IN MEMORY OF EVERETT - - Mrs. Everett (May) Plowman is presented tokens of appreciation by the Eastland Little League officials Monday evening at home place in memory of her late husband, Everett Plowman, whose memory the 1976 season has been dedicated. From left are D.R. Martin presenting an autographed ball attached to an engraved plaque; John Harrell, League Vice President and Minor League Chief; and League President Jim Wortman who was in charge of the ceremony. A dozen red roses were presented from the League to Mrs. Plowman by Mayor H.V. O'Brien. Wortman lead the audience in the National Anthem and John Neville gave the invocation. Mrs. Plowman threw out the first ball to officially open the season. Jay Staggs was master of ceremonies and was announcer for the first games. In the openers, the Bulldogs beat the Lions 4 - 3, and the Comets downed the Medics 8 - 5. Tuesday night Minor League scores were: Bulldogs 9 and Lions 9; and Comets 8 v. Medics 11. COURTHOUSE TO WHITE HOUSE

# Vote Saturday

Votes cast Saturday will truly vibrate from the Courthouse to the White House.

Eastland County voters will join fellow Texans in a brand new ballgame--a presidential preference balloting that hopefully at least will bring a record number of voters to the polls.

It is a party priminary nomination event and voters must decide in advance their party preference because you can't vote in both. It is a nominating of party candidates in preparation for the November General Election.

Eastland County traditionally in the Democratic column will see voting in eight Democratic voting precincts, and the county Republicans will vote in one box at the City Hall in Eastland.

All polls will be open from 7 a.m. to 7 p.m. and voters are urged to vote early and election workers are being urged to get their returns called in early because the whole nation is looking at Texas and the Eastland County votes will be forward immediately to the National Election Center in New York City and the Texas Election Center in Dallas.

Democrats will pick three delegates to the national convention and Republicans will pick four delegates to their convention. (Party officials are reminding that one more than is asked for will void a ballot, so voters are particularly urged to vote their ballots carefully in order to make them county).

The County Clerk's office reported that 88 persons had voted absentee on Democratic ballots and ten on Republicans ballots before the deadline Tuesday.

Voter registration cards should be taken to the polls as these will be stamped to show which primary was voted in, it is reported.

Eastlander Mike Collins is one of three candidates asking to be delegates pledged to Lloyd Bentsen on the Democratic Ballot. Wallace, Bentsen, and Carter and uncommittee delegates are listed. Each voter gets three choices: he may cast these for the delegates of one presidential candidate or divide them up.

Republicans will vote for four delegates: either for Ford or Reagan, or divide them.

Contested races on the Democratic ballot drawing attention include, United State Senator; railroad commissioner; three contested high court judgeships; state senator; state representative; county sheriff; county commissioner, Precinct 3 (south part of county)

NOTHING BUT praises do we hear from the recent Art Exhibit held here, and as always Manager James Wright and the Chamber of Commerce does its fine share in providing ribbons and helping put on such successful events. . .Compliments due many; especially Mrs. Carter of Odessa who took Peoples' Choice, and did you know her son Jerry is some painter himself? Jerry Carter is one of those talented people who make the rest of us wish we could find more time for such. Another man who does the same is L.A. (Scotty) Scott who is doing the fantastically beautiful metal windmills and other fine metal pieces. Maybe when the work's all done this fall!

CAMP HOBLITZELLE, the Salvation Army Summer Camp for boys 8 thru 14, now calling! Deadline is May 17, and John Morren is now taking applications. Remember Dan Eddy, the Chamber speaker here? He's the S.A. man in charge of the program and it's a dandy, so let's get some Eastland boys down for a bang - up Summer Camp.

JUDGE EARL Conner of the 91st District Court has a handsome trophy to prove to one and all that he can play golf. He was a member of the winning scramble team in last Saturday's annual Cisco Junior College Invitational Tournament at the Cisco Country Club.

Last we heard, Judge Conner was contemplating a suggestion that he place the trophy in a prominent place on the court bench. This, it was said, would enable him to take out a handkerchief and casually polish the trophy while lawyers and others stood before the bench.

In a more serious vein, let us report that the Judge has a long - time reputation as one of this community's better golfers.

## Benny Moseley Seeks Sheriffs Office

"Benny Moseley, candidate for your Sheriff and placed on ballot for the May 1, Democratic Primary Election, seeks support of Eastland County citizens. Moseley was born and raised in Dublin, Texas, and resided there until his enlistment. After three years with the U.S. Armed Forces, Moseley, as an ex - service man and pilot, moved to Ranger, Texas in 1961, where he served six years as an officer with the Ranger Police Department. Moseley is a member of the Texas Commission on Law Enforcement officer Standards and ducation, a certified law officer and a Texas Certified Peace Officer.

Benny is married to the former Creida Nash of Carbon. The Moseleys have been residents of Ranger for 14 years and are the parents of three children: two sons, Chris 20, Charles 15, and a daughter Sarah 17, all of the home. The Moseleys now reside at Lake Leon.

"I sincerely want to serve you, the people of Eastland County and I feel that my past experience qualifies me for this office. Even though qualifications and experience are closely related, I firmly believe that experience gains much more results in the majority of cases than do qualifications. A candidate's long list of qualifications will definitely not make the man a Sheriff. Certainly, you must have a degree of qualifications for acting Sheriff, but experience is a greater necessity of the two. No one man can hold the office of sheriff without experience, just as he could never, without the support of his County. The office of Sheriff is a great responsibility and the man elected will need the support of the citizens of our County, to make him the Sheriff that Eastland County needs. If elected, I will be working toward the best interest of the citizens of Eastland County. Youth of today are our future leaders and I will work with the young people of our County, with their best interest at heart. If I have failed to speak personally with any family or individual of Eastland County during my campaign for Sheriff, please do not feel negligence on my behalf, as I work nights, which has left me short of time for my campaign. To the citizens whom I have not been in personal contact with, I would like to take this opportunity to ask each and every Eastland County resident to please come and vote on Saturday, May 1. Your vote for me as your Sheriff will be greatly appreciated, but if for any reason you feel that you will be unable to cast a ballot for me, then please come and vote for the candidate of your choice.

## Thoughts For Today

**By Bobby Boudreaux**

How often do you express a doubt? How often do you have doubts about your abilities or doubts about other people? It is healthy and wise to have doubts at times about certain things, but when doubts become chronic and cloud simple reasoning, then doubting has deteriorated to a sickness of skepticism.

We see men of poise and serenity; we see them with all the trappings of faith and dignity and we doubt whether these men ever have a doubt about anything. They seem so sure of themselves. But they too have doubts at times.

To doubt is only human. This was true from the days of the Psalmists to and through the days of Thomas and is true today. When we find ourselves gripped with uncertainty, we are bound to have doubts. But promiscuous doubting should not be.

Doubts torment us only because we have too little faith. This is true whether it applies to people, science, religion or anything else. Obviously then, the best way to reduce doubts is to increase faith. Sounds simple? It is. . . .

# In The Interest Of Good Law Enforcement In Eastland County

Chief Ray Laney
Retired

My Friends: This Is Ray Laney. As you know, I worked for the Eastland Police Department for 26 years and was Chief for 22 years. I am supporting and voting for Johnnie Morren for Sheriff of Eastland County. Johnnie was a member of the Police Department for 2 years prior to my retirement. I found Johnnie Morren to be honest, hard-working and reliable. I never gave Johnnie an assignment that he failed to carry out. Johnnie has the ability to get along extremely well with all the citizens of Eastland, especially the young people and senior citizens. Johnnie Morren was appointed Police Chief upon my retirement in October 1969. Since then I have watched him perform his duties with the same fairness and compassion that he exhibited while working for me.

Johnnie Morren is highly qualified for the job of Sheriff of Eastland County. He is highly schooled and trained in his profession and, in my opinion, will make Eastland County a Sheriff that Eastland County can be proud of.

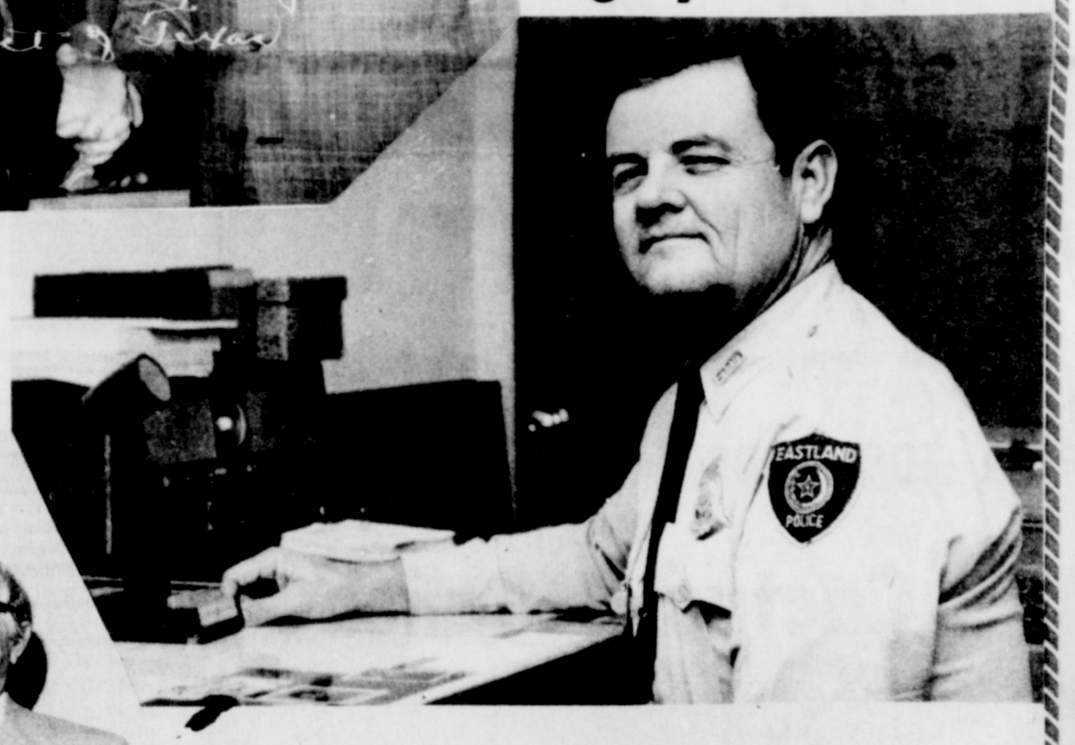

To my many friends of Eastland and surrounding towns, I hope that you will give your support and vote for Johnnie Morren for Sheriff in this Saturday's election on May 1st. Please vote and vote for Johnnie Morren for Sheriff of Eastland County.

## STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — Major presidential candidates are making last minute appeals for support of Texas voters in the May 1 primary of both Democratic and Republican parties.

President Ford budgeted three days and a night to the Texas GOP primary battle with Ronald Reagan. Counting his two earlier days of campaigning, the president will have spent more time in Texas than any primary state this year.

Reagan also will make his third appearance in the state two days before the primary.

Democrat front-running Jimmy Carter will be back April 30. He made a fast trip to Houston April 20.

U. S. Sen. Lloyd Bentsen is on the scene every day, combining his re-election and favorite son campaigns.

Alabama Gov. George Wallace, faltering as a national contender, was in Texas for a second wide-ranging swing last week to keep his potential delegates in line.

In addition to the presidential preference primary and the Senate fight, the May 1 Democratic ballot offers a hot contest for Railroad Commissioner and three statewide appellate court races. One of the latter is for the State Supreme Court and two for the Court of Criminal Appeals.

**$50 Million "Wasted"**

Unwise and outdated investment policies have cost the state at least $50 million over the last five years, Comptroller Bob Bullock claimed.

Bullock said a six-months study of state money management practices by his planning and research staff showed Texas has the worst problem with idle funds earning no interest of any state in the nation.

Most idle state money is kept in big city banks, with four banks alone keeping an average of $175 million and earning $10 million last year off the state deposits, the comptroller stated.

Texas, according to Bullock, has an average daily balance of more than $300 million in checking accounts earning no interest. He argued about 75 per cent of that money could be in time accounts drawing interest.

**Allowable Set**

Texas Railroad Commission for the 50th consecutive month set the state's oil allowable for May at 100 per cent.

While the allowable permits 3,931,778 barrels daily, estimated production actually is only 3,207,000.

Once again, the commission restricted the East Texas field and the Kelly Snyder field in Scurry County to an 86 per cent allowable.

Nominations by crude oil buyers declined by 16,368 barrels a day from the previous month.

The four-week average of crude oil imports, meanwhile, increased 458,000 barrels from the January 2 average and 1.3 million barrels from January 3, 1975.

**Courts Speak**

The State Supreme Court will hear arguments May 19 in a case to determine whether the best interest of a 10-year-old would be served by terminating his mother's parental rights. The mother saw the child only three times in several years.

Reversing itself, the high court decided it will not review litigation over an insurance company's refusal to pay a San Antonio family for repairing a buckled foundation.

Supreme Court justices affirmed a $60,000 damage award to a man injured in a truck wreck near Dimmit.

The Texas Court of Criminal Appeals ordered a new trial for a San Antonio man convicted of delivering marijuana. The court held that display to a jury of a police photograph of the defendant violated his rights to a fair trial.

**AG Opinions**

Municipally-owned public utilities must obtain certificates under the Public Utility Regulatory Act for new retail service only when the area to be served is being served by another utility, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

—There is no provision for an appeal by residents of a city from charges established by its municipally-owned utility.

—Public utilities subject to state jurisdiction are subject to assessment.

—The state comptroller can refund taxes collected under a law later held to be unconstitutional.

**Appointments**

Crawford Godfrey of Jacksonville was appointed to the State Judicial Qualifications Commission, succeeding Vernon Butler of Carthage.

Gov. Dolph Briscoe named Mrs. Patsie Anderson of Uvalde to the State Board of Vocational Nurse Examiners, replacing Mrs. Kenneth Otto of Needville.

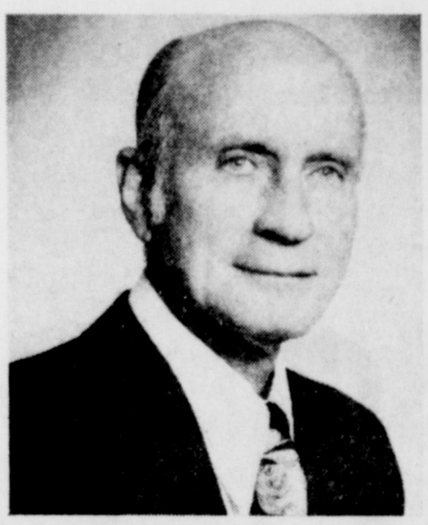

Briscoe appointed nine members of the Texas Advisory Council of the Legal Services Corporation. Associate Justice Max N. Osborn of the El Paso Court of Civil Appeals was designated chairman.

**THE UTILITY COMPANIES CALL IT "FAIR VALUE". BOB VAUGHT CALLS IT A RIP-OFF.**

An 86-year-old Eastland Baptist minister's gas bill more than doubled this winter.

A retired Eastland couple living on a monthly social security check of $244 have a small space heater, a hot water heater, and gas cooking facilities. Their bill used to be $25 a month. Now it's $52.

An Olden man now pays $48 a month for gas. He used to pay $22.

*"Clearly, my opponent is on the side of the utilities. He's one of 24, out of 144, who voted against the bill that would regulate public utilities. One of 9, out of 132, who voted against regulating the stripmining of coal, lignite and uranium. He voted to increase your utility bill when he voted for "Fair Value." His vote was a political give-away that permits a legal steal. I believe in regulating the utilities—not through the old railroad commission, but through the public utility commission. And I mean regulating. I've been in the field of public utility rate regulation for 12 years. I can make the law work for you."*

**BOB VAUGHT SEES "FAIR VALUE" FOR EXACTLY WHAT IT IS. A UTILITY COMPANY RIP-OFF.**

"Fair Value" may *sound* fair. But it isn't fair to you the citizen. What it means is that the utility people can base your bill on their estimates instead of on the actual investment that's been made in the plant.

"Fair Value" is very fair to the utility companies. Naturally, they're all for it. So is their friend, Joe Hanna. But now it's time for you to be fair with yourself.

Vote for the man who knows how to fight the utilities and to win battles for you. Vote for yourself this time. Vote for Bob Vaught.

## FARM FACTS

**A Turning Point**
The first billion-bushel wheat crop was produced in the United States in 1915.

**The Big Four**
Top markets for U.S. farm exports during the past four years have been Japan, the Netherlands, West Germany, and Canada.

° ° °

**The Greenhouse State**
Ohio produces more greenhouse vegetables than any other state in the nation.

° ° °

**Who's Little Acre?**
Farm real estate values now range from $69 an acre in New Mexico to $1,737 in Connecticut. National average is $354, up 80% from 1970.

° ° °

**A Century Of Ag Research**
This year marks the first century of research by state-supported agricultural experiment stations. The nation's first station was established in Connecticut in 1875.

° ° °

**Many Happy Returns**
It has been estimated that insect-resistant varieties of crop plants return between $300 and $600 for every $1 invested in research for their development.

° ° °

**A Natural Recruit**
Cotton supplied about 83% of the nation's military needs for textiles during World War II.

° ° °

**Continuing Progress**
Most of the commercial wheat varieties planted by U.S. farmers today have been developed in the past ten years.

° ° °

**Biological Controls Increase**
Biological controls are now being used against more than 100 insects and weeds in U.S. food and fiber crops, but chemicals remain man's major weapon against these pests.

° ° °

**Giant Step Forward**
American agriculture has advanced more in the past 50 years than in all the prior years of U.S. history.

Cotton exports were made from the American colonies as early as 1747, according to some historians.

One of the oldest records is a bill of lading dated July 20, 1751, certifying that one Henry Hansen shipped 18 bales of cotton to London from New York harbor.

But in 1784, eight bags of cotton shipped to England from the United States were seized on the grounds of fraudulent import since it was not believed so much cotton could be produced in America.

In the decade following Eli Whitney's invention of the cotton gin in 1793, U.S. farmers increased cotton production from 2 to 50 million pounds.

# TOM CREIGHTON
**VOTERS,**
**Read This Carefully, Then Make Your Choice On FACTS!**

**There are MANY differences between me and my opponent . . .**

***I AM FOR THE TEXAS RIGHT TO WORK LAW.*** No person should be forced by law to join a union in order to have a job.

***I AM AGAINST COLLECTIVE BARGAINING FOR PUBLIC EMPLOYEES.*** New York State has collective bargaining for public employees. Their garbage men, bus drivers and other public employees called so many strikes that New York City is bankrupt. I don't want to see that happen in Texas.

***MY OPPONENT IS FOR COLLECTIVE BARGAINING.*** He is financed in this campaign for the Texas Senate by the big labor bosses from all over the state. Their major legislative objectives are to repeal the Right to Work Law and to bring collective bargaining for public employees to the state of Texas.

***I AM OPPOSED TO ANY NEW TAXES.*** We now have a surplus in Texas and will need no new taxes if state spending is kept to a minimum. As Vice-Chairman of the Finance Committee and a member of the Legislative Budget Board, I will continue to keep a tight rein on state spending.

**MY OPPONENT** says he is against a state income tax and "We need to stop government waste and inefficiency", yet he promises to maintain "full time district offices" if elected. A full time office in each of the 17 counties of the 22nd Senatorial district would cost **you**, the taxpayer, a minimum of $17,000.00 a month, or $204,000.00 a year in tax dollars, not counting his salary and expenses in Austin. He has also promised to raise teachers starting salaries to a minimum of $11,000.00 a year — the State Comptroller estimates this would cost the taxpayers one billion ($1,000,000,000.00) the first year alone. This is no way to stop waste. This type of spending would quickly eat up the money on hand and lead to increased taxes.

***I AM FOR THE TEXAS UTILITIES COMMISSION.*** The Utilities Commission will come into being on September 1st. Clearly, something must be done to lower utility rates in Texas.

**MY OPPONENT** says he will "put price controls at the well heads". This would slow down, if not stop, the production of oil and gas and create shortages which would result in **HIGHER** utility rates, or no gas at any price!

***I AM OPPOSED TO MORE AND BIGGER STATE GOVERNMENT.*** I made 46 speeches AGAINST the proposed new Texas constitution, which was overwhelmingly defeated, because it would have given unchecked power to the legislature and state agencies and resulted in higher taxes. I will continue to fight to keep government in the hands of the people.

**— CHECK THE RECORD —**

***DO YOU WANT TO PROMOTE A DO-NOTHING DISTRICT ATTORNEY TO THE TEXAS SENATE?*** My Opponent says he is for "strong law enforcement and stronger courts of law to punish those breaking the law". Yet his **three year record** as District Attorney of Parker County is as follows:

- 296 criminals indicted by the Parker County Grand Jury
- 115 guilty pleas
- 92 cases dismissed
- 12 jury trials (6 convictions by my opponent; 2 convictions by his assistants)
- 81 left over . . . . . no further comment necessary.

In his April 1st report filed with the Secretary of State, my opponent reported only 14 individuals who have contributed to his campaign. In my report filed the same day, I have over 1500 individuals who have contributed to my election . . . . some gave as little as $1.00. They have given what they could for **GOOD GOVERNMENT** and a man who believes in the free enterprise system . . . . . **ALL THESE PEOPLE CAN'T BE WRONG!**

## Letters to the Editor

AN OPEN LETTER...

Since there exists the possibility of some in our community being exposed to the Transcendental Meditation program, I would like to share some of my findings upon some research of this subject.

At the outset, may I state that according to the laws of our land, adherents to TM have the right to promulgate its teaching. I choose to exercise those same rights to publicly insert a word of caution about that teaching.

Transcendental Meditation's claims often are accompanied with the contention that TM is not a "religion" or not "religious". But Glenn Iglehart, director of the Home Mission Board's Department of Interfaith Witness of the Southern Baptist Convention, whose areas of work include TM states, "TM claims it is non - religious in nature, but the very ground of its philosophy is basically Hindu monism. The public image of TM has been Americanized, but the interior teaching is avowedly Hindu."

Kate Ellen Gruver, an associate of Iglehart, was quoted in an article by Toby Druin for Baptist Press as saying, "Persons participating in TM go through an initiatory rite that is religious in nature, involving bringing an 'offering' of fruit and flowers and kneeling before a picture of a Hindu guru."

That same article stated that after some instruction, a meditator is given a "mantra", a secret Sanskrit syllable or syllables which he is supposed to repeat over and over again in two daily 20 - minute sessions of meditation. Many of the mantras which have been revealed are from Hindu religious writings.

TM was introduced into the United States in 1959 by Maharishi Mahesh Yogi, an Indian Guru who had studied under another Hindu, the Guru Dev.

TM is called a systematic program for the full development of the individual. The idea of meditation to bring about positive results in one's life is by no means a new idea. The Bible tells us in Psalm 119:97 - 99 that those who meditate upon the law and testimonies of the Lord will be wiser than their enemies and have more understanding than their teachers. Psalm 1:2 - 3 promises prosperity to those who meditate on the law of the Lord day and night. Joshua 1:8 reaffirms that promise and adds the promise of good success. Psalm 63:5 - 6 promises joy and satisfaction to the one who meditates upon God.

A systematic program of meditation is obviously beneficial IF the object of that meditation is God and His Word which are real and substantive.

## U.M.W. Circle Holds Meet

The United Methodist Women met Tuesday morning in the home of Mrs. J.C. Lyerla.

Mrs. Corbell called the meeting to order. Mrs. Frank Sparks gave the opening prayer.

Mrs. Willman gave a most inspirational devotional in view of the meeting of "Venture of Decipleship".

"After Glow of Easter was the subject presented in four divisions.

1. Highth--Christ has risen.
2. Depth--The spirit of Christ looks to the inside of a person instead of the meterial side.
3. Breadth--Inclusive of the love of Christ, he includes and does not exclude.
4. Length--Eternity. We think of time as days and Christ thinks of time in eternity. The Bible speaks of a period of 1000 years as only yesterday.

God speaking to the Children of Israel to go forward when Paroah's army was behind them. God is telling the people of the Methodist Church to go forward in the meeting of "Venture of Decipleship".

The meeting closed with a continuous prayer.

## Van Geem Circle

The Van Geem Circle of the W.M.U. met April 27, in the home of Mrs. Austin McCloud with Mrs. Van Geem presiding. There was a discussion of the Ministry of Discipleship beginning April 30. Mrs. Harold Ray reported that homes had been pledged for all the visiting Lay Witnesses and urged attendance particularly to prayer groups as well as other services.

Mrs. Van Geem led the group in prayer. Mrs. Austin McCloud presented the devotional **A Lenten Devotion** by Martha Montague Wison.

Members present were Mrs. Van Geem, Mrs. McCloud, Mrs. Joe Francis, Misses Loretta and Opal Morris, Mrs. Walter Rice, Mrs. Harold Ray and Mrs. Jack Frost.

Dear friends,

Prayer, helping others, living as conscience dictates - these are the preparations we can make if we are wise. Giving of oneself to aid the sick, the poor, the less attractive, prepares us for the next life, where social status, beauty, or learning mean little.

Respectfully,

Dale O. Bakker
