PLANES BOMB MEXICAN REBELS

HOOVER DOESN'T CARRY EVEN HIS OWN CALIFORNIA COUNTY; WOOD WINS EASILY IN INDIANA

SAN FRANCISCO, May 5.—California wants Senator Hiram Johnson for president.

Incomplete but indicative returns from every county in the state from yesterday's primary election gave Johnson a handsome majority over Herbert Hoover.

Returns from 5,056 out of 5,729 precincts gave Johnson a lead of 136,945. The vote was Johnson 293,835; Hoover 156,890 in these precincts.

Late returns indicate Senator Johnson has beaten Hoover in Los Angeles County.

Of the total of 1,274 precincts in the city and county, 603 precincts reported complete give Johnson 39,324; Hoover 35,174, a majority of 4,150.

Voters did not scratch ballots and Johnson will have at the Chicago convention California's 26 delegates complete.

Johnson carried the northern cities by overwhelming leads, piling up some majorities of two, three and even four to one. Hoover apparently carried Los Angeles, Kings and Ventura counties by small majorities.

A statement from Johnson headquarters today declares that Johnson's victory "is the greatest triumph in California politics."

Sacramento, Johnson's birthplace, gave him a big lead. In 153 out of 167 precincts the vote was Johnson 14,705; Hoover 4,283.

Johnson invaded Hoover's own county, Santa Clara, and carried it, according to incomplete returns. In 174 out of 192 Santa Clara county precincts the vote was Johnson 10,896; Hoover 5,311.

Johnson swept Alameda county, including the cities of Oakland, Alameda and Berkeley and carried San Francisco by nearly 44,500.

Wood Wins in Indiana.

INDIANAPOLIS, May 5—Two thousand seventy-eight precincts out of 3,337 in Indiana for republican presidential preference in yesterday's state-wide primary give: Wood, 54,305; Johnson, 48,912; Lowden, 24,097; Harding, 13,213.

Earlier in the night the general's lead had been well over 6,000.

From the returns on 1,917 precincts in the race for the republican gubernatorial nomination, it began to look as if Warren T. McCray of Kentland would go into the state convention with a majority running far ahead of James W. Fesler of Indianapolis and E. C. Toner of Anderson, and gaining steadily.

With few precincts—1,200—heard from, Dr. Carlton B. McCulloch of Indianapolis was running away from the democratic gubernatorial nomination and politicians early today predicted that he would win by a good sized majority.

In Harrison county election day was marred by the sudden death of J. L. O'Bannon, a candidate for the democratic nomination for congress in the third district.

FRENCH SOCIALIST DENIED RIGHT TO ENTER THE U. S.

Chicago Officers Wanted to Use Jean Longuet In Campaign.

PARIS, May 5.—Jean Longuet, leader of the minority socialists in the chamber of deputies, whose passport to visit America, the state department refused to vise, said today his proposed trip had been at the invitation of the "American socialist party with headquarters in Chicago," where he was to have delivered a series of lectures.

CHICAGO, May 5.—Jean Longuet, the French socialist, was to have attended the socialist convention at New York and later campaigned for the party's nominee who is expected to be Eugene Debs, according to an announcement here by socialist headquarters here some time ago.

Socialist national headquarters issued a statement today announcing that "there is no doubt whatever that Eugene V. Debs will be the presidential candidate, even though he is in the Atlanta penitentiary on a 10 year sentence for alleged violation of the espionage act."

The statement adds that among those mentioned for the vice presidential nomination are Prof. Scott Nearing, Seymour Etedman, a Chicago attorney, and James H. Maurer, president of the Pennsylvania State Federation of Labor.

According to socialist headquarters, a number of communist party members have declared for Debs but the current issue of the official communist organ states that Debs is absolutely unacceptable to that party.

LAW GOVERNING PACKERS WILL HAVE "TEETH IN IT"

WASHINGTON, May 5.—Packer legislation "with teeth in it" will be passed by this session of congress, Representative Anderson, Minnesota, one of the authors of a bill to regulate the packing industry predicted today.

The bill, which is being framed to supplement the department of justice decree eliminating the big five packers from many unrelated lines, will be reported out next week, he said.

"We will certainly report a bill and I think, despite the diverting effects of the two political conventions, we will get it through," declared Anderson.

BAILEY MAY HAVE FIFTY VOTES IN TEXAS CONVENTION

McAdoo Endorsed In at Least Four County Meetings on Tuesday.

DALLAS, May 5.—Delegations favorable to the national administration will control the Texas democratic convention May 25, as a result of democratic county conventions held Tuesday.

Tabulations at a late hour last night, supplemented this morning by belated returns show that the vote in the state convention favorable to the administration will approximate 1,300. There are 1,400 votes in the state convention.

Late tabulations last night indicated that the faction led by former Senator Joseph W. Bailey, which sought repudiation of the national administration under Woodrow Wilson, might have 50 votes in the state convention.

This presumption, however, concedes two doubtful counties. A concession of additional votes to the Bailey forces, it appears, which would include returns not yet received which might show Bailey strength, could bring the anti-administration totals in the state convention to 75. This, however, was an estimate made by observers on the face of empty columns awaiting final complete figures.

The returns which dwindled in early this morning only served to add strength to the administration forces and did not in a single instance add to the Bailey column.

County conventions yesterday had their various features.

In at least four counties strong endorsements were expressed for William G. McAdoo as a democratic presidential preference. In Hill county where the convention went solid for the Wilson forces, Major T. E. Nickels, father of Luther Nickels, who has managed the Bailey campaign in Texas, was named to head the Wilson delegation to the state convention.

Many of the counties reported instructions to delegates for Governor W. P. Hobby as delegates-at-large to the San Francisco convention. In Fayette and Lavaca counties Bailey, himself, was selected as "delegate to the state convention." Postmaster General Burleson came in for his share of prominence when Lee, Travis and several other counties endorsed him for delegate-at-large.

SHOE CONCERN DECLARES 33 1-3 PER CENT DIVIDEND

ST. LOUIS, May 5.—The Brown Shoe company has declared a common stock dividend of 33 1-3 per cent, increasing its common stock from $6,300,000 to $8,400,000, it was announced today. This it was said, is the first such dividend declared by the company since it was reorganized in 1913.

The regular quarterly cash dividend at the annual rate of 7 per cent on the 63,000 shares of common stock was declared.

ALLEGED MEMBERS OF I. W. W. TAKEN IN KANSAS CITY

KANSAS CITY, May 5.—Six alleged members of the I. W. W. were held in jail here today. Police declared they had nipped a plot to establish I. W. W. headquarters here for the purpose of organizing agitators and sending them into the harvest field of the southwest.

The men were taken before Judge J. M. Kennedy and their cases continued until Monday. Bond was fixed at $501.

According to police, James Kelly, among those arrested, had credentials declaring him to be a good organizer for the I. W. W. and special delegate at large to the convention at Chicago May 10. The others were: Phillip Taft, admitted paid organizer; James Morgan, alias "Tuffy" Stuart; John Walsh and Arthur Linn, I. W. W. workers, and Albert Burr, organizer, whom police say was implicated in radical disturbances in Centralia, Washington

"UNTERRIFIED" ONES ARE SUMMONED TO FACTION COUNSEL

Bailey Men to Meet at Dallas for Consideration of Coming Campaign.

DALLAS, May 5.—A call for a state-wide conference of "unterrified democrats" to meet in Dallas Saturday, May 15, has been issued here by the advisory committee of the element of the Texas democratic party which met overwhelming defeat at precinct conventions last Saturday in its campaign to repudiate the national administration.

The call asserts that "perhaps not more than 10 per cent" of the democratic voters participated in the meetings which overwhelmingly endorsed President Wilson's administration, and appeals to democrats who "understand their duty" and have the political courage" to perform it to meet and take "counsel" with each other with respect to the coming gubernatorial campaign. Former United States Senator Joseph W. Bailey, leader of the anti-administration forces, will continue in the race for governor, the call said.

TUMULTY SAYS HE WILL NOT ATTEND PARTY CONVENTION

WASHINGTON, May 5.—Much interest was aroused here today in the question of who will be President Wilson's political representative at the San Francisco convention. Joseph P. Tumulty, his secretary and spokesman, is planning to remain in Washington during the convention, he said.

It now appears likely that the task will devolve upon Homer S. Cummings who is to be temporary chairman of the convention and who will make the "keynote" speech. Others mentioned are Postmaster General Burleson and Newton D. Baker, secretary of war.

PROFITEERING IN MEATS CHARGED AGAINST ARMOUR

BOSTON, May 5.—Profiteering in meat was charged today against Armour & Company and its New England manager, John E. Wilson. The latter was arrested on a warrant issued by United States Commissioner Hays on evidence transmitted by the United States district attorney's office that lamb bought for less than 10 cents a pound plus freight charges of about four cents a pound, had been sold here for 25½ cents a pound.

SUICIDE ASKED ASBESTOS COFFIN WITH ICEWATER

ST. LOUIS, May 5.—Walter G. Hann, 17, believed in preparing for the worst. After he committed suicide by drinking poison the police found a will requesting that he be "buried in an asbestos coffin with a bottle of icewater inside."

ONE MAN KILLED, SCORE INJURED IN STORM AT WILMER

DALLAS, TEXAS, May 5.—One person is known to have been killed and nearly a score of others injured in a wind and rainstorm that swept the western portion of Dallas county last night. Property and crop damage probably was several thousand dollars.

The fatality occurred at Wilmer, where J. H. Rogers met death when a farm house was demolished. Grand Prairie, Arlington and other sections reported considerable damage and more than a dozen persons injured. Numerous small buildings and outhouses were levelled, dwellings unroofed, and fruit trees and growing crops seriously damaged.

The storm demoralized wire communication in numerous north Texas sections. In Dallas where two inches of rain fell, the wind reached a velocity of 35 miles an hour.

FORT WORTH, May 5.—Two inches of rain fell here last night and a severe windstorm passed immediately east of Fort Worth, tearing down telegraph and telephone poles and wires and overturning barns. The storm extended as far west as Brace, Texas.

GREAT QUANTITY OF OIL FALLS TO RUSSIAN REDS

LONDON, May 5.—Great quantities of oil fell into the hands of the Russian bolsheviki when they captured Baku on April 28, according to an official statement under Tuesday's date received today from Moscow. The red troops, the statement says, captured 300,000 poods of kerosene; 2,000,000 poods of gasoline; 1,250,000 poods of lubricating oil; 115,000,000 poods of mazout and 80 poods of crude oil.

"Work in the oil wells continues at full speed," the statement continues. "In the sea of Azov enemy ships are cruising along the northern and eastern shores. On May 3 enemy ships bombarded Taganrog."

PIANIST HUSBAND OF FANNIE HURST LIKES "NIGHT OUT"

He Does Not Have to Resort to Hackneyed "Sick Friend" Or "Lodge" Excuse.

NEW YORK, May 5.—Jacques E. Danielson, pianist, composer and husband of Fannie Hurst by their secret marriage five years ago, is just as enthusiastic about the manner in which they have managed to be "free though married," as his wife.

The secret marriage became known on the fifth anniversary through announcement by Miss Hurst. They maintain separate homes and offices and meet only by appointment.

"Why, if anyone would know how I feel about it," said Danielson, "just let him ask some married man of five years how he would like to have a night out without resorting to the hackneyed 'sick friend' or the age-worn 'lodge meeting' excuses."

The Hurst-Danielson family said they had not decided on the plan they would adopt in case of the arrival of children. They said they might modify their present plan of absolute independence.

SUPREME COURT REVERSES FIRST MORTGAGE CASE

AUSTIN, May 5.—In reversing the judgments of the district court and court of civil appeals in the case of General Bonding and Casualty Insurance company, et al., vs. A. Moseley, et al, from Hardeman county, the supreme court today held a "subscriber's note secured by a valid first mortgage upon real estate, accepted by a corporation in payment for stock, cannot be held as other than property in the full sense of the constitution."

The court reversed and remanded the case "upon the issues of fraud." The point involved was whether a subscriber's note and first mortgage upon land constitutes property actually received.

WOULD MAKE WAR TAXES LIGHTER OVER MANY YEARS

DALLAS, May 5.—High taxes are weighing down business of the nation and they should be lowered by spreading payment of the war debt over a period of more than 50 years, Nathan Adams, Dallas banker, told the Southern Dry Goods association convention here today.

"The best thing congress can do is adjourn," he declared in commenting on bills that will demand increased revenue

BATTLE AT TORREON WILL BE LAST STAND OF CARRANZISTAS IF HE WANTS TO FIGHT IT OUT

WASHINGTON, May 5.—Apparently unable to get under way any offensive military expedition against the revolutionists, President Carranza has begun using airplanes to harass rebel-held towns in the neighborhood of the Mexican capital, according to advices to revolutionary agents here. Cuernavaca, capital of Morelos, and Cuautla, in the same state, are two of the points that have been smartly bombarded, the reports stated. The information through official channels yesterday that Pablo Gonzales, formerly an ardent supporter of Carranza, had entered the revolution at the head of a detachment of revoluting federal troops, also was contained in the rebel advices.

Further indication that Torreon again is to become objective of the contending forces was contained in the report that General Diegues's force that had been trying for more than three weeks to make its way through the state of Jalisco northward into Nayarit to check the Sonorans on their march to the south, had been turned about and is on its way to Irapuato from where it may move northward towards the state of Chihuahua.

General Forced to Join Rebels.

JUAREZ, MEXICO, May 5.—With the arrival here of approximately 800 Yaqui troops who are expected to reach Juarez from Casas Grandes, Chihuahua, some time today, another chapter will have been written in the story of the defection of their commander, General Francisco Urbalejo, from the ranks of the Carranza forces.

How General Urbalejo and Colonel Eduardo F. Porcayo, also of the Cases Grandes garrison, were captured Monday night and induced to join the revolution has just been revealed.

A party of officers was ordered to Casas Grandes by General Jose Gonzales Escobar, commander of the Juarez district, to meet the two commanders for the purpose of ascertaining their sympathies. General Escobar's envoys met the Casas Grandes officers at Barreal station, 41 miles southwest of Juarez. Unaware that the Juarez garrison had revolted that some afternoon, Urbalejo and Porcayo were on the way to the border for a brief visit, accompanied by a small body guard.

Escobar's officers greeted the two commanders cordially and invited them on the train for "a friendly chat." The pair accepted the invitation and once they were separated from their men, they were menaced with pistols and placed under arrest.

The captives were brought back to Juarez and finally were convinced that the part of wisdom was to join the revolution without further struggle. Juarez today continued its process of adjustment to the new regime. While the civil government functioned as usual it was expected that marked changes in the staffs would be made eventually.

Destroyers to East Coast.

WASHINGTON, May 5.—Secretary Daniels today ordered a division of destroyers now at New York with the Atlantic fleet to sail immediately for Key West where they will be held for possible duty in Mexican waters.

The destroyers are the Sherwood, Case, Lardner, Putnam, Dale and Reid. The flotilla is commanded by Capt. Byron Long on the tender Black Hawk. Captain Long was in conference with Secretary Daniels here last night and then returned to New York to get his ships ready to sail today.

The secretary said today that Captain Long had been given full instructions as to the policy to be pursued if the destroyers go to Mexican ports.

The vessels should report at Key West by tomorrow night or Friday, and the run from there to Tampico or Vera Cruz would take only a few hours.

The state department announced Monday that it had asked the navy department to send destroyers to those two Mexican ports. The request was based on reports from American consuls who desired ships on hand to take off American citizens if that should become necessary.

Thus far no reports of any serious disturbances in the Mexican ports have reached the government, but revolutionists are active not far from those places.

More to Join Revolution.

AGUA PRIETA, MEXICO, May 5.—Revolt or subjection of the border states of Coahuila, Nuevo Leon and Tamaulipas is a matter of but a few days, it was said at military headquarters of the revolutionists here today.

Morelos Joins Revolt.

EL PASO, May 5.—The entire state of Morelos is in the hands of the revolutionists, according to advices received here today by Arturo Elias, brother of General P. Elias Calles, commander-in-chief of the revolutionary army of the northwest.

BROWNSVILLE, TEX., May 5.—The first defections of federal troops along the Hamaulipas line bordering Texas occurred yesterday when the Carranza garrisons at Camargo, opposite Rio Grande City and San Miguel near Camargo, revolted and declared themselves in sympathy with General Obregon, according to authentic advices received here today. The revolt was orderly and no shots were fired.

Unconfirmed reports say that the Carranza garrison at Meir, opposite Roma, Texas, has also revolted These reports, however, lack confirmation. The same reports say that rebels entered Guererro opposite Zapata, Texas, several days ago, but left during the night without causing a disturbance. It is indicated this garrison remained loyal to Carranza.

LIBERTY BONDS LOKERED BY "SPENDTHRIFT" HABITS

WASHINGTON, May 5.—Liberty bonds have depreciated because individual holders became "spendthrifts" after the armistice and used their bonds "like so much money," Governor W. P. Harding of the federal reserve board stated in a letter to Senator Owen, democrat.

WILSON IS TRYING TO COERCE SENATE DECLARES KNOX

Assails Effort to Pass Treaty Despite Objections of It's Opponents.

WASHINGTON, May 5.—Opening debate on his resolution to declare the state of war with Germany and Austria at an end, Senator Knox, republican, Pennsylvania, declared in the senate today that President Wilson was arbitrarily maintaining that the nation technically was at war in order to coerce the senate into ratifying the treaty of Versailles.

"There was no excuse whatsoever for greatly prolonging the war beyond the signature of the armistice," Senator Knox said, "and the only explanation for so doing was the deliberate aim to retain all those autocratic compulsory powers with which the executive had been endowed for the prosecution of the war in order that they might be used for other purposes.

"The welfare and safety of the nation imperatively demands that we know we have peace. The whole world seeths with revolution. Our own nation is in ferment and toil. Force and strife are rampant and threaten the destruction not only of our property, but of our free institutions and even of our lives. And yet we stand and have stood for months as a rudderless ship, foundering in the trough of tremendous seas.

"We must not dare longer to delay a return to the order of government of peace; we must not hazard a further postponement in turning our undivided deliberations to our home problems. They are great enough to tax the utmost wisdom which we possess. As a preliminary step, the executive must be returned to his peace time powers and prerogatives. Need, propriety, wisdom cannot question this."

Declaring that he entertained only

BOLSHEVIKS LOOT PROPERTY AT KIEV BEFORE LEAVING

Special Trains Will Be Run From Warsaw to That City.

WARSAW, May 4.—Russian bolshevik soldiers are reported to be looting houses and stores at Kiev preparatory to abandoning the city. Advices received here indicate great confusion there.

Polish military authorities plan to occupy Kiev late this week, it is believed, and special trains to take visitors from Warsaw to the Ukrainian capital are being arranged.

LONDON, May 5.—Progress of the Polish offensive around Kieff remained somewhat of a mystery here today.

The war office had not received official confirmation of reports the city had fallen to the Poles, while Moscow wireless communiques claimed the soviet forces were putting up a desperate and successful defense of the city.

Moscow wirelesses today indicated growing anxiety in the soviet capital at the success of the Polish offensive. Communiques quoted long appeals by War Minister Trotsky and Karl Radek in an effort to fan Russian hatred against the Poles. Proganda meetings were urged throughout Russia.

FOOD PRICES DECLINE U. S. BUREAU DECLARES

CHICAGO, May 5.—Some food prices were on the decline here today, according to United States bureau of food and markets. Reports of bumper crops of onions and cabbage on the way to Chicago were said to be one of the reasons.

The price of Texas Bermuda onions dropped 50 cents yesterday. Nearly 6,000 carloads were reported on the way.

May eggs were put into storage at 44¾ cents a dozen, 40,000 cases having been stored yesterday. The amount reported on hand was more than 500,000 cases against more than 700,000 cases reported at the same time last year.

FT. WORTH MAN KILLED IN HOLDUP ATTEMPT AT RANGER

FORT WORTH, May 5.—J. E. Vines of Fort Worth was shot to death in an attempted holdup at Ranger last night, according to a message to his family here today.

KNOX SAYS WILSON TRIES COERCION

(Continued From Page 1.)

sympathy for the President in his illness and "sympathy for the country which must suffer under him because of it," Senator Knox said. "It was an unwelcome task to judge one who has fallen in public esteem." He added, however, that when danger threatened the nation it must be met forefronted and that "he who ventured to intervene against the safe and wise course must step aside or be crushed."

"The course of the President ever since he cruised to Europe to participate in the peace conference," continued the former secretary of state, "leaves no chance for doubt that he will continue hereafter as heretofore, to thwart, so far as he is able, every attempt on the part of the senate, the congress or the people to take any action immediately or remotely, affecting in however slighter degree, through change or modification, the provisions of the treaty of Versailles as it came to us fresh from his signature.

"Constitutional order, lawful functions, rights and duties of possession, oaths of office as affecting the members of this body, he has noticed only to bring into contempt. He has conjured up every power within his domestic domain in his effort to compel this senate to surrender its will and judgment to him, to become the mere automatons to register his mandate—to approve this treaty in its last minute of detail as he sent it to us."

Senator Knox said it would be idle to pass any resolution looking to the immediate establishment of peace that did not contemplate the unqualified acceptance of the treaty if that resolution required from the president the performance of any act or duty in order to secure peace. He argued that if any resolution was to be effective it would have to be self-operative.

Launching into a thirty-thousand word discussion of his resolution, the senator said congress had the power to "unmake" any of its acts and consequently had the power to repeal the resolutions declaring a state of war with the imperial government of Germany and with the Austro-Hungarian empire.

Pointing out that the war declaration by congress was directed against the imperial German government, Senator Knox said that government had ceased to exist and with it the enemy named by congress. He argued further that the war so far as the United States was concerned was ended by the "silent cessation" of hostilities.

Supporting his contention that internationally the nation actually and legally is at peace, the senator discussed the terms and effects of the armistice, declaring that by this document Germany had conceded its capitulation. He contended also that ratification of the treaty of Versailles by Germany and the allies made peace for the United States.

"There is everywhere outside of the United States itself, with all of the great powers including ourselves (save only Russia) peace from the recent conflict," said the Senator. "The powers say it, the Germans say it.

"Internationally therefore, we are at peace. Our late allies and associates say we are at peace. Our erstwhile enemies say we are at peace.

"Our national executive with a stubborn irresponsibility continues to declare we are at war. But as a practical matter the only war which he wages is against American citizens and American industry. With Germany he wages no war.

"Having thus in law and in fact international peace, having nothing left but a domestic status of war created by a legislative declaration of war, with no hostilities, therefore or now existent or possible in the territory over which this paper status exists, it is not only legally sound, but economically, morally and patriotically necessary and indispensable that we at once repeal the declaration of war and so immediately end the despotic war powers with which a power-hardened administration continues to misrule this great people."

Reiterating opposition to the treaty of Versailles, Senator Knox said it was almost universally discredited and that the senate reservations did not Americanize the league of nations, but merely made it safer for America to join. The league, he added, "promises little but mischief unless re-cast on such radical lines as will entirely obliterate its identity." Instead of the league, he urged "an arrangement for the codification of international law, the establishment of a court of international justice and the outlawry of war."

Senator Knox said that although America probably would secure all she desired from Germany without ratification of the treaty of Versailles, a supplemental treaty with Germany should be concluded.

"Wisdom requires the negotiation of a separate treaty between the United States and Germany," he added, "which should provide reciprocal rights and obligations between us and that country alone."

MINE OWNERS SEEK TO ESCAPE FEDERAL TRIAL

ST. LOUIS, May 5.—Suit for an injunction restraining government officials from compelling their appearance in the United States district court at Indianapolis to answer indictments charging violation of the Lever food and fuel control act was filed in federal court here today by three mine operators under indictment as a result of the recent miners' strike.

Caucus on State Ticket.

ST. PAUL, May 5.—Minnesota republicans today were caucusing on a state ticket. The county delegates will make efforts to mold all republicans around one ticket at the state convention here Saturday.

Kentucky Endorses Cox.

LOUISVILLE, KY., May 5.—Gov. James M. Cox of Ohio will have the support of Kentucky's 26 delegates to the democratic national convention at San Francisco. The state convention, meeting here, voted just before adjournment early today to send the entire delegation to the coast pledged to the Ohio governor.

Eight delegates, each with half a vote, were named by the convention. They were Senator A. O. Stanley and J. C. W. Beckham, Congressman A. W. Barkley and Ben Johnson, Desha Breckenridge, Miss Laura Clay, Mrs. Nora Layne and Mrs. Cora Wilson Stewart.

Congressman Fields was chosen permanent chairman. Former Senator Camden was named national committeeman, succeeding W. B. Haldeman, resigned.

Women sat in the state convention yesterday for the first time. Miss Mazie Pogue, school teacher, was the first woman delegate seated. Cora Wilson Stewart was the first woman to raise her voice on the floor of the convention, seconding the nomination of Scott Bullit to be temporary chairman.

Wood Claims Some Michigan Votes.

KALAMAZOO, MICH., May 5.—Chief interest in the Republican state convention here today centered in prospects of a lively contest over the tone of the endorsement expected to be given Senator Hiram W. Johnson as Michigan's primary choice for the presidential nomination.

Four delegates at large to the national convention were to be selected and two districts were to name their delegates to caucuses during the day. The other 11 districts had previously held conventions.

By reason of his 44,371 plurality in the primary early in April, Senator Johnson's backers contended that inasmuch as their condidate won 8 of the 13 congressional districts in the primary, the way should be left open for an expression for him after the delegates had discharged their obligation to Johnson on the first ballot.

Senator Johnson was to have addressed the convention, but was unable to attend. Congressman Joseph W. Fordney was the chairman.

KANSAS CITY, KAN., May 5.—The Kansas republican convention met here today to elect four delegates at large to the convention in Chicago, choose presidential electors, adopt resolutions outlining the party's views on dominant political issues and lay plans for the coming campaign.

SPRINGFIELD, ILL., May 5.—Presidential electors and alternates and state central committee members will be selected at conventions held in the 25 Illinois congressional districts today by both the republican and democratic parties.

Showing Pleases Hoover.

NEW YORK, May 5.—Surprise that he made as good a showing as he did in the California primaries was expressed here today in a statement from Herbert Hoover.

"With a group of amateur clubs only a month old, they were, of course, handicapped in opposing the regular party organization, but the real situation is that the people of California have been much torn between their loyalty and friendship to the senator for his able rescue of the state during his governorship from vices of corporations in control, and his too narrow vision of our interests."

"The fact that in these primaries more than one-third of the party protested against this latter view should strengthen the support of the republican majority in the senate," the statement said.

TWO MORE TESTS REACH SAND IN THE K. M. A. DISTRICT

Two tests in block 25, Kemp's Wichita Valley farm lands, just west of the Kemp-Munger-Allen line, and near the Art-Boger-Ard-Haynes and Keen-Wolf wells, were reported on the sand Tuesday afternoon, the No. 2 Munger of the Keen-Wolf, which got the sand at 1740, and the No. 1 Munger of the Republic Oil and Gas Company, whose 20 acre lease lies just to the north of the Keen-Wolf, which got the sand at the same depth. Although these tests are expected to be drilled into the sand within the next few days, the time of completion could not be learned Wednesday.

Nearly a score of other tests in this section are also nearing sand depth, among which are tests belonging the Cline Oil Co., the Bill Rowe Oil Co. and the Art-Boger-Ard-Haynes syndicate. The Kemp-Munger-Allen No. 4, which is reaming down a small hole within a few feet of where they expect to get the sand, is also expected to be at sand depth within the next day or two. This test is, however, coring down a small hole and then reaming down, using standard tools, and as particular care is being exercised the progress is naturally slow.

PRICES ON PRINT PAPER TO BE ADVANCED FURTHER

WASHINGTON, May 5. — Further advances in print paper prices are to be made by the International Paper company July 1, said a telegram from Chester W. Lyman, vice president of the company, which was presented today to the senate committee investigating the paper shortage.

SENATOR KENDRICK LOSES HIS ADOPTED FATHER

FORT WORTH, May 5.—Ike T. Kendrick, uncle and adopted father of Senator John B. Kendrick of Wyoming, died tha morning at Camp San Saba. He was a pioneer ranchman of West Texas. He reared the present senator from childhood.

BOGER-ARD-MAER WELL IN 41 FLOWING, SAY LATE REPORTS; PACKER SUCCESSFULLY SET

With the packer reset successfully, the Boger-Ard-Maer in block 41, a mile south of the Kemp-Munger-Allen, was again flowing Wednesday afternoon, according to late reports from the field. The setting of the packer was successfully completed during Tuesday afternoon and night, and the well bailed down during the day.

The well made its initial flows Saturday night, and was subsequently shut it. On being bailed Tuesday afternoon the packer gave way before the well had been bailed down 500 feet, making the pulling of the liner and the resetting of the packer necessary.

A REPLY TO MR. OTIS BACON

To The Times:

I note, with regret, a report in Tuesday's Times, of a speech made by our respected fellow-citizen and townsman Otis Bacon, at the republican mass-meeting Tuesday, in which he is credited with saying, among other things, with reference to President Wilson:

"What did he do? Among other things, he sailed from Brest, leaving soldiers sleeping in the mud, saying that he didn't want to be bothered with them."

Again, referring to the action of the President in the Mooney case, he is reported as saying:

"The execution of this man, who had placed a suitcase filled with dynamite on a crowded street corner in San Francisco, the explosion of which resulted in the death of 17 Americans engaged in a patriotic parade, and who was indicted by a grand jury, tried and convicted, affirmed all the way to the supreme court, was prevented by President Wilson on the grounds that it would lead to international complications which were not to the best interests of the United States. This constitutes the darkest blot on the Wilson record."

Then, quoting Senator Poindexter, the speaker said:

'Wilson is the recognized leader of the 'Reds' the world over."

Ordinarily, we pay but little attention to political utterances, made in the heat of a campaign, but Mr. Bacon has made this so strong, if correctly quoted, that I believe he should be answered.

In the first place, it is surprising that Mr. Bacon should find it in his heart to thus attack Mr. Wilson. If I remember rightly, the Wilson administration kindly left Mr. Bacon in the postoffice at Wichita Falls for two or three years, fully knowing his republican principles, and it seems to me that he owes the administration a little debt of gratitude that ought to deter him from such an avalanche of criticism.

Answering the substance of Mr. Bacon's criticisms, I undertake to say that Woodrow Wilson never, in his whole life, made use of any expression even remotely indicating that "he didn't want to be bothered with the American soldiers," at Brest or anywhere else. It is true that I was not there; neither was Mr. Bacon and neither of us can swear to our statement, but such an expression is so foreign to anything the President ever said that I feel justified in denying it categorically.

As to the soldiers being in the mud at Brest (and everywhere else in France, as for that) it is probably true. All the overseas boys have told us about the mud in France and Flanders, but there are not many of them who hold President Wilson responsible for the mud.

As to the Mooney case, I am fully convinced that the president did just what he thought was best to do. He may have made a mistake; if he did, it was on the side of mercy to say the least of it. He was and is in a better position to know about that than either Mr. Bacon or myself, however. What the public interests demand in time of war is intrusted to the president and I am sure this was and is in safe hands. I recall, in Texas history, old Sam Houston was bitterly denounced for not hanging or shooting Santa Anna when he captured him at San Jacinto, but I think the treaty he got out of him, giving Texas its independence of Mexican rule was better than revenge for the crimes of the Alamo and Goliad.

As to the statement that "Wilson is the recognized leader of the reds the world over," I cannot find it in my heart to be as patient with this assertion as I would like to be, even if it is a quotation from Senator Poindexter. By the "reds" we mean in this country, the anarchists, communists and extreme bolsheviks who want to tear down existing government by fire and sword, dynamite and infernal machine, and, the statement occuring in connection with the Mooney case of bomb-throwing, I take it that Mr. Bacon meant to say that he, in common with Poindexter, believes the president to be that sort of a man; a believer in the overthrow of existing government by force; a "red" and not only a red but the world-wide leader of the reds. Now this statement, in my judgment, does an injustice not only to President Wilson, but also to Mr. Bacon. I cannot force myself to believe that Mr. Bacon believes any such thing as this. If he thought we had such a president as this, I fully believe Mr. Bacon would have migrated to Mexico or some other country before this time and not run the risk of losing his property at the hands of a red government.

I believe in the utmost freedom of speech in this country; that is to say, I believe in the right of free speech, but I do not believe in such an exercise of that right as Mr. Bacon seems to have allowed his enthusiasm to betray him into. I do not want the young and thoughtless people of our country to be led to believe that our president is an anarchist or a nihilist or anything else the designation of "red" stands for. I do not want them to believe that he is or ever was blind or deaf to the needs of our soldiers abroad or our people at home, and it is this desire on my part and not to provoke any sort of controversy with Mr. Bacon, who is my personal friend, that inspires me to write this letter.

Yours Truly,

P. A. MARTIN.

SOLDIER BONUS BILL MAY LINGER IN SENATE

Special to The Times.

WASHINGTON, May 5.—The soldier bonus bill will soon be put through the House, but according to reports today the measure will linger in the Senate for some time before enactment into law. There were even reports at the capitol today that the Senate would delay the measure until after the November elections, when the pressure and the threat of retaliation at the polls will not exist to warn the solons that unless they enact the bonus bill the former service men will mark them for political slaughter. These reports, however, were vigorously denied by senators who disclaimed ignorance of any plan to deny the boys from the trenches their demands.

Dissatisfaction with some provisions of the House bill were voiced today by overseas veterans, who object particularly to the $1,000 loan clause to be used in developing farm lands. The veterans counted on the House Ways and Means Committee including in the bill something along the lines of the proposed Morgan measure, which would have given a loan to each former service man of $4,000 to purchase a farm or a home in the city, with a life time to pay back the advance.

The 60-day clause also meets objection. Under this the cash bonus would be computed for each day's service, less the first 60 days. The boys think they should be paid for all the days of service.

There are a lot of other things in the bill that the veterans think could be more liberal, particularly the insurance features. This clause most of the veterans consider practically worthless.

Then, too, many of them believe the cash bonus should have been more than $1.25 for each day's service. They thought about $1.50 would have been right for this part of the bill.

Not only are the veterans dissatisfied with the bill but protests by the hundreds are voiced against the taxation features, which will raise $1,800,000,000 to pay the awards. It seems from these protests that nobody is satisfied with the various taxes that are to be levied to pay the bonus and the other benefits. Members of Congress say the service men ought to be glad that they are to get anything.

WHOLESALERS AND GROCERS ARRESTED AS PROFITEERS

SHREVEPORT, LA., May 5.—Following an investigation of several weeks by operatives of the department of justice on complaints that the Lever food act was being violated in Shreveport, United States Commissioner Slattery yesterday afternoon issued 14 warrants against a number of wholesalers and retail grocers. The warrants charge selling without license, hoarding and profiteering. They will be served on the accused firms today.

ISLAND IN CARRIBEAN HAS VOLCANIC ERUPTIONS

NEW YORK, May 5. — Indications that volcanic eruptions were taking place on the island of Old Providence, in the Carribean sea, were reported here today by the United States Fruit Company steamer Calamares. A wireless message from the ship said that volumes of white smoke were observed ascending from one of its tallest peaks late yesterday.

CHILDREN'S AID SOCIETY FORMS ORGANIZATION

The Wichita county organization of the Texas Children's Home and Aid Society was effected on Wednesday morning at 11 o'clock, at the Chamber of Commerce. Mrs. J. W. Lee was elected chairman, Marvin Smith, vice chairman and Mrs. P. P. Langford, secretary. The local men and women interested in the work of the society were assisted in the organization by Miss Hendricle and Miss Phillips, district superintendent, who will be in charge of the Wichita county work.

Miss Hendricle has been working in Wichita county for the past month, getting affairs in readiness for the organization. At a meeting to be called soon, the county board of directors will be named. Two directors will be named from Iowa Park, Electra and Burkburnett. The financing of the society is also to be accomplished, through individual solicitation, instead of drives. There will be no general drive or subscription for the organization, it was emphatically stated. There is also no need for a local treasurer, all financial matters being handled through the state treasurer, the state accounts being audited monthly.

During the month that Miss Hendricle has been quietly working in Wichita county ten children, who were homeless, have been put in the home in Fort Worth, which acts as a clearing house in securing "homes for homeless children, and children for childless homes." Miss Hendricle will have a detailed announcement of the plan of operation of the society in a day or so.

DEPUTY CONSTABLES HAVE BUSY NIGHT

Spiller and Belcher, Constable Nail's trusted lieutenants spent a night of thrills last night.

The first of the series of thrills occurred early in the evening and at one of the important street intersections of the city. The deputy constables were "munched" by two well-dressed young men who claimed that they were broke and seriously in need of a "square" meal.

"Sure, come to the police station and you'll get a meal and bed" Spiller told the astonished youths. The young men were escorted to the police station where $10 in money was taken from one of the youths who a few minutes before had been 'munching' on the street corners. He is now in the city jail charged with vagrancy. Examination of the second youth's pockets disclosed that he carried a pair of brass knucks. He was turned over to the county for trial on a charge of carrying concealed weapons.

Spiller and Belcher started through an alley when a big negro, hat in hand and coat under his arm came down the narrow passage-way running full speed. The negro's unusual speed aroused the suspicions of the deputy constables and he was stopped. A pistol was found in his hip pockets and he was taken to the county jail.

Again Spiller and Belcher returned to the scene. A room house on Tenth street fell under their suspicion due to strange sounds coming from a partly raised window. Closer examination disclosed that the room was filled with persons and a dice game was evidently in progress. The deputy constables pushed the door open and walked in. A gang of dope-peddlers was placed under arrest and turned over to the federal authorities. Instead of the room being the scene of a dice game, persons well known to the underworld of this city were sitting around a table dividing a quantity of morphine sulphate into capsules which, officials are certain, was to be peddled to drug addicts of this vicinity. Three packages filled with morphine sulphate were seized together with three or four hypodermic needles.

But the biggest thrill of the night yet awaited Spiller and Belcher. They entered the lobby of a rooming house but were ordered out by the night clerk. The proprietor came down from his private apartment and joined in the row. A general "free-for-all" was the result and the proprietor and the night clerk were escorted to the county jail.

The night clerk was released Wednesday and went before Assistant County Attorney John M. Martin to make a complaint against both Spiller and Belcher, alleging assault and battery. Wayne Summerville, assistant county attorney, took the complaint, but it was never filed as a further investigation indicated that the deputy constables were justified in striking the hotel clerk, due to his attempts to prevent the officers from investigating alleged disorders said to be permitted in the house.

M. C. Clark, now of Chicago, but former resident of Wichita Falls, is the guest of his brother, C. H. Clark.

Frank B. Crosthwaite of Washington, counsellor at law, who has made a specialty of the oil industry, and who accompanied Frederic A. Delano, federal receiver, to Texas to act in an advisory capacity, left Wichita Falls on his return to Washington Wednesday afternoon.

POLICE USE RIOT GUNS TO HOLD STRIKERS AT BAY

WATERBURY, CONN., May 5.—Police went on street duty today armed with riot guns after several thousand strikers of the brass and metal working plants had given notice they would parade without a permit. The strikers strolled in pairs on the sidewalks, however, and several were arrested in the factories. Yesterday two strikers were found guilty of intimidation and given 30 days in jail each.

The home guard was held at the state armory in readiness for a call.

BANKER OF TULSA PLEADS INNOCENCE OF EMBEZZLEMENT

TULSA, OKLA., May 5.—Charles Reynolds, former assistant cashier of the American National bank, which was closed recently by the federal bank examiner, pleaded not guilty yesterday afternoon before U. S. Commissioner C. L. Yancey, on the charge of embezzling $31,000 in funds of the American National.

Reynolds was arrested Monday and waived arraignment yesterday, and was held under $15,000 bond for action by the grand jury.

The information upon which Reynolds was arrested states the defendant at various times appropriated sums ranging from $200 to $19,000 of the property of the bank by which he was employed.

DEFECTIVE TRANSCRIPTS WORRY APPEALS JUDGES

AUSTIN, May 5.—Appeal of J. A. Davis, Bell county, who was fined $25 on conviction of violating the anti-pool hall law, was dismissed today by the court of criminal appeals, because, the court stated, the transcrip was "defective and faulty."

This case involved the constitutionality of the pool hall law which had been assailed by Davis, but because of the defective transcript the court did not pass on the validity of the act. In dismissing the case, the court made this statement: "This court suffers so continually from the carelessness of officials charged with the duty of preparing transcripts, that its patience is almost reached."

While the federal courts have upheld the constitutionality of this law, it has never been passed on by the state court of criminal appeals.

The action of the district court of Montgomery county in denying bail to ex-parte Floyd Young from that county was reversed today by the court of criminal appeals, and Young was allowed bail in the sum of $10,000. He stands charged with the killing of Bertha Snooks, an 18 year old girl.

REPLOGLE STEEL DEALINGS UNDER EXCHANGE INQUIRY

NEW YORK, May 5.—Members of the stock exchange were asked by the committee on business today to report all purchases, sales or clearances of Replogle steel stock from April 19 to May 4.

Allan A. Ryan, who was connected with the recent activities in stock of the Stutz Motor company on the exchange, is a heavy holder of Replogle stock, according to reports in financial circles. Trading in Stutz stock was suspended by the board of governors after the price went up $300 a share within a few days.

Following announcement of the Replogle transactions, the stock sold off 3 points to 89.

The committee asked broker firms to report all transactions, giving the price, the name of the firm and the customer. The number of shares each company was "long" and "short" was also requested.

RARE INDIAN CURIOS ARE IN OKLAHOMA COLLECTION

OKLAHOMA CITY, May 5.—Probably the most expensive and largest collection of rare Indian curios in the southwest has been acquired by the Oklahoma Historical Society, it was announced today, with the acquisition of the Edgar S. Bronson relics.

Two hundred articles made and used by famous members of the Cheyenne, Apache and Comanche tribes make up the group. Chief among the curios are a cradle made by Mrs. Lone Wolf; the ceremonial shield of Yellow Bull, Cheyenne chieftain; a plaited rawhide lariat once owned by Big Baby; the headdress of Red Moon, a Cheyenne; a small pipe made by Mrs. Big Baby, and the charm of Lame Bear, Cheyenne medicine man.

TELEGRAPH MESSENGERS NOW THREATEN STRIKE

CHICAGO, May 5.—Still another strike was threatened here today when the telegraph messengers' delivery union presented to the Western Union and Postal telegraph companies a demand for an eight hour day, $23 a week for day work and $25 for night work.

Street carmen on surface lines presented a demand yesterday for $1 an hour. Conductors now receive 65 cents an hour; motormen 67 cents. Union contracts on surface and elevated lines expire June 1.

DEATH OF HUSBAND TAKES WIFE HOME

NE WYORK, May 5.—Death led Mrs. Elizabeth Smith, mysteriously missing since April 10, back to her home here.

Her aged husband, Joseph Smith, and their grown children were unable to explain her disappearance. He suffered a nervous breakdown. One of the daughters received a letter from Mrs. Smith, merely announcing she would never return home. When the contents of the letter were telephoned to Smith he dropped dead from the shock.

Mrs. Smith appeared at her home today. She said she had returned for the funeral. She refused to explain why she had left.

MINOR OFFICIALS CANNOT USE FINE AUTOS ANY MORE

NEW YORK, May 5.—Minor officials of New York city who have been in the habit of using luxurious automobiles to make their official calls, hereafter will make such trips in municipally owned taxi-cabs. The city decided yesterday to add 25 taxis to the municipal garage equipment and do away with 209 cars.

To make certain that the officials will use the cabs strictly for business purposes, it was decided to equip each cab with a meter to record mileage and waiting time. The charges will be entered against each department using the machines.

Have You Made Your Mother's Dreams Come True? Are You the Strong, Successful Iron Man She Expected You To Be?

Or are Worry, Work and Ill-Health Sapping the Iron From Your Blood and Robbing You of the Prizes that Come With Health and Success? Physician Explains Why So Many Men of To-day Need the Help of

NUXATED IRON TO BUILD RED BLOOD That Gives Courage and Power To Go In and Win.

Every mother has dreams for her son. And whether it be the mother of the prize-fighter or the statesman, she is equally proud when HE wins. She thinks of HER struggle from the very start to nourish the tiny babe into rugged boyhood—then to build up his health, brawn and brain to fight the battles of young manhood. She did HER best to teach him what health and strength meant in the race for success, and the boy who was able to hold fast to her teachings is today in a position of power.

But there are thousands whose love for their mother is just as deep—thousands who wear the white carnation on Mothers' Day—thousands who never fail to write home—YET they would hesitate to answer the question, "Have You Made Your Mother's Dreams Come True?"—simply because in the mad rush for the Success which they knew would make HER proud, they have slipped up on one point. They have neglected her oft repeated words: "Look to Your Health First, My Boy." In pushing their mental energies to the limit without the physical strength to back them up, they have allowed worry, work and ill-health to sap the iron from their blood and leave them weak, nervous and run-down. These men are as anxious to get ahead as anyone else but they do not realize that iron is absolutely essential to the greatest development of physical and mental power. But in the wear and tear of modern day life when their forces are constantly drawn upon, they are without the sustaining strength produced by the nourishing foods and outdoor sports of boyhood days that kept up the supply of iron in their blood. Unless they supply this iron deficiency now, they cannot hope to have the rich, red blood that sends fires of energy through body and brain and makes men get ahead. Yet, to take the wrong form of iron may prove worse than useless and therefore physicians below explain why they prescribe only organic iron—Nuxated Iron—for red blood, strength and endurance.

"It is the men of blood and iron who will forge ahead in the business and political life of the country today," says Dr. T. Alphonsus Wallace, a physician of many years' experience and formerly of the British Naval Medical Service. "Without iron there can be no strong, red-blooded men, and unless this strength-giving iron is obtained from the foods we eat, it must be supplied in some form that is easily absorbed and assimilated. For this purpose I always recommend organic iron—Nuxated Iron—which by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy into the whole system whether a person is young or old. In my opinion, Nuxated Iron is the most valuable tonic, strength and blood-builder any physician can prescribe."

Dr. John B. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City, says, "To help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Every Man Who Feels the Thrill of Mother Love Owes it to Himself to Read the Accompanying Article

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

RECEIVER DELANO WILL RETURN TO WASHINGTON SOON

Frederic A. Delano, federal receiver for the Red River oil lands, and his immediate advisors, will leave for his principal office in Washington within a few days, probably around the last of the week, where he will prepare the report recommending an operating policy, which he is required to file with the supreme court within thirty days of his appointment, it became known today. The exact date of the receiver's departure depends to a large extent on the receipt of some information still lacking which is to be used in the compilation of his report.

Prior to his leaving for Washington, the receiver will have completed the organization of a full force and field force, which will be left in charge at Wichita Falls, on the organization of which he is at present engaged.

Considerable bearing on the action of the court in the decision of the motions for modification of the receivership order, filed by Texas landowners, may be exercised by the receiver's recommendations in this report, inasmuch as the federal government, in its answer filed Monday, in referring to modifications asked by the Sinclair Oil & Gas Company, and the Bass Petroleum company, asks the court to hold up action until the investigations of the receiver, an officer of the court, have been received.

SUITCASE CONTAINING BROKEN BOTTLES FOUND NEAR RAILROAD TRACK

A short distance east of Henrietta a suit case was hurled from a Wichita Falls bound passenger train and its contents, valued on the "bootleggers' curb" at around $15 the quart, was wasted upon the thirsty soil. Evidence of the precious shipment was discovered Wednesday by motorists en route from Fort Worth to Wichita Falls. The suit case was filled with broken bottles, but the liquid ran out and left only a moist soil. Thirty travelers journeying along the "dry" highway paused at the scene of the sad tragedy and viewed with reverence the remains of broken bottles and "broken hopes."

Federal officials believe that the suit case was hurled from a pullman window by a bootlegger en route to Wichita Falls. Secret service men have a habit of examining all suspicious-looking suit cases, travelling bags and trunks and it is probable that one of Uncle Sam's agents was getting too close to the bootlegger who hurled his precious shipment through the car window.

There were no identification marks upon the suit case.

Three prisoners placed in the county jail Tuesday on charges of theft were missing Wednesday morning when officers visited their ward. A section of the city jail has recently been taken over by the fire department and all prisoners had been removed from that quarter. The night jailer was not aware of this fact and lodged the three prisoners in the old ward. The rear end of the jail was open and all the prisoners were required to do was to pass down a flight of stairs onto the street and freedom.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts If Your Back Hurts or Bladder Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—adv.

"My Wife Suffered Four Years," Says Salesman.

"There's no way of telling how much this Orgatone has been worth to my wife," said S. W. Barnhill, a well known salesman for the Denny Tag Company, who lives at 1717 Magnolia street, Fort Worth, Texas, while in Renfro's Drug Store a few days ago.

"For four years," he continued, "my wife suffered from stomach trouble and awful headaches. Everything she would eat soured on her stomach and the gas would get up around her heart so she could hardly breathe, and at night she could hardly sleep on account of it. She lost weight and got so thin and weak she was barely able to look after her work about the house, and while I bought lots of other medicines and treatments she kept getting worse, 'till she began taking Orgatone Treatment.

"Orgatone certainly is doing the work for her and she has actually gained in weight and strength already. She can eat hearty, sleep well at night and I never hear her complaining of headaches and palpitation of the heart. She has a better color, looks better and feels better and I think it is simply wonderful what Orgatone has done for her. We both think Orgatone is fine and I'm buying more now and will keep on buying it as long as she wants it."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the Young and the Miller Drug stores exclusively, under the personal direction of a special Orgatone representative.—Adv.

THIRTY-SEVEN CASES IN CORPORATION COURT

Thirty-seven cases were disposed of at Wednesday's session of corporation court. Twenty cases alleging violation of the traffic ordinances were called and pleas of guilty entered by a majority of them.

Six men were arraigned for disturbing the peace. They were accused of using abusive language and disturbing the peace in the progress of an argument over an oil transaction at a local oil exchange Tuesday night. They were assesesd fines on their pleas of guilty.

A trio of negroes picked up in the "flats" Tuesday night were fined on charges of vagrancy.

COL. W. L. CULBERTSON VISITOR HERE WEDNESDAY

Col. W. L. Culbertson of Fort Worth, placement officer for Texas for the vocational training section of the bureau of war risk insurance, was a visitor in Wichita Falls Wednesday, being the guest of Maj. D. M. Perkins and other former members of the 36th division with whom he served in France.

TEXAS PENITENTIARIES HOUSING 3083 CONVICTS

Three thousand and eight-three convicts are now confined to the Texas state penitentiaries, according to S. L. Hyder, penitenaiary agent, who arrived in Wichita Falls Tuesday. Mr. Hyder has escorted a dozen or more prisoners from Wichita Falls to the state penitentiaries during the past three months.

Most convicts now in the state penal institutions are "short-timers," Mr. Hyder said.

Amusements

At the Plaza.

"The Pagan God" will be shown at the Plaza tonight. Bruce Winthrop, an American secret service agent, is sent into the interior of China, becoming a "hatchetman."

In order to find out the finer workings of the "Tong of Freedom," Winthrop pretends to have deserted his own people—becomes a renegade, in fact—and is so stigmatized by the American consul at Nanching, who did not know Winthrop's mission in Mongolia.

"You're deserting your country's service for alien, yellow gold!" he snorted. "It's damned near treason!"

Beautiful Beryl Addison, Winthrop's sweetheart, thought the same. "You are not worthy of the love of any woman if you do this thing," she declared.

But Bruce kept his lips sealed, for the lives of thousands of Americans were at stake, and duty was stronger than love. To be a traitor in the eyes of the woman he loved, and to pretend to reciprocate the love of a passionate and ambitious half-caste adventuress, galled his spirit. But the end justified the means, though his life hung in the balance and the love he cherished above everything in the world seemed lost to him.

Warner has a difficult role in this production, but he portrays the character superbly and is always master of the situation.

At the Empress.

"King Spruce," Holman Day's fascinating narrative of the Maine forests, will be presented in picture form with Mitchell Lewis as the star at the Empress theater, beginning tomorrow. A forceful, quality drama of real life, "King Spruce," is another triumph for Mitchell Lewis, the peerless actor of rugged types. Brilliant direction, supplied by Roy Clements, and splendid characterizations by a splendid cast are noteworthy features of the production.

The star is introduced as Dwight Wade, a Maine college tutor, whose love for Elva Barrett, daughter of a lumber king, brings him north with the close of the college season to press his suit for her hand. But Barrett has other plans for Elva and orders Wade from the house. In order to keep Wade away from his daughter, Barrett offers him a place in his employ through Colin McLeod, his superintendent. Wade accepts and leaves for the woods with McLeod but later is dismissed following an altercation with McLeod. Wade, however, joins forces with Rodburn Ide, who has timber interests adjoining Barretts.

Arriving in the woods, Wade finds Barrett and his men in the act of burning out a family of squatters on his land. With the family is Kate Arden, reared by strangers since childhood. With the house in flames Kate rushes out with a torch and sets fire to Barrett's land. Wade attacks Barrett when the latter tries to shoot Kate. Later Wade learns that Barrett is Kate's father, and after promising to take her to his home Barrett schemes to marry her off to McLeod for a price. A fight ensues when Wade learns of Barrett's perfidy and the lumber king is seriously hurt. His daughter, Elva, is summoned and again Wade lays siege to her heart. Learning the facts, Elva accepts Wade and prevails upon Barrett to recognize Kate as his daughter.

At the Majestic.

The famous cowboy star, Tom Mix, makes his debut in this city as an author and producer at the Majestic theater, where William Fox will present his latest and greatest western thriller, "The Daredevil" today. This photoplay promises to be something new, for Mix is giving the public his idea of what a fast moving, rapid-fire, sure-hit story of the west is, and how he believes real westerners would interpret it.

As in all Tom Mix productions, many thrilling and hazardous deeds of daring are performed by the author-director-actor and his supporting company.

Mix rides through water falls into the cave of the bandits, jumps from his horse to a train moving at the rate of 36 miles an hour, rescues his sweetheart by swinging her from the train to the back of his faithful horse, and introduces some novel rope-throwing features.

As usual, the star is superbly supported by a capable cast, which includes Eva Novak, Charles K. French, L. C. Shumway, Sid Jordan, Lucille Younge and George Hernandes.

MILLIONAIRE OWNER PAYS $35,000 FOR CONTRACT ON JOCKEY

S. F. Simms Pays Fabulous Sum to Have Cliff Robinson Ride Prince Pal.

LOUISVILLE, KY., May 5.—In order to have a rider for his horse, J. W. McClelland, trainer of Prince Pal, starter in the Kentucky derby and agent of Edward F. Simms, millionaire owner of Prince Pal, purchased the contract on Jockey Cliff Robinson for $35,000. D. B. Lester first bought the boy's contract for $20,000.

Robinson led American riders two years but last winter quit New Orleans tracks when he completely lost his form.

It is expected three entries will go in the derby. H. P. Whitney may send three horses—John P. Grier, Wildair and Damask. Captain Ral Parr may send Blazes and Paul Jones and Congressman Lofty may send both Donna Conna and On Watch.

TENTS WILL BE USED IN OKLAHOMA STORM AREA

OKLAHOMA CITY, May 5.—A request for tents to be used in the storm-swept area of Pegga, Cherokee county, to house refugees was received today by Governor Robertson from the Red Cross chapter at Pryor, Okla. It was said at the governor's office that the tents probably would be sent from state national guard supplies at Muskogee and Miami.

"RUSSELITES" SET AT LIBERTY AFTER SERVING IN PRISON

"Religious" Book Was Against Service In Army Under Draft.

NEW YORK, May 5.—Joseph F. Rutherford, head of the "Russelite" faith, and eight of his church officers were freed today in the federal court in Brooklyn. Indictments against eight of them charging violation of the espionage act and one charging perjury against the ninth were dismissed on motion of District Attorney Ross.

The indictments were dismissed when the Russelites appeared for a new trial ordered by the United States circuit court of appeals, after they had served nine months of a 20-year sentence for alleged obstruction of the draft through statements in a book called "The Finished Mystery."

Mr. Ross said the convictions had been obtained in war time when people were agitated and he felt that the ends of justice would be served in dismissing the indictments. Judge Chatfield said that he thought the result of the trial was beneficial, not only to the defendants, but to the United States.

MURDERER RETURNS TO PRISON AFTER IDENTIFYING BODY

Bluebeard Will Shortly Plead Guilt In Hope of Clemency.

LOS ANGELES, May 5.—Walter Andrew Watson, alleged confessed bigamist and murderer, was returned to his prison ward in the county hospital today after his trip to El Centro, during which he aided officers to find the body of Nina Lee Deloney.

He testified at an inquest that he had killed her.

Watson was weak from the exertion and excitement and had to be almost carried from the train to an ambulance. It was announced that an indictment charging murder would be returned and that he would be taken to court to plead as soon as possible.

According to Watson's previous statements, he will plead guilty in the hope that he may escape capital punishment.

The body of Nina Lee Deloney probably will be shipped to her former home in Kentucky.

MANHATTAN COMPANY ASKS FOR RECEIVER FOR TEXAS UNITED OIL COMPANY

The second chapter in the big legal battle between the Texas United Oil Company and the Manhattan Oil Producing Company et al, was written Tuesday when the Manhattan interests and others previously named as defendants in a suit for cancellation of contract, requested the appointment of a receiver for the Texas United Oil Company. The request for a receiver for the Texas United Oil interests was made by the defendants in a cross petition filed Tuesday and in which it is alleged that certain holdings on block 98, Red River valley lands, were being damaged through gross negligence on the part of the plaintiff, in the original petition in which cancellation of an earlier contract is sought. Judge Edgar Scurry at the 78th district court fixed Saturday morning at 9:00 o'clock as the time for hearing the request for receivership.

The original petition of the Texas United Oil Co. was filed on April 24 and the Manhattan Oil Co., the Haynes Oil Co. and several individuals are named as defendants. The plaintiff alleges in his original petition that he was induced, through fraud, to enter into a contract with the defendants whereby he agreed to pay $200,000 for an oil and gas lease on a small part of block 98, Red River valley lands. The leasehold did not come up to the standard represented by the defendants, it is alleged, and the request for cancellation of the original contract is based on this alleged fraud.

The defendants, however, aver, in their cross petition, that they now hold a lien for $115,000 against the Texas United Oil Co. and that the holdings in block 98, are being seriously injured through gross negligence on the part of the plaintiff, and the appointment of a receiver is prayed for on the grounds that the lien for the $115,000 is rapidly depreciating due to negligent management of certain oil producing wells on the tract involved in the original contract.

The plaintiff filed his answer to the defendants' cross petition and denied all assertions set forth in that document.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

LITERARY DIGEST'S POLL.

The third week of the Literary Digest's political poll shows a total tabulation of 381,000 votes as against 150,000 for the second, but there are few material changes in the standing of the candidates. One fact that some will think of significance is that the great preponderance of the vote received is republican, General Wood's vote being approximately equal to the total for all the democratic candidates. But there is so far very little of the vote from the "solid South," and that is at least a partial explanation, although candor compels the admission from a reluctant democrat that the fact of 53,861 declared democrats have voted for the republican candidates as against 7,246 declared republicans voting for democrats is embarrassing if not alarming, if the percentage should continue that way. Herbert Hoover's democratic vote, however, totals almost half of the number—24,849—and his and Johnson's democratic vote together total 33,154 or roughly 75 per cent, many democrats voting for Hoover probably as a democrat, as the ballots included his name so a preference could be given in either the republican or democratic column. On the other hand, there is no particular gratification to us in the size of the republican vote bolting their party, because of the 7,246 republicans expressing the intention to vote the democratic ticket, more than half of them —3,773—evidently were moved by the "sweetness" of Governor Edwards of New Jersey. The only other democrat to get as many as 1,000 of these votes was the President with a total of 1,063.

The respective standing of the candidates:

Democrats—	Vote
McAdoo	18,032
Edwards	16,240
Wilson	14,758
Bryan	9,768
Cox	9,310
Clark	4,041
Palmer	3,449
Marshall	1,841

Republican—	Vote
Wood	75,835
Hoover	62,420
Johnson	60,419
Lowden	27,908
Hughes	16,166
Harding	16,007
Taft	8,331
Coolidge	8,134

The poll is expected to include 11,000,000 persons or roughly 65 per cent of the voting strength of the country. When the ballots are in, the totals ought to represent some indication of the attitude of the public toward the leading candidates, but the democratic vote shows a lack of crystallization that prevents there being on that side any outstanding figure, which may be another reason for the smallness of the democratic vote cast through voters, having no strong preference, simply declining to vote.

A SERIOUS ACCUSATION.

O. T. Bacon, chairman of the Wichita county republican convention, is quoted in Tuesday's Times in reporting his address before the convention:

"Our democratic friends point with pride to the achievements of President Wilson. What did he do? Among other things he sailed off in his ship from Brest leaving soldiers sleeping there in the mud, saying that he didn't want to be bothered with them."

Mr. Bacon ought either to repudiate this report or make an explanation of it and The Times cannot permit it to go unchallenged. If it had come from some irresponsible person it might be allowed to pass, but Mr. Bacon is a man of standing in this community and he was speaking as a representative of the chief political party opposing the president under whom he served for three years as postmaster.

The Times does not believe Mr. Bacon can produce proof of what he says. It does not accuse him of malicious misrepresentation but it does believe he made a most serious accusation in a most careless manner.

PAT MURPHY.

J. G. (Pat) Murphy, one of the interesting figures in the newspaper business in Texas, has sold a controlling interest in his paper, the San Angelo Standard, to Houston Hart of Boonville, Mo.

Mr. Murphy founded the Standard in 1884 and has been at its head ever since. He made the Standard one of the best and most influential papers in Southwest Texas. He is today probably the best known and most popular man in San Angelo. He has fought many fights for what he believed was right, but it is not recorded that he ever came out of a fight without the respect of his opponents.

His friends throughout the state will be glad to learn that while he is relinquishing the active control of his splendid paper that he still retains an interest in it and that he expects to remain in San Angelo. San Angelo wouldn't somehow seem like the same broad, free, hospitable place it is without Pat Murphy's fine smile and hearty handclasp.

Times predictions that with the republican presidential race narrowing down to Johnson and Wood, the republican stand-patters would soon be casting about for a "dark horse" to center upon are borne out in the suggestion of Senator Penrose that Senator Knox of Pennsylvania is the "best equipped all-round international statesman" to be found in the republican ranks and that he ought to be the next republican nominee. The old guard, like our own Bourbons, never learn anything and never forget anything. It has been patent to the casual political observer for months that the old guard calculated on either Lowden or Harding developing sufficient strength of themselves to be made, with the help of the g. o. p. machine, the outstanding figure at Chicago and with the nomination apparently a spontaneous expression from the republican rank and file. But with Illinois and Ohio primaries demonstrating that neither Lowden nor Harding could be considered anything more than a "favorite son" and unable in a close race to carry their own states, the stand-patters have been going over their membership with a view to getting somebody of their kind whom they could "put over" with their kind of spontaneity. Penrose's suggestion of Knox may be taken as at least a feeler, if indeed Penrose is not the spokesman and Knox has been decided on to carry the stand-pat banner at Chicago. The republican old guard wants somebody who will take orders; they really preferred Harding to Lowden because Harding is the greater nonentity who entered the race without a platform just to show that he was willing to endorse and espouse anything the leaders decided to write out for him. Neither Johnson nor Wood fills the bill. Knox does with the additional recommendation that he wouldn't have to be ordered, that he would of his own volition and from his own predisposition do those things that would satisfy Penrose et al. Politically, we hope the Penrose element wins out at Chicago—it would make our own party's task so much easier!

May day riots failed to materialize over here. May day is the gala day of international socialism. Then is the time for demonstrations for no other purpose, apparently, than to show a palpitant public how many socialists there are and how influential they are. Paris had a general strike just to demonstrate the organization's strength. Over here there were apprehensions, seemingly well founded, that our own imported radicals planned to "start something." Assassinations, demonstrations, strikes, soviet organizations, all were on the program as the Department of Justice agents got it. None of them materialized. Advance publicity and forewarned officials probably helped to prevent the program being carried out. A much more potent preventive, we believe, however, was the sanity of the American people who refuse to be run off their feet by such fatuous actions that are possible of no good and much harm.

Just Folks.

By EDGAR A. GUEST

Ma and the Ouija Board.

I don't know what it's all about, but
Ma says that she wants to know
If spirits in the other world can really
talk to us below
An' Pa says, "Gosh! there's folks
enough on earth to talk to, I
should think,
Without you pesterin' the folks whose
souls have gone across the
brink."
But Ma, she wants to find out things
an' study on her own accord,
An' so a month or two ago she went
an' bought a ouija board.

It's just a shiny piece of wood with
letters printed here an' there
An' has a little table which you put
your fingers on with care,
An' then you sit an' whisper low some
question that you want to know,
Then by an' by the spirit comes an'
makes the little table go.
An' Ma, she starts to giggle then an'
Pa just grumbles out, "Oh, Lord!
I wish you hadn't bought this thing.
We didn't need a ouija board."

"You're movin' it!" says Ma to Pa.
"I'm not!" says Pa, "I know it's
you;
You're makin' it spell things to us that
you know very well aren't
true."
"That isn't so," says Ma to him, "but
I am certain from the way
The ouija moves that you're the one
who's tellin' it just what to say."
"It's just 'lectricity," says Pa, "like
batteries all men are stored,
But anyhow I don't believe we ought
to have a ouija board."

One night Ma got it out, an' said, "Now
Pa, I want you to be fair,
Just keep right still an' let your hands
rest lightly on the table there;
"Oh, Ouija, tell me, tell me true, are
we to buy another car,
An' will we get is very soon?" she
asked, "Oh, tell us from afar."
"Don't buy a car," the letters spelled,
"the price this year you can't
afford."
Then Ma got mad, an' since that time
she's never used the ouia board.

HOROSCOPE

"The stars incline, but do not compel."

Wednesday, May 5, 1920.

Jupiter and Neptune rule for good this day, according to astrology. Mars and Venus are slightly adverse.

All the indications are most promising for the increase of commerce and the development of business conditions.

Wealth will come to many who will gain through new demands made by the public for labor-saving devices.

Merchants come under a sway making for enterprise and changes that will benefit the public.

This should be a most favorable rule for making explanations of any sort, for teaching or lecturing.

It is a lucky rule under which to start on a journey and ocean voyages begun during this sway should bring about many new acquaintances, some of which will be very helpful.

Bankers have the forecast of great activity and an extension of responsibilities.

Loans to foreign nations and new agreements to aid those needing assistance are foretold.

This is not a fortunate day for love affairs, quarrels being easily precipitated.

Theaters may discover that conditions are trying while this direction of the stars has power to affect players as well as audiences.

This month will bring to women some new recognition of their rights. Appointments to distinguished positions and other honors will come to them.

Sickness and loss of reputation for a man much before the public is forecast.

There is a sign read as presaging a sensational change close to the president.

China now comes to present new problems to diplomats, the seers declare, and they foretell that in American universities some international movement is taking shape.

Persons whose birthdate it is have the augury of a very successful year. They should not quarrel or go to law.

LITTLE BENNY'S NOTE BOOK

By LEE PAPE

Mary Watkins was setting on her frunt steps looking grate in a new wite hat and wite shoes and stockings, and I was setting there tawking to her, and I sed my teetcher was better than her teetcher and she looked mad and wouldent hardly tawk eny more, me thinking, G, I better say sumthing to make her feel all rite agen.

And I sed, Hay Mary, do you know wat you look like today?

Wat? sed Mary Watkins, and I sed, You look jest like a angel.

Benny Pots, I dont think thats a very refined thing to say to a lady, I dont, sed Mary Watkins.

G whizz, wy not? I sed, and she sed, Havent you ever saw eny picktures of angels? and I sed, Yes, and she sed, Well then you awt to know wy not.

Aw gosh, G, I sed, I dident meen that kind of a angel, I ment a angel with clothes on.

Nobody ever saw one with clothes on and I think youre perfeckly awfill, sed Mary Watkins. And she got up looking proud and went in the house, me thinking, Heck, G whizz. And I started to wawk home and who did I meet down at the corner but Loretter Mincer in a new red coat with brass buttins up and down it, me saying, Hay Loretter, woul you tihnk it was a unrefined thin to say to a lady if sumbody told you you looked like a angel?

Certeny not, Id think it was a perfeckly bewtiffil thawt, sed Lorette Mincer, and I sed, Well, you lool like one.

O Benny, how nice of you, sed Loretter Mincer, and I sed, Do you want to take a little wawk.

Wich she sed she did, and I wawked past Mary Watkinses house 3 times with her jest to show Mary Watkins she wasent the ony gerl in the werld.

NEFF FILES APPLICATION FOR PLACE ON BALLOT

WACO, TEX., May 5.—Pat M. Neff sent today to M. H. Wolfe, chairman of the Democratic Executive Committee at Dallas, his application, executed as provided by law, to have his name placed on the official ballot for the July primary as a candidate for the democratic nomination as governor of Texas.

WHY?—

Are Wedding Rings Worn?

(Copyright, 1920, by Wheeler Syndicate, Inc.)

The custom of wearing a ring of metal as a symbol of marriage dates back to the dawn of history. In the fourth chapter of Genesis we read that Tubal Cain gave a ring of iron to his son that with this symbol he should espouse a wife. It is, of course, far from certain that Tubal Cain was the originator of this custom, but it is a fact that the most ancient of peoples made use of the ring,—sometimes on the fingers, sometimes in the nostrils, sometimes as an anklet—as a sign that the wearer had been married.

The use of a gold ring is of more modern origin, the earlier wedding rings having been of iron or even of clay, and is attributable to the fact that the more precious metals have become better known and more "fashionable," just as the latest development of Tubal Cain's iron circlet is a hoop of platinum set with diamonds. But the significance is the same as in the days when cave-men battled for existence with prehistoric monsters.

Side Talks

By RUTH CAMERON

DON'T WASTE HAPPINESS.

"If you have made up your mind to do a thing, it is your duty to expect success in the doing of it."

Who was it said that? I can't seem to remember, but I think it is a good saying and I have a slightly different version of it to suggest:

"If you have made up your mind to do a thing, it is your duty to expect happiness in the doing of it.

A friend of mine was planning to go on a journey. Just before she was to go, one of the members of her family was taken sick. She was willing to give the trip up, but it was one to which she had long looked forward; she needed the vacation and there were educational advantages attached to it, so her family wanted her to go and insisted they could manage without her. She hesitated, balanced her duty to herself and to her family, and finally set off on her journey.

When I bade her farewell I said, "I am so glad you are going and I know you will have a wonderful time."

She shook her head with a worried look. "I don't see how I can have a good time when I am running off this way," she said. "I'm going because mother insisted—she would feel terribly if I gave it up—and because I knew I needed the change for the sake of my health and my work. But I hate to leave at this time and I don't expect to really enjoy myself."

In other words, she doesn't expect to get half the good out of her trip that she should.

What a perfectly absurd spirit in which to go!

It will do her family no good for her to feel that way. In fact, it is ungrateful to them since they have made a sacrifice to let her go and want her to get the most possible out of it.

To let one's mind be haunted in any undertaking one has decided upon, whether of work or pleasure, by the factors which one weighed when one was making that decision, is absolutely foolish and futile. Make your decisions carefully and thoughtfully—but when you have made a decision, learn to let that automatically clear your mind of all doubts, and then, with the deck cleared for action, go ahead.

I wonder if you have heard the definition of a New England conscience—"A New England conscience doesn't keep you from doing things you think you ought not to, but it keeps you from enjoying them while you are doing them."

If that were as true as it is clever (I thought at first that it was, but on second thought I decided that it wasn't) a New England conscience would certainly be the worst thing one could possibly have.

RIPPLING RHYMES.

By WALT MASON.

The Ancient Theme.

When there is naught else to inspire the Scottish bard, he takes his lyre, and sings about the heather, and oftentimes I envy him; for when my stock of themes is slim, I've nothing but the weather. Today my head is working wrong, I cannot chant a decent song, my thoughts all run together; and I'm afraid some angry hick may through my window throw a brick if I rimg in the weather. And yet there's nothing else, ods fish! There's nothing else, though much I wish to write some deathless stanzas; you may have other themes in mind; the weather's all that I can find, out here in bleeding Kansas. The weather comes, the weather goes; sometimes it rains, sometimes it snows, again it ups and freezes; and it embraces all there is of thaws that melt, of storms that whiz, of fogs and mists and breezes. I've worn the weather out, I fear; I've sung about it, year by year, in high and burning phrases; I've raved about it when 'twas cold, and I've reared up, to paw and scold, when it was hot as blazes. It's saved my bacon many times, when I looked round for themes for rhymes, looked round and couldn't find them; and then the weather, good as new, suggested sonnets three or two, and I'd sit down and grind them.

METHODISTS WORSHIP WITH BAPTIST CONGREGATION

Special to The Times.

BURKBURNETT, May 5.—Owing to the absence of the pastor, and to the interior repairs in progress in the Methodist church building, the Sunday school and congregation worshipped with the Baptist church, Sunday morning and evening. The pastor, Rev. T. J. Furness, preached a most forceful sermon on the educational issue of the day, making a strong appeal for better salaries and standards of the teaching profession, especially in Texas. His afternoon sermon at Bradley's Corner was preached in the picture show building as usual. The evening sermon in this city was a warning appeal on "A Wasted Life."

Rev. C. V. Cole is spending the week end in Georgetown attending the home coming of the students of his Alma Mater, Southwestern university.

INQUIRING INTO LEGION'S CLAIM ABOUT TUBERCULOSIS

AUSTIN, May 5.—Investigation was begun here today by Governor Hobby and directors of the Benevolent War Risk Society of the statement made by the post of the American Legion at Houston challenging the estimate that there are 4,000 ex-soldiers in Texas afflicted with tuberculosis.

This estimate was used by the society in its campaign to raise funds for the construction of a hospital for treating tubercular ex-soldiers at Kerrville. Officers of the legion post are also in attendance at the hearing.

GOVERNOR WILL SUBMIT GENERAL DEFICIENCY BILL

AUSTIN, May 5.—No further deficiencies for any of the state wiseemosynary will be approved by Governor Hobby, according to Chairman S. B. Cowell, of the state board of control, who states the governor intends to submit a general deficiency appropriation bill to the special session of the legislature. Several of the institutions have nearly exhausted their appropriations made by the last legislature and have applied for deficiencies through the board of control.

MITCHELL, S. D.—Harry Loft has lofty ambitions now. He quit washing dishes in a lunch room here to obtain a large fortune left him by a California relative.

50% More Mileage

In Boston, Green & Sweet Co. watched the Miller records on some hundreds of large cars. They found that Millers increased the former tire mileage from 50% to 75%. They eliminated blow-out troubles. And only six tires in each 1,000 proved disappointing to the users.

$1,000 Daily
To Reduce Your Tire Cost

The Miller Tire mileage, now discussed everywhere, is not an accident.

Over $1,000 daily is spent in tests and inspections. Fifty inspectors guard against defects.

Every lot of tread stock is first vulcanized and tested in the laboratory.

Over 1,000 tires yearly are worn out in factory mileage tests.

Every tire is signed by maker and inspector, and both are penalized if a tire falls down.

Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation.

It is winning countless contests where a score of makes are brought into comparison.

In the factory tests—radical rear-wheel tests—Miller cords last year averaged 15,000 miles.

The new Miller treads, in these tests, outwear the best of others by 25%.

Defective Miller Tires are a rarity. Some large Miller dealers last year had not a single adjustment.

If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists.

Get one and watch it. It will give you new conceptions of a modern tire.

SPUDDERS UNABLE TO SOLVE SNIPER CONLEY'S DELIVERY AND MARINES WIN 7 TO 0

DALLAS, May 4. — The Spudders met a tartar in Sniper Conley yesterday and were unable to solve his delivery, the Marines winning 7 to 0. Ed Appleton started the game for the Spudders, but had nothing except his glove and a prayer. The Marines had two big innings in the first and third, scoring 3 in the former and 4 in the latter. Appleton was responsible for 5 of the runs and he handed Ruth, who relieved him in the third, tough proposition, with two men on bases. Grubb booted one and Ruth was touched for a hit which gave the Marines their last two runs. After that, Ruth pitched good ball, but the Marines had too big a lead to overcome, especially with the way Conley was working.

Appleton got away to a poor start by passing Coombs. After Nokes flied out, Falk singled and Mattick drew another free ticket, filling the bags. Mattick was forced at second by Palmer and Coombs scored. Scoggins came through with a lusty wallop for two bags that drove in two more and Wilde ended the misery by grounding out.

Falk opened the third with a double and Mattick was handed his second pass. Palmer went out on strikes, but Appleton could not keep the ball near the plate and Scoggins walked. Wilde singled, driving in two runs and a hurry call was sent for Ruth. Forrest hit safely, filling the sacks, and Grubb then uncorked his misplay allowing the Marines to score their final tally.

GASSERS STAGE COMEBACK AND HAND PANTHERS A TWO TO ONE TRIMMING

SHREVEPORT, May 4.—After losing twice to the Panthers, the Gassers came back in the third game and won, 2 to 1. Manager Smith was sent from the field for hitting Umpire Heuslin in the second inning and First Baseman Hungling followed his pilot to the club house as a result of further argument. Whitcraft relieved Hungling at first and drove in the winning run. The first man to face Verbout scored. Only one other reached third base. Score:

SID ROSS PITCHES SAINTS TO 2 TO 1 WIN OVER BEARS

SAN ANTONIO, May 4.—Halt's triple in the eighth together with Brown's single pushed the winning run across for San Antonio yesterday and the latter came out on the long end of a 2 to 1 score. Sid Ross pitched invincible ball for the winners, not allowing a Galveston player to reach first until the eighth. Only two hits were gleaned off his delivery. Score:

MARTIN-SMITH BOUT IS CANCELLED OWING TO INJURY TO RAY SMITH

KANSAS CITY, MO., May 5.—An injury to Ray Smith, the boxing army sergeant, has resulted in the calling off of the Bob Martin-Smith heavyweight bout which was scheduled here for May 10, according to word from Scotty Monteith, Smith's manager.

The message said Smith had broken a bone in one arm and would be out of the boxing game for three weeks.

Promoters were scouting today for a Martin opponent.

ELECTRA NINE WILL TRY TO REPEAT WIN OVER BURK NEXT SUNDAY

ELECTRA, May 5.—The Electra ball team which defeated Burkburnett Sunday 5 to 4 has arranged another game with the same outfit for next Sunday in Electra. "Farmer" Ray, erstwhile big leaguer is fast rounding into shape and may appear on the mound any day. Though not as spry as he was in his palmy days, he maintains that there is many a good tune left in an old violin and he says he will hand the boys a surprise some of these days.

The team suffered a loss this week when Brady broke one of his fingers. He will be out of the game for two weeks at least.

Electra high school sent a strong team to Austin to compete in the state championship meet. Electra won the championship last year and are undefeated in this section this year. The squad is confident of bringing home first honors.

$580.30 IN FINES COLECTED AT BURKBURNETT IN APRIL

BURKBURNETT, May 5. — Fines were collected in the city court of Burkburnett to the amount of $580.30 from the 15th to the 30th of April inclusive.

Delinquent taxes to the amount of something over $700 were received by the mayor Monday afternoon from three oil companies operating within the townsite. These funds are turned into the city treasury.

The SPORTLIGHT by Grantland Rice

AFTER ALL.

Peasant or magnate or drover,
Dwellers by land or by sea,
Life is no dream in the cover,
Whoever wants it to be?
Who wants the ease of soft living
Where never a contest may wait
In the chance for a taking and giving
A raw-handed grapple with fate?

You may perhaps seem the gainer
With never a heartache to span,
But Trouble's the world's greatest trainer
When it gets down to building a man;
Trouble and battle and sorrow,
Part of the whirl-i-gig reel,
Soak you today—but tomorrow
They'll turn all your fiber to steel.

How does a football team get in condition for a hard seasop? By blocking, tackling, falling on the ball, and other devices that for the first two weeks are extremely painful. The soft flesh and the soft muscle must be hardened and this can only be done by an extremely harrowing process that could hardly be called fun. The football player may have natural speed and strength but he isn't going to be hardened and ready until he has paid the price. This is another case of old Doc Trouble on the job in a training role.

FAMOUS SPORTING ARGUMENTS.

1. Could Joe Stetcher throw Frank Gotch?
2. Could Jack Dempsey have whipped Jim Jeffries at his best?
3. Among pitchers, how would you rank Johnson, Mathewson and Radbourne?
4. Were the old Orioles, the old Cubs, the old Athletics or the old Beaneaters the greatest ball club?

These are only a few. But up to the hour of slogging to press the main replies were still "Yes" and "No."

EXPERIENCE A POOR TEACHER.

Experience has always been rated as a first class instructor. Once in a while it is. But not always.

New York has had many boxing bills. Those who were looked upon to run the game had been given various and other chances. But at each given opportunity they have wrecked the sport.

As Major Bill McGeehan has observed with vast truthfulness more than once: "Boxing was never stopped because it was brutal, but merely because it was crooked."

Promoters, managers, etc., connected with boxing have never profited by experience yet., At each given opportunity they have completely wrecked the game, cleaning up today in an utter disregard of the coming tomorrow. Now they all have another chance. The game is awaiting a keen welcome. It has every chance if properly handled. But have those who control its destiny profited by experience? Or can those who wrecked the game before be given the "bum's rush" as the revival begins? If not, this will probably be the last revival in a long, long time.

Judging by the early returns from Michigan, Detroit's delegates to the pennant convention will not throw their strength anywhere—not having any of this prized commodity to throw.

An ancient maxim which the world just now might look upon, viz.: "It is always darkest just before the dawn."

THE WRECKER.

When life looks good by plain and stream,
And fairways beckon like a dream,
Alas! across far space resounds
The blighting sound of "Outer Hounds!"

Figure out the worst that can. Then, even if it does, you are merely starting from scratch.

The golfer who goes around with a heavy leather bag and fifteen or sixteen clubs shouldn't ask for a caddie—what he needs is an army truck.

"Tiger's poor start due to lack of good pitching." And then, again, there are the Cubs, with Alexander, Vaughn and Hendrix. If it isn't one thing it's always another when you begin to toy with the bulbous dope.

As we suggested once before, claiming no priority on the thought—as long as the world persists in being intolerant, jealous and unfriendly, it might just as well become adjusted to the idea of paying the price for such luxuries.

Major League Bits

Yesterday's heroes: The Tigers again. Detroit's ball team won another game—with three hits too. Cobb singled in the ninth, scoring Bush and Veach. Score, Detroit 2, Cleveland 1.

Cincinnati went back into first place by trimming the Cubs five to four. The Cubs used fifteen men.

Hoyt, star pitcher of the Red Sox was knocked out of the box by the Yankees in the fifth inning. Four runs helped to win, six to one.

Rube Benton rushed in and stopped a Philly rally in the ninth inning, the Giants winning 5 to 4.

Perry was badly battered by the Senators but the Mackmen gave him steady support and they won the final game of the series 6 to 4.

Dicky Kerr, White Sox midget, making his second start of the season, was again pounded out of the box, the Browns winning 12 to 4.

STALLINGS DECLARES HE WILL QUIT GAME AT END OF SEASON

"Miracle Man" Claims He Is Going to Raise Long Horned Cattle.

By HENRY L. FARRELL,
(United Press Staff Correspondent.)

NEW YORK, May 5.—George Stallings, the "Miracle Man" of baseball, is going to raise long horned cattle next year instead of experimenting with a pennant crop in Boston.

On the first trip of the Boston club here this spring, the pilot of the Braves announced intention to rettire at the end of the season.

That is a definite promise of one new managerial face in the majors next spring. There are vague promises and hints of others. Recent rumblings heard under the surface have it that a couple of mid-season changes may be made if things don't change.

Hugh Jennings was so terribly tardy in winning a game for Detroit this season that the old stock rumors of "Jennings out, Cobb in" are being revised and fanned about.

Cobb is not the anxious choice for Jennings' successor among the dopesters. They say now that Cobb is the real manager of the club and that is as close as the players of the club would let him get to it.

Since the Tigers have won two in a row things may change.

In New York Miller Huggins is having his troubles with the Yankees. He has the most expensive team in the league and one of the strongest on paper, yet the Yanks in action are a choice bunch of misfits.

Johnny Evers, according to reports, has his eye on Boston. He is to go there next year either as the successor of Stallings or as part owner and manager of the club.

Sport Comment

By Paul W. Larkin

The Texas league race is just about as pretty a one as is under way in any organization. Only three full games separate the Spudders from Galveston, which is running fifth. It is by no means a runaway race, and it is no wonder the fans here have gone crazy over the national pastime.

A late comparison of American and National league averages show that the two circuits are running neck and neck in all departments of the game. Ban Johnson's clubs have the edge in all except base running. In the younger league 31 players are hitting .300 or better, while 28 are in the select National circle. The averages for both American and National are .270 and .250 respectively. The American league has scored 32 runs, 11 more than the National. National league players have pilfered 60 sacks against 52 for their rivals. American league sluggers have poled out 725 safe ones, but the older organization is not far behind with 722.

The Wichita Black Spudders haven't got the worst ball team in the world. Their recent series at the local park with the Dallas Black Marines brought out a lot of good baseball. On the strength of their showing here, the other teams in the circuit will have to keep on their toes all the time, if they want to blaze the trail.

Stallings' declaration that he will quit the old game at the end of the season will mark the passing of the original "Miracle Man." Many others have had that title thrust upon them, but he is the only and original. His remarkable feat of piloting the Braves through their victorious season of 1914 will long be in the memory of fandom. If any man ever accomplished the impossible George did it that year when he brought the Boston club out of the cellar to the top of the heap and then took four in a row from the Athletics for the world's championship. Baseball will lose a mighty capable leader and here's hoping that his assertion is to be taken with a grain of salt.

Well, we can't win all the time. The Spudders' loss yesterday will at least keep them from getting too cocky. Over confidence has lost many a game and a defeat once in a while is good for us all. It did seem too bad, however, to have Ruth waste all his good pitching. Those six innings of runless ball that he pitched would have come in handy some time. The last Marine game will be played today and the leaders will jump to Fort Worth for a series with the Panthers tomorrow.

As soon as Ty Cobb cuts loose, the Tigers start. Ty starred again yesterday and his timely single in the ninth drove in Detroit's tieing and winning run. The Georgia peach may be getting old but the youngsters will have to keep on their toes every second to pass him. He is far from all in, as some critics would have him.

FINE ARTS ASSOCIATION HOLDS ANNUAL SESSION

BIG ROUND-UP READY TO OPEN AT BALL PARK

Fourteen Big Events On Program for Thursday, Friday and Saturday.

The ball park will be the mecca for all roundup enthusiasts tomorrow, Friday and Saturday. "Fog Horn" Clancy, publicity manager, today announced that practically all the stock had arrived and that the contestants were reporting all the time.

The fourteen big events are guaranteed to keep the spectators on edge during every performance. The performance will start promptly every day at 2:30 and though some of the events may be repeated there will be plenty of variety for all.

It was announced toda, that the parade tomorrow morning will start at the park at 11 o'clock. The line of march will extend along Seventh street to Scott, along Scott to Eighth, down Eighth to Indiana, along Indiana to Ninth, east on Ninth to Ohio, north on Ohio to Seventh and back to the park.

Three wilder horses than Deerfoot, Coyotte and Dunngone have never appeared together before. These horses have a reputation for bucking that is known throughout the West.

Deerfoot, better known as the "man-killer," is the famous bucking horse that threw and killed Garfield Daniels, the well known broncho buster.

There is a standing offer of a large prize for anyone who will ride Coyote. He has thrown 167 men and no person has ever remained on his back over 8 seconds. Ed McCarthy, the present owner purchased him from the Mellerick Bros. of Fresno, Calif.

Dunngone won $2,215 for the Red Cross last August in Magdalena, N. M., by throwing Ed Wright in less than 6 seconds. This amount was raised by the audience to see anyone attempt to ride him.

Perhaps the busiest human on the field will be Leonard Stroud. Leonard hit town yesterday and immediately looked the ground over and claimed he was in the best of shape to go a few new records. His name can be found in practically every event on the program and as an all around trick and fancy rider he has no superior and few equals. He holds the world championship for trick and fancy riding and in 1918 won the world's championship in broncho busting at Cheyenne. His stunts alone should be worth the price of admission.

Rube Roberts, who has just reached the age of 20, also has an enviable record. He has the reputation of never turning a horse loose no matter how the steed may kick and paw. He was the winner of the steer bulldogging in Cheyenne last season.

New Officials Chosen to Guide Destinies of Local Organization.

Officials of the City league met in the Southern Electric company store last night and passed on the by-laws of the league. Some were accepted in their present form, but a few will come up for discussion later. Dale Haven was elected vice president of the league meeting and C. C. Wood, secretary and treasurer. W. O. Beeman still holds the office of president.

A committee including Mr. Haven, Ralph Crane and John McCain was chosen to select umpires for the season.

The game between the First National and the American National, which was broken up by rain yesterday will be played off at the Wichita Motor grounds today.

ROAD CONTRACT UNDER FIRE AND COUNTY AUDITOR WILL REFUSE TO PAY CERTAIN BILLS HE DECLARES

County Auditor W. W. Murphy Wednesday morning again asserted that he would refuse to pay certain bills presented for payment in connection with the road building contract entered into one month ago between the county commissioners and Potts & Prentice, contractors. The statement was made following a three-hour discussion of the road problem Tuesday afternoon between the county commissioners, the county auditor and representatives of Potts & Prentice. Three specific items were named by Auditor Murphy which he refuses to pay under the present contract. These items are:

1. Salary of a bookkeeper to keep the records of the contracting company.
2. Payment by the county of the premium of the contracting company's bond totalling $500.
3. Bills in payment for automobiles to be used by Potts & Prentice while constructing the highways of Wichita county.

Another item set forth in the contract is being examined by the county auditor as to its legality and this item may also be placed among those not to be recognized as legal, Mr. Murphy declared. In making the announcement that he would refuse to pay bills presented in connection with the road contract County Auditor Murphy said:

"It is not my intention to be contrary about this matter but I am under $5,000 bond and it would be a grave injustice to my bondsmen should I recognize certain bills, provided for in this contract. I also want to stay out of the penitentiary and should I negligently pay bills not permissable under the state laws I would be subject to indictment and trial on a criminal charge."

Tuesday afternoon's conference developed into a stormy discussion of the road problem. Fred W. Weeks, attorney, appeared before the commissioners and in a short address pointed out clauses in the contract which he said were defective. Mr. Weeks asserted that the contract delegated entirely too much authority to the county road engineer. "I do not care to engage in personalities and I want the present county engineer, (Mr. Isbell) to know that I am not referring to him personally," said Mr. Weeks, but I feel that the power that has been delegated to him should have been placed in the hands of the county commissioners. The legislature of this state many years ago placed almost unlimited powers in the hands of the county commission; they fully recognized the principle that the county commissioners were representatives of the people of a county just as legislators are representatives of the state and I will vigorously fight any move to take this power from the hands of the county commission and vest it in one person, be it a county engineer or anyone else. I'll tell you gentlemen, this contract practically places the whole road system of Wichita county in the hands of one man; it takes it out of the hands of the county commissioners, who were elected to perform this duty, and gives it entirely over to a single person and under this contract the county engineer of this county has got more authority than any other man within the county."

J. M. Isbell, county engineer was present. On several occasions he questioned Mr. Weeks' stand and denied that the contract vested undue authority in his hands. "I am employed by the county commissioners and they can discharge me at any time," Mr. Isbell said.

"And they are also responsible for all the deeds of the county engineer previous to his discharge," replied Mr. Weeks. "I think that every item purchased by this county should first be allowed by the county commissioners instead of this method, however, the contractors are given the right, through the recommendations of the county engineer ,to purchase automobiles and scores of other items and then call upon the county to foot the bill. To be frank with you, gentlemen, I consider this as being the most one-sided contract in favor of the builders, that I have ever seen. I don't believe that courts will enforce it but now is the time to change its provisions before it gets into the courts.

Mr. Weeks explained to the county commissioners that he was not being paid for his services in advising the county auditor but "am acting as a citizen of Wichita county and Wichita Falls because I live here and want to see that the county gets all that it justly 'deserves.'"

County commissioners present at the conference were John S. Fore, Lee Prescott, E. A. McCleskey and H. H. Haynes, W. T. Harris, county clerk; Harvey Harris, former county judge and present attorney for Potts & Prentice, J. W. Isbell, county engineer, W. W. Murphy, county auditor and R. J. Potts of Potts & Prentice, were also present.

Mr. Potts indicated a willingness to change the reading of the contract so that much of the authority vested in the county engineer be placed in the hands of the county commissioners. Judge Harvey Harris and Mr. Weeks were requested to study together the contract and recommend to the commissioners on Monday such changes as they thought advisable.

IRRIGATION PROJECT TREATED AT LENGTH IN WEST TEXAS TODAY

The Big Wichita Irrigation project, its size and its great importance to Wichita Falls, is treated at length in the current quarterly issue of "West Texas Today," the official publication of the West Texas Chamber of Commerce, which has just been received here, which also carries a story entitled "Too Much Wild West" by Hubert Harrison, secretary of the local Chamber of Commerce, protesting against the exaggerated stories of lawlessness in the oil fields of Texas which have been circulated through the country.

In treating of the importance of the irrigation project, the magazine quotes liberally from the issues of the Wichita Falls Times dealing with this project.

Recognition of the work of the West Texas Chamber of Commerce in the form of a subscription for 100 memberships for the next year has been extended by the Wichita Falls Clearing House Association, it is announced by W. T. Wheeler, organization manager for the association, who has been in Wichita Falls for the past several weeks in connection with the membership campaign of the organization. This subscription was accompanied by the following letter from W. M. McGregor, president of the clearing house association:

"The associated bank members of the Wichita Falls Clearing House Association, realizing the good work and the efforts put forth by the West Texas Chamber of Commerce, heartily endorse its movements and have agreed to subscribe for 100 memberships in the organization for one year."

Mr. Wheeler left Wednesday afternoon for Bowie, where he will assist the Chamber of Commerce at that place in the reorganization campaign now in progress.

McADOO WATER PIPE LINES COMPANY

Vernon, Texas

Capital Stock $250,000 — Par Value $10 Per Share

An announcement in this paper of April 27th, stating that Fred L. Malloch was organizing a water pipe line company. We wish to state that this company is now fully organized. This company was organized for the purpose of installing a complete water system to supply the new oil fields surrounding the discovery well of the Sigler Prescott Peoria Co.

This company has secured the exclusive water rights on the famous Paschall Springs located in the south half of section 87, block 14, of the H. & T. C. Ry. Co. survey, with the channel of the Paradise Creek for distance of about 1-2 mile in length which will make an earthen reservoir with a capacity of about one half million barrels of water. We also have a lease on the earthen reservoir now located in the northwest part of section 82, block 14. This reservoir also has a capacity of about one-half million barrels.

The McADOO WATER PIPE LINES CO. proposes to lay a 6-inch water line from the above mentioned springs and first of the reservoirs in section 82 which is in the very heart of the new field and from this reservoir we will lay about twenty miles of two inch water lines in all directions to supply the various drilling companies in the district. We also propose to lay a three inch galvanized water line from the springs to the water tower to be placed at Prescot City for domestic use. This line will be used to supply any of the farmers along its course who desire to use it and also supply any other small towns along its course. This company has brightest outlook for a big success of anything in this entire district, and every person in this district know for themselves that the lack of water in this field is the gravest item for drilling. You can estimate for yourself in accordance with the northwest fields the drilling company's pay all the way from $20.00 to $40.00 per day for water and at this present time the drilling companies in the K. M. A. fields are paying as high as $40.00 per day per rig.

We estimate that we can easily furnish at least one hundred and fifty rigs at all times and make the price of water supply within the bounds of reason. The estimated cost of installing this system will be about $200,000, the actual cost of material and labor.

We estimate that if we supply only fifty rigs a day at the very lowest price of $25.00 per day our income will be $1250 per day or $37,500 per month. Now this estimate is the very lowest and at this rate the company will pay for itself in about five months time.

At the rate of $35.00 per day for each rig our income will be $1750 per day or $52,500 per month. At this rate the company will pay for itself in less than four months and we estimate we will supply more than fifty rigs and will pay the largest monthly dividends of any company in Wilbarger county. We estimate we will be able to pay at least twenty to thirty per cent monthly dividends after we have completed the construction of all machinery and pipe lines. Prescott City Townsite consists of 300 town lots and at this writing about fifty of them are occupied and by the time this water line is completed we estimate there will be about 200 of the lots occupied. At the rate of $4 per lot per month will be an income for the company of about $1,200 per month on these lots alone.

Our stock is going rapidly and we advise you to send in your subscriptions at once.

MARTIN UNABLE TO MEET LUKE CRAFT SATURDAY NIGHT

Local Plumber Injured In Monday Night's Bout at the C. A. C.

Al Edwards, manager of the Camel A. C., stated today that the bout scheduled for Saturday night between Sid Martin, Wichita's fighting plumber, and Luke Craft, has been called off. Martin is not in the best of shape and thinks he sustained a cracked rib in his go with Patsy McMahon Monday night. His thumb is sprained also.

Manager Edwards tried to sign up another scrapper to substitute for him, but it is too late in the week.

The bout between Charlie Goodman of Toledo and Dick Griffin of Fort Worth should be one of the fastest encounterers of the year. Griffin, always a favorite in Wichita Falls, is going at top speed and has a worthy foe in Goodman. They will go 12 rounds and will weigh in at 122 pounds.

BIG JAZZ BAND TO PLAY FOR ELKS DANCE

The Naval Jazzland Eight, the band that is one of the headliners on the bill at the Wichita theater this week, will play for the Elks dance, to be given Thursday evening, the formal opening of the new quarters, at Eighth and Scott in the Snider-Perkins building. The entertainment committee feels that in securing this famous band to play they have scored a genuine coup, and they promise the most extraordinarily enjoyable social event ever staged in the Elks ballroom in the history of the lodge. All indications point to the most brilliant dance of the spring season.

Friends in Wichita Falls are interested in the announcement of the birth of Robert Kyle Hailey Jr. to Mr. and Mrs. R. K. Hailey, of Aldrich, Kansas. Mrs. Hailey was Miss Berenice Landers who graduated from the Wichita Falls high school in the class of 1916.

WORKERS QUIT BECAUSE UNION DUES ARE UNPAID

SCHENECTADY, N. Y., May 5.—Eighteen hundred men, members of electrical workers union, employed at the General Electric Company, walked out today. It was reported 3,000 more will quit.

The men demanded the company either compel four men to pay their dues to the union or discharge them.

MARY DEVEREAUX BOLTON SPEAKS AT WICHITA CLUB

"The news that America was henceforth to be dry, and the feeling that many of them had anyway that they would never come back from the war, affected the Americans in France so that they gloriously 'zig-zagged' most every night," said Mary Deveraux Bolton in the course of her remarks before the Wichita club at the Wednesday luncheon, in describing her experiences as a welfare worker in France and Germany. "I have seen more drunk Americans in one day than I have ever seen of drunk Frenchmen," she said.

Among other things she told of Americans beating their way over France on the railways without paying fare, simply replying to the conductor's request for tickets by saying "pas compre" (I do not understand); of American soldiers making light of French decorations, especially the fourragiere, by mimicing them through wearing over their shoulders, for instance, cords used as "hold-backs" on the window curtains, and spoke of the fact that Americans did not get the viewpoint of the French.

The luncheon was also featured by a performance of a jazz band furnished by the Wichita theater.

Acceptance of the Wichita club's challenge for a baseball game was formally delivered by a committee from the Rotary club—the proceeds to be devoted to the benefit of the public library board. To the hope expressed by C. E. Rodgers to the effect that the Rotary club would be able to put a team in the field which would make a better showing than the club representing the Rotarians last year, and at least make the Wichitans extend themselves to win, Leon Loeb, one of the Rotarian committeemen, retorted with the assurance that an umpire who was not a member of the Wichita club would officiate in the game this year.

140 HAVE SIGNED GUARANTY OF $100,000 FOR SCHOOLS

One hundred and forty guarantors were secured up to noon Wednesday for the $100,000 fund for the assistance of the Wichita Falls public schools by members of the committee which has undertaken to secure the underwriting of the necessary funds, C. H. Clark, chairman of the committee, stated Wednesday afternoon. The work of securing more citizens on this list will be pushed until at least 200 have been secured. It is desired to make the list representative of the entire city. The list at present is not in the form of a subscription, but the apportionment of the $100,000 will be made when all possible signers have been secured.

It is expected to complete some time this week the details for the expenditure of this extra money, to relieve the existing deficiencies of the coming school year.

COTTON MARKET.

New York Cotton

NEW YORK, May 5.—Bullish crop advices caused a further advance of 10 to 20 points at the opening of the cotton market today with active months selling about 22 to 33 points above last night's closing during the early session. This carried July up to 38.00 and October to 36.25 and there was enough realling to cause some irregularity. Private reports of rain in the central belt and the report of a New Orleans authority indicating an acreage of about the same as last year, were the chief factors on the advance.

The official weather map failed to confirm the private reports of heavy rains in the central belt, but showed beneficial rains in the southwest and prices sagged off in the morning after realizing. July sold down to 38.37 and October to 35.98, or within a few points of last night's close. Part of the selling was in anticipation of a bearish weekly report from the weather bureau which proved no more favorable than expected and was followed by a spurt of covering which caused rallies of 6 to 7 points early in the noon hour.

New Orleans and Memphis were buyers on the early afternoon advance to 38.60 for July and 36.20 for October or 24 to 40 points above last night's closing. The market turned easier after 2 o'clock and prices reacted several points from the best.

The market closed very steady.

New Orleans Cotton

NEW ORLEANS, May 5.—After a decline of 10 points on July in response to a lower Liverpool market than due, the price of cotton was lifted strongly today by buying based on a private bureau report showing the same area to be planted to cotton this year as was planted last. In the first hour of trading prices advanced 20 to 35 points, but at this level the buying slowed down, probably because of expectations of favorable crop reports from the government for this last week. July fell off to 38.10 and reacted to 38.46.

While the weekly crop reports were considered to indicate fair progress over the belt on the whole, they were not favorable enough to cause much selling. Following the reading July fell off to a net decline of 6 points and October eased off until it stood only 13 points over yesterday's close, but effective support was given the market and the selling movement did not persist. Late in the morning prices were 2 points under to 27 points over the final quotations of yesterday.

The demand increased and early sellers brought back their cotton. Late in the day the market was at its highest, standing 26 to 65 points over the close of yesterday. January was the strongest month and it touched 34.92.

The market closed steady at net advances of 5 to 65 points.

GRAIN AND PRODUCE

Chicago Grain

CHICAGO, May 5.—Increased selling pressure, together with lack of support, led to decided weakness today in the corn market. Better weather counted as a bearish factor, and so likewise did renewed notices taken of strained financial conditions. Opening prices, which ranged from 1¾c decline to 1c advance, with July $1.68¾ to $1.69¾, and September $1.60¾ to $1.61 were followed by a material setback all around and then something of a rally.

Oats weakened in sympathy with corn. After opening ½c to 1¼c lower, with July 91¾ to 92¾, the market continued to sag.

Provisions reflected the decline of grain.

Subsequently covering by shorts brought about additional upturns. The close was nervous at ¾c net decline to c advance, with July $1.68¾ to $1.68¾ and September $1.60¼ to $1.60½.

NEW YORK STOCKS.

NEW YORK, May 5.—A confident tone accompanied the opening of today's stock market, although trading was again in relatively light volume. General Motors was the feature at an advance of 8 points. Yesterday's favorite issues, particularly independent steels, also Baldwin Locomotives, Atlantic Gulf and International Paper were one to three points higher with moderate gains among oils. The request of the railroads for increased freight rates which would add more than a billion dollars to their revenues was reflected in the strength of Pacifics, grangers and coalers.

The mid-session was characterized by extreme dullness and an advance of call money offered at 7 per cent. The market was a traders affair with irregular but moderate reactions from maximum prices of the morning.

Oils lifted the market out of its rut in the last hour, Mexican Petroleum and Texas Company showing especial activity at additional gains. Baldwin and United States Rubber also were materially higher. The closing was firm.

JAPANESE TRADE FEELING TIGHTENING UP OF MONEY

WASHINGTON, May 4.—With banks refusing to make further advances on cargoes, Japanese trade is feeling the full effects of the financial situation in that country and shipping at Yokohama already is congested, according to official advices from Tokio received today by the department of commerce.

Commodity prices have declined sharply, the advices said, and money is exceedingly tight, despite a decline in banking rates. The dispatch said however, that no "disastrous" failures had yet occurred.

STATE'S APRIL EXPENSES TOTALLED $8,168,116

AUSTIN, May 5.—Expenditures of the state government for April totalled $8,168,116, and receipts were $5,535,641, according to State Treasurer John W. Baker. Three and a half million dollars of the expenditures expenditure was out of general revenue, and another three and a half million was from the available school fund.

FEW TEXAS COMMUNITIES HAVE ACCESS TO LIBRARIES

WASHINGTON, May 5.—Only 14.7 per cent of the population of Texas has access to free public libraries, leaving more than 3,300,000 persons not provided with free library service, according to the estimate of the United States bureau of education, made public today.

American library association officials declare that this lack, as revealed by statistics of public library development recently compiled by P. P. Claxton, commissioner of Education, will give residents of Texas a conception of the benefit to be derived from the "Books for Everybody" movement launched by the association. To devote to the task of making public library service a vital influence in every American community, the A. L. A. is gathering a "Books for Everybody" fiund of $2,000,000. Miss Julia Ideson, librarian of the Houston Lyceum and Carnegie library, is state director of the "Books for Everybody" fund in Texas.

The report for Texas shows 46 libraries that are classed as free public libraries, containing 442,950 volumes and serving a population of 571,222 persons, leaving 3,325,320 persons without access to libraries. In the judgment of the bureau of education, the smallest library that can usually be depended on to render an adequate service is one of 5,000 volumes. Only 18 libraries in the state, measured by this standard, can be termed "universities of the people." They serve 462,604 persons, with 3,433,938 persons practically deprived of the help of an institution which, more than any other, promotes adult self-education. In more than 200 counties there is no library of this size, which might serve as a nucleus for a county library.

The county library law enacted by the Texas legislature paves the way for the form of library service recently endorsed by Commissioner Claxton and advocated by the American Library association as the best method of circulating good reading matter through the rural districts.

In commenting on the results of the bureau of education's survey, American Library association officials point out that the library development of the last several years, under the guidance of the highly efficient Texas state library, may be too recent to be taken fully into account. While revised population statistics would show a much larger public served by existing libraries, as the compilation is based on the 1910 census, it is indicated, however, that the growth of population in the wide areas without public library service probably would tend to keep the percentages, as announced by the bureau of education, nearly constant. In view of the rapid industrial development which is bringing into Texas an increasing number of new Americans from foreign shores, who must depend largely upon public libraries to give them their education in the American language, institutions and ideals, the general need for library facilities throughout the state is declared to present a serious situation. This condition, coupled with the widespread social and industrial unrest throughout the nation, constitutes one reason for the American Library association's vigorous "Books for Everybody" movement, which points to a time when books will be freely available to every man, woman and child in America.

In the "Books for Everybody" movement in Texas, the American Library association will co-operate with the Texas state library and with local libraries.

LEGAL NOTICES.

SHERIFF'S SALE—Notice is hereby given that by virtue of a certain Order of Sale issued by the Clerk of the 78th District Court of Wichita County, on the 23rd day of April, 1920, in a certain cause wherein National Bank of Commerce was plaintiff and Eagle Oil & Refining Company, a joint stock association are trustees thereof and J. R. Aiken individually jointly and severely defendants in which cause a judgment was rendered on the 14th day of April, 1920, in favor of the said plaintiff National Bank of Commerce against said defendants Eagle Oil & Refining Company, a joint stock association and trustees thereof and J. R. Aiken, individually jointly and severely for the sum of Ten Thousand, One Hundred Eighty-eight and 92-100 ($10,188.92) Dollars, with interest thereon at the rate of ten per centum per annum from date of judgment, together with all costs of suit, I have levied upon and will, on the first Tuesday in June, 1920, it being the 1st day of said month, at the Court House door of said County in the City of Wichita Falls, Texas within legal hours, proceed to sell for cash to the highest bidder, all the right, title and interest of Eagle Oil & Refining Company, a joint stock association and trustees thereof and J. R. Aiken, individually, jointly and severally in and to the following described property, levied upon as the property of real estate, to-wit: First Tract: A strip out of the Wm. P. DuBose Survey, 120 feet by 173 feet beginning at the northeast corner of a 2½-acre tract of M. H. Wilson, as described in the deed records of Wichita County, Texas, Volume 50, Page 209; thence a little south of west along the north line of said 2½-acre tract, 173 feet; thence south 120 feet; thence east 173 feet; thence north 120 feet to the place of beginning, same being situated in Wichita County, Texas, and being the tract of land conveyed to J. M. Waters by T. W. Cagle, on which the Wizard Oil Company has drilled a well. Second Tract: The west 20 acres off of a certain 79.86-acre tract of land which 79.86-acre tract is described as follows: Situated in Wichita County, Texas, and being the south 79.86 acres of land out of the following described tract of land, the south 159.86 acres of land out of Block 15, and the east 20 acres of Block 16 of the Subdivision of the Red River Valley Lands in Wichita County, Texas, as shown by an oil and gas lease dated the 21st day of September, 1918, executed by T. T. T. Reese and N. H. Martin to J. M. Waters and recorded in Volume 104, page 223 of the deed records of Wichita County, Texas. It being intended by this transfer to convey the 20 acres off and along the entire west end of said 79.86 acres described in said lease. The above sale to be made by me to satisfy the above described judgment for Ten Thousand, One Hundred Eighty-eight and 92-100 ($10,188.92) Dollars in favor of the National Bank of Commerce together with the costs of said suit, and the proceeds applied to the satisfaction thereof. D. R. McFall, Sheriff Wichita County, Texas. Wichita Falls, Texas, April 23rd, 1920.
May 5, 12, 19.

STATE OF TEXAS, County of Wichita: To all to whom these presents shall come, know ye, that I, Guy Rogers, under and by virtue of the authority in me vested by virtue of an order and judgment of the honorable 30th District Court of Wichita County, Texas, in the case of George E. Marshall vs. R. A. Strachan, appointing me receiver of, and commanding me to sell, the joint personal property of the partnership of Marshall & Strachan hereinafter more specifically described, will on the 8th day of May, A. D., 1920, between the hours of 10 a. m. and 4 p. m., at the court house door of Wichita County, Texas, offer for sale and sell to the highest bidder for cash, all the personal property of the said partnership of Marshall & Strachan, consisting of a sand and gravel extracting equipment, together with all accessories thereto or used in connection therewith, which equipment is now located on the banks of the Wichita River near the end of Third Street, Wichita Falls, Texas. Guy Rogers, Receiver.

D. 1920, the same being the 16th day of June, A. D. 1920. Then and there to answer a petition filed in said court on the 5th day of March, A. D. 1920 in a suit, numbered on the docket of said court No. 7705 wherein, A. T. Hunt is plaintiff and Lea Hunt is defendant, and said petition alleging, plaintiff and defendant were married on February 14, 1916. That from and after that date the said defendant abandoned plaintiff and has refused to live with him since that time. That said act on the part of said defendant has rendered their further living together as husband and wife insupportable. Petitioner further shows that he is bona fide resident of Wichita County, Texas, and has been such for more than one year next preceding the filing of this suit. Wherefore, premises considered plaintiff prays that citation issue to the defendant, and that on the trial of this cause, he have judgment annulling the bonds of matrimony heretofore existing between parties, for costs of suit and general relief. Herein fail not, but have before said court, at its aforesaid next regular term, this writ with your return thereon showing how you have executed the same. Given under my hand and the seal of said court, at office in Wichita Falls, Texas, this the 13th day of April A. D. 1920. A. F. Kerr, Clerk District Court Wichita County, Texas. L. E. COWLING
REAL ESTATE

Old Man Cowling rises to remark:

"We might have settled this controversy between the union and the open shop had both sides come to us for a little fatherly advice, but they slept on their rights and neglected the opportunity. The President of the United States took our advice one time. We applied for a consulship in Mexico, and after being advised by our senator that there was no chance of getting it we advised the President to appoint some one else, and he took our advice.

"And, in the meantime, we advise the public to buy real estate."

Tenth Street—New five-room home on Tenth street for $9,000, with only $1725 cash and balance less than rent.

Taylor—Something new and absolutely different, new six-room bungalow with a living room that is a "dream." The interior is unusually attractive, with pleasing effects throughout; has artistic light fixtures, beautiful brick mantel, built-in book cases, oak floors throughout, French doors to every room except the bath, garage, servant house, solid driveway. This place has been held at $16,000, but the owner wants to move back to his wife's kinfolks "down in Texas" and has instructed us to offer it at $14,000 with any kind of payment and terms. We might loan part of the cash payment on this one. Near Tenth and will be on the pavement in a few days. Might handle a good car on the deal. If you can find as attractive a home, as well located, for this money, anywhere else in town, we'll take you to the picture show.

Monroe.—Drive by the beautiful six-room home on the corner lot at 1314 Monroe and see if you think it worth $9,000, unfurnished or $12,000 furnished. It is a "dream" inside; it belongs to a non-resident that wants to sell.

Floral Heights.—Brand new five room, strictly modern home on corner lot and on the best street in town, fire place and nice mantel, lots of built-in features, French doors, etc., galore, pretty electric light fixtures. We have to sell this home this week and are offering it for $5500. If you don't have over $1,000 come on anyway, you can have it.

Southland. — A large 7-room, aeroplane bungalow, hardwood floors throughout, fire place and all the built-in features that the most fastidious would exact, garage and servant house; forgot to say, it, (the house) has portecochere. If it's not worth $11,000, it's not worth a dollar.

But Listen.—We have a beautiful five-room, strictly modern home in the highest part of Southland Addition. It is brand new and has all kinds of built-in features, French doors, nice light fixtures; goes this week for $4750, with $1,000 cash payment.

Lots.—Would you pay $1,000 for a beautiful east front lot on Taylor?

The above is just a sample to make your mouth water. We have hundreds of others, on every street in town, and all prices and terms.

"If we don't sell you we smile just the same."

MONROE STREET HOME

A modern, east front home on Monroe Avenue. Has been built about one and a half years. Has garage and driveway. The lot, if vacant, is worth $3,500, and the house could not be built for less than $6,500. Owner's equity is about $5,000, and will take medium priced car as part pay, balance of equity in cash. Incumbrance payable semi-annually with interest at eight per cent. Price, $9,500. We believe the figures above, as to the cost, are very conservative, and that the house is offered for less than it would cost to build one like it. A bargain for this week only. See—

TEXT RESOLUTIONS ADOPTED AT THE COUNTY CONVENTION

Wichita county's delegates to the democratic state convention were instructed in resolutions adopted at the county convention Tuesday to use their best efforts to secure places for J. A. Kemp and R. E. Huff of this city on the Texas delegation to the national convention at San Francisco.

In the haste of obtaining the list of delegates for Tuesday afternoon's paper several names were omitted from the list. Included in these were Mrs. J. C. A. Guest and Edgar P. Haney.

In Tuesday's paper the name of Mrs. E. H. Eddleman appeared as a delegate. The name should have read E. H. Eddleman.

The part of the resolutions endorsing candidates for delegates to the national convention was submitted and adopted separately from the resolution endorsing the administration.

Text of Resolutions.

The text of the resolutions follows:

Reaffirming our belief that the best interests of the American republic demand the perpetuation of the principles of progressive democracy, as the same have been exemplified in the unparalleled achievements of the administration of Woodrow Wilson, as president of the United States for the past two terms we adopt the following platform and resolutions:

I.

We favor the league of nations, either without reservations, or with only such reservations as may be necessary to express the American interpretation of it, without changing it so as to require the making of a new treaty with all the powers interested.

II.

We favor the national prohibition amendment, as it has been passed, and stand opposed to any effort of interested parties to commit the party to any sort of policy that will weaken the enforcement law and against any candidate for the presidency who favors a weakening of such law by congressional legislation or otherwise.

III.

We favor the amendment to the federal constitution granting full suffrage to our women. They were found to be fully competent to help America win the great war, and we believe they are entitled to the ballot and that it is safe in their hands.

IV.

We favor amendment and simplification of the income tax laws and such changes in the same as will make it more equitable to all people and condemn the republican congress for refusing to amend this law, as recommended by the president after the armistice was signed and spending their time instead in useless investigations and criticisms of the administration.

V.

We commend and endorse the democratic administration of Gov. W. P. Hobby in the state of Texas, and, as a slight tribute to his services rendered to the people of Texas, we instruct our delegates to the state convention to vote for him as a delegate at large to the national convention.

VI.

In recognition of the distinguished services of Hon. R. H. Kirby of Travis county as a private citizen, and a democrat, we instruct our delegates to consider his candidacy for the place on the delegation to the national convention.

VII.

Recognizing the distinguished services of our fellow townsmen and fellow democrats, R. E. Huff and J. A. Kemp, in the present campaign against the enemies of democracy as well as their services in the past, we instruct our delegates to the state convention to use their best efforts to secure a place for both of them on the delegation to the San Francisco national democratic convention.

VIII.

We instruct our delegates to the state convention to vote for no man as a delegate to the national convention who is not in full sympathy with the administration of Woodrow Wilson as president of the United States.

IX.

We instruct our delegates to vote as a unit in the state convention on all questions coming before that body.

P. A. MARTIN, Chairman.
F. B. COX,
W. F. WEEKS,
JOHN C. KAY,
J. A. KEMP, Committee.

PLAN EARLY HEARINGS ON FREIGHT INCREASES

WASHINGTON, May 5.—The interstate commerce commission today prepared to give an early hearing to shippers anxious to protest approval of the petition of the railroads for freight rate increases totalling approximately $1,207,000,000 annually.

Fixing of new rates, regarded as certain to be an increase over present chedules, will take much of the commission's time until September 1, officials explained.

In filing new schedules, the railroads served notice that the increase is necessary to insure a return of six per cent on valuation.

ADVOCACY OF SOLDIER BONUS DEMAGOGUERY, SAYS SISSON

WASHINGTON, May 5.—Advocacy of a soldier bonus at this time "is nothing more than demagoguery," Representative Sisson, Mississippi, declared in a speech to the house.

"These demagogues think they can get 4,500,000 votes by giving a soldier bonus and have turned their back on what will happen to the country as the result of such action," he said.

THREE ALLEGED BURGLARS HELD AFTER ONE'S DEATH

OKLAHOMA CITY, May 5.—Three men, alleged burglars, were being held here today following the killing the fourth member of their gang by a deputy sheriff at Spencer yesterday. When the officer attempted to take the four from a Frisco freight train one of the men reached for his gun and was shot to death.

NUMBERED AMONG

the self made men of Wichita Falls, we find Mr. H. H. Temple.

Born in the little town of Camridge, Ohio, his parents later moved to Missouri. Up until the age of fourteen he rarely ever attended school. Then he was brought to the realization that an education is the important thing in life if we are to succeed.

He worked his way through preparatory school, and later worked his way through college. After he was graduated he practiced medicine in the cities of Howard, Butler and Kansas City, Missouri.

In 1905 was interested in the mining business, water power and irrigation in Old Mexico, but on account of the revolution left that country, and moved to Phoenix, Ariz, where he was interested in the mining business.

Mr. Temple has been very successful in his investments in this vicinity and we take pride in including him among our depositors.

The officers of this bank desire to meet men engaged in industry.
