NOT MUCH ABOUT ANY-THING

The Stanton Reporter

Published Every Friday in The Finest Climate On Earth, Where Health, Happiness, And Prosperity Awaits The Homeowner

VOLUME THIRTY-THREE STANTON, TEXAS FRIDAY, AUGUST 4, 1939 NUMBER FORTY-TWO

CIO John L. Lewis' attack on Vice President John Garner, only served as a trap in which the labor leader caught himself. Lewis has had no liking for the Vice President because Garner had no liking for the way Lewis does business—the "sit-down" strikes. John Garner hails from a State where folks are allowed to do pretty much as they please so long as they keep themselves within the limits of the law. They believe the capitalist should be fair and that the laborer should be fair, and that the two thrash out their differences without either taking undue advantage of the other. And we don't believe that John Lewis liked the warning Ex-Gov. James Alfred issued during the sit-down strike situation in the North and East. Alfred let it be known, and the announcement was coated with neither sugar nor cream, that "sit-downers" need not try their method in Texas unless they wished to stand the consequences. Lewis, of course, didn't know his attack on Garner, would serve to increase the vice president's following. But he sprung his own trap. You've heard the expression about the fellow who talked too much—puts his foot in his mouth. The application fits Lewis like a court plaster.

TWO weeks have elapsed since the 1 1/2 inches of rain fell over Martin county. The farming area has been alive with "men at work" in the fields, and daily reports bear the information that crops are humpin'. Some localities in the county have been fortunate to receive light showers the past week, a boost to growing crops in those sectors. Take the county as a whole indications point to a greater crop yield this year than last.

WHEN we get our business up to the point Paul Barron has his we won't want an oil well. Every member of his force has a week to two weeks' vacation. Paul's society editor has just returned from making a tour of both World's Fairs. If not already on his vacation Paul soon will be dipping his pink toes into the icy waters of some mountain stream. The Mrs. has put her foot down on taking Paul to any bathing beach.

WE had written and hanging on the copy hook for this column a mention of the fact that Paul Barron had a headline in his Midland Reporter-Telegram about some scientist arriving in Midland looking for old fossils, and Paul had it in his column. Town Quack, that two old maids of his town hearing about told him they were leaving town. But that ain't the way I heard it. S-a-a-a-y! Sez tother feller. I heard nearly everybody on the Reporter-Telegram is taking a vacation. An' ole fossil hunter is in town.

SEEMS that Odessa can't get away from having some sort of a Midland smell hanging on to it. Odessa has voted \$75,000 bonds for city-county park and the mayor and others want to locate it at the ball park northeast of Odessa and the county commissioners want to make the location at the Y between the old and new highway a mile east of town toward Midland. The matter has now reached the stage of a possible vote by the people being taken to decide. Just goes to prove folks may cuss a good town and if they can't get into it they'll move heaven and earth to get close to it.

In this connection let us say, Stanton is contributing two of our very best business men to the business circles of Midland. They are Forrest King and Guy Eiland, the former owner of the King Feed and Implement Co., and the other, Guy Eiland, senior member of the Eiland Motor Co. Neither of the gentlemen

TOTAL SALARY CHECK \$2,263

Notice was received this week by Supt. O. C. Southall, that the Stanton school was being sent \$820 as final payment on salary aid for teachers. This payment together with \$1443 previously received totals \$2,263 salary aid for the local school this year. Practically \$4,000 aid of all kinds were received this year. None was secured last year.

Transportation, or bus aid, to the amount of \$648 was received last week by the Stanton school district. Previously \$1,080 had been received from the State for transportation aid.

The total \$1,728, represents the bus aid secured by the local school for the school year 1938-1939.

SUPT. SOUTHALL ELECTED CHAIRMAN DISTRICT 6-B

Supt. O. C. Southall and Coach H. A. Poole, attended a meeting of the football committee for District 6-B at Seminole, Saturday. Mr. Southall had been appointed temporary chairman for the district by the Interscholastic League officials at Austin to organize the district. He was elected permanent chairman at the Seminole meeting.

Schedules were arranged between the schools of the district. Only four teams are in the district 6-B: O'Donnell, Seminole, Andrews and Stanton.

Conference games with Andrews and O'Donnell will be played here. The game with Seminole to be played at Seminole.

Boys Eats Shop

A deal was closed Monday whereby Mr. and Mrs. Wayne Moffett sold their Eats Shop to Mrs. Larry Morris. The enterpriser has become quite a popular eating place and Mrs. Morris intends to continue the same courtesies and efficient service as has been given in the past.

have relinquished their business connections in Stanton—they are "pooching out", or rather, expanding their business interests doing business under the theory, "one good turn deserves another"—that is living in one good town deserves the right to do business in another good town. We wish to warn Midland folks though, Forrest King served the city of Stanton several years as a member of the city council, and Guy Eiland is now a member of the city council. It might save Midland folks the loss of their city government to these gentlemen.

A head full of steam and the safety valve wide open seems to have struck the column this week, but we couldn't think of shutting down without printing the good old solid advice Editor Alkire of the Fort Davis Dispatch gave to a young lady of his community in his last week's paper:

"This office is in receipt of an anonymous letter from a young girl who is seeking information on a matter very important to her. The writer of a letter says she is in love with a young man, but doesn't want to make any mistake and desires to know if there is a test she might apply. Although, as a rule we do not pay any attention to unsigned letters, we are glad to answer this one. Yes, young lady, there is a test you can apply. Have the young man get a job. If he can hold it a year and save his money, you are reasonably safe in marrying him. If he quits work in a few weeks or a few months, because some detail of the job doesn't suit him and doesn't get another as soon as possible, or he spends his money as fast as he earns it, turn him down. He has not the makings of a good husband or the head of a house"

JOINS WATER FACILITIES PROGRAM DRUDGERY SKIDDOOS

Mrs. Willie F. Ross Will Not Now Have to Drive Twenty-one Head of Livestock Seven Miles

The need for driving 21 head of livestock seven miles to water requiring some four or five hours during the heat of each day, has been eliminated on the Mrs. Willie F. Ross farm located near Patricia in Martin county, since the recent installation of a water facilities program in cooperation with the Midland Water Facilities project.

The water facilities plan on Mrs. Ross' farm included the erection of a new windmill and tower complete over an existing well, the construction of a 1620 gallon concrete storage tank, and 150 gallon concrete watering trough.

The facility, which was installed at a very reasonable cost, will eliminate the drudgery of Mrs. Ross having to drive her cattle during the heat to water, will insure more profitable returns from her livestock, and will permit her to use several hours each day formerly occupied by driving cattle, more profitably.

Mrs. Ross' plan also includes a farm and home management plan, which sets a definite goal, a "live-at-home" program producing food from the farm, and a complete coordinated program of soil and water conservation, including terracing, strip cropping, contour tillage, and crop rotation on cultivated land and proper pasture management practices such as contour furrows, and controlled and deferred grazing.

Rogues Gallery

Maybe, we shouldn't call it a "rogues gallery" even tho we can point out some of those fellows who carry the picture of roguishness on their faces. We betcha N. Kaderli, Wilmer Jones, W. W. Eiland, John Burnam, and yea, even unto the innocent looks of County Commissioner Jim McCreless, and some others we might mention, never passed by a patch of ripe water melons or a tree of ripe peaches, day or night, when boys, that their mouths didn't flood with water. We are speaking of the photograph gallery hanging on the show window of J. L. Hall's drug store.

Despite the pressure being brought to bear by Mr. Hall, Negroes Wheeler and General, haven't consented to have their pictures taken.

MORE PEAS, AND FINE ONES, TOO

Our good Tarzan friend, (not of the Tarzan Ape family, we hasten to warn), M. L. Gibson is at it again. Last year he swamped the editor with roasting ears, squash, peas, beans, and what have you, and this year he has resumed "hostilities" on this editor. Two weeks ago he brot us a "heaped-up" big mess of blackeyed peas and Saturday he returned the "engagement" of peas with the addition of a large cashew, and to add insult to injury Bro. Gibson said to watch out for a mess of roasting ears from his patch soon.

Mr. Gibson has 17 acres in 3 kinds of blackeyed peas and he believes the yield will amount to enough to feed the Jap army.

Returned From California

Mr. and Mrs. Odus Blackerby drove to El Paso where they met their daughter, Marjorie, Sunday, returning from Monticla, California, where she had been visiting a month with an aunt.

Miss Gale Mitchell of Olton, visited her sister Miss Agnes Mitchell this week.

KAMP KOZY KATS HOLDS TOP RUNG IN LEAGUE RACE

Blockers Are Hounding the Heels of League Leaders—Array of Batsmen Pounding the Ball at a .400 Clip

Jack Jones' Floorsweeps broke into the win column Tuesday night by defeating Blockers in a fast and tight 13-12 affair after playing eight innings. The Floorsweeps have played that brand of ball in all of their games the last half of the league season and Tuesday night they managed to squeeze in the winning run after Hittson manager of the Blockers dropped a fly ball at second, allowing Jimmie Rogers, center fielder for the Floorsweeps to scamper in home with the winning tally.

The Floorsweeps have dropped close games to the leading Kamp Kozy Kats, 7-9, to the Oilers, 9-10, and to the Prune Peddlers, 9-3, with a single error costing them four runs in the last inning while Leeman Henson pitched the first no-hit game of the season for them.

MARINE VACANCIES TO BE FILLED

Twenty-five vacancies for service in the United States Marine Corps Recruiting Station in Dallas, Postmaster Morgan Hall, said today according to information received from Capt. J. D. O'Leary, officer in charge.

Applicants filling these vacancies will be selected from young men residing in Texas and Oklahoma of which the Dallas office is headquarters. Young men between the ages of 18 and 25, of good moral character and who have had high school training are eligible to make application, the postmaster stated. Application blanks and other literature may be obtained at the post office or by writing to the U. S. Marine Corps Recruiting Station Dallas, he said.

BROTHER-IN-LAW DIES OF BROKEN NECK

Paul Peeler and mother, were called to Baird, Saturday in response to a message that H. B. Bassett, brother-in-law of Mr. Peeler, had died of a broken neck sustained in a friendly scuffle at a picnic. The neck was broken in six places.

Funeral services were held Monday afternoon at the First Baptist church in Baird.

Bassett moved to Baird from Littlefield six weeks ago, but had lived in Baird at intervals for a number of years. Survivors are his wife and 18-month-old son, H. B. Jr., a sister, Mrs. D. W. Grimes of Baird and two brothers.

To Colorado

Misses Madge Stroud and Mildred Wright have gone to Denver, Colo., to visit the Ele Whites.

COURTNEY SHOWS BETTER 98 PER CENT TAXES COLLECTED

During Eight Year Period No Tax Suits Filed—20 to 70% Lower Than Any Other Except County Unit System

In the course of making out delinquent tax rolls in the tax assessor and collector's office this week what is believed to be a record was found concerning the Courtney Independent School District.

The total delinquent taxes for the district for the eight year period 1930-1938 shows to be \$829.49, an average for the period of \$103.69 per year. The total tax collections for each of the eight years averaged against the valuation shows that better than 98% of the taxes were collected each year. During the eight years no tax suits were filed and only one appeal for tax payments was made.

An average of 98% is very high when we remember that the eight years in question have not been exactly boom years. Such a collection can be explained in part because of the low valuations in the Courtney District.

In a recent comparison of districts of this section having classified and accredited schools the valuations of the Courtney district show to be from 20% to 70% lower than any others excepting County Unit Systems such as Glascock county.

This percentage is believed to be a record for West Texas.

COUNTY-WIDE H. D. PICNIC AUG. 10

The annual get together for home demonstration club women and their families, will be Aug. 10 on the Martin county court house lawn, at 6 p. m.

The picnic supper will include barbecued chicken. A foods committee was appointed at the monthly council meeting last Saturday to make necessary arrangements. That committee is made up of three women: Mrs. Glen Petree, Miss Loree Massey and Mrs. Wright.

The special feature of the picnic will be the reviews of trips to the Farmers' Short Course at A&M college by Mrs. John Ory, Mrs. Lee Castle, Mrs. W. P. Reid, and Mrs. E. C. Aihart.

Other forms of recreation will be introduced as a part of the program.

PROGRESS

Progress along right lines is great. And we should watch opportunity's pate; Be ready to enter at the first call. For it may not open again at all. There's a project for electricity To be furnished with great simplicity.

For the convenience of the rural folk And we should not pass it up as a joke. But investigate its merits and worth And see if it will pay to give it birth. It takes Martin county to do great things, And I can almost see this growing wings.

—Mrs. Bettie Hobbs.

Shipe Load Lambs to Market

Paul Jones shipped out a truck load of lambs Sunday to Fort Worth market receiving 6.50 for them.

From Fort Worth Mr. Jones went to Rice to visit his wife who is convalescing from an operation performed in a Corsicana hospital.

CHURCH OF CHRIST REVIVAL SUNDAY

According to a display advertisement carried in the Reporter of last week, Gospel Meeting at the Church of Christ will begin Sunday. We are taking the privilege here to state that the display advertisement is the first to be paid for and placed by a church organization in this newspaper since under the present management, almost ten years ago. We were accosted by member of the Church of Christ on publication day of last week explaining that he wanted to place a display advertisement in the Reporter announcing the revival meeting to start at his church, and he wanted it large enough so folks could see it.

Perhaps we will be censured for making mention of this fact by the church member, and maybe the church for taking this advantage, but as the incident so seldom happens in small weekly newspapers, we deem it worthy of a news item, and is also a favor turned in a direction this newspaper appreciates.

Now on with the story about the meeting.

The Church of Christ grounds have been cleared of all weeds and otherwise put in shape for benches to seat the people as comfortably as possible for the out of door services at night. These services are scheduled to start at 8:15. Day services will be held in the church and will start at 10:30. The meeting will be carried on through three Sundays. Charley Watkins of Lubbock, will do the preaching. He is considered a very fine expounder of the gospel, and with the good singing, Martin county folks are assured a series of very interesting meetings.

NEW BAND TEACHER AND FAMILY MOVING FROM ABILENE

J. H. Hamblen, new band director, will move his family to Stanton this week from Abilene, according to information received Saturday by J. D. Renfro, secretary of the school board.

Mr. Hamblen will start a four weeks summer band school Monday, August 7. All former band students and all prospective beginners are urged to meet with Mr. Hamblen at the high school at 9 o'clock Monday morning.

LOSES EYESIGHT

It is with deep regret the Reporter announces that total blindness has overtaken W. F. Walker, an old and highly respected citizen of Stanton. Despite his rapidly failing eyesight, owing to his advanced age in the 70's, the past few years, Mr. Walker made his daily walks to town, and it was only this week his many friends inquired of the reason for his absence from the downtown section, and were informed of the sad misfortune that had overtaken this venerable old gentleman.

Flew to Market

Bob Schell, left Saturday in company with a traveling salesman of a house Bob buys goods from, for Oklahoma City, where they joined others in a plane ride to Kansas City, Mo., for the markets.

Returns From California

Albert Shell, brother of Bob Schell, has returned from California, and is here for a few days visit before proceeding on his way home to Cincinnati, Ohio.

Preparing to Build New Home

Mr. and Mrs. Dick Houston have moved back from the front of the lot their old house and demolished part of it preparatory to building a new and modern home.

MIDLAND AGENCY SOLD STANTON MEN

Sale of one of Midland's principal business institutions was completed late in the week, when the Flynt-Hubbard Motor Co., Ford dealership, was purchased by M. F. King and G. A. Eiland of Stanton who formed a corporation to be known as Midland Motors, Inc. King, moving to Midland from Stanton, will be active manager.

M. F. King, to be manager of the new firm, is well known here having operated a feed store and tractor business at Stanton for several years. He also operates a cattle ranch ten miles northwest of Midland and has spent most of his time here for several months. He and his family will move to Midland as soon as housing arrangements are completed. He will continue to operate his Stanton business and his ranching interests.

G. A. Eiland, member of the Eiland Motor Co. of Stanton, Ford dealers, will continue to live there and manage that firm. He formerly lived at Midland and is well known to the automobile trade here.

Midland Motors, Inc., will continue doing business at the same location, at Main and Texas streets, King stated. No changes in the personnel of employees are contemplated and he stated that customers of the Ford dealership may expect a continuation of courteous service by the institution. —Sunday's Midland Reporter-Tele-

EVENING PARTY AT THE POWELLS

Mr. and Mrs. Earl Powell complimented a group of friends from Midland with a supper on Wednesday evening of last week. Barbecued lamb with the usual accompanying appetizers was served to the following: Mr. and Mrs. Watson LaForce and children, Mr. and Mrs. Bill Gilmore and children, Mr. and Mrs. H. C. Wheeler and daughter, and Don Knight of Midland; Mrs. Jack Smith of Colorado; Mrs. Bryan Lovlis and son of Abilene; Mr. and Mrs. Son Powell and their guests Mr. and Mrs. Tommie Hardin of Sweetwater.

Sells Palomo Stallion

Earl Powell sold last week his young Palomo stallion to an Illinois buyer, who shipped him to his fine Illinois horse ranch to be used for breeding purposes. The animal brought Mr. Powell \$250. The stallion came as a colt to Mr. Powell from Montana and now his present home will be Illinois.

Mr. Powell purchased 750 lambs this week to place on his Bar X ranch north of Stanton.

Vacationing in California

Mr. and Mrs. R. G. DeBerry and family are enjoying their vacation in Hemet, California, according to information furnished by friends. They plan to return soon to Stanton.

To Fort Crockett

County Agent George Bond is vacationing at officers training camp at Fort Crockett, he being a reserve officer. Mrs. Bond and son are visiting in San Angelo.

Has Tonsillectomy

Eddy, the little daughter of Mr. and Mrs. Morris Zimmerman, underwent tonsillectomy.

Floorsweeps	6	1	5	.158	3

in a Big Spring hospital last week, and is home recovering nicely.

Three REAL Fishermen

The other day at noon on our way home we had occasion to witness four "men at work" in a ditch at the Allen Kaderli home. The way Allen heaved on the spade handle and the other three men pawed up the earth we thought some one had been buried alive. But no, it was fish

worms they were digging up at the mouth of the water waste pipe at the Kaderli home. Three of the gentlemen, A. T. Angel, his son, Jesse, and John Pink-

ton had brought their rabbits foot into play on Mr. Kaderli, who was furnishing the fish-worm grounds, digging them up and yet not one of the group to go fishing.

The three gentlemen went to the lake at Big Lake, a-fishing and they say, they "mortally" caught the fish. But they had no use for worms for bait. The fish were so large they had to use jackrabbits and young lambs so the fish could see the bait. "Why, do you know," said A. T. Angel, "fish were so plentiful we liked never to have gotten our trot line wound up for taking the fish off it. We could have caught them with old boot leather or saddle horns for bait." Some fish and some whale of a d—m fish story.

Return From Oklahoma

Mr. and Mrs. Joe Barber, daughter and children (all col-

ored), have returned from a sad vacation. Mrs. Mary Barber, mother, passed away at the age of 72. Funeral at St. Mathew Baptist church at Valliant, Oklahoma.

Joe Barber said they saw wonderful crops going and coming.

DON'T STRIKE THAT MATCH!

Electricity Costs Less Than Matches

• Don't think you are saving money when you strike a match to find something in the closet, rather than turning on the light. Matches are cheap, but still they aren't as cheap as electricity. For what a single match costs, you can burn a 25-watt electric light for about 6 minutes!

That is why we say that electricity is one of the smallest items of expense in the average home. Whether for lighting, for refrigeration, or for radio entertainment, the electricity you use so many times a day costs only a few pennies.

CLASSING OFFICE FOR WEST TEXAS

Washington, Aug. 3. A regular cotton classing office for West Texas is being seriously considered by the Division of Cotton Marketing of the Department of Agriculture, according to a recent report made to Congressman George Mahon. Mahon had previously conferred with Department officials on several occasions stressing the need for such an office to serve West Texas cotton farmers generally and particularly for service to those farmers participating in the One Variety Cotton Community program. The recent conference was for the purpose of again urging favorable action and calling to the attention of the Department the wide interest being shown in the proposal by One Variety Communities and County Agents throughout the area.

Such an office would supplement similar services now available in Texas through classing offices at Austin, Dallas, and El Paso.

One Variety Cotton Communities should file applications for Department of Agriculture classing service through Mr. George E. Miller of the Division of Cotton Marketing at Austin. Mahon expressed the opinion that if sufficient applications were filed immediately, the West Texas office would be established.

Returns From Rice

Paul Jones is home from Rice where he visited his wife recovering from an operation. Says she is doing nicely. His mother at the home of relatives in Louisiana, is very ill, Paul reported.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin.—Appointment by Gov. O'Daniel of the new State Welfare Board, which on Sept. 1, will take over administration of social security functions, and a declaration by members of the board of their personnel policy, quieted fears of a wholesale clean out of the pension staff. The board members who serve without pay, are Judge Beeman Strong of Beaumont, veteran lawyer and politician; Marvin Leonard of Fort Worth, merchant, heretofore unidentified with politics; and Dr. M. E. Sadler of Austin, pastor of the First Christian Church in Austin, attended by Gov. O'Daniel and Ex-Governors Allred and Sterling. The appointees issued a joint statement, indicating they would retain efficient employees required to do the work efficiently.

Little May Remain Grapevine reports were that Jack Little, at present director of pension administration under the Board of Control, stood a good chance for reappointment by the new board. Little had been badly worried, before the board was named, declaring he would maintain a "hands off policy" regarding personnel. During his campaign last year, he assailed the pension investigators, with his famous story about "Grandma's chewing gum, and Grandpa's milk cow," until many believed he would "clean out" the staff under the reorganization. If he does not change his mind, existing personnel probably will not be greatly changed.

Crisis is Coming A pension crisis is due within two or three months after the new board takes charge. Sept. 1, the pension fund must begin repaying a banking syndicate from which it borrowed, \$200,000 a month. That means loss of a \$200,000 matching fund from the Federal government each month. If the liberalized pension law adds from 50,000 upwards of new pensioners, the present average pension payment of nearly \$14 is expected to drop sharply, unless the Federal government puts up a great deal more money, now regarded as unlikely this year. Then will come the test to see whether O'Daniel can keep the old folks satisfied without a revenue-raising special session, for another year and a half, by his Sunday morning radio talks about religion, law enforcement, economy in government, and similar abstract subjects.

A Book On Session Senate Joint Resolution No. 12 the famous sales tax amendment which blocked revenue raising efforts of the regular session, is due to be the most widely discussed political issue in Texas during the next 18 months. So few folks actually know what was in it, that Buck Taylor, veteran Texas writer and legislative observer, who now headquarters at 102 East Second St., Austin, has issued a pamphlet, entitled "SJR 12." It sells for a quarter, and contains not only the complete official (continued to last page)

AMERICAN BOY MAGAZINE COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and considered it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is inter-

ested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents, and leaders of boys clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan. 42tf.

Begin Garner Work

Opening headquarters in Austin, Price Daniel, member of the legislature from Liberty, and president of the Texas Young Democrats, this weekend launched a statewide campaign among youthful voters to support Vice-President John Garner for the presidential nomination, when precinct and state conventions are held next year. Daniel will form active Garner organizations in each senatorial district among young voters.

NBODY'S BUSINESS— (continued from page 3)

text of SJR 12, but a careful, unbiased analysis, showing just what the resolution would have accomplished. The pamphlet is one chapter of a forthcoming book by Taylor entitled "Did You Say They Tried To Steal Texas?" telling the story of the O'Daniel administration from the inauguration through the end of the session.

\$22 Per Capita

The State school per capita apportionment will be \$22 for the third successive year, the Board of Education ruled, rejecting pleas for the maximum of \$22.50 fixed by the new law, because of deficit in this year's payment. The action probably will make necessary a constitutional maximum ad valorem tax rate of 35 cents for general school purposes, since the Automatic Tax Board must levy a rate sufficient to yield the \$22 fixed by the School Board.

Want Ad. in the Reporter is a paying investment. Try it!

HOME DEMONSTRATION— (continued from page 3)

Mrs. Yates has 72 pints and quarts of canned pineapple which will help provide the one serving a day of fruits for each person in the family.

The three and one-half dozen pineapples cost Mrs. Yates \$3.25. Besides the amount canned, she has three quarts of pineapple juice stored in the pantry.

Other fruits she has added to the home food supply at the present time are: five bushels of peaches that she canned and then used the peelings for jelly. Another unusual fruit put up by Mrs. Yates is cantaloupe sweet pickles.

THE DRESSING CENTER DISCUSSED FLOWER GROVE MEETING

"Too much stress cannot be put on being a well groomed person," Mrs. Elsie Gilkerson, home demonstration agent Martin county, told members of the Flower Grove club in their regular meeting with Mrs. Covie Williams on July 19.

"To be well groomed the dressing center should be first in consideration, having the chest of drawers and dressing table as convenient as possible to clothes closet." A dressing table made of orange crates was demonstrated to those present.

Mrs. Bonnie Smith was elected recreational leader. Miss Betty Lou Burns was elected as a candidate for election of delegate to Texas home demonstration association, which convenes in Lubbock.

The club voted to entertain Brown club on August 16. There were 15 present at this meeting. Members wore: Mrs. Gilkerson, home demonstration agent; Mrs. C. W. president; Mrs. Covie

Williams, Mrs. Lee Burns, Mrs. Bonnie Butcher, Misses Betty Lou and Louise Burns, Mrs. Ethel Culp, Mrs. Earl Heald, and Mrs. Ed. Burns. Visitors were Mrs. Jeff Coats, Mrs. Burk hart, Mrs. Elmer Oaks, and Miss Stricklin of Lamesa.

At meeting on July 12th with Mrs. Ethel Culp, a demonstration was given on how to make a recipe file to nine members and four visitors.

Meeting adjourned to meet with Mrs. Ed. Burns on Aug. 2 at 2:30 p. m.—Reporter.

4-H CLUB GIRLS PICNIC 4-H CLUB GIRLS PICNIC

On July 28, 4-H club girls enjoyed a picnic at the Virgil Sadler ranch.

Swimming was the principal form of recreation. Following the picnic supper, Velma Lou Castleberry was elected chairman of the group and presided during the program. Songs were led by Frances Clements and reviews of the Short Course at A&M college were given by Mary Virginia Castleberry, Lera Jo Bryson, and Velma Lou Castleberry. Because of the shower of rain, girls returned to their homes about midnight instead of spending the night in camp as previously planned.

Those who enjoyed the outing were:
Tarzan—Edna Earl Jones,
