

Fallout Expected In Three To Five Days

By HARRY KELLY WASHINGTON (AP)—The Soviet Union's huge nuclear burst... fallout coming from all the current Soviet tests...

The shadow of Monday's 50-megaton explosion—the invisible cloud of radioactive fallout— began its wind-borne sweep around the world... U.S. Weather Bureau specialists said wind patterns indicate the immediate fallout was being carried southwestward from its point of detonation in the Soviet Arctic...

HIS BODY TO BE REMOVED—The body of Joseph Stalin, will be removed from its place beside Lenin in the big tomb in Moscow's Red Square...

Neutrals Pushing Test Ban Appeal

By TOM HOGE UNITED NATIONS, N.Y. (AP)—Misaligned members of the United Nations pushed today for action on an appeal to the nuclear powers to call a voluntary halt to all test explosion...

Both Western powers have insisted that the only effective step would be a test ban treaty with effective international controls... The Soviet Union has made clear it will abide by no moratorium until it has done all the testing it plans to do...

Hurricane Lashes British Honduras

MIAMI, Fla. (AP)—Giant hurricane Hattie smashed into British Honduras today, possibly inflicting a disaster on the capital city of Belize, and spread flood waters throughout the British crown colony and on deep into Guatemala... Miami Weather Bureau storm forecasters said Belize, a city of 31,000 population, may have suffered a disaster as a 15-foot tide pushed up by the hurricane blast...

"We look for a severe lashing." The hurricane, with winds reaching as high as 200 miles an hour in gusts, probably will spread flood waters throughout Guatemala and the Yucatan Peninsula before breaking up against interior mountain ranges... Hattie collided with a strengthening high pressure front and swung toward Central America after first threatening to move into Cuba and south Florida.

Front Brings Rainfall To Snyder Area

A sluggish cool front damped the Snyder area with showers Monday and today, and more damp weather was in prospect... Snyder had 31 of an inch of rain, and fog and light drizzle continued this morning...

Skies were partly cloudy to cloudy over the state. Patches of fog were also reported in the southern part of the state... Temperatures before dawn ranged from 43 degrees at Amarillo to 74 at Laredo and Galveston...

Aircraft Carrier Performs Perfectly

NEWPORT NEWS, Va. (AP)—The nuclear-powered aircraft carrier Enterprise performed perfectly in all respects during major power trials off the Virginia capes Monday, according to her builder... William B. Blewett Jr., head of the Newport News Shipbuilding and Dry Dock Co., flew home from the high-flattop shipyard that her performance was "even better than expectations."

Former Resident Dies In McKinney

Word has been received of the death of a former Snyder resident, Lershel Kirby, Kirby, about 63, died yesterday at the Veterans Hospital in McKinney... Kirby was an employee of Belger Funeral Home when he lived in Snyder. He was living in McKinney at the time of his death.

Big Blast Touched Off Anger Waves

By ANTHONY WHITE LONDON (AP)—Shock waves of anger and condemnation beat around the world today as a result of the Soviet Union's super-bomb blast... Anti-Soviet demonstrations were staged in Britain and Italy...

non-Communist world into covering surrender... The Soviet press and radio made no mention of Monday's big bomb blast, the most powerful ever set off by man... But Soviet Premier Khrushchev told a restricted meeting of the Soviet party congress in the Kremlin at its closing session Russia's big bomb was exploded Monday. He said it "proved somewhat bigger" than the 50 megatons that the scientists had calculated...

but we won't get angry with them for this... A hint that the tests were over was seen in a Moscow radio report that a convoy of transport ships and icebreakers was forming to leave the area of Novaya Zemlya, the arctic island site of the experiments believed to have culminated in an explosion of about 50 megatons... Seismographs in Sweden and Britain recorded a new shock wave today. A seismologist at the British Royal Observatory in England said the shock may have been from a 35- or 40-megaton nuclear device, but scientists at Sweden's Uppsala Observatory said it appeared to be a normal earth tremor...

Khrushchev Boasts Yield Above 50 Megatons

MOSCOW (AP)—Premier Khrushchev declared today the giant bomb exploded Monday exceeded the 50-megaton calculation of the scientists but "we won't get angry with them for this..." The statement was made in a brief speech at the closing session of the Communist party congress in the Kremlin... The first announcement, in Russia that the bomb had been exploded, and even then it was made first only to a restricted session of the congress...

megatons, but we won't get angry with them for this... The announcement brought a storm of applause, of cheering and some laughter from the congress... Khrushchev quickly calmed the delegates with a warning that to achieve the program "we will need work, work and only work..." The statement was made to the full membership of 4,500, with no Western foreign correspondents present... Earlier in the brief concluding session, Ekaterina Fortseva, only woman member, was dropped from the Presidium, ruling group of the party...

Officers In Frisco Hunt For Firebug

SAN FRANCISCO (AP)—A firebug, described by one witness as a pimply faced, giggling 6-footer, led a fiery trail through downtown San Francisco Monday night and early today... Police and fire officials pressed a search for the arsonist, who, after setting fires in nine leading hotels, moved into another downtown district and set several more fires in trash piles... Most of the blazes were extinguished before they did any serious damage...

Independents Chart Aims On Imports

By MAX R. SKELTON HOUSTON (AP)—Independent oil operators were to chart their objectives on oil imports and natural gas price controls today... The Independent Petroleum Association of America was expected to take these actions: 1. Renew a request that oil imports be reduced at least 200,000 barrels a day... 2. Call for an early congressional hearing on the Harris Bill (H.R. 7575) which would remove utility-price controls from wellhead gas prices...

Interior Secretary Stewart L. Udall gave the independent some hope Monday that oil imports will be reduced... Udall, in a letter to Hope, said he has recommended a reduction for 1962. Details were not given, but Udall said the recommendation was being reviewed by other federal agencies involved... Udall has indicated the 1962 quotas for the mandatory oil imports controls program will be announced next month... Hope, whose two-year term ends Jan. 1, recommended on Sunday that IPAA retain its request for a 200,000-barrel-a-day cut until the 1962 quotas are published and can be analyzed...

Reds Claim U. S. Spied

MOSCOW (AP)—The Soviet Defense Ministry complained today that U.S. planes and ships spied intensively on the just-completed series of Soviet rocket shots into the Pacific... The ministry's paper, Red Star, quoted the commander of the Soviet observation fleet as saying: "U.S. ships and planes did not leave the target area and the Soviet ships in peace, even for a single moment..." "U.S. aviation daily buzzed Soviet ships, flying dangerously low. These planes flew virtually a few inches above our aerials..."

Rayburn Is Taken Home

DALLAS (AP)—Wan, cancer-ridden House Speaker Sam Rayburn left a Dallas hospital today and his days at his home town of Bonham... A black ambulance, its interior closed in by pastel-shaded green curtains, left Baylor Hospital at 10:48 a. m. for the North Texas city 60 miles northeast of here... Rayburn was brought from his room on a stretcher. His eyes were closed and a towel was hooded around his head... The ambulance had drawn up to the maternity entrance of the hospital. Three mothers in wheelchairs watched Rayburn, 79, as he left the hospital where he has been under treatment since Oct. 2... A statement from the family said Rayburn was being taken to Bonham to be with "those friends and neighbors who for so long have given me a love and loyalty unsurpassed in any annals..."

SATURDAY
Delta Kappa Gamma regional meeting at Sweetwater.
SUNDAY
Sunday luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 5 p.m. Saturday.

Mr. Roy To Create Ocean Mary

AP Women's Editor
HENNIKER, N.H. (AP) — Legend has it she was 6 feet tall with red hair and green eyes—a striking Irish beauty who set hearts aflutter in the mid-18th century.
Not many people have seen her lately, and since there are no known pictures Louis Maurice Auguste Roy is having a medium from East Weymouth, Mass. come to his home to try to get a good look.
From the medium's description he'll paint her portrait and, as he says, put it in "Who can say she doesn't look like that?"
L. M. A. Roy, the understandingly prefers initials) uses the present tense in referring to Ocean Mary, an original occupant of the house he has lived in more than 40 years. To him she is not just a colorful legend and someone ghost, nor merely a source of dimes and quarters that trickle from tourists' noses that the old Georgian mansion is a landmark on the New Hampshire map. She is a benign spirit keeping him from injury, because he is taking care of the house she loved.
His mother, who died at 90 in 1949, said Mary three times, he says, but he never has. Since her death he has lived alone, "never having found the right girl to marry."
Now nearing 79 and deafest on reaching 100, Roy is a small, supple man who can still do handstands. His blue eyes sparkle as he pads about in sneakers plying visitors with tales of pirates, buried treasure, and of course, ocean born Mary.
She was born at sea in 1720 to the wife of the sea captain bringing a party of Scotch-Irish immigrants from Ireland to New Hampshire. Not far from Boston Harbor a pirate crew boarded, and threatened all with death. But the pirate chief, a Captain Podge who turned out to be a sentimental sort, spared their lives when it was promised the newborn baby would be named Mary after his mother. He presented her with a bolt of greenish-blue brocaded silk, which he said he hoped would be made into her wedding gown.

First Aid Course Set For Nov.

The Martha Ann Woman's Club will open their November activities Thursday evening with a "First Aid" course, conducted by Mr. R. J. Walker.
This is another of the free activity programs offered members by the club. The theme for November is "Introduction To First Aid" and is for couples. Casual dress has been announced by the director.
The course will cover the six emergencies of first aid: 1. Act that can kill. 2. Artificial respiration. 3. Control of shock and treatment. 4. Control of bleeding. 5. Care of wounds and burns. 6. Treatment of dislocations and fractures, and transportation.
This course will benefit all participating and will enable persons to know what to do and how to act in an emergency. It is something that could also save the life of one self or his/her family when it is least expected.

School Menu

WEDNESDAY

All Saints' Day To Be Celebrated
St. John's Episcopal Church will celebrate All Saints' Day tomorrow with Holy Communion at 7:30 p.m. The Rev. Custis Fletcher, vicar, will be the celebrant.
All Saints' Day is one of the major festivals of the church.
"No long-time Episcopalian fails to rank this celebration as a day to attend church services with the same sense of love and obligation as is felt on Easter, Christmas, Ascension Day, etc.," said Rev. Fletcher.

IKE STANDS BESIDE CANDIDATE—As he spoke to a crowd who were lined up on the sidewalk in front of the public candidate for congress John Goode, Eisenhower came to San Antonio to aid Goode in his campaign for the congressional seat formerly held by Rep. Paul Kilgory, who resigned to take a post on the U.S. Court of Military Appeals. (AP Wirephoto)

Ike Buoy Party Hopefuls In Texas

By JOE BENHAM
SAN ANTONIO, Tex. (AP)—Former President Dwight D. Eisenhower says the United States needs leadership "which would never belittle the United States" and "never extends a welcome to such an outlaw as Red China."
"I am sure that I voice the determination of all — regardless of party — in saying that we will stand by the President as he devotes his energies to defying the international bullies and protecting American rights and liberties," Eisenhower said in a speech Monday night.
The speech climaxed a series of appearances by Eisenhower in behalf of a Republican congressional candidate.
Among other things, the ex-president (1) defended the sale of F86 jet fighters to Yugoslavia, saying the planes were obsolete; (2) said the United States has no choice except to test atomic weapons; (3) said the "one-party (Democratic) system is a calamity for the South," and (4) criticized big government with its "indiscriminate federal handouts" and "spendthrift programs."

In his speech to a crowd of 5,000, Eisenhower drew on the loudest of frequent cheers when he called for "the kind of leadership which would never belittle the United States and thus dismay our friends and hearten our enemies, that stands steadfastly to all international councils for principle and right, and never extends a welcome to such an outlaw as Red China."
Eisenhower said reports that the earth's atmosphere is being "seriously exaggerated" are "I decided about three years ago that the United States would not resume testing in the atmosphere," he told a news conference, "but I said that this would go until we found out about the Soviet readiness to reach an agreement."
He said the Soviet attitude leaves the United States "no choice but to test."
Republican leaders were jubilant over Eisenhower's appearance in behalf of John W. Goode, the lone Republican in Saturday's special congressional election.
Goode, 36, and four Democrats seek the seat from which Democrat Paul Kilgory resigned last month to become a federal judge.
Goode's chief opponent is State Sen. Henry B. Gonzalez, 45, who has the backing of President Kennedy and Vice President Lyndon B. Johnson.

Daily Crude Flow Rises
TULSA, Okla. (AP)—Oil output in the United States rose 17,579 barrels per day last week, the Oil and Gas Journal reported today.
Crude oil and lease condensate production averaged 1,123,330 barrels per day last week, compared with 7,115,990 the previous week, the journal said.
The magazine reported Oklahoma dropped 1,300 barrels a day to 565,500.
Texas production averaged 3,977,000 barrels a day, Louisiana 1,184,325, and New Mexico 315,500.

Crop Surplus Costs Down, USDA Says
By OVID A. MARTIN
WASHINGTON (AP)—The Agriculture Department's new system of bookkeeping on crop surpluses showed today that it cost \$74,873,000 to carry out farm price support operations during July, or more than \$2 million a day.
The department asserted that this compared with \$150,328,000 in July last year under the Eisenhower administration. A year ago, the department had reported July losses at only \$17,424,000.
Under the old system, costs of handling, storage and transportation of surpluses in the government's hands were added to the inventory value of the commodities. The costs of handling did not show up until the commodities were finally disposed of.
Under the new system, which Secretary of Agriculture Orville Freeman ordered into effect in June, the handling costs—storage, transportation and the like—are not added to the inventory value of the surpluses, but are kept separate under the heading of losses. Thus, the department said, the estimate of losses of \$17,424,000 for July 1960 did not reflect handling charges.
The latest report showed that it cost the government \$36,936,000 to handle the surpluses in July—more than \$1 million a day.
On July 31, the department had \$1,614,796,000 invested in price support loans on commodities.

USCC Head Cites Conservative Trend
HOUSTON (AP)—The president of the U.S. Chamber of Commerce said today a definite trend back toward conservatism is developing.
"It seems more evident all over the South and in communities of moderate size and in rural areas of the North," said Richard Wagner of Chicago.
"If we are to defeat the un-economic concepts bringing this nation toward 'centralism' it will be done through the people in such areas," he said.
Wagner, chairman of the executive committee of Champlin Oil & Refining Co., spoke to the Independent Petroleum Association of America.

French Settlers Cheer Bombings

By ANDREW BOROWICZ
ALGIERS (AP)—French settlers cheered excitedly Monday night as their underground army exploded a record number of plastic bombs in Algiers. Two Algerians were killed and 16 others injured.
More than 80 plastic bombs went off, and Europeans greeted each blast with cries of joy from their balconies. It was the biggest number ever set off in the Algerian capital in one evening.
The bombs were planted by the Secret Army Organization, of right-wing French settlers which is trying to whip up another uprising against President Charles de Gaulle and his plans to give Algeria independence. No arrests were reported.
A few hours earlier machinegun bullets, apparently fired from a moving car, killed Louis Pelissier, a French police commissioner. He was the fourth police official slain in Oran, kidnapers apparently French—seized a 21-year-old Algerian and left him in the woods with serious knife wounds. A Secret Army radio broadcast came on the air in Oran after transmission cables of the French television station were cut by one bomb blast. A message in Arabic over the wavelength of the television voice band called on Moslems to stay off the streets Wednesday, the seventh anniversary of the Algerian rebellion. The upsurge of terrorism added to the worries of officials already jittery over the possibility of a blood bath. The rebel National Liberation Front (FLN) has called for the Moslems to demonstrate in an effort to speed up the resumption of peace and independence negotiations between the French and the FLN.
Premier Michel Debre conferred in Paris with Interior Minister Roger Frey about steps to counter FLN demonstrations in France. The rebel command called for "grandiose and peaceful" parades despite a government ban on all demonstrations both in France and Algeria.
Jean Marin, chief government representative in Algeria, and Gen. Charles Ailletet, the military commander, flew to Constantine for a look at the situation in that east Algerian FLN stronghold.

Lone Woman Dropped By Ruling Group
MOSCOW (AP)—Ekaterina Furtseva, only woman member of the Presidium, was dropped from this ruling group of the Communist party in voting made public today.
There was no explanation. She presumably retains her job in the government as minister of culture.
Premier Khrushchev was re-elected the party's first secretary. Also dropped from the Presidium were Nuritdin Mukhitdin, only representative of the Asian peoples in the U.S.S.R., and Leonid I. Brezhnev, first secretary of the Ukrainian Communist party; D. S. Polyansky, the Russian Republic premier; party secretary Mikhail A. Suslov; and N. M. Shvernik, chairman of the party's Control Commission.
One new man was chosen to the Presidium: Gennabi Ivanovich Voronov, a young agricultural expert who has been mentioned as working at Khrushchev's right hand.
Selection of party officers was the final act of the 22nd Soviet Communist party congress, which then adjourned. It had been meeting in the Kremlin since Oct. 17.

Fallout Measured At 80 Stations
NEW YORK (AP)—Abraham Ribicoff, secretary of Health, Education and Welfare, says the U.S. Public Health Service is measuring radioactive fallout in foods and in the air at more than 80 sampling stations across the nation.
Speaking here Monday Ribicoff said: "The major problem is, of course, how this (fallout) may affect our health and the health of our children and grandchildren."
"To help answer this question, the service has set up a system of sampling and measuring the air we breathe, the food we eat, and the water and milk we drink."
The Naval Observatory in Washington is the nation's official timekeeper. The navy got into timekeeping because navigators require accurate measurements of time, so they could fix the position of the stars at any given instant.

RECORD IS SET BY SNYDER DRUGS
R. E. Patterson, owner and operator of Snyder Drugs, reports that yesterday was the largest dollar volume for a sale day in the store's history. Snyder Drugs is currently conducting their 18th Anniversary Sale.
If you like figures, try these. Yesterday Snyder Drugs sold 155 cases of chewing gum. That figures out to 15,500 sticks of gum, or a chew for everybody in Snyder and then some.
Snyderites are well stocked on Kleenex too. A total of 391 large boxes left the store yesterday, and that figures out to 392,400 tissues.
The sale lasts through Nov. 6. Patterson assured everyone that every effort will be made to keep stocks ample.

4 Children Die In Fire At Stamford

STAMFORD, Tex. (AP)—Four small children burned to death late Monday night when fire of undetermined origin swept their home just outside this West Texas town.
The victims were Willie Ray Fields, 9; Ruth Fields, 6; Gwendolyn Fields, 5; and Carolyn Fields, 4.
Their mother, Mrs. Georgia Mae Fields and a 3-year-old son, Clarence, were seriously burned but were reported in a satisfactory condition early today at a Stamford hospital.
A member of the Stamford police department who helped investigate the fire said he was told that Mrs. Fields was separated from her husband, whose residence was not known.
The six-room frame home of the Negro family was engulfed in flames when firefighters arrived at the scene. They were handicapped in pulling the fire as the home was outside the city limits and a mile from the nearest fire station.
The children's grandfather, Will Whitfield, said he was awakened by a child screaming and found the house in flames. He broke a window and told Willie Ray to follow him. Whitfield went out of the window but the boy, apparently confused, ran into another room. Whitfield re-entered the house through the front door and managed to pull Mrs. Fields and the 5-year-old to safety but could not reach the other children.

Tiger Mentor Lauds Overall Team Effort

"It was about as good a team effort as I've ever seen from a group of boys anywhere," Tiger coach Horace Bostick stated to Quarterback Club members here last night in summing up his team's smashing 28-8 victory over Sweetwater.

He addressed what was possibly the largest turnout of club members the season through, who braved fog and drizzle in order to attend the meeting.

Club business included recognition of the club's linemen and back of the week by Jack Bosden, with guard Bill Weaver and halfback Rex Callaway being the duo so honored. The awards are presented by the Quarterback Club weekly. The recipients being chosen by their own teammates following the game of the immediate past Friday.

Travis 7th coach Bob O'Day announced that his game which had been played in Colorado City this morning had been moved back to Thursday when he will play there for 5:30 p.m. battle.

Coach Ace Amos reported on the district aspects of Friday's contest for the Colorado City Wolves - whom the Tigers will tackle this Friday in C-City beginning at 7:30.

His comments, along with those of coach J. P. Ward, centered around observations as gained Friday during Lake View's 31-8 tripping of the Wolfpack.

"Up until late in the first half they had really been clobbering Lake View," he advanced, "but it looked as though they sort of gave up there in the second-half after they got behind."

He recalled the situation as existed, recalling that the game was a scoreless deadlock until late in the half, when a fourth- and-two gamble by Colorado City on its own 20 fizzled, so that Lake View took over and punched over an "easy" touchdown to take the lead. Another quick TD prior to the half tipped the count to 13-0, and from there Lake View seemed to have the Wolves "on the run" throughout the remainder of the contest.

"They run into the right side of the line almost exclusively," Amos itemized, "no matter where the ball is situated. They set 'strong left' only four times against Lake View," he added, "and passed all four of those times."

He further stipulated that the Wolves cater to finding their fullback - Ken Northcutt, a 170-pounder - up the middle and around the ends fairly regularly. He concluded his remarks with the observation that the Wolves' passing "didn't look too sharp, especially on deep passes."

Ward opened his defensive rundown by saying that the majority of the Colorado City players go "both ways," both offense and defense.

"They normally operate from a 6-3 line, and Ward warned that

they "looked good on everything" even to the point of outplaying Lake View until the fatal gamble late in the half backfired. He also brought out that "they aren't real big on defense except for their two middle guards, who weigh 212 and 206."

Their primary weakness, he speculated, seemed to rest in the area of pass defense.

Capping off the meeting was a reel of the Snyder-Sweetwater game film, along with comments by Coach Bostick.

Leaders Hold Own In Poll

DALLAS (AP) - The teams on top stayed put, but there were some changes down the line in this week's Dallas News poll of Texas schoolboy football.

Last week's leaders held on to their positions in the top four classes. They are Wichita Falls, leading Class AAAA; Brownwood, Class AAA; Jacksboro, Class AA, and Albany, Class A - with Brownwood the only unanimous choice for first place.

Corpus Christi Carroll, which beat defending state champion Corpus Christi Miller 3-0 last week, jumped to eighth place in AAAA while Miller fell to a tie for tenth with Amarillo. Tascosa, Class AAA noted most of the changes with Cleburne, Corsicana, Bay City and Breckenridge breaking into the last four places in the top 10.

Haskell took tenth spot in Class AA with Gruver taking the same position in Class A.

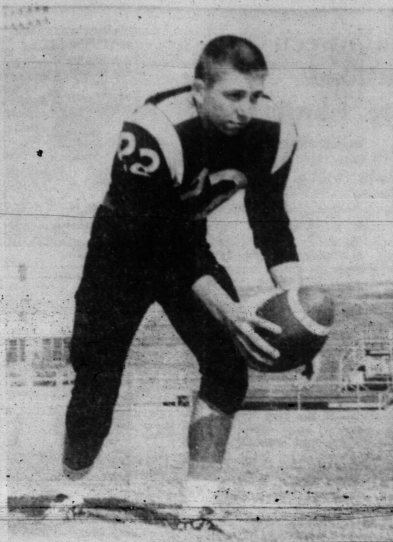

The top 10 by classes:

Class AAAA: Wichita Falls, San Angelo, Corpus Christi Braz. Fort Worth Paschal, San Antonio Jefferson, Belton, Cleburne, Corsicana, Bay City, Breckenridge.

Class AAA: Brownwood, Carlsbad, Dumas, San Benito, Gilmer, Belton, Cleburne, Corsicana, Bay City, Breckenridge.

Class AA: Jacksboro, Denver City, Quanah, Sweeny, Priddy, Hillsboro, Terrell, Floydada, Brady, Haskell.

Class A: Albany, Wink, Hull, Daisetta, Forney, Slatton, Crowell, New London, Rio Hondo, Anahuac, Gruver.

MARCUM Spurring The Tiger Effort

QB Tim Marcum Welcome Addition

Tim Marcum took over the bulk of the Snyder Tiger quarterbacking duties in the Breckenridge game, and made quite a showing for himself in not only that contest, but in the three as participated in since that time.

The 5-10, 155-pound senior sat out the early part of the season involuntarily after sustaining a broken wrist in a pre-season practice scrimmage. He is playing his first year of varsity ball, and he was ineligible for "A" team duty the past season due to his having moved here from another city. He held the starting "B" team quarterback slot throughout the 1960 season, and was instrumental in leading that eleven to a 6-3 won - lost mark.

The 17-year old Marcum is the son of Mr. and Mrs. D. V. Marcum of 2306 Porty - second Street. Mr. Marcum was a star footballer during his playing days, also, and has had considerable coaching experience since that time. He is

But, Dearie, You're Much Better Than I

By The Associated Press

Southern Methodist coaches are describing Texas as "a team that should be No. 1 in the nation" while Coach Darrell Royal of Texas is saying his Longhorns beat Rice 34-7 only because "Lady Luck carried in signals to the huddle."

Which means the psychological warfare will be hot and heavy this week as the teams prepare for a crucial Saturday schedule in Southwest Conference football.

The conference leader, Texas, has the national No. 3 rating firmly in hand and leads the country in offense, but Royal is resuming his preber of doom role.

Monday Royal said Southern Methodist has a tougher line than the Longhorns. The Mustangs hope so, of course, because they play Texas at Dallas Saturday.

Second place Arkansas will be at full strength when it takes on third place Texas A&M this week. Coach Frank Broyles said, "We're glad of that because he is concerned with stopping the Aggies' three good fullbacks, particularly Don Roy Cafferly, the leading ground gainer in last week's 23-0 victory over Baylor."

Texas A&M Coach Jim Myers found his squad in good physical condition, too.

Rice, recovering from the Texas walloping, found it would be better physically competing with Texas Tech at Lubbock Saturday than it was against the Longhorns.

Tech's Red Rabinow was damped by a light mist Monday as they began working to meet the Rice challenge. The regulars sim-

Quarterbacks Have Their Day In Sun

DALLAS (AP) - Quarterbacks figured prominently in last week's Southwest Conference games by overshadowing the deeds of the linemen, statemen and backs.

Jerry Rhone of Southern Methodist and John Edgson of Texas A&M shared the spotlight with Mike Chatten of Texas and Arkansas' Billy Moore and George McKinney.

Rhone, who sparked SMU's last-quarter rally that beat Texas Tech 8-7, led in total offense. He completed 14 passes for 61 yards, including a touchdown, and led the SMU ball-carriers with 62 yards in 13 carries.

Cotten topped the quarterbacks in rushing, gaining 85 yards, and he completed six passes for 30 yards, one of them for a touchdown. Erickson hit on six passes, one of which produced a score.

Johnny Lovelace, Texas Tech quarterback, excelled although his team still suffered defeat. He completed on eight passes for 91 yards.

Moore had a total offense of 113 yards and scored a touchdown. He was teamed with McKinney, who pushed for a score during his brief game appearance.

Collidge Hunt of Texas Tech was the top ground-gainer for the week as he hit a new season high with 117 yards. He moved high to third place in rushing in the conference.

Jerry Cook of Texas held onto first place in rushing by getting 63 yards against Rice. He has rolled up 411 yards on 84 carries.

Bobby Ply of Baylor took over the passing lead while Texas Christian's Sonny Gibbs was inactive. He has completed 31 passes of 71 attempts for 371 yards. Gibbs is second with 29 completions for 461 yards.

Garry Thomas of Texas Tech regained the pass receiving leadership and teammate David Parks moved up to second. Witucki has caught 13 throws for 166 yards.

Bob Moses of Texas has caught the most touchdowns - four.

Lance Alworth of Arkansas leads in punt returns with an average of 11.3 yards on 13 runs and is second to James Saxton of Texas in kickoff returns. Saxton leads with an average of 24.2 yards on 23.6.

Butch Blume of Rice is the leading pass-stopper. He has intercepted four.

Rotan Assured Playoff Berth

By The Associated Press

Class A schoolboy football already has two state playoff representatives and 10 more are due to be determined this week.

Rotan and Crowe will have clinched playoff spots and with this week's roundup there will be 20 district titles to be decided next week - the last week of the regular season.

There are 10 undisputed district leaders. They are:

Seargreaves, District 5; Wink, District 7; Mason, District 9; Midlothian, District 12; Honey Grove, District 13; San Augustine, District 19; Hall-Daisetta, District 25; Hitchcock, District 28; Bandera, District 29; Woodstock, District 31.

Eleven teams are undefeated and untied. They are Gruver, Kress, Wink, Sonora, Albany, Forney, Brownboro, Gaston, Hull-Daisetta, Rio Hondo and Tarkington.

Albany, the defending state champion, can clinch its district crown this week if it beats Brownwood Early.

Also the following teams can set up district championships: Kress by beating Hale Center, District 9; Idaho by beating Ralls, District 4; Albany by beating Early, District 10; Forney by beating Farmersville, or vice versa; District 14; Hawkins-Overton, either way a winner will be named; District 16; Brownboro by beating Malakoff, District 17; Alto-Groveson, both with 4-0 records; District 20; Shiner by defeating Smithville, District 24; Waller by beating Seely, District 27; and Rip Hondo meets Port Isabel for the title in two-team District 32.

Necktie Party Held In Honor Of McElreath

SAN ANTONIO (AP) - Trinity University football coach W. A. McElreath was honored and burned in effigy in two separate incidents Monday on the Trinity campus.

Monday morning a dummy stuffed with straw and labeled "Coach" was found hanging from the eaves of Trinity University's student union building.

Monday night a figure was stuffed in a trash can below the girls' dormitory and set ablaze. Students said about 300 boys took part in this incident.

Both incidents apparently were aimed at McElreath. His Tigers have won one game this season and lost their last four.

Trinity students had been promised a school holiday if the team defeated Arlington State Saturday. But they lost 19-14 after holding a 14-0 halftime lead.

Arlington St. Tops Among Independents

By The Associated Press

Arlington State has taken over the lead in Texas independent college football.

The Rebels took Trinity 19-14 last week while Texas Lutheran, which had been tied with Arlington State for the lead, lost to Eastern New Mexico 17-13.

Arlington State plays another independent, Abilene Christian College, this week.

Headings of the Texas Independent colleges:

Team	W	L	T	Pts.	Opp.
Arlington State	5	2	0	74	132
Texas Lutheran	4	3	0	31	18
McLennan	3	4	0	56	12
Weslaco	3	1	1	42	36
Trinity	3	3	0	49	81
Abilene Christian	2	3	0	26	20
Amrita	1	4	0	26	46
Central Christi	1	4	0	14	73

This week's schedule:

Monday: Abilene Christian vs. Arlington State at Arlington (night); McLennan vs. Trinity State at Stephenville (night); Trinity vs. New Mexico at San Antonio; Texas Lutheran vs. Corpus Christi at Seguin.

Grid Slate For Week

A look-see at this week's group of local and area grid contests of interest takes the following shape:

Thursday

Lamesa at Lamar 9th (5-2), 8 p.m.; Lamesa at Lamar 7th (2-1), 5 p.m.; Travis 9th (6-1) at Big Spring Runnels, 6:30 p.m.; Travis 8th (5-1) at Runnels, 5 p.m.; Travis 7th at Colorado City, 5:30 p.m.

Friday

Snyder Tigers (3-5) at Colorado City Wolves (3-4), 7:30 p.m.; Lake View (5-3) at Lamesa (6-1), 7:30 p.m.; Arlington Heights at Sweetwater (4-1); Odessa Ector at Andrews (5-2); Seminole at Kermit (6-1-1); Brownwood at Breckenridge (4-3); Midland at Big Spring (6-1); Amarillo at Borger (7-1); Hermleigh (4-3-1) at Roby; Divide at Ira (6-2); Pettit at Galt (7-1), 7:30 p.m.; (homecoming); Hobbs (0-7) at Highland.

Saturday

Snyder "B" (4-3) at Lamesa "B", 7:30 p.m.; Levelland (3-4) at Phillips.

Top Powers Facing Tough Assignments

By MIKE RATHET

Associated Press Sports Writer

Michigan State and Mississippi, the nation's top two college football powers, tackle tough tests Saturday against upset-minded opponents.

The Spartans, ranked first Monday for the third week in succession, place their 3-0 record on

Motorists Warned Of Strange Noise

DECATUR, Ala. (AP) - After Interstate 65 was opened through north Alabama last year, the highway was dotted with cars pulled up on the shoulder, drivers peering under the hoods.

Service stations along the route were busy with motorists seeking a mechanical checkup.

But that noise drivers feared was motor trouble was merely their tires singing. The singing is caused by tiny ridges in the concrete to help make the highway skid-resistant.

Hog Worries Are Subject Of Study

LAFAYETTE, Ind. (AP) - Do hogs, like humans, worry themselves into having stomach ulcers?

Purdue University has been given \$45,000 to find out.

The National Institute of Health granted the money for research by Dr. G. D. Goetsch and Dr. T. M. Curtin of the Purdue Veterinary School. It is hoped the project also may result in something to help prevent or treat ulcers in humans.

Dr. Goetsch said he believes increasing swine ulcers are caused by some sort of stress, but he is baffled about what could worry a hog. Maybe their pens are too small, he said.

Del Rice of the Los Angeles Angels formerly played professional basketball with the Rochester Royals of the old National Basketball League. He was a with them five seasons.

Halloween Customs Are Changed

By HAL BOYLE
NEW YORK (AP) — Whatever happened to the old-fashioned Halloween?

This is the night bats fly, witches cackle weirdly as they soar through the sky on jet-fast broomsticks and skeletons dance in their bones in the streets, pursued by red devils with rubber pitchforks.

Your doorbell may ring many times. If you open it you are likely to see a group of small-costumed monsters, each holding up a container.

"Trick or treat!" they yell in chorus.

"Treat, if you please," you answer, and if you hand them a dime each or some pieces of candy the mollified monsters go on to the next door, usually followed at an impressive distance by a cautious parent.

But what happens if you reply, "Probably nothing. The tiny monsters look uncertainly at each other, then go away. They are so used to getting treats they don't know any tricks to play on a householder to force him into granting their demands."

I don't know when this "trick or treat" ultimatum got started, but a generation ago it wasn't so popular in many parts of the country.

Halloween wasn't an evening of harmless fun but the most dreaded night of the year to grownups. Children were generally more obedient to their elders in those days, but one night of the '30s they threw off the halts and roamed like wild things.

The kids then didn't seek treats from adults. On Halloween they wanted to play tricks. They were one-night rebels out to ridicule and humiliate the grownups. They were in full revolt against authority.

In the farm areas robust teenagers took a particular joy in pushing over outhouses. In the cities they spilled garbage pails on front porches. They soaped store windows, cars, home windows. They painted or chalked defiant messages on the steps or sidewalks of "the old cranks" who seemed to dwell in every neighborhood.

The old-fashioned Halloween was a nuisance and an annoyance to most adults, a time of vexation and sties of expense, as some of the pranks were costly if not downright dangerous.

Halloween now—like the Fourth of July—has been gentled into a safer and more harmless holiday. The little demons prefer to be bribed rather than play tricks.

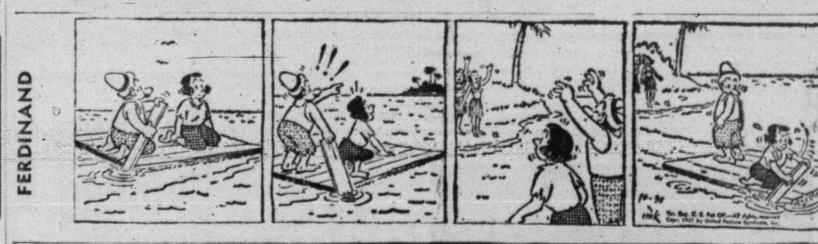

There are those who feel this is because grownups over the years have wisely learned to channel the excess of juvenile spirits into less harmful forms of fun. This might be giving grownups credit for more wisdom than they deserved.

Possibly a better explanation: Why should children rebel any longer on Halloween—since the little demons already have the adult world under their thumb the rest of the year anyway?

Noted Attorney In Critical Condition

HOLLYWOOD (AP) — Famous Hollywood attorney Jerry Giesler is listed in critical condition after taking a turn for the worst at Mt. Sinai Hospital.

Giesler, 74, is being treated for a recurring heart condition. He was hospitalized Oct. 14.

Pittsburgh Also A Pioneer In Educational Television

BY INEZ ROBB
PITTSBURGH—This city is not only a lamp unto the feet of other American communities intent on survival through urban renewal, it also sheds pioneer light on educational television, a subject of increasing interest throughout the nation.

Station WQED, the country's first community-supported educational television station, began telecasting in Pittsburgh on April 1, 1964. Everyone concerned was hopeful, if not optimistic, about its success. Seven and a half years later, WQED is not only a healthy and going concern, but the anchor of the National Educational Television Network.

That network includes 57 educational stations. It is headed by John F. White, who had the faith and the fortitude to take the job of general manager of WQED when it started telecasting in 1964.

The Pittsburgh station now broadcasts on two channels, UHF 16 and VHF 13. It operates on a small budget raised by popular subscription, by foundation and industrial grants and by selling its services to school districts. And it produces, and exchanges with other educational stations, films for which it can command extraordinary talent in the educational field.

WQED's programs are aimed at anyone from three to 108. It is as helpful to adults as it is to juvenile education. Its extensive language classes, for instance, are beamed both to the schools and to the public. Adults who want to learn a foreign language can purchase schoolbooks and go right along

with the kids in the classroom. Many do.

One of the most interesting services offered by WQED is summer sessions for the school child who has flunked one or two courses in grade or high school. The boy or girl who has failed must register with the station in the subject or subjects he needs. He must follow the course on the home screen, do homework and regularly mail his assignments to WQED.

The station, in turn, grades every paper and returns it to the student. At the end of the summer session, the child, if he has made

Gulf Plant Strike Ends

PORT ARTHUR (AP) — Withdrawal of Machinist Union pickets permitted workers to start returning to the giant Gulf Oil Corp. refinery with a rush Monday.

Officials said they expected the plant to reach full production again by Wednesday. There was a threat it might be shut down again, however.

Picketing by the machinists in a dispute over job security kept 4,500 members of the Oil Workers Union off the job. The machinists walked out 10 days ago.

L. Foster said for the machinists they were withdrawn "for a couple of days because we do not want the Port Arthur area and the Gulf employees to suffer loss of earnings and income without giving the public the true facts and the company another opportunity to review its position."

up his work and received a passing grade, is promoted along with the rest of his class and goes into the next grade.

Pittsburgh schools, children and parents have found this an efficient system and as painless as any summer sessions can be for kids. But if WQED has remedial reading at the second-year level, it also offers such courses as Creative Writing for adults.

Pittsburgh, a city of 600,000—with a "metropolitan area" embracing 2,400,000 persons—is fortunate in the quantity and quality of educational talent on which WQED can call. It can depend upon faculty aid from the University of Pittsburgh, Carnegie Tech and Duquesne University, as well as that from a number of small but excellent colleges.

But any community of its size in this country almost certain to have a similar pool of talent if it surveys its educational resources.

The station offers a bonus that makes me envious of Pittsburghers—it runs all the movie classics, old and new. It can get its hands on and runs them from beginning to end without a single commercial to mar or disrupt the story. I have given up trying to watch any movie classic on a n.Y. New York station because 10 minutes of commercials for every 10 minutes of movie is too high a price to pay.

Pittsburgh pioneered with WQED and the station has indeed "quod erat demonstrandum" that the public likes and will support educational television.

Sugar Boom Touched Off In Florida

By THEODORE A. EDIGER
MIAMI, Fla. (AP)—One of the swiftest economic developments of south Florida is a sugar boom touched off when Fidel Castro's revolutionary antics cut Cuba out of the U. S. sugar market.

American sugar men, and many former bigtime growers in Cuba's one-crop economy, are building refineries and planting sugar cane in vast Everglades areas, long for centuries produced little but sawgrass and snakes.

Their \$100-million sugar expansion program hopes to recoup losses which Cubans and Americans suffered in the Castro expropriation of Cuba's sugar industry.

Eleven mills are either in operation, under construction, or in the planning stage. Production, only 100,000 tons in 1959, is expected to be more than 300,000 tons in 1962, and 500,000 annually within a few years.

Land prices in the new "sugar bowl" have jumped. An acre that brought \$250 two years ago may be worth \$800 now. Owners of choice land near Lake Okechobee are getting as much as \$900 an acre.

U. S. Sugar Corp. has under construction a \$45-million plant near Belle Glade. F. S. Sugar has operated a mill at Clewiston for many years.

Talisman Sugar Corp., a \$10-million Cuban refugee venture, plans to bring a mill from Louisiana for erection on a 10,000-acre site south of Belle Glade.

Sugar Cane Growers Cooperative of Florida has just broken ground near Belle Glade for a \$15.5-million plant.

Cuban sugarmen Manuel Area and Luis de Armas are heading a project to establish a \$5.5-million grinding factory for the Glades County Sugar Growers Cooperation Association.

South Florida Sugar Corp., headed by P. J. Serralle of Miami, hopes to bring a complete mill from Puerto Rico to a site near Belle Glade.

Other sugar firms are building or expanding facilities.

TWA Pilots Set Strike

CHICAGO (AP)—A strike of some 1,500 Trans World Airlines pilots has been called for 11:50 p.m. local time Thursday.

C. N. Sayen, president of the Air Line Pilots Association, said Monday night the National Mediation Board has been notified of the strike deadline. Appointment of a presidential fact finding board would prevent a walkout for 60 days.

TWA has approximately 1,500 pilots and the air line serves 53 cities in 23 states, plus 18 cities in Europe, Asia and Africa.

Sayen said most of the issues blocking the way to a new contract involve working hours and conditions on jet flights.

Swedish Jets On Patrol

LEOPOLDVILLE, the Congo (AP)—The U. N. command said today five Swedish jets are patrolling the Katanga frontier to "deter" Katanga planes from attacking forces of the central Congo government.

The announcement did not make clear, however, whether U. N. forces would take any action against central government troops which the Katanga government claims have invaded the secessionist province and are razing villages and murdering women and children.

Premier Cyrille Adoula announced a virtual declaration of war against Katanga Monday. The premier said the Leopoldville government had launched a "police action" to liquidate Katanga's secession.

Beaumont Doctor, Wife Die In Fire

BEAUMONT, Tex. (AP)—A Beaumont physician and his wife died late Monday night when fire swept through their two-story brick home.

The bodies of Dr. L. H. Ledbetter, 74, and his wife, Neva, were found on the second floor. Dr. Ledbetter had been an invalid following a stroke a year ago.

A nurse, Mrs. George Hayes, escaped by leaping from a second story window. The fire apparently started near a heating unit.

Russians Hint Blasts To End

LONDON (AP)—Moscow Radio said a convoy of 10 transport ships and ice breakers was forming today in the Kara Sea to leave arctic waters via the Straits of Novaya Zemlya—the island site of the Soviet Union's recent series of nuclear weapon tests. The broadcast seemed to hint that the series either had ended or expected with the 30-megaton blast recorded Monday, or was about to end.

Khrushchev Gets Ghost Off Back

By JAMES MARLOW Associated Press News Analyst WASHINGTON (AP)—At the very moment he needed the utmost freedom and support at home in dealing with the West on Berlin, Premier Khrushchev has stifled his critics and gotten the full support of the Russian Communist party.

Adlai Should Go, Declares Van Fleet

TAMPA, Fla. (AP)—The Tampa Tribune quotes Gen. James A. Van Fleet as saying Adlai E. Stevenson, ambassador to the United Nations, should have been fired because of the Cuban invasion which fizzled.

Van Fleet said also that Berlin and Laos are lost and that there is only a 50-50 chance of keeping South Viet Nam out of Communist control, the Tribune said in today's edition.

Van Fleet, former commander of the 8th Army in Korea, was to report to Ft. Bragg, N.C., today. He was called out of retirement to supervise the training of Army units in guerrilla warfare. The Tribune said Van Fleet departed from his post in a talk on Florida's water resources before the Natural Resources and Waterways Committee in nearby Lakeland Monday night.

The newspaper quoted Van Fleet as saying, "I would not like to read tomorrow that which I say tonight."

He was quoted as saying Berlin was lost when "they made the agreement at the end of World War II."

The Tribune account added: He said Viet Nam has a strong national pride, "but a white face has no place in that country."

Van Fleet said Stevenson "should have been fired when he said he would not support the armed action by this country against (Fidel) Castro during the ill-fated Cuban invasion."

The general said this country sponsored the invasion and gave full Navy escort and air cover to and from training bases that the United States established. After Stevenson took his stand, Van Fleet said, the United States refused to go through with plans to give direct support to the landing force.

Union Revolt Faces Test

CINCINNATI, Ohio (AP)—A major test of the strength of the Cincinnati Teamsters Union revolt will be made today in a National Labor-Relations Board election to determine the union preferences of 1,800 former members.

The 1,800 were among 4,000 Cincinnati Teamsters who voted last August to quit the international union because of the policies of its president, James H. Hoffa.

The election will give them an opportunity to vote for remaining in the Milk and Ice Cream Drivers and Dairy Employees Independent Union or for returning to Local 98 of the Teamsters Union.

All 2,200 members of Local 98 joined in the revolt led by their president, James T. Luken. Today's vote is only for union members employed by the Greater Cincinnati Milk Dealers Association in 44 plants here and at Hamilton, Ohio; and Newport and Covington, Ky., just across the Ohio River.

George Meany, president of the AFL-CIO, has assured Luken the local will receive an AFL-CIO charter if its members vote to leave the Teamsters.

Bus Burning Case Called

ANNISTON, Ala. (AP)—The trial of eight men charged in the mob burning of a bus—the first outburst of violence against "Freedom Riders" in Alabama—begins in federal court today.

The eight face charges of interfering with interstate transportation, a crime punishable by a 20-year prison term and a \$10,000 fine on conviction. They also are charged with conspiracy.

The indictments grew out of two waves of violence May 14 that first blocked the departure of a regularly scheduled Greyhound bus, then destroyed it.

Among the 17 persons on the bus were nine Freedom Riders—five Negroes and four white persons—on a tour of the South testing bus station segregation.

The defendants, all of the Anniston area, are Kenneth L. Adams, 41; Frank B. Johnson, 42; Jerome Byron Couch, 25; Jerry Willingham, 23; William Chappell, 40; Jerry Ronald Eason, 23; Frank Tolbert, 54; and Roger Dale Cough, 19.

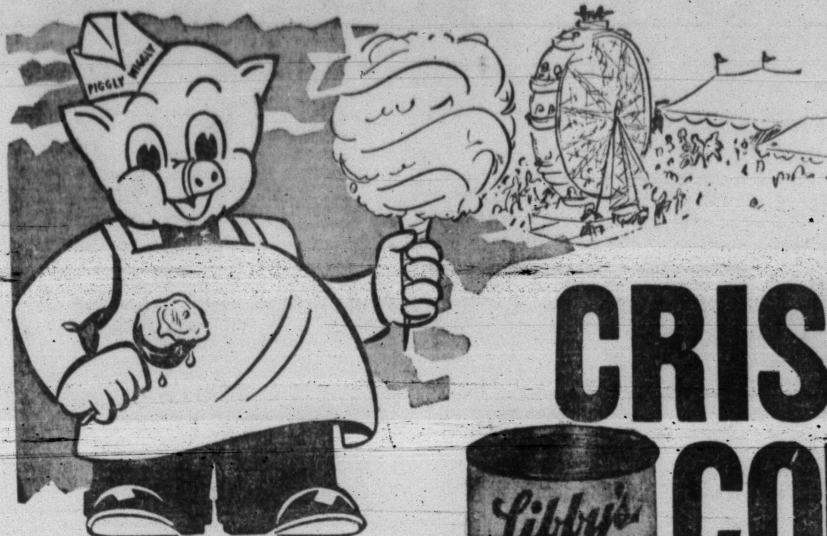

Fire Alarm Delayed On Four-Party Line

KANSAS CITY, Mo. (AP)—John Gentry ran to the telephone when fire broke out in his home Monday.

Someone was talking on the four-party line.

"I told them, 'Please give me the line My house is on fire!'" Gentry said, "but a man said 'Oh, yeah, we know, My house is on fire, too.'"

Gentry's wife finally ran to a neighbor's house to call firemen. Battalion Chief Robert Howard said he couldn't tell how much of the \$2,200 damage was due to the lost time, but the delay "certainly was a factor."

Schools Of Miami Face Big Problem

EDITOR'S NOTE—The arrival in Miami of thousands of Cubans has created a big problem for the schools. The schools are having to accept many more students than they were designed for. One of the greatest challenges is in the schools.

By LOUIE ECHTELLE
MIAMI, Fla. (AP)—After a frustrating first-grade reading period, the young teacher told her pupils to sit down and put their papers in their desks. A few did. Most didn't. Of the eight girls of 85 Cuban refugees only three speak English. As the pupils stood there, smiling uncertainly, the teacher tried again. "Sit down, please. Put your papers away, like this." Finally, as even her demonstration failed, she asked a bilingual student to tell the others what she had said. A burst of Spanish from Juanita brought quick action and neat desks.

This teacher was trying to deal with one of the most difficult situations in Miami's widespread effort to teach English to more than 80,000 Cubans who have fled from Fidel Castro's regime and settled here. Perhaps as many as 18,000 are studying English, including 9,500 children in the public schools, 8,000 in the parochial schools and 2,000 in adult classes run by the public school system. The Riverside Elementary School has 1,300 pupils and 90 percent of them are Cubans. The classes have been divided into those in which all the students speak English and those in which few speak English. "Until this year, we mixed the English and non-English speaking students in the same classes and I think the Cuban youngsters learned faster because children are natural mimics," said Edith Chase, Riverside's principal. Ed Hurst, an assistant superintendent of schools, explained, "We must run an American school system. Since a teacher teaches to the level of the ma-

PRESIDENT OPENS MOUNTAIN ROAD—President Kennedy prepares to cut the ribbon officially opening Highway 103 through the Oklahoma mountains of Big Cedar, Okla. Kerr of Oklahoma, left, and Gov. J. Howard Edmondson, right. (AP Wirephoto)

Nixon Advises Rockefeller, Barry To Vie In Primaries

By ROBERT T. GRAY
SYRACUSE, N.Y. (AP)—Fight it out in the primaries, Richard M. Nixon advises Gov. Nelson A. Rockefeller and Sen. Barry Goldwater, R-Ariz.

The former vice president and losing candidate for the presidency last year said Monday night Rockefeller and Goldwater should "clash in primaries" to determine who would be the best candidate to challenge President Kennedy in 1964. He addressed an overflow crowd of 8,000—more than 1,500 diners at \$10 a plate and a gallery of 4,500—in the Syracuse War Memorial Auditorium. Nixon returned to New York City after the dinner aboard Rockefeller's private plane, on which he and the governor had traveled to Syracuse. Nixon advised, both at the dinner and a press conference that preceded it, to take sides between Rockefeller and Goldwater as the

Republican presidential nominee in 1964. He said his mission was to "unite the Republican party." "I don't divide it." In his formal talk the former vice president said he was "mightily proud that the Republican party has a man of such capabilities, stature and veteran appeal as the governor of New York." Rockefeller has said he will make no announcements regarding the 1964 presidential race until after the 1962 state election in New York, when he will be up for re-election. In other comments, Nixon said, "If the United Nations admitted Red China, a massive public opinion could develop in the United States against the world body and lead to American withdrawal."

Illness, Its Prevention Are Growing More Costly Today

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—Illness and its prevention grows more costly. Individuals don't have to be told this. And business is finding it more expensive, too. Both are well aware of the rise in medical and hospital costs in recent years. More firms are offering employee medical services. This growth is more extensive and more expensive. Companies also are increasingly involved in meeting all or part of their employees' health insurance costs. Medical fees and hospital care grow more expensive because costs themselves have gone up but also because care is increasingly being widened and improved. Hospitals have higher operating costs and pay employees more. They also offer services today with equipment unknown a few years back. New drugs, new testing and nursing techniques, new equipment—all push up costs. Adding to the total outlay is that Americans, with increased incomes, are seeking more medical care all the time. Each year a larger share of the spending is for prevention rather than cure. This all adds up to more than \$15 billion a year that Americans now pay for medical services. Many individuals have had to go into debt to meet costs in major emergencies. But many have had help from various sources little used by earlier generations. One is from health insurance payments. Insurance companies are estimated to have paid out \$2 billion in benefits in 1960. A second aid to individuals faced with illness or accidents is the growing role of "corporate medical departments." These offer services all the way from preventative shots for influenza and other epidemics and patching up of on-job injuries to regular and complete medical examinations—the latter usually for the top echelon of executives or key employees. The National Industrial Conference Board finds the cost of such services up more than 100 percent in the last five years for 98 companies queried. The firms now pay about \$17.5 million a year to provide these services. Gov. Price Daniel, citing the value of a civil defense planning in Hurricane Carla, said Texas cities must bring their civil defense plans up to date. Urban renewal came under attack in a City Hall session of the Texas Association of Mayors, Councilmen and Commissioners. Mayor Earl Cabell of Dallas said "Dallas' noses just don't fit that swell trough," and Austin Mayor Lester Palmer noted that "Austin is still a virtuous city."

Cities Urged To Support Themselves

SAN ANTONIO (AP)—Texas cities want to support themselves, the outgoing president of the Texas Municipal League told 2,000 city officials Monday. Dr. James McCroskey, mayor of Kingsville, warned the city officials to beware of special interest groups and federal aid programs. He told the annual league conference Texas towns face two threats. Special interest groups which he said are "nibbling away at home rule" and "practical limitations inhibiting the cities from financing their own projects."

Gov. Price Daniel, citing the value of a civil defense planning in Hurricane Carla, said Texas cities must bring their civil defense plans up to date. Urban renewal came under attack in a City Hall session of the Texas Association of Mayors, Councilmen and Commissioners. Mayor Earl Cabell of Dallas said "Dallas' noses just don't fit that swell trough," and Austin Mayor Lester Palmer noted that "Austin is still a virtuous city."

Wool Demand In Increase

WASHINGTON (AP)—The Agriculture Department reports that domestic use of wool this year was about 7 per cent less than last year and 3 per cent less than the annual average for the years 1953 to 1958. The reduction was said to effect a decline in imports of woolen products and less mill use of carpet wool. The department said prices received by growers for shorn wool in the early months of the current marketing season were below those of a year earlier, but have been higher since August. It said prices can be expected to be slightly higher than a year ago during the remainder of the 1961 marketing season.

Mother Thinks Her Son Photogenic

HOLLYWOOD (AP)—Nathaniel Patrick Crosby, age 2 days, is considered quite photogenic—at least by his mother. "He has the cutest dimple on his chin," said Kathy Crosby about the newest son of singer Bing Crosby, born Sunday night. Proud papa Bing was handing out cigars in London, where he is making a movie with Bob Hope.

From me to you A DAILY VIEW

by Rev. R. Charles Spivey
"And David said to Nathan, 'As the Lord lives, the man who has done this deserves to die.' Nathan said to David, 'You are the man.'"
II Samuel 12:5-7 (Read verses 1-22)
Looked at through the eyes of God, even a good man deserves to die for the sin he has committed against his fellow men. But one who has done what David had done—how severe the judgement ought to be! Even men can see that David did a terrible thing. But God did not utterly destroy David; but rather out of great love for David, he chastised him. God often chastises men for their waywardness. "Mark! this time they will learn," says God. And sure enough, sometimes men return in repentance to God saying, "Your chastisement was in a nif for my good. Thanks be to Thee, O Lord, for your mercy." But often when men are chastised they will only shake an angry fist at God and say, "You didn't do what I wanted."
After all our childishness, though God is still the Father, slow to anger, abounding "in steadfast love" chastising His wayward children.
