DENSE FOG IS CAUSE OF BIG LAKE MISHAP

STEAMER SENATOR GOES DOWN; MARQUETTE IS SINKING

(By Associated Press)
MILWAUKEE, Oct. 31.—Colliding in Lake Michigan 30 miles off Port Washington, Wis., in a dense fog, the freight steamer Senator sank almost immediately, and the Marquette, an ore carrier, badly damaged, began to wage an apparently hopeless fight to make Port Washington.

The Senator carried a crew of 28, all but three taken aboard the Marquette were unaccounted for. The Marquette carried 30 men. A fog covered the lake at 11:30 a. m. the Marquette was listing badly.

Tugs Go Out
Four fishing tugs from Port Washington put out to join the rescue. In view of the dense fog, the worst that has enveloped the lake in years, it was thought boats would have difficulty in finding the Marquette.

The Marquette is an ore carrier. A few minutes after the collision the ship began sending SOS calls. After about 10 minutes, the Senator ceased to answer, and the Marquette said she had sunk.

Picked Up Three
The Marquette stood by and picked up three survivors. An hour later Captain W. S. Almsbury radioed he would attempt to beach his ship at Port Washington. At 11:30 a. m. the Marquette sent SOS signals and requested help. In the vicinity to come and stand by. Captain Almsbury messaged he did not think the Marquette would remain afloat until they could get to Port Washington.

Score of boats of all descriptions rushed to the aid of the Marquette. Coast guards cutters and lake freighters not far from scene of the crash made up the rescue fleet.

CITY'S KEY RATE IS CUT

AVE TO CREATE BIG SAVING FOR LOCAL PROPERTY OWNERS

Creating an annual saving of approximately \$35,000 for Lubbock, the key rate for this city has been reduced from 30 cents to 25 cents, according to an announcement made yesterday by the State Insurance commission. The new rate will become effective November 1, and applies only to risks receiving credit for public protection. It does not apply to dwellings over 1,000 feet from public fire hydrant nor to all other risks over 500 feet from fire hydrant, nor to risks where no key rate change appears in analysis of rate.

The reduction has followed the

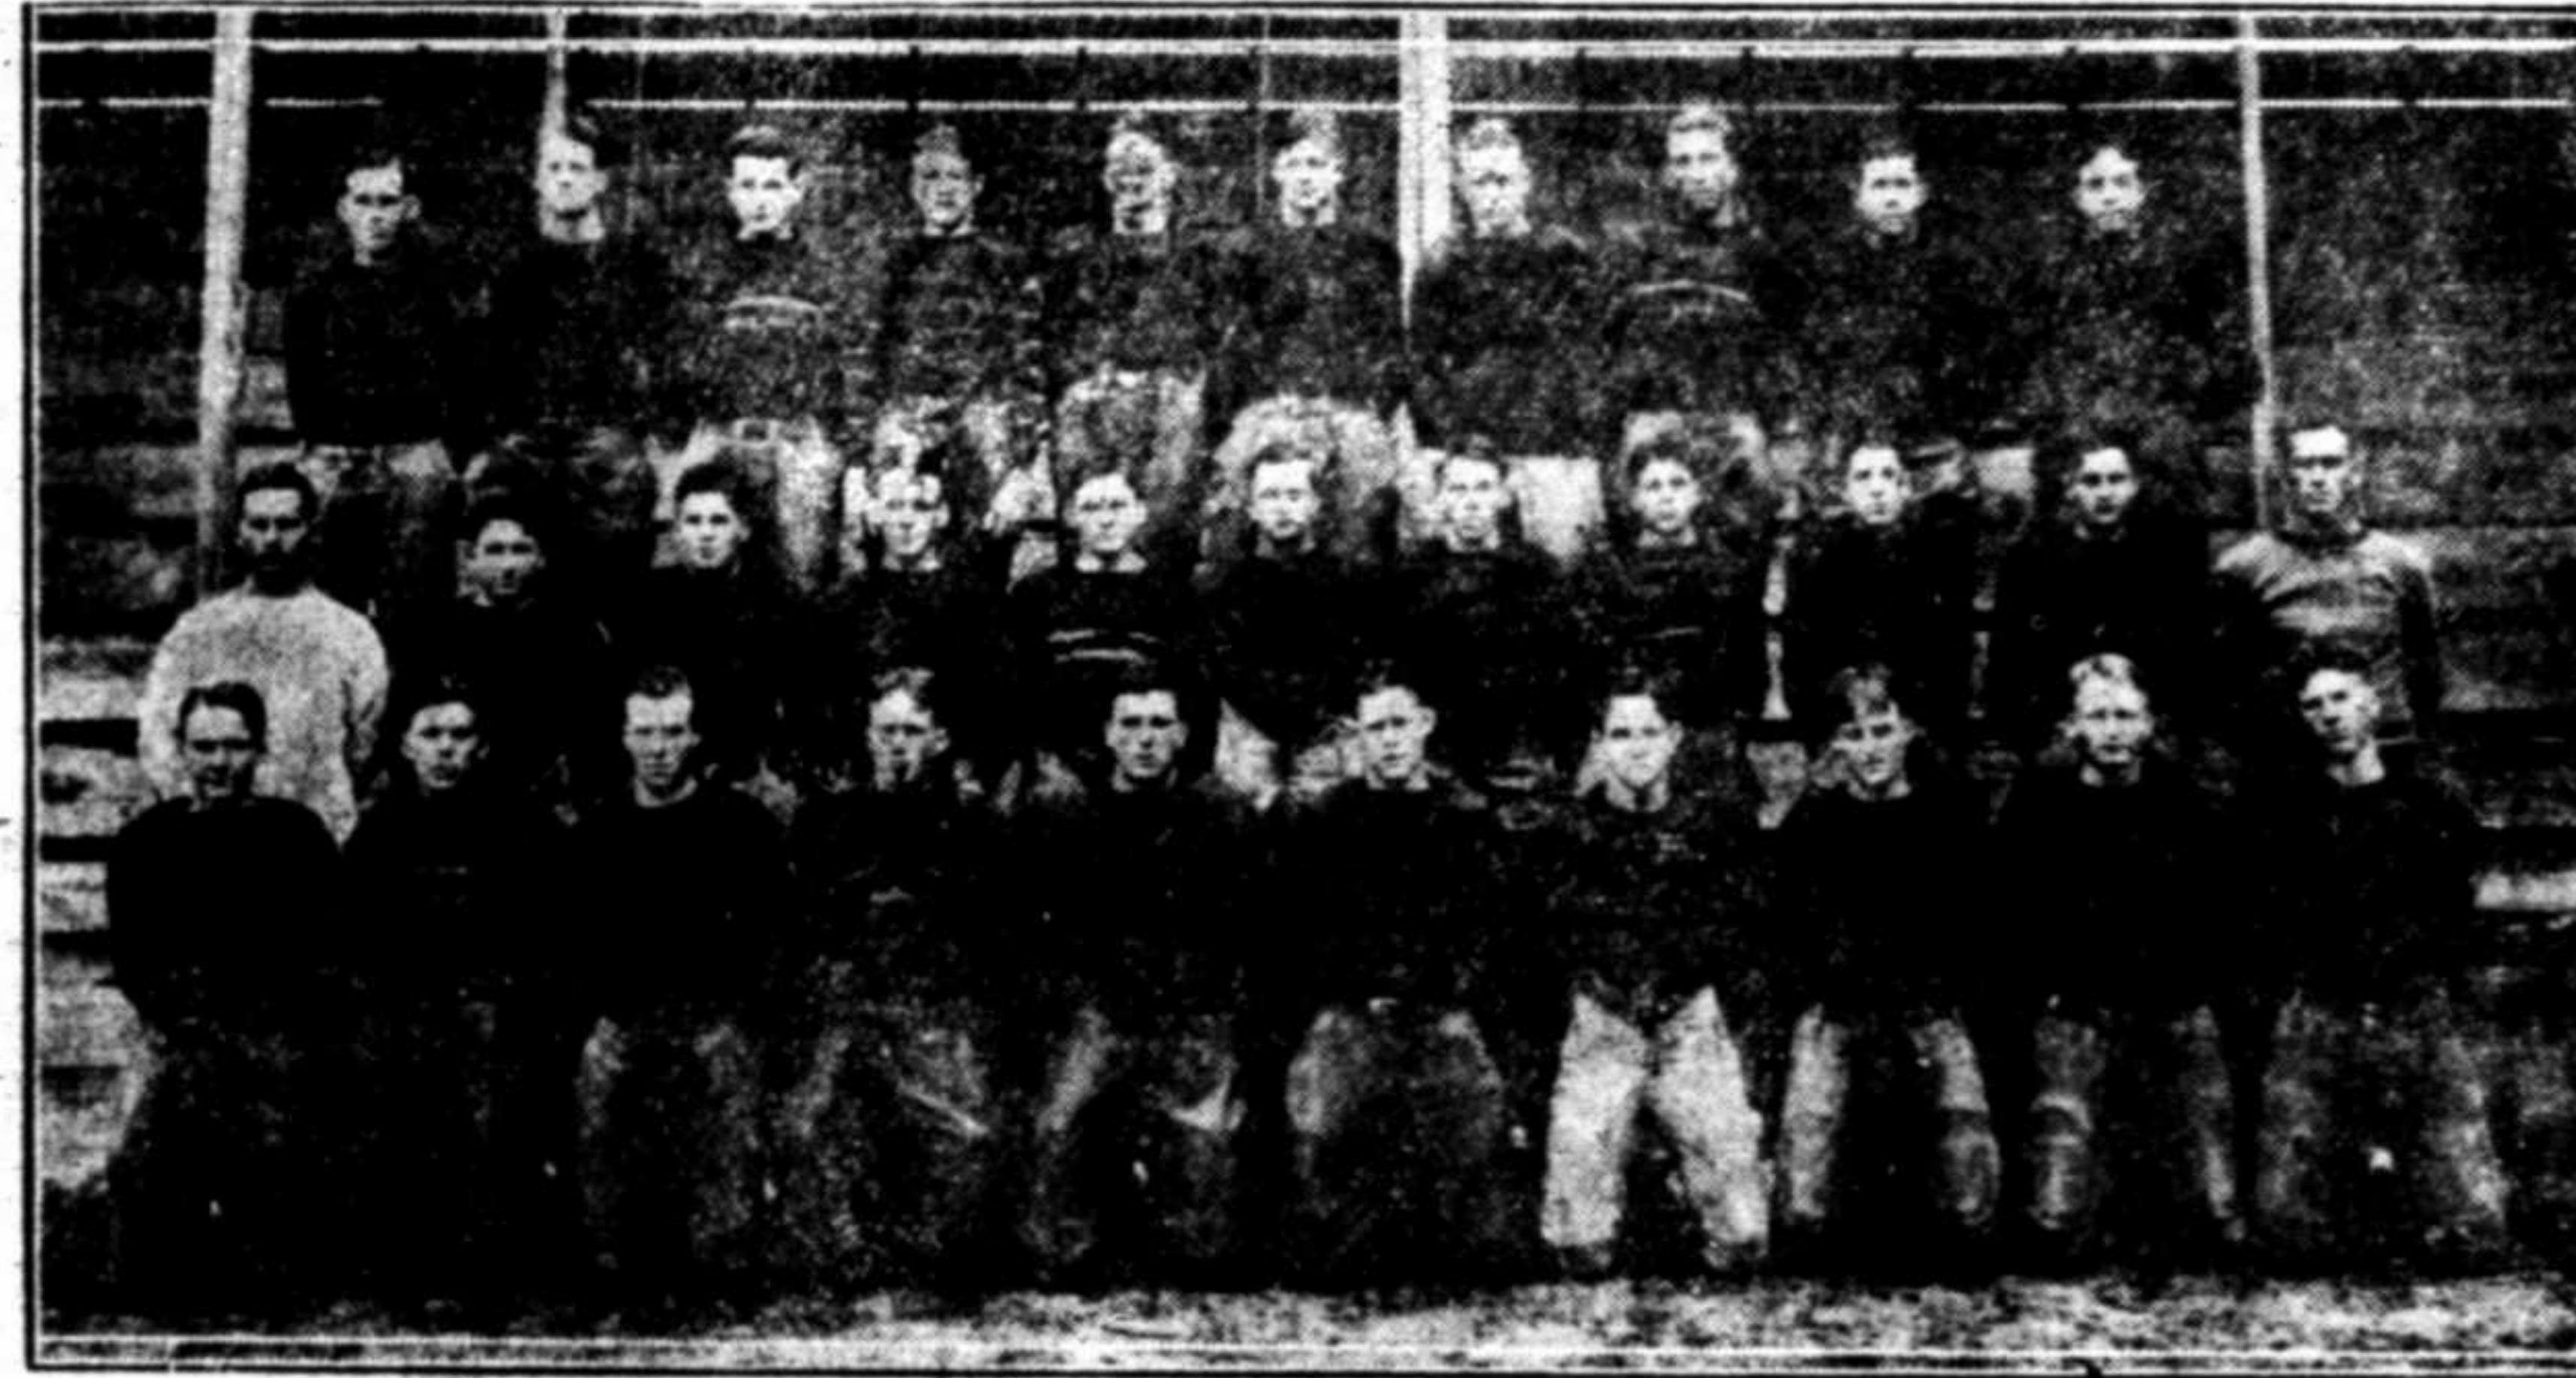

VIRUM FOR PREVENTION OF MEASLES IS DISCOVERED IN CALIFORNIA WORK

(By Associated Press)
SAN FRANCISCO, Oct. 31.—Prevention and cure of measles may result from discovery of a serum being studied today in the Hooper foundation laboratories of the University of California Medical school. Professor Giuseppe Caronia, Italian scientist brought here from Rome as the A. P. Glanville research professor at the university, was announced yesterday as the discoverer of a serum said to cause measles as well as a serum for prevention of the disease.

TRAIN WRECK CLAIMS LIFE

FRANK M. WIRE DIES FOLLOWING CRASH AT MEMPHIS

(By Associated Press)
MEMPHIS, Oct. 31.—Slidings a freight locomotive on a siding in the railroad yards here, the engine and two cars of the north-bound Fort Worth and Denver passenger train No. 1 was derailed here late yesterday, killing one man and seriously injuring another. Frank M. Wire, 33, Amarillo, engineer of the passenger train, was fatally injured. He was carried with the engine as it ploughed fifty feet along the ground after it left the track. Taken from the wreckage, Wire died before a hospital was reached.

H. G. Saunders, Amarillo, express messenger, was taken to a Memphis hospital in a serious condition. No other injuries were reported, although passengers were badly shaken.

The freight engine was unoccupied.

Traffic at Memphis was blocked several hours by the wreck.

DETROIT, Oct. 31.—The Russian plane, Land of the Soviets, was held at the Ford airport again today because of unsatisfactory flying conditions. The flight to New York, which had been originally planned for yesterday, was postponed.

ROUSING SEND-OFF TO BE GIVEN WHEN WESTERNERS LEAVE FOR SANDIE TILT

BY ALLAN CARNEY
Journal Sports Editor
When the Westerners of Lubbock High school board the north-bound Santa Fe at 7:30 Friday morning for Amarillo, a tremendous send-off will be given members of the squad by the high school student body, led by the band and pep squad.

Interest in the impending clash between the rival contenders for the District One football championship has reached an unprecedented height as the day nears for the battle that is figured to settle the 1929 title. The student body of Lubbock High has been thrown into a frenzy by this week-as plans go forward to follow the Westerners on their quest of the topmost honors in the district.

CLAY LESTER RESENTS PROSECUTOR'S STATEMENT ON HIS CASE; HEARING ON HABEAS CORPUS PLEA SET FOR FRIDAY

BY SUTTON CHRISTIAN
Of the Journal Staff
There are no visible traces of fear in the countenance of Clay Lester as he faces trial on a charge of murder in connection with the fatal shooting of his wife one week ago. Apparently comfortable in his cell at the Lubbock county jail, he lit a cigarette and before the final puff he had hurled several questions at District Attorney Durwood Bradley in a retaliatory manner, which he characterized as resentment to the state prosecutor's statement that the case represents "heartless" action.

Asks Questions
"Is it for the benefit of society that Bradley has become so harsh in discussion of my case, or is it for his own personal benefit?" he queried.

His lips closed tightly his glistering brown eyes had become slits, and then his lids opened fully as he hastened another question, "Why wouldn't the district attorney allow me to appear before the grand jury which investigated my case?"

"I would like for him to answer me," he said rapidly.

Browned forefingers reveal the nicotine of innumerable cigarettes. His bronzed complexion and bearded

face are a study in contrast.

Wife Jailed, Hubby Can Enjoy Vacation
HOPKINSVILLE, Ky., Oct. 31.—Mrs. Dora Rager was in the county jail today while her minister husband, Walter Rager, enjoyed a ten day respite from her beatings.

The 35-year-old preacher told Judge Lorenzo K. Wood yesterday his 29-year-old wife constantly terrorized and beat him and that he had fled their home in fear of his life. He asked that she be confined for a breach of the peace.

Mexicans Facing Starvation Period
MEXICO CITY, Oct. 31.—Twenty-five thousand agricultural workers are without means of livelihood as a result of crop failures in the state of Durango, and unless the government grants assistance they and their families, totalling 100,000 persons, will face starvation, according to a petition presented to President Portes Gil.

The recent long drought has ruined 95 per cent of the cotton, corn and bean crops in the eastern part of Durango, the petitioners

WEATHER IN AREA CLEARS

SUNSHINE RETURNS TO SOUTH PLAINS; CROP DAMAGE SLIGHT

After falling to the lowly position of 31 early this morning, the mercury climbed to the 56-degree mark early this morning, as sunshine was restored to the South Plains, following three days of cold and dismal weather.

The wintry measure last night was accompanied by "considerable frost," said by farmers to have created very little damage.

Precipitation here totalled 35 of an inch yesterday. The moisture has greatly damaged cotton, particularly that portion on the ground, and has delayed harvesting.

Service is being rendered over all lines today from the union bus terminal. Buses were not operating yesterday between this city and Amarillo. Roads are heavy throughout the area, motorists report.

DENVER PLANS TO EXTEND TRACKAGE

Planning to extend two rail lines from the location of its depot at Avenue G, for the express purpose of serving Lubbock's growing industries, and to provide a substantial revenue increase, the Fort Worth & Denver City railway company is making surveys for two additional trackage lines in this city.

W. D. McKoy, of Fort Worth, tax and right-of-way agent for the company, is in this city today in the interest of the surveys.

One of the lines would extend between Avenues G and H to Fifth street, and the other would run between Avenues G and H to Broadway.

The additional lines would serve approximately 16 industries within that district, said Mr. McKoy. The company is flooded with applications from industries seeking freight connections at their doors.

FLORENCE HENDRICKS TELLS OF AFFAIR IN TRIAL TODAY

WEATHERFORD, Oct. 31.—The only eye-witness to the fatal shooting of Tom Walton, Jr., 21, in his father-in-law's Amarillo law office last May 4, said today that Walton was slain after a scuffle with his father-in-law, R. H. Hamilton.

When she first went on the stand, Miss Florence Hendricks, daughter of Harry Hendricks, Hamilton's law partner, declared she was in the office where Walton was slain when he entered. He asked for Hamilton and then then she saw Hamilton "in the door with a gun in his hand."

Did Not See Move
On cross examination Miss Hendricks declared she did not see Walton make a move of any sort before he grappled with his father-in-law and the first shot was fired.

"Who fired that shot?" District Attorney Thompson asked.

"I don't know,"

"Well, who had the gun?"

"Judge Hamilton."

"Did you ever see Walton with the gun?"

"I don't believe I did."

"Did you see Tom Walton fall?"

"No, sir."

Hamilton, who kept when Dr. S. P. Brooks, president of Baylor university at Waco, was telling of Hamilton's reputation there, apparently was calm as the girl told of the shooting.

"You didn't see Walter attack Hamilton, did you?"

"I don't remember."

Moody Returns With Cold But No Bear

AUSTIN, Oct. 31.—Gov. Dan Moody returned from his bear hunt into Mexico with a severe cold but without a bear.

He left Austin without his overcoat, and when he returned to Texas at El Paso, from the possession of Old Mexico, he found snow falling. His friends said he did not take his overcoat because he expected to wear a bear skin home.

Three Speakers Talk On Road Project To Kiwanians

Three speakers who told the members of the Lubbock Kiwanis club of plans for a bond issue for good roads today at the regular weekly luncheon, received hearty applause from the membership, indicating that the good roads program is highly popular.

Chas. F. O'Neill, chairman of the Lubbock County Good Roads Association, explained the plans for the issue, stating that 414 people out of 416 approached signed the petition calling the election. He again called attention to the fact that the election will have nothing to do with designation of any of the roads, that the \$1,025,000 issue will provide adequate funds to pave with a concrete road, all the state and federal designated highways in road district number 2, and that it is important that every person interested in good roads go to the polls.

SWEETHEARTS FALL BEFORE STREAM OF LEAD FROM GUN OF KILLER IN PORT ARTHUR

MISS BELLE CROW, 18, AND WILLIAM BIRD, 21, ARE CLAIMED BY BULLETS FROM AMBUSH; MAN IS HELD; JEALOUSY MOTIVE, POLICE BELIEVE

(By The Associated Press)
PORT ARTHUR, Oct. 31.—Miss Belle Crow, 18, and her sweetheart, William Bird, 21, were shot to death in front of the girl's home about midnight last night.

As the couple walked arm in arm up a walk from their automobile to the front door of the house where the girl roomed, a stream of bullets was poured from a sedan parked nearby.

The girl and the boy fell to the ground, and died in an ambulance summoned by persons who heard the shots. The killer sped away.

Two Men Arrested
Two men were arrested by officers but one was released shortly. The other was held for investigation. Officers mentioned jealousy as a motive for the shooting.

Miss Crow was employed a confectionery on the outskirts of the city. Bird was an employee of several refectory. They had been sweethearts for a considerable time.

Followed By Killer
When the girl was off duty at 11 p. m., she and Bird entered Bird's automobile and drove to the girl's home. Police followed, heeded by the killer up his automobile.

Both were shot from behind. Bird three times, once through the heart, once through the right shoulder and once through the left hand. Miss Crow twice, once in the neck and once in the breast.

Another theory was that the killer lay in wait near the girl's home until he saw the automobile of the couple approach and stop when he started his motor and drove slowly to the other car, shooting as he passed.

Lights Still Burning
The lights of the slain couple's automobile were still burning when police and ambulances arrived, indicating, police said, that they had alighted from the automobile and were brightly outlined in the circle of light when shot down.

The two bodies were found huddled together, their hands clasped in front of the youth's car. Bird had lived with a sister, Mrs. Vessie Gardemal, since the death of his mother and father in several years ago. He is survived by two sisters, Mrs. Clara Bear of Comstock, and Miss Lida Bird of Port Arthur.

Miss Crow came to Port Arthur from St. Martinsville, La., several years ago. Surviving her are her mother and father.

AMARILLO MAN IS SHOT TO SAVE LIFE, CLAIM IN HEARING

(By Associated Press.)
AMARILLO, Oct. 30.—Pinus Brown, who was shot to death in the office of John Dees, local realtor, was "insanely jealous" of his divorced wife, Mrs. Nettie Sorenson, a waitress, she testified at a court of inquiry Wednesday. Dees has been charged with murder in connection with Brown's death.
Brown she said, "unjustly suspected" her of "being too familiar" with other men. She expressed the belief that his "insane delusions" might have caused him to go to Dees' office where he was fatally injured.
Hear of Threat
Mrs. Sorenson, who rents a house belonging to Dees, was one of a large number of witnesses examined. She said she had learned Monday from Dees that Brown had threatened their lives. Tuesday she went to the garage where Brown was kept, and begged him "not to cause any trouble." Brown then told her she testified, "I'll get you both and if this was a vacant lot I would whip you now."
She then went to Dees' office and told him of Brown's threat.
Her divorced husband arrived a few minutes after her departure, other witnesses said, and entering the office said, "Dee, I'm going to kill you." His hand was in his hip pocket, they said.

VAULT IS HIGH STAGE SE

Justice Is Not Blind! AN ANCIENT PREJUDICE HAS BEEN REMOVED

Justice is no longer dispensed by ignorant and individual domination. Another ancient prejudice stands convicted by AMERICAN INTELLIGENCE which insists that a jury "twelve good men, tried and true" decide the facts.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

DRIVE OUT TO-DAY

Another milestone in the growth and development of Lubbock is about to be passed. From New York to Los Angeles and from Minneapolis to Houston every large city has its modern park plan burial park. The founders of Memorial Park think Lubbock is entitled to the best. These men of great experience in this special work have determined that this institution shall represent the outstanding project of its kind in the South. Thousands of dollars are being spent at this time in carrying out this idea. Every feature of this development is being planned by the best engineering and architectural talents in the country. Old time obsolete cemetery methods have been cast aside and only the modern park and landscape features are a part of this installation.

An imposing entrance is being constructed which with the winding drives, green lawns, beautiful shrubs and restricted monument or memorial regulations will always permit Memorial Park to carry on as a wonderful civic park project.

Then, too, Memorial Park will be properly protected through the establishment of an ample perpetual care fund, the income from which will forever keep this project as safe as human knowledge and experience will permit.

WOMEN RECOGNIZE TYPE, THEN PICK COLORS

By LUCY CLAIRE

Every woman is one of the following types: olive brunette, medium brunette, fair brunette, fair, fair hazel, medium or olive blonde, Titian, white or gray haired. Recognizing her type she should choose the colors she wears accordingly.

Generally speaking, the olive brunette will look best in dark reds and greens, while the medium brunette delights in black with contrasting trimmings, browns, yellow and yellow greens. Between the fair brunettes and the medium blondes there is so little difference in coloring they can wear the same colors. They will look their best in clear browns, reds and green.

Fair blondes also the white-haired type should choose the clear or slightly grayed colors. The fair hazel type, she with the fair hair and hazel eyes, if able to wear well, can wear the clear colors of the olive brunettes, but should adopt browns, blues and greys. The woman with the Titian hair will do well to choose clear browns, greens and lighter blues. The woman with white or graying hair should always be wary of brown. I have seen a few women of the brunette type with brown eyes and gray hair who could wear brown, but they have been the exception.

Brown is the color of the most favored color of the season, the fair or medium brunettes, or the medium or olive blonde would look well in the frock of dark brown satin sketched at the left. It would naturally take a slim figure to wear this model with its shirred hip section secured by bands. The skirt is circular and dips slightly in the back. The large collar is trimmed with a brown lace which is being much used on dresses this season. Brown felt on-strap shoes and a brown belt and velvet hat complete the costume.

Choosing green next because it is a color constantly growing in popularity, and can be worn well by at least six of the types, the center sketch illustrates one of the new models for afternoon wear by canton crepe. This has the fitted bodice lines, the shirring at the front of the tunic which rises in the front and drops in the back, and is finished with a deep, shirred collar. Either green or black kid shoes, and a green or black hat should be worn with this frock. The medium brunettes should choose a yellow green. Fair blondes will prefer one of the slightly grayed greens. The Titian and other types, the clearer greens. The olive brunettes look best in the darker shades.

Some shade of red can be worn by any of the types, except the Titian. This brings us to the staples, blue and black, which, generally speaking, accommodate themselves to every woman. The frock at the right is one that would be becoming to the matron with white hair and slim figure. This is in one of the brighter, clear shades of navy cloth, relieved at the neckline with bands of red ending in loops below the closing. Dark blue kid shoes, and a matching felt hat, are worn with this costume.

Hankins Talks

J. H. Hankins talked on the value of good roads, stating that he is of the opinion that a state bond issue will be passed in the next few years which will relieve tax payers here of the necessity of paying the bonds out. He declared that it is likely that ten years would be required to get one road through the county, however, should Lubbock county people wait for the state to build the roads. Two new double-quick cookies

Grandmother's Sugar Cookies

(Mixing time: 7 minutes)

Remember when you used to slip down the back cellar steps and "twipe" cookies like these from Grandmother's big cookie jar? She had to store them in the cellar to keep them soft and fresh. You can keep them handy anywhere because nowadays they're made with Crisco, a pure, sweet shortening which helps to make them fine flavored and moist—and keeps them so to the very last cookie.

1 cup Crisco 3/4 cup thick, sour milk
1 1/2 cups sugar 1/2 teaspoon soda
2 eggs, beaten 3 cups flour
1 teaspoon salt
1/2 cup sugar and 1 teaspoon nutmeg

Blend Crisco and sugar, add beaten eggs. Add sour milk with soda dissolved in it and stir in flour sifted with salt. Don't roll dough—drop by spoonfuls on Criscoed pan. Sprinkle with mixture of sugar and nutmeg. Bake in moderate oven (350° F.) for 10 minutes. This makes 30 luscious cookies.

Soft Molasses Cookies

(Mixing time: 10 minutes)

A letter from a man in Ohio tells us that Crisco cookies were left all winter in a summer camp and when found this spring were "amazingly" fresh and sweet. There is something amazing about Crisco's pure sweet flavor and the way it lends its flavor and fresh keeping quality to foods.

1 cup Crisco 1 cup brown sugar
1 cup molasses 1/2 cup hot coffee
4 cups flour 1 teaspoon vinegar
2 teaspoons ginger 1 teaspoon salt
2 teaspoons baking powder

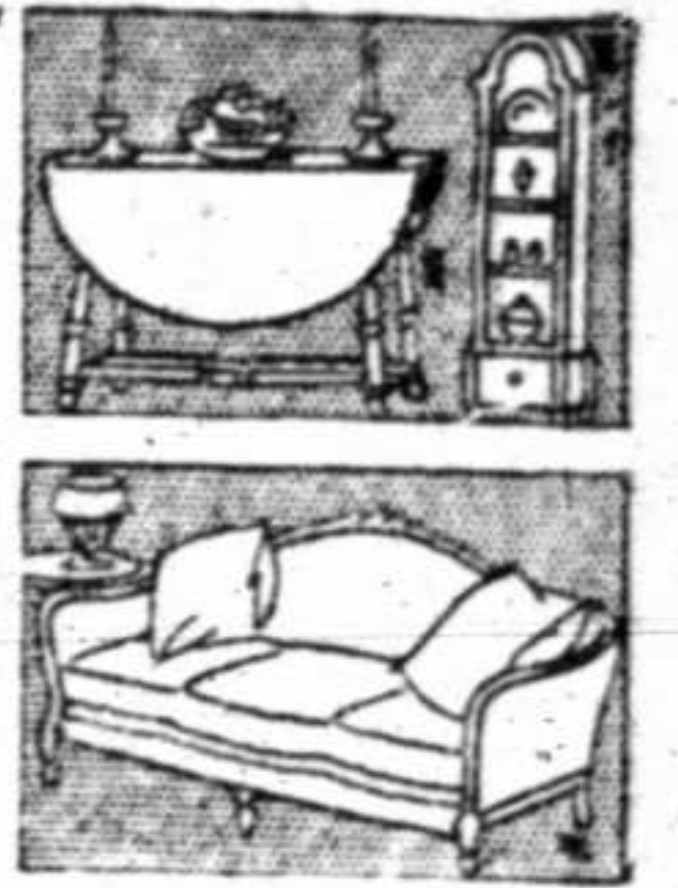

Blend sugar and Crisco, add well beaten eggs, molasses, spices and soda mixed with hot coffee. Then add vinegar and beat in the flour sifted with salt and baking powder. Stir well and drop from end of spoon onto Criscoed cookie sheet. Flatten with spatula dipped in water and bake in moderate oven (350° F.) for 10 minutes. This recipe makes about 65 cookies.

4TH ANNIVERSARY CELEBRATION

We're celebrating our Fourth Anniversary—an unusual value-giving event because of the fact that right in the heart of the season we are making substantial reductions on the very smartest of Fall and Winter ready-to-wear and accessories. They are reductions that mean more in the way of savings than those ordinarily found in an event of this kind. We are able to mark our merchandise "closer" because of the fact that we sell for cash and do not have to add to the cost of the garment, enough more to take care of credit losses as those who operate on a credit basis. This is a store built on honest values—a store whose ever-growing clientele testifies to the success of selling for cash—whose buyers are ever on the alert to provide garments of unquestioned style and quality at prices you ordinarily pay for very ordinary merchandise. We're making price sacrifices in this event—it is the only way we can show our appreciation to those who have contributed to our success.

LONGHORNS AND MUSTANGS PLAN STOPPING ONE MAN

SHELLEY AND MASON GOAL OF DEFENSES

FANS PUZZLED AS TO OUTCOME OF GAME IN DALLAS

BY GAVIN TALBOT, JR.
Both Texas and S. M. U. are concentrating on stopping one man in Saturday's battle at Dallas. The Mustangs figure that if they can handcuff DeWitt Shelley, Texas premier halfback they have the game in the bag. The Longhorns are planning to put a quietus on Weldon Mason, Mustang star as the first try to victory. Each has the right idea, and the one that succeeds best probably will take the victory. That is not to say there are no other exciting back of both teams, but Mason and Shelley are mainstays of the rival defenses. In watching the Southern Methodist-Mustang tussle at Dallas last week one got the impression that Mason felt he was almost the whole works for the Mustangs. Coach Ray Morrison has built his attack around the nimble-footed lad from Waco and the team that stops Mason will hold a championship on the Mustangs. Stopping him is the big problem.

Shelley and Mason both are due to be back next season and will start there as a year hence. Shelley was a brilliant star at Terrell school, Dallas, before entering the university. Mason was sent to the Methodist school from the state champion Waco high school team of 1927, of which he was captain. Few sophomore are as polished performers as Mason. A football held in his earnest. Shelley is the most powerful of the two, weighing 175 pounds to Mason's 153.

Local boys and girls will call to the Mustangs Saturday. Coach Morrison has decided his football team will do better if not scattered in the task of selecting a team to play. He decided to select the team against Mississippi. He said he did not want to play a team that would not play as hard as he would. The Mustangs, however, do not possess as much a field general as Ray Morrison. Morrison's plan was to have the Mustangs play a conference game in Dallas. But Morrison and Frank Coates, coach of the Mustangs, were in Dallas, at Brackenridge high school, San Antonio, four days ago. All were members of that year's state champion basketball team.

Few current players are being made on the Mustangs. Morrison is more than on any previous conference. The Mustangs are the only team in the state that has a conference game. WADE'S ALABAMA CRIMSON TIDE WARRIORS PLAYING TOUGH ONES THIS SEASON

CRIMSON TIDE
HOLM HICKS
MOORE SINGTON CLEMENT

By NEA Service
UNIVERSITY ALB., Oct. 31.—In spite of the injury bugaboo that has haunted Alabama's Crimson Tide football team this season, the Crimson Tide warriors played a tough game against the Georgia Tech team in the Southern Conference game at Athens, Ga., today. The Crimson Tide lost a bitter struggle to Tennessee 6 to 0 as the Vols obtained their winning streak to include 21 consecutive games. The pounding they sustained from the Tech, however, may soften them for future foes.

Wade's big captain, fullback, Topy Holm, is in the south all of what Al. Mustangs and Chris Cagle are in the east. Tony is the leading ground-gatherer and one of the south's highest scoring backs. He won All-Southern honors last fall and undoubtedly will receive the same recognition this season, with the added possibility that he may make the All-American selection.

Holm kept all alone in the Crimson Tide backfield. Captain Billy Hicks halfback, is a capable running mate. Hicks has the unique distinction of never having been relieved in a football game because of injury.

Wade's forward wall is big and strong. Fred Sington and Toots Clement are rated two of the best tackles in Dixie. Juvane Moore and Stank out as the best wingman since the days of Winslett, the All-American.

MOVING THE SPORTS WORLD

WITH ALLAN CARNEY JOURNAL SPORTS EDITOR

The best of Vaght Gulland, a sportsman, who naturally make the Bears harder for the Mustangs to defeat this week. Often such a setback furnishes the team necessary to make a football club and cause it to gain its full stride.

Tech outwitted and held a more powerful scoring machine than Baylor for two quarters here last week and local Mustang supporters believe that the Hixsonham-Payne crew will make an even better job against the Bears. The Mustangs will be missed sorely, but there are others who will be more determined than ever to carry on the brilliant work of Tech's greatest athlete. On the Mustang squad are players who have yet to make a name for themselves, men who have never had a real opportunity to test their skill against the stronger teams of the state. Slippery fields have on two occasions made a fast Tech running attack helpless while a number of sophomore gridders have yet to see action of any sort.

The showing of the Mustangs against the T. C. U. Horned Frogs last week proved beyond a doubt that Texas Tech can master fourth athletic teams capable of holding their own with Southwestern conference teams. Coach Francis Schmidt brought one of the most powerful scoring machines in the history of the Purple institution here to battle the Bull Fighters, and the result was anything but a run-away. Except for the performance of Cyrus Leland and Howard Grubbs, the Frogs held no decided advantage against the Mustangs. Had Ransom Walker remained in the game, Tech might have scored and the story would have been far different.

This week the Mustangs are facing an even better opportunity to show their wares against a Southwestern conference eleven when Hixsonham and Payne lead their Crimson-tied warriors out on the Cotton Palace gridiron at Waco for the first time. A victory for Tech is very possible but not probable and even a close score will bring added recognition to the Scarlet and Black institution. It is a known fact that the Bears are not taking seriously the visit of the Mustangs and the opportunity arises for a sensational upset.

The reappearance of Austin Griffith, regular T. C. U. fullback, in the Frog lineup, has served to disperse of the let-down following the "Frogs" battle with the Texas Aggies. Griffith is a battering ram that gives the Frogs another threat in addition to the speed of Leland and Grubbs. T. C. U. followers believe that the Purple will have regained their early season strength in the Texas-University game on November 16.

SOX HEAD PLANS LOOP CHAMPIONSHIP TEAM DURING 1930

CHICAGO, Oct. 31.—Charles A. Comiskey, who returned to Chicago to build plans for rebuilding his White Sox, a contender for the American league championship.

First move of the "Old Roman" was to call Docle Bush, new manager of the Sox, for a conference next week to plan for obtaining material. Comiskey spent the summer at his farm in Wisconsin because of illness which forced him to retire from active participation in baseball affairs several years ago. His health apparently is improved.

Comiskey will discuss the case of Arthur Shires, and it is expected the recalcitrant first baseman will be retained. Bush shortly after he signed to manage the Sox, expressed admiration for Shires' ball-playing and said he expected no difficulty in handling the Texas. Bush also has plans for trades which he will present to Comiskey.

HUNDRED OFF IN OREGON TOURNEY

PORTLAND, Ore. Oct. 31.—More than 100 golfers, including Walter Hagen, British open title holder, and Dr. O. P. Welling, runner-up in the 1929 National Amateur tournament, were grouped into threesomes here today for initial play in the \$1200 Oregon open championship event.

The Country club course was the setting, with 18 holes of qualifying play on the day's program. Tomorrow another 18 hole round will result in elimination of all but fifty of the entrants. The qualifiers will go into the final round Saturday.

Among prominent entries are Abe Kaplansky of Chicago; Billie Burke of New York; Tommy Armour of Detroit; Horton Smith, the hard driving contender from Joplin, Mo.; "Lighthouse" Harry Cooper of Buffalo, N. Y.; Al Watrous of Detroit, and Frank Walsh of Wisconsin.

CHARTERS GRANTED

AUSTIN, Oct. 31.—Chartered: The Concho Oil company, San Angelo; capital stock \$50,000. Incorporators: Hugh H. Tucker, William Gruber, Geo. T. Wilson.

Amendments: Panhandle Santa Fe Railway company, Panhandle; extending mileage.

November games on the 23rd and 24th instead of on Thanksgiving day in order to give the annual Texas-A and M battle the spotlight when Turkey Day rolls around. This year the old rivals meet at College Station and the rivalry is as strong as ever, but the powerful Longhorns appear to hold the upper hand. Texas is apparently favored in a most severe test this week when they meet the tricky S. M. U. Mustangs at Dallas.

LOCALS WORK OUT INDOORS WEDNESDAY

SNOW FAILS TO HALT CREW; LEAVE FOR GAME FRIDAY

"They learned to play with the hogs and the hay—"

With apologies to a certain writer by the name of Anonymous, we refer to the Westerners of Lubbock High school who are preparing for their important battle with the Amarillo Sandies Saturday in the Panhandle city.

Continue Grind
With the first snow of the season coming on the heels of the first winter blast and a driving cold rain, the Lubbock High school gridders shipped away to the livestock building of the Panhandle South Plains fair Wednesday afternoon to continue their strenuous training grind for the crucial tilt Saturday, figured to settle the championship of District One.

Taking refuge under the cover of the huge iron structure, the Westerners were sent through an intensive session of signal drill, and fundamental exercises, all unimpaired of the previous occupants of the building. The dry footing inside the building on the fair grounds gave the High school grid warriors an opportunity to execute every play in their repertoire and advance another stride toward the perfection desired for the Amarillo clash.

Take Lengthy Session
Coaches Franks and Morgan gave their charges a lengthy setting-up exercise, followed by a strenuous signal drill in which the entire squad of regulars were given an opportunity to perform. Lack of running space prevented the regulars from holding the scheduled scrimmage with the reserves, but the school troops continued drill on Amarillo plays that will be sent against the Westerners in today's final workout at home.

The Westerners ran through their pre-arranged attack for the Sandies Saturday without a hitch and every indication points to Lubbock having its full strength to throw against the vaunted Sandies. Griggs and McGeehee were the starting guards in yesterday's signal drill and are likely to get the call Saturday when the opening whistle sounds at Butler Field.

Backs Look Impressive
Green at quarter, Teal and Martin at halves and Lawson at fullback composed the backfield combination that received most of the attention yesterday. This quartet is certain to see considerable service in the game Saturday.

Coach Franks announced last night that the Westerners will take their final home workout at Merrill Park this afternoon if the weather and ground conditions permit. The squad leaves here early Friday morning for Amarillo and will take a light workout on Butler Field in the afternoon.

Cochran Leading In Billiards Contest

NEW YORK, Oct. 31.—Walter Cochran of Hollywood, Calif., held a slight margin over Otto Reisel, former world's titleholder, today by winning the fifth and sixth blocks of their special three cushion billiards match. The double victory yesterday left them all square with three blocks won by each and gave Cochran a margin in points of 300 to 294.

NEW FACES MAY BE IN TECH LINEUP IN WACO SATURDAY

The season's first snow, coming with a cold, driving rain kept the Matador gridders of Tech indoors yesterday as the Tech mentors gave all college footballers a day of rest.

Tech Field was a sea of mud and water and both varsity and freshman coaches called off all activities for the day.

Squad Leaves Friday
Two more days of training remain for the Matadors to complete preparation for their first football invasion of Baylor university Saturday. The squad leaves on the special train Friday night with the remainder of the Tech delegation.

The Matadors are out this afternoon to continue work on played by the Golden Bears and to put additional drill in the running attack figured to click against the Southwestern conference title contenders.

Shifts Are Likely
Permanent injury of Raul Walker, Tech Matador halfback, has caused several shifts and changes in the Tech backfield. Walker, certain to be out for the remainder of the season, but a host of promising ball carriers are coming up to take his place.

Tech coaches have intimated that several new faces will appear in lineup that takes the Tech squad to Waco Cotton Palace Saturday. Among those who have warmed the bench for the most part in previous games, Julius Berfield and Earl Hill are the most likely to see action. Berfield, a husky driving fullback, fits in with the scheme suggested by Clarence Hodges was shifted, halfback, Hill, a fleet-footed back, is one of the squad's capable ground gainers as well as an accurate passer.

Tomorrow the college grid warriors will have their final workout before leaving at 7 o'clock on the special train, headed for Waco. The entire squad is in splendid playing condition and should have their full strength to throw against the hosts of Morley Jennings.

APPLES BANNED

No More Throwing Of Cores To Be Seen At Texas

A serious problem that University of Texas officials were called upon to solve concerned football, apples, the freshmen and the university band, and resulted in a ban being placed on apples at the football games.

Texas fans long have felt that apples and peanuts are essential at football games. Incidentally, freshmen and the band are too.

Where there are both apple cores and freshmen, one might expect to find "apple core throwing." Such was the case at Texas only the other week.

Instead of the throwers, some of the more wildly-thrown cores found marks on band members. The freshmen couldn't well object to the practice, but the band members did.

New Hope Club Boy Profits In Breeding

Monroe Misen, 4-H club boy of New Hope, realized a net profit of \$178.48 from results of his breeding project, according to County Agent D. F. Eaton.

Monroe started the project with four registered Delaine sheep, valued at \$112.20. Cost of feed was only \$13.82 as the sheep were pastured on sudan and green grass. Labor amounted to \$5.50.

The herd increased to five, the value of these now being \$250. Wool clipped amounted to \$22.50 and prizes won totaled \$37.50, bringing receipts to \$310, showing the net profit of \$178.48.

RALLS READY FOR FLOYDADA ELEVEN

(Special to The Journal)
RALLS, Oct. 31.—Despite numerous injuries to members of the squad including one broken collar bone and one broken leg, Coach Lovorn states that the "Froggie" Lovorn states that the squad is in excellent shape for the game with Floydada on November 1. The Jackrabbits have won a victory in their first game, a 10-0 win over the Red Devils.

SLATON PLAYERS ON INJURY LIST

SLATON, Oct. 31.—Accidents cutting one arm on a glass Tuesday caused Sam McMenamy, captain of the Slaton high Tigers, require twelve stitches to close wound. He will not play in the clash with Paducah to be played Paducah this Friday, but is expected to recover in time to play with Lamesa comes here on Nov. 11. McMenamy's position is right tack.

SLATON PLAYERS ON INJURY LIST

Lawrence Evans, left guard on the team, is in a hospital nursing broken leg, which injury was sustained on the first play executed here last Friday when Slaton won the Spur Bulldogs. Evans will play again this season.

While both men are valuable to the team, they are not difficult to replace, and their injuries will not hamper the team through the remainder of the season, it is cleared.

GOODYEAR

THE GREATEST NAME IN RUBBER

Tread and carcass: these are the two main parts of a tire. There is greater traction in the Goodyear All-Weather Tread. There is greater vitality in the

Goodyear Supertwist carcass. Evidence? Any Goodyear Dealer will demonstrate. Proof? "More people ride on Goodyear Tires than on any other kind!"

PREFERRED--TWO TO ONE!

EVERY year, through independent sources of information, we interview thousands of users of tires.

Every year, the reports which flood back to us clearly show an outstanding preference for Goodyear Tires.

The latest inquiry of this kind, conducted nation-wide, reveals a preference for Goodyears over any other tire exceeding two to one!

It verifies the impressive fact that one tire-buyer out of every three in America would rather have Goodyear Tires than any other kind!

This is a tremendous tribute to the superior quality and serviceability of Goodyear Tires. It is founded on the fact that there are definite reasons why Goodyear Tires are superior in both tread and carcass—the two main parts of a tire.

These reasons can be demonstrated and proved:

1 Press your hand down on the Goodyear All-Weather Tread. Feel the grip of the deep cut sharp-edged blocks, placed in the center of the tread, where they belong.

That shows why the Goodyear Tread imprints its safe and slipless pattern on the road, and why it has superior traction.

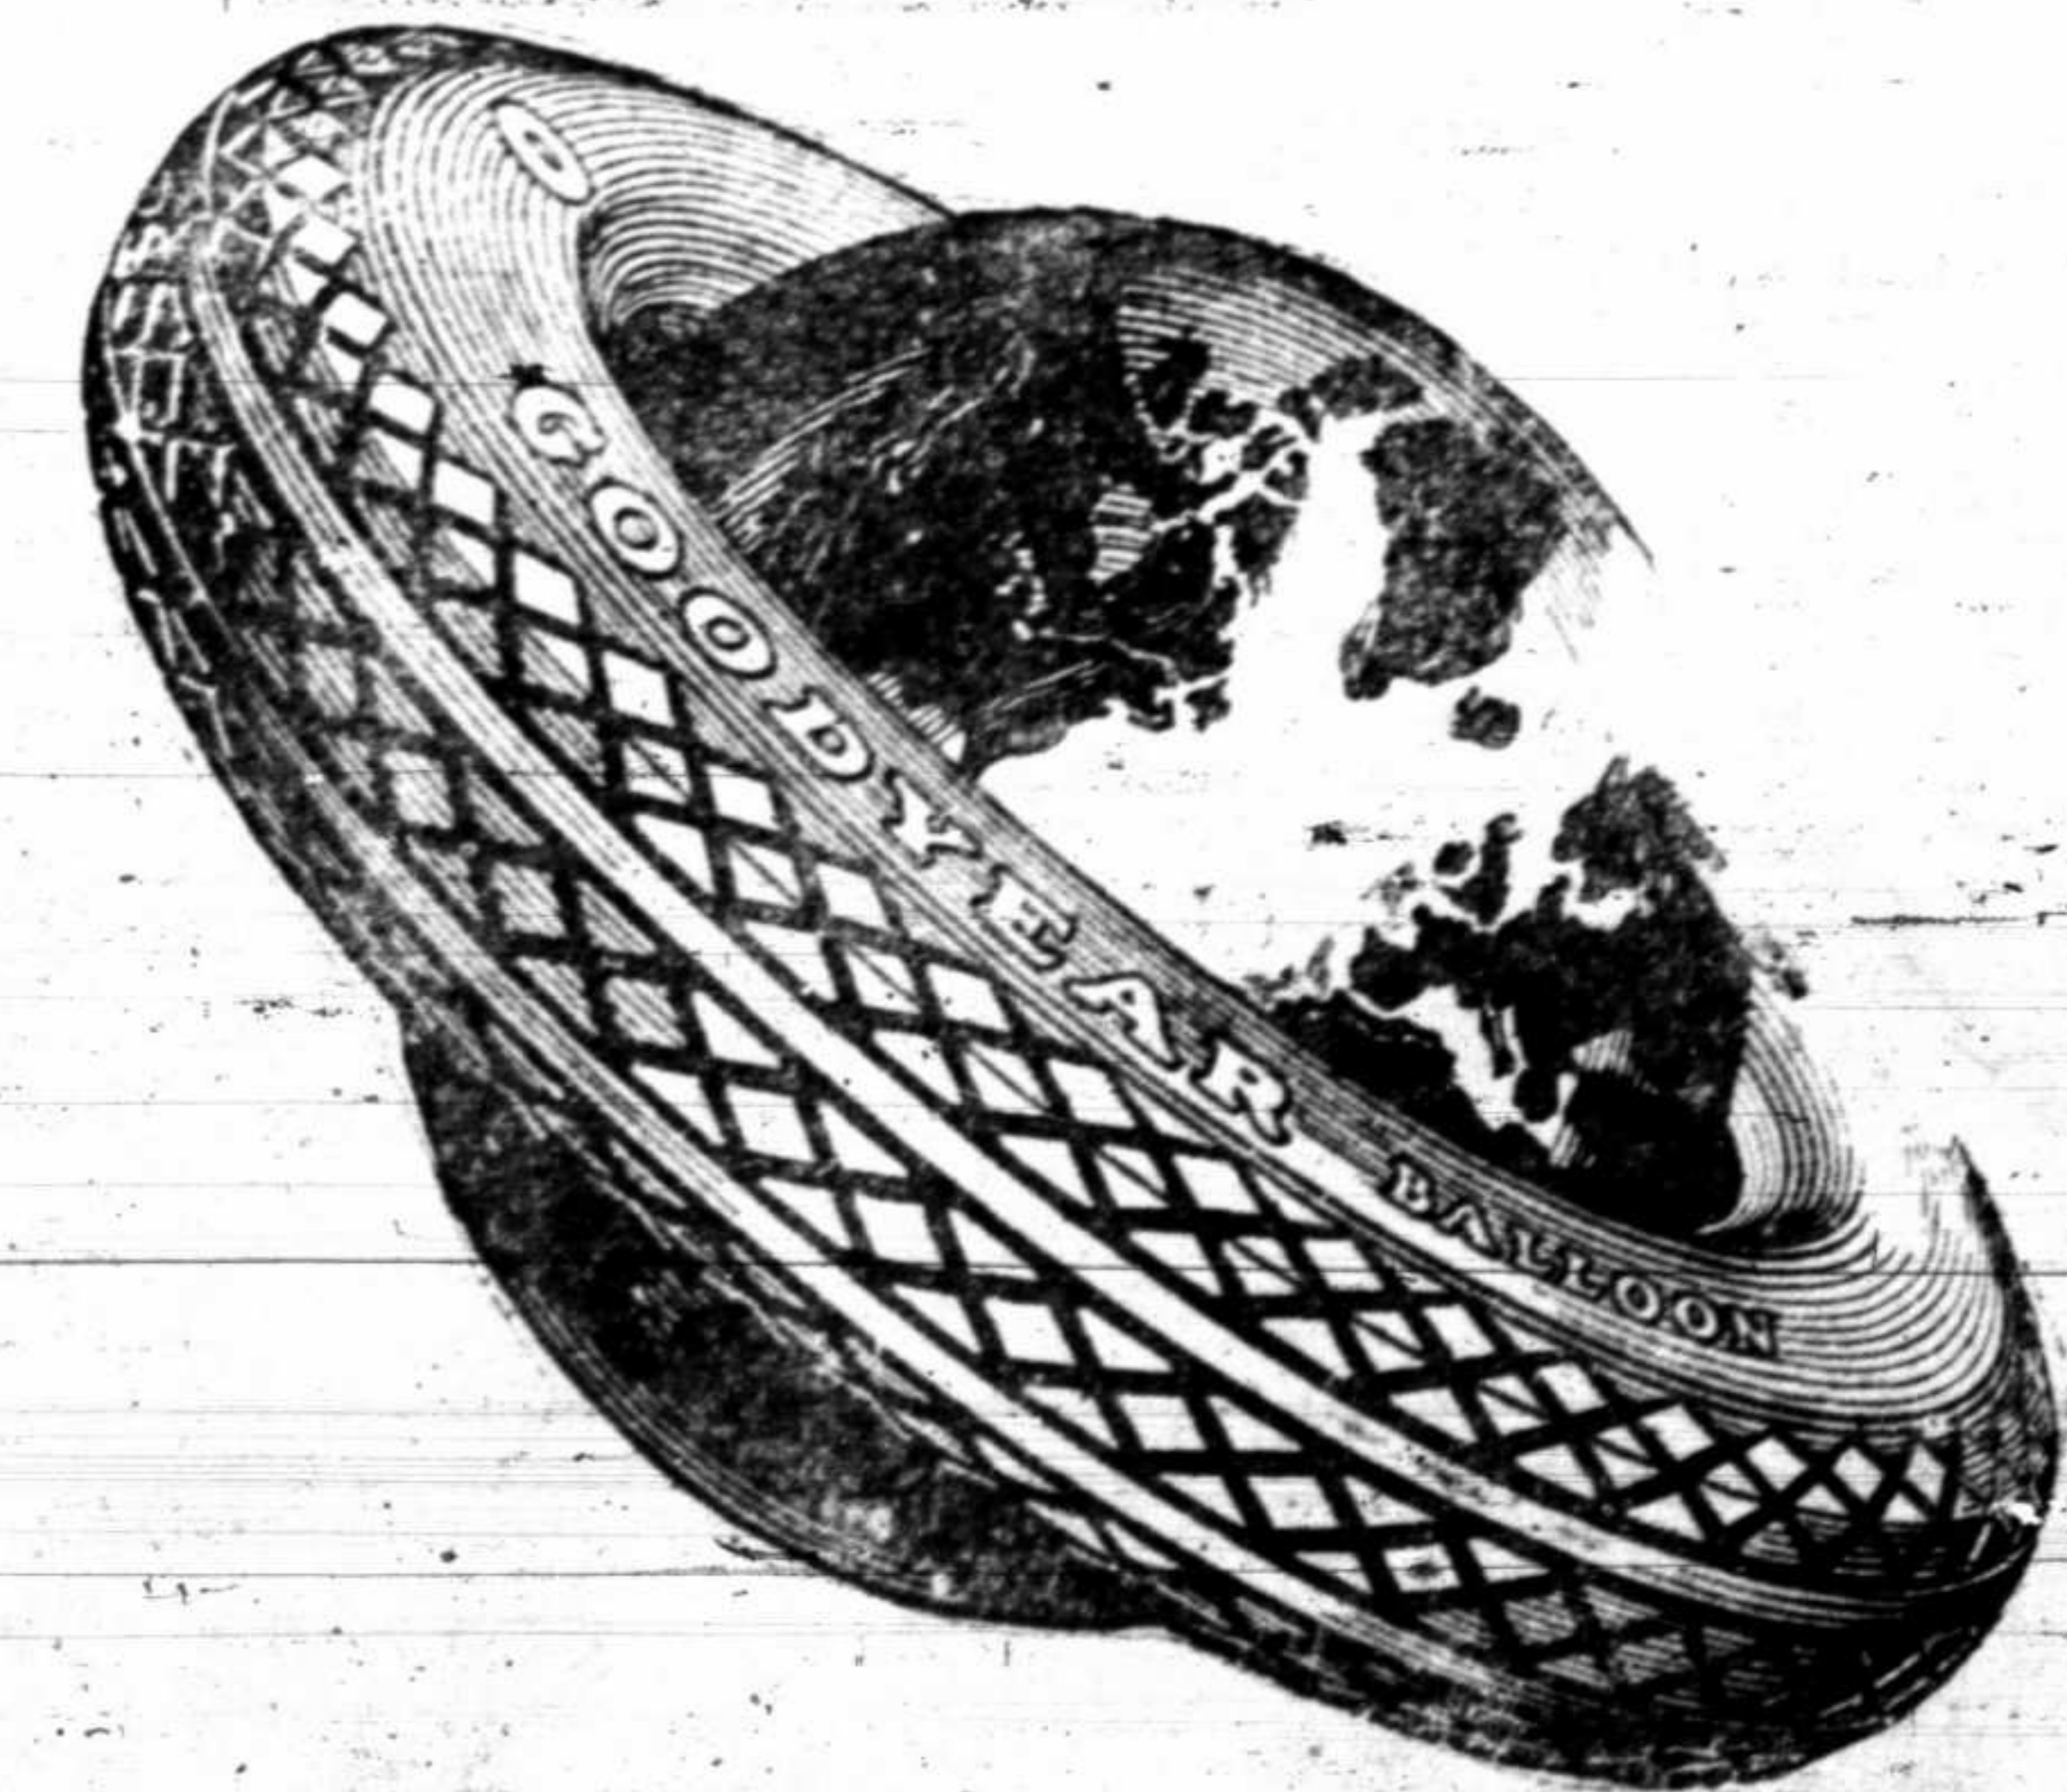

2 Ask any Goodyear Dealer to show you on his cord-testing machine the greater stretch—up to 60 per cent—in Goodyear Supertwist Cord over standard cord.

This extra stretch gives the Goodyear Supertwist Carcass its unmatched vitality, enabling it to withstand road-shocks and continuous flexing without premature failure.

Can you afford to deny yourself the advantages in Goodyear Tires, especially in view of the fact that Goodyears cost no more?

The proof of their excellence, as of their unchallenged leadership, is that

THE TINYMITES

BY HAL COCHRAN

(READ THE STORY, THEN COLOR THE PICTURE)

The pigs kept squealing at the bunch and Scouty said, "I have a hunch that we had better stay up in the hay loft for a spell. It sure wouldn't be a treat to have those pigs nip at our feet. It's much more fun to sit up here and listen to them yell."

"You bet," laughed Scouty. "This is nice. Believe me, I will stay up here twice before I play around with pigs. They're dirty as can be. I saw them splashing with a mud and wallowing in messy mud. The rest of you can play with them, but goodness, not for me."

"Oh, is that so?" another cried. "Well, say, I will not risk my hide. I'm going to climb into the hay and do some funny tricks. Let's tumble round. We all feel fit and landing will not hurt a bit. The hay is very soft, but gee, be careful cause it prickles."

And so the Tines jumped around they'd land and then right up they'd bound. One climbed up on a rafter and then, "Hey look out," he said. "I'll show you something neat and new. I'll turn a somersault or two." And then he did and very lightly landed on his head.

"That's my," he shouted. "That was slick." The other promptly tried the trick. It wasn't very long until they all were fagged out. Then Carpy said, "Let's take a snooze. There's all to gain and naught to lose. This is the nicest place to sleep I've ever seen, no doubt."

Three of them shortly dozed away, but Scouty stayed awake to play. He came across a hen's nest and it promptly spoiled his fun. The hen was mad and flew in air and gave poor Scouty quite a scare. He shortly found that in the hay, "twas mighty hard to run."

A wild-term takes the Tines up into the air in the next story!

Confidence Placed In Plane Service

ALBUQUERQUE, N. M., Oct. 31. (AP)—Dr. A. W. Ward of San Francisco and W. E. Merz of Mount Vernon, N. Y., undaunted by thirty hours of adventure in a Western Air Express plane which was forced down by snow in New Mexico were en route to their homes to-day via Western Air Express.

Ward was emphatic in his praise of Chief Pilot Jimmy Dole who landed the passenger plane safely near Trehado, N. M., Monday morning to protect his passengers.

Call or write for our FREE booklet, "How to Save \$2 to \$15 On Every Tire You Buy"

PRACTICALLY all new automobiles are factory-equipped with one of five or six leading brands of tires. These tires, because they are used as factory equipment, are accepted as quality standard by the average motorist. We absolutely guarantee that RIVERSIDE Tires are made from as good materials, as good workmanship, and will deliver performance equal to or better than any of these factory equipment tires.

Because we sell millions of tires every year direct to the motorists of America, and do not have to figure several "in-between" profits in our prices, we bring the RIVERSIDE to you at a saving of \$2 to \$15 per tire.

This Riverside De Luxe Battery

Guaranteed 2 years—Saves you at least 50%.

For trouble-free winter driving, buy the RIVERSIDE De Luxe. Save nearly half the price of other batteries. Guaranteed 2 years. Case tested against shorts and electrical leakage under 20,000 volts. Guaranteed for 2 years. Sizes for all cars. A saving on each tire. Allowance for your old battery, no charge for installing. See the RIVERSIDE De Luxe today!

BUYING MOVE OF JOHN D. ROCKEFELLER, SR., CARRIES STOCK MARKET RALLY

PANICKY SELLING WAVE IS BELIEVED OVER ON MARKET

(By Associated Press)
NEW YORK, Oct. 31.—With a three hour session today, ending trading for the week, Wall Street felt confident the worst was over. Prices showed substantial recovery yesterday from their record-breaking decline. There were carried up in a rally accelerated by news that John D. Rockefeller, Sr., was buying.

Heavy buying resulted in a turnover of 10,371,330 shares with gains of 1 to 36 points for leading issues. Panic liquidation Tuesday had thrown 16,140,000 shares into the market and driven prices to record lows.

Rally Begins Early
The rally yesterday began early and did not reach its greatest momentum until John D. Rockefeller, Sr., authorized a statement from his home at Pocantico Hills, N. Y., that he and his son, John D. Rockefeller, Jr., did not believe there was anything in the business situation to warrant destruction of values such as had taken place during the past week and that they were buying common stocks which represented good investments.

A few minutes earlier stock exchange officials had announced the exchange would not open until noon for today's session and would be closed all day tomorrow and Saturday. Physical exhaustion of Wall Street workers was given as the reason for the two day suspension.

Another Firm Ousted
The suspension of Lynch and company yesterday by the New York stock exchange was the second brokerage house failure in the wake of the stock market collapse. John J. Bell and company was suspended Tuesday.

American Telephone and Telegraph enjoyed the greatest gain in the rally, rising 35 points for an appreciation in quoted value of \$172,211,348 on its 12,303,093 shares listed. It was down 15-294 Tuesday and closed at 230.

Settlements Record
Settlements through the New York clearing house yesterday totaled \$3,533,662,939, a record for volume. It was distributed almost equally to the abnormal exchange checks in settlement of stock exchange transactions.

Failure of many brokers to close accounts with insufficient margin during the severe stock market panic of Tuesday has been discussed. This failure of margin, a heretofore unheard of practice and one that was said probably would not be repeated, was due to confidence of the brokers that the

THE OLD HOME TOWN

Stanley

market would recover shortly. In this they were vindicated. One house reported customers accounts that had shown a deficit of more than \$1,000,000 at the close of the market on Tuesday had a credit balance of more than \$3,500,000 last night.

When John D. Rockefeller, Sr., came to the rescue of the market yesterday with orders to buy, he reenacted a role he played 22 years ago. On October 23, 1907, during one of the severest panics in the market's history, he issued a statement expressing confidence and began to buy sound common stocks.

His action, taken a day previous to the formation of a \$23,000,000 pool by J. Pierpont Morgan, had a stabilizing effect.

RESPONSIBILITY PUT ON ADMINISTRATIONS
WASHINGTON, Oct. 31. (AP)—

Responsibility for the drop in stock market prices was attributed today to President Hoover and other chiefs of the republican party by Senator Robinson of Arkansas, democratic floor leader.

The chief executive, Secretary Mellon and former President Coolidge were blamed by the Arkansas for encouraging the recent speculative market with over-optimistic statements and the present administration for not taking steps to check the recession when it came.

Slight Storm Hits In Dallas Section
DALLAS, Oct. 31. (AP)—Hail, wind and rain caused damage to smaller homes in the outskirts of Dallas and in Dallas county Wednesday.

Several persons were injured at Elam, seven miles from Dallas, and four or five houses were blown down.

Harris Says He Was Fired Upon First
CHANDLER, Okla., Oct. 31. (AP)—

Jeff Harris, specially deputized dry rider, was struck in the face by a bullet from a shot gun, thrust from the home of James C. Harris, he testified at his trial here today, before he fired upon the farmer and his brother-in-law, Oscar Lowery, July 4.

Jeff Harris was charged with fatally wounding the two farmers on the Harris farm near Tecumseh, Oklahoma when Jeff Harris searched the premises for liquor. No liquor was found.

Iowa creameries churned more butter in 1928 than the combined output of New England, middle Atlantic, east, south-central, south Atlantic and mountain states.

GRAPE JUICE FIRM OBJECT OF RAID

ST. LOUIS, Oct. 31. (AP)—The Colony Vintner's company, a distributor of grape juice and defendant in a breach of contract suit in Federal Court last July charging the product failed to come up to promises, was raided by United States prohibition agents yesterday. A quantity of grape juice, James Dillon, deputy prohibition administrator, said tested as high as 9.7 per cent alcohol, was seized as well as Jamaica ginger and other alcoholic extracts.

Included in the grape juice seizure were two kegs of 30 gallons each which bore the name of Walter Damrosch, 146 east Sixty-first street, New York City, and was labeled Moselle grape juice. The labels also said each keg was costing the purchaser \$112.50. Dillon said he believed the shipment was meant for the noted musical director.

William Davis, president of the company, was ordered to appear before U. S. Commissioner Burke to give bond.

EL PASO ARTIST OFF FOR EUROPE

NEW YORK, Oct. 31. (AP)—Oscar Strobel, El Paso artist, who found 225,000 securities in a handbag given him by mistake, two weeks ago, as he alighted from a train, sails on the North German Lloyd liner Muenchen today to continue his art studies abroad.

Strobel said the publicity of the incident resulted in many offers of marriage and commercial opportunities, but he preferred to continue his art studies. He received a scholarship for study in Berlin through the good offices of Baron Von Warthausen, "Lindbergh of Germany," who bought a painting from Strobel during a stop at El Paso on his way around the world in a small monoplane.

Strobel is to visit Munich and return within six months.

Cult Leader's Bail Is Made Wednesday

LOS ANGELES, Oct. 31. (AP)—Release of Mrs. May Otis Blackburn, head of the divine order of the Royal Arm of the Great, Eleven, was effected Wednesday by the posting of \$10,000 bail for the cult leader. She had been held for several weeks on grand theft charges while the police and the district attorney investigated affairs of the cult.

STOCKS MAKE CLIMB TODAY

NUMBERS OF LEADING SHARES ON ADVANCE ON OPENING

NEW YORK, Oct. 31. (AP)—Stocks were hurled upward from 2 to nearly 12 points at the delayed opening of the stock market at noon today, as a huge accumulation of buying orders were dumped onto the market. Columbia Gas opened with a block of 30,000 shares at 89 3/4, up 11 3/4; 30,000 shares of Radio was taken at 51 1/4, up 6 3/8, and 15,000 shares of Columbia Graphophone at 30 3/4, up 4 3/4.

American Telephone rose 9 points to 249 in a transaction of 3,000 shares. United Aircraft jumped 7 3/4 to 61, with a block of 12,000 shares. National Lead rose 5 points. Pan American B. and Missouri Kansas Texas 2 points.

NEW UPURNS IN WHEAT RECORDED

CHICAGO, Oct. 31. (AP)—Active buying on the part of important houses brought about new upturns in wheat today after a ragged start. The fact that foreign markets are reflected in full yesterday's sharp advance in wheat values on this side of the Atlantic helped to stimulate fresh speculative purchasing here.

Opening at 3-4 off to 1-4 up. Chicago wheat later showed material gains all around, with the price bulges leading to increased pressure to sell. Corn, oats and provisions were likewise firmer, corn starting at 1-4 decline to an equal advance, and subsequently flooring a general rise.

Produce

CHICAGO POULTRY
CHICAGO, Oct. 31. (AP)—Poultry: hens weak; springs steady; receipts 7 cars; fowls 18-22 1/2; turkeys 25-35; heavy colored ducks 20; heavy white ducks 22; geese 22.

BUTTER AND EGGS

CHICAGO, Oct. 31. (AP)—Butter: creamery extras 41; standards 40; extra firsts 39 1/2-40; firsts 37-38; seconds 36 1/2-37. Eggs steady; extra firsts 46 1/2; graded firsts 44; current firsts 39 1/2; ordinary firsts 36 1/2; refrigerator extras 38 1/2-39; refrigerator 37-38.

MAY BE PRO LAW

W. C. T. U. Told of Differences Now On Big Question

CORPUS CHRISTI, Oct. 31. (AP)—Prohibition may be the rock upon which both the solid south and the solid north split politically, the state convention of the Women's Christian Temperance Union, meeting here, was told.

Making the principal address at last night's session, Mrs. J. A. Bloodworth of Fort Worth told the convention that women, hereafter, "will follow our consciences." "No more will there be a solid south of a solid north," she said, "in either the republican or democratic parties. If women are asked to desert the principles of prohibition to vote for wet candidates."

The convention adopted a resolution endorsing proposed legislation to make the buyer of liquor equally guilty with the seller and endorsing a campaign against cigarette.

COTTON OPENS STEADY TODAY

MARKET RALLIES ON BANK RATE CUT IN ENGLAND

NEW ORLEANS, Oct. 31. (AP)—All through Liverpool came in lower than 18.50, and the market here opened steady, first trades showing no change to three points down. Owing mainly to the character of the cables, the market eased off slightly right after the start. December trading at 18.00, January at 18.10 and March at 18.40, or 2 to 3 points under yesterday's close.

The reduction of Bank of England discount rates, to 6 per cent, and the continued unfavorable weather caused the market to rally. December advancing to 18.10, January to 18.20 and March to 18.40, or 5 to 6 points above the early lows.

At the end of the first hour the market was quiet but steady. The market was very quiet all morning and showed recovery even when the New York stock market opened. December traded up to 18.12, January to 18.22 and March to 18.50, or 4 to 6 points above yesterday's close and 7 points above the lows of the early morning. Toward noon the market was still quiet but off a few points on realizing.

MARKET OPENS WITH ADVANCE IN NEW YORK

NEW YORK, Oct. 31. (AP)—The cotton market opened steady at a decline of a point to an advance of 1 point. Some selling was reported on the relatively easy showing of Liverpool, but this seemed offset by unfavorable weather. The south was a moderate seller here, but the trade bought and the market held steady at the end of the first half hour, active months working about 2 to 4 points net higher.

Trading was very quiet later, and prices fluctuated within a narrow range. Traders seemed to be waiting for the reopening of the stock market, and in the meantime, prices sagged off a point or two but held rather steady around yesterday's close at mid-day.

Half Hour's Job Like Day's Work

A mario Smelter Worker Declares Orgatone Put Him In Fine Shape

"Orgatone has simply given me a new lease on life," said A. C. Koonce, who resides at 303 N. Rusk St., Amarillo, Texas, and is a well known smelter worker, while in the City Drug Store, Amarillo.

"Before I commenced taking it," he continued, "I was so run-down and miserable a half-hour job would tire me as much as a whole day's work does now. My nerves were so unstrung that I was irritable and out of sorts all the time. I would get up in the morning feeling as tired and worn out as if I hadn't gone to bed and my work was an actual punishment to me."

"I had reached the point where it was necessary for me to do something for myself and I bought Orgatone because I knew how it had helped others right here in our town. I now sleep sound, eat hearty and can do a day's hard work without feeling it. My liver doesn't bother me any more and constipation is a thing of the past, and everything I have to do is a pleasure instead of a burden as it was before. I recommend Orgatone to every body with those miserable, tired, nervous feelings like I had, for it certainly has straightened me out in fine shape."

Genuine Orgatone may be bought in Lubbock at Bowens Drug Store.

CLEMENTEL FORMS GROUP

VETERAN FRENCH CHIEF ORGANIZING NEW CABINET

(By Associated Press)
PARIS, Oct. 31.—Etienne Clementel, veteran French political leader, went about in calm and business-like manner today the task of re-organizing a ministry as France entered its tenth day minus a government.

He already has assured himself of collaboration of Aristide Briand, resigned premier in the foreign office portfolio, and report has it of Henri Cherom and Louis Loucheur, continue in the finance and labor ministries.

List Ready

His friends assured there was every reason to believe he would have a tentative ministry list ready to submit this evening to President Doumergue. The president yesterday called upon him after conferring with M. Briand, and after announcement of failure by Edouard Deladier, M. Clementel's fellow radical socialist.

It was expected the list would have a close resemblance to the last cabinet of Raymond Poincare and would in effect be a center government with a strong Leftist tinge. M. Clementel himself was said to intend to hold the commerce ministry. It was expected his radical socialist party would be allotted the all-important interior portfolio.

LESTER CASE

face have not allowed any marks of pallor.

Is College Man

Four years in college have given him an advantageous use of speech, while his countenance, although not prepossessing, is reflective of intelligence. In his early twenties he studied poultry and dairying at Texas A. and M. college, and later studied law at Texas university.

"What profession do you wish your son to enter?" he was asked. He reflected a paternal interest, pausing momentarily, and then replied, "It has been my desire that he study law, which, in my opinion, is a good profession. Of course, I have watched him closely to see what he is interested in. His responses to environment in later life might change my plans for him."

Lad in School Here

Roscoe, 10 years old, a student of the George M. Hunt school, is Lester's only child.

"I had rather not discuss my wife," he is not heavy to answer, "he hastened in reply to a question. 'We were married in this city about 15 years ago. Our courtship was honorable. I wooed her as any other man would improve the woman he loves.'"

When visited at his cell this morning, Lester was lying on his cot.

FLOYDADA MAN DIES IN CITY

E. W. HOLMES DIES OF WEEK'S ILLNESS IN LOCAL HOSPITAL

The body of E. W. Holmes, 68, of Floydada, who died in a local hospital last night at 9 o'clock, was sent overland today by Rix-Sanders to Floydada, where funeral services will be held probably tomorrow.

Survivors are one daughter, Mrs. Mattie Taylor, of Floydada, and five sons, Luther, Keller and Roy Holmes, all of Floydada; Oliver Holmes, Wichita Falls, and Elbert Holmes, Dallas.

SEED GROWERS FORM GROUP

CARLISLE MAN JOINS IN ORGANIZATION OF GROWERS

James Burroughs, grower of certified grain sorghum seed, who lives in the Carlisle community, has returned from Dallas, where he attended an organization meeting of the Seed Growers Association of the southwest.

The association was formed with its membership composed of seed growers from Texas, New Mexico, Oklahoma, Arkansas and Louisiana. Fifty growers attended the meeting. Burroughs, Pat Nix and W. A. Goeth, all of Lubbock county, are the only growers of seed on the South Plains this year, so far as is known, whose products will be sold under the state seal. This is the first year that grain sorghum seeds have ever been sold under the state guarantee, the pure seed law of Texas having been amended only a few months ago to place grain sorghums under the protection of standardization by the state, same as cotton seed has been for many years.

Agitation Started
This amendment was brought about following agitation in Lubbock county for the past four years for just such a law. The cotton seed growers have had an organization perfected for many years and have been selling their seed under standardization mark set by the state law. Recognition to need of certificates of pure seed in the grain sorghum field has been won through efforts of growers, county agents, the extension service, agricultural colleges and others, which started here.

Seed growers of this section now may look to the Texas state department of agriculture, George B. Terrell, commissioner, at Austin for mark of approval. If they anticipate placing their seed on the market as pure or certified, no one but the department has authority to certify seed and their certification is a protection.

BANK JOB IS BIG PUZZLE

ROBBERS GET SAFE AND \$5,000 AT SMILEY; NO CLUES LEFT

(By Associated Press)
SAN ANTONIO, Oct. 31.—San Antonio police have been unable to uncover a clue to the identity of a gang of burglars who early Wednesday broke their way into the Smiley State bank at Smiley, sixty miles east of San Antonio, and stole a five-ton safe containing about \$5,000.

AGED TEXAN'S COLORFUL STORY IS PAGE FROM DAYS WHEN WEST WAS REALLY WILD; LIVES AT RUINS OF FORT WHERE GRANDFATHER FOUGHT INDIAN BATTLES

PRESIDIO, Oct. 31.—The crumbling walls of an old adobe fort, slowly falling to pieces under the bright sun of the southwest, and an aged man who drowns all day in the shade of a lonely ranch house, are the last links connecting the great Big Bend country with its bright, half-forgotten history.

Fort and man alike will soon be dust, and that will be a pity. With them will go the final touch of the old frontier—the old Texas frontier that was bloody, cruel and desperate, and that has now the glamour of the distant past.

A Story Worth Telling
The walls of the fort cannot tell of the things that happened here. The man—Ben Leaton, descendant of fighting men—is very old and can speak only in imperfect Spanish, so that his story almost goes untold. But the story is there, just the same, and it is worth telling.

Away back in the '50s, when the Mexican War was a recent memory and its veterans were still restless young men, the grandfather of the present Ben Leaton, just out of the army, ran an overland freight line from San Antonio to Chihuahua, in Old Mexico. His route took him through the Big Bend, in the fertile Rio Grande valley, and he spotted the neighborhood of the present town of Presidio for his ranch.

Leaton settled there in style. He built a great fort of adobe bricks; a huge affair with a vast open court and walls two feet thick, for Texas was wild, then, and marauding Indians lived very near. Leaton became prosperous. His fields were rich, his herds were large, a five-mile canal brought water from the Rio Grande, and everybody who traveled through this part of Texas stopped overnight in his house.

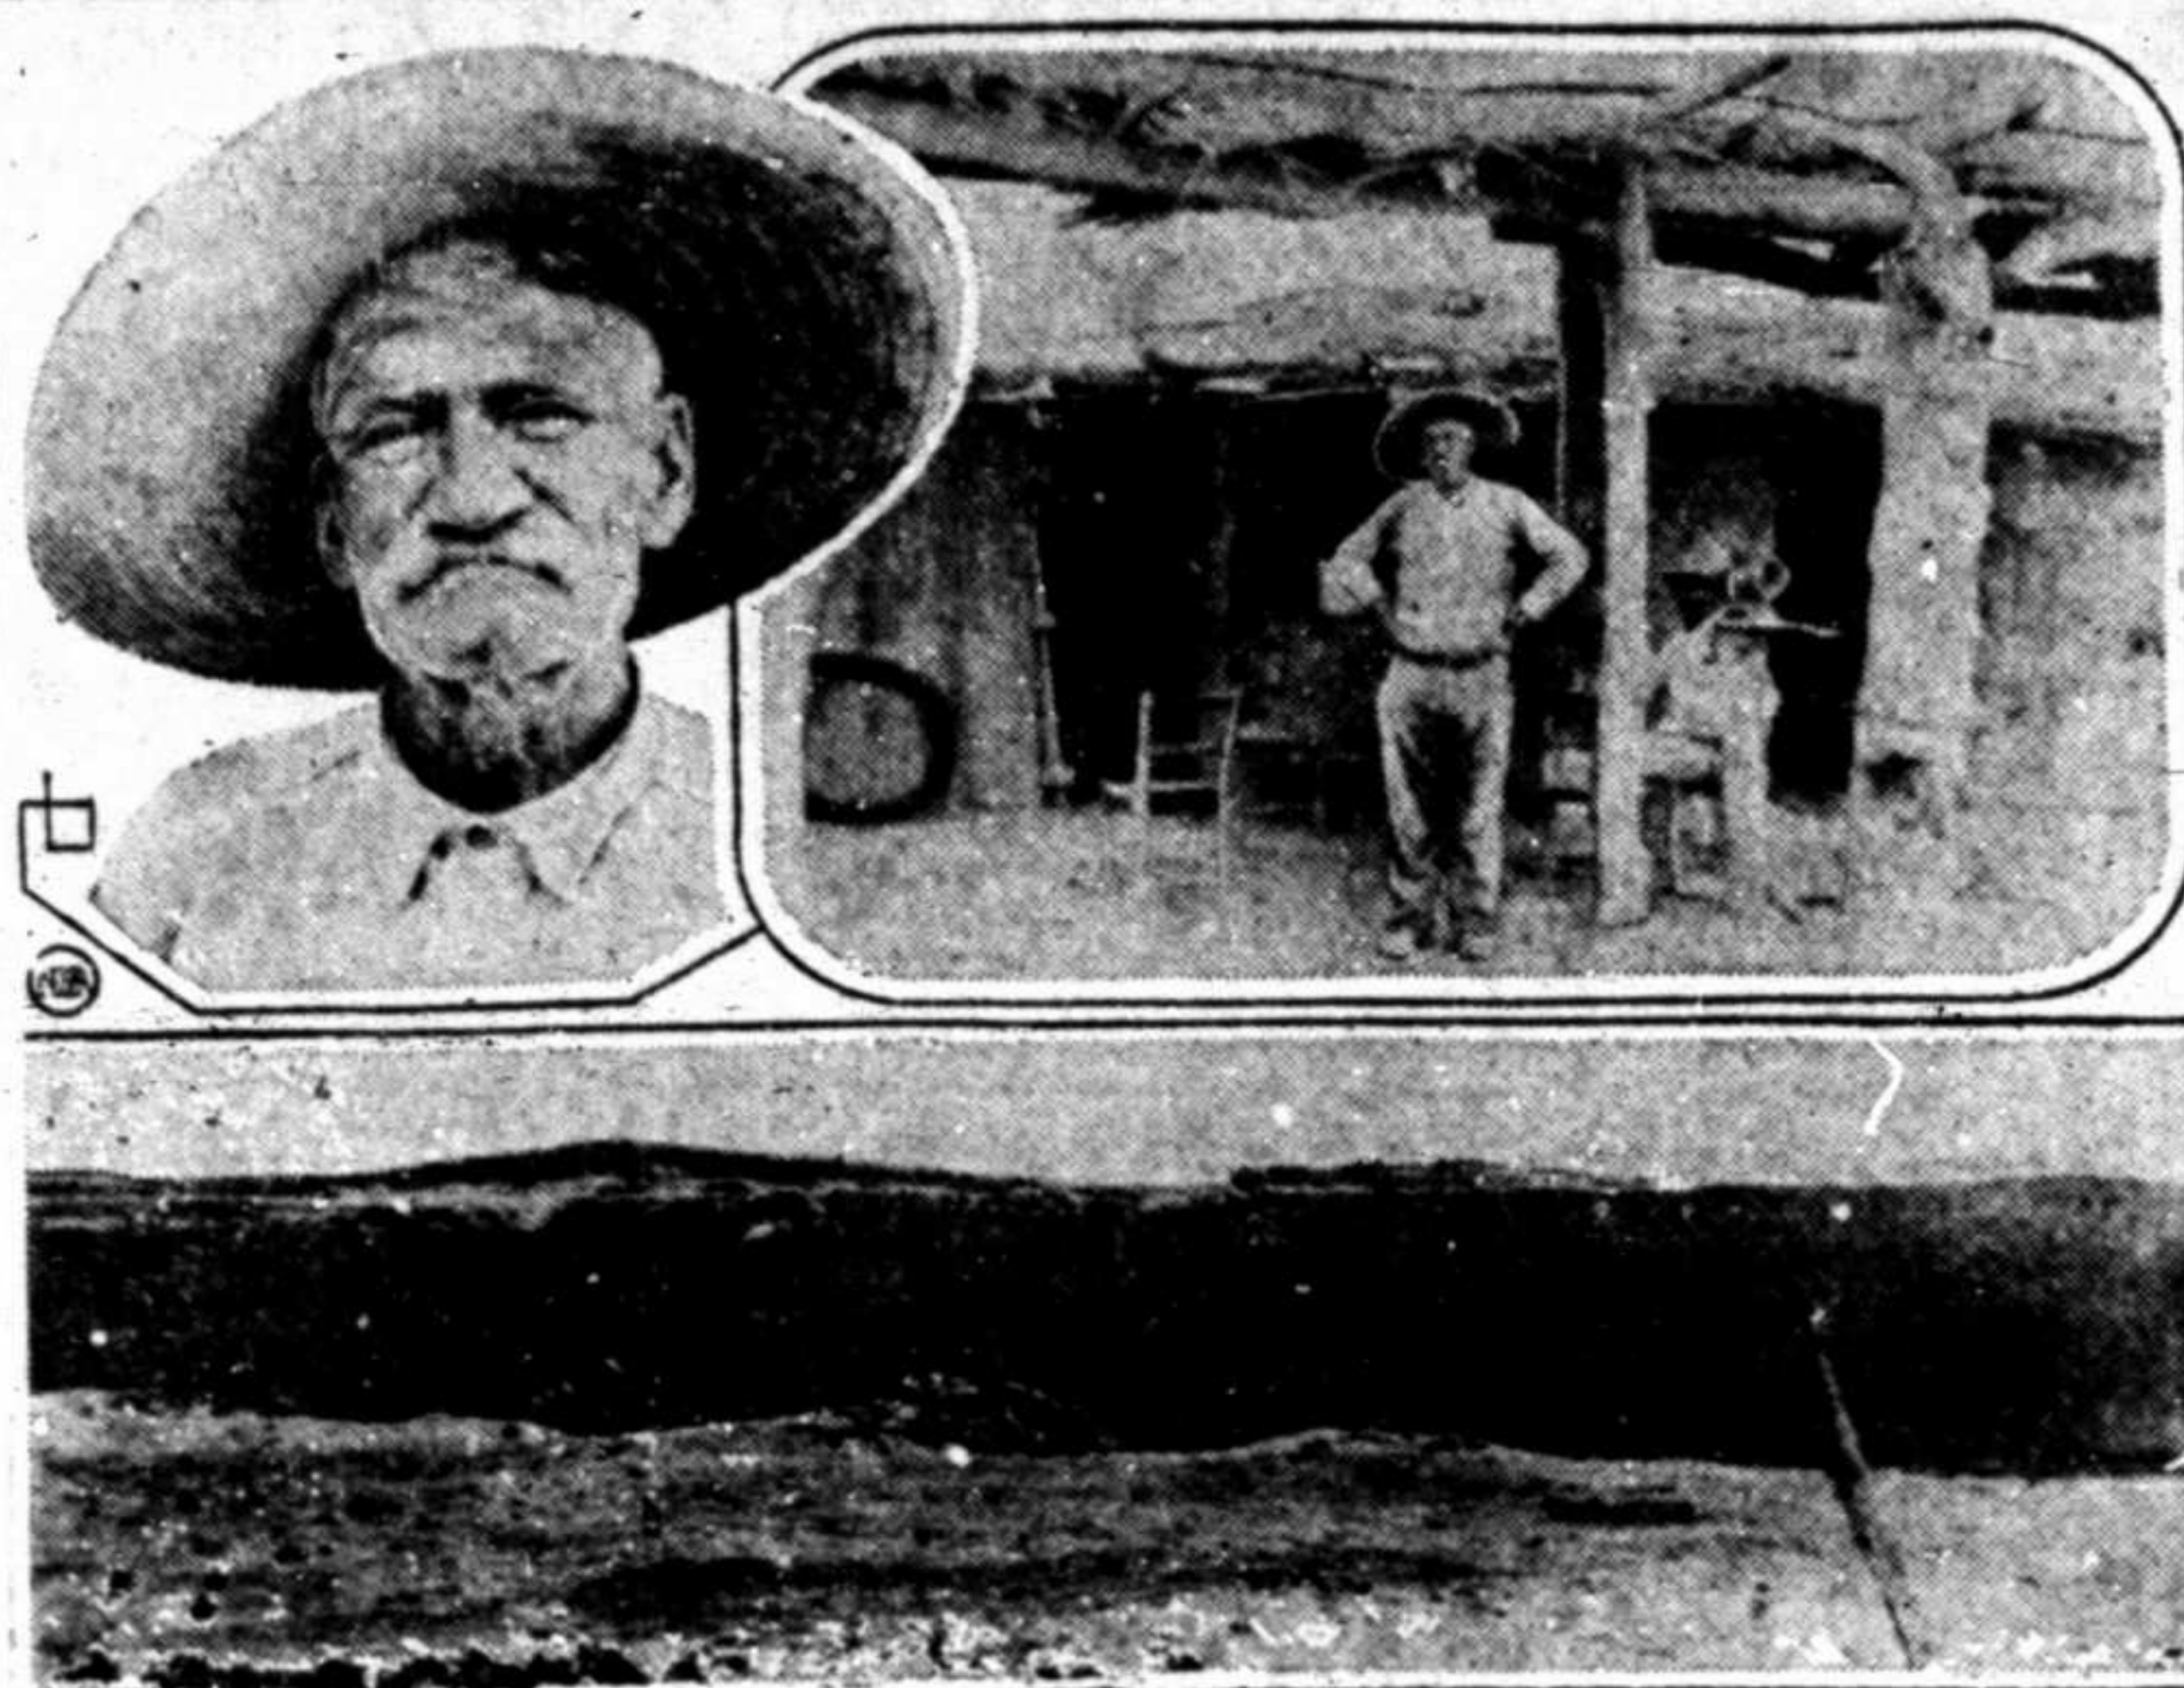

The Indians wanted what he had—his cattle and horses especially. But the fort was too strong for them, so they tried subtlety. They proposed peace, and though old Ben Leaton was taken in, he invited them to feast with him in his fort, and so they tried to break in.

One of the bank's funds and \$300 in stamps belonging to the Smiley post office.

Detective Captain Aubrey Hopkins and A. S. Minstead, finger print experts of the San Antonio detective department, went to Smiley yesterday morning to investigate the robbery. The burglars evidently used a chemical preparation on their fingers to keep from leaving prints, and no clues of this nature were found, officers say.

Entrance was gained by digging under the brick wall at the side of the bank and through the floor of the bank vault. The safe, a round one of the so-called "ringer" type, is believed to have withstood the efforts of the burglars to break it, and was then rolled through the hole and taken away, presumably in a motor truck.

According to Captain Hopkins, there must have been at least four men in the band, judging from the amount of work done in digging through the bank walls.

Grizzled and aged and speaking only imperfect Spanish is Ben Leaton, above, last of his line of pioneers of the west when the west was really wild. At the right he is shown at his adobe home near the crumbling old fort, below, where his grandfather trapped and massacred a band of treacherous Indians many years ago.

the braves came in full regalia, to eat his barbecued steers and drink his Mexican firewater.

A great time was had by all. But when morning came Leaton found the Indians had decamped, taking with them the pick of his livestock. Leaton's friends wanted him to send for the soldiers and go after them. But he had another idea. He made peaceful overtures to the tribesmen again and they, thinking the white man was cowed, accepted them. Another great feast was ordered, and once more the red men came to the adobe fort. Word of the affair spread wide, and hundreds of Indians, from scores of miles, came to eat the foolish white man's food and drink his liquor.

In the courtyard of the fort the revelry continued till late. Then, quietly, Ben Leaton and the other whites slipped out. The big doors were locked. Then the muzzles of half a dozen cannons, planted outside, were stuck through the loopholes in the thick walls.

A moment later an unearthly noise shattered the midnight stillness. The half dozen cannons sent grape and canister across the courtyard from every angle. Stout riflemen with long-barreled muzzle-loaders did their part. In a little while the last of the Indians was dead.

Ben Leaton fixed a burial mound, and the bodies were soon out of the way. Texas was like that, in those days.

Somehow, old Ben Leaton never prospered after that. His family fell into a bitter feud with a relative named Burgess, over some land. One by one, the men of each family were killed off. They finally buried Ben himself in the very graveyard where he had put the Indians.

So now, it's an almost-forgotten memory—just another of the Big Bend country's stories that nobody bothers to write down. The old fort is falling into ruins. Mexican laborers on a nearby farm have made their homes in it, and its courtyard is overgrown with trees.

The present Ben Leaton lives in a Mexican hovel near the fort, in typical Mexican fashion, laying away the days in the shade in front of his house.

But he is a connecting link between the Texas of the present and the old days of the wild and romantic west.
