

until shutdown at 4:30 o'clock Monday afternoon, to pressure up. Testing continued Tuesday and Wednesday. At noon Wednesday reports from Roosevelt said the well was "heading every hour or so."

Preceding acidizing Sunday evening the open hole was perforated by Lane Wells from 2,908-11 end from 2,911-14 feet with seven bullets to each section. Four thousand gallons of acid was injected into Pennsylvania lime, probably Strawn, between 2,904 feet, where 7-inch casing was cemented, and 2,922 feet, the total depth. After the acid load was lifted, the well swabbed 137 barrels of oil in seven hours, through 2-inch tubing.

There was no water. In fact, it is believed practically no water has been encountered at any depth.

In the matched roping Wednesday night, Jack Hoggett, young Kerrville roper and former schoolboy champion, won over Jim Bob Altizer, Del Rio, and last year's schoolboy champion. Hoggett's time in the closely contested match for six calves was 123.3, while Altizer scored 125.2.

The Sterling County 4-H Club won the team roping with 277.4 seconds on six calves. Team members are Billy Ralph Bynum, O. F. Carper and Derrell Blair.

Jack Hughes, San Angelo buyer for Emery, Russell and Goodrich of Boston, bought the show wool for 85 cents a pound.

MAYER ATTENDING SCOUT MEET IN PHILADELPHIA

Edwin S. Mayer, Sonora ranchman, is representing the Concho Valley Council of the Boy Scouts at the 40th annual meeting of the National Council at Philadelphia. Mayer flew to the two-day meeting held yesterday and today. Business and professional men who are active in Scouting in their own communities, the delegates will come from throughout the United States.

BUSINESSES TO CLOSE FOR JULY 4 HOLIDAY

Sonora business houses will close all day Tuesday, July 4, in accordance with a resolution adopted by the Lions Club two years ago. Service stations and cafes will probably remain open part of the day. No celebration is planned here, and the Lions Club will not meet Tuesday at noon.

Mr. and Mrs. Sibe Eastland of Kerrville are guests of Mr. and Mrs. Hi Eastland. Mr. and Mrs. Eastland made their home here in 1915.

Misses Jo Nell and Janice Malone of Detroit, Mich., are here visiting their grandparents, Mr. and Mrs. G. G. Bennett.

Attend SOME Church Sunday.

Less elbow grease is required to do the house cleaning chores today because science has come to the rescue. High on the list of modern aids for the homemaker are the detergents. They make it

possible for the house cleaning job to be done with less effort and with more speed and effectiveness.

University Grads Finding Jobs

University of Texas 1950 graduates are more than holding their own in a nationwide job market reportedly overrun with 500,000 new degree holders.

Greatest demand has been for teachers and pharmacists. All journalism, physics and home economics graduates have been placed. More than 70 per cent of engineering and chemistry and a good majority of business administration graduates had jobs by commencement time or soon thereafter.

Seventy per cent of those finishing Law School have found work in their field, reportedly one of the hardest to enter now.

"There still are shortages of elementary, library science, home economics, and women's physical education instructors," Teacher Placement Director Hob Gray said.

The College of Pharmacy had 110 graduates and received more than 300 requests for their services. The nation's defense program has kept the demand for physicists high, but requests for chemistry graduates have been fewer this year.

The College of Business Administration reported demand for its huge graduating class is keeping pace with last year, with placements greatest in sales and accounting work.

El Paso Lake To Be Restocked For Sportsmen

The largest lake renovation project in Texas history promises to improve the fishing sport for residents of El Paso in the extreme southwestern area of the state.

Under the supervision of the Game, Fish and Oyster Commission, Ascarate Lake which comprises about 60 acres, has been rid of all fish life so that a new and balanced stock of game fish may be placed in the waters.

The Chief Aquatic Biologist who handled the undertaking recommended that the lake be closed to fishing until next May. That will allow ample time for the new supply of fish which will be distributed about August 1, to get a good start.

These San Angelo College dormitories and dining commons are now under construction and will be ready September 10 for the fall semester. Carr Hall will accommodate 80 women students and Mayer Hall will have rooms for 84 men students, besides suits for supervisory staff members. The dining commons will seat 304 at one time. This group of most attractive buildings is situated southeast of the Home Economics Cottage on the east side of the 60-acre campus.

Reservation blanks for both dormitories may be secured by writing to the Business Office at San Angelo College.

Periodic checks should be made of the flower garden and of the shrubbery about the place for aphids. A heavy infestation of aphids, sometimes called "green bugs," may take enough sap from the plants to weaken them seriously. Control measures should be applied as early as possible.

Almost all water is derived directly or indirectly from the oceans by evaporation, condensation and precipitation.

license law. Under that statute, now replaced by the statewide fishing statute, El Paso County retained at least 90 per cent of money obtained through sale of licenses to fish in that county.

A LOOK AT THE BOOK

By DR. BOB JONES, JR.

PRESIDENT OF
BOB JONES UNIVERSITY

GREENVILLE,
SOUTH CAROLINA

John the Baptist, that remarkable man, was thrown into prison by Herod because of his faithful preaching and courageous denunciation of sin. To him in the darkness of the dungeon came various reports about Christ, and John who had pointed to Jesus and cried with such certainty, "Behold, the Lamb of God that takes away the sin of the world," confused and perplexed and discouraged now sent to Him from jail, asking, "Art Thou He that should come?" The answer of the Lord Jesus Christ cleansed lepers, unstopped deaf ears, raised the dead, and preach-

ed the Gospel to the poor. What better answer could Christ have given to John's question than the answer of His life and work? Every act of the Lord Jesus proclaimed His deity.

The outward action of a man's life is the best indication of what he really is. The Lord stressed this truth Himself. "Even so every good tree bringeth forth good fruit; but a corrupt tree bringeth forth evil fruit. A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit. . . . Wherefore by their fruits ye shall know them" (Matthew 7:17-20). A man is bound to manifest outwardly by his words and his actions what he is in his heart, for out of the heart are the issues of life (Proverbs 2:23), and as a man thinketh in his heart, so is he (Proverbs 23:7).

Some men say, "It does not matter what my creed is as long as I live right." The truth is that no man who has a bad creed can be a good man. That which a man believes in his heart affects the course of his outward life. James says, "Shew me thy faith without thy works, and I will shew thee my faith by my works" (James 2:18). The only way the heart of a man is apparent to others is by the works of his life. When the saving grace of God transforms the heart of a man it transforms his life. Men may scoff at the grace of God and profess to doubt the miracle of the new birth, but skeptics have no answer to the proof of God's power and the evidence of the new birth when it is manifest in a transformed, godly life.

Texan Gives Lesson in Courage—Overcomes Handicap to Success

HOUSTON, TEXAS—Deaf and mute since birth, Clennen S. Scott above (left), has used a brave heart, cheerful mind and determination to succeed in life by his own effort achieving success, financial security and an interesting occupation.

Through his Scott Novelty company he has become tops in pinball game operations. For nearly 20 years he has operated peanut and gum vendors, pinball games and phonographs.

Quickly-scribbled comments on little slips of paper serve as his "voice" and a memo-talk with Scott is an experience no one can forget. He converses and wisecracks with ease.

His first years as a coin-machine operator were hard years of learning service and repair . . .

years of struggling to convince location owners he could give prompt and efficient service. Today he's rated as a top mechanic, often helping fellow operators who are stumped with a repair problem.

Scott explains how he receives his service calls. His phone number is a telephone-answering service. As he travels his route, he periodically asks the location owner to call the answering service and jot down the names of locations that may have called.

Then in Scott's words—written with amazing rapidity on memo pads—"I take care of the rest. Talk on my pads to location. Find and fix trouble. If a buzz, I trace by feeling with hands, find where new coil needed or points to adjust. Always simple."

SCHULTZ - WEST NUPTIALS READ HERE SATURDAY

Mr. and Mrs. R. V. West announce the marriage of their daughter, Arlina, to Billie Jack Schultz, son of Teddie Schultz, June 18, at the First Baptist Church in Sonora.

The Rev. J. E. Eldridge performed the ceremony.

Mr. and Mrs. Schultz attended the Sonora Public Schools, and will make their home on a ranch near

Sterling City.

Rats frequently bite a baby around the mouth, because they are attracted by the smell of milk on the baby's lips.

ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is . . .

Union leaders' answer to Board is . . .

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

Board Says Demands Unjustified

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE

The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:

Chicago Great Western Railway Company
Chicago, Rock Island & Pacific Railroad Company
The Denver & Rio Grande Western Railroad Company
Great Northern Railway Company
The Western Pacific Railroad Company

It is time to put an end to such un-American tactics!

The Answer to a Raw Attempt At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!"

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

TEXAS POSTAL RECEIPTS SHOW 7% INCREASE

Postal receipts in Texas rose 7 per cent from April to May, the Texas Bureau of Business Research reported.

After adjustment for seasonal variation, the Bureau's index of postal receipts stepped up 9 per cent from the previous month to 304 per cent of the 1935-39 base period in May.

Austin, with a 42-per-cent rise over April, tallied the biggest monthly advance in postal receipts. Borger presented a 34-per-cent gain, and May receipts were up 26 per cent in Gladewater. Other Texas cities turning in notable increases in postal receipts from April to May were: Sherman, 24 per cent; Galveston, 20 per cent; Lamesa, 18 per cent; and Big Spring, 16 per cent.

On the other hand, April-to-May decreases in postal receipts

ranged from a fractional dip in Jacksonville to a 21-per-cent drop in Bryan. Receipts were down 15 per cent from April in Brownfield, 14 per cent in Denton; and 13 per cent in Vernon.

May postal receipts for 69 Texas cities totaled \$3,929,837, or 10 per cent higher than in the same month of last year.

Snyder, with a 213-per-cent jump in May 1950 postal receipts, continued to mark up the biggest increase over year-earlier levels. Receipts climbed 43 per cent in Uvalde, 34 per cent in Crystal City; 30 per cent in Wichita Falls; 28 per cent in New Braunfels; 22 per cent in Midland; and 21 per cent in Lamesa, Borger and Longview.

Elm trees produce wood that is hard, heavy and tough and can be used for many things. Most elms can be grown from seed.

FIREMEN'S AUXILIARY MEET WEDNESDAY NIGHT

Members and guests of the Firemen's Auxiliary were entertained Wednesday night at the fire station by Mrs. Lee Patrick.

High for members in "42" was held by Mrs. Jack Hite, low by Mrs. Gomer Minnick. In bridge Mrs. Carl Cahill held high score, Mrs. Edwin Thompson low and Mrs. Earl Duncan high guest.

Punch and a sandwich plate were served to Mes. G. G. Bennett, Tommy Smith, Cahill, Artie Joy, Hite, J. A. Martin, Jr., Minnick, Thompson, Andre Truden, Pat Carroll, Duncan and T. L. Harrison.

M/Sgt. and Mrs. Harold Saunders of Austin have been visiting Mr. and Mrs. Harold Saunders, Sr. this week.

Congratulations To These New Parents

Dr. and Mrs. Alvis Johnson, Jr. of Greenville are the parents of a daughter born Monday. She weighed 10 pounds 5 ounces.

Mr. and Mrs. Alvis Johnson, Sr. of Sonora are grandparents, and Mrs. W. J. Fields, Sr. is the great-grandmother. The Johnsons have one other daughter, Beverly.

MRS. DEE WORD TO ATTEND CHURCH SCHOOL

Mrs. Dee Word will leave Monday for Mount Sequoyah, Ark., where she will attend a school of instruction for leaders in Women's Society of Christian Service work. Mrs. Word is the delegate from the San Angelo District of the Southwest Texas Conference of the Methodist Church.

The special training course will last two weeks, and Mrs. Word will take training in "Spiritual Life," and will teach that work at the school to be held in Kerrville in August.

Mr. and Mrs. Pat Bunnell and son of San Angelo have been the guests of his parents, Mr. and Mrs. John Bunnell, for the past two weeks.

MISSIONARY UNION HOLDS BUSINESS MEET

Members of the Women's Missionary Union of the Baptist Church met at the church for Bible study and a business meeting Wednesday afternoon.

The Bible study opened with the singing of "Faith of Our Fathers," followed by the opening prayer given by Mrs. Bob Odom. Mrs. J. E. Eldridge was in charge of the study and talked on "Faith."

Following the study period Mrs. Odom conducted a business meeting. She gave the devotional and the group sang, "Christ for the World We Sing," and Mrs. B. H. Crites gave a prayer. The motion was made and carried to buy book shelves for the G. A. Girls. A letter was read from a missionary in the Texas Prison System. The meeting was closed with a prayer by Mrs. B. H. Crites.

Those attending the meeting were Mes. Pearl Crites, B. H. Crites, Lawrence Nichols, R. G. Nance, W. O. Crites, Aubrey Ward, Willis Miller, Alfred Cooper, Boyd Moore, Jack Drennan, Odom, Eldridge, J. B. Heflin, Earl Smith and Walter Anthony.

Massachusetts law provides that a man may not wear a goatee in the state unless he pays a fee or tax.

13 Students Complete Red Cross Swimming

Thirteen students completed their swimming courses this week at the city pool, under the direction of Coach Edwin Thompson, Boys and Girls Program swimming teacher.

Those completing the Junior Lifesaving course are George Johnson, Russ Chalk, Shannon Ratliff and Albert Ward. Those completing the beginners course are Al Moffitt, Tommie Adams, Charles Genrich, Freddie Fields, Dan Carter Cauthorn, Mary Adele Wilson, Nancy Bess Wilson, Mary Lois Hull and Jim Ray Baker.

To pass the Red Cross beginners course the student must be able to jump into deep water, level off and swim 15 yards, turn around and swim back to the starting point. Also to dive into deep water, swim 15 yards, turn around, turn over on the back and rest in the floating position for 15 seconds; then turn again and swim back to the starting point.

Jack O. Crites, son of Mrs. Pearl Crites, is attending summer school at the University of Kansas, Lawrence. Crites is enrolled in the college of liberal arts and sciences.

The male polar bear does not hibernate like its mate or other bears.

Joyous confidence and eager anticipation both shine in the eyes of 8-year-old Virginia Lee Brown, Borger, Texas, polio patient in the out-patient clinic of the Texas Scottish Rite Hospital for Crippled Children in Dallas. L. R. German, brace maker (left) has assured Virginia that she will soon walk again. Her father, T. A. Brown, (right) lends a helping hand in fitting the specially made braces. Many children, polio victims and others, get the best possible medical care and attention at the Scottish Rite Hospital. The charity hospital, now serving humanity for 27 consecutive years, is supported by contributions from kind-hearted Texans all over the state.

Soil Conservation District News

News of Edwards Plateau Soil Conservation District
Prepared by Local SCS Personnel

What pasture deferments will do in improving a range is well illustrated by a trap on the Stella Sewell Ranch, 20 miles west of Sonora.

This trap deferred three growing seasons has made considerable improvement. Grasses such as little bluestem, fall witchgrass, sideoats grama and Texas wintergrass are moving out in to the open in considerable quantities. A good variety of excellent forage producing plants such as zexmenia, bushsunflower, prairie clover and velvet bundleflower are also present.

Deferments such as this giving a pasture a complete rest during the growing season gives better forage plants a chance to reproduce and maintain themselves.

Mrs. Carra Simmons is deferring her East Pasture this spring. A vegetative check after one month's deferment found young sideoats grama plants going to seed out in the open. Many young seedlings were also found in the open. Transects were established to check range improvement of the deferred pasture.

Sam Karnes and Joe Friend, accompanied by SCS Technicians, saw good grass last Monday. They examined a pasture on the Dock Friend estate. Little bluestem and sideoats grama were two of the better grasses seen growing, with a number of other good grasses that give livestock an excellent variety of forage.

K. R. bluestem planted the last

two years in the District is about ready for seed harvest. A number are making plans to make their first harvest. Among them are Alvis Johnson, Cleve Jones, Jr., and Edgar Glasscock.

Reports from cooperators in the Edwards Plateau Soil Conservation District indicate that grass plantings made this spring are doing as well as can be expected. King Ranch bluestem is just now beginning to come up while slender and sideoats grama are up and doing nicely.

Weather conditions this spring have not been too favorable for grass seed germination. Cool nights and lack of early spring moisture have kept the seeds of the warmer season grasses from germinating as early as they did last year.

Slender and sideoats grama that was planted in March on the R. A. Halbert and S. S. Bundy ranches is heading out. Slender grama is one of our best introduced grasses and seems to be well adapted to this district, and of course, sideoats grama is an old standby.

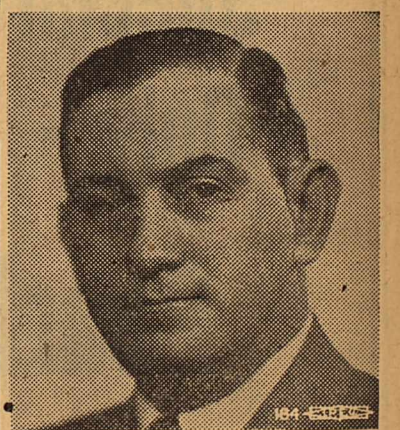

The spinose ear tick was formerly found only in the Edwards Plateau region of Texas, but today it is a well recognized livestock parasite in most every section of the state. In addition to the irritation caused by its presence, it is responsible for many cases of deafness, secondary infections of the ears and severe screwworm infestations in cattle, says J. A. Deer, entomologist, Texas A&M College.

The adult tick lays its eggs in and about the salt boxes, feed troughs and water tanks. The eggs hatch and the larvae crawl onto the noses of the animals when they feed or drink. The ticks find their way into the ears where they feed for up to 21 days, then they shed their skins. The young ticks shed twice more before reaching maturity, and continue to feed within the ears of the animals until they drop to the ground for the final molt.

Control, says Deer, is best accomplished by eliminating the ticks from the salt boxes, feed troughs and water tanks and the areas surrounding them. Salt boxes and feed troughs should be cleaned out periodically and painted with creosote, crude oil or a solution of toxaphene or chlordane. The area around the boxes, troughs and water tanks should be sprayed with a five tenths percent solution of either toxaphene or chlordane.

Mr. and Mrs. Frank Potmesil and children returned this week from Alexandria, La., where they spent two weeks visiting relatives.

YOUR HEALTH

Commenting on the unusually high incidence of dysentery in Texas at the present time, Dr. Geo. W. Cox, State Health Officer, described dysentery as being an infectious disease characterized by diarrhea, pain the abdomen, and toxemia. It is caused by a specific bacteria or germ. These germs cause inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia

results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally; how-

ever, he said, it may occur at any age. It is usually more prevalent during the summer season, and the great number of cases now being reported are unusual for spring.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons will still discharge the germs after they recover are called carriers, and they occur more frequently in this disease than in the majority of other infectious diseases.

"Food protection and adequate

sanitary measures are more urgently needed now than ever before if we control the potential possibilities of epidemic dysentery in this State."

Compared with May of last year, increases were registered in office, store, and school supplies, 21 per cent; florist shops 8 per cent; department stores, 7 per cent; apparel and general merchandise stores, 6 per cent; filling stations, 5 per cent; eating and drinking places, 4 per cent; food stores, 3 per cent; and drug stores, 1 per cent.

Get a Real Truck!

COMPARE—AND YOU'LL CHOOSE GMC!

TRUCK BUYER'S GUIDE

1/2 TO 2 TONS

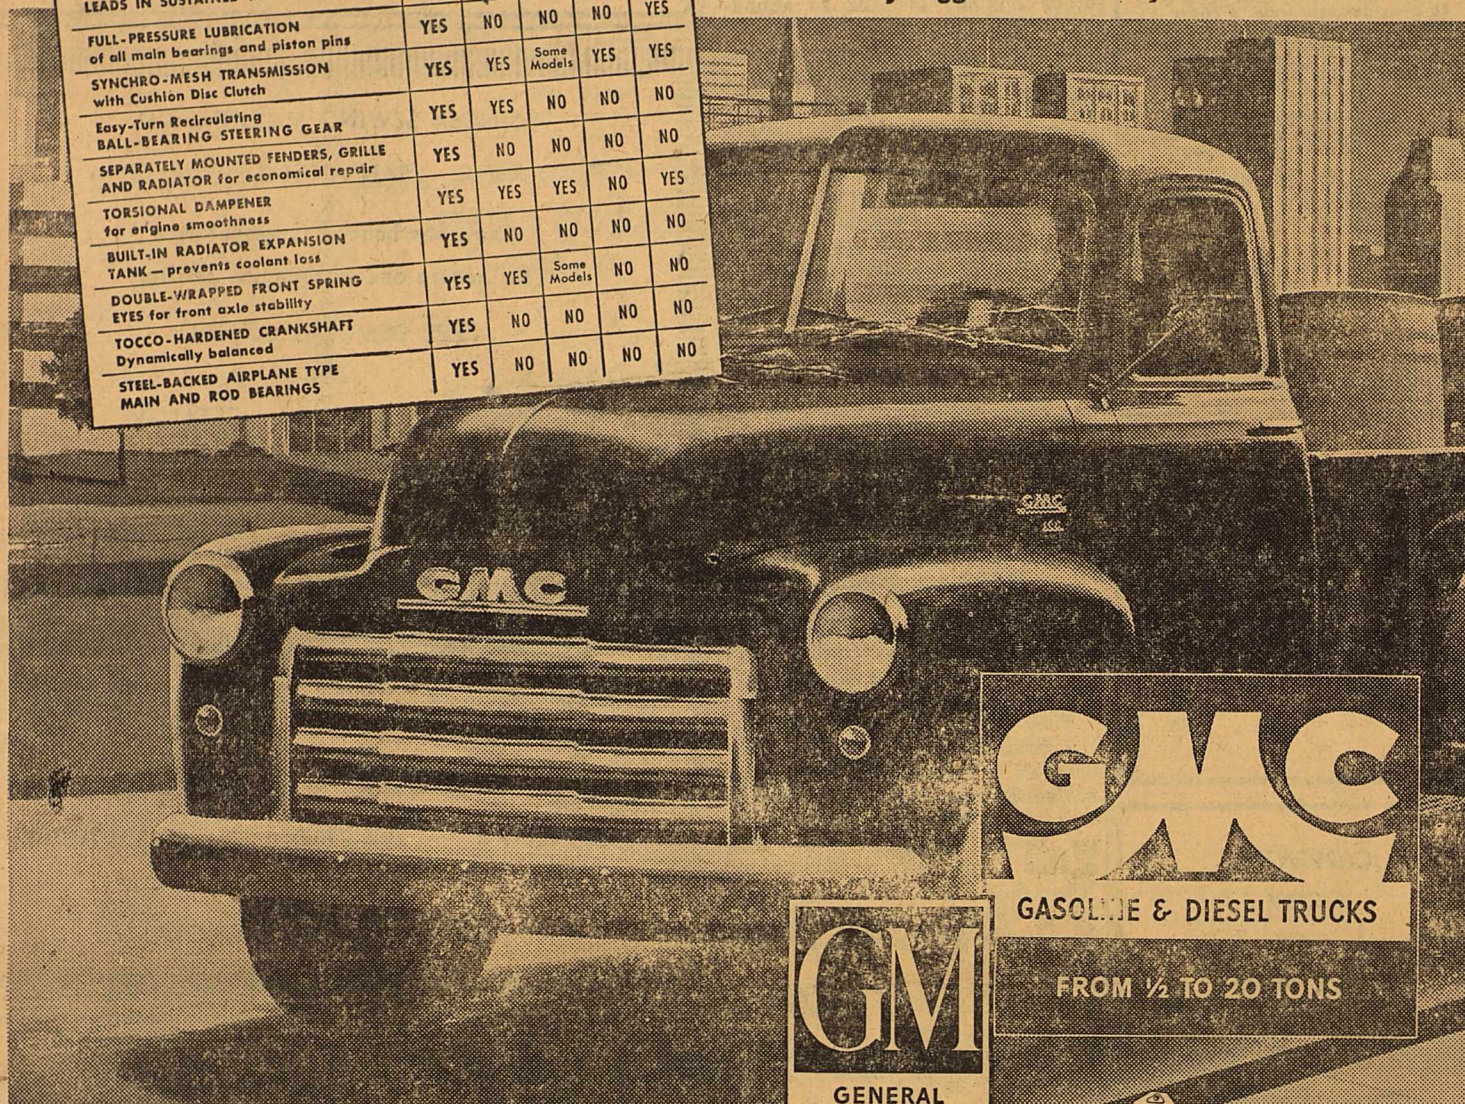

How leading makes of trucks compare in twelve major features that insure greater dependability, longer life and lower maintenance.

FEATURES	GMC TRUCK	TRUCK "A"	TRUCK "B"	TRUCK "C"	TRUCK "D"
Power and efficiency of VALVE-IN-HEAD ENGINE	YES	YES	NO	NO	YES
LEADS IN NET HORSEPOWER	YES	YES	NO	NO	YES
LEADS IN SUSTAINED TORQUE	YES	NO	NO	NO	NO
FULL-PRESSURE LUBRICATION of all main bearings and piston pins	YES	NO	NO	NO	YES
SYNCHRO-MESH TRANSMISSION with Cushion Disc Clutch	YES	YES	Some Models	YES	YES
Easy-Turn Reduculating BALL-BEARING STEERING GEAR	YES	YES	NO	NO	NO
SEPARATELY MOUNTED FENDERS, GRILLE AND RADIATOR for economical repair	YES	NO	NO	NO	YES
TORSIONAL DAMPENER for engine smoothness	YES	YES	YES	NO	YES
BUILT-IN RADIATOR EXPANSION TANK—prevents coolant loss	YES	NO	NO	NO	NO
DOUBLE-WRAPPED FRONT SPRING EYES for front axle stability	YES	YES	Some Models	NO	NO
TOCCO-HARDENED CRANKSHAFT Dynamically balanced	YES	NO	NO	NO	NO
STEEL-BACKED AIRPLANE TYPE MAIN AND ROD BEARINGS	YES	NO	NO	NO	NO

LISTED here are twelve mighty important engineering and construction features that insure long life and low maintenance in a truck. Only truck-built GMC's give you *all twelve!* No other make offers more than *six*—some only *one or two!*

Don't be fooled by claims—look underneath the paint. If you want a real truck that will give you most miles per dollar, use this check list to measure up truck values. Remember, all these extra-mileage features are standard equipment on a GMC—there's no extra charge for them.

You can carry bigger loads safely on a truck-built GMC.

Unless the soil where corn was planted this spring was supplied with plenty of nitrogen, yields will be low. The situation can be corrected through the use of a nitrate fertilizer applied now as a side dressing. Two hundred pounds per acre of ammonium nitrate or 300 pounds of sulphate of ammonia will balance the 200 to 300 pounds of 4-12-4 of 5-10-5 that was applied before the corn was planted.

Chevrolet trucks give you
more powerful performance,
thriftier operation

You can expect great things of these new Chevrolet trucks. They're the most powerful trucks Chevrolet has ever built, yet they cost surprisingly little to operate. Two rugged, wonder-working Valve-in-Head engines—the Thriftmaster 92-h.p. and the new Loadmaster 105-h.p.—bring you performance that saves you time and money. New Power-Jet carburetion provides smooth, quick acceleration, and the 4-speed Synchro-Mesh transmission in heavy-duty models means faster shifting and greater safety on the grades. To you, this means wonderful new performance . . . less time on the road . . . less time in the haul. So do yourself a favor. Visit our showroom today. Chevrolet trucks have what you want!

The INVISIBLE MR. SMITH

John Smith passed away last year. All of his friends were extremely concerned about his wife and children since Mr. Smith had purchased a home just a year before his death. But Mary Smith had no fear of mortgages—her husband had the foresight to provide insurance to cover the mortgage on their home. For a yearly premium of less than 1% of the mortgage Mr. Smith made sure his wife and children would never be homeless.

The ANICO Mortgage Cancellation policy can be adapted to fit every home-owner's need.

Our WASHINGTON Letter

By Congressman
O. C. FISHER

BRUSH ERADICATION was talked about last week when Clayton Puckett of Ft. Stockton and Horace Fawcett of Del Rio came to Washington to describe to Agriculture officials one of the southwest's fastest developing problems.

What they were pleading for was more research in better and more economic methods of killing mesquite, cedar, shinnery and other noxious brush so abundant in our part of the country.

Already some research progress along this line has been made but much remains to be done, and Assistant Secretary of Agriculture Knox T. Hutchinson assured us ways and means of doing more about it will be undertaken.

Fawcett and Puckett, two of our State's top soil conservationists, painted a brushy picture to Hutchinson. There are now 55 million Texas acres in mesquite, they reminded; 18 million in cedar, 16 million in creosote bush, etc. "The amount of mesquite on my ranch has more than doubled in 15 years," Puckett stated, "and the growth everywhere is appalling."

FORTY-FOUR YEARS is a mighty long time for two brothers to be separated and never see each other. But that nearly half-century span came to an end the other day for Editor Bill Gaines, of the Del Rio Times-Herald, and his brother, E. J., a printer, living in New York City.

They met in Richmond, Va., for the first time since parting company as young men in 1906. Both native Texans, their paths parted when they saw some of the country before settling down. "Bill roamed around on one side of the Mississippi while I did my roaming on the other side," reminisced the brother who finally settled in the Big City.

The Gaines brothers, accompanied by their wives, visited the widow and children of a deceased brother who settled in Richmond many years ago.

SOIL CONSERVATIONISTS in the middle Colorado river area got a boost last week by a House Public Works sub-committee which adopted my resolution to authorize a re-survey of the watershed with the view of adding other water retardation measures to the present elaborate conservation program under way there.

The 7,000-square mile Middle Colorado River Watershed project was created by Congress in 1944, following a careful survey by soil conservation engineers. It provided for plans for retardation of waterflow and the prevention of erosion by the treatment and improved management of cropland, pasture, and woodland.

The coverage includes the watersheds of Pecan Bayou, Brady Creek, San Saba River, and the area draining into the Colorado River between its confluence with the Concho River and the mouth of Pecan Bayou.

SAN ANGELO, TEXAS

Beer of the Year!

"Finest
JAX
Ever
Brewed!"

JAX DISTRIBUTING CO.
R. A. Magill - Box 509
SAN ANGELO, TEXAS

Jackson Brewing Company, New Orleans

This vast conservation program was estimated to cost \$2.6 million when the project was set up, aside from local aid having an estimated value of \$667,000. Since then costs have gone up.

In his report to the committee recommending adoption of my resolution calling for a further review and resurvey, the Secretary of Agriculture said that the program got started in 1947 and that much good has already resulted. But he said experience indicated the need for additional types of measures not included in the original program but needed now to provide further alleviation of flood damage.

A CONSIDERABLE AREA is involved in this project—one of the first of its type ever authorized by Act of Congress. Centering in Coleman County, it includes 17 percent of the entire drainage basin of the Colorado River of Texas. Conservationists such as R. G. Hollingsworth, San Cooper and Leroy Stockard, of Coleman, have spearheaded the local support of this watershed development.

The U. S. Soil Conservation Services supervises the planning in the area, and the works serve to implement the conservation practices carried on by the local soil conservation districts.

FUNERAL SERVICES FOR LOCAL WOMAN IN PALESTINE SATURDAY

Mrs. Grace Mae LeVinson, 48, who had lived here for the past few months, died in a San Angelo hospital at 6:05 o'clock Wednesday evening.

Mrs. LeVinson was born May 14, 1902 at Elkhart. Her husband, Arthur, is working with the construction company on the Lillian M. Hudspeth Memorial Hospital. They lived in San Antonio prior to moving to Sonora.

Services will be held at 10 o'clock Saturday morning in Palestine, a few miles from Elkhart where burial is to be made. The body was sent to Palestine Thursday night.

She is survived by her husband; one son, Tom Arnold of Houston; one daughter, Mrs. Jane Jetton of Baytown; and a sister, Mrs. W. A. Blair of Harlingen.

FOUND: Man's gold wedding band outside Elementary School cafeteria following Lions Club banquet Tuesday night. Identify at News office and pay for this adv. or have plenty explaining to do when wife finds out. 1tc36

What's going on in Sonora

AROUND THE TOWN—

Most popular "popular" juke box records in Sonora this week are "I Almost Lost My Mind," "It Isn't Fair," and "Sentimental Me," while the most popular "western" records are "I'll Sail My Ship Alone," "Mississippi," and "Why Don't You Love Me?" Gomer Minnick will teach at the Texas A&M Firemen's Training School July 10-14 Betty Ann Patrick, daughter of Mr. and Mrs. Lee Patrick, was named mascot of the State Firemen's Association Auxiliary at the Wichita Falls state convention last week George Hamilton was taken to a San Angelo hospital Wednesday following an appendicitis attack, but was released Thursday Mrs. George D. Chalk was admitted to a San Angelo hospital Wednesday for treatment Mrs. Lamar Fuqua and children, Kenneth, Donald, Steve and Kay, are visiting her mother, Mrs. J. A. Holt in Tenaha and relatives in Galveston and Dallas On his recent visit to San Diego, Calif., Norris Loeffler was surprised to

hear the local radio station carry the story of the Lions Club barbecue at the new dumpground Joe Logan, new president of the Lions Club, is recovering from a recent illness Logan, S. M. Kerbow and Joe Berger and their wives recently attended the Lions Club district convention in Eagle Pass. Mr. and Mrs. Berger took a side trip to Monterrey Robbie Creagh ran into Mr. and Mrs. Seg Arno, of Hollywood, here last week. Creagh danced with Mrs. Arno in the early talkie days at MGM. Arno is a Shakespearean actor from Italy, who recently signed with MGM A last appeal is going out to persons in Sutton County who were not counted in the census. They are asked to send their names in to Ralph Trolinger, Census Bureau, Post Office Building, San Angelo Dayton Cain injured his right eye Tuesday when some paint thinner splashed in his face at the Highway Department warehouse Mr. and Mrs. R. S. Lowe returned to their home in Port Lavaca after a visit here with their son and family, Mr. and Mrs.

Shelly Lowe Mr. and Mrs. Libb Wallace left Wednesday for a ten-day trip to Wyoming to look at Hereford cattle Col. Roy P. Ward, brother of John and Rip Ward of Sonora, entered his last year of military service with the Air Force this week. Col. Ward, who was commanding officer at Avenger Field, Sweetwater, in 1944, was raised in Sutton County and ranched here. He entered the army as a flying cadet in 1931, when the hottest thing in the air was the wasp-shaped P-26 with a speed of about 150 mph. The Wards now live in Austin Tom Cooper, another former Sonora resident, now living in California, is here visiting his brother, Alfred and family Mrs. Clay Puckett and children, Mary and David, are visiting her parents, Mr. and Mrs. E. F. King, in Marfa Avon Flaniken of Amarillo was a guest of the George Barrows last week George D. Chalk spent a few days with Stanley Davis in McGregor Mrs. Vestel Askew is in Dallas attending a meeting of the Texas Dancing Masters' Association John Stanley Hamby returned home Wednesday from San Angelo, where he underwent an operation.

COURTHOUSE NEWS—

John Fish sold an undivided 1/8 interest in 702 acres near the new oil well in west Kimble County to Fred T. Hogan, and a 1/7 interest in the same plot to Otis Meredith. Meredith then sold a 1/56 interest, or a 1/8 interest in his 1/7 interest to Kennon Stapp and Ramsey Randolph. Aldie Garrett sold an undivided 1/8 interest in 640 acres to J. K. Davis, who drilled the Faulkner well. Tests showed the well to flow about 350 barrels per day. Divorces granted in court Thursday included Henry Dial Mercer from Edna Lee Mercer, Mrs. Della Merriman from J. M. Merriman, and Mrs. Beatrice Fuentes from Victor Fuentes.

Robert Halbert sold seven bull calves to W. M. Riggs at \$400 each, delivery September 1. Last week Halbert sold three calves in Fort Worth at 28 cents per pound, nine cows at 22½ cents, three cows at 21 cents and three bad-eyed cows at 19½ cents.

CHAMBER COMMERCE DEPT.—

From Bartlettville, Oklahoma, drive-in theatre manager Phil Hays writes:

"Dear Sir: We are in the process of placing a few small animals such as squirrels, owls, monkeys, etc., in our Drive In Theatre for the amusement of the small children.

"Once upon a time I spent a number of days hunting and fishing in and around Sonora, and noticed that there were a number of armadillos in your vicinity. We feel that these armadillos, added to our collection, would be quite an attraction for the children of Bartlettville. Inasmuch as this little animal runs wild or is common in your territory, we would like for you to arrange to send us a couple of these animals. In return, we will place in the cage, credit to your community, in that they were donated to us by the city of Sonora, "Deep In The Heart of Texas," "The Sportsman's Paradise," or any other wording that you desire."

So if someone will bring in a few armadillos, the News will ship same to Mr. Hays.

WAR AND TIRES—

A slight surge in auto and truck tire sales was noted here, due mostly to the undeclared war with Russia in Korea. The Sonora Motor Company reports no in-

crease in local demand, but that out-of-town dealers have been buying some tires Fuqua Chevrolet Co. reports strong demand for tires and pickup trucks Lyles and Rape reports that General Tire Co. has called in all large-sized truck and tractor tires Elliott Motor Co. and Home Hardware and Furniture have noted no increase in the demand.

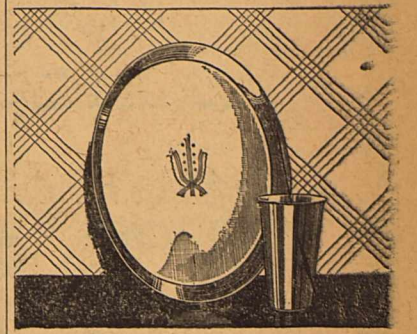

ATTENTION: Many men and women are being held back in establishing. Let us put you in business supplying customers with Rawleigh Products in the town of Sonora. No capital needed to start. Write Rawleigh's, Dept. TXE - 1730 - 272, Memphis Tenn. 5tc33

WANTED—YOUR VOTE In 1920 the United States Supreme Court said, "THE POWER TO TAX CARRIES WITH IT THE POWER TO EMBARRASS AND DESTROY."

If you're tired of hearing, "BOYS LET'S TAX 'EM," Remember, dear friend, This wise old maxim, "IF TAKEN IN TIME ONE STITCH SAVES NINE" And go down the line For HERB "ANTWINE." Elect me for your STATE REPRESENTATIVE District 86 THANK YOU !!! HERBERT J. ANTOINE Kerrville, Texas

FIGHTING EDITOR

CHRISTOPHER, ILL.—The campaign of Victor C. Leiker, 33-year-old editor of the weekly Christopher Progress here, against irregularities in relief administration has brought gratifying results. Four townships were notified they will lose their state grants of more than \$60,000 a month unless they show evidence that the irregularities have been cleared up. Leiker pressed his campaign against boss rule despite the loss of substantial advertising accounts.

Shrine Temple Chartered In San Angelo

San Angelo has been granted a Shrine Temple charter at a recent national Shrine Convention in Los Angeles. The first ceremonial to initiate candidates into Suez Temple, the new designation for San Angelo, will be held in the fall of this year.

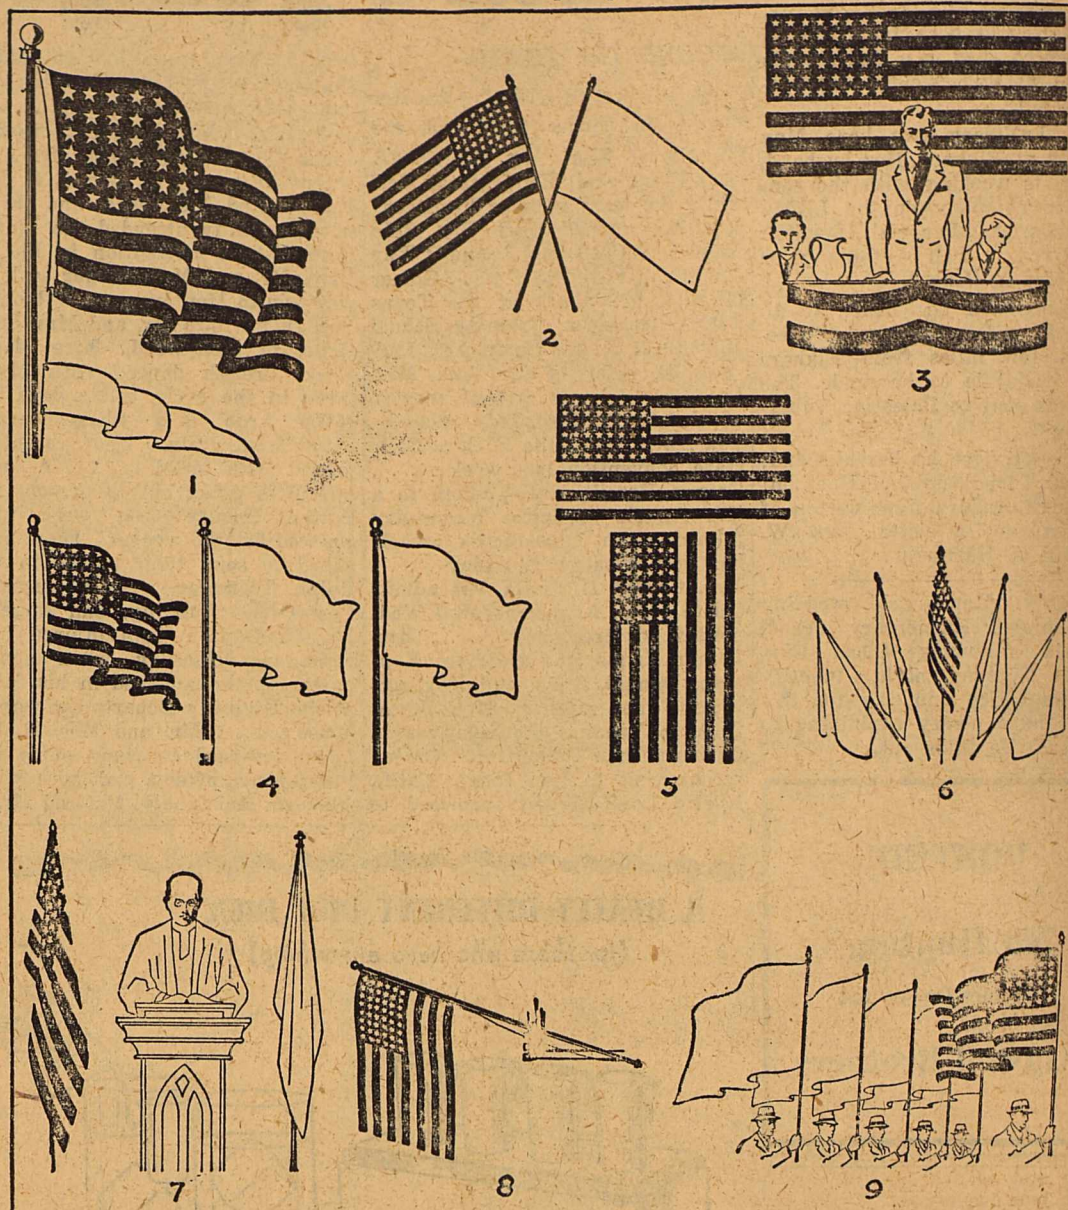

Officers of the organization, just back from the national convention, said the fall ceremonial will provide charter membership for hundreds of West Texans who are in the jurisdiction of the new temple.

Jurisdictional lines have been worked out with all Texas temples except El Maida of El Paso. A meeting of the officers of Suez and El Maida will be held in the near future to complete jurisdiction for Suez.

All nobles who signed the petition for a temple will be notified by the recorder of the date of the first business meeting. All shriners, who did not sign the petition, may apply for membership in the new Suez Temple within the next six months.

At least two ceremonials will be conducted in San Angelo each year along with several other activities including dances and other entertainment. The dispensa-

The Flag of the United States of America—How to Respect and Display It

1—When flags of states or cities or pennants of societies are flown on the same halyard with the flag of the United States of America, the latter should always be at the peak. When flown from adjacent staffs the flag of the United States should be hoisted first and lowered last.

2—When displayed with another flag against a wall from crossed staffs, the flag of the United States should be on the right (the flag's own right), and its staff should be in front of the staff of the other flag.

3—When used on a speaker's platform, whether indoors or out, the flag should never be reduced to the role of a mere decoration by being tied into knots or draped over the stand. For this purpose bunting should be used. The flag, if displayed, should be either on a staff or secured to the wall or back curtain behind the speaker with the union to the flag's right.

4—When flags of two or more nations are displayed together they should be flown from separate staffs of the same height and the flags should be of approximately equal size.

5—When the flag is displayed in a manner other than by being flown from a staff it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, that is, to the observer's left.

6—Whenever a number of flags of states or cities or pennants of societies are to be arranged in a group and displayed from staffs with the flag of the United States the latter should be placed at the center of that group and on a staff slightly higher than any of the others.

7—When the flag is displayed in the body of the church, it should be from a staff placed in the position of honor at the con-

gregation's right as they face the clergyman. The service flag, the state flag or other flag should be at the left of the congregation. If in the chancel or on the platform, the flag of the United States should be placed on the clergyman's right as he faces the congregation and the other flags at his left.

8—When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony or front of a building, the union of the flag should go to the peak of the staff (unless the flag is to be displayed at half-staff).

9—Whenever the flag of the United States is carried in a procession in company with other flags, it should occupy a position in front of the center of the line of flags or on the right of the marching line.

tion elevated the San Angelo Shrine Club to Suez Temple with province enjoyed now only by larger cities in Texas, including Fort Worth, El Paso, Houston, Waco, Amarillo and San Antonio.

THIS TASTES GOOD IN TEXAS

Congeeled Meat Salad

3 1/2 teaspoons gelatin

3 tablespoons cold water

1 cup hot broth from meat or poultry or canned consommé

1 cup chopped cooked meat or poultry

1/4 cup cooked or canned peas

2 tablespoons chopped celery

2 tablespoons sliced pimiento

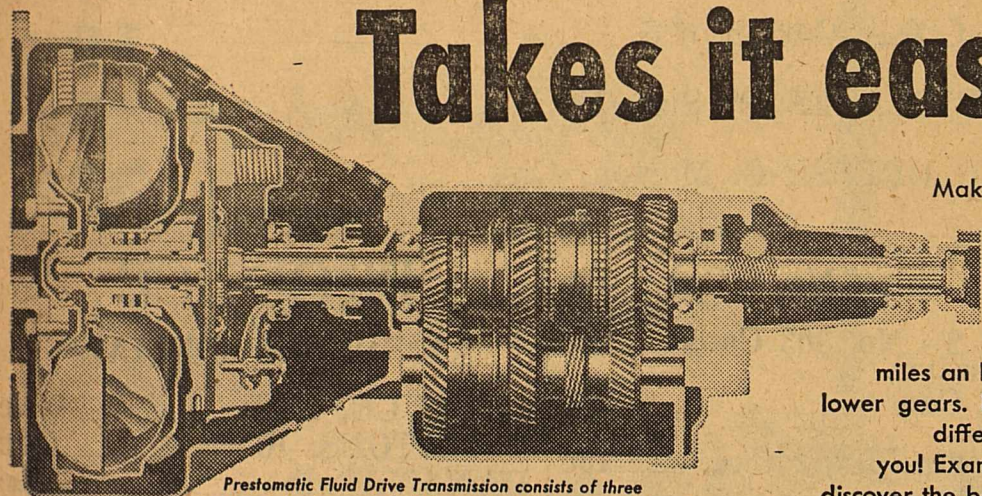

Salt to taste

1 tablespoon vinegar or lemon juice

1 teaspoon onion juice

Sprinkle gelatin on water and soak a few minutes. Dissolve in hot broth. Add onion juice, salt and vinegar or lemon juice and chill until thick enough to hold solid food in place. Stir in meat, peas, celery and pimiento. Pour into small loaf pan or individual molds and chill until firm.

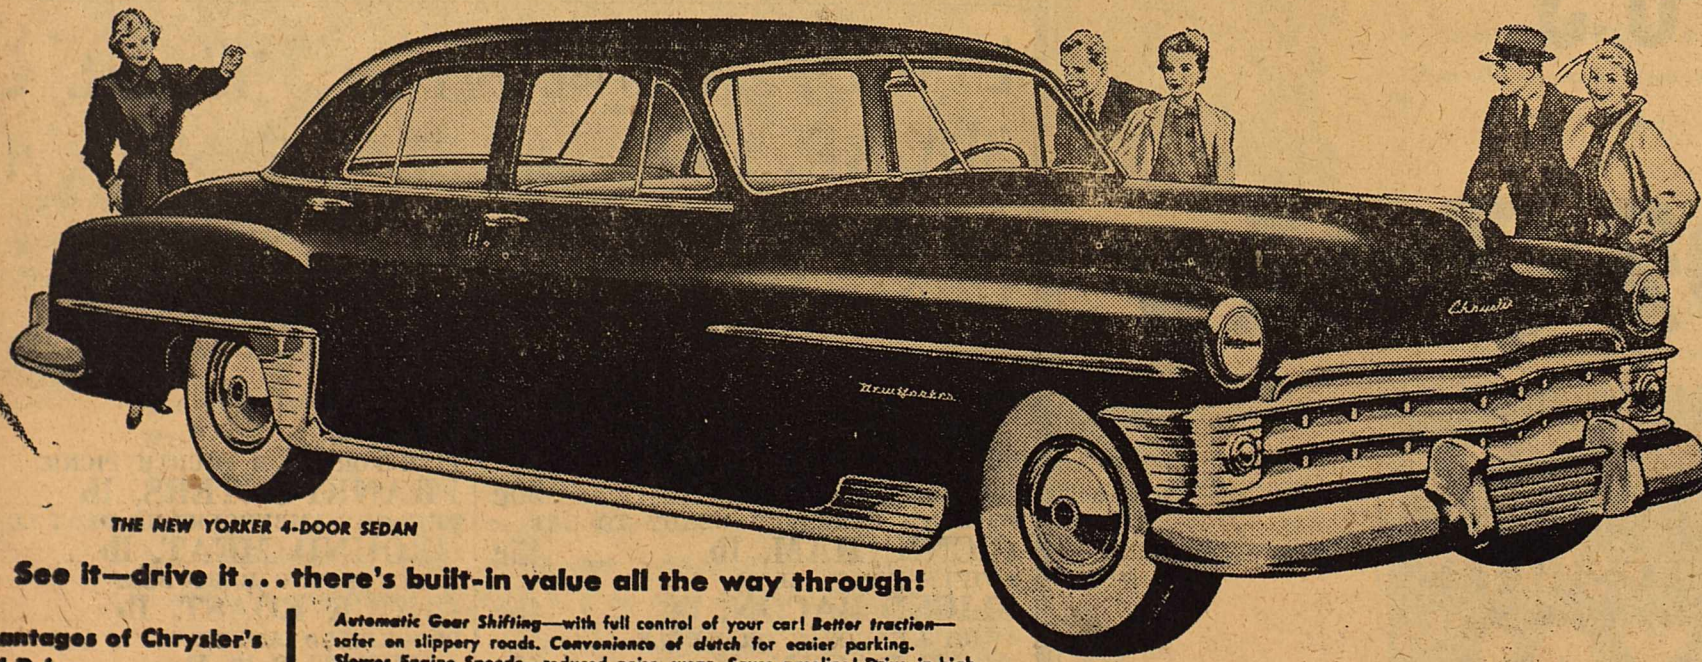

Takes it easy all the time!

Prestomatic Fluid Drive Transmission consists of three compact units . . . gyrol Fluid Drive, the Safety Clutch and Prestomatic Transmission. Each unit is designed with a minimum of moving parts, and each unit is ruggedly built to give trouble-free service for the lifetime of the car.

Make no mistake! Although most cars use the Fluid Drive principle that

Chrysler first introduced 12 years ago—there's an all-important difference in automatic gear shifting today! Chrysler and only Chrysler gives you full control of your car. While others shift you up and down—even when you don't want to shift—Chrysler's simple, cool-running transmission takes its orders from you. Even at 12 miles an hour, in slow moving traffic, you're in high while others shift down to lower gears. How much quieter your engine runs! How much more smoothly! What a difference in high-gear economy! Come see what Fluid Drive does for you! Examine Chrysler workmanship . . . compare the quality of materials . . . discover the benefits of Chrysler engineering! You'll find built-in value all the way through that has no equal! Extra money's worth, we're sure, that will make you a Chrysler buyer for life!

THE NEW YORKER 4-DOOR SEDAN

See it—drive it . . . there's built-in value all the way through!

Advantages of Chrysler's Fluid Drive

Automatic Gear Shifting—with full control of your car! Better traction—safer on slippery roads. Convenience of clutch for easier parking. Slower Engine Speeds—reduced noise, wear. Saves gasoline! Drive in high while others drive in low in traffic.

Advantages of Chrysler's High Compression Splitfire Engine!

Waterproof Ignition—prevents stalling in rain or high water! Lubricated Cylinder Walls—chemical protection for increased life. Floating Power—helps eliminate vibration. Superfinished Parts—reduce friction, last longer. Exhaust Valve Seat Inserts—reduce need for valve grinding! Full Flow Oil Filter—keeps oil clean!

Chrysler's Advantages in Comfort and Safety

Functional Design—full room for your head, legs, shoulders. Easy to enter and leave! Safe Guard Hydraulic Brakes—smoother stops, less pedal pressure. Cyclebonded linings for double the wear. Electrically Operated Windshield Wiper—constant speed all the time! Chair Height Seats—no crouching, you sit naturally! Safety Rim Wheels—won't throw tires after blowouts at normal speeds.

TALLEST BUILDING IN THE SOUTHWEST

One of the largest and finest office buildings ever erected in this country, shown above, will soon dominate the already impressive skyline of Dallas, the Southwest's great cosmopolitan city. The new Republic Bank Building, announced recently by Fred F. Florence, President of the Republic National Bank, will embody the most modern and advanced architecture, including every convenience possible for both customers of the Bank and tenants of the building. The tallest building in the Southwest, it will soar 440 feet in height. It will be the largest and most modern structure erected in the United States to include a garage and motor banking, together with banking quarters and office building. The main shaft of the building will rise 36 stories above the ground with an additional four stories below the street level. Its tower, extending some 160 feet further into the sky, will give the structure an overall height of 600 feet.

45 Years Ago

It's the time of year when the days are good and hot and when the people actively employed indoors should have shorter hours

instead of longer work days. The merchants are willing that the stores close early and they would be glad to do so if the customers would only come earlier. The same amount of business would be done and a lot of people given the opportunity of having a cooling spell before bed time. Try making your purchases before six o'clock and show the merchants you are

THE FAMED LIBERTY BELL replica draws together Chairman Fred F. Florence of the Texas Advertising Committee, U. S. Independence Savings Bond campaign (in dark suit with hand on bell on the right), and editorial and advertising executives of Texas newspapers, radio networks and outdoor advertising firms at a conference in Dallas to perfect plans for an intensive statewide program to push bond purchases. Chairman Florence, who is president of the Republic National Bank of Dallas and a business leader of the Southwest, emphasizes that "the savings bond campaign transcends politics and is a program in which patriotic citizens can work shoulder to shoulder, not only for personal financial independence, but for the preservation of our national freedom as well." Above, left to right, are: Martin Campbell, general manager of Radio Station WFAA at Dallas and an executive of the Texas Quality Network; W. A. Gibson, Jr., Fort Worth, president, Outdoor Advertising Committee of Texas; Mr. Florence, and Louis Goldberg, business manager of the American-Statesman, newspapers of Austin.

served Monday evening, Tuesday at 5:30 followed by the rodeo at noon and Tuesday evening. Dancing will be at the open air platform each evening.

It Says the Nicest Things
About You!

There are few stronger urges in the human breast than that which grows out of the desire to stand well among our fellow beings.

And around this great basic emotion lies much of the appeal of a Cadillac car.

Alight from your Cadillac anywhere you will, in the presence of people, and certain splendid deductions are immediately made about you.

It could not be otherwise—for the wonderful people who own this car have made it so. In every community in America, a preponderant proportion of the leading citizens have long since turned to Cadillac.

Out of this close association, the car has partaken of the character of its owners until it has now become their

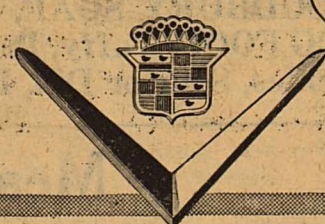

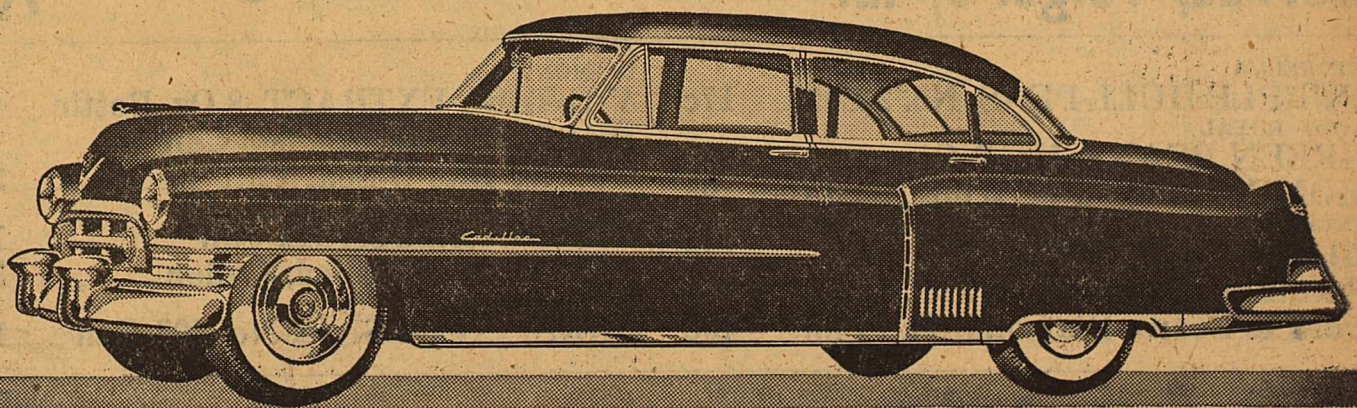

symbol. It is recognized throughout the world as the all but automatic companion to outstanding personal success.

The genesis of all this, of course, is quality. For almost fifty years, Cadillac cars have been built to the highest standards it is practical to enforce in the production of a motor car. And people of achievement and discernment have sought them out as water seeks its level.

Today, Cadillac stands uniquely alone in the things it reflects upon its owner. It all but writes his biography!

Have you thought of a Cadillac car for yourself? If so, why not come in and talk it over?

We think you'd be surprised and delighted at how easy and practical it has now become to join the wonderful people who own and drive this wonderful car.

Tax levies made by State and local governments in Texas totaled an average of 25.7 cents per acre in 1949. An increase of 3.3

cents per acre or 15 percent over the 1948 average in Texas. Indications are that the trend will likely continue upward on Texas farm and ranch real estate but at a slower rate.

CHOOSE

the college that knows what you want and need in higher education and will help you get it. That's San Angelo College. The College is the beauty spot of your own area's biggest city—a center for cultural, educational, recreational and religious activities, as well as a nerve center for trade and commerce. You will find it to your advantage to have your freshman and sophomore college years near home in the college that pleases your parents too.

San Angelo College

This 13 1/2-million dollar, coeducational, public Area College is fully accredited. This means that credits earned at San Angelo College are recognized at the leading colleges and universities. The curricula include fine arts, pre-professional and terminal courses. The entire plant is new and the 60-acre campus is most attractively landscaped. Twenty-two years of successful, effective, economical, higher education. Small classes. Personal attention. Write for catalogue and for reservation blanks in the College's new dormitories.

Don't try it,
lady!

No matter how hard you try—you can never push back the clock.

It's smarter to go along with it—and face the future—secure in the knowledge that you're preparing for it now.

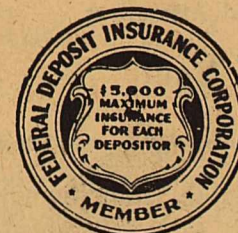

And the best way we know to prepare for a secure future is to save today. But save regularly, automatically. Save a safe, sure, easy way. The U. S. Savings Bonds way! It's as simple as this . . .

Just buy your U. S. Savings Bonds on the automatic Payroll Savings Plan at your place of business. Or . . .

If you're not on a payroll, buy them at your bank on the Bond-A-Month Plan.

Remember every \$30 you put into U. S. Savings Bonds today—will be worth \$40 in 10 years.

Automatic saving is sure saving—
