine camp about five miles north of here on Ky Route 7. It was this cluster of shacks that the crew was filming when O'Connor was shot to death.

The four members of O'Connor's crew told this story to state and county authorities: They stopped to take pictures of some people beside the road.

After 40 minutes of picture-taking, when they were winding up their session, a car drove up and a man whom they had never seen jumped out yelling "Get off my property!"

The crew members and O'Connor began gathering their gear when the man fired two shots above them.

As the crew was putting the equipment into their car across the road, the man fired a third shot, this time at the group, which struck O'Connor in the chest, killing him.

"We had never seen him before," said Teodore Holcomb, one of the crew members. "He didn't know who we were, I'm sure."

Holcomb said he and the other three crew members hadn't decided whether they would continue filming for the documentary.

Bill Approves Brownsville Purchase

WASHINGTON (AP)— A bill approved Wednesday by the Senate Agriculture Committee authorizes the purchase of 4.87 acres at Brownsville, Tex., for $125,000 by the Agriculture Department.

The bill has been passed by the House.

Texas Southmost College owns the land, which adjoins a 13.8-acre tract now used for a research station by the department. The college offered to sell the land in 1964 for $125,000 but a later appraisal fixed the value at $150,000 or more.

The department now leases the land.

Sundaco Wins First Court Test

ABILENE, Tex. (AP) — Sundaco, Inc., the Dallas - based corporation that buys and then the next day sells discount stores in order to operate them on Sunday, won the first court test Wednesday of the state's controversial new blue law.

Dist. Judge Austin McCloud denied a motion for temporary injunction against Sundaco sought by Abilene City Atty. Don Butler and Dist. Atty. Richard Price. They gave notice of appeal to the 11th Court of Civil Appeals in Eastland.

The judge ruled in a case specifically involving Clark's Discount Store of Abilene, the local outlet for Sundaco.

Sundaco operates several Texas discount stores on Sundays by buying them Saturday night and selling them back to the original owners Sunday night.

Dallas Dist. Atty. Henry Wade and other prosecutors have called the device a subterfuge set up to circumvent the law.

Jay Fichtner of Dallas, a Sundaco lawyer, director and stockholder, said the stores under contract would reopen Sunday under the Sundaco banner "if we can get ready."

Clark's was put under a restraining order pending the Wednesday ruling and had been closed the past two Sundays. Other stores under contract to Sundaco also closed those days.

All were open Sept. 3, the day before the restraining order went into effect. That was the Sunday the blue law, which prohibits sales on both Saturday and Sunday of a long list of items, went into effect.

State To Buy Base

WACO (AP) —Gov. John Connally will formally present a $5.25 million State of Texas check to federal officials here Oct. 14 to purchase James Connaly Air Force Base.

The 2,100-acre base, currently in the process of deactivation, is being converted into James Connally Technical Institute, a vocational training center operated by Texas A&M University.

The check presentation will highlight a full round of activities, including the official dedication of Connally Tech, open house and the first annual Parents Day.

Dr. Roy Dugger, director of Connally Tech, said more than 10,000 persons are expected to attend the open house and dedication.

Connally Tech admitted its first students Jan. 11, 1966, and now has more than 1,000 engaged in 33 fields of technical study.

Swims To Save Boat

PORT ARANSAS, Tex. (AP) Johnny Hair of San Antonio must be mighty fond of his boat.

He got concerned about its being at Port Aransas with the approach of Hurricane Beulah, and Tuesday he drove the 144 miles to Corpus Christi.

He was going to get across 7-mile-wide Corpus Christi Bay on the ferry. But when he got to the landing Tuesday afternoon, the ferry was no longer operating.

So Hair, 32, commenced to swim the choppy waters. And he made it, with the idea of coming back over on—and with—the boat.

Once at Port Aransas, though, he couldn't find any gasoline for the empty tank.

Hair rode out Beulah with about 40 other stalwarts at Port Aransas.

"It wasn't too bad," he said of the swim, "just a little choppy."

Mummified Infants Found In Trunk

NEW YORK (AP) — An old trunk found in the basement of a Manhattan apartment house has yielded the bodies of three mummified infants, one of whom may have been dead for 47 years.

The bizarre and unusual case came to light when the trunk was opened Wednesday night. Dr. Paul Herman, assistant medical examiner, set an autopsy examination of the infants today to determine how they died.

The discovery was made when John Hartnett, superintendent of the building on West 181st Street in the Washington Heights section advised tenants to clear a basement storage area of unwanted items.

Hartnett told police he found one trunk with the name Anne Solomon on it. It was opened in the presence of Jacob Solomon, 67, whose wife Anne died in 1954 at the age of 48.

Inside the children were found laying side by side—swaddled in cloth and with newspapers wrapped on the outside. Dr. Merman described the bodies as "well kept."

One of the papers was an edition of the defunct Evening Sun dated Jan. 20, 1920. Another was the defunct Evening World dated March 4, 1922 and the third was the old Evening Journal of Oct. 17, 1923.

Solomon told police his wife had been previously married in 1933 but that he had no knowledge of her having given birth to any children.

US Says Israel Told No Secrets

By BOB HORTON
AP Military Writer

WASHINGTON (AP) — Israel captured a wealth of Soviet-made weapons during the Mid-dle East war but American officials scoff at suggestions the United States received any military secrets in the process.

Defense and State Department spokesmen told The Associated Press there has been no exchange of information between Israel and the United States on the captured weapons.

Among war materiel captured by Israel in the Sinai Desert and other areas were Soviet anti-tank missiles, surface-to-air missiles—SAMS—like those used in North Vietnam, at least one MIG21 jet fighter and assorted other arms worth millions of dollars.

The Pentagon flatly denies reports that a MIG 21 was flown to the United States from Israel for detailed inspection by intelligence experts.

Defense spokesmen say no weapons were loaned to or otherwise acquired by the United States for examination.

State Department sources say this does not mean there might not be a tacit understanding between lower echelon U.S. and Israel officials that if arms inspections were sought they could be arranged.

"But frankly we know virtually everything about the MIG 21," a source reported. "The same goes for the SAM missile, which is really a rather unsophisticated type weapon."

An equal frankness came from other spokesmen. "Even if we did arrange with Israel to inspect some hot item, we couldn't discuss it," one says. "That might make it appear we were in collusion with Israel in the Middle East war."

The United States declared neutrality during the fighting.

Shelters Register 55,797 Refugees

HOUSTON (AP)— The American Red Cross said late Wednesday night that 55,797 refugees from Hurricane Beulah registered into 202 shelters in a score of cities inland fom the Lower Texas Coast.

Richard Bolyard of St. Louis, assistant regional Red Cross manager and director of the emergency headquarters in the First Methodist Church here, said the figures were still fluctuating because some per-Beulah's storm area wee stating back home.

He said the contol office will move in a day or two to a new location closer to the center of the storm damage. Now that the watch phase is ending.
